How It Looks From Here

By Ray Freedman

In the course of events, the postal workers demand a raise in their already astronomical salaries, we again hear the hue and cry that the businessman has raised the increases in mail rates by their voluminous transmissions of junk mail. Now, it has been transmitted through the system is included or free mail sent out by the literally thousands of agencies and bureaus of the state and federal governments. This mail provides information for publication by newspapers. This is where it becomes the publisher's problem of determining the difference between advertisement and publicity.

Notice

The 1978 annuals arrived September 15 after a delay by the publishing company because of problems they encountered last winter.

Upon examination we found that 16 pages that were in color were printed in black and white. We have returned the annuals to the publishing company for correction.

We are so sorry for this delay. Everything that we can be doing. As soon as they notify us, of a date that we may expect them, we will notify all students in school.

NUMBER 26 Ronnie James runs for the goal line in a supreme effort for one of the SLEW'S touchdowns of the evening.

SLEW Edged By Sudan

The Wolverines played well but fell short by inches. The game was highlighted by big plays. Several kids played with a tremendous amount of pain. The loss was perhaps the toughest in two years as the Wolverines did not dominate Sudan. It's also the 1st time the Slew had moved the ball on the ground the way they did. The offensive line came off extremely well, the team downfield block was just super.

People who played very well were Steve Monreal, Ricky Smith, Byron Vaughn, Elizar Ontiversis, Lexie Fennell, Keith Clayton, Kenny Wright, Ronnie James, Lupe Duran, Rex Fennell, Rudy DeLeon, Biff Belew, James Herriage, Melvin James, Lonnie Neinst and Jimmy Don Randolph.

Coch Taylor commented "that our people are truly winners in that they had several things go wrong and never lost faith. Their effort has never been a disappointment. We have run after the ball games for 2 years now and Friday our kids ran as usual, what ever amount the captains decided, but it was different in that they had nothing left. This without a doubt the best ball club that Springlake-Earth has had since I've been here and perhaps ever because of the heart, desire, pride, these young men have. They have sacrificed so much and their opportunity to enjoy winning is very close. Fans,

we are so glad so many went to Sudan and we hope with all our hearts you see us against Shallowater, as we open our 1st home game." The Crew will be ready.

The offensive statistics were:	Wolverines	Sudan
1st.	16	8
run. yards	294	32
pass	281	50
pass completion	3-8-1	3-5
fumble	2-10	6-8
punting	4-18-7 yd.	3-25 yd

The team scored on an 85 yard drive with Jimmy Don Randolph sneaking it in. Ronnie James got 2 points on reverse. Keith Clayton scored after 62 yards drive from 6 yards out, kick failed. Ronnie James scored on fake punt 56 yards and 2 points play failed.

The blocking was just great. The hit was breath taking. See you Friday night.

"Players of the Week—Offensive, Ricky Smith; Defensive, Steve Monreal; Big Hit award goes to Ronnie James and Kenny Wright.

These are only 4 of the Slew.

From Coach Taylor: "Congratulations to the SLEW High School Band. They played better than I've ever heard them Friday night. Looking forward to even a better night against Shallowater."

JV Wins Second Game

The Wolverine J.V.'s won its 2nd game in as many tries here Thursday night against the Sudan Hornets.

The first half of the game went scoreless as both teams fielded each other out. The Wolverines had one good 90 yard drive stall, as 3 penalties in as many plays toward the only real home team thread of the first half. The Hornets drove the ball 60 yards on one occasion in the 1st quarter, only to have a tremendous defensive effort by the Wolverines hold on 4 plays inside the 5 and turn Sudan away with nothing.

The second half opened as the "Crew" kicked off to Sudan. On the first play for scrimmage, the ball was fumbled and recovered by the defense. Five plays later, Todd Moore scored on the option QB keep. The "Crew" went for 2 and came up just short. Late in the 3rd quarter, Raymond Olvera scored on a 12 yard run over the blocking of Gaylon Conner and Mike Ramirez. Olvera then kicked the extra point making the score 13-0.

The defense then took over and played well the remainder of the game. With 2 minutes left in the game, the JV gave up its first touchdown in 8 quarters of play. The defense played super all night with exceptional play turned in by Claude Barlow at defensive end.

The JV play September 21 at Shallowater. See you there. Game time will be somewhere around 7:30 to 8:00 following the Junior High game.

Band To March

Members of the Wolverine Band have "taken to the streets" in front of the school preparing for the South Plains Fair Parade to be held in Lubbock on Monday, September 25. The parade officially begins at 10:00 a.m., with the Wolverine Band being 23rd in line. The band is one of over 45 bands in the parade, and will be competing for the more than \$500.00 in prize money to be given away in our class. Cash prizes will be given to the bands placing in the top four places.

Band members will load at 8:15 Monday morning and will leave at 8:30, arriving at Lubbock at 9:30. Following the parade, band members will be allowed to attend the fair. Buses will load that evening at 8:00 and will leave at 8:15 arriving back at the High School at 9:30 Monday night.

The band will march to the popular football rouser "Mr. Touchdown U.S.A." There will be 65 band members participating, including the block band of 55, with 4 flags, 4 twirlers, and 1 drum major.

Fulfer Wins

In the second week of the football contest, 80 percent of the entries, picked Dallas and Green Bay to win, and they lost.

With 8 games correct, the tie-breaker gave 1st place to Mary Fulfer and 2nd place to Glenn Branscum.

In a 4-way tie with 7 games correct, and tiebreaker tied, a flip of a coin gave 3rd place to David White.

Others with 7 games correct were Ronnie Dent, Lexie Fennell and Kevin Riley.

Those with 6 games correct were Lupe Flores, Vickie Kelley, Cliff Sanders, Rodney Geissler, Kevin Anderson, James Hanson, Rocky Williams, Edna Sanders, Lonnie Neinst and Larry Cole.

Having 5 games correct were Doug Jones, Allen Moore, William P. Holland, Jr., Richard E. Moore, John Messer, Tom Sanders, Larry Price, B.J. Angeley, Mike West, Christy Clark and Jo Eddy Riley.

Those with 4 games correct were Shawndi Geissler, Rocky Lunsford, Mark Jordan and Jodie Riley, with Lupe Duran and LaVerne Fennell having 3 games correct.

