How It Looks From Here

By RAY FREEDMAN

Springlake-Earth Wolverines do battle this Friday evening with Dimmitt in what may prove to be the turnaround point for the pack. The past several days, we have heard almost nothing but how the team has been doing so poorly, and that they probably won't get any better. We must go on record as feeling strongly that the team that has been fielded by the new coach Radford Taylor, is one that has more potential and heart than we have seen in many years. These athletes are working harder, are more dedicated, and have more pride than they are given credit for. If they were to end the season with a losing record in the books, they will still go down in our books as a big winner. We in the community need to get out and support these boys with everything we have in return for the effort they are giving to their chosen sport.

The first of several (we hope) Town Meetings was accomplished last Sunday and from first reports, it was a success. Although attendance was relatively small, those who were there, were able to air some of their views and some tentative solutions of the problems were suggested. Hope this will continue to grow to something that can be of benefit to the whole community.

Got many, many phone calls, but no letters on our recent article in support of the efforts (not necessarily the results) of the Board of Equalization. As no surprise, most of them were in complete disagreement with our views, but nonetheless, they were honest reactions. We wish more people would get more involved and perhaps air their views with Letters To The Editor for publication. The more communication, the better each and everyone of us will understand the complexities of our local government.

We now have a new mayor, like it or not, not by popular vote, but by edict of the City Council. Last week, the Council chose to appoint the Mayor Pro Tem, W.B. McMillan, to fill out the unexpired term of the former Mayor, E.C. Kelley. We feel rather strongly that any city is entitled to be served by a Mayor who has been chosen by the citizens of that city, not simply by one who has been appointed. That is what free election is all about. We deserve a good old fashioned election, with debates, door knocking, speeches and the whole ball game.

Not being particularly prone to delving deeply into politics, this is more than a little out of character for us, but we were honored and pleased to meet for the first time a young, energetic and enthusiastic aspirant to the seat of State Senator. Mel Phillips dropped into the office the other day and in less than thirty minutes, convinced us that there are still a few good, honest and dedicated men seeking political office. Mel impressed us with his integrity and was quick to admit that he nor no one else has all the answers, indeed he even feels that he nor no one else has all the questions, which is a switch. Mr. Phillips is eager to seek answers to our special problems here on the high plains and in doing so, feels confident that he can serve the entire state while in office. Some of Mel's views are strongly in step with most of the opinions expressed by so many Panhandle residents. He feels laws should be written so that they are easily understandable by the average citizen; unnecessary state expenditures should be eliminated, government interference in our daily lives should be reduced; Panhandle schools need many improvements; and the Panhandle needs a stronger voice in Austin. Don't really mean to be on the stump with a speech, but this man really did impress us.

Construction To Get Underway

Construction begins later this month on the city of Earth's latest housing project which is financed by a Farmers Home Administration loan of \$148,900.

The project will consist of 5 brick duplex houses; four one bedroom and six two bedroom units, to be erected in southwest Earth.

North Construction Company, Inc. of Hurst, Texas has been awarded the major contract on a low bid. Whitaker and Hall of Lubbock, Texas are the architects.

Loan funds for the project were made available under FmHA's rural rental housing program with Robert Hicks, local county supervisor, providing assistance.

This particular loan is designed to meet suitable rent property needs of teachers, plant workers, and others unable to find rent property in Earth, and who are presently having to commute from neighboring communities.

Town Meeting

A town meeting was held this past Sunday in the S-E school cafeteria. The purpose of the meeting was to discuss improvements the attending people would like to see in the surrounding community. The meeting was divided into three sections. 1. Defining improvements. 2. Finding out what would stop these improvements. 3. How to solve the problems, so the improvements can take place.

In the first section of the meeting some of the improvements discussed were as follows, housing, shopping at home, cleaning up the community, conserving natural resources, and making the people of the surrounding area aware of some of the towns needs, problems. The need to generate interest in local politics, enforcement of the now existing ordinances, stronger leadership for the community, more general interest in the community itself, a means to handle a crisis situation, recreational facilities for everyone, a program on drug education for the adults as well as young people, the need for a doctor in the area, the possible loss of the ambulance service, encouraging our youth to stay in the community after their education is finished, transportation for the elderly, more coordination and cooperation between the civic organizations, and trying to better inform the people generally.

The next town meeting is scheduled for this Sunday at 2:00 p.m. in the S-E cafeteria. Everyone is urged to attend and let their view, ideas, and opinions be known.

Bullocks Crew To Visit

Comptroller Bob Bullock alerted Texas businessmen Monday to begin looking for a friendly visit from a Comptroller's enforcement officer sometime during the next nine months.

