

★★★★★★
Nosin...
 ★★★★★★
 With Polly
 ★★★★★★

The female species of this town really have it rough... if you don't believe it, just spend a few hours in one of our local beauty shops and you'll hear what the weaker sex has to face in life.

Last week, Mrs. Everett (Matt) Patterson and Mrs. Homer (Fay) Starkey were talking. Matt pipes up with "Faye, is Homer going to close the cafe on the fourth of July?" Faye, "No, he probably won't even close up for my funeral." Matt, who never seems to be outdone, replied, "I know just how you feel, Faye, Everett won't either, if mine fails on double stamp day."

NOSIN

I see where science has advanced a step forward in the biological control of houseflies with the recent discovery that female flies produce a substance that attracts male houseflies, but has no effect on any other type of fly... females are never attracted by this substance...

With this recent bit of knowledge at hand, entomologists agree although more work is needed to identify the substance and to learn the secret of where it is produced in the female flies, it is a preliminary step forward to developing ways to control the pesky insect...

And about this time of the year, when a fly gains admittance to one's domicile, it is indeed a pesky thing, devilishly bent, it seems, on discovering the measurements of one's body as it will spend literally hours trying to crawl around on us humans.

Scientists have pried further into the fly world to discover this non-resistant substance to be a scent, that attracts the male. They plan future research in hopes of being able to lure males into traps, or into eating poison bait, or perhaps to a chemical sterilant by using this scent substance.

Now, gals, looks to me as though we've plain been left out, when it came to passing out those little extras, that would give us some prestige in this "people world"... we go to the beauty shop and sit through countless agonizing hours of torture under those dryers on the hottest days in the year, to look nice... and that doesn't impress a bit... we also go farther by buying every possible kind of perfume and scents on the flooded market today and dabble, spray and otherwise bathe in it from head to toe, and even that doesn't do for us, what the female fly can do apparently without half trying...

Who said us people folks had brains??? Why, those flies have flat got us gals beaten in more ways than one, just thing, gals, if we had that substance at hand, we could lure our husbands into every millinery shop in the country and come out with a brand new hat for every day of the year. Gals, it would be like owning a gold mine, we could use that old scent for a multitude of advantages... and what does the fly do with it?? Probably just wastes that stuff... beats me why we female people have life so tough...

NOSIN

Women folk do have it rough and just to further clarify my point in behalf of woman suffrage... Let me bring to mind for instance, Mrs. Forrest Simon's peacock who left home recently... He didn't give any reason at all for his disappearance, just up and fluffed his feathers and took to the road... and what about his poor spouse, she sat home and sat... sat and sat on eggs, that is, enduring the heat in her all out effort to hatch some little peacocks for him to father, none the less! He stuck around until after Father's Day, but left a week later... just no heart... that's the only conclusion one can arrive at... (Gals, you'll be happy to know though that patience does always pay off... He is back home again, now).

NOSIN

Casey Jones, after doing house hold chores while his spouse had surgery last week, flatly declares that in his honest opinion, every woman should have a maid, housekeeper and cook. There just isn't any end to that slavery called housework, he says... Funny, how men normally think of their wives staying at home with only push buttons to cope with... that is, until they take a hitch at K.P., then it gets bad... bad... bad.

NOSIN

He agrees however, with a week's practice behind him, he's the fastest, nastiest, and grimmest...

Parade And Barbeque Kickoff Rodeo Events

Earth's 20th Annual Rodeo gets underway Thursday, July 9 at 4 p. m. for three big days with a parade through downtown Earth. The parade will include riding clubs from this area as well as floats, clowns, Boy Scouts, and Local participants.

Opening night will feature a Barbeque dinner at 6 p. m. at FFA Showbarn. The delicious meal will be free with each paid admission to the performance that night. The food is being furnished by the Earth Chamber of Commerce and Coping Club. Activities this year will feature Bull riding, Bulldogging, barrel racing, calf roping, saddle bronc riding, and bareback riding beginning each night at 8:30 p. m.

The Earth Rodeo is noted throughout West Texas as one of the most outstanding. Stock for the rodeo will be furnished by Auhil Rodeo Production of Lubbock. Rodeo offices have been established at Earth Service and Supply Co. Entry fees are \$25 for calf roping, \$15 for bareback riding and saddle bronc riding, \$10 for each around in girls barrel racing, \$20 for team roping. An additional \$100 will be added to the pot in the saddle bronc event by the Earth Roping Club.

An attractive array of prizes will be awarded. The Earth Chamber of Commerce will award trophies for first, second, and third ranking riding clubs and \$15, \$10, and \$5 to the three top floats. In addition, rodeo officials report a silver buckle trophy will be awarded to first place winners in each event, as well as prize money to the winners.

Price of admission is \$1.50 for adults and 75 cents for children. Following the Rodeo Activities each night, the Jaycees will sponsor a dance beginning at 9 p. m. with Jimmy Macky and the All-Stars.

Youth Rally Sunday At Local Church Of Christ

Plans are nearing completion for the big youth rally to be held from 2 until 5 p. m. this Sunday, July 12 at the Earth Church of Christ. Invitations have been mailed to towns within a hundred mile radius of Earth and large crowds are expected for the event. Featured speaker for the inspirational-packed program will be David Gatewood, Abilene Christian College senior, and son of Orla Gatewood, former missionary to Germany, now of Rochester, Michigan. He is also the nephew of Mr. and Mrs. John Garrett Earth.

DAVID GATEWOOD

A very qualified speaker, the younger Gatewood has traveled extensively in Europe, having made his second trip to Russia last year. He is author of the pamphlet, "What Teenagers Can Do To Evangelize the World", a subject upon which he will speak at Sunday's rally. Also included in the afternoon's activities will be the showing of colored films depicting mission work in Africa. Narration will be by Charles Burns, Abilene Christian College student from Valley Mills, Texas. Burns was among a group of student preachers who spent 6 months of last year in Africa.

The Lubbock Christian College Chorus will render various selections. There will also be congregational and special singing. Refreshments will be served at 5 p. m.

A cordial invitation is extended to everyone: young, old, alike. Make your plans now to attend the youth rally Sunday at the Earth Church of Christ.

Earth Jaycees To Sponsor Rodeo Dance

The annual Rodeo dance sponsored by the Jaycees will be held each night following the Rodeo performances. The dance will be two miles north of Earth. Jimmy Macky and his All-Stars will furnish the music. The dance will begin each night at 9:00 p. m.

Swine Sale Saturday

The Annual FFA Swine sale will be held Saturday, July 11 at 2 p. m. at the FFA showbarn in Earth. Approximately 75 head of choice swine will be entered in the sale. Five local boys will be involved. Special invited guests, exhibitors, Mack Heald, Austin and Donnie Mayfield, Lazbuddie who will supply breeds needed to complete the show. Auctioneers will be Leland Henderson, Mike Dent, and Doug Lewis.

DE KALB 302 COTTON produces first blooms in area for businessman, Farmer Jones (Sandy) Sanderson of Springlake. The cotton is located in the Pleasant Valley Community, and was planted April 22. Shown with Sanderson is his son.

Jaycees Give Rodeo Prize

The Earth Jaycees are selling tickets for a fine prize to be given away at the 20th Annual Earth Rodeo. The winner will be announced at the last rodeo performance, Saturday, July 11. The lucky ticket holder may choose one of the three prizes offered by the Jaycees. This year the club will give away either a Shetland pony, one half beef, or a 19 inch TV set. Tickets are now on sale for \$1 each, and may be purchased from any Jaycee member. Ticket holders do not have to be present to win.

This is a yearly project of the Jaycees. Proceeds from ticket sales will be used on a community improvement service to be determined later.

DeKalk Cotton Produces First Blooms In Area

The first cotton bloom to show up in the area this year was produced by James (Sandy) Sanderson in his field located one mile north and one half mile west of Nichols Gin. The early maturing De Kalb 302 cotton was planted April 22. Mr. Sanderson revealed his cotton crop had been sprayed twice with Bidrin for early season insect control to keep the bottom crop. At present, his cotton stalks average about fourteen inches in height and seem to be loaded with squares. Sanderson fertilized his fine cotton, the best crop he has had in three years of farming, with Sol-U-Phos Ammalized as 50/43/10. Sanderson has 156 acres planted in De Kalb 302 cotton seed.

Sanderson spotted this stalk with one red and white bloom Tuesday morning while driving down the road slowly looking over his crop. De Kalb 302 cotton last year produced some of the earliest blooms in the area. They were first noticed on the Richard Moore farm. This is the second year this new Hybrid seed has been on the market, and is gaining prestige among the cotton growers of this area. Sanderson has resided in the Springlake Community for several years. He has operated the Farm Chemical Co. in Springlake since 1952, and is co-owners of the Branch office in Earth.

City To Try New Insecticide For Combating Mosquitoes

The City council opened bids for the proposed construction of a new water tank when they met in a regular monthly session Monday night at the City Hall.

City Engineer, Ralph Douglas, who recently advised the City dads of the feasibility of such a purchase, was present to go over the bids with the council, and aid in their selection of a contractor for the job. Douglas himself will oversee the construction of the water storage tank. No decision was reached in the selection of a contractor for the job.

The Council discussed at length the requirements made by the State Insurance Board, that pool operators working with a chlorinator must wear a gas mask for protection. The council voted to purchase the necessary gas mask for use at the city pool.

A report was submitted showing 9,000,000 gallons of water was pumped and used during the past month, yet city water bills showed only 5,000,000 gallons were billed, indicating a heavy loss of 4,000,000 gallons of water. City dads decided that several water meters were perhaps failing to register the amount used, and voted to secure the services of an additional man to assist water superinten-

dent, Sammy McGuire, in checking and installing new water meters, during the summer months. However, as yet no one has been hired for the job.

The group also, after a lengthy discussion, decided to purchase a new type of insecticide to use for spraying the city, as they had received many complaints this year over the tremendous amount of mosquitoes and flies, even though they were spraying the city.

A letter of resignation as the electrical inspector for the city was submitted to the group by Inspector Eugene Lee. The request was accepted.

Minutes of the previous meeting were read and approved, and bills were voted to be paid. The next meeting will be a called meeting scheduled at 8:30 p. m. on July 15.

Those present were Mayor M. E. Kelley and councilmen Dudley Chesney, Eldon Parish, Richard Stockstill, Wendell Clayton, city secretary, Mrs. Ruby Anderson, city marshal, Clarence Harlett, water superintendent, Sammy McGuire, Joe Gilmore, Ralph Douglas and Ross Middleton.

