Lubbock Morning Avalanche

THE ONLY PAPER PRINTED EVERY DAY ON THE PLAINS

VOL. 4, No. 213.

TEN PAGES

LUBBOCK, LUBBOCK COUNTY, TEXAS, TUESDAY, JUNE 1, 1926

FULL LEASED WIRE UNITED NEWS

TO BUILD LAKE AT SCOUT PARK

PENNSYLVANIAN SLAIN AT LAREDO; TWO HELD

WEST TEXAS PAGEANT AT COLLEGE TONIGHT

FOUR HUNDRED WILL TAKE PART IN SHOW OF SPIRIT OF PLAINS

RISE OF GREAT EMPIRE WILL BE PORTRAYED IN CAMPS
BEGIN 8:30 P. M.
TWO SCENE TOWNS TO BE REPRESENTED IN PROGRAM

The spirit of West Texas will reign tonight on the Texas plains when over 400 students and faculty of the University of Texas at El Paso will participate in the "Spirit of Plains" pageant. The pageant will be held at the El Paso Coliseum and will feature a variety of scenes from the history of the West. The first scene to be presented is "The Rise of the Great Empire," which will depict the early days of the West. The second scene is "The Spirit of Plains," which will show the life of the pioneers. The pageant will begin at 8:30 p. m. and will last until midnight. Tickets are available at the El Paso Coliseum.

Governor Won't Call Session Now

AUSTIN, May 31.—Prospects of an extra session of the Texas legislature to validate the \$100,000,000 Texas road bonds were dashed today by Governor Miriam A. Ferguson, who said she would not call a special session until the first of October.

To Paint Arctic

List of Treasure Finders Tomorrow

Scores of *Avalanche* readers captured treasure in the last day of the hunt, which was yesterday, but full information had not been compiled last night as to who they were or what they found. A complete list will be given in tomorrow's issue.

FAIR ASSOCIATION TO NAME DIRECTORS

ELECTION OF THREE NEW MEMBERS TO BE MADE BY STOCK HOLDERS
Ballots were mailed out to stockholders of the Panhandle Scout and Fair Association last night and stockholders will vote for three new directors for the board which transacts the business of the association, according to Geo. E. Benson, retiring president.

Argentine Flyers Arrive in Haiti

PORT AU PRINCE, Haiti, May 31.—Blazing a trail which he thinks may some day be the route of regular New York to South America air services, Captain Bernardo Duggan, Argentine sportsman and aviator, arrived in Port Au Prince Monday enthusiastic over the success of his flight.

Start Construction of Wading Pool

Concrete was yesterday being poured into the forms for the children's wading pool at the county park. The pool, forty by sixty feet, will be about one foot deep at the upper end and about three feet at the lower.

East Texas C-C Elects Manager

LONGVIEW, Texas, May 31.—The East Texas chamber of commerce elected W. N. Blanton, present manager of the Shreveport chamber of commerce, manager of the organization.

Florida Realty Company Bankrupt

JACKSONVILLE, Fla., May 31.—The voluntary bankruptcy petition of the American-British Improvement corporation, whose department at Florida was to have been one of the most exclusive and aristocratic resorts in Florida, was referred Monday by Federal Judge Rhydon M. Call to L. Earl Curry, referee in bankruptcy at Miami.

OIL MAN FALLS IN TRAP AND IS KILLED, ROBBED ON HIGHWAY

STOPPED TO HELP FELLOW MOTORISTS, WHO SHOT HIM
SEDAN IS STOLEN
WRECK OF CAR LEADS TO CAPTURE OF ALLEGED MURDERERS

LAREDO, Texas, May 31.—Falling into a trap laid by two men who pretended for aid with a broken truck, Sterling Huntley, a Pittsburgh, Pa., oil man, was shot in the head and died instantly, according to developments revealed here late Monday. The body of Huntley was then dragged some distance and thrown over an embankment into an arroyo, where it was found Sunday morning by members of the border patrol.

Alleged Bombers On Hunger Strike

BUENOS AIRES, May 31.—Eight student and workers who were arrested by the police in connection with the explosion at the American embassy recently have refused to eat for three days as a protest of their innocence.

May Building in Lubbock \$88,625

Building permits issued from the office of City Secretary Freeland Groce during May amounted to \$88,625 as compared to \$50,800 during April, and bringing the total amount involved in Lubbock's building program since January 1 to \$410,950.

FRANK LOCKHART, YOUNGSTER FROM FAR WEST, WINS BIG INDIANAPOLIS SPEEDWAY RACE ON WET TRACK

SPEEDWAY, INDIANAPOLIS, Ind., May 31.—The daring of Frank Lockhart, a 22-year old lad from the far west, is the toast of the motor racing world tonight following his brilliant Memorial day victory in the \$500 mile international motor sweepstakes of the Indianapolis speedway. On a track made perilous by drenching rain and oil leaking from the motors of 25 tiny starters, young Lockhart stepped hard upon the accelerator of his Miller Special, took chances on the turns that drivers of more mature years would call foolhardy, and at the end of 400 miles was flagged down in a miniature cloudburst of rain and applause.

Swedish Royalty's First Step on American Soil

The first official reception on American soil of the crown prince and princess of Sweden, who will be our guests for the next three months, was at the Thritery, New York. The photograph shows the royal couple with the reception committees just after they had disembarked from the Macom.

FIND BODY OF CHARLES T. SMITH

BULLET OF GUARD DID NOT STRIKE FLEEING AMERICAN
BROWNSVILLE, Texas, May 31.—The body of Charles F. Smith of Corpus Christi, Texas, a salesman, was found on the American edge of the Rio Grande river near Brownsville, at 5 o'clock Monday afternoon. There were no bullet wounds in the body, proving that Smith drowned in an attempt to swim the river with his clothes on early Sunday morning after an altercation with a Mexican taxi driver.

NO POCKETS IN SHROUD

CHICAGO, May 31.—"I don't give a damn what becomes of my money," said Edward K. Dilworth, retired millionaire banker, who died Friday, when asked by physicians at his death bed if he cared to make a will.

Two More Killed In Chicago War

CHICAGO, May 31.—Two more men were murdered and a third was wounded Monday in what police believe to have been a gang outbreak in Hyde park. All three victims were bootblack stand proprietors and are believed to have been interested in the alcoholic traffic as a side line.

LET'SINGER CASE IS REVERSED

LUBBOCK MAN'S SUIT AGAINST RAILROAD TO HAVE NEW HEARING
J. W. Letsinger, Lubbock county farmer who sued the Santa Fe railway company for \$40,000 for the death of his wife and baby daughter who were killed by a fastgoing Santa Fe train on a grade crossing at Monroe on April 13, 1925, lost by a jury's decision at the first trial of the case, but the court of civil appeal at Amarillo has just rendered a decision setting aside the jury's action and reversing the case, and it will be tried again.

AMERICANS WIN BIG BALLOON RACE

VAN ORMAN FIRST, GRAY SECOND IN GORDON BENNETT EVENT
BRUSSELS, May 31.—Two American balloons, the Goodyear III and the Army S-16, have won first and second places in the 1926 James Gordon Bennett cup race. Both balloons outdistanced their nearest European competitors by more than a hundred miles. The third American entrant, the Akron N. A. A., was tail in the air when last reports from it reached Brussels, but it had been disqualified when Herbert W. Maxson, one of its pilots, dropped out of the basket while the balloon was over Hoogerstraeten, Belgium. J. A. Roettner, the other pilot who remained in the Akron N. A. A., was thrown off his course, it is believed, Maxson was taken to a hospital but was not seriously injured.

Grand Jury Starts Work at Crosbyton

Judge Outlaw of Crosbyton, was elected as special judge to occupy the bench in the 72nd district court of Crosby county yesterday in the absence of Judge Clark M. Mallie. The grand jury was empaneled in the afternoon and started on its work with the setting of a few cases on the civil docket also announced.

Parrish Goes to Kinsman's Funeral

Mayor Pink Parrish and wife left yesterday at 1 o'clock for Cone, near Ralls, where her uncle, W. F. (Pan) Montgomery, died at 12:30 o'clock. Funeral arrangements had not been announced late yesterday but will likely be held this morning, relatives here said.

EVANGELIST AND DISCIPLES FAST ALL DAY IN POPLAR GROVE AND LOOK FOR MIRACLE AT SUN RISE

TAMARACK, Minn., May 31.—After fasting all day Vernon Ewing, the humorist, spectacle peddler, and his motley throng of disciples retired to their tents at the edge of a poplar grove, confident that Tuesday's rising sun would bring them a miracle from heaven. Promptly at 10 a. m. the farmers and mechanics will seat themselves in a circle inside the wooded area to vote one hour to silent prayer. Ewing said the opportunity of the holiday is being taken to the poplar grove camp and many of them asked questions which were difficult to answer, but Ewing and his disciples did not become vexed by the interrogation. Every question was answered, as Ewing said, "to the best of my knowledge." "Faith" We must be heard our allies and our enemies. During the night the disciples will be kept awake by the sound of the poplar grove camp and many of them asked questions which were difficult to answer, but Ewing and his disciples did not become vexed by the interrogation. Every question was answered, as Ewing said, "to the best of my knowledge." "Faith" We must be heard our allies and our enemies. During the night the disciples will be kept awake by the sound of the poplar grove camp and many of them asked questions which were difficult to answer, but Ewing and his disciples did not become vexed by the interrogation. Every question was answered, as Ewing said, "to the best of my knowledge." "Faith" We must be heard our allies and our enemies. During the night the disciples will be kept awake by the sound of the poplar grove camp and many of them asked questions which were difficult to answer, but Ewing and his disciples did not become vexed by the interrogation. Every question was answered, as Ewing said, "to the best of my knowledge." "Faith" We must be heard our allies and our enemies. During the night the disciples will be kept awake by the sound of the poplar grove camp and many of them asked questions which were difficult to answer, but Ewing and his disciples did not become vexed by the interrogation. Church Woman's Federation Inspects City Water, Food, and Urges That the Churches Establish Recreation Center

The Church Women's federation met Monday afternoon in Cumberland Presbyterian church with the president, Mrs. Studeman in the chair. Under the reports of committees Mrs. Granbery and Mrs. Miller reported on a water inspection of the city, but that no analysis of the water had been made. The report was extended. The federation voted to foster if practicable, a church recreation ground, and the following committee for such purpose was appointed, Mrs. G. C. Wolfarth, Mrs. R. M. Chittwood and Mrs. J. N. Michie.

A food inspection committee was appointed to work with city health departments as follows, Mrs. J. S. Johnson, Mrs. C. J. Wagner, Mrs. F. E. Friend.

Mrs. J. F. Hankins was elected reporter for the federation. The following program was rendered:

Devotional: Mrs. Bennett.
Texas Blue Bonnets, song: How and Ray.

Who Put the You in Youth: Mrs. C. J. Wagner.
Reading: Miss Eula Howard.
The Needs of our Girls: Mrs. Mary W. Doak.

The federation was dismissed with prayer by Mrs. P. T. Callaway.—Reporter.

Terpsichore Revue By Mrs. Trent Shown At Palace

A delightful dance program will be given at the Palace theatre at 9 o'clock Thursday evening by some of Lubbock's most talented dancers, who have been the pupils of Mrs. Dana Harmon Trent and her sister, Miss Thelma Thomas. Mrs. Trent is director of the revue. An indication of the attractive numbers of the program and the order in which they come is given below:

Within the Walls of China, Geofri Chinese Mandarin Dance
Blue Bonnet Ballet—
Blue Bonnets Song, Mrs. G. T. Scales
Raggedy Ann Gambol
Solo eccentric
Slavonic Dausant
Hungarian Dance No. 5, Brahms
Wood Nymph Ballet
Gee Cenn Toe Ballet
Charleston contest.

