McElroy Agrees To Seek Revision Of Ike's Plan

WASHINGTON (AP)—Secretary of Defense McElroy agreed today to try to reword President Eisenhower's defense reorganization proposal to rule out any possibility that it would merge the armed services into one force.

McElroy was a witness before the House Armed Services Committee in a session that sounded much like a negotiating conference on possible compromises with critics of the White House plan. The secretary, however, carefully emphasized that he was only talking about attempts to work out suitable language and not agreeing to any changes in advance.

It was McElroy's fourth day in a row on the stand under sharp questioning.

Eisenhower's proposal laid great stress on unified commands which could contain elements from the Army, Navy and Air Force, and on providing a clear line of military authority over those commands from the secretary of defense and the President.

McElroy was asked today whether, if all the forces in the field were so organized, it would be possible for the separate military departments to lose their identity.

"I don't see how they could lose their separate identities if the legislation provides that they must continue to exist," McElroy replied.

He said it might be "a strictly legal possibility" that practically all the services might be organized under unified commands, but that this is a practical impossibility.

McElroy asked for and was given more time to submit written answers to a questionnaire handed him at the outset of the hearing by Chairman Vinson (D-Ga).

Vinson has said that the questions go to the heart of the President's proposals to strengthen the authority of the secretary of defense, and of congressional doubts about them. McElroy had said he would reply if possible today, but he told the committee he has not had time personally to review the material as thoroughly as he would like.

However, the questioning today was almost entirely in the field covered by Vinson's written questions.

In advance of the committee session Eisenhower had a breakfast date with the Joint Chiefs of Staff. James C. Hagerty, White House press secretary, said the reorganization plan probably would be one of the subjects discussed.

Cautious indications of the possibility of a compromise came from both sides in the congressional hearing yesterday.

McElroy stressed that he was not agreeing in advance to any concessions. But he said that "so long as we jointly agree on the objectives to be achieved" it should be possible to discuss changing parts of the proposed bill.

On the other hand, Rep. Hebert (D-La) said it seemed to him that McElroy has "conceded some very important things already." Hebert has been sharply critical of the reorganization plan.

McElroy has testified the administration has no intention of merging the services, that it considered and discarded the idea of a single chief of staff, and that it knows it could not make any great change in the status of any one armed service over the opposition of Congress, which still would hold the purse strings.

READY FOR SPRING—Roy Kizer, left, and Ray Kizer, twin sons of Mr. and Mrs. Fred Kizer, who live in the Standard of Texas camp on the Clairemont Road, are ready for spring weather with their big Western straw hats — and ice cream cones. They were celebrating the arrival of spring weather to demonstrate that tomorrow is Snyder Straw Hat Day. (Lee Watson photograph)

Union Welfare Bill Vote Expected Today

WASHINGTON (AP)—Sen. McClellan (D-Ark) told the Senate today it would be unfair to consider broad-gauge labor legislation without first giving all interested persons a chance to be heard on it.

McClellan, chairman of the Senate Rackets Investigating Committee, told his colleagues he doesn't want his own comprehensive labor bill debated as an amendment to a pending measure for regulation of employe pension-welfare funds.

The Arkansas senator's stand added powerful support to a movement led by Democratic Leader Lyndon B. Johnson of Texas and some Republicans to avoid a show down at this time on President Eisenhower's labor legislation proposals or a series of measures offered by Republican Leader Knowland of California.

Under questioning by Sen. H. Alexander Smith (R-NJ), Sen. Kennedy (D-Mass) said a Senate Labor subcommittee he heads will give consideration to Eisenhower's proposals in a series of hearings scheduled to begin May 5.

It appeared probable that some votes would be reached in the afternoon.

Johnson told newsmen "we are ready to vote at any time."

Sen Knowland (R-Calif) planned to call up about 10 broadening amendments. He described them as designed to enforce democracy in unions.

The Senate also had before it amendments recommended by President Eisenhower.

Sponsors of the measure remained confident they could defeat all amendments and confine the bill to the one subject for which it originally was intended.

This purpose is to prevent wrongdoing in connection with the employe benefit plans by requiring registration with the secretary of labor and full disclosure of the detailed operations of each plan.

Sponsors of the bill succeeded 59-28 last night in defeating the first proposed amendment to the bill — an effort by Sen. Allott (R-Colo) to exempt from its provisions welfare and benefit plans of a type largely controlled by management.

Sen. Kennedy (D-Mass) laid the groundwork for the Democratic arguments against the Knowland and administration amendments by pledging to hold hearings on broad labor legislation starting May 5. Kennedy, chairman of a Senate Labor subcommittee, estimated the hearings could be finished in three weeks.

Nevertheless, Knowland, Sen. Goldwater (R-Ariz) and other Republicans expressed strong doubts that any other labor bill would be brought up this session.

Knowland said it might be "sheer coincidence" that the pension-welfare fund control measure, the only bill sent to the floor so far, also was the only part of his proposals or the administration's package that the unions endorsed.

Yarborough To Tell His Plans Monday

WASHINGTON (AP)—Sen. Yarborough (D-Tex) will disclose his political intentions in a radio speech in Texas Monday night.

The senator has been considering whether to seek re-election or try again for the governorship.

His speech is to be broadcast over 31 stations on the Texas Quality, Texas State and East Texas Radio networks at 6:30 p.m. (CST) Monday. Aides said the senator is buying the radio time.

Yarborough canceled plans to fly to Texas last night because of Senate consideration of labor legislation. He had planned to address a meeting of the West Texas County Judges and Commissioners Assn. in El Paso this morning.

He intends to return to Texas this weekend, but his departure time is indefinite.

Yarborough's office said:

"Due to a close fight between the Democrats and Republicans in the Senate, Sen. Yarborough Thursday night canceled his trip to Texas to stay at his post of duty until weekend adjournment.

"When the session closes Friday or Saturday, he will go to Austin to begin work on his announcement speech . . .

"It will come on the eve of Sen. Yarborough's first anniversary in the Senate. He was sworn in April 29, 1957 after winning over 21 opponents.

"In his last race against a single opponent, Price Daniel, in a runoff for governor in 1956, Yarborough pulled 49.9 per cent of the vote and carried 147 of Texas' 254 counties."

Two Perish In Crash Of B47

LINCOLN, Neb. (AP)—A B47 Stratojet bomber assigned to the Lincoln Air Force Base crashed shortly after takeoff from Goose Air Force Base, Labrador, last night, killing two of three crewmen, Lincoln base officials reported today.

The aircraft was on a training mission and was headed for Lincoln when it crashed on ice-covered Goose Bay, about three miles from the Labrador base.

The dead were identified as 1st Lt. Benjamin C. Iglauer of Baltimore, Md., pilot, and 1st Lt. Thomas H. Opsomer of Kawkawlin, Mich., navigator.

Ducktail May Be Symbol Of Rebellion

LOS ANGELES (AP)—Does Junior sport a ducktail haircut, own a car and get low grades? He may be a near-genius showing resentment.

A high school principal who tested 191 senior boys—all above average in intelligence but half of them below average in grades — said today: "Combing the hair in an extreme style is symptomatic of a rebellion against society and approved norms and conventions.

"It is also, like the zoot suit and yard-long watch chains, sometimes indicative of a rebellion against authority, including the authority of the school.

"For reasons connected either with their homes, or society in general, these pupils are caught up in a set of circumstances.

"Their weird haircuts are often a form of retailiation against what their environment has done to them as individuals."

Charles Sutcliffe, 51, principal of Eagle Rock High School, began the study a year ago in 33 Los Angeles senior high schools.

100 Due At Ira Event

About 50 farmers of the Ira area and 50 Snyder businessmen are expected tonight at the farmer-businessman supper scheduled at Ira by the Chamber of Commerce agriculture committee.

The event will be held at 7:30 p.m. at the school cafeteria in Ira.

The program will include some stunts and music by an Ira string band. Some door prizes will be awarded farmers.

No speeches are scheduled.

The supper is free to Ira men, while Snyder businessmen pay $3 each for tickets.

Judging Teams To Lubbock Contests

A number of judging teams from the Future Farmers of America organization at Snyder High School were to leave late this afternoon for Lubbock to compete in district and area agricultural judging events.

The judging contests are to be held tomorrow on the Texas Tech campus in Lubbock.

A few judging teams have been in previous competition this year. Most active of those is the grass judging team, which took first place at an Abilene contest, which it won for its third consecutive year, seventh place at Waco, fourth at Dallas, third at Fort Worth, third at San Antonio, and 10th at Houston. Last year the grass team won the district and area events at Lubbock.

The grass team which will compete at Lubbock is composed of Doyle Farmer, Dick Hayes, Jim Mosley, and Richard Robinson.

Crops teams at a Lamesa practice contest, took first and second places. At Lubbock, a crops team competing will include Gilbert Merritt, Franklin Gilbert, John Billy Koonsman, Keith Lloyd, and Kent Holmes.

A meats team which placed seventh in an Abilene contest will compete at Lubbock. Members of that team are Steve Nail, Dean Staton, Robert Lewis, and Clyde Read.

Other teams which will compete tomorrow include a livestock team, composed of Billy Ray Browning, Bobby Hataway, Lorell Sumruld, and Jerry Scrivner; dairy cattle team including Jerry Maxwell, Gene Kea, Marvin Hardy, and Jerry Rainwater; and Land team including Darrell Sturdivant, Richard Smith, Jack Kea and Kenny Elkins.

Rabies Case Detected Here

One case of rabies has been detected in the Snyder area, and City Manager Roy Dunlap said that there will be more strict enforcement of animal ordiances here during the spring and summer months, known as the rabies season.

The rabies case was found in a skunk killed early this week after it bit a dog in a fight, which occurred north of Snyder on the Clairemont Road.

Dr. Robert Kidd, veterinarian here, said he sent a speciman of the skunk to a state laboratory and got back a positive report of rabies. The dog which had been bitten was destroyed.

This was the first known rabies case here in many years.

Dunlap said city ordinances require that dogs not run loose, whether licensed or not. According to ordinance, dogs are to be penned or chained. If out, they must be on a leash.

There are hundreds of dogs running loose in Snyder in violation of city ordinances, Dunlap said, and they will be picked up, whether tagged or not, if running loose. He urged citizens to make provisions to pen their dogs.

A dog inside the city limits also must be licensed. City license costs $2.50 for females and $1 for males. Before any dog can be licensed, it must be vaccinated, and the vaccinations include protection against rabies.

Many other cities have had several rabies cases, and it could easily happen here. Kidd said this is the season for residents to keep a closer watch on animals. Any strange behavior is a possible symptom, and a dog acting strangely should be penned immediately and kept penned for about two weeks for observation. If there is continued strange behavior or sickness, the dog owner should investigate further.

If a person is bitten by a dog, he should immediately report it to the city humane officer through the police department. Whether the dog has been vaccinated or not, the city will hold the dog for 10 days to two weeks for observation.

A person bitten by a dog should consult a physician, especially if the dog has not been vaccinated, or if there is any remote possibility of rabies.

If there is enough reason to suspect rabies, a specimen sent to a state laboratory can determine within a few hours whether a dog has rabies, or whether any other animal has rabies.

Sometimes it is necessary for a person bitten by a dog to take the Pasteur series, which is a series of 14 injections for the prevention of rabies. The injections are given daily.

Miss Leah Davis, senior health nurse at the Snyder-Scurry County Health Unit, said the nearer to a person's head the bite occurs, the more rapidly he should act in consulting his physician about whether to take the Pasteur series.

UAW Silent On Pay Cut Reports

DETROIT (AP) — United Auto Workers spokesmen refused comment today on a report the union's International Executive Board has authorized a 10 per cent pay cut for 25 top UAW officers including President Walter Reuther.

The board, meeting here to review contract negotiations to date with the auto industry's Big Three also was reported to have ordered layoffs for 100 UAW staff employes.

Both the salary cuts and layoffs were among economies agreed to by the board in an effort to offset a decrease in union revenues.

The reported salary cuts will go to the six top officers of the union and the 19 members of the Executive Board.

