BIG SPRING, TEXAS, FRIDAY, NOVEMBER 16, 1928.

By T. E. JOEDAN

DEPUTY SHERIFF & BANDITSHOT

WILL PROBE TEXAS ELECTION EXPENSE FUND

HOUSE INQUISITORIAL WANT TO QUIZ SOURCE OF CAMPAIGN CASH

House Will Apply Searchlight to All Campaign Expenses in Texas and Will Stress On the Situation in Hidalgo County.

(By the Associated Press)
WASHINGTON, D. C., Nov. 15.—The House Campaign Committee will leave for Texas on Friday for the making strict investigation into campaign expenses in the southern part of the state, particularly in the congressional district, which has been represented for the past twenty years by John Garner.

Prison Guards Exonerated In Death Inquiry

HUNTSVILLE, Nov. 15. (AP).—Gus Gray, dog sergeant at the Goree Prison Farm south of here, was held to have been justified in killing W. C. Folsom, a convict on the farm, according to the findings of an inquest, conducted by justice of the peace R. J. Camp, today.

Folsom was killed yesterday when he and another prisoner made a break for liberty, according to the testimony of four prison guards.

Steers Will Play Roby There, Friday

Another conference game is scheduled for Friday afternoon at Roby, Texas, where the High School Steers meet the fast Roby team. Both teams are in tip top shape for the encounter, and this has the promise of being a good game.

The Steers need cars to take them to Roby. Anyone who can furnish a car is urged to do so, and accompany the team on this trip. Your cooperation and backing will be appreciated. Through the help of the people of our community we can have a winning team. They need support and when they get whole hearted cooperation they can fight harder. Accompany the team if you can.

Big Spring Steers To Play Lamesa Tornadoes Nov. 29

The Big Spring Steers will meet the Golden Tornadoes of Lamesa, on Thanksgiving Day November 29th. This is an annual contest, and this year the game will be played at Lamesa. It is hoped that a big crowd of Big Spring fans will accompany the team to Lamesa and help them bring home the victory. This game officially closes the 1928 football season. There may be several interesting post season games.

Two 85,000 Barrel Storage Tanks Here

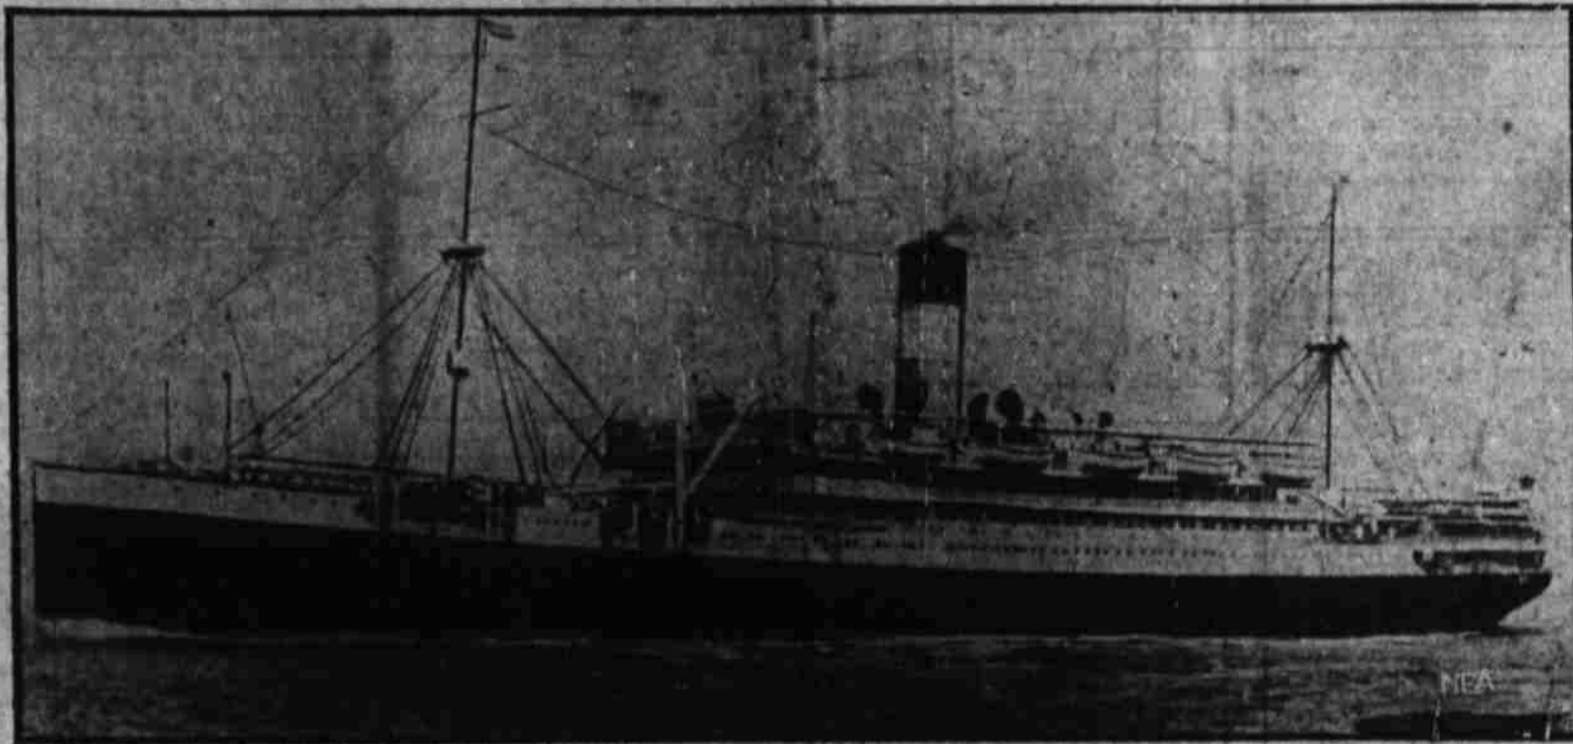

The Shell Pipe Line company has just about completed the first of two 85,000 barrel steel storage tanks at the Shell pumping station about eighteen miles southeast of Big Spring. These are to serve as storage for pipe line run on the two pipe lines serving the Howard-Glasscock county oil fields.

Because of the nature of gas in the local field it is necessary to construct wooden covers for the big storage tanks. Then it is necessary to use aluminum nails in constructing the roof as this gas certainly does eat up steel. Where the oil covers the steel sides of the tank the metal is protected. Several large trucks are now busy hauling material for the second storage tank.

PAVE THE ALLEYS

We certainly would favor a movement to have the alleys in the business district paved. They are a dismal sight just now from a sanitary and every other standpoint. Paving is about the only possible way of keeping them from continuing an eye sore and a disgrace to a civilized community.

S. S. VESTRIS AS SHE SAILED FROM NEW YORK ON THE VOYAGE THAT ENDED IN DISASTER

Here is the picture of the S. S. Vestris, owned by the Lamport and Holt Line of Liverpool, England, used in the South American trade from New York, and from which over 300 passengers and crew took to the boats when it started to sink in mid-Atlantic. The vessel was bound from Rio de Janeiro and was about 300 miles off Norfolk, Va., when disaster befell her.

High Officials Of N. Y. Standard Oil Company Here

A party of high officials of the Standard Oil group headed by Walter Teagle of New York City, president of the Standard of New Jersey, the parent company, and also representatives of the Humble Co. were business visitors here today. There were about thirty-five members in the party arriving in three special cars at 5:35 o'clock this morning. Automobiles were arranged for by representatives of the companies to take the visitors through the Howard County oil fields and then on to Crane and Upton county. They plan to spend Thursday night in McCamey and will visit the Yates pool Friday.

While the party is making the motor trip through the oil fields the special train was returned to Sweetwater for transfer to the Orient and sent to Rankin where the party will board same for San Antonio and Houston by way of Alpine.

Pep Squad Have Pictures Made For 1928 Annual

The members of the pep squad of the Big Spring High School came to town in a body this afternoon to the Bradshaw Studio, where they had a group picture made for the 1928 yearbook, 151 Rodeo.

The pep squad is as lively and peppy a bunch of High School folks as you can find in the state. This happy group has been on hand at every football game and they have done their part to back the Steers and cheer them on to victory.

The group had their pictures made in the pep squad uniform. Gold sweaters, black skirts and the other accessories.

PAVE THE ALLEYS

We certainly would favor a movement to have the alleys in the business district paved. They are a dismal sight just now from a sanitary and every other standpoint. Paving is about the only possible way of keeping them from continuing an eye sore and a disgrace to a civilized community.

