Exploration Company Move In To Work On Sinclair Leases

The Republic Exploration Co., a seismograph outfit, moved in to Eldorado Monday and have established an office in the former Magnolia building next to Trigg Mo-

W. L. Holman of Midland is supervisor for the company, and L. A. Goss is local party manager. There are about 18 men in the crew and Mr. Goss stated there would be jobs for 8 or 10 additional men, whom they hoped could be employed locally.

The Exploration Company here to work for the Sinclair Oil and Gas Company. They recently have been working around Rankin. According to the party manager,

this crew will use a new method of exploration—that is, new for Sch-

leicher County.

Instead of digging holes and setting off explosives under ground, this crew does its shooting above ground. A charge containing 130 pounds of powder is placed on a steel pole about 6 to 8 feet above ground and exploded. An instrument set about half a mile away picks up the ground vibrations. The crew hired a number of local men Tuesday and were 'scheduled to start work about 15 miles west of Eldorado on Wednesday. If the wind is right the explosions will be heard in town, the crew men said. Schleicher County residents might just as well get used to it-

crew men think they will be located here for quite a while.

This method of shooting is known as the Polter Aerial method -it gets its name from the man who developed it.

Schleicher P. M. A. Officers Elected

In the county election held November 19, 1951, at the county office, Joe B. Edens was re-elected chairman of the Schleicher County Production and Marketing Administration Committee. Perry Mittel was re-elected vice-chairman; and Dee Love was re-elected committee member: Clyde R. Keeney and Erin W. Mund were elected alternate embers. The committeemen will ake office December 1, 1951.

Committeemen are directly responsible for the local administration of the Agricultural Conservation Program, price support operaments of Agriculture agencies and groups in duties connected with the nation's defense efforts.

Chairman Edens emphasizes that the committeemen will have greater than usual responsibilities in the coming year. The national emergency and the defense producton program have added a great deal to the responsibility of farmercommittees. Although they serve only a few days a year in program administration, they are on call at any time to carry out special assignments.

Pick-Up Is Damaged In Collision Monday

A wreck at the Sam Oglesby and Ollie Alexander corner on the Mertzon Highway resulted in minor injuries to one, and to heavy damage to a pickup, when a Buick sedan and the pickup collided.

Occupants of the pickup, Virge Tisdale and Jerry Hartgraves, were returning from a business trip west of town. Mrs. Oliver Roller, driving the Buick sedan, was driving north, crossing the Mertzon highway when the accident occurred.

Tisdale sustained minor hand injuries in the crash, and his pickup, bought only two weeks ago, was badly damaged.

Mrs. Roller, who lves in an Humphrey apartment, had moved here only a few days before the accident.

REPORT COTTON PRODUCTION cluded. TO P. M. A. OFFFICE HERE

In order to obtain 1951 farm cotton history for use in future Marketing Quota Programs it is necessary that all farmers who planted duction to the local PMA office.

Cards for reporting cotton acreage have been mailed to all farmers who had cotton allotments in 1950. Anyone planting cotton in 1951 that did not have an allotment in 1950 can get a card at the county office. It is important to report all cotton planted even if no cotton

was harvested. Farmers may have their cotton measured for a small fee if they

Draft Board Status Of Married Men Is Further Explained

AUSTIN-A young married man at Port Arthur must leave his wife, who is expecting their first child, for service in the armed forces because he didn't notify his draft Are Arriving At board at Orange before he was mailed his order to report for induction.

Regulations promulgated under amendments to the draft law, passed last June by Congress, require that a draft registrant with an unborn child be deferred if he files with his board prior to the time his inducton order is mailed the certificate of a licensed physician that the child has been conceived.

"This is the first case under this phase of the regulations to come to our atention," Brig. Gen. Paul L. Wakefield, state Selective Service director, commented. "It's just another case where a man has slept on his rights. Congress has made it the personal responsibility of every man to notify his board of changes in his status immediately."

State draft headquarters said that the Port Arthur registrant did not notify his board when he got married and did not furnish the III-A to I-A.

He did not act until after he received the induction order of the Orange board, which, under the law, is too late.