Three Nurses Graduate From West Texas Hospital

Three nurses received diplomas in the commencement exercises held at the West Texas hospital Saturday evening Misses Margaret Wythe, Pearl Nix, and Vera Tilley. The

diplomas were awarded by Dr. C. J. Wagner, chief surgeon of the hospital.

Rev. W. P. Jennings gave the invocation and Rev. E. E. White made the address. A pleasing program was given, the Barrier Bros. orchestra furnishing the music. Readings were given by Miss Lula Mae Craven and little Miss Jane Sears, and a charming dance by little Miss Joan Sears.

After the program and the presentation of diplomas a social hour was enjoyed and refreshments served in the dining room of the hospital. Preparations had been made for the exercises to be held on the roof garden of the hospital, but because of the rain they were held indoors.

Pressley-Trussell Marriage Takes Place Sunday

Miss Lois Pressley, daughter of Mr. and Mrs. J. A. Pressley, 808 Avenue O, and Mr. R. A. Trussell of Amarillo, were married at 10 o'clock Sunday evening at the home of the bride's parents. The Rev. W. P. Jennings officiated. Only a few friends of the young couple were present in addition to the members of the family.

Miss Pressley is extremely popular in Lubbock, especially in musical circles in which she excels, and for the past year has been teaching music in the public schools at Tahoka. She received her musical education in the Colorado university at Boulder.

Mr. Trussell is also known in the musical circles of Lubbock and contributed to the musical life of the city when he was manager of the South Plains Music company here.

Mr. and Mrs. Trussell left immediately for a ten days' stay in Galveston and Houston.

Mrs. Trussell was charming in a navy blue ensemble of taffeta and gold color georgette. They will make their home in Amarillo, where Mr. Trussell now lives.

Mrs. Bryan Hostess to Friday Needle Club

Mrs. W. C. Bryan was hostess to the Friday Needle Club in her pretty new home on Main street. Bowls of roses and honeysuckle filled the rooms with their fragrance.

Delicious refreshments consisting of chicken salad, olives, bread and butter sandwiches, iced tea and carole were served to Mrs. R. A. Barclay and Mrs. Allie Hunt, guests of the afternoon and to the following

Be Pals to Children and Reduce Crime, Says Club Woman

The following is written for The United News by a prominent woman attending the convention of the American Federation of Women's clubs at Atlantic City, N. J.

By Mrs. H. M. SPALDING, Vice Chairman, Department American Home.

ATLANTIC CITY, N. J., May 31.—If fathers and mothers would be big brothers and sisters to their children, there would be a sweeping reform throughout the country which would diminish crime and avoid many of the ills that start in the American home.

Parents, it seems, maintain a too strict dominance over the youth of today, with a consequent result that a fear is instilled into their minds and the boy or girl is guided to a limited point by this parental fright and then jump off into a hazardous pit that takes them into the whirlpool of a sporty life.

Business men leave their offices but they don't leave their cares at the office. They come home, their mind unsettled over something or other, or too tired to spend a few hours in comradeship with their children.

Mothers are content to spend days at the movies or at cards every afternoon in the week. Dinner time and they hold a post-mortem over their game, generally with the business man who is invariably little interested.

This pater is forced into the unwilling ears of the children, and they are forced to listen to bantering and parrying throughout the meal.

It is one time in the day, I have found out by survey, that children should have right over their parents if they want to talk. Now I don't mean silly talk, but what happened in their school, or their play, or any where else during the day.

It should be the melting pot for open discussion by them, and the time of wise counsel from the father and mother.

Mothers are dressing and sometimes acting like daughters in their modern day. Fathers are just as playful and sometimes more frivolous than their sons. Why not get down to a common ground and be pals instead of parents to your children.

Prison surveys that have been a part of the department of the American home is a lesson for every American parent. On an average of 14 prisoners in penal institutions scattered over the country, 13 of them, we found out by exhaustive inquiry, had no home life.

They talk of prohibition and crime waves and want a solution. Let them try inculcating this idea into the American parents and then gauge the result five years hence.

EASTERN STAR INSTALLS OFFICERS TODAY

The Eastern Star will hold installation of officers ceremony this afternoon at 2:30 o'clock. All members are urged to attend.

CAMP FIRE NOTICE

The Cheskamay troop of Camp Fire girls will meet at the Methodist church Tuesday afternoon at 4 o'clock. All members are urged to be present. Important business is to be done. Margaret Turner, Guardian.

HEDDA HOYT TALKS ABOUT THE THINGS THAT INTEREST THE BUSY WOMAN OF 1926.

Fashion Notes

By HEDDA HOYT
(Written for United Press)

NEW YORK, May 31.—There are so many fancy shoes in the shops these days that one having a shoe complex is at a loss as to what to select. Lizard skins, applied effects and contrasting color schemes are so lovely that we forget our requirements and think only of our ideals in footwear.

One should always stand before a full-length mirror when selecting a new shoe. Especially is this true when the shoe is not of solid color. Diagonal lines, insets, straps and color contrasts often tend to give the foot homely lines. If one has a large foot, a shoe that has vamp of one shade and a heel of another merely draws attention to the length of the color of the stocking and the frock. By keeping one color scheme one creates an ensemble which keeps the attention from the foot.

Persons with wide feet should not wear shoes that are cut deep at the sides displaying a wide expanse of stocking across the instep. The shoe should extend well up over the foot and should be as plain as possible.

Light shoes with dark dresses are always out of harmony with good taste. The shoe should never be lighter than the frock unless one has a perfect foot and wishes to draw attention to the foot. In wearing light shoes one should see that the frock is about the same color as the shoe and stockings.

Moderistic effects are very popular in fashionable shoe shops lately. Here, the vamp of the shoe is embellished with several harmonizing colors of leather set on in diamond or patch-like appliques.

SCOUT NEWS

Troop Three.
The meeting was opened with a lively spirit and after Mr. Clapp had held the inspection there was a contest in knot tying. Manson Allen of the Tiger patrol won.

The Tiger and Rattlesnake patrols had a contest in knot tying which Burns Kittrell of the Rattlesnake patrol won.

Mr. Clapp showed us a game of finding objects, which was amusing and funny, especially when Mr. Clapp told us to find a hole. One boy put his finger in his mouth. Geo. Hardburger of the Tiger patrol won this contest. "Heads and Tails" was also played; George being the winner.

Afterwards there were a few short drills practiced.

Troop Three is sure busy now doing scouting. Just watch Troop Three at the court of honor. We intend to make the other troops step lively now if they lead us.

The meeting was closed by taps. —Clarence Woods, Troop Reporter.

Troop Four.
"Always There."
Troop Four, of course, could not have its regular meeting because of the court of honor. At the court of honor, however, we showed that we had been doing some hard work during the last month.

The Panther patrol went on an over night hike Monday and Tuesday to Igou. Those members of the patrol who knew the general service code learned the semaphore and those knowing the semaphore learned the general service. One member of the patrol found some fragments of painted Indian pottery.

Troop Three boys have been staying round Mr. Clapp's house a good deal lately and the boys of Troop Four are very glad to get acquainted with them.

—Henric Mast, Troop Reporter.

Troop Five.
Troop Five was very busy, last month getting ready for the scout court of honor. We had three second class badges, two first class and six merit badges. The scout court of honor was held at the Presbyterian church which is our regular meeting place.

One of Crosbyton was with Troop Five Friday night at our court

LITERARY SKIPPER HOISTS CLUB FLAG

NEW YORK, May 31.—When the flag of the Three Hours for Lunch club waved from the signal halyards of the steamship Transylvania as she slipped out port, it was the first time in the history of modern shipping that the insignia of a social organization was flown by a transatlantic vessel. The flag was hoisted by Captain David W. Bone, the "literary skipper" and a member of the club, in honor of three other members who were making the trip to Europe.

GRIEVES SEVEN YEARS FOR WIFE, THEN DIES

LONDON, May 31.—Grief stricken over the death of his wife seven years ago, Henry Reddish, a retired salesman, was found by police huddled on the kitchen floor of his flat, dying. During the long period he only left his apartment once a day to buy a newspaper and rolls.

RADIO

NEW YORK, May 31.—Engineers of the General Electric Company, Schenectady, N. Y., claim substantiation of the theory that radio waves split into a ground wave and a sky wave in their passage from transmitter to receiver, as the result of wave propagation tests conducted from January 1 to May 8.

"According to the split wave theory, one wave passes along the earth," states the report, "and the other passing into the air probably about 100 miles or so above the earth, continues until reflected down upon and received by a semi-conducting layer in the atmosphere. The ground wave weakens rapidly and becomes negligible about 200 miles from the broadcasting station and reception at greater distances is due entirely to the sky wave."

The tests were conducted with the co-operation of listeners in every part of the country and covered practically all stations on the air. The entire wave length band and all classes of power from 50 to 5,000 watts. The possible relation of radio reception and weather conditions was carefully studied and a preliminary study of the reports indicates that barometer and weather have only a minor effect on radio conditions. A distance of more than 100 miles conditions on the earth's surface seem to have little or no effect. On the basis of the split wave theory, it becomes obvious that if the sky wave goes thru an arc reaching 100 miles above the earth, weather conditions, which are known to go up less than 10 miles can have but little effect upon it.

THE TITHE OF THE TITHE—Speak unto the Levites, and say * * * When ye take of the children of Israel the tithes which I have given you, * * * then we shall offer up a heave offering of it for the Lord, even a tenth part of the tithes. Nu. 18:26.

JUNE

Red cherries ripening midst leafy branches; peonies regal in their proud aristocratic sway; lilies of the valley filling the air with fragrant incense—this is June. Roses, American beauties, Columbias, Aaron Wards, red rambles, tea roses, dark red roses, deep pink roses, roses white and roses yellow, imparting to the yard and garden paradisaical glory—this is June. Fields of wheat, knee high, waving in the wind and beginning to ripen under the splendor of the sun's rays—this is June. Sweet warble of nesting birds first heard at daybreak, then at intervals throughout the day, and bursting into vesper melody just before twilight—this too is June!

June is the month of commencements, of the sweet girl graduate, and the oratorical youth who takes for his valedictory theme "The World's Problems and How to Solve." This is the month when school, college and university take the center of the stage and hold it in undisputed sovereignty. What poetry there is in the commencement season—the girl in white, the bouquets of flowers, the music and the diplomas, and overhead in flaming letters the class motto, "Beyond the Alps Lies Italy." Who has not sensed the rainbows that halo the commencement occasion, and likewise who has not responded to the minor chord of sadness as the graduates sing with gusto and possibly for the last time together their class songs. Fay school, college and university days are such dear days of inspiration, of fun and frolic, of lasting friendships and of dreaming dreams which may or may not come true.

Then June is the month of weddings, the bride's month in all verity. All the world loves a bride, whether she come from the ranks of the humble and the wedding be a marvel of simplicity, or she emerge from the home of the rich and the great, and the occasion be one of pomp and elaborate ceremonies—what matters it. "All the world loves a bride." It will be a sorry day for society should the romance of marriage suffer loss or the wedding be treated as commonplace and a mere formality. Weddings are solemn, not sad; they are impressive events, and flippancy at such a time is the acme of poor taste. June is the bride's month, her very own. Roses then for the bride's hair, roses in her hands, roses in her cheeks, roses for her path, roses for the bride!

