

Schleicher County Oil News

Special from James C. Watson—Midland, Texas

Hiawatha Oil & Gas Company No. 1 J. Forrest Runge, northwest Schleicher county wildcat discovery has been completed for a calculated 24-hour potential of 470 barrels of oil and no water from pay in the Pennsylvania lime. The pay section had been treated with 1,200 gallons of mud acid.

Gas-oil ratio during the potential test was 1800-1. The oil was flowed through a 1/4 inch tubing choke. Casing pressure was 1,550 pounds. Flowing tubing pressure was 1,900 pounds. This new discovery has seven-inch casing set at 5,624 feet. Total depth is 5,675 feet. The casing is perforated at 5,612-20 feet. The oil is coming from both the open hole and the perforated section.

The new producer is 12 1/2 miles northeast of Eldorado and two and three-quarters miles northeast of the discovery well in the Huldale-Strawn field. It is 660 feet from south and west lines of section 66, block M, GH&SA survey.

Runge Offsets

Northeast and east offsets were staked Tuesday to Hiawatha No. 1 J. Forrest Runge, northern Schleicher county's latest Pennsylvania lime strike, which took a potential gauge Sunday.

Hiawatha No. 2 Runge will be 330 feet out of the southwest corner of the NE 1/4 of the SW 1/4 of section 66-M-GH&SA. It will be drilled by Delaware Drillers, Inc., of San Angelo with the same rig used on No. 1 Runge.

Strake No. 1 Runge will be 330 feet out of the SW corner of the SE 1/4 of the SW 1/4 of section 66-M-GH&SA. C. B. Drilling Co. of Abilene has the contract.

Huldale Offsets

Delta Gulf Drilling Company and others of Tyler have staked location for two more prospectors in the one-well Huldale-Strawn field of north-central Schleicher Co.

The company's No. 1A H. F. Thomson will be drilled 467 feet from north and west lines of the southeast quarter of section 71, and will be a west offset to Pan American No. 1 Thomson, which is a south offset to the Delta Gulf field discovery.

The same operator will drill the No. 1B Thomson 1600 feet from north and 467 feet from west lines of section 82, block TT, TCRS survey. It will be a south offset to American Republics No. 1 Thomson which is a southeast offset to the discovery.

Bobby Manziel No. 1-53 University, wildcat failure in the Ellenburger of northwest Schleicher County, is still at plugged-back depth of 2,140 feet in a lime identified by some geologists as San Andres.

Location is 2,060 feet from south and 660 feet from west lines of section 17, block 53, University survey. No reports on tests in the San Andres have been reported as yet.

The Ohio Oil Company No. 1 McIntosh, 7200-foot Ellenburger wildcat in south-central Schleicher county, is drilling in shale below 4,846 feet. The drillsite is 660 feet from north and 1,980 feet from west lines of section 22, block 9, TW&NG survey and 10 miles southeast of Eldorado.

In the Huldale-Strawn area of north-central Schleicher County, Ohio No. 1 Thomson, is drilling below 2,745 feet in shale. It is a one-location east offset to the discovery well.

Pan American Production Co., No. 1 H. F. Thomson, another Huldale exploration, is progressing below 4,320 feet in shale. It is being drilled 1,401 feet south of Delta Gulf's discovery well.

Brushy Top Area

Sinclair Oil and Gas Company and C. L. Norsworth Jr., and Lone Star Producing Company have each staked offsets to the discovery of the Brushy Top field of north Sutton and south Schleicher Co.

The Sinclair project will be drilled 330 feet from north and 990 feet from west lines of the NE 1/4 of survey 66, certificate 35, abstract 245, block A, HE&WT survey. That makes it a one-location southeast offset.

The Norsworth and Lone Star project is slated for drilling 990 feet from south and 330 feet from east lines of section 67, block A, HE&WT survey. That makes it two locations east of the discovery well of the field.

Both prospectors will be drilled as No. 1 Steen.

Guests of Mr. and Mrs. Houston Thigpen on the Steen Ranch Sunday were Mr. Thigpen's sister, Mrs. O. R. Young and children of San Angelo, and Mrs. Thigpen's niece and her husband Mr. and Mrs. Frank Crawford, Jr., and daughter Carol Jean of Big Lake.

NUMBER 6

Legion Meets Tonight, Sponsors Heart Drive

Because of the bad weather last Thursday, the American Legion meeting was postponed until tonight. It will be held in Legion quarters in the Memorial Building, and will start at 7:00.

A major project of the Legion is the sponsoring of the Heart Drive, which opens Monday with L. E. McCalla and his assistants in charge. They expect to display material sent out by headquarters, and will take donations for the drive, which will be on for one week.

George Long Opens New Variety Store In New Building Here

Mr. and Mrs. George Long have opened their new variety store and are now doing business in their new location. The doors were opened to the public earlier in the week, and the store has now put in several full-time selling days.

The building, a 30 by 70 foot structure, is located on the site of the old McWhorter business building. It is modern throughout. The interior finish is all in light colors, and shelving and tables, built to order, are of a light limed shade.

The Longs are not new in the Eldorado business district. For many years they operated their store in the McWhorter building, selling out to Bob McWhorter when he returned from service, and he in turn has since sold out to J. L. Ratliff and gone back to service.

The Longs announce that they are carrying a stock of variety goods, dry goods and hardware, and more goods are arriving daily. They have had some difficulty in getting delivery on some items, which are short, but state that they are well pleased with the new stock which they have on their shelves, and that the response which the public has made this week has been generous.

Both of the Longs have had many years of experience in the business, and both will continue to wait on customers and take care of their trade as they formerly did.

WELFARE ASS'N MEETING IS SET FOR WEDNESDAY

Wednesday, February 14, is the date set for the Schleicher County Welfare Association meeting, at 3:00 in the Memorial building. All who are members of the Association, both outgoing and incoming delegates, are urged to be present at this most important meeting.

In addition to the members of the Association, anyone else who is interested in the work of the Welfare Association is invited to attend. Mrs. Ray Willoughby, chairman of the charity drives in San Angelo, will be here to explain the work, and to answer questions those present may wish to ask.

PAYS FINE

Gaston Wayne Blair, Quitaque, Texas, was arrested near Eldorado Tuesday on a charge of driving while intoxicated. He pleaded guilty in county court here yesterday and paid a fine of \$50 and costs, totaling \$73.60. He is employed with one of the drilling companies in this county.

Mr. and Mrs. Bob Skurlock visited Tuesday evening in Mason, with Mrs. Skurlock's parents, Mr. and Mrs. Jim Behrens.

MENARD AND EDEN NEWSPAPERS CHANGE HANDS, AND PUBLISHERS TAKE POSSESSION OF BUSINESSES

Two neighboring newspapers have changed ownership—The Menard News and the Eden Echo. Both deals were announced in their issues of February 1.

Hugh B. Thompson, Rocky Mountain area newspaper man, bought the Menard News from N. H. Pierce, who had owned the paper since 1936.

The Thompsons have two children, ages fifteen and seven, and moved to Menard from Salt Lake City, Utah, where Mr. Thompson has been city editor of the Salt Lake Telegram. He has previously published a newspaper at Socorro, New Mexico, and has held various editorial and Associated Press jobs.

He has been active in Rotary work, and has been a basketball and football official in the Mountain area.

For the past two years, Edgar Pierce, son of N. H. Pierce, has been publishing the News, assisted by his wife, under lease from the owner.

Echo Sold

J. F. Horton sold his Eden Echo to Walter F. Dufraim, experienced

Poll Tax Payments Food For 'Off' Year

The Schleicher County tax collector's office reports that a total of 692 poll taxes were paid in this county for the current year. The closing date for paying poll taxes was January 31. While the above figure is over 200 less than last year, it is considered a good record for an "off" year. Poll tax payments last year totaled 810, and next year they are expected to jump to an alltime high.

Cotton Farmers Meet In Planning Session

"The Secretary of Agriculture has issued an appeal to the farmers of this nation to produce at least 16 million bales of cotton in 1951," County Agent W. G. Godwin said at a meeting of Schleicher County cotton producers Wednesday afternoon. The meeting was held in the Memorial building and was attended by a number of interested cotton men.

This new appeal by the Secretary of Agriculture, along with the earlier easing of cotton quota restrictions, has focused attention on the growing of cotton in this county, Godwin pointed out. He cited figures to the effect that domestic needs, increased exports, and the rearmament program all point to the need for more cotton.

Domestic consumption of cotton in the current year seems likely to be 10 million bales or more; cotton consumption goes up and down with industrial activity; our national population has increased more than 14% in the past ten years; the average American citizen has grown accustomed to consuming more cotton than he did before the war. Godwin illustrated his remarks with a chart which gave the figures.

