## RAY CHARLES WILL BE HERE

He will appear in concert with The Neal Ford and Rick Mensik Show, along with Gary Larimore and Delaware the Dog. Tickets are available at Al's Music Machine, B & B Records, and Flipside Records.

This program is being sponsored by the National Foundation - March of Dimes.

## NAACP TEENAGE CONTESTANTS ARE NEEDED HERE

The Miss Black Teenage Lubbock Pageant is on tap again this year. Young ladies, between 14 and 17 years of age, are invited to take part in this event.

For further information call: Joan Ervin, 763-0853, Kate R. Noble, 765-9750, Almada Bunton, 762-8003, or Mary McGraw, 747-4038.

A meeting will be held Thursday evening, May 24, 1979, at Mae Simmons Community Center at 7:30 p.m.

This project is sponsored by the Lubbock Branch of the National Association for the Advancement of Colored People (NAACP).

George Scott, Jr. is acting president.

## RABIES CLINIC SET HERE

The Annual Rabies Clinic will be held on Saturday, May 19, from 8:30 a.m. to 3:30 p.m. in the Merchants Building at the South Plains Fairground.

Most important to the success of the clinic is that the tags and rabies shots will cost only \$5.00. On April 3, the City Council voted to lower the license fees and tags from \$2.00 to \$1.00 for the clinic only. The vets have lowered their costs for that day, so the pet owner can save \$3.00 over what it would cost him to have his animals vaccinated by a private vet.

This will be a cash only program, because they will be unable to handle checks.

## "EDITORIAL OF THE WEEK"

### BLACK EMPOWERMENT

By Dr. Nathaniel Wright, Jr.  
Human Rights Activist

#### THE "SEARS SUIT" A SPRINGBOARD TO NEW THINKING FOR EQUITY (Part III of a 3-part series)

*Publisher's Note: Part I of this series, on why black Americans and others should support Sears, provided the background of a corporate leader in the field of human rights with massive contributions regarding the educational empowerment of black Americans... and, which also has an affirmative action record far exceeding that of most corporations. We then raised the question as to why would a company with such a positive record tackle the entire U.S. government on the predicaments surrounding our government's stated commitment concerning affirmative action in the employment area.*

*For our readers' information, this publication agrees totally with Dr. Wright's perspectives on the need by black Americans for our deserved equitable treatment. This equitable treatment—or true affirmative action—would help make up, or compensate, for our centuries of being denied in the past, rather than a mere "equal opportunity" to compete with those who—under present policies—would continue to hold an almost permanent advantage over us.*

*Our Sources of Wisdom*  
The concepts of great thinkers throughout history like Aristotle, Plato and Socrates, along with the Word of God as revealed through inspired men, always have been sources of direction, strength and wisdom. All of us, including the greatest minds of today, rely daily on the great truths been developed by—and revealed "unto"—others of ages past. For a brief moment, let's review a bit of that "wisdom" or principles of old as they may apply helpfully to us—and our present black leadership—when assessing the value of the "Sears Suit." We shall begin with the established principle of equity since it is affirmative (corrective) action of equity (parity) which the Sears suit

seeks to bring about rather than equal opportunity which never will make up for the past injustices to us as black Americans.

#### The Principle of Equity

—Plato  
It was the Greek philosopher Plato who, in his classic treatise, *The Republic*, Book VIII, disparages the goal of equality for the underprivileged or the oppressed by speaking of, and dismissing, on its surface, an "equality of a sort, distributed to equal and unequal alike."

It is perhaps one of the greatest tragedies of the whole civil rights movement here in America that we get into a kind of "rut," with the best of intentions, and waste our time and defeat our real purposes by being grooved, or programmed, by many of those in power into staying in that rut. Sears, undoubtedly, is an exception. By equity (or equitable opportunity), which the Sears suit seeks to bring about, for black Americans and others, is meant the taking of some portion of undue advantage from one who holds it, and the giving of a portion of that undue advantage to the one from whom it was denied or has been handicapped in the first place by the very denial of that opportunity. Hence, in many sports traditionally, those involved share what is called "the benefit of a handicap." Let's now examine what another philosopher tells us on the same subject.

