THE JUNCTION EAGLE

Volume 46

Junction, Kimble County, Texas, Thursday, May 9, 1929

Number 4

KIMBLE MASONS ENJOY SOCIAL MEETING HERE ON SATURDAY EVENING

Early Saturday afternoon Masons began to arrive in Junction for the social meeting of the three lodges in Kimble County and by night the largest assembly of Masons were present that has ever been seen in Junction.

The first number on the program was a banquet served by Forrest Weldon, proprietor of the City Market. He was ably assisted by his efficient force at the market and some of the Junction Masons. The large crowd was handled orderly and quickly. Immediately after the banquet the lodge was opened by George Cavaness, the Worshipful Master of the Junction Lodge. He then rendered the gavel to the Worshipful Grand Master, Frank Hartgraves, who honored the occasion with his presence. After the singing of America and the invocation by Brother L. M. Taylor, Hon. Coke R. Stevenson delivered the address of welcome which was responded to by the Worshipful Grand Master.

Addresses were made by four distinguished Masons from San Antonio, Dr. A. C. McDonald, A. R. Marker, Judge James M. Wood and Charles E. Weinberger. All these men brought good messages that were enjoyed by all present. Following these the Worshipful Grand Master made an earnest appeal to the Masons present concerning matters that will come up before the next Grand Lodge for discussion. Several members from Junction, London and Roosevelt responded to calls for brief talks.

At the close of the good program ice cream was served to all present. It was the unanimous opinion that these social meetings of Kimble County lodges should be held at least annually.

A register of the Masons in attendance was not kept and we were unable to get the names of all the visitors, but the hall was filled with Masons from Kimble County and many visitors were present from other lodges.

NEW SUPERINTENDENT OF SCHOOLS ELECTED

At a meeting of the school board this week, Mr. Guy Moses principal of the Kerrville High School was elected Superintendent of the Junction Public Schools. Mr. E. L. Allison of Bertram was elected several weeks ago, but we understand that he has accepted the superintendency of the Menard Schools, as the County Superintendent did not approve his contract on account of shortage of funds.

Mr. Moses has been connected with the Kerrville schools for eight years and has the reputation of being an excellent school man.

DISTRICT CONFERENCE

The District conference of the San Angelo district of the M. E. Church is in session here. The first session was held Wednesday night and the meeting will last until Friday.

An invitation is extended the people of Junction to attend the sessions today and tomorrow. Several distinguished Methodist preachers are present including the Rev. Joe W. Bickley, pastor at Menard for the past three years. The editor of the Eagle has known Dr. Bickley several years.

WEATHER REPORT

A light rain Wednesday night settled the dust and made living more enjoyable. Heavier rains fell north and west and prospects are good for more rain here. Ranchmen say that rain is needed to enliven the pastures.

Mrs. Tom Jones Honors Uncle Jim Ike Jones

Mrs. Tom Jones honored Uncle Jim Ike Jones last Thursday with a dinner to which a few of the old timers were invited. We do not mean old people but people who are pioneers in Kimble County.

Those who enjoyed the hospitality of Mrs. Jones were Mr. and Mrs. N. C. Patterson, Mr. and Mrs. W. A. Bannowsky, Mr. and Mrs. Henry Murr, Mr. John Fleming, Mr. John Braley, Mrs. C. F. Burt and the honor guest, Uncle Jim Ike Jones.

These old timers in Kimble County had a great time. The time was too short for all of them to review their eventful years in good old Kimble County. Uncle Jim Ike moved further west many years ago but wanted to visit the scenes of his early days again. It was a great occasion for the good old citizens and they enjoyed Mrs. Jones' hospitality more than they could express.

NEW HOME OF BUICK SALES AND SERVICE UNDER CONSTRUCTION

Work began this week on the erection of the home of the Buick by the Farmer Motor Company on the lot just across the street from the Powell Motor Company. The Terrell Barney Engineering Company of San Antonio drew the plans and Mr. W. E. Maxwell of the Kinman & Maxwell Construction Company is in charge of the work.

Mr. A. G. Farmer states that the plant when finished will cost more than twenty thousand dollars, and the contract calls for the completion of the building in seventy-five working days. It will be built of steel reinforced concrete and hollow tile. The building will consist of a drive-in filling station, sales and show rooms for the Buick cars and a service department equipped with the most modern equipment. The service station will have in connection well furnished rest rooms for the comfort and convenience of patrons and tourists. All oil tanks will be concealed and Mr. Farmer says that while the Farmer Motor Company is sparing neither effort nor money to build a plant, modern in every detail, that it will also be attractive and beautiful. The Farmer Brothers believe strongly in the Junction spirit, "safety, service and beauty," in constructing the new home of the Buick Sales and Service.

Sheriff Frank Patterson and Walter Tinsley went to Fort Stockton after a woman giving her name as Mrs. E. O. Allen. She had given several checks and had driven a car off that belonged to the Loeffler Motor Company. Mr. Emil A. Loeffler had rented her the car pending return on a check she had given him for a new Ford. She had given several checks to local merchants and at Bodarc and Roosevelt. It is reported that she gave a string of checks along the route to Fort Stockton where she was arrested. She is in the Kimble County Jail. She says that there is some error somewhere and that as soon as she gets the matter cleared up everything will be o. k. Checks were written on a bank in another state, the Junction State Bank and banks between here and Fort Stockton, it is reported. She told the officers that she was not trying to leave the country as she was planning to return. She gave her profession as a trained nurse.

Mr. A. J. Bierschwale lost his Chevrolet sedan last Sunday night when it was taken from in front of the Methodist Church. It was found the next day below Kerrville. The oil was exhausted, but the car did not seem to be injured.

Mr. and Mrs. J. A. Browning enjoyed a visit from Mr. and Mrs. Ernest Zipp the past week-end. They went out to the home of Mr. and Mrs. Alva Fisher where they were joined by many friends on Sunday. They enjoyed an old-fashioned fish fry Sunday. Mr. and Mrs. Zipp returned to their home in San Antonio Sunday afternoon.

BELOVED
(Dedicated to My Mother)
BY ALICE WHITSON NORTON

With thee, Beloved, I have walked
Thus far life's toilsome way;
Together through the rain and sun
We've traveled day by day.
And always, dear, your loving song,
Has aided, and urged me on.

I know the feet so steady once
Are trembling now and old,
And silver has replaced the crown
That glistened once with gold—
And yet you walk with shoulders square,
Spreading enjoyment everywhere.

The hands that once made play of toil,
Are covered now with scars,
And eyes that once were pools of light
Are now dim shining stars;
Old Time has claimed a major part—
Yet left you still unchanged in heart.

Land Owners Protest Texas Co. Application

A meeting of land owners along the North Llano who are interested in irrigation held a meeting at the Kimble County courthouse Tuesday night to enter a protest against the application of the Texas Pipe Line Company for a permit to appropriate waters of the North Llano River.

W. M. Keen was elected chairman of the meeting and A. L. Mudge, L. E. Dunbar and Nugent Weaver were appointed as the executive committee. The following were present at the meeting:

Mr. and Mrs. W. M. Keen, N. H. Skaggs, H. Lucke, Floyd Little, J. W. Little, A. L. Mudge, E. O. Dunbar, L. E. Dunbar, Cal Turner, Allen Collier, Willie Bolt, S. P. Bennett, Millard Bennett, Mac Anderson, W. R. Richardson and Jack Richardson.

The board of water engineers will meet in Austin on Monday, May 27, at which time the application of the Texas Pipe Line Company will be considered.

S. S. CLASS PICNIC

Tuesday evening the Sunday School class of young people of the Baptist church under the supervision of Mrs. C. W. McCarrall had a very enjoyable picnic at Kimble Courts. The class left the church at seven thirty and went out to the grounds where they all enjoyed several games. After the games were played and everyone was tired and hungry a feast of the most enjoyable things were spread out and everyone had a great time, eating and planning others to follow this one.

Mr. and Mrs. J. A. Browning enjoyed a visit from Mr. and Mrs. Ernest Zipp the past week-end. They went out to the home of Mr. and Mrs. Alva Fisher where they were joined by many friends on Sunday. They enjoyed an old-fashioned fish fry Sunday. Mr. and Mrs. Zipp returned to their home in San Antonio Sunday afternoon.

