Co. Agent Wins National Award

A coveted national award, won this year by only four other county agents in Texas, will be presented to Schleicher County Agent W. G. Godwin at the National county agents' convention early next week in Denver, Colorado.

Godwin will receive the award in person. He will attend a district meeting Friday at Llano, and will go from there to Denver to attend the National convention which opens with conducted tours Sunday, and continues through Monday, Tuesday and Wednesday. Mr. Godwin will receive his award on the evening of October 4. A large number of the nation's leaders will be present at the convention and assist with the presentation services.

The choice of agents to be honored is made by committees, who follow the rules as laid down by the National County Agent's Association.

County Agent Godwin, who is noted for his excessive modesty, states, "I have no idea of why they should have chosen me." Ranchers and farmers of Schleicher County, however, recognize the fact that he has always set his standards high, and that he has done everything within his power to increase the efficiency of Schleicher County farms and ranches. He is also recognized as a hard worker, who puts in long hours at his desk and on routine trips over the county.

Mr. Godwin came to Schleicher County 13 years ago, and has been on the job continuously since that time with the exception of several years spent in Service.

At Denver, his record will be cited when the award is made. An article from A. & M. received in this morning's mail, will be found on page 5 of this paper.

LOCAL STUDENTS TO ENTER WOOL SEWING CONTEST

Several high school students from Eldorado are planning to enter the annual "Make It Yourself With Wool" sewing contest. This contest, which is a national one, is sponsored in Texas by the Women's Auxiliary of the Texas Sheep and Goat Raisers Assn.

The local students entering are taking home economics under Mrs. Ted Kirby. Last year one of Mrs. Kirby's pupils, Miss Patsy Taylor, won second prize in this area with a tweed suit which she had made.

Any girl within the age limit (14 through 21) is eligible to enter, whether in school or not. There are three divisions—coats, suits, and dresses. Each garment must be made of 100% virgin wool and must contain a tag certifying the fact.

Those winning first prizes in the state contests will be eligible to compete in the national contest. National prizes will include several college scholarships, a Singer sewing machine, a \$100 savings bond and others.

The garments entered must be made especially for the contest. Those interested in entering should see Mrs. Ted Kirby, home economics teacher, for entry blanks and further details.

New Officers Chosen For Home Ec Club

The Future Homemakers elected officers Monday at a called meeting, as follows:

President: Nelva June Bolt.

Vice Pres: Ruthie Dee Harris.

Secretary: Ebbagene Blaylock.

Treasurer: Laura Clarke.

Reporters: Mary Dell Edmiston and Elizabeth Faulk.

The Homemakers plan another meeting in the near future. At this meeting club dues and club policies will be discussed. Mrs. Ted Kirby, home economics teacher, is sponsor for the club.

The seventh and eighth grade girls met Monday to organize a homemaking club, and elected the following officers: president, Carolyn Ratliff; vice president, Jorgia Lagow; secretary, Cynthia Reynolds; treasurer, Barbara West; reporter, Martha Dell Williams; assistant reporter, Jean Kuykendall.

Committees, club mothers, and club colors will be chosen at the next meeting. The group set dues of 50c, to be paid by the 14th of October. Meetings will be held once a month and the group will have several parties during the semester.

Eagles and Bronte Play Non-Conference Game Here Friday

The Eldorado Eagles and the Bronte football team will meet here tomorrow night, Friday, at 8:00 for a non-conference game.

The Bronte team has won one game and lost one. Their team is a heavy one, judging from the weight recorded in their football roster.

This game should be a good one and local fans are urged to attend.

Other games to be played in district 6-B include: Ozona and Iraan in Iraan, Sonora and Big Lake in Big Lake, and Kerrville B and Junction in Junction.

EAGLES TIE IRAAN IN HARD FOUGHT GAME LAST WEEK

The Eldorado Eagles, with a number of players on the sidelines from injuries, held the highly publicized Iraan team to a 13-13 tie on the local field Friday night.

