Election Saturday To Decide Fate of Proposed Bonds

Qualified voters of Schleicher county will go to the polls Saturday and vote on the proposed issuance of \$475,000 schoolhouse bonds for the purpose of improving the county school system.

The ballot reads: "For the issuance of the bonds and the levying of the tax in payment thereof."

"Against the issuance of the bonds and the levying of the tax in payment thereof."

Voters will scratch out the part they do not want.

The \$1.50 maximum tax voted last year for building purposes will take care of the building costs. The "levying of the tax" as it appears in the ballot, means that the board is to be given legal right to place the needed amount in a sinking fund to pay for the bonds as they mature. It is understood that about 37c will be set aside out of the \$1.50 tax, until the bonds are paid off.

The amount of the bond issue was arrived at after the board had consulted with architects, and the State Department of Education which makes this statement in a letter received here this spring:

"It is impossible to maintain a first class high school in the present condition of the building as the walls are cracked and in need of paint; the entire building is poorly arranged to serve the needs of the student body; crowded conditions exist in some of the classrooms and the deputy feels that this condition should be improved at once. He, therefore, recommends that the Eldorado Schools be placed on the advised list with the understanding that they will be dropped from the accredited list if the housing conditions are not improved within the next 18 months."

—Joe Umphress
"Deputy State Supt., Dist. 9"

Tentative school replacement and expansion plans call for a new high school building, major renovating of the grade school and addition of about six class rooms to take care of the increased enrollment, and other smaller improvement projects.

LIONS TO ATTACK CITY BITTERWEED SATURDAY P. M.

The annual Lions club bitterweed pulling will be held in Eldorado Saturday, the group assembling at 4:00 p. m. at the memorial building to receive instructions.

On the committee are Willie Whitten, Jimmie West, W. G. Godwin and Sheriff Sweatt. All Schleicherites are asked to assist in this drive.

Plans for the bitterweed pulling were made at the regular meeting of the Lions' Club Wednesday.

The program included a talk on conservation by J. Forrest Runge and showing by Bill Rountree and John Alexander of a film on top soil and two on water.

REPORT CARDS ISSUED FRIDAY

The Eldorado schools closed the 1948-49 year at noon Tuesday, though teachers remained on the job to check text book lists, grade test papers, and make out report cards and final records.

Report cards will be issued Friday afternoon at 1:00.

As no salaries for teachers have been set for next year, no contracts have been issued. Board members and teachers are awaiting the setting of salaries under the Gilmer Aiken bill.

Only one teacher has definitely stated that she would not return: Mrs. Vera Haskins and her family will return to their home in Colorado.

CLASS OF '49 GETS DIPLOMAS TONIGHT, MAY 26

The senior commencement will be held in the school auditorium tonight at 8:00 for the class of 1949.

The program will include: Professional, Lilla Jean Ellington; Invocation, Rev. F. E. King; Salutation, Frances Williams; "Sunbeams", Betty Sue Williams; Valedictory, Ebba Ann Finley; "O Lord Most Holy", sextette; address, Dr. Thomas Taylor; presentation of awards, Supt. C. A. Reynolds; presentation of the class, Gordon Griggs; presentation of diplomas, Jerry M. Pennington; benediction, Marshall Davis.

SCOUT DRIVE IS SCHEDULED FOR SATURDAY

J. B. Morris, Scout executive of San Angelo, has been here recently in the interest of the Schleicher county Boy Scout finance drive, which Lions will conduct Saturday, with Don McCormick in charge assisted by others.

There will be a kick-off breakfast at 7:00 Saturday morning for committee members who will conduct the drive.

A budget of \$42,000 for the Concho Valley Boy Scout council has been set, and all friends of Scouts and Scouting are urged to give generously, to put this county over the top on their part in this drive. Funds will be used to help finance the Scout administrative set-up.

A Public Letter

FROM A TAXPAYER TO THE TAXPAYERS & THE SCHOOL CHILDREN OF SCHLEICHER COUNTY:

The question may arise in your mind as to why it will take \$475,000.00 for School Building to fit the needs of Schleicher County.

