Rapp hit 18 points to give her a total of 60 for the tournament and earned her the Most Valuable Player award for the four day event.

Susan Britton, who gave solid support to Rapp, earned 12 points for the Queens in the championship game.

The boards were controlled by Rapp, Britton and Roe with post Mary Williams adding seven points to aid in the scoring.

Soybean Producers Meet April 14 In Springlake

Eleven meetings are slated on the High Plains for the week of April 13 to explain a soybean referendum to producers in 11 counties. These meetings are required prior to a certification by the state commissioners of agriculture for the Texas Soybean Association to conduct such a referendum.

Purpose of the referendum is to raise funds with which to conduct programs of educational research, disease and insect control and marketing relating to soybeans. The referendum calls for an assessment of one-half cent per bushel of soybeans produced, according to County

Agricultural Agent, Buddy C. Logsdon.

An educational program will be conducted at each of the meetings to explain the provisions of the referendum and to give a brief rundown of the soybean industry in the area, state and nation, points out Logsdon.

For soybean producers in Lamb County, the meeting will be held on April 14 at 2:00 p. m. in the Community Center at Springlake.

Speakers at each of the meetings will be W. B. Tilson of Plainview, president of the Texas Soybean Association and John Stephens, field representative of the American Soybean Association, Ed Garnett of Amarillo, area farm man-

agement specialist with the Texas Agricultural Extension Service, will also speak at the meetings in District 1. Marvin Sartin of Lubbock, Extension area farm management specialist, will be on hand at the District 2 meetings and Dr. Bob Metzger, also of Lubbock and Extension area agronomist, will speak at the meetings in Ha'e, Floyd and Briscoe counties.

Logsdon urges a all soybean producers in Lamb County and surrounding counties to attend the upcoming referendum meeting so that they will be able to make a knowledgeable choice when election time for the referendum rolls around. A two-thirds majority vote will be required, and producers will also be selecting a nine-man governing board to administer the proposed program.

Soybean producers on the High Plains estimated at about 4,000 grow about 75 percent of the state's total crop, adds Logsdon. So it's important that all producers understand the referendum.

Dribblers Tourney Begins Today

Play is slated to begin Thursday (today) in the Little Dribbler's Championship Tournament at Levelland.

will meet at 8:00 p. m. Thursday, followed by a battle between Ropesville and Sierra Blanca at 9:00 p. m. Winners of these two games will meet in the Texan Dome at 3:00 p. m. Saturday.

Springlake-Earth Little Dribblers who will participate in the tournament are Cokey Hopping, Randy Bills, George Flores, Randy Latham, Cliff Wood, Brad Bridges, Mark Barton, Larry Dear, Johnny Cleavinger, Brad Barden and reserve alternates Lee Brown and Armando De Leon. Coaches are R. A. Cleavinger and Ardis Barton.

WHEN YOU BEGIN your Spring fix-up campaign be sure to check your front and rear stair landings, advises Liberty Mutual Insurance Companies. A weak step could be your downfall.

"Pops" Concert Set In Muleshoe April 19

Earth and area residents, young and old-are invited to come to an area-wide "Pops" concert to be given in the Muleshoe High School Auditorium Sunday, April 19, at 3:30 p. m.

Performing will be the Amarillo Symphony orchestra under the direction of Dr. Thomas Dowd Holstadt.

Arthur Feldler has commended the well-known Panhandle orchestra as "The best community orchestra in the country", sponsors add.

Locally, tickets may be obtained from Mrs. Kenneth Lowe, Mrs. Larry Tunnell and Mrs. Glen Bullis. Prices are \$2 for adults and \$1.50 for students. There are no reserved seat tickets; they are being sold on a first-come, first-served basis.

The sparkling program just announced to delight all ages will include popular Broadway showtunes such as Love Theme from "Romeo and Juliet", Rodgers-Bennet's "South Pacific", Britten's "Matinee Musical" as well as the lovely Nutcracker Suite by Tchaikowsky. Others which will be familiar when the audience hears them are Saint-Saens' "Samson and Delilah", Bacchanals, Massenet's "Le Cid", Ballet Music; and Rossini's "L'Italiana in Algeri", Overture.

