Mrs. Phelps Gets School Tax Position

Chosen Monday night by the school board as tax assessor and collector of the Schleicher County Rural High School district was Mrs. Roy Phelps, who has been employed in the office for over two years.

Mrs. Phelps, who was one of nine applicants for the job, has been assistant to A. J. Atkins, who turned in his resignation as assessor-collector a few weeks ago. Office space has been acquired in the Bob Page office building for the tax office and records and equipment will be moved there immediately.

The school board adjourned at 2:00 a.m. after the lengthy session and it is possible another meeting will be called for next Monday, at which time other matters of business will be taken up. Mrs. Phelps is the former Creola Henderson, daughter of Mr. and Mrs. C. C. Henderson of Eldorado. Her husband, Roy Phelps, is owner and operator of the Western Auto Associate store here. The Phelps have four children.

City Election Set For Apr. 1

The city council has ordered an election for Tuesday, April 1st, for the purpose of electing three aldermen—two for regular 2-year terms, and one for a 1-year unexpired term.

The terms of Delbert Taylor and Buster Hale expire this year, while Delbert Edmiston has turned in his resignation due to the fact that he will soon move out of the city limits. Edmiston's resignation is to be effective April 1st, and was turned in at this time in order to save the city the expense of a special election. His term had one more year to go.

Post Script

Work is progressing on the automatic laundry being installed in the Finnigan building on South Divide street. The Nances, who have a similar establishment in Sonora, have been painting the interior of the building this week following installation of utility lines. Machines were to arrive this week from Dallas.

This week workmen have been clearing away the old mulberry trees in the court house yard. Nine trees have been removed and eighteen pecan trees will be set out. The pecans will be Garner, Burkett, and Western Schley stock and will provide pecans and will add to the court house grounds landscaping.

It has been suggested that more shrubs should be added to the school grounds to make the landscaping there, more in keeping with our expensive and modern school. Perhaps if everyone interested in such a project would contact a member of the school board, something could be done to improve the looks of the school grounds.

At least two Eldorado churches are already at work on their Easter music.

Under direction of their new minister of music, Paul Goodwin, the choir of the First Baptist church plan to present their cantata on Easter Sunday morning.

The cantata of the Methodist church choir will be given Palm Sunday night under direction of Bob Burkett.

Burkett Making Active Race for Legislative Speaker's Job

Rep. Joe Burkett Jr. of Kerrville, who headed the House committees which untangled two of the most notorious scandals in Texas, announced an active campaign this week for speaker of the House in the forthcoming 56th Legislature.

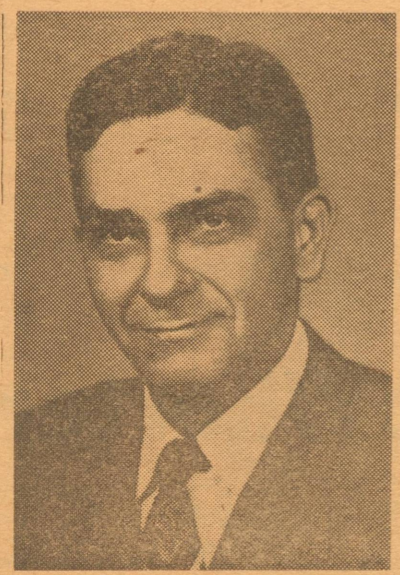

He announced his candidacy for re-election from the 78th Representative District which covers 10 Central and West Texas counties, the largest in land area in the state.

Rep. Burkett, who is the leading contender in the speaker's race, when questioned concerning the progress of his campaign, said:

"It now appears at least 120 of the present members of the House will seek re-election and of that group I have more than enough positive commitments to assure my election as speaker."

He served as chairman of the committee which investigated the veterans land scandals and proposed stringent laws to prevent the mis-use of state funds.

In 1955, he was chairman of the committee in the House which re-organized the insurance laws of Texas to protect the investors and policyholders.

REP. JOE BURKETT, JR.