There is still time to enter, don't delay, you could win the grand prize.

Glasscock To Head Drive

Juanice Glasscock has been named to head the 1978 door-to-door march for St. Jude Children's Research Hospital in Earth.

William J. Kirwen, St. Jude's Development Director, made the announcement and said other key positions for the march will soon be filled.

We are proud to find such a dedicated person for this important task," Kirwen said. "St. Jude Children's Research Hospital offers hope to stricken children everywhere that would not be possible without such volunteers."

St. Jude Children's Research Hospital is the only research center dedicated exclusively to the study and conquest of catastrophic diseases of children. Its work, particularly in leukemia and other childhood cancers, has been internationally acclaimed and cited as a leading

example for basic and clinical research.

"No one has ever been charged for the benefits provided by St. Jude Hospital," Kirwen said. "And that includes the extremely expensive total medical care provided to children enrolled in its research studies."

"Over two-thirds of this year's 19 million dollar operating budget came from public support. Each year we rely on events, like this to pay for the following year's costs."

"Since Danny Thomas opened this institution in 1961, his dream of conquering the deadly diseases of childhood has continuously been brought closer to reality. Mr. Thomas is still the very active president of this organization and inspires us in this cause," Kirwen said.

The drive is planned for the weeks of October 15th-28th.

DALE MARET

Salvation Army

The Earth Salvation Army Service Unit will be represented by Mr. Dale Maret, Salvation Army Field Representative. It was revealed recently by Reverend David Burum, Service Unit chairman and pastor of the Earth First Baptist Church.

Mr. Maret's appointment to Region Five was announced recently by Mr. Dan Eddy, Texas director of development for The Salvation Army.

Region Five is a Salvation Army designated 29-town area that includes Earth and covers all of the Panhandle and much of the South Plains.

DEFENSIVE STEVE MONREAL

BIG HIT RONNIE JAMES & KENNY WRIGHT

OFFENSIVE RICKY SMITH

The worst offenders are those officials, who are seeking public exposure in the hope that they may gain election to a higher office, or retain the one they have. These folks are just about as subtle as a bull elephant in providing all manner of statistical information about monies being returned to communities, Social Security and other trivia that not very many of us either understand nor give a tinkers---about.

Maybe the next few years will provide a few days of slack time in which we can sit down and compose several hundred letters to some of the agencies and request that our name be eliminated from their mailing list, of which they have more than likely not updated in several years.

MOTTOS—Possibly one of the least publicized organizations in this country is called "Let's Have Better Mottos Association". The stated purpose of this association is to "do away with such mottos as 'THINK', 'A PENNY SAVED IS A PENNY EARNED', 'DO IT NOW', and replace them with some non-inspirational mottos". Here are some of the mottos that have received the most support from the organization. **WHEN IT COMES TO GIVING, SOME PEOPLE STOP AT NOTHING. TO ERR IS HUMAN, to forgive is against company policy. WHEN EVERYTHING'S COMING YOUR WAY you're probably on a one-way street. KEEP BOTH FEET ON THE GROUND and you'll never get your pants off. The all-time best motto is suggested as: IT'S NOT WHETHER YOU WIN OR LOSE, but how you place the blame. Or JUST BECAUSE YOU HAVE A JOB, don't feel you must stop looking for work.**

In the day to day operation of the welfare department, they receive some interesting and sometimes humorous letters. Some of them contain information so veiled that it may take an interpreter to decipher them. Here are a few that we have had called to our attention. "I am forwarding my marriage certificate and six children. I have seven, but one died, which was baptized on a half sheet of paper." "I am writing to welfare to see that my baby was born two years old. When do I get my money?" "Mrs. Jones had not had any clothes for a year and has been visited regularly by the preacher." "I cannot get sick pay. I have six children. Can you tell me why." "I am glad to report that my husband who is missing is dead." "This is my eighth child, what are you going to do about it." "Please find out for certain if my husband is dead. The man I am living with can't sleep or do anything until he knows." "I am very much annoyed to find out you have branded my son an illiterate. This is a dirty lie, as I was married two weeks before he was born." "In answer to your letter, I have given birth to a boy weighing 10 pounds. I hope this is satisfactory." "I am forwarding my marriage certificate and three children. One of which is a mistake as you can see." "My husband got his project cut off two weeks ago and I haven't had any relief since. Why?" "Unless I get my husband's money pretty soon, I will be forced to lead an immortal life." "You have changed my little boy to a girl. Will this make a difference?" "I have no children as yet as my husband is a truck driver and works day and night." "In accordance with your instructions I have given birth to twins in the enclosed envelopes." "I want my money as quickly as possible I can get it. I have been in bed with the same doctor for two weeks and he doesn't do me any good. If things don't improve I will have to send for another doctor to help him."

There is, indeed, reason for genuine concern over excessive and growing regulation of our lives by government.

We haven't always had a problem in this country with over-regulation by government. But we sure have one today.

The first regulatory law wasn't enacted by Congress until 1887, the 100th anniversary of our Constitution--and 111 years after the Declaration of Independence was signed.

That law, the Act to Regulate Commerce, created the Interstate Commerce Commission which was the first and for 27 years the only independent regulatory agency in the Federal Government. The Federal Trade Commission was next, established in 1914. Then came other regulatory

agencies: The Federal Power Commission, 1920; The Food and Drug Administration, 1930; The Securities and Exchange Commission, 1934; The Federal Communications Commissions, 1934; The Civil Aeronautics Board, 1938.

For more than 80 years, from the time of the first federal regulatory law in 1887 until this decade, government was concerned primarily with economic regulation.

Most of the mechanism for economic regulation was placed by the beginning of World War II. But a wholly new type of government regulation came with the beginning of the 1970s: social regulation. Establishment of such agencies as the Environmental Protection Agency, 1970; the Consumer Product Safety Commission, 1972; and the Occupational Safety and Health Administration, 1973, have made it a whole new ball game. The CAB, for example, has jurisdiction over a few hundred firms. The ICC over a few thousand. But EPA, CPSC and OSHA have an impact on hundreds of thousands of firms, non-profit organizations and state and local governments. The Federal Register is the book in which new government regulations are published. In 1955 some 10 thousand pages were published. In 1955 some 10 thousand pages were published each year in the Federal Register. By 1970, 15 years later, that number had grown to 20,000. But by 1977, following the advent of social regulation, the number of pages in the Federal Register had mushroomed to 70,000.

