## Another Big Rain Welcomed

Following four or more inches in the latter part of April, another rain fell Tuesday night, putting additional seasoning into the wet ground, and promising the best growing conditions on farm and ranch this county has had in many years.

The rain fell most of Tuesday night. It measured two inches in Eldorado, and from 1½ to over three in other parts of the county. Bailey Ranch had heavy precipitation, which measured over three inches, which started draws running and filled lake beds. Reports received in the office of the Eldorado Success Wednesday morning indicated that farmers and ranchers in all parts of the county were jubilant over crop prospects. These totals are unofficial:

J. C. Johnson, 1½; Leslie Jones 1.37 and more falling; Nick Jurecek, 1½; L. Kent, 2.6; Glen McDonald of Kaffir, 1½; Ira McDonald, 2.75; J. H. Wagley, 1.9; D. M. Powell, 1½.

Clement Sauer, 1½; Carl Stevens, 2.5; A. Steward, 2.5; C. B. Sudduth, 3; O. Sudduth, 2½; V. G. Sudduth, 3.1; A. Thigpen, heavy rain; Virge Tisdale, 1.8; Jim West 1.5; W. E. Bruton, 1.5; E. H. Dannheim, 2.75; Reuben Englert, 2.

## BIG FIELD TOUR IS SCHEDULED FOR SATURDAY

A field tour is to be sponsored by the Eldorado-Divide Soil Conservation District, in connection with the Extension Service, Soil Conservation Service, and public school officials.

All 4-H boys, their dads, and any others interested in soil conservation practices are invited to attend. The tour will begin at the school house Saturday, May 7, at 9:00 a. m., where busses will be available for boys and their dads. Stops will be made at various ranches in the district to observe range conditions of different sites, determining correlation between soils and range vegetation by range sites, plant identification, checking degree of soil erosion, and determining current and proper use of range feed.

This is to acquaint the public with the practical application of a range conservation program. Boys will bring basket lunches to be eaten at one of the stops on the tour.

After lunch Forrest Runge, chairman of the board of supervisors of the soil conservation district, will explain the district program and the range management contest which the supervisors are sponsoring for the boys.

After the program the boys will be given an opportunity to register for this contest.

The public is cordially invited to take part in this sponsored tour.

## Large Hailstones Fall at Wootton's

One of last week's heavy rains was accompanied by a heavy hail on the A. L. Wootton place near Preston's Ranch.

The Woottons were in Eldorado Monday buying window lights to replace eight on the north and west sides of their ranchhouse. They report that the hail stones were large enough to beat limbs off trees, and that quantities of them were swept out of the house when the storm was over.

The heavy rain made the roads so impassable that they could not leave the place for several days.

The hail is the only damaging hailstorm reported in Schleicher County last week.

Guests in the Freeman Yardley home Sunday were her parents, Mr. and Mrs. W. C. Haynes of Stephenville, and the Yardleys' daughter, Mrs. J. H. Brosig and two children of Paint Rock.

## COTTON AND WHEAT GROWERS MUST BRING ACREAGE DATA TO AAA OFFICE IN ORDER TO RECEIVE PRICE SUPPORT

An announcement of importance to all cotton and wheat growers in Schleicher County comes from the Triple A office this week, according to Eddie Brown, manager. All cotton and wheat growers are requested to bring acreage data for the 1941, 1945, 1946, 1947, 1948, and 1949 plantings to the Triple A office as soon as possible so that each grower may receive price support for those crops.

The office has mailed out questionnaires to all cotton and wheat growers in the county whose names are on their records, and any who have been missed should get one from the office. All data is to be filled out on this form.

The data will be used to establish acreage allotments for cotton and wheat. Each farmer who stays within his allotment will be eligible for price support when he markets

his product, and those who are not given an allotment will lose the price support, and will also be penalized in marketing assessments. It will pay each farmer therefore, states Brown, to attend to this matter.

