NUMBER 44

Appeals Made For 100% Vote As Election Campaign Draws to a

Which Will Be Elected President Next Tuesday?

FOR THE DEMOCRATS-ADLAI STEVENSON

FOR THE REPUBLICANS -DWIGHT D. EISENHOWER

Urges Voter Turn-Out

I am making my appeal to you to go to the polls on November 4th and cast your vote. As native Texans, think first of the welfare of our state, secondly of our mile, 12-inch Sutton - Schleicher nation. What makes a good state will make a good County pipeline. United States. The word "Democrat" or the word "Republican" will not make a good nation. You, your Miers gas field in Sutton County ote and your thinking, are what it takes to make a strong to the Page field southeast of Elate and country. Are you a true citizen if you do not dorado, where an 8-inch line at exercise your privilege of voting? It is time to think earnestly and seriously. Pray always for wisdom and

If you are physically unable to go to the polls next Tuesday your election judge has the right to take a ballot to your bedside.

Let's make Schleicher County 100%! We want our country and state to know that we believe in voting.

> Edwin M. Jackson, County Chairman.

"Vote as you please, but please vote"—that is the rallying cry all over Texas, as the most intensive general election campaign in the history of the State enters its last four days. Some of it is partisan and well organized. Backers of Adlai Stevenson or General Eisenhower are urging the qualified to vote—their way. But much of it is non-partisan—such of the Boy Scouts and Cub Scouts who will distribute Liberty Bell door hangers to every house in Eldorado Saturday morning.

Sample ballots are on display this week in almost every business house in Eldorado. Schleicher County supporters of Stevenson have announced a Saturday night political rally, featuring speakers from San Angelo. Backers of Eisenhower are in there slugging, and at least 1½ pages of advertising in this issue are devoted to his

The County Clerk's office last night reported no less than 60 absentee ballots cast—with today and tomorrow

It will all come to a head next Tuesday morning. Nov. 4, when polls open at the various county voting boxes at 8:00 a. m., closing at 7:00 p. m. Election workers are already shaking their heads dubiously over the large 8-column official ballot, and are wondering how long it will take to tabulate the total vote. A copy of this county's official ballot appears in another part of this paper.

So-vote as you please Tuesday, but please vote.

REYNOLDS ROAD IS RIGHT-OF-WAY **NEXT PROJECT IN** F-M PROGRAM

The Schleicher County Commissioners Court met recently in a special session with representatives of the State Highway department and set up the county's preference in the next 2-year farm-to-market road program.

The route chosen by the court as the next one to receive attention is what we know as the Reynolds road. Starting west of town where the road joins the new Big Lake fin. highway, it goes north past the gin follows the present Eldorado mail route back toward Eldorado until it connects with the Mertzon road.

Since these programs are set up side. on a 2-year basis it is probable that part of this road would be built one year and the balance the rado. next year.

Firemen Called Out Twice This Week

The Eldorado Fire department answered two alarms this week. Tuesday night while having fire damage to an interior wall resulted from a small blaze that started near the refrigerator.

Yesterday afternoon they were called to the Bob Faught place nine miles southwest of town to a pasture fire. Damage was limited to a few fence posts, it was stated. A few days ago they made an

early morning run to Bethel Jeffrey's where a car was burning.

POLITICAL RALLY HERE SATURDAY NIGHT

Supporters of Stevenson have scheduled a political rally at the Schleicher County District court room at 7:30 p.m. Saturday. The committee reported this morning that the speaker will be either E. E. (Pat) Murphy, one time candidate for Congress from this dis-

CONSTRUCTION CONTRACTS LET

On Monday the Commissioners Court met for the purpose of awarding bids for the material and labor involved in the right-of-way for the new Mertzon road.

Foxworth-Galbraith Lumber Co. received the contract for furnishing building material, five windmills and fence wire.

The building of five concrete tanks was awarded to Skeet Grif-

Nick Jurecek and Cecil Williams received the contract for furnishing posts and stakes for 28 miles-14 miles of road with fence on each

Contract for drilling 5 water wells went to Ray Martin of Eldo-

The contract for labor of constructing the 28 miles of fence went to Andrew Hawkins of Men-

Thomas Baker of Eldorado got the job of installing the five wind-

Deeds Being Signed

Some of the deeds for right ofway have been signed, and the remaining are expected in a shor time. The bond issue money is expected to be placed on deposit within the coming week, officials state, and the county will then be ready to "pay off" as fast as deeds are turned in.

Every effort is being made to get the right-of-way construction under way in November.