PROFITEERING SHERIFFS

Profiteering tan apparently enter any and all lines of endeavor, as the grand jury of Ohio recently found when it announced that its investigation had shown that the sheriff of Cuyahoga county was profiteering at the expense of the prisoners by cutting down on their food and by charging extra profit on "extras," including pies and tobacco. The investigation, revealed that jail prisoners were paying higher than retail prices for pies, cigarettes, newspapers, matches and other articles. As a result of the findings of this grand jury there is now a concerted move on foot in Ohio to amend the state laws so as to take the feeding of prisoners entirely out of the hands of the sheriffs in large counties. It is claimed that the present statutes permit sheriffs in large counties to become wealthy at the expense of their prisoners. If this condition exists, then certainly the law should be amended. The law does not contemplate starving or underfeeding prisoners and public opinion generally will not stand for this rather contemptible method of making a profit out of public office.

NEW HELIUM USE

A new and certainly interesting use has been found for the rare gas, helium, which is used in

FIG. I—Final stage of helium use.
FIG. II—Another stage of helium use.

sure. It has been found, however, that the blood will only absorb the nitrogen up to a certain point, after which bubbles appear in the blood which will cause "caisson" disease and death. With the helium however it is said that these bubbles do not form in the blood. Day by day science presents the world with new marvels, and incidentally new dangers. But, keeping pace with the dangers, science in turn evolves methods of combating them and thus, in the cycle, the world is greatly benefited.

THE POLLUTED OCEAN

At first thought it would seem that the ocean is such a vast expanse of water that it would be difficult to contaminate it in any serious way, but this is not so. The pollution of the ocean by oil refuse has become so serious that ocean bathing in many places is impossible without the bather becoming saturated with a sticky coating of the repulsive oil sludge. For several years the various seashore municipalities affected in this and other countries have labored for some relief from the nuisance and now it seems that something will be accomplished, for on June 8 in Washington representatives from eleven countries will gather to discuss the causes of the pollution and the probable cure for the conditions enumerated. The most probable cause is the practice of oil burning and oil carrying steamships pumping out the residues in their tanks while entering port or while lying at anchor in a bay or river. The oil sludge thus discharged floats here and there, carried by the tides, and eventually rools in on some bathing beach, entirely ruining the complexions and tempers of the bathers. It certainly is to be hoped that this conference, which includes representatives of the United States, Denmark, France, Germany, Great Britain, Italy, Japan, the Netherlands, Norway, Spain and Sweden will be able to puzzle out some practical solution of this perplexing seashore problem.

INLAND WATERWAYS

Inland waterways are bound to have an increasingly valuable part to play in the future transportation of this country. Secretary of Commerce Hoover has sounded the call for more earnest consideration of this hitherto almost totally neglected means of commercial transportation and as a result of the secretary's appeal a new service has been inaugurated on at least one waterway which may lead to real utilization of what now is waste opportunity. The new service is called the Munson Inland Water Lines, Inc., and operates from Buffalo to New York, through the Erie canal and the Hudson river as a connecting link between great lakes ports and New York, the terminus of the Munson line steamships which run to all parts of the world. It is undoubtedly such usage as this which will tend to make our inland waterways extremely valuable as feeders for ocean shipment and also to relieve the railroads of much bulky and imperishable freight. What is really needed is a definite plan of waterway development and the more general interest of shippers.

FRENCH FINANCES

Not since the close of the world war has France been called upon to pass through a hectic and dangerous period in its financial history as the one just passed. From out of an almost clear sky and with the treasury in the most prosperous condition in months the franc suddenly broke and before recovery the French unit of money went through even more violent fluctuations than during the period of speculative attack in 1924. It must be realized today that the situation is far more serious than is generally thought, since the basic cause of the depreciation of the franc, to which speculation is but a minor contributing factor, is the unfavorable balance of trade that forces French manufacturers to buy foreign currencies with which to make purchases abroad. This being the case it is of course readily understood that the situation can not be affected by any funds at the disposal of the French government, but can only be made by the stabilization of the franc and with the restoration of general confidence in the slow but sure improvement in the commercial life of the country.

NO HELP ON THE ROAD

Here is a tragic story carried in news dispatches the other day. An automobile with a man and his wife went over a 30-foot embankment and overturned, pinning the woman underneath. It was night, but automobiles were passing along every little while. The husband, himself injured, stood by the roadside signalling drivers to stop to get help in releasing his body injured wife. Hour after hour passed and never a car stopped to aid him. At dawn he was found lying there unconscious and his wife was dead. Heartless drivers? Not necessarily so. They were afraid he was a hold-up man. To such a pass have things come in one of the most populous states in the union, in the vicinity of one of the most highly civilized communities in the world. It is perilous to be a good Samaritan. That is as tragic for society as it is for the immediate sufferers.

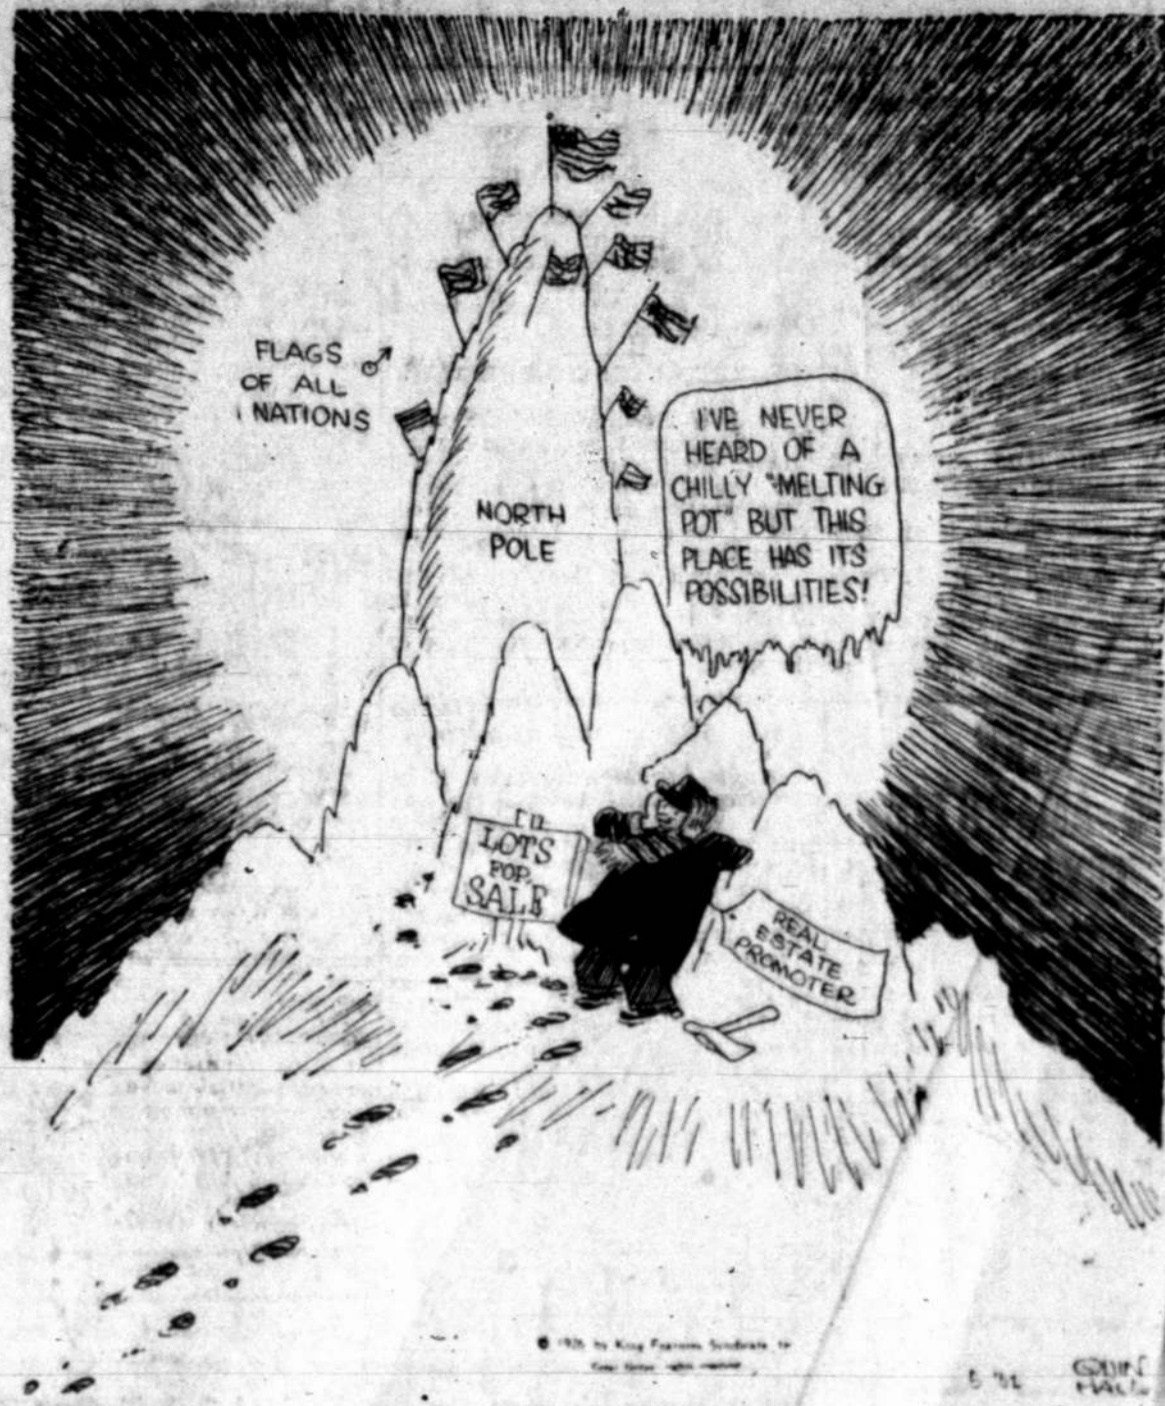

OUR FOREIGN TRADE

The situation in the overseas dry cargo trade the close of the five year period ending December 31, 1925, was more favorable than at any time during that period, according to a comparative summary by the bureau of research of the United States shipping board just made public. The term "dry cargo" refers to ocean traffic conducted by general cargo carrying vessels with destinations, Australia and South America, the West Indies, the Caribbean sea and shipments

to the indication of the present dry cargo trade, it is judged that the world's progress is being made by your pocket book.

We think that even the Ferris wheel is a hard drive.

The Next Important Arctic Discovery

So Think We

We think there is no mistake that the present milk ordinance is too drastic and should be amended. It is no doubt working a hardship on the producers of dairy products, and it is hurting the local market, and the retail merchants are feeling the effects of it on their sales. People are apt to buy their groceries and dry goods where they can sell their milk and butter, and no one can blame them.

We think that children of this day and time are almost unanimously agreed that they are better than their father or mother was at their age. And some of them have been able to convince some of the parents.

We think that all you have to do to convince yourself that the people read this paper just put an ad in this paper that you have the cash to pay for a good automobile.

We think that guy from Gregg county who said it never rains in this country is just about the biggest prevaricator we have ever known outside of the historic liar known as Ananias.

We think that our circulation manager will likely forgive those subscribers who failed to pay their subscription in May if they will only come in today and pay up.

We think that men with money may be able to do everything that they want to do, but they can possibly do more things than some people who do not have any money.

We think from the number of men who take their meals down town every wife must not be as good a cook as ours, or they would never eat anywhere else than at home.

We think that the house to house peddler has never been known to build any town. He is interested in each town equally—to the amount of the business he gets only.

We think that next Sunday will be a good Sunday to go to church. Anyway every Lubbock citizen should begin now to make arrangements to go.

We think there is one thing that you can not do and that is to judge the world's progress by your pocket book.

We think that even the Ferris wheel is a hard drive.

time keeping the people fooled.

We think the best illustration of wasted energy is the appointment of the average committee.

We think that if the world was to come to an end tomorrow, it would not suit some people.

We think that a lot of people who went into the oil business in March are now in debt.