"This man would never have been classified from III-A to I-A if he had seen that the doctor's certificate got in his file immediately after his wife was found pregnant by the doctor," General Wakefield declared.

General Wakefield would not disclose the registrant's name, as he said regulations forbade it, and that, further, he wished to cause the man no possible embarrassment by disclosing his name to the pub-

"The only reason we are anxious to talk about the case at all is that we hope it will serve as a warning to young men in similar circumstances and cause them to comply with the law." the state draft director commented.

General Wakefield said he was anxious to dispel any notion that young married men with only dependent wives must be reclassified

"They have to be removed from III-A if they have no children, born or unborn." he said. "If some other status entitles them to deferment under law and regulations, they get consideration for it before they are considered for I-A," he con-

ROAST DUCKLING IS HOLIDAY TREAT

Succulent choice for a gala dinner during the holiday season, roast duckling is festive and delicious. Favorite delicacy of gourmets, roast duckling should be served with tart orange slices, fluffy rice, asparagus, zesty watercress, salad and sparkling beer to complement its rich, dark-meated flavor and juiciness.

Treat though it is, roast duckling is actually the easiest kind of poultry to serve, since it can be roasted without stuffing and needs no basting. Serve in regal splendor on a big platter ready for carving. Dress up the table to fit the holiday occasion with the very best linen, china and silver and carry out the gay banquet atmosphere with tall pilsener glasses or goblets for the beverage. the beverage.

Field Crop Statistics

COLLEGE STATION-Circular 130, a new publication, released by the Texas Agricultural Experiment Station, entitled "Field Crop Statistics for Texas" gives information on field crops grown in Texas from 1880 to 1950, inclusive.

This publication, prepared by C. A. Bonnen and L. P. Gabbard, of the agricultural economics and sociology department is the third of a series of four circulars which will replace Circular 80, "Statistics of Texas Agriculture," published by the experiment station in 1937.

Circular 117, the first of the series, dealt with the production of cotton. The statistics of livestock and poultry and their products were covered in the second, Circular 120. A later publication will bring the information on fruit and vegetables up to date.

Field crops covered in Circular 130 include wheat, rice, rye, corn, grain sorghums, oats, barley, peanuts, flaxseed, forage sorghums, hay, alfalfa, cowpeas, sudan grass, hairy vetch, grass seeds, broomcorn and others.

The publication consists of tables, charts and maps which show the per acre yields, prices, acreage harvested, total production and farm value for the various field

Red Chain Vita-Range Nuggets

MEANS A BETTER CALF AND LAMB CROP

Why not add your name to this ever-growing list?

JACK ROBERTS OF THE FORKER-GAGE RANCH, MARATHON, TEXAS, SAYS:

"I fully believe that RED CHAIN Vita-Range Nuggets is the best feed I have ever fed. This is my 5th year to use this feed and I find that my Calf Crop is still increasing every year. I expect at least an 80% or better Calf Crop this year. This is extremely rough country with large pastures. This is an excellent percentage in my opinion. I find my calves are born healthier, with fewer deformities than ever before. They also grow off faster, giving me a bigger and better calf at marketing time. I will fully recommend this feed to any livestock producer."

J. H. McMURTRY OF CLARENDON, TEXAS, SAYS:

"I had very good results feeding RED CHAIN Vita-Range Nuggets to 500 yearlings last winter. I had this feed analyzed and found the analysis higher than shown on feed tag."

JACK HINDS, RANCHER FROM FORT STOCKTON, TEXAS, SAYS:

"I have been ranching in West Texas for a long time, mostly dry years. I have fed everything from prickly pear on up, but I like 20% Vita-Range Nuggets the best of all. I have had a better percentage of calves on Vita-Range Nuggets than on any other feed."

