Babson's Business Outlook For Coming \

News Review of 1951 From the Success Files

year of 1951, Schleicher county can here tomorrow night. New Humble look back over the past 12 months pumping station operating on east with mixed impressions. For one part of Schleicher County. City of thing the entire agricultural and Eldorado adopts sanitary rules in ranching industry suffered from a regards to trailers, as oil workers year of severe drouth-crops prac- continued to move in. Firemen tically a failure-lots of expensive were called to the Ovid Wade place feed to buy. The year is ending on discouraging note—there is still no a big grass fire. rain. Total inches of rainfall for

the year is a mere 8 inches. In the oil business, however, Sch-The latter part of last year saw Delta Gulf bring in a discovery well at Hulldale, and by January first there were four offsets being drilled. Now 12 months later, the Hulldale area boasts over 40 producers. A gathering system has been provided, and an extensive drilling campaign is under way.

Varous companies have punched a considerable number of wildcats which resulted in dry holes, but the end of the year sees wildcatting still going on, and new fields in widely scattered areas are a distinct possibility in 1952.

The new hghway west to Big Lake was completed in 1951, and east-west traffic across Schleicher is steadily increasing. Some new businesses have opened in Eldorado since this time last year. These include Keno's Courts, New Gulf Station, Long's Variety store, King's Krown and Edmiston's new drive-in theatre. All told, it has been a year of considerable progress for Eldorado in spite of the severe drouth.

Some of the year's highlights as as follows:

January, 1951

4.—With state highways soon to be leading out in all four directions, the importance of Eldorado as a highway center was emphasized Dept. took title to three acres of land here for a new maintenance

Utility Companies Show Increase In Number of Meters During Year

The year of 1951 has shown a modest, but steady growth in the city of Eldorado, according to figures. picked up at various utility offices. It is estimated that about 50 dwelling units—houses or new apartments — have been provided during the past twelve

The West Texas Utilities Company reported 557 customers in December, 1950, as compared with 613. at the present time—a gain of 56.

The Telephone Company reports a total of 725 customers at the present time—a gain of about 35 over the same period last year.

The City Water Department has a different kind of report. While they were adding around 50 new customers in the white section of town, they lost more than that in the Mexican district. The Water Dept. has 550 customers at present—a LOSS of about 25 over this time last year. The drouth and the crop failure in Schleicher caused a wholesale exodus of Mexican labor families who have gone elsewhere to work in the harvests.

There were but very few gas users in the Mexican section, and the City Gas Dept., therefore, shows a net gain in customers for the year.

C. N. Shaw

ANNOUNCES

C. N. Shaw has authorized the good cotton year in Schleicher Success to announce his candidacy county." Little did he know! The for the office of Sheriff and Tax Easter egg hunt was postponed a Assessor Collector of Schleicher week on account of rain. It was County, subject to the action of the

COUNTY ALERTED WHEN MARE DEVELOPS RABIES

A mare on Thomson T Circle has been killed after developing rabies. and all stockmen in the county and all residents of Eldorado are urged to be on the lookout for symptoms of rabies among dogs and cats.

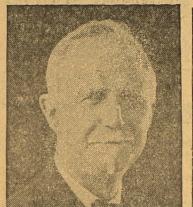

Frank Clarke, T Circle manager, had been attempting to put a bridle on the mare when she reared up attempted to fight him, then bit another mare. She was killed and the head sent to Austin for examination, and the animal was found to have rabies.

As a precautionary measure, Mr. Clarke, also the mare which was oitten and several dogs on the place, have been given serum through vaccination.

The county has been alerted to watch for signs of rabies, and to report any suspicious actions on the part of an animal to Roy Andrews, or Sherff Sweatt, and if neither answers his phone, to call the fire department—as this will be considered an urgent matter, requring immediate attention. Andrews would lock an animal up and observe it for a stated period to see if rabies will develop, and release it if it is not infected.

It is explained that suspicion should be directed toward any animal which suddenly develops a vicous temper and bites and fightsit may also foam at the mouth. For the protection of the general public, officials stress the importince of cooperation, so that the disease may not break out anywhere else.

Dinner guests in the home of Mrs Frank Spencer were Mr. and Mrs. Tom Kent and Spencer and Dan of Alpine, Mr. and Mrs. Lester Hen-Clifton Henderson, Mr. and W. A. Blaylock and daughters.

brother.

