

## Baptist Group Receive Award At Paisano Encampment

Last week nine youth and three sponsors from First Baptist Church of Earth attended West Texas Youth Congress '75 at Paisano Baptist Encampment near Alpine.

During the week the group from Earth received recognition for traveling the greatest distance to the encampment, which is 350 miles from Earth. Activities for the week included Bible study and discussion groups each morning, recreation in the afternoon and worship services each evening.

Those attending the encampment from Earth included Kathleen Anderson, Kareen Hulcy, Kirk and Kinney O'Hair, Toni Inglis, Carol Griffin, Stan Runyon, Timmy Craft and Teresa Lively. Adults attending were Mr. and Mrs. Donald Runyon and Rev. David Burum.

DAVID BURUM—pastor of the First Baptist Church in Earth is shown with the plaque received last week when he and a group of young people traveled to Alpine to attend the West Texas Youth Congress '75. The plaque was for the group traveling furthest to attend.

## One Injured In Two Car Accident

A two-car accident occurred at 10:40 a.m. Wednesday on Highway 70 at the intersection at Park Street in front of the Earth 86 Station. Mrs. Ruth Parker driver of one of the vehicles was rushed to the Medical Arts Hospital by ambulance. Ambulance driver Hershel Hulcy said Mrs. Parker had several small cuts and was complaining with her neck and back, but was not considered to be seriously hurt. No other details on her condition was available at press time.

Patrolman Ray Cannon of Littlefield was called to the scene. He was assisted by Harry Keyes.

Keyes described the accident occurred as Mrs. Ruth Parker, driver of a 1968 Pontiac headed East down Highway 70 was in the left lane to either make a U-turn or to turn left down Park Street. She pulled out into the lane of the West bound 1974 Buick Station Wagon belonging to Bob Belew. The driver hit the brakes, but was unable to avoid the Parker car.

Keyes said both drivers were given tickets. Mrs. Parker was given a ticket for turning when unsafe, and the other ticket was for not having a driver's license.

Keyes stated that damages to

## Beef Consumption Up For 1975?

Will U. S. consumers eat more beef in 1975?

"Most authorities feel that per capita consumption of beef will surpass the record of 117 pounds of last year," points out Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service. "Estimates are placed at 122 to 125 pounds per person.

"It will be difficult to absorb all this beef without lower price levels than have existed in the last two years. There are also other factors that will influence beef prices and consumption in the coming months," notes the Texas A&M University System specialist.

## 55 Mile Speed Limit In Texas Extended 120 Days

LUBBOCK—The State Highway and Public Transportation Commission today acted to extend the 55-mile-per hour speed limit in Texas for another 120 days.

The Legislature, in special session in December 1973, required the commission to review circumstances affecting the speed limit each 120 days.

An amendment passed by the 64th Legislature this year extended the requirement for as long as the national maximum speed limit of 55 miles per hour is in effect.

The commission's action today extended the 55-mile-per hour speed limit in Texas for an additional 120 days beginning July 30.

The Station Wagon were minor but the Pontiac side was smashed in, also the front and back doors on the right side.

Deputy Sheriff Elmer Hall directed traffic to assist Patrolmen working the accident.

and the increased cost consciousness of consumers as having a dampening effect on beef consumption. This slight easing in demand along with a heavy slaughter will result in a continued oversupply of beef going into 1976, believes the specialist.

"A large supply of beef at low to moderate prices would normally stimulate consumption, but consumer reaction and preference is often difficult to evaluate," says Uvacek. "The overall state of the economy will have a strong hand in determining consumers' tastes and preferences for beef during the remainder of the year.

"Should beef prices strengthen in the coming months, consumption may drop considerably. One need only look back at 1973 when per capita consumption dropped to a four-year low, due mainly to high beef prices. Will improved prices to producers bring the same situation? Producers must depend on consumer demand for their product disposition, but the consumer is unpredictable in many ways. The cattleman has only the history of beef consumption to use as a guide," contends Uvacek.

ALL SHOWS WILL BEGIN AT 7:30 P.M. and will show 2 times each night.