President Thomas Jefferson, in his first inaugural address 177 years ago, expressed eloquent opposition to excessive government regulation "... a wise and frugal government." There are a few pursuits the modern-day U.S. citizen is free to regulate for himself. Government regulates more facets to our lives these days and the trend is toward more of it.

In 1955 some 10,000 pages of regulations were published each year in the Federal Register. By 1970, 15 years later, that had doubled to 20,000 pages and by 1977 the pages in the Federal Register had grown to 70,000!

A study put the cost of federal regulations to consumers, taxpayers and businessmen at \$102 billion a year.

We pay the price in several ways. The cost of maintaining 41 federal regulatory agencies is estimated to have increased from \$2.2 billion in fiscal year 1974 to \$4.8 billion '79; federally-mandated safety and environmental features have increased the price of the average automobile by \$666 in 1978; and, federal, state and local government regulations currently add between \$1,500 and \$2,500 to the cost of a typical new house. The total added cost to purchasers of new homes last year was \$4 billion.

In 1963 the General Accounting Office conducted an audit for Congress and recommended that FHA and VA consolidate their property appraisal forms. These two agencies have been dancing around this proposal for 15 years now and have not yet implemented it.

In 1976 some 50,000 homeowners had to pay \$75 to VA for an appraisal and then turn around and pay another \$60 for an FHA appraisal because neither agency will accept the other's appraisal.

SMALLER CROP BRIGHTENS COTTON PRICE OUTLOOK—Prospects for a smaller cotton crop that was expected earlier this year have improved the price outlook despite sagging demand.

With deteriorating crop prospects in West Texas and California, U.S. production may be down to about 11 million bales instead of the 11.8 million estimated by the U.S. Department of Agriculture Crop Reporting Board on August 1. The 1977 crop totaled 14.4 million bales.

"The shortfall points to a price level somewhat higher in the second half of 1978 than the average of 49 cents per pound received by Texas producers during the first half of the year," notes Dr. Carl G. Anderson, cotton marketing specialist with the Texas Agricultural Extension Service. "However, supplies expected to be adequate to meet disappearance. This means that carryover of cotton at the end of the 1978-79 season will be only slightly less than the 5.4 million bales on hand when the season started."

While the close balance between production and takeoff will cause the market price to be sensitive to news about any changes in worldwide production, the overall price increase will likely be small. Due to the sluggish demand, a much larger drop in production than now anticipated will have to develop to trigger a substantial jump in price, believes Anderson.

Even though planted acreage in Texas is close to that of last year, the crop is suffering from lack of moisture and hot weather. So it may fall short of the 3.7 million bale crop estimated by the Texas Crop and Livestock Reporting Service in early August. This compares with 5.5 million bales last season and 3.3 million bales in 1976. However, production prospects are better in other major cotton growing areas.

"The higher price earlier this year has apparently encouraged foreign producers not to reduce cotton acreage as much as planned earlier," notes Anderson. "Foreign production is expected to slightly exceed the 49.3 million bale crop estimated for the 1977-78 crop year."

Foreign consumption is also expected to change little and will likely exceed production by about 5 million bales during the present year. That would be about the same size as the gap in 1977-78 and should maintain a strong export market for U.S. cotton, believes the marketing specialist. Cotton consumption in foreign countries is lagging as slow economic growth and a high rate of inflation are reducing the purchasing power of consumers, especially in Japan and several European countries.

"In the U.S. mill consumption of cotton continues to shrink while use of man-made fiber is increasing," reports Anderson. During the first 10 months of this season, mill use was 5.3 million running bales, 4 percent less than in the same period a year earlier. During the same period consumption of man-made fibers by mills with cotton system spindles totaled 1.71 billion pounds, up 8 percent from the year before.

"Economic conditions will likely continue to curtail the demand for cotton in the year ahead," says Anderson. "Current indicators point to a sharp slowdown in U.S. economic growth. An escalating inflation rate suggests less capital spending and a slackening in personal income growth that will dampen economic activity."

In the past, an economic downturn has resulted in a slump in demand for fiber, notes the specialist. The Gross National Product is constant dollars decreased 1.4 percent in 1974 and 1.3 percent in 1975 from the level in

the preceding year. At the same time, total consumption fell 13 percent and another 4 percent in 1975 rebounding in 1976 along with the upturn in economic activity.

COLLECT SOIL SAMPLES THIS FALL—Why work next year to collect soil samples?

Numerous studies have shown that nutrient levels of soil pH do not change rapidly so that samples collected well ahead of planting. Most important have a long range plan for sampling each field at four-year intervals. This can be accomplished.

AVISO PUBLICO UN RESUMEN DE LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION ELECCION GENERAL 7 DE NOVIEMBRE DE 1978

LA ENMIENDA PARA ALIVIO DE IMPUESTOS (H.J.R. 1)
H.J.R. 1 propone una enmienda a la constitucion de Texas permitiendo a la legislatura que exente propiedad personal intangible; requiriendo que la legislatura exentacion de impuestos caseros y efectos particulares; y permitiendo a la legislatura que exente todo o parte de la propiedad personal del hogar seguro, de la impositcion de impuestos estatales y locales sobre propiedad.
La enmienda requiere a la legislatura que disponga la impositcion de impuestos sobre tierras agricolas y rancheras basada en su capacidad productiva en vez de su valor de mercado y permite a la legislatura que disponga la impositcion de impuestos sobre propiedad de madera basada en su capacidad productiva.
La enmienda permite a los gobiernos locales que extiendan la exentacion de impuestos de no menos de \$3,000 del hogar seguro residencial para personas de 65 años o más de edad para incluir ciertas personas incapacitadas.
La enmienda concede una exentacion de \$5,000 en el valor de mercado del hogar seguro residencial en los impuestos para escuelas publicas sobre propiedad. Autoriza a la legislatura que conceda una exentacion adicional de los impuestos para escuelas publicas sobre propiedad de una cantidad que no exceda \$10,000 del valor de mercado de hogares seguros residenciales de personas 65 años o más de edad y ciertas personas incapacitadas. Si la persona de 65 años o más de edad es elegible para esta exentacion la cantidad total de los impuestos para escuelas publicas sobre propiedad de hogar seguro de aquella persona no puede incrementarse.
La enmienda previene que gobiernos locales incrementen los impuestos sobre propiedad a menos que el cuerpo administrativo provea aviso publico y lleve a cabo una audiencia publica. La enmienda requiere a la legislatura que disponga por ley que cada propietario reciba aviso de la revaluacion de su propiedad y la cantidad de incremento en sus impuestos.
La enmienda limita las apropiaciones de los ingresos de impuestos estatales a una cantidad que no exceda la tasa de crecimiento económico estatal que se anticipa, con la legislatura autorizada para conceder exenciones de emergencia.
La enmienda prohíbe la imputacion de propiedad inmueble a través del estado para los fines de impuestos sobre propiedad. Se requiere que la ejecución de