#### Principles of Equity

—Aristotle  
Yes, "equitable opportunity" is what, in part, the Sears suit seeks. Equity, as we note in the passage quoted below from another Greek philosopher, Aristotle, seeks equality as an end result. Equality, as Plato noted or

## HOMER WILLIAMS REINSTATED; RECEIVES BACK PAY

Montgomery, Al. — A United States District Judge has ordered the Monroe County Board of Education to pay Homer B. Williams \$83,350 back pay for illegally terminating his contract in 1969. Williams was principal of Vrenenburg Junior High School at the time schools desegregated. His school was closed and he was offered the assistant principalship at another school. He protested this demotion and was dismissed as a result. A suit was filed in the United States Southern District Court in 1970 by Attorney Solomon S. Seay, Jr., who represented Williams and the NEA. The United States Southern District Court originally ruled against the teacher, and the case was appealed to the United States Fifth Circuit Court of Appeals. The Fifth Circuit Court reversed and remanded the case to the Southern District Court. Thereafter, the Southern District Court again ruled against Williams' claim

for reinstatement and back pay, and the case was appealed again to the Fifth Circuit Court, which reversed and remanded the case a second time.

Subsequent to the second remand, the Southern District Court ordered Williams reinstated as an assistant principal, but upon a motion for re-hearing, the court awarded payment of back pay, along with reinstatement to the first available principalship that came open in Monroe County. **Principal receives \$83,350 back pay.**

Joe L. Reed, the Associate Executive Secretary of the Alabama Education Association, said this was the largest award of back pay for any one individual in the history of the state. He said, "This particular case has lingered in court longer than any other we have had, with the exception of one case which is still pending in state court. While this award is certainly good and is an effort to make

the teacher whole again, nothing can ever erase the pain, suffering and embarrassment this unfortunate and illegal termination caused this man and his family."

Reed noted, "Williams has lost a lot and nothing can ever fully correct it; but, this victory is not only a victory for him, it is a victory for education and justice. It gives further reasons why we must keep up a strong teacher defense program...because without the money and the determination to stay in court and fight, this victory would not have been possible."

"The United Teaching Profession must be commended for its commitment to teacher rights, the lawyer must be commended for his legal ingenuity and the teacher deserves commendation for his patience and stamina," said Reed.

"Local Branch Presents Proclamation to Mayor West at Noon today"

## NAACP COMMEMORATES 25TH ANNIVERSARY OF BROWN CASE

The National Association for the Advancement of Colored People, in commemoration of the 25th Anniversary of the 1954 Supreme Court decision *Brown v. Board of Education* is launching a national one-day campaign to demonstrate its commitment and dedication to the landmark case. The May 17th observance (today) will take place in the form of visitations by one or more representatives from each of the over

1700 NAACP branches across the nation to City Halls and State Houses. The representatives will present scroll-type proclamations to city and state officials. The proclamations to be presented simultaneously across the country at noon, will outline the legal and educational interests and concerns of the NAACP.

In Lubbock, George Scott, Jr., acting president of the local branch, and other

officers and members presented Mayor Dirk West a copy of this proclamation.

"Brown v. Board of Education is the single most important decision in the history of the NAACP," said Benjamin L. Hooks, Executive Director of the NAACP. "Not only did it reverse the second class status of Blacks sanctioned by *Plessy v. Ferguson* (1896) it also laid the foundation for a plethora of vitally important court decisions.

Hooks stressed, that despite the *Brown* decision, 25 years later, uncertainty over the nation's commitment to equal rights and desegregation still prevails. Hooks added, "the NAACP will not sit back and watch its hard-earned victory be forgotten or destroyed." The May 17th commemoration is one of our many attempts to keep the nation aware of this fundamental decision that opened the doors to equal opportunities for all American citizens.

## Schools and the Beautification Committee of the Lubbock Chamber of Commerce, will announce its seven winners at 10 a.m., May 21, at the Chamber of Commerce Office on 14th Street and Avenue K.