An overflow crowd was on hand for the game, including a number from Sonora.

Prospects were dark for the Eagles at the end of the first quarter, when Iraan had a 13-0 lead. Iraan's first touchdown was made after only five minutes of play.

In the second quarter, a pass from Nixon to Alexander was good for 6 points for the Eagles. The Eagles scored again in the third quarter and also made the extra point. The touchdown was made by Alexander, who also kicked the extra point.

The Eldorado band and newly-uniformed pep squad performed marching routines at the half. The Iraan band had lights attached to their instruments and marched on a darkened field.

THREATENED FORD STRIKE IS AVERTED

According to news received over the radio this morning, an agreement has been reached between the Ford Motor Co., and the automobile workers union, covering wages and pension benefits for the next 2½ years. Strike threats which have been in the air for weeks, are now cleared up as far as Ford is concerned, but coal miners and steel workers are still negotiating.

DAR to Have Meeting At Sonora Clubroom

The regular meeting of the DAR will be held next week with Mrs. A. E. Prugel of Sonora and Mrs. L. B. Cox Jr., and Mrs. John Bailey of Ozona as hostesses. The meeting will take place Tuesday at 2:30 at the Sonora Womens club room.

Mrs. Elizabeth Powell will be program leader for a program on "Americanism."

Candidate For New Board

Dr. George D. Morgan

Dr. George D. Morgan, San Angelo oil man and former regent of the University of Texas, announced recently as a candidate for the 21st District as a member of the newly-created State Board of Education. The election will be held Tuesday, Nov. 8th.

Dr. Morgan, widely known throughout West Texas, is especially known in Schleicher county as a member of the firm of Morgan-Aikman Co., developers of the Koy-Page oil field. His candidacy has the endorsement of many West Texas school men, including that of Eldorado Supt. C. A. Reynolds, who has the following to say:

"It is with pleasure that I add my endorsement to that of many

other school men of this section in behalf of the candidacy of Dr. George D. Morgan of San Angelo for the State Board of Education that is to be elected November 8.

"I believe that Dr. Morgan has the experience and ability that will enable him to render unselfish and distinguished service to the school children of this state. The success of the Foundation Program and whether or not Texas takes its place near the top educationally will largely depend upon this board. For this reason it is imperative that men and women of broad vision, experience and training be elected to this board. Dr. Morgan is well qualified to sit on this board. Yours truly, C. A. Reynolds."

Cotton Harvest Goes Into High

Lloyd and Jurecek On Harlingen Trip For Mexican Pickers

Leonard Lloyd and Nick Jurecek left Monday for Harlingen with their trucks to call for the Mexican laborers secured through an agreement reached this year between Texas and Mexico.

Lloyd, with about 1200 acres to pick here and at Water Valley, will get 40 pickers. He was accompanied on the trip by a Spanish American who works on his place. The Lloyds are equipping quarters for the men, where they can be accommodated during the picking season.

Jurecek is calling for 75 laborers, to pick his own large crop of cotton, and also crops grown by Ello Wilde, and his father at Eola. He has set up six tents at his place for living quarters for the men. Jurecek, Wilde, and a Mexican employee made the trip.

The men are expected back sometime today.

Others who may get pickers from Mexico under this plan are W. A. Schuller, Joe Krecklow, Jack Shugart and Ray Bruton.

The 75 who are picking cotton on the Moore place are now nearing the end of their second week here. They are housed and fed in a large barn on the place. To date they have been the only pickers recruited from Mexico.

Funeral Monday For H. R. Jack, 71

Henry R. Jack, 71, died at Eldorado Sunday morning, only a few months after he and his wife had moved to this city. He had been in failing health about 18 months, and seriously ill several weeks.

The body was taken overland to Paris by Ratliff, accompanied by Mrs. Jack, Mr. and Mrs. Tom Henderson and Mrs. Chester Wheeler.