School Boys Visit Borden Ice Plant

The Vocational Agriculture Class and their instructor from Schreiner High School visited the Borden Ice Plant Wednesday afternoon. The visitors were welcomed by Mr. E. R. Borden, owner and manager of the plant, who kindly showed them through the plant and explained the principles of refrigeration. They seemed to be very much interested in the information given by Mr. Borden and no doubt the boys learned a lot of things that they didn't know about an ice plant and the making of ice. When the study was over and all questions asked by the boys had been answered, Mr. Borden showed that his heart was in the right place by bringing from the ice vault a case of ice cold soda water and treated the class. The V. A. boys thank Mr. Borden for this kindness and favor.

In order to find out just how much the boys learned and to make it more impressive, each boy will be required to make a written report telling just what he saw and learned, according to Mr. Bierschwale. These will be graded just as any other school papers and the grades averaged in with the other grades made by the boys in their work. Also oral questions covering the most important phases of the lesson will be asked and discussed later.

SIDNEY GENTRY DIES

Sidney Gentry, the fourteen months' old son of Mr. and Mrs. Tom Gentry was buried at Cleo Friday afternoon, May 3, Elder J. S. Newman conducting the funeral services.

The fishing season is attracting many people to Kimble County. Some are lucky and some are unlucky. The new law passed by the recent regular session of the Legislature will go into effect about June 15. After that date it will be unlawful to fish with any line having more than two hooks.

Big Social Affair Here Friday Night

Henrietta Zander and Benjamin Gump, better known as Widow Zander and Uncle Bim, will get married at the High School Auditorium Friday night, May 10. All who are familiar with the Widow Zander know that she is after gold. The Parent-Teachers' Association state that they are also after gold and extend an invitation to everyone in Kimble County to be present at this wedding.

This is the first program that the Parent-Teachers have given this year in which an admission has been charged, but as the entire proceeds will be used for the advancement of the local schools the members are very anxious that a large attendance see this amusing and entertaining program at the High School Auditorium tomorrow (Friday) night at eight o'clock. Adults 35 cents and children 15 cents.

RANCHMEN PLAN FOR APPROPRIATIONS TO PROTECT LIVE STOCK

Roy Blackburn, John L. Phillips and H. W. Bierschwale returned last week from a trip to Austin where delegates from nearly forty counties in Texas attended a meeting looking to the extermination of predatory animals. The purpose of the meeting was to try to get an appropriation passed at the special session of the legislature so that funds might be available for the work of extermination of these animals.

The delegation held a hearing with the Senate and House Committees in which evidence regarding the benefits of the appropriation was introduced by various ranchmen throughout the counties represented.

A meeting was held while in Austin at which first steps were taken toward a state wide wolf club organization which will have for its main objective passing of the appropriation. There were about 150 men, representing sheep, goat and poultry interests, present for the meeting.

A recent survey was made by C. A. Blasig of the Brady Chamber of Commerce of ten counties, showing the activities of wolf clubs in these counties. In this survey it was found that 2,348 wolves have been caught through the activities of these clubs. Mr. Blasig found that veteran ranchmen estimate the ravages of one wolf per year at \$1,000, which means that ranchmen and stockmen in these counties saved \$2,348,000. This does not take into consideration the offspring of these 2,348 wolves.

Bounties were paid for the catching of these wolves, and it is estimated that about \$50,000 was spent for this purpose. Therefore, it is observed that the ten wolf clubs were worth over two million dollars to the ranchmen and livestock raisers in these ten counties.

The greatest benefit reflected by these clubs is that it has made it safe for the farmers and ranchmen to grow poultry and livestock. Six years ago, before the wolf club was organized in McCulloch County for instance, it was estimated that McCulloch County realized only about \$800,000 from poultry, sheep and goats, while today the county realizes over two million dollars from the raising of turkeys, chickens, goats and sheep.

If the appropriations are passed by the legislature so that the work of extermination can be carried on, it will not be long until the losses from predatory animals will be reduced to a minimum.

Mayor T. B. Phillips came in the first of the week from his ranches in Edwards County. He is suffering from a bruised finger caused by hitting it too hard with a hammer. The wound is painful.

BUILDING PROGRAM IN JUNCTION SHOWS MUCH ACTIVITY AND GROWTH

As stated in last week's issue Junction is enjoying a building program that has been in progress about three years. In recent issues mention has been made of the good homes like the Baker residence, and summer homes of R. L. Autrey and Ben Warren and other good homes completed in past months. Hon. Coke R. Stevenson is building a ranch home to replace the house burned a few weeks ago.

Mr. Nolan Gillan is building a good residence near the new Baptist Church building and Frank M. Cowser is building a modern cottage in the Cowser addition. Several new residences have been completed recently in various parts of the city and other improvements are being made by several home owners.

The Ford Motor Company has just completed the foundation and floor for an addition to the Ford plant. His present building is a large one, but not large enough to take care of the Ford business. The present department that is now used as a shop will be converted into a storage room and the new addition will be equipped with modern equipment for shop work. The present building that now faces south and east on two streets will be extended north for the new shop.

W. A. Stephenson has enlarged his tourist camp by adding five new apartments on the north side of his block. All his apartments are equipped with electric stoves and furnished with new furniture. His camp is conveniently located, being near the business section and only one block from the Llano River.

Mayor T. B. Phillips is making some substantial improvements at his place just two blocks north from the Ford Motor Company. He has just completed a concrete wash house, servants house and concrete tank. He says that the servant's house will be used when he gets able for a servant.

The Farmer Motor Company let the contract this week for the new Buick home to Kinman & Maxwell and work was started at once. The plant, when completed, will cost more than twenty thousand dollars and will be modern in every particular. Farmer Brothers have taken time to study plans and believe that they will have one of the best plants in the entire country.

The West Texas Utilities Company is completing the installation this week of a modern lighting system for Junction. The company is also building a much larger substitution than the one that has been in use here since the company entered the city. More will be said about this station in another article.

The Junction Entertainment Company only recently completed one of the best equipped skating rinks and amusement halls in the country. An electric line is being run to the building this week by the B. C. Music Shop and Mr. Taylor reports that he will be better prepared to serve the public.

P. T. A. MEETING MONDAY

The Parent-Teachers Association announces a call meeting at the school building for next Monday afternoon at four o'clock. Very important matters will be discussed at this time and every member is urged to be present.

Messrs. E. D. Porter, George and Pearl France, and Perry Mays returned Wednesday from a fishing trip to the Rio Grande. They caught thirteen catfish ranging in weight from three pounds to fifty pounds. They had a great trip and think that if their lines would have been strong enough that they would have had larger ones to report.

County News

LONDON LOCALS

Mr. Howard Horn has purchased the J. W. Deering property and now lives at home. This was good news.

The Sorrels-Jackson drill is to begin operation on the Lindsey Brothers oil lease the 7th. Mrs. Thelma Thiers is now at the Walton store.

We are informed that there are good prospects of another concrete building in London soon. Fine; this is good news.

The Masonic brothers who attended the meeting of Kimble County's Three Lodges at Junction the 4th came back satisfied. They say a good time was had. Their praise of the meeting makes others wish they had attended. Your humble servant was there and not knowing any better, declares the meeting was simply grand. The editor of the Eagle saw that we got supper all right. Well, if it was not for our friends we might go hungry often. At that meeting we met many friends and appreciated acquaintances. Among them we met L. M. Taylor of Roosevelt, an old friend and co-worker in Comanche County. During a conversation with him he refreshed our memory of the fact that he, L. D. Reed and myself served in three consecutive years as school trustees and general fundies for our community, each successive year being re-elected and during that nine years no semblance of strife ever arose between us. We would meet and discuss measures for the betterment of our school, and agree as to the best method of bringing them about. Then Mr. Reed and I would say to Larkin Taylor, "Put it over, Larkin, we will stand at your back." I think I can truthfully state that only one thing ever failed to go over to the Queen's taste; that one was an effort to vote a special school tax for school purposes, and that was when the law authorizing the levying of such tax was young and the people were not as well up on its benefits as they are now. At that meeting we met a host of brethren all the way from Coke R. Stevenson down to a size not much larger than L. M. Taylor and I. Quite a range in latitude but it was well joined together and the meeting was simply grand.

Our school is now nearing the close of another successful term. Sunday, the 12th, the Baccalaureate sermon will be delivered at the Weaver Hall by Bro. Glen Wallace; the school closes the 11th with graduating exercises at the Weaver hall, beginning at 8 o'clock. Miss Mona McKinney, Miss Madge Cooper and Mr. Jack Price are to receive their certificates of graduation. We should have one more year at least in this school. Think it over; let's build our school higher. Where there is a will there is always a way. I'll continue to knock until you act.