"You can tell some fellows aren't afraid of work by the way they fight it."

Local Youth In Amarillo For FFA Electric Workshop

The program for the FFA Electric Workshop, which was the first to be held in the nation at its inaugural session last year, was coordinated by Walter Labay of Plainview, area supervisor for vocational agriculture, and Sam Thomas, agricultural development manager for the Southwestern Public Service Company.

More than 100 Future Farmer of America members and vocational agriculture teachers are attending the second annual FFA Electric Workshop, sponsored by the Southwestern Public Service Company, at the Episcopal Church Conference Center in Amarillo, on July 7, 8 and 9. Earth representatives at the workshop will be Lynn Hamilton and Mike Dent.

There will be five courses of instruction offered at the workshop, and the student selected as outstanding in each course will be awarded a trip to the National FFA Convention at Kansas City. Each boy who completes the conference successfully will receive a farm electrification medal from the Southwestern Public Service Company.

The courses of instruction to be offered are farm wiring, electric controls, farm motors, electric heat, and lighting. The course instructors include W. E. McCune, professor of agricultural engineering at Texas Agricultural University, who will teach controls; Bob Jaska, Texas

Education Agency, college Station, who will be instructor for the farm wiring section; Kenneth Owen, Lubbock, and Joe Luscombe, Amarillo, will be the lighting instructors; Jamie Gage, Glynn, & Tom Field, Plainview, will teach the heating course and Royce Kelley, Lubbock, and W. T. Seltzberger, will instruct the motor section. Owen, Luscombe, Kelley, Jennings Field, and Gage are all associated with Southwestern Public Service Company.

My Neighbors

"Delicious meal, wasn't it, Dad—too full to move, Dad?"

EDITORIAL: People of Responsibility Built America

The Civil Rights bill is now the law of the land, your land and my land, the land that we all love.

I fear that this lovely nation of fertile lands, beautiful mountains, and insurmountable scenic beauty is fast rushing into a dark era, where neither the white man or the colored man will be benefited, only Khrushchev, the smiling fat one from Russia, will reap profits from the apparent hate kindled and brewing within this, our own beloved homeland.

Not for one minute do I think all this confusion within the borders of our country was begun by the colored Americans or by the whites of our land. I think, instead, it began under the supervision of war mongering communists, who previously made the threat to take us over within only a few short years, what better way, I ask you, is there to accomplish this goal than to have us fighting among ourselves, to the extent that we won't stop long enough to figure out who is causing all this ruckus, and who is laughing up their sleeves, just biding their time to fulfill the dream of taking over this great USA, whose wealth has been coveted by every nation in the world.

It is with great sorrow and concern that true Americans read from time to time the really inhuman things that are taking place all over this country, and we are made to wonder why our politicians in Washington have turned their backs on the wishes of the majority of American citizens to appease these apparent "small communist groups" who have succeeded in

firming up small minority groups over the country, and kept their alert and on call to stir up trouble day after day... It makes me wonder what has happened to this wonderful country...

Then we also wonder why our Supreme Court has likewise joined in, and ruled to appease atheists who represent a small minority group, certainly not the majority of Americans... what has happened to our beautiful, bountiful beloved land that was built upon love and guts to work, instead of infested by hate and expected handouts.

What has happened to cause people to seek power rather than stand up for principle... why... why... have we stopped thinking for ourselves and allowed small minority groups and power crazed government officials to make laws to take over and make all our decisions for us... at one time the government was our protector... now Washington D.C. isn't trying to protect us, they're trying to BABYSIT us Americans, while at the same time spending us into the poorhouse and declaring they can do away with poverty, by taking from the rich and giving to the poor... HEJ is so set on that, let him begin first by showing us, not telling us, what he means, maybe a good place to start would be to clean up a little poverty on his wife's land, with his nine million... then if he finds it doesn't make people stop work and begin playing trained seal, (by that, I mean leap up for a free fish when a hand does it out, and being content to roll over and wait

for another free handout, later) If he proves this won't happen, then the rest of the Americans will join in gladly and just abolish poverty from our land... However, first and foremost, I can't believe this world owes any able bodied man a living... Some, I think, find living in poverty more desirable than working, so there's little that can be done to pull this calibre of people upward...

However, I think great strides have been made toward giving everyone who deserves and wants a better life, a chance to attain that goal, and feel that a greater footage would be gained when the colored of the land showed themselves willing to share equal responsibilities to those of the whites.

It seems to me that those who have wanted badly enough to succeed in this nation, have done so, regardless of race, creed or color... countless immigrants from other countries have found our shores a garden of Eden, so to speak, a land of opportunity unequalled any other place on Earth, and when they applied themselves tooth and toenail, they came out successful... That's the kind of spirit that succeeds, regardless of obstacles... In my estimation, color or creed has not always been the major drawback to success, or the ultimate reason for failure... It is sometimes the lack of guts, it sometimes is the lack of ambition, it sometimes is the lack of desire and effort, but more often, it's a mix ure of all, coupled with the desire to shirk responsibility.

Organizational Meeting Of 'Women For Wayland' Scheduled Sept. 1

PLAINVIEW, Special.—An interest in the progress of Wayland Baptist College recently brought together a small group of area women at the home of President and Mrs. Roy C. McClung to discuss an organization of women to include former students and other long-time friends of the college.

The group set Sept. 1 at 2:30 p. m. at Heritage Room in Van Howling Memorial Library for the first organizational meeting although charter membership will remain open until an early December meeting. Suggestion has been made that quarterly meetings be held.

So that a temporary organization can be set up at the September meeting Mrs. E. M. Osborne, Plainview, was asked to serve as chairman of the nominating committee, with Mrs. Verney Towns, Muleshoe and Mrs. E. W. Smith, Hale Center, as committee members. The committee will present a slate of officers to serve until a constitutional and by-laws is formulated and adopted. Proposed officers are: president, vice-president, secretary, treasurer, and publicity chairman.

Mrs. Russell Pogue, of Petersburg, was selected as chairman of the committee to write the proposed constitution. She will select committee members.

the name "Women for Wayland" but further consideration of a name will be given when the enlarged group meets in September.

Membership is open to any woman interested in a fellowship for information and guided support of Wayland Baptist College. Such a fellowship will work closely with the college administration to promote the growth of this pioneer college on the Plains of Texas. Though Wayland is Baptist connected, membership in "Women for Wayland" will not be limited to Baptists because students of all denominations have been enrolled during its 55 year history. Women interested in becoming a charter member may contact any woman who attended the preliminary planning meeting or President McClung so that they may receive future mailings of materials.

Other interested women who attended the planning session include: Mrs. Alec Thompson, Hereford; Mrs. William T. Clayton, Springlake; Mrs. A. L. Wylie, Petersburg; Mrs. Henry Heck, Mrs. Robert Caudle, Mrs. I. B. Rankin, Mrs. J. B. Bratcher, Mrs. Clayton Lewellen, Mrs. V. F. Lemons, and Mrs. McClung all of Plainview. Dr. W. N. Record, assistant to the president, and Dr. McClung were also present.

Teen Town will be closed July 10-11 in conjunction with the Rodeo.

Kim Barnett Honored With Outdoor Supper

Mr. and Mrs. Denny Barnett entertained in their home Sun, night with a backyard supper honoring their daughter, Kim on her birthday. Others honored on their birthdays were John Carl Sudduth of Olton and Matt Gilbreath of Sunny-side.

Others present were Mr. and Mrs. John Campbell, Mrs. Eleanor Sudduth, Mrs. D. A. Barnett, all of Olton, Mrs. Raymond Rogers of Laveru, California, Mr. and Mrs. J. N. Barnett, Annita and David of Lubbock, Mr. and Mrs. John Gilbreath and Coby of Sunny-side, Myrtle Parks of Amherst, and Stacy, Bart, and Lori, Barnett, Annita and David Barnett remained with the Barnetts for a few days visit.

Party Line...

Mr. and Mrs. W. F. Jackson had as their guests Thursday, Friday, and Saturday, Mr. and Mrs. Odes Skipworth and Mr. and Mrs. Don Lanford, all of Garland.

Mr. and Mrs. Dean Jones had as their guests for the weekend Mrs. Jones' sisters, Janet and Jeana Chester of Olton.

Going Away Party Honors Lawrences

The Young Adult Sunday School class of the First Baptist Church had a surprise ice cream supper Monday, July 5, at 8:00 p. m. honoring Mr. and Mrs. John Lawrence. The Lawrences will be leaving soon for Pawnee, Oklahoma where they will be on the faculty of Pawnee Public Schools. The party was at their home and those attending were Mr. and Mrs. Billy Robnett, Mr. and Mrs. Eldon Davis, Rev. and M. B. Baldwin, Mrs. Sharon Tunnell, and Miss Jane McCord.

Homemakers Meet To Discuss Freezing

The young Homemakers of America met Monday, July 6th at 8 p. m. in the Home Economics Department at Springlake School. Mrs. Cecil Slover presented a program on "Freezing" in the absence of Mrs. Kay Biver of Plainview who could not come because of illness. The program consisted of tips on wrapping and preparing for freezing an assortment of foods. Mrs. Slover made Anglefood Snowballs and a meadish to demonstrate preparing them for freezing and later use. Plans were made for the August meeting, to be August 3, at 8:00 in the Home Economics Department of Springlake Schools. The program will deal with "Life saving" with a special speaker from Lubbock. All homemakers

Angeleys Enjoy Family Reunion

All six children of the O.K. Angeley family were together for a family reunion at the home of Mr. and Mrs. Jack Angeley, of Earth, Saturday, July 4th. Family members present were Jerry D. Angeley, Shamrock, Rex Angeley, Tucson, Arizona, Jack Angeley of Earth, Mrs. Frank Sortland, Muleshoe, Mrs. Dean Clink, Denver, Colorado, Mrs. Bob Reynolds, Mangum, Oklahoma. Afternoon visitors included Mr. and Mrs. W. E. Angeley of Morton. Are a guests were Mr. and Mrs. E. K. Angeley and family, Mrs. Ken Angeley, Mr. Russell Harberer and daughters and Mrs. Bonnie Harberer.

Pattons Visit From Virginia

Mr. and Mrs. A. C. Patton of Portsmouth, Virginia, parents of Mrs. W. J. Rylant have been visiting their daughter and family. While here they saw their first rodeo at Portales Saturday and were taken on a tour of the Halsell Cattle Co. ranch. They left Tuesday to return home and plan to visit other relatives in Tennessee and North Carolina.