A diligent legislator, known both for his devotion to detail and his scope of state affairs, Burkett has served with distinction on other state affairs.

These include state affairs, revenue and tax, conservation and reclamation, game and fish, livestock and stock raising.

C. A. Graves Dies

C. A. Graves, 76, long-time resident of Schleicher county, died at 8:55 Wednesday evening (yesterday) in the Sonora hospital.

Funeral services will be held Friday afternoon at the Methodist church, with the pastor, the Rev. R. R. Heaner, officiating.

In addition to his wife, Mr. Graves is survived by three sons, H. V. Graves, Hidalgo, Texas; C. M. Graves of McCamey, W. H. Graves of Eldorado; and one daughter, Mrs. Robert K. Bradley of Midland. Also surviving are two grandchildren.

He was preceded in death by another daughter, Gusta, who died at 20 in 1935.

Born July 14, 1881, Charles Augustus Graves was the son of Mr. and Mrs. Jeff Graves, Milam county farmers, who moved to Menard county when he was a small child. He attended schools at Hext.

He married Maude Sutton on January 24, 1904, and the couple made their first home in Menard county.

After ranching in Menard county on their own place, the couple moved in January, 1912, to Schleicher county, where Mr. Graves was employee and foreman on ranches for many years before they moved to Eldorado.

Mr. Graves put in some time as a county commissioner and in other ways served his community.

In January of 1954 a large number of friends and relatives from over West Texas called on the Graveses on the occasion of their Golden Wedding anniversary. Four generations of the family were represented at the gathering.

BROTHER OF H. E. FINNIGAN DIES

Albert L. Finnigan died suddenly Wednesday morning at his home in Mercury of a heart attack. He was 61 years old. Survivors include the widow and several children, four sisters, and one brother, Earnest Finnigan of Eldorado.

Mr. and Mrs. Finnigan and Mr. and Mrs. Jack Hext left this morning (Thursday) for the services which have been tentatively set for today.

Marvin Aldridge is now on the job as mechanic at Earl Parker Motors.

The Aldridges have one six-year-old daughter and are members of the Congregational Methodist church.

Open House Set Saturday At Foxworth - Galbraith

Culminating many months work during which there was a consolidation, remodeling and expansion. Mr. Skeet Mace announces in a page ad in this issue that an Open House will be held at Foxworth-Galbraith Lumber Co., here, this Saturday between the hours of 10:00 a. m. and 4:00 p. m.

At this time the public will be invited to inspect the new, large show room with its enlarged stock

Two Held In Jail Here Following Monday Murder

A 29-year-old Sonora man, Ernesto Chavira, was being held without bond this week in connection with the pistol slaying of Lewis Martinez, which occurred in Eldorado's Latin American community in the early morning hours Monday.

Martinez, about 35 years of age and the father of four, was killed in the doorway of his home at about 1:45 Monday. He was asleep when he heard a knock at his door, and when he answered it he was shot with a .45 caliber pistol.

Schleicher County Sheriff Orval Edmiston was the first officer to arrive at the scene, and was followed closely by Dr. Jack Mowrey. They found Martinez's body sprawled in the doorway—already dead.

Chavira and another man were arrested Monday in Sonora by Sutton County Sheriff Wes Hill, who called Schleicher Sheriff Edmiston. Chavira, after being brought here, was charged with murder in Justice of the Peace T. P. Robinson's court.

Charged as an accessory in connection with the incident was Gilberto Gander, 25, also of Sonora. Bond for him was set at \$1,500 Tuesday, and he has made a statement, officers said.

Gander led local law enforcement officers to the location of the murder weapon Tuesday. The weapon was found on Highway 277, a few miles south of Eldorado, on the highway right of way.

Chavira's case is to come before the grand jury on April 7th. District court meets subsequently.

Sheriff Edmiston has expressed his thanks to Wes Hill, Herman Moore, and others who helped in the case.

