ELDORADO—SCHLEICHER COUNTY, TEXAS

THURSDAY, November 11, 1954

NUMBER 45

Schleicher Re-Designated As Drouth Disaster County

The Department of Agriculture has re-designated Schleicher Co. in the drouth disaster area. . . . This is the information received by the Eldorado Success in a telegram, at 10 a.m. yesterday from Congressman O. C. Fisher in Washington, D. C.

Drouth disaster designation means that growers in this county will be eligible for special subsidies in the purchase of livestock feeds, such as grain sorghums and corn, oats and barley. The local ASC office today has received no new instructions, but they are expected daily.

This county was on the hay program in 1952, and on hay and protein feed program in 1953. The county was cut off from this designation last spring.

DATE IS SET FOR CUB SCOUT HARVEST FAIR

The Cub Scouts will have their 2nd Annual Harvest Fair and Sale on Thursday night, Nov. 18, 7:00 to ??? at the Memorial Building. Prizes will be given for best pies, cakes, cookies, and candy after which these will be sold.

There will be games, fortune-telling booth, novelties, Bingo, and fun for all.

Everyone is invited to come out for an evening of fun. All will be benefited by the entertainment and the Cub Scouts will be benefited by the interest shown by the public.

County Rejects Request For Right-of-Way On 8-Mile Stretch

The Schleicher County Commissioners' Court, in regular session with all members present November 8, rejected the proposal for the county to furnish right-of-way for an 8-mile stretch of Farm-to-Market road from the Sutton Co. line northeast to the Menard Co. line.

The State Highway Department approved this stretch of road Oct. 26, to be built in the coming two years provided the county furnishes the right-of-way.

In Sutton County 13.2 miles of this highway has already been completed, and two more stretches one of seven miles and another of six, are on the approved list.

It is understood that the reason for Schleicher's refusal to furnish the right-of-way is that other roads are more in need of immediate attention.

Resident Engineer R. A. McCulloch is in charge of highway construction work in this area. He lives in Sonora.

New D. A. R. Chapter Organized At Stockton

Comanche Springs Chapter, Daughters of the American Revolution, was inaugurated in Fort Stockton at a meeting Tuesday night, Sept. 28, in the home of the Organizing Regent, Mrs. H. Q. Lyles.

Seventeen organizing members make up the initial roll of Comanche Springs Chapter, with several members transferring from other chapters.

Mrs. H. Q. Lyles an organizing member of Eldorado Chapter DAR was named Regent. She withdrew for the purpose of organizing the one there.

Meetings will be held monthly on the second Tuesday, September through May, at 7:30 p.m.

GIN REPORT

A total of 1910 bales of cotton had been processed at the local gin up to Wednesday. The season's total is expected to reach 2000. Most of the cotton ginned here has been "bollies" and has graded seven-eighths.

The Ministerial Alliance is doing a nice piece of work in preparing the 'Thought for the Week' and comments from our readers show that the general public appreciates this contribution to our news columns.

The three ministers in the Alliance have been taking turns of a month at a time—Rev. James Spencer contributed his last month, Rev. J. C. Hancock has prepared the November Thoughts, and Rev. Doyle Morton will take over for December.

J. L. Ratliff of San Angelo is on his second week of work on the former Cloud house, known as the D. E. DeLong home place, which he recently bought for rent property.

The large two-story house has a roomy apartment on the second floor, which was remodeled a few years ago, and which will require only minor repairs. The ground floor is being repaired and remodeled into two-bedroom apartments, one facing the Angelo highway and the other the side street.

Removing of chimneys, changing of the arrangement in several places, re-painting of the woodwork, re-papering, laying of inlaid linoleum on all of the floors, adding of bath, and other work will make this a major repair project.

When completed the house will provide three modern freshly renovated apartments, situated close to the school.

Mr. Ratliff is in Eldorado and is doing some of the work himself. He also owns other rent property here.

Mrs. Lester Henderson is renovating her garage apartment on the highway, and is putting on new rock veneer exterior surface.

The parade of new '55 model cars continues — with the new Fords going on display throughout the country tomorrow. Geo. Humphrey Motors, Eldorado Ford dealer will have two models on display — both V-8's, and they will no doubt attract a great deal of attention. Ford and Chevy seem to be locked in a neck-and-neck race for 1955 and both are nothing less than spectacles.

The new Dodges will make their appearance in Eldorado next week at the show room of Parker Motors . . . perhaps there will be a Plymouth too.

Mr. Atkins reports that about \$170,000 in school taxes has been collected. This being about 78% of the taxes.

October collection of county taxes is \$175,701.13.

To the first of November 102 poll taxes have been paid.

City tax collection for October is about \$5,500.00 which is above the average.

November 11 has been officially changed from Armistice Day to Veteran's Day. The American Legion urges all to display their flags today in honor of this day.

Eldorado fire truck was called out briefly, Tuesday night to a fire at the gin. There was no damage to the gin and only slight damage to some cotton.

