Forty-Second Year

Eldorado, Schleicher County Texas, Friday, July 23, 1943

NUMBER 28.

MEDITATIONS

By The Editor

This week there is so much news that we shall not dwell long on this column, but we urge the citizens of Schleicher to consider the county fire truck proposal and express to county officials, the Eldorado Volunteer Fire Department and the named committeemen their opinions in the matter.

Be democratic! Express your views, but be sure to give it due consideration before you make a decision.

This matter is not a proposed bond election. No. It is at the present time being sought to perfect the need by popular subscription of those who deem the move one worthwhile. Talk to your neighbors about the matter and get them to express their opinion to those who will act on the matter.

The need for this equipment is great. Conditions brought about by the war and feed shortages makes it all the more necessary that the ranges, barns and rural homes have more protection than in ordinary times.

TOM ENOCHS INJURES HAND

Tom Enochs, 16 year old son of Mr. and Mrs. Jeff Enochs suffered deep lacerations in the palm of his left hand Monday afternoon while operating a row binder on his fathers place some seven miles north of town. He was carried to a San Angelo hospital for treatment. Several stitches were taken in his hand. Reports are that he is getting along nicely.

SEVEN MEN FOR JULY QUOTA

The following seven Schleicher County men report to Camp Barkley at Abilene July 29 for induction into the service: George Vincent, Rudolph Torrez, Romerio Santellano, Milton Hensley, Walter Boseman, Onifer Braden, and Juan Guerio.

Three men will be called for August 12th and these will go to San Antonio for induction.

J. L. RATLIFFS RETURN

Mr. and Mrs. Tom Ratliff and children of Belcher, La., have moved to Sonora where they are to make their home, their household goods arriving last week. Mr. Ratliff for the past 15 years has been connected with public schools in Louisiana, but declined an offer for another contract to come to West Texas to make his future home.

Mr. Ratliff has purchased an interest in The Ratliff Store and Funeral Home and assumed active management of the business this week, relieving J. L. Ratliff, who is returning to Eldorado, where he will again become active in The Ratliff Store and Funeral Home maintained here. Emmett Askins, embalmer for the Sonora and Eldorado funeral homes will continue to live in Sonora and will assist in the store at Sonora.

Need For Fire Truck To Protect County Is Great

Disposition of Citizens Sought; Equipment Needed Immediately

With a critical feed shortage facing the nation, Schleicher county will need to preserve all surplus feeds possible. Grazing lands at this time are becoming very dry and almost any section of the county would burn should the least carelessness be exercised.

Many fires have recently done considerable damage to pasture land in the county and appeals for help have been made to volunteer fire fighters. These calls were responded to and extinguishing of the flames made as quickly as possible under the now existing circumstances.

Almost all surrounding counties now have a county-owned fire truck maintained by the county for the purpose of fighting fires outside of towns and cities. Of course, we all know that a municipal fire truck is not supposed to leave the corporate limits of a town. This is forbidden for insurance protection.

This week a movement is under way to seek the possibilities of securing a truck for this county. This truck would be maintained by the local fire department and a trained crew would be available at all times to man the apparatus and truck. There is a committee working on this project now. The committee is composed of local firemen who are anxious to get equipment placed at their disposal to protect the farms and ranches of the county.

In deriving at a plan to finance the purchase of a truck and apparatus, it is thought that this should be

done by popular subscribing of donations toward the purchase of the truck and equipment. The cost should be around three thousand (\$3,000) dollars—a very small sum in comparison to the amount of protection the equipment would afford.

An outstanding feature of the proposed truck is that a fire may be fought while traveling at a rapid rate of speed; the storage tank, which holds some 550 gallons of water may be refilled in a very few minutes and when necessary may fight fire either in motion or standing still.

Every landowner, leasee and others are urged to at once express their opinion on the matter. See your commissioner, write or see the committee composed of Jess Walston, Richard Jones and R. C. Edmiston, or contact County Judge Meador or Fire Chief Palmer West.

Discuss it with your neighbors and friends, but do it now as your place may be the victim of fire at any time. The sooner that this equipment can be secured the safer the property of Schleicher land owners will be.