Funeral services were held at the Brown Roden Funeral Home at Paris at 3:00 Monday afternoon, with three Paris pastors officiating: Rev. S. A. McElroy, W. D. Whidden and Rev. Cochran, and interment was made there in Rose Lawn Cemetery.

H. R. Jack was born in Paris, in 1878, and spent most of his early life there. He graduated from high school at Roxton, Texas.

For many years he traveled for a Chicago firm, later moving to Amarillo where he was in the wholesale and retail automobile business; when his health began to fail he moved to Mineral Wells, and established the H. R. Jack Insurance Agency.

About a year ago the couple moved to Southwest Texas, living at San Angelo and at the Tom Henderson ranch until early summer, when they bought the Bob Page house and moved to Eldorado.

Surviving are his widow, the former Lena Maude Breeding of Mineral Wells; one daughter, Mrs. Tom Henderson of Schleicher Co., a grand daughter, Jacqueline Henderson, student at St. Mary's Hall, San Antonio; 3 brothers, O. C. and L. Z. of Paris and W. A. of High; and two sisters, Mrs. Milbourn Boaz of Brookston and Mrs. Jim Yates of Direct, also numerous nieces and nephews. All of the members of the family were present for the funeral.

The Jacks have been members of the Central Christian Church at Mineral Wells for many years. Mr. Jack was a deacon and member of the official board. He had a lifelong interest in music, and sang in the church choir.

The family returned to Eldorado Wednesday evening. Mrs. Jack states that her plans for the future are indefinite at this time.

Ozona To Be Hosts To District PTA

Ozona was selected as the convention city for District 6 PTA spring conference, when the district board of managers met recently in San Angelo. Among the vice presidents attending was Mrs. Edwin Jackson, representing Sutton and Schleicher counties.

Mrs. Carrol Ratliff of Eldorado, a district chairman, gave a report on her phase of the work, goals.

With approximately fifteen percent of Schleicher county cotton ginned, local farmers, pickers and ginners are in the second week of high-pressure work on the county's cotton crop.

At 8:00 Thursday morning, a total of 1352 bales had been ginned here — 802 at Mikeska gin and 550 at Moore gin.

The two gins in Schleicher county are running around the clock as cotton picking gets into full swing. Pickers and ginners will be working at top speed for at least three more weeks, County Agent W. G. Godwin has estimated, and picking will be under way throughout the fall.

Although a number of farmers are still on the lookout for more cotton pickers, Godwin points out that the cotton is being picked faster than it can be ginned.

At various times there have been as many as 25 to 50 loads waiting in the gin yards to be ginned. Some farmers, particularly those with big cotton acreages, have taken their cotton to San Angelo for ginning, since a large crew of pickers soon fills trucks to capacity. Farmers must then get their cotton to a gin so their trucks may be released for more cotton as it is picked.

Local observers estimate that about 175 bales of Schleicher cotton have already been ginned in San Angelo.

New Requirements Are Passed For Marriage Licenses

A new state law has been passed requiring both men and women to show a health certificate before they are issued a marriage license.

The law which goes into effect October 5, 1949, was passed by the fifty-first legislature as House Bill No. 588. It requires that no marriage license shall be issued unless each applicant files with the Co. Clerk a certificate form signed by a duly qualified physician stating that a medical examination, including a standard serological test for syphilis has been performed.

The law further states that the serological test for syphilis must be performed in a laboratory approved for this purpose by the State Health Department. At the same time the license is issued the County Clerk is required to certify on the reverse side of the license that all certificates or court orders required by this act have been received and filed.

The statement of the Co. Clerk shall show the date of the examinations of both parties unless same has been suspended by court order.

The letter explaining the new law was mailed by state health officer George W. Cox of Austin.

The law further provides that the marriage ceremony be performed within 15 days after the tests are made; otherwise the license expires.

