### Eldorado-Divide Soil Conservation District News

According to the conservation practices applied during the first our months of 1950 people are till interested in treating their and according to its needs and using it according to its capabil-

To date seven co-ordinated conservation plans totaling 24,296 acres have been developed this year by farmers and ranchers with the assistance of local Soil Conservation Service personnel.

Some of the practices established and their acreages and amounts includes an additional 818 acres of land planted on the contour, 118 acres cover crops, 158 acres crop residue established, 18,041 acres of rangeland being deferred for range improvement, 462 acres of range reseeded, 22 miles of terraces constructed, one mile diversion terrace constructed, and 149 acres of grass seeded on cropland for seed pro-

A continued increase in conservation work is expected as conservation farmers and ranchers give conservation a fair trial and find that it pays dividends mologists, E. E. Ivy, Wm. Iglinsky Jr. and C. F. Rainwater, in laborathat it pays dividends.

In working up a well rounded range conservation plan with Milrangeland approaching excellent condition was found. Mr. Morales has been deferring this pasture during the during the growing season for the last three or four years. He has grazed it some during the winter and at times when he needed a holding trap. A wide variety of vigorous grasses was found in this never cooperate until 1947, when it pasture. Little bluestem, silver bluestem, and Indian grass are the dominant species in the draws with some vine mesquite and buffalo grass also being present. Away from the draws little bluestem and feather bluestem were still plentiful along with vine mesquite and a variety of other better grasses. Two cool season grasses which in this pasture. These are Canada ments used as fertilizer. wild rye and Texas winter grass. Dusty miller and Engelmann's daisy were also increasing. These at A&M but in 1949 another of the are two of the most palatable forbs many new phosphorous organic which grow in this district. The condition of this pasture shows the potential of land in this district. With the excellent cover of these better grasses this pasture is producing three to four times as much forage as pastures in fair and poor condition so therefore it care of aphids and red spider mites will carry three to four times as for two months. much stock and continue to make provement.

into this condition by deferments acres of seed treated with octaand stocking according to the veg- methyl pyrophosphoramide have etation or a combination of these two practices.

### 20 Boy Scouts Make Overnight Stay tests, says it will be a big thing for the cotton farmer if the plants At District Camparee absorb the insecticide under

camparee at Camp Sol Mayer Fri- ling stage. day night and Saturday. They made the trip in an Eldorado school

Friday afternoon, the boys prepared their camp site and cooked supper. Saturday they participated in a number of Scout contests and other events. W. M. Patterson, Jerry Pennington and E. W. Brooks went to Camp Sol Mayer Saturday to help judge the events, which included water boiling, knot tying, hand signals, string burning, compass, tug of war and cot folding.

The boys cooked their own breakfast Saturday, and at noon were served a barbecue.

Two events provided excitement when Bill Bearce became ill with a gastric upset and had to be taken to the doctor; and second, on Saturday afternoon when the boys' camp site caught fire and they put it out with a bucket brigade.

The group returned home about 4:00 Saturday afternoon.

## Sproul Injured

Bob Sproul sustained a bad arm fracture and his '49 Ford was almost demolished when his automobile turned over at the new concrete bridge between Eldorado and

Christoval. Sproul was blinded by a passing car, and his vehicle struck the concrete railing, overturning and pinning him underneath the machine. Local passers-by rescued him and took him to a San Angelo hospital where his arm was placed in a cast. The right arm has a clean fracture and the wrist was crushed.

He is convalescing at home at present, but reports that the arm is swollen and painful. He bought Masons At Supper a new 1950 Ford Friday to replace he wrecked car.

## **Spring Football Training** To End With Game Tues.

## Someday, Maybe!

Some day farmers may put in time and forget about insects.

That's probably a long time off, but last year three USDA entotory tests at Texas A&M, found cotton plants would take up poison from the soil and that the treated plants killed cotton aphids

Scientists have long dreamed of getting plants to pick up insecticides from the soil. They even had a name ready for it-systemic entomology. But the plants would was found that corn roots would Interscholastic League. take up parathion and that the leaves and stalks of treated plants were toxic to the corn borer.

Parathion is one of the new organic insecticides. Plants won't absorb the others, such as DDT and BHC; but parathion is a phosphorous compound and phosphorous in the form of superphosphate is one furnish winter grazing were found of the three main plant foods ele-

Parathion didn't get the job done on cotton insects in 1948 soil tests insecticides, octamethyl pyrophosin tests run under a Research and

Now Dr. R. D. Lewis of the Texas Agricultural Experiment astures may be brought back Station has announced that two been planted in the Brazos River field laboratory.