## Mr. Farmer, join the one million farmers who are using Na-Churs Liquid Fertilizer for higher yields & greater profits

### The Product

NA-CHURS Liquid Fertilizer is a product of modern research that is available in various formulations to meet the varying requirements of different crops in different soil conditions. NA-CHURS is formulated by precise proportioning of exactly the right amounts of raw materials into a chemical reactor to produce a plant food with a pH of 6.8 to 7.0. NA-CHURS is homogenized to blend the nitrogen, phosphorus, potash and chelated trace elements into a neutral solution that is immediately available to plants and does not have to wait on moisture before the nutrients can be utilized. As much as 95% of the plant food is absorbed by the plants quickly and efficiently. NA-CHURS is a neutral, chlorine-free, complete solution that will not clog, rust, or corrode your equipment. NA-CHURS can be applied in the row at planting time or by spraying the crop at critical times during the growing season to meet the specific requirements of various crops. Application is simple and easy. Inexpensive kits are available for attachment to plant and cultivating equipment or foliar applications may be made with aerial sprayers or other conventional spraying equipment.

### The Company

NA-CHURS Plant Food Company is the largest company of its kind devoted entirely to the manufacturing and marketing of liquid fertilizer in the United States and Canada. NA-CHURS has an organization of five plants and 250 distributing points and a field serving organization of more than 2,300 persons serving more than a million farmers throughout North America.

### Research

From atomic research has come proof of the fast, efficient and almost total absorption of NA-CHURS Liquid Fertilizer through foliar feeding. This was accomplished through the use of radioactive isotopes made available to NA-CHURS by the U.S. Atomic Energy Commission. Not only can plants absorb nutrients through the roots, but also through the foliage, the fruit, the twigs, the trunk, and even the flowers. Foliar feeding is the best controlled, most efficient, most economical method of applying fertilizer yet devised. As much as 95% of the plant food is absorbed by the plant quickly and efficiently. Research data from Michigan State College shows that in sandy loam soil the foliar application was utilized 20 times as efficiently as in the soil application. In addition millions of gallons of NA-CHURS have been sold to progressive, profit-minded farmers across the United States, Canada, Central and South America. These farmers have proved to themselves through many thousands of check strips that NA-CHURS will bring greater yields, better quality and early maturity to all their crops.

### Free Complete Soil Testing

The basis of any fertilizer program is good soil test. One of the most comprehensive soil tests reports you have ever seen is furnished, without charge, by NA-CHURS. This is made in the NA-CHURS Laboratories with an atomic absorption spectrophotometer—a highly sophisticated and analytical device—which detects and measures amounts of metallic elements in

the soil samples from your farm. You will receive a report which includes an analysis of ph, calcium, magnesium, phosphorus, potassium, nitrate nitrogen, aluminum, magnesium, iron, sulphur, copper, zinc, boron, and water-holding capacity, and specific recommendations from the NA-CHURS agronomists of nutrient formulas to balance out your soil. The NA-CHURS soil test report is designed to give you a fertilizer program for your fields that will bring you the best return per dollar invested. There is no way to grow perfect crops from imperfect soils.

### Application

Row feeding at planting— NA-CHURS in-the-row and with the seed gets plants off to a vigorous start. Normally, a sprouting seed must rely on the plant food stored within the seed for the first several days after germination, or until the root system is formed well enough to take food from the soil. By using NA-CHURS in the row at planting time, you can give a balanced feeding of nitrogen, phosphorus and potash to the seed at once. The result is faster emergence, bigger root systems, and better utilization of fertilizer.

### Foliar Feeding

With NA-CHURS as a foliar spray, applied at critical periods of growth, a small amount of fertilizer products significant gains in yields and in quality. Applied as a fine mist, NA-CHURS is absorbed immediately without having to travel from the ground up the stem or stalk to all parts of the plant. NA-CHURS foliar feeding is the best-controlled, most efficient and economical method of applying fertilizer. A foliar spray of NA-CHURS, even in small amounts per acre, not only feeds the plant quickly, but triggers a whole cycle of growth which makes the plant utilize more food and moisture from the soil. The plant and stems both absorb the fertilizer directly and are able to use a higher percentage of nitrogen, phosphate and potash compared with any other fertilizer. Absorption of NA-CHURS is fast and complete. As much as 95 percent of the liquid fertilizer applied to the plant is absorbed. The result is greater size, bigger yields, better quality and earlier maturity.

### Na-Churs On The South Plains

NA-CHURS Liquid Fertilizer has been used by progressive farmers on the South Plains for about ten years. These farmers report increased yields and profits on all types of crops. In 1974 James R. Davis produced an average of 929 pounds of lint per acre on 830 acres of cotton in Gaines County by following the NA-CHURS fertilizer program. A Terry County farmer produced over 1,300 pounds of lint per acre with NA-CHURS. Almost 8,000 pounds of grain sorghum was reported by a NA-CHURS user in Hale County.