Telephone Rate Increase Granted Here Tuesday Night

In a lengthy meeting between four phone company officials and the city council Tuesday night, a rate increase was finally agreed upon for telephone service in the city and county.

The new rates are nearly identical to those now in effect in Sonora. The meeting adjourned at 11:30 p.m.

The following are the present rates and the increased rates for local service:

	Pres. Rate	New Rate
Bus. One Party	\$8.25	\$10.00
Bus. Two Party	7.25	8.25
Bus. Extension	1.50	1.50
Res. One Party	4.25	5.00
Res. Two Party	4.00	4.50
Res. Four Party	3.75	3.75
Res. Extension	.75	1.00

The figures given do not include the 10% federal excise tax.

Rates for those living outside the city limits were also increased, the amount being fixed on a mileage basis.

Those living within a three-mile radius of town will receive no increase. Others are affected as follows:

3 to 5 miles	25c
5 to 10 miles	50c
10 to 15 miles	75c
15 miles and over	\$1.00

Local People Attend Dallas NRECA Meeting

Several Eldorado people attended the 16th Annual Meeting of the National Rural Electrification Cooperative Association which was held in Dallas February 3rd through 6th.

Delegates were from 43 states and Alaska with total registrations of 6,356. All the general sessions were held in the arena of the Dallas Memorial Auditorium.

Governor Price Daniel gave the welcoming address and other speakers during the meeting were Senator John J. Sparkman of Alabama and Senator John Sherman Cooper of Kentucky. High light of the business session was a report of Clyde T. Ellis, N. R. E. C. A. general manager. R. E. A. Administrator David Hamill also gave an address.

A beauty contest was held Monday evening when Miss Rural Electrification was selected.

Among those attending the meeting were Mr. and Mrs. Don McCormick, Mr. and Mrs. Joe B. Edens, and Elton McGinnis from Eldorado and W. W. Sheen from Menard.

Ring Lost Eighteen Years Is Found In School Yard

A Senior Class ring belonging to Bob Williams, which was lost in 1940 on the local school grounds, was found this week by Larry Blair, a 6th grade student.

The ring was bent and showed signs of having been where it was found for many years. With the building projects that have taken place at the school over the past 18 years, the probability of finding such a ring was very unlikely.

ELDORADO REPRESENTED AT MINISTERS' WEEK AT SMU

Dallas. — Eldorado Methodists were represented at the 23rd annual Ministers' Week at Southern Methodist University here Monday, Feb. 3, through Thursday, Feb. 6.

COUNTY AGENT'S COLUMN

by *Tiny Godwin*

Schleicher County Agricultural Agent

February 15 is the deadline for filing your income tax return if you qualify as a farmer by having received at least two-thirds of your total gross income from agricultural operations. Farmers who filed an estimate (1040ES) and paid their estimated tax by January 15, have until April 15 to file a final return for 1957. Here are some timely tax tips for farm and ranch operators.

If you sold breeding or dairy stock from your herd during 1957, be sure to report these in the proper place. These animals must be reported on Schedule D rather than Schedule F. If breeding or dairy stock are kept for 12 months or more, the sales qualify for long term capital gains treatment—and are 50 per cent taxables. Consult a competent tax accountant if you need help on these and other transactions.

Here is a word of caution for taxpayers who sold off a portion of their breeding cattle, sheep or other livestock in 1956 and took the "drought sales" option of not reporting such sales. Congress passed the law allowing taxpayers to withhold reporting such income providing they would buy other stock as replacements by the end of 1958. If this income from 1956 "drought sales" was invested in similar livestock in 1957, a statement to that effect must be attached to the tax return for 1957.

But, if any taxpayer failed to locate suitable livestock for replacements and still expects to so use funds from drought sales of 1956; he must obtain an extension of time beyond that allowed by law. This consent for any extension must be obtained by writing the District Director of Internal Revenue. The taxpayer must set forth the reasons why it has not been possible to re-stock during the past year so that the request is logical and reasonable.