Estimates of the amount of money saves ranged up to $50,000 a month composed principally of the salaries of the laid-off staff employes.

Reuther, who said in March that he received $20,920 in salary last year, would take a $2,092 pay cut under the plan.

The salary cuts and staff layoffs were caused by layoffs in the auto industry which have reduced the union's dues income. The UAW faces a difficult bargaining period with the Big Three.

The UAW has disclosed its general fund has been operating at a $200,000-a-month deficit for several months.

The union, however, currently has assets estimated at 36 million dollars. Of the total, some 24 million is tied up in a strike fund and cannot be used for general fund purposes. The union also is reported to have some two million in mortgage obligations.

Other economy moves reported to be under consideration by the Executive Board include cutting the union's weekly newspaper Solidarity to a bimonthly publication, and the possible elimination of some of its property assets.

Girard Man Being Held In Slaying

HASKELL, Tex. (AP)—Authorities held R. A. Willis, 30, of Girard, Tex., today for investigation of a shooting yesterday that killed Dewey Carr, 50, a farmer who lived near Girard in Kent County.

No charges were filed immediately. Willis was brought here because of superior jail facilities.

Dep. Sheriff Ralph Brantner of Kent County said his office received a call from a woman motorist yesterday evening saying two men were in a field about four miles southwest of Girard, and that one was waving a gun in the air.

Authorities found Carr's body, shot with a rifle.

A short time later, Ben Oliver and Tom Wade of Girard told authorities they saw a man with a gun heading for the Carr residence.

Carr lived about six miles southwest of Girard. The shooting occurred about four miles southwest of Girard, in a field on his farm.

Willis once worked for Carr.

Local Bands In Contests

The high school and junior high bands from Snyder are in Abilene today participating in Region II Interscholastic League music contests.

Solo and ensemble contests of the region were held in Snyder a few weeks ago.

Melvin Montogomery directs the high school band, which is traditionally a sweepstakes winner in Interscholastic League competition and the junior high band, directed by Tim Dennis, has also ranked among the highest junior high bands in the region for the past several years.

The contests are being held on the campus of McMurry College, with some 3,000 students participating from 48 schools in 39 cities in West Texas.

Gary Zook, director of the Albany band, is regional chairman. Judges for the band contests are Weldon Covington of Austin, Frank Phillips of Austin, Carrol McMath of Denton, and Joe Bellamah of Alpine.

Cool Weather Covers State

By The Associated Press

Cooler weather and partly cloudy skies covered Texas Friday in the wake of a cold front which touched off a spectacular electrical storm at Kilgore in East Texas Thursday night.

The front crossed the state Thursday and hung almost stationary along the coast early Friday. At 7 a.m. it extended along a line from Beaumont to Galveston to Brownsville.

The storm struck in the Kilgore area about 10 p.m. Thursday, depositing 1.15 inches of rain within 4 or 5 minutes. No hail fell and no damage was reported.

Other rainfall during the 24 hours ending at 6 a.m. included Texarkana .61, Victoria .07 and Lufkin .01.

Light drizzle was reported early Thursday at Longview, Lufkin and Kingsville.

Overnight temperatures ranged from 37 degrees at Dalhart and Amarillo to 74 at Brownsville.

IGNORED—John Gates, foreground, former editor of the Daily Worker, turns and walks away as former undercover agent Herbert Philbrick approaches him backstage at Southern Methodist University in Dallas. The two appeared on a student forum at the school. Gates, who identifies himself as a former Communist, refused to pose for photographers with Philbrick.

Pipelines To Both Coasts Are Proposed

By ED OVERHOLSER

CORPUS CHRISTI (AP)—A veteran oil conservation authority urged today that pipelines be constructed from Texas to the West and East coasts as a recession fighting move.

Ernest Thompson, Texas Railroad Commissioner, was the first witness before the Governor's Oil Imports Study Commission gathering information at this oil shipping center.

He said building of two major oil lines was necessary for national security.

"The steel mills have the idle capacity to make the pipe, the construction would help bring us out of the recession, there was never a better time to make available this oil as a power for peace in the world," he declared.

"We have the oil to fill the lines and keep them full, and this domestic oil can displace foreign crude and give employment to thousands of people eager for work," Thompson said.

Thompson said that if the lines were built and war came, "We will not again see our coastwise tankers sunk off the shore." He said Russia has 500 new submarines which could deny us foreign oil.

The commissioner also said he had gone along with the nation's voluntary import program for several months, but that he now concludes it is not working.

He told the commission that three big companies, which he did not name, were not conforming and "that gives the right to the others to come out of the (voluntary) program."

He said Navy Capt. Mathew Carson, the imports program administrator, was doing the best job he could, "with a very weak wand," and my criticism is against the President for failing to support a mandatory program.

Thompson said Sen. Lyndon Johnson (D-Tex) is "our hope at this time" to pass legislation to protect the domestic industry.

Gordon Lewis of the local Chamber of Commerce said that employment in this area in the oil industry is 20 per cent below what it was in 1957 and that payrolls have decreased about 15 per cent.

He said the major job decrease was in oil well supply and servicing companies and there has been little significant decrease in the major oil companies.

Jerome OBrien urged congressional approval of a bill he said would solve the problems of what he called the "sick oil industry" without risk of federal controls.

Guard Unit Called Out

In a two-hour practice disaster alert last night, the Snyder National Guard unit gathered 47 of its 97 men within slightly more than an hour.

The alert was conducted by Capt Eugene E. Peale of Midland, Regular Army advisor, and Maj. Louis R. Morris of Lamesa, battalion S-3 officer.

At 6 p.m. the men called Capt. John T. Lynch, Jr., commander of the unit, who was on the golf course. No regular drill was scheduled last night.

By 7:20 p.m. the unit had drawn weapons and set up roadblocks and communications around the high school campus, at which the theoretical disaster struck.

This was the third alert the unit has had in recent years.

WEATHER

SNYDER TEMPERATURES: High Thursday, 66 degrees; low, 41 degrees, reading at 7:30 a.m. today, 43 degrees.

LOCAL SOIL TEMPERATURE: Reading today reported by high school agriculture department, 53 degrees; 10-day average, 59.3 degrees.

East and South Central Texas—Considerable cloudiness and cool with a few showers and thundershowers through Saturday.

North Central Texas—Considerable cloudiness and cool with a few showers Saturday and in southeast this afternoon and tonight. West Texas—Partly cloudy to cloudy and cool through Saturday with a few showers Saturday.

Oklahoma Woman Is 106 Years Old

STRATFORD, Okla. (AP)—Today is Mrs. Jim (Grandma) Glass's birthday, but there isn't any cake or party.

Mrs. Glass wants it that way. But if there were a cake, it would have to be as big as a washtub to handle the 106 candles it would have to hold.

Mrs. Glass isn't feeling as well as she has in the past. She hasn't gotten out and worked in her garden as she usually does. She admits "I've sneaked out a few times but not nearly enough."

Her hearing has yielded somewhat to the inroads of time, but she still sees well, and her mind is as bright as a new penny.

Mrs. Glass was born April 25, 1852 in Calhoun County, Alabama. Her father was a farmer, and when the Civil War came joined the Confederate forces.

"I can remember those times," Mrs. Glass said. "They were hard times. Paw was away fighting.

"I can remember the cannon roaring off in the distance. Our mother was sickly, and us kids had to work the farm. My oldest sister plowed, and my brother and I did the hoeing and worked in the field."

After the war the family moved to Texas, she said, adding: "Paw got enough stock together for two wagons. One of the wagons we loaded with feed for the stock and ourselves. The other wagon was piled up with what few things we had left. We just walked off and left our farm in Alabama."

She said the family walked all the way to near Fort Worth.

"People were different then," she says. "They didn't have much, but they helped us when they could. People aren't like that anymore. People used to be friendly and loving, and they're not now. They've changed."

She later married and reared 10 children, six of them still living. Three sons live here. Mr. Glass died 20 years ago.

Commenting on families today, she notes that "parents don't raise their children anymore. The children raise the parents. The children tell the parents what they want to do."

Bandit Takes $40,000 In San Antonio

SAN ANTONIO, Tex. (AP) — A bandit who wrote threatening notes but didn't show a gun robbed a suburban savings and loan association office of $40,000 last night.

The robber got away with the money in bills while hundreds of grocery shoppers milled about the supermarket which houses the San Antonio Savings and Loan Assn. branch office.

The well-dressed young man walked up to the desk of Asst. Manager Alex Haas. Haas told Detective Capt. Joe Hester the man asked him about depositing some money and how quickly he could withdraw it if he needed it.

After talking calmly for about five minutes, Haas said, the man handed him a note which said: "This is a stickup. Go to the vault, get the money and put it in a bag. I have a gun. Do as I say or I'll shoot you."

Haas said he complied with the order and returned to the desk, where the man sat waiting. He was handed a second note reading: "Turn around and act like you are opening the safe. Stay that way for one minute. If you raise up I'll shoot you."

Haas again complied and the bandit left. No one else was aware of the robbery.

Sunray Men Get Awards

Six employes of the Sunray-Mid Continent Oil Co. Snyder Gasoline Plant received service emblems in recognition of continuous employment with the company at a banquet in Big Spring last night.

The company service awards dinner was held at the Settles Hotel in Big Spring.

C.B. Goodson, truck loader, received an award for 15 years service.

Ten year awards went to J.D. Ruchardson, chief train loader, and Frank O. Waterman, operating foreman.

Harley R. Carmichael, Oiler, Robert M. Phillips, repairman and Homer G. Stokes, oiler, each received five year service awards.

The dinner was held jointly with employes of the oil division of the production department and district superintendent V.L. Smith, Midland, presented the awards.

N.C. Hillhouse, plant superintendent, also attended.

ROYCE BODIFORD

National FFA President To Speak At Gail

GAIL (Spl.) — Royce Bodiford, national president of the Future Farmers of America, will be main speaker tonight for the annual banquet of the FFA and the Future Homemakers of America here.

Bodiford, who lives at Milsap, is the only national director from Texas and the first from Texas in several years. He has been a student at Tarleton State College. There are six national officers for the FFA, which has more than 300,000 members. Bodiford was state FFA president in 1955-56.

About 150 persons are expected at tonight's banquet, including students and their guests, parents, and teachers.

In charge of the program are Jerry Reddell, FFA president here and Judy Doyle, FHA president.

Teachers of the students are Bobby Gray, agriculture, and Mrs. Ruby Hollis, homemaking.

PUBLIC RECORDS

BUILDING PERMITS:

C. F. Dugas, addition to residence 3750 Highland Drive, $300.

WARRANTY DEEDS RECORDED:

Mr. and Mrs. Emmett LeFors, Gray County, to Mr. and Mrs. S. D. Hays, Jr., section 341, 280.8 acres in south path of section 399, section 379, 44.5 acres in section 398, 405 acres in south part of section 380, section 343, section 342, section 378, section 354, 287.2 acres in north part of section 336, 387.2 acres in north part of section 335, northeast quarter of section 299, 55.63 acres in sections 379, 380, 398, 399, and 400 all in block 97-H&TC, except minerals.

NEW VEHICLES REGISTERED:

Wade Winston from Lamb Chevrolet Co., 1958 Chevrolet, two door.

Musselwhite Trucking Co. from Lamb Chevrolet Co., 1958 Chevrolet four-door.

Sunray Mid-Continent Oil Co. from Lamb Chevrolet Co., 1958 Chevrolet four-door.

Mrs. Joe York from Pollard Motor Co., 1958 Chrysler four-door.

Holder Construction Co. from Snyder Truck & Tractor Co., four 1958 International pickups.

J. E. Perry from Pollard Chevrolet, Roscoe, 1958 Chevrolet station wagon.

TODAY'S MARKETS

10 no tests.

Hogs 75, grades to 20.75.

Sheep 300; steady to strong; good spring lambs 20.00-21.00; yearling ewes 20.00-21.00; slaughter ewes 9.00.

AUSTIN (AP)—Poultry steady. East Texas 3½-3¾ lb 19-20, Waco 19, South Texas 20.

