"POT DOESN'T COST MUCH ... OR DOES IT?"

While the debate over marijuana rages, teen-agers play a dangerous game of attempting to beat the law by using it. What if they get caught? Probably, on first offense, they would get a suspended sentence and never serve a day in jail. So what difference does that first offense make?

Here is an example: "A youth was stopped for a traffic violation. The officer recognized the odor in the violator's car. The defendant had a few joints (of marijuana) with him."

"He was convicted of possession, a felony, and received a suspended sentence. Did he lose anything?"

"All he lost was the right to vote, the right to own a gun and the right to run for public office. He lost the opportunity of ever being a licensed doctor, dentist, CPA, engineer, lawyer, architect, realtor, osteopath, physical therapist, private detective, pharmacist, schoolteacher, barber, funeral director, masseur or stock broker."

"He can never get any job where he has to be bonded or licensed. He can't work for the city, county or federal government."

"He can enlist in the military service, but will not have a

choice of service and will possibly be assigned to a labor battalion.

"If this happened to you, would you think you had lost anything?"

NOSIN

Word is that Aurelia Sanders returned recently from her annual two week vacation. This vacation was quite different to the vacations taken by so many people in the area.

One thing, she wasn't tired from too much driving and sight seeing. Fact is, the only driving she experienced during her vacation was the deliveries she made for H. S. Sanders Lumber.

Seems her annual vacation consists of wearing vacation attire (shorts) two weeks of the year, while, like always, hard at work at the lumber yard.

NOSIN

We were short handed this week at the news office and our relatives from Oklahoma came to our rescue. God knew exactly what he was doing when he gave us jobs of relatives. He knew for sure we'd always need people who loved us. They always find a way to make each day a little brighter, come what may.

The meeting opened with the reading of the minutes which were approved by the group. The resignation of Neil Pounds as alderman was accepted by the council. Larry Tunnell was appointed by the council to fill the unexpired term created when the Neil Pounds family moved to Brownwood.

The group discussed the water bills, lighting of the streets and auditing of the books. The council decided all water bill payments should be in the of-

fice by 5 p. m. on the 10th of the month, or postmarked no later than the 10th, to avoid penalty.

The council also decided that the city should not install street lights except where there is more than 1 block occupied. The current bills were reviewed and the group voted to pay them.

Travis Jaquess Injured In Fall

Travis Jaquess, a Springlake-Earth School Custodian, is in critical condition in the intensive care unit of the Methodist Hospital in Lubbock following an accident at the school Tuesday at 10:45 a. m.

The accident occurred when a tall ladder, used by Jaquess in replacing light bulbs in the ceiling of the old junior high gymnasium, gave way leaving Jaquess to fall approximately 20 feet to the concrete floor below.

Two other custodians were in the building with Jaquess when he fell. The unconscious man was rushed by ambulance to a Littlefield hospital immediately. His condition was so severe that he was taken on to the Methodist Hospital.

Jaquess regained consciousness at 8:30 Tuesday night. The report Wednesday noon indicated that Jaquess is suffering from various injuries including a swollen brain, broken rib and fluid in his lungs. The fluid in his lungs was thought to be caused from sinus drainage. He is not allowed visitors while his condition remains so critical.

Earth Welcomes New Family

"It just isn't a place I care to raise my children or have my family live." These were the words of G. D. Gerit explaining why he left Ocean-side, California. California is a place where little regard is given to morals and where no one cares what happens to their neighbor. "I want my family in a community where people are decent and law-abiding. This is why I moved my wife, Betty, and sons, Richard, 14, and Roger, 12, to the town of Earth, Texas."

Gerit enrolled his boys Monday in Springlake-Earth schools and commented on the neat appearance of all students and how they respected their school and teachers. He was extremely pleased with the curriculum.

