Long Distance Telephone Service:  
**FASTER!  
BETTER!  
COST LESS.**

This wampum-wise warrior knows long distance telephone service is a real value. He knows that long distance telephone connections are completed in mere minutes or less. He knows that a single telephone call can be a complete transaction — saving time and in many cases saving money. And he realizes that long distance telephone rates are especially low after 6:00 p.m., and on Sunday.

So follow honest Injun, and switch to long distance telephone service today.

**First Baptist News**

We welcome into our fellowship last Sunday Mr. and Mrs. T. E. Holcomb and Bill. We have a place of service for each of you in our church. We trust that you will find it in your heart to cast your lot with us.

We are only 15 under our goal for Sunday School attendance in July. Our goal is 190 for July. We can reach this and we should reach this goal. You are the only answer. Won't you be in your place each remaining Sunday? If you haven't been coming to our Sunday School won't you make an honest effort these remaining Sundays?

Pastor will be speaking each Sunday evening from the beatitudes. Won't you come and get a blessing from this study? Come to training union at 7:30 and remain for a deeply spiritual service at 8:30. We should fill the Lord's house on each Lord's day. Will we see you at church Sunday evening?

We are having some wonderful Sunday School lessons for this quarter of study. These are vital subjects. Our nation's hopes are in our homes. The hope that prays together and plays together will stay together. How early should we begin to train a child for a Christian life? Not any later than the grandmother.

While our pastor is on his vacation let us show our love and loyalty to him and the church by having the largest Sunday School attendance of any time since he has been here. Let us go over our goal of 190 for this coming Sunday. We can do it if we will all put serves to the task.

**Sub-District MYF Meeting Held Here**

The M. Y. F. sub-district meeting was held at the Eldorado Methodist church here Sunday, with Marilyn Scott, president, in charge of the business session. The program was conducted by John Thomas Alexander. Rev. Bruce of the First Presbyterian Church spoke to the group and Dale West and Mary Tisdale sang a special.  
There were about 120 in attendance, representing eight churches.

**What Makes A Home?**  
What really makes a home? That is a very commonplace question, but perhaps we are overlooking some of the greatest fundamentals in our life today, both personal and social, because we feel they are commonplace.

I maintain that at the rate our homes are deteriorating, we are not giving much thought or training in either the matter of forming or maintaining our homes.

There will be as many ideas on the answer of this question as there are philosophies of life. To one luxury will be the sole answer of what makes a home. To the other it will be entirely a matter of conveniences. To one it will be beautiful surroundings. To whatever aesthetic tastes happen to turn. Beautiful furniture, decorations, lawn, flower garden. To others it will mean solely comfort. How comfortable am I when I enter the walls of a home. To some there will be no thought given outside of the fact it is a shelter.

What really makes a home? I don't know as any one thing makes a home. Perhaps all of these enter in. I suppose it is a question of where we put the emphasis. I believe all of these physical elements will help us in making a home, but I would like to suggest a few spiritual elements.

I believe love heads the list. Love for each other in the home. Love that draws us together in unbreakable bonds. I believe prayer is a powerful force. The seeking of divine wisdom is the solemn responsibility of making a home. The seeking of God's divine benediction upon the home. I believe wholesome recreation as a family together is a spiritual force. Having good wholesome fun together. I quote again a statement of one of my teachers, "The home that plays and prays together, stays together." Then God and us can make a home out of any house.

Mr. and Mrs. C. L. Martin Sr. spent the past week in Stamford and Wichita Falls.

Mr. and Mrs. Bert Page's daughter Mrs. D. E. Kinnamon and her husband of Dallas are in New York City on a combined business and pleasure trip.

★ AL-TRUISMS

—By Al G.

Friday and the weekend were reunion days for the Odell and Halbert families at Buchanan Dam.

Mr. and Mrs. C. T. Willis of Rogers, Mr. and Mrs. Edmond Walden and family, Beaumont; Mrs. George Halbert and family, Burnett;

Mr. and Mrs. Jack Halbert Jr. and family, Mr. and Mrs. A. J. Halbert and Lee, Mrs. Clyde Baugness and children, Mrs. Irene Rutland and Harry, and Mrs. Dick Jones and Darla, all of Eldorado;

Mr. and Mrs. Henry Winston and family and Mr. and Mrs. Al Wheeler of Freer, Texas; Mr. and Mrs. Tommie Odell of Killeen; Mr. and Mrs. Doyle Wheeler and family of Goldthwaite;

Mr. and Mrs. Oren Wright, Mr. and Mrs. James Walden and family, Mrs. Ernest Helton and Dannie, Mrs. W. F. Martin and family, Mrs. Maude Courtney and Mary, of Fort Worth.