There will be one High School, two Junior High School and four Elementary Schools awarded with traveling plaques. These seven winners were chosen from 52 schools that participated in the program.

## NAACP NAMES WOODS TO HEAD SEARCH COMMITTEE

The Executive Committee of the NAACP Lubbock Branch appointed George Woods to head a search committee to recommend nominees for President. One of the nominees will be elected by the Executive Committee to fill the unexpired term of Rev. Roy C. Jones who resigned as President last April. First Vice President George Scott, Jr.

## WHAT'S GOING ON

Various high schools in Lubbock will make their first step toward graduation by participating in the Commencement Sermon in the Municipal Coliseum. There will be hundreds of parents, relatives, friends and well-

wishers present at this colorful occasion. You had better mark this date down and be there!

Speaking of the second step, graduates of Dunbar High School will receive their diplomas on Friday evening, May 25, in the Municipal Auditorium at 8 p.m. On Saturday evening, May 26, graduates of Estacado High School will receive theirs.

How about those pictures of these young people in this weeks issue? They look great don't they. It would have been nice to have had all of the graduates, but due to circumstances beyond our control, we were unable to do so.

How many of you have heard of a young lady by the name of Essie Kelley of Spur, Texas? Well, if you haven't heard of her, then perhaps you will in the future. She's an outstanding trackster for Prairie View A & M University. Just recently at the Southwestern Athletic Conference in Houston, Texas, this young lady won the 1,500 meters, the 800 meters and anchored Prairie View's winning 1,600 meter relay squad. A recent graduate of

Dunbar High School, James Baldwin -- who is a student at Texas Southern University at Houston -- was outstanding in the 400 hurdles (51:55) in the same meet. West Texas should be proud of these fine young people.

Several residents of Lubbock attended the funeral services Tuesday afternoon in Floydada, Texas for Mr. Austin Garrett, Sr., who died here last Friday evening. The Garrett family was former residents of Lubbock and loved by all. His wife was a school teacher here for several years. They moved to Floydada in 1968.

The Baptist Training Union (BTU) of New Hope Baptist Church will have their "Queen" contest rally Sunday, May 20, at 6 p.m. Your presence will be very much appreciated. Come and bring a friend. Mrs. Roberta Allen is director; Rev. A. L. Dunn is pastor.

Mr. C. H. (Rat) Childress is spending his vacation this week visiting his sister in Anson, Texas, and a brother in Wink, Texas.

Mrs. Olga Hemanes spent Mother's Day with her mother who is 91 years of age in San Antonio, Texas.

Mr. Willie Blocker spent the Mother's Day weekend with his mother and family in Waco, Texas. He reported a wonderful visit.

Mrs. Lillie Cork spent Mother's Day with her mother, her daughter and family in Houston, Texas.

last week.

Bobby Wilson, Shirley Medlock, the children, and dog -- all of Dallas, Texas -- spent Mother's Day here with their parents, the McCormick family.

Mary Ann Jones and granddaughter of Dallas, Texas visited her parents here, Mr. and Mrs. Harrison (Bull) Davis.

Clarissa Jay is home from the hospital. She is doing nicely after having surgery last Thursday.

Artry Lee and Calvin Howard, both residents of California, are visiting their parents here, Mr. and Mrs. John Howard.

Mrs. Vera Mitchell was at the bedside of her brother in Oklahoma City, Oklahoma last week. She has returned home, and reports he's doing nicely at this report.

The ladies of the New Hope Baptist Church says "Thanks" to the Brotherhood for a lovely Mother's Day dinner last Sunday afternoon. The menu included turkey and dressing, ham, green beans, toss salad, bread and dessert. The same compliment is expected to be returned on Father's Day for the ladies.

The Dempsey Taylor family was happy to have their three sons home with the rest of the family on Mother's Day.

# LUBBOCKITES VISITS IN HOCKLEY, TEXAS

Last week, Mrs. Wilson Baldwin and daughter, Tonya, accompanied by Mrs. Rafie Moore and family, traveled to Hockley, Texas to spend Mother's Day with Mrs. Gertrude Jackson, the mother of Mrs. Moore.

