Record Turkey Crop For Texas and Nation Coming Up This Year

College Station.—The nation's turkey producers are raising 16 at 3:00 p. m. at the Pfluger farm Thompson, Sr. percent more turkeys this year than last—29 per cent more heavy breeds and 19-percent less light the FFA chapter of the high

Texas producers are raising period. about 47 percent more birds than in 1955, reports John McHaney. extension economist. Production of ight breeds is down 4 percent but neavy breeds are up 55 percent in

McHaney says the expansion was caused primarily because prices during the last half of 1955 were 7 percent higher than for the same period in 1954 and feed prices were down by 10 percent. Too, he adds, turkey prices for the first half of 1956, which covers the main hatching season, were about 6 percent higher than for the same period in 1955 and feed prices averaged 7 percent less. These factors were enough to encourage expansion.

The economist believes that the commercial turkey industry will approaching a school bus which continue to expand especially if may be standing beside the road general economic activity contin- or school to pick up school childues at a high level. Eldorado, Texas

September 27, 1956

Dear Friends:

You are all cordially invited to our first showing of the new exciting 1957 Ford on Wednesday, October 3rd —it's a honey!

We will be doing a little extra celebrating—starting our third year as your authorized Ford dealer. You, our customers and friends, have helped make them good years—we sincerely thank you. Our goal is to always merit your friendship and good will.

May we also invite you to inspect our service facilities where our personnel are eager to serve your transportation needs as efficiently and as economically as possible.

We will be looking forward to seeing you October 3rd.

Sincerely,

George and Lola Humphrey

Changed Her Whole

"Point of View"

Some local high school teachers watered and tended to make spent the summer taking courses at the State University. They learned a lot, but one of them-Miss Williams-got homesick.

"To save expenses," she reports, "we chose a hotel that was clean but grim. When I found my window looked out on a coalyard -my heart just sank!"

But, when Miss Williams noticed a pot of geraniums on the window sill-and a note saying "Look at these instead. (signed) Last Occupant"-she decided to stick it out. She kept those flowers

things that much easier on the next occupant.

From where I sit, it's often hard to adapt to new surroundingsjust as new customs often seem strange to us at first. For instance, if you've always had tea with your meals you might find it odd that I prefer a glass of beer. It's OK to prefer what's familiar to you . . . but also keep an open mind on what's not.

Where tomorrow starts

A new inner car gives you a NEW KIND of FORD for 1957 Coming October 3rd.

On Wednesday, October 3rd, Ford Dealers throughout the United States will unveil a new kind of automobile!

Cars are involved in every American's life. News of a new kind of car is the biggest kind of news to millions of Americans.

The Big New Kind of Ford is that kind of news . . .

a car totally new in design from crest to trunk lock. This completely new automotive package will sell at

the traditionally low Ford prices.

This makes possible a new high standard of such honest-togoodness value that it actually increases the purchasing power of your automobile dollar.

When you see it, other cars will look out of date, because . . : This is Where Tomorrow Starts . . . with a Big New Kind of Ford!

The New Kind of Ford is the fullest, most eloquent expression of Ford's special personality—the youthful grace, the whiplash action—and the reputation for durability known wherever there's a road.

To all this we have added true elegance -a kind of elegance never before seen in the low-price field. To make a car truly elegant, you must start deep-down inside.

The New Inner Ford

The Inner Ford-the car you cannot seeis a very remarkable structure. Its frame is actually a cradle. Side members extend almost the full body width; they serve not only as supporting members but as concealed side bumpers of immense strength.

The New Ford Body

The new Ford body is a triumph of engineering in steel. The doors close with the solid finality of a bank vault. Even the door-lock button has been moved up front-easier for you to reach, but out of the children's reach.

All these features were engineered to give you a solid new kind of comfort.

The New Ford Ride

The New Kind of Ford sits six people as no other low-priced car has ever sat them

spare for all six passengers. The 1957 Ford rides low, solid, with a firm, deep road-holding feel. Yet it's a light-hearted, flight-hearted ride-this car is responsive, nimble, agile, with a proud

-six elbows wide in each seat, with deep

space around each one of six knees. And

above all that space, there's hat room to

The New Ford Choice

easy movement.

Ford offers not only one, but two sizes of cars . . . each on its own extended wheeleach with its own body shell ... each with its own styling.

First, the two Fairlane Series on a 118inch wheelbase. The Fairlane 500's come in 5 body types, a four-door sedan, a twodoor sedan, a two- and four-door Victoria with no center pillars, and a convertible coupe. The same body types (except for the convertible) are available in the Fair-

Second, two Custom Series mounted on the 116-inch wheelbase chassis. In the Custom 300 Series, a four-door and a twodoor sedan are distinguished from the Custom models by more luxurious interiors and elaborate trim. The Custom Series also includes a Business Sedan.

Beyond all these, you also have your choice of five Station Wagons-the famous glamour cruisers that are the champions

The New Ford Look

That low, low cradle-span frame means a low, low car. The Fairlane 500 is only four feet eight inches from road to roof! The Custom is just over four feet nine inches!

The new Ford is not only low-but long. Ford gives you more than 17 feet of elegant length in the Fairlane Series, a shade less in the Custom. It's a nice kind of fun just to look at it. It's high-priced in every way except price.

The New Ford Performance

You can have up to 245 wonderful Thunderbird horsepower in any Ford model. There's a moderate—and really moderate -extra charge for this engine of 312 cubic inches with its 4-barrel carburetor.

For "Six" lovers, we've got the 144-hp Mileage Maker Six. Whether you choose Six or V-8, the going is great!

Here is where

your own tomorrow starts

It starts at your Ford Dealer's showroom! The cars will be there on Wednesday,

These are the best Fords of our lives. They are the first symbols out of Detroit of the new automotive age that is begin-

ning for you. This is where tomorrow starts—at your Ford Dealer's.

This is when your tomorrow starts—

October 3rd.

Come in and see us for the Big New Kind of Ford!