Gerit is not interested in making a lot of money, only just enough to make a living where he can keep his family in a town that cares. He commented that people here have already made him feel welcome and have eliminated the fear of being a stranger. Gerit has had 15 years experience in the cafe and hotel business. He will open the Texas Cafe and Hotel the first of October. Miss Kathy Rumbaugh of Ocean-side will be helping. The Gerit family is looking forward to making new friends in this community.

ject the student council decided on is to sell the West Texas Football Magazine. It can be purchased for the price of \$1.50. This was the only magazine that bothered to contact him and get information from him.

Galan Dies After Football Injury

ROBY--Alonzo Galan II, 18, a junior in Roby High School, died at 4:30 a. m. Friday in West Texas Medical Center in Abilene.

He had received chest injuries in football practice earlier that week and had been transferred from Roby Hospital to Abilene Thursday.

His coach, Freddie Stuart, said Friday night that Galan had gotten hurt in a routine drill just after opening calisthenics Monday and they feared he had a broken rib.

However, he was in school Tuesday and Wednesday and returned to practice Wednesday in shorts, at which time he complained that the Monday injury was bothering him. He was hospitalized later Wednesday.

Stuart said he was "little, but had a big heart." In his first year of competition, he was playing first-string fullback and defensive halfback. On a newspaper questionnaire Stuart had listed him as one of the two best newcomers to the team.

Funeral was at 2 p. m. Sunday in First Baptist Church in Rotan with the Rev. Walter Woolley, pastor of First Baptist Church in Roby, officiating.

He was born January 12, 1952, in Roby. He later resided in Earth and attended Springlake-Earth School during his second and third year in grade school. He moved from Earth in 1968.

Survivors are his father, Alonzo Galan of Roby; two brothers, Larry and Roy, both of Abilene; six sisters, Helen, Rachael, Bella, Stella and Jackie Galan, all of Abilene, and Mrs. Lily Beavers of Neosho, Missouri.

His mother preceded him in death in 1958. An aunt, Helen Galan, helped rear him.

Pallbearers were schoolmates, Jeff Dennis, Keith Matthews, Terry Palmer, Manuel Lujan, Alonzo Lujan and Jerry Vinson.

He was the nephew of Adam Galan of Earth.

Walker-Venable Exchange Vows Saturday

MRS. LONNIE WAYNE VENABLE (nee Wanda Wenell Walker)

Nuptial vows uniting Mrs. Wanda Wenell Walker and Lonnie Wayne Venable were solemnized in an impressive double ring ceremony Saturday, September 6, at 7:30 p.m. in the First Baptist Church of Springlake.

The bride is the daughter of Mrs. Ocie Lee Walker and the late O. B. Walker of Springlake. Parents of the groom are Mr. and Mrs. E. M. Venable of Olton.

Traditional wedding music was presented by Mrs. Bob Belew. She accompanied soloist, Mrs. Billy Kemp of Lubbock, as she sang "I Love You Truly." As the couple knelt at the altar, Mrs. Kemp also sang "The Lord's Prayer."

The lovely ceremony was performed by Rev. Don Holmes of Panhandle, formerly of Springlake, before an archway entwined with greenery and accented with wedding bells. The arch was flanked by two baskets of beautiful pink gladiolus and two candelabras entwined with greenery bearing lighted white tapers.

The beautiful white kneeling bench was accented with hot pink satin bows and streamers. The center pews of the church were marked with lovely hot pink satin bows and white tapers.

The bride, given in marriage by her mother, and escorted by her brother, Oscar B. Walker, Jr. of Irving, was adorned in a floor length gown of white peau de soie featuring an empire waist complemented with seed pearls and lace. The gown also featured a scooped neckline and long sleeves ending in points over the hands. The chapel length train caught at the shoulders was heavily appliqued with matching pea d'ange lace and seed pearls. Her veil of bridal illusion fell from a bow designed of lace and seed pearls accented with rhinestones. Atop a white lace covered Bible, given to her by her mother and late father, she carried a beautiful bouquet of carnations centered with a white orchid with long streamers tied in love knots.