Sponsors of the area concert which is being presented with assistance of the Texas Fine Arts Commission, are the American Association of University Women, Muleshoe branch; assisted by the Muleshoe Music Teachers Association, Muleshoe Chamber of Commerce Business Activities Committee, and Muleshoe chapter of Epsilon Sigma Alpha Sorority.

Cultural development and interest in the performing arts is high in this area. Ticket sales are moving at a good rate, sponsors report.

CARBON MONOXIDE, the subtle yet potent poison, is produced by machines other than cars too. Liberty Mutual Insurance Companies suggests that you never run a power lawn mower chain saw or snow blower in an enclosed area such as a cellar or garage. Doing so could prove to be an overwhelming experience.

LETTERS TO THE EDITOR

Dear Editor:
Back in the late forties, William Matthei, a Milwaukee, Wisconsin, high school coach, wrote to Sports Trail, a newsletter published by Bike, makers of athletic tapes and supporters, trainer's supplies, and a division of the Kendall Company. He suggested that coaches in smaller communities, and even at some schools in large communities, were often not sufficiently recognized for their persistent and selfless efforts in training youth.

This was the germ of the Sports Trail Century Club. Since that time thousands of coaches have been honored before their community, and stimulated to continued good work by the reception of this award.

I hope you will be able to use the enclosed release on the recent Bike award given to one of your local coaches because of his outstanding record of victories.

If you are able to print the story, I would appreciate your sending a clipping of it to us, a stamped, self addressed envelope is enclosed for your convenience.

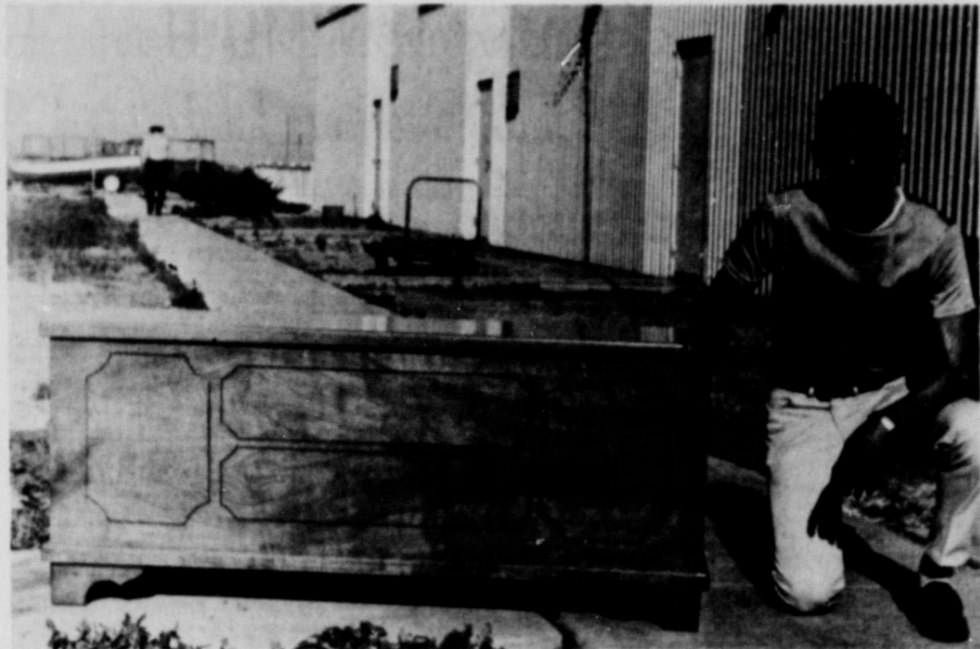

Thank you very much for your cooperation.

Kin Of Former Resident Killed In Crash

A Friona man was dead on arrival at Methodist Hospital in Lubbock about 11:00 p.m. Tuesday following a two vehicle crash in Farmer County. Another man injured in the crash was listed in critical condition.

Killed was Allison Precure, 20, of Friona. Critically injured was Roy Bridgeman, 36, of Hub.

Both were injured as the Bridgeman pickup traveling south on SH 214 and the Precure vehicle traveling north on the highway collided four miles north of Muleshoe.

The victims were first taken to West Plains Memorial Hospital in Muleshoe and were later transferred to Lubbock.

Bridgeman's pickup was torn into several pieces. The overturned cab of the vehicle was found on one side of the highway, while the bed, butane tank, windshield and engine were scattered on the other side.