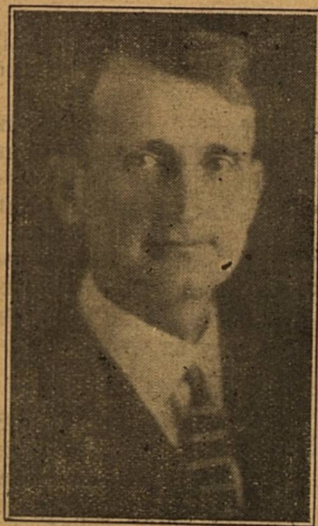

Many landowners have made known to The Success this week that they are heartily in favor of the movement and are willing to back it. Others have said that it would be one of the best things that could be done for the county at the present time.

Make your disposition in the matter known today to someone interested in the movement.

Methodist Revival To Start August 5

Rev. F. B. Faust, pastor of the Eldorado Methodist Church announced this week that plans are being perfected for a 10-day revival to start August 5 and continue through August 15.

The Reverend A. C. Douglas, pastor of the Fort

REV. A. C. DOUGLAS

Stockton Methodist Church, has been secured to do the preaching for services held twice daily at 10 A. M. and 9 P. M. Rev. Douglas is coming to Eldorado recommended as a very forceful speaker, a truly Christian gentleman in every sense of the word, with a pleasing personality and a man who is held in the highest esteem by ministers associated with him in the New Mexico conference.

Every effort is being made to secure a song leader and young peoples' worker for the meeting the Rev. Faust stated. This detail will be worked out immediately and an announcement made concerning the worker.

Elsewhere in this paper there appears an advertisement concerning the revival and which we urgently request you to read.

Army Deserter, Wife Apprehended Here

Charles W. Walton, 22, was returned to Camp Barkeley, Abilene Wednesday of this week after he was picked up here last Sunday by Sheriff E. H. Sweatt. Walton and his 17-year-old wife were detained for questioning Sunday after being stopped near the Ed Jackson place. At the time they were riding with two Mexicans who live at Fort McKavitt and were headed in that direction. When an attempt was made to fingerprint the man he confessed he deserted the Army July Fourth at Camp Barkeley coming to this vicinity.

Walton was inducted into service at Huntington, Tenn. His wife returned to Abilene after Sergeant of the Guard Joseph Montoya, came here after her husband this week.

The couple are reported to have been sleeping in pastures on rugs and the man working on farms in the surrounding vicinity for about a weeks.

Mrs. C. C. McLaughlin Injured In Fire Thurs.

While attempting to remove clothing from a bed in the telephone office-residence here following a fire Thursday shortly afternoon, Mrs. C. C. McLaughlin was painfully burned on the arms and about the face, seriousness of which had not been revealed at press time Thursday. She was carried to a San Angelo hospital for further observation and treatment.

Local firemen answered the call to the residence-office and quickly extinguished flames that had burned draperies, shades and slightly damaged other furniture, including a mattress that was carried to the yard by a fireman and extinguished. Details as to origin of the fire were lacking.

DRAFT-DODGER BEING HELD IN COUNTY JAIL

Edwin Junior Thompson, alias Bill Anderson, of Fonda, Pocahontas, Iowa, is being held for FBI investigators following arrest by Sheriff E. H. Sweatt here Thursday.

Thompson, age 22, has been working for some time on ranches of Cecil Meador and being under observation of the local sheriff's department. Thompson is alleged to have left Iowa about the first of the year, claiming to have notified his draft board, but at the time of his arrest could not produce a classification card for either his name or the assumed name.

Mrs. Dave DeLong underwent a minor operation in a San Angelo hospital Tuesday of this week. She is reported to be recuperating nicely.

Mrs. J. A. Prugel of Eden was a week-end guest in the home of her son and daughter-in-law Mr. and Mrs. A. E. Prugel, and also in the Joe Tisdale home.

War Meat Program Discussed Here

Members of the Schleicher County USDA War Board and County War Meat Committee convened Monday, July 19, 1943 for a discussion of the War Meat Program. Mr. Temple J. Duderstadt, Area Supervisor, War Food Administration, was in charge of the discussion.