Many taxpayers are not certain about when their children cease to be dependent. Even sons or daughters who married during the taxable year may be dependents

for 1957. You are entitled to one exemption for each of your children (including step-children and those legally adopted) if during the taxable year the child:

1. Received more than one-half of his or her support from you, and
2. Had gross income of less than \$600. This \$600 limitation does not apply if the child is under 19 years of age, or if he (she) was enrolled in an accredited school for five months or more during the year, and
3. Did not file a joint return with her husband (his wife) for the year.

Information on these and many other points on farmers' tax questions are explained in detail in the 1958 Farmers' Tax Guide. You may have a copy by calling at your County extension office located in the court house. This publication is written in simple language and will be helpful for your reference during the year. Study of the reference should aid the farmer to raise questions on many tax-saving items with his tax consultant.

There are 12,000 sterile bulls on Texas ranches and 16,000 that are poor risks. For example, if a rancher had 20 bulls, three are probably just boarders. It is the county agent's responsibility to make ranchers aware of this and help set up a method of identifying these bulls.

In the preliminary work that had been conducted the last 8 months 6 per cent of the bulls tested were sterile and 8 per cent were poor risks.

When a program is established in the field it will enable ranchers to (1) increase calf percentage, (2) have calves dropped in a shorter period of time, (3) eliminate bulls that sire no calves and (4) replace poor breeders. Producers who have cooperated with this survey in Schleicher county are Mayer ranch and Moore Brothers.

Now is a good time to organize shrubs into screen or foundation plantings around the home. Any

shrubs that dot the lawn and complicate mowing may be reset at this time.

Consider potential size of the tree or shrub, when choosing a location for setting or resetting. Large growing plants are not suitable for planting around the walls or foundation of the average home. They do make excellent screen plantings and give privacy to the work or recreation area of the landscape. Some large plants that require very little water are the althea, ligustrums, Arizona cypress, cherry laurel, crape myrtle, evergreen sumac and others. Nearly all of the hollies should be used in screen planting rather than placed around the house.

Shrubs for foundation plantings should be in proportion to the size of the house. For the low, ranch type house, which is very popular now, true shrubs, that is shrubs that will not grow over 8 to 10 feet, are best suited. There are many tree shrubs that are drought and insect resistant. Among these are rosemary, lavender, the dwarf junipers, spirea, dwarf pyracantha, sandina, abelia, native agave and others.

Proper location of shrubs will not only save work in pruning and care, it will add to the attractiveness and comfort of the home grounds.

Johnson Signs With Braves

George Johnson, former Sonora High School All-State and Little All-American back, forsook the gridiron last week to enter the world of professional baseball. Johnson, a freshman at the University of Colorado where he was slated for varsity play in 1958, signed a three-year contract with Class AAA Wichita, a farm club of the Milwaukee Braves. —Devil's River News, Sonora.

Stolen Horses Recovered

International cooperation is credited with landing two Mexicans in a Mexico jail and four U. S. horses back on their rightful ranges.

U. S. authorities highly praised the "splendid cooperation" of State Police Lupe Gonzales of the State of Chihuahua and Lupe Salinas from the State of Coahuila.

The four horses were stolen from Lykes Bros., 02 Ranch, about 50 miles south of Alpine around Christmas time. —Alpine Avalanche.

More Burglaries

Robberies occurred last Friday night at the Varnadore Cafe in Robert Lee and Ed Snowden's service on the highway north of Silver. At both places entrance was made by breaking out a corner glass in the front door.

At Varnadore's several dollars were taken from the cash register and a considerable sum from the juke box. Estimated loss was \$40 or more. —Robert Lee Observer.

"ALL I KNOW IS WHAT I READ IN THE PAPERS"

America's best-loved humorist also was one of the best-informed persons in his time. Nothing, it seemed, escaped his notice. His comments on the passing scene were applauded and repeated by millions the world over. "All I know is what I read in the papers" became his trade-mark. Will Rogers recognized that newspapers, more than any other media, are the common source of information of all the people. The simple fact that everyone knew immediately what he was talking about provided an important basis for his fabulous popularity.