The sedan driven by Precure was heavily damaged on its right side.

Precure was the husband of the former Irene Hanson of Earth. At press time Wednesday, details of funeral arrangements were unknown.

Taxes Up \$5 Billion

Will the residents of Lamb County pay more when tax day, April 15, arrives than the approximate \$9,354,000 the government collected from residents last April?

The Treasury Department expects the amount to be well above last year's contributions due to the fact that earnings in the local area were greater on the average than during the previous year and the 10 percent surtax was in effect throughout

the year. Figures released by the Internal Revenue Service covering the State of Texas as a whole show that individual income taxes collected in the state last year came to \$4,067,000,000 with local taxpayers contributing 23 percent of the total.

In the budget recently submitted to Congress the prediction is that personal income taxes will reach \$92.2 billion nationally or about \$5 billion more than last April.

Tax payments from Lamb County residents, in line with the economic advances made in the local area in the past year and based upon preliminary income reports, are expected to be about \$9,915,000,

or some \$561,000 more than in 1969.

Personal income taxes for the following fiscal year will be \$1.2 billion lower than this year, according to the banquet. This is due to the fact that the economy generally is in the doldrums, with more unemployment in 1969 and because the surtax was reduced from 10 percent to 5 percent for the first half of 1970 and will be eliminated entirely in the second half of the year.

The Administration has proposed a speedup in the collection of certain taxes, to produce a one-shot windfall of \$1.6 billion, an increase in taxes for those using the nation's highways and airways, a

Rainbows Enjoy Eastern Star Style Festival

The twenty-six Rainbow girls present at a regular meeting Monday, April 6, in the Earth Masonic Lodge were presented a style show of hats and spring dresses by several Eastern Star members.

Hats were from the collection of Mrs. Ray Kelley who has collected styles from 1952 to the present. Fourteen lovely hats depicting styles for all seasons dating from 1945 - 1962 were shown at Monday's affair.

Laugh-In Time began as Eastern Star members modeled lovely self created hats and spring dresses such as a pill box hat constructed of pill boxes a nylon dress which was adorned with nylons. No fashion conscious woman should be without the newest style in Kettle cloth pant suits. The dramatic, fashionable style of the suit is achieved by the addition of bells around pant legs, the cardboard box blouse, and the one accessory necessary, a kettle. Other bread - taking designs were modeled by Mrs. Forrest Simmons, Mrs. Phillip Haberer, Mrs. Johnny Murrell, Mrs. J. A. Littleton, Jr., Mrs. Melvin Bock, Mrs. Jerry Hinchliffe and Mrs. Roney Smith.

Narration for the event was provided by Mrs. Donald Kelley with appropriate music being furnished by Mrs. Zou Wilton.

Following the fashion preview limericks were led by Sharla Haberer.

Springlake WMU Hears 'Examples In Fruit Bearing In Taiwan' Program

The Springlake WMU met Tuesday, April 7, at the First Baptist Church of Springlake for a business meeting and a Royal Service Program presented by Baptist Missionary Robert L. Bausum.

"Examples in Fruit Bearing in Taiwan" was Bausum's theme in which he related his experiences in working with the people of Taiwan.

Bausum first arrived in Taiwan in 1951 and began a 7 night a week revival which continued for more than two years. The first week of his crusade 57 came forth for Baptism.

Those who were baptized were asked to do five things by Bausum. They were to read their Bibles, to pray daily, to try to attend every regular service, to Special Saturday Bible classes and to bring a lost friend to the services. The last request was stressed more than the other and each night the number of unsaved persons who attended the services made up 1/3 of the audience. Bausum believes this was the key to the success of the crusade.

Bausum stated that this was a marvelous experience because the people were so hungry for the word of God. In 1956 when he left Taiwan Bausum had baptized 410 persons.

During the business meeting plans were discussed for the weekend revival to be held April 22-25. Preparations were begun for visitation and prayers April 20-21. Plans were made to go to Bove-

ple of Taiwan. Bausum first arrived in Taiwan in 1951 and began a 7 night a week revival which continued for more than two years. The first week of his crusade 57 came forth for Baptism.