SHIPWRECK BRINGS STERN INQUIRY BY FEDERAL OFFICERS

(By the Associated Press)
NEW YORK, Nov. 15.—Brushing aside the technical question of possible jurisdiction, Federal authorities here today began a thorough investigation into the loss of the S. S. Vestris of the Lamport and Holt Line, with the accompanying loss of life.

After preliminary questioning of several witnesses this morning by United States Attorneys George Minter and Edward Silver, the formal inquiry was scheduled to open this afternoon before United States Commissioner Frances O'Neill and between fifty and sixty witnesses, from passengers and crew, have already been subpoenaed.

Although the Vestris was of British registry and therefore the jurisdiction of the United States authorities is uncertain, it was indicated today that the British government might acquiesce in having the entire inquiry conducted here.

More Survivors Land

All except nine of the known survivors of the S. S. Vestris were safe here today, the last fifty-seven being brought ashore this morning from the French oil tanker Myriam.

Nine others were rescued by the U. S. N. Wyoming and are being taken to Norfolk, Virginia.

Most of the passengers coming ashore this morning were silent concerning Captain Carey's delay in sending out the SOS, but members of the crew were outspoken in their criticism of their skipper.

They agreed that the call for assistance should have been sent out hours before it was finally transmitted.

Rev. D. H. Heard Elected Vice Pres. Baptist Convention

Rev. D. H. Heard pastor of the First Baptist church of this city, was elected vice president of the Texas Baptist Association at the State Convention which is being held in Mineral Wells this week. Rev. Heard is to be congratulated upon the receipt of this high honor.

Others from Howard County attending the State Baptist Convention are Reverend Wells and Reverend Bailors of Coalhoma.

Cattle Outlook Is Good In Southwest

EL PASO, Nov. 15.—Outlook for the cattle business in the southwest is good according to a report of the El Paso Union Stock yards to the Chamber of Commerce. Last week 175 cars of calves, cows and yearlings were received. By noon Monday of this week 120 cars had been received.

Special Lecture 'White Slavery' Sunday Evening

There will be a special lecture given in the county courtroom at the courthouse Sunday evening at 7:30 o'clock, by Rev. E. E. Montandon of Merkel, Texas. "White Slavery" will be the subject of his talk.

Two Prisoners Break Jail At Lamesa

Officers here were notified to be on the lookout for two prisoners who broke out of the jail at Lamesa last night. One of the prisoners is known as John Harmon. He is about 25 years of age and weighs 150 pounds. He was well dressed, wearing a gray suit and a gray cap.

Eastern Howard To Get Attention

With the Harrison et al test having all the earmarks of a commercial well we can expect oil companies to give the eastern portion of our county a thorough going over.

Life Boat Crew Perish In Sea On Mercy Trip

RYE, England, Nov. 15. (AP).—The whole crew of the life boat, fifteen in number, which was sent out from here to a wreck off this coast, were drowned when the boat overturned in the heavy seas.

Foster No. 1 Gets Showing Of Oil

The drill in Foster No. 1 in the center of the southeast 1-4 of section 20, block 12 S. P. Ry. Co. 2 miles south of Sterling City, topped the oil shale Thursday afternoon at 1296 feet. Drilling was immediately suspended and preparations are being made to take care of the situation. Casing will be run to the bottom of the hole before drilling deeper. Quite a strong flow of gas was encountered with the oil.

It is rumored that six more new wells in the vicinity of Foster No. 1 will be drilled soon.—Sterling City News Record.

Paige Auto Will Open Agency Here

Another automobile agency for Big Spring is scheduled in the announcement by the Graham Brothers manufacturers of the Graham Paige car, that they will open a branch here. H. H. Corn of Dallas is in town today, in residence at the Crawford Hotel for the purpose of interviewing prospective agents.

"The Graham Paige has made greater advances in sales than any other car in its price field," said Mr. Corn today "and we are very proud of the record made by this car since the Grahams took it over, and proud of its sterling qualities."

Buy New Brick Home On Main St.

D. Price has bought of Rube Marlin a fine new brick home on South Main street. The new residence is still under construction, and as soon as same is completed Mr. Price and family will move into same. The D. Price property at the corner of Seventh and Rannels street has recently been sold to the Presbyterian congregation for their new church.

CLEANING UP THE BUSINESS SECTION

The wagons hauling rubbish from the business section of our city seem to be kept on the jump these days and they will soon be having the business section looking greatly improved.

TWO FALL IN GUN DUEL AS THEATER HOLD-UP SUSPECTS RESIST LAW

Wounded Men Lying At Death's Door in Hospital As Monster Posse Beats Woods and Highways for Alleged Hi-Jacker.

(By the Associated Press)
HUMBLE, Tex., Nov. 15.—Half a hundred men were today beating the brush and guarding all possible avenues of escape, seeking a bandit who eluded the officers after his alleged companion and Deputy Sheriff Harvey Fields of Harris county had been shot in a gun battle last night.

Harrison Test Looks Good For Production

BY S. F. BALENTINE
NEW DRUMRIGHT, Glasscock County, Tex., Nov. 15.—A consideration of \$20,000 was paid L. C. Harrison yesterday by Hugh Carrigan of Midland for an undivided one-half interest in the 80-acre 1-4 section 9, block 30-1-south, on which the well is located.

The Harrison test has been the center of attention among the wildcats in this West Texas area for several weeks. There was no salt in this test, which would indicate that it is located east of the permian sea bed, in which area the salt occurs. The lime was found 475 feet above sea level. The showing of oil saturation in the lime has been very encouraging. From a depth of 2664 to 2730 feet, 2877-85 feet and from 2903 to 2933 feet the lime, while tight, has shown saturation and with a shot may make a commercial well. The oil from the above depths is about 33 gravity. This morning at a depth of 2972 feet, Mr. Harrison reports, that they went into a sandy lime formation has more indications of a commercial horizon than any found above. The cuttings at ports, that they went into a sandy lime with plenty of gas odor. Gas may be seen over the hole, Mr. Harrison said. Drilling has been shut down for a control head.

The Harrison test is located about three miles southeast of Conhoma and will open up an entirely new area should it make a commercial producer. It is reported at the well that the hole is standing 350 feet in oil and rising about 20 feet an hour.

The Louisiana Oil & Refining Company's No. 1-C Settles, an offset east to the Henshaw producer in section 6, a mile north of here, began drilling this morning, with cable tools, at a depth of 1873 feet. The six-inch being set and cemented at this depth. The same company's test in section 3, more than a half mile north of the Henshaw producer fishing for swab at a depth of 2375 feet.

The Henshaw Oil Corporation's No. 1-C Settles, an offset east to the Louisiana drilling at 1950 feet. Pipe will be set as soon as the line is topped. The same company's No. 1-B, Settles, in section 135, a little more than a half mile west of the Sun Company's No. 1, Settles set the 5 3-16 casing and cemented at a depth of 2825 feet in white lime. The plug will be drilled here about Monday or Tuesday of next week and the hole tested for a deeper shut off. The top of the deep Roberts pay should be found within the next 20 feet, at this location.

Condor Petroleum Company set the 10-inch at a depth of 1815 feet for a water shut off. This wildcat is attracting a great deal of attention. Indications are that they are on a high.

Group No. 1 Oil Corporation of the Quinn, two miles northwest of the Harding well, drilling below 1900 feet. There is no information available at the well as the drillers report that they are under sealed orders. Inquiries are referred to the company's headquarters at Texon or to Mr. Pickrell's office in Fort Worth for information and a log of the well.

Andrews-McCamey, in section 17, Big Spring water property, began drilling this morning at 2825 feet after running the six-inch for a water shut-off.

E. E. Brindley and Joe Staudt left Tuesday morning for a deer hunt in the Fort Davis mountains.

German Gun In Museum At Sul Ross

ALPINE, Tex., Nov. 15.—A heavy German Machine gun captured in France in the drive on the Champagne sector, which took place in October 1918, has been lent to the museum of the West Texas Scientific and Historical Society here by Bartlett Coan, Superintendent of Schools at Ft. Davis, Texas. The museum is housed in two large rooms of the main building of the Sul Ross State Teachers College.

Mr. Coan, a graduate of Sul Ross was a company commander in the 142nd Infantry of the 36th Division. The division is also known as the "Arrowhead" Division. It was composed of Texas and Oklahoma men, and has a gallant war record.

