

PYF ON OUTING

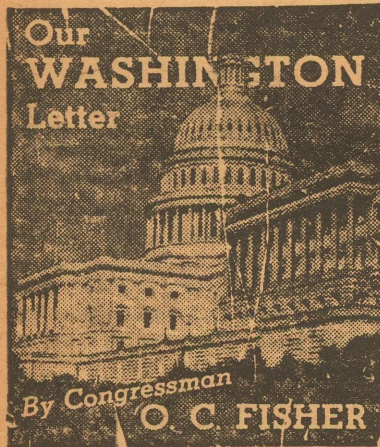

The PYF of the Presbyterian church, with Mr. and Mrs. Jack Hext as sponsors, had a several-day outing. In the group, in addition to the Hexts, were Judy Hext, Ernest K. Nimitz, Janice Sofge, Linda Jones, Sandy Mayo, Nancy Jackson, and Peggy Spencer.

Leaving Sunday afternoon they stopped in Midland to visit their old sponsors, Mr. and Mrs. Roy Collins and attend PYF and the evening service at the Presbyterian church. They then went on to Ruidosa to spend a few days on an outing.

Next Sunday night they will conduct the evening worship in the absence of the pastor, Rev. James Spencer, who will be at camp at Cisco.

HAPPY WORKERS 4-H

The Happy Workers 4-H club met with Mrs. Vida Kreklow on July 12 at 9:30 a. m. Our opening exercise was a song and the 4-H pledge. Joyce Woodward, the vice president had charge of the meeting. They made jewelry boxes for handwork. The next meeting will be held in the home making room of the high school at 9:30 for an all day meeting.—Kay Peters, reporter.

Senator Knowland of California, when he moved to take up the House-passed civil rights bill last week made a bid for the California Negro vote in next year's election. He decided to grab the civil rights spotlight away from the Democrats by unleashing what may turn out to be a full grown filibuster that may go on for weeks.

This will, of course, delay the summer recess which is usually reached in early August. But even if the Senators embark on a talkathon that runs into the Fall, the House will probably close shop in mid-August. That's the way it looks right now.

That Boy Scout Jamboree at Valley Forge brought some 40,000 Scouts through Washington en route to the encampment, including Scouts from a dozen towns in our district. We got to see a few of them.

That junk mail should pay a higher postage rate was dramatized by Dr. Lloyd L. Downing of Ballinger last week when he sent me a package containing one week's mail which he had received, weighing four pounds.

A house bill which would increase postal rates, including a substantial raise on junk mail, is now pending and will probably be acted upon soon.

Week end visitors in the home of Mrs. Rosa Owens were her nieces, Miss Camilla Hoisager from Kermit and Mrs. Enon Hoisager and two daughters from Big Spring. Also her nephew Harvey Garvin and family from Fort Stockton. They also visited with Harvey's uncle, Joe Garvin and family.

If more people would eat a good farmers breakfast of fruit, cereal, meat, eggs, toast and milk, instead of the commuters special of a roll and coffee, we would be well on our way toward solving our surplus problem.

The Field Day on the Howard Derrick ranch 22 miles east of Eldorado on Friday, July 12, was well attended by interested people from the Menard County and Eldorado - Divide Soil Conservation Districts. Some range management practices were discussed, trial root-plowing and range reseeding was observed, and questions were asked regard to the work.

The majority present were of the opinion that the success or failure of the trial would be determined by the kind and amount of rainfall received following the root plowing.

"Take care of grass and it will take care of you." How strong do you believe this statement? Each acre of land and each forage plant must produce a good yield if the farmer or rancher is to prosper. The crop yield is measured by pounds of beef, lamb, wool, or milk, because this is the measure of his market product.

Grass has definite needs for growth and production. Although it is hardy, grass is a living thing and like animals must have food, air, water and light to live and develop. It must have certain things for growth and a plant body large enough to make leaves, stems, roots and seeds.

A well balanced operation requires careful management of

grass. Rest is essential for grass in regaining vigor, root development, growth and seed production. Pastures that are properly used will produce more grass than overgrazed pastures.

To attain proper use may take one or more of several things. Proper water distribution may be needed, temporary pasture may be needed; and if too many stock are on the permanent pastures the numbers may have to be reduced; and lastly, a rotation system may need to be used so that the permanent pastures may have a definite rest period. A good rule to follow on native grasses is "take half and leave half." Get the local technicians to go over your pasture with you and look at these things and discuss them.