The need for cotton in this country comes home to us more sharply when we look at the specific requirements of our military forces, Godwin continued. The Quartermaster corps will need cotton as much in the next war as in the last, when cotton was recognized as being second only to steel as an essential war commodity. It will take half a bale of cotton per man to supply the needs of the military, in making possible the 11,000 cotton articles used by them.

Increased cotton exports are a result of our allies' rearmament programs, and continued aid to ECA countries. Less foreign cotton is being grown.

Godwin also pointed out that if a cotton shortage developed, it would encourage the government to build factories for production of synthetic fibers and paper, which would be competitive in peacetime as well as during war.

In getting the problems of cotton production down to a local level, Godwin and the farmers discussed the use of insecticides and poisons in the farming process. Since Schleicher is dryer than some areas, cotton production is made more difficult. All expressed confidence, however, that rain will come in time for the crop, and some said that 25,000 or more might be planted in cotton by next year.

Sam Gausemeier, George Mikaska, Henry Moore, and Payne Robinson were appointed to a committee to survey cotton farms in the county to determine the amount of insecticides needed, and the number of sprayers and dusters to be put in use. This group will also look into the possibility of dusting crops from the air.

FIRST BAPTISTS TO HOLD OPEN HOUSE HERE ON SUNDAY

Scores of members and friends both resident and from out of town, are expected to converge on the First Baptist church here Sunday when special all-day services observe completion of the two-story educational annex and renovation and remodeling of the older church structure.

Visitors will be shown through the building and will be served dinner at noon, immediately following the morning services.

Dr. A. J. Quinn, former pastor of the Eldorado church, and now of Amarillo, will speak during the morning service, which will be preceded by Sunday school, and followed at noon with lunch served in the church basement.

The choir will sing during the afternoon services starting at 2:00 o'clock, and other former pastors will speak. Training Union will meet at 7:00, followed at 8:00 by the evening worship.

The complete program, as announced for Sunday, is as follows:

Sunday School 9:45

Morning Worship 10:55

Prelude, Organ.

Processional, "God of Our Fathers."

Call to Worship Hymn, "Praise God from Whom All Blessings Flow."

Invocation.

Hymn, "Praise Him."

Hymn, "Amazing Grace."

Announcements.

Responsive Reading.

Hymn, "Jesus Calls Us."

Offertory Prayer.

Choir Response.

Offertory, Organ.

Tithes and Offerings.

Choir, "Thanks Be to God,"—Dickens.

Scripture.

Solo, "How Lovely Are Thy Dwellings," Lavelle Meckel.

Message, Dr. A. J. Quinn.

Invocation, "Where He Leads Me" Benediction.

Postlude.

Noon

Lunch served at the church for all who will come.

Afternoon Program

Hymn by congregation.

Choir numbers: "God So Loved the World," Stainer; "The Lord is My Shepherd," Smart; "Deep River," Spiritual; "Almighty God Unto Whom All Hearts Be Open," Pears; "My God and I," Whittall; "Angels of Jesus," Uldermere.

Messages, former pastors.

Benediction.

Evening Service

7:00 Training Union.

8:00 Evening worship; baptismal service. Choir will also sing. All our friends invited to attend these services.

GOODWILL PARTY ARRIVES HERE TODAY

A good-will party from the San Antonio Livestock Exposition and Rodeo will arrive in town at 5:15 today to give a free "Western Jamboree," it was announced recently. The show will feature the Texas Tophands of Station KABC.

Angelo Stock Show Will Start March 1

SAN ANGELO, Feb. 3.—San Angelo's 18th annual Fat Stock Show will have more champion livestock on parade when it gets under way next month than any previous show in its history.

More than 2,100 head of livestock have been entered in seven departments in competition for \$6,826 in premiums. Last year's show boasted some 2,000 entries. The 1951 show is scheduled for March 1 through 3 at the San Angelo Fairgrounds.

In addition to the livestock show, a junior college livestock judging contest will be held. Seven junior college judging teams have been entered in the event. They are: San Angelo College, Ranger Junior College, Paris Junior College, Weatherford College, Wharton County Junior College, Southwest Texas Junior College and Laredo Junior College.

The program will begin on Thursday, March 1, with the Boys' Show. Livestock judging during the opening day will be held in the Fat Lamb Show, Hereford Cattle Show, Breeding Swine Show, Fat Pig Show and Brahman Cattle Show.

During the second day of showing, the following shows will be judged: Fat Steer Show, Rambouillet Sheep Show, Suffolk Sheep Show, Southdown Sheep Show, Aberdeen-Angus Cattle Show, Delaine Sheep Show, Hampshire Sheep Show, Corriedale Sheep Show, and Shropshire Sheep Show. The junior college judging contest will begin on Saturday morning, March 3 at 8 a.m. The show will close with the Boys' Sale, to start at 9:30 a.m. on the closing day.

RESIGNATION OF LOCAL PASTOR ANNOUNCED HERE THIS WEEK

Concluding 9 1/2 years as pastor of the Eldorado First Baptist church, Rev. Jim Hays announces that he will leave his charge here on February 15, and move to Brookshire where he has been called to preach.

Rev. Hays preached his last ser-

mon Sunday night. He will be here through the services observing completion of the new educational building next Sunday, but visiting pastors will be in the pulpit.

While the completion of the annex is a culmination of his years of service here, he has other accomplishments to his credit.

During his ministry the natural gas heating system was installed in '41, the streets were paved around the church and the organ bought and installed in 1947; the Mexican mission building was built in 1945-46. The stained glass windows were installed as memorials in 1950-51, the educational building was built during that same time, and the denominational paper was put in every home.

He has also been active in associational work, and has been chairman of the Concho Valley Association's executive board over eight years, member of the executive board of District 16, and member of the Board of Control of the Lake Brownwood Encampment.

Under his leadership the church has grown substantially in numbers and gifts.

The Sunday School has grown from 200 to 300, the Training Union from 56 to 123, and the membership has grown from 243 in 1942 to a present figure of 506. There have been 537 additions, 163 for baptism.

Gifts increased from \$787.59 in 1942 to \$3,749.33 in 1950 for benevolences to missions.

The annual budget increased from \$5,042.30 to \$14,131.29, plus \$14,500 for the new building. Total gifts were \$112,097.20, of which \$22,000 has been given to benevolences and missionary work.

Rev. Hays is modest about his own part in the growth of the church and its work when he says, "If there is any credit to be given, it must go to the faithful Christian people of the church, as each group of church members builds upon what the preceding group has built—so every pastor builds on the foundations laid by the preceding pastors."

Rev. Hays has been an active member of the Lions Club, has worked for civic betterment, and has participated in worthwhile projects in city and county on many occasions. His friends know him as a tireless worker and a consistent Christian.

Mrs. Hays, with her musical talent and her leadership ability has also shouldered responsibility during the time her husband has served the church as pastor. She has been intermediate department superintendent, teacher of the young women's class, superintendent of the Junior department, Training Union elementary department director, for eight years leader of the church choir, and soloist on many occasions at the church and elsewhere, for the past year and a half president of the WMU of the Concho Valley Association which comprises five counties and 25 churches.

She has also been active in women's organizations of the city.

Rev. Jim Hays

Mrs. Jim Hays

FORD SALESMAN JAMES WILLIAMS GETS BIG HONOR

The honor of being fourth of the ten top salesmen in the entire Dallas District of the Ford Motor Company goes this week to James Williams, salesman for Trigg Motor Company of Eldorado.

In a letter written February 2, D. R. Crandall, Jr., district sales manager, informed Triggs of the honor which had been won by Williams, and listed the ten top salesmen, the name of Williams appearing as No. 4 on this list.

Dealerships so honored were Brownfield, Ralls, Abilene, Eldorado, Snyder, Sulphur Springs, Brady, Sweetwater, Snyder and Lubbock.

The record was based on the entire 1950 sales totals representing the year's work done by the salesmen.

Horace Linthicum has been spending part of the week in San Angelo because of the death of an uncle, R. C. Linthicum.

ANGULAR LEAF SPOT or bacterial blight can be stopped

Angular leaf spot, bacterial blight, boll rot, vein blight or black arm. These are all names for the same thing, and they all mean bad news for you as a cotton grower. The blight causes death of seedlings, defoliation or loss of leaves from the plant, and shedding or rotting of bolls. It all adds up to less cotton per acre.

As the name shows, it is caused by bacteria. The germs live in the seeds, and grow up in the cotton plant to cause various harmful results.

Clearly the way to wipe out this disease is to plant disease-free seeds. You can make sure that your cotton seeds do not carry the disease germs by killing the bacteria before you plant, using an organic mercury dust. You can do this on your own premises, or have it

done by the seed treating service of your local gin or seed supplier. The chemical costs less than 10¢ per acre. Other control methods include delinting of seeds with sulphuric acid or by hydrochloric acid gas. These are harder to apply, but also effective.

