## Springlake Junior High Loses To Farwell

By BUD IRVINE

The Springlake Junior High team played good ball Thursday night. But Farwell was too tough and the little Wolverines took a 15 to 8 loss at Wolverine Stadium. The game was marred by a broken ankle injury suffered by quarterback, Jerry Irvine in the last quarter. Jerry was taken to the Littlefield Hospital where he remained until Sunday afternoon. He will be in a

cast at least six weeks, and will be unable to touch the cast to the ground or floor, as by so doing the ankle bone would move. So the foot will have to be completely kept off the floor or ground and no pressure put on it for at least six weeks. Jerry played a fine game before the injury.

Farwell scored both touchdowns on long runs by Donaldson, one covering 72 yards and the other 32 yards. Other than these long runs Springlake played them on equal ground. Springlake made its touchdown late in the final quarter with Ray Tom Packard running about 15 yards for the score. This was the last game for the Junior High team for this year. We congratulate the boys on their spirit and hustle, and also we thank coach Eldon Davis for the fine way he has handled and coached the team this year.

## Springlake Takes Anton 40 to 14

By BUD IRVINE

The Springlake Wolverines got back into the win column with a roar Friday night as they trampled the Anton Bulldogs 40 to 14 at Wolverine Stadium before a small but appreciative crowd. Mike Stockard, Springlake halfback, showed his heels to the Bulldogs as he scored on touchdown runs of 79 & 16 yds. and also set up another score with a 40 yard run down to Anton's 7 yard line. Hal Hudson threw two touchdown passes to end Tom Messer, Larry Tunnell scored on a 60 yard run from scrimmage, and Norman Clayton went across on a plunge for the other touchdown to complete the scoring for Springlake. It was the most productive night for Springlake in almost three years. This Anton club was not a weak team as it held Farwell, one of the favorites in district 3-A, to a 14 to 13 victory. However, Springlake was up and really played ball,

showing the best downfield blocking of the year.

The game opened with Messer kicking off to Anton, and the Bulldogs promptly started a scoring drive that went 80 yards in nine plays with fullback Oren McGrew running the final 26 yards. They failed in their try for conversion. It looked as if Springlake was in for another rough evening. However, Hal Hudson took the kickoff and ran it back to mid-stripe, a nice 35 yard run. Then Clayton made three yards. On the next play Stockard got loose through the right side of the line and went 40 yards down to Anton's 7 before he was tackled. After two line plays, Hudson, who played "T" quarterback the first half, faded

back and throw a strike to Messer in the end zone for the score to tie up the game. The Wolverines missed on their conversion try, so the score remained tied at the end of the first quarter.

In the second quarter Springlake handled the ball just four times but yet scored two touchdowns. Messer punted beautifully to Anton's 7 yard line. In three plays Anton had but one yard. With fourth down and nine yards to go from their own six yard line the Bulldogs elected to fake a kick and try to run it out for at least a first down. This was the turning point of the game as Springlake stopped the runner on the 3 yard line, and on the next play Hudson passed again to Messer in the end zone for the score. Again Springlake missed the conversion try. Anton then took the kickoff, marched to Springlake's 26 where the Wolverines held on downs, showing tremendous defensive strength. On the first play Hudson was thrown for a six yard loss, but he tried a pass that was incomplete. Then with third down and 16 yards to go, Mike Stockard took a hand off from Clayton in the single wing formation and cut for the north sideline and sprinted 79 yards for the touchdown. Sandy Sanders threw a tremendous block at about Springlake's 45 to turn Stockard loose, and from there it was a foot race with Stockard winning. Stockard ran it across for the two points, and at half time Springlake led 29 to 6.

In the third quarter Larry Tunnell got loose on a 60 yard touchdown run that was beautiful to watch. As he broke into the clear, end Bill Starkey came roaring across the field to cut down Oren McGrew of Anton who had the last possible chance to get Larry, and from there on Larry just poured on the coal. The conversion try failed again.

Reserves played most of the third and fourth quarter. Bill Starkey recovered a fumble on Anton's 26 and on the third play Stockard scored again, this time on a 16 yard romp. Conversion try failed. On the kick off this boy McGrew gathered in the ball on his own 25 and raced all the way, 75 yards, unmolested for Anton's final score. They made the two point try. However, Springlake wasn't through yet, for late in the game Stanley Irvine recovered a fumble on Anton's 4, and Norman Clayton plunged over for the extra and he also ran for the extra points, making the final score Springlake 40, Anton 14.

The Wolverines will have almost two weeks to prepare for their final game of the season to be played against Farwell November

13. If Springlake plays like it did Friday, the Farwell Steers will be in for a battle. The Wolverines were especially tough on defense, as two, three or more boys would be in on almost every tackle. They hustled every minute, and that's the way we like to see it. Remember to travel to Farwell November 13 to see the Wolverines in action for the last time this year, and help root them on to another victory. Springlake now has a season record of 3 wins, 1 tie and 5 losses.

**DENT FARM SUPPLY**

Just how the limitations on supports are going to affect next year's program is the question . . . the government has just announced that farmers must reduce their 1959 acreage by 20 per cent to be eligible for non-recourse supports in excess of \$50,000 . . . will this drive more cotton farmers into the "A" group or "B" group? . . . at this stage, anybody's guess is as good as the next man's . . . a couple of facts immediately become apparent, though: first, if a farmer was among the "B" producers this year and planted all his acreage, he can choose "A" next year and assure himself of unlimited supports . . . this isn't true of this year's "A" producer . . . he must reduce his acreage by 20 per cent to be eligible for unlimited supports in 1960 . . . and this year's "B" farmer can choose "B" again then under-plant his "B" allotment to the extent that he has 20 per cent less acreage than this year, that'll

be 12 per cent more acreage than if he chooses "A", and be eligible for unlimited supports . . . limitations apply to individual "persons" . . . not to individual farming units.

If a producer does not reduce his acreage by 20 per cent he may still receive supports after the \$50,000 mark is passed but these will be in the form of loans that must be repaid within 12 months . . . all in all, it's a pretty complicated thing and now isn't the time to decide which route to follow . . . especially since the support level is not known yet.

**No Leasing**  
Despite reports that the new law allows cotton farmers to lease their acreage next season, this isn't the case . . . the producer will be penalized if he doesn't plant or turn in his allotment . . . but he can't lease it or give it to an individual . . . sorry.

**Ag Workers' Union**  
A move seems to be getting underway in some parts of the cotton belt to form an agricultural workers union.

**Pests Worse**  
Think the weevil situation is getting any better??? . . . if so, you can get arguments at any number of places in the cotton belt . . . in one spot, a check showed that the number of weevils to survive winter has increased over 200 per cent during a 12-year period.