On their way there, they stopped for the State Track Meet in Austin where Mrs. Baldwin's son, Michael Baldwin, and other members of the Dunbar Track Team participated. They also visited Prairie View A & M University and while stopping in Houston where they visited the Rev. and Mrs. G. T. Curry. They also did some shopping. "We would like to thank Mrs. Moore's son, Johnny, and daughter, Georgia Ann, for making our stay a pleasant one."

Washington, D.C. — Leading a chorus of dissenting voices concerning the Carter Administration's budget cutting, Vernon E. Jordan, Jr. president of the National Urban League called 1979 a "Year of Crisis."

Jordan was especially critical of budget cuts in ameliorative programs for the poor, the elderly and minorities. Jordan was joined in his protest by Senator Edward Kennedy of Massachusetts who may challenge President Carter in the primaries preceding the next national elections. He was also supported by women's rights groups and by Operation PUSH's national director, the Rev. Jesse Jackson.

Senator Kennedy termed many of the budget cuts "unwise, unnecessary and unfair." His ire was especially noticeable regarding cuts in the 1980 budget for the Law Enforcement Assistance Administration.

## GREATER SAINT LUKE BAPTIST CHURCH

A special presentation was given in honor of Mothers of our church last Sunday evening. This program was sponsored by the Junior Missionary Society. Also last Sunday morning after church services, our Mothers were served.

Members of the Eunice Circle will meet tonight, Thursday, in the home of Sister Clara Lenord, 1518 East 25th Street, at 7 p.m.

Members of the Racheal, Sarah, Dorcas,

Deborah, and Queen of Sheba Circles met in the homes of Sister Lizzie Adams, Sister Mattie Travenia, Sister Lucille Richard, Sister Mary Hill, and Sister Carrie Mims this week. All reported a wonderful meeting.

The Brotherhood Union meets at the church each Monday evening at 8 p.m.

Also meeting on Monday evenings is the Junior Mission at 8 p.m. Prayer meeting is held each Wednesday evening at seven. The church and family that prays together stays together. The only hope we have is in Jesus.

Let us pray for an visit our sick and shut in members. Those on the sick list this week include Sister Gertrude Johnson, a patient at University Hospital; Sister Lillian Duty, a patient at St. Mary's Hospital; and Sister Marilyn Cook, a patient at St. Mary's Hospital. Also, Sister Clara Scott, a patient at Methodist Hospital; and Sister Rosanna Harris who is recuperating nicely at home.

## TWENTIETH AND BIRCH CHURCH OF CHRIST

It is always our pleasure to have our friends and brethren stop by and worship with us. We are especially happy to have those who visit with us each Sunday. Among our guest recently were Brother & Sister Maurice Veazey, Juan Tesic, Edward and Mary Johnson, Sherry Geroge, and Gloria and Angela Davis.

Sisters Joy Johnrice Levels, Patricia Johnson, and Brother Earnest Peoples expressed their desire for the prayers of the church. They seek new strength to continue keeping their hands in the Master's hand. Let us be sure to remember them in prayer.

Our sick and shut in list include Sister Altheria Collins who was admitted to Methodist Hospital last week for surgery. She is recovering satisfactorily. Sister Janice Carie Porter was released from the Health Sciences Center Hospital. Our shut ins of the past few weeks are doing fine.

We rejoice with the Levels upon the arrival of their 8 lb., 7 oz, 22 1/2 inches son, born May 9, at 11:47 p.m. The baby's name is Earnest Dwayne Levels. Mother and son are doing just fine. Congratulations, Levels.

Sister Walters has come up with a great idea. She believes there is enough talent among the sisters here at Twentieth & Birch that should enable us to put out a little cook book, not for commercial purposes, but for ourselves. Here is what each sister is asked to do to help: Write out your favorite recipe and instructions, give it to sisters Archie Brown or Grace Johnson. These will be printed up, and made into book form, and distributed among ourselves. Let us all cooperate.