The questionnaires were mailed out about two weeks ago, and all should be brought back to the AAA office before June 1st. The establishment of acreage controls was found necessary by the government, due to large surpluses of cotton and wheat already on hand. Rather than allow market prices to drop due to overproduction, the government is limiting acreages and is supporting the price. Price support guarantees a higher price for cotton and wheat, states Brown, and therefore each farmer should cooperate by bringing in his acreage allotment as soon as possible.

## Eldorado Lions Club Gives Model Luncheon At Club Convention

The Eldorado and Ballinger Lions Clubs were in charge of a model luncheon, given at noon Tuesday in San Angelo at the Lions club annual convention.

C. A. Reynolds, president of the local club, led the group in the pledge of allegiance to the flag, and introduced the master of ceremonies, "Buzzie" Stokes of Sonora. "Polly" Wells of Sonora led the singing, and principal speaker was Prof. Jackson, government teacher at TSCW. Eddie Brown and Palmer West of Eldorado were tail twisters at the meeting. Twenty-two members from the local club were present for the occasion.

The three-day convention began Sunday afternoon with registration for the delegates, followed by a reception in honor of the Lions district governor. On Monday, the model luncheon was given by the San Antonio club. Roy Keaton and Price Daniel were principal speakers at the sessions during the day, with seven Lions from Eldorado in attendance. A party at the Lions club house on Lake Nasworthy concluded the day's activities.

Laredo has been announced as the next convention city. For a general project of all Texas Lions' clubs for next year, the group decided to help sponsor the crippled children's camp at Kerrville. The camp will be supervised by trained personnel and will be free to eligible children.

Official delegates from the local club were W. M. Patterson, Palmer West, Joe Wagley, Carrol White Jimmie West, and Ernest Hill, all of whom attended all of the convention sessions. A number of other Eldorado Lions attended various meetings during the three days.

## COURTHOUSE FACE-LIFTING UNDER WAY

The Schleicher County courthouse is losing its sultan.

As the first step in the \$15,000 renovation project for the courthouse, the old yellow paint is being removed by a sand blasting method, whereby sand is blown onto the surface, uncovering the original white stone. The process is slow, and can proceed only in dry weather.

## Fire Department To Present Style Show Next Week

The Eldorado Volunteer Fire Department will present a style show Saturday evening, May 14, at the memorial building, with men of the fire department as models. Local musical talent will also appear on the program.

The purpose of the event is to raise money to send six delegates to the state fire convention, to be held in Galveston June 14-15-16. No admission will be charged, but a free will offering will be taken.

Everyone in the community is invited to attend. Further details of the style show will be announced next week.

## Military Funeral For Accident Victim Is Held Here

Soldiers from Goodfellow Field were in charge of a military funeral held here Friday afternoon at 4:00 at the First Baptist Church, for Joyce Blackmon, 20, an accident victim.

The youth, who was stationed at Ft. Bliss, El Paso, was killed in a car wreck at El Paso Wednesday.

Corporal Dixon of Ft. Bliss, who was only slightly injured in the accident, accompanied the body to Eldorado. A Ratliff Funeral home ambulance met the body at Sweetwater, and brought the remains to this city.

The funeral was conducted by the Rev. Moss of Big Spring, assisted by Rev. Jim Hays, and interment was made in the Eldorado Cemetery.

Among those from out of town who attended the funeral were Mr. and Mrs. Yourie Blackmon, Borger; Mr. and Mrs. Dewey Blackmon, Mr. and Mrs. B. G. ## New Doctor Now In Eldorado

Dr. M. D. Holcomb, D. O., has opened his office for the practice of medicine in the clinic building of the late Dr. H. W. Wiedenmann. As his seven-year-old daughter Sandra Sue is in school in Wichita Falls, his wife and child will not join him here until about June 1.

Dr. Holcomb was reared at Vian Okla., where his father was a doctor, and received his BS degree from Oklahoma A&M. After serving as principal of the Vian High School, he enrolled at Kansas City College of Osteopathy and Surgery and after his graduation four years later he served an approved internship at Oklahoma Osteopathic Hospital in Tulsa, and in December became surgeon at Alexander Hospital in Wichita Falls, leaving there because of sale of the hospital to another doctor.