Suggestions For July

- 1. Harvest grass seed.
- 2. Terrace land that was in small grain the past spring.
- 3. Give old terraces a real maintenance plowing (they have really been put to the test.)
- 4. Air-condition your grain land. Leave crop residue on or near the surface.
- 5. Make plans and arrangements for fall range deferments.
- 6. Get your technician to help you revise and bring your plan up to date.

COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Cotton insect surveys have indicated that producers may expect rather heavy infestations of bollworm. Signs of the bollworm have been found on some of the earliest and also on late planted cotton. Controls listed in Extension Bulletin, Texas Guide for Controlling Cotton Insects, is complete and

contains the information that the Texas Experiment Stations and the USDA have to offer. If you do not have this guide it is available at the County Agent's office.

If producers are thinking about storage on the farm for now or future years, now is the time to

get facilities ready. Loans are available for constructing of facilities and applications may be filled at the local ASC office.

Now is the time for sheep men to begin thinking about fall culling. Just prior to fall breeding is the ideal time to do this important job.

It is very possible to gain a half-inch in staple length by selection methods. This, transposed to economic terms, means an increased income of from 75c to \$1.00 per head by increasing the amount of clean wool production.

By judicious selection, it is possible to improve body size, fleece weights and lamb crop percentages. These factors determine gross income from fine wool flocks. Removing low producers

from the flock will increase the amount of net return.

Culling ewe flock should be an essential phase of any efficient sheep operation. Assistance can be obtained from this office for fall culling.

Buffalo grass as a lawn grass is recommended in dry regions where watering facilities are not available. Buffalo grass is a native of Schleicher County but when considered as a lawn grass take this into consideration: (1) Buffalo grass has a dry unattractive appearance during periods of prolonged drouth and in late fall, winter and early spring; (2) It is not progressive enough to keep weeds and faster growing grasses from invading the lawn, and (3) Will not tolerate shade.