The Comptroller said that the enforcement officers from his 40 field offices will fan out across the state with the goal of offering personal assistance to each and every Texas business.

A testing of the canvassing program in July showed that 19 percent of taxpayers contacted required assistance or needed permits, he said.

"The theme of this project is taxpayer assistance," Bullock said. "We have found that in many instances only personal contact can eliminate errors that eventually prove costly both to the taxpayer and the Comptroller's Office."

He said his employees, armed with smiles and packages of taxpayer information, will be knocking on doors with the hopes of:

- providing education to taxpayers;
- making sure every business is properly permitted;
- establishing personal lines of communication between taxpayers and the individual enforcement officer responsible for the area;
- updating Comptroller's Office records;
- making certain each taxpayer is filing returns and paying tax properly.

July's sample of 4,702 businesses showed that 97 were operating without needed permits, 766 had changed address or business name without notifying the Comptroller's Office and 37 were not paying tax properly, Bullock said.

"We hope to take care of every little problem on the spot, before it turns into a big problem," he said.

"Above all," Bullock added, "we want people to believe us when we say 'I'm from the Comptroller's Office and I'm here to help you.'"

Lousy Week For SLEW CREW

Varsity

The Varsity went against a good New Deal team Friday night and was defeated 55-0. The boys did not play as well as they have, but the effort was there and the execution was not sharp.

They broke down many times in their ability to adjust to this game. They had spurts on both offense and defense where they executed well but hampered themselves with missed assignments and penalties and turnovers.

The SLEW CREW plays Dimmitt, who is rated in the top 10 of 2A schools. The game will be super, and your support will mean a

great deal to each of our young people. Its time for everyone to help our SLEW CREW in their challenges.

7th Grade

Thursday afternoon, the Springlake-Earth 7th grade football team lost a 14-0 decision to New Deal.

They had several bright spots for the opening game and we're looking forward to their season.

8th Grade

The Springlake-Earth 8th grade team against New Deal started off by scoring first and controlling the game.

The defense gored 5 fumbles away from New Deal but late in the game lost 14 to 6.

There was fine promise shown by the 8th grade.

Jr. Varsity

The Junior Varsity had a good showing in a losing effort. They were defeated 22 to 0, but the fight was much more even than the score would indicate. This crew has continually improved and we see them winning in the future. They are an enthusiastic group.

Longhorns Stampede Texico

BY: JUDY LUST

In a hard fought game the Lazbuddie Longhorns won out over Texico last Friday night with a score of 7-0. Jr. Charleson Steinbock scored the only touchdown of the night on a 3 yard run, six minutes and fifty-nine seconds into the first quarter. Soph. Dennis Steinbock then kicked the extra point to make the score 7-0.

The Horns had 200 yards rushing and no

yards passing. Mike Windham had 91 yards rushing. Rayburn Wenner had 59 yards rushing and Charleson Steinbock had 51 yards rushing. The Horns offensive game was hampered by 3 fumbles and 75 yards worth of penalties.

Lazbuddie held Texico to 71 yards rushing and 21 yards passing. Coach Dewayne Sexton was pleased with the overall defensive playing and

with the offensive line blocking.

The Offensive Player of the Week was Mike Windham and the Defensive Player of the Week was Robert Stanley. The Strike Award went to Jimmy Standridge and Andy Rodgers.

Next week the Horns play Bovina at Lazbuddie at 8:00. Everyone is urged to come out and support the Longhorns.

School Night For Scouting

On September 15, some 108 elementary schools in 20 counties will open their doors for "School Night For Scouting." The South Plains Council, Boy Scouts of America, hope to make this the most effective means of offering the Scouting Program to all young men and adults who are interested in helping with the Cub Scout and Scout programs in their communities. This is a nation-wide plan, and this year's theme is "Wonderful World of Scouting" headed by Jim McKay of ABC Sports.

Bob Nash, Council "School Night for Scouting" chairman, explained the requirements and procedures for joining Scouting. "Boys who are in the third grade, or eight years old, can join Cub Scouts, a family-based program. Ten year old boys are part of the Cub Scout Packs, but are in a program designed especially for their age group, called Webelos. Boys eleven years old or in the sixth grade can come part of the outdoor emphasis,

character building program, the Scout Troop. Volunteers will be on hand at each school to counsel with boys and parents about the Scouting program, and what it has to offer." Most schools will open their doors at 7:30 p.m., September 15 but for more information, contact the Scout Service Center in Lubbock by calling 747-2631, or call the principal of your local elementary school.