By ROGER W. BABSON

1. Excluding defense orders, the total business volume in 1952 will be less than that for 1951. However, National Income in 1952 will be very high, as war orders take the place of peace production.

Government Controls

2. The outstanding feature of 1952-barring all-out war-will be the Presidential Election on November 4, 1952. I comment further upon this under paragraph 48.

3. The Administration and its economic advisors appear firmly convinced that radical inflation is about to break out next year. But the "bran trusters" are overlooking the fact that the boom is already old and that it was creaking badly when the Korean War broke out. The date of the slide has only moved ahead.

4. Farm income will continue

high in 1952. 5. As 1952 wears on, the effect of controls, increased taxes, and high prices will cause a decline in legitimate business. If civilian production declines too much, the public may then cry, "This is a govern-

Administration. 6. If in 1952 it becomes evident that business is declining too much as a result of government curbs, the planners at Washington will

Labor Outlook

7. Many labor groups will be successful in getting another round rado. It is to dig to 7,500 feet or of wage increases in 1952. Ala test of the Strawn at a lesser though there may be more important strikes in the first part of 1952, there should be a decline in work stoppages in the last half year.

8. Tightness in the labor supply will continue through 1952, particularly of highly skilled workers. Wages of such workers will be

9. The Taft-Hartley Law will not of the Law will continue to wink at

Commodity Prices To Remain Firm 10. Wholesale prices of many commodities will suffer a mild decline in 1952 when compared with the price level for December 31,

11. Commodity speculation for a oil in two hours and seven minutes in a drillstem test of the zone at rise will not pay in 1952. Furthermore, our expanding stockpiles of After that test the exploration strategic materials present a real cored at 7,254-64 feet. Recovery price threat in the event of a peace was three feet of porous lime, scare. Such stockpiles could then bleeding oil; two feet of dense act strongly as a depressant on ime with gas odor, and four feet prices. Wise merchants will operof porous lime with an oil and gas ate with only a conservative inven-

tory. 12. The cost of living will remain will be run on the ten feet of new high during 1952. This prediction hole and then the casing will be recognizes that living costs next run and the completion activity year may continue above the lower levels that existed during the first Humble No. 1 Pearl Williams is half of the year now closing. I also 1,980 feet from north and 660 feet predict further rises in freight and passenger rates.

Farm Outlook Good

13. Congress will not take any action during 1952 to legally bolster so-called Fair Trade price cally when consumers are complaining about the cost of living. But, some manufacturers will tighten up on distributors, eliminthe northeast portion of the Hull- ating those who won't sign Fair 14. Barring crop failures, the

total supply of food available should be larger than for 1951, since the government will raise planting quotas as part of its attack on inflation. If the weather is extremely favorable, the gov-ernment will be asked to give away surplus crops.

15. With prospects good for a rising supply of feed grains, most meat should be more plentiful next year than in 1951. Prices for beef, however, will be held up by high wages and military needs.

Local Taxes Will Be Higher

16. The burden of Federal taxes, both corporate and personal, will not be increased again during 1952 above the advance late in 1951. State and Municipal taxes, however, will go higher again.

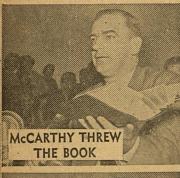

17. The above forecast is based on the assumption that unless Stalin starts World War III during the early months of 1952, he has made Mr. and Mrs. Edgar Spencer had up his mind to forget World War III until the United States and our brothers-in-law, Mr. Allies again "Go to sleep," The Delbert Taylor family spent and Mrs. L. A. Gray of Anthony, may be some years hence. We give

BABSON

(Continued From 1st Page)

venting inflation: (1) increased production; (2) decreased spending; and (3) as a last resort, increased taxes. I forecast that the current exploitation and accompanying fear of inflation are not yet at their peaks for this business

19. States and Municipalities will again be under pressure to find age in our civilian exports during adequate sources of revenue. Fur- 1952. Imports, however, may rise ther increases in sales taxes by further. Exports to South America States and Municipalities can be will be cut off. Total foreign trade looked for next year.

20. There will be no increase in "luxury taxes" during 1952.

Domestic Trade Uncertain

hold down the demand for automo- vince Congress that additional heabiles and certain household equip- vy credits, should be granted abment. Completions of fewer dwell- road. ings will also act as a damper on furniture sales.

spending for food and lower-priced be heard; but no radical tariff leg-

23. The above trend forecast will i mean a decline in department store volume. I predict a rise in the sales!

of variety and drug chains.