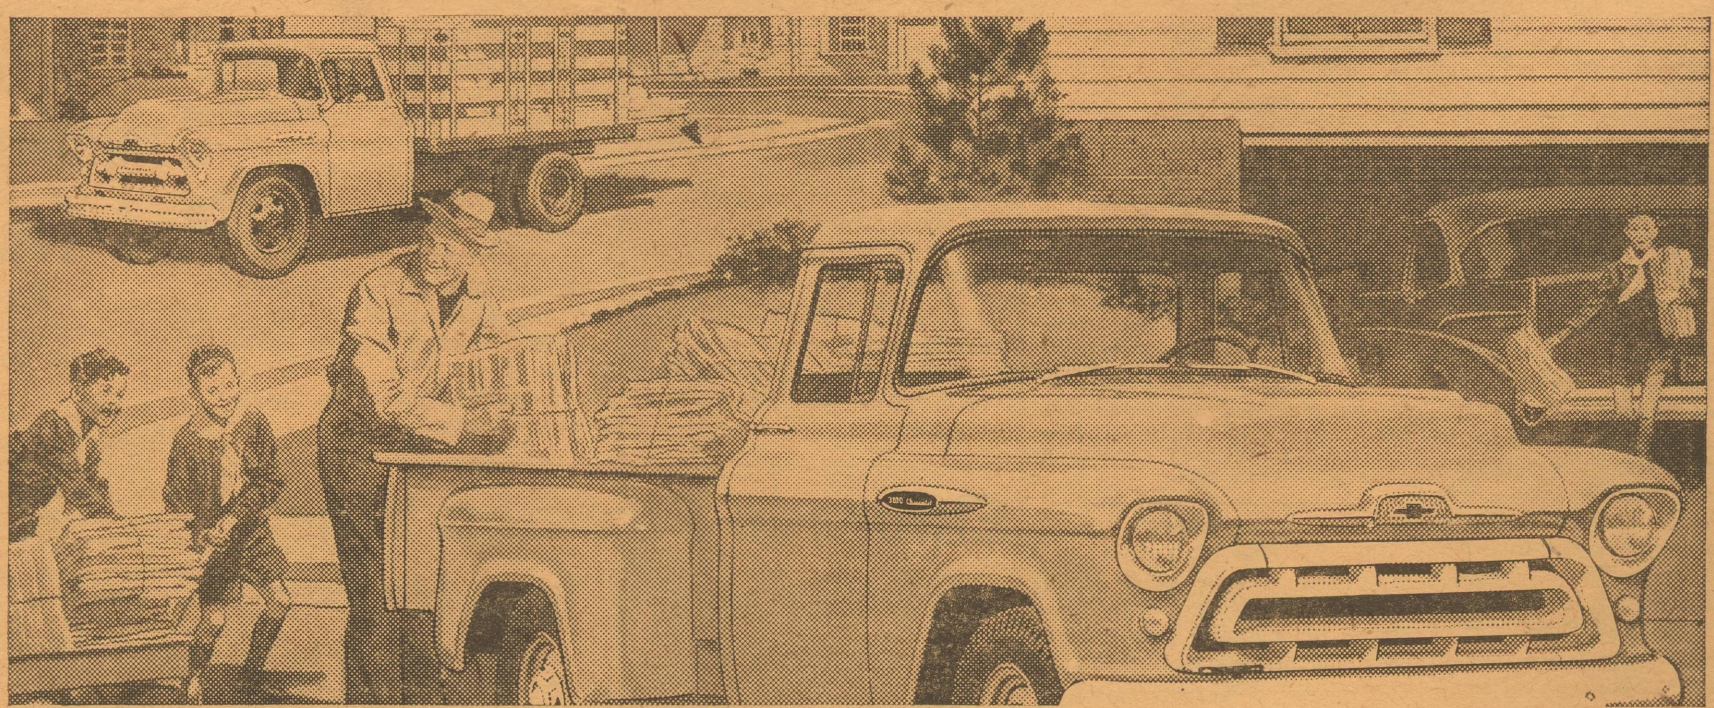

Methods and recommendations for seeding, sodding, and care of home lawns are available at your county home demonstration agents or the county agent's office in the attractive bulletin 'Home Lawns.'

Work and planning the yearly program of 4-H has been under way during the month of July. From time to time the public will witness the effects of 4-H efforts in field days, shows and demonstrations. All boys through the age of 9-12 are eligible in 4-H work. The program covers a wide field and will be made interesting and attractive through local leaders.

Program Being Set Up For Those Who Are Totally Disabled

Complete and permanent invalids or persons in the community so mentally deranged that they require continuous over-seeing to keep from harming themselves or others may soon be able to receive small monthly checks from their State Department of Public Welfare thru the new state-federal program of Aid to the Permanently and Totally Disabled. The constitutional amendment, which was adopted by the voters in November, 1956, makes aid possible only to those who are helpless and have no relatives able to support them.

Miss Betty Willis, field worker

for this area, pointed out this is the only welfare program which requires consideration of the ability of relatives to support. This law defines "responsible relatives" as children, parents, step-children, step-parents, brothers and sisters. Miss Willis said that for the first time in nearly 20 years the Department's field workers will be required by law to determine the resources of relatives of persons who apply for aid.

The "permanency" and "totality" of the disability will be determined by a State Reviewing physician after study of a complete physical or mental examination by the person's own private physician. Complete helplessness from a medical standpoint, rather than inability to work, is the criteria. The state will pay the private physician for his examination.

Funds for assistance will not be available until September 1, 1957, but applications will be taken after July 15. While the helpless individual will not be able to leave home, the persons responsible for his care may come to the local welfare office and acquaint the Department with his situation. A field worker will then call, as soon as possible, at the home to take the application.

Offices in this area are located at: State Department of Public Welfare, Court House, Eldorado, Tex.

MRS. OWEN BROCK

Miss Williams Marries Mr. Brock Here Friday

The ranch home of Mr. and Mrs. J. Tom Williams was the scene Friday night of the wedding of their daughter Ann to Owen Brock of Fort Worth. He is the son of Mrs. Cinda Brock of Perrin, Texas. Bro. T. R. Chappell of Sonora performed the double ring ceremony.

The lawn was decorated with an arch of pink sweetpeas and fern flanked by brass pots of greenery. Hurricane lamps marked the pathway to the arch for the bride.

The bride wore a ballerina-length dress of white chantilly lace over net and taffeta. The dress was topped with a fitted lace bolero with a Peter Pan collar and three-quarter length sleeves. She wore mittens to match.

A satin scalloped hat covered with sequins and seed pearls held her finger tip illusion net veil. She carried a white beaded Bible covered with white net topped with white carnation and white ribbon streamers.

Miss Fay Williams, cousin of the bride, served as maid of honor. Bob Garrett of Lubbock served as best man, and Billy and Bobby Williams served as ushers.

The bride is a 1954 graduate of Eldorado High school, and a graduate of San Angelo Junior college and a spring graduate of Texas Tech.