We think the most objection to the presidential dry order comes from the wet side.

It Is Reported

That the men are getting so industrious in Lubbock that one husband kisses his wife good-bye the night before, so that he will not lose the time in the morning.

That every candidate in the race for county, district and precinct office, believes every man, woman and child in their territory, but after the election they will think there is a sure enough good crop of liars.

That a few people who own vacant lots are having the weeds cut off them, and we believe it is a mark of good citizenship.

That one old battle axe said yesterday that he expected we would say something about spitting on the sidewalk in our paper Monday, and sure enough we did. It seems a matter of guilty conscience with him.

That one man in this city says he thinks of us every time he spits. We wish others would if it will help them to hit the gutter any better.

That sites have been purchased for two or three more filling stations in Lubbock in the residential section. Wonder if there is no relief for this menace to the peace and dignity of the residential section of our town.

That Dan Moody is the only candidate for governor who has been able to organize a local club of his supporters.

That a big fine car with an Amarillo plate number on it made a left hand turn Sunday. Possibly he is not used to driving in a city.

That a car overturned on the hill in the county park Sunday. We are of the opinion that this hill might be cut down some, and the people would enjoy the drive.

and That

and what if the "He uses to marry you?" fair baby Allah, I'm going in the log.

BRITISH STOCKS

The high average market price of British industrial stocks during the first half of the year, right after the cessation of the coal and iron strikes, was a real indication of the true, conservative, steady faith in the British nation. The strike itself accomplished without marked disturbance and certainly the economic and social and economic element will not be as great as originally estimated.

WASHINGTON NEWS

Training Camp Popular—The high average market price of British industrial stocks during the first half of the year, right after the cessation of the coal and iron strikes, was a real indication of the true, conservative, steady faith in the British nation. The strike itself accomplished without marked disturbance and certainly the economic and social and economic element will not be as great as originally estimated.

Had 8 Legs, 16—The solid walls of the 4 Canyon, in Arizona, have been in the shape of footprints, a prohibitive animal with eight and sixteen toes, according to official of the National Museum says: "These footprints were by a strange species of saurian extinct, that roamed the region thousands, perhaps millions of years ago, when the shale sandstone were soft mud. Over a thousand feet of rock making strata above them. Then the Colorado river cut through the rock and the course of the ages, the prints were again exposed."

Backing Gaps—Japan's proposal for a further naval disarmament conference between the United States, Great Britain and Japan, unless of course other nations will does not seem with the approval of the President at the present time official.

HUBBERS YET UNDEFEATED FOR SEASON, WIN FROM OILERS

HUBBERS BEAT OUT BURT HUNTER HERE YESTERDAY AFTERNOON IN FAST CONTEST; YET UNDEFEATED

In one of the fastest and best contested games of the season the Hubbers took the last of a three game series yesterday afternoon at the Merrill park by a score of 4 to 1. Burt Hunter, side-arm artist, of the Oilers let the Hubbers down for eight singles which were well scattered but his team at the critical periods erred behind him allowing the Hubbers to take advantage of the base running which eventually ran into scores.

Sneak Ratliff, ace hurler for the Hubbers, let the visitors down with six hits not walking a man. He had a wonderful day to work in being a still warm afternoon which found him with perfect control and good action.

Roberts, Oiler short stop, in four trips rapped out three hits, two singles and one double. Roberts is a consistent hitter and for the three games played here he hit a percentage of .636 getting seven hits out of eleven trips at bat.

The line-up of the Hubbers found a new arrangement with "Red" Hamilton on the receiving end; Lassiter at the short field; Gaitner on third base, and Frank "Stingy" Hudspeth in the center garden. Hamilton caught a great game for the Hubbers, his ability at flinging the signals to second base was at all times bustling. He clipped every man out who attempted to steal on him yesterday afternoon.

"Tighten Up" Sheppard had another hard day at bat coming out with three safeties out of four trips. Two were beat out and one was hit to left field.

GAME PLAY BY PLAY

First Inning
Panhandle—Roberts doubled to left field; Hunt advanced Roberts to third base and went out Hamilton to Connelly's sacrifice hit; Drake grounded to Gaitner who caught Roberts in a chase getting him out Gaitner to Hamilton to Gaitner, Drake was safe at first base; Drake went out attempting to steal second base Hamilton to Sheppard. No runs, one hit, no errors.

Second Inning
Panhandle—Hudspeth grounded out Ratliff to Connelly; Pegram flew out to Jackson; Connelison flew out to Gaitner. No runs, no hits, no errors.

Third Inning
Panhandle—Anthony struck out; Hatcher was safe when Lassiter charged a hot grounder too fast; Hatcher went out Hamilton to Sheppard attempting a stolen base; Hunter flew out to Connelly. No runs, no hits, one error.

Fourth Inning
Panhandle—Roberts struck out; Hunt flew out to Connelly; Drake grounded out Lassiter to Connelly. No runs, no hits, no errors.

Fifth Inning
Panhandle—Sheppard grounded out Ratliff to Connelly; Pegram grounded out Ratliff to Connelly; Connelison flew out to Jackson. No runs, no hits, no errors.

Sixth Inning
Panhandle—Anthony doubled to left field; Jackson fell down on his approach on the ball; Hatcher grounded out Sheppard to Connelly advancing Anthony to third base; Hunter grounded out Gaitner to Connelly; Roberts singled to left field scoring Anthony; Roberts took second base when Connelly missed Ratliff throw; Hunt flew out to Jackson. One run, two hits, one error.

Seventh Inning
Panhandle—Drake struck out; Crosthwait struck out; Pegram grounded out Ratliff to Connelly. No runs, no hits, no errors.

Lubbock—Ratliff struck out; Jackson lined out to Pegram; Sheppard got an infield hit, hitting the ball to deep third base and beat the throw out; Sheppard stole second base; Waitner walked; Connelly flew out to Connelison. No runs, one hit, no errors.

Eight Inning
Panhandle—Connelison singled to centerfield; Anthony was safe on a fielder's choice, Connelison was out Lassiter to Sheppard; Hatcher hit into a double play; Gaitner to Sheppard to Connelly. No runs, one hit, no errors.

Ninth Inning
Panhandle—Hunter drove a hot liner through the box; Roberts beat out an infield hit advancing Hunter to second base; Hunt was safe on fielder's choice advancing Roberts to second and Hunter went out Lassiter to Gaitner; Drake grounded out to Connelly advancing Roberts to third and Hunt to second; Crosthwait grounded out Ratliff to Connelly. No runs, two hits, no errors.

Score by Innings:
Panhandle 000 001 000-1
Lubbock 201 010 000-4

Summary of the game: Base on balls off of Hunter 3. Two base hits Roberts and Anthony. Double plays, Gaitner to Sheppard to Connelly. Struck out by Hunter 4; Ratliff 4. Sacrifice hits Gaitner, Connelly, Hamilton, Hunt. Stolen bases Sheppard 2, Gaitner 1, and Hamilton 1. Umpires De Long and Jones.

LOCKNEY INDEPENDENTS DEFEAT PLAINVIEW 5 TO 2
LOCKNEY, May 31.—The Lockney Independents so far are yet undefeated and yesterday gave the Plainview nine the small end of the score, 5 to 2. Mathis of the Lockney club struck out eleven batters of the Plainview nine. Batteries for Lockney were Mathis and Holmes; for Plainview, Helm and Caylor.

Beaten by 22-Year-Old Dark Horse

Harry Hartz, above, and Earl Cooper, below, expected to win the 500 mile auto race on the Indianapolis speedway; but young Frank Lockhart took it away from them. He is a youngster from the west.

RAIN STOPS GAMES FOR MAJOR HOLIDAY

To the disappointment of tens of thousands of baseball fans, rain prevented many holiday games in the west. The Athletics lost an opportunity to gain upon the Yanks when the best they could do was to divide the double bill at Boston. Howard Ehmke outpitched Lefty Groves and shut out the Mackmen in the first game, which the Red Sox won 2 to 0. Sammy Gray beat Boston, 8 to 2 in the second installment.

The Pirates could do little against Carl Mays in the opener at Cincinnati and lost to the Reds, 7 to 2. Red Morrison evened matters in the second game, and the world's champions won 9 to 5.

After rain washed out the morning game at Philadelphia, the Giants helped to open the sequi-centennial in the afternoon by making 19 hits and defeating the Phillies 12 to 1. The Cards and Cubs divided a double bill, St. Louis winning the first of two heavy hitting contests 5 to 3 and Chicago coming back to grab the nightcap, 8 to 7.

The Tigers and Browns divided a double bill which lasted until dark. The first game went to Detroit 10 to 7, and the second, called at the end of the 7th, was won by St. Louis 9 to 7.

McGraw Whips His Club Out of an Early Season Slump
By FRANK GETTY (United News Staff Correspondent)
NEW YORK, May 31.—The spectacle of John McGraw shaking his Giants to pieces after the first 30 days of a major league season is an unusual one. But the New York owner-manager has acted with promptness and dispatch to whip his club out of an early season slump.

The release of Heinie Groh, the sale of Art Nehf, and the farming out of Grover Hartley and Jack Wisner were initial moves in McGraw's game of revamping his tottering team.

With Al Tyson on crutches and Travis Jackson home in a hospital for treatment of his injured leg, the Giants' manager found himself in a hole. Bill Terry, the hold-out of spring, was shot into left field and delivered. Irish Meusel had been benched for indifferent work, but came through on a couple of occasions as a pinch hitter.

Jimmy Ring has been pitching fairly good ball. The Giants counted upon the former Philly twirler for a lot of victories this season, and may get them. Jack Scott seems to be as dependable a twirler as any of McGraw's staff, which is not saying too much for the Giants' pitchers.

It would not be surprising to see New York at the bottom of the first division when the final National League standings are published this year.

However, McGraw has obtained Andy Cohen, the young Jewish infielder from the Waco club of the Texas League, and you can never tell John J. has said all these years that what New York needed was a real Jewish ball player.

TEXAS LEAGUE RESULTS.
The Tigers and Browns divided a double bill, St. Louis winning the first of two heavy hitting contests 5 to 3 and Chicago coming back to grab the nightcap, 8 to 7.

Los Angeles 103 010 21x-8 12 1
Fullerton and Redman; Hamilton and Hannah.

NATIONAL LEAGUE RESULTS.
Boston at Brooklyn, both games postponed, rain.

New York at Philadelphia, first game postponed, rain.

Second game:
New York 400 002 105-12 19 0
Philadelphia 000 001 000-1 9 5
Fitzsimmons and Florence, Muan, Knight, Ullrich, Pierce and Henline.

First game:
Cincinnati 000 030 004-7 10 0
Pittsburgh 000 001 001-2 9 2
Mays and Feinich; Songer, Oldham, Culloton and Smith.

Second game:
Cincinnati 010 101 200-5 10 2
Pittsburgh 014 102 01x-9 11 1
Lusk, Rixey, Holland and Hargrave, Feinich; Morrison and Goech.

First game:
St. Louis 121 000 100-5 13 1
Chicago 000 100 020-3 11 2
H. Bell and O'Farrell; Root, Milstead and Hartnett.

Second game:
St. Louis 003 000 022-7 9 3
Chicago 000 021 05x-8 13 2
Johnson, Hallahan, Huntzinger and Vick; Jones, Root, Milstead, Blake and Gonzales.

The Hubbers will meet the Hereford Independents at Hereford on next Sunday for a return game with the Deaf Smith club. Hereford, according to sled Allen, manager of the Hubbers, have gained much strength since the time they met here at Merrill park and a real battle is expected of the Hereford club.

Arrangements are now being made by the Skipper to play to games some time this week; however, nothing definite can be announced at the present time.