It is the nation's first field test of high school boys only: of systemic entomology.

Dr. J. C. Gaines, the research entomologist who is making the Twenty Eldorado Boy Scouts and one Scout leader, J. C. Linsley, attended the West Ranch district

One thing he is worried about i that the seed might absorb the phosphorous and so be unfit for cottonseed cake, margarine and other seed products. He won't know the answer until this fall.

Right now the new insecticide is very expensive, but if manufacturers go into production on it seed treatment-which would be similar to use of ceresan for plant disease control-should get down to about 50 cents an acre

Dr. H. G. Johnston, head of the A&M department of entomology thinks systemic entomology has a lot of possibilities, not only for cotton but for other crops, but during the week end: the first, before all the details are worked their dads.

### Supper Dance Given By Junior Club

Members of the Junior Woman's Club entertained with a supper Birthday Party For dance at the Ka-Bar Club in So nora Saturday evening. The social committee were in charge of arrangements for the evening.

Those present were Mr. and Mrs. Harold Scherz of Sonora, Mr. and Mrs. Joe Wagley, Mr. and Mrs. Marvin McAngus, Mr. and Mrs. Grover Lee Johnson, Mr. and Mrs. Grover Lee Johnson, Mr. and Mrs. were given as favors. E. C. Peters, Mr. and Mrs Bill Mc-

Ozona.

The Eldorado chapter of the Order of the Eastern Star entertained the local Masonic chapter with a buffet supper Monday night.

OES members presented a short away and hid under the house. This W. G. Godwin; a talk by Mrs. Nan reporter, Mary Tisdale. morning she found him coiled up in Montgomery, deputy grand matron the pansy bed again, and called Mr. of district five, section two; and a milligan, who killed him with a concluding talk on friendship by one visitor, Barbara Rutland—

Eldorado high school Eagles wind up a very successful spring training session, according to Coaches Ted Kirby and Bud Hopkins. At this time there will be a free game besecticides in the soil at planting tween the Eagles and a team made up of seniors and boys who will be ineligible next season.

The spring training has been taken up mostly by working on fundamentals such as tackling, blocking and ball handling.

Boys have shown a fine spirit and lots of hustle throughout the period, say the coaches. Those who have looked unusually good are Gerald Hicks, Glenn and Truman Biggs, John Phillips, Bobby Galbreath, and James Logan.

The following boys have participated in the practice at one time or another during the past thirty days, which is the maximum time allotted to any team by the Intersection I.

There have been lots of other school activities, as well as lots of llness, which have interrupted the spring training program and caused many of the boys to miss

frequently The following have been out and ndicated their desire to take part

in football the coming season:
Juniors: Glenn Biggs, Gerald
Hicks, O. T. Conner, Joe Ed Spencer, Durwood Rutland, Jack Mund. Sophomores: John Phillips, David Powell, Sammie Whitten, Roger Sofge, Truman Biggs, Bobby Galbreath, James Logan.

Freshmen: Bill Cheek, McDale Farrington, Bubba Alexander, Wilson Humphrey, Buddy Whitley, Vernon Phillips, Winfield Fry, Elton Harris, Truett Stanford, Buddy Estes, Bill Bearce, Pinkney Craig, Billy Tom Young, Jimmy

Eighth grade: Lynn Griffin, lickey McCown, Jerry Perry Mickey McCown, Wayne Dickens, Billy Gene Edmiston, Sonny Owens, Alfred Fore, Landon Turnbow.

The lineup will be according to League rules, and will be made up

## **Next Week Is Designated** As City Clean-Up Week

Next week is Clean-Up Week in Eldorado!

"We're getting the city cleaned up early this year," carrying out Schleicher County's says Mayor Carrol Ratliff; who explains that the city will school building program, the old be sprayed the following week, thus preventing breeding high school will be razed in a few of flies and mosquitoes before hot weather sets in.

City fathers stress the fact that cooperation in next week's clean-up campaign must be 100 percent. All alleys and vacant lots must be cleaned of trash, and the debris placed along the road easily accessible to trucks, and in containers which the haulers can handle.