Schleicher County butchers and local slaughterers must submit to the county war meat committee by July 25 evidence of the amount of livestock slaughtered during the period upon which current permits are based. Permits may be cancelled if this evidence is not presented to the meat committee on or before the deadline date.

JULY BOND QUOTA LAGGING

Reports are that the July bond quota for this county is far short of what it is supposed to be. Only about \$8000.00 of the approximate \$9400.00 dollars has been raised, and citizens are again called upon to step up their bond buying.

Evidence may include books or records kept by the slaughterer, records of persons from whom he bought livestock or to whom he sold meat. Other proof of the amount of slaughtering done during 1941 includes grading certificates or inspection records.

If the slaughtering was not operating during the corresponding period of 1941, he must substantiate the amount of slaughtering done in 1942, the Committee explained, and emphasized that evidence should be submitted only of livestock actually owned by him at the time of slaughter.

Evidence submitted to the county war meat committee will be used in establishing a more uniform system of permits and quotas for livestock slaughterers.

Members of the committee are:

- F. B. Gunn
- Jess Koy
- S. M. Oglesby, Jr.
- W. T. Parker
- J. M. Hays
- W. H. Wiedenmann

COTTON LOANS

The Commodity Credit Corporation has announced that they will acquire title to all 1941 cotton which is not redeemed by the borrower by September 15. Any cotton not redeemed will be pooled and sold by the Commodity Credit Corporation.

All 1942 cotton loan notes are extended indefinitely.

THE INEVITABLE EFFECT

It is no wonder that the Senate War Mobilization Committee in a recent report declared that the home front is "sagging dangerously." A free people have found themselves shackled by bureaucratic red tape at almost every turn.

They try to increase production—they try to get a war job—they try to raise crops—and in many instances they are slowed down or actually stopped by some restriction, decree or law that has so complicated our economic life that a citizen used to do things for himself is stumped by a multiplicity of bosses.

Don't forget that the success of our war effort has been due to the drive of free private enterprise. Don't expect to hamstring that enterprise and not confuse and bewilder, and even destroy, the spirit of individual initiative and independence which built, maintained and must perpetuate this nation if our country remains as we have known it.

A SAFE BET

Secretary of the Navy Knox has predicted a crude oil shortage within a year, and exhaustion in 14 to 20 years of present known supplies.

Almost these same words were used during the last World War, and then the oil industry evolved new drilling methods, found new fields, greatly increased the products on record.

There was incentive to do the job. If our lawmakers and regulators will but give the oil industry half a chance and allow a fair return for the risk involved, it is a safe bet that this country won't be out of oil in one year, or twenty years.

Cut the red tape before an artificial shortage is created, and give American enterprise a chance to meet any emergency. Any other policy will be fatal to a nation that uses gasoline and oil products almost as freely as water.

CHURCH WORKERS TO FARM WORK

To help meet the farm shortage, the young people of St. Paul's Episcopal Church, Waco, Texas, have organized themselves into "victory units" that assist local farmers gather in their crops. Their first task was in chopping cotton. According to the rector, Rev. Robert Brown, "Most of these young people have never done such arduous labor before; but, moved by their religion and patriotism, they are becoming increasingly more enthused in this work and heartily commend it to other youth organizations. They have already found more work than they can reasonably supply."

WHILE OTHERS CHEER

When the prospect of peace becomes more real, literally millions of people will stand ready to join in a deafening tumult of relief and happiness. Victor and vanquished alike will revel in a reunion with loved ones.

But there is one group whose shouting will be muted—the doctors. For them the job of rebuilding the shattered wreck that humanity has made of itself and of the world, will begin. Many of them will not be able to return home. They will have to stay in far away places battling as they never battled during the war, against disease and starvation. They will have to work against time to develop new aids and new techniques in a world-wide struggle to control the spread of fearsome maladies. These men in white know that the war has created medical problems which if not solved could easily make the war itself look like a pink tea. No, the doctors will not cry out in care-free happiness when this war ends.