competencia concurrente con ambas cortes, cortes de condado, y cortes de distrito, cuando la cantidad en controversia sea entre \$500 y \$1,000, a menos que la legislatura conceda a la corte de condado o distrito competencia exclusiva.
La terminologia de la enmienda propuesta tal como aparecerá en la boleta es como sigue:
"La enmienda constitucional para extender la competencia de los jueces de paz en causas civiles."
NO. 6 (S.J.R. 45)
S.J.R. 45 propone una enmienda a la constitucion de Texas que permita que la legislatura aumente el número de jueces en cualquier corte de apelaciones civiles. Al presente, cortes de apelaciones civiles están limitadas a un juez presidente y dos jueces asociados. La enmienda también permitiría a las cortes que sesionen por secciones, con la concurrencia de una mayoría de los jueces en la seccion cuando se decida una causa.
La enmienda constitucional permitiendo que la legislatura aumente el número de jueces en cualquier Corte de Apelaciones Civiles, permitiendo que Cortes de Apelaciones Civiles sesionen por secciones, y requiriendo la concurrencia de una mayoría de jueces para decidir una causa."
NO. 7 (S.J.R. 46)
S.J.R. 46 propone una enmienda a la constitucion de Texas eliminando la Comisión de Edificios del Estado y el Fondo de Edificios del Estado de la Comisión de Edificios del Estado ha sido trasladada por ley a la Junta de Control del Estado.
La terminologia de la enmienda propuesta tal como aparecerá en la boleta es como sigue:
"La enmienda constitucional que da a la legislatura el poder de autorizar las ciudades y pueblos para expedir bonos para financiar el desarrollo de áreas deterioradas y prohibir cualquier ciudad o pueblo de conceder su dinero o prestar su crédito para tales fines."
NO. 4 (S.J.R. 53)
S.J.R. 53 propone una enmienda a la constitucion de Texas para permitir que la legislatura aumente la impositcion de impuestos, aparatos para energia o de viento.
La terminologia de la enmienda propuesta tal como aparecerá en la boleta es como sigue:
"La enmienda constitucional autorizando a la legislatura para aumentar de impuestos aparatos de energia solar o de viento."
NO. 5 (H.J.R. 37)
H.J.R. 37 propone una enmienda a la constitucion de Texas para conceder competencia exclusiva a jueces de paz en causas civiles cuando la cantidad en controversia no excede \$200, a menos que la legislatura conceda competencia exclusiva a otra corte.
La enmienda concede a jueces de paz competencia concurrente con cortes de condado cuando la cantidad en controversia sea entre \$200 y \$500, a menos que la legislatura conceda a la corte de condado competencia exclusiva también.
La enmienda concede a jueces de paz

PUBLIC NOTICE SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOV. 7, 1978

"The Tax Relief Amendment" (H.J.R. 1)
H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.
The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.
The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.
The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.
The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the revaluation of his property and the amount taxes will be increased.
The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.
The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

bonds would be payable solely from the revenue from the sale or lease of these facilities. The building or acquisition of such facilities must be determined by the local government to be necessary to develop employment opportunities.
The wording of the proposed amendment as it will appear on the ballot is as follows:
"The constitutional amendment to extend the jurisdiction of justices of the peace in civil cases."
NUMBER SIX (S.J.R. 45)
S.J.R. 45 proposes an amendment to the Texas Constitution to allow the legislature to expand the number of judges on any court of civil appeals. Presently courts of civil appeals are limited to a chief justice and two associate justices. The amendment would also allow the courts to sit in sections, with the concurrence of a majority of the judges sitting in the section necessary to decide a case.
The wording of the proposed amendment as it will appear on the ballot is as follows:
"The constitutional amendment permitting the legislature to increase the number of justices on a court of civil appeals, permitting a court of civil appeals to sit in sections, and requiring a concurrence of a majority of justices to decide a case."
NUMBER SEVEN (S.J.R. 48)
S.J.R. 48 proposes an amendment to the Texas Constitution eliminating the State Building Commission and the State Building Fund. The authority of the State Building Commission has been transferred by law to the State Board of Control.
The wording of the proposed amendment as it will appear on the ballot is as follows:
"The constitutional amendment to repeal the constitutional authority for the State Building Commission and the State Building Fund."
NUMBER EIGHT (H.J.R. 42)
H.J.R. 42 proposes an amendment to the Texas Constitution allowing certain political subdivisions or districts in the state that can presently issue bonds or otherwise lend their credit to engage in fire-fighting activities and to issue bonds or otherwise lend their credit to support such activities.
The wording of the proposed amendment as it will appear on the ballot is as follows:
"The constitutional amendments authorizing certain districts to engage in fire-fighting activities and to issue bonds or otherwise indebtedness or to issue bonds or otherwise lend their credit for fire-fighting purposes."
NUMBER FIVE (H.J.R. 37)
H.J.R. 37 proposes an amendment to the Texas Constitution to grant exclusive jurisdiction to justices of the peace in civil cases where the amount in controversy does not exceed \$200, except where the legislature gives exclusive jurisdiction to another court.
The amendment grants justices of the peace concurrent jurisdiction with county courts where the amount in controversy is between \$200 and \$500, except where the legislature gives the county court exclusive jurisdiction.
The amendment also grants justices of the peace concurrent jurisdiction

PROTECTING YOUR HEART

Casserole Cooking—Make Two, Freeze One

Today's smart shopper knows how important a freezer can be in getting the most for your food dollar. It allows you to buy meat and other items on special, helps you preserve produce from your own garden and aids in avoiding leftovers by packaging foods to fit your family's needs.