Warren Meeks, Loyd Lowery and Sam Stanton local members of the Witnesses, have been assigned parts on the program that will include Bible talks, dramas and discussion of ministerial activities, all centered on the theme, "Sacrifices that Please God."

Lowery said that the Witnesses have enjoyed substantial increases in the last 16 months. They not only had a numerical increase of 120,905 to their ministerial ranks in a 12 month period, but during the last 4 months of 1969 added another 55,000 dedicated, baptized ministers. Several from this area plan to be baptized, according to Lowery. They will

participate in an ordination ceremony for new ministers that includes immersion under water.

Another feature of the convention will be a special one hour Bible lecture on Sunday at 2 o'clock entitled "Withstanding the Pressures of Our Day." It will be delivered by the main speaker, L. M. Dugan, district minister from Brooklyn, New York.

Sunday, Final Day For Viewing Historical Period Room

Final day for viewing the Historical Gallery and period rooms at The Museum on the campus of Texas Tech University is Sunday, April 12, according to Eugene Kingman, director of exhibits and programs.

The gallery will be closed to the public April 13 to dismantle the exhibits preparatory to moving to the new Museum located at 4th St. and Indiana Ave., now under construction.

The Historical Gallery, in the basement of The Museum, contains a replica of an early-day half-dugout home, a Victorian living room, bedroom and kitchen depicting family life at the turn of the century, and an old General Store as the settlers on the South Plains operated.

The Museum's barbed wire and branding iron collection is represented in displays, along

with early-day agricultural equipment, and treasures from the past that families brought when they moved west.

The Museum staff will pack the objects in the exhibits and they will be used to make more displays in the exhibit areas of the new building, Kingman explained. The new building will contain much more space for such exhibits, and Kingman's duties include planning and executing exhibits for the new Museum.

Closing of the Historical Gallery leaves only the Hall of Earth and Man and the Rotunda Gallery, which now displays works of art from The Museum's permanent collection, along with the South Plains mural by Peter Hard, for the public to see.

There is no admission charge at The Museum.

Drinking 'Fun' Kills

How long does the fun last? The Texas Safety Association says: Not long—if you drive too soon after drinking alcoholic beverages.

The more alcohol there is in the blood, the longer you must wait until you can drive safely. On the average, it takes one hour for each bottle of beer or each ounce of whiskey to be eliminated by the body.

Even if you seem to be able to hold your liquor—your driving ability is greatly impaired during this period.

HSU Group Spends Week-end At Sante Fe

Ablene--Unexpected snow changed some plans but did not hamper the enjoyment of the annual "Thunderball" weekend of Sigma Delta Sigma, Hardin-Simmons University men's social club, as the members and their dates traveled to Sante Fe, N. M., over the Easter vacation. Kathy Clayton of Earth was among those participating in the weekend events.

The organization chose Sante Fe as the site for the trip because of its historical setting among Mexican, Indian, and American cultures. The group and their chaperones, Mr. and Mrs. Claude Hicks of Abilene,

stayed at the Inn of the Governors which is located directly across from the state capitol building of New Mexico.

Highlighting a dinner of "steaky huevos rancheros" Thursday, was the group singing of "The Eyes of Texas," led by the performing Mexican guitarist. Friday the group attempted to visit the famous Taos pueblo and other sights in the area but never made it to their destination because of a blizzard. Friday night featured dinner at a coffee house and a viewing of the Greta Garbo film "Ninotchka."

The H-SU group took advantage of free time Saturday to ski and play in the snow. Saturday evening included dinner in the Forge Restaurant at the Inn of the Governors and the play "The Odd Couple" at the Forge Theater.

After attending Sunday morning services at the First Baptist Church of Sante Fe, the club members and their dates returned to Abilene.

Clynch Named Award Winner By Sports Trail Century Club

Dallas C. Clynch, basketball coach at Springlake-Earth High School, was named an award winner recently by the Sports Trail Century Club, an organization sponsored by the Bike division of the Kendall Company, to foster community recognition of the contributions made by dedicated athletic coaches throughout the United States.

The coach was made an honorary member of the Century Club for his record of 141 victories in basketball.

The club is an honorary group open to all college and high school coaches whose teams have won 100 or more contests in any sport. It was originated some 20 years ago by high school coach William Matthei

of Milwaukee, Wisconsin, who asked that Sports Trail honor outstanding coaches "because their efforts result in good citizens."