The machine gun is a heavy, water-cooled Maxim gun—the type used for the heaviest duty by the German forces. It shoots the 8 mm German military cartridge, and has no doubt been responsible for the death of many Americans, British and French.

The gun has a history. It was one of five like guns in a German Machine-gun nest which was taken by Mr. Coan's company, but only after a terrible struggle in which all of the German gunners and several men in Mr. Coan's company were killed. Marks of the battle may still be seen on the water jacket of the weapon. It was for this action that Mr. Coan—then a captain—was awarded the French Croix de Guerre for exceptional bravery under fire.

Output Of Crude Offset By Stills

AUSTIN, Texas, Nov. 15.—"For the past few months production and consumption in petroleum in Texas have been pretty evenly balanced, so that the statistical position of the industry has changed very little," Bernard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas, said in a summary of the petroleum market during October.

"Each month the large output of crude is about offset by the heavy run to stills," he continued. "Moreover gasoline consumption is holding up better than usual for this season of the year."

"A total of 22,600,000 barrels of crude oil was produced in Texas in October, compared to 21,979,500 barrels in September and 19,215,000 barrels in October 1927. Field work was very active, 587 wells being completed, of which 351 were producers."

Boy Arrested On Auto Theft Charge

Joe Leach aged fourteen years, was arrested on a charge of auto theft and the Chevrolet coach of Thomas Johnson was recovered parked in the south part of the city. Joe is accused of having taken the car to Lamesa. A shotgun which was in the car has not been recovered.

FEDERAL ROADS

In the last ten years, the American Automobile Association finds, the government has expended \$1,814,000,000 for good roads. This is a large amount, but hardly anybody is disposed to criticize it. The value of such federal help for road-building is recognized everywhere. Not merely is the money useful and fruitful in the various states sharing it, but the cooperation of federal engineers helps greatly in planning big highway projects and raising standards. As a matter of fact, the sum provided by the government might well be more than it is. It means an average of a little more than \$60,000,000 a year provided by Uncle Sam. There are now nearly 25,000,000 motor vehicles. That is less than \$3 a year per vehicle. During the same period American motorists have paid into the United States treasury in the form of excise taxes on motor cars and parts \$1,110,000,000. They have got back less than half of that for good roads. Representatives of automobile associations pertinently suggest that Uncle owes them the rest. Whether this is true or not, the government can well afford to make larger contributions to state and national highways. By creating more traffic, trade and agriculture they increase wealth and bring back into the national treasury more than their cost, in the form of taxes.—Cisco News.

JAPAN'S TASK

Japan, which jumped from medievalism to modernism in half a century's time, did not make the change without incurring several rather pressing social problems.

This is revealed in a report made to the recent Pan-Pacific Conference by a Japanese Y. W. C. A. leader. She reported that Japan has nearly 1,400,000 children under 15 years of age working in factories or mines; that seven per cent of all Japanese children born each year are illegitimate; and that no less than 500 fathers and mothers have killed themselves and their children during the past three years—in nearly all cases because of poverty.

The Japanese surprised the world by their ability to pick up western culture almost overnight. Evidently, however, the change brought rather knotty problems. The ability Japan shows to solve these problems will give the rest of us a good indication of the real depth and power of the Japanese people.

TURKEY BANS THE TURK

Mustapha Kemal, president of Turkey, has placed a general ban on fortune-telling, witch-doctoring and magic such as the dervishes use. In doing so he has annoyed a large population of magical parasites in the Orient, but has made a hit with the Association of American Magicians. John Mulholland, vice-president of this organization, says: "The magicians of the world are overjoyed that the new Turkey has been wise enough to realize that religious magic is trickery." In enlightened America, he complains, only a few states have adopted similar legislation. It may be that Oriental magic is not composed entirely of fake and bunk, as our professional magicians insist, but certainly it assuages a very high percentage of cheating. Houdini and some of his clever brethren have seemed able, by sleight of hand and camouflage, to duplicate nearly all of the miracles of the eastern fakirs. Where there is so much fake it is natural to suspect that all the rest is fake. Yet nothing is harder to eradicate from the human mind than belief in magical powers. Kemal might find almost as much of it in America as in Asia Minor.—Cisco News.

DON'T TAKE TREES WITHOUT PERMISSION

Perhaps you had not thought of it, but property owners may object to Tom, Dick and Harry entering their premises and cutting down their scrub cedars for Christmas trees. You may not think it wrong to do this, but it is not right for you to do this without first securing the permission of the property owner. Being taught to respect the right of others is a big need these days and times. Think this over and treat the other fellow as you would like to be treated.

NEWCOMERS ARE OPTIMISTS

The folks who continue to move to Big Spring to engage in business must be thoroughly convinced that this city is due to continue her steady growth. To the conservative, it would seem that we have a sufficient number of firms to accommodate our present population. The newcomers must be able to peer into the future just a little more hopefully than the old timers who just can't picture Big Spring a city of twenty-five thousand or more.

DO YOU BELIEVE IT?

"Honor the Lord with thy substance, and with the first-fruits of all thine increase; so shall thy barns be filled with plenty, and thy presses shall burst out with new wine." (Prov. 3:9-10). Translated into the Business Man's Bible it reads: Honor the Lord with a regular portion of thy profits, and with part of the returns on every new venture, so shall your bank account be always fat, and your profit and loss account at all times show a satisfactory balance. Do you believe it? Have you tried it?

NEVER HEARD OF THEM

It looks like as though the election is over. Last night a picture of Herbert Hoover was shown on the motion-picture screen and not a single handclap greeted it. A few minutes later Al Smith's likeness appeared and again there was not the slightest demonstration. It just goes to show the election is past, and everyone is glad of it.

Another "sticker stunt" was being worked this week. One or two men were charging away mark automobile owners twenty-five cents for parking in the vicinity of the Harley Sadler tent show. They issued tags but were not to be found after collecting the

FOOTBALL'S VALUE

Reports from Yale University just made public, show that football at that university last year drew \$1,033,211 into the university treasury. Football has become a million-dollar business.

This, of course, will cause a good many people to shake their heads sadly and predict things for an educational system that puts such great emphasis on football. But there is a brighter side to it.

Yale's report also showed that the university athletic association actually ended the season with a deficit of over \$40,000. The profits from the football season were spent on other sports which do not support themselves. Baseball, rowing, hockey, basketball and track were made possible by the football income. If it had not been for the football profits, many students would not have been able to indulge in those forms of recreation.

And what is true at Yale is true at all other colleges and universities.

WE SHOULD WORRY!

With a radio in one corner and a phonograph in another, today's newspaper on the table, an automobile in the garage and electricity providing light, heat and power, the dwellers in villages and remote places realize how wonderfully the arts of civilization have banished isolation.

They have made it possible for one to choose his place to live from a much wider area than formerly without cutting himself off from the world.

His business may be in one place and his home in rustic retreat 60 miles away. High speed automobiles enable him and his family to seek the beauty spots of nature and select a home site where they will, once there, to live surrounded by the comforts of the city. There are tendencies toward greater congestion of population but other tendencies away from it. These latter are the more wholesome.

We no longer need sympathize, either, with our cousins of the ranch or the far-off village, for in reality they are no more isolated than we.—El Paso Herald.

All we need now is for some one to provide the coin so we can enjoy all these luxuries.

DANGER PASSES

More U. S. marines are being withdrawn from China. Soon only a small emergency force will be left there. Thus a situation that once looked very ticklish comes to a peaceful conclusion.

When we sent our marines to China a couple of years ago, it looked very much as if the bloody days of the Boxer rebellion were to be repeated. Indeed, it seemed possible that much worse would happen, and that many American lives would have to be sacrificed in a large-scale intervention move.

But the dire prophecies did not come true. China worked out her own salvation, and our fighters had little to do. The war that looked probable did not materialize.

MANY LIKE TO LIVE IN BIG SPRING

Some public spirited citizen—may his tribe increase—has a 24-inch advertisement, 3 columns by 8 inches, in the Albuquerque Journal to tell "Why I'm Glad I Like To Live in Albuquerque." It may be a chamber of commerce ad under the guise of "A Friend of Albuquerque," but if it is, more power to it.

The point is, a few of the reasons the anonymous advertiser appreciates Albuquerque are listed, as follows:

The city has a motorized fire department, five splendid parks, covering 75 acres, a city zoo, 46 miles of paved streets, municipally owned water plant, water softener and iron removing plant, a modern sewer system, and a disposal plant. Her fine schools and the state university make an outstanding educational center.

