WEATHER

SNYDER TEMPERATURES: High 74, low 52 degrees. Saturday 74 degrees. North Central, Northwest Texas—Clear to partly cloudy with some Sunday through Monday. Windy, scattered showers and evening thunderstorms. High Sunday 90 to 92.

# America's Economy Still Steams Ahead

WASHINGTON (AP)—The start of the new government year Saturday found the American economy steaming ahead in a robust recovery, with President Kennedy's new "frontier" program providing a new impetus.

Business advisers said privately that Kennedy will not repeat what his Council of Economic Advisers considers the mistake of 1953. They claim "was" a "letting off a business recovery prematurely by tight money and high interest rates."

They predict officially that the nation's production rate, which has regained and probably surpassed the pre-recession peak, will rise in June averaging \$14 billion a quarter for the next year and a half under stimulative government policies.

That would bring total output of goods and services to a \$330-billion-a-year rate by the end of 1961. By \$350 billion by the end of 1962. This implies boom conditions next year, with gains well above the 4.5 per cent annual growth rate that is Kennedy's long-range target.

And Kennedy's administrative economists are holding in reserve a possible tax reduction. It would be asked of Congress next year but have its full stimulative effect in 1963.

A tax reduction would be relied on to boost the public's buying power at a time when the property might otherwise tend to be kept tapping off into another recession.

By that time, Kennedy's forecasters believe, the program of stepped-up tax incentives, urban renewal, housing, old-age and jobless benefits, credit ease, and bigger outlays on science and education will have established a pattern of substantial growth.

That's the plan. There are many dangers, and their numbers include cautious economists as well as Republicans like former Vice President Richard M. Nixon. They are predicting a bigger-than-ever inflationary cycle of boom-and-bust money-until Congress pulls a rein on the administration.

The Kennedy team admits that hazards exist. Inflation is one. They concede, but they consider

unemployment the greater problem.

The consensus of Washington economists is that joblessness, still at the 6.9 per cent recession level, may not dip below 6 per cent at all next year, regardless of prosperity. They say that about the best that can be hoped for is a good many months to come, is that an expanding economy will absorb the rising tide of youngsters flowing into the labor force.

It may be 1963, Secretary of the Treasury Douglas Dillon predicts last month, before unemployment is reduced to the tentative goal of the Kennedy administration, 4 per cent.

White House advisers insist there is so much slack in the economy—unused manpower, plant capacity and other resources—that it will be many months before the pull of

rising demand to supply forces prices upward, regardless of credit ease and money supply.

For the past eight months, consumer prices have been virtually stable. The cost of living has been steady at about 2 1/2 per cent above the 1947-49 average. Wholesale prices have been steady 1 1/2 months.

The normal mid-summer bulge in living costs is expected in the next month, as two before. Fresh fruit and vegetable crops come in, but most price experts believe the total price advance this year will be less than 1 per cent.

Nevertheless, administration officials say, inflation is a menace. The threat, they contend, comes from the possibility of generous wage settlements and administered pricing by industrial giants based on the philosophy of what-the-traffic-will-bear.

## Mexico Set For National Ballot Today

By JACK RUTLEDGE  
MEXICO CITY (AP)—Mexicans vote in a national election Sunday after a listless campaign whose main feature has been widespread conviction of the dominant Party of Revolutionary Institutions "once again will triumph."

Voters will elect a new chamber of deputies; six state governors; and 100 municipal and state officers.

The PRI, which has dominated Mexican politics for 30 years, is considered certain to win virtually all of the 196 chamber seats and score heavily in other balloting.

Main interest so far has centered in a potentially explosive race for governor of San Luis Potosi. Several riots have broken out during the campaigning there and one south was killed.

The PRI candidate is Manuel Lopez Davila. His popular opponent, Salvador Nava Martinez, was told at registration time he was not eligible to run. But he is running anyway.

Three infantry battalions, some commandos, secret and state police have been ordered to the area to keep the election as peaceful as possible.

The second most powerful party nationally is the Party of National Action, which has 95 candidates entered in congressional races. The noisiest party is the Popular Socialist Party, headed by leftist Vicente Lombardo Toldano, which hopes to win 35 posts and might a governorship in Sonora. Such an outcome is considered extremely doubtful.

Some returns should be available Sunday night from the Mexico City area. Others may be delayed some time and the official count will not be reported for weeks.

## Says Studios Are Employing Reds

LONG BEACH, Calif. (AP)—The California American Legion said Saturday six major Hollywood movie studios and many independents had reportedly issued films "surreptitiously employing identified Communists."

The Legion said it therefore accepts as final "the motion picture industry's abolition of the blacklist."

The motion picture studios not to employ known Communists.

The statement was in a resolution adopted unanimously by 3,800 of the 4,300 delegates registered at the legion's state convention.

The resolution said certain producers had placed monetary gains above obligation to their patrons. It pledged the legion would continue "to alert the American public of those who, in defiance of the high standards of our American heritage and liberties for self-aggrandizement."

The resolution named Columbia, 20th Century-Fox, Metro-Goldwyn-Mayer, Paramount, Allied Artists and Universal-International. It did not name the independents to whom it referred.

The movie personalities named were Lester Cole, Al Levitt, Hugo Butler, Marguerite Roberts, Dorothy Parker, Michael Wilson, Ian Hunter, Jeff Corey, Jules Dassin and Ned Young.

A spokesman for the Motion Picture Producers Association, to which major producers belong, declined comment.

Sanford Abrahams, publicity director for Allied Artists production, said, "Our policy is against hiring any known Communists. We certainly don't intend to do anything un-American. It's hard to answer such a general charge as the one made by the American Legion."

Individuals named could not be reached.

In 1947 motion picture executives pledged at a two-day meeting in New York City's Waldorf-Astoria Hotel to purge their industry of known Communists. They agreed to discharge or suspend without pay in Hollywood figures cited by the House of Representatives for contempt of the House Un-American Activities Committee.

"Legionnaires want to awaken America to the threat of the Communist conspiracy," state commander John R. Hahn of Merced told newsmen. "In effect, we have declared war on those in the movie industry who are obviously coddling communists by ignoring the Waldorf declaration."

## Kennedys Take A Cruise Saturday

By WHITNEY SHOEMAKER  
HYANNIS PORT, Mass. (AP)—Colorfully outfitted for an afternoon at sea, President and Mrs. Kennedy went nautical at the start of their holiday weekend Saturday for a cruise on blue Nantucket Sound.

Seeking genuine relaxation, Kennedy boarded his father's 52-foot cabin cruiser, Marlin, with the first lady and a small party of relatives and friends on a peaceful voyage along Cape Cod's southern shore.

The chief executive had kept up to date on events at home and abroad before departing shortly after noon for the 2 1/2 hour cruise.

Secretary of Labor Arthur J. Goldberg reported to him by phone on the critical period of maritime strike negotiations. And Brig. Gen. C.V. Clifton, the military aide who accompanied him to Hyannis Port, brief him on intelligence reports.

Assistant press secretary Andrew T. Hatcher said Clifton's summary covered developments affecting Kuwait, where the British landed troops earlier in the day to confront Iraq's attempt to envelop the shikhdom.

A sparkling afternoon with temperatures in the high 70s and only gentle ripples on the sound provided a perfect setting for a languid afternoon aloft.

Joseph P. Kennedy, the President's father, was host. The first lady, who takes to

the water, was spotted in what appeared to be a cerise flat-topped hat, yellow shirt and calf-length orange breeches. Kennedy wore a blue polo shirt and khaki trousers. His father came off in a floppy straw hat and black pull-over shirt and rode from the end of the pier to his house in a turquoise colored golf cart.

The President walked along the pier to shore, sliding one hand along the rail as he went.

And though he walked part of the way across the lawn, he stepped into his father's golf cart and rode the remainder of the way.

Need Money For Refunds

WASHINGTON (AP)—The disbanded Tractors for Freedom Committee now needs money to defray the cost of returning the money it collected in the prisoner deal with Cuba that failed.

A meeting Wednesday will determine how to go about getting it.

Vicente G. Reuther, brother and assistant to United Auto Workers President Walter P. Reuther, said Saturday the return mailing expense must be raised by voluntary contributions. None of the money given for tractors will be used, he said.

Deficit sources have estimated about 70,000 letters were sent to the committee. How many of these contained contributions is not known because the mail has not been opened.

## Scholarship Fund Hiked

DALLAS (AP)—The Press Club of Dallas Foundation Saturday announced an increase in its seventh annual journalism scholarship program to a total of \$8,600.

This exceeds last year's grants to college journalism students from the Ford-Woosh-Dallas area by \$1,100, said Ward Colwell, Foundation president.

The foundation voted scholarship grants of \$900 each to North Texas State, Texas Women's University, East Texas State, Arlington State and the University of Texas.

In addition, Southern Methodist will receive \$1,000. This is an increase of \$100 over the amount given SMU last year and an increase of \$200 each to the other schools.

Each school will select journalism majors from the Dallas-Fort Worth area on the basis of need and promising ability. In the 1960-61 school year, the foundation grants totaling \$4,500 aided 24 students.

The grants are derived from the press club's annual Gridiron Dinner and show.

## Weather Is In Doldrums

By THE ASSOCIATED PRESS  
Texas weather stayed in its early-summer doldrums Saturday and forecasts promised little excitement from the elements for the fourth of July week end.

Scattered thundershowers packing little moisture, hit the middle and upper Gulf coast, spread inland to Alice and near College Station and "Agachache" and skipped westward to Mineral Wells and over the Panhandle Plains country.

Thunderheads busted and threatened but no point in the state reported measurable rainfall.

Temperatures kept below the 100 mark for the third straight day over the state, maximums ranging from 97 at Laredo to 88 at Corpus Christi and Galveston.

Forecasts called for continued partly cloudy skies and widely scattered showers and drizzles over the state, the north central and northeast portions excepted, through the week end.

## Kennedy May Attend Meet In Uruguay

By BEN F. MEYER  
WASHINGTON (AP)—President John F. Kennedy was reported Saturday planning to attend the Inter-American Economic and Social Conference in Uruguay next month unless official business prevents it.

Informed quarters said he would like very much to attend the conference and that he was undecided whether his going might induce Fidel Castro to go to the conference also and try to use it as a sounding board for his campaign for revolutions throughout the hemisphere.

The assumption here is that if the President goes, Mrs. Kennedy will make the trip also. Officials say she was a great asset to the President on his trip to Europe and would be an equally great hit in Latin America.

In Hyannis Port, Mass., where the President is spending the holiday weekend, assistant press secretary Andrew T. Hatcher said Kennedy's schedule for the summer is uncertain.

The conference is to open August in Punta Del Este, a beach resort.

It is an open secret around Washington that the White House has been studying the possibility of a Treasury Department and the Commerce Department to give special study to some possibility of aiding Latin America in one of the greatest economic problems—the fluctuation in prices.

One approach would almost certainly concern coffee, a crop important to 14 of the 20 Latin American republics.

Traditionally, the United States has balked at any proposal involving price guarantees in the so-called minimum price, contending that its experience in trying to stabilize farm prices has staggered this nation's economy with enormous surpluses and carrying costs.

## Space Photos Are Offered

WASHINGTON (AP)—The government offered Saturday the public photographs from space.

The Weather Bureau said many of the more than 20,000 pictures of the earth taken from Tiros I, the first experimental weather satellite, may be ordered from the National Weather Records Center, Asheville, N.C. The pictures are available in 100-foot reels at \$4 a reel.

Seven reels containing pictures obtained on the first 120 orbits passes of the satellite are available.

Pictures may be ordered in the form of 35 millimeter positive transparencies for projection or 35 mm. negatives from which black and white prints can be made.

## Dallas Building Increases To May

DALLAS (AP)—Texas construction contracts of \$99,182,421 in June were slightly higher than those of May but some \$14.5 million below those of June, 1960, the Texas Contractor reported Saturday.

However, the construction news weekly said:

"These totals do not quite reflect the general trend of optimism which seems to be permeating the industry throughout the state. Reports from all corners are brighter, indicating that summer and early fall should be a pickup in volume."

Contracts for the first half of 1961 totaled \$527,327,401.

## Divorcee Dives To Death From Roof

LOS ANGELES (AP)—"Anything he can do, I can do better," a divorcee announced early Saturday.

She then dove into a swimming pool from a third-story roof. The fall killed her.

Janice M. Pitchford, 28, ignored attempts of several companions to dissuade her from the dive, they told police. A neighbor, Francis Menzies, had seen her jump from the roof of the two-story building just before her fatal dive.

Officers said she probably hit the side of the pool.

LeRoy Hessler wishes to announce the change of the name of West Texas Machine and Tool Company to West Texas Machine Incorporated Effective July 1st, 1961 The Location and Mailing Address Remain the Same 1911 Avenue T — P. O. Box 1141 SNEYDER, TEXAS

## Child Rushes Into Flames To Mother

FLORENCE, Ala. (AP)—Marshall Emmons, 6, jerked from the arms of an older sister and ran into flames at their house Saturday when he heard his mother scream. The mother and child perished.

The bodies of Mrs. Louise Emmons, 31, and her son, Marshall, were found in a back bedroom.

Fire Chief Bob Lovelace said the blaze apparently started from an electric stove which had been left on.