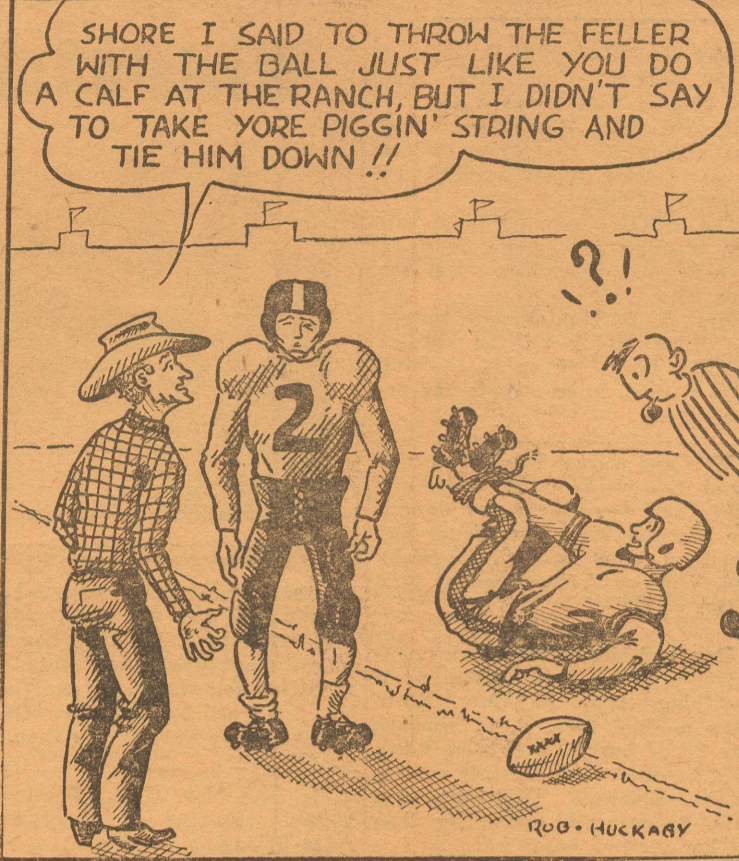

People moving: W. R. Ellis to J. R. Jones house vacated by the Van Horns, Mrs. Irene Hallmark to Dameron house, Donald Dannheim to Webb house.

Mrs. M. H. Woodward started to work Monday on the Eldorado Success as society and general news reporter. She is writing most of the personal and society news and other news stories as she picks them up by phone or other ways.

We made a weekend trip to Van Horn this weekend to get our first look at the new grandson, three weeks old. Found the irrigated farm jogging along, with much of the cotton already gathered by the crew of 20 braceros, and the alfalfa up to a good stand, with another watering scheduled to start Monday morning. But the big attraction was the new grandchild—now, as others have told us, we can begin to live!

We also enjoyed going through the Balmorhea country, where on Sunday the braceros were in their church clothes, or standing around outdoor racks of used clothing, or washing their clothes on rocks in the irrigation ditches.

PECOS PETE WRAPPED UP!

SPECIAL REPORT: Don't be surprised if you see the Eldorado Eagles come on the field tomorrow night armed with piggin' strings when they meet Sonora. They have been practicing for the past two weeks on secret plays that have never before been in the book. —Pecos Pete.

CATTLE RUNS HEAVY ALL ACROSS NATION

Fort Worth — Movement of cattle and calves to market last Monday was heavy all across the country. Sizeable numbers of cows and calves were reported in the receipts from most major markets.

Some observers expressed the view that in many of the drouth hit sections of the Nation cow owners viewed the approach of Winter with some fears as to the ability of some of their cows to make it through till Spring without heavy supplemental feeding. The expense of this feeding in many cases looked too great for the gamble.

Large numbers of calves were reported at Corn Belt points again, indicating again that country trading had been restricted in recent weeks.

Cows and bulls suffered sharp declines at virtually all markets and at Fort Worth, prices were fully 50 cents lower and some spots off more. Slaughter calves were 50 cents or more lower, some spots \$1 off on the commoner kinds. Exception was the small offerings of fancy fat calves which sold steady.

Fat cows sold mostly from \$8 to \$10, with a few smooth high-yielders able to get \$11 sparingly. Canners and cutters drew \$5 to \$8. Bulls sold from \$7 to \$12, few over \$11.50.

Good and choice slaughter calves bulked at \$14 to \$17.50 and common and medium butcher sorts sold from \$9 to \$13, with culls from \$6 to \$9. Some fancy heavyweights of yearling weights reached \$18 and above.

Good and choice stocker steer calves and stocker steer yearlings cashed at \$15 to \$19.50 and the plainer sorts sold from \$10 to \$13. Replacement cows cleared at \$7 to \$12.

WOOLED LAMBS TOP MONDAY AT \$20.00

Good and choice slaughter lambs in the wool sold from \$17 to \$20, and the shorn lambs with No. 1 or No. 2 pelts sold at \$18.50 downward. Common and medium slaughter lambs drew \$11 to \$16 and culls sold around \$8 to \$11.

Stocker and feeder lambs of good and choice kinds sold from \$14 to \$16.50, while commoner kinds sold around \$12 to \$13. Breeding ewes cashed at \$6 to \$12 according to age, quality, etc.

Old bucks cleared around \$4.

Mrs. Omie Black from Bakersfield, California, accompanied by Mrs. C. N. Shaw and Mrs. Dee Love visited Mrs. Jack Hodges in Snyder last weekend.

David Parker, small son of Mr. and Mrs. Glenn Parker, had a tonsilectomy at the Eldorado Clinic Wednesday.