### Contact Your Na-Churs Representative

You can obtain the benefits of the NA-CHURS fertilizer program by contacting your NA-CHURS representative. In addition to the free soil tests, you receive a 500 gallon on-farm storage tank and free delivery of fertilizer.

### Olton Police Chief, Night Patrolman Called On Carpet

Olton Police Chief Glen "Bun" Combest and the Olton night patrolman David Dalton came under fire of the Olton City Council at their regular meeting Tuesday night.

According to the Olton Enterprise Councilman Raymond Powers and Councilwoman Billie Norfleet told other council members they felt the police department wasn't performing its duties. They cited examples of Dalton leaving the city limits for personal reasons, and charged

that Combest flatly refused to learn to run the teletype and didn't check on the night patrol to see that he was doing his job.

After calling in Combest then Dalton, the police chief finally agreed to learn to operate the teletype after the council refused to hire a dispatcher, teletype operator and filing clerk requested by Combest. Dalton is to learn to operate the teletype too, and is to make a log of activities.

## Devenport - Hunter United In Double Ring Ceremony

Miss Mauri Dee Devenport and Kenneth Earl Hunter were united in marriage at 10 a. m. Saturday, June 14 in the First Baptist Church in Sinton, Texas.

Rev. Woody Jackson of Farmersville, Texas and a cousin of the bride performed the double ring ceremony.

Parents of the bride are Mr. and Mrs. Jerry Devenport of Sinton. Parents of the groom are Mr. and Mrs. Kenneth Hunter of Odem, Texas.

Cindy Karr accompanied by Mrs. Bob Fraser at the organ sang "We've Only Just Begun."

The church was decorated in pastel colors. At the front of the altar were two 15-candle candelabras entwined with

greenery centered by a basket of spring flowers.

The bride was given in marriage by her father.

The bride's wedding gown was the gown her mother was united in marriage 21 years ago.

It was an original model of white chantilly type lace over net and satin with a lace over tulle ruffle outlining the sheer yoke and applique of lace embroidered with iridescent sequins.

The gown was designed with long tapered sleeves and skirt swept into a long train. Her full length veil of chantilly lace edging fell from a priest cap accented with iridescent sequins. The neckline pearls worn

by the bride belong to her maternal grandmother.

The bridal bouquet was a burst of white daisies, softened by scattered wisps of baby's breath with satin streamers to give an air of dignified solemnity.

Miss Debbie Day of Sinton served the bride as maid of honor. She wore a pastel blue sleeveless "V" necked gown of crepe with a floor length skirt cascading from a mock belted empire waistline.

Mrs. Homer Simmons of San Angelo served her niece as matron of honor. She wore a pastel green gown the same style as the maid of honor.

Bridesmaids were Miss Leah Devenport, sister of the bride and Miss Karla Hall of Sinton.

Miss Devenport's gown was pastel yellow and Miss Hall's gown was pastel lavender.

The attendants carried spring flower bouquets sprinkled with baby's breath with trailing rib-

MRS. KENNETH EARL HUNTER  
(nee Mauri Devenport)

bons to match each gown.

James Talbert of Odem served the groom as best man.

Groomsmen were Carl Carrell, Leon Just and Billy Workman all of Odem.

Ricky and Rocky Oelschlegel of Sinton served as ushers.

The wedding reception was held immediately following the wedding ceremony in the educational building of the church.

The bride's table was covered with white eyelet embroidery over yellow cloth. The bride's

three tier cake was decorated with yellow and white daisies between the first and second tiers surrounded by four white columns with two cherub statuary. The cake was topped with the traditional bride and groom.

Miss Lanell Kotara and Miss

Karla Hall served punch and cake to guests.

The groom's table, centered with a German chocolate sheet cake with white icing depicting double rings was covered the same as the brides. The groom's sisters, Lyn and Kathy Hunter served at their brother's table.

Miss Laura Lowe registered guests at a table covered with white eyelet embroidery over a yellow cloth centered with a white candle with yellow and white candle ring.

The bride chose a coral coordinated pant suit accented with white top stitching with camel colored shoes for their wedding trip to Dallas.

The groom chose a light blue double knit leisure suit with coordinated print shirt, white shoes and belt.

The couple will be at home

in a mobile home near Old San Patricio.

The bride is a 1975 graduate of Stinton High School. The groom a 1974 graduate of Odem High School is employed by W. T. Young Construction of Corpus Christi.