# Dr. Sabin Finally Gets His Vaccine Approved By AMA

By ALTON BLAKESLEE  
Associated Press Science Writer  
NEW YORK (AP)—Dr. Albert B. Sabin at 54 is gray-haired, suave, hard-working, often out-

later should take the live vaccine even if they've had Salk vaccine. And he says all this might slam the door to promising future developments of killed-virus vaccines.

Neither Dr. Salk nor Dr. Sabin profits by a nickel from their vaccines. They don't collect any royalties.

The AMA did not question safety of either vaccine, or other live-virus vaccines.

The issue raised by the AMA is, fundamentally, whether the live or killed vaccine can give the surest and longest individual protection, and do the most to stop the polio virus from spreading person to person.

Stopping the spread could virtually eliminate the disease.

Ever since the Salk vaccine was introduced, many virus experts have argued live virus vaccines would be more effective, and perhaps create life-long immunity.

Live vaccine could halt any naturally invading virus in the vaccinated person's intestines, so he doesn't spread it to others. But he might spread the safe virus, in the vaccine, on to others.

This view is championed, among others, by Dr. Sabin. Dr. Salk maintains his vaccine, in proper strength, has kept people immune since it was first given seven years or more ago. And he insists it does help limit the spread of polio.

One argument for swallowable vaccine is that it's far easier to take than by needle, and so more people might take it. Salk vaccine is injected.

Salk vaccine was ready for practical use before Dr. Sabin had perfected his vaccine. It's credited with having saved many thousands of U.S. and other children from polio.

# Parr Clan Faces New Resistance

SAN DIEGO, Tex. (AP)—A new resistance movement to the George B. Parr political regime sprang up over the weekend after the Parr faction gained dominance in last November's elections.

The attack will center on a \$6 million road and bond issue to be voted on two weeks from now.

The opposition to the bond issue may blossom into a general attack on the Parr power, some political observers believe.

Heading the resistance are Dan U. Garcia Jr., San Diego automobile dealer and son of a former Parr associate; John Campos, assistant to Dist. Atty. Sam Burns who has fought the Parr forces since 1954; and Donato Serna, former county auditor and long-time Parr foe.

All are young men and equally young men are backing them. Parr himself holds no office, but insiders here say he holds the Parr faction together.

George B's direct power was clipped considerably in recent years by a series of civil and criminal cases. He became a bankrupt. At one time he was virtual dictator of county politics, with wide influence in some surrounding counties also.

Resistance to the proposed bonds is the first widespread opposition that has shown since the Parr faction took over after the last election.

The opposition, which met last night, plans to organize throughout the county. It also plans a motorcade to all communities.

The group meeting last night calls itself the Progressive Club. The old Freedom Party, which resisted the Parr group, fell apart before the last election.

# Hopes For Ending Strike Darkened

By RALEIGH ALLSBROOK  
NEW YORK (AP)—Prospects of ending the maritime strike without a Taft-Hartley injunction suddenly darkened Saturday. The President's fact-finding board said the likelihood wasn't good.

Board Chairman David L. Cole said all mediation efforts in the two-week walkout of 85,000 officers and crewmen would end at noon Sunday.

The board then will start preparing its report that will be submitted to President Kennedy Monday and probably will lead to an injunction to halt the strike for an 80-day cooling-off period.

The likelihood prospects are not good that we will have reached an agreement between Kennedy Monday and probably will lead to an injunction to halt the strike for an 80-day cooling-off period.

He said the negotiations had been making great progress in a number of directions, but he noted that one union or employer group could prevent a complete settlement.

The strike has idled some 200 ships on Atlantic, Gulf and Pacific coasts.

The fact-finding board came here to gather data on whether the strike's effects were serious enough to warrant the President's taking an injunction under the Taft-Hartley law.

The board's report is to be submitted to the president at 9 a.m. Monday. The deadline previously

**Former Official Of Temple Dies**  
DALLAS (AP)—James F. Hay, 76, a former city commissioner in Temple, died Friday after a month's illness.

He had been a Dallas resident since 1953. A native of Eddy, McLennan County, he lived in Temple most of his life and was owner of the Viaduct Planting Mill for 20 years before his retirement about 15 years ago. He served as city commissioner during the early 1930s. His widow, two sons and four daughters survive.

Sanibel Island, off the west coast of Florida in the Gulf of Mexico, is said to have been named for Queen Isabella of Spain.

# Rescued Boy Is Out Of Hospital

SAN DIEGO, Calif. (AP)—Terry McClelland, the blond Boy Scout who survived three days Pacific after seeing his two companions die, was released from the naval hospital here Saturday in good condition.

Terry, 14, was met at the hospital by his mother, Verna, who said he would return to his home in Huntington Beach, Calif., for some rest.

Terry was rescued from the raft Friday by a fishing boat 90 miles southwest of San Diego. He boarded the raft Tuesday along with his step-grandfather, Russell Bradford, 48, of Huntington Beach, and Alvin Hartman, 57, of Santa Ana, Calif.

Terry was transferred from the fishing boat to a submarine and taken to San Diego where he was met by his mother and rushed to the hospital.

Terry told of his ordeal when the submarine reached San Diego. The sea anchor was pulling heavy of the boat and it ripped the bottom out.

The youth said he and the two men jumped overboard and clung to the raft.

**Doctor Files Suit Against Hospital**

DALLAS (AP)—A Dallas neurosurgeon filed a \$1,000,000 damage suit Friday against Baylor Hospital, charging that cancellation of his contract as a member of the staff has cost him a net annual income of \$60,000.

Dr. W. B. Weary said in the suit he was denied the right to hospital room and operating room privileges on June 30, 1958, without the benefit of a hearing before the hospital board of governors.

The 53-year-old specialist alleges that he has since lost so much income that he cannot meet expenses of maintaining an office.

Dr. Weary, who claims he is now and in the past was licensed to practice medicine and surgery in Texas, said he relied upon the contract with Baylor and long before the contract cancellation had surrendered membership in medical staffs of other hospitals.

# Hoffa Seeks More Of Dues

By NORMAN WALKER  
Associated Press Labor Writer  
MIAMI BEACH, Fla. (AP)—James R. Hoffa announced Saturday he would ask the Teamsters union convention opening here Monday to double the amount of member dues allotted to run the Teamsters' national headquarters.

Hoffa called for a per capita tax increase on the union's average of 1 million members at the time of a new five-year term.

Getting himself re-elected a matter regarded as a mere formality is the final step necessary for the former Detroit grocery warehouseman to extricate himself from a legal morass resulting from his initial election four years ago, which was challenged.

Hoffa, charged with rigging the earlier election, is trying to make sure nobody will have the basis for challenging this one. Accordingly, he has announced he will move and tape recordings of all convention proceedings next week.

The Teamsters president, who is expected to receive more than 2,000 approving delegates from all sections of the nation and Canada in a hospitality suite in the plush Carillon Hotel.

The hospitality suite is being paid for out of a \$70,000 Hoffa-levied fund raised from \$25 contributions from subordinate

union officials. Convention sessions will be in the Napoleon Room of the nearby Deauville, another lavish Florida hotel.

In an officers report made public Saturday, Hoffa said the Teamsters have emerged from a "nightmare of legal entanglements and effects of outsiders to direct and run our affairs" with a union stronger, more united and with better wages than ever before.

Hoffa said he referred only briefly to the long Senate investigation into Teamsters affairs and to legal battles with court-appointed monitors.

Hoffa proposed that local unions raise the per capita payments from 40 to 80 cents. This would raise from over \$7 million to over \$14 million the annual sum contributed to run Hoffa's Washington headquarters.

Many local Teamsters unions, making up the difference, would probably raise the monthly dues from members, amounts that presently range from about \$3 to \$6.

Hoffa's report indicated the Teamsters, expelled from the AFL-CIO on corruption charges, would like to get back in the federation because "a divided house of labor is just what the employers want." However, the report said remaining out of the AFL-CIO saves the Teamsters about \$1 million a year.

**SURVIVED OPERATION**—Norman A. LaBonte, 21, of Fitchburg, Mass., works on a ship model as his home as he continues recuperating from an operation in which his small intestine was removed. Physicians from the Harvard Medical School and Peter Bent Hospital at Boston described at the American Medical Association Convention in New York for the first time the prolonged survival of LaBonte without any small intestine whatsoever. The operation also saved his life. Although LaBonte is up and around living a reasonably comfortable life and taking a special type of daily feeding through a plastic tube, he still is not in normal health. (AP Wirephoto)

# 'Father Of Radio' Dr. DeForest Dies

HOLLYWOOD, Calif. (AP)—Dr. Lee De Forest, 87, considered the "father of radio," died at his home Friday.

De Forest was inventor of the three-element vacuum tube. He had been bedridden for almost two years with bladder and heart trouble.

His invention of the tube in 1906 paved the way for the age of electronics.

It made possible the development of radio broadcasting, television and radar. Transatlantic and transoceanic telephoning, sound movies and other electronic devices came into being. He made contributions to each, as well as to aircraft-guiding beams, wire transmission of pictures, cosmic-ray measurement and many other developments.

The inventor-scientist held more than 300 patents. He celebrated his 84th birthday by applying for a patent of a 50-inch thick television set that says he hung on a wall like a picture.

A man of remarkable physical stamina, De Forest survived a serious bout with pneumonia in 1935 and a short-lived spell of minor heart trouble two years later.

De Forest's widow, the former Marie Mosquin, whom he married in 1930 in Los Angeles, said he never actually retired.

"The doctor just came to bed from his laboratory," she said. "He was issued patents as late as two years ago."

# MacArthur Goes Back To Islands

NEW YORK (AP)—General of the Army Douglas MacArthur left by presidential jet plane Saturday to return once more to the Philippine Islands.

And again a hero's welcome awaits the famed old soldier, now 81, whose World War II vow, "I shall return," echoes through the pages of history.

His trip is to help the island republic celebrate on July 4, the independence granted it after the war by the United States. But the visit will mean far more than that to both MacArthur and the Philippines.

"My visit to the Philippines is a sentimental journey," MacArthur told newsmen in a halting, emotion-choked voice at Idlewild Airport.

"While I go as a guest of the state, there is no political significance to my trip other than to reinforce the ties of friendship between our two countries. I anticipate the next few days will be among the happiest of my life," he said.

Then breaking into a smile, the general added, "but I shall return."

MacArthur was accompanied by his wife on the plane, assured by President Kennedy and operated by the Air Force. There will be several stops on the way. Authorities declined to reveal them.

More than a million persons in Manila are expected to hail the arrival of the legendary general, who captured the hearts of the Filipinos as few Americans have ever done.

He will be greeted at the airport there, with full military honors and escorted to the presidential palace in a ticker-tape parade.

Only two other such parades

# Stock Market Has 3rd Straight Dip

By ED MORSE  
AP Business News Writer

NEW YORK (AP)—The stock market last week dribbled off to its third straight weekly decline as it ended an exciting and eventful six months.

The first half of 1961 produced one of the most vigorous advances in stock market history. The market reached its crest May 17, stalled for a couple of weeks, moved close to the peak on June 6 then receded rapidly.

At its height, the advance was based on anticipations of a business recovery amid confidence that the Kennedy administration would take vigorous steps not only against the recession but also to bolster U.S. defenses and firm up the country's position internationally. The advance gained speed as the first evidence of economic recovery became apparent and as national leaders predicted a business upturn in no uncertain terms.

The rise was accompanied by the greatest volume for the first quarter in the history of the New York Stock Exchange. It was also accompanied by evidence of outright speculation.

Hectic trading in new, "hot issues" in the over-the-counter market also were of concern to government and financial officials.

The result was a Washington hearing still in progress as the half-year ended, on the necessity for a full-fledged investigation of stock trading in general.

At its highest point, the market advanced about 15 per cent since the first of the year, based on the rise in The Associated Press average. About a third of this gain was shown away in June as various big corporations were affected by adverse news and as Congress became inquisitive about what was going on in Wall Street.

The AP average in the past week dipped 1.00 to 243.40 and the Dow Jones industrial average fell 4.70 to 683.96.

Volume last week declined to 13,554,210 shares from 14,076,560 the week before and was the smallest since 12,709,925 shares changed hands in the week ended last Nov. 26.

The bond markets mounted a three-year peak during the first half of 1961. However, as the economy switched from recession to recovery most prices retreated to their Jan. 1 level or lower.

U.S. government bonds began the second half of 1961 at almost 3 points below their 1960 close and as much as 4 points under the mid-May highs.

Corporate, measured by The Associated Press index of 60 bonds traded on the New York Stock Exchange at midyear were generally slightly under Jan. 1 prices and at the low point of 1961.

Corporate volume on the New York Stock Exchange for the past week totaled \$25,435,400 compared with \$25,158,200 the week before.

## Railroad Is Faced With Bankruptcy

WASHINGTON (AP) — High government officials today expressed the view that the New York, New Haven & Hartford Railroad Co. may founder soon unless some new form of federal financial aid develops.

An Interstate Commerce Commission source said a bankruptcy proceeding for the New England line might conceivably be only "days away."

In New Haven, a spokesman for the railroad said there would be no comment on the report from George Alpert, the line's president.

During the last two years, the New Haven has been leaning on the ICC's authority to grant government repayment guarantees on private railroad borrowing and has obtained such guarantees on more than \$23 million worth of loans.

But more and more strongly in recent months, the ICC has taken the position that state and local authorities in the line's service area have the first responsibility for providing tax relief and other forms of assistance.

Last month, the New Haven turned to the Treasury Department in an attempt to get \$53 million as a first installment on park during the contest.