A number of new families have been moving into Eldorado during the past week, as work begins on Pan American's pump station on the grounds adjoining the Bailey Station. The Pan American line from Snyder is also nearing its destination, the Bailey Station.

Mrs. J. H. Minyard and baby of Emporia, Pa., are here for a two weeks' visit with her parents, Mr. and Mrs. F. B. Calcote. She spent a few days this week with other relatives in Midland.

Schleicher County Has A **Chance to Make History**

According to Edwin Jackson, Democratic chairman, Schleicher County in the July primary cast 1332 counted votes out of a possible total

This would figure out to be about 93% turnout, which was the highest voting percentage of any county in the State at that time.

If the voters of this county would turn out next Tuesday and poll a total of over 1400 it would set a Texas county voting record that would stand for all time to come!

Texas voters have never turned out too heavily in general elections in the past; but this year it is different. Everyone is interested, and everyone agrees the national election will be close. Your vote may have a decisive part in choosing our next president.

The rallying cry is: "Vote as you please, but please vote!"

Let Schleicher turn out 100 per cent and make

Here is a copy of the official ballot which Schleicher County voters will receive next Tuesday. Next Tuesday it will be up to you.

DICK RUSSELL BACKS ADLAI

RUSSELL IS THE GEORGIA SENATOR FOR WHOM GOVERNOR SHIVERS AND TEXAS DELEGATION VOTED UNANIMOUSLY ON ALL BALLOTS AT DEMOCRATIC CONVEN-TION IN CHICAGO

Senator Dick Russell of Georgia, man the Texas Delegation ded by Gov. Allan Shivers supported on all ballots at the national Democratic convention in Chicago, predicted last week that Adlai Stevenson and John J. Sparkman will be elected by one of the largest majorities given a national est majorities given a national ticket in recent years.

Senator Russell, who is chairman of the senate armed services committee and of the senate sub-committee on agriculture, said: "General Eisenhower's evident con-fusion in his efforts to grapple with vital political issues has clearly demonstrated to the American people the grave danger of placing our government in the hands of a military man. . . . No military career, however great, can be a substitute for familiarity with the operation of a government which traditionally and by law is to be displayed down town Nov. dependent on civilian control . .

"As one who has admired General Eisenhower as a military leader, I have been bewildered by the endless contradictions of his political pronouncements. It would require a book to catalog them.

'Shortly after stating that he did not understand the term 'Farm Parity,' he assured the American farmer of 100% parity for all the products of his toil. As one who has devoted a large part of his has devoted a large part of his legislative service to overcoming Republican opposition to fair farm legislation I have vainly awaited an endorsement of this last farm statement from General Eisenhower's Republican congressional supporters. I have failed to see where one of them has disclaimed his record of opposition to the soil conservation program and to the conservation program and to the laws which enabled these farmers to have some idea when they plant their crops what they will receive from their harvest.

"The American voters are think-ing for themselves in 1952. Neither the bedlam of this campaign nor the military glamor of the Republican candidate will confuse them. They will go to the polls in the greatest number in our history on November 4 to maintain in power the party of the people. . . .

"Governor Stevenson has the potentialities which can make him one of the greatest presidents who has ever served our country. With the support and prayers of the merican people and the aid of the Almighty he devoutly worships, he will see this nation safely through the dangers of today's

How To Achieve Magic With Flower Arrangements

To help you create more artistic flower arrangements, and in honor of National Flower Week, November 2 to 9, a week of education about flowers, the Society of American Florists offers the following suggestions for making flower arrangements:

Shown in the accompanying picture series is Mrs. "Tommy" Bright, nationally known flower designer, who is arranging pastel carnations and ferns in a modern container.

Step 1: Mrs. Bright is inserting small mesh chicken wire into the container to hold the stems of the flowers. Other working materials might include: sharp knife to cut the stems; wire clipper if wire is or suction cups to fasten chicken wire firmly in the vase.

Step 2: After the stem ends have been cut di-agonally for the most-water absorption, she in-serts the longest stems of the smallest carnations into the stem holder to form the backbone of the triangular design; then she inserts the shortest stems (largest flowers) to form the center of interest of the arrangement. The longest stem should be one and one-half to two times the width of a shallow container or the height of a tall vase. Never cross the stems as that makes the design confusing. No foliage should come below the water level, as it soon decays and shortens the life of the flow-

Elegant and modern . . . the completed triangular arrangement of carnations has unity, proper proportion, balance, rhythm of line, color harmony, and center of interest. Such an arrangement is lovely on an occasional table, or two similar arrangements may be used on a mantel with the two designs being opposite triangles.