He is a member of the Lions club, and Masonic lodge, and is a candidate for membership in the American College of Surgery. He is a Methodist and his wife is Presbyterian. He has a brother who is also a doctor.

## CUBS TO MAKE TRIP

The meeting had been scheduled for April 23 but was postponed due to rainy weather.

Mrs. Jim Patton and son Davis of McCamey spent the week end in San Angelo with relatives, and in Eldorado with her mother, Mrs. A. H. Green.

Mr. and Mrs. Dwight Wiedenmann left early this morning for Whittier, Calif. where they will visit the former's grandmother, Mrs. F. E. Huffman.

## SHEEP SHEARING NOW AT HEIGHT IN THIS COUNTY

Sheep shearing and preparations for spring planting are occupying the attention of ranchers and farmers in Schleicher County. Shearing is at its height, after delays caused by heavier-than-average spring rains. On the Sol Mayer place it has taken 15 days to shear 6000 sheep.

A number of shearing crews are scattered throughout the county and for another week or two the shearing will continue at top speed weather permitting. Prospects are bright for a good clip.

## BAND TAKES PART IN AREA MEET AT SAN ANGELO

The Eldorado school band, instrumental groups, and soloists participated in the Region II Interscholastic League Instrumental and Vocal Competition Festival, held in San Angelo last Friday and Saturday. The local group played and was judged on Friday.

The various bands and soloists were graded by impartial judges, I being the highest and V the lowest grade set for the competitions. The ratings were accompanied by criticism from the judges, giving the strong and weak points of each contestant.

The Eldorado full band won III in concert playing, IV in sight reading, and III in marching. According to the local group, Mason had the most outstanding band at the meet, winning I in all three divisions, and Haskell also won I in all three divisions. The Sonora band were the best marchers of all the bands present, the local group states.

The brass sextette, made up of Jimmie Morgan, Roger Sofge, Derl Griffin, Jack Mund, Maurice Christian, and Lewis Wilson, won IV. The clarinet quartette, made up of Kathryn Hall, George Ochsner, Euda B. Isaacs and Billy Cheek won II.

Lewis Wilson won a II with his soursophone solo. Patricia Humphrey won I, Joyce Burk and Esther Jones won II, and Nelva June Bol won III, in high school twirling. Grade school twirlers included Charlene and Yvonne Logan, I; Shirley Severns, II; and Ann Ballew, II. Grade school soloists included Jean Kuykendall, I in clarinet; Barbara West, I in French horn; and Donna Beth McCormick, III in flute. Miss Frankie Thompson accompanied all of the soloists.

The 68 local students visited all of the music stores in San Angelo, and were served refreshments at McMillan's. Many of the group rode on the school bus; parents taking cars included S. D. Harper, Edgar Spencer, Ray Alexander, Claud Alexander, Driscoll Christian, Don McCormick and Don Severns.

## Grasses Seeding To Make Pasturage

Since the recent rains, Schleicher County pastures are putting out many grasses, some of which are seeding.

The best grasses now seeding are Texas spear grass, buffalo and mesquite; others now seeding are of less importance: needle grass, purple three awn, tumble and hairy trioda. Others will seed as the spring season advances.

Mr. and Mrs. Henry Speck and Henry Jr. and Miss Joyce Ann Van Horn visited Sunday at the Fred Speck ranch in Menard county.

## Services for Mother's Day Sunday

Various churches in Eldorado are scheduling special services for next Sunday, which is Mother's Day. Special music, special messages, and other recognition will be given to mothers on that day. Plans for services at the various churches are as follows:

**Fundamental Baptist**  
Rev. Joe Kegans, pastor of the Fundamental Baptist Church, will observe Mother's Day with a special sermon on mother. He urges all members to attend, and invites visitors also to be present.

