

Nosin...
With Polly

A brilliant deduction on my part came early this week, Monday to be exact, when I came to the abrupt conclusion that "It's C-o-l-d-d-d." Now anyone in this area failing to share that same opinion, has don't plain went 'an died already.

I tell you, every ounce of blood in my body is so cold these days that I would doubtless be snubbed at a vampire party. Oh yes, and that isn't the worst of it, my goose pimples have sprouted goose pimples, there fore, I probably would fall to be considered a delicacy even at a starving cannibal convention.

That snow is pretty though, and I find it difficult to snuff out the deep desire to play in it. However, since I am a bit pre-judice about determining the kind and amount of play, and since I know I don't even stand a Chinaman's chance against those two playful Middleton Chicks, I instead sneak in and out of the house after office hours like a cat. I can still plainly remember Christmas in Oklahoma when those two Middleton bullies took me outside barefoot as a jay bird and rolled me in the snow. So far, I have escaped this, so far, so good. But for how much longer, frankly, I'll be glad when it melts. (Pity kids can't stay beltin' size forever.)

Tuesday morning Lou Ann Britton was desperately attempting to get home from town in that little blue opal. However, the opal didn't seem to share her enthusiasm about getting home, and seem to be on the winning side since it was in no hurry to jump the huge snow drift and deep ruts Lou Ann had gotten into. Polly Jr. seeing Lou Ann in distress and doing her girl scout deed for the day, got out and aided Henry Lewis in his efforts to hand push the little opal out of the snow drift. All was well, they got her out, and being the courteous gal Lou Ann is, she went around the corner and looking back called out "Thank you", and in a flash that little opal did the cutest little spin, placing Lou Ann back face to face with her two willing assistants. Lou Ann's expression was, I think, a shocked look. But to make matters worse about that time the two older Britton chicks, came dashing up the street, to tell Momma Britton, that Poppa Britton was stuck in the station wagon in another part of town. That was the day it was, Tuesday, for the Brittons.

Heard a newspaper editor in Missouri has a new book on the market, a dictionary in fact, entitled, "How to talk pure Ozark in one Easy Lesson."

A few excerpts are as follows: Auto-I auto go to work, but ahm tared.

Adam-That adam bamb is gonna blow us all to hail.

Ax-Ah ax you this.

Barn-I was barn in Kentucky.

Bile-You've gotta bile that cowfee 'fore yous dring it.

Did-He's did of a hard tack.

Fit-They fit all over the hollar till they got tared.

Speaking of dictionaries, have you heard the definition of a modern home??? It's a place where a switch regulates everything but the children...

City Tax Payers Avoid Penalty, Pay Tax Early

This year citizens of Earth have doubtless become penalty conscious, according to Mrs. Irwin Anderson, city secretary who stated that at least 85% of the city population had paid their city taxes before the penalty went into effect Feb. 1. This figure in comparison to previous years is quite a large increase.

First Snow Storm Of Season Hits Area

Wednesday morning area residents began scooping out from under one of the worst snow storms hitting the area in several years. When skies began to clear, leaving on the ground approximately 10 inches of snow and drifts up to 7 feet high in many places in the Earth, Springlake area. Business was at a stand still in Amarillo and Borger almost virtually paralyzed from the storm, with 25 inches reported on the ground at Borger. Hundreds of motorists were stranded in that area and many surrounding communities were isolated.

Gusty north winds caused considerable drifting, with snow piled high on roads, running east and west. Springlake Schools closed both Tuesday and Wednesday due to the road conditions but classes will resume at regular time today.

Several major highways to the north were closed, but local area highways remained open, with driving hazardous, due to the deep drifts and ice.

City Dads Add Clause To Wiring Code

Mrs. E.R. McAlpine was employed as part-time bookkeeper to assist city secretary, Mrs. Irvin Anderson, when city officials met Monday night in the City hall for a regular monthly meeting.

R.H. Belew was appointed by the group to serve as Judge in the forthcoming city election, April 7. Phil Raught was selected as alternate.

The council also voted to revise the city electrical code to conform with the current addition of the National electrical code, which made a slight change in the code in November.

Among the important, but minor changes were the following specifications. That electric dryers of 120-240 volts shall be wired with 3 number 10 A, W.G. gage conductor or larger if required by load in conduit or approved type cable complete with approved type dryer receptical. Whereas prior to this change in November the requirement was a no. 8 wire. Another change in the amended National Electric code was made in the installation of convenience outlets which the city adopted to comply with the N.E.C. This called for three pronged grounded outlets to be used throughout all buildings, commercial or residents homes within the city.

Also on the agenda of business for the night the group voted to add the following clause to the city wiring code. "The wiring inspection will be the responsibility of the Electrician or Electrical contractor doing the job; this new clause will make some one automatically responsible for the inspection job, as compared to previous years where responsibility for applying for inspection fell on no person in particular.

Elsewhere in this issue, you will find a complete detailed notice of the city's electrical code.

Minutes were read and bills were paid before the group adjourned. Those present were: Mayor, Marcus Messer, Councilmen E.R. Kelley, Wendell Clayton, Thurman Lewis, Richard Stockstill and Eldon Parish city secretary, Mrs. Irvin Anderson, city Marshall, Clarence Hazlett and city water supt. John Fruedenrich.

Gene Tunnell Home Damaged By Fire

Extensive damage was impaired to the Gene Tunnell Residence 14 miles northwest of Earth last Wednesday afternoon around 6:30, when fire of undetermined origin, gutted the kitchen and utility room.