L. H. SPELLINGS, JR., OF THE MARYLAND SEED CO. MARSHALL, TEXAS, SAYS:

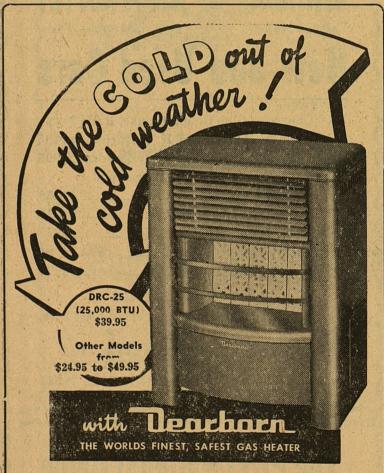

"I have fed RED CHAIN Vita-Range Nuggets for two years and find that my cows come through the winter stronger with less trouble at calving time and a higher percentage calf crop."

How's THIS for a kettle of fish?

No doubt about it—a road failure can cost you plenty of "fish." Not only in time lost to what could have been profitable hauling, but in expensive repairs as well-repairs that could have been avoided.

That's where we come in.

If you bring your equipment to us at regular intervals, our mechanics will catch the little things that go wrong with trucks before they become a major breakdown.

In so doing, you're being thrifty three ways. You (1) cut down the possibility of costly repairs, (2) get better performance with less "down time" and (3) get more years of service from the trucks you now own.

Make sense to you? Come on in-the service is fine!

Get more "run" for your money!

Creamed Turkey on Festive Rice

Goodness to the last bite! Rice with plump green peas and pi-mientos mixed with butter and molded into a beautiful mound — that spells beauty and eating

But in addition, Creamed Tur-key on Festive Rice could be called a "mix and serve dish" so simple is the preparation. The creamed turkey topping can be made ahead of time and heated at the last minute when the meal is ready to serve. A minute to arrange on the platter and a dish with beauty and goodness is ready to serve. is ready to serve.

INGREDIENTS FOR CREAMED TURKEY

- 1 can condensed cream of mushroom soup
- ½ cup milk
- 1 egg yolk
- 2 cups cooked turkey, diced

INGREDIENTS FOR FESTIVE RICE

- 2 tablespoons butter or
- 4 cups cooked rice
- 1 cup cooked green peas
- 3 tablespoons diced pimiento

PREPARING THE FLUFFY WHITE RICE: Put 1 cup of white rice, 1 teaspoon salt and 2 cups of cold water in a two quart saucepan. Cover with a tight fitting lid. Bring to a vigorous

boil. Then reduce the heat as low as possible and steam for 14 minutes or until all the water is absorbed, leaving the separate rice grains with their full nutritional value. This makes very firm rice grains. (If you prefer more tender rice grains, add 14 cum more water and in add ½ cup more water and increase the slow cooking time 4 or 5 minutes.) Remove the lid, permit the rice to steam dry to the desired consistency and the grains will be separate and fluffy. Never stir rice; lift gently with a fork. Keep left over rice in a covered bowl in the refrigerator. Makes 3 gen-erous cups fluffy rice.

METHOD: Empty the can of soup into a saucepan. Add the milk. Beat in the egg yolk, add the turkey and heat, stirring constantly. Serve over a mound of the Festive Rice mixture. Or for an extra touch, mold the Festive Rice in a ring mold and fill the center with the creamed

TO MAKE A RING: Melt the butter in a saucepan. Add the rice, green peas, and pimiento. Mix gently. Press the hot rice mixture into a greased ring mold. Unmold immediately, by gently shaking and tapping the mold to loosen the rice ring. Fill the ring with the creamed turkey. A rice ring can't fail since the rice is molded and unmolded while still hot and any breaks are quickly repaired.

"Fair and Square"

We've just had a political campaign with everything from a torchlight parade to a neck-and-neck

Rusty Robinson, with no campaign funds, planned his Election Eve speech for the Square. Slim McCormick, who owns the Palace movie house, was finishing up his campaign in Pioneer Hall.

Then it began to rain. Rusty's political career was fizzling out in the damp when Slim showed up to say that Robinson people could meet in his theatre-for nothing. "I want to beat Rusty," Slim said,

"but certainly not with rain!"

From where I sit, you've got to give Slim credit for acting on his belief that everyone has a right to be heard-just as everyone has a right to his own opinions and tastes. Maybe you like hot coffee, for instance, when you "take a break." Well, my vote goes for a refreshing glass of beer. After all, we're lucky to be living in a free country where we can have our own preferences!