Highest Secondary Road Bridge

Texas' highest secondary-highway bridge and one of the major projects in the Texas Highway Department's multi-million dollar secondary road program is this bridge just completed across the Pedernales River canyon 30 miles west of Austin in Travis County. Rising 120 feet above the canyon bed and 90 feet above the waters backed up by the Mahsfield (Marshal Ford) Dam impounding Lake Travis, the structure is a four-span continuous deck truss bridge containing 680 tons of structural steel supplied by U. S. Steel's Virginia Bridge Company. It is one of the longest secondary bridges in the state—900 feet—with two 200-foot approach spans and two 250-foot center spans. The bridge is also unusual in that, following erection of the initial approach span, the remaining three spans were erected using the cantilever method with a minimum of supporting falsework. Main supports consist of steel tower bents set on concrete foundations. General contractor for the superstructure of the new bridge, which carries a 26-foot roadway and two walkways, was Luther A. Turner & Son, Austin. The Pedernales crossing is on the newly designated Range-to-Market Highway 93 which will link U. S. Highways 81 and 281 in Central Texas and will speed traffic and shorten distance between Austin and Marble Falls. Contract for paving R. M. 93 has already been let and work is expected to begin soon.

Washington News Letter

By Congressman O. C. Fisher

Behind-the-scenes battle lines are forming on Capitol Hill for the 1950 elections. With uncertainty marking the quitting date for Congress, observers here now regard the balance of the session as being mainly political sparring on legislation which might or might not be to the advantage of those who plan political campaigns for the future.

One faction thinks it wise to force a vote or two on civil rights measures, just to have records made. Others want an outright show-down on repeal of the Taft-Hartley law, and thereby have a cut-and-dried issue in industrial districts when election time comes around in 1950.

But right now indications are FEPC and other civil rights bills, along with demands for repeal of labor laws, will be kept on cold storage until next Spring and then pushed along under the pressure of imminent Congressional elections.

Altogether, there is more political window-dressing and shadow-boxing going on than has been seen in Washington in many a day. The strategy boys have their hands full.

Where Big Business once dominated much of the political scene, Big Labor is now in the ascendancy. A number of years ago Congress passed a Corrupt Practices law that prohibited corporations, banks, etc. from making any form of contributions to political campaigns. Labor unions were exempted from that law until they were included in the Taft-Hartley Act two years ago. Under the exemption, John L. Lewis dished out \$500,000 in one political campaign a few years back.

But the Big Unions figured a means of evading that inclusion. The CIO created an adjunct Political Action Committee (PAC) and the AFL followed suit with Labor's League for Political Education (LLPE). Both are staffed with high-paid experts and are padded with large slush funds. Kiplinger estimates the LLPE will have five million dollars to use next year to "educate" the voters on why they should support certain candidates for Congress to their liking. And the CIO-PAC is in a drive for an even bigger fund for use in the 1950 Congressional campaigns.

This Big Labor activity has caused some veteran observers here to speculate that the 1950 Congressional electors may furnish the big test of whether we are moving in the near future to a real Labor-Socialist government in this country.

While some measures advocated by the Union business agents are very desirable, at the same time it is pointed out many of them veer strongly toward the present British system. Most of them advocate socialized medicine, more and more socialized housing, anti-segregation laws, higher taxes, a return of OPA, the passage of civil rights legislation, and more Government in business.

The proposed repeal of the Taft-Hartley Act was put on the top of "must" legislation at the beginning of this year, but the advocates of no control over labor union activities took a sound licking in the first skirmishes in the House and Senate. Earlier in the year the House by a rather close margin of 217-to-203 voted against the repeal, while the Senate passed a slightly watered-down substitute for the Taft-Hartley law.

Now the union leaders have announced an all-out campaign to defeat what they term "reactionary die-hards" who have dared vote to retain any control or regulation over labor unions.

