Soil Conservation District Supervisor To Be Elected Here

There will be an election for a District Supervisor for Zone 4 of the Eldorado-Divide Soil Conservation District Tuesday, October 2, 1945 at the courthouse at 3:00 p. m. This position has been occupied by Mr. J. E. Spencer, who has just recently resigned.

Zone 4 includes all landowners in the portion of the district located south of the Ozona road to the Schleicher County line and West of the Eldorado-Ft. McKavett road to the Schleicher county line. Every landowner in this zone should attend the meeting and help elect a qualified supervisor. Your presence and assistance in electing your board member will give him the assurance that you are not only interested in this kind of work but also back of him in representing the people from your part of the district. Only landowners and their wives are qualified to vote in the election.

The election will be of the convention type, with nominations being made from the floor and the nominee receiving the majority of votes being elected. The district supervisors run the business of the Soil Conservation District and can call upon and receive aid from any state or federal agency who has technical help or equipment to assist farmers and ranchers to work out conservation plans.

Present supervisors for the Schleicher County portion of the district include: B. E. Moore in Zone 3, and J. Forrest Runge, chairman, in Zone 5. The Supervisor to be elected must be a farmer or rancher owning land and residing in Zone 3.

Make your plans to attend the election meeting and cast your vote for your representative on the Board of Supervisors.

Three Eldoradoans Tour Honolulu

R. E. (Boots) Corbell, AOM3/c enjoyed "liberty" recently with Otis and Richard Davis, both of Eldorado, and the three Eldoradoans made the rounds of all the interesting places in Honolulu and had a "pretty good time together" according to a letter from "Boots" to this publication.

The young seamen, who until recently has been stationed aboard the USS Saratoga, has been transferred off the ship for 60 days temporary duty with the Fleet Air Wing in the Hawaiian Islands. The Saratoga is carrying high point men back to the States for discharge at the present and will continue to do so for a few more weeks, he stated.

"Boots" as he is known here, says that he enjoys every issue of the local paper and always "reads every word on every page."

Eldorado Stops Bronte 20-0 In Game Here

Showing a bit of improvement in timing and blocking, the revised lineup of the inexperienced Eldorado High School Eagles football team nipped the heavier Bronte Hi team last Friday 20-0 here. Paced by the bronc-busting 145-pound Jack Hodges, the local Eagles outpassed and outran their opponents in practically every quarter of the fray. Billy Harrison, also one of the new "finds" by Coach Vance, lit out on a 60 yard romp through tackle that netted a third touchdown behind some exceptional blocking by his team mates. Some of these outstanding blockers ahead of Harrison and Hodges were Captain Stuart Williams at guard, 115 lb. "Whiskey" Mund, end Hal Whitten, and 117 lb. Tom Green.

The Eldorado boys picked up eight first downs to the opponents one. The Eagles blocked three passes and one punt, rounding out a real field day.

Two Former Stars On Eldorado Tteam Still Play Football

Two former Eldoradoans who distinguished themselves as football stars in their high school days, are still playing, according to information received here. Lt. Edward F. Meador, known here as "Two Bits," a gunnery instructor, now stationed at Miami Naval Base, after 24 months in the So. Pacific, expects to remain in service until about March. With a football record behind him from his high school and college days, he is still playing, and is still making a spectacular record with his team.

Another local boy with a similar background in high school and college football is Johnny Clement, a first lieutenant, stationed in Ft. Worth, with the Ft. Worth Army Air Corps, who has been a big-time football star on the Ft. Worth Army Air Corps team.

Mrs. Geo. Ewing of Gonzales is visiting her sisters Mrs. W. N. Ramsay and Mrs. Tom Johnson, also Mrs. K. D. Robinson. She was accompanied by her son, Lt. Maurice S. Ewing and wife, who have gone to Colorado Springs.

October Date Chosen For War Chest Drive

The last, and probably the most important United War Chest drive will open early next month, with W. M. Paterson in charge of raising Schleicher county's quota of \$1803. It will be remembered that this county oversubscribed last year by a percentage of 173—its quota then also being \$1803.

Officers include:
W. M. Paterson, chairman
W. O. Alexander, treasurer
John Irvin King, special gifts chairman.
Mrs. Fannie Pittman, rural
Mrs. Fred Gunstead, publicity.

Officers who are in close touch with relief work since the close of the war are unanimous in stressing its importance, as the world re-adjusts itself after devastating years of war. It is explained that until democratic governments can

be established to provide law and order and some degree of economic security, the helping hand of 13 European relief agencies will be needed. The program is temporary to provide a stop gap until each nation can take over on its own. For at least six months, and probably for a year, therefore, there can be no substitute for the service of the private agencies. As President Truman has said, their role is "indispensable and unique."