**Methodist**  
A Mother's Day sermon, special music by the robed choir, and awards to mothers will feature the Methodist Mother's Day service at 11:00 Sunday morning. The awards will include gifts to the following mothers present in the congregation, who do not have to be church members: the oldest mother, the youngest mother, and the mother with the most children present. New officers and committee members for the new conference year will also be announced.

At 6:00 p. m., the young people of the church will meet in the basement for a snack supper, followed by recreation and reorganization of the group. Regular evening services will begin at 7:45.

**Rudd Services**  
Regular services will be held at the Rudd Methodist Church Sunday afternoon at 2:30.

**First Baptist**  
As is customary in Baptist churches, Mother will be honored at the First Baptist Church Sunday with a special hospital offering. The theme of the day will be carried out, with a sermon honoring mother, and music by the choir. A large attendance is expected.

**West Side Church of Christ**  
Since an out-of-town preacher usually comes to the West Side Church of Christ only on the first and fourth Sundays, there will be no special speaker at the church on Mother's Day. Regular services will be held: Bible study at 11:00 followed by the communion service, and singing and the young people's meeting at 8 p. m.

**Rock Church of Christ**  
Regular preaching services will be held on Mother's Day at the Rock Church of Christ, with Marshall Davis, minister, in the pulpit. Bro. Davis was in Fort Worth two nights this week conducting special services at a Church of Christ there.

**Presbyterian Church**  
A special sermon and a choir anthem, "Peace, Be Still" will be given at the Presbyterian Church Sunday in observance of Mother's Day. At the evening service, beginning at 8:00, the junior choir will have charge of the singing service.

## CAPACITY CROWD SEES GRADE OPERETTA HERE

An audience which crowded the school auditorium to capacity was on hand to see the grade school production of "Snow White", an operetta in three acts, given at the school last Thursday night. Singing, dancing, speaking parts and unusual costumes characterized the production.

Miss Lucille Farmer and Miss Pauline Jones were co-directors of the operetta, assisted by other grade school teachers. The familiar fairy story was used as the plot of the operetta, with Martha Dell Williams in the title role.

In addition to the familiar story characters, a number of student were cast as flowers, birds, bees, townsfolk, fairy folk, and other animals. The animals and insects wore unusually clever costumes with the skunks, the bees, and a large turtle drawing much applause from the audience.

Around 240 students appeared in the operetta. Rows of steps were built in front of the stage so that the entire cast might appear together for the finale.

Those in the cast with speaking parts include: Snow White, Martha Dell Williams; Queen Wisteria, Cynthia Reynolds; King, Elton Harris; Frosty Fate, Patsy Taylor; Court Doctor, Jerry Pennington.

Nibbles, Jimmie Carroll; Nutty, Tony Kerr, Queen Tiger Lily, Shirley Severns; Magic Mirror, Barbara West; Woodsman, Clyde Baugess; Aurora, Margo Mittel.

White-Wings, Herman Carroll; Seven Dwarfs, Rex Enochs, George Sofge, Jimmie Whitten, Ronnie Meek, Jay Farrington, Don Severns, and Jerry Doyle; Prince, Tommy Griffin; Guards, R. J. Alexander and Bob Ratliff.

## DDT Situation Is Explained By County Agent

Numerous calls have come in to the County Agent's office from producers and housewives about recent reports on the use of DDT.

Let's get straightened out on the DDT situation now.

Nobody has died from effects of DDT in milk—in fact, there aren't even any recorded cases of sickness caused by milk produced from DDT-sprayed milch cows. When cows are sprayed, small quantities can sometimes be detected in the milk supply. It hasn't hurt anybody so far, but the food specialists feel that such an important food item as milk should be free of any trace of this material. Such a recommendation against the use of DDT is merely a precautionary measure.

That's why methoxychlor or pyrethrum insecticides have been recommended in place of the DDT for insect control both on milch cows and milk barns.

Don't give up DDT altogether. It's still recommended for livestock other than dairy animals and many other insect pests as well.

—W. G. Godwin, Co. Agent.