Mr. and Mrs. Elmer Prather and Beverly, Mr. and Mrs. Sandy Sanders and Janice Stephens, Sharon, Shane, DeLynn, left Friday afternoon and spent the night in Snyder and visited relatives. They returned Sunday night.

Next meeting were Mrs. Garland Stephens, Mrs. Jearl James, Mrs. Leon Callens, Mrs. Truman Layman, Mrs. Cecil Slover

Debbie Matlock Honored With Surprise Party

Debbie Matlock was honored on her 13th birthday with a surprise party, Friday night at 8 p. m. at the Springlake Community Building.

After the group sang "Happy Birthday", they played a number of games. Then she opened her gifts. Guests enjoyed helping Debbie celebrate her birthday and the refreshments of birthday cake and soft drinks were Brenda Clayton, Cretia Washington, Marsha Dawson, Ann Bearden, Annita and Donita Kelley, Donna Blackwell, Kelley Earl O'Hair, Neal Armstrong, Elbert and Delbert Rudd, Billy Don Carson, David Foster, Steve Jackson, Perry Don O'Hair, and Ricky Byers. Others present were Mr. and Mrs. Bud Matlock and Sammy and Mrs. Joan Byers.

The red, white, and blue theme was carried out in the decorations. A huge "Happy Birthday Debbie" banner was hung over the serving table. A blue and red balloon centerpiece was used. Her cake was iced in white with a blue star in the center and 13 white candles in red star holders around it.

Bobby Gover Is Three Years Old

Bobby Gover, son of Mr. and Mrs. J. Gover, celebrated his third birthday Wednesday, July 1st, at 3 p. m. with a party at his home. Refreshments of cake in the shape of a rabbit topped with blue candles was served along with ice cream and kool aid.

Those present were his brother, Mike, Rocky and Roby Upchurch, Littlefield, Petra Lewis, Earth, Dontece, John David, and Tom Paul Upchurch, Victoria, Bill Foster, Littlefield, Bill, Joan, and Judy Gover, Earth, Mrs. A. E. Upchurch and Peggy, his grandmothers Mrs. H. H. Foster, Littlefield and Mrs. A. W. Gover, Earth. Assisting with the party was Mrs. Alvin Upchurch.

Hello World

Mr. and Mrs. Ronald Cleavinger are the proud parents of a son, born Tuesday, June 30, at 5:30 p. m. in the Littlefield Hospital.

The little lad weighed 7 pounds and 7 ounces. He has been named Dave Allen. His proud sisters and brothers are Julie II, Bobby 3, and Johnny 6.

Grandparents are Mr. and Mrs. N. F. Cleavinger of Dimmitt and Mr. and Mrs. R. D. Usery of Earth.

Leading Giants Honored With Ice Cream

The league leading Earth Giants were honored with ice cream Friday evening in the backyard of the W. J. Rylant home. Ice cream and cake were served. The Giants are leading the league with 8 wins and 2 losses. The team is composed of boys ages 10 through 12 and is sponsored by the Earth Service Supply and Watson Brothers, Springlake. Their coaches are Robert Bridger and Jack Rylant, assisted by Harley Galloway and Arboth Rylant.

Team members present were Craig Barton, Terry Bridge, Terry Houclin, David Holt, Kent Coker, Donnie Galloway, Dale Wheatley, Steve Hay, Donald Templeton, Catrina Garza, Donicio Triana, Dennis Rylant. Coaches and guests included, Jack Rylant, Harley Galloway, Arboth Rylant, Mr. and Mrs. Buck Houclin, Mr. and Mrs. and Mr. Robert Bridge and Mark, Mr. and Mrs. A. C. Patten, Portsmouth, Virginia, Mrs. Cullen Hay, Mrs. Weldon Barton, Mrs. Gene Templeton, Mrs. A. E. Wheatley, Mrs. W. D. Holt, Mark, Jane and John, Mrs. Jack Rylant Jr. and Little Jack and Becky.

Party Line...

Mrs. O. L. Anderson had dinner with her grandson, Mr. and Mrs. Bill Robnett of Earth. The Andersons returned last week from Buffalo Lake, where Mr. and Mrs. H. M. Kennedy of Littlefield were their guests.

Mr. and Mrs. Elvin Barlow have returned from a fishing trip with her niece and husband, Mr. and Mrs. Emmitt Wade, of Almagordo, New Mexico.

Mrs. W. O. Jones' father Joseph Franklin Faugh of Carlsbad, New Mexico passed away on June 30. Services were conducted on July 1 and two original poems of Mr. Faugh's read. He was born August 6, 1893 and leaves 5 children.

Mrs. W. O. Jones, Earth, Mrs. Billy Welch, Amarillo, Mrs. John Susler, California, J. B. and Sidney of Carlsbad, and five great grandchildren. Those attending the services from Earth were Mr. and Mrs. Dean Jones, Mr. and Mrs. Crill Bulls, Mr. and Mrs. Wayne Jones, and Mr. Norman Susler.

Attending the Latham Family reunion July 3-4 in Wheeler, were Julia and Cary Lutham and Clinton Paul of Earth, Lina Latham of Lubbock and Gaylord Latham who attends West Texas State College in Canyon.

Mr. and Mrs. Tommy Messer and Bart of Lubbock met Mr. and Mrs. M. W. Messer at Buffalo Lake Thursday and camped and fished until Sun.

Mr. and Mrs. Bud Lea and daughter, of Midland, arrived Monday night to spend a week with Mr. and Mrs. M. W. Messer. While here they will attend the Rodeo.

Mrs. H. C. Martin had as her guests Sun, Mr. and Mrs. O. C. Martin and daughter from Lubbock.

Campaign Costs Listed In Primary For Lamb County

The most expensive Lamb county campaign in the recent party primaries was waged by W. D. "Dick" Ratliff of Littlefield, in an unsuccessful bid for sheriff, show expense records on file with County Clerk Charles Jones.

Ratliff listed expenses of \$1,484.28 in his race, highest on the list of all candidates who sought office in the Democratic primary May 2. None of the races for office required a second primary runoff.

Big item on the list of expenses was the cost of getting on the primary ballot, \$512.50 for a sheriff's candidate.

The next three high expense campaigns were all by sheriff's candidates who contested in a 4-man race.

Sheriff Dick Dyer, who won in the first primary over his three opponents, spent \$1,000.62, in campaigning. Loy Dalton, a third candidate, spent \$1,010.35

and V. L. Smith, Jr., the other member of the 4-way contest, spent \$811.30, the expense statements showed.

Smith was the only one of the candidates who listed campaign contributions from other persons. He showed \$40 in money paid towards his filing fee.

Big item on each expense statement was the cost of getting on the primary ballot, \$512.50 for each sheriff's candidate, equal to one month's salary for the office.

Other major expense items were advertising--newspaper, radio, campaign cards--and travel costs.

Second high on the cost list was the tax assessor and collector's office, the only other contest in the 1964 county elections.

Herbert Dunn, incumbent who was successful in seeking a new term, spent \$759.10 in his effort, \$500 of that for filing costs,

Bill Jeffries, his only opponent, spent \$789.90 according to the expense records.

County Attorney Curtis Wilkinson, who was not opposed, ran a rock-bottom race. Wilkinson listed \$487 for filing fee, another \$22 for matches for a total of \$509.

County Commissioner J. L. "Roy" Yeager, Precinct 3, unopposed, spent \$509.06. Filing fee was \$391.66 of this.

County Commissioner A. J. Spain, Precinct 1, listed \$416.66, with \$391.66 for filing fees.

Peace justice A. J. Jenkins, precinct 5, spent a \$50 filing fee for re-election and Constable J. L. Drake, precinct 4, listed only a \$10 filing fee for his total expenses.

The cost statements were made with the county clerk in compliance with a Texas law.

The costs will be lightened somewhat by a refund of surplus money in the Democrat-

ic election fund after all expenses of the primary election are paid. Under Texas law candidates in the party primary pay the costs of holding the elections to the county Dem organization.

Refunds will be made to the candidates for contested offices, those of sheriff and tax collector. Demo chairman Glenn Batson said Wednesday that refunds would amount to 75 percent of their fee for the four candidates for sheriff, 50 percent for the two tax office contestants.

This means that Dyer, Ratliff, Dalton and Smith will get refunds of \$384.37 each and Dunn and Jeffries will get \$250 each. By this formula, each office on the ballot will pay one month's salary for the election costs.

USDA In Search Of Better Methods To Control Weeds

Lubbock, Tex. - (Special) The search for more effective and economical chemical methods to control weeds in irrigated cotton is being strengthened by research work at the U. S. Dept. of Agriculture Cotton Research Station, Shafter, California.

The research is being supported by a \$30,000 grant from the Cotton Producers Institute, according to Roy B. Davis, Lubbock; Leroy Durham, Plainview; Roy Folkner, Lubbock; and Jack Funk, Harlingen; Texas trustees for the Cotton Producers Institute.

Additional grants by the University of California, USDA, California Planting Cotton Seed Distributors, and Kern County, Calif., have pushed the total funds for the project to \$115,065.

The research is seeking ways to combat the steadily worsening early and late season weed problem faced by farmers in irrigated cotton land. Currently, about

25 percent of the harvested acreage and 40 percent of the total U. S. cotton production are on irrigated soils.

Scientists at the Shafter station are concentrating on:

1. Developing techniques that will aid in discovering chemicals for selective weed control in irrigated cotton;
2. Establishing precision placement principles to guide farmers in using the various types of chemical treatments; and
3. Probing the performance, behavior and fate of herbicides in irrigated soils in an effort to discover principles that can be applied in developing herbicides for irrigated conditions.

The work at Shafter is tied directly to other weed control studies across the Belt.

Funds to support this and other Institute research and

Good Curing Doubles Strength of Concrete

Well-cured concrete also has far greater resistance to dusting, cracking, crazing and spalling. Tests by Master Builders show that there are several good methods of curing. Water spray or damp burlap are acceptable, if the concrete is kept damp continuously. Waterproof paper or plastic sheets may be used to prevent moisture from evaporating from slabs, if adequately overlapped and edge-sealed.

Liquid curing compounds, in wide general use, coat the concrete with a moisture-retaining membrane. They can be sprayed onto freshly finished concrete and require no further attention.

Earth, sand, straw and hay are no longer in general use.

Proper curing can increase the strength and durability of concrete by as much as 100%.

"Curing" is the technical word for the strength-building period immediately after the concrete is placed, when it must be kept saturated with water and protected from low temperatures.