So to bring sympathy and support—when it is most needed—to brave peoples who are too stunned, exhausted, cold and hungry to stand on their feet unaided. European relief budgets (and likewise for the Philippines and China) have been stepped up in order to concentrate American help this fall and winter.

1945 Eldorado Exes Holding Down Jobs

Ambitious 1945 graduates of the Eldorado High School who are "on their own" now, and making good at jobs include Earlene Coulter, employed as secretary with the Equitable Life Assurance of U. S. Co., in San Angelo. Earlene was a week end visitor in the home of her parents Mr. and Mrs. E. H. Coulter.

Gloria Watson is working as "sales lady" at Sears Roebuck Co. San Angelo while sister Elaine 1944 E.H.S. graduate is employed as bookkeeper at the M System warehouse. The girls are daughters of the Fred Watsons.

Ima Gene Nixon, granddaughter of Mrs. Paul Nixon, is employed at Franklin's, exclusive ladies ready-to-wear shop of San Angelo.

Helen Craig, daughter of Mrs. Lillie Craig, is attending San Angelo Business College while Gertrude Sauer, daughter of the Otto Sauers, has entered San Angelo Junior College.

Four of the young graduates are in the Armed Forces. They are Walter Roy Davidson, son of Mr. and Mrs. Roy Davidson; Hensel Matthews, Jr., son of Mr. and Mrs. Hensel Matthews; Joe Turner Logan, son of the Marvin Logans; and George Stanley Finley, son of Mr. and Mrs. H. T. Finley. Joe Bailey Montgomery, son of Mr. and Mrs. J. B. Montgomery, is employed at a local service station, and W. F. Edmiston, son of Mr. and Mrs. E. N. Edmiston, is assisting his father on his ranch.

Local Man Pilots Plane to Paducah

W. M. Patterson and his daughter Marselaine made a flying trip Saturday to Paducah to visit Mrs. L. L. Goodwin, sister of Mr. Patterson. Piloting his own plane, Mr. Patterson made the trip in 2 1/2 hours of flying time, making one stop on the way. He and his young passenger spent the night in Paducah and returned home Sunday afternoon.

C. O. Bruton Buys Robinson Place

C. O. Bruton has purchased from Mrs. K. E. Robinson 320 acres of land 6 1/2 miles southwest of Eldorado. Mr. Bruton had been leasing this land for several years.

Instruction School for PTA Officers

Attending the 4-county school of instruction held in Sonora last Thursday were Mrs. E. W. Jackson, president, and Mrs. Arthur Mund, from the local Parent-Teachers unit. Speakers for the occasion were Mrs. F. E. Holman of Taylor and Supt. Welles. Following a luncheon served to over 50 the school of instruction was held by Mrs. D. R. Carter district president and Mrs. Lewis Jones of Christoval, vice president. Mrs. Jackson reports many helpful suggestions received at the meeting.

Prominent Rancher Dies Wednesday

Joe Tisdale, who homesteaded his large Schleicher County ranch at the turn of the century, died late Wednesday afternoon, Sept. 26, 1945, at the home place 10 miles northeast of Eldorado, his death following several years of illness.

He was born in 1881 in Fluvanna County, Va., and the next year came to Texas with his parents, who settled first in Abilene, then in 1885 moved to Kimble Co. and to Menard Co. in 1890. In 1905 he moved to Schleicher Co. to homestead a ranch, and two years later married Willie Prugal, the date being Feb. 14, 1907.

Funeral services were conducted Thursday afternoon (today) at 4:00 at the Methodist Church in Eldorado.

Surviving are his widow, and four children: Albert, Abilene; Mrs. Robert Baker, Ft. Sill, Ok.; Mrs. A. D. Harvey, Houston; Mrs. Clifford Jones, Corpus Christi; four grandchildren; and five brothers and sisters: D. J., Eldorado; Ralph, Eden; Lewis, Ft. McKavitt; Mrs. Lottie Bolt, Junction; and Mrs. Cora Millar, Corpus Christi.

Several Projects Discussed By Lions

The project for lighting the football field received consideration Wednesday at the regular meeting of the Lions Club, when it was announced that poles had been shipped last week, that some of the necessary supplies are already here, but that there were some supplies yet to be located, such as wire. It was predicted that the light would be turned on in time for two home games before the season closes. A public subscription is now making the rounds and donations are reported to be liberal.

Announcement was made that there would be a game here with Eden Friday. Coach Al Vance, new faculty member, was voted into the club. Another project, the erection of some suitable memorial for service men, was suggested, and a committee, composed of Lions Whitten, Finley, Hext and McIntyre, was appointed.