These public improvements, of which the advertiser is justly proud, were not acquired by standing still and keeping taxes down.

Albuquerque is not a city of low taxes. On the contrary, it is a progressive city and rapidly becoming one of the largest in the southwest. The five fastest growing centers in the southwest today are Phoenix, Tucson, Albuquerque, San Angelo and Big Spring. All are spending public money to make them attractive to more population.—El Paso Herald.

THANKS TO HARLEY SADLER

We went to the Harley Sadler tent theater last evening to witness the program of the above named. The show was splendid, clean, with plenty of sympathetic drama and also good vaudeville sketches between the acts.

The Harley Sadler show is one of the best known shows that has ever travelled West Texas. Sadler at the conclusion of the program made his bow before the last act, with compliments to our editorial columns, for which we say, Thanks Harley.

WHAT AL DID

Here is a little oddity of the recent presidential election that may not have occurred to you.

It is quite generally conceded that no one but Hoover could have rolled up such a tremendous majority over Governor Smith.

Yet you should bear in mind the fact that Governor Smith, more than anyone else, was responsible for Hoover's nomination.

The Republican leaders did not want Hoover—precisely because he was the biggest, ablest man in the party. They would have preferred someone who would be more subservient to them—someone who could take orders and stay hitched. They wanted very much to nominate such a candidate.

But they didn't dare. The shadow of Al Smith lay across the Kansas City convention and forced them to name their strongest. They did, and won the election.

And Al Smith, who was beaten, was the man who made them do it.

3-T Recipes

Tried, Tested and Tasty
By Betty Barclay
Oysters with Cocktail Sauce
24 oysters on half-shell
3 tablespoons lemon juice
2 tablespoons tomato catsup
1 tablespoon finely chopped onion

10 drops tabasco sauce
1-2 teaspoon grated horseradish
Salt
4 lemons

Cut two sections from each lemon; remove juice and pulp leaving baskets with handles. Mix lemon juices with other seasonings, adding salt to taste. Put mixture in baskets and place each one in center of a deep plate crushed ice. Arrange six oysters around each basket and serve for a first course.

Orange Toast
1 teaspoon cornstarch
1 tablespoon cold water
Juice 1 orange
1-4 cup orange pulp
Few grains salt
Sugar
Cinnamon
Mix cornstarch and cold water; add orange juice and boil, stirring constantly for five minutes. Add orange pulp and salt, pour over buttered toast and sprinkle with sugar and cinnamon.

Stuffed Peppers
8 green peppers (average size)
1 cup chopped celery
3 cups boiled rice
2 cups canned tomatoes
2 tablespoons butter or other fat
1 teaspoon salt
1-4 cup grated cheese

Cut off the stem end of the green peppers and remove the seeds. Cover the peppers in cold water, bring the water to the boiling point and cook them for five minutes. Cook the celery until tender. Mix the rice, tomatoes, his celery, the fat,

and the salt with the cheese. Stand this mixture on a baking dish, covered with grated cheese, and the water or tomato sauce to keep them moist. All the cheese is to be pepper cases themselves. When peppers are cooked (two or three will be used to flavor the others).

Radish Potatoes
1 cup cornmeal
3 cups boiling water
1-2 tablespoon salt
1 tablespoon fat
1 small chopped onion
1-2 pound chopped radishes
1-4 cup pulled radishes
2 cups tomato sauce

Add cornmeal to water, stirring constantly until lumpy. Add radishes, onion and fat. Simmer in a pan covered. Remove the chopped meat and radishes, stirring constantly. Color of meat is to be Heat food chopper in and put radishes through a dium cutter. Add radishes to sauce to make a greenish baking dish in the cooked radishes rest of the cornmeal in a moderate oven (30 to 40 minutes). An excellent "instant extender" dish.

CITY MOES OFFERS
SAN ANGELO, TEXAS, Nov. 28.—The city officers will be in new city hall building to an announcement next week.

SPECIAL TRAIN Thanksgiving Excursion

El Paso and Juarez, Mexico

3 FULL DAYS IN EL PASO

Lucille Haley Is President H. E. Organization

The High School Home Economics club has been organized and started work under the leadership of Miss Lucille Haley president.

The name for the club is to be selected at a called meeting to-morrow morning.

The first and third Tuesday of each month has been designated as meeting nights and social hours will be held following the business meetings.

A "get-together" social will be held tomorrow night at the home of Miss Mildred Patterson.

Wants 'Big Spring' Painted On Top T And P. Depot

Col. W. E. Easterwood Jr., vice commander of the American Legion Department of Texas has started a movement that will prove a great aid to aviators all over the country.

Mr. Easterwood points out that this is just as important as a sign on any highway.

Big Spring Herald Big Spring, Texas My dear editor and friend:

As vice commander of the American Legion Department of Texas I have undertaken a big job for the year 1929.

I have gotten permission from several of the railway companies agreeing to paint the name of the town on top of the depot at cost, which would be a very small sum.

Thanking you for past favors, I remain yours very truly W. E. Easterwood, Jr.

Mail In Your Charity Donation

If you are in favor of handling the charity cases of our city in a business like manner mail a check to any member of the committee of seven so the work can get underway.

Be a good sport and mail a check to any of the following: C. W. Cunningham, C. S. Holmes, J. T. Brooks, Geo. L. Wilke, Mrs. F. Gary, Mrs. G. L. Brown, Miss Verbena Barnes.

MANY INHABIT OUR JAIL THIS YEAR

During the past eleven and one half months 962 folks have been placed in jail in Big Spring, according to the jail roster.

Mr. and Mrs. Ken Barnett and Mrs. W. C. Barnett left this morning for Fredericksburg.

Building Permits Reach \$4,140,693

SAN ANGELO, Nov. 15.—Building permits in San Angelo took a further jump last week when 18 permits aggregated \$91,990 shooting the yearly total to \$4,140,693.

The largest permit issued during the week was to John W. Hampton for a garage building to cost approximately \$55,000.

RETURNS FROM EL PASO

Mr. and Mrs. E. E. Fahrnkamp have returned from a ten day visit with relatives in El Paso.

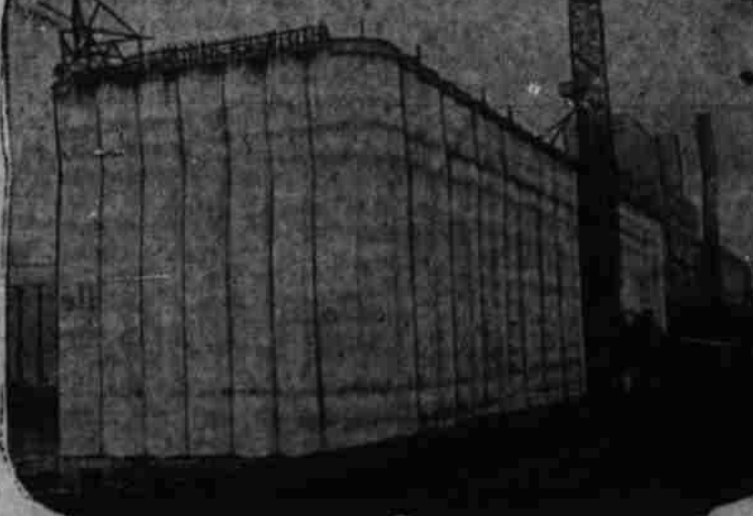

New Faces in U. S. Senate

There will be a number of new faces in the U. S. Senate as the result of the November election, a check-up of the returns shows.

Among the newcomers are (1) Theodore E. Burton, Ohio, who is returning to the Senate after several years spent in the lower house;

World's Largest Elevator

This huge wheat elevator at Port Arthur, Ont., represents an investment of \$5,000,000 and has a storage capacity of 6,500,000 bushels.

Red Cross Members Continue to Come In

The Red Cross Roll Call is coming along in a fine manner, according to Mrs. C. K. Bivings, county chairman.

First Christian Church 46 Yrs. Ago

It is hard to realize now the actual condition existing in our town 46 years ago when seven faithful people met on a Sunday afternoon to organize.

How About Those Cemetery Dues? Have You Paid?

How about your cemetery dues? Are you paid up? The Cemetery Association is in need of money and they have only one way of raising funds.

Marland Head to Quit

PONCA CITY, Okla., Nov. 15. AP.—The resignation of Chester Westfall, president of the Marland Oil Company of Mexico and director of Public and Industrial Relations for all of the Marland companies, is impending.