To carry out the tradition, the bride wore something old, something new, something borrowed and something blue. For something old, she carried a silk handkerchief belonging to her grandmother, Mrs. Ben Osburn of Estelline. Something new was her wedding gown. Something borrowed was a necklace belonging to her sister, Mrs. Ted Jacobs of Littlefield. Something blue was the traditional blue garter, a gift from Mrs. Forrest Simmons of Earth. For good luck, she wore a penny in her shoe bearing the year of her birth.

Serving as candlelighters were Miss Kim Venable of Shallowater and Miss Cindy Brooks of Hart, nieces of the groom. They were attired in pink long-waisted dresses accented with hot pink velvet ribbon and white lace.

Miss Kristi Metcalf of Springlake served as flower girl. Ring bearer was Marry Ray Watson of Springlake.

Miss Vickie McClure served as maid of honor. Other attendants of the bride were Mrs. Jimmy Shirey of Earth, Mrs. Virginia Saxon of Stephenville, sister of the bride, and Mrs. Jeanette Saxon of Silver City, New Mexico, also a sister of the bride. Texas Corn Not Affected By New Fungus Disease

COLLEGE STATION--Southern Corn Leaf Blight, the fungus disease playing havoc with corn crops in some states, reached Texas just a little too late.

The fungus disease is reported to be a serious problem in Mississippi, Alabama, Georgia and Florida, however, its occurrence in Texas was too late in the season to cause substantial yield losses, Dr. C. Wendell Horne, Extension plant pathologist, said.

"The infection of Southern Corn Leaf Blight that hit most of the major corn-producing areas of the U. S. is caused by a suspected new race of the fungus parasite, *Helminthosporium maydis*," he said. "Greatest yield losses have been observed when severe infection occurred at the beginning of the silk and tassel stage; however, Texas corn was past this stage before serious infestation problems began."

Many corn growers are probably asking themselves if they should forget about raising corn next year and grow another crop.

"It would be somewhat shortsighted to not plant corn because the disease might occur again next year," Dr. Horne said. "Three factors must be present before there can be another disease occurrence."

"There must be a susceptible host, and we know that this is present because of this year's disease problem."

"The pathogen, or infecting agent, must be present in sufficient quantities to cause infection, and this depends on many factors, which just happened to all be favorable this year."

"And, the weather conditions must be conducive to this disease. In other words, favorable moisture."

The disease may occur again next year or it may be several years before the disease again occurs, he said. It depends on all conditions being present and favorable at one time, Dr.

PTA Takes Action Against Cutting Funds

This week parents received a note from Dorothy Wood, S-E school nurse, explaining the cost of extra milk being raised from 3¢ to 8¢. Extra milk is more than one milk at meals and snack milk in the afternoon. The Special Milk Program for public schools has been discontinued because Congress has failed to appropriate money for this purpose. A letter from the Texas Educational Agency indicated money might be appropriated later this year. This means our school will not receive reimbursement for any portion of extra milk sold to students.

The PTA feels this calls for action. The PTA president, Mrs. Ray Joe Riley, has written to President Richard Nixon, Representative Bob Price and Senator John Tower concerning this inaction. There will be petitions placed in convenient places for your

signing if you so desire. The following is a copy of the petition that will be put in various places:

I am an interested parent of a child in a public school of Springlake-Earth School and hereby protest the delay and inaction of the administration to take remedial action and failure of Congress to appropriate funds to reimburse public schools for extra milk served to students.

The losers of this inaction are the children and particularly the underprivileged children of America who cannot vote.

I urge you to vote for this bill to make this money available.

Sincerely,
Mrs. Jo Eddie Riley
Pres. S-E PTA

Band Boosters Meet Monday

Robert O'Hair gave various areas in which band booster funds are to be used. The areas include awards, needs for concession stands and films of the marching band.

Two items on the agenda were voted on and accepted. There will be four home games half time shows put on film. These will be the first four

games. Also four tape recorders will be purchased for the use of all band students in order for Jerry Starkes, band director, to listen to each student individually. Enthusiasm was shown for this year's program.