W. M. Patterson talked on the Boy Scouts and announced that Randy Fondren has accepted the post as new scoutmaster. It was decided to send a letter of appreciation to Sol Myer for his gift of 300 acres for a Scout camp.

A brief directors meeting followed the regular business meeting and dinner, which was held at the Eldo Hotel.

TO KNIT SWEATERS

Children Pack Boxes At Eldorado School For Children Abroad

Cooperating with the American Junior Red Cross, local school children are this week packing boxes containing both school supplies and toys for school children overseas who have had neither during the years of war.

Mrs. Sam D. Johnson, chairman of the Junior Red Cross of the Concho Valley Chapter, and Mrs. Maurine Prescott, executive secretary, distributed boxes here and to other schools in the Concho Chapter. The boxes are to be mailed by October 15 and will provide much cheer for the children who have known nothing but war for five years.

The small containers, one for a boy, and one for a girl, will contain such items as blotters, memo books, crayolas, pencils tooth paste, hand soap, art gum eraser, comb and mirror set, tooth brushes, barettes, three pairs of socks, two handkerchiefs, and hair ribbons.

The United States Office of Education recognizes that the American Junior Red Cross is able to serve as the agency through which boys and girls in school here can best assist in the educational rehabilitation of children abroad. All boxes packed in the United States this year shall go to children in Europe who have suffered from the war. The gift boxes will go mainly to the continent.

The small gifts may seem commonplace, but are anything but commonplace to European boys and girls who some times have not seen a toy in years, and whose schools are badly handicapped for lack of essential material.

Call For 6 Men As County Draftees

A call for six men from Schleicher County, for October 29, has been received in the local draft board office, it is announced by Chairman Robinson. The call specified also that there shall be 5 physicals on October 30.

His Job May Be Over . . . Ours is Not

Reconversion should not be a problem in Schleicher County. Ours is a ranching county, not an industrial one.

In a county such as ours there should be room for servicemen . . . not scores, but hundreds of them. Let's give them a place at home . . . for Schleicher County has just started to grow.

SPURGERS TWINS, ONE WITH BACK INJURY, BOTH 25 POUNDS LIGHTER, ARE CRAVING HOME-COOKED CHOW

Floyd and Lloyd Spurgers, twins, both sergeants and assigned to duty together by presidential request at the suggestion of their parents, Mr. and Mrs. R. C. Spurgers, are still in Guam, with the possibility that they may go to Japan. They have been in service two years and three months. Two other Spurgers boys, Pfc. L. M. Spurgers, of the quartermasters department in New Guinea, and W. C., seaman first class, now probably in Japan, are also still in service.

A letter received recently from the twins follows:

Sept. 6, 1945, Guam, CP Dearest Folks and all:

We haven't had any mail recently from anyone. No one is getting much mail now though.

Well finally and at last, censorship regulations have been lifted. They do spot censor every now and then, but we can tell you a little more than usual. I'll try to tell you why we were unable to write as regular as usual lately. We are very busy getting ready for occupation duty, studying Jap language, customs and such... very interesting, but we want to come home. All the officers who came over here with us were flown back to the states four months ago. We stay over here and get new officers. Enlisted men just don't have a chance over here. That's all right if we ever get to come home "we won't buy pencils from them." If we go to Japan we won't be home for another six months, and it looks as though we are going regardless of our 2 years and 3 months overseas. "Scuttle butt" has us going to the States, but we can't believe stuff like that. We don't think they care what happens to us now, but of all our time and combats we have 70 pts.

Maybe when we are here this much longer they'll think of us.

Maybe you all have worried about my back when I was hurt on Iwo Jima. I couldn't tell you before. A tank backed into mine up on the front lines. The Japs were hitting us extremely hard when the other tank hit me it caused my 75 mm gun to hit me in the back, knocked me out cold as a bat. I didn't suffer so much, so didn't report to the aid station. I could have had a purple heart and five more points, but Lloyd wouldn't have had, and I hate those purple hearts. So many get them who don't deserve them. When you see men with legs, arms, and half their faces blown off, you don't feel like getting in the Doctor's way with a hurt back. That's enough of that.

If you think our prisoners of the Japs suffered from malnutrition, you should see us. If we ever get back, we will eat like two horses. We've lost 25 pounds each over here.

It's been raining cats and dogs. We have been firing pistol for record again. It's a 45 automatic, just like yours, Dad. Lloyd fired sharpshooter and I fired marksman. That's pretty good with a pistol. We've had these same pistols ever since we have been over seas. I believe I killed some Japs with mine on Iwo. If I didn't I made them get down low. I was pretty low on deck myself.

We will quit for this time. Have some good old chow ready, mother, when we ever do get home. We could really use it.