PIPE LINE RUN INCREASE

October deliveries by eleven pipe lines of the Standard Oil group during the month of October totaled 18,717,000 barrels or a daily average of 599,270 as against 18,119,256 barrels during the month of September.

WORK ON OFFICE BLDG.

It certainly seems good to have work started on the six story Petroleum building.

Four Texas Men Die When Plane Falls In Pieces

SAN ANTONIO, Nov. 15 (AP).—Army officials are today investigating the airplane crash at Brooks Field yesterday which resulted in the death of six enlisted men.

Two other occupants of the plane saved themselves by using their parachutes when the tail assembly and the right wing broke apart from the body while the craft was still in the air.

S. E. J. Cox Is Nearing Death At Fort Worth

FORT WORTH, Texas, Nov. 14.—S. E. J. Cox, who planned big oil companies, paid the tuition of young men eager to go to college, built airplanes to fly in international air races and who served a term in Leavenworth penitentiary on conviction of a mail fraud charge, is facing death in a Fort Worth hospital.

He is suffering from angina pectoris or trench-mouth disease.

Annual Hunt Of Oil Firm Begins Today

With representatives of Texas oil companies and state officials invited, the Hunter-Graham oil Corporation will play host to about 50 men for a week beginning today on a deer-hunting expedition in the Guadalupe mountains.

More Dairy Cattle Needed

While dairy cattle on the farm mean more work for the owner they also assure a steady and dependable income twelve months out of the year.

Industrial Plants Studied By Class

SAN ANGELO, Nov. 15.—Industrial plants and civic improvements of San Angelo are to be studied by the science class of Barnhart, it was intimated by a letter from L. Q. Sparks, superintendent, who has inquired if such an inspection trip can be arranged.

WASHINGTON FIR TREES FOR CHRISTMAS

Trees that are well behaved not too tall, not too low, not too big, not too small. A tree just right.

FOUND GUILTY OF GAMBLING CHARGE

The jury in the case of a Mexican on trial Wednesday charged with "shooting craps" on the streets of the Mexican settlement last Sunday, returned a verdict of guilty and assessed his fine at \$15.

NEW OIL DEVELOPMENT AFTER JANUARY 1ST

We do not expect an increase in oil development in the Big Spring country until after the first of the year.

WEATHER FORECAST

Louisiana—Cloudy, local showers Friday and in west portion tonight.

KILLING FROST HAS NOT ARRIVED

While we have had a couple of frosts already vegetation has not been killed by a long shot.

GROWING RIGHT ALONG

Big Spring is making more progress with less fuss than any other city in Texas.

RETURNING FROM EL PASO

Mr. and Mrs. E. E. Fahrnkamp have returned from a ten day visit with relatives in El Paso.

In the Mode

The latest decree of fashion, if you're interested in that sort of thing, is the possession of a cheetah, or hunting tiger, to go about with you everywhere.

Merchant Can Sell Specs Says Court

AUSTIN, Nov. 14. (AP).—That part of the State Optometry license law forbidding unlicensed merchants to sell eyeglasses, was held unconstitutional today by the Court of Criminal Appeals.

Seven Mexicans Who Were Arrested on a Charge of Gambling in the Mexican Settlement are up for Trial Today

They are charged with shooting craps on the street.

Pay Day At The Creamery

It requires time to build up a paying industry but it is certain that the Snowflake Creamery is going to bring a great measure of prosperity to Howard county.

The creamery pays for milk twice each month—the 2nd and 11th, and these pay days are going to be important days as more of our people learn it will pay them to regularly market their surplus milk at the creamery.

Friday is pay day at the creamery and a number of nice pay checks will be issued.

Right now the creamery needs 150 gallons of milk per day to meet its needs, but next spring and summer they will be in the market for 750 to 1000 gallons of milk per day.

INDEPENDENT OIL COMPANIES TO MERGE

Numerous mergers are ahead in the oil industry. It is learned that the independent oil companies are getting together and hope to present a combine that can compare favorably with the big combinations.

T. AND P. BUYS LAND

The Texas and Pacific railway company has purchased a two acre tract near Jatan lake.

Work On Ice Factory Is Forging Ahead

Work is now being rushed on the big ice factory and cold storage plant on East Third Street.

Business Spaces In Demand Here

It does seem that we would eventually have a sufficient number of business buildings to meet the need but just try to secure a space in the number of new business blocks under construction and you will find they have more applicants for space than they can supply.

Homemakers Class Enjoy Meeting With Mrs. Davis

The Homemakers class met at the home of Mrs. Floyd A. Davis Tuesday evening at 8 o'clock for the regular monthly class social.

The class president Mrs. C. G. Glascock took charge and disposed of all business.

Then the social chairman Mrs. Sidney Woods took charge and many interesting games were enjoyed, after which each chose their Sunshine Sister for the following month.

At the refreshment hour delicious refreshments were served to the following:

Mrs. Madames Homer Wright, Weldon Troop, W. A. Stall, L. B. Stone, R. E. Jenkins, J. F. Laney, J. W. Maddison, Chas. K. Bivings, A. L. Woods, B. Reagan, Tom Cantrell, C. O. Murphy, C. G. Glascock, Sidney Woods, R. Millon, J. C. Smith, M. M. Manell, C. C. Ryan, Roy Pearce, I. T. Kelton, C. F. Gunn, B. H. Black, H. Bullock, H. S. Faw, H. G. Dillon, C. A. Newcomb, D. H. Heard, Floy A. Davis, L. L. Guley, Geo. Gentry, Geo. Law, W. E. Simmons.

Sets Bond At \$1,000

John Mitchell who was arrested on a charge of a violation of the Dean Act in a hearing before County Judge H. H. Debenport, had his bond set at \$1000.

33 Arrested Over

Some folks like good time is different and from the amount they have to pay for it on a costly method. Over the week and were placed in jail for law violations.

C. C. Directors Voted

Within the next few days the members of the Chamber will be expected to elect forty names for the coming year.

BUY WITH CONFIDENCE
HARDWARE THAT WEARS
ANNOUNCING
New Agency
for
DE LAVAL CREAM SEPARATORS

We take pleasure in announcing that we have taken the agency for the De Laval Cream Separator—recognized everywhere as the world's best separator.

The new De Laval is the best De Laval ever built—more than 100,000 users say so. The new model De Laval has all the good features of the old machine, plus self-cleaning bowl, light running qualities, all-around superiority and greater convenience.

You lose money by not having a new De Laval. With better-fat at present prices you are losing more than ever if you have a worn-out or inferior separator or if you skimp by hand. A new De Laval will soon pay for itself.

It is so easy to buy a De Laval now that no farmer can afford to be without one. The De Laval can be purchased for cash, on easy terms or on the installment plan. Call and let us show you the new De Laval, or better still, let us demonstrate it on your own farm. Catalogue on request.

Harley Sadler Says Town Has Improved Greatly

"In the past year, no town that we have visited, has improved as remarkably as Big Spring," Harley Sadler, west Texas favorite actor, said last night, when making announcements at his tent theater.

Harley Sadler and His Own Company are in Big Spring this week showing in their big tent theater, under the auspices of the South Ward Parent Teacher Association.

The good roads committee appointed by the Wednesday Luncheon Club in conference with a good roads committee from the Chamber of Commerce held a meeting this morning.

A thorough discussion of a proposed bond issue of \$1,200,000 to carry out a connected system of hard surfaced highways was had and it was decided to continue some more investigations before any definite program was outlined.

We can best promote the prosperity of the Big Spring country by encouraging dairying and poultry raising, not so much on a big scale as upon a profitable basis.

We need that United Charities Association to help take care of our needy. We need it today and we are going to need it more each and every day during the wintry season.

The committee appointed to formulate plans for such an organization are now at work on the proposition and will be ready to report soon.

The Realty Bond and Mortgage company of Fort Worth has opened an office in Big Spring in room 5, West Texas National Bank Bldg.

King Vidor, director of "The Big Parade," "The Crowd" and other pictures, which has been making a film on location at Memphis, Tenn., will pass through Dallas at 1:17 p. m. Wednesday on the Sunshine Special en route to Los Angeles.

Water Problem Subject Of The Rotary Club

An especially interesting meeting was enjoyed by the members of the Rotary Club Tuesday. The Snow-Hite Creameries treated the crowd to Bulgarian buttermilk and pasteurized milk; forty bottles of each being a gift from this firm and this treat was indeed enjoyed.

Dr. G. T. Hall was in charge of the program and discussed at some length the main problem of our city, "Our Water Supply."