Foreign Trade Outlook 24. I believe that armament is to pecome a new and permanent industry, at least for many years to come. Airplanes, tanks, artillery,

guns, and munitions will constantly be replaced as they become obsolete. This new activity will operate much as the automobile industry has operated. I predict that this will be more and more recognized throughout 1952.

25. Barring new war developments, I look for continued shrinkshould not be changed much, but the exporters will be on the short end of this business with the importers gaining.

Domestic Trade Uncertain 26. Except for war supplies, it 21. Credit curbs will continue to will become more difficult to con-

27. Many domestic manufactur-ers will feel increasing competition 22. Falling demand for hard from foreign merchandise. A cry goods should stimulate the public's for increased tariff protection will

More Deficit Financing

28. The first quarter of 1952 may

actually see a budget surplus as a onslaughts by New Dealers. result of high National Income and increased taxation. But, a Fed- licans in Congress are making everal deficit will surely arise during ery effort to avoid antagonizing the balance of the year.

29. Government loans will gradually increase during 1952 and of power in the Presidential and there will be some strengthening many Congresional elections. Midof basic interest rates.

30. Government bonds will continue to be held tightly between vote is overrated. the floor of Federal Reserve support purchases and the ceiling of Federal Reserve anti-inflation

the Administration is still opposed.

32. Until the danger of war is past, wise people who can easily do so will move out of large bomb-vulnerable cities and avoid having investments in such areas.

33. Sometime during 1952 stocks will sell lower than current quotations. This applies especially to oils and certain "blue chips."

34. Stocks now in the best position for 1952 should be many of those that have not been popular inflation hedges in the past months. I like good chain variety store stocks, certain movie stocks and possibly the air transportation

35. Investment Trust funds, pension funds, and insurance companes may provide an excellent backlog of demand for sound Income Stocks where good values can be demonstrated.

36. Successful investors of 1952 will be those who have the patience to follow a carefully planned investment program. Such a program will emphasize diversification-not only by company and industry, but also by quality and cash.

37. Highest-grade taxable corporate bonds should hold in a narrow price range during 1952, but I see no reason for individual investors to buy them unless they are

38. With present high income taxes, tax-exempt bonds should continue in good demand. Investors should see to it that their bond maturities are carefully diversified, with some part of their bond funds maturing each year. As there usually is not a good market for tax-exempts when an estate is liquidated, it is wise to hold only such bonds as will mature near the time of one's probable death.

Real Estate Activity

39. Much of the recent real estate boom was the result of easy credit-almost nothing down and small payments for years hence. Under the recent legislation there will be fewer small homes built in 1952; but some credit restrictions will be modified. Mortgage money should soon be had on more liberal

40. Nonessential com mercial building will be hit in 1952-but, barring World War III, controls will be lessened rather than in-

41. The decline in new building will continue to throw a wet blanket over speculation in vacant suburban lots during 1952.

42. The scare caused by the Korean-China war and fears of an early outbreak in other sections adversely affect the demand for big city real estate. This fear, however, is declining and many who had put their city properties up for sale are withdrawing them. 43. Small sustenance farms should hold up well in price as these continue to be valuable inflation hedges. Demand for large commercial farms, however, should weaken

as the year progresses. 44. Any swing back toward rent control will act as a further damper on new apartment house building. There is as yet no incentive to build homes for rental income, although rent control is gradually lessening.

45. Tighter credit controls will make it more difficult to improve older residential properties. Hence, the prices for these should weaken even though these are now the best

46. Volume of money and credit in circulation will continue to increase to about the peak of a few years back. The big rise has been in credit. Much of the credit in-crease is "secured" by commodity and property values that can shrink greatly when defense spending

Defense Orders and Politics 47. Those who can do so should attempt to get defense orders if needed to hold up production volumes and reduce overhead. Not too much profit from such war business should be expected. These contracts will be subject to tightfisted renegotiations.