Out of town guests were Mr. and Mrs. O. B. Whitford, Earth, grandparents of the bride; Mr. and Mrs. Theron E. Devenport, San Angelo, grandparents of the bride; Mrs. Homer Simmons, San Angelo; Mrs. Woody Jackson, Susan and Jeffery, Farmersville; Mr. and Mrs. Earl Hunter and Mrs. Lou Ann Kirby, Alamo; Mr. and Mrs. Virgil Mills, Mrs. Georgia Sens, Mr. and Mrs. Sammy Quinn, Jennifer and Danell, Mr. and Mrs. B. E. Hunter, Mr. and Mrs. Bobby Cherry, Mr. and Mrs. Frank Hunter and Tracy, Mr. and Mrs. H. L. Sens, Robert and Dale of Odem.

You'll never know just how much your kindness meant to our mother and grandmother, Mrs. Lucille Henderson, and just how much your thoughtfulness meant to all of us, during our time of sorrow.

We send our thanks to all of you for your prayers, cards, flowers, food and words of sympathy and encouragement.

Our prayer is that God will bless each of you in a very special way.

## Henderson - Kenworthy Wed In Home Wedding

In an impressive home ceremony Bonnie (Clayton) Henderson of Earth became the bride of Buck Kenworthy of Dimmitt, at 6 o'clock Saturday, June 14 in the home of her parents, Mr. and Mrs. Fred Clayton of Earth. Bill Reese, minister of the Church of Christ in Earth performed the ceremony.

Decorations in the home carried out the bride's chosen colors of pink and white. The fireplace mantle was enhanced with an arrangement of pink carnations and gladiolas intermingled with greenery. Candelabras holding long pink tapers were placed on each side of the hearth.

Donnie Henderson, son of the

bride gave his mother in marriage. She was dressed in a lovely pink knit dress designed with a flattering yoke bodice, gored skirt and enhanced with long full sleeves. She carried a bouquet of pink rose buds encircling a lovely white orchid.

Tom Kenworthy, son of the groom, served as best man. Mrs. Donnie Henderson, daughter-in-law of the bride served as matron of honor. She was attired in a two-piece mint green dress with matching floral jacket and white accessories.

Tim Kenworthy, son of the groom was candle lighter. Immediately following the ceremony a wedding supper was served to approximately 50

guests attending the wedding.

The serving table was laid with a white linen outwork cloth and centered with a lovely arrangement of pink carnations and snapdragons intermingled with greenery. The two-tiered wedding cake iced in white and decorated with pink roses was served with pink fruit punch and pink mint from crystal appointments. Mrs. Jack Tiffin assisted in serving guests.

The dinner menu consisted of roast, ham, sliced turkey, assorted salads, hot rolls, tea and coffee.

Following the reception the couple left for a wedding trip to New Orleans, Louisiana.

They are now at home in Dimmitt where the groom is engaged in farming.

Several out of town guests attended the wedding. Among those attending were the groom's mother and 92 year old grandmother from Pratt, Kansas.

## Free - Morgan Vows Exchanged

8 Members  
Attend  
TOPS Club

Eight members of the local Texas TOPS 217 met Thursday at 5:30 p.m. in the Earth medical building for a regular weekly session.

Mrs. W. B. Hucks, leader, opened the meeting by leading the group in repeating the TOPS Pledge.

The session was very brief as no program was prepared.

The group closed by repeating in unison the Serenity Prayer.

Wedding vows solemnized by Faith Belinda Free and Cameron Morgan Saturday, June 7 at 4:00 p.m. in the home of the bride's parents, Mr. and Mrs. Bobby G. Free. The Rev. Glenn Harlin, pastor of the first Baptist Church, Plains, Texas performed the double ring ceremony.

Parents of the couple are Mr. and Mrs. Bobby G. Free, Muleshoe, and Mr. and Mrs. Les Dudley, Farwell.

The ceremony was performed before a formal arrangement of candle lighted candelabra adorned with greenery, accented with blue daisies and blue satin bows. The background of the setting was draped with greenery extending to the oval candelabra accented with blue satin bows and blue shasta daisies.

Wedding music was played by Marilyn Black and vocalist Patti Nichols sang "Whither Thou Goest" and "The Wedding Prayer."

The bride given in marriage by her father and mother, wore a formal length gown of white bridal satin styled with an empire waistline overlaid with white embroidered bridal illusion embossed with seed pearls. The gown featured a victorian neckline with fitted sleeves of bridal illusion. The skirt swept into a chapel train and was

overlaid at the hemline with a single row of chantilly lace. Her veil of white illusion fell from a softly draped headpiece draped with silk illusion and extended over the chapel length gown and was edged with deep chantilly lace matching the bridal gown. She carried a spring bouquet of blue daisies interspersed with baby's breath and accented with blue satin streamers.