As to the present water supply of Big Spring there need be no fear. An all day test was made on one of the city's wells to determine whether or not it would stand up under producing forty gallons per minute for the 24-hour period, and examination proved the level of the water had not been lowered one inch.

The Epworth League began their revival services Sunday night at 6:30 in the League room. Quite a nice crowd was present and C. A. Johnson made a splendid and forceful talk on prayer life.

Tuesday night Miss Mary Burns will be in charge of the services. All young people are urged to come and there is also a cordial welcome extended older people.

Wednesday night, instead of the usual prayer services, Bro. Bailey will preach in the church auditorium to the Leaguers and to all who are interested in the Christian welfare of our community.

Site For Viaduct Shown In Daily

A photo showing the Gregg St. railway crossing on State Highway No. 9 in Big Spring with ten or more railway tracks crossing at this point, appeared in the Fort Worth Star Telegram Monday. A viaduct to cost \$140,000 is to be erected to eliminate this dangerous crossing.

Health Seal Sale To Open Nov. 29

The annual Health Seal Sale will open in this city on Thanksgiving Day, and continue through Christmas Day. Mrs. J. C. Douglas is chairman of the Seal Sale in Howard County.

Oil Showing In Harrison Test

That there is a probability of a new oil field in the making seems assured since a good oil showing is reported in the Harrison et al test in the eastern part of Howard county. It is said that an oil bearing formation ninety feet in thickness has been drilled through but on account of the hardness of the formation it may be necessary to give the well a shot before commercial production results.

W. W. Inkman told of a study by representatives of the city and the Texas & Pacific Railway Company of the Munger proposition in Borden county. It was found that the water shed of that project to warrant a sufficient supply of water for our needs.

Hi-jackers Rob Tourist East Of This City

A tourist driving an automobile towards this city on the Bankhead highway was held up and robbed of around \$40 about nine o'clock Monday night, six miles east of here.

The local airport and landing field were highly complimented by Lieutenant John Wood and Major Joseph H. Noyes, who were flying Vaught T-1, U. S. Army plane, landing in Big Spring about 6:30 p. m. Sunday evening, and spending the night in Big Spring.

Repairs on the army planes were made by the local pilot, W. J. Mitchell, before they took off Monday morning at 11:30 o'clock for the west coast.

Prohibition Enforcement to Be Unchanged

WASHINGTON Nov. 9 (INS)—No immediate change in the government's prohibition enforcement methods are anticipated under the administration of Herbert Hoover.

Doran declared that expansion of the federal enforcement machine would be a waste of time unless judicial machinery is increased.

Armistice Day is not conducted in peace among football fans, judging from the number of fatalities which were staged at the ball park here during the Colorado-Big Spring football game Monday.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated.

Dr. L. E. Parmley, Surgeon and Physician, Office: City Drug Store

His Last Year

He's playing his last year for the Navy, this "Whitey" Lloyd who for the past two years has been voted the best athlete at Annapolis. Lloyd is shown here in football uniform, taken just before the Navy-Notre Dame game.

Fir Trees For Xmas Decorations

Streets lined with green trees from December 5th until after the holidays.

W. H. Shipp of Dallas agent of the Texas Oil Co. is a business visitor in the city today.

Salvation Army Campaign Is Postponed

On account of the Red Cross campaign the Advisory Board for the Salvation Army decided it would be best to defer the soliciting for the Salvation Army campaign until the middle or latter part of next week.

ROAD MEETING TOMORROW MORNING

A meeting of the Good Roads Committee will be held tomorrow morning for the purpose of outlining some definite program for road improvement in Howard county.

Box Supper At Hart Wells Friday

There will be a big box supper at the Hart Wells school Friday night, November 23rd, and every body is cordially invited to attend.

WATCH YOUR PARKING TIME

Time limit parking is going to catch quite a few of our folks. As soon as the special officer gets on the job he will see that the ordinance is strictly enforced.

To the first half-million new Ford owners

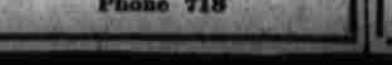

TO THE half-million men and women who have received new Fords in the last eleven months, there is no need to dwell on the performance of the car.

You have tested its speed on the open road. In traffic you have noted its quick acceleration and the safety of its brakes. You know how it climbs the hills. On long trips and over rough stretches you have come to appreciate its easy-riding comfort. Continuous driving has proved its economy of operation and low cost of up-keep.

This is an invitation to you to take full advantage of the service facilities of the Ford dealer organization so that you may continue to enjoy many thousands of miles of carefree, economical motoring.

The point is this. You have a great car in the new Ford. It is simple in design, constructed of the best materials and machined with unusual accuracy. It is so well-made, in fact, that it requires surprisingly little attention. Yet that doesn't mean it should be neglected.

One of the best ways to do this is to take your car to the Ford dealer every 500 miles for oiling and greasing and a checking-up of the little things that have such a great bearing on long life and continuously good performance.

FORD MOTOR COMPANY

Another Supply Company Locates In Big Spring

The Big Spring Pipe and Supply Company has secured a plot of ground 200x400 feet on the highway south of Big Spring and just east of the Big Spring Public Service Company's plant and are to open a supply yard at once.

Kate Davis, a member of the firm is now here to complete arrange-

ments for having material and machinery moved to their location. This firm also operates a supply house at Breckenridge.

A large attendance marked today's meeting of the Wednesday Luncheon club and quite a bit of difference bubbled up on one or more of the subjects which were mentioned.

While the program committee for the day were in conference to see who should act as chairman, President Willard Bullivan announced he would hear a report from the proposed United Charity Association committee. Rev. Claud Wingo for this committee stated his committee found it too late to consider a community chest plan this year. They favored turning the charity work over to some organization such as the Salvation Army. If they would take this over locally, but they again found this plan could not be considered at this time. They favored the appointment of seven citizens, to handle the charity of our community and suggested that the citizenship should donate at least \$1,000 to continue the work for the next six months. The following were suggested as members of this committee: C. W. Cunningham, C. S. Holmes, James T. Brooks, Geo. H. Wilke, Mrs. G. L. Brown, Mrs. F. F. Gary and Miss Verberna Barnes.

On motion the members unanimously approved the membership of the committee and pledged them the loyal support of the club.

Finer Chairman

The program committee picked Robt. T. Piner to serve as chairman of the day, and he immediately announced the other member of his committee was dying to make a speech so he called on Garland A. Woodward to expostulate.

Judge Woodward stated he had a very important proposition to submit, if not the most important and proceeded to tell how necessary it was that Big Spring should have a real snappy band. After citing sixty-seven reasons why Big Spring should have a good band, he invited any who disagreed with him to get up and tell their story. No one accepting the challenge he decided to call on different members to tell what they thought of a band, and the best method of taking care of the expenses. He suggested the mill tax but pointed out that it would be a year or more before we could expect any aid from this source. H. L. Rix, J. B. Pickle, Fox Stripling and others told of the unsatisfactory subscription plan that had been in effect and favored the mill tax. Mr. Pickle suggested the Chamber of Commerce put the band over.

Funds For Band

Mr. Riggs a band director being questioned as to the fund necessary to maintain a band for a year stated \$4,000 or \$5,000 would be needed.

W. C. Blankenship stated that a band was one of the finest things a city could have and he favored it being sponsored through the High School whenever possible as the pupils could be counted to remain as members through three or four years at least.

He said if we hoped to retain Mr. Riggs as a band instructor it would be necessary to raise some money immediately.

When it was suggested that the Chamber of Commerce tack this additional \$5,000 on the budget for 1929, President Shine Phillips gave warning that they had \$35,000 lined up for budget purposes already and he doubted if any more could be considered.

A motion prevailed that the Chamber of Commerce be requested to consider an appropriation for the support of a band when they plan their 1929 budget.

Cemetery Assn. Elected

J. F. Wolcott, chairman of the Cemetery Association Committee asked to have his committee discharged as he was not doing any good. He stated the Cemetery Association was very much in need of funds and believed others might be able to have more luck than he was meeting. His resignation was not considered.

The program committee for next week were requested to give Mr. Wolcott a chance to tell his troubles next week. The following were appointed on the committee Babe Martin, Tom Cook and L. W. Craft.

Cotton fields in several West Texas counties which last year experienced some pink boll worm infestations, should be benefited by investigations of the migration of the moth of the pest, this undertaking having been started at Tishaullo, Mexico, by E. R. Coad, head of the Cotton Insect Investigations at Tallulah, La. In cooperation with the Mexican Department of Agriculture, according to a statement of the Department of Agriculture. The statement follows in full last.