First prizes will be 11 by 14 portraits, one each by Craft's, Wolfe and Everett Studios, in the three age groups.

The Orient Express was comp- Slow down at mealtimes—if you are

# Peaceful Little Town Is Shaken By Brutal Slaying

By MIKE COCHRAN  
CISCO, Tex. (AP)—Somewhere in this quiet little West Texas town police believe, lurks a mysterious killer.

Whether the murderer is male or female, sane or insane, is a matter of speculation.

Pick any theory and you'll find agreement somewhere.

"It must have been someone who hated her an awful lot—or a nympho," said Police Chief S.E. Parkinson.

Constable J. Honea said it appears to be the work of a homicidal maniac.

"I've seen a lot of things," said Honea, "but never anything like this—why you couldn't even recognize her."

"It's just a hunch, but I believe a woman did this," said Justice of the Peace Ross Griffith. "I don't know."

"But who and why?" ask many of the 4,000 residents of this normally peaceful community.

Regardless of the reason, somebody killed Mrs. Florence Hussey for four years a pleasant, respectable secretary at the First Baptist Church.

Somebody attacked the 53-year-old woman on Wednesday or early Thursday.

She was beaten about the head with a flower pot and stabbed repeatedly with a sharp instrument. Arteries in her throat were severed.

The latter, Dr. Charles Ballew believes, resulted in death for the mid-mannered divorcee.

The person, referred to as "the thing," may have entered the comfortable two-bedroom house through a side entrance.

Mrs. Hussey lived alone.

He or she, police theorize, encountered Mrs. Hussey at the entrance to the bathroom. They apparently struggled.

Bloody footprints led a trail along a hardwood floor from the bathroom into the carpeted living room. A blood smeared wall indicated Mrs. Hussey may have desperately tried to reach a door, then slipped to the floor with her assailant still flailing her, probably a knife.

She was found, clad only in a nightgown, lying face down in a pool of blood. Beside her lay sand and artificial flowers, apparently from a flower pot which had vanished.

When Rev. Jesse E. Casbie, pastor of the First Baptist Church, entered the room and discovered the body a television set and a floor lamp were turned on.

A Bible lay on a table several feet from the body.

A bloody footprint found on the concrete back porch attracted the most attention of Department of Public Safety chemists from Austin.

"The print could be from a woman wearing high heel shoes or from a small boot worn by a man," Dist. Atty. Earl Conner of Eastland said.

The sheriff said the murder was the most brutal in Cisco's history and the first in many years.

Rings and money were found untouched. She apparently had not been sexually molested.

"The church was her whole life," said the Rev. Mr. Casbie. "Only an insane person could do what was done to her."

She was a fine Christian woman. She was the kind of a church secretary that every church needs and wants to have.

"She was the right arm of our church."

"As far as I know, she had no enemies. Everyone liked her."

A neighbor, Mrs. S. B. Curry, said Mrs. Hussey was "a wonderful woman who lived her religion and whose friends were above reproach."

Investigators questioned and released several suspects.

Meanwhile curious citizens drive slowly past the little white house with its maroon shutters and well-kept yard.

At night, said Cisco publisher Jerry L. Sligh, it's likely every door in town is locked.

Her former husband and a 21-year-old son were en route here from their home in California.

**SOCIAL SECURITY BILL SIGNED**—President Kennedy looks away from his desk after signing legislation increasing social security benefits for about 4,420,000 Americans. Standing behind the President's desk for the ceremony are, from left, Rep. Thomas O'Brien, D-Ill., Vice President Johnson, Rep. John Byrnes, R-Wis., Secretary of Welfare Abraham Ribicoff, and Assistant Secretary of Welfare Wilbur Cohen. Sen. Robert Kerr, D-Okla., is hidden by Johnson. The bill also permits retirement at age 62. (AP Wirephoto)

# Historic City Reaches Back To Recapture Its Heritage

By JAMES T. CARJER  
Victoria Advocate Staff Writer  
(Written for Associated Press)  
VICTORIA, Tex. (AP)—This historic city sounded a call this week to some of Texas' wandering sons and daughters to help it reach back nearly a century and a half into its past and recreate a quaint bit of its heritage.

By official action of the city council, the original designation of "The Street Of The Ten Friends" was added as a supplementary name for Victoria's principal thoroughfare, known previously, like those of many another town and hamlet, as Main Street.

The "Ten Friends" tag was given in a five-block section by Don Martin DeLeon, Mexican empresario, when he founded the town in 1824. Seven of the "friends" were business associates, two were captains of militia who directed defenses against Indian raiders, and DeLeon himself was the 10th.

But when Texas won its independence from Mexico in 1836, "The Street Of The Ten Friends"—La Calle de Los Diez Amigos—became plain old Main Street.

Yet the original name is still contained on a marker honoring the founder DeLeon, after whom the former public square has since been named as DeLeon Plaza, showing a trend of thought backward into history by residents of a town named in fact for Guadalupe Victoria, first president of Mexico.

This writer, struck by the picturesque of the old street name, started a movement several months ago to enlist support for adding The Street Of Ten Friends' designation to Main Street corner signs. Civic, business, patriotic and historical groups exhibited so much enthusiasm that the city council gave its official nod in a unanimous resolution.

Now—and here is where the cry to all Texas artists wherever they may be—is being sounded—the "Ten Friends" group announces an offer of a \$250 cash prize to the Texas-born man or woman submitting the best design for ornamental street signs containing the legend "The Street Of The Ten Friends."

The words may be carried lengthwise or stacked in rows like a newspaper headline, and the only qualifications to the design are that it contain a border of filigree or scrollwork and that it not be too difficult to be reproduced in metal by a local sign-manufacturing firm.

Entries should be mailed to "Ten Friends Contest," P.O. Box 1519, Victoria, Tex., not later than Aug. 1.

Mrs. M. S. Shaw, president of the Civic Association; Robert Martin, president of the development association; Morris Kamin, merchant whose store happens not to be on the street in question; and Dalhart Windberg, young Victoria artist, will judge the sign designs.

In addition to the cash award, the winner may be invited here to participate in a ceremony later this summer when the signs are installed in conjunction with dedication of a multiple stanchion on the street to fly the six flags of Texas.

Mayor Joe E. Kelley, who led the city council in giving its blessing to the turn-back-the-clock

# Council Meet Set Monday

The city council is scheduled to take final action on one ordinance and consider several requests at its meeting Monday night.

The session will begin at 7:30 p. m. in the city hall.

The ordinance increasing the speed limit of Santa Fe trains through the city will be up for second reading.

A final estimate on recently constructed sewer lines to the Huffman addition will be presented, and requests for fire hydrant protection, sewer service and a loading zone will round out the agenda.

idea, declared that the political body was influenced by the potential tourist value of the "Ten Friends" street.

"If New York can have an 'Avenue Of The Americas,' Atlanta a 'Peachtree Street' and Houston and Old Spanish Trail, then I guess Victoria can have its own street with its rightful name of 'The Street Of The Ten Friends,'" he said.

# Grain Mart Responds To Dry Spell

By EARL KYROID  
AP Business News Writer  
CHICAGO (AP)—Unfavorable weather and crop news, the matting strike and reports of underselling of sorghums by China provided incentives this week for turns in the grain futures market.

Of major concern to the grain trade were drought conditions in the parched croplands of the U.S. Northwest and the western prairie provinces of Canada. Some rain fell over most of the stricken areas Thursday night and Friday, but grainmen said they doubted that it was sufficient for general relief.

Hot, dry weather has prevailed over the allied croplands in both this country and Canada since early June.

At the close of trading on the Board of Trade Friday, wheat futures were 14 to 34 cents a bushel higher than at the close on Friday a week ago. Corn was 4 to 6 cents higher, oats 14 to 24 cents higher, rye 2 to 4 cents higher and sorghum 1 to 3 1/2 cents up.

There was no estimate of crop damage suffered, thus far, as a result of lack of rain in the northwest and Canada, but grainmen say it is certain to bring about a decrease in production.

Soybean futures started the week with a sharp decline, especially in the nearby July contract. The price of that delivery slumped 64 cents a bushel Monday, on reports China had sold around 25,000 tons of beans to Italy and Denmark at prices below those offered by U.S. exporters.

On Friday, however, increased demand for soybean futures lifted the July 6 cents a bushel at the close. Earlier in the session July beans advanced 10 cents, the limit for a single trading session.

President Kennedy's action in invoking the Taft-Hartley Act in an effort to end the seamen's strike also brought some buying 4 grains early in the week. Traders look for enlargement of grain exports soon after the strike is settled.

March and May wheat and oats advanced to new seasonal highs Thursday, and March rye equaled the season high for that grain.

# Britain's Weather Falls 30 Airmen

LONDON (AP)—Britain's weather the but of many jokes because of frequent fog and rain, proved too much for hundreds of British airmen on Friday.

About 30 American airmen collapsed while taking part in the regular monthly parade at the U.S. air-base in Sculthorpe, Norfolk.

Medical officers at the Wimbledon lawn tennis championships treated 154 heat victims among spectators.

Temperatures ranged in the high 80s throughout the country, reaching 88 in London, the capital's hottest night in nine years.

### June Rains Far Above Average Here

June was a "red letter" month moisture-wise in Scurry County. Snyder rainfall, at 4.64 inches for the month, was nearly 2 1/2 inches above the June average, and the past month brought the first truly general rain to the county. Previously there had been skips in the county's moisture pattern. Total rainfall for the year moved upward to 10.51 inches, slightly above the average for the first half of the year, and slightly more than half of the annual average. The June rainfall was far heavier than that of last year when only 4.7 of an inch was recorded. In fact, with the exception of 1959, June's total was the greatest for that month since 1941.

### Ailing Red Is Set Free

NEW YORK (AP)—Henry Winston, one of the nation's top Communists, is a free man today after more than five years imprisonment. President Kennedy Friday commuted the prison sentence of Winston, 55, a Negro, because he is blind and in ill health. His sentence, with time off for good behavior, would have been completed next Jan. 4. Winston, who faces possible brain tumor surgery for a second time, said "I'm happy and surprised" as he was released from the U.S. Public Health Service hospital, Staten Island. Winston was organizational secretary of the Communist party, U.S.A., when he was convicted of conspiracy to teach and advocate the overthrow of the government.

### Mrs. Bretz Has Visitors In Home

Weekend visitors in the home of Mrs. Oma Bretz, 2903 Avenue N, are Mrs. Roy Dawson of 700 Hillside Drive, Big Spring, and Mrs. Nettie Dean of Alta Vista Apartments, Big Spring.

### Cohen Sentenced To 15-Year Term

LOS ANGELES (AP)—Ex-mobster Mickey Cohen today was sentenced to 15 years in prison and fined \$30,000 for federal income tax evasion. The onetime boss of West Coast bookies could have received up to 30 years in prison and a \$65,000 fine. Cohen, 47, was convicted Friday by a federal court jury of seven men and five women. He acquitted him on five other counts. The 13-count indictment was similar to charges on which he was convicted 10 years ago, fined \$10,000 and imprisoned for 3 1/2 years. The jury deliberated 2 1/2 hours before deciding. The trial lasted eight weeks. Cohen, 5-foot-5, dapper and chubby, clasped his hands and bowed his head when he heard the verdict. His blonde girlfriend, Sandra Hagen, 22, burst into tears. U.S. Dist. Judge George H. Boldt complimented the jurors on a "discriminating verdict."

### Farm Products Go To Yugoslavia

WASHINGTON (AP)—The Agriculture Department announced today it would supply \$33.6 million worth of farm products to Communist Yugoslavia under the Food for Peace program. The products will be paid for in Yugoslav currency, a part of which will be used to help finance U.S. operations in that country. The transaction includes \$3 million in ocean transportation on the commodities. The ocean's chlorophyll plants are eaten by animals a pinhead or smaller in size.

# Red China Apparently Bows To Khrushchev

By WILLIAM L. RYAN

Associated Press News Analyst Moscow, recent evidence indicates, has battered down Red Chinese resistance to total Kremlin control of the Communist push for world supremacy. At the Moscow meeting last November a declaration was issued spelling out what Moscow expects of all Communists: Obedience to the Kremlin as "the universally recognized vanguard of the world Communist movement." Recognition of the U.S.S.R. as the only model for Communist-ruled states, agreement that the movement is entering a new stage requiring that old doctrines, "however hallowed," must not get in the way. Moscow's doctrine now is that Communism can win by economic and political offensives short of world war.

It also would present the appearance of monolithic solidarity behind the Kremlin in its foreign policy, in advance of the important 22nd Congress of the Soviet Communist party opening Oct. 17—another occasion for a meeting of Communist leaders from all parts of the world. Briefly, here is a chronological review of events leading to what seems to add up to a notable Khrushchev victory: Moscow summoned leaders of Communist parties from 81 countries to a meeting in November 1960 as a moment when the Soviets and Red China obviously were engaged in a stubborn quarrel over ideology. It would be oversimplification to say the argument centered on Lenin's thesis that war with imperialism is inevitable. But one aspect of the quarrel seemed to be a Kremlin fear that Red China would take some rash, irrevocable action that could draw the Soviet Union into a nuclear war.