The freezer can also be a big timesaver. Instead of cooking one meal at a time, cook two and put one in your freezer. Most casseroles freeze very well if they are wrapped properly. Also, preparing less expensive casseroles (as opposed to quick, but more expensive entrees) at your leisure lets you save money in the long run.

When freezing casseroles, line the pan with aluminum foil, fill with food and wrap well. Freeze until solid, then remove from the pan. Freeze prepared food as soon as possible and store at a temperature of 0°F, or lower. Be sure to label and date all packages in your freezer to facilitate later use. Casseroles can be stored in the freezer for up to 3 months.

Our Tuna Lasagne is a unique variation of an old favorite that's perfect for freezing. Packed with nutritious foods (tuna, cheese, milk, spinach) this wholesome and delicious dish will soon be a household favorite. As an added bonus Tuna Lasagne is low in cholesterol and saturated fat since it is prepared with Fleischmann's Corn Oil Margarine, skim milk and low fat cheeses. And isn't it nice knowing you have another delicious casserole waiting for you in the freezer!

TUNA LASAGNE

- 6 tablespoons Fleischmann's Corn Oil Margarine
- 1 cup chopped onion
- 8 ounces shredded partially skimmed Mozzarella cheese
- 1 container (12-ounce) pot cheese
- 2 packages (9-ounce each) frozen chop-

ped spinach, cooked and drained
2 cans (7-ounce each) tuna, drained and flaked
1/4 cup unsifted flour
1-1/2 teaspoons salt
1/8 teaspoon white pepper
3 cups skim milk
2 jars (15-1/2 ounces each) Marinara Sauce
1 pound lasagne noodles, cooked and drained

Melt 2 tablespoons corn oil margarine in saucepan. Add onion and saute until lightly browned. Measure out 1 cup shredded Mozzarella cheese and set aside. Combine remaining Mozzarella with pot cheese, spinach, tuna, and sauteed onion. Melt remaining 4 tablespoons margarine in same saucepan. Blend in flour, salt and pepper. Gradually stir in skim milk. Cook over medium heat, stirring until mixture comes to a boil. Remove from heat. Spread a small amount of Marinara Sauce in the bot-

tom of each of two 13 x 9 x 2-inch baking pans. Place a layer of lasagne noodles over sauce. Top with 1/6 of the tuna mixture, 1/6 of the white sauce and about 1/8 of the remaining Marinara Sauce. Beginning with lasagne noodles repeat layers two more times. Top with remaining lasagne noodles and Marinara Sauce. Sprinkle reserved Mozzarella cheese over casseroles. Bake at 375°F. 25 to 30 minutes. Makes 2 casseroles, 6 servings each.

Freezing Instructions: To freeze one casserole, line pan with foil leaving ends extended over sides. Fill pan and wrap well. Freeze until solid. Remove lasagne from pan. Return to freezer for up to 3 months. To serve, peel off foil and place lasagne in baking pan. Thaw in refrigerator overnight. Bake covered at 375°F. 30 minutes; remove cover and bake 30 minutes longer, or until hot and bubbling.

Party Line

Mr. and Mrs. Donnie Henderson left Friday to Albuquerque, New Mexico where they visited his dad, Mr. and Mrs. L.D. Henderson and family. While there they attended the State Fair and horse races. They returned home Sunday night.

Do It And Die

Out of your diet onto your dinner table. Weight Watchers Italian pies for those weight control programs.

For decades dietitians tried—and often failed—toe the line with cheese, carrots and the like. But here comes Jean Nisbet, founder of Weight Watchers International, saying these pies are fine as a nutritionally proper control program. Two kinds of Italian are Cheese and Tomato Sausage, Cheese and Tomatoes. Packed: two to a box, portion-controlled, they are prepared and distributed by Foodways New York.

sampling 1/4 to 1/2 of the fields each year or sampling all at two to four-year intervals.

A farm map should have permanent field numbers and these numbers used each time samples are collected. Keeping results and observing changes over a period of time is essential for obtaining the greatest amount of useful information from soil tests.

To collect a representative sample, give careful attention to instructions on the back of soil sampling information sheets available at the county Extension office. Obtain a composite sample to represent the plowlayer in cultivated fields and the top 3 to 4 inches for perennial sod crops. This requires 10 to 20 slices or cores at random over the field.

Averaging the variation caused by past fertilization, liming, cropping and natural conditions requires a special effort to collect good samples. And a good sample is essential for satisfaction to be expected from soil tests.

So get the jump on next year's cropping program by collecting soil samples now.

BROWN PATCH HITTING LAWNS-With the onset of cooler temperatures and rainy weather, homeowners will once again be plagued with brown patch disease in lawns.

Brown patch is a fungus disease that occurs on St. Augustinegrass, Bermudagrass and Zoysiagrass in late spring and early fall.

Brown patch is characterized by three different types of symptoms in turf. The most common is circular patterns of dead grass from 1 to 50 feet in diameter. The second type of symptom is a diffused type of pattern of which small patches of grass will turn brown primarily in shady locations. The third symptom is where individual leaf blades turn yellow in turf; this is usually the way brown patch shows up in St. Augustinegrass.

Hunting accidents can be avoided

Although the crisp autumn season means many Americans will enjoy countless hours of hunting, it unfortunately also means scores of needless hunting accidents as well.

Veteran sportsmen Harvey Bowman and Jimmy Steel, both employees of R.J.R. Archer, Inc., have learned firsthand from 38 years of combined hunting experience that special safety precautions are required to make sure an enjoyable sport doesn't become a tragedy.

Both men have witnessed numerous examples of careless hunting habits. Steel remembers one of the more extreme cases where a friend was mistaken for a deer and shot in the leg. When the injured friend hollered to signify he was human, he promptly got shot again.

"Some people shoot everything that moves or makes noise, instead of waiting to identify what it is," says Steel.

Bowman and Steel, who are experts in hunting everything from dove to deer, work the night shift for Archer, a Winston-Salem-based aluminum products and packaging company. That means they have weekdays, as well as weekends, free to hunt.