As you know, a complete new High School building will have to be built and equipped, including Cafeteria and equipment that will accommodate approximately six hundred children and an auditorium that will seat at least one thousand people. In this building there will have to be at least nine Class rooms, a Library room, Home Economics department, Health Clinic, Science Department, Lunch room, Music room, Book rooms, offices and modern rest rooms and this cost will range from \$350,000 to \$360,000.

On the Elementary building there is proposed six additional class rooms as well as equipment for these rooms. It will also be necessary to make repairs to the present class rooms and gymnasium.

With reference to the tax rate, the question has been raised as to whether \$1.13 of the present \$1.50 rate will pay current operating expenses of the School system. According to the records of the school for the year 1948-49, there has been retired, bus notes totaling \$30,000.00 and the Board was also able to buy two smaller buses which were bought out of current income.

Under the proposed bond issue, the total amount required each year for the payment of principal and interest averages approximately \$27,500.00 per year, the largest amount in any one year being \$28,000.00.

The total income of the School District for the past year amounted to approximately \$144,000.00. Of this amount, approximately \$107,000.00 was used for current expenses. You can see for yourself that there would be no need for increasing the valuations.

According to information available, last year's Scholastic Census showed 608 Scholastics. This year the Scholastic Census shows to be 640. You can see that our Scholastic Census is showing a gradual increase and you will know what that will do to our present crowded condition in the school system.

I have tried to state these facts clearly and from the records.

EDWIN M. JACKSON,
A Tax Payer.

STAMPS QUARTET APPEARS HERE MONDAY NIGHT

May 30 is the date for the personal appearance here of one of the Stamps quartets, who will be brought to this city under Lions Club sponsorship.

The Lions will conduct an advance ticket sale for this program, which promises to be one of the most popular of the year.

Proceeds will be used to help fill the Lions' club purse, which is badly depleted since the club bought furnishings and equipment for the banquet hall and kitchen in the memorial building. As other expenses confront the club as they carry out their community projects, the support of the general public is needed for the Monday night entertainment.

Those who have heard the quartet state that their program is worth much more than the 25c and 50c admission charge.

J. B. Montgomery Completes Training For Highway Patrol

Among those successfully completing the highway patrolman's course ending this month in Austin is Joe Bailey Montgomery of Eldorado, son of Mrs. J. B. Montgomery.

Montgomery has been assigned to a patrol district in San Antonio. There were forty men in the school, a number which brings the Texas Highway Patrol up to maximum strength; there are no more similar schools contemplated for another six months.

Montgomery finished the seven-weeks course last Saturday and is to report to the San Antonio office June 1. He has been visiting here with his mother and other relatives since Saturday.

A 1945 graduate of the Eldorado high school, Montgomery was in the army for 18 months, and has been ranching here since that time.

Ernest Finnigan has bought a new 2-door Chevrolet from Tisdale Chevrolet Company.

A Public Letter

To the residents of Schleicher County:

In connection with the proposed bond issue for the new school.

When the last bond issue was up for consideration, I voted against the bond issue and came out in this paper against it. I am not against the building issue because I am against adequate facilities for the school children. We need a new school building. That is unquestionable. But do we need a \$475,000 school building? If it is built, your land and my land stands as security for the bonds.

In the past year building costs have declined 15 to 20%. (I quote our own lumber and building supply dealer, Mr. Patterson.) Why is it necessary to ask for \$475,000 with this reduction in costs already in effect? Also, why is it necessary to vote the same amount as asked for last year when a part of it was to pay off outstanding indebtedness owed at that time? It was my understanding that the local school owed approximately \$30,000 on buses, operating expenses, etc. It is now my understanding that this amount has been paid, and the school has a nice surplus for operation.

I do not wish to leave the impression the local board is trying to pull anything over my eyes. They are all my personal friends. I do not think they have given the matter enough serious consideration from the standpoint that this \$475,000 must be paid later.

A group of citizens are prepared to propose a \$250,000 bond issue for this purpose in the event the present issue is rejected. A sound, sensible, economical proposal for improvement and enlargement, spending an amount we can pay off in bad times as well as good, will merit the worthy consideration of us all.