Chairmen for the seven districts in the 20-county council include Dr. Frank Butterfield, Lubbock, Mackenzie Trail District; Ed Wester, Floydada, Comanche Trail District; Ken Aiken of Plainview, Haynes District, Mike Stevens, Lubbock, Longhorn District; Kay Dowdy, Lubbock, Arrowhead District; Tom Hiblun, Littlefield, George White District; and Charles Varner of Lamesa, Quanah Parker District.

DON'T STOP WITH THE ATTIC

WHILE THE ATTIC is your number one defense against wasted fuel dollars, don't forget other areas.

Whether the weather is warm or cold, following these useful tips will help you get the most for your insulation dollar.

- To insulate the attic yourself, simply unroll the insulation and cut it to fit between joists in the attic floor. Be sure that insulation completely covers the floor but doesn't block any air vents.
- To insulate floors over unheated crawl spaces, in-

stall insulation blankets, such as Fiberglas insulation from Owens-Corning, with the facing toward your home's warm interior spaces.

- To insulate exterior walls in room additions, use faced insulation, stapled in place with the vapor barrier toward the interior spaces.
- To insulate basement walls, install furring strips or studs against masonry walls.

Nail the bottom plate directly to the floor and the top plate to the joists above. Then install insulation between these framing members with the vapor barrier facing the living space.

Although rhubarb is eaten as a fruit (often with strawberries), it is actually a vegetable.

TV Season Analysis

Some television industry officials say they are being persecuted because people are demanding less television violence. Meanwhile the medical profession the Texas Congress of Parents and Teachers (PTA), and other groups are developing new programs to encourage positive viewing habits as well as eliminating unnecessary television violence.

In an effort to stop steadily increasing public opinion that is forcing them to get rid of unnecessary violence, some TV producers are trying to conjure up false images of censorship, the Texas Medical Association (TMA) says.

Several top television producers complain that public complaints have forced them to cut back violence and they fear restraints on other subjects will be next. Some producers want programming with as few restraints as possible, hoping that the "good taste of the public" will do away with bad ideas, several producers said in a recent issue of TV Guide.

TMA points out that programming with few restraints on violence has existed for years. And now the "good taste of the public" is calling for less violence. Decreasing this glut of unnecessary violence is not censorship. It is protecting the public from an environmental hazard that the U.S. Surgeon General, TMA and several researchers say can harm people.

The networks have responded to the pressure with promises of less violence. But only a close analysis will tell what the fall line-up will parade across the screen

for 13 weeks, the PTA says.

The Texas PTA has developed a variety of activities designed to give concerned parents a chance to do something about television viewing. Patents can select from activities ranging from an analysis of television's role in the home to a test to see what life would be like for one month with no television at all.

PTA officials felt these activities were necessary because some families use television too much as an electronic babysitter, a video tranquilizer, a replacement for meaningful family activities or even a hypnotist that encourages over-eating. For instance, many people snack almost unconsciously while watching television. They do not really notice the amount or quality of food they consume, but often it is too much of the wrong kinds.

For families who want to have healthier television viewing habits, the PTA has developed one workshop program that uses techniques such as selective viewing, explaining television shows to children, and using television as a springboard for family discussion about important issues.

In another activity, families can keep a diary of television viewing, compare it with others' levels and change viewing habits if they think the television is too dominant.

Many local PTA's just now are beginning to plan some of these programs designed by state headquarters. Local efforts also may be aimed at understanding and influencing local stations.

The heat pump

"THE ELECTRIC SAVINGS MACHINE"

Here's how heat pump

pumps

Think of it as a two-way electrical wonder, an amazing machine that cools your home or office in summer... then automatically reverses itself to heat in winter.
Think of it as a savings machine that costs less to operate than other electric heating/cooling systems now on the market. You know that all air — even frigid arctic air — contains heat. The heat pump just puts this simple principle to work. In winter, it squeezes heat from outside air and pumps it inside. In summer, it extracts unwanted heat from the inside air and pumps it outdoors.
Or consider something already in your home that accomplishes the same thing as a heat pump: your refrigerator. It removes heat from the interior of the box and expels it. Like a refrigerator, the heat pump's basic components are simple — electric motor, compressor, condenser, evaporator, and blower system. Unlike a refrigerator, the heat pump has a reversing valve that lets it change the direction warm air is pumped — inside in winter, outside in summer.

Registrations for the 1977 Punt, Pass & Kick, competition co-sponsored locally by Marion Williams Ford Inc. continue to roll in. The contest is opened to any youngster 8 through 13 years of age.

