

Washington News Letter

By Congressman O. C. Fisher

OUR DOMESTIC COMMUNISTS, fighting a rear-guard action against an aroused public resentment to their subversive activities, are reported worried no end over anti-Communist legislation pending before Congress.

Two years ago the House passed the Mundt-Nixon bill to tighten control over the Reds, spies, and subversives in general, but it died in a Senate Committee. Then, recently another measure on the same subject, containing even tighter controls, went through the House with but 20 dissenting votes. But it is being overhauled in the Senate and when passed may run into a Presidential veto. The President, while favoring more stringent controls, has expressed fear the legislation may go too far and interfere with civil liberties.

But these foreign agents are tough and cannot be handled with kid gloves. They pay their allegiance to the Soviet Union. They act as a fifth column and are trained to prey on the gullible, the dogooders, the parlor pinks and the pseudo-liberals.

J. EDGAR HOOVER, the man most feared by the Communists in this country, appeared before a Congressional committee the other day and tagged 12,000 of these people as dangerous. He said the FBI was ready to arrest them in case of war with Russia. In addition the FBI chief said half of these subversives are native born Americans and that all told there are 50,000 Communies who are being watched by his agents.

The big danger, Hoover points out, is the tendency of some people to be lax in their vigilance toward the Communists and to accept them as harmless liberals. Some folks pretend by all that is holy that they detest a Communist, yet go about belittling their danger and scoff at attempts to control them.

Mr. Hoover has said there are 10 of these fellow-travelers for every card carrying Communist in this country. And he says these fellow-travelers are often more dangerous to this country than the actual members because they wrap themselves in cloaks of respectability in local communities and often innocently do the very things the Communies want them to do.

THROUGH INFILTRATION, clever campaigning, subtle propagandizing and the like the Communies have made amazing progress in various fields. Witness the infiltration into labor unions, mostly CIO, that were Communist-dominated, including more than a million members. The rank-and-file were good Americans but the Reds managed to get control. But during the past year most of these unions have been expelled from the CIO—thanks to the help of the Taft-Hartley law.

Another example of Communist success is the Red-dominated American Labor Party in New York, which averages 300,000 to 400,000 votes in nearly every election.

And then, there's the case of a Commie who received 600,000 votes in the recent primary in California. Bernadotte Doyle was a candidate for State Superintendent of Public Instruction out there. She made no bones about her CP membership. Indeed, she was the chairman and educational director of the San Diego Communist Party, and running as a Democrat she shattered all previous vote-getting records of professed Communists in this country.

THE HOUSE recently passed, with but 15 dissenting votes, another bill, long overdue, which would close another loophole. It would authorize the Attorney General to jail alien subversives who have been ordered deported but are on bond awaiting departure. In many instances after these people have been ordered deported, their native lands have failed to issue the required travel documents for the simple reason that they are more valuable to Stalin in this country, than they would be in Russia, Poland, etc.

Under present laws these aliens can't be imprisoned pending deportation unless they are caught in a criminal act, or acts of sabotage, espionage, etc. So they run loose on bond. But if the House-approved bill, now pending in the Senate, is enacted, the Attorney General can have 'em locked up pending deportation.

HEAVY BEGINNERS ENROLLMENT CAUSES FIRST GRADE DIVISION

Busses are making their regular runs and classes have settled down to routine work as the Schleicher County public school goes into its first week of the 1950-51 school year.

It was no surprise to school officials that the first grade had to be divided. There are now three first grade sections, one for Latin Americans, and two others, taught by Mrs. L. V. Newport and Mrs. Nancy Thompson. To take care of the first-grade overflow, Mrs. Thompson was moved from her place as third grade teacher, and Mrs. Ted Kirby is teaching the third grade until another teacher is employed.

The division was anticipated by school officials, who had based their conclusions on the school census, in which over 30 children of first-grade age had been counted. Others moving in had brought the enrollment to well over 40, making the division necessary.

UNDERS ACCEPTED

Welcome news to some parents will be this announcement: unders whose birthday falls between September 1 and Sept. 16, will be accepted, and may now enroll, without payment of tuition. This is the first time unders could be accepted, due to crowding in the first grade—a condition now eliminated with assignment of another teacher to that department.

School officials stress the fact that because conditions in this department cannot be anticipated in advance, the decision to admit unders will have to be made on a one-year basis—and announced from year to year.