Mr. and Mrs. E. F. Amaon are visiting the home of Mrs. Amaon's father, Mr. A. J. Ivy, at Sanderson.

Mr. and Mrs. Albert Bannowsky of Cleo were visiting at the home of Mrs. Bannowsky's mother, Mrs. F. A. Weaver, Tuesday.

We are needing rain badly. The pasture land needs rain, the farms need rain, and visiting fishermen need rain badly before they can write back home and tell anything like the truth about this beautiful country. We are needing that shower that brings things to life in old Kimble County and we are going to get it—some time. Yours for the shower.

TELEGRAPH NEWS

C. T. Orth and W. F. Roberts made a business trip to San Antonio this week.

S. M. Self has been moving his stock to his ranch which he purchased from Ollie Fleming. Asa Bricker and wife are visiting in Del Rio.

Mrs. Hood had a fine catch Sunday morning—a twenty-four pound catfish.

Mrs. Willis Mason was seriously hurt Monday when a wild hog attacked her.

Arch Cavaness and wife have moved to the Baker ranch on Bailey Creek.

Mrs. Lester Phillips visited at the Hull ranch the first of the week.

Ridenhower Brothers' garage burned last week. They were fortunate enough to get their cars out.

Mrs. George Hamilton and daughter, Josephine, spent the week-end with Mrs. Less Beasley.

Miss Gussie Burris was a week-end guest at the Burney home.

Troy Fleming and wife spent the week-end with her mother, Mrs. Howard, of Brady.

Wheat Bradford and family were in Telegraph Sunday.

Mr. and Mrs. C. T. Orth have as their house guests Mr. Orth's mother and Mrs. Orth's mother and Mrs. Orth's sister of San Antonio.

Earl Huffman and wife and Burney and wife were down from the Huffman ranch fishing this week.

South Llano is needing rain very bad; some of the people are irrigating their corn, with hopes it will rain in the near future.

Rattlesnakes seem to be thick this spring. Arch Cavaness reports killing one and two every time he goes out.

London, England, proposes underground parking for automobiles. Just changing positions with the pedestrians.

West Texas, which according to the Texas Chamber of Commerce comprises the area west of the M-K & T Railroad to Waco and thence southwest through Fredericksburg and Rocksprings to Del Rio, includes 135 counties and approximately 91,000,000 acres of land. Into it could be dropped Maine, New Hampshire, Rhode Island, Connecticut, New York, New Jersey, Delaware and Maryland and still leave unoccupied 10,000 square miles or eight more Rhode Islands.

Let us service your car. All work guaranteed.

Powell Motor Co.

POOL-D'SPAIN

One of the largest crowds to ever witness a wedding at London was present at the Community Hall last Sunday afternoon when Elder J. S. Newman of Junction united in marriage Miss Essie D'Spain and Mr. Walter Pool.

The bride is the daughter of Mr. and Mrs. N. J. D'Spain and has lived in the London community all her life. She has a happy disposition and wanted all her friends present at the wedding and so announced that fact several days before the wedding. The hall was literally packed with people to witness the ceremony.

The groom is likewise a product of London and is the son of Mr. and Mrs. John Pool. He is to be congratulated on his selection for a life's partner. Congratulations are being showered on this popular young couple of London on this happy event.

HEALTHY HOGS

Too many swine growers immunize their hogs against hog cholera only to raise them under unsanitary conditions. Anti-hog-cholera serum and hog-cholera virus can not be expected to save the hogs regardless of their condition when treated, says Dr. U. G. Houck, hog-cholera authority of the U. S. Department of Agriculture. The immunization treatment must be given under favorable conditions to be effective. By raising healthy herds, by avoiding ways of spreading disease, by following the advice of a veterinarian, and by giving special attention to the herd for at least two weeks following immunization, losses from cholera can be reduced. Farmers' Bulletin 834-F, "Hog Cholera," which can be obtained from the U. S. Department of Agriculture, contains further information on this subject.

WALTON PICNIC

A crowd of happy people from London enjoyed a day at the Luther Walton place last Sunday. It was an old-fashioned picnic. As soon as the beautiful place on the Llano was reached some of the men killed enough squirrels for dinner and to this was added all the trimmings needed to satisfy everyone present.

The following enjoyed the day:

Taylor Walton and family, Fred Pearson and family, Mrs. John Hodges and son, Edward, Raymond Furr, Rollie Adams, Mrs. C. E. Weaver, Miss Mona McKinney, Miss Selma Adams, Miss Icy Adams, Miss Virginia Jones, Mr. and Mrs. Marvin Hunter and baby, and the host and hostess, Mr. and Mrs. Luther Walton. Mrs. A. D. Irvin and children of Kerrville were present to enjoy the day with friends.

Magnolia Anti-Knock gasoline. The RED gas. We have a separate pump and are ready to serve you. Try it yourself. Loeffler Motor Co.

Nearly \$200,000 worth of Crockett County lambs, 25,000 head in number, were contracted last week by 21 Crockett County ranchmen, establishing a local record for the sale of lambs in a single block or pool.

DEPENDABILITY, SATISFACTION, AND HONEST VALUE

School Notes

Miss Willis was absent the latter part of last week on account of illness and Mrs. Tinsley substituted for her, but we're glad to see her back with us again this week.

Jack King is back in school after several weeks' absence on account of an operation.

Several absentees have been reported this week. The cry of "Too much ice cream Sunday," has been heard often on the school grounds.

Mr. Bierschwale's car was stolen Sunday night and his pipe and tobacco went with it. So his desire for a smoke along with the loss of his car made him cross Monday. But he was in a better humor Tuesday for his car had been found on the other side of Kerrville. No thief was found for which he had better be thankful, for if Mr. Bierschwale had been as hard on him as on the students of the solid Geometry class, we're afraid the poor thief would have been in a pretty bad condition.

Some of the pupils of this school and rural schools have been taking College Entrance Examinations here this week. The other pupils extend their deepest and most heart felt sympathies to them.

Last week several of the teachers were showered. The eighth showered Miss Bennett and Mrs. Felps with handkerchiefs and fruit; the seventh grade showered Mr. Bowers with socks and handkerchiefs; the sixth grade showered Mrs. Kindrick with fruit and flowers; Miss Newman's class showered her with fruit; and the Domes Art pupils showered Miss Snyder with handkerchiefs.

We failed to mention in last week's school notes that Marie Bruce, a former high school student, married March 27.

The seniors are getting rather nervous, for it is just a little over a week until Baccalaureate sermon and about two weeks until the Commencement exercises. They are wondering if they are all going to be lucky enough to receive those diplomas.

The College Perfect

Visitor—Those are nice dressing rooms you have attached to the football stadium.

Professor—Dressing rooms? Those are the college buildings.

Boerne has hit another stride in progress when on Saturday in a bond election of \$40,000.00 for the purpose of building a modern High School, the vote stood 160 for and 44 against.

Long Sought Wolf Finally Killed By McCulloch Trapper

The ravages of the most elusive, old she-wolf which roamed this section and whose depredations during the past two years have cost the ranchmen at least \$2,500 in damages to their flocks, came to an end last week when a local trapper caught the wary animal off-guard and killed it.

A bounty of \$200 has been offered for the scalp of this wolf by Mason and McCulloch county ranchmen.

A litter of six wolf pups was also found by the trapper near the place where he shot the mother wolf.

The trapper will collect \$260 on his catch, since the McCulloch County Wolf club pays ten dollars for the scalp of each wolf pup.

The old wolf during the past two years has eluded at least a dozen of the most skilled trappers in this section.—Brady Standard.

PACKING THE FLEECE

More care in packing wools for market would pay growers in dollars and cents, says the U. S. Department of Agriculture. Paper twine is best for tying fleeces, as it has no loose fibers to break off and mix with the wool. Wool containing fibers from sisal and jute twines, which are widely used for tying fleeces, doesn't command full market prices, as the sisal and jute fibers won't take the wool dyes and must be removed. Wool put up so that the individual fleeces are tied with the flesh side out, and with tags, dung locks, seedy, burry, and black wools packed separately, make the best impression on buyers. Packing wool while it is wet may damage it considerably. Excessive moisture, together with the dirt ordinarily present, causes the wool to heat and become discolored and musty.