Flower arrangements play an important part in interior decoration. The flowers may blend or contrast with the color scheme. They may repeat the colors in the draperies, chairs, slip covers, lamps, or a special painting or tapestry which you wish to accent.

MORE FROM BILL WORD

We print herewith a few more paragraphs from letters received here from Bill Word, (Hamburger Bill), who now makes his home at the Masonic Home at Arlington:

IT'S THE LAW A public service feature of the State Bar of Texas

Texas Poll Tax Requirements

radio or movie advertisements to eligible to vote in the November 4 night of each month. election. To many Texans these ads have been confusing, some of them wondering whether the new Election Code passed by the last session of the Legislature may have contained some requirement regarding registration.

This confusing situation has arisen because in a large number of states registration has replaced the poll tax. National get-out-the-vote campaigns were planned with the requirements of the "registration states" in mind, and campaign advertisements circulated in "poll tax states" along with the others.

Registration is not required by the Texas Election Code. Unless you fall within specified statutary exceptions, you must still have a poll tax receipt in order to vote. In some but not all cases persons exempt from payment of the poll tax must obtain exemption certificates from their County Tax Col-

Under Texas law a poll tax is not just a license to vote, even though it is a requirement of voting. It is a tax which the statutes say shall be collected from every person between the ages of twenty-one and sixty years, who resides in this state on the first day of January preceding the levy of the tax.

Indians are not taxed, nor persons insane, blind, deaf or dumb. Those who have lost a hand or foot, those permanently disabled, and all disabled veterans of foreign wars (where such disability is forty per cent, or more) are excepted from the payment of a poll tax.

Those who are exempt from the payment of a poll tax, and who reside in a city of ten thousand or more, must secure a certificate from the Tax Collector of their county of residence before the first day of February of the year when such taxpayer shall become entitled to said exemption.

This exemption is good for one year. A new exemption must be secured for each year. Certificates of exemption are issued without cost to the person entitled to receive the same.

Those who reside in cities of less than ten thousand inhabitants are not required to secure this certificate of exemption before voting. These may make proof of their exemption at the time of voting to the presiding judge of the election where they are qualified by residence to vote.

(This column based on Texas law is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts. because the facts may change the application of the law.)

Shorty's Texaco Station

I wish to announce that I have bought the Texaco Station from A. G. Clark, and will continue to provide first class products and prompt service to both old and new customers.

In addition to the services regularly supplied at this station, I want you to know that I have the tools for doing tune-up jobs, and that I have the connections whereby I can sell you a new or a good used car.

Get in the habit of coming to SHORTY'S TEXACO and you will find that he can help you with most of your automotive problems.

C. C. (Shorty) Henderson

YOUR TEXACO DEALER

We've Sold Out

After 71 years as your Texaco dealers in the Eldorado business district, we've sold out to C. C. (Shorty) Henderson, who took over the business Sunday morning.

We are leaving our busy establishment in good hands and hope you will be as generous and considerate with Shorty as you have been with us.

MANY THANKS FOR ALL PAST FAVORS.

And keep on coming to the Texaco Station.

Mr. & Mrs. A. G. Clark

The Truth About the Tidelands

A Reply To Governor Adlai Stevenson

BY PRICE DANIEL

ATTORNEY GENERAL OF TEXAS

school fund.

Texans have recognized that in addition to the lands involved there are fundamental principles of honesty, integrity, constitutional law, and retain all of its lands.

The three three States Congress
That simply is not true. The Court did not hold that ownership was vested in the Federal Government, much less in the people. The court refused to put the word with the Federal Government, most

property and the principles were worth fighting for. That was until Governor Adlai Stevenson indicated that he approved and would follow President Truman's arbitrary action against our State. When it became obvious that this stand against Texas might cost Governor Stevenson a lot of votes, some of his Texas leaders began a new tune to the effect that the tidelands are worthless, that the issue is a "fake'

and a "phoney." One of them, my friend Wm. Mc-Craw of Dallas, has gone so far as to blame me for the loss of our case in the Supreme Court. Now, case in the Supreme Court. Now, Mr. McCraw knows better than anyone that Price Daniel did not originate this tidelands lawsuit. Texas did not sue itself or join other States in a suit against the Federal Government. The lawsuit was filed against Texas by Bill McCraw's former law partner, Justice Tom Clark, who was then serving as Attorney General of the United States. Mr. McCraw knows, and has said to public audiences in this State, that I put up the best fight possible in the Suthe best fight possible in the Supreme Court. He also knows that except for the lawsuit filed against when he indicated that President us by his own former law partner, Texas would have its tidelands ton issue in the presidential race. In this frantic effort to keep Tex-

an issue in the presidential race.