Sincerely yours,
P. F. CASE.

DCO Wilson Pastures Rest For Two Years

Harold Bevans is moving 1200 head of cattle to grass from the D. C. O. Wilson Ranch, to Sutton and Menard counties. He follows the late Wm. Bevans, and between them they have had part of the Wilson Ranch under lease for 50 years.

Mr. Wilson plans to let the ranch, consisting of 28,000 acres rest for two years, to seed itself in grass, after depletion caused by years of drought. He chose this year to start the project because of the heavy rains, which have given grass an excellent start.

SCOUT HIKE IS PLANNED FOR SATURDAY

The first of a series of vacation activities for Eldorado Scouts is on the calendar for Saturday. All Scouts are urged to take this hike, and be ready to leave at 8:30 from the Scout lodge.

The Scout uniforms should be worn, and a canteen of water, a lunch and hiking equipment should be brought along. The troop will be back by 4 p. m.

OTIS DAVIS TO FILL BROWNWOOD POSITION

Otis L. Davis, who has been apprentice-coordinator of distributive education in the Midland high school since March 1, will go to Brownfield this summer to take over the duties of coordinator of distributive education in the schools there, beginning on August 1. Davis will receive his BA degree from Sul Ross college on May 30 in Business Administration.

During Davis' years at Sul Ross he was president of the Institute of Business Relations for 1948-49. He was manager of the corral and bookstore for two years. He was a member of Alpha Chi, and was in the upper 10% of his class scholastically. Davis is a graduate of the Eldorado high school with the class of 1943.

He is the son of Mrs. Fred Riley of Eldorado, and is married to Jerry Davis.

MRS. HICKS' FATHER DIES OF HEART ATTACK

Mrs. Earl Hicks received word Sunday that her father, Mr. Land, had died of a heart attack that day in San Antonio. She and her husband and their son, Gerald, left immediately for San Antonio, and then went on to Richland Springs where funeral services were conducted Monday afternoon.

Mr. and Mrs. A. J. Halbert, friends of the family, were among those from Eldorado who attended the funeral.

There are five conservation regions in Texas, and a Schleicher County conservation farmer won first for region 2!

Nick Jurecek has been notified by officials sponsoring "Save The Soil and Save Texas," to be in Sonora, Texas Thursday May 26 to receive the first place prize for State Region 2 in the best conservation farmer division. Jurecek is being awarded the \$200.00 cash prize for the outstanding conservation job he has done on his farm.

Save The Soil and Save Texas, an Achievement Recognition Program is sponsored by the Ft Worth Press. Each year cash awards are given in each of the five regions of Texas to the outstanding Soil Conservation Districts, Farmers and Ranchers. The total cash awards for the state is approximately \$8,500.00 plus other means of recognition such as plaques and certificate awards.

A well rounded soil and water conservation plan was approved by the Eldorado-Divide Soil Conservation District supervisors December 6, 1946 on Jurecek's farm. Since that time Jurecek has been steadily applying all conservation practices planned on his farm.

Some of the conservation practices planned on Jurecek's farmland such as contour farming and crop residue management were comparatively easy to apply, as compared to the construction of level wide base terraces. Jurecek constructed a whirlwind terracer at his farm shop to construct the terraces and has made good use of it in the construction of his terraces.

Conservation farming is paying off for Jurecek in increased production as well as a cash award. He states "that cotton he farmed on the contour in 1948, made approximately 1/2 bale per acre and a field not contoured made only 1/4 bale per acre."

The cash awards, plaques and certificates of recognition awarded by the Fort Worth Press and their co-sponsors is proof enough that someone other than the farmers and ranchers are interested in conserving the soil of Texas.

"Nick is very proud of the fact that he has been chosen as the first place winner in region 2 as the outstanding conservation farmer," states Mrs. Jurecek. It also gives him satisfaction to have applied conservation practices that will mean more yields per acre at present as well as in the future.

**H. E. Girls Plan
Camping Trip,
Summer Course**

June 2 is the date set for the
camping trip to Christoval which
will open the summer season for
the home economics class, accord-
ing to Miss Lola Sutton, home eco-
nomics teacher. The group will
stay overnight in Christoval and
will return home the next day.