48. The political outlook for 1952 will be completely dominated by jockeying for position in the Presidential race for 1952. Barring World War III, Congress will pass very little new legislation except some sops to labor and veterans. 49. Congress will still be domin-

ated by a conservative coalition of

Northern Republicans and South-

ern Democrats. This North-South coalition will still be able to curb 50. Democrats as well as Repub-

farmers. Again, in 1952-as in 1948 -the farmers will hold the balance west states can make or break the Presidential candidates. The labor

DOCTORS DISCUSS HAND AILMENTS DURING WINTER

Making fruit cakes and Christmas goodies, wrapping packages, opening a wedge through shopping crowds, and shaking hands with friends and relatives in holiday goodwill all bring those hands of yours into constant motion at this activity of the hands, in fact, might ness. When your doctor looks at make you wish you had a couple of your fingernails he may find a sigextra ones.

mighty wonderful things, however. The hands, the erect posture and the reasoning brain are the three things that make the difference between man and beast. And the brain devotes the largest part of its area concerned with motion to the function of the hands, the most exposed part of the body and the most highly developed for motion. Hands are the eyes of the blind and the ear and voice of the deaf and

Since the hands must be so flexible to perform all the many functions demanded of them, they have very little fat to offer them protection. This makes them so susceptible to infection, wounds and deformities that even the most trivial injuries to the hands should receive immediate medical attention. Thorough cleansing and bandaging of slight cuts or scrapes will go far toward preventing infections and any more serious injury to the hands may require professional medical advice in order to keep the healing from interfering with the efficient mechanism of those or-

One of the first winter cares of the hands is to keep the natural drying out; outdoor cold and indoor them rough and red which not only robs them or their beauty but also of their peak of efficiency. A bland hand cream or softener will usually seen and does not change. overcome those difficulties.

Fingernail biting is not confined to winter or to small children. It is not a pretty habit, however, either from the looks of the biter or the looks of the hands. And if the hands are busy enough, the nails can't be chewed upon.

The doctors consider nail gnawor anxiety. The child who chews nails while listening to the radio or watching a movie is probably getting too much blood and thunder in his entertainment diet and a little milder form of entertainment, preferably one that brings the hands into use, may do away with the chewing. Anxiety about school often leads

to nailchewing in the first grade, which may last up until about the sixth grade if the child doesn't feel at home at school before then. If a child doesn't bite his nails before he's 12 years old, he's not likely to ever pick it up; but those who start the habit as youngsters may return to it in later life even though they have broken the habit of school. once.

Sometimes the nails are evidence busiest time of the year. So much of other ailments besides nervousnal of a number of different dis-Those hands you have are eases or potential diseases elsewhere in your body. A short time ago the medical profession was stumped over an an "epidemic" of spots and hurt pretty bad before separating from the quick. They investigated to see if it were caused by a fungus like ringworm that number of other diseases cause the separation of nails from the bed. Finally they traced the "epidemic" to a kind of undercoat to nail polish; it seems many ladies were allergic to the undercoat and that caused the reaction.

Psoriasis and eczema any place on the body may show up in a yellowish, pitted nail that sticks out from the quick. Any kind of pitted or ridged nails or brittleness of the ends of the nails may be just a local fingernail problem or a sign to your doctor that something is

wrong someplace in your system. Hands and fingernails tell a medical story to your doctor and perform vital functions for you. all the wonders about the hands, however, the one which has entertained scholars the most from ancient to modern times is the fingerprint. From the cradle to the grave oils that serve as lubricants from vou may change in many ways but the one thing about you that never heat have a tendency to rob the changes is the swirl on each of hands of these natural oils, making vour fingers. The pattern may get dimmer or more pronounced, may be cut off or burned off with acids, but the nattern can still be

Sunday school Sunday. Only 159 given. The library representative, present. That was way below our Mrs. J. E. Hill gave the following reach their goal.

Bro. and Mrs. Nelson wish to express their thanks to the church for the lovely silver serving tray that was presented them for Christmas. The gift was simply beautiful, but the love and appreciation back of the gift was even more lovely. We trust that we will always be worthy of the love and trust that you have placed in us as your lead-

Orchids went to the primary department with a grade of 56. Second was the beginner department with a grade of 55. Onions to the nursery with a grade of 36. The battle is waxing warm between the beginner and primary departments for the efficiency banner for December. It is about time someone took this away from the beginners.

Crusader Meeting Is Held Last Week

The Crusaders met at the Presbyterian church Monday, the 15th, for their regular meeting, 22 Crusaders and eight mothers and visiting children attending this meeting, at which the mothers were honored guests.

The children served refreshments to the mothers and visitors, and all sang Christmas songs. For entertainment they made Santa faces on paper plates. Rev. Charles Bruce dismissed them with prayer. The sponsor, Mrs. Edwin Jack-son, presented the children with

former's parents.

High School Faculty Leave For Holidays

The High School faculty are in various ways-mostly visiting cially built house. relatives in other places, and resting from their round of Christmas activities which marked the close