The bridegroom is a graduate of Perrin High school, John Tarleton college, and A&M college.

Mmes. Otis Deal, Victor Sauer, and J. D. Wood of Sonora assisted with the reception held on the lawn following the ceremony. The table was covered with a white lace cloth over pink. The centerpiece was the four-tiered bridal cake decorated with white flowers and silver, topped with a miniature bride and groom. On each side of the cake were pink candelabra.

Punch was served by Jo Fant of San Angelo. The cake was served by the bridegroom's sister, Mrs. L. P. Kestler of Ft. Worth.

Ruth Williams presided at the guest book.

Out of town guests were: Mrs. Cinda Brock of Perrin, mother of the bridegroom; his sister and her husband, Mr. and Mrs. L. P. Kestler of Fort Worth; Mrs. Myrtle Montgomery of Perrin, Mrs. Marie O'Connell of Ft. Worth, Mr. and Mrs. P. D. Rector of Eola, Ada and Leslie Woullard of Bronte, Miss Jane Reeder of San Angelo, Mr. and Mrs. Garland Williams and family of Amarillo, Tommy and Sue Williams of Amarillo, and Mrs. Lola Sparks of Rogers.

After a short wedding trip the couple will make their home at 2550 N.W. 22nd, Ft. Worth. Mr. Brock is employed with Convair.

SHOWER HONORS BRIDE

Honoring Mrs. Rony Kerr, a shower was held Saturday at the Gus Love home.

The serving table was centered with a miniature bride and groom on a reflector, flanked with pink roses and greenery. Punch, open face sandwiches and cookies was served by Joy Dodd and Becky Mund.

At the register were Thomasine Jones, Ann Ballew, and Mrs. Fred Logan. In the receiving line were Mrs. E. E. Newlin, Mrs. Bob Anderson, the bride and Mrs. Happy Kerr.

Hostesses were Mmes. John Williams, E. N. Edmiston, L. T. Wilson, Gus Love, Robert Sproul, W. C. Doyle, Charlie Sudduth, Frank Reynolds, Clifford Schooley, Aaron Steward, W. C. Parks Jr., Rance McDonald, Lum Davis, Palmer West, O. B. Bradshaw, E. H. Sweatt, M. H. Woodward, L. E. McCalla, H. A. Belk, and Lester Nixon.

Like Brownies? Nearly everybody does and you can't go wrong following this easy to do recipe. In a sauce pan big enough in which to make the whole recipe, put—

1/4 cup shortening and 2 squares chocolate; melt the 2. Add 1 cup sugar. Stir in 2 eggs, unbeaten. Add 1 cup flour and scant 1/4 teaspoon salt and 1 teaspoon vanilla. Mix well and add coconut or pecans as you wish. Pour in greased 8x8 in. size baking pan. Bake 25 minutes at about 300-degrees. Makes 20 squares.

The Eldorado Jr. 4-H Club made a wonderful batch of these Brownies at Mary Ann Page's house and the Reynolds Busy Bee 4H girls did the same thing at Verna Ann Lux's house recently.

You have probably read about a simple syrup in foods articles and maybe never made one. Here's how. Mix 2 cups water and 3 cups sugar and boil 3 minutes. One and 3/8 teaspoons cream of tartar will keep it from becoming crystallized. This simple syrup is good for sweetening all kinds of summer drinks from iced tea to lemonade. Put it in a syrup jug and keep it handy. Might save much little sugar spilling by little lemonade makers.

Vacation is a state of mind as well as a change of places. If you can't take a trip try having a vacation at home. Change the menus, change the place of eating, and if necessary and appropriate, change some attitudes about the

chores of the home. Try to make them fun. Have some back yard suppers—nearly everybody would be willing to bring a dish if they could just go to a party.

Use your freezer. In the cool, fresh hours cook up some extra food that could be eaten on some of those vacation days at home.

If you need to frost a very tender, freshly made cake put it in the freezer, unwrapped, and freeze until firm. Frost while firm—makes for easy handling.

We've been having good attendance and good times at our Home Demonstration clubs these days. And—after the demonstrations, pretty good tasting of the breads, which were made. In June we made basic yeast breads and in July are making varieties of breads from the basic doughs.

This basic sweet dough makes some very good coffee cakes, stollens, cinnamon rolls and tea rings. Any club member will be glad to show you how to do a braided date loaf or to do any of the fun things we've been doing. It's much easier to learn to do these things by watching someone do it instead of trying to figure out written directions.