The quarrel was complicated by Peiping's insistence on developing communism in its own way, including use of a people's commune system and of scattered small-scale industrial enterprises in Chinese backyards. Implicit in this was the contention that Red China could make a great leap forward toward communism, by-passing stages the Soviet Union considers unavoidable. "Another point of friction was Chinese insistence that Communism should seize every opportunity throughout the world to expand, regardless of risk. By inference, Peiping accused the Kremlin of fearing paper tigers.

in the long pull can be conquered, without the ultimate war with imperialism. Spokesmen for the Peiping delegation in the June talks said the agreement was a "fresh development" in Chinese-Soviet solidarity since the 1960 declaration, a highly significant statement. In return for recognizing this, the Chinese get a co-operation agreement extending to 1967 in a variety of "essential fields." It seems fairly clear the Chinese have decided to play ball.

Said the 1960 declaration: "The interests of the Communist movement require solidarity and adherence by every Communist party to estimates and conclusions reached by the fraternal parties at their meeting concerning common tasks in the struggle against imperialism."

The Chinese seemed to be sulking. Soviet technicians were leaving China in droves. And in foreign affairs, the Chinese seemed to be intent at one point on taking the Laos situation and running away with it, beyond Soviet control.

But China was having vast economic trouble, aggravated by flood, drought, famine and other calamities. Red China badly needed help. So a few weeks ago talks began in Moscow on Soviet economic and technical aid for China. An agreement was signed June 19, and it was in this that the broad hints could be detected about what had taken place.

In return for significantly increased economic aid, the Red Chinese seemed ready to surrender some of their cherished notions. One of them was the Kremlin's thesis that Communists, in nations marked as targets, must make alliances with upper and middle class dupes called in Red jargon, "the national bourgeoisie." Moscow reckons this can facilitate nondangerous power grabs, and that it is plain foolishness to surrender opportunities by confining Communism to the toiling masses, as the Chinese seem to have insisted.

Peiping also seems ready to live with the idea that the world

## TWIN SHUTOUTS

### Sox, Braves In LL Wins

The White Sox of the Little League continued their winning ways Friday night, strengthening their first-place grip with a top-heavy 11-0 slugging of the Yankees.

Robert Golden hurled the shut-out win, allowing three hits and striking out seven during his five-frame tour of hill duty. The game was cut short after five innings due to the 10-run rule.

Center fielder Johnny McKinney got two of his team's hits of the evening, a single in the third and double in the fifth.

Sox shortstop Johnny Gaona was the big stickman of the game, however, as he sandwiched in a double between two singles to go 3-for-3.

Butch Fletcher went all the way for the Yanks in absorbing the defeat.

In another abbreviated contest—this one a four-inning affair—the Braves put the stoppers to the Cubs by a 10-0 count.

Don Jones blanked the Cubs on three singles to take the triumph. Cub starter Robert Jones was the loser. He had relief help from Rick Hall and Delbert-Fore.

## Local Pinmen Make Splash In Post Play

POST (Special)—Several Snyder anglers playing out of Tiger Bowl made their presence known this week when the final tabulations were arrived at in play of the First Annual Invitational Tournament here.

O. R. Brown nabbed second in singles with a total of \$88.20 that feat gaining him \$48.20 in prize money.

Kemp McMillan and Wayne Kennedy teamed up in the doubles to win third with their aggregate of 1276 and a \$48.70 share of the loot.

And Brown and Jaston Corbell capped a fifth place in doubles with 1268, which earned them a take of \$38.10.

The Giants took a 1-0 lead in the third on Davenport's homer, but the Pirates bounced back with a two-run single by Billy Virdon. Singles by Roberto-Clemente, Hal Smith and Billy Mazerowski hiked the Pirates margin to 3-1 in the fourth. Until the sixth Friend had allowed the Giants only two hits.

## Giants Stop Bucs, 4-3

PITTSBURGH (AP)—Willie McCovey's run-scoring double in the eighth—his second of the game—earned San Francisco a 4-3 triumph Saturday over the Pittsburgh Pirates.

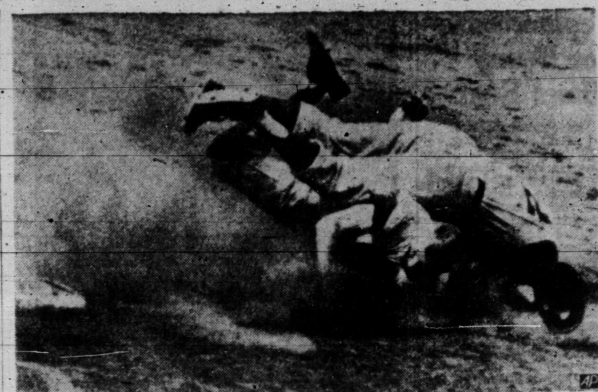

McCovey's first double was one of three key hits in the Giants' two-run sixth that knotted the score at 3-3. Jim Davenport's bases-empty homer accounted for the Giants' other run in the third.

Harvey Kuenn, who started the Giants rally in the sixth, did it again, with another single in the eighth and McCovey followed with his second double for the game-winning blow.

The Giants took a 1-0 lead in the third on Davenport's homer, but the Pirates bounced back with a two-run single by Billy Virdon. Singles by Roberto-Clemente, Hal Smith and Billy Mazerowski hiked the Pirates margin to 3-1 in the fourth. Until the sixth Friend had allowed the Giants only two hits.

THEY'RE BOTH OUT—Cincinnati Redlegs third baseman Gene Freese, top, and Chicago Cubs infielder Jerry Kindall come to a dust-raising collision at second base in the fourth inning at Wrigley Field in Chicago. Freese had tagged Kindall on his way back to the bag and was tripped up by Kindall as he over slid the base. Kindall was called out and Freese had to leave the game, with a knee injury. (AP Wirephoto)

## Bufs Biff Braves As Sox Tip Phils

The Pony League leaders got together here Friday night, with the result that the Bufs propelled themselves into the top spot in the standings with a 6-4 victory over the Braves.

The Buff nine struck with lightning fury in the first inning to give them the pad, needed, as the first four men who strode to the plate during that frame eventually scored. Ronnie Detrich and Kenneth Dover, waited to start the inning after which a two-run single by Jay Williamson and another single and a Brave fielding miscue allowed the final two runs of the inning to come across.

Buff moundman Eddie Greenfield scattered three singles over the first five frames, but ran into serious trouble in the sixth when the Braves almost closed the gap with a three-run spurge.

Relief hurler Jimmy Weaver laced a nine-inning triple into right-center to initiate festivities, after which Danny Smith and Kenneth Gay followed up with consecutive singles before Greenfield buckled down to cut short the rally, but not before three runs had denuded the platter.

Greenfield went the distance for the victory, Robert Foree, who went four and a half innings on

the hill prior to the advent of Weaver, was the loser.

Bufs Williamson and David Holt were the only hitters of the night managing to collect more than a single hit, as both came through with a pair of one-base blows.

The nightcaping contest was won by the Red Sox, who struck both early and late in waiting to an 8-1 win over the Phillies.

A three-run first and four-run seventh served to boost them into the winner's circle. They shelled loser Lupe Lopez for five singles in the first, with Kenney Wellborn, Harley Bynum, Darrel Aldridge, Tommy Winters and Keith Moreland on the business end of the history during the early uprising. Highlighting sixth inning play was a double by Gerald Bulard and another single off the bat of Moreland.

Moreland also doubled in the third to lead all hitters with three bingles in four trips to the plate.

Phil Jimmy Wilson connected for a two-bagger in the seventh with one away, and scored the only run his team could muster by grace of a wild pitch.

Bullard went the route to post the victory, giving up just three hits while whiffing nine. Loser Lopez, toiled until the sixth, at which time he relinquished hurling duties to Ronnie Bennett, who finished out the contest for the Phils.

## NBC Entry Deadline Nearing

LUBBOCK (Special)—Eight teams have entered the Northern Division regional National Baseball Congress tournament to be held in Lubbock July 24-31.

The winner of the tourney will meet the Southern Division champion in a special series Aug. 3-6 to name the state champion and the representative for the national meet in Hutchinson, Kan., later that month.

Already in the field are teams from Borger, Pampa, Amarillo, Hamlin, Goodfellow AFB of San Angelo, two from Lubbock and the Irrigation League All-Stars.

Deadline for entering the tourney is July 8. If more than 10 teams enter, special playoffs will be held the week before the tourney to fill the 10-team bracket.

Boundary lines for the northern division includes all of the Panhandle to the north, Fort Worth, Denton and Cleburne to the east, and Sonora, Junction and Del Rio to the south.

Entries, along with the \$25 fee, should be sent to Dick Walker at the Lubbock Park and Recreation Dept.

The Lubbock Rangers are the defending regional and state champions.

## Port Aransas Scene Of Fish Roundup

PORT ARANSAS (Special)—The Texas Gulf Coast's favored fishing fiasco, the Deep Sea Roundup, will have its 26th renewal on July 11-12-13, with outstanding anglers from the Southwest compete here for sailfish, tarpon and anything fish-wise afloat.

The pattern of this event has changed little over the quarter-century, with the big emphasis still on sailfish. Practically all species of fish, however, are in line for trophies or some sort of award, based on size, weight, and quantity.

While the Round-up is a rugged test between man or woman and fish, various side events have been added to make the affair enjoyable for the family. Once again, a piggy perch contest has been planned for the youngsters and a bathing beauty contest is set for those who like diversion from fishing.

The entry fee for contestants is \$1500. Contestants may bring their own boats for the tourney, or charter boats are available for those wishing to rent. The new Port Aransas boat basin is open offering an abundance of facilities for out-of-city boats, with ramps plentiful.

## Trying To Fill Gap

LUBBOCK (Special)—Faced with the problem of replacing an All-America center, Texas Tech Coach J. T. King is following the route that the Red Raiders took with E. T. Hahn four years ago.

King is moving a player from another position, Charlie Harrison of Abilene, defensive fullback for the Raiders as a sophomore last fall, will move to full-time work at center.

Hahn, a consensus All-American in 1960, played tackle in high school.

# AMUSEMENT

10 The Snyder (Texas) Daily News, Sun., July 2, 1961

FRANK SINATRA and Shirley MacLaine are shown in a scene from the great musical "Can-Can" which will be shown here for the first time at popular prices, starting Wednesday, July 12, at the Palace Theater.

## No Returns Yet On 'Mein Kampf'

By BOB THOMAS  
AP Movie-TV Writer

STOCKHOLM (AP) — The documentary film "Mein Kampf" has made millions all over the world. But the man who made it has had no returns as yet.

He is Erwin Leiser, 38, a Swedish intellectual who began two years ago to put together a film account of the rise and fall of Adolf Hitler. The result started the movie world and has affected social and political thinking.

"The film has been playing in 62 countries," reported Leiser, who is gratified by its success. But his profits have been nil so far.

"Under my contract, I am supposed to get an accounting of the profits every six months," he said. "Last December there were none. At the end of June I will get another report. If there are still no returns, I will have some interesting developments in the courts."

Why did "Mein Kampf" prove so popular?

"I think it appeals greatly to young people," said Leiser. "They have read about these things in school, but they really can't comprehend them until they see them with their own eyes."

"What they see is real. These things cannot be faked."

There have been other documentaries of Nazi Germany, but they have not had the impact of "Mein Kampf." One reason is undoubtedly timing: The revival of interest in nazism spawned by the Eichmann trial. But credit must also be due Leiser's skill as a filmmaker. Amazingly, "Mein Kampf" was his first movie.

"I used some of the techniques learned in making radio and TV documentaries in Sweden," he explained. "Mainly, I try to put nothing between the audience and the story. I want them to discover it for themselves."

## State Bar Meet Is Set

FORT WORTH (AP) — The 7th annual convention of the Texas State Bar will open Wednesday with an attendance of about 5,000.

A legal institute on personal injury litigation, moot court arguments and meetings of the Texas City Association, Association and the Texas Civil Judicial Council will feature the opening of the four-day meeting.

Vice President Lyndon B. Johnson is to speak "On the Challenge of Our Day" at a Friday night banquet.

New State Bar officers to assume office Saturday are William L. Kerr, Midland president; Buster Cole, Bonham, vice president; and Leon Jaworski, Houston, president-elect.

## Traffic Toll Runs Ahead Of Last Year

AUSTIN (AP) — Texas motorists begin the "day" all holidays with the state's traffic toll running 4 per cent ahead of last year, the Department of Public Safety reported Saturday.

The DPS has predicted 11 will die in traffic accidents from midnight Monday to midnight Tuesday.

The weekly DPS report showed a total of 998 traffic deaths in 805 accidents so far this year. At this same time last year there had been 962 deaths in 784 accidents.

## Replacement For Benny Misses Boat

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP) — Johnny Wayne and Frank Shuster, using their own imaginative material, are a superior comedy team. But unless they were sitting on TV, they would never have written for themselves the tired trivia that constituted the first episode of their new series.

"Holiday Lodge," which premiered on CBS Sunday night as Jack Benny's summer replacement, has the Canadian comics playing fun-loving social directors at a plus lake resort.

The plot was that old mistaken-identity device—a convention of morticians pretending to be florists. When they arrive at Holiday Lodge, acting exactly like TV's idea of the heads of a crime syndicate, our heroes believe it is a convention of gangsters.

Well, you can imagine the fun and puns in that situation. Anyway, the laugh track accompanying the picture was one long loud howl!

I'll bet some of the mally-CBS gets from outraged funeral directors will be more entertaining than the first show.

After all, of David Susskind's criticism of TV during his testimony the Federal Communications Commission hearing last week, it will be interesting to see how much business—if any—his independent packaging agency, Talent Associates, is able to line up for the three major networks next season.

