Fire Destroys Fay Home Here Saturday Evening

The Eldorado fire department was called out late Saturday evening when a house occupied by Tony Fay and his family was completely destroyed. Cause of the fire was not definitely known but was believed to have been caused by a defective flu on a cook stove. No one was at home when it started. Quick action by the fire department saved the two dwellings adjacent to the Fay home.

Friends report that donations of used clothing and furniture to this family will be appreciated since everything they owned was destroyed in the fire.

Chamber of Commerce Hears Discussion On Moving Of Cotton Gin

At a meeting of the directors of the Chamber of Commerce Monday the possibility of rebuilding the local gin in another location was discussed. The gin owner pointed out to the directors that he had tried, without success, to buy a new location a mile farther out on the Big Lake road. He also stated that farmers in the Reynolds community had made a desirable proposition for locating a new gin in that vicinity.

According to C of C Manager Clarence Wright, all the chamber directors voted to try to keep the gin in the same location where it now is, so that any money spent by the farmers or their helpers would be spent here with the local merchants.

A new gin will be built and the latest in filtering equipment will be installed to keep the cotton lint to a minimum, it was stated.

Moving the gin has been made necessary by the re-routing of the Sonora highway down South Divide street.

Francis Burt, publisher of the Junction Eagle, began last week a series of articles on local business.

Said Burt in the first of the series, of people who travel 50 to 100 miles in search of a bargain: "Quite often our local people know more about the goods available in the metropolitan stores than they do about goods in stores here at home because of the extensive advertising originating in the larger trade centers.

"When local merchants do not counter the out-of-town advertising, it is natural for some shoppers to believe that the goods and services they seek cannot be obtained locally."

Waller Gets Mail Route; Carr To Postmastership

THREE ACCIDENTS INJURE 2 PERSONS HERE SATURDAY

Three motor vehicle accidents occurred in the county last Saturday with one resulting in painful injuries to two people.

Mr. and Mrs. Morton W. Moriarty of Midland were injured at 5:30 a. m. Saturday when their car collided with a stalled truck 20 miles west of Eldorado on Highway 33. The truck, laden with salt belonged to Mrs. B. F. Neal of Menard and was driven by Joe P. Bradford. The collision occurred in heavy fog after the truck had stalled on the highway. Highway patrolmen charged the driver of the car with excessive speed and the truck driver with having no flares as required by law.

The car was a total loss and the truck was damaged to the extent of about \$150.00. Mr. and Mrs. Moriarty were treated at the Eldorado Clinic and removed to a San Angelo hospital for further treatment.

At 3:30 p. m. a man named McShahan of San Angelo was driver of a car that collided with the rear of a truck owned by P. D. Haley on the hill near the roadside park two miles north of Eldorado on Highway 277. Both vehicles were going south at the time of the accident. The car was damaged to the amount of \$350.00 and the truck damages amounted to about \$100.00. Neither driver was injured.

At 11:00 p. m. a group of Latin-Americans were in a pickup that overturned 9 miles east of town on the road to the Page field. The vehicle was damaged extensively, but no injuries were reported.

Mrs. Bruce Burton is in Corpus Christi at the bedside of her sister-in-law who is seriously ill. She has been there nearly two weeks.

A shifting of post office personnel, that has been expected here for some time, comes to head today with the announcement that C. T. Waller tomorrow takes over the rural route, vacated by Jack Rattliff and that Bernard Carr, moves upward and takes over the local office as acting postmaster.

Postmaster Waller handed the following statement to this newspaper today:

"Effective with the close of business on Friday, April 4, 1958, I am resigning my postmastership and transferring to the vacancy of the rural route out of Eldorado. Mr. Bernard Carr will take over the office as acting postmaster."

Mr. Waller went on to say that, "After 28 year's service with the postal service—the last twenty in a supervisory capacity—I feel like changing to the job of rural carrier."

Mr. Waller expressed his appreciation to the public for their courtesy and co-operation during his tenure as postmaster, and stated that he was sure that Mr. Carr would fill the position as well or better, and that the patrons would be pleased with him.