Enrollment

Enrollment on opening day which will be augmented when late comers enter school, was as follows: High School, 129; Junior High, seventh and eighth, 63; elementary, 256. Total, 448. Negro school, 21.

Shop Is Popular

A popular new course is shop, in which 69 Junior and Senior High School students are enrolled. New equipment was recently installed.

Piano Arrives Today

Delivery of the grand piano which was recently bought was expected today. The school board, in session Monday night, voted to authorize payment of the remaining indebtedness on the instrument, the PTA having raised a good sum to pay on the piano this summer. It is for use in the auditorium.

Bus Drivers Employed

Route 4 has been split and there are now eight drivers. Drivers are: Route 1, Mrs. Floyd Farrington. Route 2, Mrs. D. L. Rutland. Route 3, Howard McDaniel. Route 4, Rev. W. E. Kruger. Route 5, Mrs. Buster Dickens. Route 6, Carroll Howard, also bus maintenance foreman. Route 7, Mrs. Freeman Yardley. Route 8, Mrs. R. H. Damron.

Cafeteria Equipment Delayed

Because of late delivery of some of the cafeteria equipment, the cafeteria is still serving only light lunches, mainly sandwiches. Mrs. E. W. Craig is assisting Mrs. McMahon in the lunchroom.

Miss Farmer Here

The name of Miss Farmer, music teacher, was omitted through error in this paper's list of teachers, published last week. This is Miss Farmer's third year in Eldorado.

METHODIST BOARD MEETING

The Board of Stewards of the Methodist Church will meet Saturday night at the church. All members of the board are urged to attend.

"Please Don't Run Over My Little Girl!"

"Today my daughter, who is 7 years old, started to school as usual. She wore a dark blue dress with a white collar. She had on black shoes and wore blue gloves. Her cocker spaniel, Coot, sat on the front porch and whined his canine disbelief in education as she waved goodbye and started off to school.

"Tonight we talked about school. She told me about the girl who sits in front of her and the boy across the aisle who makes funny faces. She told me about her teacher, the trees in the yard, and the big girl who doesn't believe in Santa Claus. We talked about a lot of things—tremendously vital, unimportant things—and then we studied spelling, reading and arithmetic—then to bed.

"She's in the nursery now, sound asleep with Princess Elizabeth

Mrs. Odes Jeffrey Leases J's Cafe

J's Cafe, located near the school house, changed hands this week. Lee Halbert, who has been operating the cafe a number of years, catering to the trade of school children, has leased the business to Mrs. Odes Jeffrey, who is now in charge.

Mrs. Jeffrey made the deal late last week, and spent the week end and Mon. making preparations for opening Tuesday. As the cafe has been closed this summer, it was cleaned and re-stocked before the opening day.

Mrs. Jeffrey states that she expects to serve lunch items the school children like. Her open-for-business hours will be from 7:00 a. m. to 6:00 p. m.

LOTS OF BUILDING IS GOING ON IN ELDORADO, MAINLY IN BUSINESS DISTRICT; CARPENTERS ARE BUSY

Building continues in Eldorado, especially in the business district. Carpenters are at work on new buildings and repairing of old ones, and in spite of the fact that the new schoolhouse is practically completed workmen are still in demand.

Mr. and Mrs. Hollis McCormick, who have been renting Mrs. C. C. West's Rock Station No. 1 for about three years, started work Monday on a new combination residence and business building, to be located not far from their present station and store.

They bought a triangular shaped lot, with 190 foot front, from A. J. Atkins recently. Work on the foundation of the building started Monday.

The building will be of frame stucco construction, and will measure 66x40 feet. About half will be living quarters, with three bedrooms, bath, kitchen and living room, and the remaining part will be filling station and store similar in character to the business they now operate. It will be located on the lots adjoining the two Atkins rental houses at the north.

At the time of starting of construction, the couple completed a deal for sale of their residence, located near their new property in Glendale. The purchaser is Bill Rountree, of the Soil Conservation office, who will move there soon.

Cement block walls are up on the new George Long building, and workmen have been pouring cement in forms at the top of the walls. Steel ceiling joists are on the ground, ready to be put in place.

Work is progressing on the new tourist courts, which Keno Ogden is building on his lots adjoining the Holcomb clinic. These units are also made of concrete blocks.

Workmen are putting in sidewalks and curbs, and clearing and leveling the school grounds.