Laymen, who know so little of the grim task the doctors face should endeavor to ease their burden whenever possible. The standards of our medical men are high. They serve rich and poor alike to the best of their ability, and the ability of American doctors is not surpassed. We should reflect soberly on these things in the years ahead when the doctors will be fighting the greatest battle of all time—for us—and pause before heeding an insatiable howl for an impossible medical Utopia under the banner of social reform.

Life will give us whatever we put into it. Put joy into the world and it will come back to you with compound interest, but you can't check out either money or happiness when you have made no deposits.

By the time a man gets to the top he wonders why he struggled so hard to get there.

I Give You Texas

By BOYCE HOUSE

When little Willie came home from his first day at school, his mother asked, "What did you learn?" He answered, "Nothing." She inquired, "Well, what did you do, then?" He replied, "Nothing; a woman wanted to know how to spell 'dog' and I told her. That's all."

One of the innumerable changes that Hitler has forced upon Texas is the foregoing of San Antonio's Battle of Flowers. In the happy, before-the-war days, that was really an event to look forward to. The crowds were as much a part of the festival as the procession itself. Thousands massed along the line of march, many of them standing for the two hours

or so that the parade was in progress—in fact, most of them were on hand an hour or more before the event was scheduled to begin. A few had folding chairs and some sat on the edge of the sidewalk; others were in windows; still others would set a table in the entrance-way of a store and place chairs on top of the table so as to see over the heads of the throng. Vendors of foods and drinks and souvenirs were in their glory.

The last Battle of Flowers that your columnist saw—it was the last one that has been held—was a more brilliant spectacle than the more widely acclaimed Tournament of Roses in Pasadena. True, the California spectacle had Edgar Bergen and Charlie McCarthy, as well as Leo Carillo, resplendently attired and on a white horse—but San Antonio's cavalcade had many more beautiful girls, and in more gorgeous costumes.

Miss Sammie Stewardson and Mr. and Mrs. Hop Ashmore were Ft. Stockton visitors last weekend.

We are grateful for the good attendance we had Sunday and Sunday night. In this hot season of the year it seems so good to increase in attendance rather than to be falling off. I feel that the presence of each one is indicative of their interest. And no doubt the best way to get the best out of life is to put the best into it.

Surely many people have not counted the cost and the tragedical end of a misspent and miss appropriated God given life with its many opportunities. And it seems that so many of your people do not know about many of the great things that our nation stand for and fighting for today.

We had a very fine G. A. Camp. There were twenty one girls in attendance, with eleven grownups or adults. We had a splendid time and no doubt every one had a good and profitable time. All of the activities and program was carried out as had been planned.

It was a fine experience Mrs. Hays and I had in going with Bro. and Mrs. Faust to Rudd last week during their revival meeting. We enjoyed so much the many friends we met and the various contacts we made, and also all of the splendid entertainment we received.

May I urge all of our folks again to be present at our regular services. We will carry on our religious life and work in the same pro-

portion as we have faithfulness and consecration. The Lord's work must be carried on by His people and if they fail Him; He has no other group to carry on for Him.

HOW HAVE YOU CANNED YOUR VEGETABLES?

By Virginia Ryan
County H. D. Agent

Canning is considered the most practical, all-around method for most people to use. It may be used for more foods than any other method. It is quick, easy to store, and relatively inexpensive. If proper methods are used, most of the food value is retained. There are two methods of canning. The Texas Extension Service recommends. Process all meats and vegetables except tomatoes and ripe pimientos in a pressure cooker. Can all fruits, tomatoes, and ripe pimientos in a water bath. Drying is especially recommended to those who do not have access to a pressure cooker to can vegetables.

Many people have been concerned about the information put out about canning vegetables in the hot water bath. This method of canning gives the Bacillus botulinus a chance to act upon the product canned, if conditions are right for its growth. Several homemakers have already canned their supply of vegetables in this way and do not want to throw it away. Re-canning by pressure cooker is not advised, because it would be so overcooked there would be very little food value left.

If you have canned your non-acid foods by the water bath method, the Bureau of Home Economists in Washington, D. C. makes the following recommendation: "As a last precaution it is best to boil home canned vegetables and meats at least ten minutes in an open kettle before tasting. In case the poisonous toxin is present, it is destroyed by heating this length of time."