A Gospel meeting will begin June 3, at the congregation in Level-land, Texas. There will be fellowship that Sunday.

Our Gospel meeting at our congregation will be held July 8, through 13. Brother S.T.W. Gibbs, III, will be the guest speaker. There will be a fellowship on the 8th. Food for thought: "If it ain't learnin', you ain't livin'."

## THE MINISTRY OF RECONCILIATION

2 CORINTHIANS 5:14 - 6:2

2 Corinthians 5:14-21

14 For the love of Christ controls us, because we are convinced that one has died for all therefore all have died.

15 And he died for all, that those who live might live no longer for themselves, but for him who for their sake died and was raised.

16 From now on, therefore, we regard no one from a human point of view; even though we once regarded Christ form a human point of view, we regard him thus no longer.

17 Therefore, if any one is in Christ, he is a new creation; the old has passed away, behold, the new has come.

18 All this is from God, who through Christ reconciled us to himself and gave us the ministry of reconciliation;

19 that is, God was in Christ reconciling the world to himself, not counting their trespasses against them, and entrusting to us the message of reconciliation.

20 So we are ambassadors for Christ, God making his appeal through us. We beseech you on behalf of Christ, be reconciled to God.

21 For our sake he made him to be sin who knew

no sin, so that in him we might become the righteousness of God.

2 Corinthians 6:1-2

1 Working together with him, then, we entreat you not to accept the grace of God in vain.

2 For he says, "At the acceptable time I have listened to you, and helped you on the day of salvation." Behold now is the acceptable time; behold now is the day of salvation.

# BLACK EMPOWERMENT

Continued from Page 1

Corinthians 12:4-31, to see that same principle at play, even though we have "different gifts" and different roles to play.

As an outgrowth of the Roman law, the English system of law (on which our courts are based) had courts of law and courts of equity. In a case of equity, there is that clear recognition that the injured or aggrieved party has suffered from a denial that has served for a time to benefit the defending party.

Because of the many side damages in such cases of equity, when a case in equity is won, the court traditionally may award the aggrieved or damaged party three times or more the calculated amount of immediate damages.

### Equality & Equity Not Same

Traditional civil rights goals—which have been nobly intentioned, but which have resulted in part in our presently and progressively perilous racial plight—have sought to bring about a condition of "equal opportunity" for black and white Americans. Since black Americans have been handicapped and denied for centuries, justice would dictate that we are due a compensatory remedy in the form of equity. The Sears suit, rightly, for us as black Americans and the nation as a whole, seeks equity and not equality. On this point alone, we feel all black Americans should be saying "Praise the Lord for Sears!"

The goals of equity (parity) and of equality are not the same. Yet, tragically, many black Americans—led by benevolent white liberal thought in the past—have adopted equality of opportunity as their immediate goal, when this only confuses and subverts the issue. One who has been held back in any race or contest can never catch up with "equal treatment." We as black—or Third World people—here and in Africa must not confuse social equality with economic and other forms of equity which are our just due.

### Blacks Need Equitable Consideration

Black Americans should, doubtless by now, realize, as the Sears suit contends, that they are entitled fully to equitable and restitutive damages as would be the case in "equitable opportunity" rather than in "equal opportunity." It would have been better for all Americans, if the name of the Equal Employment Opportunity Commission (EEOC) had been justly been named in the first place the "Equitable Employment Opportunity Commission."

With "equal opportunity" as a goal, black Americans theoretically can never hope to "catch up" so as to be enabled to shoulder their share of the load because of the built-in lead or advantage already accrued to, and sus-

tained by, white Americans. We are, as a result, even now left in the hands of white largesse or "generosity" by this confusion. It is up to us as black Americans to see that this "equal opportunity" ploy is changed to that of equity.

Now, let's look at the Sears suit from two different points of view to see further why our black leadership should support Sears' needed and courageous action for the good of all in America.