Boys and girls in 4-H clubs in 1928 numbered 47,000 more than in the year previous, according to advance tabulations of county agents' reports by the Office of Co-operative Extension Work, United States Department of Agriculture. In 1927 there were 619,712 boys and girls enrolled in club work in agriculture and home economics and 399,107 of these completed the projects which they undertook. The advance figures for 1928 indicate an enrollment of more than 660,000 with 447,000 members completing their work.

We have been in the cleaning and pressing business since 1912; experience and equipment counts.

Junction Tailor Shop.

LOVE LETTER TO MOTHER

Mother Mine:

May this your newest birthday just open out for you, and bring to you just lots of good things that have been waiting to come true.

I hope and pray you will have just as many more as you have already had and as the years pass, Oh, so swiftly, may each one grow sweeter and dearer.

I have thanked God time after time for you, mother. Without a doubt you are the sweetest of all mothers. Of course, you are to me, but I know others who think so too.

I thank you for the rearing, leadership and guidance you have given to me. Besides the most wonderful of all and that's motherly love.

Without you, mother, I would never have been what I am today. Thank God for that.

Wish He had made it so that we'd never have to part, but it's "His will be done, not mine."

All my life to you I owe but yet can never repay you for all you've done for me.

Mother accept the small gift I'm sending. Doesn't seem like much, but it brings with it all the love a real daughter can have for such a wonderful mother.—Eden Echo.

MEN WHO HUNG ON

James Watt—Thirty years to the steam engine and perfected it.

George Stephenson—Fifteen years to the locomotive and won.

Samuel F. B. Morse—Fourteen years to the telegraph and then sent the message.

Alexander Graham Bell—Sixteen years to the telephone and we hear and talk over wires.

John W. Niepce—Thirteen years to photography and then made photographs.

Elias Howe—Twelve years to the sewing machine and is acclaimed its inventor.

Charles Goodyear—Ten years before he vulcanized rubber.

Learning Boy Is His Son-In-Law Kills Him

Amarillo, Texas—Tom Walton, Jr., 21, shot to death by P. H. Hamilton, former judge of the Texas Supreme Court's commission of appeals, when with a jest barely off his lips he entered Hamilton's office presumably to tell of a secret marriage with the attorney's daughter, was sent on the fatal errand by his mother, who was silent in grief Sunday.

The mother had been worried because Walton had kept secret his wedding to Theresa Hamilton, 19, February 10, while the two were students at Texas University.

"Go and see the judge," she told her son. "He'll be sensible and everything will be all right."

So Walton walked into the office Saturday saving carelessly to Miss Evelyn Watley, a stenographer, "if you hear some shooting you'll know I've been shot."

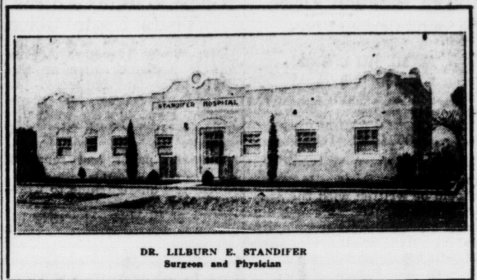

A few minutes later Hamilton shot him four times, surrendered and made only this explanation: "I had rather die than kill a man, but I had to protect my family."

The lawyer, one of the prominent men in Amarillo, was released under \$20,000 bond, waived preliminary hearing and will be taken before a grand jury probably this week.

Mrs. Hamilton and Theresa had been in Austin where the university is situated since January. The daughter, whose marriage took place at Georgetown, near Austin, had been a patient in an Austin hospital recently, friends say.

Breaking down as he approached the death chair, Mathew Sanders, negro, was executed at Huntsville last Friday. Sanders died for an attack on a young white girl, a school teacher, at Millican, Brazos County. His arrest, trial and conviction required less than a month, setting what is believed to be a record in Texas criminal annals.

MOTHER'S DAY

Do you write it Mothers' Day or Mother's Day? It really should be written with the apostrophe before the "s"—the singular possessive. That was Miss Jarvis' intent when she instituted the beautiful custom of observing the second Sunday in May as a tribute to mother.

Her thought was that, for each of us, it was to be a time for honoring our own mother if she is living, or her memory if she has passed away.

This is the way our dearly loved Mother's Day—one of the newest special days in our calendar—came about:

Miss Anna Jarvis of West Virginia, at that time living in Philadelphia, conceived the beautiful idea of wearing as a memorial to her own mother, Mrs. Anna M. Jarvis, a white flower on a certain day in each year. Friends of Miss Jarvis, learning of her plan, suggested that the entire community might have part in a memorial service to her mother.

From the planning of that memorial service in Philadelphia, Miss Jarvis was inspired to undertake something greater and finer. "Why not have a national Mother's Day and let everybody—so far as possible—wear a white flower in recognition of the love and devotion he owes to his mother?"

People seemed to take kindly to the suggestion, and so the custom grew. From Philadelphia it spread to the boundaries of the United States. Nor did it stop there. It reached all parts of Europe and invaded Asia and Africa.

Did Miss Jarvis push the movement, or did it travel on its own momentum? At first Miss Jarvis had to put much hard effort into the furtherance of her plan. She wrote many letters and called on many people—influential people in public life whose co-operation she needed. It took much courage and perseverance, much faith and ceaseless effort, but gradually the custom became popular. For mothers are mothers the world over and they have a wonderful hold on the hearts of their children, who delight to honor them.

It was through Miss Jarvis' influence that in 1914 Congress became interested enough to pass a resolution commending the observance of the day in the government departments at Washington. Then President Wilson issued a proclamation setting apart the second Sunday in May as a National Mother's Day, and directed that the flag be displayed on all government buildings. He also requested that people display the flag at their homes on that day, "as a public expression of our love and reverence for the mothers of our country."

Miss Jarvis has organized the Mother's Day International Association to further world-wide observance of the day.

It is only about twenty years since the first Mother's Day observance, but today the custom circles the globe. This in itself is proof of the place mother holds in the hearts of her children.

Special services are held on the second Sunday in May in churches of all denominations. The public schools give Mother's Day programs on the preceding Friday. Business houses mark the occasion in their Saturday work. From the stores on the second Saturday in May issue millions of parcels, the gifts of loving hearts that are remembering mother. Mails are crowded with letters, greetings and parcels for mothers at home. Thousands who do not send are going home to visit mother on this her special day.

On the days just preceding May 12, 1929, none will be busier than the florists. For in whatever way we honor mother, we don't forget the flowers.

It was Miss Jarvis' request in the beginning of the movement that on this special day everyone wear a white carnation. The flower was to symbolize the truth and purity of a mother's love, and its fragrance her memory and her prayers. Very soon, however, the demand for that flower so far exceeded the

"Uncle Punkin" Adams Visits Eagle Office

Mr. W. B. (Punkin) Adams was a pleasant caller at the Eagle office last Saturday. It was pleasant from two viewpoints. First, because we really enjoyed talking with him, and secondly he said good things about the paper and renewed for his subscription.

"Uncle Punkin" came to Kimble County and settled on the Joy farm in 1877. In 1882 he moved to London and since 1902 has been living near Roosevelt. He went to Milam County in 1881 to get his wife and after a few months in that county returned to London with his bride in 1882. His wife's name was Miss Marion Pope. To this union ten children have been born, nine of whom are now living—seven boys and two girls. The two daughters are married and he says that his wife has two sons-in-law.

He has been a Mason several years and the purpose of his visit Saturday was to attend the social meeting here and meet his old friends and brother Masons from all parts of the county.

The Eagle wants him to visit the office every time he comes to Junction. He subscribed for the Junction paper in the fall of 1883 soon after it was established and has read it continuously with the exception of a few months several years ago when he got "mad" at the editor as "Uncle Punkin" told it.

He said that he never intended to be without the Eagle as long as he lives, and he looks as if he might live to be one hundred years old. We are glad that he enjoys the home paper. While he is now living across the line in another county he calls Kimble County home as he has been here so long. He says that there very few living here now that have been in the county as long as he has. Come again, "Uncle Punkin."

THE WHITE KITCHEN

The White Kitchen is located on the grounds of the McWright Tourist Camp. Mrs. A. M. Kraus is the proprietor and caters to local people as well as tourists. She asks that you visit the White Kitchen and be convinced that it is as good as the best.

