"A CONSOLIDATION OF THE EARTH NEWS AND EARTH SUN OCTOBER 12 1968"

VOLUME 18 10 CENTS EARTH, LAMB COUNTY, TEXAS, THURSDAY, JANUARY 13, 1972 6 PAGES NUMBER 22

Happy, Happy 1972. Would you believe that since last week, we've had more of the same. All of our news staff, except one, has been hospitalized. Three of us, moaning and groaning in adjoining rooms, at the same time. Jane, though sick, managed to stay away from the hospital. Louanne Britton and Judith Jones, two of the busiest girls around, have pitched in to see a through another issue. Ricky Cassell has been helping out on days off from the Earth Oil and Gas station. To say the least, 1972 rushed in a bit gloomy, but in our boom, after being dismissed from the hospital, I read the

first 15 chapters of Job. The Bible says Job lost all his children, his camels, sheep, wealth and was ill and left to sit on a cinder pile outside the city. After reading Job's troubles, one can readily count many, many blessings... like for instance, my camels are all quite healthy, my sheep, jumping with glee and my wealth, well, I never had any, but have managed to eat. In a more serious note, we of the S-E community are indeed thankful that two of our young ladies in the community, though in a serious wreck, have escaped death, this makes the sun shine through even on a cloudy day.

Council Votes to Increase Salaries

The Earth City Council met January 3, 1972. Minutes from the December 6th meeting were read and accepted. A discussion was held on city employee salaries and it was voted to increase salaries 5.5%. The council reviewed all bills and agreed to pay them. The city has been receiving complaints on dogs running loose and the council decided, after discussing the problem, to ask all pet owners to either keep their dogs penned or tied up as the city will pick up all dogs which are running loose. Another discussion held was one concerning the danger of children riding scooters or motor bikes on the streets. Parents cooperation is asked in keeping these youngsters off the streets for their own safety.

Attending the meeting was Mayor E. C. Kelley, Aldermen H. S. Hickman, Doug Parish, Ross Middleton, Larry Tunnell, Bob Belew, Water Superintendent, Johnnie Enloe, City Marshal, Alvin Pittman and City Secretary, Betty McAlpine.

Two Local Girls Injured in Wreck

Two college freshmen from Earth were injured around 6 p.m. Monday night, in a two-vehicle wreck ten miles east of Spade. Injured were Camille Haberer, daughter of Mr. and Mrs. Roger Haberer of Earth, and Karen Armstrong, 18, daughter of Mr. and Mrs. Bob Armstrong, also of Earth. The accident occurred as the two girls, driving west, returning from Lubbock, approached an oncoming burr truck. The driver of the truck is said to have looked in the rear view mirror as he started to turn left into the gin. He is said to have cut his wheels into the other lane, when all at once, he spied Miss Haberer's 1969 Mustang right in there at him. The two vehicles clashed with a grinding thud. The Mustang hit the left front of the burr truck. The left front of the Haberer car was almost caved back into the driver's seat, and it is said to be totaled. Miss Haberer was still in the intensive care unit late Tuesday, and listed in serious condition. Davey Haberer, her brother, reported that she was conscious and knew her family, and had asked for something to eat. Miss Armstrong was said to be resting as well as could be expected Tuesday night.

Borum New Justice of Peace

Ted Borum was appointed Justice of Peace for Precinct 2 by the Lamb County Commissioners Court in Littlefield Monday, January 10. Borum, a long time resident of Earth, replaces G. B. Gerlt, who has moved to Hale Center. Until recently, Borum was the owner and operator of Earth Theaters, and has served patrons of the area for many years.

Clayton - Templeton Elected to Water Board

Committeeman-at-large Donnie Clayton, elected to the High Plains Water District Board Tuesday, chalked up twenty-three votes from city residents. Clayton won the race in the city election by seven votes over the sixteen cast for Thurman Lewis. Clayton received 68 votes in Lamb County. Commissioner for Precinct 2 is Gene Templeton, unopposed with 34 votes in both city and county elections. Precinct 2 incumbent director Selmer Shoenrock of Levelland received two votes, D. A. Ramsey, four votes and Les Watson 34 votes in the city box. Shoenrock, who received 145 votes, over-all, defeated Ramsey and Watson. Forty votes were cast in the election in the Earth box, the largest in the county.

Tax Booklet Available at Postoffice

A booklet that gives information on how to fill out Federal tax returns will be sold at the Post Office in Earth, area Postmaster Harold D. Miller announced today. "Your Federal Income Tax" was written by the Internal Revenue Service and contains many examples to illustrate how the tax law applies to actual situations. A special feature of the booklet is the sample, filled-in return, form 1040, keyed to pages where explanations can be found for each entry on the return. The 160 page booklet went on sale January 10, and costs 75 cents a copy. "By selling this booklet at post offices in the Earth area, we are offering a convenient service to our customers," Postmaster Miller said. "We are participating in a nationwide program to make the tax in 15,000 postal facilities."

S-E Board Discusses Migrant Program

The Springle-Earth School Board met Monday, January 10 for their regular monthly meeting. Members present were Bill Mann, Jerry Kelley, Ardis Barton, Jimmy Craft, Ed Dawson, F. A. Washington and K. B. Parish. President Norman Hinchliffe was unable to attend because of illness. The minutes were read by secretary K. B. Parish, and routine bills were approved. The members took a look at a run-down of the enrollment, which stands ten students over last month, but is down some from last year. 345 are enrolled in elementary, 193 in junior high, and 207 in high school. Special education classes have a total of 31, making the enrollment at present 776. Mrs. Charles Dammann, who taught the first semester, was retained for the second semester, because there was no substantial enrollment drop, making it necessary to reduce the number of teachers. The Board decided Monday to participate in the Federal Migrant Program. The program is primarily for the benefit of migrant students. These students will be taken from their regular classes and given individual attention and help in a room designed especially for these children. Special equipment, a migrant teacher, a teacher's aid and funds for the program will be provided for in the sum of \$9,000. Mann expects this program to be approved by the State soon. Before the meeting was adjourned, a discussion was held concerning the purchase of cinders for the athletic track. A decision was postponed because of the price of the cinders, and the fact that it was getting late in the school year.