In this frantic effort to keep Texary ans from expressing their disapproval of the Truman-Stevenson sition on November 4th, many the many been made. This propaganda was climaxed in Dallas when Adlai Stevenson himself unloosed at least ten erroneous and misleading statements about the submerged lands ments about the submerged lands and Louisiana.

Claims of that Mr. Truman prefused to recognize Texas's special refused to recognize Texas's paccial refused to recognize Texas's special refused to recognize Texas's paccial refused to recognize Texas to refuse to refused to recognize Texas up with the other state of refused to refused to refused to recognize Texas up with the other state of refused to refused to

copy of this statement with book and page references may be obtained by writing to Price Daniel, Attorney General, Austin, Texas. First, Governor Stevenson im-

plied in his Dallas speech that our only special claim to the tidelands was "because of the special manner in which the Republic of Texas was brought into the Union."

In reply I must say that Texas was not "brought" into the Union, and neither did its tidelands ownership originate with its statehood. The truth is that Texas joined the Union of its own free will, and the title to its lands had been won on tne field of battle nine years before. As President Andrew Jackson said: . the title of Texas to the

territory she claims is identified with her independence, . . ." Part of the territory won with our independence in 1836 is commonly known as the "tidelands."
Actually, they are the shallow submerged lands lying along our beaches between the low-water mark and our seaward boundary in the Gulf of Mexico. These lands by a 6 to 2 vote and the decision were included within the original against Louisiana was unanimous. boundaries of Texas when The First Congress of the Republic fixed our seaward limits out in the Gulf three leagues (10½ miles) from would confirm the constitutional ore. Here are the exact words of the boundary Act:

the boundary Act:

"... beginning at the mouth
of the Sabine river and running
west along the Gulf of Mexico
three leagues from land, to the
mouth of the Rio Grande, ..."

For over nine years the Republic
of Texas maintained these bound-

aries and held the tidelands along with all the other vacant and unappropriated land within its limits. Even the Supreme Court of the United States admitted this in

pe following words:
"Texas prior to her admission
was a Republic. We assume that
as a Republic she had not only full sovereignty over the marginal sea but ownership of it. of the land underlying it, and, of all the riches which it held."

In negotiating for annexation in for President of the United States there is one issue in this race upon which Texans should know the United States if only the United States if the United States in the United States if the United States in the United Truth and remain united.

I speak of the fight to keep the Federal Government from breaking the Texas Annexation Agreement and from taking away 2,608,000 ate. Some of the Senators said our preme Court has held the subacres of tidelands from our public school fund.

Throughout this long controversy Throughout the long controversy Throughout the long controversy Throughout the long controversy Throughout the long in 1845 the United States Congress

and local self-government which are even more important than the property itself.

Until recently, most Texans were in general agreement that both the solemn contract—an international agreement between the United States and the Republic of Texas —having the same dignity and binding effect as a treaty.

Here are the exact words of that agreement written by the United States Congress and accepted by the Republic of Texas:

". . . said state shall also retain all the vacant and unappropriated lands lying within its limits, to be applied to the pay-ment of the debts and liabilities of said Republic of Texas; and the residue of said lands, after discharging said debts and li-

Truman might have treated Texas Texas would have its tidelands to differently if State officials had day and the subject would not be not "cast the lot of Texas with the claims of other states."

The truth is that Mr. Truman

considered an insult to Texas.

The purpose of my remarks tonight is to reply to Mr. Stevenson and to all those Texans who are so loyal to him and to Mr. Truman that they now call the tide lands issue a "phoney" and a "fake." A thoroughly documented copy of this statement with book while campaigning in Texas in 1948, Mr. Truman made statements as was different. Maybe that was

Let me make it clear, however, a million acres more than what we that the lawsuits filed against Texwere separate lawsuits. I defended the Texas case on our special title. We did not join with Louisiana in common defense but stood alone. preme Court are uttering a false-hood. My briefs are available for all to see. Conclusive proof of our separate defense, however, is the fact that the Court decision against

It is only in the Congress that Texas has joined with the other would confirm the constitutional claim shared by all the States as both the general claim shared by the other States, and its special claim. Texas has defended its spe-

always voted in our favor.

No, Governor Stevenson, Texas

That simply is not true. The ment, much less in the people. The Court refused to put the word "proprietorship" or "ownership" in its decree. It merely held that the Federal Government has "paramount rights"—governmental powers, if you please—which entitle it to use the land or take resources therefrom without compensation.