"My job as postmaster was made easier and more pleasant by the help of a swell force of employees" concluded the retiring P. M.

Mr. Waller came here in 1953 from California as result of a trade with the late T. J. Kogut.

Bernard E. Carr has been employed in Eldorado continuously since he returned from service in World War II. He is well and favorably known throughout the county.

GRAND JURY MONDAY

The Grand Jury will meet Monday, April 7 at 10:00 a. m. to consider several cases with those being billed to be tried in the spring term of court. Members selected for the Grand Jury panel were being notified this week.

Mrs. Fury, 88, Has Spent Lifetime In This Area

Celebrating her 88th birthday recently was Mrs. Fannie Fury, who is a life-long resident of this area.

Mrs. Fury was born Fannie Mires on February 12, 1870, in Menard. Her parents were the late P. H. and Louisa Mires, who operated a store there. When Fannie was about five years old, the Mires family moved to Christoval, taking three days to make the trip overland by wagon and team. They stopped the first night at Kickapoo Springs, and the second night stayed at Uncle Wash DeLong's place. Mr. DeLong was then the only resident in that area.

Buffalo, and all kinds of other wild game, including wildcats, panthers, foxes, and javelinas abounded in the area at that time.

With the assistance of Jack Miller, Mr. Mires built a rock home, which is still standing about two miles from Christoval.

A two-story rock house which Grandfather Patty Mires built near Christoval is also still standing, and was the scene of early dances, church meetings, and community gatherings. The elder Mr. Mires also operated a mill where corn was ground.

Mrs. Fury recalls that her father killed a buffalo a short distance from their house. Indians still made occasional forays into the area.

Children in the family walked a mile to school each morning, after milking the cows and doing the other chores.

The school was typical of the small rural schools of the period, operating about three months each year, with the various families taking turns boarding the teacher.

Today Mrs. Fury is the only survivor of a group of seven brothers and six sisters. A half-sister, Nancy Wilkerson, lived to the age of 96.

Her Marriages

Miss Mires was married on September 29, 1884, to Tom Neal, and to this union were born three children: Ida, who is deceased; Willie, of Chandler, Arizona; and Viola, also deceased. Mr. Neal burned lime which was used in the building of the first courthouse in Sonora. He died in 1891.

In 1893 Mrs. Neal married Mark

MRS. FANNIE FURY

Fury in Christoval and to this union were also born three children: Boyd Fury, of Garden Grove, California; Alice, Mrs. Frank Van Horn of Eldorado; and Marcus, who died July 23, 1957 at Fort Stockton.

Mr. Fury was a long-time ranchman, and at one time he owned the Hackberry ranch, also known as the Wilson ranch, which occupied 16 sections in Tom Green and Schleicher counties. It was a stage-coach stop, where the Sonora-bound mail coach changed horses. Mr. Fury was a native of York, Ireland.

The Fury family at one time made their home at Verand, which was located about five miles north

of the present location of Eldorado. Other early residents of Verand included the Greens, the McCartneys, the C. C. Wests, and others.

After the town was moved to Eldorado, Mr. Fury operated a meat market on the corner now occupied by the office of West Texas Utilities. He died at the age of 63 in 1913.

Before she sustained a fall while on a visit here about 2 1/2 years ago, Mrs. Fury did all her own housework. She has since been confined to her bed and wheelchair and has made her home with her daughter, Mrs. Frank Van Horn, here in Eldorado.

Mrs. Fury has 12 grandchildren and 13 greats.

Do you bring home everything you've paid for?

It's a good question.

Which you can answer "yes" — if you always buy from the business people right here at home. Where you live.

Wherever you buy, part of your money goes to build and to keep up the community in which you spend. To support schools, churches, civic projects, to pay the people who work in that community, and to provide better business and job opportunities for those who live here.

When you buy in YOUR OWN town, you get about the same merchandise you'd get anywhere else — PLUS the enjoyment of these other things that your money pays for.