Chamber of Commerce Meets

The Directors of the Earth Chamber of Commerce met for a regular monthly meeting, January 7, 1972 at 7 a.m. at the Wolverine Drive Inn for breakfast. Minutes of the two previous meetings were read and approved. A vote of thanks was given to Bill Scott for the installing and taking down of the Christmas lights. It was decided that a letter should be written to Gary Bulls congratulating him on locating his business here, and pledging the support of the Chamber of Commerce. Tuffy Dent reported that at

Fields indicated that those who could not make the meeting on February 3 to please call him, for on that night, the group would set the night that would be most appropriate to hold the weekly classes. These classes will be most educational to housewives with a yen to re-do their furniture every spring.

Several entries are expected from the local chapters of 4-H, FFA and FHA.

Parents' Views on Student Activity Center Wanted

Dear Editor:

The following plan for a student activity center at Springle Earth High School was presented at the December School Board meeting by the Student Council president. The student council felt a need existed for a place where students could socialize, if the school is lacking in this respect and that the students are given only a half hour to eat lunch, and this is not really "free" time. As a recent article in your newspaper stated, the Board voted this idea by a narrow vote. We realize the student council has no power to alter this decision or to act further on the issue at the present time. This issue now rests in the hands of the community and the school board. We are asking individuals in the community, especially parents of high school students, to read and evaluate this plan for themselves.

Mr. & Mrs. Phil Haberer Honored on 25th Anniversary

Mr. and Mrs. Phil Haberer were honored with a reception January 2, 1972 at their home, in observance of their 25th wedding anniversary. Children of the couple, Dan of Orlando, Florida, Sharla and Kieta of the home were hosts for the occasion.

Guests were greeted at the door by the couple and their children. The registry table was centered with a red, white and silver Christmas arrangement. Guests registered in a 25th anniversary book presented to Mr. and Mrs. Haberer by their children.

The serving table was covered with a white knit cloth. The gathered skirt around the table was overlaid with net and tulle and edged with lace. The circled arrangement was centered on a mirror and edged in silver lacelion. The arrangement was with a silver 25th anniversary candle. On the front of the arrangement was two doves from which white streamers with pearls and love knots, holding the wedding rings, entwined the crystal candle holders and silver candles that flanked the arrangement, which was made

by Mrs. Montgomery of Houston.

AMONG THOSE WHO ARE ILL

Mrs. George Taylor underwent surgery in Methodist Hospital, Monday. She is resting well and received good reports.

"Take Five" to millions of military veterans means to take time off to rest.

To us, "take five" means detailed work and planning for the next five years.

We'll be investing more than \$144 million in power plant capacity and the lines and equipment needed to get an adequate supply of electricity to you. Electricity that will be needed for sewage and water treatment, disposal of wastes and for other environmental "clean-ups". Electricity, the cleanest of all energies at the point of consumption, is being depended upon as the means for effectively and efficiently cleaning up our environment.

And, adequate electricity will be needed just for the normal growth of people, their industries, their jobs, their resources — nothing frivolous, mind you — just normal, everyday solid growth.

Yes, through 1976, we'll be taking five — doing the worrying — so you won't have to . . . so when you want electric power it'll be there at the flick of a switch.

Suffering: Why?

By DAVID HARTMAN

Why do good people suffer? For that matter why must any human being suffer whether good or bad?

Lots of answers have been proposed by the informed and uninformed. Ultimately there is no blanket answer that will cover all suffering in the world.

Where I work we have been looking into the book of Job. I urge you to read the book. Use a modern translation of the Old Testament. The book of Job will not give you the answer to the why of suffering. However, a fter you read all about old Job's problems and difficulties it may make yours look small by comparison.

Job asked the same question many people are asking today, "God, why am I suffering?" God never did tell him why. He may choose never to tell you why, either. It is a valid question. It is also one on which lots of time can be wasted and no answer found.

Job's "friends" said it was because of some sin in his life that he had not confessed yet. Job didn't agree. I don't either. As a human being I am not competent to judge the sin in another human's innermost being.

If you are prone to judge others be very careful about attributing anyone's suffering and trouble to unconfessed sin in his life.

God was at work in Job's life (note chapter 42 very carefully). He didn't find any answer to his suffering but after he had gone through the bitter experience he did find God's real, personal, and with us. We see God's power at work in him.

Could this apply to your suffering? I suggest you read Luke 13:1-5 and John 9:1-3. Jesus said of those Jews murdered in the Temple while worshipping and the eighteen men on whom the tower of Silbani fell and killed, "They were no worse sinners than others in Jerusalem and Galilee." They were not killed because of sin.

Note the verses from John: "As he was walking along, he saw a man blind from birth." "Master, his disciples asked him, "why was this man born blind? Was it a result of his own sins or those of his parents?" "Neither," Jesus answered. "But to demonstrate the power of God." "Jesus didn't buy the idea that all suffering is the result of sin. We cannot afford to either. In this particular case Jesus suggested home were Mr. and Mrs. Snover the suffering was allowed "so that God's power might be seen in at work in him." (TEV)

After you have read all the book of Job you will realize that