Sonora Here Tomorrow In Last Game Of Season For Eagles

Billy F. Kidd

ASS'T. AG. MAN TO BE AVAILABLE IN DISTRICT 7

College Station, Nov. 10 (spl)—Sheep and goat producers in Agricultural Extension Service district seven now have available on a seasonal basis the services of an associate agricultural agent to assist them with their improvement program. Billy F. Kidd of Menard is the new agent according to word from Extension Director G. G. Gibson.

Kidd is a native of Mason but has lived for many years near Menard. He is a graduate of Texas A&M College and during his youth was one of the state's outstanding 4-H members. He was a member of the national winning 4-H livestock judging team from Menard county in 1938. Since 1946 he has been a veteran's vocational agriculture instructor in McCulloch county. He served in the U. S. Army during World War II spending many months in the China-Burma-India area and in Australia.

His headquarters will be in Menard. He will work with Extension Animal Husbandman J. A. Gray and the county agents of the district in conducting the improvement program. District Agent R. S. Miller will be his supervisor.

The expanded sheep and goat and wool and mohair improvement program has resulted from producer requests especially the Texas Sheep and Goat Raisers Association. Gray for some years has conducted demonstrations over the sheep and goat area and the results of this work formed the basis for the expansion.

Girl Scout Workers At Training School

All troop leaders and Girl Scout workers in this area are urged to attend a training school next Tuesday, Nov. 16, at the Memorial Building from 9 a.m. to 2 p.m. and bring lunch.

This school will be conducted by a professional worker from the Frontier Scout Council of San Angelo. A meeting is held the third Tuesday of every month for the purpose of helping local Scout workers with any problem they have.

Attending a recent meeting in San Angelo were Mrs. Jack Shugart, Mrs. J. D. Meador, Mrs. B. F. Cox, and Mrs. Jess Blaylock. They took training in Christmas Crafts, including glass, felt, and evergreen work.

The Eldorado Eagles who have played a fair-to-middlin' brand of football all fall are scheduled to play their closing game of the season here tomorrow night when they meet the Sonora Broncos—the strongest team in District 6A. Game time is 7:30.

Eldorado district record is 50-50, having won two district games and lost two. For the season as a whole the Eagles have played eight games, with a record of five victories and three defeats. Sonora has not lost a district game and are coming to Eldorado confident that they will gallop over the Eagles to a easy victory.

Last Friday night was an open date for Eldorado and the Eagles, under Coach Allgood, have been working hard, and will enter into the conflict with a determination to give a good account of themselves.

Last Week's Games
Last Friday night while the Eldorado Eagles had a day off, many from here went to Sonora and saw Sonora defeat San Felipe by a score of 48 to 14.

On the same night Junction went to Ozona and defeated that team 26 to 12.

Menard played at Eden and it was Menard 21, Eden 7.

Boys' Ranch Hall To Be Dedicated

Formal dedication of Boys' Ranch new dining hall and kitchen on Saturday afternoon, November 13, is the realization of a dream come true. Services will be conducted by the Rev. Conley Evans, pastor of Belmont Baptist Church of Odessa, with the San Angelo Council of Church Women acting as official hostesses. The new structure will be dedicated to the memory of the late Richard Waddell, Jr., of Odessa, and Mr. and Mrs. R. T. Waddell, Sr., will be honored guests.

Just eight years ago Boys' Ranch was organized as a home with a heart for homeless and neglected boys. Organizers had but one goal—a place which these lads could call "home", where they could receive guidance to take them away from possible delinquency and to place them on the path of good citizenship. Success has marked the efforts of the founders, more than 100 boys having received a new lease on life since the opening of the home.

Edwin A. Jackson of Eldorado is a member of the Board of Directors of Boys' Ranch.

