**Do you know
what this car
can do?**

It can set you atingle with thrill. It can move from zero to legal speed quicker and quieter than any Buick before it—and with the utter smoothness of a gull in glide—because this is a 1953 Buick with the spectacular getaway of Twin-Turbine Dynaflow.* It can loaf easily up a long steep hill—swoop instantly ahead when there's safe passing to be done—or whisper along at highway pace with throttle barely open—because this is the Buick powered with the world's most advanced V8 engine, with record-high compression of 8.5 to 1.

It can surround you with comfort, luxury, restful ease. It can velvet a rough road with its even softer all-coil-spring cushioning—track true on curves with its solid

torque-tube steadiness—handle like a flyrod with its Power Steering*—gentle to a precise halt with its Power Brakes.†

And it can seat you in the superb comfort of true spaciousness—because this big and brawny beauty is the Buick SUPER Riviera Sedan—roomiest six-passenger sedan made in America.

Above all, this car can give you supreme value—more room, comfort, power and thrill for the money than you can find elsewhere.

Why not come in and see it, drive it, compare it? We'll be happy to arrange matters.

Wheat Farmers Urged to Make Allotment Report

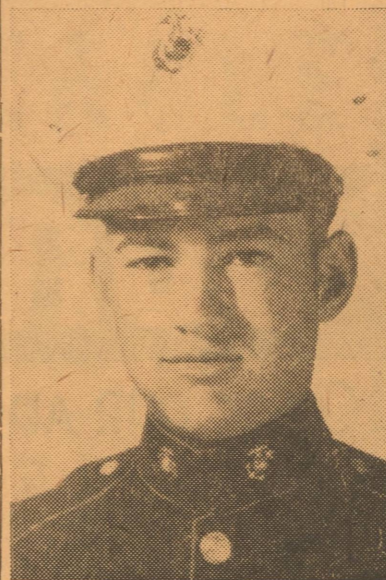

Wheat growers who have not yet done so should report the number of acres they had in wheat in 1951, 1952, and 1953 to the County PMA office at their earliest opportunity. This includes wheat seeded in the fall of 1950. This information is needed right away in order that each farm growing wheat in the county might receive an allotment representing its fair share of the county allotment.

The information must be collected and assembled at once in order that the Secretary of Agriculture can carry out the law on allotment programs. This legislation directs him to ascertain and proclaim the total supply and the normal supply of wheat for the 1953-54 marketing year by July 15, and to proclaim by that date a national acreage allotment for the 1954 crop of wheat unless he finds that a national emergency exists or a material increase in exports is expected. Secretary Benson has stated that he will make no final decision on 1954 wheat controls until the latest information is available.

The national acreage allotment for the 1954 crop must be that acreage, which, at the national average yield, will produce enough wheat—plus the carry-over and imports—for a normal year's domestic consumption and exports plus 30 per cent. This is apportioned among the States, then among the counties in the State according to average acreage seeded to wheat during the 10 preceding years.

Schleicher County's wheat allotment is apportioned among farms on the basis of (1) tillable acres, (2) crop rotation practices, including acreage planted to wheat, (3) type of soil, and (4) topography. Under the allotment program only producers who comply with their wheat acreage allotment would be eligible for price supports at full 90% of parity.

Yes, every telephone hello is a "good buy," and in countless different ways. It can be a good buy in convenience—a good buy in pleasure—a good buy in business—a good buy in peace of mind. In any case—in every case, your telephone is a bargain. And its value is increasing daily.

TV NEWS

What's all this talk about television service, you ask? If you are going to get a new television set, why should you have to worry about service right away? If the thing is going to need fixing all the time, maybe you shouldn't have one at all.

Now that's a good question . . . but it's an easy one to answer, too. Your television set is a very complex instrument—much more so than your radio. Certainly if you get a new television set, a good one like a Philco, whose popularity over the country shows that they have given fine performance, you can reasonably expect that you'll get excellent, trouble-free service for a long time.

But there are a number of things you have to keep in mind. First, the set has to be properly installed, by an expert technician who can adjust it to the receiving conditions of your locality. Secondly, even a new set may have bugs that have to be ironed out—like a new car. You can buy the best car made—and you will still have to take it in for the minor adjustments that become necessary as the car is driven for the first time. These adjustments may be necessary on your TV set, too—and like your car, your set is guaranteed to perform satisfactorily, so you don't have to worry about these initial adjustments—IF you buy your set from a servicing dealer.

So the point of all this is that service IS important—but not a great worry if you buy from a dealer experienced in installation and service.