NEW YORK (AP)—Cotton was 10 to 25 cents a bale lower at noon today. May 35.75, July 36.05, October 36.52.

NEW YORK (AP) — The stock market opened slightly higher in active trading today.

Bethlehem Steel was ⅛ off at 39⅜. General Motors off ¼ at 37¼. General Electric up ¼ at 58½. American Tobacco up ½ at 85¾. U.S. Steel up ⅜ at 60¼. Sears Roebuck up ⅛ at 26⅞ and American Motors up ⅛ at 11½.

Small gains were made by Du Pont and Radio Corp. Southern Railway and Pennsylvania Railroad took fractional losses. Anaconda, Boeing and Texas Co. were unchanged.

Lodge Sets Dance

All applicants for the new Snyder Lodge of the Loyal Order of Moose, and their guests have been invited to attend a dance at the Big Spring Lodge on Saturday night. The event begins at 9 p.m.

The Battle of Trenton, Washington's first major victory in the Revolutionary War, lasted only 45 minutes.

Cadets Named For Exchange Program

DALLAS (AP) — The Civil Air Patrol named today Texas cadets and an escort who will visit foreign countries in the 1958 international cadet exchange program.

The Texans will join other cadets July 13 in Washington for a 3-day briefing. Then they will be flown to their assigned countries for about three weeks.

Other countries will send their cadets to the United States.

The Texas cadets and the countries they will visit include:

Joe Ferguson, Wichita Falls, Greece; Forest Lucy, Wichita Falls, Cuba; Charles Price, Tyler, Britain; Ralph Rohatsch Jr., San Angelo, Chile; and Sherwin Sullivan, Abilene, Israel.

Flexible Economy Called Important

AUSTIN (AP)—Secretary of the Treasury Anderson said today the United States must always use all its talents and resources "to see that neither inflation or deflation should run a ruinous course."

"A competitive economy with dependence upon myriad decisions and judgments will always incur the hazards of recession and inflation," Anderson said in a speech prepared for Law Day ceremonies at the University of Texas.

To make sure neither eventually gets out of hand "requires flexibility and a willingness to utilize our maximur competence and instrumentalities both as a people and as a government," he said.

In what was largely a philosophical discussion of the American economy, Anderson made only one direct reference to the current business slump, saying:

"Our faith in this country and our economic system is strong. We have become the greatest productive nation in the world. Our distributive capacity has run somewhat behind and we must be sure that our ability to distribute both nationally and internationally matches stride with our productive ability."

At one point Anderson contrasted the positions of the United States and Russia in aiding the economies of other nations.

The Soviet Union has an advantage, he said, in that it can make ruble loans knowing the money will be spent behind the Iron Curtain. But he said money involved in U.S. dollar loans, unless specific strings are attached, could be used for purchases from numerous other countries.

Anderson said, however, the United States has an advantage in being able to invest in foreign economies. Private companies and individuals here can make such investments, he noted, whereas the Soviet government holds all the investment money in Russia.

"It is hardly conceivable," Anderson said, "that either the neutral or free countries would tolerate substantial investments of capital and equity ownership by the Soviet government itself."

Little Blue Space Man Is Grounded

BAD AXE, Mich. (AP)—The little blue man from outer space and his two satellites have been grounded.

Huron County Prosecutor James M. Umphrey released Jerry Sprague, 22, Donald Weiss, 23, and Leroy Schultz, 23, all of Bad Axe, yesterday on condition they stop playing space man.

Umphrey said Sprague had admitted he was the man who has been bounding out of roadside ditches in recent weeks and into the path of approaching autos on lonely rural roads.

Umphrey said numerous motorists reported a man dressed in long blue underwear, a blue cape, blue boots, and a blue space helmet had a habit of bounding in front of their cars just after dark. They said that when they stopped to investigate the blue man was gone.

The prosecutor said Sprague had told him he and the others decided to play space man as a prank with Sprague taking the leading role because "it was my underwear, and I was the only one it would fit." His two friends drove Sprague to and from the spots where he dashed into the road.

Umphrey turned the three loose after they had promised to behave in a more down-to-earth manner.

Spring Lambs Slain By Dogs

FORT WORTH (AP) — Seven dogs killed 158 spring lambs yesterday in a pen beside the Katy tracks at Hodge Station in north Fort Worth.

The lambs were part of a 289-animal shipment enroute from South Texas to Illinois. They were in the pen overnight for feed and water.

When workers arrived yesterday morning they found the seven dogs, apparently from residences in the nieghborhood, had jumped the fence to get at the lambs. Some were bitten to death, some suffocated and some run to death.

The dogs were run off but not caught.

The 131 uninjured lambs were sent on to their distination. A rendering plant picked up the dead animals.

Pair Charged In Shortage

HOUSTON (AP)—Two former employes of the county clerk's office were indicted today as a result of the grand jury investigation into the $80,000 shortage.

Named in the bills were Arthur Sims, 62, former chief deputy clerk, and his former assistant, Herbert Kokemoor.

Sims was indicted on seven counts of making false entries and two counts of misapplication of public funds.

Kokemoor, 42, was indicted on one count of misapplication of public funds.

The shortage was found in an audit several months ago. County Auditor S. B. Bruce said the shortage covers a nine year period.

Sims has denied any knowledge of the shortage. He deposited $7,000 with the county auditor for use in reimbursing the county for money missing from the department he once headed.

Kokemoor also denied any knowledge of the shortage. Called before the grand jury, Kokemoor pleaded the Fifth Amendment and refused to answer questions.

County Clerk W. D. Miller, seeking re-election to the $12,000 a year office, posted $9,000 to aid in covering the loss. He also disclaimed any knowledge of it.

Launching Postponed

CAPE CANAVERAL, Fla. (AP — An attempt to launch the Vanguard rocket with a basketball-sized satellite aboard was postponed early today after a countdown of several hours.

First Round In Oratorical Contest Set

Preliminaries in the Optimist Club Boys Oratorical contest will be held tomorrow morning in Fellowship Hall at Trinity Methodist Church.

An estimated 10-12 boys are expected to compete in the contest. The preliminaries will begin at 10 a.m.

Three boys will be picked for the finals which will be held at the club's weekly luncheon Monday night.

The Club has also set Monday's luncheon as "Ladies Night."

Winner of the oratorical contest will win a trip to Little Rock, Ark., May 15-16-17, scene of the District 7 Optimist International convention, at the expense of the local club.

The contest is open to boys 16 years of age and under as of Dec. 31, 1957.

Subject for the speech the boys will speak on is "A Salute To Our Generation."

Boys who are already entered are Mike Reed, Joe Fowler and Bill Adams of the high school and Ronnie Stittle, Mickey Birdsall, Tom Crousen and Ralph Trevey of the junior high school.

Several members of the junior high band have been working on the contest but the band is out of town today and the exact number of entries from the band is unknown.

Man Is Injured In Mishap On Lease

A Snyder man suffered shock and minor injuries, it was reported, in a fall yesterday from a pumping unit on a lease near Fluvanna.

He is Lloyd Cunningham, employe of E.D. Walton Construction Co., who fell off the pumping unit at about 2:45 p.m. yesterday.

He was taken from the lease to Cogdell Memorial Hospital by Bell ambulance.

Seniors To Be Honored Tonight

The Ladies Auxiliary of the Northside Baptist Church is sponsor of a banquet tonight for the graduating Seniors of the Northside Baptist Church.

The Seniors and their parents are guests at the banquet which will begin at 7 p.m. in the Barn at Towle Memorial Park.

The welcome address will be given by Eugene Glasscock, Teacher of the Senior Sunday School Class, and the Rev. Jack Dean will be the principle speaker.

An 8- ounce can is sometimes called a "buffet" can; it holds one cup and fruit and vegetables are packed in it as well as some other specialties.

Miss Davis Visiting Here

Miss Estelle (Sissy) Davis, Memphis, Tenn., is visiting her sister, Miss Leah Davis, 2366 Sunset here.

Miss Davis arrived here Wednesday afternoon, and plans to visit for several weeks.

She is a gardening entheusiast and has been enrolled aa a member of the Twilight Garden Club here for several weeks so she can participate in its activities during her visit here.

CORN PUDDING

Ingredients: 2 tablespoons butter 2 tablespoons flour, 1 cup milk, 1 can (1 pound and 4 ounces) cream-style whole-kernel corn, ½ teaspoon salt, white pepper, ¼ cup minced green pepper, 2 eggs (slightly beaten), ½ cup fine cracker crumbs mixed with a little melted butter.

Method: Melt butter in medium-sized saucepan over low heat; stir in flour. Add milk; cook and stir constantly until thickened. Stir in corn, salt, pepper to taste and green pepper. Remove from heat. Blend a little of the mixture into eggs; stir back into skillet. Turn into buttered 1-quart baking dish. Sprinkle with buttered crumbs. Set dish in pan of very hot water. Bake in moderate (350 degrees) oven until knife inserted near center comes out clean. Makes 6 servings.

WOMEN

Mrs. B. L. McKinley Presents Program To Altrurian Daughters

The Altrurian Daughters Club met Wednesday afternoon at Martha Ann Woman's Club with Mrs. W. K. Patterson, hostess.

Mrs. W. F. Atwood, presided over the business session.

Mrs. Melvin Blackard, chairman of the International Affairs committee, reported that 24 pounds of sewing material was mailed for Korean relief.

Mrs. B. L. McKinley, representative of the club to the cemetery association, asked members to participate in the cemetery clean-up being held this week.

Mrs. Prentis Bass was elected as club treasurer for the next year.

Mrs. B. L. McKinley gave a program on gardens. She said: "The kiss of the sun for pardon, the song of the birds for mirth, one is nearer God's heart in a garden than anywhere else on earth. Within a garden one may find himself.

Mrs. McKinley gave "The Gardeners Prayer".

"Give us Lord, a bit o'sun, a bit of work and a bit of fun; Give us all in the struggle and splutter, our daily bread and a bit o' butter; Give us health, our keep to make, a bit of spare for poor folks sake; Give us sense, for we're some of us duffers; and a heart to feel for all that suffers. Give us too, a bit of song, an' a tale, and a book to help us along; an' give us our share o' sorrow's lesson, that we may prove how griefs a blessin; Give us Lord, a chance to be, our goodly best, brave, wise and free; Our goodly best for ourself, and others, till all men learn, to live as brothers."

"Each month of the year has a flower: January- Snow Drop; February, Violet; March, Daffodil; April, Sweetpea; May, Lily of the Valley; June, The Rose; July, Water Lily; August, Poppy; September, Morning Glory; October, Golden Rod; November, Chrysanthemum, and December, Holly."

Mrs. McKinley also described the Garden of Mount Vernon. She said: "Mount Vernon, the nations shrine is famous for its Boxwood Garden, its lilacs and other plantings. The lilacs are supposed to have been planted by George Washington himself, and were imported from England. Most of the trees planted since Washington's time, have been removed, so that it is now almost as the Father of His Country? left it.

"The Bellingrath Gardens, located about 200 miles out of Mobile, Ala., are visited by thousands of persons annually. This is a paradise for garden and nature lovers. Here one will see rock gardens, rose gardens, fountains, breathtaking vistas, and thousand of brilliant flowers of every kind. The gardens present a continual parade of changing colors, beginning with the 200,000 azaleas, 4000 camelias, 2600 roses, 150 gardenias, and thousands of annuals and perennials.

"The Men's Garden Club of Los Angeles, persuaded county officials to purchase a 160 acre tract for a Los Angeles Arboretum. Through their effort some of the states' finest old trees were preserved. Among the flowers at the arboretum is a $30,000 collection of orchids, given by a member of the Men's Garden Club.

"This past year, the rose was selected as our national flower, until this time we were the only major country in the world without a national flower."

Refreshments were served to 12 members.

FLOUR SEEDS

Shake small flower seeds in flour before planting. This will give them a white coating and after you have dropped them in the rows you will be able to see them and can space them as you wish to.