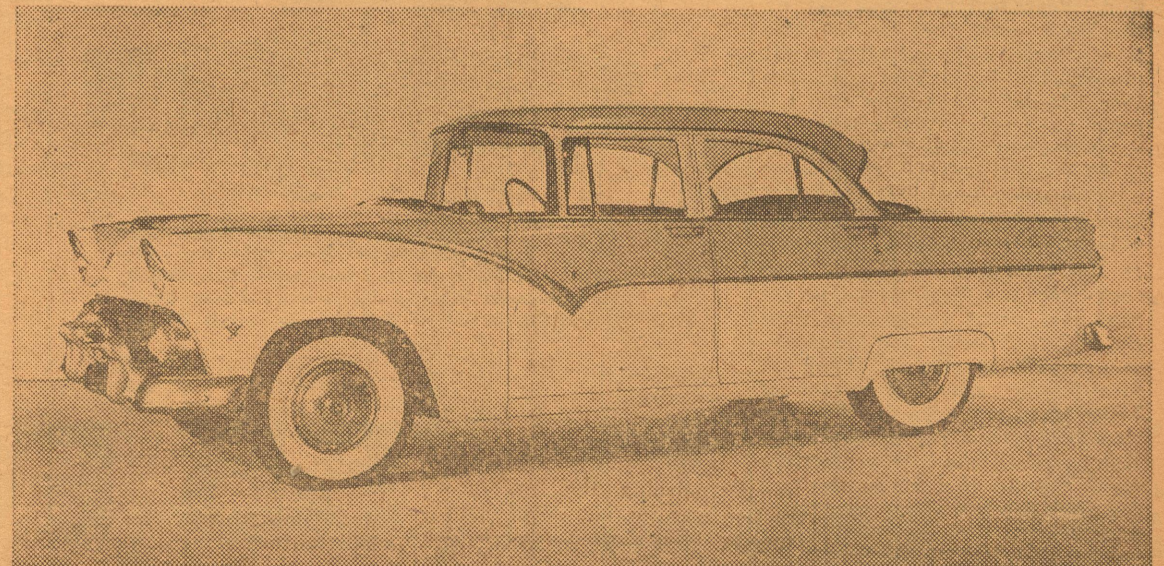

MASS X-RAY FOR THIS COUNTY SET FOR DEC. 8

The local committee in charge of the Mass Chest X-Ray Survey met Wednesday morning at the court house with Philip W. Gauss, Jr. State Health Department, Austin, Texas, to complete plans for the survey.

The mass x-ray will take place Dec. 7 and 8 in Eldorado from 8:30 a.m. to 5:30 p.m. The x-ray is for everyone 15 years or older and is free.

This is the first time since 1948, there has been a mass x-ray survey in Eldorado. At that time there were 893 persons x-rayed. This unit can x-ray three persons per minute, 80 per hour, or 1500 per day.

This survey is sponsored by the Eldorado Woman's Club and under the directions of the city and county health officers, Drs. Lindsey and Mowrey.

Ford's longer, lower body style and wrap-around windshield, available on all models, is shown above in the Fairlane four-door sedan. The '55 Fords are available with Y-Block V-8 or I-Block Six power, and Fairlane models have dual exhaust as standard equipment. They will be introduced by Ford dealers November 12.

Fundamental Baptist

Rev. Joe Kegans, former pastor of the Eldorado Fundamental Church, nephew of Mrs. Hop Cheatham of this county, will be in Eldorado Sunday night, to show a picture on mission work, beginning at 7:30 at the Fundamental Baptist Church.

Rev. Kegans has surrendered for mission work on the Amazon River in South America, and his visit in Eldorado and showing of the film will be a part of his deputation tour. He will leave the States as soon as preliminaries have been completed.

The general public is cordially invited to attend the showing of the film Sunday night.

First Baptist News

The Harvest Week Revival will begin Sunday November 14 and continue through November 21. The meetings will be held each evening and will be divided into two parts. The first part will be a class studying Bible teachings concerning stewardship and the second part will be an evangelistic service. The time of each evening service will be announced Sunday morning. Everyone is invited to attend.

The Billy Graham film "London Crusade" was shown in our church last Tuesday night. We are grateful that such a man is being used to preach to such great numbers of people in this time of need.

The Training Union general assembly each Sunday night is giving a spark to light the flame for our meetings. Those who have not given your attendance to this service are missing something. Why not try to be there next Sunday night?

We had a good average attendance for the month of October, but we got off to a bad start for November. The attendance will have to be above average for a while in order to better the October record. This is the first part of the month so lets get in to Sunday School this month.

"ITS IN THE BOOK"

This week our thoughts turn toward the condition of the world in which we find ourselves. Peace is much sought for but hardly realized. Many years ago we thought we had fought and won the last battle which would grant to the world a lasting peace. Much to our hurt we have since fought other battles and have the cloud of war constantly hanging over us. Where is the hope that we need? Matt. 5:9 "Blessed are the peacemakers, for they shall be called the children of God." Peacemakers in the sense of the Bible, must first be dedicated to a principle. The principle of the peacemaker is making men different in order that more men will truly want peace. The peacemaker must first be made before he can in turn make others. The greatest of all peacemakers is Jesus Christ. He can bring peace to any man who will let himself be dedicated to the principles of Christ. Then that man can help others to see that real peace comes only from dedication of Christ, and the peacemaker role is started. When all men finally see the reality of bringing peace to the world in this way then peace will surely reign. Happiness is the result, for the word Blessed and Happiness are the same. Do you want peace? Are you looking for the formula for peace? Then look, 'Its In The Book.'

THE TOTALLY NEW '55 FORD!

with styling inspired by the Ford THUNDERBIRD

ON DISPLAY
FRIDAY!

New FAIRLANE Series... The new Club Sedan, like all six models in Ford's new Fairlane Series, features the new wrap-around windshield, new luxurious interiors and wide choice of stunningly new, single and two-tone exterior colors.

Longest, Lowest, Roomiest...most Powerful ever built!

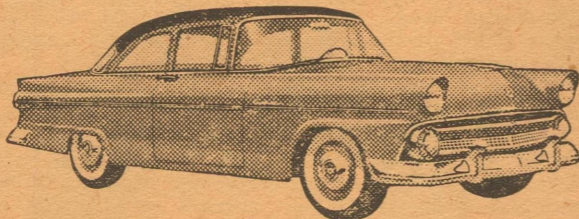

We invite you to see for yourself. And we tell you in advance you'll be amazed. For this new Ford is totally new—outside, inside, and in thrillingly different performance.

The long, low lines of the Thunderbird were its styling inspiration. Inside, you'll be greeted by rich, roomy luxury... by fabrics never before offered in a motorcar.