Bride-Elect Honored At Gift Tea Saturday At Baptist Church

Honoring Iretta Fae Mace, bride elect of Albert L. (Sonny) Stanford, the following were hostesses at a gift tea Saturday afternoon in the First Baptist reception rooms: Mrs. John Stigler; Mrs. Myrtle Williams, Mrs. J. L. Thompson, Mrs. Perry Mittel, Mrs. Billy Frank Blaylock, Mrs. W. A. Blaylock, Mrs. Jerry Pennington, Mrs. Archie Mittel, Mrs. Carrol Ratliff, and Mrs. Fred Watson.

Grete Mund registered guests, and four other old EHS friends assisted with the serving: Ebbagene Blaylock, Betty Sue Williams, Laura Clarke Mittel, and Jane Mund.

The 100 guests who called were served white cake squares, decorated with pink rose buds, and lime punch. Pink dahlias with greenery centered the serving table, and there were other baskets and vases of summer flowers, mainly roses, in the reception rooms.

The program consisted of piano selections by Bob Ratliff, Mrs. Roy Phelps, and Barbara Faught, and a solo by Paula Jo Mace, the

honoree's sister. Accompanist for the solo was Mrs. John Stigler. Present for the occasion and as week end guests in the home of Miss Mace's parents were her room mate at Texas Tech last year, Janell Thompson of Plainview, and Mr. and Mrs. J. D. Moore, old friends of the J. H. Mace family, of Denison.

The couple will be married in a quiet home ceremony on the evening of June 6. They have rented a Shugart apartment, and Sonny, a graduate of Texas Tech, will start work in the Ohio Oil Company office.

First Baptist News

We are not blaming it on the weather but 210 attended the Sunday school hour at the First Baptist Church last Sunday. The members of this church know that the power of the church lies in the Christ-life of its members. Therefore, we believe that our people will be found faithful in the days ahead. The associate pastor, Darwin Welsh, brought the morning message. There were seven additions by letter. We welcome these into our church: Mr. and Mrs. B. E. Gaines and daughter Karla, Miss Kay Dossett, Miss Ebba Jean Blaylock, Jack Mund and Rev. Glenn Biggs. Bro. Durwood Rutland of Howard Payne college brought the evening message. Three came by rededication. We are grateful that there has not been a Sunday missed in decisions being made for the past six months. We feel that this will continue. Our Training Union hour was up this week with an attendance of 77.

Vacation Bible school is off to a good start. We have 109 registered so far with almost two weeks yet to go. We believe that this number will increase. We would invite your children to come and attend this school this year. We have a good faculty, and a good group of children.

The Young People again won the banner at the Associational Youth Rally. We have lost it only three times in the past nine months. The youth of this church are a consecrated group always willing to do what needs to be done. We feel that they are a great asset to this community. Bro. R. B. Cooper and Bro. Glenn Biggs have come to be with the church this summer to help in the youth program. They are good men and we recommend them to our people.

Boys camp time will soon be here. We want all the boys to go with us June 15 to our Baptist encampment at Lake Brownwood. We do not know yet what the fee will be. Some of the men of our church will be going along with these boys and they will be well taken care of. The children will be insured from the time they leave the church until the time they return. This is a camp for Royal Ambassador boys, who want to learn more about Christ.

There is always a standing invitation to you to come and be with us in our services. Our church will welcome those who have moved into this community and have not moved their membership. We believe that people who are Christian will want to get right into the work of the church. Sunday school is at 9:45 with the preaching hour coming at 11:00 o'clock. Training Union begins at 7:00 o'clock and the preaching hour at 8:00 o'clock. There are fellowships for the youth on Wednesday and Sunday evenings after the services.

BUSINESS GIRLS HONORED WITH COFFEE WEDNESDAY

Mrs. A. G. McCormack and Mrs. L. D. Ochsner were hostesses at a coffee Wednesday morning at the home of the former, with business girls of the city as guests.

Mrs. Ochsner's daughter, Mrs. Clara Lloyd Schertz of Sonora, assisted with the serving.

From where I sit... by Joe Marsh

A Little Headwork Saves a Lot of Footwork

"I don't ever aim to give up fishing," Pappy Hayes said one day—"but the older I get the less I like hiking over to Pike's Creek. Guess I'll have to bring the fish nearer to me."

So Pappy got his nephew to bulldoze down about three acres of bottom land. Then he dammed up the little stream there.

He wrote the U. S. Fish and Wildlife Service, in Washington, and got some "blue gills" and bass to stock it—free. Pappy's idea wound up giving him (and us) just about the best fishing

pond in the county... right in his own back yard.

From where I sit, Pappy may be older than some of us but his mind is active—and open. He's ready to listen to anybody with an idea. That's why he and I can talk on any subject—sometimes about his preference for buttermilk and mine for beer. And though we disagree, we respect each other's opinion. That's neighborliness without a "catch" to it.