Following the completion of arrangements with the Mexican government for a series of investigations of the pink bollworm in its native habitat, several entomologists of the Department of Agriculture have been detailed to carry on the work in three Mexican field stations where there are suitable laboratories.

Trip Made By Plane

Some of these men traveled to Mexico by train, but E. R. Coad head of the cotton insect investigations of the department at Tallulah, La., recently flew from that laboratory to El Paso, Texas, and thence to Tishaullo, Mexico, in one of the two planes which are being used for the work. He was accompanied by a pilot and another plane with his pilot and mechanic.

The airplane used by Mr. Coad was the newly purchased Blinson-Detroit, which is equipped with insect traps for capturing pink bollworm moths in flight. The other, one of the DeHavilland airplanes of the Tallulah laboratory fleet, will be used as an auxiliary and supply plane for the Stinson plane. Lieut. Joe Leon, pilot aviator of the Mexican Aviation Service, conveyed Mr. Coad and his party in the flight from El Paso to Tishaullo. Studies of the migration of the moth of the pink bollworm are being inaugurated by Mr. Coad.

Dangerous to Cotton

The pink bollworm, which is one of the most dangerous pests of cotton, has long been combated on the border between Texas and Mexico by the Federal Horticultural Board, and it is felt that to make our great cotton growing region more secure against invasion the department should know more about the flight of the moths from heavily infested areas.

The Tallulah laboratory of the department has a number of airplanes equipped with the necessary devices for dusting cotton fields with insecticides and for trapping insects in the air, and two of these planes are being utilized to further the investigation in western Texas and Mexico. The entire program of research as outlined is conducted in cooperation with the Mexican Department of Agriculture, and a fine spirit of cooperation and good will exists.

Recently a national magazine carried an article lamenting the deterioration of the modern girl's feet, because she wore high heel shoes which were also too small. The conclusion drawn in the article was that in thousands and thousands of years the girls' feet would become stem-like. Curious to know what was going to become of Baylor women the feature writer took a census of 322 University co-eds. Here's what he found:

"Out of 322 co-eds who were questioned, 419 wore low heel shoes, while only 113 took the chance of lording their feet too. And all the girls refuted the argument that their shoes were too small."

First Christian Church

Sunday, November 15, we will celebrate the 46th birthday of our local church organization.

On or about November 15, 1885, on a Sunday afternoon, Mr. and Mrs. J. D. Eddins, Mr. and Mrs. J. B. D. Boydston, Mr. and Mrs. A. S. Robinson and Mrs. M. E. Barnett met in a hay hut and organized the First Christian Church in this city.

Three of these charter members are still living and are in Big Spring. They are J. D. Eddins, J. B. D. Boydston and Mrs. M. E. Barnett.

All day services and basket dinners with special sermons and music will be held as a birthday celebration.

Dr. T. T. Roberts of Randolph College, Cisco, Texas, will deliver the main address in the morning. Special musical program and talks by old timers will be on the program for the afternoon. Services again at night.

Dinner will be spread in social rooms of church.

Bring your friends and a well-filled basket.

A Chevrolet coupe belonging to Thomas Johnson, was stolen from the business section of this city.

The former champion was careful to avoid mention of his oft-repeated statement that he was "thru with the ring forever." He appeared restless, anxious to find an outlet for the nervous energy that keeps him continually "on the go." When he had left the room, Richard smiled a benign smile, and said:

"A few more months and the big fellow will be begging for a fight. He just can't stay inactive."

Dempsey in the shape after a week of hard training in a local gymnasium, said he was only two pounds overweight. At the moment he is most interested, he said, in making a talking moving picture and selling what is left of the string of race horses he once owned.

The well-informed about the garden believe that Dempsey will again do battle, probably next summer at one of the New York ball parks or in one of the large Canadian cities fairly close to the American border. Jack is believed anxious to fight Uscudun, a swinging puncher who would bring the tear on the legs that crumpled in Turney in Chicago. Money in the proper quantities, they say, will bring the meeting about.

Kan Barnett spent the week end in San Angelo.

Basis For Income Tax Unchanged For Year

Federal income tax returns, blanks for which will be available in January, will be made out this year on the same forms and based on the same tax laws as those of last year, George C. Hopkins, United States internal revenue collector with office in the Thomas Building, said Tuesday.

"We are now in the midst of the off season for income tax business but the department is preparing for next year's early rush," Mr. Hopkins said. "We would like for the public to realize that this is the public's office and citizens are expected to make use of it whenever they may need its services. It is to provide this secret that our personnel is now preparing, while waiting for the busy season to open up."

PEOPLE MOVING IN

If you judge from appearances, things are just a little quieter at present than they were a month ago, yet the demand for homes and apartments continues to be brisk. People continue to come to Big Spring to make their homes.

Carroll Barnett was here from San Angelo this week visiting his parents Dr. and Mrs. W. C. Barnett.

Coolidge Armistice Address Brings Hot Commons Debate

LONDON, Nov. 13 (AP).—The Armistice Day speech of President Coolidge was the background for a sharp debate tonight in the house of commons with Stanley Baldwin prime minister, and David Lloyd George, liberal leader, firing the heavy guns.

The discussion was precipitated when the war-time premier moved an official liberal amendment to the address from the throne. In this amendment the Lloyd George party invited the house of commons to declare that the Anglo-French accord secured endangered the peace of Europe and good relations with the United States.

Compromise "Scrapped"

Defending the government course Mr. Baldwin candidly described the compromise as "scrapped" but he said that it was "an honest, straight-forward attempt to escape from the deadlock which developed at Geneva and was threatening the cause of disarmament."

In the attack on the Baldwin foreign policy, Lloyd George asked the commons to express official regret that the accord with France had abandoned the principle of limiting small submarines, cruisers and other naval vessels.

Pure Oil Chief In Big Spring

Henry Dawes, president of the Pure Oil company, brother of vice president Charles Dawes, of "Red and Marie" fame, was in Big Spring Tuesday evening and ate dinner with his party in Master's Cafe. Inquiry at the local hotels failed to disclose that he had registered here. Maungie Brykin at the Crawford stated that it was quite likely that inquiry had been made there but that the party could not have been accommodated at the Crawford because of the lack of room.

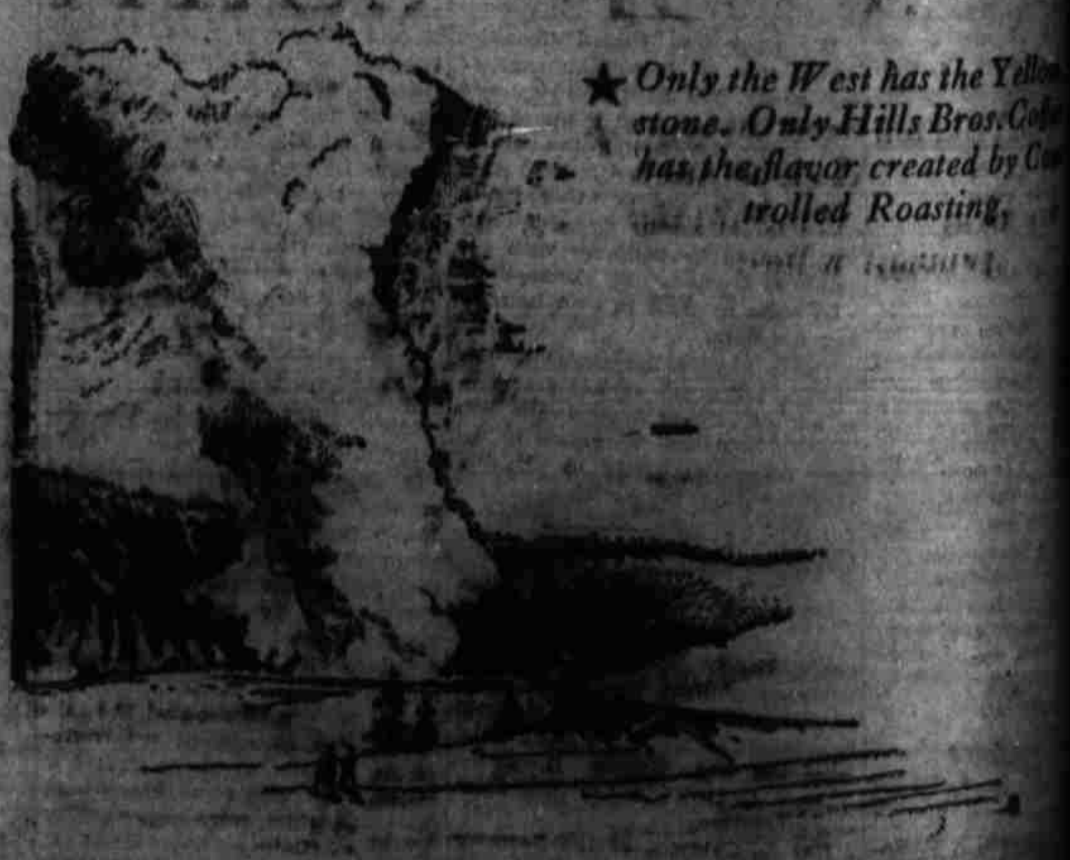

\$1,000 Crowd At Football Game

Gate receipts at the football game Monday afternoon when the Colorado Wolves and Big Spring Steers played their annual football affair, showed that there was \$1,000 crowd at this game, according to Frank Boyle, of the Big Spring High School.