About twenty-five girls and five
mothers will go on the camping
trip, which is open to all members
of the FHA club here. The group
plan to have a weiner roast as the
evening meal on June 2, and will
cook their own breakfast and lunch
on June 3. They will return about
4 p. m. Recreation planned includes
swimming, boating, hiking, and
other outdoor activities. A com-
mittee meeting on June 1 will com-
plete plans for the trip.

On June 8, the first group meet-
ing for the summer will be held,
probably at 9:00 a. m. Summer
projects this year will be leather
work and textile painting. Some
of the girls plan to make billfolds,
belts and purses of leather; others
plan to do textile painting on
luncheon cloths, table runners and
mats, kitchen curtains, and other
household articles.

Regular group meetings are
scheduled for the four Wednesdays
in June, and two Mondays, the
13th and 20th. The class will have
a social the last of the month. Miss
Sutton will do home visiting in the
afternoons, and during the last
week in June she plans to arrange
a series of visits among the girls,
so that each may see the projects
of the others.

Miss Sutton will be in San An-
gelo June 6 and 7 attending an area
meeting of home economics teach-
ers.

She states that fourteen girls
have already registered for the
summer course, and any other high
school girl who has had one year
of homemaking is eligible to join.
Visitors are welcome at any time.

Birthday Party

tained at a party Tuesday after-
noon in her home, honoring her
son, Jerry, who was three years old.

Jane Belk read them several sto-
ries.

Ice cream and birthday cake
were served to: Judy Belcher,
Monty Montgomery, Bill and Nan-
cy Jarrett, Bobbie, Danny and Jay
Halbert, Jackie and Jerry Shugart,
Jimmy McDaniel, Jimmy Belk, and
Larry Meador of Dallas, and several
mothers. Gifts were also re-
ceived from Frankie Nell Blaylock,
Mary Ann Page, and Linda Mc-
Daniel.

Mr. and Mrs. Pete McDaniel and
Cynthia of Denver City visited the
Delbert Edmiston and Howard Mc-
Daniel families over the week end.

Mrs. S. E. Jones Jr. has returned
from a San Angelo hospital, where
she was ill with pneumonia, and
is improving.

**SUMMER BAND
INSTRUCTION
IS PLANNED**

Summer band instruction is
scheduled for an eight-weeks per-
iod, according to C. F. Jones, band
director. The course will open on
June 6 and will last through July
29.

Due to the fact that enrollment
is well over 100 already, the stu-
dents have been divided into three
groups. Band students who will be
in high school next year will meet
from 6:00 to 8:00 p. m. The brass
and percussion instruments will
meet on Monday, Wednesday and
Friday at those hours, and the
reeds will meet Tuesday, Thursday
and Friday at the same hours.

Students who will meet in the
seventh and eighth grades next
year will meet from 3:00 to 5:00
p. m. The brasses and percussions
will meet Monday, Wednesday and
Friday, and the reeds Tuesday,
Thursday and Friday.

Those who will be in the fourth,
fifth and sixth grades next year
will meet from 1:00 to 3:00, the
brasses and percussions meeting
on Monday, Wednesday and Friday
and the reeds Tuesday, Thursday
and Friday.

Since the course is only eight
weeks long, Jones states that he
cannot take beginners after the
first week, unless individual ar-
rangements with him are made.

Jones announces also that all the
school instruments are already
spoken for for the summer, so new
pupils will have to buy their own
instruments. He requests those
needing instruments to consult
with him before buying anything,
since conformation of the lips and
teeth determines the kind of instrum-
ent the student can play best.

Some concerts during the sum-
mer will be given if arrangements
can be made.

**SENIORS LEAVE
TOMORROW
ON CLASS TRIP**

Seniors will leave their new
high school diplomas at home, and
start by bus tomorrow, at 3:00 a.
m., on their senior trip.