When you buy anywhere else, you get merchandise ONLY. And your home community is a little poorer because you carried off part of its resources. And the many things other than goods that your money pays for are left for somebody else to enjoy, while they wait for you to return and hand them some more.

Firemen Express Thanks For Low Winter Losses

Eldorado firemen have expressed appreciation to the people of the town and county for the low number of fire runs during the winter, which is now ending. There have been no insured losses since last summer when the First Baptist church was damaged.

With more cover on the ground, the grass fire hazard was great, but there, too, the number of runs was low.

Firemen urged everyone to continue to be fire prevention minded. Eldorado now enjoys a very low insurance rate.

Plans are under way by the department to post returns on a big display board the night of the Democratic Primary in July. This will be the only returns board, and it will be located on the lot west of the courthouse.

EASTER PAGEANT TO BE STAGED AGAIN AT JUNCTION

Junction. — Two hours before midnight, Saturday, April 5th, on the eve of Easter Sunday, three score of laymen in costume—all Kimble county folks—will re-enact the Story of Jesus Christ's Last Days on Earth, in a picturesque natural amphitheatre one mile south east of Junction.

This will be the 8th annual presentation of Junction Easter pageant. In 1951 a few inspired men of Junction men's Bible class, a non-sectarian organization, staged the first production upon a crude stage erected at the base of the cliffs below the everburning cross on Lovers Leap Mountain. Year by year the production has been enlarged and improved. The presentation is in pantomime, supported by music and the voices of readers from broadcast booth below. A dozen stages have been arranged among the rugged boulders and projecting rocks of the hillside. Change of scenes is effected by the shifting of flood and spot lights. Parking area for 2000 cars is provided below for the spectators, who may view from their cars.

The cast includes over 100 men, women and children from many walks of life; business men and women, ranchers, lawyers, mechanics, clerks, engineers, radio announcers, home-makers, and many others. The program begins at 10 p. m. and is so timed that the scene of the ascension takes place shortly after midnight, on Easter morn.

Ronnie Mittel will arrive today (Thursday) from Texas Tech to spend the holidays with his parents, Mr. and Mrs. Archie Mittel.

Miss Ada Woullard was admitted to the Shannon hospital Saturday for medical treatment. Wednesday she was reported to be improving.

Mrs. Mattie Cozzens, who had surgery in a San Angelo hospital nearly two weeks ago, is improving, but still confined to the hospital.

Among college students coming home this week end for the Easter holiday will be Billy Sam Hale from Texas Tech, who will visit his parents, Mr. and Mrs. Buster Hale.

Farm Housing Program Is Expanded By FHA

An expanded farm housing loan program, designed to speed up farm building construction improvement as well as act as an additional anti-recession measure, was announced this week by Walter T. McKay, Farmers Home Administration State Director, according to Frank M. Barnett, the agency's local county supervisor.

Now an owner of a farm in agricultural production and on which the operator plans to produce at least \$400 worth of farm commodities for sale or home use, may qualify for the 4 per cent long-term housing loan provided that he meets other standard eligibility requirements.

Formerly an eligible applicant had to own a farm that produced a more substantial part of the operator's annual cash income.

Loans may be made to build, improve, or repair farm houses or other essential farm buildings, and to provide water for farmstead and household use. Mr. Barnett said that in addition to financing major construction, the loan funds can help meet many other needs for farm and farm home modernization such as adding bathrooms, utility rooms, better kitchens, and many other improvements to the home as well as to farm service buildings. While tenants and farm laborers are not eligible, the owner may borrow to do the construction work or make improvements for them.

The loans are made to farm owners who need credit to finance building improvements or repairs, but find that adequate credit is not available through banks or other regular credit channels. The interest rate is 4 per cent and loans may be amortized over periods up to 33 years.

Eligibility for loan assistance is determined by the three-member County Farmers Home Administration committee composed in Schleicher county of William O. Enochs, Thomas R. Jones and Wm. L. McWhorter. Local office day is held in Eldorado at the courthouse each Wednesday from 10 a. m. to 2:00 p. m., and applications will be accepted there or applications may be placed with the office in San Angelo located in the Hotel Cactus building.