Because wind-blown rain spreads bacterial blight readily from one field to another, its control is a job that all the planters in an area should do together. Otherwise one field planted with untreated seed might re-infect all the others. It will pay every planter to stamp out bacterial blight in his fields. Planting seed that has been mercury dust-treated will not only reduce this disease, but will reduce seed decay and damping-off (sore shin) organisms, too.

MORE and BETTER COTTON

Soil Cons. Service To Meet In Oklahoma

OKLAHOMA CITY—More than 2,000 farmers and ranchers will converge on this city Feb. 20 for a three-day conference devoted to the one interest common to all of them—conservation of the nation's soil and water resources.

The occasion is the annual convention of the National Association of Soil Conservation Districts, expected to attract the elected leaders of soil conservation districts in all parts of the nation and from its territories.

Oklahoma City's central location, increasing interest in soil conservation, and the key spot occupied by agriculture in the nation's defense picture are factors which make Waters S. Davis, Jr., association president, confident that attendance at this year's meeting will top 1949's Atlanta convention figure of 1,500 by at least 500 persons.

Davis, South Texas cattle rancher, and other association officers have arranged a varied and comprehensive program which includes speeches by Secretary of Agriculture Charles F. Brannan on the convention's opening day, and Dr. H. H. Bennett, chief of the U. S. Soil Conservation Service, on February 22.

The program also includes meetings devoted to regional soil and water problems, panel discussions led by nationally recognized conservationists, presentation of achievement awards, election of new officers and directors, and a full round of entertainment for delegates and their wives.

Slated at a time when the American citizen is openly concerned about the prospect of world conflict and what it could mean, the convention promises to be a brass tacks, "do something" affair.

The work of soil conservation districts in developing a more dependable wartime agriculture, the speeding up of the job of protecting and improving the nation's productive land, and water conservation and river basin development—these are among the problems to be discussed by the convention delegates.

Commented President Davis, "I am counting on every delegate to roll up his sleeves and help us plan working policies. With the present international situation, these policies will help gain recognition of soil conservation districts and their program as one of the most important elements of our long range national planning."

Visitors interested in agricultural flood control may see an outstanding example of this work on the Washita River watershed in Oklahoma. Many thousands of acres of Washita River bottomland that were unprofitable are now turning in a profit as the result of the protection they are getting.

And in the other aspects of soil and water conservation, Oklahoma offers the visitors a splendid chance to see the effectiveness of many other coordinated practices, which keep soil in place and provide for continuing soil improvement.

Soil conservation district leaders in Kentucky and North Dakota already have announced that their states will be represented by chartered bus delegations. And Nebraska, which topped other delegations at last year's meeting, is expected to bid again for the honor.

As the reservations continue to flow in, Oklahoma City hotel and tourist court operators are taking another count of guest facilities and wondering just how large the February invasion will actually be.

The local leaders of the nation's program to use soil and water scientifically will have headquarters at the Skirvin Hotel and hold convention sessions at Municipal Auditorium.

Veteran Questions

Q—My nephew was discharged from the Army because of a wound he received in Korea. Is he entitled to VA hospitalization to have his service-connected disability treated, even though he is not a World War II veteran?

A—Yes. All veterans are entitled to hospitalization by VA for treatment of service-connected disabilities.

Q—I obtained National Service Life Insurance when I went into service eight years ago. I believe the policy's term has expired, but I haven't been notified of the fact. I am still in service. What should I do to renew my term policy?

A—Because you are in service, VA will automatically renew your term policy at the higher rate for your age, and your branch of service will deduct the higher premium from your pay. Your service will attempt to notify you in advance of this action. If you do not want the new policy, tell them then. Meanwhile, if you want to know the status of your policy, write to the Insurance Accounts Service, Veterans Administration, Washington, 25, D. C., giving your full name, address, service number and insurance policy number.

Q—I filed a claim for a non-service-connected pension, and I have a question about the \$2,500 per year income limitation which applies to me as I have dependents. I received a check on December 26, 1950, for selling real estate, but I won't cash it until 1951. Is the check considered income for 1950 or 1951?

A—The check must be applied to your 1950 income. The general rule is that acceptance of a check results in income in the year it is received, even though it is cashed later.

News From Our Neighbors

Road For Big Bend

Work on the third 20-mile section of State Highway 118 (Alpine-Big Bend National park road) south of Alpine has been completed except for topping. O. D. Burleson, contractor, said this week, and all equipment has been moved to other locations.

Mr. Burleson said that topping of the 20-mile section will be started early in April.

Mr. Burleson also stated that he had completed work, except for topping, on a farm-to-market road in Presidio county, on the Rio Grande. He plans to start work on the highway project in the Big Bend park within the next ten days, he stated. —Alpine Avalanche.

Terrell Needs Rain

Terrell County was short 7.49 inches of rainfall in 1950, according to records of The Kerr Mercantile Co. official gauge, as compared with the average of 16 inches per year noted in the Texas Almanac. There is no official weather station in the county to record the rainfall over a long-time period previously, but according to figures from the last few years, there was an average of 16 inches in the county's precipitation. —Sanderson Times.

Double Or Nothing

Twin Hereford calves, a rarity in the animal world, is becoming an annual affair on the Roy Spiller ranch. Last year a good "white face" produced the first set of twins on the ranch and the first

ever reported in the community. Last week still another Hereford cow on the ranch gave birth to twins. —Junction Eagle.

Contract For Menard-Brady Road

Forging another link in Farm-to-Market Road No. 42 which will cut the distance from Brady to Menard to 31 miles, the State Highway Department this week awarded contract to Killian & Kellar Construction Company of San Antonio, for the construction of 12 miles of the road from the Menard County line to the Nine road. The contract also calls for a three-mile spur to connect with Calf Creek.

Killian & Kellar, who bid \$139,000 for this part of the new road, are contractors on the five-mile stretch which ties in with the terminus of FM 42 at the Davis school and connects with the Nine road. This part of the road is now well under construction.

Ben Dillon, area engineer of the highway department, announced letting of the new contract and said that construction of the final phase of the Menard road would begin about March 1 and should be completed in August. Contractors have 180 working days.

Killian & Kellar were the contractors on the Voca road. —Menard News.

Leases Hospital

G. T. Ball, medical technician, who has been associated with the Boerne hospital for the past three years, has accepted a one-year lease on the Ozona hospital effective upon his arrival anytime between February 1 and March 20.

Announcement of the lease was made yesterday by County Judge

Houston Smith following receipt of the signal lease contract from Mr. Ball.

Under terms of the contract, Mr. Ball takes a one-year lease on the hospital and the second floor offices at a rental of \$50 per month payable to the county, the hospital manager to receive revenue from sub-rental of office space to doctors and dentists on the second floor of the hospital building. —Ozona Stockman.

Tax Survey Planned

A comprehensive survey of all taxable property in the city of Fort Stockton, excepting cars and personal possessions is to be made under terms of a contract executed Tuesday night by the City of Fort Stockton and the George G. Ehrenborg Co., appraisal engineers of Dallas.

Mayor Elbert Boatman yesterday stressed the fact that purpose of the survey is to provide a really equitable long-rate basis for city taxation and that no increase in total revenues is sought, but rather the proper placement of the actual fair tax load on every piece of property. —Fort Stockton Pioneer.

Church Dedicated

Terming it a "magnificent house of worship," Bishop A. Frank Smith of the Houston area preached the dedication sermon and presided at the ceremonial dedication of the new Methodist Church of Ozona Sunday morning.

The \$225,000 debt free church was officially dedicated at the morning service in the presence of a congregation composed of members and friends of the church

which filled the sanctuary to capacity. The structure was occupied the first time on Easter Sunday, 1949. The remaining debt against the church, of \$60,000, was wiped out as the culmination of a financing campaign carried on through December. —Ozona Stockman.

Eldorado Artist Heard In Recital

Eighty Sonora Music Club members and guests heard the program and piano music presented by Joseph Kreklow of Eldorado at the home of Mrs. Edwin Sawyer last week.

Hostesses for the entertainment were Mmes. E. E. Sawyer, Louie Trainer, and A. E. Prugel.

Mrs. O. G. Babcock presided at the tea table for the social hour following the program. —Devil's River News.

FARM CASH INCOME NEARLY TWO BILLION

Farm cash income in Texas totaled \$1,622,533,000 in 1950, sliding 13 per cent from \$1,860,722,000 in 1949, the University of Texas Bureau of Business Research reported.

Farmers in the Black and Grand Prairies had the largest dollar income in 1950—\$225,280,000. Southern High Plains with \$245,461,000 ranked second and third.

All crop-reporting districts, except three, reported yearly declines in farm cash income in 1950. Increases were in Edwards Plateau, 22%; Trans-Pecos, 13%; and Coastal Prairies, 3%.

ESTERBROOK fountain pens, \$2. —At the Success office.

**The More He BREAKS
The More He MAKES**

Texas motorists, Texas highways and Texas taxpayers should be protected against the ONE PER CENTERS.