That same simple fact is true as true today as ever. If your advertising message is for all the people, put it in YOUR HOMETOWN NEWSPAPER.

Scout Camps Represent Investment of \$54 Million

Just about everybody has heard the boy next door talk in wild anticipation about his coming trip to Scout camp, but few are aware that the program of the Boy Scouts of America has resulted in the investment of \$54 million so that "boys next door" from Maine to Hawaii and from Puerto Rico to Alaska can talk about the same thing.

That \$54 million, according to an issue of "Scouting," the magazine for adult Scout leaders, has been spent to develop 820 camps on a total of 500,000 acres of land scattered throughout this country and its possessions.

A youngster going to any of those camps, the magazine points out, talks about the fun he is going to have. "And that," the story says, "is as it should be. But Scouting does not exist merely to show boys a good time, nor is that the reason for these 820 camps.

"If Scout camps ever cease to be fun, boys will cease to attend. But unless they serve a bigger purpose than mere fun, these camps are failures."

A basic philosophy of the Scout program is that "the steady march of boys' feet toward sturdy, healthy responsible manhood never ceases." And Scouting developed its vast chain of training centers—camps—to help carry out that philosophy.

"A camp," the magazine says, "is a vest-pocket democracy in which teamwork is the everyday pattern. The give and take of living together day after day calls for patience, good sportsmanship and cooperation."

With but two or three exceptions, "Scouting" points out, the 820 camps are manned and operated by local Boy Scout councils and serve as important tools in helping the Scoutmasters and Explorer Advisors carry out a vigorous program that influences good character and citizenship.

"Let no one think of camping as a brief vacation from the serious business of Scout training," the article declares. "In the eyes of the thoughtful unit leader, camping is Scout training at its best. There is abundant opportunity to develop initiative, resourcefulness and self-reliance."

The magazine explains that the millions of boy-days spent at these camps last summer makes an impressive record "but it is not the full measure of the job the Scout movement is doing in training boys for character and citizenship as they live together under these ideal-for-training conditions."

Nothing could be more in error than to say that the council provides the place where troops do their camping. It only provides the place where they start their camping. For Scouting is essentially an outdoor program and troops hike and camp the year around. The council camp is a jumping-off point, a basic opportunity for training where units learn the fundamentals of camping.

Concho Valley Council maintains two camps, Camp Sol Mayer near Fort McKavett, and Camp Fawcett near Barksdale.

Houston Thigpen was admitted to the hospital in Sonora Tuesday for medical treatment. He is ill with flu.

PTA WILL MEET FEB. 25

The next regular meeting of the PTA will be held Tuesday night, February 25 at the usual meeting place, according to a reminder from Mrs. Ed Meador, president. The meeting will feature a Founders Day program.

The date was chosen instead of the usual third Tuesday in the month because of a conflict with a basketball game to be held on that date.

Thought For The Week
Ministerial Alliance

"Whoever he saith unto you, do it"—John 2:3.

At the wedding feast in Cana, the mother of Jesus spoke to the servants in the words of this text. What they did, they were doing it for Jesus. Today the Lord calls on all believers to serve for Christ and his kingdom. In the words of four other Bible texts we study this subject the Method, the Motive, the Means, the Manner of service for Christ.

1. The Method of service. "Be ye doers of the word, and not hearers only." James 1:22. Some think good things and never do them. Others imagine, see, plan, and expect to do good things. But real servants of Christ actually perform good deeds for him. They are Doers of his Word, not dreamers. They are performers of his will, and not pretenders. They are dynamic instead of dead. Service for Christ performs, service does things, service accomplishes.

2. The Motive of Service. "Whoever ye do, do all to the glory of God." 1 Cor. 10:31. Some might serve for selfish purposes, or to promote the welfare of their family, or their friends, but the ideal is to do all to the glory of God.