Susskind has made a hobby of sounding off about the low state of TV programming over the years, but he has never had such a good fortune before. He made the most of it.

Actually, Susskind has not had a particularly successful season this year. His "Family Classics" series, which started out as two-part shows on successive nights, dwindled down to one-hour hours. "Way out," the off-beat series launched recently, will not last the summer, and NBC is quietly steering about his forthcoming "Great Ghost Story" summer series, due to start early next month, but still very much in the planning stage.

## Honor Due Culberson

TEMPLE, Tex. (AP) — Officials of the Scott and White Memorial Hospital here said Saturday that plans will be redoubled to erect a research center here in honor of the late railroad commissioner, Olin Culberson.

"We will redouble our efforts to erect this memorial to a great Texan," said R. L. Force Sr., Dallas oil man and state chairman of the drive to erect the research center.

The center has been a project of the oil and gas industry in Texas. Force said it would be expanded to include volunteer firemen, rural electrification cooperatives and the trucking industry.

A spokesman said this week the research center fund stands at more than \$70,000. A goal of \$500,000 has been set.

The faith of India's six million Sikhs stems from an effort to bridge the gulf between Hinduism and Islam. Like Hindus, Sikhs cremate their dead and eat no beef. Like Moslems, they worship only one god and oppose the caste system.

COMING THURSDAY—John Wayne is shown in a scene from "The Alamo," which will open here Thursday at the Canyon Drive In Theater.

## Brief Revolt Is Good Show Plot

By CYNTHIA LOWRY  
AP TV-Radio Writer

NEW YORK (AP) — Playwright Tad Mosel and actress Shirley Booth joined "Jesse" Wednesday night to turn out an exceptionally effective Steel Hour on CBS.

Mosel's "The Haven" was more a vignette and character study than a drama, the story of a weak but sensitive man's brief revolt from his wife and two children—and his return.

Miss Booth played the type of woman she did so well in "Come Back Little Sheba," good warm-hearted slob. But Gene Raymond, as her errant husband, was so wooden and withdrawn that all the sympathy stayed on the side of the wife.

The plot wasn't much: Just a

couple and their two children returning to their summer cottage where the wife finds evidence her husband had been there with another woman. Miss Booth pulls off convincingly a difficult scene when she changed instantly from hurt and anger at betrayal to warmth and concern for her husband's unhappiness.

NBC's early-bird "Continental Classroom" will return Sept. 25 with two courses for which it expects some 300 colleges and universities to offer full academic credit.

The first half-hour—8 to 8:30 a.m.—will be a repeat of this season's two-semester course on contemporary mathematics. From 8:30 to 9 there will be lectures on American government, the new series.

ABC's vice president in charge of news, Jim Hagerly, had a closed circuit TV meeting with heads of affiliated local stations recently and "talked firmly"—words—to them about the necessity for their clearing time for his 11 p.m. network news shows.

The project is close to Hagerly's heart because it is a vital part of his blueprint for upgrading ABC's news and public affairs activities. But the local stations, apparently, have been reluctant to open up the late time period because it is more profitable for them to keep the profitable ABC's news and public affairs programs local, with local sponsors.

Sam Levenson, who was on Ed Sullivan's show the other Sunday, will fill in for vacationing Jack Paar next Wednesday and Thursday nights. Deward Kirby will continue on the Garry Moore Show next season as well as play host on "Candid Camera."

## Construction Gains Here

Following a slow start during the early months, construction work showed a substantial gain here in June.

The city issued 14 building permits for projects totaling \$80,250 during the past month, by far the best construction month for the year.

February was the lightest month for construction here in several years, with 10 permits totalling \$27,450. May was the second highest month with 13 permits for \$68,826.

The total for the first six months of the year shows 71 permits for construction costing \$338,700.

Other monthly totals for the year include January, with 11 permits for \$44,200, March with 10 permits for \$65,875, and April with 13 permits for \$54,100.

## 175 New Oil Wells Completed In Week

AUSTIN (AP) — A total of 175 oil wells was completed during the week, making 4,674 for the year compared to 5,046 in the same 1960 period, the Texas railroad-commission reported Saturday.

There were 52 gas well completions during the week and 102 dry holes.

## Sarita Vera Fades From TV Screen

By JAMES BACON  
AP Movie-TV Writer

HOLLYWOOD (AP) — You've seen dark-haired, dark-eyed Sarita Vera in scores of TV shows, always as a Mexican or Indian girl. But never again.

"I killed her off this week," says red-haired Rhea Vernon,

"With a new hair dye, new make-up job and a new name. Only my mother will know me as Sarita from now on."

Sarita and Rhea, of course, are the same girl. This week she decided to take a drastic step to break the casting she had been in.

"I couldn't blame producers for always casting me as a Latin-American, because that is what I am," the Los Angeles-born actress said. "But it's frustrating to be limited to only two types."

So the other day she went to a Beverly Hills beauty salon for a complete renovation.

Before she went in for the overhaul, she had a call from a casting director of Columbia Pictures for a role in a movie, "Walk on the Wild Side."

"He turned me down and for the first time in my life I was happy because I didn't get a part. He spoke the kindest words I've ever heard."

"Sorry, Miss Vernon, this part calls for a Latin-American type. You won't do."

"I had been called in as Sarita Vera but when I went in for my interview I was the red-haired Rhea Vernon."

TO SPEAK HERE — The Rev. Glenn W. Bales will speak at the First Baptist Church here at 11 a.m. Sunday. A Baptist pastor for 20 years, Dr. Bales is now a staff member of Texas Alcoholic Narcotics Education (TANE), as district secretary for its western district.

### Headmaster Of School Draws Fine

HARTFORD, Conn. (AP)—The headmaster of St. James School in nearby Berlin has been fined \$50 in Superior Court after pleading guilty to a charge of cruelty to the youngsters.

Leonard W. Francis, headmaster of the private school for boys, admitted putting one of the pupils into a gas clothes dryer Feb. 5, 1959, and turning on the gas for a few seconds as punishment for the boy. Fellow students helped the boy out.

Judge Thomas E. Troland said this action by the defendant was a "serious error of judgment." He said "moderate punishment" was necessary to "caution firm against similar acts in the future. Francis drew a suspended indefinite sentence on another charge of cruelty to persons for allegedly having beaten a pupil with a switch for forgetting to wear his rubbers.

It was complaints from parents that Francis was too severe in his discipline that caused state police to begin investigating the headmaster's methods. However, parents of other pupils said they were satisfied their sons were being treated properly at the school.

Francis has brought a damage suit against state police. In court Friday, State Attorney John Labette told Judge Troland the defendant often made boys remove their pants and underpants before he beat them with a hair brush or belt.

Among things for which Francis handed out beatings, the state said, were spending too much money, sitting with a girl at a school basketball game, wearing a stocking crookedly, and failing to work on construction of the school gymnasium.

### Patrols Are Bolstered

AUSTIN (AP)—Special patrols of the Department of Public Safety will be on Texas highways during the July 4th holiday. Col. Homer Garrison Jr., DPS director said Saturday.

"The cooperation of the driving public in obeying traffic laws and observing all safety regulations is the key to the problem and we are appealing to the good judgment of Texans to comply," Garrison said.

"In addition, we have instructed our highway patrol force to be especially vigilant during this 24-hour period," he said, adding that "the regular patrol will be augmented with some 150 additional patrolmen from our other uniformed services."

MISS IRIS TURNER

### Iris Turner Presented In Recital

On Thursday June 29th at 8 p.m. Mrs. Lynn Beverly Bethel presented Miss Iris Turner in a Senior Piano recital at the First Baptist Church. Miss Turner opened the program with "Invention I-Bach" followed by "Phantasie K475," "Allegro and Andante," "Mozart's" "Sonata," "Clair de Lune" Debussy, and various other lovely numbers. Vocal selections were by Kathleen Mott.

Following the program of music, Mrs. Bethel conferred upon Miss Turner the National Guild diploma in piano, issued by the National Guild of Piano Teachers.

### UNION News

By MRS. J. B. ADAMS

Mr. and Mrs. Howard Hogue attended the Hogue reunion in Breckinridge over the weekend. They were met there by their children, Mr. and Mrs. Royce Hogue and children of Irving, their grandson, Rex Hogue returned home with them for an extended visit.

Mr. and Mrs. Murray Ackwa and Mrs. and Mrs. Troy Bentley visited in Fort Worth over the weekend with Grandma Bentley and other relatives.

Mr. and Mrs. J. J. Hall and children visited Sunday with her parents, Mr. and Mrs. Land of Lorraine.

Mr. and Mrs. Vernon Stipes attended the Turner reunion at Hico recently. Their daughter, Mrs. Robert Hook and children of Fort Worth met them there and returned home with them for an extended visit.

Mr. and Mrs. A. M. Armstrong spent the weekend with their children, Mr. and Mrs. Donald Armstrong at Kress.

Mr. and Mrs. Howard Franklin visited over the weekend with their daughter, Mrs. Yarnon Hartwell and family of Humble. Their grandson, Scott Hartwell, returned home with them for a visit.

Mrs. Helen Jones of Bangs, spent the weekend with her mother, Mrs. J. B. Adams.

Anita Jones returned to her home in Bangs Tuesday after spending the week with her grandmother, Mrs. J. B. Adams. Mary Ann Adams of McCamey also returned to her home.

Mr. and Mrs. Nazey Davis and son of Houston are visiting with her mother, Mrs. Ike Steadman.

If a party is on the schedule for the teenager on a weight-reduction program, nutritionists advise the desserts be skipped at meal times—thus the "bonus" calories of party treats will not appreciably increase the waistline.

Weight-watchers on a restricted diet often need the vitamin protection of taking regularly, once a day, a multiple vitamin preparation.

**WINNERS**—These three young ladies were winners in their divisions of the County 4-H contest and bake sale held here Wednesday at the County Extension office. From left they are: Gwen Landrum of the Fluvanna 4-H Club, winner in the senior division; Glenna England of Snyder Elementary 4-H, first in intermediate; and Karol Ruth England of Snyder Elementary, first in the junior division. The judges announced that it was a hard contest to judge as nearly all of the 51 entries from the 11 clubs were blue ribbon products.

### County 4-H Girls Hold Annual Bake-Sale Contest

The annual Scurry County bake contest and bake sale was held in the County Extension Office on Wednesday, June 28.

Karol Ruth England, and Jennifer Elington were in charge of the contest. Connie Ellington was in charge of the intermediate tables, assisted by Denise Welch and Joy Stirling. Glenna England was in charge of the senior tables.

Serving cake was Miss Haddock and greeting guests were Miss Turner, Mrs. Pauline Turner and Mrs. Bethel.

Seating guests at the recital were Brenda Drake and Pat Mott.

Glenna England of Snyder Senior 4-H Club and Janie Gieghorn of Fluvanna 4-H Club helped with record keeping.

Also assisting were 4-H adult leaders, Mrs. Weldon Wiggins, Mrs.

**Intermediate**  
Glenna England, Janie McBeth, Karen Mirick, Gay Lovelady, Linda England, Diane Holamon, Joy Stirling, Peggy Rappeteld, Betty Groves, Geanita Robbins, Barbara Freytag, Karen Rodgers, Kathryn Helm, Debbie Ellington, Connie Ellington, Denise Welch, Marilyn Gullett, Carole Sterling, Virginia Jackson, Brenda Ashley, Linda Fuller, Linda Durham.

**Junior**

**Seniors**  
Gwen Landrum, Eudora House, Janie Gieghorn, Nancy Campbell, Helen Stur, and Mary Helen Ainsworth.

### Spinach au Vinaigrette

Cook washed spinach, just 2 minutes in its own steam, drain thoroughly, chop with sharp knife. Cool to room temperature and serve dressed with Spanish olive oil, vinegar, salt and pepper, using approximately half the quantity of vinegar as olive oil. Serve as a hot weather vegetable, or chill to serve as a salad.

### Heat Storms Put Tree Umbrellas 'Out Of Bounds'

Any part in a storm—electrical storm—doesn't apply to trees! Trees can be death traps for outdoor people, including golfers, when lightning strikes. At least one of every three of the 500 persons killed and the 1,300 injured annually sought refuge under trees.

Lightning is nothing to be taken casually: It is the most deadly of natural forces, traveling incredibly faster than space missiles—at the rate of 22 million miles an hour. It packs more electrical energy than all the dynamoes in the U. S. Standing under the tallest tree on the highest ground of a golf course is like inviting a visit from the coroner.

That's because bolts are more

apt to travel the shortest distance from clouds to earth. Lightning will explode trees by turning sap into gas so rapidly it acts like dynamite. The golfer needn't construe the danger as an incentive to continue fairway play during a thunderstorm. Swinging a metal-shafted golf club high overhead has been the last mortal act of some wet-weather golfers.

Golf courses, however, are discovering it is possible to provide cones of protection for themselves by topping trees. This is the same kind of protection afforded big buildings. In getting the job done properly, there are many factors other than tree height to consider. These include depth of roots, moisture retention of tree bark and wetness of soil.

### UNDER NEW MANAGEMENT

I want to invite you to the B&B Steak House which has been remodeled and is now open for business.

MR. AND MRS. RONNIE ELOYD BARKER

### Virginia Ann Jones, Ronnie Barker United In Marriage

Virginia Ann Jones, daughter of Mr. and Mrs. Andrew J. Jones, Lubbock Highway, became the bride of Pfc. Ronnie Lloyd Barker, son of Mr. and Mrs. Sam Barker, 507 Twenty-ninth Street, June 17th at 8 p. m.