JOHN W. GRAY DIES

Mr. J. A. Browning received a funeral notice this week telling of the death of his boyhood friend, John W. Gray, at Stephenville. Mr. Browning says that Mr. Gray was living in Kimble County when he moved here in 1874. He died April 27 and was buried in Stephenville the following day.

National Congress recently passed a bill licensing Chiropractors in the District of Columbia. The bill was signed by President Calvin Coolidge. Chiropractors are now recognized in 43 states.

Goodyear tires are GOOD tires. That's why we sell them. Next time you need a tire try a Goodyear.

Loeffler Motor Co.

supply that other flowers had to supplement its use.

Today it is the custom to wear a white flower of any variety for mother's memory, and a bright flower for the living mother.

Miss Jarvis says: "I wish that people would grow white pinks or carnations for Mother's Day."

If we each had our own little garden plot of carnations it would solve the problem of supply. Of course it is not possible for all of us to garden, nor even to grow carnations in the house, but if those of us who could would do so, how far it would go toward supplying everyone with a flower on Mother's Day!

—Josephine E. Toal.

Eagle Enjoys Visit By Theodore Hunger

Mr. Theo. Hunger called at the Eagle office last week and renewed for the home paper. He is another of the pioneer citizens of Kimble County. He landed in New Orleans from Germany in 1876. He went to St. Louis where he stayed nearly a year and then came through the Indian Territory (Oklahoma) to Kimble County and has been a resident since that time. He engaged in the sheep business early and has had interest here for more than fifty years.

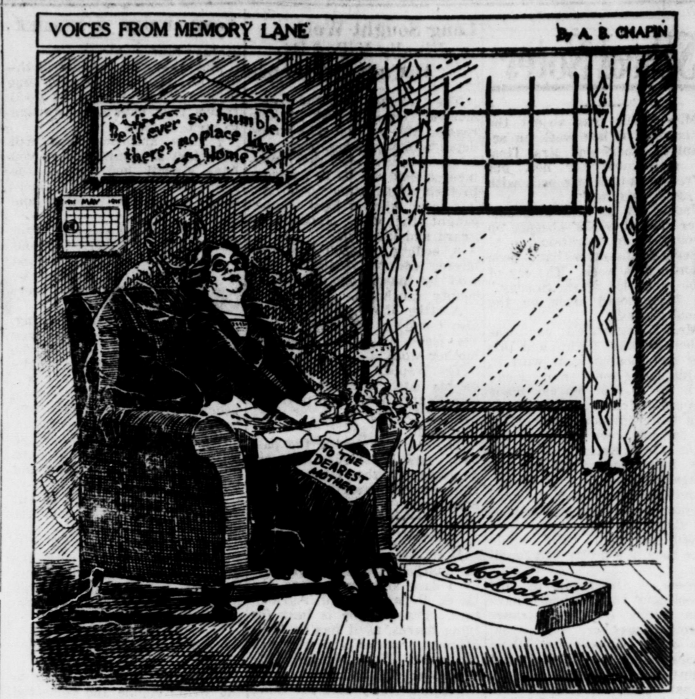

At one time he was in Kerrville a short time but had his interests in Kimble County. Mr. Hunger lived on the South Llano many years but is now on his ranch north of Junction.

In 1888 he went back to Germany where he was married, but returned to Kimble County. Three sons, Edmund, Robert and Julius, and two daughters, Mrs. Morris Murr and Mrs. Roy Murr, have been reared by Mr. and Mrs. Hunger.

Mr. Hunger is seventy-five years old, but rides almost every day looking after his live stock. We appreciate the calls by our pioneer subscribers and invite all our readers to call at the office when in town.

Mr. and Mrs. T. E. Sheppard have just returned from Dallas where Mr. Sheppard attended the Bakers' Convention. Mrs. Sheppard visited relatives and friends in Fort Worth and Wichita Falls. They report a pleasant trip.

Dr. H. E. Wright will leave Friday for a visit in San Antonio. He will return Wednesday, May 15.

Help find the Treasure of Capt. Kidd next Friday week night. Watch next week's paper for further details and instructions.

The son of Mr. and Mrs. John Eubanks of the Roosevelt community suffered a double fracture of one of his arms last Saturday.

Norman Farmer, son of Mr. and Mrs. A. G. Farmer, who underwent an operation about ten days ago is recovering rapidly.

What riches the... humble penny buys!

WHAT precious hours under the mellow light. WHAT priceless freedom from the nerve-sapping drain of housework.

—What luxurious relief from the "hot" kitchen, the long hours spent over an overheated stove.

—You buy all these precious hours of luxury for just a few humble pennies from the West Texas Utilities Company.

—So don't stint here. This sort of spending is really saving... saving your time, your eyes and your strength.

—No, by all means don't begrudge yourself the comfort, the convenience, the beauty that is made possible by electricity. For the cost is little, so little always.

MORE OIL DRILLING IN LONDON COMMUNITY

Another well was spudded last Monday and is one of the three that you have been reading about in these columns. This well is to be drilled in the center of the quarter section on the northeast corner of the Mrs. G. C. Amberson survey, by Lindsey Brothers. The contractor is Fred Sorrell. The block contains over 6,000 acres and the contract calls for the depth to be 2,650 feet. The crew of workmen are now busy arranging their tools and making ready so when the drill starts no more stops will be made. The drill will start the last of this week or the first of next. Carl L. Bryant has all the abstract titles of his block ready and will begin to lay the machinery on the ground next week. This well will be drilled 1,500 and is to be located on the west side of the C. E. Lambert survey. This block covers 3,000 acres and the well will be about five miles southeast of town.

Drilling is going on in a big way at the Cannon well, by H. A. McLean. The drill is running night and day and is now reaching 350 feet. At this time drilling conditions are better than they have been because of the account of the hard lime rock they are now going through the bit has to be sharpened often. The fact that very little or no water has been found in 350 feet while there are water wells with plenty of water within 50 feet makes the driller feel assured that oil galore is beneath the surface.—London Graphic.

CONNALLY FOR WHILE VICE PRESIDENT OF U. S.

Washington, April 30.—For a few minutes Tuesday afternoon, Senator Tom Connally, Texas, occupied the position of Vice President of the United States, as President of the United States Senate. He was there only pro tem, of course, Vice President Charles Curtis turning over the President's chair to the new Texas Senator for a few moments.

Since Connally is the only new Democratic Senator in the Senate this Congress, he was accorded the honor comparatively soon. He also expects to make his maiden address in the upper body within several days, placing before it his views on farm relief legislation.

CHANGING UPHOLSTERY

The day of soiled upholstery in automobiles is about over and the interior decorator who has arranged the "detachable" upholstery for the 1929 cars has made it possible for automobile owners to have a variety of handy coverings that may be interchanged and kept washed and clean, so that they will be fresh at all times.

Russian dressing is simply mayonnaise, with catsup or chili sauce, and chopped olives, or pickles, or celery added to it.

Emperor Hirohito of Japan speaks and writes English, French and German.

FEELS TWENTY YEARS YOUNGER, SAYS PORTER

"Sargon was a godsend to me, and I bless the day I first bought it; I feel like a new man," said J. F. Porter, of Keller, Texas.

J. F. PORTER
ler, Texas. Mr. Porter is 73 years old and has been a deacon in the Missionary Baptist Church 52 years. He is also a Mason.

"I suffered day and night for the past three years with stomach trouble. My gall bladder gave me serious trouble and pain. A most severe pain would strike me about two or three o'clock in the morning and would continue for hours. My entire system was out of order. I was so constipated I had to take laxatives almost every night.

"I put off buying Sargon for weeks, but read so many endorsements for it from good people in Fort Worth that I bought some, and it has worked wonderfully for me. I would not believe such results could be accomplished unless I had had the experience myself. Those terrible pains are gone and I sleep the whole night through. My stomach is right now and I eat what I please. I am strong and feel twenty years younger. My Gall bladder doesn't bother me; my liver is active, and I am no longer constipated. "I feel it my duty to my fellowman to tell how Sargon has benefited me."

Sargon may be obtained in Junction from J. A. Heyman.

For nine years Texas has led all the states of the union in value of farm crops and there is not even a remote prospect that it will ever lose its place at the top of the list.

From Texarkana to El Paso is further than from Texarkana to Chicago.

RECEIVES LOVE LETTER AFTER THREE YEARS

Getting a love letter from his sweetheart three years after she had written it, and quite a while after they were married, was the experience recently of L. Lancaster of Muskogee, Oklahoma, a service man with the Mergenthaler Linotype Company.