ONE PER CENTERS are truck combinations weighing, loaded, 20,000 pounds or more. Only one of every 100 vehicles registered in Texas pays a license fee for 20,000 pounds or more. FEWER than three out of every 1,000 are registered for more than 40,000 pounds.*

Our highways should be SAFE for ALL the people—individuals, commercial users and the military alike.

Texas highway tax dollars should be conserved and used wisely. This can be done

- (1) by limiting the weight (gross load and axle load) that may be transported legally by the ONE PER CENTERS and
- (2) by enforcing the law against those who persist in overloading.

*"The Case of The One Per Centers," an article in The Texas Tax Journal, July-August, 1950

Texas highways are paid for by and belong to ALL THE PEOPLE. Highways adequate for 99% of Texas users—individual and commercial—can be constructed and maintained for about ONE-THIRD of the cost made necessary by the weight of the ONE PER CENTERS.*

This is your problem. Send for your copy of the booklet, "THE CASE OF THE ONE PER CENTERS," which tells you, among other things, why

**THE MORE PAVEMENT HE BREAKS,
THE MORE PROFIT HE MAKES.**

From where I sit... by Joe Marsh

Blue Wins This "Hunt"

Cappy Miller's coon dogs—except for one of them, Old Blue—are about the finest hounds in the county. Blue's too friendly and easy-going to care much about hunting. He doesn't act the way we think a good dog should, so we figured he'd never amount to much.

But a fellow comes around Saturday looking for a good dog to photograph for some advertising. And the dog he picks is Blue! Says Blue's happy, friendly face is just the one to attract people's attention. So Cappy gets more money for that picture than his other

dogs will ever take in hunt prizes.

From where I sit, that should teach us not to look down on humans, when they act differently than we think they should. For instance, maybe you think tea goes best with food. O.K.—but don't size up wrong the man who enjoys a bottle of beer at mealtime.

Like Blue, I guess we're all "different" in one way or another—but that doesn't mean we don't have our good points, too!

Joe Marsh

Open House Sunday To Introduce New Baptist Annex

A two-story education annex and a renovated older building await the inspection of members and visitors next Sunday when the First Baptist church celebrates completion of their \$23,973 building program. Rev. J. M. Hays, pastor, and the congregation, expect many out-of-town former members and friends at the all-day meeting.

Visitors will be at the church all day. They will hear the morning address by Dr. A. J. Quinn of Amarillo, former pastor here; have dinner at noon, hear speakers in the afternoon, and will be shown through the annex and see all the other improvements.

Of the total cost of \$23,973, only \$4,250 indebtedness remains to be paid, Rev. Hays points out. \$2,000 went for auditorium improvements, and the church started their fund drive with about \$5,000 in the building fund. The building fund drive started last July, and since then about \$14,723 has been added, Rev. Hays said.

L. P. Cole of San Angelo was general contractor. The education annex is veneered with buff brick to match as closely as possible the brick of the old building. Interior walls are covered with sheetrock and textured and finished in light shades of green, blue, pink and gray. All rooms have blond wood-

work and venetian blinds on the windows. Ceilings are of Celotex, and floors are of varnished hardwood. The annex contains classrooms, assembly rooms, pastor's study, and rest rooms. Each room has a gas space heater.

The three-room nursery department on the first floor contains baby beds and furniture. Walls are finished in light blue and pink, and the department has a rest room and piano. Sandy King did some of the textoning and finishing of walls and made some of the furniture. Mrs. E. W. Perry is superintendent.

Also on the first floor is the Primary department with its assembly room and five classrooms. The piano in this department was a gift of Mrs. George Williams and family. Miss John Alexander is superintendent.

Furniture for all the departments in the new annex came from Sams & Sons, church furniture company, of Waco. Some classes finished their classroom furniture and have decorated their classrooms.

The young people's department is located upstairs with assembly room and four classrooms. Mrs. Carrol Ratliff is superintendent of this age group, 17 to 25.

Mrs. E. W. Mund's intermediate department is also located upstairs

with six classrooms and assembly room.

Intermediates and young people each have a piano.

The pastor's study is in the annex, near the outside entrance, and is already furnished and in use by Rev. Hays. The old study has been converted into a secretary's office, and has a new floor of asphalt tile, as do some of the halls.

Improvements in the auditorium cost \$2,000 of the amount of the program. New pulpit furniture was purchased and installed by the church. Blue velvet draperies have been added over the choir, and the choir seats have been rearranged. The blond woodwork scheme of the new annex is carried out to some extent in the remodeled choir.

The baptistry has been elevated at the rear of the choir, and over this, the tone cabinet of the Hammond organ is concealed in the wall.

Mrs. Jack Elder is painting a picture in the baptistry, and expects to have it completed by this weekend in time for Sunday's services.

Earlier in the season 24 lead-art glass windows were installed in the auditorium and all over the old building, except in the basement. These windows were given as memorials.

Some work has been done in the church basement. Mrs. Clyde Galbreath's Beginners and Mrs. J. M. Hays' Juniors meet there in their assembly room and classrooms. Two basement rooms have been converted into adult classrooms, one for older men, and one for women. The church library is also located in the basement. Basement rooms have been painted and finished and venetian blinds have been added.

Other adult classrooms are located in the auditorium balcony and on the third floor of the old building.

Officers of the church and Sunday School have worked all through the building project and were working this week with all departments to complete moving in to the new rooms. Officers include: W. T. Whitten, general superintendent; Mrs. L. M. Hoover, associate superintendent; Miss Fay McAlpine, general secretary; Mrs. George Williams, superintendent of extension; and Mrs. Fred Watson, secretary of the cradle roll department; in addition to the department superintendents already mentioned.

Other church officers include Mrs. L. M. Hoover, church clerk; L. M. Hoover, treasurer; and W. M. Ramsey, financial secretary. D. C. Hill is official representative to the district association. He is also chairman of the Board of Deacons, and W. O. Alexander is vice chairman. The board consists of about 14 members.

Training Union meets each Sunday evening at 7:00 throughout the various departments of the church school. Mrs. E. W. Mund is general director and Robert Bruton is general secretary. The Union meets in the Adult department, Intermediate department with Mrs. E. W. Mund, Young people, Juniors, and Elementary department with Mrs. E. W. Perry.

The new building is also the scene of the meetings of the Woman's Missionary Union which meets each Monday afternoon. Mrs. W. W. Davis is president.

The building program is the culmination of 9½ years of service by Rev. Hays to the Eldorado church. He pointed out that the efforts of the Building and Finance committees had been essential to the successful completion of the project. Building committee members are J. C. Ratliff, A. J. Halbert Sr., and Gus Love. Finance committeemen are W. T. Whitten, W. O. Alexander, E. W. Mund, Jim Hoover, and Don McCormick. Bob McWhorter was on the Finance committee before he was called back to service recently.

Two-Piano Numbers Featured On Program

The Woman's Club of Eldorado will present two San Angelo musicians in a two-piano recital, Tuesday afternoon at 2:30, February 13, at the Methodist Church. Appearing on the program also will be local musicians who will present several selections.

A silver tea will follow in the church parlors. The public is cordially invited to attend this musical program.

The pianists who will present the two-piano selections are Mrs. Wayne Davenport and Mrs. Ray Clary whose program is as follows:

1st group
The Organist, Lemont, Frothingham
Concerto Americana, Kasschau
2nd group
Tea for Two, Youmans, Merkur
The Rosary, Nevin, Howe
Canadian Capers, White, Merkur

Eldorado musicians who will have part on the program are Mrs. Wilson Page, soprano, and Mrs. James Page, organist.

Mr. and Mrs. Jim Daniels of Big Lake visited the Lynn Alexanders last weekend.

Critical Condition Reported For Grass

College Station.—The cured forage remaining on pastures in Texas at the present time is higher in quality than during any year in the last 10 to 20.

This higher quality is the result of slow growth made by the grasses during the dry weather last summer and fall, says A. W. Crain, associate pasture specialist for the Texas A&M extension service.

Because of the drouth, however, the plants were unable to store a reserve food supply in the crown and root systems. Since new spring growth is made from stored food, the plants are in a somewhat critical condition.

Crain warns that, due to this situation, proper management is extremely important when the grasses put up new growth in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats and other supplemental grazing crops this spring. This will allow the perennial pasture plants to get off to a start and avoid killing many of these plants.

When they receive adequate rainfall, the supplemental forage plants will grow rapidly and carry a large number of animals. Better utilization of the supplemental forage and better permanent pastures will result if the perennial grasses are not grazed for the first month or two after growth begins.

Presbyterians Hear Mission Book Review

A foreign mission program was presented by the women of the Presbyterian Church Sunday morning at the 11:00 o'clock hour, with Mrs. E. K. Bauer reviewing the mission book, "A Story to Tell."