3. The Means of Service. "Whoever ye do in word or deed, do all in the name of the Lord Jesus." Colossians 3:17. Read Acts 3:15, Acts 4:31. The greatest means Christians have for accomplishing things for the church and for God's kingdom is in the name of Jesus. In his name is all power.

4. The Manner of Service. "Whoever ye do, do it heartily." Colossians 3:23. This is the manner in which all service for the Lord should be done. It should be done with enthusiasm. We should enter into his service in a hearty and cheerful manner. In the service of the Lord is no place for lazy people. His service demands all energy, tempered with good judgement. Enter into his service with your whole heart. All Christian service should be performed heartily in the name of the Lord Jesus and to the glory of God.

BACK TO THE BIBLE

By what authority doest thou these things? Mat. 21:23-27. Read the passage.

In this passage Jesus teaches that there are two sources of authority. From God and from men. In Mat. 15:1-9 the Lord tells us plainly that "to teach for doctrine the commandments of men, is vain worship."

The following passages teach us that Christ himself was careful to "do the will of his Father": Jno. 5:30; 6:38-40; 4:34 (Please read all of these). In Mt. 17:1-5 God tells us to "Hear his Son." Christ says we hear him by hearing his apostles.

Lk. 10:16. The alien sinner is commanded to "Believe in Christ" Jno. 8:24; Acts 16:31; He is commanded to "Repent." Lk. 13:5; Acts 16:31. He is taught to confess Christ. Mt. 10:32; Ro. 10:9-10; Acts 8:37. He is commanded to be "Baptized" for the remission of sins.

Some men teach that the sinner is saved by "Faith only." Read Jas. 2:14-24. Men teach that the sinner is saved before baptism. In every place where baptism and salvation are associated, baptism comes first. By what authority has man changed it?

Essay Contest

District supervisors are again sponsoring an essay contest in conjunction with the Fort Worth Press Annual Awards program. Some \$25 will be given away in cash prizes for the best essays written. The board would like to thank the Eldorado public school for their cooperation in this contest. Thirty-six essays were turned in for the contest this year as compared to twenty last year. The Ft. Worth Press gives the title to be used each year. This year "We Are Stewards of the Land" is the title being used. This contest draws more entries than any other conservation contest in the United States. The best essay will be sent to the Ft. Worth Press to compete for the state championship.

Grass Planting

Grass planting time is almost here. Do you have your grass seed to plant? What about your conservation Reserve land—do you plan to plant it to grass? If so, how much grass and what kind do you need? Land owners and operators if you would give this information to your district supervisors, they would like to order some of these grass seed and make them available to you at cost.

For land going into the Conservation Reserve for five or ten

years and back into cultivation, we would suggest a cultivated grass crop in rows. This could be Blue Panic. Sorghum Alnum can be used if you aren't afraid of getting your field infested with johnson-grass.

For old fields or Conservation Reserve land that is going back to grass permanently, we would suggest a native grass mixture of Sideoats Grama, Blue Grama, Blue Panic, K. R. Bluestem, and Buffalo grass. For a good grass planting mixture we would suggest you contact the local Soil Conservation Service technicians.

Does anyone think that a personal fortune will buy him safe anchorage after the land has eroded into the sea? Ernest Swift, "By Which We Live."

Contour Farming

Did you know that corn rows up and down hill lost 10 tons of soil per acre, more than 100 times the loss from contoured land, during a 5.75-inch rain at the the University of Illinois Elwood Agronomy Research Center?

What will be your attitude and actions on soil, water, and plant conservation in 1958? We've had one fair year from a rainfall standpoint. Let's begin fighting the next drought now by applying soil, water and plant conservation practices on our land.

In Those Days

ONE YEAR AGO

Eldorado Lions held a ladies' night honoring their Monarchs, and at a regular meeting voted to sponsor General Alvin Lueddecke Day on July 4th.