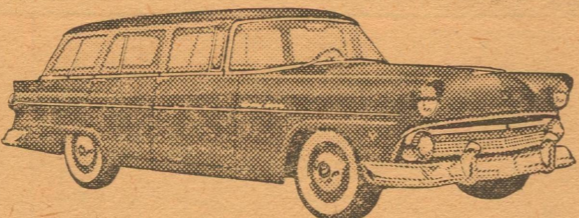

Mighty engines, mightier than in any Ford before—supply its exciting power. And each of Ford's three new engines offers the safe, split-second response of Trigger-Torque Power.

Your ride will be up to 15% smoother. Best of all, you'll find your kind of car, for there are 16 body styles in four fresh new lines.

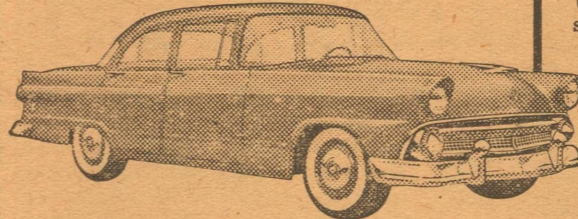

When you come in, don't be surprised if you tell yourself: why look farther—why delay—you just can't buy better than Ford.

New CUSTOMLINE Series... The Tudor Sedan (above) and Fordor offer a wide selection of new color and upholstery combinations. Like all '55 Fords, they have a new wider grille, new visored headlights and sturdier, extra-narrow pillar-posts for better visibility.

New STATION WAGON Series... The new 6-passenger, 4-door Country Sedan (above) is one of five new do-it-all beauties. There's also an 8-passenger Country Sedan, an 8-passenger Country Squire and a 2-door, 6-passenger Ranch Wagon and Custom Ranch Wagon.

New MAINLINE Series... Each of the three Mainline beauties offers the same engineering advancements, the same graceful contours and clean lines that distinguish all '55 Fords. Fordor Sedan is illustrated above.

**EXCLUSIVE TRIGGER-TORQUE POWER
IN 3 MIGHTY ENGINES**

1. 162-h.p. Y-block V-8
2. 182-h.p. Y-block Special V-8
3. 120-h.p. I-block Six

- (1) The new 162-h.p. Y-block V-8 has a higher (7.6 to 1) compression ratio, greater displacement. And, like all '55 Ford engines, it has Ford's famous deep-block build... short-stroke design.
- (2) The new 182-h.p. Y-block Special V-8 (offered in combination with Speed-Trigger Fordomatic on Fairlane and Station Wagon models) features 4-barrel carburetion, dual exhausts and extra-high (8.5 to 1) compression ratio.
- (3) The new 120-h.p. I-block Six has a new higher (7.5 to 1) compression ratio. It's the most advanced six-cylinder power plant in the industry.

News From Our Neighbors

Truck Overturns

At 11:30 on the evening of October 27 (last Wednesday), 10,333 pounds of tomatoes became soup, ketchup, seeds, peels, halves and wholes as a Mack semi-trailer overturned on Highway 290, 12 miles east of Bakersfield. The truck, driven by Fred C. Barham, Blooming Grove, Texas, was carrying a load of better than 31 thousand pounds of tomatoes (that's more than 15 tons), when a left front tire blew out and caused the truck to hit a bridge abutment. The truck and trailer overturned and \$30,000 worth of equipment was completely demolished. There was estimated \$600 damage done to the bridge. —Ft. Stockton Pioneer.

Libel Suit Filed

Defense against a libel suit asking \$90,000 damages from Upton County Sheriff H. E. "Gene" Eckols, the McCamey NEWS, and C. C. Carr, publisher of the newspaper rolled into high gear this week with the naming of Warren Burnett and Paul McCollum of Odessa as attorneys for the defendants.

The suit was instituted by Joe Bolin, defeated write-in candidate for Sheriff, Tax Assessor-Collector of Upton County, through Steve Preslar, a McCamey lawyer who will become Upton County Attorney on January 1. The suit was filed with the Upton County court clerk Mrs. Nancy K. Daugherty at Rankin last week and claims that Bolin was damaged in that amount as the result of an advertisement which appeared in this newspaper last week. The advertisement was signed by Eckols as an answer to Bolin's campaign tag line, "Why Was Joe Bolin Fired?" Eckols' answer related certain incidents said to have taken place in Morton, county seat of Cochran county. —McCamey News.

Water Problems

Herman Allen, chairman of the citizens' committee appointed several months ago, explained the status of the local search for a solution to Menard's water problems at Wednesday's meeting of the Rotary club.

The local ranchman also spoke briefly on Beef Week, an event in which he also is serving as Menard county chairman. —Menard News.

New Station

Saturday has been set as formal opening date of a new \$20,000 service station for the area, which will be known as the Weaver Super Conoco Service, under management of J. E. and James Weaver. —Eden Echo.

Brewster Bonds Carry

Both the county hospital and the Marathon emergency unit issues carried by substantial majorities in the bond election held last Saturday in which a surprising total of over 850 votes were cast. —Alpine Avalanche.

Deer Improving

With the opening of the deer season less than two weeks away (it opens on Nov. 16) a check-up on game conditions shows the deer rapidly on the mend during the past three weeks, according to Game Warden Red Williams. —Mason County News.