"Successful coaching of athletic teams develops in young men a strong competitive spirit, an abiding appreciation of fair play, and a sense of responsibility," said R. H. Neilson, director of the club and a Bike executive. "The characteristics that make a winning team are the same ones that build better citizenship."

Neilson pointed out that, although a few coaches receive widespread recognition and praise, many others, like the current award winner, deserve to be honored by their communities for their dedication and achievements.

To Merchants:

Before extending credit, the business man must determine if the purchaser of his goods or services is credit worthy. You can make one call to the Credit Bureau to find out. You can reduce your credit losses by checking your customer's credit before you extend credit. Dollars stop working when they are tied up in uncollected, past-due accounts.

The Bureau also protects its members from undue credit loss by giving detailed information on the pay habits and financial responsibility of credit users.

Accounts receivable come under the heading of perishables. Unless they are collected systematically and promptly, they steadily deteriorate.

Remember, the most costly delay can be the period from your last effort to the assignment of the account to us for collection.

Money is short this year. Be sure you know the people getting yours.

To Individuals:

Your credit experience is kept in a credit file. It is a list of your credit references. The file shows the way you pay your bills, any repossessions, past due accounts, and other information that pertains to credit transactions.

Your file, good or bad, depends upon you. Past due accounts reported to your file stay on your record for several years. Just one past due account can stop you from buying a home, or from getting that new job you need. You may not need credit now, but what about tomorrow or the next day?

TAKE CARE OF YOUR CREDIT. IT WILL FOLLOW YOU IF YOU MOVE.

If certain unforeseen problems come up which make it difficult to meet obligations, contact your creditors immediately and try to work out a solution with them.

If you have difficulties with your credit the Bureau will try to assist you.

Like earning a driver's license or passing a test to enter college, credit is a privilege—not a right—granted to a consumer when he has demonstrated his ability and willingness to pay his bills on time.

Buy wisely, and pay promptly.

LAMB LISTED FIFTH IN DISTRICT

\$29 Million In Federal Funds Used In County

According to Congressman Bob Price of the 18th Congressional District, the individuals, companies and local governments within the district received almost a half billion dollars from the United States Treasury in 1969. Lamb County shared in the federal revenue to the tune of \$29,971,874.00. The congressman said that funds from the Department of Agriculture include farm price

support payments, REA and Farmers Home Administration loans, food stamp and commodity donations, and all other Agricultural Department functions.

He added, "The Department of Commerce includes census data and Weather Bureau; Department of Defense includes civilian pay, military active duty and retired pay, and defense contracts. "In the Department of Health, Education and Welfare will be Social Security payments, federal welfare share, and health and education grants. The Housing and Urban Department includes FHA Mortgage Insurance for home purchase and improvement while the Department of Interior includes reclamation, recreation and helium funds.

"The Department of Justice Funds include federal judges and Immigration and Naturalization Service and the Department of Transportation includes Bureau of Customs, Internal Revenue and interest on public debt and the Agency for International Development includes foreign aid contracts."

The 28-county 18th district

includes Potter County, which was the largest recipient with \$104,092,186. Roberts County, in the Panhandle, received the smallest amount of federal funds, with \$1,027,871.

Funds received in the 28 counties are listed as follows: Armstrong County, \$3,584,272.00; Bailey, \$14,444,285.00; Briscoe, \$6,367,251.00; Carson, \$9,118,655.00; Castro, \$21,369,692.00; Collingsworth, \$7,103,511.00; Dallam, \$9,592,713.00; Deaf Smith, \$24,463,430.00; Donely, \$4,032,051.00; Gray, \$18,969,402.00; Hale, \$48,687,299.00; Hall, \$10,653,784.00; Hansford, \$18,978,395.00; Hartley, \$5,121,155.00; Hemphill, \$1,869,443.00; Hutchinson, \$10,948,877.00; Lamb, \$29,971,874.00; Lipscomb, \$5,024,594.00; Moore, \$11,686,537.00; Ochiltree, \$7,070,060.00; Oldham, \$3,437,444.00; Parmer, \$29,460,956.00; Potter, \$104,092,186.00; Randall, \$33,919,144.00; Roberts, \$1,027,871.00; Sherman, \$6,620,835.00; Swisher, \$25,988,990.00; and Wheeler, \$12,488,724.00.