You can't know the West without knowing its matchless coffee...

HILLS BROS!

Only the West has the Yellow stone. Only Hills Bros. Coffee has the flavor created by Controlled Roasting.

WORDS can never completely describe the superb flavor of Hills Bros. Coffee. You must taste it for yourself. But you can know the reason why it is so superior in aroma and flavor.

Hills Bros. Coffee is roasted by a patented continuous process, few pounds at a time. Every coffee berry is roasted evenly, developing the utmost in flavor and strength. And all this goodness comes to you intact because Hills Bros. pack their coffee in vacuum-sealed cans for Hills Bros. Coffee by name and look for the Arab on the can.

Fresh from the original vacuum pack. Easily opened with the key.

Nettleton

Did You Look at Your Shoes This Morning?

OR did you just pull on a pair of battered veterans which the janitor feels should be his by now? . . . Nettleton Spring models are here—in new styles and leathers to make you step out into the sunshine with a lighter step and a great deal of pride.

Steers Throw Off Jinks; Win Score 12 to 6

Third Time "Lucky" For Big Spring Steers; Win Armistice Clash From Colorado
Big Annual Event
Both Teams Keyed Up to Fighting Fitch and They Show Real Art In Science of the Game

Ancient rivals met on the local gridiron in their annual football clash on Armistice Day here yesterday afternoon, when the Colorado Wolves and Big Spring Steers staged a thrilling game of football, before one of the largest crowds of fans that has witnessed a football game here this season.

The first counter was made in the first five minutes play when a Colorado pass was completed, Red Coats taking the ball and making a pretty run for a touchdown. Colorado made her score in much the same manner, on an incomplete pass during the second quarter of play.

Big Spring's second touchdown came during the last 15 minutes of the fourth quarter. Big Spring made five first downs, and Colorado made two first downs during the game.

Colorado On Special Train
Colorado came over for the game on a special train. The special arrived in Big Spring about 2 o'clock and after parading the downtown district, the crowd went to the city hall park one mile east of the city.

More Oil Tests For McDowell Area
In addition to the new test to be started on the L. S. McDowell ranch by the Meriwether Oil Company, several additional tests are rumored for that area.

Mexican Paper Gives News On Hoover Good Will Trip
MEXICO CITY, Nov. 14. (AP)—Excelsior Tuesday published an editorial in which it says, "Not Herbert Hoover's 15 words of Spanish nor all the words in the Spanish dictionary will suffice to remove the atmosphere of suspicion and resentment in Latin-America toward the United States, unless the forthcoming journey of the President-elect results in acts of concrete friendship."

Observations of Jake
If all the automobiles in the United States and Canada are laid end to end—you will know it's Sunday afternoon.
Whenever we hear a fellow bragging about the speed of his car, we begin looking up his age, relatives, past history and other facts that might be needed in an obituary.

Democrats to Take Inventory

WARM SPRINGS, Ga., Nov. 12 (AP)—A national survey of the Democratic party to gain a thorough understanding of its strength, was launched by Franklin D. Roosevelt, governor-elect of the State of New York, shortly after his arrival here for a month's rest rendered necessary by his strenuous campaigning and the draft made on his strength by the political fight just closed.

Settled in his winter home, the successor to Alfred E. Smith declared that letters he would write during the next two months, addressed to Democratic leaders throughout the country would have nothing to do with his recent election or any future election, but would carry out his practice in past years.

He declined to discuss the shout-out "Roosevelt for President in 1932" cry which greeted his trains in various Georgia towns as he neared Warm Springs last week.

Scots Reunion Is Staged In Herald Office

It sounded like a page from Burns' poems or one of J. M. Barrie's novels the other day, when two Scotsmen came together in the Herald office. The staff sat silent and amazed as a conversation in a strange tongue fell upon their ears.

Diplomatic inquiries by a mere Texan has disclosed that some of the phrases and words were like this: "Whaur Ye Frae" "Auld Reekie" "We're A' Jock Tamson's Buir" "Glasgow streets" "Cham-pit taffies" and some others that we gave up all hope of ever rendering into language that Texans could understand.

5,000 Homeless As Eruption Of Volcano Goes On

CAENNA, Sicily Nov. 12 (AP).—Pouring forth a fiery torrent of molten, blazing lava, which has devastated fertile fields and orchards on her eastern slope, Mt. Etna today was regarded as a menace which had not yet spent her strength.

Scientists here from all over Europe studying the behaviour of the volcano estimated that only one third of the potential strength of the burning mountain had been spent in the eruption which wiped out the town of Mascali and destroyed part of the neighboring village of Nuzunata.

Herald Force Did Their Bit In War

The Daily Herald was prepared to put on an Armistice Day celebration of its own yesterday. Four of the members of the staff saw service in the armies of the United States, or the Allies.

Accompany Aerocad At 100-Mile Pace

Frank Segall New Star In Abilene Game

Coach Medley Touts out Segall New Star to Dazzle Players and Fans

Consistent Gains

Segal Former Satellite on the Big Spring Steer Team, Outstanding Player in Friday's Game

Frank Segall son of Mr. and Mrs. M. Segall of this city undoubtedly was the outstanding player in the game at Abilene Friday, when the McMurray College Indians met the John Tarleton Plowboys.

Whatever hopes the John Tarleton Plowboys may have placed in their Saturday's showing for gaining entrance into the T. I. A. A. were severely jolted when the McMurray Indians left them holding the small end of a 32 to 0 score in the game played in Donaldson Oval before the largest crowd ever to attend a football game on that field.

Medley's Indians completely outplayed J-Tac in every department, even his passing offense showing better than at any time during the season, and the line turned in its usual creditable showing with the right wing manned by Park, Mitchell and Miller opening holes at will for Frankie Segall.

Just a few words about this young Segall. He covered his home town of Big Spring with enough glory to last many weeks, and no doubt the Stephenville college will remember him just as long. He made consistent gains throughout the entire four quarters, carrying the ball from the scrimmage on off tackle plays, returning punts and receiving Pool's passes with equal skill.

W. U. Bike Races

The other evening an athletic event of great local interest was staged on West Second street, when the young ladies of the Western Union staff engaged in a series of bicycle races.

Howard-Glasscock Field Is Inspected

Tolstoy To Speak At T. C. U. Nov. 27

FORT WORTH, Nov. 12.—Councilman Tolstoy, son of the world famous Russian novelist, Leo Tolstoy, will speak at Texas Christian University on the evening of Tuesday, November 27.

BUYERS SOUGHT

J. F. Skeete of San Angelo is here today to confer with any of the folks in the Big Spring country who are in the market for good Jersey milk cows.

Nothing more to buy

WHEN the Nash salesman quotes you the price on a Nash "400," you will find that it includes not only the car, but the freight, bumpers, hydraulic shock absorbers, everything!

There's nothing more to buy. Nash puts on the extras at the factory, instead of you or the dealer putting them on, at retail prices!

Champs as Jersey Owners

When it comes to owning Jersey cattle here are the greatest. They met recently at the National Dairy World's largest Jersey herd at Fallurris, Tex.; E. C. Perredes, largest Jersey owner on the island.

Switchman Acquitted At Baird

Clifton Brown, T. and P. switchman of Baird was acquitted by a jury in district court at Baird Friday afternoon on a charge of murder growing out of the shooting to death last June of R. C. Coleman.

Epworth League To Conduct Revival