Four games were scheduled yesterday with the Lamesa club. One game there on June 14 and a three game series here on July 1, 2 and 3. The Lamesa team is a strong aggregation and have about as strong a line up as they had during the 1925 season. Bean, ace pitcher of Waxhackle high school, has been secured for the Lamesa club and it is thought that he will present a hard fight with the Hubbers.

Anderson, fleetly outfielder is likely to arrive here late this week and will report for duty with the Hubbers. Anderson was with the Olney nine last summer, and is one of the fastest outfielders in this section. He will add much strength to the Hubber line up.

The Paris All-Stars, a barnstorming crew of ball players, out of Paris has scheduled a three game series with the Hubbers here in the early part of July, according to Skipper Allen.

The Hubbers will also get to meet with the Amarillo Mets during the West Texas chamber of commerce convention which will be held in the panhandle metropolis on June 21, 22 and 23. The Mets will return for three games here in the early part of July or the latter part of June.

With the influx of games that have been scheduled for the season it looks as if the Hubbers will have a full season booked and will be hard at it during the pastime months.

Colorado Is Derby Favorite

By United News
LONDON, May 31.—Not in years has the eye of the historic Epsom derby found one of the candidates such a strong favorite as money and expert opinion have made Lord Derby's brown colt, Colorado.

When the bookmakers met at noon Monday for the customary mid-day betting the 3 year old son of Phalaris-Canyon was quoted at the extraordinary short price of 13 to 8 for Wednesday's classic.

Two of the derby candidates were scratched Monday afternoon, cutting the field to 20. Of these, besides Colorado, the colt most favored are Coronach, which will be ridden by J. Childs now held at 5 to 1. Lex, with M. Beary up, 10 to 1. Swift and Sure 10 to 1. Apple Sammy 10 to 1 and Cimex, which will be piloted by the youngster, C. Smyrke, 33 to 1.

Twelve times as many threshing machines of a popular make were bought in France this year as in 1925.

IN OUR OFFICE

BILLY'S UNCLE

WEIR, GRID STAR IS HARD WORKER

A look at the comments of the critics on the athletic honors accorded Ed Weir, the all-American tackle who will speak on Character and Clean Athletics in Lubbock, on the afternoon and evening of the fourth day of the Premier Chautauqua program, convinces any reader of the leadership in athletics of this young American athlete.

Hard, hard work has been the lot of Weir to attain the success he has climbed to in the athletic world. Hard work and clean living. Weir will appear twice each day on the program, in the afternoon talking on Clean Athletics and at night as an interlude to the College Day musical revue, he will explain and demonstrate some health building exercises.

In picking his all-Western eleven, Walter Eckersall says: "Weir is placed at left tackle without a bit of hesitation. He is the outstanding player in the Missouri Valley conference, recognized by almost all as one of the leading linemen in the country. He smears plays before they get started; especially did he do so against Illinois and Notre Dame. He is a gentleman on and off the field, a natural leader."

Frederick Ware, another critic, records the following story as an insight to the work of Weir: "I want Ed Weir."

"Knute Rockne, unquestionably agitated, and apparently by anger, rushed up to 'Indian' Schulte, as the big line mentor leaned dejectedly against the wall of the Notre Dame gym, near the entrance. The 'Indian' was way down. Only a few minutes before the timekeeper's gun had ended the worst massacre in the Cornhusker annals.

"Schulte started. 'What's wrong Knute? What's Ed done? What're you sore about?'

"Rock interrupted. 'I said I want Weir! Where is he?'

"Schulte indicated the Husker dressing room, and the Hornsman's trainer ran inside. Somewhat apprehensive, Schulte followed. Maybe there had been something amiss on the field. Schulte reached the top of the stairway to the Husker quarters just in time to see Rockne rush to the half clad young captain and grab him violently. Schulte rushed forward. But there was no need for alarm.

"Rock held tight to Ed's arm as he yelled, with a quiver of admiration for work well done in every word: 'Weir! Weir! I want to say to your face that you're the greatest tackle the cleanest player I ever saw! I takes a real man to shine on a team that is being beaten, and you out-shone everyone on the field today!'

A splendid tribute to the character of young American manhood, aside from his prowess as an athlete.

AMERICAN ASS'N RESULTS.

First game:
Toledo .012 030 100 1-8 10 1
Columbus .104 020 000 0-7 11 5

DURKIN AID SCOTT FACE TRIAL TODAY

SHOOTING SHEIK AND GALLOWAY DODGER UP FOR THEIR LIVES

By United News
CHICAGO, May 31.—Barring last minute postponements, Martin J. Durkin, the shooting sheik, and Russell T. Scott, the famous galloway lodger go on trial for their lives Tuesday.

These two men are perhaps Chicago's best known criminals. Each in his own way has tried to make a fool of the law—Scott by taking advantage of lady luck and the new science of psychiatry; Durkin by his quickness with which he can draw a gun.

Old Soldier Dies In Line of Duty

By United News
CHICAGO, May 31.—A humdrum leader in second hand furniture became a soldier again Monday and died in the line of duty.

Stirred by memories of his fighting days in the Philippines and China when he was a member of the expeditionary force which put down the Boxer rebellion, John Davis, 62, proudly announced to his wife that he was going to march in the Memorial day parade with his comrades.

A bugle sounded and the parade started moving forward with Davis marching erect and leading Frank Smith, a blind friend. A few blocks from the starting place there was a commotion in the ranks. Davis collapsed. He was carried to the sidewalk, dying, and the marchers continued.

DECORATE AMERICAN GRAVES IN FRANCE

By United News
PARIS, May 31.—Every grave of an American soldier who died in France during the war against Germany and the graves of many heroes of the civil war who died in naval conflicts in European waters were decorated Monday with American flags and wreaths of laurel and flowers.

LOCKHART WINS

(Continued from Page 1)

The others finished in the following order:
Cliff Woodbury, in a Boyle Special, third.

Fred Comer, Miller Special, fourth.
Peter De Paolo, Duesenberg, fifth.
Frank Elliott, Miller Special, sixth.
Norman Batten, Miller Special, seventh.
Ralph Hepburn, Miller Special, eighth.
Fred Leichleider, Nickle Plate, driving relief for Phil Shafer, ninth.
John Duff, Elcar Special, tenth.

Three other cars, which failed to place in the prize money, were on the track when Lockhart was flagged down. They were Bennett Hill's Miller Special, Thane Houser's Abell Special, and Anthony Culotta's Miller.

Approximately 150,000 spectators, many of whom had remained awake all night in order to obtain seats of vantage, witnessed the race and about 60,000 of these went back to their fireplaces soaked to the skin with rain water.

Lockhart had been a big time racer on dirt tracks in California but this was his first appearance in an international event. The victory was worth \$29,600 to him in cash, \$20,000 for first place and \$9,600 lap prize money.

Hartz won \$10,000 for finishing second and \$600 as a lap prize. Other prizes were as follows:
Third, \$5,000.
Fourth, \$3,500.
Fifth, \$3,000.
Sixth, \$2,200.
Seventh, \$1,800.
Eighth, \$1,600.
Ninth, \$1,500.
Tenth, \$1,400.

Twenty-eight of the small bore motors lined up when the starters bomb exploded at 10 a. m. The gun was difficult and when the race was stopped for an hour at 170 miles because of the rain only 14 drivers had not dropped out because of mechanical defects. Engines with only 91.5 inch piston displacement were being used for the first time, resulting in frequent stops at the pits for adjustment.

Despite the unfavorable condition of the track, there were upsets. The sudden termination of the race came as a surprise to the spectators, although they knew that it could be ended by officials any time after 150 miles.

COOLIDGE IN MEMORIAL DAY ADDRESS WARNS NATIONS OF EUROPE THAT THEY MUST DISARM THEMSELVES MORE

BY THOMAS L. STOKES
United News Staff Correspondent

WASHINGTON, May 31.—President Coolidge spoke directly to the nation of Europe in his Memorial day address here, warning them, in effect, that they must disarm further, and promising them the support of the United States.

His remarks plainly constituted a reminder to those who are now seeking the basis for further arms reductions at the Geneva conference, from which, Coolidge said, "we expect some practical results." He said the problems faced there "may be stripped of technicalities."

In more detail than in any of his previous addresses, the president went into the economic causes of war and said that the United States had done much to remove such causes by its aid to Europe. He defended lenient foreign debt terms on this ground. He also explained that part of his reason for a policy of "constructive economy" in this country was to make the people satisfied by relieving them of the burden of taxation on the theory that satisfied people "will not be so inclined to turn covetous eyes toward the resources of other nations." Surplus wealth, he added, can be added, can be used to help other nations.

Diplomatic representatives of every foreign country heard the president's address, the high point of which was an appeal for "a public opinion devoted to peace." The many thousands who jammed into the white amphitheater across the Potomac and stood on the grassy slopes outside included grey-headed and bent veterans of the Civil war, middle-aged men who saw service in Cuba, and the Philippines and younger men in France, during the world war.

After the address in the amphitheater, the president laid a wreath

Rabbit Drive For Dog Race Today at 3:30

A successful drive on the rabbits for the dog races to be held here on Friday and Saturday at the local coursing park located a mile and a half south of the courthouse, according to Gene Wofford. Another drive will be made this afternoon at the same place, stated Mr. Wofford last night. Bids for all the boys that desire to make the drive will be provided for and they are requested to meet at the Wofford Tin shop at 3 o'clock this afternoon.

Something like a hundred rabbits have been penned ready for the races. So much interest is being shown in the coming races that more than 500 rabbits will be needed to care for the dogs that will be here for the event.

Daily letters, wires and telephone calls are received by the coursing park management pertaining to the meet to be held Friday and Saturday. It is estimated that more than 500 people will be here as the meet is advertised over the state extensively.

Paris now taxes rooms in hotels. India is taking to balloon tires.

247 ENROLLED IN VOCATION SCHOOL

MORE INSTRUCTORS NEEDED TO TAKE CARE OF CHILDREN AT M. E. CHURCH

The Daily Vacation Bible School for children of from four to fourteen years of age opened at the First Methodist Church here yesterday with an enrollment of 248 students and with all members of the faculty in attendance.

Miss Annette Newell is superintendent of the Beginners' Department; Mrs. R. Fred Adkins is superintendent of the Primary Department, while Mrs. Harris McKels is superintendent of the Junior Department.

Twelve more helpers are needed to make the school a success and those qualified to enter into this work will be greatly appreciated if they will but inform any of the above mentioned department heads.

The vacation school will fill a distinct need in Lubbock and will be valuable to the children who attend. The entire basement of the church has been placed at the disposal of those in charge of the school, and every facility for carrying on the work will be provided.

With ample room, adequate equipment and materials, the teachers in charge will be enabled to give their very best to the students.

Texans to Attend Y. M. C. A. Meeting

AUSTIN, Texas, May 31.—On June 3 a group of students from the University of Texas will leave Austin enroute to Hollister, Mo., where the annual Y. M. C. A. encampment for the Southwest is held. James Stratton of Fort Worth, president of the Y. M. C. A. cabinet for the coming year, has announced that the following men will attend the encampment: Herbert Reiss of Franklin, Jimmie Petty of San Antonio, Archie and James Stratton of Fort Worth, Horace Akin of Austin, Spurgeon Bell of Austin, John Hoff of Comanche, W. A. Smith, secretary of the University Y. M. C. A., Howard Johnson, associate secretary, and Dr. L. H. Wharton, pastor of the University Presbyterian Church.

The encampment, an annual affair, is attended by students over the Southwest, and will last from June 4-13. In addition to the seven students who have signed up for the trip, others are considering the opportunity, according to Stratton.

Wants 10-Year Test Of Prohibition

By MRS. GRACE MORRISON
Director Women's Club Federation of Massachusetts.