Refinish Furniture

Do you like to refinish furniture but have trouble getting your paint and varnish remover in hard to get at crevices? Try applying it with an old toothbrush and you will find the task an easier one.

China now has a phonetic alphabet of 26 letters, simplifying its traditional complex systems of hundreds of ideographs.

Graham Due In Frisco

SAN FRANCISCO (AP) — Evangelist Billy Graham arrives tomorrow to launch a six-week crusade in the San Francisco Cow Palace Sunday.

Tomorrow evening, after a full day of conferences, he will hold dedication services at the Cow Palace for 6,000 crusade workers.

Thus Graham aims to impress upon all who come that the 16,500-seat arena — famed for livestock exhibits, sports events and political meetings — has been transformed temporarily into a church.

Billboards, posters, automobile stickers, bus cards and radio and television announcements herald the evangelist's coming.

A corps of 4,000 counselors, 2,000 ushers, 3,000 vocalists and hundreds of other volunteer workers have been training for weeks. Tonight thousands will gather in a dozen Bay area churches to pray for the revival campaign's success.

Brotherhood Meets At Avenue D Baptist

A covered dish supper and family night event has been scheduled for 7 p.m. Sunday by the Brotherhood of the Avenue D Baptist Church.

The program will honor all new members.

HARDIN-SIMMONS UNIVERSITY A CAPELLA CHOIR

H-SU Choir Set To Sing Here Sunday

The Hardin-Simmons University a capella choir will be presented in a concert of sacred music by the First Baptist Church at its 7:30 p.m. service Sunday.

The choir, representing the H-SU School of Music, has been a training group for many years for many church and school music directors. The touring choir is composed of 46 voices selected from the school of music and general student body. Past H-SU choir have toured in concert as far as Chicago and Miami.

The H-SU school of music is a member of the National Association of Schools of Music and offers courses leading to bachelor of music degree in music education, church music, applied music, music theory, and composition and music education.

The choir is directed by Edward H. Hamilton, associate professor of voice. Prior to his going to Hardin-Simmons, Hamilton was minister of music at the First Baptist Church at Knoxville, Tenn, supervisor of music there for the city schools, conductor of a male chorus, opera company, and civic choral society.

The university male quartet will be featured with the choir in the concert.

CHURCH NEWS

Vacation School And Youth Roundup Set

The First Christian Church has scheduled vacation church school for June 2-13 and a youth roundup for June 15-20.

In the vacation church school, 10 sessions will be held this year. Mrs. Bob Clifford is director.

Two young people now in Texas Christian University, Cynthia Lynch and Charles Johnson, make up the roundup team.

Sir John Burgoyne, the British general, who surrendered at the Battle of Saratoga, was a noted playwright.

In Brisbane, capital of the tropical state of Queensland; Australia, many houses in the suburbs are built on stilts to allow free circulation of cooling air.

Glen Pace
Minister

(QUESTION) Is the Bible complete? Can we find God's will completely revealed within its pages?

(ANSWER) That the Bible is complete, without any additional help from uninspired men is evident by the claims made by inspiration for it. "If any man speak, let him speak as the oracles of God..." (1Pet.4:11) That a man can receive its teachings, is clearly taught. "Wherefore lay apart all filthiness and superfluity of naughtiness, and receive with meekness the engrafted word, which is able to save your souls." (James 1:21) That we can find salvation revealed within its pages is claimed by Paul. "And from a child thou hast known the holy scriptures which are able to make thee wise unto salvation through faith which is in Jesus Christ. (2 Tim. 3:15) That addition or subtraction is not needed is seen in (Rev. 22:18,19). The Bible is complete as it stands and thus furnishes man with what spiritual light he requires, "...throughly furnishes unto all good works" (2 Tim. 3:17.)

You are invited to correspond with Mr. Pace.

Mikoyan Arrives In West Germany

BONN, Germany (AP) — Soviet Deputy Premier Anastas I. Mikoyan arrived in Bonn today to sign the first trade and consular agreement between West Germany and the Soviet Union.

The Red flag was hoisted in this West German capital for the first time. Mikoyan is the first high Soviet official to visit since the Bonn republic was established in 1949.

Mikoyan, the top foreign trade expert of the Soviet Union, had arrived in West Germany three hours earlier in a Soviet jet airliner. He came here from Frankfurt by train.

He promptly began a verbal campaign for "an atmosphere of trust" between the Soviet Union and Chancellor Konrad Adenauer's staunchly pro-Western government. Mikoyan will have ample chance to press his point during four days of talks with leaders.

Foreign Minister Heinrich von Brentano met Mikoyan and his jet transport in a natty gray suit. Mikoyan smiled broadly and waved at the large group of newsmen and photographers on hand.

"We hope these talks will lead us closer to the solution of other great problems," said Von Brentano in an obvious reference to the division of Germany.

Moscow has insisted that Germany can be reunified only if the rival West and East German states talk it over directly. Adenauer and the Western Allies refuse to recognize the East German regime and insist Germany must be reunified by free elections arranged by the Big Four powers.

The Soviet-German agreements were worked out during nine months of negotiations in Moscow. The trade pacts provide for each nation's sending the other goods worth 375 million dollars over the next three years. West Germany will export machinery and the Soviets will send raw materials, crude oil and oil products.

The consular agreement sets up consular departments at the embassies in Bonn and Moscow.

Official Of Ailing Firm Enters Race

DALLAS (AP)—Joe Irwin, former top official of an insurance company placed in bankruptcy, said yesterday he will run for governor on a platform aimed at the Insurance Department.

Irwin said he mailed his application as a candidate in the July Democratic primary, along with the $1,250 filing fee, to the Democratic Executive Committee in Austin.

He was an official of American Atlas Insurance Co. and J. A. Irwin, Inc. Both firms were placed in federal bankruptcy in 1955 and are still in liquidation.

Irwin, 61, said he is semi-retired. He said his friends had contributed to the filing fee.

"If elected, the first thing I would do would be to get the estimated $20,000,000 which is being held by the commission and return this money to stockholders of firms in liquidation," he said.

"That money, put back in circulation, would be enough to start a boom in Texas," he said.

Trimmed Aid Bill Okayed

WASHINGTON (AP) — A $3,603,000,000 foreign aid authorization bill has been approved by the House Foreign Affairs Committee.

This total, 339 million dollars below Eisenhower administration requests, may be trimmed further when the House talkes up the measure in the week of May 4. The Senate has not yet acted.

The bill sets terms and ceilings for the aid program in the fiscal year starting July 1. The actual money will be provided later in an appropriation bill.

The foreign affairs group voted $2,958,900,000 in new money for military and economic aid to friendly nations. The committee also allowed use of $644,192,500 already appropriated. Most of this is for economic loans on easy terms.

Preseve Old Ship, Englishman Urges

BALTIMORE (AP) — An Englishman who helped build the Mayflower II says it would be an absolute disgrace to let the old frigate Constellation rot for lack of funds.

Warwick Charlton, London public relations counsel, arrived in Baltimore during a lecture tour. He was the initiator of the Mayflower project and helped sail her across the Atlantic to Massachusetts last summer.

Taking time off to visit the Constellation, he asked how a great port like Baltimore could hesitate to raise $250,000 needed to preserve the ancient vessel.

"No nation can afford to be tight-fisted about its heritage," he said.

Trenton, N.J., in 1857 passed an ordiance limiting hoop skirts to five feet in diameter.

Wilson Asks Oil Rights

DALLAS (AP)—Texas Atty. Gen. Will Wilson says Texas will ask for rights to exploit submerged lands for oil out to the 10-mile limit if the Supreme Court sets the national boundary at 3 miles out.

The tidelands case comes up Oct. 13.

Wilson told the Dallas Salesmanship Club yesterday "We will ask for the historic boundaries of three leagues, which is 10 miles."

If that fails, he said, the state will ask for oil rights 10 miles off the coast.

Wilson said the current Geneva Conference may figure in settling the dispute. The conference is attempting to establish international boundaries.

He said Russia is asking for a 12-mile limit while the U.S. is seeking a 3-mile limit. Wilson said the 12-mile limit would be a detriment to this country because of the Russian submarine menace.

"Thus the United States can't plug for a 3-mile international limit and turn around and give Texas 10 miles," he said. He added that while he does not necessarily agree with the federal position he was aware of the factors.

GASOLINE FIRE RAGES—Flames and smoke pour from Esso Standard Oil tanks at Newport News, Va., after an explosion triggered the blaze. More than 200 firemen in the area battled the blaze.

Nixon Sees End To Economic Woes

NEW YORK (AP) — Vice President Nixon sees an end to the economic downturn under present administration anti-recession moves, provided both business and labor help to create buying power.

But if further governmental aid is needed, Nixon said last night, he favors the right kind of tax cut to a government spending binge.

Nixon spoke at the annual dinner of the Bureau of Advertising of the American Newspaper Publishers Assn.

"We can state this one conclusion categorically," he said. "There will be no depression in the United States."

"This is true," he said, "both because of the basic strength of our economy and because it is backs opped by the determination of the national administration to use every proper governmental action to stop a prolonged recession and to help stimulate early resumption of a high rate of economy activity."

If further federal action proves necessary, he said, a tax cut rather than major new spending programs would be the fastest, the best and surest method to stimulate business.

"However," he added "a tax cut will not do the job unless it is the right kind. It must be designed to put money in the hands of the investors and job creators, as well as consumers.

"It will not do the job if it is used simply to provide a popular political handout in an election year."

Businessmen can help, he said, by recognizing that "this is a buyers' market and act accordingly."

"New products, increased advertising, lower prices can have a dramatic effect on consumer psychology," he said.

Nixon asked labor to refrain from seeking wage increases not based on increased productivity.

Two Charged In Murder

WICHITA, Kans. (AP)—Authorities issued armed robbery warrants yesterday against two Connecticutt persons wanted in the killing Saturday of an Amarillo, Tex., pawn shop operator.

David McKnight, 21, of Greenwich and Georgia Bryan, 23, of Bridgeport are charged with murder in the death of Raymond Reed, 52, crippled Amarillo pawn broker.

Detective Capt. Joe Klepper said McKnight was identified as the man involved in the $77 holdup of a loan company here Monday.

He said a man and woman who robbed the firm and bound up the employes carried guns of the same type taken from the Amarillo pawn shop.

Klepper said they were traced here from Amarillo by way of Texhoma, Okla., where they registered at a motel under the name of McShane.

Gutzon Borglum, American sculptor of the Mount Rushmore Memorial in South Dakota, lived from 1867 to 1941.

Aga Khan's Tomb Cause Of Dispute

CAIRO (AP)—A Cairo commercial court today froze the Egyptian holdings of the Begum Aga Khan until she settles a dispute over payment for a mausoleum for her late husband Aga Khan III.

The tomb is being built at an estimated cost of $280,000 at Aswan, the southern Egyptian resort that the Aga Khan liked. The Ismali Moslem leader died last summer and his body lies in a temporary tomb near Aswan.

Dr. Zaki Hashem, a legal adviser to the widow, said she had stopped payment temporarily on the ground that the contractor failed to fulfill certain conditions. Technical experts appointed by the court reportedly held that the work was done according to contract.

The court ordered the impounding of the Begum's jewels, securities and other assets until the dispute is settled.

The beauteous widow has been living part of the time at Aswan while work on the tomb was going on but was last reported at her permanent home on the French Riviera. Since most of her fortune is outside Egypt, it did not appear likely that the court order would cramp her style.

Santa Fe, Capital of New Mexico, was a Spanish colonial capital in 1610. The full name of the city is La Villa Real de la Santa de San.

Dispute Among Educators Puts School In Upheaval

By JACK STILLMAN

FORT PAYNE, Ala. (AP) — A long-standing dispute among educators, climaxed by a three-day strike of high school pupils, has resulted in an upheaval of Fort Payne's school system.

The pupils struck Monday when they learned that principal J. B. Hulsey of Fort Payne High School would not be rehired next year. Hulsey resigned last Friday.

The approximately 500 pupils had demanded that Hulsey be rehired, and that Supt. of Education Wilson F. Gonce be fired.