In this all-out drive for control of Congress, labor's political ex-

perts are already choosing their candidates and oiling their guns for the 1950 election battles. Speaking of the strategy to be followed, one authority says: "Over and above all will be the technique of printed propaganda. Millions of leaflets will be distributed. Labor's pamphleteers are expert, able to turn out punchy prose in smart simple fashion. . . . Aside from such hoopla, labor plans a further big step — to hand-pick its candidates wherever possible."

Much of such activity in the past has been behind the scenes. Rarely do they come out in the open. In some non-industrial districts, to sponsor a candidate openly might actually do more harm than good and they are smart enough to know that. It is all a matter of modernized political strategy.

Post To Have Golf Course

With 50 charter members already signed up and a usable site available a golf course for Post is almost a certainty. The golfers undertook the project because the golf courses at Lubbock are so crowded it is almost impossible for them to play there any more without "waiting all day" for their turns on the links. Post, which had the first golf course west of Mineral Wells for a number of years early in the century, has been without a course since the depression.—Post Dispatch.

Crockett county taxpayers may soon have an opportunity to vote on the question of issuing bonds to provide one of this community's greatest needs and one that progressive counties throughout this

area, have already provided—a modern swimming pool and community recreation center.

Decision to speed up preliminary planning and seek an election at an early date to determine whether or not the community wants these improvements was reached at a meeting of the Crockett County Community Council in session at the court house Monday evening.—Ozona Stockman.

Hospital Donations Asked

A countywide drive for individual donations of any amount toward the Ozona Ozona community hospital fund, will be launched at an early date under sponsorship of the Community Council, it was decided at a Council meeting Monday night.

A deficit of nearly \$7,000 in the funds necessary to equip the new hospital still remains County Judge Houston Smith informed the Council. Many substantial donations have already been received to the fund and orders for equipment and furnishings to the amount of funds in hand have already been placed.—Ozona Stockman.

Sonora Schools Open

School enrollment in all Sonora schools totaled 631 at a count made Thursday. Although this is considerably less than the 750 expected, there are approximately 191 Elliott school students steering, picking cotton and getting in the potato crop in Idaho, according to Edgar Swindle, principal. Swindle said last year's enrollment was 379. If the 191 students register later in the term the total will be raised to 822.—Devils River News.

Sterling Hospital Proposed

The Sterling County Commissioners' Court has set October 8, as a date for a special election, to decide on a \$90,000.00 hospital bond issuance. The court acted last Friday after a petition bearing the names of more than ten per cent of the qualified voters was laid before it. It is the intent of the court to take advantage of the one-third federal and state aid that is available at this time. Such intention is pointed out in the election order.—Sterling City News-Record.

Junction Streets to be Marked

The Kimble County Junior Chamber of Commerce expects to start the preliminary work on marking the streets and numbering the houses within a few days, Julius Murr, president, said Tuesday.

Jaycees will start surveys designating blocks and begin house to house solicitations and other contributions. The organization has set the goal of \$3 per house and will ask the owners for donations of that amount.—Junction Eagle.

Bronte City Statement

A public hearing was held Monday night in the city hall by the Bronte city council. Mayor H. O. Whitt reported that \$17,073 was received into the general fund in the year ending April 1, 1949. Of these receipts, expenses of the city ran \$14,370 with a surplus of \$2,703 left. Water utilities resources were estimated at \$10,148 and expenditures at \$9,606. A surplus of \$542 remains.—Bronte Enterprise.

Pecos Co. Labor Problems

Faced with the problem of harvesting a 25,000 acre cotton crop which is calculated to produce from 18,000 to 25,000 bales, Pecos county growers this week were anxiously awaiting further development in efforts to obtain a contract with the Mexican government for importation of bracero labor from the

Republic of Mexico to aid in the harvest. A point of difference in the negotiations is a charge by the Mexican government that its nationals have been the object of discrimination at the Comanche Springs swimming pool in Fort Stockton.