Congregational singing of hymns and organ music preceded the book review, and a dinner in the church dining room followed, about sixty attending. In the absence of the president, Mrs. Sam Oglesby, Mrs. Edwin Jackson presided.

Before dismissal of the morning service, Moderator Sam Jones called a congregational meeting for transacting of church business.

Basketball Team Wins Half District

The basketball team has completed the season by winning championship of this half of the district. Tonight, Thursday, Mason and Junction will play off a tie for championship of the other half of the district, and the winner will play Eldorado. District winner will go to the regional February 23-24. Several Eldorado school representatives will attend the Mason-Junction game tonight at Eden and will make arrangements for the district game at that time.

The Isaacs rent house in the southeast part of town has been rented to the Moulder family of Snyder. Mr. Moulder is a welder.

Mr. and Mrs. Van O'Harrow spent the week end visiting Mr. and Mrs. Jack Whitley on a ranch, 35 miles south of Ozona.

Mrs. Charles M. Reynolds visited several days recently in San Angelo, with her brother, Henry Clark of Mertzon, who has been hospitalized there following a heart attack.

WMU CIRCLES MEET

"O Jerusalem, Our City for Christ," was the title of the mission study book which was reviewed by the Baptist Woman's Missionary Union this week.

Circle 1 met in the home of Mrs. Harry Lawson with eight present. Mrs. Fred Watson was chairman, and Mrs. Lavelle Meckel reviewed the book. Mrs. Meckel reported that the picture for Intermediate department had been purchased and framed.

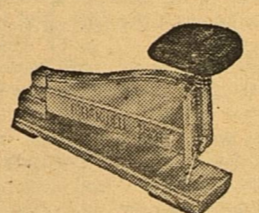

Circle 2 met with Mrs. E. W. Perry. Mrs. F. B. Calcote reviewed the study book for the six present.

Circle 4 met in the home of Mrs. B. E. Moore, with Mrs. Kenneth Cheek giving the book review. Mrs. Spencer was elected chairman for the remainder of the year.

Mr. and Mrs. Arthur Montgomery and children of Van Horn visited here Tuesday.

Mack, son of Mr. and Mrs. Jack Ratliff, is back in school after an attack of illness.

Mrs. Dora Oliver is improving after her recent illness.

Members of Biggs Family Celebrate Birthdays of Three

Birthdays of three members of the family brought the six Biggs brothers and sisters and their families together Sunday in an all-day get-together at the home of Mrs. S. G. Danford in Sherwood.

Those who were celebrating their birthdays were Mrs. Tony Queen of Ballinger, whose birthday was Saturday, and Mrs. W. G. McAlpine of Eldorado and her son Wesley McAlpine of Fort Stockton who have joint birthdays next Saturday. The affair was a surprise to the women, but not to Wesley.

The six brothers and sisters are Mrs. Queen, Mrs. Danford, Mrs. McAlpine, Clyde Biggs, San Angelo, and Ben and Chester Biggs of Eldorado.

The group had a turkey dinner, toward which all of the relatives helped, and during the day played canasta, "42" and dominoes.

A complete list of those present includes: Mr. and Mrs. McAlpine and daughters Fay and Juanita, Mr. and Mrs. Chester Biggs, Mr. and Mrs. Ben Biggs and Truman of Eldorado, Mr. and Mrs. Bob McElroy, Mr. and Mrs. Bill Ratliff and children Billy Faye and Chloe Jane, and Clyde Biggs, San Angelo, Mr. and Mrs. Tony Queen and Doris of Ballinger, Mr. and Mrs. Wesley McAlpine, Fort Stockton, and the Danfords of Sherwood.

NEW SON BORN

Born, Tuesday, in Sonora, a son to Mr. and Mrs. John E. Burrus, their second child. The baby, who had not been named yesterday, weighed six pounds and four ounces, and is the couple's second child. Grandparents are Mr. and Mrs. W. J. Burrus and Mr. and Mrs. Claude Baines of Barksdale.

J. H. Wagley, who has had an attack of pneumonia, and also has a heart ailment, went to the Holcomb Clinic Tuesday for treatment.

Cecil Newlin, of Minnesota, has been visiting relatives here and in Austin.

Mrs. Blaine Sammons is here for the semester and has enrolled her son in the local school for that time.

We still have a good selection of Roper and Florence gas ranges; Day and Night hot water heaters; and Servel Electrolux and International Harvester refrigerators.—Topliffe Gas and Electric Service.

Hazelwoods Honored On Their Birthdays With Dinner Sunday

Grandfather and grandson celebrated their birthdays together Sunday at the home of Mr. and Mrs. Laymon Hazelwood. Honored were P. W. Hazelwood, who was 80 on February 4, and his grandson, Lilburn Hazelwood, who was 23 February 5.

Present for the occasion were Mr. and Mrs. P. W. Hazelwood, Mr. and Mrs. Laymon Hazelwood, Mr. and Mrs. Vernon Hazelwood, Mr. and Mrs. Lilburn Hazelwood, Mr. and Mrs. J. C. Whiteley, and Vicki Lou Carroll. The dinner was given by Mrs. Laymon Hazelwood. The cake which was baked by Mrs. Lilburn Hazelwood, carried the birthday message in pink and green trim.

Because of his attaining the advanced age of 80, friends of Mr. Hazelwood will be glad to learn a few facts concerning his life. He was born in Gillespie County, at Spring Creek, near Fredericksburg, February 4, 1871. He was married to Almeda McDonald December 9, 1895, on Mormon Creek. The couple reared two of their four children, Laymon and Vernon, who live in Eldorado. The two older children died—Mina at the age of six and Andy Wilburn when he was three. The couple have only one grandchild, Lilburn, who also lives here.

Mr. Hazelwood's mother, twice married, lost both husbands, Eli McDonald and Pete Hazelwood, in Indian raids, in which they were killed, and she herself was taken captive and held for a time.

The couple, who have lived here since 1932, are members of the Bailey Ranch Baptist Church. Mr. Hazelwood ranched and farmed before he retired a number of years ago.

Edwin Jackson made business trips recently to Austin, Dallas, and Houston.

Mr. and Mrs. S. G. Danford of Sherwood spent the day Wednesday in Eldorado visiting the McAlpine and Biggs families.

Gerald Hartgraves has been promoted to the position of acting work unit conservationist in the San Angelo soil conservation district, effective last week. He served a year here as trainee, and last year he and his wife, the former Patsy Ballew, moved to San Angelo when he received appointment to the office there. The couple visited relatives here during the week-end.

POST - SCRIPT

From an exchange we learn that an H-bomb is simply an A-bomb which has been dipped in Hadacol.

Sixteen broken water meters, and other damage to city water lines—that is the report of Lum Burk, Eldorado City Water Man, who is emerging at last from the heaviest repair work ever done here as the result of a single spell of weather.

"We've had temperatures that low before," he explains, "but never for that long."

The sixteen broken water meters, which are the property of the city and must be maintained by the city, have been replaced. Frozen lines have been thawed out and the city is maintaining normal water service at last. Property owners have had some expense of their own on broken pipes in businesses and residences, but practically all damage has been repaired and the city is almost back to normal.

Burk blames the drouth as well as the low temperatures for the excessive damage. The soil is badly cracked, allowing cold air to penetrate deeper than usual, thus causing freezing of pipes which might normally be safe.

That is his explanation especially of the freezing of the line serving the residences in the depot area. This has been thawed out at last, and people down that way have water service again.

Anyway—service men, especially plumbers, have been unusually busy and popular people during and since this cold snap.

Most of the city lines maintained normal service throughout the prolonged cold spell—a fact for which the public in general is grateful.

County Agent W. G. Godwin says he has heard comment from a number of local cotton farmers about the "More and Better Cotton" series we have been running on our front page. We are glad to see more cotton being grown in the county, and in our small way we will help all we can.

A Big Thaw followed the Big Freeze—and this week people have shed their coats, and are feeling the urge to get out and stir up the dirt a little.

But the Thaw didn't come overnight. Ice on water tanks was frozen deep as the result of a week of low temperatures. The O. Sudduth's reported ice in their tanks as late as Wednesday noon—and that after several days of sunshine.

Arthur Faull reports that he is making trips as far away as Yuma, Arizona, to bring alfalfa hay to Schleicher county. He says it takes two days to drive out to Yuma with an empty truck and three days to return with a load. It seems that No. 1 alfalfa hay brings close to \$60 a ton here and that freight accounts for over half of the price.

Business is brisk in the sale of float pans this week—farmers and ranchers damaged theirs in digging out after the freeze. They report that it wasn't too hard to break them with an axe, if you weren't careful where you used the axe.

We noticed it too—that odd arrangement of moon and stars last night. The moon was in a narrow crescent, over it was a very bright star, and under it another. It is explained that the top star is Jupiter and the lower one Venus, both among the brightest stars in the firmament. West Texans are fortunate in seeing it, we are told. It is explained that the same thing may be seen again probably on March 7.