Written for The United News, ATLANTIC CITY, N. J., May 31.

Much has been broadcast by the press during the past few days of President Coolidge's sponsoring a plan whereby state, county and city law officers will be drafted into service as federal prohibition agents.

In my mind, the president's position in this matter is absolutely consistent. The 18th amendment and the Volstead act were fairly adopted and at the same time, any one has the right to work for modification. I have perfect respect for any person who works legitimately for a repeal and perfect contempt for those who break the law.

Including among those who are flagrant lawbreakers are women of important standing. Men and women alike should live within the limits of any law, whether it be a part of the constitution of the United States or a borough ordinance.

Only a minority believe in modification. That is their right. There is a minority of women at this convention of the general federation of women's clubs who favor some change. It is their inalienable right to speak their mind if their tastes are for light wines and beer. But the amendment will never be repealed.

It is my opinion that some of the fanatical statements and extreme proclamations of both "wets" and "drys" sometimes do more harm than good. They seem to expect immediate results from a law that has been established for only a short time.

No great reform such as the national prohibition law can be carried to a conclusive end in what might be called a test term. I don't think the law has yet had a fair trial.

It should have at least ten years before it can be determined whether the enforcement of the law has generally helped civilization.

BOY SCOUT TIES 600 DIFFERENT KNOTS

DALLAS, Texas, May 31 (U-P).—The no mean feat of tying over 600 knots—and better than any preacher can tie them—is the accomplishment that Clarence Burroughs, 19, high school youth here lays claim to.

Burroughs who is a Boy Scout, has made a hobby of knot tying and he has a collection of boards on which the various knots are tied with one-fourth-inch cord. There are 528 knots in his display. More than 700 feet of this cord were used in making the display.

Burroughs has taken the lead in the instruction of knot tying in his troop. He says that incidentally his ambition is to go to Annapolis and attend the United States Naval academy there.

MEXICAN MOB
Mexico, Sity, Mexico.—Protests have been made to President Calles of Mexico, at the action of a mob in attacking the city hall at Bustamante, following a clash between political factions.

U. S. STEEL WELFARE PROGRAM COSTS MILLIONS

NEW YORK, May 31.—(UN).—Twenty years of organized accident prevention in the plants of the United States Steel Corporation has saved 46,000 men from death or serious injury, has averted accidents which would have disabled 322,000 other workmen, and has resulted in a very large saving of money, according to the 1926 report of the Steel Corporation's Bureau of Safety, Sanitation and Welfare, made public here today.

The report stated the Corporation has spent \$158,000,000 for safety sanitation and welfare in the last fourteen years, the largest item being \$45,000,000 for the relief of injured employes and of the families of employes killed. From 1912 to 1926 the Corporation spent \$31,700,000 for sanitation, \$28,000,000 for playgrounds, schools, clubs, gardens, visiting nurses and similar activities, \$15,700,000 for accident prevention, \$13,000,000 in pensions and \$22,000,000 for the employes stock subscription plan.

"OTHER PEOPLES BUSINESS."

Harley Sadler and his excellent company are with us again. Show-coers are always glad to welcome Harley. He always brings a good show, a big show and a fine lot of people. Their opening play will be a Cappy Ricks story entitled "Other Peoples Business." Harley, in the role of Berkeley Henderson, general manager of the Lakeside Implement and Machinery company, has one of the funniest characterizations ever seen in Lubbock. The newspapers of Houston, where they gave eight consecutive performances of the play were very enthusiastic in their praise of the play and of the excellent cast.

Berkeley Henderson is a very self satisfied old gentleman, who tries to make his wife, his son and his daughter believe that he is a very, very stern husband and father, but they know him for what he really is, a lovable old fraud and "bull-dozer." The children just make him lie down, roll, over jump through the hoop or anything else they choose at the same time making him believe he is having his own way about everything.

A. C. Hefner and Ethel Snow as leading people have fine parts, and Bart Couch and the irrepressible "Billie" Sadler have comedy roles that make Harley look well to his laurels. Harry Goldie, Bud and Cleo Narn all have responsible parts and the entire cast is exceptionally strong.

There have been several new and high class vaudeville acts added to the company since its last appearance in Lubbock, including Howard Haeve, a whistler, imitator and whirlwind dancer, the dancing Butters from the Orpheum circuit, "Pipe-Line" Bill Jones, the lad with the golden voice, and little Gloria Sadler, the heroine of the Houston fire, in her own versions of the "Charleston." All who come out will see a guaranteed attraction, one of the kind that is seldom seen outside the larger cities.

JAPANESE MAKE SURVEY TEACHERS' LOVE AFFAIRS

TOKYO, (United Press)—Japan has developed a mania for social research work.

Findings of a recent survey by the education bureau of Hamamatsu City, for example, disclosing that 70 per cent of the teachers in primary schools of the city were married after "romantic love affairs" while only 30 per cent wed in the good old Japanese fashion, through a go-between.

In ordinary Japanese marriages bride and groom do not see each other until the marriage ceremony, the betrothal being arranged by go-betweens with heads of the young people's families.

WORMS DO DAMAGE TO GRAPE CROP

AGRICULTURAL EXPERIMENT STATION DIRECTOR SAYS POISON IS NECESSARY

The grape crop in this section is being threatened with invasion by worms, and already vineyard owners are looking for some means of exterminating the insects that have already appeared in such numbers as to do serious damage to the leaves of the vines.

Donald Jones, superintendent of the agricultural experiment station, stated yesterday that a mixture of one pound of arsenate of lead dissolved in twenty-five gallons of water used as a spray, and repeated

within two weeks of the first application, will destroy the worms.

The worms are now damaging the leaves of the vines, but will soon start on the green fruit, Mr. Jones said.

Those not having enough vines to require 25 gallons of the poison can mix it in smaller quantities, using the same proportions as stated by Mr. Jones.

PARTY ADOPTS RADIO

Pittsburgh, Pa.—Instead of the soap box orator, the Socialist party plans to carry its party plans before the people by the radio.

BAYONET PIERCES HEART

Ogden, Utah.—A playful bayonet thrust at William Lloyd Parker, 17 years old, junior in the Ogden high school cadet battalion, by another, lodged in the heart and the lad died.

TEXAS PROFESSOR WINS SCHOLARSHIP

ROCKEFELLER AWARD GOES TO A. B. DOUGLAS OF STATE UNIVERSITY

AUSTIN, Texas, May 31.—The second award made by the General Education Board of the Rockefeller Foundation to a member of the University of Texas faculty for 1926-27 has been announced. O. B. Douglas, instructor in educational psychology, has been awarded an \$1,600 scholarship. According to his present plans, he will attend the University of Chicago next year, where he will continue his research in educational psychology. Douglas has been a member of the University of Texas faculty for the past three years. He is a

member of the Phi Delta Kappa, and the Education Association. After receiving his bachelor of arts degree at Texas Christian University in 1920, Douglas served as principal of the Corsicana High School for three years. While a member of the University faculty, Douglas has continued his studies in the Graduate School, taking his master of arts degree in 1924. Douglas' home was originally in Munday, Texas.

CANNON HALTS REVOLT

Oudja, French Morocco.—Only after French artillery fire had been brought into play was a sudden revolt and offensive of the Rifians checked, after negotiations had been well under way for peace between the warring tribesmen and the French. The revolting tribe was led by Beni Mestara, who had been accepting French rule.

He Draws Favorite In Calcutta Sweeps

BOMBAY, India, May 31.—Cyril Stileman was counted the luckiest man in the British empire Monday. Stileman drew the favorite, Colorado, in the English derby Calcutta sweep. He is enroute to England to have received an offer from London which would give Stileman \$60,000 cash for a half interest in his ticket. Stileman is a member of a Bombay firm of consulting engineers.

American light autobuses are the most popular in India.

NO-NOX

MOTOR FUEL

STOPS KNOCKS

Turns Mountains into Mole hills

FOR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

Gulf No-Nox and Carbon are Power Twins

GULF No-Nox Motor Fuel withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

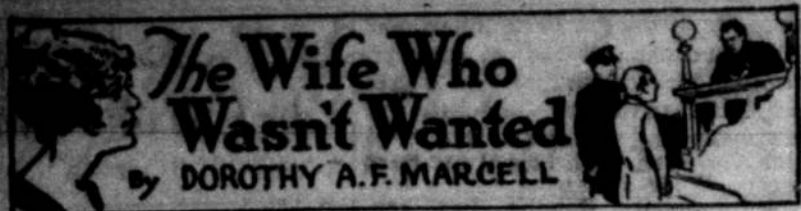

With GULF No-Nox Motor Fuel in your tank—step on it—you will get the story better than we can tell it.

This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The Orange Gas—At the Sign of the Orange Disc
GULF REFINING COMPANY

"THE WIFE WHO WASN'T WANTED" with Irene Rich is a picturization of this novel.

SYNOPSIS

Jerome Wallace, a candidate for District Attorney, is standing for re-election. As a young man he was a suitor of Irene, now Mrs. Mannering. For he is looking fondly at a girl's photograph, lovingly inscribed by Irene. His reveries are interrupted by a telephone call from Irene Jennings, a notorious ward leader, who is assisting him in his campaign. Wallace is a handsome man and believes himself a winner with women.

CHAPTER III—Continued

Politically speaking, Mr. Jennings was a man of parts. He was revered in such matters a skillful hand capable of producing results, rather remarkable results, too. It was Mr. Jennings' practice to get out the vote—for his candidate. He got it out, carelessly of where it came from. For voting purposes, Mr. Jennings had liberal ideas. He held a transient guest to be quite as good as a permanent boarder and a residence in a vacant lot equal to that which could be obtained by dwelling in a mansion. Furthermore, Mr. Jennings was not one to shed tears over the disappearance of a ballot box so long as it came from a precinct favorable to his opponent. In a word, Slick Jennings was a man of action, a sort of modern freebooter, feared by his enemies and beloved by his followers, a heterogeneous group of sports and near sports, who added zest, a very piquant sauce, it may be added, to the exercise of the

"Listen, Mr. Wallace, you got me wrong."

rights of suffrage by their fellow citizens.

But as Slick waited at the telephone for Wallace to respond, he was troubled and unduly moved. When emotion was combined with his flesh—Slick was fat—he perspired excessively. So now he sat there with his hat on the back of his head, and chewed viciously on a cigar, while drops of moisture arose in great beads upon his florid countenance.

"Hello,—hello," shouted Slick, seemingly crumpling a half inch of the butt of his cigar and swallowing the debris. "What the h—!"

A novel summons, this latter, and having a fire and vim much to be preferred to the "Are you there?" of our English cousins.

It was effective, too, for over the line came the calm voice of Wallace, and it might have been an echo.

"Well?"

"Have you seen the Star—the Star paper? Once Slick had been a newsboy and there were memories of this former occupation in his conversation.

"No, not yet. Is there something of interest to us, in it?" Even Wallace's studied calm could be shaken at times.

"I'll say there's a plenty, an eye-ful, or I'll chew my tie." If gaudy colors are derived from poisonous dyes, this was a perilous pledge.

"Well," said Wallace curtly, passing over the fact of Slick's tie in a most callous manner. "What did the Star have to say?"

Slick rolled his cigar from one side of his mouth, to the other, with astounding dexterity and swallowed hard. For an instant, it looked as if the whole cigar was going, but it came back, safe and sound.

"The Star paper," he said, and it was as if he spurred his time, "had

a place in it about the election." "There is nothing unusual in that, it ordinarily contains some election news."

"Well—it said—it said," worried Slick as if that which he was about to impart would be melancholy tidings for his hearer, "it said that a poll of ten precincts showed a big leaning towards Mannering."

But Wallace took the news easily.