During the curing period, there is a chemical reaction between the water and the cement, which forms the "glue" that holds the sand and stone together. The reaction continues as long as there is water in the concrete mixture and the temperature is above freezing. If the concrete is allowed to dry out, the reaction stops.

According to tests conducted by Master Builders Company, one of the leading producers of chemical products for improving concrete, the freshly placed concrete should ideally stay damp and at about 70° F. for at least a week.

The longer the curing period, the stronger the concrete will be. For example, if the curing continues for 28 days, the surface will be twice as strong and wear resistant as concrete cured only 3 days.

Plant X No. 4 Rolls On Schedule

The new unit No. 4 at Plant X scheduled for its "first roll" at 10 a. m. April 16, actually took place at 10:37 of that day, indicating almost a miracle of punctuality, and was one of the smoothest start-ups in the company's recent history. However, many things had

to be done after that moment following the first roll. It was finally synchronized to the system on the following day, April 17, at 1 p. m. This still left a long period of adjustment, shakedown and tuneup, which continued through July 1. During this period, whenever

the unit actually was operating it carried about 100,000 Kilowatts of load. This latest addition to Plant X has an estimated cost of \$15,857,000. It incorporates a number of important "firsts" for the company. Its capacity is of course the largest to date

210,000 Kilowatts. Steam pressure is the highest the boiler can produce, 1,400,000 pounds of steam per hour. Approximately doubles anything in the company so far. This is the first unit to feed into a transformer which steps up voltage directly to a trans-

Plant X no. 4 was finished on schedule. Everything is completed with the exception of micro adjustments being made by the testing crew presently at work at the Plant.

This big transformer raises the voltage of the current generated by the new generating unit, directly up to 230,000 volts, for economical transmission. The power then goes out on some of the transmission lines leading them from the plant.

230,000 volt air blast circuit breakers between the transformer and the power lines.

mission level of 230,000 volts, and its new substation section has its first installation of high pressure air blast 230 KV circuit breakers. This recent crew of adjusters have been working since April 16 to get Plant No. 4 in perfect harmony and have succeeded in their task to complete the project in early July as scheduled.

Party Line...

Visiting Mr. and Mrs. E. A. Upchurch for the last two weeks are their grandchildren, John Davis, Donice, and Tommy Paul. Their parents, Mr. and Mrs. Eldon Upchurch are of Victoria.

The Edward Bell family were at Buffalo Lake, Umbarger, on a fishing trip from Thursday to Saturday last week.

Mr. and Mrs. A. D. Latham attended the Latham family reunion in Wheeler, Texas in the American Legion Hall. Fifty members of the family were present.

Mr. and Mrs. Faye D. Spain were the house guests of Mr. and Mrs. A. P. Lathan over the weekend.

Mrs. Jewell Lewis and Leslie of Denver City were the guests of Mr. and Mrs. Wilson Lewis Sunday night.

Miss Cheryl Foster has recently become fulltime assistant to Dr. Richardson after working part-time during the school term. Mrs. Richardson is no longer in the office.

Plant X No. 4 has a more advanced system of data acquisition, logging, computing, and recording than anything in the Southwestern Public Service System so far.

Meeting At Hereford On Insecticide Residue On Agricultural Products

On July 14, 1964, at 8:15 p. m. an educational meeting is being held in the Community Building at Hereford, Texas for the purpose of bringing facts to the producer, the processor, and the general public on the real problem of insecticide residue on agricultural products. This meeting is being sponsored by the Extension Service with the cooperation of the

Hereford Chamber of Commerce, the Amarillo Chamber of Commerce, and various agricultural insecticide dealers in the area. The U. S. Food and Drug Administration will be represented by Mr. Sam Fine, Chemist with the Dallas office, who will discuss chemical tolerances allowed on various agricultural

products and methods that are used to determine these chemical residues. Also on the program will be Mr. Allen Gunter of the Agricultural Dept. of Hercules Powder Company who will discuss the various chemicals used in the control of insects on agricultural products produced in this area. Mr. Gunter is a former extension entomologist with Texas A&M College and is well known throughout the Texas Panhandle. Other agricultural authorities will be in attendance at this very important meeting that is open to the public.

Mahon Urges Committee To Appropriate Money For Combating Boll Weevil

Congressman George Mahon appeared Monday before the Senate Committee on Appropriations to urge the inclusion in a Senate money bill of \$1,000,000 to be used for the purpose of combatting the advance of the boll weevil into the High Plains area.

The President last week sent the \$1 million budget request to Congress for the boll weevil program. Mahon, Chairman of the House Appropriations Committee, had asked the President and the Secretary of Agriculture several weeks ago to approve the request for the necessary funds. The funds would be available only if matched by a similar sum from area farmers, and High Plains farm groups have made such commitments.

The House of Representatives on May 20, despite the absence of a budget request, approved for the same purpose a sum of \$200,000 in its Agriculture Appropriation bill. If the Senate approves the increase of \$800,000 above the House bill, it will then be sent back to the House for further consideration.

Actions taking place in Washington are an outgrowth of the discovery last spring that the boll weevil had wintered on the fringes of the High Plains. Farmers became concerned and formed a boll weevil committee to push for action. Last April Mahon joined an area farm group, backed by the Plains Cotton Growers, and appeared with them before the House Approp-

riations Committee to ask support for a cooperative program between farmers and the Department of Agriculture to combat the weevil threat. In view of the President's supplemental budget request, Mahon said he is optimistic that favorable action will be taken in the Senate and that the funds will be provided in the final version of the bill to be worked out in a House-Senate conference.

Shredding May Be Advisable For Hail Damaged Grain

Hail damage to grain sorghum can be very devastating but it is sometimes possible to produce a crop from the regrowth if the damaged stalks are shredded, says Ben R. Spears, Extension agronomist, Texas A&M University.

Success of this regrowth crop in the central and south central portion of the state, says the agronomist, depends primarily on these factors: insect damage, temperature and soil moisture, and disease.

Insect damage results primarily from the sorghum midge. The larva or maggot of this destructive fly feeds on the internal content of the seed, causing the grain heads to appear "blighted" or "blasted".

The first crop is usually harvested around July 15 in the Angleton area. If damaged by hail, the crop, shredded in the bloom stage, will require another 30 to 60 days before reaching this stage again, says Spears. Although occurrence of the midge in damaging numbers cannot be predicted, it may be serious if soil moisture is adequate for host plants such as Johnsongrass or Sudangrass.

Spears warns that precautions

should be taken to detect the midge and that promises of a good yield may warrant the use of an insecticide as a control measure. Among the approved insecticides are Sevin, Endrin, Trithion, diazinon, toxaphene and parathion. Recommended instructions should be followed in their application and all restrictions should be carefully observed.

Temperature and soil moisture are also important considerations. Heat will often limit yields from a regrowth of sorghum as will poor soil, moisture, comments Spears.

Head smut is one of the most damaging diseases to grain sorghum and may also be an important growth-limiting factor. In regrowth of a susceptible hybrid, the disease has been observed to range from about the same as the first growth to 400 percent more, Spears adds.

Research and experience has shown that the best height at which to shred the sorghum is four inches. At this height tillers are produced at ground level, resulting in stronger stalks and better heads than when shredded higher.

Unit No. 4 turbine generator is 210,000 K W, and is now considered as being capable of generating its share of the company's load.

A view of the boiler for the four units now in operation at Plant X.

Public Debt Cost Hits \$5,402 For Each Family Unit

The burden of the high cost of the national public debt has grown to the point that each family's share is now \$5,402.

In interest payments alone the federal government has had to expend \$118 billion of taxpayers' funds—from 1947 through 1963—to service the debt that has swollen to an all-time high of \$311.8 billion. In 1947 the interest charges amounted to \$5 billion. In the fiscal 1965 year they will reach \$11 billion.

Each family's share of the interest charges, alone, for selected fiscal years is shown in the following table prepared by the Tax Foundation: (Interest payments are given in millions and per family costs in dollars)

F. Yr.	Int. Payts.	Per Family
1947	4,958	109
1950	5,720	120
1955	6,370	125
1960	9,180	166
1961	8,957	160
1962	9,120	161
1963	9,895	171
1964	10,600	182
*1965	11,000	187

Nesha and Quincy Lewis have returned from Denver City where they spent a week with their grandmother, Mrs. Jewell Lewis.

NAM Plans Trade Tour Of Europe To Spur Exports

The National Association of Manufacturers has announced plans for a 21-day airborne "Trade Expansion Mission" to Western Europe this fall with the specific objective of promoting increased United States exports.

NAM President W. P. Gullander said that industrialists taking part in the Mission will leave New York on Oct. 1 via Pan American World Airways and will visit London, Brussels, Duesseldorf, Milan, Rome, and Paris.

"We believe the Mission will encourage NAM member companies who do not currently have offices abroad to become acquainted with the opportunity for two-way trade in European markets," Mr. Gullander said. "Also it will provide better understanding among our members of current economic, political and social trends in Western Europe and will enable them to get acquainted with their counterparts there."

The itinerary will include a meeting in London with officials of the European Free Trade Association (the Outer Seven) and in Brussels with top leaders of the European Economic Community (the Common Market).

The Boy Scouts left camp at Tres Ritos, Sunday at 8:00 a. m., from the scout hut,

Pleasant Valley News...

by Sheryl Stevens

Mr. and Mrs. S. K. Flatt, Gene and Collin spent the 4th of July at Brownfield, visiting with Mrs. Flatt's parents, Mr. and Mrs. H. L. Berry.

Carolyn Allison and Paisy Angeley attended a cookout party honoring Debbie Bryant on her birthday Monday night in the home of Linda Griffiths, Muleshoe.

Mr. and Mrs. Franks, Brownfield, visited in the S. L. Jackson home over the weekend.

Visitors in the Gerald Allison home Monday night were Mrs. Allison's sister and her family, Mr. and Mrs. J. W. Shaw and their guest, Becky Howell, all of Abilene, N. M.

Tub Angeley was home over from Ft. Sill at Lawton, Oklahoma.

Sheryl Stevens was honored on her birthday with an outdoor cook-out Thursday night at the home of Lynne Barrett, Muleshoe. Those attending were: Veta Allison, Wayne Tunnell, Jan McVicker, Wayne Malone,

Bill Glibreath, Sherri Smith, Donna Precure, Kenny Spawm, Pat Barrett, Max King, Dean Ethridge, Karan Bragg, Beverly Barrett, Hereford, Donnie Smith and Mike Bean—the hostess and the honoree.