It is further explained that anything which can be handled will be hauled away. The city is hiring addition-Dean Clark, Estella Beadle, Nelva al trucks to take care of the extra trash, and such waste June Bolt, June and Jane Craig, as limbs of trees will be hauled away if the men can handle

> The following week the clean city will be sprayed thoroughly with DDT, and it is expected that the early start will prevent breeding of insect pests.

> Mayor Ratliff urges that alleys especially be given a thorough cleaning, as dirty alleys breed disease-bearing insects, present an unsightly appearance to the general public, and provide fire hazards by obstructing free passage of fire trucks.

## FORD PICK-UP TO 4-H CLUB

The use of a Ford pickup has

turned at the end of one year, or and replaced with a new one for the following year's use.

### New Skelly-Jackson Test To Be Spudded In

Campbell is expecting to spud in surface hole on Skelly No. 3 Jackson oil test this week. Ground has been cleared, and Ice Brothers has been awarded the drilling contract and will return soon to the county.

The test is 2310 from south, 330 from east of section 42, block LL, 4500 feet, rotary, Eldorado field, 990 feet west of same operator's No. 2 Jackson producer.

## Columbus, Ohio, was elected president general. The new administra-**Granted Additional Acreage**

Additional acreage, unofficially estimated at 1500 acres, was granted to Schleicher county cotton growers, when the Review Committee met with Schleicher county growers Monday.

The review committee was composed of Ben P. Palmer of Hext, Marvin H. Carr of Sherwood, and Ray R. Ellis of Menard.

Schleicher county was originally granted 4999 acres. The allotment was figured on the basis of 45 percent of cake were served to the above and the highest acreage of 1946-47-48, or 65 percent of the three-year average for those same years.

Because the Bureau of Agricultural Economics had cut the acreage for this county, the review committee was appointed to review the cases here Monday.

An average increase of 19 percent was granted to local growers. Of the 75 growers helped by the new law, 49 presented their cases Monday and all were granted increases. Two of the larger growers, Ray Bruton and L. Moore, were given 200 additional acres each, and others smaller amounts.

Those new 1949 growers without previous plantings have been practically eliminated from the cotton program. The 200 acres set aside for new growers under the new law must be divided among 23 applicants.

Joe B. Edens and John Williams of Schleicher county will go to Menard Friday to serve on a review committee

## Prayer To Our Heavenly Father

Matt. 6
In the 6th chapter of the book of Matthew our Lord deals with prayer and how we should pray. In Luke 18:1 Christ stated, "Men ought always to pray and not to faint." Then in I Thess. 5:17 we read, "Pray without ceasing." Today, many people pray loud and long. Many beautiful prayers wend their way upward only to be empty, void of the true purpose, therefore meaningless to God. Let us notice a few things about the purpose of prayer from the Biblical standpoint.

We are to pray for those who despitefully use us and persecute us, that is our enemies. Matt. 5:44. We are to pray for our daily bread. Matt 6:11. Prayer is to be made for all saints. Eph. 6:18. Christians should pray lest they fall into temptation. Luke 22:40. Pray for the sick, James 5:14, and "...but in everything by prayer and supplication with thanks-giving let your requests be made known unto God."

It is worthy to note that in every passage quot-ed, as will be found everywhere, only those who were doing the will of God were admonished to pray. Todoing the Will of God were admonished to pray. Today, people have taken prayer out of its proper
place and are teaching sinners to pray. In this, the
usual reason is that they might obtain salvation. Yet
we hear in John 9:31, "For we know that GOD
HEARETH NOT SINNERS, but if any man be a
worshipper of him and doeth his will, HIM HE

Matt. 6:10. Matt. 26:39.

HEARETH." In this quotation we read that God does not hear sinners. Therefore a man must do his will, or be a Christian before God hears him. Can a man who is an alien sinner pray for salvation? He could not because God does not hear and answer the prayer of a sinner. If you do not believe this, read again John 9:31 and decide whether you will believe the Bible or some man today.

Other people endeavor to heal the sick with prayer only and never use any medical means whatsoever. This is not the Biblical teaching. We could just as easily pray for our daily bread to come down to us, already prepared, without us doing any work for it ourselves, as we could expect God to heal the sick without us doing anything for them. Yet, we know that if any man will not work, neither should he eat. II Thess. 3:10. We are to pray for our food, yet at the same time do all we can to obtain it ourselves. Likewise we read in James 5:14 that if any is sick, let the elders of the church pray over them, ANOINTING THEM WITH OIL in the name of the Lord. In our modern day language it would mean ANOINTING THEM WITH OIL in the name of the Lord. In our modern day language it would mean give them medical care. The Lord expects us to do as much for the sick as we can, then leave the rest up to him. Always, also, we must pray that whatsoever we ask of God be consistant to his will and his will be done on earth as it is in heaven, not ours.