Mr. Halbert reports that they were delighted to receive a package from Olga on their return home—

Mountains, beautiful grazing land, lots of rain, snow and sleet, trout and salmon—these are a few of the many things Mr. and Mrs. Howard Derrick saw on their three weeks' vacation trip to Canada.

They left their young son Gary with his grandparents in El Paso, and picked up a young couple there who accompanied them on their trip. They went through Colorado, visited the Glacier National Park, and drove on through to Lake Louise, in Canada, where they spent several days. It was early for the fishing season in Canada, and they found the water so cold that they were told no one could live in it over 20 minutes—and the lake was also very deep. A drowning took place while they were staying there.

They report lots of sleet and snow there and in the Glacier Park locality, where they stopped to fish.

They did some very successful trout fishing near Glacier Park, and left some of their catch to be smoked and sent out later. They also saw salmon running when they were in Idaho, but did not try that type of fishing as they were not equipped for it.

They report a week of steady rain, and were carried away with the beauty of the mountainous country and the green pasture land.

They spent the Fourth in San Angelo, returning to their ranch on Thursday night.

Two families visited in Eldorado, and liked the place so well they decided to move here!

Mr. and Mrs. Henry Baker from Kerrville and Mr. and Mrs. Joe Post of Santa Anna visited Mr. and Mrs. J. P. Cosgrove on evening of Fourth. They decided to move to Eldorado, and the Posts rented an apartment at Mrs. Mattie Cozzens' and the Bakers moved out to a house on the old Gillaspie place. Both new men will work for Mr. Cosgrove in his cedar eradication work in Schleicher County. All are relatives.

Mrs. Camilla Raggio of the C-B Ranch thinks she has had a run of bad luck lately. First, something stung her on the right cheek one night. Doctors say it must have been a poisonous spider or other poisonous insect, judging by the bump it raised and the pain it has caused. She has been taking treatments for a month, and spent a week in the hospital—and she is afraid the wound will leave a scar!

Bad luck No. 2: the famous spring on the ranch is not up to its old flow—the water seems stagnant, and the flow is below normal. She is having a new wall built at the spring to replace the old one and is having the spring cleaned out in an attempt to bring the flow up to normal. "I have my fingers crossed," she says.

Many people have visited this spring, and some of the water is used for irrigation of an alfalfa field on the place.

Combining business and pleasure, J. B. Bruton, accompanied by his wife, drove to Del Rio Sunday morning; there Mr. Bruton, who is from Big Spring, where he is Howard County sheriff, claimed two prisoners. By arrangement with Sheriff Sweatt of Eldorado he put the men in the local jail for a few hours Sunday afternoon, while he visited his mother, Mrs. Mattie Bruton, near Eldorado. He left for Big Spring late that afternoon.

Later J. E. Bruton and family and a friend of Melvin visited Mrs. Bruton also.

At a family reunion in Calf Creek last week were Mrs. O. B. Bradshaw and Monetta, and other members of the family, who met at the home of their mother, Mrs. W. R. Duncan. Among those present were Mrs. Nath Turner and daughter Deborah of Irving, Mrs. Valeree Gandy of Houston, and many others, all of whom took in the celebrations at Brady each day. Mr. Bradshaw drove to Calf Creek after his family on the Fourth.

Mr. and Mrs. Bert Page returned Monday from a week's vacation trip. They visited Mr. and Mrs. Tom Wilton at Ft. Sumner, and attended a rodeo there on the 3rd and 4th. Later they and the Wiltons left on a trip to Santa Fe, Carlsbad, Ruidosa, Albuquerque, and other places including Roswell; there they saw, Alton Clark, Mr. and Mrs. Bud Ellis, and Elton Ellis, all former Schleicher residents, who sent regards to anyone they ever knew here. The Pages report that it was dry everywhere they went.

A car of Eldoradoans who made a June trip into Canada are expressing the hope that they can return there another time!

Back from a trip into Ontario and Manitoba are Mr. and Mrs. Thomas Richard Jones and Rickie, age 4, and Mr. and Mrs. Jack Shugart, and Jackie, age 6. They state that while there were a few hitches in their trip, they enjoyed every minute of it.