### Sears Suit & The Armed Forces

The "Sears Suit" alleges that the policies and actions of the armed forces of the United States represent a major case in point to prove that the federal government has been a major factor in keeping black Americans out of the labor force in equitable terms. The Sears suit quotes General Lewis B. Hershey, who administered the selective service system from 1940 through the 1960's, as saying, "For the past twenty years the selective service system has been what we call a channeled. We have channeled people into training for professions or employment, or whose occupations were said to be very necessary for national life.

The deferment is the carrot we have used to get individuals into occupations and professions that are said by those in charge of government to be the necessary ones."

What General Hershey omitted from his words was the term "white" or "almost entirely white" with reference to the type of individuals which the federal government sought to shunt into selected areas of national employment. Sears in his suit does make clear, nonetheless, its inherited perception of "individuals to be served" in America, had been largely white in its orientation. It is this fact, as encouraged and entrenched by massive government funding and long developed procedures, which accounts principally for our nation's currently unbalanced workforce working against the interests primarily of blacks and women.

During the post-Sputnik era when the U.S. government was fearful of the Russians' advantage in space technology, monumental efforts were made in the nation's schools, colleges and in the armed services to prepare for a larger number of Americans in scientific pursuits. Yet, there are proportionately fewer black scientists today than there were a century ago.

One look at the ratio of blacks in engineering and other scientific pursuits today would cause one to wonder whether black scientists and inventors of the century past actually gave us such technological standbys as the overhead trolley, the "standard" "third rail" subway system, the traffic light, the refriger-

ated truck, the "peanut" technology and the circuit breaker, to name only a few... along with ice cream, potato chips and the sugar refining process which enabled naturally brown sugar to come out in its prevailing commercial form of white.

### Sears Suit Vs. Bakke & Weber

In contrast to the Bakke & Weber cases which serve to challenge the concept of equitable treatment for us as long-denied Americans, the Sears case is one which asks that they be protected from harassment so as to provide equitable treatment for underrepresented groups. While these underrepresented groups include women and veterans, Sears and other companies recognize that the predicaments for them are in no way comparable to those of black Americans. Priorities must be set in these areas to provide a special kind of make up for us as long-denied Americans.

Black Americans... and other substantial friends of justice... should doubtless become co-complainants, joining in this historic case which places the government in the dock as being the perpetrator and primary shape-giver to our currently discriminatory workforce.

### White Americans Pay For Inequities

Many white Americans do not realize that it is they who, in the main, pay heavily for the support of all Americans who are not enabled to be productive. 40 cents or more out of every tax dollar goes for non-productive "transfer payments" which are heavily black related. And, as long as black Americans are not enabled by affirmative or equitable treatment to become productive, they will remain a burden on—and threat to—White America.

Black Americans, understandably, are angered with many white Americans wanting to deny them temporarily-favored treatment for long-standing injustices of the past. Further, no reasonable black American can ask that a totally unqualified black be placed in a position for which they cannot be fully qualified over a short term of compensatory or make-up help. All that black Americans want is a sincere recognition that black Americans are an injured party and need no less consideration than we gave others under the Marshall Plan. From this point of view, the real friends

of liberal and other white Americans are those companies like Sears and those blacks protesting the laws, policies and actions of the federal government that have forced millions of black Americans to be on the public dole.

### A Final Note

President Carter has set a wonderful example for all companies and institutions to follow in terms of the num-

bers and types of significant and visible appointments of minorities he has made. Nonetheless, this has not changed the basic and inequitable policies which these new appointees inherited. President Carter could change the name of the Equal Employment Opportunity Commission, as an example, to that of the "Equitable Employment Opportunity Commission. When one major company internally took this equitable approach in its policy statement, every department manager and every employee instantly saw their goals as different. And, in 1974 that company far surpassed their original goals for several years hence.

President Carter also could merge the monitoring role of equitable business opportunities for black Americans (Executive Order 11625) within the same personnel framework as that which amasses information on employment (Executive Order 11246). Coupling these together in terms of intent and collecting data for monitoring by OMBE, or otherwise, would enable the black com-

munities all across America to begin having the economic base to become responsible and self-sustaining market places for the good of all in America.