Hope Melinda Free, sister of the bride, was the maid of honor and Donna Burris of Muleshoe served as bridesmaid. The attendants were attired in identical floor length gowns of blue embroidered polyester crepe. Bouquets were nosegay arrangements of blue daisies, accented with white organza and blue satin streamers.

Jessie Morgan, Farwell, brother of the groom, served as best man and Grady Lee Free, brother of the bride, served as groomsmen.

Regina Poteet, Muleshoe, registered the guests. A reception was held in the home of the bride after the wedding. The three-tiered wedding cake and lemon-frosted punch was served by Patti Nichols and Regina Poteet from a table covered with white satin overlaid with white nylon nimon draping to the floor. ## McRight - Gorman Pledge Vows

Miss Sharon McRight became the bride of Thomas P. Gorman, Friday, May 30, in the Urban Park Baptist Church in Dallas. The Rev. C. H. Jones officiated at the double ring ceremony.

The altar of the church was decorated with a candelabra holding twenty-one white tapers. On each side of the candelabra were tall white baskets filled with an assortment of white flowers.

The bride given in marriage by her father was attired in a silver embroidered gown of white polyester crepe, with an empire waistline, capelet sleeves and a scoop neckline.

The bride carried a bouquet of white orchids with a cascade of bridal pink roses atop a white lace covered Bible. Her fingertip veil of white illusion was attached to a Juliet Cap.

For the traditional something old, she carried a handkerchief belonging to her maternal great-grandmother. Something new was her wedding gown, something borrowed was a ring belonging to a friend, something blue was a garter of lace enhanced with pearls from a necklace she wore as a baby. This was made by her grandmother. In each shoe she placed a penny beaming the birth date of the bride and groom.

As the bride came down the

isle, she presented her mother with a long stemmed bridal pink rose. On leaving the altar following the ceremony, the bride presented the groom's mother with a rose.

Serving as maid of honor was Miss Brenda Smith, and Miss Janet Levisay was bridesmaid. They wore identical floor length dresses of printed peach chiffon over pastel blue and carried one rose of bridal pink.

The flower girl, Jennifer Ballard, the bridegroom's niece was dressed identical to the attendants. The bridegroom's nephew, Mark Paxton, was ring bearer.

Paul B. Gorman, Jr., attended his brother as best man.

Groomsmen were Mark McRight, brother of the bride, Mike Simmons and Reavis Wortham all of Dallas. They wore Prince Albert tuxedos, with blue ruffled shirts.

The registrar's table was laid with white net over white satin. The centerpiece was an arrangement of bridal pink roses in a tall crystal vase.

The bride's mother, Mrs. McRight, wore a floor length gown of peach colored polyester, and was escorted by her son Mark McRight. The bridegroom's mother wore a floor length dress of Nile green polyester with a sleeveless coat of floral chiffon, she was escorted by her son Paul B. Gorman Jr.

The reception following the wedding ceremony was held in the fellowship hall of the church.

The bride's table was laid with a cloth of white net over white satin. The centerpiece was the top layer of the wedding cake which featured a bride and groom from the wedding cake of the bride's parents, also the bride's bouquet, Punch and cake were served from silver appointments.

Miniature bags of rice was

MRS. THOMAS P. GORMAN  
(nee Sharon McRight)

distributed to the guests by Miss Brenda Smith and Miss Janet Levisay.

Mr. and Mrs. Bill McRight of Dallas are the parents of the bride and Mr. and Mrs. Paul B. Gorman Sr., of Garland are parents of the groom.

The bride is a 1972 graduate of Skyline High School of Dallas. She attended Eastfield Junior College at Dallas.

A 1966 graduate of West High School in Denver, Colorado, the bridegroom attended Metropolitan State College in Denver. He was a member of Delta Theta Beta. He attends Eastfield Junior College in Dallas and is a member of Mu Alpha Theta, Phi Theta Kappa and listed on the Dean's List.

The couple reside at 2770 King Edward Drive in Dallas.

The bride is a granddaughter of Mr. and Mrs. Forrest Simmons of Earth. They attended the wedding of their granddaughter.

### Rainbow Girls Attend Grand Assemblies

Earth Rainbow Girls left Thursday evening, June 13 at 3 p.m. to travel to Portales, N. M. for the 42nd annual session of the Grand Assembly of New Mexico. This trip was for the girls who were unable to attend the Texas Grand Assembly in Dallas.