Mrs. Duane Stevens a son, Blake, left Wednesday for Dallas where they will visit with friends and relatives. They will then go on to Texas to visit her mother, Mrs. Bonnie Cook.

Mrs. B. H. Bickel visited with Mrs. S. L. Jackson Monday morning.

Mr. and Mrs. Oscar Allison and son, Sam, returned home Sunday from an extended visit with their son, Mack, who is stationed at Ft. Eustis in Virginia. They came back by Alabama, and visited with Mr. and Mrs. Jimmy Allison and by Greenville, where they visited with other relatives.

Mr. and Mrs. Roland Stevens and daughter, Tania, Dimmitt, visited in the Elmo Stevens' home Monday night.

The Pleasant Valley Social Club met Thursday afternoon, June 25, in the home of Mrs. Gerald Allison. Mrs. Joe Embry introduced the guest speaker for the evening, Morris C. His talk was on Americanism and the American heritage program in the schools. He also told of living conditions of the American soldiers stationed in Korea. During the business meeting, the club voted to have a Social in July. A committee was appointed to plan the social, and cards will be sent to all members informing them of the plans. There will be no club meetings in July other than the Social and only one meeting in August. Mrs. Harold Allison won the patch apron. Each member had sewn a patch on the apron with

Party Line...

Mrs. Mattie Boone returned home Monday, June 29th after a months visit in Salem, Oregon with her son, Roy Boone and family. She flew to Salem by jet.

Mr. and Mrs. Marvin Sanders were hosts to a 42 party Tuesday evening at 7 p.m. After a Mexican dinner, games of 42 were played. Guests included Mr. and Mrs. Milton Baldwin, Mr. and Mrs. Robert O'Hair, Mr. and Mrs. Bill Mann, Mr. and Mrs. Perry Marten, Mr. and Mrs. Chubby Dens, Mr. and Mrs. Pat McCord, and Mr. and Mrs. Bill Anderson.

Mrs. S. Clay Beavers and Mrs. Faye Starke were in Lubbock shopping Tuesday.

Becky Littleton, daughter of Mr. and Mrs. J. H. Littleton, Jr., returned Sunday after spending a week with her grandparents, Mr. and Mrs. L. Z. Anglin in Ruidoso,

Party Line...

Mr. and Mrs. Doug Ruby of Earth returned their granddaughters, Mana and Mel D. Truelock, to their home at Lake Texoma, and spent the Holiday weekend visiting the James Truelocks and Mr. and Mrs. K. Harmon in Breckenridge.

Mr. and Mrs. Johnny Martin were hosts to the Junior High

and High School young people of the Church of Christ in their home Thursday evening at 8:00 o'clock. There was singing and games.

Refreshments were served to 25 young people.

Mr. and Mrs. Roy Neal have had for the past three weeks Mrs. Neal's aunt, Mrs. J. N. Wilson of San Diego, California. She returned home Sunday.

Mr. and Mrs. Elroy Wisian, Springlake, and Mr. and Mrs. Forest Collins, Earth attended the funeral services of Mrs. Wivian and Mrs. Collins' grand father in Munglerford, Texas on Saturday.

Garland Jofner and son, Joe of Amarillo were the dinner guests Sunday of Mr. and Mrs. Roy Neal.

E. L. Sloan was in Lubbock Friday on business.

I've always heard dynamite comes in small packages, that may very well be, but so does energy, and my vote for the smallest most energetic enthusiastic person in the world goes to Mrs. Lena Hite, who doesn't know how to quit when she gets tired. Last week, someone reported Lena out in the hot sun going up and down the rows chopping cotton. . . when asked if she was chopping cotton she replied, "Well, yes, I got up early this morning and started working in my yard, I finally got so tired of yard work and I could see weeds in Pody Welch's cotton, so I grabbed up my hoe and just walked over in Pody's field and started chopping where you could tell when you had accomplished something."

Mr. and Mrs. Richard Moore visited in the home of Mr. and Mrs. Hershel Hulcy, Sun. night.

Mrs. R. C. Hyde had as her guests for the weekend her granddaughter Dickie Hyde, Plainview.

Mrs. Mary Gilmore and Mrs. Roy Trulock had lunch Monday with Mrs. Carl Gregory at Dodd.

Mr. and Mrs. Gerald Engls have their niece, Judy Kaye Dempsey from Lubbock spending the week with them.

Visiting Mrs. Clara Kelley is her daughter Mrs. Maggie Eagle and son, Glen of Colorado City Texas. They arrived Sunday night.

Bill Anderson

Mrs. Bill Anderson

Andersons Join Springlake Faculty

Mr. and Mrs. Bill F. Anderson will join the faculty of Springlake schools this fall, coming from teaching positions in Sacramento area schools. Mr. Anderson will teach English in the Springlake Schools and Mrs. Anderson will be on the elementary faculty, teaching second grade.

Mr. Anderson is a graduate of Fullerton High School, Fullerton, California, and received his BA from Oklahoma Baptist University, Shawnee, Oklahoma, in 1961, with a major in history and minor in English. He also holds a master's degree in religious education from Golden Gate Baptist Theological College, Mill Valley, California, which he received in 1956. He has done other graduate work at Sacramento State College, Sacramento, California. Mr. Anderson has taught seven years, two of that time in English and history at St. Charles, Missouri and five years at Sylvan Intermediate School, Citrus Heights, Calif. Mrs. Anderson is a Moberly High School graduate of Moberly, Missouri. She also holds a BA from Oklahoma Baptist University, received in 1952, with a sociology major and history minor. She has done further work at Golden Gate Baptist Seminary, Mill Valley California and Sacramento State College and also taught primary grades at Citrus Heights, California for five years. The Andersons have two children, Kevin, age 9, a fourth grader, and Kathleen age 7, who will be a second grader.

LEGAL NOTICE

NOTICE TO BIDDERS

Sealed proposals for the construction of certain water system addition, consisting of one 200,000 gallon ground storage reservoir and retaining wall will be received by the Honorable Mayor and City Council of the City of Earth, Texas at the office of the City Secretary, City Hall, Earth Texas, until 7:30 p.m. July 6th, 1964, at which time and place the proposals will be publicly opened and read aloud and considered by the City Council. Any bid received after closing time will be returned unopened. No bid submitted may be withdrawn before thirty (30) days have elapsed after date of submission.

Copies of the plans, specifications and contract documents are on file at the office of the City Secretary at Earth Texas, and are open for public inspection. A set of such documents may be obtained from Douglas Engineering Company, 108 East Fourth Street, Littlefield, Texas, upon payment of \$10.00 for each set of plans and specifications obtained. This deposit will be returned to each Bidder who submits a bonafide bid on the job.

A cashier's check or certified check payable without recourse to M. E. Kelley, Mayor, City of Earth, Texas or an acceptable Bidder's Bond in amount of at least 5% of the total amount bid must accompany each bid as a guaranty that, if awarded the contract the bidder will promptly execute a performance bond and enter into contact on the forms provided. Checks must be issued by a Texas Bank satisfactory to the City and Bidder's Bond by a reliable Surety Company licensed to do business in the State of Texas.

A performance bond in an amount not less than the amount of the award conditioned upon the faithful performance of the Contract and the payment of all persons supplying labor or furnishing materials or other services will be required from a Surety Company holding a permit from the State of Texas to act as a Surety on bonds of principal.

The city reserves the right to reject any and/or all bids and to waive formalities except that no bid received after closing hour will be considered.

The Contractor will be paid in cash and bids are to be made on a cash basis.

The attention of bidders is called to the special provisions concerning minimum wage rates and hours of employment included in the Specifications and Proposals to insure compliance with House Bill No. 54 of the 43rd Legislature and the House Bill No. 115 of the 44th Legislature of the State of Texas, and all Federal Wages and Hours Legislation if such is applicable.

Marshal E. Kelley, Mayor
City of Earth, Texas

(Published in the Earth News-Sun, Thursday June 18, 25, July 2, 1964).

There Are No Cement Roads In The U. S.

Here's a "sure thing"! Bet your friends that there are no cement roads in the United States. No cement sidewalks, driveways or buildings, either. You'll win. So-called "cement" structures are really concrete. Cement is only an ingredient. Here are some facts to make you an expert on the subject.

Concrete is a mixture of portland cement, water, sand, and gravel or crushed stone. Usually, it also contains an admixture—a chemical that improves concrete's properties.

Here's another hard fact: The cement content does not determine the strength of concrete—water does. Here's why:

Water combines with the cement to form a glue that holds the sand and stone together, and also lubricates the mix. Therefore, more water dilutes the glue and decreases the concrete's strength. Less water means more strength.

Thirty years ago, research scientists at Master Builders Company, the nation's largest

producer of concrete admixtures, discovered a secret of reducing water. And they found that a small amount of certain chemicals to a batch of concrete makes it as workable as regular concrete, but with 20% less water. The concrete with the admixture is about 25% stronger when it cures.

Ready-mix concrete producers throughout the world now use water-reducing admixtures to make the best possible concrete from locally available materials.

In our own country, water-reducing admixtures have been used in the Naamans Towers, the new Glen Canyon Dam, the TWA terminal at Kennedy International Port, and the many outstanding free-form concrete buildings at the New York World's Fair.

Now that you're an expert on such matters you can amaze your friends by telling them the difference between cement and concrete.

Thunderstorms in Bogar, Java, over 320 days a year, on the average.

Self-Sealing Shingles Fight Winds

In revising its code aimed at making roofs more resistant to winds, the FHA has issued standards for roofing installation in high-wind, medium-wind, and low-wind zones.

The code now requires cementing down the tabs of asphalt shingles on all roofs in high-wind areas, specified as over 90 m.p.h. In areas where winds reach a maximum velocity of 80 to 90 m.p.h., the alternative to cementing is use of shingles weighing 275 pounds per 100 square feet. Low-wind requirements are left to local officials, but cementing is recommended wherever winds over 70 m.p.h. have been experienced.

The new standard calls for cementing down the tabs of asphalt shingles on low-slope roofs in all zones.

Roofing contractors favor self-

Awake, thou that sleepest. —(Eph. 5:14).

The best way to avoid getting into ruts in our thinking and from falling into routine ways of doing things is to be spiritually awake to the joys and wonders of life. These joys and wonders are fed by the imagination, the God faculty in us that looks at the ordinary in an extraordinary way.

Nearly 90 per cent of all the scientists in world history are living today, according to the National Geographic Society.

sealing asphalt shingles which have factory-applied cement that softens under the sun's heat, causing the shingle tabs to adhere to the course below.