Yesterday afternoon, following a meeting with farmers, business men and cotton finance firm representatives, the Board of Directors of Pecos County Water Improvement District No. 1 voted to rescind any resolutions on District records which tend to restrict use of Comanche Springs swimming pool on the basis of language or nationality. Word of this action was conveyed to Mexico City as a step toward completing a contract for importation of Mexican nationals to harvest Pecos county's cotton crop.—Ft. Stockton Pioneer.

Mexicans At Sanderson

L. W. Keilers, manager, and John Griffin, director of the Texas Employment Commission office in San Angelo, were in Sanderson Wednesday morning to assist ranchmen in signing contracts for Mexican alien laborers.

Garland Inmon, who is in charge of the local unit of the Immigration Border Patrol, assisted by registering the "wets" already working here.

There were about twenty-five local ranchmen who agreed to work the aliens under the contracted agreement to comply with the agreement reached between the United States and Mexico.—Sanderson Times.

Fund for Accident Victim

The Joan Edwards fund was swelled by \$428.15 from the recent benefit baseball game at Texon and from other contributions, it has been learned from Snipe Conley, manager of the Big Lake Ball Club who had charge of the game. Miss Edwards, who was injured in an automobile accident more than a year ago, has remained in a coma since that time.—Big Lake Wildcat.

Godwin's Record Speaks for Itself; Wins Him Coveted National Award

SPECIAL TO: ELDORADO SUCCESS, ELDORADO.

COLLEGE STATION, September 29 (SPL)—W. G. Godwin, county agricultural agent in Schleicher county since February 1937, has been selected by the Texas County Agricultural Agents Association as one of the recipients of the Distinguished Service Award for 1949. The award will be presented to Godwin at the National County Agricultural Agents Association meeting which is to be held in Denver, Colorado, October 3-5. The award is presented annually to those county agents who have made outstanding contributions to agriculture over a period of years.

Godwin is a native of San Saba county. He is a graduate of Lometa High School and holds a BS degree in agricultural education from Texas A&M college. He has served continuously in Schleicher county since his first appointment except for the time that he spent in the U. S. Army during World War II. He entered the Army as a Second Lieutenant in 1942 and was discharged in 1945 as a Captain.

Four-H club work has become well established in the county and 4-H boys from Schleicher county have won many blue ribbons at the major livestock shows of the state. Fat lambs and beef calves have been fed commercially and all have come from farms and ranches in the county.

The use of phenothiazine as a drench for controlling stomach worms in sheep was a well established practice in the county by the late 1930's. Some 80 per cent of the ranchers in the county follow the spray program recommended by the Extension Service for controlling lice, ear ticks, and sheep ticks. The \$40,000 annual loss in the

W. G. Godwin

county from cattle grubs has been reduced by about 65 per cent.

Sheep flocks in the county have been improved as a result of the culling and selection program. Body conformation, wool production ability and early breeding qualities were stressed in this program. Wool grading at the shearing pens has been encouraged along with correct shearing methods, tying and bagging of the wool.

Other accomplishments include the establishment of family demonstrators in each community in the county; conducting the educational work and organizing a soil conservation district; helping establish the REA system for the county and through community organizations and cooperation, there has come a better understanding of the problems that affect the daily lives of the people of the county.

Texas Ranks Fourth In Poultry Sales Over United States

By tailoring their products to consumer preferences, Texas poultrymen produced more than \$130,000,000 in poultry products last year to rank fourth among the 48 states in setting up a record-breaking national total of \$3,071,000,000, it was pointed out today by Howard C. Pierce, national poultry research director of a large food chain.

"Whenever a commodity shows a jump in sales, it is always the result of consumer choice, and poultry is no exception to the rule," said Pierce.

The public definitely wants chickens with more meat in proportion to bone, he said. Now poultrymen are producing 12-week-old birds that weigh up to four and five pounds instead of the former two or three. Twenty million of these meatier chickens are going to market this year.