### "TO ALL COUNTY COMMISSIONERS' COURTS

"Gentlemen:

"The purpose of this letter is to acquaint you with the procedure that will be followed by the Texas Highway Department in the selection and construction of Secondary or Farm-to-Market Roads under the provisions of Senate Bill 287, that has just been passed by the current session of the Texas Legislature.

"The new State law derives its funds from the omnibus tax fund as provided by House Bill 8 of the Acts of the Forty-Seventh Legislature. The new act will credit the amount of \$1,250,000.00 per month to a fund to be known as the Farm-to-Market Road fund of the State Highway Department. These funds will begin to accumulate on September 1, 1949. It will be the purpose of the State Highway Department to form a two year program covering the two construction years beginning September 1, 1949. It is estimated that approximately \$30,000,000.00 will be available from this source over this two year period of time.

"The law requires that the funds be expended on roads selected by the State Highway Department after consultation with the County Commissioners' Courts of the Counties of Texas, relative to the most needed rural roads in the Counties involved. The Highway Department, through its staff, will review carefully all presentations that have heretofore been made to the Highway Commission at its Hearings, all presentations that may have been presented to both the Austin office and our field offices concerning roads in the various areas, the suggestions that shall be made by the County Commissioners' Courts, Chambers of Commerce, etc., and then with all such information at hand we will proceed to make a careful study of the needs with the assistance of our planning information which we have been developing for the past thirteen years, and will then proceed to form the program of work covering the two year period. Our District Engineers and their staffs will consult with the County Commissioners' Courts throughout the State between this date and June 1, 1949.

"All roads constructed under this program will be two-lane, dustless, reasonably all-weather roads and will be maintained by the Texas Highway Department after construction. The Counties will be required to furnish necessary right-of-way free of cost to the State. It will be necessary that this program be prosecuted on a monthly basis since the source of revenue comes to the Department on a monthly basis. This means that the work will be carried on monthly over the period of two years.

"If additional information is desired, it is suggested that you contact the District Engineer of your District.

"Your cooperation in carrying out the procedure in the development of this program for the best interest of our people will be appreciated.

"Sincerely yours,  
—Fred A. Wemple, Chairman of State Highway Commission; A. F. Mitchell, Member State Highway Commission; R. J. Potts, Member, State Highway Commission; D. C. Greer, State Highway Engineer."

Schleicherites will remember that eight miles of the old Ozona road will be paved, probably this year, the state highway department having approved this project some time ago.

If another strip of paving is allotted to Schleicher, highway officials will meet with county commissioners by July 1, to select the site — which may proceed on from the eight mile strip west of town, or may be located elsewhere in the county.

Ain't sayin' the rains ain't been just right this spring — and ain't denyin' that the grass is greener and the lambs and calves kickin' up their hind legs higher'n we've seen in many a year in good old Schleicher County.

But a drouth is sure to come, and I like to prepare for it and save money at the same time. Take my Jensen Pump Jack as a fer-istance.

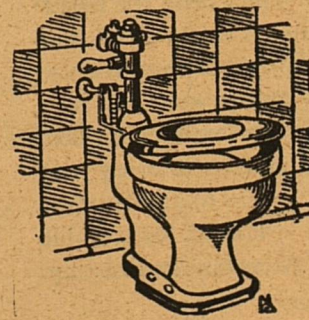

My Jensen don't even know inflation's going on. Low initial cost—easy, inexpensive installation—and efficient use of fuel, have made it real, down-to-earth, practical economy. The kind ranchers understand.

It's worth a heap more than the price of a Jensen to have plenty of dependable water for house and stock. It's good economics for any rancher with a well 100 feet or deeper to find out about Jensen from his Eldorado dealer. —Do it today.

# To the Citizens of Eldorado and Schleicher County

In the near future there will be presented to the Board of Trustees of Schleicher County Rural High School District, for its consideration, a petition, copy of which appears at the bottom of this letter, and which is self-explanatory; however, I wish to explain further just how this will affect you as a taxpayer.