HINTS OFFERED ON CONTROL OF WEEDS & GRASS IN COTTON

College Station.—The second highest cost item in cotton production is for grass and weed control. Fred C. Elliott, extension cotton specialist, says on the average, 10 hours of labor are required an acre for this one item. But, he adds, this figure can be reduced if recommended control practices are followed.

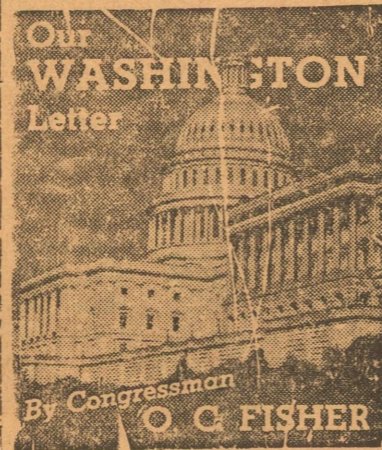

Last year the state's cotton producers saved an estimated \$16 million by using rotary hoes, chemicals, and oils in their efforts to keep weeds and grass under control. Rotary hoes on 44,798 farm tractors were used in 150 counties to cut more than \$15 million from the hoe bill. Elliott points out that rotary hoe equipped tractors should be operated at high speed for best results, around 6 miles an hour.

Lateral oiling with five gallons of naphtha an acre was used on 21,000 acres in 53 counties to cut the weed and grass control cost by \$65,000, reports Elliott. The cost of application was \$1.00 an acre and oiling shoes with a gage wheel arrangement permitted the operators to travel at fourth gear speeds.

In one county, five gallons of naphtha an acre was applied as a fine spray on grass in the drill with 95% of the grass killed. This treatment cost a dollar an acre; eliminated hoeing and saved the producer a gross of \$7 an acre.

Spot-treatment of Johnsongrass, says the specialist, can eliminate the pest in one year while a full crop can be produced on the treated acreage.

Elliott advises cotton producers who would like detailed information on the recommended weed and grass control practices to contact their local county agent for the desired information.

Chances for statehood for Hawaii and Alaska this year appear, on the surface, to be good, but this appearance may prove to be a delusion. With a lot of public support (Gallup says 64%) and statehood bills reported favorably in both the House and Senate, and with the endorsement of both major political parties, it looks like a cinch. Yet if I were guessing I would predict no statehood in '58.

In the first place, statehood bills must clear the House Rules Committee before they can be programmed for debate. It happens that a majority of the members on the Rules committee have in the past voted against statehood. Moreover, while giving lip service to the admissions, there seems to be a lack of enthusiasm on the part of the White House and congressional leaders. All added together this may mean Old Glory will remain like it is for at least another year.

Strongest opposition to statehood centers in the South, where fear is expressed that the two new states would weaken the southern position in the House and Senate, already pushed around and outnumbered on many vital issues. A Texan wrote me recently and expressed it this way:

"... Off shore members would hold the balance of power in close votes. It would also mean more 'Anti-South' votes in Congress. Why bring in members who have little in common with us in culture, tradition or heritage? ... Let us keep the Nation as it is."

Lions Joint Meet Well Attended

Sonora and Eldorado Lions celebrated jointly their 30th anniversary Monday night in the Sonora school cafeteria. The clubs were organized in 1928 with the San Angelo Down Town Lions Club as sponsoring organization.

Neil Mathena of Del Rio, district governor of Lions, was principle speaker. He talked on reasons for being proud of being a Lion and cited examples of the club's projects. He paid special tribute to 11 Sonora Lions and three Eldorado Lions who have been active in their organizations since their chartering.