The fastest-growing branch of poultry is commercial broiler production which has grown 41 per cent since the drive began in 1946 to produce better broilers.

MACK McANGUS IS PARTY HONOREE

Stuffed Hamburgers Good for Fall

With snappy fall weather approaching Schleicher county families are planning outings which include hot dishes instead of the summer fare of cold cuts, potato salad and ice cream.

The following menu tastes good whether served picnic style or cooked over a roaring campfire or barbecue pit:

- Stuffed Hamburgers
- Potato Chips
- Sweet Corn on the Cob
- Sliced Tomatoes and Cucumbers
- Apple Sauce Turnovers

If you add coffee for the grown-ups and milk or cocoa for the children, you have a hearty meal. Potato chips require no preparation.

The tomatoes and cucumbers need only to be washed and sliced to make an attractive salad. The corn, which may be either fresh or frozen, is cooked in boiling water.

The stuffed hamburgers are easy to prepare but provide an unusual main course for an informal meal. Each small hamburger patty should be rolled thin by placing between wax paper and rolling with a rolling pin. Put a heaping tablespoonful of moist, well-seasoned bread stuffing on a meat patty and press another patty on top. Pan-fry until done and serve hot.

Apple sauce turnovers make a delicious dessert for a hearty fall meal.

Vera Faye and Bonnie Biggs, who are attending Draughton's Business College in Abilene, are visiting their parents, Mr. and Mrs. Chester Biggs, until Sunday.

Mrs. Mattie Cozzens returned Wednesday from a 12-day vacation trip to New Mexico, Arizona and Colorado. She accompanied Mr. and Mrs. Oscar Gibson on their return to Arizona, after a visit in East Texas. The group took a sight-seeing trip to Farrington, where they saw numerous apple orchards, to Roswell, where they saw the lava beds, to Painted Desert and as far into Colorado as Ouray, located in high mountains. She returned home by bus.

Guests in the Glenn Parker home Saturday were Misses Margaret Rector and Earlene Webb of San Angelo.

Mr. and Mrs. D. D. Otis of Kilgore are visiting Mr. and Mrs. Fred Watson. The women are sisters.

From there Rev. and Mrs. Hays left for California and the Davidsons and Watsons returned home, arriving in San Angelo Monday night and in Eldorado Tuesday.

The Forrest Runge's are doing some rock work on the tennis courts at their ranch. Tired of looking for lost balls in the broom weeds, for lack of a back stop, they're building up a wall at the end of the court. As the entire court has been built on a slope, the project requires filling in of the end with dirt, and building of a stone wall over a framework of iron pipe.

W. W. Williams and his father A. B. Williams have returned from Brady where their brother and son had an operation Tuesday.

RED CROSS FIELD DIRECTORS SOLVE SERVICEMEN'S PROBLEMS

Red Cross services to the armed forces are available wherever U.S. servicemen are stationed. Here a Red Cross field director goes right to a young sailor at work on his ship for the facts he needs to help solve a problem.

The sailor was young. He had finished his home leave in a southern coastal city and was heading back to his California base.

He said goodbye to his parents and to an older brother, a marine veteran just returned from service. Then he left by bus.

A few hours later the older brother was killed in an automobile accident. The family appealed to the Red Cross to locate the younger son so he could return home.

Within a short while a Red Cross chapter secretary along the route intercepted the bus, broke the news, and helped the lad get started back home. There the chapter got in touch with the field director at the west coast base and verified the facts for the commanding officer who was being asked to extend the sailor's leave.

Once or more every minute, around the clock last year, the Red Cross performed some service for members of the military forces and their families. Among the nearly three quarters of a million cases handled, a large percentage involved supplying verified information concerning home conditions requiring emergency leave or extension of leave. While the Red Cross cannot grant leave to a serviceman, military authorities depend upon

its post field directors and the network of chapters for reports of conditions underlying such leave requests.