While plans are only tentative
at this time, four faculty members,
Mr. and Mrs. Gordon Griggs, C. F.
Jones and Miss Gloria Henshaw,
will probably be faculty sponsors, and
Mrs. W. J. Humphrey, Mrs.
Jack Elder, Mrs. H. T. Finley and
Mrs. Myrtle Williams may accom-
pany the group, representing the
parents.

The first main stop will be at
Austin, where they will see the
capitol and the university. The
nights of May 27, 28 and 29 will
be spent in Galveston. They will go
from there to Houston to visit the
Battleship Texas and the San Jac-
into battlefield, and will spend the
night of May 30 at San Antonio.
They will return home May 31.

Ira Broyles of Lockney and San
Antonio is visiting the L. D. Och-
ner family.

ELDORADO FLOWER SHOP CELEBRATES 2nd ANNIVERSARY WITH BIG OPEN HOUSE AT THE NURSERY ON SATURDAY

View of Office, Taken this Spring

The Eldorado Flower Shop is two years old!

In celebration of the event, the proprietors are holding Open House Saturday and invite the general public to call any time during the day. There will be a gift for each woman caller, and cold drinks for all.

Guests will be shown through the main office and the nursery, and over the grounds. Present will be many who have attended their opening and their 1948 First Anniversary Open House, and these especially will observe the remarkable growth the business has made in two years. A large crowd is expected, as the Woodwards and the business they operate are well known over the county, and many Schleicherites will also be in Eldorado to vote on the school bond election Saturday.

Open in 1947

Mr. and Mrs. O. L. Woodward, proprietors of the flower shop and nursery, started making plans for the establishment in the spring of 1947. First on their list of MUSTS was choice of a location; plenty of room for expansion and easy access to an all-weather main highway were prime considerations.

To fill these requirements they bought a two-acre tract of land from Claude Stevenson, and built their office building at the front of the lots, facing north on the Menard highway—and moved their household goods to the cottage on the place, opening for business on May 26, 1947.

Mrs. Woodward recalls that their first customer was P. F. Case who placed an \$11.00 order for pot plants at about 8:00 that morning. From the start the business was a going concern, always showing some profit, much of which the proprietors put back into the establishment, the better to serve the community.

A greenhouse at the rear of the office was a later addition. Increased business having since crowded the new quarters, the Woodwards expect later to provide for further growth by adding an extension to the greenhouse at the rear, and other improvements are in the planning stage.

Exterior improvement has been a major project during the two years the business has been in operation. Numerous shrubs, trees and flowers have been planted, many of them to supply the trade

and some to improve the general appearance of the grounds.

Family Runs Business

The business is operated as a family project. Mrs. Woodward, in general charge since the business opened, does the major part of the work on floral arrangements, handles collections, and does much of the buying. Mr. Woodward, a Schleicher County rancher, works part time at the nursery, especially on trees and shrubs, making frequent trips out of town for supplies. The couple's son Jimmie, a high school student, helps with the yard work. Mrs. M. H. Woodward, a daughter-in-law, assists with the extra work in case of funerals or larger social occasions. Mrs. Slick Nolan, (the Woodwards' daughter Ruth), helped with the business from the time of the opening until this year when she and her family moved to Ozona.

Mrs. Woodward and daughter Ruth took a course in nursery management before they opened for business—"but there's always more to learn," says the former. "I have had to study and experiment especially on use of proper fertilizers for various plants."

The Woodwards have always been able to show a reasonable,

though not excessive, profit. Each day brings some customers—"they practically take care of the overhead," as Mrs. Woodward puts it.

The family agree that they receive the bulk of the Schleicher County orders. They are especially busy in case of local funerals, for which they have filled flower orders totalling from a low of \$200 to a top figure of \$450.

Popular sellers are pot plants and cut flowers, though in season the nursery handles numerous orders for trees, shrubs, bulbs, and other nursery stock. Special days, such as Christmas, Mother's Day, and Easter, bring heavy demand for pot plants, cut flowers, and corsages. On each special day the total has exceeded the total of the previous year—a fact which is gratifying to the proprietors.

The above view taken this spring, shows a part of the office room and stock of pot plants, with the built-in refrigerator for cut flowers at the rear.