Jesse Ashmore loaded up his barber shop equipment, with the help of O. V. Doty, and moved to the Carr Studio building Tuesday morning. In a way we hate to see him move. Time has been that when we needed a haircut we could glance across the street and see whether or not he had a customer. Now we'll have to wait our turn with everyone else.

REA Manager Don McCormick

and his crew were looking over Ashmore's old building Tuesday. It will be renovated inside and a new front will be put in before REA offices are moved in. Gus Love owns the property.

Need for more feed sent Leonard Lloyd and Cecil Williams out to Lovington, New Mexico, last weekend. They report hay high and scarce, but they managed to find two truckloads which they brought back.

Earl Lloyd, one of the county's younger farmer-ranchers, is getting a lift from his dad, Leonard Lloyd, in clearing rock from a lake bed on his farm, the former Williams place. To put the strip of bad land in cultivation, they have rigged up a tractor with a dump bed, enabling them to haul off the rock and dump it out somewhere else. It's a tiresome job, but the work is going right along.

Missing from his old place in his filling station is C. N. Shaw, proprietor of Shaw's Gulf, who returned home from the hospital Tuesday, after sustaining a back injury when at work. He must remain in bed about two weeks, after which he may have to submit to surgery—so it will be a little while before he is back on the job.

Hulldale is getting to be a busy place—what with all of the oil activity in that neighborhood.

Delta Gulf has unloaded on the Santa Fe there its third carload of 5½ inch casing—a total of 3850 feet.

Two carloads had been unloaded before of this same size—one 7409 and the other 7362 feet—and also a carload of 2-inch tubing—13,000 feet.

Spring came at last, as it does in this country—and it came when everyone was just about ready to give the country back to the Indians—or Eskimos.

A Big Thaw followed the Big Freeze—and this week people have shed their coats, and are feeling the urge to get out and stir up the dirt a little.

But the Thaw didn't come overnight. Ice on water tanks was frozen deep as the result of a week of low temperatures. The O. Sudduth's reported ice in their tanks as late as Wednesday noon—and that after several days of sunshine.

It is explained that the top star is Jupiter and the lower one Venus, both among the brightest stars in the firmament. West Texans are fortunate in seeing it, we are told. It is explained that the same thing may be seen again probably on March 7.

YOUNG PEOPLE WED SATURDAY AT PARSONAGE

In a quiet ceremony attended only by the members of the families, Nelva June Bolt and Jimmie Martin were wedded Saturday morning at 10:00 in the Methodist parsonage in Eldorado, the pastor of the church, Rev. Roy Shilling, officiating, using the double ring ceremony.

Attendants were Lola Beth Ballew, James Alexander, and Mr. and Mrs. Charles Sudduth. Present from out of town were the groom's brother-in-law and sister, Mr. and Mrs. George Kenner of Coleman, and the bride's parents, Mr. and Mrs. Savola Bolt of Mason, in addition to relatives from Schleicher County.

For the ceremony the bride wore a navy blue two-piece suit; her hat was trimmed in white, with a navy veil. Her corsage was a white orchid, in an arrangement of stephanotis.

The bride was graduated from Eldorado High School last spring, and later moved with her parents to Mason. She has been taking a business course this year in San Antonio. The groom was graduated from EHS the preceding year and since that time has been running his ranch, on which they will make their home.

After the ceremony the couple left on a honeymoon trip, of a week's duration, after which they will return to this county.

The bride, the daughter of Mr. and Mrs. Savola Bolt of Mason, spent most of her life in Schleicher County, and the groom, son of Mrs. Pat Martin, has spent all of his life here.

Earl Parker To Show New Dodge Trucks Here Saturday

Parker Motor Co., local Dodge dealer, today revealed some of the 50 new features of the new B-3 Series of Dodge "job rated" trucks which will be introduced on Saturday, February 10.

Increased power, new styling, better brakes, improved steering for easier handling, more driver comfort, and newly designed shock absorbers are among the new features providing faster, safer and more economical hauling of larger payloads.

Horsepower increases in some of the eight engines powering the new Dodge truck line range as high as 20 per cent. Gross vehicle weight ratings in the new trucks range from 4,250 to 40,000 pounds, and gross combination weight ratings range up to 60,000 pounds.

Higher governor settings, redesigned fuel pumps, "hotter" spark plugs with improved moisture-proofing, larger-capacity generators, a new high-torque starting motor, and more efficient cooling systems are among engine improvements which provide the new line with greater power and economy.

New styling on all models features a new grille formed by two large horizontal louvers. A new "Job-Rated" medallion is centered in the grille beneath the redesigned Dodge nameplate. Wrap around bumpers give the fenders more protection.

Thicker seat pad cushions and re-contoured seat backs provide greater comfort for the driver. Instruments are arranged in a cluster on the dash. Driver visibility has been increased by lowering the front of the hood line. The windshield wipers have been re-positioned to cover a more usable area and to lay closer to the base of the windshield when not in use.

BRIDGE CLUB MEETS

The Slam Bridge Club met Tuesday afternoon at the home of Mrs. Thomas Richard Jones, with three tables of players in attendance, including four guests, Mrs. John Williams, Mrs. Edward Meador, Mrs. Dwight Wiedenmann, and Mrs. Blaine Sammons.

High was won by Mrs. J. E. Hill, high guest by Mrs. Williams, traveling by Mrs. Billy McCravey, and bingo by Mrs. Wilson Page. A refreshment plate was served.

GA'S MEET

The GA's of the First Baptist Church met Monday at the home of Mrs. E. W. Perry, with eight girls in attendance. The lesson was on "Forward Steps," and refreshments were served at the conclusion of the program.

Mrs. H. T. Bird's operation was minor, not major as reported last week.

Hint For Stretching The Food Dollar

College Station. — Here's a suggestion from Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A&M College, that may help homemakers get more food value into meals at a low cost.

She suggests using dry or powdered milk for cooking. She points out that non-fat dry milk solids are made from fresh milk—the liquids are removed by evaporation. If you need a liquid, there are two methods commonly used for changing the dry powder into liquid skim milk.

Use a mixing bowl and pour into it enough water to make up the required amount of skim milk—sprinkle the dry skim milk powder on top of the water and beat with a rotary egg beater until the milk solids have dissolved. The mixture can also be placed in a glass jar with a tight fitting lid and—a few hard shakes will dissolve the powder.

After the dry solids have been changed to a liquid, Miss Harris says to use it just as you would fresh milk—and this includes proper refrigeration.

S. C. S. NEWS

Ft. Worth.—Grass, man's best tool for anchoring soil against erosion, was given a sound vote of confidence during 1950 by Texas farmers and ranchers.

Increased respect for this weapon against soil and water waste is reflected by last year's seed harvest, which shows 746,599 lbs. of native grass seed harvested by Texas farmers and ranchers, it was pointed out this week by Louis P. Merrill, soil conservation service regional director here.

Leading the native grass seed harvest parade in Texas were little bluestem (400,325 pounds), and blue grama (202,410 pounds), both warm season forage plants.

The 1950 seed harvest figures, Merrill said, also reflect widely increased use of King Ranch bluestem by conservation-wise farmers and ranchers. It is a deep-rooted introduced perennial grass known for its erosion-resisting and forage qualities and its adaptation to wide extremes of rainfall.

Throughout Texas, a total of 506,537 pounds of King Ranch bluestem seed was harvested, easily a new record seed take for the popular drought and cold-resistant grass, the regional director said.

Of the KR seed harvested in

Texas last year, 463,082 pounds or about 91% of the state-wide harvest were taken from the farms and ranches of soil conservation district co-operators, Merrill said. An additional 8,430 pounds of KR seed were harvested from the Soil Conservation Service nursery at San Antonio and U. S. land utilization project areas.

From Texas' more than 4½ million acres in close-growing, soil-conserving legumes, a total of 25,216,000 pounds of legume seed was harvested during 1950, Merrill announced.

Leading in the Texas legume seed harvest was Hubam sweet clover (11,258,947 pounds) a versatile conservation crop respected for its ability to overcome cotton root rot, decrease soil loss and runoff and improve soil productivity. Second was hairy vetch, a winter cover crop known as a veritable storehouse of soil nutrients.

The harvest of native and introduced grass seed and legume seed in Texas last year totaled more than 30 million pounds, the regional director said.

"The 1950 seed harvest is a clear indicator that the Texas farmers and rancher is paying increased attention to the use of grasses and legumes as his best weapons in improving the soil and fighting soil and water waste," Merrill said.

Brother and Mrs. Tot McCowan of Abilene preached Sunday at the Church of Christ, and were dinner guests in the Eddie Peel home.

The Jerry Pennington family spent the day Sunday at San Angelo and Sanitorium, where they visited relatives and friends.