Basic Sweet Dough

2 packages yeast, compressed or dry. 1/4 cup luke warm water to dissolve yeast in.
1 cup milk
1/2 cup sugar.
2 teaspoons salt.
1/4 cup shortening
5 cups flour (about)
2 eggs.
1 teaspoon grated lemon rind
Soften yeast in water. Scald

milk. Add sugar, salt and shortening. Add flour to make thick batter. Mix well. Add softened yeast, eggs and lemon rind. Beat well. Add more flour to make soft dough. Turn out on lightly floured board or pastry cloth and knead until smooth and satiny. Place in greased bowl. Cover and let rise in warm place until doubled in bulk, (about 1 1/2 hours). When light, punch down. Let rest about 10 minutes. Shape into rolls or coffee cakes as desired. Let rise until doubled. (30-45 minutes these warm days). Bake in moderate oven (350 F) for 25-30 minutes for coffee cakes and 15 to 20 minutes for rolls. Makes 3 1/2 doz. rolls—2 or 3 coffee cakes.

Last week was really meeting week. On Monday, July 8 the regular monthly Home Demonstration council meeting was held. Tuesday the Reynolds HD club met with Mrs. Leonard Lloyd. Wednesday we had a Reynolds 4H girls meeting with Verna Ann, daughter of Mr. and Mrs. W. V. Lux. Thursday morning the Town & Country club had a wonderful meeting with Mrs. L. E. McCalla. Friday morning the Happy Workers 4H girls met to make "jewelry boxes" and the Eldorado Senior 4H'ers met for a demonstration on grooming with special emphasis on the hands in the afternoon. Six meetings with 74 attending.

Mr. and Mrs. J. L. Ratliff have as guests since yesterday, the latter's son and his wife, Mr. and Mrs. Odie B. Faulk of Texas Tech.

Tom Ratliff of Sonora visited Sunday evening with Mr. and Mrs. J. L. Ratliff.

Checking around at the lumber yards and other business establishments, we learn that there is quite a lot of remodeling and building going on. In fact, if you have some work to be done you "have to take your turn" in order to get a carpenter, we are told.

Some of the jobs we've heard mentioned include:— Gerald Hartgraves, remodeling his residence. Orval Connor, also having work done on his residence.

E. H. (Pat) Sweatt, Jr., working over his residence. Mrs. Rex McCormick, having a fence built.

S. E. Jones, adding a room to his recently purchased residence.

Gene McCalla, remodeling his residence.

Paul Page, brick work completed, and other work proceeding satisfactorily on his new residence in Sunset Acres.

H. A. Belk, having work done on his place, and Also J. B. Swain, ditto.

Wm. Jarrett finishing the interior of a new moved-in house.

Ethel Williams, having quite a lot of fence built on her ranch.

Also E. V. Warren, Lawrence Neill and Alvin Farris, all remodeling and repairing on their houses.

George Long is due to start a remodeling job on his residence just as soon as his carpenters are available.

A. P. Fambrough is continuing with a remodeling job on the house he recently bought.

J. F. Oglesby has been engaged in a remodeling job at the ranch; and Ralph Waldron and Carl Stevens have just completed remodeling on their places.

Billy Frank Meador was due to start a remodeling job this week.

All this, in addition to the Pioneer Gathering System job. Proctor Engineering Co., of Tulsa has the construction contract with Pioneer, and work has been going on the past week on foundations for their booster station. Fred Logan went on as carpenter foreman on this job, and other local men have been getting employment also.

Sinclair is due to install some new additional units at their plant, and some of this work is getting under way.

Some new people are making their appearance here as a result of this activity.

Then of course, there is the new gymnasium—a hundred thousand dollar deal, on which work should get started in a month or so.

There was quite a lot of excitement out at the O'Harrow Ranch Sunday. A bull, new to the ranch, got tangled up with a cattle guard and it took quite a bit of equipment, and men—and women—to get him out.

They phoned to Christoval for help, and got him out by cutting the cattleguard and lifting the animal out. Meanwhile the commotion had attracted quite a few sidewalk superintendents, all of whom had some suggestions to offer.

The animal has some skinned legs but no broken bones, for which the family are thankful as he is a valuable male.

Here is the permanent set-up at McKavett Humble Station: W. P. McConnell, foreman; L. P. Dixon, L. E. Clemens, M. W. Caldwell, Wm. Landrum, company houses; Jack McCandless in Gus Love house, Eldorado. None have school age children. The station has been shut down and is coasting along for the month, but will probably re-open by the first.