In discussing safe hunting techniques, both men offer these suggestions:

- Walking in single file, the hunter in the lead may have his gun pointed ahead of him—but never over his shoulder. Both the hunter in the middle and in the rear must have their guns pointed to the side.

- Walking abreast, the person in the center must remember to keep his gun pointed to the front. The others can point their guns to the sides away from their party or to the front.

- Hunters should wear bright colors such as red and blaze orange to distinguish themselves from the surround-

ings and use a flashlight in darkness so they will not be mistaken for wildlife.

- When traveling over steep, slippery or unstable footing, the hunter should keep his gun unloaded.

- When crossing a fence with a companion, unload the gun and hand to a buddy, keeping the action open. After crossing the obstacle, the hunter may take both unloaded guns while his partner crosses.

- When hunting with bows and arrows and using a tree stand, climb to the stand and then use a rope to hoist up equipment. That will help eliminate injuries that commonly occur in carrying bows and arrows.

- Never mock an arrow or draw a bow if someone is in front of you and never release an arrow without being able to see its full path to the target.

In general, remember that most firearm safety rules also apply to archery.

Dimmitt Locals

By Maxine Short

A jury in 64th District Court last week found Gabriel Gonzales guilty of criminally negligent homicide in a misdemeanor, in connection with an accident at the US 385 and FM 145 intersection in November of 1976, which took the life of Mrs. Ima Blewett.

The trial ended last Wednesday, September 6, and the jury of six men and six women returned the verdict of guilty after deliberating almost two hours. Judge John Boyd sentenced Gonzales to serve six months in the county jail with credit for time already served since July 23 and a \$1000 dollar fine.

Gonzales is now serving the sentence. He was charged with being negligent in operating a sugar beet truck owned by Joe Galvan of Rio Grande City, when it was in collision with a pickup driven by Mrs. Blewett. She was killed instantly in the crash near Sunnyside.

Funeral services for 83 year old Mrs. Dora Houtchens, a resident of Dimmitt for 53 years, were held Wednesday, September 13, in the Bedford Street Church of Christ by Carlos Calvert assisted by Dale Wells, minister, with burial following in Castro Memorial Gardens under the directions of Dennis Funeral Home.

Mrs. Houtchens, whose death occurred Monday morning in Plains Memorial Hospital, had lived in the county since she moved here from Williamson County in 1925.

She lived on a farm south of Dimmitt until April 1954, then at 301 North Broadway for 20 years. Four years ago she moved to the home of her daughter, Mary Hestand, at 612 West Jones.

She was born October 12, 1894 in Wilbarger County, she is the former Dora Stallings. She married Herbert H. Houtchens in 1911 at Vernon. He passed away in 1956.

She is survived by four daughters, Mrs. Hestand and Florence Stafford, both of Dimmitt, Patsy Morrill of Farwell and Louise Boyd of Clovis; two sons, Doyle of Gravette, Ark. and Charles of Anchorage, Alaska; 20 grandchildren, 31 great-grandchildren, and two great-great-grandchildren.

Active pallbearers for her funeral were her grandsons. Honorary pallbearers were Jackie Clark, Weldon Bradley, Elbert Summers, Travis Summers, W.T. Autry, Jack Miller, Earl Chaney, Jack Summers, Elmer Dixon, Bill Snider, Cisco Cathey, Bill Gregory and Dean Wiseman.

Funeral services for J.D. Vaughn, 86, a Lamb County resident since 1952 who had been living recently at South Hills Manor here, were held Tuesday afternoon September 12, at the Earth Church of Christ, Wilburn Dennis of Littlefield, assisted by the Earth Church of Christ minister, Jim Eckman, conducted the services. Burial followed in the Earth cemetery.

Mr. Vaughn, the father of two Dimmitt residents,

passed away Monday morning, September 11. He was a native of Ellis County and had been a farmer in Lamb County. He was a member of the Earth Church of Christ.

He married Essie Darrow at Reed, Oklahoma, November 22, 1914. He is survived by his wife, Essie; two daughters, Ruey McKinney of Dimmitt; and Joyce Breedlove of Littlefield; two sons, Loyd of Dimmitt and LaVerne of Earth; two sisters, Ethel Paisley of Mangum, Oklahoma and Maggie Watson of Oklahoma City; three brothers, all of Mangum; eight grandchildren and two great-grandchildren.

Moves for several county officials in the Castro County Courthouse have been made lately, after the Texas Department of Human Resources offices were moved to 412 Northwest 3rd, leaving more space for county personnel.

The office where Aid to Families with Dependent Children is administered, and the one where the food stamp program is based, are now in the building on Northwest 3rd where the Community Action offices are located.

County Treasurer Florene Leinen now occupies the former AFDC office and Justice of the Peace Marshall Young the one where the food stamp office was.

Rex Cowert, adult-probation officer and Charles Barker, juvenile-probation officer, are in the former treasurer's office adjoining that where Young is located now.

The office of County District Attorney Jimmy Davis has been expanded with occupancy of the former probation office, so persons using the County law library will not need to go into the Attorney's office to reach the books.

The child Welfare office, in which cases of child abuse or neglect are handled, has been given permission to use the space formerly occupied by the Justice of the Peace County Judge Weldon Bradley said.

Carmen Henderson is director of this office.

Hector Molina of Lubbock is the director of the flood stamp program and the local worker is Debbie White. Ken Hoover comes from Tulsa one day a week to manage the AFDC office which administer welfare payments for children.

A restaurant specializing in Mexican food will open Saturday, September 16, on South Hiway 385, in the former Von's and Bea's restaurant.

The name of the new restaurant will be the El Sombrero Restaurant.

It will be operated by Floyd and Mary Lopez and family, who formerly owned and operated El Charro Restaurant here. All types of Mexican food will be offered on the menu.

El Sombrero will be closed on Mondays, but will be open on other days from 10:30 a.m. to 10 p.m. Mr. Lopez said.

Mr. and Mrs. Woody Jones celebrated their 40th wedding anniversary Monday, September 11. The celebration took place Sunday, September 10 in the fellowship hall at the Lee Street Baptist Church.