Gonce resigned effective July 1. Last night, the City Council adopted a plan whereby the entire city school board will be rotated out of office, one member every six months.

Gonce said those who opposed his viewpoint "should be partially satisfied even if they aren't getting the reinstatement of Mr. Hulsey."

School officials and members of the board insist they did not give in to the pupils, who returned to classes yesterday.

"It is simply that Mr. Hulsey could not come around to our way of thinking," a board member said.

Hulsey, 45, said he had never been given any specific reason for not being rehired.

"The only reason they gave me was that I hadn't brought the school around to the city way of thinking," he said. "What the city way of thinking is I haven't been able to ascertain."

The high school was taken over by the City of Fort Payne after a dispute with the county over school improvements.

Hulsey had been principal at the school for two years and basketball coach for eight years. Gonce, 50, had been city superintendent for about 10 years.

"They both were good school men, and the entire matter came about because of a clash of personalities between Hulsey and Gonce," said one member of the board who asked not to be identified.

"The friction extends over the entire city, and it was beginning to result in the formation of factions. That is why the board felt that it would be best to rotate itself out of office."

Hearing On Disaster Ends

HOUSTON (AP)—A hearing into responsibility for the 1947 Texas City disaster which killed 512 persons ended yesterday.

U.S. Dist. Judge Ben Connally told both sides to file briefs by July 9. Replies to the briefs must be submitted by July 23. Arguments by both sides will be made at a later date.

The French government and the French Line asked to be exonerated from blame, or at least to have their liability limited to $100,000.

Victims of the disaster have assigned to the U.S. government claims totaling 60 million dollars, which the United States hopes to collect from the French.

The French presented evidence in the 14-day hearing attempting to prove spontaneous combustion caused the fire aboard the SS Grandcamp which led to a series of explosions.

The government tried to prove the French were negligent in fighting the fire with hand extinguishers and steam instead of water.

OUR VIEW

The Best Is Required

Gov. Price Daniel's mammoth traffic safety program probably would be assured spectacular success if the governor could put the head of one state department on full-time duty as a speechmaker during the campaign against accidents.

We refer to Col. Homer Garrison Jr., the distinguished director of the Texas Department of Public Safety.

Col. Garrison, who visited briefly in Snyder yesterday, not only has the facts and figures at hand, but he has a way of convincing the public that he knows exactly what he is talking about.

Of course the authoritative ring in Col. Garrison's voice is the "real McCoy." It stems from experience gained in developing and operating one of the most efficient and successful law enforcement agencies in the world.

However, Col. Garrison himself realizes that the greatest battle so far as traffic safety is concerned, must be waged by the citizens themselves. If half the people in the state join in an earnest effort to cut down the toll of death, injury and destruction of property on the streets and highways, the record will improve. But the state will not be doing its best until every citizen gets into the campaign.

If losses of all types attributed to traffic should occur from any other source, a big majority of the state's citizens undoubtedly would literally spring to arms and attempt to fight it.

Judging from press reports over the state, the governor's campaign is meeting widespread cooperation among law enforcement agencies and others associated therewith at all levels.

If the citizens follow suit, the campaign will be the greatest of its type in Texas history.

Time Overtakes Glamorous Legend

BALTIMORE (AP) — At precisely 7:40 p.m. tomorrow, a long, blue and gray train will nose slowly under the echoing, vaulted roof of the Jersey City terminal, to halt abreast of a row of gleaming motor coaches.

There will be a great, soft sigh as the engineer sets his air brakes and a name and a tradition will die.

The Baltimore and Ohio Railroad's Royal Blue will have ended her last run.

A service which began in 1860 to carry passengers between Washington and New York will come to an end.

Just a few yards ahead of the bulldog nose of the Royal Blue's diesel will be the barrier that, after nearly a century, finally conquered the name and the tradition —the Hudson River. The river which is the difference between an extra business call in an era when time is money; the difference between an extra martini before curtain time; or another shop to be visited on a buying spree to the big city.

Actually, April 26 may mark the end, too, of the most prolonged death scene since Camille's demise. It began Nov. 27, 1910, when the first trains of the Pennsylvania Railroad rumbled through its newly completed tunnel under the Hudson and into the vast new station in Manhattan. By that time, the my-old-man-can-lick-your - old man philosophy of railroad expansion was dead as a doornail.

A depression-battered B&O had neither the cash nor the inclination to push its own tunnel under the Hudson and build its own terminal in New York. So the long, inevitable decline began, much speeded by a trio of bicycle mechanics — one Ford and two Wrights.

Competition between the Pennsylvania and the B&O produced what even the staid London Times described as "the finest and fastest series of passenger trains in the world;" the trains of the Royal Blue line, which made the Jersey City to Washington run in just five hours. Of these trains, the finest was the Royal Limited.

Its smoking cars paneled in Circassian Walnut, the Royal Limited boasted parlor cars splendidly titled: "Czarina," "Empress," "Countess," and "Queen," all heavily draped in velvet, betasseled and filagreed to the nines. Its dining cars, the "Waldorf" and the "Astoria" offered menus of staggering variety and dubious digestibility.

These were the trains of legend. Painted royal Saxony blue, with the amorial bearings of Maryland, Delaware, Pennsylvania and New Jersey blazoned on their varnished sides, they created a criterion which survived even the drab era of "standard railroading," just before and just after World War I.

For these few bleak years, even the famed blue trains were disguised beneath a conformist's coat of olive green paint.

Then, in 1935, the traditionally history-happy B&O reintroduced the Royal Blue, new, lightweight and streamlined, and within months equipped it with the first passenger road-diesel locomotive in the United States.

The Royal Blue has been running ever since, fighting its losing 45-minute time-lag battle with a generation which counts its time in seconds.

Of late years, the B&O's passenger service on its Washington-New York route has been losing at least five million dollars a year, and every year since 1946 has seen a decline in patronage.

Not even the most glamorous of legends can survive such statistics.

A law passed in Sweden in 1949 prohibits Swedish newspapers from revealing sources of information even in court or to police.

Signs Point To Easing Of Slump

By SAM DAWSON

NEW YORK (AP) — A few first signs that the industrial slump may be flattening out are sighted today amid the welter of unpleasant statistics on the recent past.

They are too scattered to foretell a turning in the trend but businessmen are watching them closely. More company executives predict a turn for the better will be apparent in the final months of this year and the upswing in industrial activity will be marked in the first half of 1959.

In the less industrialized areas the slump may stay very mild indeed.

Here are some of the first signs of a change, as cautiously reported by business executives:

New orders for machine tools have risen in each of the last three months. Although these are far behind the volume a year ago, the National Machine Tool Builders Assn. notes that in past recessions rising machine tool sales have led the way to recovery in the capital goods industry.

A gain in new orders of late is also reported by Ralph J. Cordiner, chairman of General Electric, who thinks this may herald an upturn in durable goods demand.

A similar rise in sales in recent days is noted by Crawford H. Greenewalt, president of Du Pont, who cautiously offers it as a sign that the chemical industry may be ready for a rebound.

Demand for fire lumber has increased and prices have rebounded sharply. This may be tied in with a report that the change in terms for Veterans Administration guaranteed mortgages, particularly the new no down payment rule, have revived house sales in some areas.

J. I. Case reports its tractor sales are now running 25 per cent ahead of last year. In this connection, the Agriculture Department notes that farm income now is running at an annual rate of 13 billion dollars, compared with 11½ billion in 1957. This means that a sizable part of the population should have more money to spend this year.

The Department of Commerce adds that consumer spending continues high for all items except durable goods. The maker of one line of soft goods, Colgate-Palmolive, says sales this year easily should top last. And tobacco and drug firms report rising sales and profits.

In the prediction department are some other industries currently in trouble.

Augustus C. Long, chairman of the Texas Co., believes that the excess in oil inventories has nearly been corrected, offering the chance of better days in the latter part of the year.

A revival of demand for steel is expected before fall by Marcus J. Aurelius, vice president of U.S. Steel, and Charles M. White, chairman of Republic Steel.

Various utility executives note that consumer demand for power stays high and even is increasing enough in some areas to offset any loss of sales to industry.

These reports in themselves don't spell a return of boom times. But they do show that everything isn't as bad as some people paint it.

Inmates Now Have Own Jaycee Unit

ASHLAND, Ky. (AP)—The federal correctional institution here now has a Junior Chamber of Commerce.

Warden John J. Galvin said the 15-member group may be the first of its kind in penal history.

The Ashland Jaycees helped establish the new organization to assist inmates in obtaining better citizenship, Galvin said.

The prison Jaycees help other inmates with correspondence courses, aid in the recreation program and help in the administration of safety and sanitation programs.

Action Of Senate Spurs Confusion

By JAMES MARLOW

WASHINGTON (AP) — No wonder if you're dizzy from what's happening in the Senate on labor legislation. It's a mish-mash. This is the background on a confusing situation.

In 1954 President Eisenhower, disturbed by disclosures on the misuse of employe benefit funds, asked an investigation. He got it. Three times since then a Senate Labor subcommittee has held hearings filling thousands of pages with testimony.

These subcommittees were headed in turn by Senators Ives (R-NY), Douglas (D-Ill) and Kennedy D-Mass). Just before going home last year this subcommittee approved a measure — called the Ives-Douglas-Kennedy bill—which would do this:

Compel disclosure of the handling of employes' pensions and welfare funds to prevent their mishandling by employers, by employers and unions combined, or by unions.

On Jan. 23 President Eisenhower proposed a 12-point program of labor legislation. One point duplicated, and therefore approved, the Ives-Douglas-Kennedy bill upon which the full Labor Committee had not yet acted.

The rest of the Eisenhower program would add amendments — or make changes — in the 1947 Taft-Hartley law by imposing additional regulations on unions.

Sen. Knowland of California, leader of the Senate Republicans and therefore the one who might have been expected to introduce the Eisenhower proposals, offered a big, onibus bill of his own. He described his ideas as an attempt to assure democratic control of unions by their members.

Suddenly and unexpectedly, Knowland announced he would offer his bill as a series of amendments to the Ives-Douglas-Kennedy bill. Since what was in his bill went far beyond what was in the other, that provided a basketful of headaches.

Then yesterday the Eisenhower administration announced it would offer its 12-point program—which also went far beyond the Ives-Douglas-Kennedy bill — as an amendment to the latter.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

ELEVEN ATHLETES WHO competed in the Canyon Reef Relays here last month have qualified for the state meet.

This is a good representation, to say the least.

Since Andrews and Abilene dominated the relay events in the AA division at the regional meet last week, none of the relay teams here qualified for the state meet.

But a mishap back in the district meet cost one of the relay winners here a shot at state honors. Pampa, which finished first in the 440-yard relay here, was disqualified in the district meet after winning the blue ribbon there.

Pampa was caught passing a baton out of the required zone in the district meet.

Had the Harvesters reached the regional meet, they probably would have finished at least second which would have qualified them for the state meet.

Nearly One-Half Of Field

Since we did not invite any school outside of the Region 1 area, Canyon Reef performers qualified 11 out of a possible 24 in the individual events for state meet.

There are 12 individual events in regional competition with only the first and second place winners qualifying for state, making a total of 24.

So, about one-half of the field of individual events going to state from Region 1, thus, is made up of Canyon Reef participants. Just another feather in the caps of the Canyon Reef officials for getting together a top-notch field.

Those going to state who competed here are the Tigers' Rex Wilson and Bud Morgan, Midland's Charles Giesey, Bobby Barrett, and Tiffen Stone, San Angelo's Emory Martindale and Joe Beck, Lubbock's Pat McDonald, Odessa's Walter Myers, Pampa's Alton Thygerson and Borger's Don Box.

Canyon Reef would have furnished exactly one-half of the field in individual events at the state meet from Region 1 except for a piece of bad luck that plagued one of its participants.

The Tigers' Bill Dubose tied for second in the high jump at regional but was shoved to the sidelines by virtue of a coin toss. Dubose tied with Eugene Franklin of Abilene for second in the region high jump but Franklin won the coin toss to decide which would go to state.