Fred Case was convalescing in the Sonora hospital from a gunshot wound. The mishap occurred when a gun he was cleaning accidentally discharged, the shot striking him in the foot.

Home Demonstration Agent's Column

By MRS. VIDA KREKLCW

Last week Home Demonstration agents from Tom Green, Concho, Runnels, Kerr, McCulloch, and Taylor counties met at San Angelo college for a clothing workshop. Miss Thelma Casey, district agent, and Miss Fannie Brown Eaton, Extension clothing specialist from A & M college, were in charge of the workshop and I think every agent enjoyed her short course very much.

The staff of SAC could have not been more generous or gracious to us as a group. We were given the use of the Home Economics cottage on the campus, and home was never nicer. I never leave San Angelo college without a feeling of gratitude and pride in the school and our good fortune in having it.

Are you working in the dark? And did you know that poor lighting may cause nervousness, irritability and headaches? Most homemakers spend a lot of time in the kitchen which makes it a room to be especially careful about.

There should be an indirect center ceiling light. The stove and sink areas should have their own lights and if there are long areas of wall cabinets there should be lights under them. This makes three areas of working space that should be especially well lighted. Good light makes work easier and is a real safety measure.

The fixtures do not have to be expensive, nor do they all have to be added at once. Tonight, while you are getting supper and washing up the dishes, give your kitchen a critical eyeing and see how it rates from the standpoint of light.

It's getting about the time of year when people slow up as they pass a place selling shrubs, begin to study seed catalogs, and in the corner of their minds begin to plan a few changes they would like to make in the yard.

If you are about to add shrubs close to the house remember these, which have little trouble with insects, don't have to watered too often and don't grow so tall as to completely hide the house in a few years. These which are especially good are nandina, abelia, rosemary, lavender, fitzer juniper, dwarf pyracantha, flowering almond and others. Remember now—these can be placed close to the house.

Screen planting and windbreaks could be made up of Arizona cypress, cherry laurel, French mulberry, crape myrtle and desert willow. All of these do very well on a little water.

Grease your salad molds with mayonnaise before pouring in molded salads; they slip out easier and the mayonnaise gives a good flavor.

When working with molded salads always work with wet fingers and wet the plate or tray on which you unmold them too. Makes the whole thing handle easier.

When a TV program offers to give away something such as printed material, and 5,000 people write in, they call it a good response. When 50,000 answer, it is considered excellent.

CHERRY PIE SUPREME!

YOU WILL NEED:

PIE CHERRIES — NO. 303 CANS	22c
PET MILK — 2 TALL CANS	29c
Pillsbury, King Size PIE CRUST MIX — BOX	23c
POWDERED SUGAR — 2 BOXES	29c

CHERRY PIE SUPREME

- ½ cup PET Evaporated MILK
- 3 Tablespoons cornstarch
- ¾ cup sugar
- 1-lb. 4-oz. can sour, pitted cherries
- 2 Tablespoons butter or margarine
- 1 Tablespoon lemon juice
- Few grains salt
- 1 cup sifted, powdered sugar

Have ready a baked 9-inch pastry shell. Chill milk in ice tray until almost frozen around the edges. Meanwhile, mix in 1-qt. saucepan the cornstarch and sugar. Drain cherries, saving syrup. If necessary, add water to syrup to make 1 cup. Stir cherry syrup into cornstarch mixture. Cook and stir over medium heat until very thick and clear, about 7 min. Cool thoroughly, then add drained cherries. Take out 18 cherries to decorate pie. Put rest of cherry mixture into pastry shell. Melt butter in small saucepan. Take from heat and mix in until smooth the lemon juice, salt and powdered sugar. Cool thoroughly. Put ice-cold milk into a cold 1-qt. bowl. Whip with cold rotary beater by hand, or with electric beater at high speed, until stiff. Whip in cooled powdered sugar mixture just until mixed, about ¼ at a time. Do not overbeat. Arrange around edge of pie. Decorate with the 18 cherries. Chill an hour before serving.