Rev. Robert Owens, pastor of the First Assembly of God Church read the ceremony in the home of the bride's cousin, Mrs. D. C. Worley, 3108 Avenue B.

Mrs. Milton Hollis, organist, presented traditional wedding music and accompanied Mrs. Allen Owen who sang "I Take Thee, My Dear". The song "Whither Thou Goest" was presented on record.

#### Spanish Cooking Hint

Spanish cooks, when frying with olive oil (the basis of virtually all Spanish cooking), place a piece of bread in the oil. This serves several functions: when the bread is golden, they know the oil is the right temperature for frying, and at the same time, the piece of bread in the oil helps prevent splattering and absorbs strong odors, such as that of garlic.

Miss Frances McCormick was maid of honor and Royce Barker served his brother as best man. The bride wore a street-length dress of white satin with puff sleeves of white cotton lace. Her accessories were white and she carried a white Bible topped with white carnations.

The bridesmaid wore an orchid dress and carried a nosegay of pink and white carnations. The bride's mother wore a dress of beige orlon over green taffeta with white accessories. The bridegroom's mother wore navy blue with white accessories.

Miss Carel Nail of Odessa presided at the registry. The reception table was laid with a lace cloth over pink and held the three-tiered wedding cake topped with a miniature bride and groom and a centerpiece of white African wonder flowers.

Mrs. Barker attended Snyder High School and will be a senior next fall. Pfc. Barker graduated from high school at Southwestern Bible Institute in Waxahatchie, and also attended Junior College at Southwestern.

After a short wedding trip the couple are at home at Killen where Barker is stationed at Killen Army Base.

### LIBRARY NOTES

As we celebrate our nation's birthday on Tuesday, July 4, we are reminded that the first freedom granted to us is the freedom of speech, guaranteed in 1791 by the First Amendment to the U. S. Constitution, affirmed by Franklin D. Roosevelt in proclaiming the four essential human freedoms, and reaffirmed by the UN General Assembly resolution, "Freedom of information is a fundamental human right, and the touchstone of all the freedoms to which the United Nations is consecrated."

#### Pickled Trout For Hors d'Oeuvres

If you are lucky enough to have a fisherman in the family who brings home a string of trout, save out a few of them to serve in this delightful Spanish way. First slice 1 or 2 small onions and add the sliced onion with a fistful of minced parsley to 1/4 cup Spanish olive oil heated just to the smoking point. Quickly brown the cleaned trout in the olive oil, over moderate heat. When tender, remove, place fish with onion in large porcelain bowl and cover with 1/4 cup each vinegar and water, 1 bay leaf and 1/2 teaspoon salt. Leave in marinade for 4 or 5 days then serve as hors d'oeuvres.

Our forefathers left us a heritage of great freedoms, and as with all opportunities, there came the heritage of duties. Charles Evans Hughes said, "You cannot be saved by valor and devotion to your ancestors." His statement reminds us of the American proverb - "Hats off to the past; coats off to the future." All of which leads us to repeat - "Read - for a better-read, better-informed America."

Your library is a store-house of information about our country's past, present challenges, and future hopes. One book we highly recommend is "One Nation Under God", and anthology for Americans, edited by Robert Gordon Smith and dedicated "To The United States of America and all who share the American dream of freedom and dignity under God for all men—everywhere."

Mr. Smith's title selection raised the question - "Who wrote the Pledge of Allegiance?" A pamphlet in the library vertical file furnished the answer. The original pledge was drawn up in 1892 in the office of "The Youth's Companion" in Boston. A slightly varied wording of the pledge received official recognition by Congress in an Act of June 22, 1942. The phrase "under God" was added to the pledge by a Congressional Act of June 14, 1954.

Perhaps the voice of history

AUGUST WEDDING PLANNED—Mr. and Mrs. T. L. Williams of 2900 Avenue W, announce the approaching marriage of their daughter, Sandra Lynn Herndon, son of Mr. and Mrs. Jasper L. Herndon of 3742 Sunset. The couple will exchange vows August 5 in the First Baptist Church at 7 p.m. (Photo courtesy Craft Studio)

is best heard in the public speeches of a nation. In any democracy, oratory becomes actually a tool of government, for a great speech can change the whole course of human events. Some of the greatest American Speeches are available on records at your public library. One of the most stirring is Patrick Henry's "Liberty or Death" address of March 28, 1775, as read by Melvyn Douglas.

The story of our country's dramatic and exciting growth is told for children in "Land of the Free" by Enid LaMonte Meadowcroft. It is the story of the events that shaped our country's history; the story of leaders and men of vision; and the story of the American people and their struggle to make and keep America great.

The first article in the current "National Geographic" is "From Sea to Shining Sea: a cross section of the United States Along Historic Route 40". Their new atlas map of the U. S. marks the nation's 185 anniversary. Hawaii and Alaska appear as insets, yet when the Liberty Bell rang, Hawaii had not been discovered and Alaska was little known except to Russian seal hunters. Latest issue of "Holiday" contains "In Quest of America" by John Steinbeck. The same magazine carries "The Natural American", a pictorial work by Henri Cartier-Bresson as well as David Dodge's "Keys to the United States 1961," a thumbnailed travel guide.

#### Spanish Olive Oil - A Health Food

In Europe, olive oil has long been regarded as a boon to good health. Many Europeans take a spoonful of Spanish olive oil when they first arise in the morning as we take vitamins. This oldest of the world's cooking and salad oils is a pure unsaturated vegetable oil and it aids digestion when taken plain or as an ingredient in salad dressing.

#### Judias Verdes (Green Beans)

Here's a new way to prepare green beans: cook until just tender, still a little crisp, drain and set aside. Meantime, chop 2 or 3 red sweet peppers or canned pimientos and saute in 3 or 4 tablespoons Spanish olive oil with 1 crushed garlic clove and a few slices of onion. Add the drained beans and a tablespoon of minced parsley, cook until all vegetables are tender. Equally good hot or cold.

Miss Beverly Ann Black became the bride of Milton Dewaine Sturdivant in services held June 18th

#### Tiny Waist Good Sign Of Times?

NEW YORK (AP) — Can you measure the nation's prosperity by the size of a woman's waistline? A look at the ins and outs of the average womanly figure for the past 50 years indicate that there are always two more inches of girth during depression days.

At present one out of three women in the United States have the average 26 inch measurement, which means that the nation's prosperity is in pretty good shape.

Manufacturer David Meier uses the lady's belt, which came into use with the suffragettes as an economic measuring stick. Contrary to political bromides, if the American female loosens her belt when money, jobs and food are scarce, he says, and tightens it in years of plenty.

He points out that in hard times more people must survive on a diet of budget stretchers like macaroni, beans and potatoes which bank the calories around the middle.

During these times even the few with plenty of income favor ladies with a well-fed look as a sort of status symbol, he says. "This harkens back to the Roman days."

The faint, bony figure can only become fashionable when there is plenty to eat. Because thinness has to be obviously an intended thing to be tolerated.

Then what does the economic curve—the feminine curve—predict for the coming year?

Belts which have already gone to dress manufacturers for fall and even spring fashions are at least as small as this season's. In fact, very soon the stretch fabric waist cincher is expected to make a stable comeback, nipping in the middle even more, Mahler says.

at 2 p. m. in the Trinity Methodist Church.

The Rev. David Hamblin read the double ring ceremony before an arch of greenery and white gladioli.

Parents of the couple are Mr. and Mrs. J. N. Black, 4500 Denison Avenue, and Mr. and Mrs. Clyde Sturdivant, 316 Thirty-third Street.

The bride, given in marriage by her father, wore a floor-length bridal gown of Chantilly lace over tulle, fashioned with molded bodice which dipped to a pointed waistline, accented by a five-tiered skirt. The square neckline was outlined with scallops of hand-clipped lace highlighted by sequins. Long sleeves tapered to points over the hands.

Her finger-tip veil fell from a crown of pearls. She carried white carnations mingled with pink rose buds.

Gwen Sturdivant, sister of the groom was maid of honor. She wore a dress of pink organza over tulle. Her flowers were pink and white carnations.

Russell Stevens was best man. Ushers were Joe Cates and James Black of Post, brother of the bride. Mrs. Nathan Mease, aunt of the bride, presented traditional wedding music and accompanied Miss Vendell Samrud who sang "Always" and "Bless This House."

A reception was held in the home of the bride's parents. Presiding at the lace covered refreshment table were Miss Kathy Howard and Miss Patsy Foree. Miss Linda Stewart registered guests.

The couple both attended Snyder High School and will make their home in Snyder where Mr. Sturdivant is employed by B&B Food Stores.

Out-of-town guests included Mr. and Mrs. Calvin Forbes, Loraine; Mr. Latham Ryan, Lubbock; Vonnie Black, Monahan; Mr. and Mrs. Lester Richburg, Hart; and Mrs. George Williams, Sweetwater.

#### Dishwashers Now Have New Styling

There is new emphasis on decor in kitchen planning this year, giving the homemaker a wider selection of styling and color in appliances, floor and wall coverings, cabinets, and other accessories.

Keeping abreast of the trend is the increasingly popular home dishwasher, now available in a wide range of decorator fronts designed to carry out any motif you choose.

Fronts available in the new models from some of the leading manufacturers, for example, range from natural woods to plastic laminates.

This "Vari-Front" feature makes it possible to match the dishwasher with wood or metal cabinets, walls, counters, or even the curtain material used in the kitchen.

If your choice of finish is baked enamel, you can select the familiar white or a popular wood hue copper-tone color. Front and side panels can be obtained unfinished, ready for color-match painting.

Highly distinctive styling is achieved with new stainless steel or antique copper plate front and side panels.

To match the wood cabinets in today's custom kitchens, dishwashers now are available with fronts of unfinished birch. The birch can be finished to blend perfectly with the cabinets.

Offer Hints To Protect Maple Tops

Before using, remove surface dust by wiping with a dry cloth. Saturate a clean cloth with mineral oil or linseed oil and polish wood surfaces, allowing overnight absorption.

Repeat the oil treatment the following day and, allow to stand four to six hours before removing excess with soft, dry cloth. The top then is ready for use. Repeat the process every six to eight months.

To remove stubborn stains, let dampened scouring powder remain in contact with the wood for three to five hours. Then wipe away spot or stain with damp cloth.

If your food capacity is small, and you are trying to add weight, try to eat more often. Cut down on your intake of water, tea and coffee with meals—they add volume without calories—and leave room for more food.

SNYDER CAMPERS—These six young ladies are attending the Heart O' The Hills Camp at Hunt. They are from left front row, Janeen Clements, Pam Odum, Lea Boren, back row, Cdrila Clements, Connie Cogdell and Ginger Dulaney.

Heart O' The Hills Camp for Junior Girls located 16 miles west of Kerrville, recently held tribal elections. Tribal chiefs, chiefs and other officers were elected within the two tribes. The officers carry the responsibility of leading the tribe in special activities and contests.

Following the elections, the girls went to their tribal hill where the new chief was presented with an Indian headdress and belt symbolic of her high position.

The Pawnee and Shawnee tribes vie for the coveted two and one-half foot trophy presented at the end of each camp session, which will end July 5. Competition for this trophy consists of tribal games, water sport activities, horserback riding activities, as well as individual competition in personal health and grooming charts.

Those receiving these tribal honors are: Janeen Clements, daughter of Mr. and Mrs. N. B. Clement 3005 Avenue U, elected Chief of the Pawnee tribe; Carla Clements also the daughter of Mr. and Mrs. N. B. Clements, chosen as S'Midjet Chief of the Pawnee; Lea Boren, daughter of Mr. and Mrs. Hugh Boren, Jr., 2801 Twenty-eighth Street, selected by the Pawnees as their junior song-leader; Pam Odum, daughter of Mr. and Mrs. R. H. Odum, Jr., Route 3, was named sub-junior brave of the week for the Shawnee tribe. Pam was chosen on the basis of her cooperation and individual improvement in various activities.

**AP Newsfeatures**  
WHAT'S NEW on the market?  
The product—a power block  
plate. It weighs only 4½ pounds  
and can be held in one hand.  
The manufacturer's claim—that  
it is a new concept in planning  
because it not only is faster than  
its non-powered predecessors, but  
does a wider variety of operations,  
including edge planing, beveling,  
rabbeting and surface planing.

eliminates the necessity of painting  
or scraping each year and that this  
finer is guaranteed in writing for  
ten years.

The product—a butyl rubber roof  
coating.  
The manufacturer's claim—that  
this coating creates a bond be-  
tween the roofing and the coating  
itself similar to vulcanizing, that it  
resists interior temperatures by  
13 degrees and that it extends the  
life of a roof by as much as 15  
years.