To mention the unpleasant things first; they ran into heavy rains and storms in Nebraska and Iowa, and coming back had to change their route in Kansas when their route was closed to traffic because of flooded roads. Another thing—they had thought they had taken along some warm clothing, but found they didn't have the right kind of clothes at all! At their Canadian camp their landlady lent them armloads of heavy clothing, including storm coats for the adults and rubber furlined boots for the children—the like of which aren't seen in this Southwestern country! Much of the fishing was done from boats, and the heavy garments were needed.

The six were gone from Eldorado two weeks. They spent most of their time at the Lake of the Woods, where they stayed at a camp near Sioux Narrows, a Canadian town. They describe the lake as a body of water with about 10,000 islands in it. The weather was cold much of the time but it warmed up enough to enable them all to do a little swimming and for the children to enjoy the beach.

They enjoyed the fishing, though natives reported that the fishing was not at its best due to the unfavorable weather. They fished mainly from boats for northern pike, wall-eyed pike, and small mouth bass. The men did quite a lot of fly casting and fly fishing, and the women still fishing and trolling.

They report the country developed for entertaining of summer tourists, and describe their cabins as modern and very convenient.

They went through Winnipeg, and spent a day shopping there where they found merchandise very

reasonably priced, especially English woolsens. Mrs. Shugart had hoped to add some pieces to her English china, but lacked time to find a store which carried it.

Much of the food was reasonable, they state, but cigarettes were \$4.50 per carton and gas 48 cents per imperial gallon—which is more than our gallon, but the price was still double what we pay here.

Also, they paid \$56 a week for a cabin which accommodated them all. Very reasonable!

Mr. and Mrs. George Fry and sons Winfield and John and Miss Ora Fry spent most of a two weeks' vacation at Eureka Springs, Arkansas. They stayed in a tourist court there and did quite a lot of sight seeing in all directions from Eureka Springs. They were especially impressed with the fact that there was so much rain—and everything was so green—and that the lakes and country roads were so very pretty. They also had quite a few samples of the famous Arkansas huckleberry pie, which they found as good as advertised.

They stopped at San Saba on their way home to round out their two weeks before getting back to Eldorado.

The City of Eldorado is furnishing two trained nurses for the new Hudspeth Hospital, which opened recently in Sonora. These two are Mrs. W. F. Mrs. Edmiston is a staff nurse, and Mrs. Montgomery is in surgery. Both have the cherished RN after their names, and both continue to live in Eldorado.

Of general interest also is the fact that an Eldorado boy was the first patient in the new hospital! Ronnie Mittel, son of Mr. and Mrs. Archie Mittel, was admitted as a patient a week ago Sunday and his case goes on record as the first the hospital has handled. Ronnie, who was treated for typhus fever and pneumonia, was brought home Friday.

*A waste of pennies...*

Probably you know a farmer in your community who uses electricity in many different ways, both in the house and on the farm. His bill may be two or three times what yours is.

Probably you say, "I wish I could afford it. He has the money to be able to buy the electric equipment and pay those big bills each month."

You may be putting the cart before the horse. That farmer is making money through the use of electricity, not wasting it on electricity. He is using electricity to free him from chores for more important work. He is using it to prepare and preserve his output so that he can get top prices. He is using it to cut his labor costs.

His wife uses electricity for all of these purposes and also to add a note of luxury and comfort to their home and life. But the luxury is just a by-product. The primary purpose of their use of electricity is making money, not spending it.

Ask your neighbor to give you a profits and loss statement on the use of electricity. Maybe you can also profitably invest some money in electrified farming and living.

**Might Say  
The Birds Got "Nettled"**

Had dinner with Tik Bradley the other day, and over a frosty bottle of beer I found out about his job with the U. S. Fish and Wildlife Service.

"Now just exactly what do you do?" I asked him. "Shoot birds with a cannon" he calmly replies.

Seems they actually do use a cannon—to shoot out a net over a flock of birds feeding on the ground. The birds start to take off at the sound of the shot, but the settling net brings them back to earth. Then they're banded around the leg so more can be learned about their migratory habits. Afterwards, they're let loose—and everyone's happy.

From where I sit, it was a good example of how when you learn the real facts they're often not as bad as they may sound at first. Like with people. Get to really *know* your neighbor and chances are you'll be more tolerant of his preferences—even though they're not your own. Take a good look, before you jump to conclusions.