When the girls reached Portales, Mrs. Mildred Porter, (who attended Springlake Schools in the latter part of the 40's) met them and helped assist in finding their rooms at the dorm and assisted in many ways to make everyone feel welcome and at home.

Friday night's session was very impressive with Melodie Jane Owen from Farmington, N. M. as Grand Worthy Advisor of New Mexico and Mrs. Madeline Foster from Silver City, N. M. Supreme Inspector, presiding over the Grand Assembly Sessions.

Melodie used as her theme "God's Enchanted Land." Her symbol was the Turquoise stone, colors were turquoise, purple and silver. The flower was the "Yucca", song "This Land is Your Land."

Her scripture was Genesis 9:13 and her motto was "Walk On A Rainbow Trail, Walk On The Trail of Song And All About You Will Be Beauty."

The meetings were held in the PE complex at ENMU. The large auditorium was decorated in the Worthy Advisor's theme and carried out the Indian Heritage of New Mexico.

The background was draped with a large purple material on which was placed in silver the words "God's Enchanted Land."

A large turquoise stone trimmed in silver provided the background for the Grand East, large artificial yucca plants along with beautiful large and small spruce and pine trees and fresh yucca plants added beauty to the stage. A large sand painting was in front of the East and on the floor and to the left of the Grand East hung a large Indian blanket.

The smaller background in the Grand West was draped with a lighter shade of purple material inscribed with "Walk On The Rainbow Trail," smaller yucca plants and pine trees.

Placed at various places in the auditorium were the Indian design made of yarn called "God's Eye." On the back of the color station chairs were

the Indian "God's Eye" in the color of each station.

On Friday morning Indian dolls were placed on the pedestals with jackets the color of each station. Each color station was also lighted in the color of that station. The white altar was illuminated with lights on the inside with the Rainbow emblem on the side of the altar.

Also to the left of the Grand East hung a large Indian blanket.

On Thursday night as each of the 20 grand floor officers were presented the lights were turned out except for the lighted pedestal and altar.

A spotlight was shone on each girl as she stepped from behind the large Indian blanket that was to the left of the Grand East. Also a screen behind this illuminated lovely landscape scenes of New Mexico.

Following greetings by the mayor and president of the university one of the Rainbow Girls sang "The Lord's Prayer," while

a man dressed in Indian regalia used Indian sign language and later gave an Indian blessing for the Grand Worthy Advisor.

The 20 Grand Officers were dressed alike in light purple while the pages and Grand Representatives were dressed in blue. The Grand Cross of Color team were dressed in white. When the pages, representatives and Grand Cross team marched in they formed the yucca plant with those dressed in white making the blossoms of the plant. It was a very impressive opening.

Following the opening our Grand Officer, Fonda Goodwin was presented behind the bow and then to the East to be given Grand honors and to be seated in the East.

Attending from Earth Thursday night were Fonda Goodwin, her parents, Mr. and Mrs. C. C. Goodwin, Ann Kelley and Beverly Taylor, sponsors. Also Donice Taylor, Gena Wisian,

Stephanie Parish, Christy Barlow, Jason Schellar and Kelley Wheatley.

The girls and sponsors spent Thursday night and attended the Friday meeting and talent show presented by the girls from the New Mexico Rainbow chapters.

There were also Rainbow Girls and sponsors from Lubbock and Muleshoe attending the meeting.

The tired group returned home about 1:30 a.m. Saturday morning.

On Sunday morning, June 15 at 4 a.m. Fonda Goodwin, Jason Schellar, Kelley Wheatley, Christy Barlow and sponsors Cecelia Goodwin and Ann Kelley traveled to Lubbock to join the Lubbock and Atoka Assemblies to go to Dallas by bus to attend the Grand Assembly of Texas.

Fonda represented her Assembly of Rainbow in such a lovely way, it made every one real

proud of her. Over 4200 were registered for the Texas Grand Assembly. The only Grand Appointments from West Texas for the next year are from the Muleshoe and Atoka Assemblies.

The Grand Assembly will be in Houston next year.

The tired group returned home Thursday and everyone agreed that they had a lovely time.

ALTHOUGH THE UNITED STATES OFFICIALLY DECLARED ITS INDEPENDENCE ON JULY 4, 1776, THE FOUNDATION FOR AMERICAN FREEDOM WAS ACTUALLY LAID MORE THAN A YEAR PRIOR TO THAT HISTORIC DATE!