It is this decree of "paramount rights," based on governmental powers, which so greatly disturbs the States and individual landowners. The Supreme Court said these Federal rights transcend those of "a mere property owner." This dangerous dictrine might be employed to seize inland waters, private lands, farms, businesses or labor unions, if we ever have Federal officials who want to go that far in centralizing and nationalizing the property, business, and answer clearly indicates that Govlabor of this country. Mr. Justice ernor Stevenson would continue Reed, in his dissenting opinion in the Truman type of discrimination the California tidelands case, made it clear that:

"The power of the United States is plenary over these undersea lands precisely the same as it is over every river, farm, mine, and factory of the nation."

a similar conception of power final.

President Truman once threatened to go out into the ranches and seize cattle when the ranchers wouldn't sell; he threatened to draft railroad workers to make them run the trains; and attempted to seize the entire steel industry

without due process of law.

Fourth, Governor Stevenson, while still assuming that the Su-

among the first principles adopted by the founders of our Fed-

Under that policy, the Federal Government has granted to the injust to get our votes. In less that dividual States a total of 200,000, 60 days after Texas gave him the biggest majority of any State, he biggest majority of any State, he lawsuit to be filed aga-within their respective borders. inst us. It was he who caused us to be sued on the same grounds as the other States.

Governor Stevenson's own State of Illinois has received Federal grants of 3,639,321 acres. That is nearly

common defense but stood alone on the Texas title. Those who are now saying that Texas moved its case up with other States in the Suif we follow Governor Stevenson's interpretation and assume that the 000 acres of tidelands in this State, it would be in full accord with the Texas was by a 4 to 3 vote while the decision against California was vey these lands to Texas for pubschool purposes. Only an unfair and unjust national adminis-tration would follow a new national policy of taking away and keep-ing Texas lands after having coneyed over 200,000,000 acres to the

other States. well as our own special ciaim. Every State has submerged lands which they have held in good faith for over 100 years under the Constitution of the United States as stitution of the United States as the rivers and Chesapeake Bay Has he not heard of the St interpreted by more than 50 Su-preme Court decisions. Texas has where the Federal Government filed a lawsuit against 14,000 people who had been using the waters of that river seeking exclusive conclaim. Texas has defended its special and has defended both its special and general federal Government? Does he not stand alone in the Court, but as agreed by every member of the Texas Congressional delegation, our chance of success in Congress

our chance of success in Congress

of that river seeking exclusive contained from the Texas Departments of the Foreign Wars, the Texas Association of Parents and Teachers, and many other state-wide organizations of the ports and harbours? Has he not learned that the Department of will bring many millions of dollars to our public schools in the future developed when weights every have which are depends upon working with the other States. Under this procedure a large majority in Congress has would apply to both Chesapeake It would seem that if the lands are Bay and Massachusetts Bay.

has already given the Federal Government "paramount rights" over all property "wherever it may be," mark. Is it right to take the oil of Texas and not the oysters and clams of Maryland and Massachusetts? Such a selective policy of grabbing one resource but not another would result in continued discrimination against Texas, Cal-25 other coastal and Great Lakes States and the inland States are permitted to continue full use and enjoyment of the revenues from their submerged lands.

In this connection, I asked Governor Stevenson by letter of Au- followed. If present federal officials gust 12th whether as President he can get away with breaking our cluding his own State of Illinois, to continue to receive the revenues ture Federal officials cannot break from their submerged lands or any new agreement or compromise whether he would have lawsuits which may be made. As you know, filed against them the same as I have always opposed any comagainst Texas. His speech at Dal- promise of our American Agreeheard to this question, and that and I shall continue to do so. answer clearly indicates that Govagainst our State.

Next, Governor Stevenson said that "the Supreme Court is the that "the Supreme Court is the be compromised or ignored. In this ultimate authority on matters of this kind" and urged Texans to things about Trumanism which 1 Is would remind you that under accept the ruling of the Court as

> The truth is that the Court itself said that final determination of the question of future ownership of this property was a matter for the Congress to decide. With full respect for the Supreme Court decision, Congress can decide to take over the property or to restore it to the States. Twice the Congress has tried to restore the lands to the States, and on both occasions the action has been blocked by vetoes of President Truman.

There is a special reason why Texans should not accept the Supreme Court decision as the final word with respect to our tidelands. You will remember that in our case we asked the Court to hear the evidence in support of our historic claim and our Annexation Agreement. By a vote of 4 to 3 the Court refused to do so. It was he first time in the history of the Supreme Court that it denied a state the right to introduc dence in a contested lawsuit. was the first time that the Supreme Court has refused to interpret and apply a solemn contract made be-tween the United States and ano-

As long as I represent the State of Texas in any capacity, I shall not take this court decision as the final determination of our rights. Congress will restore our lands and will uphold our Annexation Agreement if we will elect a President who will permit the Congress to act without interposing a veto. I will never give up on this fight until it is won, and I hope the people of Texas will back me up in this determination in the future as you have in the past.