Joe Foy, president of the sponsoring organization, acted as master of ceremonies and presented 30-year chevrons to Dan Cauthorn, George H. Neill, Alfred Schvienung, Alvis Johnson, Bryan Hunt, John Eaton, W. R. Cusenbary, and B. H. Cusenbary, all of Sonora, and Ernest Hill of Eldorado. Two charter members of the Eldorado club, Ed Hill and Don McCormick, were unable to attend, as were three Sonorans, A. C. Elliott, L. W. Elliott, and John D. Lowrey.

Clayton Hamilton, president of the Sonora Lions, read the following telegram which he received from the organization's international president:

"Greetings to the Lions of Sonora, Texas. You are celebrating an unusual event in the life of the Sonora, Texas, Lions Club, the 30th anniversary of your charter night. For a generation your club has made its presence felt in every conceivable worthwhile manner in Sonora and its vicinity. On behalf of all the officers and directors of Lions International I proudly salute you for your achievements over the years. (Signed) Edward G. Barry, President, Lions International." (A similar telegram was received in Eldorado.)

Dinner was served to approximately 175 persons by Miss Lois Perry and her homemaking students.

Home Demonstration Agent's Column

By MRS. VIDA KREKLOW

Children and their eating habits seem to be a universal problem. This story of a little girl, her mother and breakfast has been funny to me every time I think of it.

In order to get some good nutritious food before the child, the mother bargained with her, on the basis of a reward at the end of a week, if she'd eat what was placed before her. Laura said, "I'd like to choose my own breakfast for just one day; it's always the worst meal of all."

The day came and the breakfast was eaten and off to school Laura went. That day a visiting lady came to school to talk about proper nutrition. Had the children eaten an egg? Had fruit juice? a hot cereal? She drew little pictures of vitamins and minerals on the board and carried out a lively lesson on eating properly. Then she turned and looked at Laura's rosy, plump and health face and said, "I'm sure this little girl had a good breakfast this morning. Tell us what you had." And Laura did.

"Oh, it was lovely, the best meal I ever had," she said. "I had cold lima beans, sponge cake and root beer."

The next time you have a child's version of something, before you pass judgment, find out whether or not you've heard the whole story.

Try this cleaning solution for varnished, surfaces, woodwork, tables, chairs, pianos, anything you would like to have renewed in appearance; it works wonders.

In the top part of a double boiler combine:

- 1 qt. hot water
- 1 tablespoon gum turpentine (to cut dirt)
- 3 tablespoons boiled linseed oil or lemon oil (oil lubricates, feeds and polishes the wood).

Keep the mixture hot in the double boiler while you work. Dip a soft cloth in the solution, wring out excess moisture and apply to furniture, doing one part of the piece at a time. Rub the wood, keeping moisture away from joints as much as possible. Fine steel wool may be used to rub the solution on badly soiled surfaces. Wipe the surface immediately with a dry cloth. Polish with a woolen cloth.

what a garment is made of except by reading the label.

Here are interpretations from manufacturers' labels which may help you to figure out what to expect of a fabric:

Wrinkle-resistance does not mean wrinkle proof. The manufacturers remind us that no fabric is wrinkle proof, and don't we know it.

Directions for pressing are often misinterpreted. Most man-made fabrics require little pressing, IF they are drip dried. They must be ironed as usual if they are wrung or twisted after rinsing.

There is a difference in permanently and durably pleated fabrics. Nylon can be permanently pleated, decron and orlon can be

durably pleated.

A final reminder—when buying fabrics of blended fibers, always read the labels for percentages of fibers used. The care of the garment will likely turn out to be the same for the predominating fiber.

Week end guests in the home of Mr. and Mrs. W. O. Faull were Mr. and Mrs. Howard Faull and family and Mr. and Mrs. Elmer Stires and family of Odessa. They were joined on Sunday by Mr. and Mrs. Bobby Daniels of Crane and Mr. and Mrs. B. R. Daniels and family.

Mrs. Emily Walston of San Angelo was a visitor in Eldorado yesterday afternoon.

Downward Trend Halted In Livestock Numbers

College Station.—Adequate rainfall along with more favorable prices has halted the downward trend in livestock numbers in Texas, according to Alvin Wooten, extension economist.

