Mom and Dad let us be more careful about driving our cars too fast in the school zone. She lived in the nurses' dormitory for two years and states that everyone was very co-operative. "There is room for other Negroes in the school of nursing who are interested in the professional program", she went on to add. Mrs. Dixon insists, "Anyone entering nursing must be willing to work and study hard; must have a love for nursing, and with God's help and guidance one will succeed."

Mrs. Dixon plans to further her education in nursing with an eyesight on Psychology.

# NEW TAX LAW HERE

I am sure, that by now you know that your property has a new assessed value. It is the result of a city-wide equalization program conducted by the City and School District. This was done, according to officials, in order that your property may be equal and uniform with the valuations on similar properties throughout the City of Lubbock, and from this they assure you that the sole aim of this program is to make sure that your property will not bear more---or less---than its fair share of taxes.

Some of you have probably asked "What about my new assessment?" Again they say the ratio of assessed value to market value is not being changed.

The City Council and School Board have decided to continue to use a ratio of 2/3 (66 2/3%) of market value for assessment purposes. The point is that in the past, property has been assessed on the basis of 2/3 of 1949 market values. Assessments will now be based on 2/3 of market values as of January 1, 1965.

Market Value is the 1965 value of your property. It is the price that might be agreed on between a willing buyer and a willing seller.

For example, if your property is worth \$8,000 ---your assessed value would be 2/3 of \$8,000 which is about \$5,334.00.

Another question you may ask is: "How do I figure my taxes?"

The School District's 1964 tax rate was \$1.65 per \$100 of assessed value. It is hoped that the new equalization program will allow this rate to be reduced to approximately \$1.55 per \$100 of assessed value. The City's 1964 tax rate was \$1.50 per \$100 of assessed value. It is hoped that this program will allow the City's rate to be reduced to approximately \$1.25 per \$100 of assessed value.

The 1965 Board of Equalization requests that if you feel the assessed value on your property is more than 2/3 of fair market value, please do the following:

1. Check with the Tax Department at City Hall for an explanation of how your tax value was determined. Also, see if there are any possible errors made as to the type of construction and age of your property.
2. In the event you are not satisfied with the explanation of the Tax Department and desire to file a request for a hearing before the Board of Equalization, please register with the Tax Department.
3. When you appear before the Board, be prepared to give only figures and facts as to why you feel your tax value is more than 2/3 of fair market value.
4. The Board of Equalization will give full consideration to all facts concerning the fair market value of your property as of January 1, 1965.

### Wichita Leopards Begin Workouts - Season to Open Next Week

The Leopards opened their season in shorts for the first week on August 23, headed by Ervin Garnett and assisted by Gentry Hornsby, Ivory Moore, Silas Goree, and Tommy Williams.

We counted the loss of eleven seniors last season and three more since the Spring practice session.

Coach Garnett said, "There will be nine sophomores on this year's squad and experience will be lacking."

He went on to add that the Leopards were second to Kirkpatrick of Fort Worth for the East

The teachers and students will soon rang down the curtains on a too short summer, and approach the blackboard jungle with the new mathematics, other subject matters and activities and the changing times claiming their attentions come Tuesday, September 7, at 8:30 a.m..

Three new teachers will join us as replacements and they are Mrs. Darlene Burnett replacing Mrs. Willie Cornelius, who joined her husband in taking pastorage in Dallas; Billie Joe Young is replacing Lester Mays at the shop instructor duties while Mays will study this

fall; and Alfred Bacon, replaces Mrs. Evelyn Polk who was transferred to one of our schools of another area, Travis School.

"Eastside is ready to open with its adequate staff of twenty-six," says principal C. Emerson Jackson. "As we open school again, we hope to not only re-dedicate ourselves as teachers-administrators but to also examine the positions entrusted to us, as well as our challenges and our influences and safe-guard of our youth for the demands of this era; as always, the major objective is the welfare of our community and youth," Jackson added.

### 'Teamwork' Theme For Booker T. Washington This Year

Recently I had the occasion to ask an eminent successful high school principal to comment on the key factor contributing to an effective high school program, his answer immediately was "Team-Work". I asked many questions about specific methods of operation but he always came back to team-work as the key to success of the school's program.

The more I reflect on his statement the more shocked I become that so simple a procedure could be so vitally im-

portant. Team-work at every level, and between all levels, the administrative staff, the faculty, the parents, the students, and community.

Certainly the current experience of Cooper and Gordon in Gemini-Five visualizes beautifully and profoundly how team-work attacks even unforeseen problems. Team-work at every point and between all points making attainable goals almost unbelievable.

Actually there is no rational answer as to why people willingly committed to a common cause should not function as a team. Presumably, we get carried away with the "what" and "who" rather than the "why" of all things. Consequently our successes are few and our failures, if we are realistic, are many.

It is for this reason says Principal E.E. Cleaver, "that we have adopted "Team-Work" as our theme for '65-'66. We hope to project the idea into every activity of our school work with staff, students, parents and community facing the common adjective of providing the best possible training and service to students and community.

# NEW TAX LAW HERE

I am sure, that by now you know that your property has a new assessed value. It is the result of a city-wide equalization program conducted by the City and School District. This was done, according to officials, in order that your property may be equal and uniform with the valuations on similar properties throughout the City of Lubbock, and from this they assure you that the sole aim of this program is to make sure that your property will not bear more---or less---than its fair share of taxes.

Some of you have probably asked "What about my new assessment?" Again they say the ratio of assessed value to market value is not being changed.