Originally that letter and two others had been mailed to Lancaster while he was working in Florida. He had gone when they arrived, and the newspaper editor in care of whom they had been sent had put them aside.

While cleaning out his desk some time ago, the editor came across the letters and remailed them to Lancaster.—Linotype Company.

THE TEXAS SENATE MAY AMEND ALL TAX BILLS

Austin, Texas.—Much latitude is given the Legislature under the Constitution in enacting revenue and tax bills according to an opinion written personally by Attorney General Claude Pollard, answering two inquiries submitted by Senator Thomas B. Love of Dallas. The opinion sustains the validity of the proposition by Representative Ray Holder of Dallas in his single bill reducing the motor vehicle registration fees and increasing the gasoline tax.

It was further held that an occupation gasoline tax bill passed by the House can be validly amended in the Senate to include a tax on the sale of cigars or any other occupation. The Senate can add any occupation taxes it seems fit once it receives a bill passed by the House covering the same subject. Tax bills can never originate in the Senate.

Abstracts for your lands can be secured on short notice from E. Holekamp; 25 years in business; we know how. (adv)

ABOUT DOLLAR BILLS

To most people a dollar bill is a dollar bill. The few specimens that reach the family wallet stay such a short while that there is no time to distinguish between the fine points of a United States note, a silver certificate, a federal reserve note and a national bank note. When you get bigger money in the purse, you are further perplexed by gold certificates.

The new currency, reduced in size, will be issued in July, except the national bank notes, and the new design will bring additional difficulties to facilitate gentlemen who try to make profits by raising a five to a fifty or a one to a ten. All one dollar bills, for example, of all types, will show the picture of Washington and all tens will present the likeness of Hamilton. Fancy, the forging necessary to make a one to look like a ten. The \$2 notes will show Jefferson and \$5 notes, Lincoln. These denominations will suffice to protect the average citizen.

Mr. J. W. Pole, Controller of the Currency, says the reduced size will save enough paper, expressed in area, to cover 1,000 acres of land and printing ink to the weight of 459 tons.

NEWS ITEMS

Yielding to the insistence of friends, J. P. (Pat) Williams, president of the First National Bank of Mineral Wells, today announced he would be a candidate for president of the West Texas Chamber of Commerce.

The Louisiana State Senate Saturday formally received the writs of citation against Gov. Huey P. Long and ordered them served on the Governor demanding his appearance before the bar of the Senate at noon Tuesday, May 14, to answer the eight charges of impeachment voted by the House of Representatives.

A Fort Worth passenger and freight terminal project to cost \$8,000,000 seems assured following a conference held Saturday between J. L. Lancaster, Dallas, president of the Texas & Pacific Railroad Company; City Manager O. E. Carr of Fort Worth and City Councilmen.

Practically all of the United States' raisin crop comes from California.

You pay for KELLYS— why not have KELLYS?

SOME people buy "mail order" tires under the impression that they are saving money. Others buy Kelly-Springfields—and don't have to pay any more for them.

Contrary to general belief, Kelly-Springfield tires are *not* high-priced. Their reputation has given many people the idea that because Kellys are so good they must cost more.

If you'll drop in and see us the next time you are in the neighborhood, we believe you'll be surprised to learn how Kelly prices run.

Besides, we can make you a trade-in allowance on your present tires—and put the new ones on for you.

When you can buy the best for the same price, why be content with less?

POWELL MOTOR COMPANY
KELLY
SPRINGFIELD TIRES

STREET PAVING WORK STARTS IN MENARD

Preliminary work looking to the early beginning of street paving in Menard began last week. The work of making surveys, digging a storm sewer ditch north to the river and other similar work is now under way.

All machinery should be here within a short time, and the people will then see the actual beginning of street paving. And for most of us it can't come too soon.

In this connection, it is understood that the West Texas Construction Company contemplates using as much local labor as possible on all the work. This means that many dollars will be spent by this company with local workmen who in turn will spend it with the merchants who are paying their parts on the street paving work.—Menard Messenger.

BOYS CLUB WORK

Much interest has been created in Boys Club work in the past few years and at present we find a group of interested and energetic boys working on their problems given them thru the Club.

The Boys Club is stimulating the interest of the youth of today toward accomplishments hitherto unknown through instruction gained by scientific experimentation results placed at their disposal by Club officials.

These Clubs have been organized by faculties in charge of Vocational Agriculture Classes in high schools, and by county agents in rural districts.—Sheep and Goat Raisers' Magazine.

SWAT THAT FLY

The scratch of a Lion's claw is almost as deadly as its bite, for he never cleans his nails, and he always carries under them rotten meat that is rank with deadly germs. Flies and bugs do the same thing on a smaller scale. "Don't forget," the United States health service says, that they never wipe their feet."

Many warnings have been issued by health officials and physicians against the menace of flies during the last few years, and the result of recent investigations confirm them in the wisdom of the campaign that is being made against the pests that carry the germs of disease and communicate them to human beings by contact with food.

Well organized plans for fighting flies may be made successful over a considerable territory, but it can only be done by eliminating the places that must be used for hatching. This means that more be made to insure cleanliness of stables and surroundings and other places that promote the multiplication of flies.

Every home should be effectively screened against flies. It is a distinct handicap in the warfare against the fly pest that boards of health do not have authority to require the use of screens to exclude flies from homes. Personal safety of the family should urge care on the part of all persons to guard against flies.

FIRST AMERICAN FLAG ON BATTLE FRONT

Washington, D. C.—Lt. Col. Thomas J. Dickson, Chaplain General Military Order World War, and the man who is said to have displayed the first American Combat Flag on the Western Battle Front in the World War, expects to be in France on August 21, 1929, and make the authenticated pathway of this flag on about 250 miles of battle front. He will go over the Montdidier-Noyer, Aisne-Marne, Second Battle of the Marne, St. Mihiel, Meuse-Argonne and Defense Sector battlefields. Colonel Dickson was with this historic flag during its travels over 2,000 miles in Europe.

He extends an invitation to those interested in history to meet him in Paris or go with him on the pilgrimage from New York with return through London. Further information concerning the tour may be obtained from Colonel Dickson at 3563 Sixteenth St. N. W., Washington, D. C.

CIGARETTE SMOKERS PAY HUGE SUM TO U. S.

Washington.—Uncle Sam has turned magician. Not satisfied with forming clothing from corn cobs and motor fuel from straw, he now is making millions out of smoke.

In 1928 he grabbed enough out of the air to run the navy that year, or if he had chosen, he could have built nearly a dozen battleships of the type President Hoover used to tour South America.

This great stream of gold, however, is not the product of a new discovery. It is due to cigarettes. Taxes on cigarettes in 1928 meant \$317,833,335 in Uncle Sam's pocket. The same year he spent \$318,909,096 to maintain his navy. Cigarettes earned all but \$1,075,761 of it. If the money had been spent on the Army, all American soldiers could have been fed, clothed and housed and \$63,595,397 would have been left over.

CONNIE TALMADGE FILES FOR THIRD MARRIAGE

Miss Talmadge, whose romance with Netcher had been reported for some time, said the wedding would be held next Wednesday at the home of her sister, Mrs. "Buster" Keaton, wife of the film comedian. Her age was given as 28. Netcher, who had been married once before, said he was 35.

Before a stout woman buys a piece of dress goods with a printed design on it, she should stand at least 10 feet away from the material, unrolled from the bolt and hung over the counter where she can see it as it would look on herself. If the effect is spotted or bold she should not buy it. Let her choose a pattern which gives a grayed all over effect.

Frog leg hunters in America earn about \$50,000 a year.

MOODY HAS MANY VACANCIES TO FILL

Austin.—Gov. Dan Moody has more vacancies to fill than any other Governor has had at this stage of his administration.

The Prison Board has two vacancies and does not have either a chairman or vice chairman. With the exception of two months, it has had one vacancy ever since it was created twenty-two months ago, due to the Governor's failure to fill the complement of nine members. Now it has two vacancies and no officers, at a time when the Legislature is considering bills to reorganize the system.

A ninth member of the university regents still is to be appointed, though Buford Jester of Corsicana is supposed to have the call for the place.

The position of chairman of the State Insurance Board, who is the Life Insurance Commissioner, became vacant recently. There are two places to be filled on the Industrial Accident Board, one being vacant through death and the other by term expiration, which has existed since 1927. The board is functioning with two members instead of three.