"I've enjoyed every minute of these two years," says Mrs. Woodward. "If our customers support us in the future as they have in the past, we'll continue to grow and expand our service. We're deeply grateful to everyone."

County Agent Gives Instructions For Cutworm Control

Cut worms are doing considerable damage to cotton at present. Producers can expect in some instances, unless poison is used, to have a poor stand of cotton and feed left, according to W. G. Godwin, County Agent, who gives the following suggestions for control of the pest.

In the Reynolds community 5% DDT dust and 75% sulphur is being used. This can be applied with the regular dusting attachment that is made for almost any tractor. 15 to 20 pounds per acre should be applied. The dust should be applied directly over the cotton.

In some counties a product called "Kiltone" is being used as a spray, with good results.

There is still the old standard poison mash. Mix it in this proportion:

Wheat Brand -----25 Lbs
Sodium Flouride or Paris
Green ----- 1 Lb.
Cheap Molasses -----2 Quarts
Water ----- 2 Gallons

It is best to apply poison mash late in the afternoon or at night.

— W. G. Godwin.

Here and There

By the Gunsteads

The Ratliff Store has received this inquiry from a New York man: "Please send me information on young burros you have for sale—price and shipping."

Another local business is celebrating an anniversary this week. On page four of this issue appears announcement of open house Saturday, also other general information, picture, and history, of the Eldorado Flower Shop.

County Agent W. G. Godwin is a popular man with cotton planters these days. He reports that the cut worn in fields of late cotton was the subject of telephone calls yesterday evening, and his telephone began ringing early this morning.

Another rain! During the night 1/2 inch fell at Rudd, .35 at Kaffir, .36 in town, .3 at J. H. Wagley's.

The county is waterlogged at last, after years of drouth. There are weeds in cultivated fields, but also weeds in pasture land, on which cattle and sheep may thrive as they haven't in years.

Sheep shearing is nearly over, and oats and wheat are nearly ready for harvest.

This newspaper wishes to go on record as favoring the school bond election. It is of great importance, in our opinion, that the school maintain its credit rating with the state—that facilities be such that students get maximum foundation in grade and high school subjects—that the set-up be attractive enough to keep valuable teachers in the system—that ranch and farm couples and business people who would like to come to this county be assured of good schooling for their children.

We hope the vote next Saturday is a heavy one.

In their new line, metalizing of baby shoes and other keepsakes, the Carrs report business brisk and the outlook for the future bright. They have already received a number of orders and many more have been promised.

The following sad tale, handed to us by Insurance Agent Jack Ratliff, may be as interesting to our readers as it is to us.

THE MAN WHO SOLD HOT DOGS

There was a man who lived by the side of a road and he sold hot dogs.

He was hard of hearing, so he had no radio. He had trouble with his eyes, so he read no newspapers. But he sold hot dogs. He put signs up on the highway, telling folks how good they were. He stood on the side of the road and cried, "buy a hot dog, mister?"—and people bought.

He increased his meat and bun orders. He bought a bigger stove to take care of his trade. He finally got his son home from college to help him.

But then something happened. His son said, "Father, haven't you been listening to the radio? Haven't you been reading the newspapers? There's a big depression on. The European situation is terrible. The domestic situation is worse, everything is going to pot."

Whereupon the father thought, "well, my son's been to college, he reads the papers and listens to the radio, and he ought to know." So the father cut down on his meat and bun orders and took down his advertising signs. He no longer bothered to stand out on the highway to sell his hot dogs—and his hot dog sales fell overnight.

"You're right son," the father said to the boy, "We certainly are in the middle of a great depression."

Then there is the story we heard about a Sutton county cowboy who was in San Angelo inquiring if they had any of them new Russian saddle lights that he'd been hearing about.

Mr. and Mrs. J. C. Hoffman of Paint Rock spent Thursday night and Friday with their son, L. E. Lloyd and family.

Mrs. Ralph Fowler, Mrs. D. E. DeLong, Mrs. Roy Shilling, and Roy Jr., Beth and Sue Shilling left today (Thursday) in the DeLong car for San Antonio where they will attend the Methodist annual conference. Mrs. DeLong and Mrs. Fowler will return Friday, and the Shillings will stay over until Sunday.