The City Council and School Board have decided to continue to use a ratio of 2/3 (66 2/3%) of market value for assessment purposes. The point is that in the past, property has been assessed on the basis of 2/3 of 1949 market values. Assessments will now be based on 2/3 of market values as of January 1, 1965.

Market Value is the 1965 value of your property. It is the price that might be agreed on between a willing buyer and a willing seller.

For example, if your property is worth \$8,000 ---your assessed value would be 2/3 of \$8,000 which is about \$5,334.00.

Another question you may ask is: "How do I figure my taxes?"

The School District's 1964 tax rate was \$1.65 per \$100 of assessed value. It is hoped that the new equalization program will allow this rate to be reduced to approximately \$1.55 per \$100 of assessed value. The City's 1964 tax rate was \$1.50 per \$100 of assessed value. It is hoped that this program will allow the City's rate to be reduced to approximately \$1.25 per \$100 of assessed value.

The 1965 Board of Equalization requests that if you feel the assessed value on your property is more than 2/3 of fair market value, please do the following:

1. Check with the Tax Department at City Hall for an explanation of how your tax value was determined. Also, see if there are any possible errors made as to the type of construction and age of your property.
2. In the event you are not satisfied with the explanation of the Tax Department and desire to file a request for a hearing before the Board of Equalization, please register with the Tax Department.
3. When you appear before the Board, be prepared to give only figures and facts as to why you feel your tax value is more than 2/3 of fair market value.
4. The Board of Equalization will give full consideration to all facts concerning the fair market value of your property as of January 1, 1965.

### 'Around the Hub City'

Mom and Dad let us be more careful about driving our cars too fast in the school zone. She lived in the nurses' dormitory for two years and states that everyone was very co-operative. "There is room for other Negroes in the school of nursing who are interested in the professional program", she went on to add. Mrs. Dixon insists, "Anyone entering nursing must be willing to work and study hard; must have a love for nursing, and with God's help and guidance one will succeed."

Mrs. Dixon plans to further her education in nursing with an eyesight on Psychology.

Mr. and Mrs. Claude Young of Gulfport, Miss. parents of Mrs. Dixon, and her two sons from college, Howard A. and Eddie M. Dixon, were present at the exercises. ## Wichita Leopards Begin Workouts - Season to Open Next Week

The Leopards opened their season in shorts for the first week on August 23, headed by Ervin Garnett and assisted by Gentry Hornsby, Ivory Moore, Silas Goree, and Tommy Williams.

We counted the loss of eleven seniors last season and three more since the Spring practice session.

Coach Garnett said, "There will be nine sophomores on this year's squad and experience will be lacking."

He went on to add that the Leopards were second to Kirkpatrick of Fort Worth for the East

The teachers and students will soon rang down the curtains on a too short summer, and approach the blackboard jungle with the new mathematics, other subject matters and activities and the changing times claiming their attentions come Tuesday, September 7, at 8:30 a.m..

Three new teachers will join us as replacements and they are: Mrs. Darlene Burnett, replacing Mrs. Willie Cornelius, who joined her husband in taking pastorphism in Dallas; Billie Joe Young is replacing Lester Mays at the shop instructor duties while M a y s will study this

fall; and Alfred Bacon, replaces Mrs. Evelyn Polk who was transferred to one of our schools of another area, Travis School.

"Eastside is ready to open with its adequate staff of twenty-six," says principal C. Emerson Jackson. "As we open school again, we hope to not only rededicate ourselves as teachers-administrators but to also examine the positions entrusted to us, as well as our challenges and our influences and safe-guard of o u r youth for the demands of this era; as always, the major objective is the welfare o f our community and youth," Jackson added.

## 'Teamwork' Theme For Booker T. Washington This Year

Recently I had the occasion to ask an eminent successful high school principal to comment on the key factor contributing to an effective high school program, his answer immediately was "Team-Work". I asked many questions about specific methods of operation but he always came back to team-work as the key to success of the school's program.

The more I reflect on his statement the more shocked I become that so simple a procedure could be so vitally im-

portant. Team-work at every level, and between all levels, the administrative staff, the faculty, the parents, the students, and community.

Certainly the current experience of Cooper and Gordon in Gemini-Five visualizes beautifully and profoundly how team-work attacks even unfore seen problems. Team-work at every point and between all points making attainable goals almost unbelievable.

Actually there is no rational answer as to why people willingly committed to a common cause should not function as a team. Presumably, we get carried away with the "what" and "who" rather than the "why" of all things. Consequently our successes are few and our failures, if we are realistic, are many.

It is for this reason says Principal E.E. Cleaver, "that we have adopted "Team-Work" as our theme for '65-'66. We hope to project the idea into every activity of our school work with staff, students, parents and community facing the common adjective of providing the best possible training and service to students and community.

Zone Championship of District 1-AAA last year.

There are a lot of juniors on the team and the outlook is excellent for the next couple of years. We feel we have a group of seniors with good athletic ability.

Our backfield is the bright spot this year. We will have speed and depth, too. Most of them are Juniors and Seniors and the situation looks good.

The Leopards will start out with Douglass of Lawton, Carver of Amarillo, and Balckshear of Odessa, after a 5-4 record last season.

A young high school male student went to the Lubbock Police Department and reported that a 19 year-old boy met him on the sidewalk in the 2600 block of Teak Avenue last Sunday and for no apparent reason stepped off the walk when they met and pulled out a .22 pistol and shot one time at him and said he was tired of him messing around with him. He shot and fled in a 1955 red Cheverolet by himself. Sam Mitchell, 2702 Teak, was a witness to the incident and saw the boy with the gun and heard the shot. It was later learned that the two boys got into an argument while playing basketball. One of them was hit in the neck with a bottle.