The Case Ranch is located in Schleicher County, midway between Eldorado and Mertzon.

Road Bond Election Is Carried Easily

The \$40,000 bond election for road right-of-way and purchase of equipment carried by an easy majority Saturday—the vote was 239 for and 37 against.

The State Highway Department is already advertising for bids on 14,008 miles of highway in Schleicher County, these bids to be opened Sept. 20.

Included in the plans are new tile front for the two buildings, cement floors for both buildings, and painting of the interior. New furniture stock is on order, to be added to the present stock.

Ratliff has rented his present insurance building to O. B. Bradshaw, who will move there as soon as the interior has been re-papered.

Work on the foundation of a modern five-room frame house for W. F. Edmiston started last week, on a lot which he purchased from his father, in Glendale, opposite Jack Shugart's new house.

Walls are up and windows are in, on the new First Baptist annex, being built on the rear of the church.

Renovating of the former Richey building, for the new Western Auto store which Roy Phelps will own and operate, is under way. Fixtures and shelving are arriving and stock will be shipped in within the coming few weeks.

Work seems to be nearing completion on the Roach building, which is being remodeled to house a doctor's office and clinic, to be occupied by Dr. Maginot.

The Will Stewart rent house near the schoolhouse is undergoing extensive renovations, in preparation for the occupancy of Mr. and Mrs. "Bubba" Thompson, who now are living on the John Luedekate place. The house is being re-painted and papered, new porch added and repairs made.

Good School Year Is Ahead For Texas

Texas' already vastly improved public school system will be on an even higher level during the 1950-51 school year, it was predicted by the Texas State Teachers Association at Austin recently.

More classroom facilities and more and better trained teachers will be available, it was pointed out by L. P. Sturgeon, state associate commissioner of education.

Under the new Gilmer-Aikin laws which went into effect last fall the teaching staff was increased by 2,000 and more than half of the school districts of the state added to their classroom facilities.

An additional 1,500 teachers will be hired for the next school year, Sturgeon said. A survey disclosed many more schools will increase their facilities, Sturgeon said.

Increase in pay for teachers has added to their morale and made the profession far more attractive to young people, Sturgeon pointed out. More young people are preparing for careers as teachers and these better trained instructors will be available in larger numbers next year to replace retiring instructors and those less adequately trained, according to Sturgeon.

School districts which met the requirements of state law in order to receive additional financial aid from the state had a teacher for every twenty-five pupils in average daily attendance during the last school year, but many districts were forced to put pupils on a half-time basis.

"This will be partly alleviated during the 1950-51 school year by the construction of more classrooms and the availability of more teachers," Sturgeon said.

"This will add to the great benefits derived by a great many of our school children in the last school term through their being in smaller classes, where they could get more personal attention.

"During the 1948-49 school year a survey conducted by the Texas State Teachers Association disclosed that more than half of the classrooms in the entire state were badly over-crowded.

Sturgeon also has high praise for the state's teachers.

"While the pay increases under the Gilmer-Aikin laws averaged only \$500 for teachers, their morale is at the highest in the history of Texas," he said.

"I can see that in their interest in and their attendance of professional meetings I have attended throughout the entire state.

"Superintendents are almost unanimous in their reports of the willingness of teachers to accept additional assignments and to participate in extra-curricular activities.

"Teachers are satisfied and are proud of their profession. That means better education for our children in rooms presided over by well-trained instructors. It is only reasonable that happy, efficient teachers can do far more in imparting knowledge than dissatisfied, inefficient persons.

Increased enrollment in courses leading to degrees in education in the state's colleges was also pointed out by Sturgeon as an indication of the attractiveness of the teaching profession in Texas schools now, with its resulting benefits to the children.

Another Snyder?

After comparative inactivity in exchanging leases and royalty acres in Reagan County, an unusual flurry has developed recently in the northern section of the county on Cynthia Malone land.

Unusual in that the buyers are nationally known names and faces. Celebrity buyers included among the 41 recent royalty deed sales are Ginger Rogers, Robert Taylor, Barbara Stanwyck, Richard E. Powell, Marvyn LeRoy, Walter Pidgeon, and Lester Armour and son, Philip Armour. Could this be another Snyder?—Big Lake Wildcat.