Cowtown Meet Attractive Ta Abilene

Andrews and Abilene grabbed most of the state meet berths not won by Canyon Reef entries.

Both of these schools participated in the Southwest Recreation meet at Fort Worth held on the same weekend as the Canyon Reef Relays.

We know for a fact that Abilene wasn't issued an invitation to come here. Abilene has been invited here several times in the past but shunned the invitations each time so the Canyon Reef officials just decided not to "bother" with 'em anymore.

Most of the Canyon Reef Relays have been held on the same weekend as the Fort Worth meet and the Eagles have been choosing the Cowtown meet over the local meet because of the publicity angle.

However, Eagle coach Bob Groseclose told us on one occasion that the reason he didn't bring his team here was that he figured he had a better chance of winning the Fort Worth meet than he did the meet here.

That spoke pretty highly of the Canyon Reef Relays, since the Fort Worth meet has been long established and it annually draws a fast field.

K. DRAKE LEADING TIGER BATSMEN

Tiger 9 Hosts Broncs Tomorrow

The Tiger baseballers will be out to salvage the final game of their season series with the Odessa Broncs tomorow afternoon when they host the Odessa nine at Fowle Park.

Game time will be 2 p.m.

Odessa has swept the first three games of the four-game slate with the Tigers this season.

Tiger coach Speedy Moffett was undecided today as to who his starting pitcher would be tomorrow. It will be either Norman Gladson (3-3) or Tim Roberts (2-4).

"I probably won't know for sure who I'll start until just before game time tomorrow," Moffett said this morning.

Odessa is expected to go with Gerald Erwin who has been the winning pitcher in each of the three Brone wins over the Tigers.

The remainder of the Tiger lineup tomorrow is expected to be Coleman John at catcher, Jimmy Allen, first base; Kenny Drake, second base; David Hale, third base; Gary Vice, shortstop; Richard Mahan, left field; Neil Boyd, center field; and Johnny Drake, right field.

The Tigers, too, will be seeking to even up their season record in tomorrow's game. The Bengals currently sport a 9-10 record.

Kenny Drake is the Tiger leading hitter, according to the Daily News averages compiled today. Drake has clubbed out 16 hits in 45 trips for a healthy .356 mark.

Coleman John is second among the regulars with a .314 average, coming on 16 hits in 51 trips. One other Tiger regular, Gary Vice, is hitting in the select .300 circle. Vice has 15 hits in 50 at-bats for an even .300 mark.

Norman Gladson has been credited with the most pitching victories for the Tigers with three. Three others, John Weaver, Dick Hayes and Tim Roberts have each won twice.

Following are the Tiger hitting and pitching percentages to date:

BATTING

PLAYER	AB	R	H	RBI	PCT.
Kenny Drake	45	12	16	8	.356

Tigerettes Open Play In State Tourney

The Snyder High School Tigerettes were bidding for their 20th win of the season this afternoon when they went against the Graham Steerettes in the first round of the state 3A girls volleyball tournament at Abilene.

Snyder and Graham were to have clashed at 1 p.m. The other two teams in the 3A field, Phillips and San Marcos, were scheduled to follow at 2 p.m.

Winner of the two games will vie for the state title tomorrow night at 7. The two losers will play at 2 p.m. tomorrow for third place.

The tournament is being unreeled at Rose Field House on the Hardin-Simmons University campus. The state 4A tournament is being held in conjunction with the 3A meet at H-SU.

The Tigerettes carried a 19-8 season record into the Graham game today.

Probable starters for the Tigerettes were expected to be Ann Emerson, Oma Ivison, Lawanna Row, Janelle Moore, Blenda Stone and Anna Lou Joines.

BOBBY MORROW

DAVE SIME

IN PENN RELAYS

Morrow, Sime To Duel Again

PHILADELPHIA (AP) — Five Olympic champions toe the mark today in opening events at the annual Penn Relay Carnival, which has attracted the largest group of athletes in the meet's 64-year history.

More than 3,500 track and field athletes from 560 schools and colleges are entered in the 94-event program that ends tomorrow.

Ron Delany, Ireland's Olympic champion miler, anchors Villanova University's distance medley relay team as the Wildcats go after their third straight title in this event.

Villanova, NCAA and IC4A champion, also will seek to repeat with victories in the mile and sprint medley relays.

Glenn Davis, 400-meter Olympic hurdles titlist who is described as Ohio State's one-man track team, seeks to capture his speciality and regain the championship he won first in 1956. Pitt's Paul Thrash won last year when Davis didn't participate.

In the broad jump, Davis tangles with Olympic champion Greg Bell of Indiana, who is seeking his third straight Penn Relays title in this event. Bell holds the meet record, 26 feet, 1½ inches.

Bobby Morrow, Olympic 100-yard dash champ, will run in the quarter-mile and half-mile relays, anchoring the Abilene Christian College team. Morrow, too is going to make another attempt to outrun Duke, Dave Sime in the 100.

The fifth Olympic champion to compete today is Harold Connolly, a terrific hammer thrower.

Records Due To Fall In Drake Relays

DES MOINES (AP) — A versatile Drake Relays field headed out after new time and distance records today.

And to give you an idea of what they are after, listen to what Oklahoma State sprinter Orlando Hazley has to say about the university 880-yard relay.

"We want the world record. And we think we can run it in 1 minute, 22 seconds flat."

Coach Ralph Higgins thinks his four lads can do it, perhaps not in the preliminaries or final at Drake but somewhere along the line this spring.

Texas holds the world mark of 1:22.7, made at its own relays in 1957. But Oklahoma State has licked Texas twice this season. The Cowboys ran 1:22.9 at the Texas Relays and 1:23.5 at Kansas.

Those victories hurt Texas pride and the Longhorns, with spectacular Eddie Southern running anchor, will be gunning for revenge here.

Old time track fans gasp a bit when they hear a young man like Hazley talking about a 1:22 half-mile relay. But look what has happened to track:

Iowa ran a 3:16.9 mile relay at Drake in 1923, the first time it had been done under 3:20 here. The record stayed intact for 11 years. But last week Drake ran a 3:16.8 race at Kansas and didn't even qualify. Texas won the event with an intercollegiate record of The record stayed intact for 11 years. But last week Drake ran a 3:16.8 race at Kansas and didn't even qualify. Texas won the event with an intercollegiate record of 3:09.1, with Southern roaring through the anchor quarter in an unofficial :44.6.

Texas is here for another attempt at a record run, and seems certain to go under the Drake mark of 3:11.7.

Seven final events in the university and college sections were on today's program. A record was considered possible in every event providing the weather was right.

Top attractions were a discus match between Al Oerter of Kansas and Richard "Rink" Babka of Southern California and the university spring medley featuring intercollegiate recordholder Oklahoma, Houston and Oklahoma State.

Texas League Race Tightens Tulsa Leads

By The Associated Press

The Texas League race is settling into a close affair.

If Dallas would just shake a leg all would be rosy.

The Rangers lost their fifth in six starts Thursday and plunked into the cellar undisputed.

Tulsa took first with a 5-4 victory over Dallas while Austin dropped to second on a 10-3 defeat by Fort Worth.

The Cats blasted 13 hits with Moe Thacker clouting two homers that brought five of the runs. Jim Dunn got the decision but had to be rescued in the ninth by Dave Gerard.

Austin Manager Peanuts Lowry got so mad over a foul ball ruling the police had to be called in to oust him.

Dallas blew a 4-run lead and also lost Dave Hoskins' first pitching effort. Tulsa blasted two runs in the sixth and three more in the seventh and that did the job. Dallas got only five hits off three Tulsa pitchers. Tulsa pounded 11 singles.

San Antonio edged into a tie with Corpus Christi for fourth place when the Missions lashed Houston 9-3. San Antonio clouted 15 hits with Gene Sheets and Stan Hollmig each batting in three runs.

Duck Luebke, who substituted at the last minute for Dick Drilling, pitched a neat 7-hitter.

Victoria nosed Corpus Christi 1-0, using a catcher's interference ruling and Chris Nicolosi's 4-hit pitching for victory. John Russell was waived to first on Ray Murray's interference and scored on John Pfeiffer's single for the lone tally. Dick Sovde of Corpus Christi pitched a good game, allowing only five hits.

Casper Grabs Early Lead At Las Vegas

LAS VEGAS, Nev. (AP)—California's Billy Casper, who rated no better than fifth in pre-battle golf prophecies, today was first in line as play swung into the second round of the $40,000 Tournament of Champions.

The good looking, 26-year-old professional from Apple Valley, Calif., opened fire on the $10,000 target with a first round 33-32—65, seven blows under par for the 36-36-72 Desert Inn Country Club course.

Casper's lead, despite a score that equalled the tournament and course record, was only one stroke ahead of the Toledo strong boy, Frank Stranahan.

Stranahan, closing out with a spectacular 42-foot putt on the 18th green, had a round of 32-34—66.

Alone at 68 was Gene Littler of San Diego, a young man who has made a successful career out of this tournament. Winner of the last three, 27-year-old Gene scored 35-33, and but for an out of bounds shot for a double bogey, would have been closer to the top.

Eleven of the field of 22, each of whom qualified for the Tournament of Champions by winning a major open, clipped par 72.

In the legal Calcutta Pool, in which individuals or syndicates "buy" a player, Casper rated, in order, behind Ken Ventur, Littler, Doug Ford and Masters Champion Arnold Palmer

Venturi missed only one green but couldn't putt. He took a 72.

Ford missed 10 of 14 drives and took a 72. Palmer had a poor first nine and ended with a 72.

HSU Rodeo Starts

ABILENE (AP)—The Hardin-Simmons Intercollegiate Rodeo started last night with the first of four performances. Dale Burnett of Texas Tech had the best time in calf roping with 13.7 seconds. Bob iiiixz&?⅛shrdlu etaon ishrdlucshr Johnson of Sul Ross showed the best bulldogging time of 11.5 seconds.

SMASHES RECORD BY MORROW

Bishop's Bull Is On Loose Again

KINGSVILLE, Tex. (AP)—Ronnie Bull is loose again—this time in track.

It all came about because of a newspaper argument.

Bull is the great football player of Bishop High. Last season he counted that night lost when he didn't score at least four touchdowns.

Jake Trussell of the Kingsville Record got into an argument with Billy Newton of the Bishop News. Trussell said Preacher Pilot of Kingsville could beat Bull in the 100-yard dash and suggested a match race.

The match race never came off but Bull took it upon himself to prove once and for all how great a track man he really is. He did it in the Class B regional meet last weekend when he scored 20 points, winning the 180-yard low hurdles, the 220-yard dash, the 100-yard dash and the broad jump.

He broke two Region 7 records—one of which was held by the famed Bobby Morrow. He ran the 220 in 21.4 to smash Morrow's record of 21.5 set in 1954 when the Olympic sprint champion was at San Benito. He did the 180-yard low hurdles in 19.1 to better the mark of 19.5 set by Bobby Herod of Brownsville in 1952.

Giants Pulling 'Em Out Of Fire To Stay In Flag Chase

By ED WILKS
The Associated Press

The San Francisco Giants are following the same formula that paid off with 1951 and 1954 National League pennants for the club in New York: Win the close ones, and win 'em late.

In '51, the Giants led the league in one-run victories, took the race into a playoff and won by coming from behind with one out in the last of the ninth, for a 5-4 decision in the final game.

In '54, they won better than half their close games, and came up with a hero a day in the late innings.

At the moment, the Giants are hanging on, half a game behind the front-running Chicago Cubs, with last-inning heroics from Daryl Spencer. He banged a two-run homer that capped a six-run comeback in the last two frames for an 8-7 decision over St. Louis Wednesday.

Yesterday, he drove in the clinching run by beating out an infield hit for a 6-5 victory over the Cardinals, again with two out in the ninth.

The Cubs were less subtle, smashing the Los Angeles Dodgers 15-2. Lee Walls, a kid who hit six home runs all last year, drove in eight runs by belting three homers over the left field screen in the Coliseum.