"Oh, that doesn't amount to anything, Slick. It's just plain propaganda, the Star has been supporting Mannering from the very first." "Sure," agreed Slick, "but the drops of perspiration which fell upon the desk showed that he was by no means reassured. "But I got a friend,—a friend,—that's got a intimate friend in the Star office. An' he says the stuff's straight—they got the dope."

"Ah." Then after a moment's silence, "did you happen to get a line on the precincts they polled, too?" "Don't a stirrer drink gas?" proclaimed Slick with a pride which displayed itself through his troubles. "They're all on your side of the town in the high hat district."

"Ah," said Wallace, once more, "that will make it interesting for you, Slick, open up a larger territory for your amusement, give you a chance to show your metal, eh?"

So moved was Slick by this remark, that he raised his eyes to one of the many posters bearing Wallace's picture upon the wall and there was something almost supplicating in the look.

"Listen, Mr. Wallace, you got me wrong. I don't never let my boys use metal. I frisk 'em myself before they go out. I don't stand for no rough stuff, just fists, maybe a club or two if somebody gets mean. An' listen, Mr. Wallace, I got a friend,—a friend,—that's got a friend down at the Court House, an' this guy tips me the office, Mannering's strong with the bulls. They pick him for a winner, and he plans to pack a million of them around every polling place in town. They're bound to me unfriendly, Mr. Wallace, an' I won't have no elbow room. It's intimidatin', Mr. Wallace, that's just what it is. You can't work without plenty of elbow room."

Slick hesitated an instant and then went on in the full measure of his woes.

"These women voters, Mr. Wallace, they keep snoopin' aroun' an' don't give you no elbow room, neither. They keep lookin' up addresses and makin' a holler about this one, an' that one, till you can't get nothin' done. It looks like a clean freeze-out for us, Mr. Wallace."

Then, over the wire came the response in Wallace's bland tones. "Why bother me, Slick,—aren't you being paid to worry?"

"I'll be d—d," said Slick as he hung up the telephone and then he turned with a melancholy air. It was the air of an artist who finds his work scorned. He might have been an artist whose picture was refused, a literary man whose manuscript was rejected. Chewing away at his cigar, he sat there with a mournful visage, longing doubtless for the good old days, longing for the gas-house.

But, though Wallace's voice was bland, he did not turn immediately from the telephone, but sat there, thinking, thinking. Something must be done to stem the tide which appeared to have set against him, but what?

CHAPTER IV

A gay place, a very gay place indeed was the Westmore Country Club. Too gay by far, said certain of the old golf hounds who liked to seek out a congenial crony, find easy chairs and, in the enjoyment of cooling drinks, live over again the blood stirring delight of that birdie on the fifth or to submit appropriate alibi for the slice which landed them in the rough on the seventh.

To such keen disciples of St. Andrew's, the younger set's continued round of dinners and dances was an offense but little better than a stench in their nostrils, the Club's reputation as a social center, a snare and a ginsin, and the whole thing displaying a tendency towards higher scores and a neglect of the graver things of life both inexcusable and reprehensible.

THE STAR PAPER CONTINUED

33 PASS LIFE SAVING TESTS AT TEXAS UNIVERSITY

AUSTIN, Texas, May 31—When the Red Cross Life Saving tests were given at the University of Texas under the direction of Capt. Alphonso Ragland, field director of the Red Cross and a former Longhorn football star, twenty-six women students and six men students successfully passed the tests. It is planned to organize a permanent co-ed life saving club at the University soon.

Many small industries are being started in Mexico.

How Well We SERVE Should Measure the Extent we Prosper!!

J. A. RIX

Hundreds of people who never before visited our store came during the Treasure Hunt. It was fine!"

W. A. MYRICK, JR.

"We consider the Treasure Hunt one of the most interesting and profitable advertising campaigns we have participated in."

B. SHERROD

"As a crowd-getter we have never known anything to equal the Treasure hunt."

HAWKINS DRY GDS. CO.

"The Treasure hunt made us hundreds of new acquaintances and we certainly were pleased with it."

HAWKINS'

"Being comparatively a new store we believe the Treasure hunt one of the most profitable investments we could have made."

E. M. CONLEY

"The Treasure hunt was a dandy! Not only were good Treasures found but people were entertained and advertisements got good results."

MISS KENDALL

"The Treasure hunt was the very best investment we could have made in advertising!"

J. C. ANDERSON

"We were unable to properly care for the crowds the Treasure hunt brought to our store."

We Thank You, Gentlemen!

Simple Mixture Stops Gas Bloating

Simple buckthorn bark, glycerine, etc., as mixed in Adierka, often helps stomach trouble in TEN minutes by removing GAS. Brings out a surprising amount of old waste matter you never thought was in your system. Stops that full, bloated feeling and makes you enjoy eating. Excellent for chronic constipation. Adierka works QUICK and delightfully easy. City Drug Store.

Justice of the Peace, Prec. No. 1: COL. W. E. JOHNSON (Re-election)

POSTOFFICE IS BACK TO NORMAL

BUSINESS AS USUAL IN SPITE OF CALVE-IN SATURDAY

Business will be on a normal basis at the Lubbock postoffice when the doors of that institution swing open this morning, according to John L. Vaughn, the postmaster, who with the other members of the force has been working under a terrible handicap since the roof of the building was crushed by impounded water during a down-pour of rain Saturday afternoon at 4 o'clock.

Walker & Royalty, local building contractors, have replaced the shattered roof of the building, and last night cleared away all the accumulation of material about the building enabling the postoffice force to replace the furniture and make readiness to resume work this morning on a normal basis.

Despite the fact that the entire building was working under a roof cave-in and it was Sunday morning before any headway could be made in recovering the furniture, mail sacks, and equipment that was underneath the wreckage, Postmaster Vaughn and members of his force succeeded in carrying on with such constant efforts that all incoming mail was delivered and outgoing letters and parcels were dispatched on a schedule with outgoing trains.

work is all burned away and nothing remains save the metal frames which go back for remelting process.

In almost every town now-adays one will find at least one auto wrecking establishment. Here of old worn out cars are stripped of useful parts, and the rest of the machine is thrown away.

And too, in or around every town will be found an open lot on which will be seen various parts of old scrapped cars waiting for the junk man to take charge of them and ship them to some plant for remelting.

SLATON JUSTICE WOULD PINCH BUSINESS MEN FOR NEGLIGENCE

Justice of the Peace J. Paul Murray, of Slaton, was in Lubbock yesterday looking after business and indicated that he will have subpoenas issued at once for a group of leading business men of Lubbock and Slaton to appear in his court at the Slaton city hall to answer as to why these two cities have not been joined in a united effort to develop the oil and gas possibilities of the territory lying midway between the two cities.

"I believe we could prove that the men are guilty of criminal negligence, and that they are suffering the need of natural gas whereas it is available in commercial quantities a few hundred feet below the surface," Justice Murray said.

"We have had every kind of offender in our court, and believe we can take care of the Lubbock and Slaton gas situation if we can get the leading men of the two cities together," he continued.

Think Motorist Hit Man, Buried Him

By United News
SAN JOSE, Calif., May 31.—Discovery in a shallow grave of the body of Andrew Paschute, 22, has given rise to the theory that the man was struck down on the highway by a motorist who buried his victim in an effort to conceal the accident.

Paschute was an itinerant worker and the body had been buried for some time, making it impossible to tell the cause of death.

PASSES BUM CHECKS TO DRESS UP CHILDREN

EAST ORANGE, N. J., May 31.—Mrs. Norma McQuestion, comely mother of four, has been arrested for passing more than 90 worthless checks. She told police that she used the checks to buy smart things for her children.

JOY RIDES

White Plains, N. Y.—Two years in Sing Sing prison was the time Andrew Brodsky, 13, years old, after being convicted of stealing an automobile near the Yonkers armory and using it for joy riding.

Banded bags are so popular in this country that the factories turning them out in Berman are busy.

STOCKS WHEAT COTTON

NEW YORK FINANCE

By United News
NEW YORK, May 31.—A new month starts Tuesday and a new market so far as stocks are concerned.

So far this year, January has registered little hope, February registered apprehension, March registered anticipation and realization, April general recession and May re-organization. June starts with the stock market in quite excellent shape liquidation apparently has run its full force, oils and rails have been receiving the benefits of very good buying over the past fortnight and trading sentiment has almost completely reversed itself.

May ended with call money at 4 per cent. This rate was induced largely by pre-holiday withdrawals and by demand for month-end settlement.

The Central Trust company of Illinois is impressed with the improvement in March and April in many important lines over the same months a year ago. For instance it notes the betterment in the gains in gross and net on the part of the railroads; the increased freight car production; automobile production, lumber cut, shipments and orders booked production of pig iron, silver, copper, coke, petroleum and its products. Gasoline consumption so far this year has greatly exceeded

the industry's expectations according to oil leaders in the east. Early in the year one of the most prominent experts in this line estimated that the total gasoline demand in 1926 would be approximately 15 per cent greater than the total demand for 1925. The actual demand in the first three months of the year showed an increase of 22 per cent. This back ground of exceptionally good demand for gasoline forms one of the real basis of the present heavy demand for the leading oil stocks, and furnished the real backbone of the industrial group over the past fortnight.

KANSAS CITY LIVE STOCK.

CATTLE supplies here and at most western centers were light. The demand here for the better grades of killers was good considering the fact that all pack plants were closed down for the holiday. Trade on the best lightweight steers and yearlings was active, and prices strong to 15 cents higher. Heavy steers were slow and about steady. Most steers sold around \$8 to 9.35 with tops at \$9.50. Cows and butcher grades were irregular. Most cows sold \$5 to \$7 and best heifers ranged from \$8 to \$9.40; steers and heifers mixed brought \$9.50. Calves were unchanged with most veals around \$10

to \$11. Total supplies of hogs at the five western markets were lighter than a week ago or a year ago but with most packing plants closed, the demand was light and the values at most points were lower; stock pigs were scarce with unchanged, most sales around \$15 to 15.35. Top fat hogs brought from \$13.55 to 13.95. Heavies sold around \$13.50 to 13.90; mediums \$13.75 to 14.00; lights \$13.90 to 14.15.

Hogs 10000; 5 to 10c lower; better grades 175 to 230 pound weights \$13.85 to 14.00; light lights strong, no heavies sold; packing sows \$12 to 12.50; stock pigs steady \$14.75 to 15.25.

CATTLE 10500; calves 2000; few early sales of light weight steers and yearlings fully steady; yearling steers \$9.50; light weight steers \$9.35; yearling heifers \$9.10; under-tone weak; sheik steers scarce, under-tone around steady; few canners early \$3.75 bulls; steady to weak; hogs \$5.25 to 5.50; veal steady; top \$11; stockers and feeders slow; better grades steady; quality plain, tending lower.

Sheep 13000; sheep and shorn lambs about steady, best shorn lambs \$15.25; others downward to \$14.50. Texas wethers, largely 2 year olds \$3.50; others \$7.50 to 8.00; spring lambs steady to 25c lower; Idaho lambs \$17.25; best native \$17; better grade lambs \$16.50 to 17.

Mexico City, Mexico—After city officials in Zacatecas had rejected requests of Catholics requesting moderation of the present religious laws, a large crowd of Catholics assembled on the central square, protested, and as a result troops appeared on the double and three persons were killed, including a Federal captain.

FEET FREEZE
Ramford, Me.—Her feet frozen after exposure in the Stockwell Hill woods for eighteen hours Annie Freeman, seven year old daughter of Mr. and Mrs. Curio, was found otherwise in good condition.