Bridges Out

With bridges out of commission over the Colorado River both south and west of Robert Lee, traffic here has been badly interrupted this week. While the bridge at the south edge of town is being repaired, a low water crossing has been in use a half mile down stream. However, recent rains caused a several foot rise in the river and traffic is being routed through Bronte.—Robert Lee Observer.

Sul Ross Ready for Enrollment

Fall registration at Sul Ross College is expected to again exceed the 1,000 mark, according to student inquiries and housing requests. Registration for upper classmen will be held on September 19.

The dormitories will open on September 16 and the first meal to be served in the college cafeteria will be at noon Sunday, Sept. 17.

Freshman Orientation week is from September 18 to 23 with Freshman examinations to be given on Monday, September 18.

All classes will begin on September 21, and absences will be counted from then.—The Alpine Avalanche.

Industry Advises Concerning Training Of College Youth

With hundreds of thousands of high school graduates preparing about this time to further their education in college, a few words of advice from a representative of industry, highly qualified to say what industry in constantly looking for among men and women with college training, seems in order.

The spokesman is Kenneth A. Meade, director of college and university relations for General Motors. He has much to do with screening graduates as potential GM employees, and in advising with college placement directors who assist their graduates toward suitable jobs. Mr. Meade, in speaking to the members of the American College Public Relations Association a short while ago, made a number of points worth repeating for the benefit of those who will be starting a new college year shortly. They are:

Each student should make a self-analysis of his abilities, human relations capacities, interests and ambitions early in his college career so that he will be in a better position to choose a field of work for which he is fitted and sell himself into a job when he nears graduation.

Each student who expects to enter industrial employment should with the help of the placement officer and the faculty analyze employment opportunities from a long range standpoint with the objective of finding the field of work for which he is best qualified and in which he can make his greatest contribution. In doing this, the student should consider the opportunities in small companies as well as in the larger companies who reg-

ularly recruit at the school. The faculty should encourage the undergraduate to pursue a basic educational course that will fit him to start in some kind of useful employment rather than urging him to specialize too much. The administration, faculty, and

placement officer should use every opportunity available to impress on the student the fact that it is necessary for him to get experience before he will be ready to handle responsibilities. Management in industry has set up programs to help him get this experience.

The All-Important 10 Count

In the ring, a fighter isn't "out" until the count of 10. He also has a 10-second warning before each round.

In telephone service the ten count is also all-important for better telephone service. It works this way:

WHEN TELEPHONING, PLEASE GIVE THE PERSON YOU ARE CALLING AT LEAST TEN RINGS—THAT'S A MINUTE—TO ANSWER YOUR CALL BEFORE YOU HANG UP.

Looking for a Money Saver?

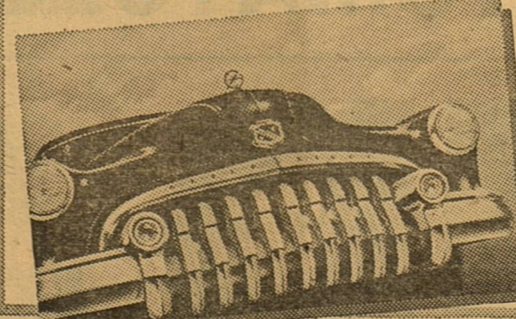

Better Buy Buick!

YOU CAN SEE here how smart it is—don't have to be told that it's the most quickly identified car on the road today.

You probably know that the engine under that broad bonnet is a Fireball straight-eight valve-in-head engine and a lively stepper in any company.

You can check the abundance of its room by the simple expedient

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

of taking the family and trying out its spaciousness at the nearest Buick dealer's—and a very few minutes on the open road will satisfy you that all-coil springing, low-pressure tires and Buick's torque-tube drive really do produce a ride that is matchless for its soft comfort.

BUT RIGHT NOW, it may be that the money angle is the thing uppermost in your mind, and on that we'd like to make two points:

All our records go to show that this is the most economical Buick ever built. It is easy on gas, on oil, on tires, on upkeep.

And if you choose it with

Dynaflow Drive,* it immediately eliminates all chance of friction-clutch repair and replacement—not to mention greatly reducing rear-axle and transmission maintenance.

Best of all, your initial outlay is a highly favorable one—whatever Buick you buy. For these brawny straight-eights—built rugged and solid for durable service—are priced at a level that makes them a standout buy in any price class.

Yes, better buy a Buick. Your dealer will be glad to demonstrate, glad to work out all the arithmetic of a deal. See him right away and get an order signed.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.