Under a new law the Governor is to appoint six members to constitute the Game, Fish and Oyster Commission which is to start functioning Sept. 1.

OZONA SHOW JULY 3, 4, 5

The dates for the 1929 rodeo, sheep sale, stock show and race meet of the Crockett County Fair Association will be July 3, 4, 5, it was decided at the meeting at which time Joe Pierce was re-elected president. The other officers elected are: Paul Perner, vice president; Scott Peters, secretary. The directors are Mr. Pierce, Mr. Perner, Mr. Peters, John R. Bailey, Tom Smith, Joe Davidson and Roy Henderson. There will be a sheep show and sale at the fair each day and more ewes than ever will be offered. There will be at least four carloads from out of the state while special emphasis will be placed on the Texas stuff. A free barbecue will be given each day and if good weather prevails from 8,000 to 10,000 are expected to attend the fair on July 4.—Sheep and Goat Raisers' Magazine.

MIDGET JERSEY CALF BORN ON LOTT RANCH

A Jersey cow owned by Arthur Lott, of the Reservation community, gave birth to a midget calf on Wednesday of last week. The calf was perfectly formed in every respect but was unusually small, being hardly 18 inches in height and only twenty inches long. The calf is full of life and gets about as well as any other calf its age.—Harper Herald.

Don't leave any cereals in packages when shutting up the house for a vacation, however, short. It is better to give away any small remnants than to have to combat weevils on your return. Weevils getting into one kind of cereal may spread to your flour or any other cereal foods not in tight glass or tin containers.

FINDS \$175 DIAMOND IN CAN OF SALMON

Ashtabula, Ohio.—When Mrs. Frank English of this city opened a can of salmon and dumped the contents on a plate, she heard something rattle like a pebble, and searching it out she found it was a diamond. A jeweler appraised the stone at \$175.00.

MARRIED AT PARSONAGE

On April the 25th, Mr. Ray Curtis and Miss Inez Ragland of Junction were in Menard. They drove to the Baptist parsonage where they were united in marriage by Rev. L. D. Hornburg.

On April the 27th, Mr. Max Curtis and Miss Marie Bruce of Junction drove to Menard and to the Baptist parsonage where they were united in marriage by Rev. L. D. Hornburg.—Menard Messenger.

THE SEVEN DAYS OF MAN

Our hero was the common sort, when all is said and done, He worked his head off daily and was out to get the...M.O.N. The reason for his diligence was commonplace, 'tis true— He tried to swell his salary so 'twould suffice for...TUE And maybe that's the reason why one day he lost his head, And falling on his knees, he cried:

"Oh, maiden, wilt thou...WED. He may have thought this sudden, but it seemed not so to her; She lisped a quick acceptance and said emphatically, "Yeth, THUR."

But when they went to keeping house, he feared that he would die; For, oh, that modern maiden could neither bake nor...FRI. She could not run a bungalow, or even run a flat.

So on many sad occasions in a restaurant the...SAT. But he forgave her everything, as man has always done, When she presented him one day a bouncing baby...SUN. —The Protector.

NOTICE OF HEARING to Appropriate Public Waters of the State of Texas No. 1204

Notice is hereby given, to whom concerned, that The Texas Pipe Line Company, the postoffice address of which is Houston, Texas, did on the 26th day of April, A. D. 1929, file its application in the office of the Board of Water Engineers for the State of Texas, in which it applies for a permit to appropriate of the unappropriated waters of the State of Texas, from the Llano River in Kimble County, Texas, not to exceed 1000 acre-feet of water per annum, for cooling and condensing purposes, in connection with power development, not to exceed 1200 HP, to be diverted by means of a pumping plant, the intake to the pump to be located at a point which bears S. 74 degrees East 92 feet, from the Southwest corner of E. S. Haynes Survey, No. 62, on the North bank of the North Fork of the Llano River, in Kimble County, Texas, distant in a Westerly direction from Junction City, Texas, about twelve (12) miles.

You are hereby further notified that the said Texas Pipe Line Company proposes to install a pumping plant, to consist of a 4x4 McGowan Horizontal Duplex pump, operated by a 5-HP Westinghouse Motor, having a height of lift of 48 feet, and to divert therewith not to exceed 1000 acre-feet of water per annum, for the purpose herein stated.

A hearing on the application of the said Texas Pipe Line Company will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, May 27, A. D. 1929, beginning at ten o'clock a. m. at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of the said Board, at Austin, Texas, this the 26th day of April, A. D., 1929.

Jno. A. Norris, C. S. Clark,

A. H. Dunlap, Board of Water Engineers. Attest: A. W. McDonald, Secretary. 3-4c

Dr. H. E. Wright, Chiropractor, announces that he is opening offices in the Junction State Bank building. He will also maintain his office at the Ramsey residence for the convenience of his patients. Dr. Wright opened offices here several months ago and his practice justifies the opening of a downtown office. He plans to have his office in the Junction State Bank open for patients not later than May 15. In the meantime he asks that all patients come to the Ramsey residence.

J. E. DEATS COMMENTS ON TRAPPING TO RID COUNTRY OF BLOW FLY

J. E. Deats, prominent ranchman, on the Llano, near the Kimble County line, was a visitor to Rocksprings the latter part of last week, and took occasion to comment on the occasion of election of T. B. Phillips as mayor of Junction, and went on to say that among the enterprising, high-minded and progressive men of this section of the Southwest, Mr. Phillips was in the front ranks, and he was indeed glad to see Junction express its appreciation of this gentleman by electing him mayor of that city, and he felt that the affairs of Junction would be conducted in a manner at his hands that will assure it a continued rapid and safe growth. "As a neighbor his worth is appreciated by all who live close to him," says Mr. Deats, and "as a public spirited, conservative business man, he has few equals."

Mr. Deats is interested in the extermination of the blow fly, and was in to see us, making inquiry as to what is being done toward a concerted action along this line.

This gentleman thinks that it is absolutely necessary that all the ranchmen get together, secure the necessary traps, and make a unit drive on the fly, for unless this is done he sees very little relief from those who are scattered here and there making a feeble effort toward its extermination.

Mr. Deats thinks we will get nowhere in this fight, where one ranchman traps for the fly and his neighbor pays no attention to them, and allows conditions to continue in a happy-go-lucky manner.

He also commented on the stand we had taken on the fly and its extermination, and complimented us on the articles we have run in the Record treating this subject, as also that of the cedar that is fast taking our land, and stated that when he moved to this section he could look around for miles from his ranch and his vision would catch but little cedar, which was of the large variety, and scattered here and there over the Edwards County range.

Mr. Deats has seen this menace creep upon us like a thief in the night, until today the cedar menace is one of the greatest problems before the ranching industry of the south-

west. Mr. Deats reports conditions in his section as good as could be wished for, and stated that a great deal worse calamity could have befallen us than having to sell mohair at 52 and 62 cents. While this low price cuts to the quick, yet he stated that had range conditions been bad and feed bills high, as well as other things having a tendency to reduce production entered into this year's yield, then we might have suffered quite a good deal more at a higher price than we will with good conditions and a low price.

The gentleman is running 1700 goats and sheep, and has a very satisfactory increase, raises a large amount of feed stuff, and has everything around him, so that he lives at home and boards at the same place. A condition that would cause any of us to have perfect peace of mind and a degree of contentment that goes along with well improved and well managed ranch conditions.—Rocksprings Record.

MISCELLANEOUS SHOWER FOR MRS. MAX CURTIS

A few of Mrs. Max Curtis' friends complimented her with a miscellaneous shower Saturday afternoon at the Hodges Hotel. The honoree gathered her gifts from a pink and white clothes line and found some others in a pink and white clothes basket.

The guests gave Mrs. Curtis some good wholesome advice on "Bringing up her husband," then they all looked on eagerly while she unwrapped her gifts.

Mildred Hodges, accompanied by Mary Hubert, sang "Those Wedding Bells are Breaking up that Old Gang of Mine."

The room decorated in pink roses further carried out the color scheme.

Punch and cake iced in pink were served to the following:

Misses Benita Barnes, Vivienne Livingston, Margaret Ray, Mildred Hodges, Blackie Motley, Brownie Motley, Eleanor Highsmith, Mary Hubert, Margaret Hubbell, Elsie Bessent, Pairalee Linn, Ruth Sandherr, Harrie Ethel Hubbell, Nevada Blackburn, Lucille Motley and Mesdames Ray Curtis, Carl Wolf, Lucy Motley and Max Curtis, the honoree.