And then in a flippant manner, Governor Stevenson said that the tidelands are not very valuable and suggests that the income to Texas about the whole matter. This state-ment answers itself. If they are of such little value, why is the Federal Government so persistent in trying to take them away? Texas has collected over \$9,000,000 from leases and royalties on the property, and the only reason that we are not receiving greater revenue in 1948. In his recent veto message Mr. Truman said "the resources in the lands under the marginal sea are enormously val-uable." The Texas State Teachers Association, the Texas State Bar, the Texas Departments of the American Legion and Veterans of Foreign Wars, the Texas Associa-tion of Parents and Teachers, and valuable enough for the rich and on November 4th.

Yet Governor Stevenson says he powerful Federal Government to for the property.

> Finally, Governor Stevenson suggests that a compromise would be more beneficial to our State and that is the most he can do for us. The truth is that there is no compromise which would be of any value as long as the dangerous theory of federal "paramount rights" remains in effect. If they give us one-half of the property in settlement, there is nothing to

Governor Stevenson's greatest error on tidelands is his assumption that only property rights are involved. Actually, the controversy involves principles of government of law, and of morals that cannot think should be ended for the future welfare of our State and our Nation. We have here one of the best examples of the Truman theory that everything should be centralized in Washington far away from the people themselves. Our Government is already too big at the top and too far away from the people. Today the Federal Gov-ernment owns 24 per cent of all the land within the continental United States, not counting any submerged lands. It has more than it can attend to now, but under the Truman-Stevenson philosophy it will continue to take over more property and to control more and more of the rights of the individ-

This overcentralization of power in our national government has resulted in great waste, extrava-gance, and corruption. The Texas tidelands grab is an example of the lack of honesty and moral integrity on the part of Federal officials who would ignore our Annexation Agreement and seize our lands.

I know that there are other important issues in the presidential race, but to me there is no domes tic issue which is more important to Texas than the upholding of the Annexation Agreement under which we entered the Union. All of our land titles, both State and private, are guaranteed by this agreement, and all of our rights as a State and as citizens of United States are protected by this agreement.

More than a year ago I stated that I would never vote again for Mr. Truman or any other presidential candidate who refused to recognize and uphold the Annexation Agreement between the United States and Texas. I will admit that I never dreamed that the Demo-cratic Party would ever have another presidential candidate who would think like Mr. Truman. But it does. Governor Adlai Stevenson not only agrees with Mr. Truman on this issue but on practically every other issue on which I opposed Trumanism in my recent campaign for the United States Senate. For me, a vote for Governor Stevenson would amount to a vote for a continuation of that which I think should be changed in Washington. It would be a vote against my own deep and honest convictions. Personally, I am tired of Trumanism and do not want to see it continued or approved by any vote that I may cast.

On the other hand, our own Texas-born Dwight D. Eisenhower has made it clear that he would respect and uphold our Annexation Agreement and that he would clean up instead of cover up the mess in Washington. Believing also that he can furnish our country greater leadership in bringing about peace and understanding among the nations of the world, and being officially requested by our own Texas State Democratic Convention to support General Eisenhower, I have decided to vote for him

I have not attempted to sugfeet the future of my children and your children, I think it should be assumed that every man and woman will use his or her own best judgment as to what is best for our State and Nation. This is a God-given right in America and no one should be told how to exercise that right or be criticized or threatened for his decision.

For my decision, I was recently threatened with reprisals by Democratic National Chairman Stephen A. Mitchell. I care not what reprisals might be threatened against keep future federal ofifcials from me by Mr. Mitchell or anyone else. taking that away under the same I am not going to Washington for theory that present officials have personal honors or political favors. We have had too much of that in Washington, would allow the other States, in- 107-year-old Annexation Agree- Mitchell indicates we should have a continuation of such Kansas City ment, there is no reason why fu-ture Federal officials cannot break venson-Mitchell regime.