Sometime in 1948 an election was held for the purpose of voting a tax to build a badly needed school building, and this issue to increase the school tax carried. Another issue that was put before you at that time was the building of a new school building, and this did NOT carry.

For your information, the following shows the crowded conditions in our schools at this time, and you need go no farther than the two buildings we have to see this for yourself.

1st grade	38 pupils
2nd grade	50 pupils.
3rd grade	49 pupils.
4th grade	46 pupils. (slightly more at present)
5th grade	47 pupils.
6th grade	34 pupils.

The actual division of the grades is as follows:

1st grade, Section A	27 pupils.
2nd grade, Section A	36 pupils.
1st and 2nd grades, over flow	25 pupils.
3rd grade, Section A	25 pupils.
3rd grade, Section B	24 pupils.

There are only eight rooms in the elementary school building. On the basis of 24 to 30 students to the room, the 4th and 5th grades should be divided into two sections each. Room is not available in the present building. Should we have the same, or greater, enrollment in the first grade in 1949-1950, as we did in 1948-1949, we will need the following rooms to take care of the students as recommended by the State Department of Education: Two rooms for each grade from the first through the sixth grades, making a total of twelve rooms needed, and there are only eight rooms available now.

Should the 46 Latin-American students in the first and second grades now attending the school in the Mexican Building be moved to the present elementary building, and it is very likely that they will due to the recent ruling in the Del Rio case, then the situation in the elementary building will be more than critical in 1949-1950.

The enrollment in the 7th and 8th grades, and in the high school, all in the old building, is as follows: 7th grade -- 44 students; 8th grade -- 36 students; 9th grade -- 31 students; 10th grade -- 26 students; 11th grade -- 22 students; 12th grade -- 22 students -- a total of 181 students in a building which does very well to care for 125

to 140. The main trouble in having 181 students in this building at the present is in having them in six different grades. When the large enrollment now in the 4th and 5th grades reaches the high school building in the sessions of 1950-1951 and 1951-1952 the situation will be more critical.

At the present there is one of the home rooms in the high school building which has to meet in the large study hall and therefore has no privacy.

It has been necessary to close out a lunch room due to the crowded condition, and has caused the small students to eat at tables in the halls of the building.

I am trying to state the facts as they are, and each and every one of you have the same privilege and right to visit each school building and see for yourself the crowded conditions as I have set them out above, and as I have seen them. We have as good a County as there is in the State of Texas, and as fine people, so let's not deprive our children of the right that all children should have -- the right to obtain the very best education possible! And that cannot be with the crowded buildings as they now are. We have to build Churches to educate the Soul, and also schools to educate the mind, and we have to have the proper facilities in each case.

The election, when ordered by the Board of Trustees, will be a straight out issue -- "Do you want to build a school building?" If you vote "Yes", it will alleviate in some degree the crowded conditions existing now, which will become worse in the next few years. If you vote "No" you are hurting our future citizens and depriving them of their right to the proper kind of an education. In the election in 1948 you voted for an additional tax, in fact, the maximum tax allowed by law, and as things stand, this tax is sufficient to take care of the payments as hereinafter set out in the copy of the petition which will be presented to the School Board. The petition was prepared by a bonding company, AT MY REQUEST, and has been fully approved and will be accepted by the Bonding Company as hereinafter set out. There will be no "side issues" in this election if and when called -- just "yes" or "no", as stated above, to the question which should be foremost in your mind -- to have the very finest and best equipped school system possible for the children of your county.

I would like for every person in this County who so desires to have the privilege of signing the petition which I now have in my possession, and I shall be glad to have you read it, discuss it and fully satisfy yourself as to the contents thereof.

Respectfully Submitted,  
EDWIN M. JACKSON.

### Mrs. Jones Honored On 73rd Birthday At Family Dinner

Mr. and Mrs. Ford Oglesby entertained Mrs. B. F. Jones with a birthday dinner Sunday in the banquet room of the memorial building, on the occasion of her 73rd birthday anniversary. Only immediate relatives were present for the dinner, which was a complete surprise to the honoree.