MEMO To FARMERS And RANCHERS . . .

TIDE EQUIPMENT SAVES YOU MONEY

HOW TIDE'S TILT BOX SERVES YOU:

Tide's TILT-BOX, pictured above, is an air-tight, all weather container. It keeps your fertilizer dry, fresh, and free-flowing. This TILT-BOX puts 14,000 pounds of fertilizer where you want it . . . at the most convenient location to the field and high enough to make loading any type of application equipment easy.

Because of Tide-designed equipment and production facilities, you don't wait for Tide fertilizer . . . it's delivered the day before you need it and left at the field to fit your schedule.

PRESCRIPTION MIX FERTILIZER

Tide takes soil samples from your land, free of charge to determine exactly what your soil needs. Then your fertilizer is mixed from high analysis raw materials to fit your exact requirements. Because it is made "on order", your fertilizer is fresh, dry, and free-flowing.

TIDE SERVICES

Tide grower services and products are planned to save time and labor . . . help take the guess-work out of farming. Agricultural Consultants, free soil tests, and Tide's custom-designed, weather-proof, delivery and storage equipment, cut your production costs. TRY TIDE . . . you'll be glad you did.

ECONOMICAL

Ease of handling fertilizer in Tide equipment reduces cost . . . saves time and labor. One man can fill an applicator or spreader with Tide fertilizer simply by opening a gate in 2 to 3 minutes. With Tide's "prescription mixes", you buy only the nitrogen, phosphate and potash your soil tests show you need. High analysis fertilizer cuts material handling costs. No bags to handle UNLESS YOU WANT IT BAGGED and storage is no problem, as Tide's Tilt-Box, holding 14,000 pounds, provides air-tight delivery and storage at the end of the row.

TIDE also has a 32,000-gallon Anhydrous Ammonia storage and several types of Anhydrous Ammonia applicators available to the growers of this area. Also dual applicators for application of bulk dry fertilizers and Anhydrous Ammonia in the same operator, thus offering another saving to the grower.

LET THE EFFICIENCY OF OUR EQUIPMENT AND OUR EXPERIENCE HELP THE EFFICIENCY OF YOUR FARMING.

No Bags to Burn
No Bags to Handle.
FREE FLOWING Fertilizer
By Just Pulling the Handle.

School-Age Marriages Continue To Increase

COLLEGE STATION, June --School-age marriages may not be wise, yet after one becomes a fact, adults working with the couple have a big responsibility to help them succeed. Indications are that they will continue to increase in numbers.

So says Patsy Reynolds, Extension specialist in family life education at Texas A&M University.

Marriage is always a time of adjustment, she explains, regardless of the age of the couple. "Add to the normal problems of this period the disapproval and often bitter incriminations of parents and the load becomes almost too impossible for the young couple to carry."

According to a study made by Dr. B. J. Fallon, Executive Secretary of the West Texas School Study Council, school-age marriages have a divorce rate two to four times greater than those who marry at age 20 or

older. Dr. Fallon directed the survey in 238 Texas schools in 1958. Conclusions of the research indicate that schools should educate for a "balanced social perspective" if these school-age marriages are to be reduced or those which occur are to succeed, the specialist says.

The parents and community can give the young couple practical education for dealing with problems such as budgets, house cleaning and care and use of household equipment, and preparation for earning a livelihood.

In the event of a school-age marriage, the students should be encouraged to complete education if at all possible. Human potential is rarely maximized without the benefit of formal education. Less than full realization of human potential constitutes a loss for the individual, the community and society at large, the study concludes.

THE SIGNS OF TIME ARE evident that it's Rodeo Time in Little ole Earth, Texas, the biggest little city on Earth. Anticipating a fine rodeo, his first in Earth, is Paul Lee, manager of the Earth Auto Parts.

OUTDOORS IN TEXAS

By VERN SANFORD

Nature has a way of taking care of her own problems. If you take a tract of land and never touch it, the balance of nature to available habitat will remain fairly stable all the time. Nature has many devices for such control — predators, disease, starvation. None of them are very pretty, but nonetheless they are quite effective.

The real trouble starts when someone begins tinkering with this delicate balance of nature. As things now stand in Texas, there are no lands left which haven't, in one way or another, felt the presence of civilization.

This, of course, compounds the problem. When a rancher chains the brush off his land, he destroys much of the wildlife habitat. As some of the predators are killed, it also knocks the balance out of proportion.

The more this balance is altered, the bigger the need for competent wildlife biologists to try and get things back in some semblance of order again. Perhaps heavier hunting pressure is desired, to compensate for the lack of natural predators.

But despite all the work of man, nature still makes her presence felt, quite dramatically at times. Experience has shown us that there are cycles of wildlife, diminishing populations in lean years, booming

populations in years of plenty. Nothing we can do will alter this natural cycle.

A drastic die-off of deer in Llano County a couple of years back was a dramatic example of this. It was, simply, nature's way of balancing the deer herd to the available habitat.

Contrary to popular belief, game can not be stockpiled. Only so much wildlife can survive on any given number of acres.

A covey of quail, for example, never will get any larger in numbers no matter how much it is protected. It may diminish in lean years, but even during good years it will go only to a certain level and remain there. This, whether the birds are hunted or not.

Natural attrition annually takes care of about 80 per cent of the birds. This means that 80 of every 100 quail each year will be young birds.

This also is true of deer. Many ranchers, upon seeing a drastic increase of deer on their lands, attempt to resort to artificial feeding. According to James Teer, with the wildlife management department at Texas A&M, this only compounds their troubles.

"Such feeding programs only prolong and aggravate the problems," he said. "Such programs only treat the symptoms, not the disease. The symptoms are poor deer: the

disease, poor range."

Teer points out that deer are increasing in numbers, despite the fact that more have starved, annually, than legally were taken by buck hunters.

Parasites also take a heavy toll. Yet we still have more deer today than ever before.

"Removing surplus deer is a vital part of deer herd management," said Teer. "And common sense tells us that harvesting both sexes is sound and practical on some ranges."

He asks landowners to look at the problem like this: Selling only bulls, rams or billies from herds of domestic stock is impractical management. Unless both sexes of livestock are marketed, the pastures soon become so overstocked with females that the range can not produce enough forage to feed them. The number of deer generally is determined by carrying capacity of rangelands, not by the annual harvest of deer by hunters.

This, then, points up some of the problems encountered when man starts tinkering with nature.

"Most deer never reach what is considered a ripe old age for whitetails," Teer went on. "Although some deer do live 20 years, a buck that escapes hunters and the toll of nature for five years is considered old. As far as the total deer production is concerned, deer over 7½ years are not common members of the herd. About 95 per cent never see their fifth birthdays."

So it readily can be seen that the sport of hunting is vitally necessary, not only for the economical value it brings to the nation's communities, and the fun it provides for people of all ages, but also for the role it plays in wildlife man-

agement. Man has taken much of the control of nature away from the Old Lady herself.

But nevertheless, the Old Lady Nature all makes herself felt quite dramatically and strongly in our everyday scheme of things, particularly in the great outdoors.

Lions Appoint 10 Committees To Function During '64-'65

Officers of the Local Earth Lions Club appointed Committees for various projects when they gathered for a regular noon day meet Tuesday at the community room.

Officers assisting in the appointment of the committees for the year '64-'65 were Lion Boss, Carroll McDonald and his assisting officers--Roger Harberer, Fred Clayton, Norma Hinchcliffe, J. H. Angeley, Edwin O'Hair, Paul Lee, Phil Raugh, M. R. Phillips, George Laing, and Rex Clayton.

Thirty one men were voted to function in the 10 committees appointed.

On the Program Committee, Phil Raugh was appointed as Chairman, assisted by Bill Mann.

Finance and Special Projects Committee called for Dr. C. H. Bausman as Chairman, aided by M. B. Baldwin, Norman Hinchliffe, Roger Harberer, Jim Birner, and M. E. Kelley.

The Membership Committee

is headed by George Laing, and Paul Lee.

The Food Committee calls for Neil Pounds as Chairman, Wendell Clayton and M. R. Phillips.

The Ladies Night Committee is headed by Melvin Bock, assisted by Norman Sulzer, and Dwand Harris.

The Sight Conservation, Public School, Health and Welfare Committees has as its Chairman, Rex Clayton, assisted by M. R. Phillips, Norman Sulzer, and Dr. C. H. Bausman.

The Publicity Convention and Queen Committee is composed of Albert Lindley as Chairman, L. K. Anderson and Bill Beasley.

The Agricultural Committee is Jarvis Angeley and M. H. Beck.

Constitution and By-Laws, has M. E. Kelley as Chairman.

The Christmas Food Committee is headed by Fred Clayton, Ross Middleton, Paul

Haberer Wins First In Muleshoe Meet

Russell Haberer, one of the outstanding golfers of this area, claimed the championship in the annual Muleshoe Country Club Invitation Golf Tournament last week. He topped the performance of Max Hickey, Pampa and Jack Williams and other heavy competition to take first place. This is Haberer's third attempt at the first place slot in the Muleshoe tourney, which he accomplished only a few strokes away from his past performances, which were also outstanding.

Mr. and Mrs. J. J. Davis have as guests this week their granddaughters, Lesley and Tessa Haberer. Their parents, Mr. and Mrs. Russell Haberer are currently in Colorado Springs where he is playing in a golf tournament.

Wood, Dwayne Harris and Jack Rylant.

BLEACHERS EMPTY--No one to applaud so hard buckin', high kickin' Rodeo steers rest quietly getting in shape for the big 3 day Rodeo to begin Thursday. . . . Anyone for a snooze maybe???????

Dawson, Coker Attend FFA Convention

Ken Dawson and Bob Coker have been selected as the Springlake Chapter representatives to attend the State FFA Convention in San Antonio, Texas, July 14-16. While at San Antonio they voted delegates will select State Officers and vote on general business dealing with State FFA. They also select the State FFA Sweetheart, as well as winners of the talent contest.

Mr. E. G. Gaston, Springlake School Agriculture Instructor summed up the aim of the convention by saying "The main objective is the knowledge and inspiration the boys will get from FFA work and the development of leadership qualities."

C of C Votes Rodeo Prizes

The Earth Chamber of Commerce held its monthly Director's meeting Friday afternoon, July 3rd. The Board of Directors voted to help the city pay one man three days to do needed cleaning about the city.