Still Investigating

Clinton Owsley, Houston telephone rate expert who the city has employed to investigate General Telephone Company's rate claims, has requested certain information from the telephone company and this information is being compiled. He will continue his rate investigation as soon as he gets the information. The city commission, therefore, passed over the rate question Monday night, pending Owsley's findings.

Judging from the nature of the information Owsley requested, we wouldn't be surprised at all if he recommended a one-phone business rate of about \$7. It is most unlikely that it will be much more. —Devils River News.

No Agreement

After numerous meetings between the General Telephone Co. and the city council of Big Lake, it appears that it is impossible to reach any agreeable settlement in the proposed telephone rate increase formally filed for by the telephone company.

The city council deemed the proposed rates too high, and in a recent meeting, offered what it considered a reasonable rate increase to the telephone company. The proposed offer was rejected by the company. —Big Lake Wildcat.

Light Vote

Only a little more than a fourth of the qualified voters in Crockett county cast their ballots in the general election held Tuesday despite the fact that eleven proposed amendments to the Texas constitution, which will have far-reaching effects on taxpayers in the state, were at stake. —Ozona Stockman.

Vote New Court House

Coke County is to have a new court house. At a special election Saturday the \$300,000 court house bond issue was carried by a vote of 537 to 58. The overwhelming endorsement was about 10 to 1. —Robert Lee Observer.

Second Offense

Meaders Blake Forehand of San Angelo was indicted by the grand jury here Monday morning on a charge of second offense of driving while intoxicated. This was the only indictment returned by the jury as it met at the opening of court Monday. —Sterling City Record.

Mr. and Mrs. Charles H. Mund (Tart), of New Braunfels, accompanied by Mrs. Mund's mother, Mrs. W. H. TONI GAVER

Swiss Entertainer At School Assembly

As a presentation of Southern Schools Assemblies, Toni Gauer, a native Swiss will present a program featuring numbers from his home country in the school auditorium, November 16 at 2 p.m.

Toni Gauer was born and reared in Switzerland. He attended the State College of Appenzell of Eastern Switzerland which best preserved its old customs, costumes and traditions. Later he graduated in the capital of the country, Berne, as bookseller and publisher. To continue his career he left Switzerland at the age of twenty-five and settled in New York City.

Constantly asked to yodel and play on his Swiss hand harmonica, an accordion with buttons instead of piano keys, he developed an absolutely unique presentation of his native country. Toni appears in his Appenzell costume, the most colorful of all Switzerland. He plays and demonstrates various types of Swiss button accordions. He sings, yodels and tells the story of Switzerland with a number of surprising facts about the country.

This program will give you an authentic glimpse of Switzerland. Here's the story of work, thrift, prosperity, told in song and by word by one of Switzerland's own sons . . . a troubador of the old tradition of Europe.

This is an educational entertainment which will create much good will and understanding for the freedom loving people of the beautiful Alpine Swiss republic.

The motoramic Chevrolet for '55

Great new

8

It's the valve-in-head V8 as only
the valve-in-head leader can build it!

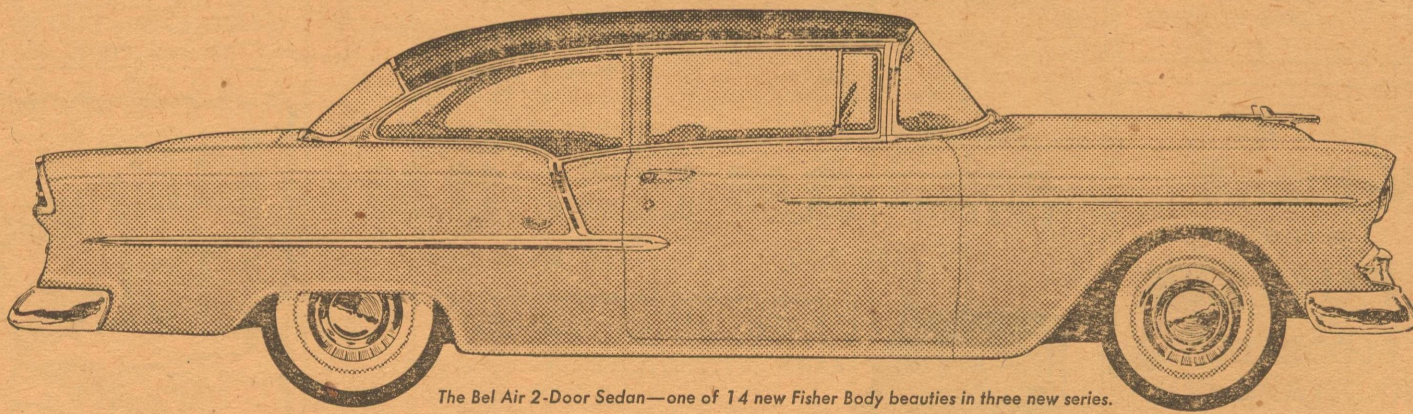

You'd expect Chevrolet to out-V8 the field—and it has! Chevrolet's new "Turbo-Fire V8" puts a brand-new kind of excitement under your foot. The excitement of 162 horsepower! The excitement of an 8 to 1 ultra-high compression ratio that squeezes more pure fun out of a gallon of gas than you ever dreamed possible! The new "Turbo-Fire V8" is so efficient that it requires only four quarts of oil instead of the usual five or more. And it has the shortest piston stroke in the low-price field, for longer engine life. But we can't even begin to give you the whole story here. Come in and drive the new "Turbo-Fire V8!"