Mr. McConnell has returned from a vacation trip to Ruidoso.

Among the more than 200 attending the McDonald family reunion Saturday and Sunday at Fredericksburg were Mr. and Mrs. Roy Andrews, Roy and Linda Bess Love, Mrs. Clyde Galbraith, Mr. and Mrs. Rance McDonald, Nolan McDonald, Mr. and Mrs. Lum Davis and Jan, Mr. and Mrs. Laman Hazelwood, Mr. and Mrs. Vernon Hazelwood, Mrs. Lilburn Hazelwood and children and Liburn, who joined them from Temple, and Mr. and Mrs. Tom Carroll and two children of Ozona. A barbecue dinner was served Sunday. The reunion has been held annually over 20 years.

Mr. and Mrs. T. J. Lindley, who was a sister of W. H. McClatchy, died at Fredericksburg July 11 and was buried at Santa Anna the 12th. There is only one of the immediate family left, J. A. McClatchy of Coleman, who is 90 years old.

Mr. and Mrs. Vernon Carroll and Shirley spent a day at their farm at Priddy, and were overnight guests in the J. Whiteley home at Brady.

Mrs. L. C. Higgins and daughter Carol Ann spent Saturday and Saturday night at Ozona with Mr. and Mrs. Jerry Perry. They attended a ball game between the All-Stars and San Angelo which the former won. Jerry is a member of the All-Stars.

Bethel Jeffrey, who has been working for Pat Joiner at his service station in Abilene until the business was sold, is back in Eldorado and is employed by Joiner Brothers. When Mrs. Jeffrey returns from a visit in New Mexico the family will move their household goods back to their residence here.

Mr. and Mrs. Jack Jones had as guests on the 10th, Jack's old buddy in the service, Marvin Mott and family, who were on their way from Macon, Ga., to California. They visited with the Jones family overnight.

Mrs. Way King's weekend visitors were Mr. and Mrs. R. D. King and family and Mrs. Kay Smith of Odessa and Mr. and Mrs. A. J. Burk and children, San Angelo.

Mr. and Mrs. Lum Burk spent the weekend with relatives at Strawn.

SCOUT COURT HELD

Several Boy Scouts were honored with presentations of new badges of rank at a court of honor held last night with Scoutmaster Claude King in charge. The following awards were given:

First class: Kenneth Isaacs, Rex McCormick, Roy Lynn Sallee, Willie Luedecke, Bryan Edmiston.

Second Class: Bryan Edmiston, Willie Luedecke, Kenneth Isaacs. Star, Herman Walker Jr., and Life, Scoutmaster King. In addition a number of merit-badge certificates were given out.

BUSY BEE CLUB MEETS

The Busy Bee 4-H club met July 10th in the home of Verna Lux with Mrs. Kreklow in charge. Two new girls, Betsy Bruton and Christie Moore, have joined.

Demonstrations were given on the making of jewel boxes and brownies. Lemonade and cookies were served with the brownies.

The next meeting will be an all-day one, Friday, July 19, in the home of Kathy Sauer.

Mr. and Mrs. Wesley Hayhurst have had as a guest several days Miss Pearl Rinderknecht of Taylor, and all went on a camping trip at San Saba Tuesday. Mrs. Hayhurst and children will accompany her home to visit relatives.

Among the more than 200 attending the McDonald family reunion Saturday and Sunday at Fredericksburg were Mr. and Mrs. Roy Andrews, Roy and Linda Bess Love, Mrs. Clyde Galbraith, Mr. and Mrs. Rance McDonald, Nolan McDonald, Mr. and Mrs. Lum Davis and Jan, Mr. and Mrs. Laman Hazelwood, Mr. and Mrs. Vernon Hazelwood, Mrs. Lilburn Hazelwood and children and Liburn, who joined them from Temple, and Mr. and Mrs. Tom Carroll and two children of Ozona. Mr. and Mrs. Lum Burk spent the weekend with relatives at Strawn.

DRY HOLES REPORTED

Two dry holes were reported in Schleicher County drilling operations this week:

Sinclair No. 1 W. C. Jones, wildcat in 4-R. A. Evans survey, nine miles southeast of Christoval, plugged and abandoned at 6,040 feet on elevation of 2,341 feet.