A host of friends were present to help celebrate the happy occasion. Their daughter and family from Hereford are Mr. and Mrs. C.R. Buryman and children and from Dimmitt, Mr. and Mrs. Cecil Jones and son Timothy. They all enjoyed cake, punch, and coffee. Mr. and Mrs. Jones were presented a money tree among other lovely gifts.

Also visiting in Mr. and Mrs. Woody Jones home was Mrs. Jones' nephew, Billy Novian from Odessa.

Martha Arguijo, 15, daughter of Mr. and Mrs. Robert Arguijo, was hospitalized with a mild concussion on the left side of her forehead as the result of an accident last Wednesday, September 6 in the 100 block of West Bedford Street.

In heavy traffic, with a line of backed up cars, the girl ran from behind a school bus into the path of a westbound car driven by Lint Merritt, 28. She was crossing the street from south to north. Police said the accident was unavoidable on Merritt's part.

"He was almost stopped according to two witnesses," a police department investigator said. "The girl probably received the bump on her head when she hit the pavement."

The left side of Merritt's car hit the girl and she was knocked down.

The Dimmitt Rodeo Association has announced its next two jackpot roping events for Sunday afternoon, September 17 and September 24. Books will open at 1 p.m. and the action will begin at 2 p.m.

Days for the roping have been changed so there will be time enough for two jackpots, the DRA officers said.

"If you can't or didn't make it for the first one, come for the second one," their invitation read.

"Bring your wife and kids, a concession stand will be open."

Harvest season is getting into full swing in Castro County fields, with the big rush in corn due to start this weekend and the sunflower crop about 30 percent already harvested.

Corn is still being cut for ensilage and being trucked to feedlots in the

area, but cutting for grain is well started now and elevators report receiving it in good quantities this week.

Early indications are for a good yield this year despite insect damage to the crops, according to Ed Woodward of Bruegel and Sons. Corn coming into their elevators at Dimmitt and in the west part of the county is still rather wet when brought in from the fields, but some is being received from farm dryers.

Moisture is testing between 20 and 25 at Farmers Grain in Hart, Ronnie Truelock said Wednesday and though the corn quality is not the best due to worm damage, "it still makes good cattle feed."

Sunflower acreage in the county is down somewhat from last year but the yield is much better, Don Gregory of Castro County Grain said. Prices are also a little better, about 10 cents a pound in open market, though most sunflowers in this area are grown under contract, he said.

Damage to cotton and corn crops in Castro County is being done by insects, County Extension Entomologist Mark Powell notes in his weekly report.

COTTON-Some cotton in the area is beginning to open, mostly due to water stress, but some due to maturity. The black light trap catches of bollworm moths remain high (approximately 2000 moths each night.) However, the egg laying activity is not as heavy as expected. Also the percent of egg hatching is low.

The cooler temperatures at night cause longer incubation period for the eggs so instead of hatching in three days, the eggs are taking up to six days. This lengthening of time will cause many eggs not to hatch since the worms run out of food while still in the egg and die before they hatch out.

CORN-Corn harvest continues. Damage from the earworm is very noticeable. The earworm has fed on the tips of the ears and has caused many cracked kernels.

Only one field in the Hart area has been noticed lodging due to Southwestern corn borer girdling. This situation will increase the further into the harvest season we get.

SORGHUM - Headworms have been found in some sorghum. A correction from last week is that the threshold for treatment is two headworms per head in grain milo and one worm per head in seed milo.

Funeral services for

Mrs. Agapita Escalera of Muleshoe, formerly of Dimmitt were held Monday morning, September 11 in the Catholic Church at Muleshoe with Rev. Tim Schwertner, pastor, officiating. Burial was in the Muleshoe Cemetery.

Mrs. Escalera, 80, passed away Thursday, September 7. She was a native of Mexico, born at Auga Caliente, and moved to Muleshoe three years ago from Dimmitt.

She is survived by her husband, Rafael; five daughters including Eulalia Balderas of Dimmitt and Rosa Martinez of Hart; four sons, two sisters and a number of grandchildren.

Funeral services for Mrs. Mary Durstine, 80, who passed away Friday morning, September 8 in South Hills Manor, were held Sunday afternoon in the First United Methodist Church in Friona. Burial was in Sabetha, Kansas, Tuesday afternoon.

Mrs. Durstine was born in Iowa, and came to the panhandle from Sabetha in 1933 and lived on a farm near Adrian before moving to Friona. She married Ralph Durstine in Kansas, he preceded her in death.

She is survived by a son, Kenneth of Topeka, Kansas; four grandchildren; one sister and one brother.

Butz To Speak

Former Secretary of Agriculture Earl Butz will be the keynote speaker for the 26th annual West Texas Agricultural Chemicals Conference, September 27-28 at the Memorial Civic Center in Lubbock.

Some 500 agribusiness leaders from western and midwestern states are expected for the conference. The theme of this year's meeting is "Better agribusiness or Bust," said Harry L. Garretson of Hale Center, institute president.

Butz, known as an outspoken and sometimes controversial agribusiness critic, is a co-chairman of agriculture at Purdue University and served as Secretary of Agriculture from 1971-76. He will address the conference awards banquet at 8 p.m. Wednesday, Sept. 27 using as his topic: "Farter, Congress, and Commodities."

Two awards for outstanding contributions to West Texas agriculture will be presented to an institutional representative and an agribusiness recipient.

Conference registration begins at 8 a.m. Wednesday, Sept. 27, with the program opening at 1 p.m. The afternoon will be devoted to a seminar on business management as it relates to the chemical industry and the agricultural dealer. The seminar will be conducted by Robert Moorman, Jr. of Flanco Products finance division, Indianapolis, Ind.

Thursday's sessions will open with a look at new products, equipment and labor status. A discussion of soil amendments will be

presented at 9:30 a.m. by Dr. Paul Christenson, Extension state coordinator of the Utah water quality program, Utah State University, Logan, Utah.

A report on Banks grass mites will be presented by Dr. John Owens, entomologist at New Mexico State University, Las Cruces, N.M.

Dr. John Abernathy, weed scientist with the Texas Agricultural Experiment Station, Lubbock, will discuss perennial and problem weeds.