FAIRVIEW SCHOOL HOUSE COMPLETE

NEW BRICK BUILDING IS SIXTH OF ITS TYPE IN RALLS SECTION

RALLS, May 31.—The Fairview independent school district 8 miles northwest of Ralls has just completed a new modern brick school house. This makes six schools of this type in the Ralls section and gives the best of educational facilities.

Health

Swat the Fly

AUSTIN, Texas, May 31.—The fly is a serious health menace to every family that harbors it, stated Dr. H. O. Sappington, state health officer, who urges citizens of the state to use every means possible in exterminating this filthy, disease carrying insect.

"The findings of sanitary science have conclusively proven that the fly is an enemy to mankind. A creature of filth, he crawls from one loathsome object to another, covering his hairy legs with disease germs, which if given an opportunity, he transfers to exposed food on table or sideboard, and the baby's face, hands and milk bottle.

"Some of the diseases, the germs of which he most commonly spreads, are typhoid fever, dysentery, enteritis, and infantile diarrhea. Being a prolific breeder, one fly can propagate millions of its species during a single season. Start your fly extermination campaign early in order to keep breeding at a minimum.

Methods of Fly Control. "The principal effort to control this dangerous insect must be made at the source of supply—its breeding place. Absolute cleanliness and the removal or destruction of anything in which flies may breed are essential. The favorite breeding place of flies is horse or other animal excreta, but if this is not available, they will lay their eggs on a great variety of decaying vegetable and animal materials. Barnyards, chicken yards, etc., should be cleaned and disinfected often. Garbage and waste that can not be burned or buried, should be kept in tightly covered garbage cans until removed from the premises. Open-back closets are a serious health menace and should be replaced with pit privies.

"All dwellings should be screened with 16-mesh wire, and all screens should fit tightly and be kept in a state of good repair. Swat every fly that makes his appearance on the inside of a screened home, and where necessary resort to the use of fly traps and fly paper. Literature on fly extermination will be sent on request to your state board of health, Austin."

Wills Point Cleanest Town in Van Zandt County. Wills Point was declared the winner in the cleanest-town contest held recently in Van Zandt county.

A sanitary inspector from the state board of health assisted in making the awards, and a thorough sanitary survey was made of all towns. The contest was held under the auspices of local health officials and Women's Federated Clubs.

Towns entering the contest were Wills Point, Grand Saline, Edgewood and Canton. Owing to some misunderstanding, the latter town did not undertake organized clean-up activities, but was given sanitary rating by the judges. Attention was called by those making the awards to necessary improvements that should be made in each town to eliminate health hazards, which resulted in the request for another inspection to be made on the 10th of June, at which time, rating will be given on corrections made.

Bonham Planning Sanitary Improvement. Bonham is one of the numerous towns in Texas that has made plans for an intensive sanitary campaign during the summer months, which includes provision for mosquito-control work. A complete sanitary survey has recently been made of the city, and a new sewage disposal plant and extensions to the sewer lines are being planned for the near future.

Jack Biggerstaff has been appointed fulltime sanitary inspector, and under his direction, an extermination campaign will be waged against flies, mosquitoes, and other health menaces.

Co-eds Plan Trip to Y. W. C. A. Meet. AUSTIN, Texas, May 31.—Immediately following commencement exercises seven students from the University of Texas and Miss Ione Spears, student life secretary for women, will leave for the annual Southwestern Y. W. C. A. Student Conference to be held at Monte Ne, Arkansas, June 11 to 21.

Monte Ne, a summer resort in the Ozarks, will be turned over to the representatives of the Southwestern Division during the conference. The coldness of the nights in the Ozarks will make it necessary to use the 10 open fireplaces in the resort here, according to Miss Spears. Swimming, tennis and golf are some of the sports that will relieve the serious work of the conference.

Some of the interesting speakers on the program are "Shorty" Collins, Dr. Bradley, Miss Winifred Wygal of the National Student Staff, and Miss Hilda Howard, national secretary for the southwestern region.

The following students going to the conference will meet in Dallas, June 10, and leave together for Monte Ne: Misses Mary Walker and Grace Oldfather of Cleburne, Ezra Miss Fudge of Dallas, Mary V. Atkinson of Mayfield, Helen Hamilton of Amarillo, Marion Crofoot of Austin, and Florence Spencer of Beaumont.

PRESIDENT COOLIDGE SPEAKS AT ARLINGTON. WASHINGTON, May 31 (U-P)—President Coolidge led the country today in its tribute to the nation's war dead.

At Arlington National Cemetery, near the Tomb of the Unknown Soldier, the President in a Memorial Day address rededicated the nation to the ideals of the silent dead about him.

A last remnant of the Grand Army of the Republic, flanked by veterans of the Spanish and World wars,

stood with bowed heads as reverent hands laid wreaths upon the Unknown Soldier's Tomb. High army and navy officials and cabinet officers participated in the ceremonies.

Earlier in the day 1,200 paraded in the capital. Yesterday the American Legion held a memorial service at the tomb of the war president, Woodrow Wilson, in St. Albans cathedral.

In every army post throughout the country the day was appropriately observed, according to reports to the War Department.

Americans abroad decorated the graves in "Flanders' Fields" assisted by villagers who had not forgotten those they welcomed as defenders.

SHOOTS ANOTHER

Philadelphia, Pa.—For killing James F. Hartley, while embracing his wife, George F. Osborne, milk wagon driver, was sentenced to prison for a period of from three to six years. The judge said the court realized Osborne's wife had been unfaithful to him, but stated that gave him no right to take human life.

LUBBOCK BOY WINS HONORS

CHAS. BACON MAKES HIGH GRADE AT WENTWORTH ACADEMY. LEXINGTON, Mo., May 31.—Charles R. Bacon of Lubbock, has been designated by the military department at Wentworth Military Academy as one of the honor students.

He received honorable mention for his work in second year cadet, having an average grade of 91.7 in military work for the year. He was sergeant in A Company. Wentworth is ranked as an honor school of the War department, being one of twelve select military schools in the country on the honor list. Several of the graduates this year received credentials from the secretary of war entitling them to commissions in the officers' reserve corps as soon as they become of age.

Bacon was graduated from the two year junior college department at the commencement exercises held this week. During the two years he has been here he has ranked high in scholarship, having been on the honor roll most of the time. He expects to enter the University of Texas next year and is planning to study medicine.

HEMPSTEAD MAN LEADS LEADS SUNDAY CLUB

AUSTIN, Texas, May 31.—Levi Blasingame of Hempstead was elected president of the Sunday Club of the University of Texas for the fall term of 1926-27 at a meeting held recently. Ed Lindgren of Cleburne was made vice president, Miss Mary Frappa of College Station, secretary, and Paul Netzer of Laredo, treasurer. The president and vice president serve for the fall term only, but the secretary and treasurer are elected for the entire year.

An organization of the Episcopal Church, the Sunday Club is made up of members of that church and others. Members of all denominations are enrolled.

CITY AUDIT TO BE COMPLETED SOON

H. V. ROBERTSON SAYS WORK WILL BE FINISHED BY JUNE 21ST.

H. V. Robertson, of Amarillo, head of the firm of H. V. Robertson & Co., auditors, who are making an audit of the books of the City of Lubbock, was here yesterday looking after the work which is progressing nicely and which will be completed by June 21st at which time the court order for a re-audit of the city's books will become effective.

Mr. Robertson stated that business is especially good at Amarillo at this time, and that he has been compelled to employ double the number of men usually employed to take care of the business at his office there.

5 YEAR OLD LEADS ORCHESTRA OF SEVENTY

KANSAS CITY, May 31.—Although he is only five years old, Billy Fabian, a Kansas City kindergarten pupil, is the leader of an orchestra consisting of 70 members, school children of about his own age.

EASTER DYES KILL

Pittsburgh, Pa.—Easter dye caused through egg shells and seeped the death of Olga Kosh, 7 years old and the serious illness of seven other members of the family according to an opinion of attending physicians.

BELATED WELCOME FOR NORGE CREW

NOME PREPARES FOR RETURN OF COLONIAL NOBILE TODAY. After completing preparations for shipment of the Norge back to Rome Nobile requested help from the United States coast guard station here and the United States steamship Hazel was dispatched immediately to bring the polar party to Nome.

Several members of the expedition who successfully crossed the North pole in a flight from Spitzbergen to Alaska, including Roald Amundsen, their leader, already have visited Nome. But most of the 18 men who participated in the epochal cruise have stayed at Teller, where the dirigible was forced down May 13 helping in dismantling and crating the airship.

The Hazel will be unable to push through to Teller and men of the Norge must cross 14 miles of ice on Port Clarence bay in order to meet the ship.

Inhabitants of Nome, at first disappointed because the Norge failed to arrive here as scheduled, have developed a kinder admiration for Nobile and have planned an enthusiastic welcome for the Italian officer.

JEW WINS FRECKLE FACE WIN CHAMP TITLE

NEW YORK, May 31.—While four sons of Erin competed for the freckle championship at County Clerk Thomas Farley's frecklefest in Central park, Harry Berman, a red haired interloper from the Hebrew orphanage, walked into the ring and won by a speck. About 2,000 spots were counted on his face 500 more than were boasted by Don Curran, last year's champion.

OPEN AIR OPERA SEASON STARTS IN ST. LOUIS

ST. LOUIS, May 31 (U-P)—With the wave of the conductor's baton and the first liltin melodies of "Eileen," tonight will see ushered in the eighth annual season of Municipal Opera here.

Municipal Opera has become so increasingly popular that this season will see 12 different operas, ranging from Verdi's "Il Trovatore" to the light Gilbert and Sullivan "Tolanthe" produced.

Sweden Opposes Prohibition Law

STOCKHOLM, Sweden, May 31.—Twelve years study of the prohibition question has convinced a government commission appointed to investigate the matter that a dry Sweden is not to be desired.

The commission is now ready to make its report on work begun in 1914. However, if 30,000 voters support a request for introduction of a prohibition law in the Rigsdag the proposal must be submitted.

The minority party has recommended that local option be adopted throughout the country.

HOW SKINNY KIDS GAIN WEIGHT AND STRENGTH

Everyone knows that Cod Liver Oil is full of vitamins, is a flesh builder supreme. In children where rickets are suspected it even helps to build up the bones and strengthens the body.

But let us all be glad! The poor under weight, sickly, puny kids don't have to take the vile, nasty oil itself any more for thanks to science McCoy's Cod Liver Oil Compound Tablets have taken its place.

Sugar coated they are and as easy to take as candy and if you will give them to your sickly child for thirty days, you'll be very happy indeed.

If you are not, Lubbock Drug Co., or the druggists from whom you bought them is authorized to return your money. 60 tablets 60 cents—but be sure and get McCoy's the original and genuine.

Following the decline in the cost of living in the Netherlands, the railroads there are reducing passenger and freight rates.

In the construction of a highway stretching 28 miles across Japan, 531 bridges and 1,140 viaducts will be built.

SMCKING BY WOMEN ATTACKED AT ASSEMBLY

BALTIMORE, May 31.—The "growing use of cigarettes among women and girls" was noted with regret by Dr. Charles Scanlon, general director of the department of moral welfare in his annual report made today to the Presbyterian general assembly in session here.

"The growing use of cigarettes among women and girls is a discouraging development of recent years," said Scanlon. "In the large centers of population one may see women smoking apparently without shame in hotels, restaurants and other public places.

"It may be said that it is morally no worse for a woman or girl to smoke than for a man or a boy. Logically, and perhaps ethically, that is true but the stubborn fact remains that on account of her more highly organized nervous system and her sacred function of potential motherhood and according to the ideals of our time and country regarding women, it is, to say the least regrettable that so many should seek to place themselves on an equality with men in the lower rather than the higher things of life."

The first mosquito discovers the Bopp Family

DON'T let mosquitoes spoil your summer. Spray them with Flit.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects. Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs.