## Lady Doctor Grew Up On Frontier

By JEAN SPRAIN WILSON  
AP Newsfeatures Writer  
NEW YORK (AP)—When 91-  
year-old Dr. Esther Clayton Pohl  
Lowejoy was growing up in the  
Washington Territory, she, being  
female, was a scarce commodity.  
And by law, at little supply and  
much demand, she was what she de-  
manded. Esther wanted to be a  
doctor. Thus there was simply no  
question about her being a woman  
man when she entered the new  
University of Oregon or later  
when she topped off her training  
with another degree from Vienna.  
That she didn't go to school at

for age 12 because her mother  
needed her to wait tables in their  
boarding house didn't matter either.  
Esther had taken long walks to  
a nun's retreat to be taught enough  
to pass entrance exams.  
Today after more than 60 years  
as a physician, Dr. Lowejoy re-  
lives her frontier life as she clears  
her rollop desk of photos and old  
letters.  
She is retiring soon as director  
of American Women's Hospital  
Service. Forty-two years ago she  
with 11 other founded this inter-  
national service as an adjunct to  
the American Medical Women's so-  
ciation.  
"Here I am as a little girl," says  
days examining a faded photo of a  
child with curls. "My mother was  
attended by a lady doctor when I  
was born, which is what put the  
idea in my head.

"Prejudices about women in the  
field didn't really develop until  
there were more of us after World  
War I," the venerable lady in ankle-  
length dress reminisces.  
Now here I am in Alaska in the  
1890's. I did a little doctoring  
there, but my husband Emil—he was  
a doctor, too—was interogated in  
panning gold." Her voice drops to  
a solemn whisper. "My brother  
Fred who went with us was robbed  
and murdered. We found his body  
in the Yukon in the spring."  
For a while tragedy continued to  
stalk her path. The two Dr. Pohl  
returned to Portland where their  
young son Fred was fatally seized  
with meningitis. Believing that  
bacteria-infested dairy products  
were the cause, the irate, bereaved  
mother launched a campaign for  
inspection which resulted in her ap-  
pointment as director of the health  
department—the first woman doc-

tor to hold such a position in a  
major city.  
Dr. Pohl died. Her second hus-  
band, George A. Lovejoy, also passed  
away. "Everybody I like—they  
die," she says gloomily, but within  
a moment she is cheerful again.  
During World War I Dr. Love-  
joy went to France with the Red  
Cross where she received the Leg-  
ion of Honor. Also in her jewelry  
case are Gold Crosses or Orders of  
England's King George I, Greece,  
Jerusalem and Yugoslavia.  
After her return the lady physi-  
cian devoted her time to provid-  
ing women doctors in other lands  
with financial help and technical  
assistance through the Women's  
Hospital Association.  
"During the Hungarian revolt

## Writing And The Negro

**NOBODY KNOWS MY NAME.**  
By James Baldwin.  
The subtitle of this book, "More Notes of a Native Son," identifies it as a sequel to the author's earlier essays. But, it scarcely is "part of a private log-book," as Baldwin states, for these pieces have appeared in magazines on two continents.  
Two topics dominate the collection. He is engrossed with the problems of writing and of being a Negro. On the subject of race, he is very impatient, as shown when he visited the South for the first time as school integration was getting under way, or when he attacked William Faulkner for defending the South. And he grows very emotional in his essay on the slums of Harlem.  
He has written about Norman Mailer, Ingmar Bergman and Richard Wright, displaying some paradoxical and sometimes contradictory statements about them.  
It is in his study of Wright that the two topics merge. At the beginning of Baldwin's career Wright was his hero, but he came to consider Wright as a false god, one who failed to remain true to his race.  
Mailer, he likes, and calls "my very good friend," but he admits he probably does not understand him, for he is puzzled by Mailer's sparring stance to the world, his compulsion to be "hip," and his fascination with political power.  
Baldwin has a sharp mind and writes well, even though at times his meaning is hard to follow. These essays are only one facet of his writing. His second novel, "Giovanni's Room," was well received and his third will be published this fall.  
Miles A. Smith

**Glazed Beef Brisket**  
3 pounds beef brisket  
1 cup water  
2 teaspoons salt  
1 cup brown sugar  
1 tablespoon flour  
1 teaspoon dry mustard  
¼ cup vinegar  
Cloves  
Brown meat slowly in own fat or small amount of drippings. Add water, 2 teaspoons salt, cover closely and cook for three hours or until tender. When tender remove from liquid and place on rack in open roasting pan. Cover with glaze made by combining brown sugar, flour, mustard and vinegar. Stick with cloves. Place in slow oven, 300 degrees for 45 minutes. Thicken liquid for gravy. Serves 6-8.

**Fashion Tips**  
CORNING, N. Y. (AP)—A well-dressed woman's best friend is a razor blade, says fashion consultant Mrs. Melania Hellersperk. Use it to remove big pockets, flashy monograms on ready-to-wear clothes, she suggests. A well-groomed woman should accent her good features with jewelry, a scarf or belt.

**SIGNED**—President Kennedy flips the last page of the interstate highway bill in his White House office after signing the \$11.7 billion measure. Attending the ceremony, from left: Sen. Francis Case, R-S.D.; Rep. Charles Buckley, D-N.Y.; Sen. Dennis Chavez, D-N.M.; Rep. John Blatnik, D-Minn.; Rep. George Fallon, D-Md.; Sen. Maurice Neuberger, D-Ore.; Secretary of Treasury Douglas Dillon, and Secretary of Commerce Luther Hodges. (AP Wirephoto)

## Today We Are Trillionaires

NEW YORK (AP)—Today we are trillionaires. The new status works both ways.

Secretary of the Treasury Douglas Dillon says America's total debt at all levels tops a trillion dollars for the first time.

But look at the balance sheet of Americans as individuals. Their current assets are put at \$93 billion. Add their fixed assets of \$607 billion, and U.S. citizens can claim to be worth \$1,389,000,000,000.

Of course, Secretary Dillon points out at the same time that individual debt totals \$286 billion and continues to rise.

And as citizens we have a responsibility for the \$286 billion federal debt and the \$60 billion state and local debts. As stockholders they have an interest in corporate debt of \$385 billion. Corporate assets are much higher than this, and governments have financial and tangible assets, \$60 billion. Can you as American citizens afford to carry all this debt? A lot of people say no. But look at the

brighter side of the financial balance sheet.

At the 1961 halfway point personal income is running at \$414 billion a year. And personal savings have been climbing in the first half of 1961. Then there are those financial assets of \$93 billion.

That figure is garnered from reports of the Securities and Exchange Commission, the Federal Reserve Board, and the Department of Commerce.

The financial assets include \$343 billion in preferred and common stocks, \$102 billion in government securities, \$26 billion in other securities such as corporate bonds and notes, nearly \$67 billion in savings and loan associations and credit unions, more than \$181 billion in currency and bank deposits. To that are added more than \$149 billion in private insurance and pension reserves, and \$70 billion in various government insurance and pension reserves.

The fixed assets are figured this way: \$404 billion equity in home ownership and \$203 billion in current value of durable goods owned. The durable-goods equity is figured by totaling consumer purchases in the last 10 years, depreciated at 10 per cent annually. The figuring to reach the total assets of one and a half trillion is subject to debate among accountants, as all such overall estimates are.

And the question of whether individuals' assets justify the steady climbing personal debt—or whether the national economy, growing jerkily but steadily, justifies the rising total of government and private debt—is up for sharp debate in, and out of, Congress.

In New York financial circles the majority opinion is that both private and public debt is still on a sound basis. That is, the national and personal assets and the current national and personal incomes can carry the debt load without undue strain.

## 'Crazy' Woman Gets Her Fortune Back

LOS ANGELES (AP)—Dolly Williams, a department store shoe clerk, found a woman's purse in a downtown office building Thursday.

Miss Williams, 35, said she started to take the purse to the building office—without looking inside it—when she was stopped by a distraught, elderly woman.

Miss Williams told this story: The woman snatched the purse away from her, opened it and

asked, "Do you know how much money is in this purse? There's \$24,000 cash in it. I'm a crazy woman to carry this much."

Miss Williams said the woman hugged and thanked her, then vanished without leaving her name.

But, Miss Williams added, the woman did leave her a reward: 50 cents.

Temperatures in Britain's Selly Isles rarely drop below 46 degrees. Mainland Britons often call the Sellys the Islands of the Blest or Fortunate Isles.

## Moisture Is Adequate Over Most Of State

COLLEGE STATION (AP)—Except for small areas, soil moisture was adequate to excessive in all sections of Texas this past week, reported director John Hutchison, Texas Agricultural Extension Service.

Continuing showers and rains are delaying harvesting and the application of insecticides on cotton, but the overall situation is good, the director said.

Ranges and pastures are improving. Late crops are making good growth. A call for dry, open weather came from the South Plains area.

Moisture is adequate but a general rain would be very beneficial, said W. W. Grisham Jr. from Amarillo. He added that the wheat harvest should be about over and yields have been excellent. Cotton is making good growth and grain sorghum planting is virtually complete.

W. H. Jones from Lubbock said hot, dry weather is needed for

cotton since ascochyta blight is causing trouble. Most of the district received additional rain and all except parts of two counties had adequate moisture. The wheat harvest is 63 per cent complete with dryland averaging about 22 bushels and irrigated fields about 42. Ranges and livestock were described as excellent.

Rains continue to hamper cotton insect control in north central counties, reported Ted Martin from Denton. A small percentage of the oat crop was still in the field.

The moisture situation in Northeast Texas was helped by the general rain, advised John Surovik from Mt. Pleasant. He said cotton is making good growth but some fleahopper damage had been reported and some replanting was being done. Corn reached the tasseling and silking stage. Greenwrap tomatoes are being harvested and the volume of peaches going to market is increasing.

Moisture is adequate in all far West Texas counties except El Paso, Hudspet, and Culberson where it is very short, reported Ray Siegmund from Ft. Stockton. He said all crops and ranges are making good growth and that livestock conditions are improving.

Row crops are making excellent growth, early grain sorghum is heading and cotton fruiting dry as some replanting is being done in Coleman and Taylor counties, reported Roy Huckabee from San Angelo and Central Texas. He added that pastures are making

excellent growth and livestock marketing has been slow.

Soil moisture is adequate to excessive in Central Texas, said R. G. Burwell from Stephenville. Corn and grain sorghums are making excellent growth and when cotton fields dry the big jobs will be cultivating and insect control, Burwell added. Peaches and cantaloupes are moving to market and pastures and ranges are responding to improved moisture situation.

Walter Scott from Naacoches said moisture conditions were excellent and that crops and pastures were rapidly improving.

Pastures have improved considerably, peanuts are doing much better, but corn and grain sorghums are spotted in south central Texas, reported Joe Glover from Gonzales.

Moisture is on the surplus side in most upper Gulf coastal counties, reported Silver Whittsett from Richmond. Continuing showers have slowed field work but pastures are rapidly improving. The prospects for corn and grain sorghums were described as favorable though some corn was blown down.

Farming operations have been slowed by wet fields during the past week in far South Texas, reported Joe Rothe from Weslaco. The harvesting of grain sorghum will continue when fields dry as will the melon harvest. He described the outlook for late crops and pastures as excellent, but added that cotton insects were increasing in numbers.

## Khrushchev Encyclopedia

Conquest Without War. Compiled and edited by W. H. Mager and Jacques Kater.

This is an encyclopedic compilation of the pronouncements of Nikita S. Khrushchev, interlarded with commentaries. The latter are in bold face type, to set them off from Khrushchev's own words.

All the material has been classified by subject matter, outlining the Soviet dictator's objectives and methods, and covering all foreign and domestic subjects he has talked about.

The significant point is that on most topics Khrushchev has said different things at different times, and has called the tune according to the audience. Sometimes he is praising or chiding his party hierarchy or his subjects; sometimes he is bragging for propaganda purposes at home or abroad; sometimes he treats one nation a certain way and another nation far differently; one occasion he may threaten the West in the cold war, and the next time there may be a thaw.

By bringing these often contradictory statements into juxtaposition, the editors have enabled the reader to see where the essential meaning lies. For this purpose, the commentaries are very important, and they are varied. Sometimes the editors insert their own comment. They quote officers or publications of various governments, magazine analysts, newspaper and magazine writers. At appropriate spots they quote from Lenin or Stalin to show how Khrushchev differs from them.

## Grocery Chain Lists Its Earning Report

CINCINNATI (AP)—The Kroger Co., midwest and southwest grocery chain, today reported sales in the four weeks ended June 17 of \$151,222,222, bringing total 1961 sales to \$837,153,801, producing an increase of \$8,143,350.

This compared with similar periods of 1960 when four-week sales totaled \$144,917,094 and volume for the first 24 weeks of the year was \$802,796,504, with net income of \$8,672,463.

# Rocket Rides Are Topic For Science

BY THE ASSOCIATED PRESS  
A rocket ride over the Atlantic and a U2 plane over the Arctic and a coming rocket ride for men

around the globe are topics for science at work.

Off We Go, Again  
Within a month another U.S. astronaut may ride a rocket some 300 miles over the Atlantic—but this time he will have a first-hand report of what to expect.

Reports from Alan B. Shepard's pioneering flight showed these moments of stress:  
During the rocket's powered climb, the astronaut feels the gravity forces build slowly until his body weighs six times as much as it does at rest. Then comes weightlessness for 4 1/2 minutes when he weighs nothing at all. Then as the rocket plunges downward and is slowed suddenly by the earth's blanket of air, the astronaut again feels a sudden gravity build-up, and for seconds his body weighs up to 11 times its normal weight.

"Dustiest Dust"  
A high-flying U2 airplane swept through the arctic sky last November on a strange mission: collecting dust.  
It brought back what scientists believe may be the finest of meteorites ever collected—in a sense the dustiest of dust.  
On collecting films, the plane found at some 50,000 feet large numbers of the puny dust particles which measured less than 200 hundred-millionths of an inch apiece.