Residents Step Up Service Spending

In recent years, Lamb County residents have stepped up their spending for services, according to a new government survey.

After securing the basic necessities, residents have spent a greater share of their available funds for non-good items known as services such as beauty care, diaper service, tailoring, automobile repair, shoe repair, plumbing work, movies and a number of other services.

The fact that local families have greater incomes and are able to buy more services accounts for the increased spending for services. Another fact-

or is that services in general cost much more today than in former years.

A report from the Department of Labor shows that service costs for auto repairs have risen 19 percent in four years, men's haircuts are up 26 percent, painters are getting 40 percent more and there has been a 30 percent increase in doctors fees. Among the group of the nations service industries listed in the Department of Commerce's regular report are auto repairs business services, personal services, hotels and motels, motion pictures, other types of recreation and entertainment, and miscellaneous repair and transportation services. Health and educational services are not included.

The Lamb County \$2,371,000 expenditure for services provided by the 174 establishments covered in the report, represented \$329 per local household.

Nationally the great rise in living costs has been centered in the services rather than in manufactured goods.

Factories have been able to maintain production and to keep the county fairly well supplied.

The services, however, have not been able to meet the demand which explains the soaring costs.

Military Discharges Need Clarification

The Veterans Administration has moved to clear up misconceptions about two types of military discharges.

Citing the problem, Administrator of Veterans Affairs Donald E. Johnson said today that misunderstanding about the difference between "honorable" and "general" discharge certify dates are causing some veterans unjustified difficulties.

"Actually, both types of separation are completely acceptable for veterans benefits," Johnson explained.

He commented that the general discharge always has the qualifying phrase "under honorable conditions" because this type of separation is issued as evidence of honorable service. The VA chief said some ex-servicemen have reported trouble obtaining employment after showing potential employers their general discharge certificates.

GSPA Working For Higher Loan Rates

The Grain Sorghum Producers Association is continuing its drive to get grain sorghum loan rates set more realistically to those of corn in the new farm legislation. Elbert Harp, GSPA's Executive Director, said "Present national average grain loan rates are now only 80% of those of corn; whereas, the average feed value relation has been set at 95% or better."

Harp pointed out that, "Presently the grain sorghum loan rates are related to corn according to feed value and seven other factors, which virtually allow the Secretary of Agriculture to set it anywhere he chooses. We are working to remove all the other factors, except food value, and have been encouraged about the possibility of getting it passed."

Congressman Bob Price of Pampa plans to introduce the GSPA amendment, which now appears to have the support of the Agriculture Committee members. GSPA has been seeking the support of other farm and grain organizations and Harp stated that, "We now have the support of National Grange, National Farmers Union, National Farmers Organization, National Corn Growers, United Grain Growers of America, Nebraska Feed Grain Growers, Panhandle and Texas Grain and

New "Marine Fence"

A new "marine fence" that can be easily assembled to bar intrusion of floating oil and debris in marinas and harbors has entered the anti-pollution fight. It is made of sheets of asbestos and rubber, combined with foamed flotation material. The sections are linked together by welded marine-type chain stretched along the bottom underwater edges of the fence. The weight of the chains helps hold the fence upright.

EXCEL BRAND CORN SEED HEADQUARTERS

Area Proven In Experiment Station Tests
And In The Farmers Field...

E-944 variety is a late-maturing, special-cross hybrid. It will mature early enough for grain production anywhere in Texas. The stalks are very stiff and erect. The plants stand well for harvesting. It produces a high yield of grain or silage and also has a good resistance to the corn ear-worm and to leaf blights. The recommended planting rate is a stalk every 8 inches in a 40 inch row or approximately 20,000 plants per acre.

E-8244 variety will mature satisfactorily in all of Northeastern Nebraska and is an early maturing hybrid on the Texas Plains. This hybrid has a most excellent yield record in Nebraska, Kansas and Texas. It has an unusually high yield record at thin planting rates or at high planting rates of 24,000 plants per acre. It is very tolerant to Maize Dwarf Mosaic Virus and one of the few hybrids that is highly tolerant to the western corn root worm. The stalks are rather short and the standability of this hybrid is very outstanding. It is a quick-drying hybrid after it matures.