## Sunflowers, New Crop For Area Farmers

By Spencer Tanksley  
County Extension Agent  
Bailey County

In 1974, approximately 10,000 acres of commercial oil seed sunflowers were grown in Texas; it is estimated the acreage is likely to be as high as 400,000 acres in 1975. There have been several reasons for this increase in seed sunflower acreage: (1) New sunflower hybrids have low water and plant nutrient requirements with high yield potentials; (2) demands for vegetable oil has remained good and (3) excellent market potential was established early in the

growing season. With any new crop, there is always an array of production hurdles which have to be mastered to obtain maximum profits. This is especially true in the case of sunflowers. Local producers will plant between 10,000 and 12,000 acres of sunflowers in Bailey County and one of the production hurdles they must overcome is insects. Research conducted at the Lubbock Experiment Station by Dr. George Teetes and associates have observed 47 different insects visiting sunflowers. These researchers have considered 14 of these as potential problem

pests because of their density and/or the nature of the injury they inflict.

On the basis of studies conducted to date, the sunflower moth and the carrot beetle are considered key pests. In addition, a number of stem girdlers, stalk borers and leaf feeders are also considered capable of reducing yields.

Currently, researchers are still in the process of developing a working knowledge of these insects; this is extremely important for growers who will be planting sunflowers for the first time to become familiar with what is known about the two major pests of the crop.

### The Sunflower Moth

**Background**  
The larva of the sunflower moth is the most common pest of sunflower throughout Texas. The larva injures sunflowers by tunneling into the developing seeds and fleshy receptacle area of the sunflower head. The adult moth is a light brown to buff color and easily detected when resting or depositing eggs on the yellow flowers.

The young larva is a worm approximately 1/8 inch long and yellowish in color when newly hatched; the mature larvae is about 5/8 to 3/4 inch long and is yellowish-green with alternate dark and light brown longitudinal stripes on its back.

The sunflower moth overwinters as larvae in the soil. Adults emerge mate and females initiate the first generation by depositing eggs in wild flowers. In 48 to 72 hours these eggs hatch and the larvae feed for approximately 21 days. Mature larvae transform into pupae which spend another nine days in this resting stage before emerging as adults.

Hybrid sunflowers bloom in 12 to 15 days. This is the period that sunflowers are susceptible to attack and damage by the insect. Eggs are deposited within the individual flower tubes. Young larva hatching from these eggs begin feeding immediately

## Boys Ranch At Lubbock Now Ready To Receive Applicants

Texas Boys Ranch of Lubbock recently received their license from state officials in Austin which was the last step required to receive homeless or unwanted boys. The ranch was started in January of 1973 and has one cottage at the ranch site located just north of Lubbock on Liberty Road.

"This means we now can accept applications for boys," says Roger Engels, executive director of the ranch. "And hopefully the assessment committee can meet in early July and we will have ten boys living in the cottage by the end of July." Hopefully another cottage will be started by fall. Engels said the office has been swamped with calls about applications and the sooner we can build more facilities, the sooner we can accommodate more boys.

Texas Boys Ranch has received the license required by the State Department of Public Welfare. County Judges, families, churches, educational facilities and concerned citizens through-

and remain on the surface of the flower for a couple of days. They spin silken webs as they feed, forming a mat of grass, silk and dried blooms on the face of the dead. As the larvae develop they begin tunneling into the developing seeds and fleshy receptacle of the head.

Several chemicals have been found effective in controlling this pest. Timing and intervals of applications which result in optimum protection during the bloom period has also been determined.

Methyl parathion, endosulfan (Thiodan) and supercide are labelled for use on sunflowers against the sunflower moth larvae. Tests have shown that these insecticides give effective control when applied at one pound AI rate per acre in a schedule of two to three applications at five day intervals. Hybrid sunflowers often complete blooming in 12 to 15 days; thus the initial application should be applied when 20 percent of the plants have begun to flower and moths and ground larvae are present.

A producer should check 25 plants at several locations in the field before applying an application; apply only if moths and young larvae are present. These insecticides are cleared for no more than three applications per season.

Growers should exercise caution in applying insecticides next to grain sorghum fields because of the drift problems. Metyte Parthion is known to cause foliage injury (burn) to certain sorghum varieties.

For additional information on the production of sunflowers, you may contact your local county extension agents office. Next week will feature background information on the Carrot Beetle.

out the fifteen South Plains Associations of Governments County area may receive more information regarding admission into Texas Boys Ranch by writing to Texas Boys Ranch, P. O. Box 6040, Lubbock, Texas, 79413, or by calling 747-3187.

## Debbie Wilson Honored With Shower

Miss Debbie Wilson, bride-elect of Doug Freeman, was honored with a bridal shower Saturday, June 21 from 3-4 p. m. in the Earth Church of Christ Fellowship Hall.