It is interesting to note that Governor Stevenson said in his first speech in Texas last week that he had been "warned that there is political intimidation and las is the only answer I have ment or of the principles involved, coercion in Texas these days" and that he might even be exposed to violence. Of course, he found none of this, because Texans do not engage in Pendergast methods. The only intimidation or coercion which I have heard has been from his side of the fence-from his own Stephen A. Mitchell who threatens me, and from some of Governor Stevenson's leaders who are trying to intimidate and scare the people of Texas into fearing another depression if we change administrations. Our pros-perity certainly must be false and unsound if it could fade away simply because of a change in administrations. If you will remember, the last depression came when an ad-ministration had been too long in power. I am convinced that with its inflation, waste, corruption, high taxes, and stalemate war, a continuation of the present administration will be more likely to bring about economic hardships than will a new administration. It appears to me that a new administration, being in office for the first time in 20 years, would assume a com-petitive spirit and do all within its power to bring even greater and sounder prosperity to the American

Likewise. I hope that no one in

Texas will be intimidated or frightened into casting his vote for President solely on party lines. On State and local candidates it is entirely different. There we took a pledge in each primary election to support the nominees of "this primary." Presidential candidates were not running in the primary and there is no party loyalty pledge or obligation which morally or legally obligates a Texas Democrat to vote for the nominees of the National Democratic Party for President and Vice-President. On the contrary, the Texas Democratic Party in convention assembled at Amarillo officially requested all Texas Democrats to vote for Dwight D. Eisenhower for President. Those who are threatening intimidation and reprisals in their demands for party loyalty are ignoring this official action of the Texas Democratic Party and the conflict between the State Party and the National Party. It is the Texas Democratic Party which has nominated me for the United States Senate, and it is the Texas Democratic Party which has asked Texas Democrats to vote for Eisenhower. As far as party loyalty is concerned, every Texas Democrat is not only morally and legally free to vote for Eisenhower, but he has been officially requested to do so by the State Democratic Convention. As a Texas Democrat, I am following the choice of the Democratic Party of my State rather than the choice of the Truman crowd which controls the National

More important than party loyalty is our loyalty to our State and to our Country. There again is an impelling loyalty which guides me to vote for Dwight D. Eisenhower, because I am convinced that he will give the fairest consideration to Texas and the best leadership in bringing an end to war and a greater future of freedom, prosperity, and peace.

BE LOYAL TO TEXAS -- Be A Texas Democrat, Not A Truman Democrat

The State Democratic Convention in Amarillo requested all Tex as Democrats to vote for Dwight D. Eisenhower. Be loval to Texas and the Texas Democratic Party instead of the CIO-PAC and Truman crowd which runs the National Party.

Farm Loan Association Annual Meeting Set For Monday At Sonora

Directors of the Sonora National Farm Loan Association have set Monday, November 3rd., at 2:30 o'clock as the date for the annual members' meeting, A. E. Prugel, secretary-treasurer, has announced.

The association which is comprised of members from Crockett, Schleicher and Sutton counties, is one of the largest of its kind in Texas with capital stock of \$127,-000 and surplus and reserves totaling \$200,000. In addition to electing two directors and attending to other business, members will inspect the association's new office building, which was completed in the early summer. Directors include B. E. Moore and James T. Williams, Jr., of this county.

Mrs. Woodward Observes National Flower Week

Mrs. O. L. Woodward, proprietor of the Eldorado Flower Shop, is is National Flower Week, and that held in Sonora on the 13th. the attention of Schleicherites should center around the importance of flowers in the American way of life.

Mrs. Woodward, who has been Eldorado's florist for a number of years, submits the following tribute to flowers:

Flowers are one of God's greatest and most beautiful gifts to man. Almost from the moment we open our eyes on the world until we say "good-bye," flowers play a major part in bringing hapiness to us and all mankind.

Did you ever take a walk along a country road early in the morning and see a little dew-drenched wild flower peeping up at you with a crown of star-studded dew on its petals? Did you ever put a dark red rose into the hands of a sweetheart you were too bashful to tell you loved her?

Did you ever stand hopelessly out of the ocrner of your eye see a tell you that God was still in the still lived in this old world?

afraid, or did the littleness of man overcome you-and then did you take up a hoe and go out into the sunshine of the garden to put a tiny seed into the earth? And planting that tiny seed, did you reach out to touch the earth and find yourself touching the glory of heaven? And in doing this-did you find new faith in man and in God?

If you have ever enjoyed any of these ennobling experiences, you know the meaning and inspiration of a flower and you can join with us in paying tribute to this week which is National Flower Week across our great country.

ner was won by the Eldorado group This banner is presented on a numper and mileage basis. The number present multiplied by the number of miles driven. We trust that more of our young people will attend the November meeting. This next meeting will be November 29th. Let us make plans now to go. We wish to express our thanks to Mr. and Mrs. Gus Love and to Mr. Doug Yates who took their cars and to the others who had cars ready if needed. We trust that the cars will be needed next month.