Field directors in 364 military installations and hospitals and 1,059 itinerant- and sub-stations in this country and abroad aid servicemen with personal problems that range from babies and budgets to helping straighten out delays that hold up pay or family allowances.

The serviceman has his family problems, marital difficulties, financial strains, and family illnesses—all disturbing to morale.

Field directors, providing 24-hour service at military installations, are pretty much in the same situation as the family doctor. They are routed out of bed at all hours to face any one of a hundred complicated problems. Sometimes it may be to get a report on the condition of a critically ill member of a soldier's family, or to lend him money for an emergency trip home, or to find housing for a family unexpectedly arriving at the post.

Whatever the problem, the serviceman feels free to turn to the Red Cross for help, knowing that he will find a sympathetic friend in the man wearing the Red Cross uniform.

LOOPHOLES in the Law

By WILL WILSON
Past President, Texas District
and County Attorneys Association

(Editor's Note: This is one of a series of short case histories, all taken from court records, showing how legal loopholes often enable criminals to escape punishment in Texas. Will Wilson is chairman of a special steering committee of the State Bar, which is working for revision of the antiquated criminal code and code of criminal procedure in order to eliminate these loopholes.)

Burglar Joe admitted that he broke into a store operated by Mrs. Fred Smith in Prairie Hill, Texas. He confessed that on September 27, 1941, he broke in the back door of the store building, entered and stole several articles of merchandise.

Since there was no doubt of Joe's guilt, he was convicted and sentenced to five years in the penitentiary. But on appeal the verdict was reversed.

At the trial Mrs. Smith testified

that she was the wife of Fred Smith and that she lived with him at Prairie Hill, where they operated a store. The indictment pointed out that the store, at the time of the burglary, was under the control and ownership of Mrs. Smith.

The reversal was solely on a technicality involving ownership of the store. Although Mrs. Smith was operator of the store, it was community property belonging jointly to her and Mr. Smith. In the eyes of the law the husband was the owner. The indictment charging Joe should have alleged that the husband, instead of the wife, was the owner of the property.

If the State Bar is successful in its efforts to bring about revision of Texas' criminal statutes, such loopholes in the law can be closed. Under the present system too many criminals escape justice, even when there is no doubt of their guilt, breeding disrespect for the law and subjecting good citizens to constant threats from lawbreakers.

Mr. and Mrs. J. W. Davenport of Eden were guests in the Victor Kent home Sunday.

Mrs. Jack Montgomery, registered nurse, is doing private duty in Sonora this week.

Mr. and Mrs. Dan Thomas of Brady visited Mr. and Mrs. A. B. Turner Saturday and Sunday. The Thomases are Mrs. Turner's parents.

From where I sit ... by Joe Marsh

A Big Boost For Smitty!

Stepped into Smith's Department Store the other noon and saw the strangest thing. "Sis" Davis was coming up the stairs from the basement with a bundle of wash.

"Is Smitty taking in washing these days?" I asked. "Not quite," she says. "He's just put in a new automatic washing machine, so the girls who work here can get their laundry done while they're eating lunch. Means more time to relax at night and on weekends."

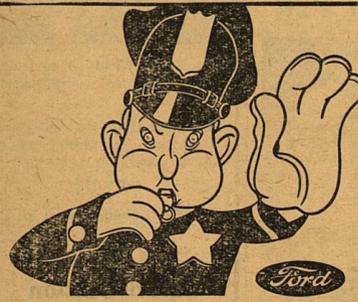

I thought what a swell boss Smitty must be. Human relations between the boss and employees

have certainly taken a big step forward during my lifetime.

From where I sit, people seem to be doing a better job of seeing our neighbor's viewpoint these days. Though his ideas and tastes may not be ours, we can understand his preference for a certain breakfast cereal, a favorite movie star, or for a temperate glass of beer or ale. That's the way it should be in a free country.