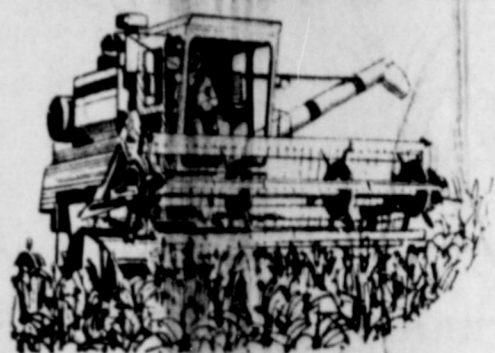

A technical report on the insurance and liability aspects of the agricultural chemical industry will be presented by E.W. Swiss, vice president of Pan American Insurance Co., Houston.

The Thursday afternoon session will be devoted to a program on the theory, installation and equipment, and the practicalities of suspension fertilizers. Panel members will include: J.R. King, Western 66 Fertilizer Co., Muleshoe; Pat Byron, Anton Fertilizer, Anton; David Hughes, David Hughes Fertilizer, James and Gerretson, of Garretson Farm Supply, Hale Center.

The conference will conclude with a business meeting.

John Hill is attacking State Budget waste . . .

"I've already started my search for waste in the state budget. I want to be ready to tackle overspending the minute I take office as Governor in January. My budget office already is paring down big state agency budget requests, to keep spending within available revenues. We'll have to live within our means, because I'll veto any new taxes."

CONTEST RULES

The teams that are playing this week are listed side by side in the official entry blank on this page.

Use the entry blank and mark out the teams you predict to lose. Print the scores you predict in the tie-breaker game in the space provided.

Each week's entry must be turned in or mailed to the Earth News-Sun office. Contestants are given a week to prepare and turn in their entries.

Entries must be in by 4:30 p.m. Friday or postmarked on that date. All late entries will be discarded.

In case of tie, the winner will be determined by a toss of a coin.

Each week the number of games correctly predicted will count toward each contestant's season total. The person predicting the most games correctly for the entire season will receive the grand prize. In the event of a tie on the season total, the winner will again be determined by a toss of the coin.

The weekly prizes will be given to the persons picking the most number of games correct for that week. The tie-breaker will count as one of the games picked, and the predicted score will be used to determine the top three places in that week's contest, if necessary.

Only one entry per person will be accepted.

HAIR FACTS & FALLACIES

MUCH ADO ABOUT SHAMPOO

There are so many types of shampoos on the market, and so many claims are made for them, that you may feel like pulling your hair out, but before you do, you should brush up on some basic facts.

A shampoo is composed of water, detergent and some fatty material, but the detergent is usually its main ingredient. It's designed to loosen deep-down dirt and oil even a recommended pre-shampoo brushing may not achieve.

The amount of detergent in a shampoo often determines its purpose. Usually, but far from always, shampoos for oily hair have more detergent than shampoos for normal or for dry hair.

The only real way to know which shampoo is right for you is to try different ones in different quantities. You may find you need two or three times more of one shampoo than another to get your hair completely clean.

Added ingredients, such as those in so-called "protein" shampoos, end up down the drain, along with the dirt and oils when you rinse out your shampoo.

One good way to help make sure your hair is clean and healthy is to brush out loose dirt and dandruff before you shampoo.

Regular use of a hairbrush that's designed for your hair type can add luster, manageability and health. It's a good idea to have a "wardrobe of brushes," one for styling, another for doing the 50 strokes of the morning-and-evening routine, and one to dislodge dirt and distribute hair oils evenly through your hair.

"GREAT AMERICANS"

IN 1852, ELISHA G. OTIS INVENTED A "SAFETY" HOISTER. IT WAS THE START OF A COMPANY AND THE ELEVATOR INDUSTRY.

IN 1888, AT THE IMPERIAL PALACE EXPOSITION IN NEW YORK CITY, OTIS DEMONSTRATED HIS DEVICE. HOISTED HIGH ABOVE THE CROWD HE ORDERED THE HOPE OUT. THE ELEVATOR DID NOT FALL.

THE FIRST PASSENGER ELEVATOR WAS INSTALLED BY OTIS IN THE 5-17 BUILDING IN NEW YORK CITY IN 1857. THE BUILDING HAS FIVE STORIES HIGH.

NOTICE

The regular meeting of the City Council set for October 2 has been changed to Tuesday, October 3 at 8:00 p.m.

Booster Club

The Wolverine Athletic Booster Club met Monday, September 25 in the school cafeteria.

No business was transacted and the floor was given to Coach Taylor who discussed last week's game as well as showing a film of the contest.

The Booster Club would like to invite all new members to attend these meetings.

In the Booster Club meeting Tuesday, September 19 held at the school cafeteria, Don Randolph called the meeting of 15 members and the coaching staff to order.

Business transacted at the meeting included the decision to have an "after-game supper" following each home game. These will be open to the public.

Also, the club will be selling Green and Yellow "SLEW CREW" caps for \$4.00 each. Contact any female member to purchase one.

A special note was added. There have been some misunderstandings about running after each game. The entire team decided to run wind sprints after each game, win or lose.

HAIR FACTS & FALLACIES

MUCH ADD ABOUT SHAMPOO

There are so many types of shampoos on the market, and so many claims are made for them, that you may feel like pulling your hair out, but before you do, you should brush up on some basic facts.

A shampoo is composed of water, detergent and some fatty material, but the detergent is usually its main ingredient. It's designed to loosen deep-down dirt and oil even a recommended pre-shampoo brushing may not achieve.

The amount of detergent in a shampoo often determines its purpose. Usually, but far from always, shampoos for oily hair have more detergent than shampoos for normal or for dry hair.

The only real way to know which shampoo is right for you is to try different ones in different quantities. You may find you need two or three times more of one shampoo than

Regular use of a hairbrush that's designed for your hair type can add luster, manageability and health. It's a good idea to have a "wardrobe of brushes," one for styling, another for doing the 50 strokes of the morning-and-evening routine, and one to dislodge dirt and distribute hair oils evenly through your hair.

Another good idea is to use a creme rinse or conditioner after shampooing to give your hair a "body." But just as in the case of shampoo, rinses should be thoroughly rinsed out.

Good grooming goes with healthy hair, and that's straight from the American Brush Manufacturers Association, which is observing National Health Week beginning September 9.