Mrs. Jones was presented with an orchid corsage, and a color scheme of pink and white was carried out in decorations for the dining table. A bouquet of roses surrounded by honeysuckle was used as a centerpiece.

Miss Lois Jones of Mertzon, the oldest granddaughter of Mrs. Jones present, and Mr. Oglesby, the host, sat at either end of the dining table. A fried chicken dinner with all the trimmings, prepared by Royster and served by Mrs. Loleet Kerr and Mrs. W. H. Graves, was followed by strawberry ice cream and birthday cake. The three-tiered cake was iced in white and decorated with pink roses.

Four of Mrs. Jones' six children and their families were present at the dinner. They include Mrs. W. A. Schuller and family, Mrs. Marvin McDonald and family, and Ray Jones and family, all of Eldorado; and T. L. Jones and family of Mertzon.

After dinner, Mrs. Jones was presented with numerous gifts by her family, and the group spent the afternoon talking over old times.

Mrs. Campbell installed the following new officers for the new DAR year: regent, Miss John Alexander; first vice president, Mrs. Joab Campbell; second vice president, Mrs. D. M. Powell; chaplain, Mrs. J. E. Tisdale; secretary, Mrs. Virge Tisdale; treasurer, Mrs. Jo Edens; registrar, Mrs. C. M. McWhorter; historian, Mrs. W. O. Alexander.

Refreshments were served from a lace-covered table, and spring flowers were the decorations.

Mr. and Mrs. Fred Watson took their daughter, Mrs. Floyd Spurgers and two sons to Austin last week, where they joined their husband and father, who is employed there. The Watsons visited in Austin with the Gordie Alexander family and in Luling and San Antonio with relatives before returning home on Saturday.

## FLOWERS BLOOMING PROFUSELY ALONG SCHLEICHER CO. ROADS

If any wild flower lover has had a poor opinion of West Texas' wild flowers, he must change his mind this year.

One of the most colorful displays seen here in many years is in full blossom throughout this county, some rare species of flowers making their appearance for the first time in many years.

The abundant rains of late winter and early spring are assigned as one reason why flowers are doing unusually well. Another reason is the late arrival of warm weather, causing slow growth of grass, and thus providing growing space for flowers.

The common West Texas flowers are in abundance, growing taller than usual, and with more color than usual.

Topping the list is the blue bonnet. Since the state flower is a favorite pasturage of sheep, no blue bonnets are seen on grazing land; but along fence rows, highways and lanes, they are in full color, and are more numerous and are larger in size than they have been in years. Some of the flowers are beginning to go to seed this week.

The bluish-purple wild verbena is blossoming in huge clumps, on stems sometimes over a foot tall. "They're pretty enough for hot house plants," states one Eldoradoite. Another blue spring favorite, the modest bluet, or blue-eyed grass, is also in full blossom.

When given opportunity to bloom naturally on Schleicher County hillside the blue salvia "takes over" this year. The clumps of blossoms are large and tall, and so numerous that an entire pasture is sometimes solid blue. (Co. Agent Godwin sees no beauty in the salvia: "It indicates over-grazing," he says.)

If sheep like blue bonnets, they literally drool over the little daisy which is now in full bloom. It has a small yellow-centered flower, with petals of white with lavender cast. The sheep find the foliage very tasty, report stock men.

At least four primroses are now in bloom here. One, a small five-petaled flower, salmon pink in color, is prettier than it has been

in years. There are many yellow ones, and white and pink ones (improperly called buttercups) also in bloom.

Large clumps of yellow daisies and brown-eyed susans are blooming; also a spiked flower with salmon blossoms, called ground cherry. A fuzzy spiked reddish flower called gaura is blooming profusely along the highways.

One of the most beautiful and showy of the flowers now in bloom here is the beard tongue. The variety now blooming is pale lavender; it has clusters of flowers on long spikes, and each flower is bell-shaped, with long pointed leaves.

At its best in mid-day, and closing in late afternoon is the possession vine, a low-growing plant with purple flowers shaped like small flat morning glories. It is less in evidence in a dry year, and is very pretty this year.