In light of this information I would recommend two things to those who have canned their non-acid vegetables in water bath and do not want to waste the food:

First label the products in large letters: "Canned in Water Bath-Heat-Cook contents 10 minutes at Boiling Temperature In An Open Kettle Before Eating." The second precaution is

LIONS CLUB VISITOR DISCUSSES REHABILITATION

Visiting with the Eldorado Lions Club in their regular Wednesday noon meeting this week were T. R. Andrus, supervision of AAA in this district and his assistant, Mrs. Elizabeth Holaday, Cpl. Ray Doyle, here on furlough from Camp Gruber, Oklo., and a Mr. Feller of San Angelo with the Soil Conservation.

President H. T. Finley expressed his appreciation to a seemingly active membership committee as the attendance was some what above recent averages.

Mr. Andrus was on the program as principal speaker and brought forth thought along lines of rehabilitation post-war. This topic is very timely and one to be given much consideration. This he urged the local Lions to do. He emphasized the improving of farm units by the government lending program as soon as materials are again available and thus making tenant farmers land owners, affording Schleicher county more population and more agricultural activities.

INFANT DIES

News of the death of the infant son of Mr. and Mrs. Marshall Davis reached Eldorado early this week. The infant died at birth in a San Angelo hospital at three o'clock P. M. Tuesday. Graveside services were held Wednesday in the Fairmount Cemetery there.

The father is a Church of Christ Minister and has been doing some evangelistic preaching near San Angelo. Their home is in Roswell N. M. The family formerly lived here.

Besides the parents, the baby is survived by a sister and it's paternal grandparents Mr. and Mrs. Ed Davis of this place.

LIFE'S Little TROUBLES

-CAN'T SLEEP-

No need to lie in bed—toss—worry and fret because CONSTIPATION or GAS PRESSURE won't let you sleep. Be sensible—get up—take a dash of ADLER-I-KA

as directed, to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adlerika assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Get Adlerika from your druggist today.

THE LOW DOWN FROM HICKORY GROVE

It is not hard to see why some labor bosses are non-pulsed, and feel terrible. You would sound off with alarm too, like they do, if you had been living in luxury and somebody started pulling the floor from under you. I got in mind the new labor law where the top-squawks can go to jail for certain funny business. Thees gents figured their racket

was gonna last forever. They overestimated their muscle. They overestimated their political pull. They forgot all about Congress when they sponsored the veto. Further more, Congress was scum away, as they saw it. But then that is when the miracle happened. Congress awoke, gaunt and hungry like a bear after an all-winter sleep. Boy! How it pounced on that veto.

Anybody wo has a pencil or any kind of writing tools, should get himself a post card and scribble a line to his Congressman. Give the old pelican 3 cheers— tell him his spunk is refreshing. Tell him to get going on more vetoes, and get the country back on terra firma.

Power for Victory

In the war news, the big headlines go to the air raids, the commando landings and the taking of large territories and great cities. The loudest acclaim naturally goes to those who take the biggest risks and make the most sensational achievements. Yet full credit should also go to those on the home front whose daily service is essential to victory. This vast group includes not only those who build ships, planes, tanks and other war equipment but every person who works faithfully in an industry that is bolstering the war effort. The electric power industry, for instance, is one without which no other war industry could operate. There must be power for the lathes, punches, riveters and other machines that make our war weapons, power to light our factories for night shifts, power to take workers from their homes to their jobs and back. One of our main defense aims is to protect our power plants; one of the main objects of our bombers is to destroy the enemy's generating plants.

General Cable Corporation, which makes wires and cables through which electric power is transmitted, does well to call public attention to what the power industry is doing to hasten the day of victory. This industry has given the United States more electric generating capacity than all the rest of the world and has delivered this power to the places where it was most needed and could most readily be harnessed to the war effort. In this and other essential industries, every worker should know that victory depends on his doing his part and should have recognition for unusual performance.

* The electric industry, under business management, has met the wartime needs of the nation in full, without increase in cost and without rationing.