Guests were registered by Miss Kathleen Anderson. The registra table was covered with a white lace cloth centered with a yellow candle encircled with white bells and yellow roses.

The serving table was laid with a white satin cloth overlaid with lace. A centerpiece arrangement enhanced the table. It was designed of yellow and mint green carnations, the bride's chosen colors, intermingled with baby's breath, held in silver candelabrum. Tall yellow tapers completed the centerpiece. Other decorations included a garland of white flowers accented with a large yellow satin bow. This was located on the wall behind the serving table.

Punch and coffee were served from silver and crystal appointments.

An assortment of delicious cookies and nuts were served by Miss Danean Wilson and Miss Vickie Freeman.

Corsages of white baby asters with yellow centers and baby's breath were presented to Miss Wilson, the honoree, Mrs. Hershel Wilson, the bride-to-be's mother and Mrs. Bill Freeman, the mother of the prospective groom.

Gifts were displayed on tables covered with white satin cloths trimmed with lace.

Serving as hostesses for the shower were: Mrs. Jearl James, Mrs. Hershel Hulcy, Mrs. Art Karger, Mrs. Lexie Branscum, Mrs. Gene Templeton, Mrs. Ronald Cleavinger, Mrs. Eddie Haydon, Mrs. V. J. Sigman, Mrs. Laverne Vaughn, Mrs. Lottie Kasinger, Mrs. Perry Martin and Mrs. Johnny K. Martin.

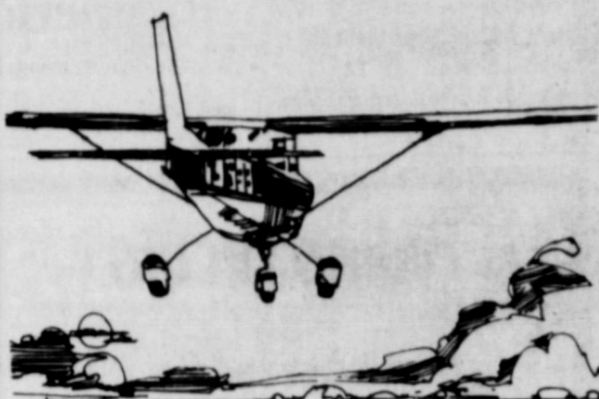

Also Mrs. Robert O'Hair, Mrs. E. C. Clayton, Mrs. Fred Clayton, Mrs. L. H. Dent, Mrs. Houston Stephens, Mrs. Gene Tunnell, Mrs. James Wages, Mrs. Marvin Sanders, Mrs. David Templeton, Mrs. Truman Stine, Mrs. Leon Dent and Mrs. W. C. Maxey.

Others were Debby Weldon, Mrs. Virginia Barden, Mrs. Bill Reese, Mrs. Minnie Parish, Mrs.

## Tips On Shortcuts For Homesewers

Home sewing today can be done in a shorter amount of time and with less effort if some guidelines are followed. Marlene Odle, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System, advised this week.

- Purchase the pattern, fabric and all notions at the same time.
- Choose a fabric that doesn't ravel or need seam finishes.
- Choose a pattern that has few details and a small number of pattern pieces.
- Organize sewing and pressing equipment in one area.
- Keep on hand adequate sewing equipment.
- Keep sewing equipment in good working condition.
- Use correct pressing equipment.

ment for a more professional look.

- Stitch as many seams at one time that are not crossed by another seam before making a trip to the ironing board.
- Use iron-on interfacing and fusibles when possible.
- The pattern guidesheet offers many tips to make sewing easier, read it carefully before starting to sew.
- Do as much machine stitching as possible, blind hemming stitch, top stitching, stitch in the ditch (a machine stitching in the seamline on the right side.)

Mix a little cotton with your orange juice and it nearly equals milk. At least in protein percentage. This is just one of the many possibilities now being considered for the new gossypol-free cottonseed flour produced by what is called the Liquid Cyclone Process. LCP for cotton flour will soon be utilized on a commercial scale by the plains Cooperative Oil Mill at Lubbock. The new food-grade cottonseed flour will have as much as 65 percent protein compared to about 13 percent for wheat flour. Unusually high protein content of the flour was the primary reason for the concentrated research. Scientists say that as much as six percent of the total world supply of protein is in cottonseed, but until LCP was discovered the protein could not be utilized directly by humans because of the toxic gossypol pigment in the cottonseed. LCP's success in making possible the production of the food-grade flour is being hailed as a major achievement by world nutritionists.