Refreshments consisting of homemade ice cream and coffee were served by Mrs. Guy Kelley, Mrs. Jerry Starkes and Mrs. Norman Ellis. Seventeen members were present.

SWPS Consolidates Division Offices

Southwestern Public Service Company will reduce its number of division offices to three with the consolidation of the Southern and Plains Divisions into a single division, headquartered at Lubbock. It has been announced by Roy Tolk, president of the electric company.

Faster transportation, improved communications, advanced technology and better trained and more skilled employees at the local office level were cited by Tolk as reasons for the consolidation.

"When we put this company together in its present form 28 years ago we had six division offices. In the mid-50's we reduced that number to five and last year we cut it down to four. The purpose of the

division office has always been to lend staff and administrative support to the local office, the one which serves the customer. We can get around faster now, we can talk more quickly on radio or telephone and we have better equipment and better employees. That lets us concentrate more on serving the customer more efficiently and economically and directly through local offices," Tolk pointed out.

Tolk said the reorganization had been planned for October 1 when J. M. Collins, who had been Plains Division manager for 25 years, was scheduled to retire. The action has now been moved forward because of the untimely death of Mr. Collins on August 23rd.

Under the consolidation pro-

EMERGENCY ARISES... The News-Sun staff has many problems and, being short handed an employee or two this week, relatives from Oklahoma joined in to help out. Pictured is Willard Womack of Holdenville, Oklahoma, helping out in the emergency.

gram, Plainview, which had been the Plains Division headquarters, will continue to be a district office. Clee Meharg, who has been district manager at Plainview since 1963, will continue in that post.

"No Plains Division or Plainview employee will lose his job or have his pay reduced because of this consolidation. Some members of the present Plains Division staff will become part of the staff of the combined division. There will be no reduction in the number of people directly responsible for customer services in Plainview," Tolk said.

The three divisions under the new alignment will be the Panhandle, headquartered at Amarillo; the Southern with Lubbock as headquarters; and New Mexico Division, with the division office in Roswell.

The Panhandle Division will include the Kansas and Oklahoma communities Southwest serves and the Texas cities north of, and including, Friona and Happy.

The remainder of the Texas cities served will be in the Southern Division, while the New Mexico Division will be made up of all the communities in that state that Southwestern serves.

"When you look at a map of our service area, each of the cities serving as a division headquarters is about as close to the center of the territory it serves as it is possible to be and offers the best location for transportation and communication facilities. This should improve our ability to serve our customers," Tolk said.

R. H. "Bob" Brummal, who is well known in the Plainview area and through his civic and business activities, who has been Southern Division manager of the newly formed division.

Brummal has a broad-based background in his Southwestern career, which began in 1945. He has served in engineering capacities, as a district manager and as residential and commercial sales manager for the electric company.

"Retirement and normal attrition will reduce the number of people who have been working at the division level in the Plainview office, and there is the possibility that there will be an eventual reduction in the number of people we employ in Plainview as a result of this consolidation. However, as Plainview grows, Southwestern will grow with it and there will be an increase in the number of employees of the company. The change would be that there would be more people on the payroll directly concerned with customer services, the one

most important function of a utility company," Tolk said.

The electric company president concluded the announcement by pointing out that economies and efficiencies were the only weapons available to the company to fight inflation and resulting rate increases.

"These tools often seem comparable to David's sling-

shot when you see the monstrous size of inflation. However, we shall use what we have to the best of our ability in our efforts to keep our rates stable. If good operation and good management can make these goals possible, I am confident of our ability to accomplish them," Tolk concluded.

Lamb County Cancer Society Meets Sept. 17

The Lamb County American Cancer Society will meet in the Community Building on September 17 at 7:30 p.m. Dan Harris, area supervisor from Lubbock, will be here. New committees are to be appointed and set up. Everyone is invited who is interested in working. The district directors of the

American Cancer Society will meet in Lubbock Thursday, September 10, (today) to plan a yearly report meeting to be held in Dallas later this year.