Rev. Roy Shilling, Methodist minister, left Monday for Dallas, where he is attending a week's pastor's school at SMU. He will return in time for services Sunday.

Mr. and Mrs. Bob Milligan spent Tuesday in San Angelo.

Mr. and Mrs. W. H. Prestige of Marlow, Okla., have been visiting their daughter, Mrs. Roy Shilling, and her family, at the Methodist parsonage.

Mrs. Bill Brooks and daughter of San Angelo visited Sunday with the Albert McGinnesses.

A. R. Parker and his mother-in-law, Mrs. J. D. St. Clair, both of whom have been under treatment in a local hospital, have returned home. Mrs. Parker's sister, Mrs. W. E. Anderson of Great Falls is here assisting with their care.

Mrs. L. L. Kinser and Mrs. C. L. Martin spent the day in San Angelo Tuesday.

Betty McCoy, youngest daughter of the J. C. McCoy's, recently recovered from mumps and now has scarlet fever. Her sister Peggy was a hospital patient this week, returning home Tuesday.

Mrs. O. H. Reeves has returned home to Greenville after an extensive visit with her daughter, Mrs. Edgar Sauer and her family in Schleicher county.

—We still have a good selection of Roper and Florence gas ranges; Day and Night hot water heaters; and Servel Electrolux and International Harvester refrigerators. —Topliffe Gas and Electric Service.

★ The Military ★

Eldorado youths receiving calls to report for physicals for Friday, Feb. 23, in Wednesday's mail, were Gordon Hamm, Neill Dickens, and Andres Tena Villarreal; also Ivan Hilton Herron who now attends school in Sonora. The list includes others from this district.

Howard Belcher went to Roswell last week end to get Pancho Bradley's car. Pancho, who has been stationed there, has been ordered overseas.

George Lee Graf, son of the Herbert Grafs, notifies relatives here that he has been transferred from Lackland at San Antonio, to Scott Field, in Illinois.

The A. J. Halberts talked recently with Olge, who is stationed at Camp Cook, Calif. William Spurgers is also there (son of Mrs. Nettie Spurgers.)

Junior Williams has completed his basic training at Camp Polk, and is now a private, according to information he gave his mother in a recent phone call. The son of Mrs. Arch Edmiston, he is a former resident of this county, leaving for service from here.

Ray Long, son of Mr. and Mrs. George Long, has been transferred from Lackland base in San Antonio to Silver Lake Air Base at Everett, Washington. He is in radar.

Donald J. Royster is stationed at Bremerton, Washington, and his wife is with him there.

IT CAN HAPPEN HERE—

AND IT DID!

A week of near-zero weather came to this county!

During that time did you notice trouble spots in your housekeeping set-up? Inadequate stoves and not enough of them—poorly laid, poorly insulated, rusted or poorly functioning plumbing—doors and windows that don't fit, and let in the cold—doors that blow open—floors that are cold—linoleum waving in the breeze—equipment that let you down when you needed it most—to mention a few things.

Now is the time to take stock

The time to make repairs and improvements is RIGHT NOW, when the whole thing is fresh on your mind, and you remember what you need. Spend a little for your personal comfort—WHEN THE NEXT FREEZE COMES YOU'LL BE GLAD YOU DID.

Let us figure with you on your home problems. There are things you can do in spite of shortages, and we can be of help to you.

★ AL-TRUISMS

—By Al G.

A proposed visit of two or three days lengthened into ten days for Mr. and Mrs. W. O. Alexander, when they visited Ollie Junior in Houston. icy roads delayed their return home.

They report that Ollie Junior is doing well, and that he has enrolled as a student in Houston College. He had completed most of his required work at Tulane, and was nearly ready to graduate when he was stricken with polio five years ago. Now he is taking some electives, which are about all he needs to get his diploma.

Until he makes arrangements for someone to assist him in his routine trips over the grounds, the school will send out a teacher to work with him at home.

The D. C. Hills are improving—Mr. Hill is able to come to town occasionally, and Mrs. Hill is also around the house. Mrs. J. Robertson has returned to her home at Shawnee, Okla., after spending several weeks with them, and Mrs. J. W. Walker, another daughter, arrived a few days ago, bringing with her Mrs. Patricia Knight of Brownfield, who will be housekeeper at the Hill home.

Sickness of a relative took Mrs. Wiley Hight out of town for over a week. She visited her father, J. T. Boatwright in the veteran's hospital at Temple, where he has been convalescing from a goiter operation. She also visited Mr. Hight's mother, Mrs. J. O. Hight. James Ernest, the couple's younger son, was with her, of course, and Mr. Hight took her to her destination and came for her Sunday.

Wallace Joiner is in Memphis, Tennessee, where he is attending a Diesel Mechanics school, enrolling for an 8-months' course. Until recently he has been on the D. C. O. Wilson Ranch as an employee of the Wilsons.

Busy folks these days are the grandparents, the Skeet Griffins. They visited last weekend in the Bracken home in San Antonio, and brought back with them their two young grandchildren, Dianne Bracken, age about three, and Rhonda, age nearly two, who will probably remain here about two weeks.

District PTA president Mrs. Edwin Jackson continues to make lots of out-of-town trips in the interest of her position. She recently attended a PTA City Council meeting in San Angelo, and today is in Fort Stockton as honored guest of the PTA unit there.

Add a Valentine touch to dinner on the night of February 14. Do it with red hearts, the sign of the day. This time design the hearts from apple slices. For serving, cleverly arrange them around a golden ham slice.

In making the hearts, first cut firm apples into 1/2 inch slices. Using your heart shaped cookie cutter, cut a heart out of the center of each apple slice. For the red tint, heat the apple hearts in a red cinnamon candy colored sugar syrup.

As the slice of ham comes from the broiler arrange the hearts on the serving platter. The ham slice should be broiled in the following manner: Place the meat on the broiler rack adjusted so that the top of the meat is about 2 inches from the heat. Let the ham cook from 8 to 10 minutes. Turn and finish cooking on the second side and the ham is ready to serve.

Another Valentine Idea:

Prepare a Valentine Loaf for February 14. Roast your ground mixture in a heart-shaped mold. When cooked turn out on a serving platter and form an arrow diagonally across the loaf with bright pimiento strips.

Bright February touches can also be added with cherries—cherries mixed in with meat, or in salads or desserts.

Breads fit into the cherry plan as well. Cherry nut bread or muffins make a colorful addition to any meal during this month. Of course desserts using this bright fruit are many and varied. With any main course planned with beef, veal, pork or lamb or smoked ham you'll proudly serve cherry tarts or pie or cherry steamed pudding, roly poly or cherry cobbler.

Here's a good busy-day, winter one-dish meal—it's easy to make, nourishing, and can be cooked ahead of time and heated as needed:

Creole Gumbo
1 cup diced cooked meat
1/4 cup green pepper, chopped
1 1/2 cups fresh or canned okra
1/4 cup onion, chopped
3 tablespoons bacon drippings
1 quart meat stock
2 1/2 cups tomatoes
Salt and pepper
2 tablespoons parsley, chopped
Cook green pepper, okra and onion in drippings until lightly browned. Add meat stock and tomatoes and simmer about 15 minutes, or until vegetables are tender. Season to taste. Add meat and parsley to soup and continue cooking until meat is heated through. Yield: 1 quart.

Measles everywhere—mild cases, severe cases—small children, high school students!

It wasn't possible to compile a complete list, but here are some of them, and there are at least as many more:

- Verna Ann Lux
- Christabel and Linda Sauer.
- Judy and Jimmie Belcher.
- Nancy Jo Jackson.
- Shirley Carroll.
- Bobby May (Ashmores' grandchild.)
- Ruth Parker.
- Pete Logan.
- Prissy and Suzy Linthicum.
- Judy Hext.
- Nancy Martin.
- Linda Bess Love.
- Daughter of Walter McGregor.
- Nancy Martin.
- Bessie Lee Gaston.
- Ronnie Sauer.
- Sammye Mayo.
- Ollie Neal and Rosanne Sudduth.
- Bryan Edmiston.
- Myrta Ann and Martha Ellen Topliffe.

Twenty-Four Tables Of Bridge, Canasta At Party On Friday

Mrs. Edward Meador and Mrs. C. L. Meador, Jr., entertained 24 tables of bridge and canasta players with a party and supper at the Memorial Building Friday night. There were eight tables of canasta and 16 of bridge, after the supper, which was served to 110 people.

Prizes were won by: Bridge, 1st, 2nd and 3rd high, Mr. and Mrs. Pat Finley, Mr. and Mrs. Pat Enochs, Mr. and Mrs. A. G. McCormack; canasta, 1st and 2nd, Mr. and Mrs. Jerry Pennington, Mr. and Mrs. Dee Love; bingo, for men, John Luedcke, and for women, Mrs. Joe Kreklow.