Tell S. E. we haven't heard from him in a long time, and let us know if he will get out. Take care of yourselves for us, and write often. Love to all—Floyd and Lloyd.

Orders Being Taken For G-E Ranges

It was announced today by Mrs. J. L. Neill of Eldorado Hardware that she is now taking orders for new General Electric ranges on a first-come first-served basis. Deliveries will begin within a few weeks, since production of these popular ranges has once more been started.

Outstanding range of the line, The Stratoliner, a deluxe model, is as completely automatic as a cooking appliance can be, with oven timer and with switches equipped with Tel-A-Cook lights which change color as cooking speed is varied. Top feature of the range is a Tripl-oven which can be arranged for capacity baking and roasting, high-speed cooking of a smaller quantity of food, or fast charcoal-type broiling.

Two additional models will be available, Mrs. Neill said, disclosing that they will embody all the features of the best pre-war models—Speed Cooking Calrod units with five heats, Thrift cookers, No Stain Vent, utensil storage compartments, large ovens, all porcelain finish, etc.

Mrs. Neill said that she has complete information on these ranges, including descriptive material, prices, and other factual data. Display models are expected early in October to be followed soon by ranges for delivery to homes of purchasers. (Adv.)

GUESTS OF BURKS

Mrs. J. E. McWhorter and baby son, Dana of San Angelo, are visiting for a few days with her parents, Mr. and Mrs. L. B. Burk. Mrs. McWhorter has just returned from Brownwood where she visited with her husband, Lt. McWhorter, who is undergoing routine check-up at the regional hospital there. Young Dana visited here with his grandparents while Mrs. McWhorter was in Brownwood.

WE'RE all hearing a lot about ceilings these days. It's suddenly become one of the most popular words in the English language. Aviators started it with *their* ceilings. They're all faced with the problem of adjusting their businesses to increased costs, decreased personnel, and shortages of materials.

Ceiling prices are an old story to business-managed electric companies. And they're constantly working and planning to make the price of electricity still lower. They've accomplished some pretty remarkable results along this line, too. For example, the average American home today enjoys about twice as much electricity for its money as it did fifteen years ago. Perhaps you may not have noticed this reduction because you've added more electric appliances and used more electricity all the time the rates were coming down.

Maybe you wonder how this has been accomplished: this reduction in the price of electricity in the face of rising costs for almost everything else. Well, the answer is sound business methods—plus the practical experience of men, women, and management working together. That's a team that's hard to beat! And one that won't be beaten as long as we have that grand old American freedom of working together, planning together, and profiting together!

Man's Dependence On State of Soil Stressed By Gough

Man's dependence upon the soil was stressed by Roy Gough, of Temple, assistant state soil conservationist, in his message Sunday morning, when he was chief speaker at the Methodists' observance of Rural Life Sunday. Tracing man's history since primitive times, he showed that man would be doomed to extinction without the land from which he can draw sustenance. He exhibited pictures showing soil erosion from early days to modern times and cited present-day projects which illustrate modern methods of treatment.

He was introduced by J. F. Rungo. The high school choral club, directed by Mrs. Maxine Page, furnished special music, and led the songs, all of which per-

tained to the beauty of nature. In general charge of the entire program was Rev. F. B. Faust, Methodist pastor.

Included in the congregation were a number of Schleicher County visitors from Eldorado and surrounding farm and ranch country, and a number of soil conservation visitors from other places.

YOU CAN'T RECAPTURE Time

TIME slips away faster than we think. All too soon too many *yesterdays* have passed for us to accomplish all the things we intended one day to do . . . things like buying a home, starting a business of our own . . . or creating a savings program to protect our loved ones should something happen to us!

Mr. D. W. knew that time was slipping away from him, all too fast. And he knew he could never recapture any part of it. He had neither the income nor the time required for the average plan to create the protection he so earnestly wanted *his* family to have. But he learned how he might accomplish his desire, with limited income and limited time, through Southwestern Life Insurance. Fortunately, he was *insurable*. Fortunately, his wife and children will tell you, he in-

vested in a Southwestern Life Insurance policy—a nominal contract on his life for \$2,984. But for that fact, his family might have faced some serious readjustment difficulties, for death claimed Mr. D. W. last year, *not quite three years after he had entered the agreement with Southwestern Life to pay his loved ones \$2,984 should something unforeseen happen to him.*

Time slips away faster than we think. Tomorrow, the *unforeseen* may alter or destroy all *your* plans. Now, while you may, set your savings program in motion through Southwestern Life Insurance. There is a Southwestern Life plan to fit your needs . . . a plan that you can create immediately on savings you can *afford* to save out of income. Get an insurance analysis of those needs today. The economy of the plan will please you.