Hank Aaron cracked two solo home runs as the Milwaukee Braves beat Cincinnati 6-2, and Pittsburgh rapped Philadelphia 7-4 in night games.

The Cardinals, stumbling along in last place, blew a three-run lead as Hank Sauer counted three for the Giants with his fourth and fifth home runs of the season. Ray Katt homered for a 5-4 St. Louis lead in the ninth, but then dropped a throw to the plate as the Giants scored the tying run. Ray Crone was the winner, Billy Muffett the loser, both in relief.

Bobby Thomson also homered for the Cubs, while the Dodger runs came on homers by Charlie Neal and Don Zimmer. Rookie Gene Fodge, making his first major league start, gave 10 hits, but won his first for the Cubs' first complete game. Don Drysdale lost it.

Warren Spahn gained his 226th victory for the Braves a day after his 37th birthday. He had a shutout for six, finished with a seven-hitter. Brooks Lawrence lost it.

Pittsburgh's Bob Friend was two outs from a shutout, then needed Elroy Face's relief after Richie Ashburn's two-run triple, and Bob Bowman's two-run homer. Curt Simmons lost his second when the Bucs scored four in the third — three on first baseman Harry Anderson's error.

Faltering Chisox Hit Rock-Bottom

Mr. Nice Guy is last in the American League.

For months now, genial Al Lopez has been confident that this is the year his Chicago White Sox win the pennant. He had the pitching to prevent a repeat of those disastrous 14 defeats in 22 games against the New York Yankees that killed Sox hopes last season.

So what happens? After nine games, his big staff has been able to win only two—and they haven't even had to face the Yankees yet. The Big Four look like this: Billy Pierce (0-2), Dick Donovan (0-2), Early Wynn (1-1) and Jim Wilson (1-1). Only Pierce, last year's 20-game winner, has managed a complete game.

Wilson, the veteran right-hander, didn't last three innings yesterday as the Cleveland Indians cuffed the White Sox 6-4 for their fifth straight defeat.

Kansas City reclaimed second place from Detroit banging the Tigers 7-2 and climbing within a game of the Yankees, who were rained out at Washington. Boston won two straight for the first time defeating Baltimore 4-3 in 10 innings.

In the National League, Hank Aaron hit two home runs for Milwaukee in a 6-2 victory at Cincinnati, Lee Walls smacked three homers and drove in eight runs as Chicago's first-place Cubs belted Los Angeles 15-2, Pittsburgh defeated Philadelphia 7-4 and San Francisco again came from behind in the ninth to beat St. Louis 6-5.

The Indians ripped Wilson for six hits, one Russ Nixon's home run, in his 2 2-3 innings while building a 5-0 lead. A three-run third, capped by Chico Carrasquel's two-run double, wrapped it up. Minnie Minoso, late of the Sox, drove in two with a single and homer.

Kansas City failed to hit a home run for the first time since opening day, but the ambitious A's slugged loser Bob Shaw and two relievers for 12 hits.

Dick Gernert's pinch single scored the winner for the Red Sox off reliever Billy O'Dell. Mike Fornieles went all the way for his first victory, giving up seven hits, one a two-run homer by Billy Gardner.

Tiger Duo To Run In Raider Relays

The Tiger track team, now composed of two athletes, will participate in the Red Raider Relays tomorrow on the Texas Tech cinder path.

Bud Morgan and Rex Wilson are the two Tigers who'll compete in the Texas Tech show.

The Red Raider Relays is open to only the athletes who have qualified for next week's state meet.

A third Tiger would have qualified for the state meet except for losing a "coin toss." Bill Dubose tied Abilene's Eugene Franklin for second in the high jump at the regional meet last week but since only one could go to state, a coin was tossed to determine which boy would go. Franklin won the toss.

Morgan and Wilson will compete in both hurdle events tomorrow. Morgan was second in the 180-yard lows at the region meet while Wilson was second in the 120-yard highs.

Both boys who beat the Tiger duo in their specialities are also entered in the Tech show. Bob Swafford and Iran King, both of Abilene, were the region winners in the high and low hurdles respectively.

In addition to the hurdles, Wilson will compete in the high jump and broad jump and Morgan in the broad jump.

Brain Takes The Lead In Adjustment

PHILADELPHIA (AP)—The brain takes the brunt of trying to adjust to life's stresses — and in the long run it may be damaged by its own persistent efforts; a New York research team said today.

They found that portions of the brain seem to govern a person's ability to adjust and express needs, drives or motives.

This was first measured in one study group of patients who had suffered some brain loss from surgery, usually for a tumor or other ailment. In these cases the exact amount of brain tissue lost was known.

Generally speaking the more brain tissue lost, the more difficulty a person had in adjusting.

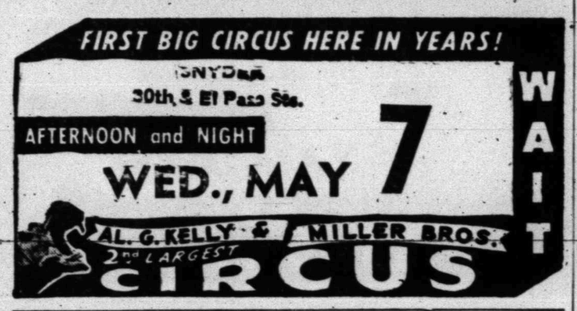

The researchers compared this group with a group of persons who had no brain tissue loss through surgery — but who showed long standing defects in adjustment to their environment and severe chronic anxiety.

In this second group, researchers found subjects reporting loss of their capacity to adjust much the same as those in the first group with brain tissue loss.

They also complained that they became tired readily, felt a slowing of thought or action, had difficulty thinking in abstract terms, had memory defects, poor concentration and difficulty making decisions.

They seemed to narrow their lives and avoided excitement, challenge and adventure. They were less inventive or imaginative, became frustrated easier, and could tolerate less frustration.

In fact, they showed the same impairment as did the first group.

VFW Slates Parley In Sweetwater

T. C. Selman of Freeport, Department Commander of the Veterans of Foreign Wars of the U.S. will be a featured speaker at the District 8 spring convention of that organization in Sweetwater on Saturday and Sunday.

In attendance at this convention will be representatives of posts and units of their Ladies Auxiliary from Haskell, Throckmorton, Stephens, Comanche, Shackelford Jones, Fisher, Scurry, Mitchell, Nolan, Taylor, Callahan, Eastland and Brown counties.

Sweetwater Post No. 2479 and its Ladies Auxiliary have prepared a full program of entertainment for visiting members beginning on Saturday at noon and the plans for the business sessions on Sunday reflect intensive effort from the interested posts and units.

The host organizations anticipate a record attendance.

More Cool, Damp Weather Predicted

DALLAS (AP)—The Weather Bureau issued today this 5-day outlook for April 25-30:

East and Central Texas: Temperatures 3 to 6 degrees below normal. No important changes. Moderate to heavy occasional rain or thundershowers throughout most of period with only brief breaks.

West Texas: Temperatures 4 to 8 degrees below normal. Slow warming trend early in week. Moderate to heavy occasional periods of showers or thundershowers throughout most of period.

Planes Face Growing Danger Of Collisions

By HAL MCCLURE
and DIAL TORGERSON

LOS ANGELES (AP)—The big silver airliner purred smoothly between cloud layers at 17,000 feet.

Suddenly, near Nellis Air Force Base, Nev.—but let airline pilot Bob Fox tell it:

"A flight of three jets dived from above right across our nose, missing us by about 150 feet.

"They were going so fast that there was no time to execute any maneuver at all."

This happened in January 1957 and Fox lived to tell about it—to the Civil Aeronautics Board. Others haven't been so lucky.

Last Monday in the same area an Air Force jet and a United Air Lines transport collided, killing 49 persons. Last February a Navy bomber and an Air Force transport collided over Norwalk, Calif., killing 48. Last year a jet and a transport collided and the big plane fell like a bomb into a Pacoima, Calif., schoolyard. Only eight persons died — there could have been hundreds. Two airliners collided over the Grand Canyon in 1956, killing 128.

These accidents tragically point up the growing danger of aerial collision in the crowded skies over the United States. And the problem is probably more acute in Southern California than anywhere else in the country.

Southern California -- with its vast desert reaches and good flying weather—is ideal for military air training. Huge aircraft plants build and launch thousands of aircraft annually. Los Angeles is a tourist and business capital of the West.

All this makes for heavy aerial traffic.

For instance, last year more than 2,800,000 commercial, private and military aircraft jammed the 10-mile wide airways of California, the Las Vegas area of Nevada and the Phoenix-Tucson section of Arizona.

What's the answer?

From each disastrous collision officials have learned — belatedly, they admit — new lessons. After the Pacoima crash, the testing of aircraft was restricted to ocean and desert areas and all jet craft were banned from Lockheed Air Terminal. New flight procedures came out of the Norwalk crash, which still is under study. More lessons will be learned from the Las Vegas disaster.

Military pilots are warned about stunting or "firing" sonic booms in populated areas. Often their diving and rolling are only testing but mistaken by civilians as stunting, officials said.

Later this year when the jet airliners take to the air officials expect more headaches. Said one airline pilot: "Man, we're using Wright brothers rules and regulations and airways for supersonic planes."

Some airline pilots want military planes restricted to altitudes and areas where commercial planes don't operate. But an Air Force colonel answers: "We're all in this together because we all use Civil Aeronautics Administration facilities. We'll have to solve it together."

And pilot Fox concluded: "In the Las Vegas crash, both pilots were strictly legal — but it killed a bunch of people."

Granular Weed Killer Is Being Developed

WASHINGTON (AP)—The Agriculture Department said today progress is being made in developing chemical weed killers in granular form. Most present weed killers are applied as a spray.

Research on herbicides in granular form are being carried on by the department and cooperating state agricultural experiment stations in Maryland, New Jersey, Texas, Oklahoma, Arizona and Missouri.

Officials said the granular type could be applied to weeds sprouting among desirable growing plants without causing the injury to foliage the spray would cause.

Boat Captain Loses Vessel And Crewman

ROCKPORT, Tex. (AP)—A shrimp boat captain staggered to a coastal ranch yesterday and told of a two-day ordeal at sea which took the life of his crewman and cost him his vessel.

Capt. W. A. Fears, 31, of Brownsville, told the Coast Guard his boat became disabled Tuesday in high seas and sank Wednesday. He said he fought his way ashore with a raft yesterday, but L. E. Lind, 22, also of Brownsville, the mate, failed to make it.

Lind's body was found on an island beach.

Fears told this story:

The rudder broke on the Ocean Bride about 20 miles off Port Aransas last Tuesday morning. He fixed it once, but it broke again.

He then dropped anchor and he and Lind manned the pumps as huge waves broke over the vessel. The shrimper capsized early Wednesday and went under within 30 seconds. Fear and Lind took to a small raft and drifted all day.

Late Wednesday they spotted land and fought the raft through the surf toward shore.

Fears said Lind went out of his head in the cold water and drifted away in his life jacket.

Fears said he slept for several hours after reaching shore, then walked up St. Joseph's Island, where he landed, to the St. Jo Ranch and called the Coast Guard.

LEGAL NOTICE

LEGAL ADVERTISEMENT FOR BIDS

Sealed bids for the construction of a 30' x 60' Concrete and Masonry Borden County Office Building addressed to the Borden County Commissioners Court will be received at the office of the County Judge in Gail, Texas until 10:00 a.m., May 12, 1958, and then publicly opened and read. All proposals shall be accompanied by a cashier's check or bid bond acceptable to the Court in the amount of ten (10) per cent of the bid price payable without recourse to the Commissioners Court of Borden County as a guarantee that the bidder will enter into contract and execute performance bond within ten (10) days after notice of award of contract to him. The notice of award of contract will be given by the Owner, or his representative, within ten (10) days following the opening of bids. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered.

The right is reserved, as the interest of the Owner may require, to reject any or all bids.

Plans, specifications and bidding documents may be secured from the office of the Engineer, W. W. Greif & Associates, at 1713 25th Street in Snyder, Texas.