They also voted to furnish 5 trophies for first, second, and third prizes to the 3 top riding clubs participating in the Rodeo Parade, along with \$15 for first place, \$10 for second place and \$5 for third place to the three outstanding floats.

All food, with the exception of the meat for the free Barbeque dinner on the opening night of the Rodeo will be furnished by the Chamber of Commerce.

A committee was appointed to make a study of the possibility of a golf course for Earth. Committee members are Bill Beasley, Harold Miller, Carroll McDonald, Phil Raugh, and Bill Beasley.

Driver's Ed. Classes Now In Session

Drivers Education classes under the direction of Cecil Slover are now in session at Springlake School. This is the second year for the summer course which is done in addition to help high school work with no credit given. The cost is \$25 and classes began June 8.

The first week of instruction is spent in classroom work, and discussion, followed by actual car operation with 3 students driving hourly under the guidance of Mr. Slover. Anticipated completion date is August 15th.

Frankie and Lewis Faver were recently in Sweetwater for a reunion. From there they will go to Eagle Pass to visit the Bozeman's. Tim and Joe Dent accompanied them.

Unique Fashions Move To New Home

Unique Fashions is now at home in new surroundings in the former Star Cafe Building. The remodeling of the building has allowed the shop more space better display area and in turn, even better service. The move was made over the past weekend and things are beginning to take shape to form a lovely fashion center that is a credit to Earth. Mrs. Dene Wendhorn and Mrs. Alene Griffin invite you to visit them soon.

Pounds Pharmacy To Move Into New Home July 15

Pounds pharmacy will be moving to a new location next door to the Earth News-Sun. Plans are made to have the move completed by July 15th according to Neil Pounds, owner. With the additional space that will be available, a more complete line of health needs will be supplied. This will include a full line of vitamins, braces, supports and general health supplies.

A more efficient prescription service will be offered with greater supplies of accessory prescriptions assuring more complete service. Efficiency convenience and beauty will be combined to give outstanding service.

Directors Of Livestock Sale And Show Meet

The Board of Directors of the Earth-Springlake Livestock Show and Sale have met to lay the groundwork for rules and by-laws of the group. Also future plans to develop ideas for a membership drive were made.

An open meeting for acceptance of the Board's suggestions will be announced later.

Board members are John Bridges, president; Ed Jones, vice president; Ed Dawson, secretary-treasurer, Orville Cleavinger, Bud Matlock, Jearl James, Kenneth Hinson, Norman Hinchliffe, James Sanderson, ex officio, E. G. Gaston and Bill Kimbrough.

rushed to the Medical Acts in Littlefield.

The accident occurred as Mrs. Layman, mowing her lawn with an electric mower, attempted to mow around some trees and plants and in so doing, she pulled the mower backward too far pulling it over her right foot. The accident occurred so quickly that a leader was clipped, and her foot chopped by the blades before the mower moved from the foot.

New Stadium Tickets Go Fast

Reserved seat tickets for games at the new Wolverine Stadium went on sale, Wednesday, July 1. Sales of the 256 seats available in the reserved center sections have zoomed with over one half sold by Tuesday evening. Only 122 seats remain in the center section and only three press box seats were still available.

The beautiful new stadium is now under construction on the Wolverine field at Springlake School. Seating capacity is 1066, with individual chairs available in the press box enclosure, which features heat throughout. Scheduled to be completed around September 1, the stadium will be complete with a two storey press box, with the top floor used for news coverage and filming, while the second floor is reserved seating.

Prices of tickets are \$10 for one year, or \$25 for a three year period, in the center section, with press box seats selling for \$25 a year, \$45 for two years or \$60 for a three year period. Tickets may be obtained at City Drug in Earth, and Springlake Elevator in Springlake.

Barton Attends Racing School In Oklahoma

Welda Barton, ten year old daughter of Mr. and Mrs. Weldon Barton has recently completed schooling somewhat unusual for young ladies of ten. Welda participated in a Barrell Racing School in Addington, Oklahoma, May 30-June 28. At the close of the month long session a youth Horse Show was held with approximately fifty children entering 329 events.

Welda entered eight events and with the help of "Pinky" her horse, placed 2nd in Pole Bending, 2nd Western Pleasure, 3rd Western Showmanship, 5th in Key Hole Racing, 6th in Boat racing and 6th in Flag Pole Racing.

Visiting Mr. and Mrs. M. E. Kelley recently was Mrs. J. C. Green, of Marlow, Oklahoma, Mrs. Kelley's mother, Mrs. Herman Habbinga, Lubbock, visited Saturday afternoon. Other recent guests were Mr. and Mrs. R. O. Burnett, Marlow, Oklahoma, who visited the Pete O'Hair's also.

Mr. and Mrs. Charles Parish returned Monday from visiting her mother, Mrs. L. U. Wieland, Albuquerque.

Welda Barton, daughter of Mr. and Mrs. Weldon Barton, displays her ribbons won recently in the Youth Horse Show that climaxed a month of Barrell Racing School in Addington, Oklahoma. Welda and her horse, Pinky, placed in eight events.

their niece and nephew Kay and Randy Whitworth from Borger.

The David Cearley children visited Mr. and Mrs. Sam Cearley last week.

Mrs. Dora Terry returned Sunday from a three week trip to Oklahoma and Texas. In Lawton, Oklahoma, she visited her brother, W. A. Hill. In Burk Burnett, she visited her aunt, Min-

nie Hill, and then went to Wichita Falls, and visited her cousin, George Hill and family. Mr. and Mrs. J. O. Penley were in Mangum, Oklahoma July 3, 4 and 5th for a family reunion.

First State Bank Has Ad Of The Month

Advertisers in the Dallas Morning News copped all four places in the daily newspaper classification of the Texas Press Association's Ad-of-the-month contest for April.

First-place winner was Titcher's "Festival Mexicano" ad. It made good use of color, had a striking layout and the theme was well carried out.

A Sanger-Harris Ad captioned "Our Beach Shores Are Open" placed second. It was a sports wear ad presented in cool and inviting pastel colors.

Neiman-Marcus of Dallas was the third-place winner in the daily classification. Captioned "Arrive in a Trail of Flowers" it advertised luggage with an eye-catching layout.

"Catalina's Color-Go-Round" was fourth-place winner for Titcher's of Dallas. Bold design and color, as well as originality and good short copy, made it a winning ad.

Honorable mention in the daily classification went to Barry's "Splishin' Fashion" ad. This advertisement appeared in the Killen Daily Herald.

Winning first place honors in the weekly group was the First State Bank of Dimmitt. Ad appeared in the Earth News-Sun, headed "Use Our Night Depository", the ad was a strong, clean, simple layout with fine reproduction. Although small in space, it appeared to dominate the page.

Placing second in the weekly classification was an advertisement by Foodway at Fort Stockton. Ad ran in the Fort Stockton Pioneer. This was a contest ad centering around the theme: "Do You Know Your Teachers?" Ad was an excellent interest builder and provided good community relations. Layout ably organized many elements.

The Waco Citizen published the third place winner in the weekly classification. Ad was for the Golden Shoe Service of Waco. Nice use of color to attract attention to a small-space ad and well organized typography placed this ad among the winners.

An ad by the Mesquite Championship Rodeo, published in the Texas Mesquiter, won fourth place honors in the weekly division. This ad created excitement and attracted maximum attention. It had good art and was well laid out.

Honorable mention in the weekly classification went to the Pounds Pharmacy for its ad which appeared in the Earth News-Sun.

Also receiving honorable men-

tion was the Highland Village Apartments ad, published in the Texas Mesquiter.

Judge for the April contest was Richard W. Mithoff of the Mithoff Advertising Agency of El Paso. Mrs. Polly Harris, Account Executive with the firm, assisted in the judging.

Daily and weekly first-place winners receive an engraved plaque, as well as colorful certificates. Other winners in both the daily and weekly classifications receive colorful hand lettered certificates as an award for "excellence in advertising" during the month of April.

CAPITAL BRIEFS

UNWANTED RECORD—The U.S. public debt exceeds by \$24 billion the combined public debt of all the other nations in the world.

EXAMPLI NEEDED—Rep. Springer (R-Ill.), said that while he agreed with the Administration on the need to combat inflation the federal government should set the restraint example for industry and labor by curtailing federal spending.

STAYING ON—Despite publicity about high-level federal officials leaving because of low pay, overall federal employment turnover has dropped from 16 to 14.4 per cent a year.

NO COMMUNICATION—The General Accounting Office has charged that the Navy's failure to obtain rotor assemblies available from Army, and which later were excess to the Army's needs, cost the taxpayers an unnecessary \$757,000.

THE FIRST STATE BANK OF DIMMITT was awarded the beautiful first place plaque for the "Best Ad of the Month" to be published in any weekly newspaper in Texas, during the month of April. The ad appeared in the April 23 issue of the News-Sun. Making the presentation to Mr. Bob McLean, president of the bank, is Mrs. Polly Middleton. Holding the paper containing the winning ad is James Horton, vice president and trust officer.

Petroleum "Plumes"

Triple explosive charges resembling feathery plumes, are set off in the Rub-al-Khali desert in Saudi Arabia by a seismographic crew of the Arabian American Oil Company. Sound waves are generated, picked up by microphones and charted to determine whether the rock structures beneath may have characteristics indicating they might be oil bearing. If such evidence is found, then drilling operations follow to learn whether or not there is oil. In the foreground is an Aramco employee and a seismograph truck.

Rev. and Mrs. Kelly Newman were in Earth Sunday while he spoke at both services at the Church of Christ. He will also be here next Sunday, while Bro. M. R. Phillips is recuperating from surgery. Friends may remember the Newman Family when he preached in Earth frequently in 1964. Their daughter, Nita, is a freshman at ACC.

My Neighbors

There'd be fewer broken homes if more people did things together like us, Helen.

My Neighbors

"Now maybe we can get along with our game."

About Your Health

by J. M. Amberson, M.D.

Your Teeth and Your Health
Why should a physician write about the importance of proper care of your teeth?

Because we in medicine have long known that diseased teeth or gums may be the underlying cause for a number of complaints.

For example, abscessed teeth are often responsible for muscular aches and pains in the joints, especially in the back, arms, and legs which may resemble rheumatism. In fact, a bad tooth may be enough to trigger an arthritic or rheumatic flare-up in a person who has a history of such difficulties.

Other conditions such as improper digestion, kidney ailments, lymph gland infections, and certain types of heart trouble may also be caused or aggravated by diseased teeth or gums.