Repainting and remodeling of the house was underway, and it is believed that paint fumes had accumulated in the kitchen and ignited from the hot water heater, causing an explosion and fire.

Several thousand dollars in damages were estimated on the house and its contents, as all the Tunnell's major appliances were lost in the fire, and heavy smoke damages were caused throughout the house.

The Tunnells were away from home when the fire was first noticed by a Spanish farm laborer who was plowing nearby. The fellow ran to the house and was attempting to extinguish the fire, when Tunnell arrived on the scene shortly following. He called the Earth fire Department, then began aiding the farm laborer in extinguishing the blaze using small fire extinguishers and a garden hose, the two succeeded in putting out the flame before the fire truck arrived.

The Tunnells have resided on the farm, owned by John Dyke for 2 years. They plan to remodel the house, and are staying with relatives at the present time. They have two children Rusty, 3 years old and Lori Ellen, 4 weeks old.

New Car Tags Went On Sale Monday In Earth

Car license tags went on sale throughout Lamb County Saturday, Feb. 1, according to tax assessor-collector, Herbert Dunn.

However in Earth, license tag sales were held up until Monday due to the city office being closed all day Saturday. She stated however, that the rush ceased and at noon Tuesday, she had sold a total of 30 tags.

License tag numbers for Earth this year begin with 3400 and continued through 4199. The prefix letters are B U.

County Poll Tax Zoom Over 5000

Purchasing of poll tax receipts by Lamb Countians, zoomed well over the expected 5000 mark when the deadline ended midnight, Friday, Jan. 1.

Earth poll tax receipts zoomed to 452 receipts for 1963, a larger amount sold than in previous years, reports Mrs. Ruby Anderson, city secretary.

Dunn reported that persons desiring to purchase a non-paid poll tax receipt, making them eligible to vote in Federal elections only, may get them at his office from Wednesday Feb. 5 through March 6 and there is no charge for the special receipt. This receipt is not needed if persons have already paid their poll tax, or are exempt from poll tax payment.

This law affects only the five states that still have a poll tax, and Texas is one of them.

Simply, the new law will let any voter take part in an election for federal officers, President, Vice President, Congressman or U.S. Senator, without paying a state poll tax.

But it does not affect the voting on state, county or local offices. To do this in Texas you still have to pay a state poll tax of \$1.75.

A GREAT HERITAGE THAT LINCOLN LEFT TO ALL AMERICANS...

THE GETTYSBURG ADDRESS

"Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.
Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated can long endure.
We are met on a great battlefield of that war. We have come to dedicate a portion of that field, as a final resting place for those who here gave their lives that that nation might live.
It is altogether fitting and proper that we should do this. But in a larger sense, we cannot dedicate — we cannot consecrate — we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our poor power to add or detract.
The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced.
It is rather for us to be here dedicated to the great task remaining before us — that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion — that we here highly resolve that these dead shall not have died in vain — that this nation, under God, shall have a new birth of freedom — and that government of the people, by the people, and for the people shall not perish from the earth."

LEGAL NOTICE

The city of Earth's Electrical Code, which has been in effect since March 6, 1962, has one part in one section concerning the installations of antennas which states:

RADIO AND TELEVISION RECEIVING EQUIPMENT:

A. Antenna Systems:
 (1) Supports, outdoor antenna and counter-poise and lead-in conductors shall be securely supported so as to avoid contacts with conductors of other systems.
 (2) Out door antenna, counter poise and lead-in conductors from an antenna to a building shall not cross over electric light or power circuits so as to avoid the possibility of accidental contact.
 (3) It is recommended that antenna and counter-poise conductor shall be installed as not to cross under electric light or power conductors.

B. SELF SUPPORTING ANTENNAS:

Outdoor antennas, such as vertical rods or dipole structures, shall be non-conductible materials and of strength suitable to with stand ice and wind loading conditions and shall be located well away from overhead conductors of electric light and power circuit of over 150 volts to ground so as to avoid the possibility of the antenna or structure falling into an accidental contact with such circuits.

BEGINNING FEBRUARY 15th, 1964, THIS SECTION SHALL BE ENFORCED.

VIOLATIONS ARE SUBJECT TO THE PENALTIES STATED IN THE ORDINANCE.

The inspection is \$2.50.
 The person or firm performing the work will be responsible for obtaining the inspection.

The city of Earth recognizes that the majority of the people exercise good judgement and due caution when installing antennas. However, in some cases antennas have been installed in such a manner that could damage property and endanger the public welfare. Such conditions as antennas installed in a position that could permit them to fall into high voltage lines, guy wires placed over service wires carrying voltages, lead-in wires placed in a position where it could come in contact with energized conductors.

The city of Earth feels the enforcement of this is necessary to prevent these unsafe conditions.

No license will be required for installing antennas.

MOMA, IT'S COLD OUTSIDE, and so it was Monday as heavy snow and high winds begin piling up deep snow drifts throughout the area, paralyzing traffic. The snow continued to fall throughout Tuesday and Earthites who found it possible to do so, remained inside and enjoyed watching the million dollar snow fall, adding needed moisture to the area.

Junior High Tourney Begins Today

Lathaddie and Muleshoe meet at 2:30 P. M., Thursday Feb. 6, in the local high school gym to open the three day Springlake Junior High Invitational Tournament. With teams from the above schools and Farwell, Amherst, Dimmitt, Nazareth and Sudan, plus the host teams, this promises to be one of the better junior high tournaments in the area. A complete game schedule and bracket appears in this issue of the Earth News-Sun. We invite all the fans to come out and support the local teams and make the tournament a success.