Two new 6's

6

With enough new advances
to fill a book!

Chevrolet offers two new highstepping sixes for 1955! There's the new "Blue-Flame 136" (teamed with Powerglide as an extra-cost option) and the new "Blue-Flame 123." Both bring you new, higher-rated power—the zippy, thrifty high-compression kind. Both have new, more efficient cooling and lubrication systems . . . new engine mounts that result in almost unbelievable smoothness. And, like the new "Turbo-Fire V8," both are sparked by a new 12-volt electrical system for finer performance and faster cold-weather starting. They're the liveliest, smoothest sixes Chevrolet ever put into a passenger car!

The Bel Air 2-Door Sedan—one of 14 new Fisher Body beauties in three new series.

More than a new car . . . a new CONCEPT of low-cost motoring
(and much too good to miss driving!)

School News

At various times during the year, reports have been given concerning classes and grades. This week news will cover some of the work in English.

The senior class is studying the works of Shakespeare. The play Macbeth was read and discussed in class.

The sophomore classes have completed the study of Shakespeare's Julius Caesar. At present they are studying the novel, and reading the novel "Silas Marner."

Narrative poetry is being studied by the Freshman classes. At the present time they are reading Scott's "Lady of the Lake."

The V. A. boys made a field trip to the Aaron Steward farm last week that proved both interesting and enlightening. The trip was made for the purpose of studying the selection and judging of breed-

ing sheep.

The boys feeding lambs for show have a busy time ahead of them for the lambs are now on full feed. Now is the time for the boys to start handling their lambs in order for the lambs to be gentle for the show. Most of the feeder lambs will be docked in the next two weeks.

Next Tuesday the school will present another Southern School Assembly. Toni Gauer, a noted Swiss entertainer will present a musical program including the harmonica, accordion. He sings and yodels in the old tradition of Switzerland.

Jerry Pennington, Bob Ratliff, Pat Higgins, and Bessie Thigpen attended the West Texas Forum of Student Councils in Sweetwater Saturday. Seven schools were present at the meeting. The group pledged their support to encourage more participation by the councils in the West Texas area. Eldorado has served the group as secretary in 1953-54 and as vice-

president in 1954-55. The council office of president at the spring of Eldorado plans to seek the office in Midland. The group was sponsored by Joe Andrews, High School Principal.

The F.H.A. club is planning its annual F.H.A. Week this week and its program consists of daily events being carried out by the F.H.A. girls. On Monday night a business meeting was held and the rest of the week was planned. A social party was held after the business meeting and refreshments were served. A standing program committee was appointed for the year and on this committee were: Jana Walker, Chairman; Charleen Logan, and Burnell Doyle.

TEXAS CATTLEMEN STRIVE TO SOLVE OWN PROBLEMS

Independence has always been a favorite word in Texas. It is virtually the cornerstone of our history, our attitudes, our heritage and our pride.

The Texas cattleman has long been a symbol of independence and self-reliance. The history of Texas is the history of the cowboy. The state's true greatness began when pioneer cowmen licked drought, depression and disease to build Texas as grazing herds beyond local needs and made the great trail drives to northern markets.

Today Texas is still the beef capital of America. With a cattle population of 8,587,000 this year, it leads the nation.

Texas cowmen feel that Texas should lead in beef consumption, too, as well as in beef production. That is their answer to price problems. Not price supports, but "Eat More Beef!" is their watchword. The Governor has proclaimed this as Beef Week in Texas, and the Texas Beef Council urges us to eat beef every day.

It's a good idea, from every standpoint, and a good way to salute the self-reliant cattle industry of Texas.

Mr. and Mrs. Charlie Trigg left Wednesday for Phoenix, Arizona, where Mr. Trigg will be an official at a football game. Two more games, both in Texas, will close his schedule for the fall season.

The Young People of District IV Mid-Texas Presbytery met in San Angelo last Sunday afternoon. Those going from the Eldorado Church were: Ann Ballew, Moneta Bradshaw, Nancy Jo Jackson, Tommie Jones, Willie Luedecke, Becky McAngus, Cecil Mack Weston, Mrs. John Miller, and Mr. and Mrs. A. G. McCormack. Ann Ballew made the report for the Eldorado representation and won praise from all the Conference for the fine way in which our group is getting started in the work.

Methodist Notes

Attending the District Conference, which met in Del Rio, November 9-10 were Mrs. J. E. Hill, Mrs. W. F. Meador, W. G. Godwin, Tom Buchanan and Doyle W. Morton.

Next Sunday will be the time when we bring an offering for Korea. Offering envelopes representing rice bags will be used for this offering. This is our opportunity to relieve some of the great suffering caused by the war in Korea.

Next Sunday night, November 14, a film showing the work done by the Texas Mission Home and Training School will be shown. The Texas Mission Home is a home for unwed mothers. Most of the babies are placed in foster homes for adoption. This is a great service of redemption carried on by the Methodist Church. An offering for the Mission Home will be taken on November 21.