"The Churches of Christ Salute You."—Rom. 16:16.

### Govt. Farm Program Defended By Fisher

actually cost the taxpayers only Corn \_\_\_\_\_ 46.8 million of that. 1.0 million during the 17 years thas been in effect, according to Eggs \_\_\_\_\_\_ 39.2 million figures recently compiled by the Hemp & hemp fiber\_\_ 21.5 million Commodity Credit Corporation.

This is a far cry from the outlandish claims that have appeared Others \_\_\_\_\_ 27.0 million and his family. On Sunday, Rev. removed in some newspaper stories and over the radio in recent months. One irresponsible columnist said the cotton supports cost \$600 million! A month or so ago a new lobby was chartered, called "Abolition of Farm Price Supports, Inc."

Other press reports have put ing and confusing stories on the subject.

Now, what is the truth about the farm program? No one can defend to the \$140 million. the cost of the aid to potato growers. Other perishables have been too expensive for a sound system. Hearings are now under way to find better answers to these problems. Certainly they must be taken out of the red or their costs greatly reduced if the program is to continue as applied to them.

An analysis of various estimates reveal that high total figures of support costs include such items as section 32 funds and the wartime consumer subsidy costs, neither of which have anything to do with price supports. Section 32 funds (representing 30% of customs receipts on agricultural imports) have not been expended for price supports at all. That money goes research, export subsidies school lunches, etc. Yet the total of \$1,743,960,000 spent under section 32 is often included in the cost estimates for price supports in newspaper stories on the subject. Another frequent error reporters fall into is the inclusion of \$2 billion in price support outlays by CCC, which was actually spent for consumer food subsidies under the OPA program during the war and had nothing to do with support of farm products at all.

The CCC has reported a breakdown of its activities since the farm program began in 1933, thru Feb. 28, 1950, showing a net loss under price supports on commodities acquired and disposed of, in the amount of \$495,000,000. Here are the important items:

Commodities on which there

Cotton	_ 206.0	million
oacco	5.3	million

Ford's the first car ever to receive the coveted New York Fashion Academy medal in two consecutive years

All the world of Fashion looks to New York's famed Fashion Academy as an authority on style. So it's no wonder Ford is proud to re-ceive their medal as "Fashion Car of the Year" for the second straight year. Never before was a car honored by two Fashion Academy Awards in a row! Here's proof that Ford has succeeded in bringing style to the low-price field—style even far costlier cars can't match.

Named Fashion Car of the Year' second year in a row

And handsome is as handsome does. A "Test Drive" will show you the quality that makes the '50 Ford the one *fine* car in its field. You'll feel the smooth, quiet getaway power of Ford's new V-8 engine (or advanced "Six" if you prefer). You'll feel the 35% easier acting King Size Brakes. You'll feel the "Mid Ship" comfort of Ford's 13-way stronger "Lifeguard" Body . . . now "sound-conditioned." Yes, here's quality you'll see, hear and feel when you "Test Drive" the '50 Ford.

# What's the secret of the

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is importanthow power is transmitted to the rear wheels.

We agree-and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers - we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames-and car weight - and engine mountings, which on Buick are a very special kind used nowhere else.

They're all important - yet the plain truth is no one of these things-or two or three-gives a ride you can truly call "unruffled."

We feel it takes all of them springs, tires, shock absorbers, drive, engine mountings - carefully and precisely brought into balance with each other.

You can see why we think so in any Buick-SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones

and car tracks, washboardy gravel and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick-especially when it has Dynaflow Drive.\*

So we would like you to try a ride that is truly "unruffled." Free of harshness-undisturbed by jounce and jitter-level-steady-goingsmooth.

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"-and the buy of a lifetime

\*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on Super and Special models.

## FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

## Only Buick has Dynaflow and with it goes:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights . WIDE-ANGLE VISIBILITY, close-up road view both forward and back . TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ridesteadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

Phone your BUICK dealer for a demonstration-Right Now! Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.