All livestock and poultry on farms and ranches were valued at \$983 million at the beginning of the year, or 58 percent above the \$623 million inventory value a year earlier, points out Wooten. This sharp increase in value is a reflection of both the increased prices and numbers.

The total number of cattle and calves on Texas farms and ranches January 1, 1958, was estimated at 7.7 million head, says the economist. This is the same as a year earlier but 9 per cent below the 1947-56 average of 8.5 million.

The number of sheep on the same date was estimated at 4.7 million head—a five per cent increase over a year earlier. This is the first significant increase in inventory in a number of years. In spite of a much smaller lamb crop, the number of ewe lambs held was 30 percent above a year earlier.

There were an estimated 908,000 hogs on Texas farms on January 1, 1958, says Wooten. This was four per cent below last year and 36 per cent below the 1947-56 average. The higher prices for beef at retail should give some strength to hog prices in the fall of 1958 and keep them from falling to an abnormally low level, he adds.

Goat numbers have been increasing steadily. This year's inventory showed an estimated 2.8 million head—a two per cent increase over 1957.

On a nationwide basis, cattle numbers showed a decrease of one per cent, sheep increased three per cent, and hogs were about the same, though the number of sows and gilts on farms were up about five per cent.

JENKINS CHILDREN HAVE JOINT PARTY TUESDAY

Mrs. Jenkins was assisted by Mrs. Bill Lester, Mrs. L. W. Chrestman, and Mrs. Rodney Hammond during the afternoon.

MRS. WATSON RETURNS FROM STAY IN SWEETWATER

Mrs. Fred Watson returned home the last of the week after being at the bedside of her grandson, Robbie Spurgers, who was confined to a Sweetwater hospital.

Robbie, the six-months-old son of Mr. and Mrs. Floyd Spurgers, received medical treatment for a severe case of asthmatic croup. He was released from the hospital Friday and is doing nicely.

RECEPTION FOR CHOIR

Mrs. E. H. Topliffe gave a reception in her home Sunday night for the choir of the First Methodist church, following the choir's presentation of their Easter cantata.

Choir members and their families attended. Punch and cake was served.

The cantata was under direction of Bob Burkart, with Mrs. Ernest Hill accompanying at the organ, and Mrs. Keno Ogden at the piano.

COLLEGE STUDENTS TO BE HONORED AT SUPPER SAT.

All the college students, servicemen, and young people of college age from Schleicher county will be honored with a supper at the educational building of the First Methodist Church. The time of the supper will be 6 p. m., Saturday, April 5th.

All college age young people are urged to attend so that they can have the pleasure of being with their friends during this supper hour. These young people usually come home on the week end of Easter but do not get to see all of their friends because they are home for such a short time. The supper will make it possible for them all to get together for supper, and they can then go their separate ways according to their plans for the evening.

The young people may come alone or they may bring a date, just as they wish. However, they are asked to telephone No. 21391 and tell Mrs. John Sedberry whether or not they plan to be present, so that proper arrangements may be made for the food and table arrangements. It is hoped that all of the college-age young people of Eldorado and the county will find it possible to attend the supper.

Methodist News

The Victory Dinner last night (Wednesday) was a lovely affair. Our deep appreciation goes to the leader of the Farrow Plan Stewardship Education Campaign, Charlie Trigg, and to all of his helpers; also to the members of the church who cooperated in such a wonderful way.

The district WSCS meets next Wednesday at Del Rio. It is hoped that our WSCS will have a fine representation.

Girl Scout News

The Girl Scout leaders met at the Memorial building Monday evening in the club room. There were nine leaders present. The girls are accepting articles of clothing, furniture and money for the Tony Fay family whose home burned last week. The need for dishes, baby clothes, and all types of bedding was cited.

The council of leaders planned a court of awards for the parents and public to be held May 3, at 7:00 p. m. in the Memorial building.

A mother-daughter tea is to be held on Mothers Day, May 11 from 3:30 until 4:30 p. m.