That's the way with your electric service. As you add new electrical conveniences, you can always count on the additional electric power you want to run them.

You are using many more appliances than you did ten years ago. In the future, you'll add many more.

And you can be sure your electric service company will be prepared with the power to run them.

In homes served by WTU electric rates have stayed low. Actually the average cost of a kilowatt-hour of electric service for home use is 22% LESS than it was 10 years ago.

100% Sure Method For Securing "Industry" For Your Town

Throughout Texas today there is a move on among towns and cities to attract more industry. Small towns as well as big ones are raising funds to entice new industry and it's nothing to read of a town of no more than a few thousand population raising \$25,000, in pledges at least, to establish a foundation fund to bring in industry and get some payrolls going.

There is nothing wrong certainly with this, an industrial payroll is a fine thing for a town and we take out hat off to any town that succeeds in this endeavor, but we suspect that many of them won't produce much results except those which are endowed by some natural resource, such as the lignite deposits at Rockdale which Alcoa is now making use of.

What most of these towns are ignoring is that they already have a great "industry" surrounding them and the natural resource to sustain it is at hand. We refer of course to agriculture as the industry and land as the resource.

It has been estimated that the capital investment per industrial worker is about \$18,000. Moreover, a farm dollar, being created wealth, turns over seven times before it completes its cycle, meaning that for every dollar produced on the land, seven dollars are in effect put

into circulation.

What this means is that, while the chances of a given town's securing an economically stimulating industry are awfully slim, every town has a chance of increasing its income by improving the industry it already has—its agriculture. Increasing the farm income around any given town in Texas by 15 to 20 per cent would increase the money in circulation in that town many times more than any town, with a half dozen exceptions, will ever be able to do with industrialization.

It's hard to see the forest for the trees. But practically every town in Texas is located in a Soil Conservation District. If any of these towns now interested in attracting industry spent an equal amount of time and money on furthering conservation farming and ranching in its immediate area, in learning for itself what a District is and what it's trying to do, that town would show a pick-up in economic welfare far more real and far more certain than any benefits it might gain from some nebulous industry it might accidentally bring in.

There are over 600 towns in Texas big enough to have a newspaper. The hope that more than a tiny fraction of these will ever attract an industry big enough to make more than a ripple on the town's economy is fantastic. But every one of these towns has a real industry already at hand, the land about it, and there, it seems to us, is where more towns ought to be directing their attention.

The perils of overstocking coupled with the recent drought were vividly brought home to one district rancher when he recently sold his last lamb crop. The ranch in question is typical of most rangeland in the Eldorado-Divide Soil Conservation District in its ability to produce.

A couple of years ago this section of land was stocked with 220 ewes and the feed bill was less than one dollar per head. This rancher sold 153 lambs averaging slightly better than 61 pounds per head. His death loss that year was 12 ewes.

Now let's compare this to the crop of lambs he sold this year, his feed bill, stocking rate, and other comparable conditions, relating to this year's operation.

We should compare the rainfall of the two separate years first of all. The rains this rancher received these two years in question were nearly the same. The rains in the years preceding the separate lamb crops were also close in amount received and both had approximately the same seasonal rains.

The crop of 216 lambs he sold

this year came off the same section of land. His feed bill was four times as high. The lambs averaged 46 pounds each and his death loss was 30 ewes.

What could account for the lower lamb weights when his feed bill was four times greater? His stocking rate this year was 370 breeding ewes compared to 220 for the other year. Look at the comparison in lamb crop and weights. Operating with a breeding herd of 220 ewes per section he nearly equaled in the weight of his market lambs what he produced the following year with 370 breeding ewes. The money spent on feed went for naught.

Consider also that these sheep were both drenched 3 times each year and the wool clip was nearly identical even with a base herd numbering 59% more ewes.

This actual record should clearly point out the fact that if ranchers expect to make money out of sheep the lamb crop and weights must be kept high and the feed bill low. This can only be done by stocking the ranch with the number of sheep it will support. Stock according to the condition of your grass, not the acres.

Sheep prefer a greater variety of grasses and weeds than any other class of livestock. To give the greatest profit they must have this variety. Over-stocking will not give the production in terms of dollars that proper stocking will. It means greater numbers induces greater loss. Having grass on the ground is like having money in the bank. Leave a little each year and you'll have more the next.

In the fact of improved breeding stock we face the paradox of lower lamb crops and weights. Ranchers have come to depend more and more upon supplemental feeds to make up their deficiency in grass. Many have over-stocked for so many years that the better weeds and grasses have been killed out or have become so scarce that the land will really support only a small percent of sheep it formerly would. Thus blooded stock cannot hope to produce even what the average herd ewe normally produced.

The Soil Conservation Service, assisting the Eldorado-Divide Soil Conservation District, are ready at all times to help ranchers analyze their range conditions and work out plans for bringing back your grass.

HIGHWAY TRANSPORTATION

There are 1788 Texas communities entirely dependent on motor vehicles for land transportation. Seventeen counties in the state do not have a single mile of railroad track within their boundaries, and there are forty-three county seats dependent on private cars, buses and trucks. They are served by motor vehicles over Texas' excellent system of state highways. Texas trucks and buses paid more than \$62,000,000 in motor fuel tax and license fees last year.
