# News Of Interest To Women

## Affleck-Goodwin Vows Exchanged

Diane Affleck became the bride of Loyd Ray Goodwin December 28, 1962, in a lovely ceremony at the home of the bride's parents, in Oklahoma City, Oklahoma with Bishop Samuel H. Gardner, minister of the Church of Jesus Christ of Latter-Day Saints officiating.

The bride is the daughter of Mr. and Mrs. Clark B. Affleck, Oklahoma City. The groom is the son of Mrs. Gladys Goodwin of Earth.

The bride wore a ballerina length gown of white satin with scalloped neckline and short sleeves. The bell-shaped skirt featured tiny back pleats, with a wrapped front adorned by a spray of self fabric roses. The veil of silk illusion was caught to three miniature satin roses. She carried a bouquet of white roses and baby mums.

Marilyn Affleck, sister of the bride, and maid of honor, wore a red brocade satin dress, featuring a scoop neckline, bell-shaped skirt and short sleeves. She carried a cascade of white carnations sprinkled with red glitter.

C. C. Goodwin, Jr., Earth, brother of the groom served as best man.

The bride's mother was attired in a light green silk dress with matching accessories. She wore a corsage of pink carnations.

The mother of the groom wore a dress of Kelly green wool with matching accessories. She also wore a corsage of pink carnations.

The ceremony, performed in front of a fireplace flanked by two potted palms and centered with an arrangement of gladioli was followed by a reception at

the Church of Jesus Christ of Latter-Day Saints.

The bride's table was laid with a white satin cloth, featuring white satin rosebuds at each corner. A candelabra of white tapers centered the table, flanked by a three-tier wedding cake and a bowl of red punch. A red light was placed beneath the table, resulting in a red glow through the white satin cloth.

The couple left on a wedding trip to South Texas and are now residing in Fort Worth.

The bride is a graduate of Brigham Young University and attended TCU and the University of Oklahoma.

The groom is a graduate of Springlake High School and Texas Tech. He is employed as an engineer for Johns-Manville in Fort Worth.

## TSTA To Present Program To Texas Legislature

A modest three-point program of school legislation will be presented by the Texas State Teachers Association to the 58th Texas Legislature which convenes January 8.

The program covers sick leave for teachers, cooperative regional film centers, and improvements in teacher retirement benefits. The latter would involve no additional cost.

Advance responses by lawmakers indicate majority support for the proposals in both houses of the Legislature.

The details are outlined in the January issue of the "Texas Outlook", TSTA monthly magazine.

The three items in the teachers' legislative program would:

1. Provide a minimum of five days a year sick leave for each teacher, cumulative to 30 days. Cost would be shared by the State and local districts on the same basis as they contribute to the Minimum Foundation School Program. Annual cost to the State is estimated at from \$1.5 to \$2 million.
  2. Permit regional film centers in which schools would voluntarily participate. The cost would be shared equally by the State and participating schools, with the State matching local contributions up to 50 cents per pupil. Estimated State cost is \$500,000 yearly.
  3. Improve the teacher retirement program by:
    - (a) Offering an alternate base for calculating retirement benefits. The present base is tied to the 1950-55 period. The alternate would permit use of the best ten years of teaching for determining benefits.
    - (b) Retaining the present \$1,200 guaranteed annual minimum retirement but make it possible for a higher minimum--perhaps to \$1,800--for those who have taught longer.
- Neither of these items would require additional funds from teachers or the State. Both contribute equally to the Teacher Retirement Fund.
- Many legislators stated their position last spring on these TSTA proposals as well as on other legislation affecting schools

## Letter to the Editor

Dear Russ and Polly,

There is a news item I felt some there would be interested in, since they were Mother's friends, and of course, ours.

My mother, Mrs. Margaret Dodd Adams, 84, died December 31 in Moberly, Missouri. The funeral was held January 2 in the First Baptist Church of Salisbury, Missouri.

Friends in Earth had been so good to her, I wanted them to know.

We have countless things to be thankful for. The Lord has been more than good to us.

We breathed a prayer of real gratitude, too, when we read of Phil's narrow escape--and the others in the accident. Words cannot express it, can they?

I guess we'll all have to seek to live out our thanks for all God's graciousness toward us.

Love to you all. We are fine and trust you are, too.

(Mrs. Cecil) Millicent Meadows

We like the paper. I'm just back from the funeral.

## PECAN TREES FOR SALE

The trees are measured approximately 5 inches above the bud. Most trees have a four year root system, a two year old top and will bear in three or four years.

"THE SHADE TREE THAT PAYS YOU RENT"

ALL PERSONS INTERESTED SHOULD CALL  
965-3715, LAZBUDDIE, OR  
WRITE BOX 46, EARTH

We send out properly pruned trees, just as if we were going to use them in our groves, leaving the planter nothing to do but to set them out. The taller grades of trees should be top-trimmed, as it balances the top against an unavoidable loss of some roots when the tree is transplanted. Proper pruning insures the tree living and a good growth. Where the trees are properly pruned, handled, and planted, there is no reason why any of them should die.