Tucker Drilling Co. No. 1 I-GH&SA, 20 miles east of Eldorado, plugged and abandoned at 4212 feet.

It may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage, and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property—cash, stocks, bonds, furniture, or any other items not constituting real estate—is different. Here the surviving spouse gets full ownership of one-third, and the children and their descendants inherit the balance.

Now suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

Where no parent survives, but there are brothers and sisters and descendants, the full one-half is divided among these survivors.

And, if there are no parents or brothers and sisters (and their descendants) surviving, then the surviving husband or wife inherits all of the real estate.

IT'S THE LAW in Texas A public service feature of the State Bar of Texas

Here's How State Divides Estates When There is No Will The death of an intestate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigated the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among

If proof of the improved health of the cattle business were needed, it was evident at Fort Worth last week when commercial Angus breeders sold 882 calves in the special show and sale on the Fort Worth stockyards.

These calves were displayed before some of the top cattle feeders of the nation, who commented on the generally high quality of the crop. The gross was \$95,741.90 and the average per head straight across was \$108.55. It was a new record for such events here and topped one that was just five weeks old set in Hereford in the June 7 sale when the average was \$102.23.

Trade was active and grass cattle were higher at Fort Worth Monday. Cows tacked on 25 to 50 cents per hundred and bulls were 25 cents or more higher. Stockers were reported strong to 50 cents higher. Killing calves ruled steady. Fed cattle were scarce and fully steady.

Comparative prices: Good and choice steers and yearlings \$20 to \$23 with strictly choice kinds quotable to \$24 and above. Plainer and medium sorts drew \$13 to \$19. Fat cows sold from \$13.50 to \$15.50 and canners and cutters sold from \$8.50 to \$13.50. Bulls gashed at \$12 to \$16.50, odd head to \$17.

Hogs sold at the highest levels in two years at Fort Worth Monday as butchers broke the \$21 price barrier and scored \$21.25. Sows cashed at \$18 downward.

The trade was active and prices were fully steady on sheep and lambs at Fort Worth Monday. Good and choice slaughter spring lambs sold from \$19 to \$20, and medium and lower grades bulked at \$13 to \$18. Stocker and feeder spring lambs cashed at \$13.50 to \$17.

News From Our Neighbors

Prepare New Armory

Company B 830th Engineer Battalion (Hvy. Const.) has recently been busily occupied in preparing their new armory to suit their purposes. The new Armory is adjacent to and includes the Company's former location in Sonora and includes the former garage and the AA meeting place in the Elmo Johnson building behind the Corral Trading Post.

This new expansion is to be used until the proposed Armory in the Hightower division is completed and will greatly increase storage and training facilities for the company. —Devil's River News, Sonora.

Water Problems

Blistering hot weather, coupled with a desire on the part of home owners to save the fine growth of lawns and shrubbery following the bountiful spring rains has resulted in a record drain of water through the city's mains, water district Manager Bill Cooper reported this week.

That the city's recent growth has made a difference in water consumption is also apparent, Cooper said, since the full capacity of the water producing facilities is being taxed by the rate of use in recent weeks. —The Ozona Stockman.

McAllister To Fort Stockton

Ken McAllister, 39, has been named principal of Fort Stockton

high school, succeeding Ben Harris, who resigned last week to accept a similar job in Lufkin.

McAllister comes to Fort Stockton after spending two years as principal of Central elementary in Alpine. Previous to that he had coached football for two years each at Alpine, San Angelo Lake View, and Eldorado.

The school board accepted a recommendation by Supt. J. G. Huckaby that McAllister be hired at its Tuesday night meeting. —The Ft. Stockton Pioneer.

New Garbage Truck

The City of Big Lake has recently put into use a new 16-cubic-foot Pak Mor garbage truck. Total cost was \$6,070. The truck is a Dodge purchased from Potet Motor Co. and the packer from the Pak Mor Co. of San Antonio. The old garbage truck was retained and is still in use for emergencies. —The Big Lake Wildcat.

New Agent For Coke

Sterling Lindsey has been named Coke County Agricultural Agent to succeed Jack Waide. He will begin his new position here Aug. 12.

Lindsey was hired by the Commissioners Court in session Monday, after the appointment had been recommended by V. G. Young who is district agent of San Angelo.

A native West Texan, Lindsey is a graduate of Texas A&M and has been in Extension work for eight years. For the past four years he has been county agent in San Saba county. —Robert Lee Observer.