Billy Dan McAngus, son of Mr. and Mrs. Ross McAngus, spent the week end at home. He is a student at San Angelo Junior College. When the school term ends the latter part of the week, he will return home and plans to work during the summer.

Mr. and Mrs. L. B. Kerr visited their son, J. T. Kerr and wife in San Angelo Sunday.

From where I sit... by Joe Marsh

Two Heads Are Better Than One (Or None)

I get a kick out of buying stuff down at the hardware store. And I always ask for a little advice from one of the two brothers who run it, because I know beforehand exactly what the answer will be.

Like when I needed a new garden hose. "Henry," I says, "how about this new plastic hose—is it really as good as rubber?" "Well," he says, "I'm inclined to think it is—but you'd better ask Tom."

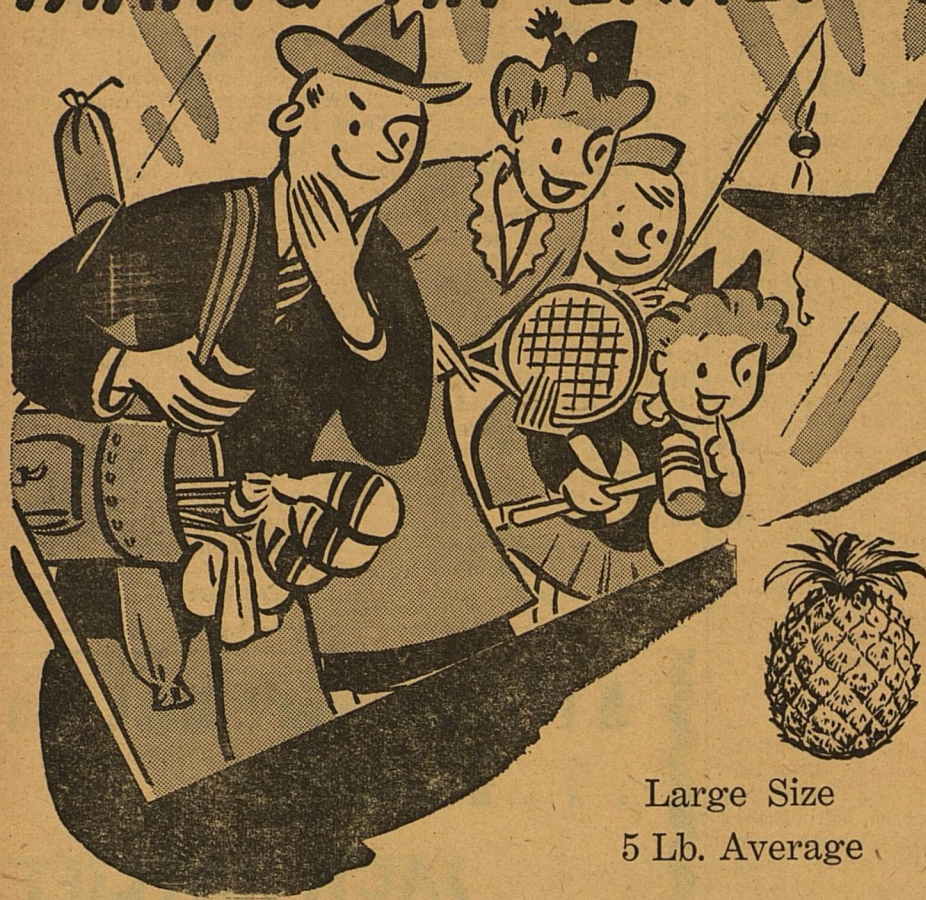

I found Tom in back and asks him the same question. "Well," says Tom, "in my opinion it is—

but you'd better ask Henry." "I already have," I says, "and when you two cautious old codgers agree I'd bet my life on the decision."

From where I sit, your own opinion is worth a lot—but so's the other fellow's. That's why I keep saying, over and over, let's be tolerant of the other person's point of view—whether it's on politics or farming—or whether you like milk shakes and he prefers a temperate glass of beer.