Any youngster meeting the age requirements who can punt, pass and kick a football -- or who'd like to try -- will want to compete. Participants compete only against others their own age, and there is no body contact.

No special equipment

is needed and participation does not impair a youngster's amateur standing. Each youngster will compete in three categories -- punting, passing and kicking. Judges will score one point for each foot the ball travels on the fly, minus one point, for each foot the ball lands to the right or left of the center tape.

Youngsters, accompanied by a parent or guardian, may register for PP&K at any participating Ford Dealer. There is no entrance fee.

Texas Natural Resources

To the astute environmentalist, Texas is a goldmine. In fact, the state is one of the most environmentally diverse in the nation. To protect this vast array of natural resources, private control coupled with an appreciation for public need is the logical answer, contends one authority.

"Texas has samples of nearly every major type of natural environment found in the continental United States. There are forests, plains, mountains, prairies, deserts and coastal area. Yet, few people are aware of these vast resources provided by nature," points out Pat D. Taylor, recreation and parks specialist with the Texas Agricultural Extension Service.

Many of nature's attractions in Texas are still in their pristine state due to the high degree of private ownership of land, notes the Texas A&M University System specialist. Less than 5 per cent of the state's lands are publicly owned, so millions of unspoiled acres remain because of the resource management practices of many farmers and ranchers.

Also, since the most fragile and spectacular resources are found in western areas, they are of readily accessible to most of the state's population which lives in the eastern half of Texas. Mountain peaks, ponderosa pines, Douglas firs, chihuahuas deserts and salt flats are some of the typical delights of western stretches of Texas, yet few people ever see them, notes Taylor.

"Of course, the pressures for access to Texas' natural beauty is increasing, so ways must

be sought to meet the needs of the recreating public as well as the special needs of the private landowners," contends Taylor.

The irresponsible recreationist who abuses trees, wildlife or livestock, or leaves litter behind becomes an unpleasant neighbor to the landowner. Subsequently, the landowner is forced to absorb the cost of these abuses and is therefore not encouraged to allow access to his land and its natural recreational offerings.

"Although much of Texas' original beauty is still intact because of private management practices, there is no guarantee that present acceptable land uses will remain so," points out Taylor. "Landowners often succumb to development or taxing pressures which encourage or force them to convert the resource to other uses. The result is that unique natural sites are lost forever, and the people of Texas lose as well."

To protect the vast amount of diverse natural beauty Texas has to offer, Taylor suggests that both public and private concerns work toward mutually beneficial management programs. He discounts government ownership of all the state's scenic resources as undesirable and too costly and instead calls for private control along with public respect for contributions by landowners.

The ancient Norse believed that the shaking of a god imprisoned in the earth was the cause of earthquakes.

Fall Color Landscapes

Have you noticed the fall wardrobe of many of the woody trees and shrubs, as you drive through the countryside, observe the many attractive colors and consider some of these plants for your own landscape for fall and winter effects, suggests a landscape horticulturist.

"Some plant species have colorful foliage while others are noted for their attractive fruit, interesting seed pods, or unusual bark characteristics," points out Everett Janne with the Texas Agricultural Extension Service.

Some of the most brilliant foliage colors are provided by such species as sweet gum, Chinese tallow, black gum, dogwood, crapemyrtle, maple, Shumard oak, Texas

oak, Callery pear and Chinese pistachio.

Shrubs having attractive fall color include winged euonymus, cotoneaster, mahonia, nandina, some viburnums and sumacs, which have the most brilliant foliage of all.

Plants noted for their colorful berries or fruit include yaupon, deciduous holly or possum haw, American beauty berry, pyracantha, hollies of all types, coralberry and cotoneaster. Dual purpose trees that have interesting fruit that is also edible include Japanese persimmon and crabapple.

"Some plants such as the goldenrain tree, screwbean mesquite and redbud have interesting seedpods," notes the Extension Service specialist.

Janne also suggests selecting a few plants with colorful or interesting bark to boost the winter landscape. These include crapemyrtle, red twig dogwood, birch, beech, winged euonymus and Chinese elm.

"Start now to add some of these colorful and interesting plants to your landscape," says Janne. "Many can be obtained at nurseries and planted immediately. Others must be collected from their native habitat."

If you are going to collect plants, tag them now so you can find them after the leaves and fruit have fallen. Then obtain permission from the landowner before digging. Prune back at least one-half to two-thirds of the top growth of collected plants to insure any degree of success in moving them, advises the horticulturist.

"The most important

thing to remember about adding any type of plants to your home landscape is to make sure they are adapted to your area," emphasizes Janne. "There is little beauty or pleasure in a plant that is not suited to your climatic conditions."