Plans and specifications are on file and may be examined at the office of the County Judge or the County Clerk's office at the Courthouse in Gail, Texas.

BY ORDER OF THE BORDEN COUNTY COMMISSIONERS COURT

By: Judge C. C. Nunnally, County Judge
Date: April 24, 1958

Rocket Sled Sets Record

CHINA LAKE, Calif. (AP) — The tug of war for speed records between the Navy and Air Force has had another strong pull—this time from the sailors.

A two-stage unmanned rocket sled zipped down its monorial track this week and hit a top speed of 2,827.5 m.p.h., a spokesman at this naval ordinance test center announced.

This eclipsed the Air Force mark of 2,704 m.p.h. set last month at the Air Force Missile Development Center, Alamogordo, N.M.

Scientists scott the sleds down rails at supersonic speeds to test airplane and missile components on the ground.

Helicopter Rescues Quartet From Snow

SHERIDAN, Wyo. (AP) — A helicopter rescued four persons, two at a time, yesterday from huge snow drifts that had marooned them for nearly a day.

Two highway crewmen stranded with them on snow-clogged U.S. 14 finally made it to safety on snowshoes.

The copter landed in the deep snow in the Big Horn Mountains and flew to safety Mr. and Mrs. Tommy Pierce, Nampa, Idaho; John T. French, Hastings, Neb., and Emil Engstrom, 29, Denver.

Political Announcement

The Snyder Daily News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary:

Woman Is Rescued From Plane Wreck

JOHN DAY, Ore. (AP) — An injured woman was rescued late yesterday after lying helpless beside a wrecked plane since her husband set out pantless through the snow for aid Monday.

Doctors said Mrs. Bruce Davis of Fresno, Calif., survived because of her stamina and her husband's courage.

After their plane crashed Monday in the snow-covered Malheur National Forest 30 miles west of here, Davis took off most of his clothing, bundled it around his wife, and set off for help.

For a day and a half the 36-year-old orchestra leader floundered through deep snow — clad only in his undershorts, shoes and a light sport coat.

On Wednesday he stumbled into a deserted cabin. There he found a blanket, out of which he made a pancho, and a boy's cowboy hat. Then he set out again. He reached helped early yesterday.

His wife, meanwhile, lay beneath a crude shelter rigged beside the wrecked plane. She was without food and lashed with pain from a hip fracture. The injury made it virtually impossible for her to move.

At a hospital here, where Davis and his wife were recuperating, doctors said the 35-year-old woman was in amazingly good condition.

Aside from the hip fracture, she suffered extensive frostbite.

"It was pretty horrible when Bruce had to leave, but I knew he had to go," Mrs. Davis said.

"I had nothing to eat except two lifesavers and a half stick of chewing gum. I ate pine needles to quiet my hunger. . . .

"I don't remember much. I laughed, I sang, I talked to myself, I cried and I prayed a little. But mostly I talked to myself to keep up my spirits."

The pretty, red-haired housewife said she was not able to move until yesterday.

"Then when I heard airplanes I knew I had to get out from the shelter, which was hidden by the timber. I rolled about 300 feet down the slope into the clearing.

"There I waved and screamed at the planes, although I knew they could never see me," she said.

But one of the planes that participated in the intense search of this northeastern Oregon area saw the wreckage and directed an Air Force helicopter to the scene.

The copter landed on a frozen lake a quarter of a mile away, and its four-man crew hiked to Mrs. Davis.

They found her conscious and thirsty. She was bundled in four sweaters, her husband's overcoat, his business trousers and his socks.

Say Trade Act Hurting

CHICAGO (AP) — Sen. Malone (R-Nev) today said imported cheap labor products constitute the "chief factor in the so-called recession."

Malone, in an address to the National Machine Tool Builders Assn. convention, urged an end to the 1934 Trade Agreement Act, which will expire June 30 unless extended by Congress. This is the so-called Reciprocal Trade Act under which certain tariffs have been flexible on agreement between trading nations.

"Let this nefarious act expire and the American workingmen and investors are back in business competing for the American markets," he said.

DPS DIRECTOR HERE—Colonel Homer Garrison, third from right above, director of the Texas Department of Public Safety, spoke briefly at a luncheon at the Village here yesterday. Pictured from left are: Gene Graves, Sweetwater, Texas Ranger; Arthur Dyson, highway patrolman here; Maj. Bob Crowder, director of region 5 of the DPS, Lubbock; Maj. Pat Spier, director of region 4 of the DPS, Midland; Garrison, C. T. McLaughlin, chairman of the Texas Department of Public Safety Commission, and Jim Miller, captain of the region 5 license and weights division, Lubbock. (Lee Watson photograph)

Traffic Still No. 1 State Problem, Garrison Asserts

Col. Homer Garrison, director of the Texas Department of Public Safety, was the guest of honor and speaker at an informal luncheon at the Village restaurant here yesterday.

C. T. McLaughlin, Snyder rancher-oilman and chairman of the Texas Department of Public Safety Commission, was host to the gathering of about 30 Snyder area law enforcement officials, citizens, and department of public safety officials.

Garrison said that traffic is the state's No. 1 problem, but that the crime rate in Texas is also increasing faster than the population does.

Public apathy is the chief cause of the continued death, injury and property destruction on our highways, he said.

"If each individual would start a do-it-yourself safety campaign, the death rate on Texas highways could be cut in half in one year," he said.

Garrison told some of the history of the Texas Department of Public Safety, and said that if it held in high esteem throughout the country because of its leadership in the law enforcement field.

Recently a new plan of organization has been put into effect by the department in which "assistant directors of public safety" direct the activities of regional offices of the department throughout the state.

"This makes the department more efficient, better organized, and enables the department to render a better service to the public," he said.

Two of the regional directors were present at the meeting.

They were Major Pat Spier, director of region 4 with offices in Midland, and Major Bob Crowder, director of region 5, Lubbock.

Gene Groves, Texas Ranger from Sweetwater, and Jim Miller, captain of the license and weights department of the Region 5 office at Lubbock.

McLaughlin was appointed to the Texas Department of Public Safety Commission last year by Governor Price Daniel, and in February was elected chairman of the commission.

Since becoming a member of the commission, McLaughlin has visited each regional office of the Department of Public Safety.

"Everyone of them smelled like a rose," McLaughlin said in introducing Garrison.

"The director of the department is recognized throughout the nation as one of the top law enforcement officials in the country and if he is second to anyone, it is only to J. Edgar Hoover," McLaughlin said.

Krush-Tito Rift Believed Serious

LJUBLJANA, Yugoslavia (AP) — Western observers at the Yugoslav Communist Party Congress here are convinced that nothing short of a complete somersault by Nikita Khrushchev will make him President Tito's pal again.

Since the party conclave opened Tuesday, the continuous flood of harsh words aimed at the Kremlin has demonstrated that relations between the Soviet and Yugoslav Communist parties are about back where they were four years ago.

That was when Tito and Khrushchev started working to erase the damage done to Soviet Yugoslav relations by Stalin's cold war against his strongest Balkan partner.

Yugoslav sources at the Congress insist relations still are not so bad as in 1948, when Stalin read Tito out of the flock.

But many think the state visit to Yugoslavia by Soviet President Klementi Voroshilov, scheduled for sometime next month, may be canceled.

One thing seems certain: the Yugoslav Reds have decided to stick to their guns. They want Moscow to make the concessions.

In the three major speeches so far at the Congress—which ends Saturday or Sunday—Yugoslavia's leading Communists have repeatedly affirmed their policy of independent communism, that each Communist government must fit its program to meet local conditions and not to satisfy the Kremlin's line. There has been no evidence of retreat.

The north wing of the U.S. Capitol in 1800 was occupied by the Senate, the House of Representatives, the Supreme Court and the Library of Congress. The north wing was the only part of the building then completed.

Cheryl Under Care Of Grandmother

HOLLYWOOD (AP) — Cheryl Crane, 14, cleared of murdering Lana Turner's lover, is out of Juvenile Hall today but not in custody of her actress mother.

Superior Judge Allen T. Lynch, sitting in Santa Monica Juvenile Court, yesterday gave Lana's mother two months' temporary custody of the teen-ager. She remains a ward of the court. The decision came just 20 days after Cheryl rammed a butcher knife into the stomach of Johnny Stompanato, a onetime henchman of ex-gambler Mickey Cohen.

The ruling was, in effect, a continuance of the Juvenile Court hearing until June 26. Then a reappraisal of the case will be made to determine who gets permanent custody.

A coroner's jury ruled the slaying of Stompanato justifiable homicide. The Juvenile Court hearing cleared the girl of any possible murder charges. Charges of lack of proper parental control will be considered at another hearing June 26.

The decision made Lana, Cheryl and Mrs. Mildred Turner very happy. But the joy was not shared whole-heartedly by Steve Crane, the child's father.

Crane, second of Miss Turner's four husbands, shrugged glumly after the hearing. He refused to answer newsmen's questions, begging that he was "too upset to talk."

Later a reporter reached him at his apartment.

"Frankly," he said, "I had hoped that she would not be made a ward of the Juvenile Court."

Asked whether he objected to Lana's mother getting custody, Crane replied: "I'm happiest most of all that Cheryl was released from Juvenile Hall. And I've always said I would be happy to see her in her grandmother's care."

Crane has made no secret of the fact that he would like full custody of his daughter.

Asked if he had any future plans concerning Cheryl's custody, Crane answered: "My only plans are to cooperate with the juvenile authorities."

Lana, her eyes filled with tears of happiness, told reporters: "The decision to put her with my mother was one that I was hoping — and praying — for."

Jerry Giesler, Lana's attorney, said both she and Crane would have reasonable visitation rights with the youngster.

Cheryl, said by her father to be happier than she has been in weeks, spent the night at her grandmother's apartment in Beverly Hills. Later the two will move into a house which Lana and Crane will provide.

Dedication Of Dam Set

CORPUS CHRISTI (AP) — Wesley Seale Dam, a 5,980-foot structure on the Nueces River near Mathis which will impound 306,000 acre feet of water for Corpus Christi and nearby towns, will be dedicated tomorrow.

Charles Wilson, former secretary of defense, and Gov. Price Daniel will speak.

Moratorium Under Study

NEW YORK (AP) — Bethlehem Steel Corp. would give very careful consideration to a proposal to declare a moratorium on wage and steel price hikes, says President Arthur Homer.

Homer's remark was made yesterday at his regular quarterly news conference, at which it was announced Bethlehem's first quarter net income fell to $24,819,490 or 52 cents a share from $53,427,655 or $1.16 a share in the like 1957 quarter.

Homer emphasized he had received no moratorium proposal from the Steelworkers Union and Bethlehem had made no such proposal.

Squirrel Sets A Fast Pace

KANSAS CITY (AP) — Four firemen and a policeman were called to St. John's Catholic school to capture — preferably alive — a squirrel that had bitten two students. Authorities wanted to test it for rabies.

For 35 minutes the squirrel taunted his pursuers, darting around parked cars, through traffic, in and out of trees.

In the end, the squirrel outfoxed himself. As the firemen leaned a ladder on a tree to go after him, the squirrel tried to leap to a safer perch, missed and ran under an automobile.

He was pulled out from under the hood — but not before he chewed through a generator wire.

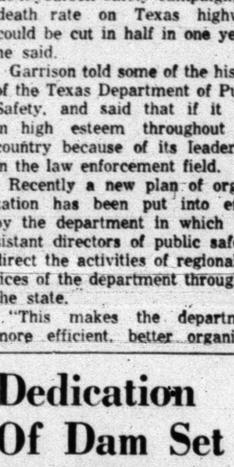

BEWARE OF BALLYHOO VITAMINS

"Vitamin deficiency" has become a kind of catch phrase. Yet it relates to health, the province of your physician.

Should you suspect that you need vitamins, consult your doctor. Let him decide what vitamins, if any, are required.

How much more sensible a procedure than to succumb impetuously to nonprofessional ballyhoo for all-purpose, bargain vitamins.

Rely on your physician's advice. When he writes a prescription, we are prepared to fill it promptly.