President Carter could—and should—see to it that an accord is reached with Sears since their goals are the same. The President has had to realize that Sears, Roebuck and Company has taken the bold initiative to perhaps inaugurate a new day in affirmative action and equitable employment procedures which is generally to its credit. Copies\* of this extremely well-researched "Sears Suit" should be in every classroom and every household in America because it points as never before to where our failings have been... and to where we must go if we are to achieve true affirmative action.

Still the "Sears Suit" will meet its mark and go down in history as a turning point for equity (parity) and fairplay only as black Americans, and black leadership groups in particular, bring the necessary supportive pressure to bear. In this way, this "Sears Suit" can become an effective springboard for equitable opportunity for the good of all in America. This goal is within the framework of a new kind of responsible liberalism needed in America.

## PURSUIT OF EXCELLENCE

Continued from Page 4

stands as an example of an institution that has changed. From being an "admitted white man's club" in the early 1970s, with only 5,000 blacks, the National Guard instituted a program that has changed that institution, and today there are over 55,000 blacks in the Guard.

However, the young black men and women in the Guard are in the lower ranks, and must be encouraged to follow the "pursuit of excellence" into the senior non-commissioned and commissioned officer ranks. Restrictions today are those an individual puts on his or herself and not always the "system".

Because Guardsmen and women serve only part-time, the National Guard offers a unique opportunity for blacks to gain management and leadership skills, often in military occupations similar to their civilian jobs.

When doors are opened, the institutions cannot motivate young blacks to achieve, it's up to them, and it's up to us to encourage them to strive for the best.

We've got to encourage our young people to make "pursuit of excellence" our continuing goal.

## YWCA BUILDING FUND NEARS HALFWAY POINT IN DRIVE FOR GYM HERE

that the Family Division goal of \$35,000 would be reached within the next two weeks.

# TAKE 2 YEARS OF ARMY BEFORE COLLEGE.

If you think you could get more out of college two years from now, consider the benefits of the Army's new 2-year enlistment.

**A CHANCE TO LEARN.** Joining for 2 years does limit your choice of Army specialties. But there are still many challenging choices available that will test your skill, strength and stamina. Your duty assignment could take you overseas, or anywhere in the continental United States. You'll learn discipline, responsibility and leadership. Qualities that can make you a better person.

**A CHANCE TO SAVE.** Starting pay is now up to \$419.40 a month (before deductions). Plus, the Veterans' Educational Assistance Program (VEAP, for short) will help you accumulate as much as \$7,400 for college. (Ask your Army Recruiter for details.)

**A CHANCE TO SERVE.** Our country has always counted on the soldier. It still does. And you'll be a prouder person for having served your 2 years in the Army. You'll gain experience. Maturity. And a clearer idea of what you want.

For more information, call your local Army Representative. The address and phone number are in the Yellow Pages under "Recruiting." Or call the number below toll-free.

Call your Army Representative at 800-431-1976.

## YWCA...

Continued from Page 7 according to Co-Chairman Clem Boverie and J.C. Chambers, are 125 contributions totaling \$199,305.

Campaign Chairman Yandell announced that members of the Business

and Industry Division would be reporting this afternoon...and that various sections of the Individuals and Organizations Division were kicking off their phase of the YW campaign this week. Counting known gifts already received by

these two divisions, but, not officially reported as yet, this brings the overall campaign total to approximately one-half of the minimum goal of \$451,455 needed to build

the new all-purpose gym. The minimum goal does not include desired additional lockers but will provide space urgently needed to expand programs and services.

"We are extremely pleased at the large number of firms and families which did not contribute to the YWCA swimming pool back in 1973 but are

giving generously to this campaign for the YW's new gymnasium," stated Yandell. "As of now, we are half-way home but we still have a lot of prospects to see. Our success, as always, depends on the generosity of the people and I feel confident they will respond generously and enthusiastically for this urgently-needed facility which will bring manifold benefits to thousands of women and their families for years to come." Yandell indicated he had asked workers in all divisions to complete their contacts and turn in their reports by the end of this month.