You have heard the phrase "visit your dentist at least twice a year." The reason for semi-annual checkups is that the dentist may discover and correct minor problems before they become major ones. An untreated cavity may result in intense pain — and loss of the tooth. Tartar will cause periodontal disease (diseases of the gums) and this can result in tooth loss.

But, you say, "the dentist hurts." Are you sure? Many of us labor under old fashioned ideas and have not taken the time to notice the new techniques, equipment, and medications the dentist now has available.

Remember post operative pain, i.e., the discomfort experienced after a tooth was extracted? A recent clinical study of an anesthetic and antiseptic oral solution named Chloraseptic revealed that "relief from pain following dental extractions was obtained in 93.3% of patients using Chloraseptic."

This is only one of the many new developments in dentistry which have created an era of "painless dentistry."

Think of it this way — when you protect your teeth, you are protecting your entire physical well-being.

The young people of the Church of Christ met at the church Sunday evening to practice singing. After practice they went to Carlis Bell's for refreshments. Approximately 15 young people attended.

Seventy-eight Sunday School with 44 in Training Union. The Youth Rally Committee met after the evening services for a planning meeting.

Mr. and Mrs. Kenneth Heard of Lubbock visited Wednesday with her parents, Mr. and Mrs. Herbert Miller of Kentucky. The latter Millers left for their home Friday.

of legislation which will destroy the effectiveness of our immigration laws.

First, the new proposals would repeal our national origins quota system and vest in a politically appointed board, the power to allocate quotas.

Second, there would be an increase of immigrants from 300,000 to over one million.

Finally, the composition of our immigration would shift primarily to Asians and Africans.

We hope the enclosed pamphlet respecting these proposals will be of interest to you.

Sincerely,
Rear Admiral Charles S. Stephenson

TAYLOR MARKET BASKET
EARTH, TEXAS

OUR READERS Write

Dear Mr. Middleton:

The UPI reported on June 21 that Texas editors and publishers, meeting in Houston, passed a resolution expressing "United admiration and support of Lyndon B. Johnson". The appropriateness of resolving "united admiration and support" by the journalism fraternity, I shall leave to your professional ethics. On the wisdom of such endorsement I shall have to comment.

On January 15, 1964, President Johnson said, "We are going to take all the money that we think is unnecessarily being spent and take it from the 'halves' and give it to the 'have no's' that need it so much. Many years ago, Karl Marx stated the communist law from each according to his ability, to each according to his need. Surely if I (a dentist) can see the parallel of these statements, the good newspaper editors and publishers of Texas can also see they amount to almost identical statements.

I trust that you, sir, and other members of the Texas Press Association are not so taken by state loyalty to the president from Texas as to disregard your responsibilities to your profession and the public. Let us have some objectivity in reporting of the news.

Sincerely,
JOHN G. WHINERY, D. D. S.

Dear Editor:

Probably by the time you receive this letter the Congress will have before it a package

Sunnyside News...

BY TEENY BOWDEN

Mrs. Buford Haydon took her niece who had visited with her last week to Weatherford last Sunday and visited with her the first part of this week. She returned home Wednesday after receiving word of Ben Derrick's illness.

Mrs. E. R. Sadler worked with the Hospital Auxiliary Monday morning at the information desk of Plains Memorial Hospital.

Mr. and Mrs. Irving King left Monday morning to spend the week camping out and fishing in the Cimarron Canyon and at Eagle Nest Lake in the New Mexico mountains. They returned home Sunday. Marshall and Dianne King of Dumas went with them and they returned to Dumas for a family July 4th celebration. Mickey Waggoner of Plainview came home last Sunday night for a short vacation. He and Mr. and Mrs. J. Paul Waggoner and Jimmy and Mr. and Mrs. Eldon Lilley and

Twila left Tuesday afternoon for the mountains of New Mexico for a few days camping out. They stayed at Cimarron, Tres Ritas, and Red River returning to their home Friday.

Ben Derrick was admitted to Plains Memorial Hospital in Dimmitt early Tuesday morning for emergency surgery following a perforated ulcer. His father, Rev. and Mrs. G. L. Derrick of Gatesville arrived Wednesday to be with him. They returned to their home Saturday.

Myles Sadler was admitted to Plains Memorial Hospital in Dimmitt Tuesday evening and underwent minor surgery Wednesday morning.

Mrs. Phillip Jones entertained in her home Tuesday afternoon with a Jewelry Party.

Rev. M. D. Durham attended Brotherhood Camp at Plains Baptist Assembly Tuesday night.

Mr. C. Y. Miller came back by Wednesday and visited until

Littlefield Man Charged With Violating Packers-Stockyard Act

(Ft. Worth)--Dick Brantley, Littlefield, Texas, livestock dealer, has been charged with violating the Packers and Stockyards Act, the U. S. Dept. of Agriculture announced today.

The complaint was issued by the Packers and Stockyards Division of USDA's Agriculture Marketing Service. It alleges that Mr. Brantley continued to operate as a livestock dealer after his surety bond was terminated by the bonding company in October, 1963.

The complaint further alleges that Mr. Brantley was notified in writing of the termination.

Thursday with Mr. and Mrs. Tex Conard and family. He was on his way home to Englewood, California after visiting here and with his sisters and their families in San Angelo.

Harry Harris Jr. of Palmyra, Missouri returned home Monday night with Lee Bradley. They came to Amarillo by train and Mr. and Mrs. Weidon Bradley met them there.

Mrs. Carl Bradley visited in Farwell Tuesday with Mrs. Vernon Scott and boys. Molly Bradley returned to her home with her.

Mr. Earl Phelan took his mother back to Weatherford Friday and visited with relatives until Sunday. His wife returned home with him Sun.

Mr. and Mrs. Roy Phelan left Friday with Mr. and Mrs. Lloyd Morris of Tulla for a few days vacation to Colorado Springs and in the mountains.

Mrs. James Powell and children visited in Plainview Friday morning with Mrs. Kenneth Powell and children. They visited in Littlefield Friday afternoon with Mrs. Lowell Westmoreland and children. She and Cheryl visited the Westmorelands again Saturday morning after taking Cheryl to the doctor.

was informed on several occasions that he must obtain a new bond to continue his operations but has failed to obtain the required bond while continuing to operate as a livestock dealer in interstate commerce.

The Packers and Stockyards Act is a federal statute which regulates those engaged in interstate livestock and poultry marketing and meal packing by prohibiting deceptive, discriminatory, or monopolistic practices--to preserve fair and competitive marketing.

It requires that all livestock dealers and market agencies who buy, sell, or handle livestock in interstate commerce must be registered with USDA and must obtain adequate bond coverage to assure payment for their livestock transactions.

Issuance of the complaint does not prove the P&S Act was violated by Mr. Brantley, who will have an opportunity for a formal hearing on the charges. Proof of a violation is established only if the USDA Judicial Officer determines that the evidence substantiates the allegations.

Lazbuddie News...

LAZBUDDIE--MULESHOE

Recent guests in the home of Mr. and Mrs. John Littlefield was her brother and his wife Mr. and Mrs. Lloyd James, Riverside, California.

Funeral services were held Monday at Greenville for Mrs. Beasley 77, mother of Mrs. Frank Hunt of Lazbuddie. Mrs. Beasley passed away early Sunday morning in a hospital at Dallas after several weeks illness. Attending the funeral besides the Frank Hunts were Mr. and Mrs. Bill Hunt and Mrs. Don Littlefield.

Mr. and Mrs. H. H. Briggs, Mr. and Mrs. Joe Briggs and Harold Wilson were at Wilcox, Arizona last week attending to business and visiting.

Visiting her grandparents Mr. and Mrs. E. A. Parham over the weekend was Mitchell Agee from Lubbock. Mitchell's parents, Mr. and Mrs. John Agee, Jr. was at Ruidosa for the July 4th holidays.

Mr. and Mrs. Truman Gleason and children were at Ruidosa for the 4th and Mr. and

Mrs. Barney. Floyd and Jan Nowell spent the weekend at Ruidosa.

Mr. and Mrs. Jack Jones, Canyon visited the W. D. Harlin Tuesday and Wednesday of last week. Jack Jones is a brother of Mrs. Harlin.

Lee Ann Earlin is at Levelland this week visiting her aunt, Mrs. Verbie Griffith.

Glen Edwards, Vocational Agriculture teacher, Muleshoe, accompanied by two boys of his class, Bruce Little and J. C. Pearson accompanied by Scotty Windham, agriculture teacher from Lazbuddie with two boys, Sammie Harlin and Mack Holt from Lazbuddie are attending the SWPS exetric workshop in Amarillo this week.

Mr. and Mrs. Joe Patti and Jane Bruns returned last week from a vacation at San Berdijo, Cal. They visited Disney Land and other interesting scenes.

Mr. and Mrs. Don Schumann entertained the evening of the 4th with a cookout picnic supper at their home. The group

also celebrated with fireworks. Jerry, Mark and Bruce Bruns, Muleshoe were among those enjoying the occasion.

Mr. and Mrs. A. C. McCray and Alice, Lamesa and Mr. and Mrs. Loy Williams of Route 3, Muleshoe were weekend guests with the J. B. Young family.

Steve Young and Pat Chitwood are in Wichita Falls spending several days with their grandparents, Mr. and Mrs. E. D. Chitwood Sr.

Larry Richards, Jayton was weekend guest with his cousin, Leon Watson.

Johnnie Beth Ivy, Tech, was home for the weekend with her parents, Mr. and Mrs. Shanks Ivy.

Paul Wilbanks from S. W. College, Weatherford, Oklahoma was home with his parents Mr. and Mrs. Fred Wilbanks over the weekend.

Enjoying an ice cream social in the home of Mr. and Mrs. Garvin Floyd the evening of the 4th were Mr. and Mrs. John Gammon, Mr. and Mrs. J. W. Gammon, W. H. Gammon, the D. B. Ivy family, Evett McBrooms and Robert Ivy.

Minister and Mrs. Gaither Vandiver from the Lazbuddie Church of Christ are leaving this weekend for Brazil where they will be

in church work for a period of time.

Mr. and Mrs. Jeff Peeler and Mr. and Mrs. W. O. Casey enjoyed a recent vacation at Las Vegas, New Mexico. Mrs. Peeler said it rained while there and was very pleasant and cool.

Mrs. Peeler also stated that when Mr. Peeler went to rent the cabins he found the manager, John Donald, an old friend the Peeler knew at Peterson, Texas.

Mr. and Mrs. Ben Warrick, James, Dale and Jerry attended the Chance reunion at Sweetser over the past weekend.