A trip is planned for play day at the Jo-Jan-Van camp at Vance, Texas on April 19th and all parents are urged to go. The girls will go by school bus and will leave at 6:00 a. m., returning home here at 6:00 p. m.

Girl Scouts have been making place mats for McKnight sanatorium and are now turning these in to their leaders.

In the cookie sale the girls sold 576 boxes of cookies and leaders have expressed their appreciation to the public who so generously supported the sale.

After hunting eggs, the group was served a basket picnic lunch.

'Thought For The Week

Ministerial Alliance

Luke 19-10. For the son of man is come to seek and to save that which was lost. This was Christ's mission here on earth; he also said "In my Father's house are many mansions; if it were not so, I would have told you. I go to prepare a place for you.

And if I go and prepare a place for you. "I will come again, and receive you unto myself; that where I am, there ye may be also.

We cordially invite the public to attend the Easter films to be shown at the school at 8:00 p. m. on April the 3rd.

We also invite you to attend the Good Friday services at the Fundamental Baptist church, from 1:00 until 2:00 p. m. Friday the 4th. — J. H. Sharp.

Mrs. James Page, our minister of music will have charge of the choir with Nancy Jo Jackson at the organ and Judy Hext at the piano.

A special offering will be taken for "The Relief of Human Suffering." For every \$1.00 given for this cause 400 pounds of food will be distributed to the needy through Church World Service.

BACK TO THE BIBLE

Please give Bible answer to the following question: "How, where and when, does the alien sinner receive the remission of sins?"

The answer: Eph. 1:3 "Blessed be the God and Father of our Lord Jesus Christ, who hath blessed us with all spiritual blessings in heavenly places in Christ." Now verse 7 in same chapter: "In whom we have redemption through his blood, the forgiveness of sins."

The Holy Spirit in this passage tells us that the "How" is through the blood of Christ.

It also tells us that the "where" is "In Christ."

Now read Rom. 6:3-4, and the Holy Spirit says we are "Baptized into Christ." In Gal. 3:27, Paul says, "For as many of you as have been baptized into Christ, have put on Christ."

Neighbor don't let the doctrines of men cause you to be lost. Please don't let prejudice keep you from obeying the gospel of Christ. Read 2 Thes. 1:7-10. Attend the services of the Church of Christ, one block west of the Court House.

COUNTY AGENT'S COLUMN

by *Tiny Godwin*

Schleicher County Agricultural Agent

Mr. Irfan Guney and Mr. Necmettin Ertugrul of Ceyan, Turkey, and Konya, Turkey, are observing and studying sheep and goats in Schleicher county this week. They are representatives of the Turkish government.

"The people of Schleicher county are the most friendly and hospitable that we have met in this or any foreign country," is Mr. Guney's and Ertugrul's opinion of the people of Schleicher county.

Guney and Ertugrul came to this country speaking Hungarian, German and French; did learn to speak, write and read English in three months in a very acceptable way, the most difficult language to learn.

Spending three months in Washington, D. C., in the Department of Agriculture, coming to A&M college and taking one semester's work in sheep and wool production, feeds and feeding and range management courses, they began their tour of observation and study by attending major stock shows. The Fort Worth, San Angelo and San Antonio shows were visited and observed. They then studied at two Texas experiment stations located at McGregor and Sonora. They have observed and studied sheep production methods in Kerr, Real, Bandera, and Val Verde counties and will leave for Junction to continue study Saturday of this week.

Guney and Ertugrul will continue study of sheep, wool and mohair at New Mexico A&M college, Boise, Idaho, University of Wyoming, Nebraska and Ohio University—going to New York City to return to Turkey July 22nd, completing one year's study in this country.

These men will work at experiment stations located at Konya and Ceyan, Turkey, upon their return home.

County agent and home demonstration work was established in Turkey in 1948 as well as experiment stations patterned after the extension service you know in your country. American county agents and specialists have done this in Turkey: improved poultry, livestock, horticulture, especially vegetables—raising the standard of living for all people; trained natives to take over their own management of experiment stations and agriculture.