There will be baptismal services next Sunday evening at the beginning of the evening worship hour We invite any of you who are Baptist and do not have a church home to make our church your church home. We strive earnestly to be the friendly church with a spiritual program. Our motto is, "Building A Better Church For A Better Eldorado for the Glory of God." If you have no church preference we invite you to visit in our services and worship God with us. We are happy to see many of our former friends moving back to Eldorado and being in our services.

We are nearing the season now of making up our budget for 1953. The committee is at work. We feel that it is the desire of the people to do more for the glory of God this next year. It will not be hard for us to reach our budget goal if all will have a part in the budget. So when you are asked to help subscribe our budget will you pray about the matter and do your best? We feel that you will.

November 23 is an important day. Be waiting for announcements about this very important day. Our pastor will preach at both services Sunday. His message at the morning worship hour will be, "The Baptism of Christ." And his message at the evening worship hour will be, "The Available Saviour." You are welcomed to any and all of our services. The youth are sponsoring an all church fellowship each Sunday evening after the worship hour in the banquet room. More of our adults are urged to come and be in these fellowship meetings.

We set a goal at the beginning of this year for our average attendances in Sunday school and Training Union. Our goal for Sunday school was 200 in 1952. Thru the first ten months we have averaged 190. Our goal in Training Union for 1952 was 75. Through the first ten months we have averaged 63. These goals can easily be attained if there is any desire at all on our part to do so. We have ine more Sunadys in which to attain these goals. Let us determine to attain them for the glory of

National Flower Week November 2-9

Your Eldorado florists are glad to call attention of the county to the fact that the nation's Eighth Annual Flower Week opens Sunday.

We are glad to take the lead in pointing out the importance of flowers in our life. We are learning to "say it with flowers," for flowers have a dignified and eloquent way of expressing sentiment. Even for the person who has got everything they are always a welcome gift.

During this week let us remember to be thankful for flowers.

To the younger generation

THE STORY THE REPUBLICANS ARE AFRAID YOU'LL

The Republicans have been telling you a lot of things. But there's a closed chapter in American history they're afraid of-a chapter that would turn every young man and woman against them.

You were just a kid when it happened back in 1930, '31 and '32.

Thirteen million Americans were jobless. Every city, every town had its soup kitchens, breadlines, apple sellers. Hungry veterans marched on Washington, D. C. Farmers went bankrupt, lost their farms by the thousands. Banks went broke. Millions lost their life savings.

It was a mess—a real mess.

While the country seethed with unrest-while the Communist Party made inroads with our jobless, disillusioned young people-Hoover sat silent in the White House.

The Republican Party told the country to sweat it out—it was only "temporary." Prosperity was "just around the corner." They kicked thousands of protesting, bonus-marching veterans out of Washington with tear gas and bayonets-using soldiers led by General MacArthur and his aide, Major Dwight D. Eisenhower. But they wouldn't lift a finger to help the country up off its knees.

Sure, they'd like to forget all about it now. They never mention it. Listen to them—you'd think they never had a chance to run this country.

Well—just ask your parents. They'll tell you that the Republicans ran the country all right. They ran it right into the ground. It took the progressive program of the Democratic Party to wipe fear off the face of America, to get our men and women back to work, to help our people regain their self-respect and dignity, to bring prosperity back to all of us. It was a big job . . . and it wasn't easy.

Through every year since 1932 the same old-guard Republicans, the same "do-nothing" Hoover boys, have fought to cripple and destroy the prosperity program. They said "no" to full employment . . . 73% of the House GOP tried to kill the Full Employment Bill in 1945. They said "no" to social security . . . 80% of the House GOP voted against expansion of social security in 1949. They said "no" to price control . . . 79% of the House GOP voted to end all consumer price controls in 1952. They said "no" to low rent housing . . . to fair prices for our farmers . . . to high minimum wages . . . to a better break for our kids.

And now they want you to send them back to Washington.

Don't forget the closed chapter! Don't forget the breadlines and the riots! The Republicans promise plenty—this is an election year. But don't forget what they DID, and what they STOOD FOR, how they

Don't invite them to bring the depression back!

VOTE AGAINST THE PARTY THAT GAVE YOUR PARENTS HARD TIMES!

VOTE DEMOGRATIC

For Security — for you, your family, your country.

YOU ARE INVITED TO ATTEND A

POLITICAL RALLY

IN THE DISTRICT COURT ROOM OF THE ELDORADO COURT HOUSE — AT 7:30 P. M. SATURDAY, NOVEMBER 1st.

Everybody invited to attend and hear some of the vital issues of this campaign discussed. Speakers will be a group of prominent out-of-town Democrats. Importance of voting and correct marking of the ballot will be stressed.