# OUR GIANTS SPEAK

### THE ROLE OF THE BLACK WOMAN DURING SLAVERY AND RECONSTRUCTION

The overarching role of black women in the periods of enslavement and reconstruction has received only little of the attention which it

so richly merits. Black women have played a major historical role in the life of Black America and of our nation as a whole. In this

series, we show the strength, determination, creativity and courage of the "ordinary" black woman—our unsung heroines, from whence, many believe, has sprung our backbone.

The following section gives us some insight into the zealous approach that was taken to the education of black Americans in the south during Reconstruction.

### BLACK WOMEN AND THE TEACHING OF

Stephen Wright

Billy Wayne Washington

Cheryl Anita Wilson

### BLACK AMERICANS DURING RECONSTRUCTION, 1862

TEACHER: Are you glad you are free?  
STUDENTS: Yes, indeed.  
TEACHER: Who gave you your freedom?  
STUDENTS: GOD.

TEACHER: Through whom?  
STUDENTS: Abraham Lincoln.

TEACHER: Is Mr. Lincoln dead?

STUDENTS: Yes.  
TEACHER: Who is your president?

STUDENTS: Johnson.  
TEACHER: Are you glad you have schools and teachers?

STUDENTS: Yes.

TEACHER: Do you want these friends who are here today to go North and send you more teachers?

STUDENTS: Yes, indeed.  
TEACHER: Now children, you don't think white people are any better than you because they have straight hair and white faces?

STUDENTS: No, sir.  
TEACHER: No, they are no better, but they are different, they possess great power, they formed this great government, they control this vast country.... Now what makes them different from you?

STUDENTS: MONEY.  
(Unanimous shout)

TEACHER: Yes, but what enabled them to obtain it?

How did they get money?  
STUDENTS: Got it off us, stole it off we all!

### Key Questions:

1. What are three main issues raised in this article?  
2. What does this article suggest about our life situation today?

3. How many words did you look up in the dictionary? (If we do not use a dictionary daily, and for every word whose full meanings we may not know, we cannot grow individually and assure the best use of our resources for group freedom and a better America.)

(Here the black poetess speaks of the cosmically overarching finality of death. We shall all come to sense something of its spirit, as time goes by.)

(Black poets, who may wish exposure to our reading public, may send copies of their poetry—for editing and with permission to use—in groups of 12 poems or more to C. May Associates, Box 157, Selkirk, N. Y. 12158.

Poetry selected should normally appear within 12 to 20 weeks. Because of staff limitations, no copies are returned.)

## BLACK POETRY

### DEATH!

Dark and cold  
So lonely and deep,  
There you lay in  
A very sound sleep.  
Sounds not heard by  
One's fine ear, thoughts,  
Not one, how strange,  
And err.

Lagging in motion,  
Not one little stir,  
Blinded with not  
Even a blur.  
No fear, no joy,  
No hope, no hate.  
Just silence,  
Eternally, is yours  
To take.

—Faith M. Turner

How to MAKE WORKING for peanuts PAY OFF by George Washington CARVER.

George Washington Carver made more than 300 products from peanuts. By doing so he revolutionized the agriculture of the South. And he made working for peanuts pay off.

Today, folks who buy U.S. Savings Bonds know how to turn peanuts into cold, hard cash. When you buy Bonds through the Payroll Savings Plan, you're letting those hard-earned dollars you make work for you automatically.

So join over 9 1/2 million Americans who took a hint from a man who worked for peanuts. Buy United States Savings Bonds. A few peanuts now can shell out a lot of savings tomorrow.

TOWARD NEW HORIZONS

NEWS

The pioneers of science, art, and industry... those who found a way where others saw only a blank wall... have all had a sense of direction.

The seniors seem imbued with this same sense, and it makes us proud to take note of it. It is a mark of maturity and eagerness to reach for new goals.

With pride, we take this opportunity to say, "Well done, Seniors, and good luck, whatever your direction!"

the summit!

You've done it, Seniors! You've reached the top and we're proud of you. Much luck and good health is our wish for you at this time.