Further evidence is the building of dams for irrigation and power to increase the productivity of soils. Sixteen dams have been built with technical assistance from the U. S., which will light many homes, power industry and irrigate the land.

The real meaning and significance of this is: raise the standard of living of people by helping them help themselves, by raising enough food to keep hunger from the door and the monster, Communism, from gaining a foothold.

Since World War II many countries have asked for and received agriculture technical service, engineering know-how for developing their own country through establishing services and training their own personnel to demonstrate the results.

4-H clubs are gaining in these countries in size and numbers as rapidly as leaders can be trained.

About ten hours labor is required per acre for grass and weed control, making it the second highest cost item for dry land cotton. But this cost can be greatly reduced if control practices are followed. Farmers were able to save sixteen millions dollars in hoe bill alone by using the rotary hoe, in the State of Texas. For best results rotary hoes, mounted on tractors should be run at a high speed 6 to 10 miles per hour.

Spot oiling Johnson grass can eliminate this grass in one year while a full crop can be produced on the treated acreage. Instead of hoeing Johnson grass, oil the crown with naphtha. Call for the bulletin Spot Oiling Johnsongrass at your county agent's office.

The average loss from horn flies alone is 20-30 pounds of beef per animal each year in the U. S. There are also several species of lice prevalent in this county. The best time for treatment is fall and spring months.

Ticks and ear ticks, especially ear ticks, are more prevalent in the county than ever before and cause great loss of weight and even death in young animals.

Then too, the cattle grub season is upon us and many producers have contracted calves 28 cents for steer calves; 30 cents for female. Couldn't think of a more favorable time to save for only a few cents a head; 30-50 pounds of weight per calf.

Your county agent has L-256: Guide For Controlling Parasites of Livestock, published February, '58, giving the formulas, life history of cattle insects, and the amount used for treatment for all classes of livestock. It is yours for the asking by phone or in person.

Change is normal. It is the accepted feature. We have no choice but to change.

BIGGS ON CAMPUS COMMITTEE
Abilene, (Spl.)—Truman Joe Biggs, student at Hardin-Simmons university from Eldorado, is a member of the campus committee in the campaign for \$1.5 million for the building of a new university chapel auditorium and student center.

Biggs, along with 175 other student workers, are conducting a campus canvass of the student body. More than \$4,000 already has been pledged by H-SU students.

Engagement Announced

JANIS SOFGE

Mr. and Mrs. Cramer Sofge announce the engagement of their daughter, Janis, to George L. Worden, son of Mr. and Mrs. George W. Worden of Frankenmuth, Mich. Mr. Worden, a graduate of the University of Michigan, is presently employed as field party engineer for the Atlantic Refining Company in Eldorado.

Miss Sofge will complete her junior year in the Eldorado high school and will continue in school next September.

The wedding will take place in the Presbyterian church July 5th.

Passion Play Will Be Sponsored By Lions

Under sponsorship of the San Angelo Lions club, the world renowned Oberammergau Passion Play is to be presented in mid-April, and ticket sales are under way.

The noted production will appear in San Angelo for the first time, April 12, 13, 14, 15 and 16 at the city auditorium at 8:15. Special matinees for public, parochial, and county schools will be held Monday and Tuesday, April 14 and 15, at 2:30 P. M.

The Oberammergau Passion Play features Val Balfour as the Christus, and comes to San Angelo with all its old world traditions and artistry. It is the original, authentic English spoken version as performed at Oberammergau, Bavaria, for 325 years. It is presented on the modern North American stage with wonderful lighting effect. It has lost none of its charm or religious beauty. Twenty-five scenes are created, blending one into another keeping the age old story of the Cross intact.

Ticket sales headquarters are located in the St. Angelus hotel.

Janice Cales will arrive home tonight (Thursday) accompanied by Dick Graves of Texarkana for a holiday visit with her parents, Mr. and Mrs. George Cales. Both young people are students at Baylor.