Sunnyside News

By Teeny Bowden

Floyd Ivey was treated and released at Plains Memorial Hospital last Saturday after being involved in a two vehicle accident at a dirt cross roads four miles east of his house. He was on his way to check on the corn harvest, on the place he farms near Hart. A man and his wife and two children were in a car traveling north, and they hit the pickup just back of the cab knocking the gas tank and tool case from the pickup into a pasture. The dust of the road and a south wind hampered vision.

The dust of the road and a south wind hampered vision. The pickup turned over and landed on its side in the ditch. The family was taken to the hospital by ambulance and all were treated and released. One of the children received a gash over one eye requiring seven stitches. Mr. Ivey was taken by car and X-rays revealed jammed vertebrae in his neck. He also received bruises and abrasions, but was not admitted. Both vehicles were totaled. Mr. Ivey had had the pickup only three weeks. His injuries delayed but didn't cancel a deer hunt to Jackson Hole, Wyoming with Mokey Ivey, which had been planned and reservations made before the accident. They flew from Lubbock Thursday instead of leaving Tuesday to drive through.

The revival ended Sunday and a dinner was held at the church at noon. Lynn Garrett of Seagraves led the singing and was a house guest of Mr. and Mrs. Hershel Wilson. Rev. Carroll Green of Hale Center was the evangelist. He was an overnight guest in the home of Mr. and Mrs. Gale Sadler and Susan Tuesday, Thursday and Saturday nights.

Mr. and Mrs. Thomas Parson and children were forced to cut short a Labor Day week-end vacation last Sunday when Vicente Lopez breathing became more labored. During the night they were forced to admit him to the Muleshoe hospital where it became apparent he was suffering from more than asthma. He was transferred to Methodist Hospital in Lubbock Tuesday morning and underwent surgery for the removal of a tumor from his larynx which was making his breathing difficult. He was dismissed Wednesday evening.

The grandmother of Gabriel and Ben Montiel passed away in Clovis Saturday night.

Mr. and Mrs. Dee Jones of San Antonio arrived Tuesday to spend the week with Rev. and Mrs. Raymond Jones and attend the revival. They always bring the trailer house so they will not be an added burden. Their daughter, Mrs. Velma Sager of Springfield, Missouri arrived Friday night and stayed until Sunday with them. Ray and Darla Jones also stayed with their grandparents until Saturday when Mrs. Eddie Jones and the new baby Danna Jo of San Angelo met them at Lamesa to take them home.

Rev. Raymond Jones, Rev. Carroll Green, and Lynn Garrett were dinner guests of Mr. and Mrs. Gene Ross Monday and supper guests of Mr. and Mrs. J. Paul Waggoner. They were dinner guests of Mr. and Mrs. Lonnie Wilson and Samantha Tuesday and supper guests of Mr. and Mrs. Carl Dean Carson.

Holly Waggoner won a first, second, and third place in the Castro County Fair with her photography and third place over all. Holly Waggoner won 2nd place with her microma and 3rd with a pot plant. Quint Waggoner helped with the work of the fair.

Mrs. Floyd Ivey spent Friday and Friday night in Amarillo with her sister, Mrs. Jewell Barnard whose husband, Shum Barnard is hospitalized. She came back by Canyon and picked up Paula Sue and Karen Ivey and kept them until Sunday afternoon when she took them home.

Mr. and Mrs. Milburn Haydon returned home Friday from a vacation in New Mexico and Colorado.

Several from the community attended the Marriage Enrichment Seminar at the Bedford Street Church of Christ in Dimmitt Friday night and Saturday.

Mr. and Mrs. Thomas Parson and children visited in Lubbock with her aunt and her mother, Mrs. Ellis Wilson. Mrs. Wilson came home with them to visit awhile.

They were dinner guests of Mr. and Mrs. Gerald Elkins Thursday and supper guests of Mr. and Mrs. Lee Bradley and children. On Friday they were dinner guests of Mr. and Mrs. Roy Phelan and supper guests of Mr. and Mrs. Gale Sadler and Susan.

Mr. and Mrs. Robbie Lindsey of Plainview spent the week-end with Mrs. Euleus Waggoner and Eddie and attended the marriage seminar in Dimmitt.

Mr. and Mrs. Jake King of Hereford spent last week-end with Mr. and Mrs. David Sadler, Melody and Karla.

LUBBOCK in Lubbock Wednesday afternoon.

David Montiel plays guard for the Dimmitt Bobcats this year. They won their first game with Crosbyton 13-9 at Crosbyton last Friday and lost to Slaton at home this Friday.