JR. WOMAN'S CLUB PLANS STYLE SHOW FEB. 22

The Junior Woman's Club announced plans this week for their style show to be held Feb. 22nd at 8:00 p. m. in the high school auditorium. Clothes modeled will be furnished by Eldorado and San Angelo merchants. Admission will be 50c and 25c. Mrs. Wilson Page is chairman.

Mr. and Mrs. Weldon Davis are spending the week with Mr. Davis' parents, in Dallas. In their absence Mr. and Mrs. J. F. Kinser are staying on the place.

Mr. and Mrs. E. T. Davis and Clarence visited their daughters Mary Lee and Marguerite in Fort Worth last weekend. They reported no trouble getting back despite the norther.

—The Eldorado Success, \$2.00 year.

WORLD DAY OF PRAYER

A World Day of Prayer will be held Friday afternoon at 3:00 at the Presbyterian Church, it was announced this week.

Mr. and Mrs. J. C. Spurgers and son stopped here last weekend to visit Mr. and Mrs. Cramer Sofge, on their way to Sonora, Rock-springs and Uvalde where they planned to visit relatives before returning to their home in Wyoming. Mr. Spurgers lived here when he was a child.

Mrs. B. G. Kennerly and sons Bill Gordon and Pat of Brady spent the weekend here with Mrs. Kennerly's parents, Mr. and Mrs. J. D. Ashmore.

Jess Koy of Eldorado recently purchased a purebred Aberdeen-Angus bull from Huddleston Brothers of Caddo, Oklahoma.

BAUER JEWELRY

Schleicher Not Only Dry County, Reports From State Indicate

Ranchers and farmers in Schleicher County who are complaining of lack of moisture find that agriculture throughout the state is practically at a standstill because of the generally dry conditions which prevail everywhere.

The Santa Fe publicity department gives the following summary of Texas agriculture in a bulletin mailed to newspapers this week:

Weather in Texas proper during the past 30 days generally has been dry and clear, punctuated by a few "blue northers," but very little moisture was received to offset frost damage to crops and aid planting.

Small grain has very little chance to grow. Some farmers "dusted" grain in, only to have it remain in the ground for weeks and not come up. Other grain sprouted but died later. As a result, growth is small, stands generally are poor, and the season is late for satisfactory yields this year. On the other hand, some oat plantings are good.

Land for rice and other spring crops has been worked, in fact, most of it is ready for planting but as a rule there is not enough moisture to cause seed to sprout. Pastures are very dry, and only in a few areas is winter grass showing an inclination to start. Farmers over the entire state are buying supplemental feed for livestock, and marketing of cattle and calves continues heavy.

Farmers are buying heavily of seed, fertilizer and insecticides, and making other plans for what is expected to be a large cotton crop. Planting will start in the southern part of the state in March, somewhat earlier in the lower Valley. The 1950 cotton crop was estimated at 2,900,000 bales, but everything points to an increase in acreage this year. Corn land is ready and will be planted in late February and March.

Portions of north Texas have had enough rainfall to start the setting of onion plants, but full-scale operations await more moisture. Considerable increase in acreage over last year probably will result if rain is received soon, although the outlook at present is not very encouraging.

Frost has been severe on vegetable crops in the lower valley areas, only the hardy and semi-hardy varieties surviving. Shipments continue but generally in light volume.

Finleys' Daughter Party Honoree

Mr. and Mrs. Pat Finley entertained Saturday afternoon at the Community Building with a party, which 30 children and a number of mothers attended. The honoree was their daughter, Toya Jo, age 3, who was celebrating her birthday.

The Valentine motif was carried out in games and table appointments. The large white birthday cake was trimmed in red, and carried the inscription, "Happy Birthday" in red, three candles completing the decorations. Favors were valentine containers, with suckers, and also balloons.

The entertainment for the afternoon included games, cutting and serving of the birthday cake, with ice cream, and opening of the gifts. Several children who were unable to attend because of illness sent gifts also.

Toya Jo is the only child of the Finleys, and the party was held on her birthday, February 3.

Guests of Mr. and Mrs. Billy Green from Thursday to Sunday were Mrs. Green's mother, Mrs. L. W. Henshaw, and sister Joan, of Odessa.

Mrs. Geneva Johnson of Abilene spent the weekend here with her sister Mrs. Howard Belcher and her mother Mrs. Rutha Boyer.

Eldorado Wool Co.
Eldorado, Texas

Washington News Letter

"If Western Europe falls to the Communists, we will probably lose our atomic supremacy," General Eisenhower told Congress after his return from Europe.

The General was referring to the uranium, used in making A-Bombs, which we import from Belgium Congo. He figured the Russians will dominate Africa if western Europe is overrun.

Eisenhower urged more members of Congress to visit Europe and get a first-hand picture of conditions there and see how our security is involved in the future of the western democracies. He got a big hand when he said:

"Those countries must do their full share in the joint effort to keep them free from Communist domination."

January 30 was a big day for Speaker Sam Rayburn. On that day he rounded out 3,057 days as Speaker of the House of Representatives—exceeding by one-half day the record previously held by the famous Henry Clay of Kentucky.

In House speeches eulogizing Rayburn, many of the Old-Timers recalled the time when John Garner was Speaker. They all praised Garner as one of the most colorful and able who ever tended the gavel.

President Truman, in praising Rayburn at a Texas dinner given by the Speaker the evening of the 30th, recalled his early political career in Missouri. He had served as County Judge and took a hand in carving out a new Congressional district so he could get elected to Congress.

"But after doing all that," said the President, "something happened that changed my plans and now look at what happened to me!"

At the Rayburn party, composed of about 60 guests, were also Vice-President Barkley, Chief Justice Vinson, Justice Tom Clark, and the entire Texas delegation except Bob Poage who was on official business in Mexico City.

Earlier in the day President Truman presented Rayburn a gavel carved from White House scrap collected from the renovation now going on. The ceremony was at the White House attended by the Texas delegation and a few others.

But Henry Clay had one distinction never equalled and probably never will be duplicated. He was elected Speaker the first day he entered Congress! Now seniority is an important, and sometimes a controlling, factor in choosing speakers.

Mr. and Mrs. Claude Alexander and John Thomas spent two days at Burnet and Austin visiting relatives.

Mr. and Mrs. Everett Johnson of Abilene visited last weekend with Mr. and Mrs. Tom Johnson.

Guests of Mr. and Mrs. George Williams last weekend were Mr. and Mrs. J. D. Holden and three children of Ingram. The women are sisters.

The Sandy Donaldson family spent Sunday in Christoval with Mr. and Mrs. Bud Churchill.

DEPUTY GRAND MATRON VISITS O. E. S. HERE

Mrs. Meta Murchison of Menard, deputy Grand Matron, paid her official visit to the OES here at their meeting last Wednesday night. A supper was given in her honor at 6:30, and this was followed by the meeting at 7:30. Impressive instruction was given under her direction.

There were 33 present, including out-of-town visitors. Hostesses for the supper consisted of the OES officers. The next meeting has been announced for Feb. 12 at 7:00 p. m.

W. S. C. S. MEETS

The Woman's Society of Christian Service met Tuesday in their regular meeting, which opened with reading of minutes by Mrs. Ralph Waldron.

Mrs. J. E. Tisdale was in charge of the program. In the circle count the Dorcas circle had eight present; Lydia, 10; and Circle 1 had 11. A motion was made and carried that Mrs. Hight take over the youth work.

The entire WSCS had charge of refreshments which were served to 31. A layette shower was given for Mrs. M. G. Holcomb.

Mrs. Herbert Graf has been on the sick list.

Mrs. Camilla B. Raggio left on January 22 for New York City, where she is visiting relatives and friends. She will probably be gone the rest of this month.

Mr. and Mrs. Ray Gill, who have been living on the Potter place, have moved to town and have rented the Leo Ivy residence.

Nieces visiting in the T. H. Alexander home were Mrs. Charles Selter of San Angelo and another who lives at Wichita Falls.

Guests of Mr. and Mrs. Doyle Easterwood Sunday were the latter's parents, Mr. and Mrs. Ray Clary and Darrell Ray of Big Lake.

RECIPE OF THE WEEK
By Mary Lee Taylor

Raisin Gingerbread Bars
2 Cans
1 package gingerbread mix
1/2 cup Pet Milk
2 tablespoons water
1 cup seedless raisins
1/2 cup finely cut nuts
Turn on oven; set at moderately slow (350). Grease an 8x12-in. pan, then dust with flour. Put gingerbread mix into bowl. Stir in mixture of milk and water; mix until smooth. Fold in raisins and nuts. Spread in prepared pan. Bake on oven rack slightly above center 20 min., or until cake pulls from sides of pan. Cool. Cut into 24 bars 1x4-inches.

You Will Need:
Pet Milk, Gingerbread Mix, Seedless Raisins, Nuts.