One variety of phlox is starting to bloom, though few notice it, as it grows close to the ground and has an inconspicuous small white flower.

Several varieties of cactus are blooming, the clumps of poppy-like red flowers being most showy, as usual.

Nigger head is on unusually long stems this year. These balls of blossom, brownish maroon in color, are without petals, but otherwise seem related to the brown-eyed susans of the daisy family.

What is weed and what is flower is a matter of opinion, but ragweed is beginning to blossom, and most people classify this spring greenery as decidedly a weed and a pest.

Indian blanket has maroon petals tipped in a lighter color. They are just beginning to bloom, and usually blossom for several weeks. The tall lemon-colored dandelion which is native to Schleicher county is also blooming this week. The tall lavender purple balls of sweet solomon, which at a distance resemble Canadian thistle, are also beginning to bloom.

May is bringing another elaborate wild flower display, as a result of the heavy and frequent April showers followed by a Tuesday night downpour.

Mr. and Mrs. Grover Lee Johnson were called to Gonzales Sunday upon receipt of word that his grandmother, Mrs. Fannie C. Johnson, had died. Mrs. Johnson, who would have been 88 in June, died in Moulton that day after several months' illness, and funeral services were held in Gonzales Monday afternoon. Eight grandsons, including Grover Lee Johnson, were pallbearers. Mr. and Mrs. Johnson returned to Eldorado Tuesday.

Parker Motor Co. sold a 1/2 T. Dodge pickup to Emmett Wilson of Christoval.

Dr. Chapman, dentist here for a number of years prior to 1920 stopped in Eldorado briefly Wednesday to visit old friends. He is now practicing dentistry in El Paso and is specializing in the straightening of children's teeth. Some Eldorado residents have tooth fillings which he put in over 35 years ago, which are still good. Dr. Chapman had practices at both Eldorado and Sonora when he lived here.

Bill McWhorter and Raymond Schrank are driving new Studebaker pickups.

Pam Jones, daughter of Mr. and Mrs. Aris Carr, spent the week end with her grandparents at Evant.

Bro. Bill McDaniels of San Angelo conducted two services at the West Side Church of Christ Sunday, and was a dinner guest in the Eddie Peel home.

## CHILD IS HONORED ON NINTH BIRTHDAY

## FIVE POLIO PRECAUTIONS ARE LISTED FOR PARENTS

Warning that the 1949 polio season is "just around the corner," the National Foundation for Infantile Paralysis today issued a list of precautionary measures to be observed by those in charge of children during the epidemic danger period which usually runs from May through October, reaching its peak during the hot, mid-summer months. The five easy-to-follow health rules for children are:

1. Avoid crowds and places where close contact with other persons is likely.
2. Avoid over-fatigue caused by too active play or exercise, or irregular hours.
3. Avoid swimming in polluted water. Use only beaches or public pools declared safe by local health authorities.
4. Avoid sudden chilling. Remove wet shoes and clothing at once and keep extra blankets and heavier clothing handy for sudden weather changes.
5. Observe the golden rule of personal cleanliness. Keep food

tightly covered and safe from flies or other insects. Garbage should be tightly covered and, if other disposal facilities are lacking, it should be buried or burned.

The National Foundation also listed the following symptoms of infantile paralysis: headache, nausea or upset stomach, muscle soreness or stiffness, and unexplained fever. Should polio strike in your family, call a doctor immediately. Early diagnosis and prompt treatment by qualified medical personnel often prevent serious crippling, the National Foundation pointed out.

The organization emphasized that fear and anxiety should be held to a minimum. A calm, confident attitude is conducive to health and recovery. Parents, it said, should remember that of all those stricken, 50 per cent or more recover completely, while another 25 per cent are left with only slight after effects.

If polio is actually diagnosed, contact the chapter of the National Foundation for Infantile Paralysis serving your community. The chapter will pay that part of the cost of care and treatment which patient or family cannot meet.