Mrs. Alice Crim Smith Visits N. C. Patterson

Mrs. Alice Crim Smith visited Mr. and Mrs. N. C. Patterson and other friends here this week. She also attended the Workers' Conference of the Baptist Church Tuesday. She became a member of the Junction Baptist Church in 1881. She was in San Antonio at the time of the organization of the church. Several of her people were charter members of the Junction church.

Mrs. Smith's mother moved to Kimble County the last day of February, 1876. Mr. Smith moved her mother here in an ox wagon. She and Mr. Smith intended to get married in July but when she got here she did not like this country and Mr. Smith persuaded her to marry him and they went back in the ox wagon. The license was the first to be issued in Junction and Dr. E. K. Kountz, father of Mrs. N. C. Patterson issued them. Dr. Kountz was postmaster and county clerk.

Mr. and Mrs. Patterson and other old timers in Kimble County took penmanship lessons from Mrs. Smith back in the early days. After a residence of nearly seventeen years in Kimble County Mr. and Mrs. Smith moved to Ozona where they made their home until Mr. Smith's death three years ago. She now spends part of her time in Houston with a daughter and the rest of the time in Ozona. She was a charter member of the Ozona Baptist Church.

Mrs. Smith is an interesting character and tells many thrilling stories of the early days in Kimble County. She finds very few of her friends of fifty years ago. Her daughter, Alma, was the first girl born in Junction. She said that Jack Jobs was the first boy born in Junction. He is about six weeks older than her daughter.

She is a reader of the Eagle and renewed her subscription while here.

The time has come for your spring and summer wear. Let us show you some real merchandise. Junction Tailor Shop. 3c

FEEL YOURSELF SLIPPING

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown—cured and blended with expert care.
Camels are mild and mellow.
The taste of Camels is smooth and satisfying.
Camels are cool and refreshing.
The fragrance of Camels is always pleasant, indoors or out.
They do not tire the taste nor leave any cigarette after-taste.

Junction Trade Notes

With approximately 130,000 lbs. spring wool already received, and daily arrivals of five to fifteen thousand pounds, the Junction wool warehouse is now giving off an odor of silver. A number of buyers have visited the warehouse to inspect the wools, which are declared to be in fine condition.

The new tariff schedule submitted to Congress by the W. & M. Committee would increase the wool tariff by 3c a lb. Other tariff increases on farm and ranch products recommended in the measure, include: Fresh beef, 3c to 6c lb.; fresh lamb, 4c to 7c; sheep, lambs, goats, from \$2 to \$3 a head.

Snakes have little to do with trade notes, but the rattler killed Sunday night by V. L. Millsap near his home is worth mentioning. The snake was 56 inches long way, 8 1/4 inches around, had 14 rattles and, the usual button.

Just now there is a scarcity of yard eggs, and the price has moved up accordingly. We have egg-laying mash and other chick feeds. **Gann Grocery Company.** In stock: A limited amount of planting seeds, including Heigera, Darso, Kafir, Peterita, Red Top cane. **Gann Grocery Company.**

Friends envy Judge Weaver Baker and family in their beautiful new home, where the rivers flow and the breezes blow, making sleep irresistible.

Mr. and Mrs. George Hamilton of the Beasley ranch were shopping supplies in Junction Wednesday. They have plans for building a home in Junction before the next school year begins.

Veteran J. W. Boone recently observed his 84th birthday anniversary, the day being observed in his accustomed way, at work. He has no intention of taking up golf or airplaning for health.

Mr. and Mrs. Henry Murr, other Kimble County veterans who have lived together more than fifty years, were greeting friends in town Tuesday. Mr. Murr says they are still getting along fine, except that when he says the coffee is boiling, she says it isn't.

New table dainties: Pickled walnuts, preserved ginger, Crosse & Blackwell products. **Gann Grocery Company.**

Light frost was in evidence in Llano valleys the morning of May 2, biting the tops of young corn, tender garden vegetation, and bathing models.

The City Bakery of Junction, this week for the first time, baked pecan pies, which are declared to be delicious. Every person in Kimble County should be an advocate of pecan pies, for economic reasons if for no other.

The P-T-A Cook Book contains several recipes for pecan pie, this one submitted by Mrs. Dorothy Westmoreland: 3 cups sugar, 1/2 cup butter, 1 cup water, 1 cup pecans, 1 tablespoon flour, 3 eggs. Beat yolks and add water, then sugar and flour; add butter, nuts, and fold in beaten egg whites. Vanilla to flavor. Makes two pies.

Ford Tudor Sedan Ideal Family Car

When the Ford Model A automobile was introduced it was anticipated that the Tudor sedan would become a popular family car. The Sedan has proved not only very popular, but extremely satisfactory for family use.

Many families have found comfort from the fact that they can leave small children in the back seat of this Sedan without fear that they will endanger themselves by opening the doors. The roomy rear seat makes the car ideal for family touring trips and Sunday and vacation driving.

The Tudor Sedan has the speed, quick acceleration and effective six brake system that characterize the Model A Ford and adapt it so well to city traffic. The exterior finish is of highly polished pyroxylin, with a choice of several attractive two-tone color schemes. It might be pointed out that the Ford is the only low priced automobile that offers a wide color variation in all body types.

Excellent vision is afforded by the Tudor Sedan, both in front and rear seats. The windows are wide and low and may be raised and lowered easily. Conservative tones have been used for the interior, the upholstery being of soft grayish blue cloth. The drivers seat is comfortable. It and the other front seat are of the folding type, while a wide, cushion seat is provided in rear compartment.

Price, fully equipped, ready to drive out, f. o. b. Junction, \$668.00.

Curtis Brothers

ELEANOR HIGHSMITH HONORS MRS. CURTIS

Miss Eleanor Highsmith entertained Thursday night at the home of Mrs. Lee Lowry with a miscellaneous shower, honoring Mrs. Ray Curtis, a recent bride. The house was beautifully decorated with sweet peas, roses and honeysuckle. After the many guests were assembled Mr. Curtis brought the bride in, and, after a program of appropriate songs rendered by Miss Mildred Hodges, accompanied at the piano by Miss Vivian James, and readings by Miss Mae Dell Lowry, two little maids, Joyce Wright and Roberta Ragland, presented the bride with a large basket of useful and beautiful gifts. When Mrs. Curtis had opened all her gifts and Mr. Curtis had made his speech of thanks, white cake and green punch were served on green and white plates to the guests while Miss Highsmith presided at the punch bowl. Besides the honoree and groom and Mr. and Mrs. Max Curtis there were present Mesdames Howell Wright, J. L. Ragland, Bob Ragland, Earl Maddux, O. R. Oxford, Lee Lowry, A. W. Browning, Jim Carpenter, Misses Mildred Hodges, Paireale Linn, Elsie Bessent, Ruth Sanders, Nevada Blackburn, Vivian James, Ella Simon, Ruby Baylor, Muriel Warren, Vivian Livingston, Lucille Motley, Elsie Martin, Vernelle Tinsley, Lucille Williams, Maxine Wright, Lois Goodwin, Ohban Ivy, Madaline Ragland, Mae Dell Lowry, Roberta Ragland, Joyce Wright and the hostess.

EPISCOPAL CHURCH

The Rev. F. M. Brasier, rector of the Trinity Church of Junction, will be here Sunday, May 12, and preach on the Social Importance of Mother to the Church and the Nation. Mr. and Mrs. Jack Hampson will motor to Junction with the Brasier family Sunday morning. Miss Freda Frasier and Mr. Hampson will sing at this service. Mr. Brasier will play the accompaniment with his violin. The service will be the morning prayer and the sermon. A cordial invitation is extended everyone to attend this service. Everyone is requested to bring well filled baskets and at the close of the service will go to Kimble Courts for lunch.

Junction, year-round playground

Help find the Treasure of Capt. Kidd next Friday week night. Watch next week's paper for further details and instructions. 4c

Trench Mouth Healed

Your friends dare not say so but your sore gums and foul breath don't make folks like you any better. Leto's Pyorrhoea Remedy heals worst cases if use as directed. It is not a mouth wash or paste, and it will not cause back insurance. **AWBREY-BELL DRUG CO.** 3c

One More Lesson

All over the world graduates are asking "What to do now?" It's a question each must answer for himself. But one thing is sure: whatever type of business one enters, a certain quota of even the most modest salary should be banked. That is the great lesson in the School of Hard Knocks.