Swimming Pool Problems

Keeping the swimming pool open on Saturday nights has not proved popular, so Coaches Jimmy Walker and Carman Bonner are going to try having it open on Thursday nights, beginning tonight. As long as swimmers attend in sufficient numbers, the pool will be available for Thursday night swims. —Mason County News.

Safe and Sane

Mertzon celebrated the 4th of July in a sane way. There were no accidents to mar the pleasure of the day. Many were present for a picnic at the M. L. Van Court picnic grounds south of Mertzon, others being present at a picnic given by Mrs. R. S. Williams, and Mr. and Mrs. Hayden Ellis. —The Mertzon Weekly Star.

Water System Coming Along

The Sterling City Council met at the city hall Monday and Tuesday nights and passed ordinances relating to the city waterworks program.

Ordinances were passed to issue the \$80,000 bonds (each) in the tax bonds and revenue bonds for the construction of the system. The bonds of the revenue issue are to carry 5 1/2% interest rate and the tax bonds will carry 5 1/4% interest.

The council approved the advertising of bids for a test well, water and, the distributing system, and also a 50,000 gallon elevated water tank. Bids will be received until July 30 and then opened and read. —Sterling City News-Record.

Cooler At Sanderson

The weather in the county has remained dry but is some cooler this week and some clouds have been seen in area skies.

There has been no indication of building up of clouds in this immediate vicinity, but some indications were noted in the east Tuesday morning and in the west late Tuesday afternoon.

There has been a prevailing east wind all week and nights have been much cooler. —The Sanderson Times.

Cotton Defoliation Guide Is Now Available

College Station.—This year's late cotton crop and high rainfall may make defoliation even more important in most sections of the state, according to Fred Elliott, extension cotton specialist. But this does not apply to the High Plains area where they need all of the maturity they can get to beat frost, he adds.

In the rest of the state where farmers must meet the pink boll-worm deadline, the specialist says that defoliation will probably be necessary. In the sections of South Texas, the Gulf Coast and Central Texas where strippers are to be used, it is a must.

In Central Texas, the small plants and dry weather usually make it possible to use a stripper with only light defoliation. But with this year's increased rainfall, the plants are larger and Elliott says that defoliation may have to be used.

A publication just released by the Texas Agricultural Extension Service, "Cotton Defoliation Guide for Texas," gives much information on the 1957 use of defoliant. Copies are available from local county agents or the Agricultural Information Office, College Station Texas. Ask for L-145.

Mrs. Roy Andrews, Mrs. Claude Galbraith and Walter Taylor left Tuesday on a fishing trip near Junction.

Austin.—It's quiet around the Statehouse now, especially compared to two months ago when Legislative issues came to a tense climax.

Groups of sauntering sightseers have replaced the bustling, businesslike crowds that choked the Capitol corridors. They carry cameras instead of brief cases.

But people who are still on the job, like Comptroller Robert S. Calvert, have plenty to ponder. Calvert gave money-worriers a jolt by announcing the state is going to have to ante up \$6,000,000 more for the teacher retirement system in the coming two years. Increase is due to the teacher pay raise

which ups the amount both the state and the teachers must pay in.

Since the Legislature spent to within \$80,000 of the state's expected revenue for the next biennium, this new drain means, according to Calvert, that "the poor old revenue fund will hit the deficit column sooner than expected." "If I had to make a new estimate of expected revenue right now," he said, "I'd have to say we'd end up almost \$6,000,000 in the hole." But he added that he hoped the outlook would improve before he's called for another official forecast.

Insurance Forms Approved

Texas Insurance Commission has granted "temporary approval" to all life, health and accident policy forms filed before Aug. 22. It is a stop-gap measure to conform with a new law and yet allow Texas insurance companies to continue

business.

A law passed last session requires that all life insurance policy forms receive Commission approval before being offered to the public. Previously, only filing of forms with the Commission was needed.

But thousands and thousands of forms are involved, more than the Commission could possibly get through before the effective date of the bill. Hence: temporary approval for all during the checking period.

Advisors Named

A committee of four has been named to help small Texas cities that want to participate in the state's new urban redevelopment law. They are Dr. D. R. Reilly of the Nolan-Scurry County Health Dept., Joe Driskill of Fort Worth, Marvin R. Springer of Dallas and

Jack Shelly of Garland. State Health Commissioner Henry A. Holle announced the group, to be known as the State Urban Renewal Advisory Committee.

Its function will be to help cities under 25,000 population develop city plans to qualify for federal aid in slum-removal programs.