Scientists say the microscopic particles are 1,000 times smaller than the expected size of microscopic meteorites. They might be a product of fragmented larger meteorites—or, as scientists believe, they may have originated as moon dust.

Down, But Fast  
When the first U.S. astronaut orbits the earth—perhaps this year—he will use a group of small rockets to slow his speed so that his capsule can begin its downward trip.

If the space capsule's speed in orbit is some 17,500 miles an hour it will have to slow down only some 350 miles an hour to fall out of orbit and down toward the earth.

Head of a Pin  
How big is the head of a pin? Well, under one powerful microscope the surface of a pinhead can be magnified so large the whole surface would cover some 250 miles. A simple magnifying glass will magnify it only some three times.

Microscopes and their history will be part of an exhibit at the 1960 World's Fair, the Century 21 Exposition. The most powerful microscope described in the exhibit will be the job emission microscope which can identify and enlarge for study a particle the size of only nine atoms.

Two-Edged Sword  
Some new chemicals used to combat insects and control plant growth are dangerous to wildlife and even domestic animals, scientists report.

Within a week after some of the chemicals are applied, three-fourths of the animal deaths occur, a report said. Oil base sprays which coat vegetation are more dangerous to wildlife feeding on the vegetation than are other means of chemical application such as the spreading of granules.

To Stop a Hurricane  
Scientists are going to test some of the schemes to tame tropical storms before the storms have a chance to reach inland areas.

New York University scientists will make a theoretical and statistical study of the problem, based on experiments conducted by the National Hurricane Research Project of the U.S. Weather Bureau.

Among possible solutions: Cool or heat the sea surface, control sea evaporation, use nuclear explosion to heat the atmosphere, or cool the air.

## No Run Nylons?

BY JEAN SPRAIN WILSON  
AP Fashion Writer

NEW YORK (AP)—Bless a bare-legged summertime for stretching your clothing budget, for the high cost of keeping your legs in sheer nylons will be with you for some time.

Although it would surely be a bit and-run, sheer seamless stockings is no where in sight, says Jack Townsend, market representative for the world's largest producer of nylon fibers.

His company makes threads that shed soil, water, wrinkles even radiation; stretch and insulate; imitate sheep and silk worms; and remember to stay creased, wrinkled and pleated after washing.

Yet the closest that the fiber researchers of the hosiery industry as a whole, can come to a perfect no-run nylon is a 30 denier, mesh, full fashion. And this fails to score.

The majority of women 78 per cent are fashion slaves to 15 denier, seamless.

Sheer Conscious  
These are twice as sheer as those scarce nylons that women like to brag about having worn for months during World War II.

Townsend says, "Today they resist buying any hosiery that even looks heavy in the box, like mesh, although it may appear to be very sheer on the leg."

Mesh is knit into a variety of tiny patterns that in a heavier weave may develop holes but does not run.

Full fashioned stockings are knit flat and shaped to fit the leg. The seam reinforces. The contour eliminates sag at the ankles, which cuts down on snags, claims the nylon representative.

Choosing the proper length and foot fit, avoiding snags from rings, nails, toenails, shoe linings and furniture, and guarding against cigarette ashes are the best precautions for extending the life of a pair of nylons today, Townsend claims.

Still Trying  
But washing a new pair before wearing or storing in the refrigerator are old wifes tales. Nor will nylons deteriorate after a long period, he says emphatically.

In rare instances hosiery manufacturers have found that acid-carrying smog had damaged stockings.

Manufacturers haven't given up on the perfect pair of hosiery, however. They are constantly experimenting with bindings that may resist snags.

To date nylon is still the strongest thread and the only man-made fiber with all the necessary characteristics for hosiery," Townsend says. "But I have no way of knowing what my company will turn up in the distant future."

Although the life span of a pair of sheer hosiery is six to seven wearings, American women average less than a dozen pairs a year.

Townsend says that, while a lot of fashion-conscious business and social active women are snagging up two to three pairs a week, many, many others are conserving by wearing heavier weights, and none at all around the house, especially in summer.

## Remove Discoloration

After sun wear sometimes becomes discolored and the bright surface may be slightly dulled by repeated washings in a dishwasher. The discoloration can be removed by lightly scouring with a milk household abrasive.

NEWLYWEDS — Lonnie Efton Stewart, a divorced 64-year-old carpenter, poses in Long Beach, Calif., with his bride, Barbara Gail Gillette, an 18-year-old divorcee. They said they were married with the consent of her parents, with whom they are living temporarily. The new Mrs. Stewart said she wed a member of the armed forces in Palestine, Tex., when she was 15, but when he went overseas she was divorced. Stewart divorced his wife seven years ago. (AP Wirephoto)

## Wise Farmer Is Watching Solons

AUSTIN (AP)—The wise farmer or rancher now keeps a close watch on the work of the Texas Legislature, a Texas business writer says.

The time has passed when a farmer or rancher could remain oblivious to the activities of the State Legislature," according to James D. Gordon, research assistant at the University of Texas Bureau of Business Research.

Why this increased need for agricultural scrutiny of lawmakers?

"Butterscotch Cookies"  
1 cup sifted flour  
1/2 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup nonfat dry-milk solids  
1/2 cup butter or margarine  
1/4 cups dark brown sugar—firmly packed  
1 teaspoon vanilla  
1 egg and 1 egg white  
1/3 cup about finely chopped nuts  
Sift together the flour, baking powder and salt; stir in the dry milk. Cream butter and sugar; beat in the vanilla and whole egg. Stir in dry ingredients. Chill. Form into balls, using 1 tablespoon of the mixture for each. Place several inches apart on greased cookie sheet; press down so cookies are thin. Brush with egg white; sprinkle with nuts. Bake in moderate (350 degrees) oven until browned—6 to 8 minutes. Makes about 6 dozen.

CLEAN THE IRON  
Shake baking soda on a damp cloth and use it to clean the bottom of your iron. You also can use silver polish on an iron. Rinse and dry the area after cleaning it.

Gordon gives two answers in an article in the forthcoming Texas Business Review:  
1. Farm and ranch legislation is progressively assuming a greater scope so that at present virtually no participant in agriculture—owner, laborer or marketer—is exempt from decisions made at the Capitol.

"2. Rural representation is declining with the bill HB349, re-districting the Legislature transferring 13 house seats from rural to urban areas.

"As a consequence of these two transitions, farmers and ranchers may no longer rest assured that their interests will necessarily be perpetuated by the State Legislature," Gordon said. "Though it would be inaccurate to surmise that adequate support in the House has been lost, the future will present an abundance of previously unencountered obstacles insofar as the promotion of farm interests is concerned."

"Intensified defensive efforts" will be required even in the rural stronghold of the Senate, Gordon said.

Agriculture fared surprisingly well in the 57th session that ended May 29, he said. The Texas Farm Bureau, which Gordon called "the state's most active agricultural lobby," gave this box score of what happened to bills it backed or opposed. Bills supported and passed, 20; bills opposed and defeated, 17; bills opposed and passed, 3.

Gordon said the July 10 special session "could well result in the passage of legislation crucial to the interest of the state's agricultural constituency."

## Prices Down For Products Of Farms

WASHINGTON (AP)—The Agriculture Department reported today that farm product prices declined heavily 1 per cent between mid-May and mid-June.

Sharply lower prices for soybeans led the downturn. Other products which declined were beef, cattle, chickens and eggs. Higher prices were recorded for several vegetable crops and cotton.

The level of prices paid by farmers for goods and services used in production and family living, including interest, taxes, and farm wage rates, declined about two-thirds of 1 per cent during the month.

The mid-June level of prices received by farmers was nearly one-half of 1 per cent below a year earlier and nearly 27 per cent below the record set in February 1951.

Farm prices as a whole in mid-June averaged 78 per cent of the parity price goal of federal farm programs, the same as a month ago but down 1 point from a year earlier. The record high was 123 per cent of parity set in October 1946.

Meat animal prices as a whole declined 2 per cent between mid-May and mid-June to a point 6 per cent below a year earlier, largely on the basis of setbacks in beef cattle prices.

Bats guide themselves in flight by means of echoes from their short ultrasonic cries.

**Baked Fish**  
2 whole fish about 2 pounds each  
1/2 cup butter or margarine  
1/2 cup hot water  
1 tablespoon instant toasted or fine-grated fresh onion  
1 1/4 cups herb-seasoned dry bread stuffing

**Paprika**  
Have backbone of each cleaned fish removed. Melt butter in the water with the onion over low heat; add stuffing and mix well. Spoon into fish cavities; skewer each fish in a couple of places. Place on buttered foil in a shallow roasting pan; dot with extra butter;

sprinkle with paprika. Bake in hot 425 degree oven, basting a few times, for 25 minutes or until fish flakes easily. Makes 4 or 5 servings.  
Trinidad is the southernmost of a chain of islands stretching in a 45-mile arc from the Virgin Islands to the coast of Venezuela.

### THE REAL SUMMIT!

## Sen. Tower Has Troubles In Finding Way Around Capital

By **TEX EASLEY**  
Associated Press Special Service  
WASHINGTON, (AP) — Sen. John Tower, R-Tex., like any newcomer to Washington, is having trouble finding his way around. A senatorial secretary—not Tower's—met him recently in a corridor of the Senate Office Building. Responding to her greeting, Tower asked if she could tell him how to reach suite 142.

She obliged, and curious to know which senator occupied 142, made a check. It proved to be the office assigned to Tower.

Congressional secretaries are still speculating on what induced Miss Martha Freeman to resign from the staff of Speaker, Sam Rayburn, D-Tex., to accept a position with Tower.

The best guess—and it can't be verified—is that Tower offered her a \$12,000-a-year salary compared to the \$8,000 paid her by Mrs. Sam. The latest addition to Tower's staff is Jim Clay, originally from Ashland, Va. He will serve as a legislative assistant and handle Tower's press relations. Admitting that he's "about the only non-Texas" on the staff, Clay hastens to point out that he was stationed at Laredo during World War II.

Others on Tower's staff include Ed Munden, Houston; Kay Wharton, McAllen (formerly with Rep. Bruce Alger, R-Tex.); Pierre Langford III, Wichita Falls; Dora B. Underwood, Washington, D. C.; Brooke Gilbertson, Houston; Marie McDonald, Wichita Falls; Marcia Jean Paine, Washington, D. C.; Myra Flesher May, Beaumont; Gwendolyn O'Brien, Amarillo; and James B. Zimmerman, Dallas.

A recent visitor here was John S. Mayfield, son of former Sen. Earle B. Mayfield of Tyler. A graduate of the University of Texas and Southern Methodist University, Mayfield is now Curator of

Manuscripts and Rare Books for the Syracuse (N. Y.) University Library. He and Sen. Ralph Yarborough were classmates at SMU.

Chief Judge Marvin Jones of the Court of Claims has been elected by George Washington University to membership in the order of the COIF. The distinction is reserved for those members of the legal profession who have attained distinction not only in law but also in other fields.

None of the 47 chapters at leading universities may select more than one honorary member in any one year. Four justices of the Sup-

reme Court have been elected to the organization.

## Kuwait's Oil Reserves Are Tops In World

By **MAX B. SKELTON**

HOUSTON (AP)—Kuwait is tiny but her proved oil reserves are the largest in the world. Oil development since 1947 in the 1,300 square mile Middle East sheikhdom has been fantastic.

Kuwait is about the size of the island of Trinidad. Texas has 12 counties larger in area than the little nation. Premier Abded Karim Kassem of Iraq hopes to annex.

Yet Kuwait has led all oil nations in proved crude reserves since 1958.

Her potential still is unknown. Numerous land areas still have not been explored. Kuwait's Persian Gulf offshore areas, practically untouched so far, are believed to hold billions of barrels of reserves.

Kuwait and other Middle East nations have led the post-war development program that wiped out the United States' dominant position over world crude reserves.

In 1947 the United States held 34 per cent of world reserves with an estimated 21 billion barrels. Kuwait is turning out about 1,800,000 barrels of oil a day with only 350 wells. Texas has 108,000 wells and currently is producing 2,500,000 barrels a day.

The spacing pattern in Kuwait, as early as 1948 was one well to the acre. The normal Texas pattern is 40 acres but if the owner of a one-quarter acre tract wants to drill a well on his land he can do so.

The United States still leads the world in crude production but the Middle East boom has dropped her share from 61 per cent in 1947 to 34 per cent in 1960. Kuwait had only 0.54 per cent of world output in 1947 but had over 7 per cent last year.

Kuwait Oil Co. Ltd., a 50-50 partnership between two British and American firms, Anglo-Iranian Oil Co. and Gulf Exploration Co., obtained a 75-year Kuwait concession in 1934. In 1951 the concession, including a six-mile offshore strip, was validated by the year 2028.

The Bugham Field was discovered in 1938 at only 3,700 feet. Bugham's reserves' original 1951 were estimated at nine billion barrels. Some recent estimates indicate the vast reservoir may hold more oil than all United States reserves combined.

Most Kuwait crude is taken by the British Petroleum Co. and Royal Dutch Shell.

**Daniel Backs Drive To Preserve Ship**  
AUSTIN (AP)—Gov. Price Daniel Saturday urged financial support of efforts to restore the United States frigate Constellation and preserve the famous vessel as a national shrine.

The ship is the oldest vessel afloat. It was the Navy's first ship, Daniel said, and is the last surviving seagoing ship of the Civil War. It was built in 1792.

# Peace Corps Ends Week Of Training

EL PASO, Tex. (AP)—A group of young Americans, "dedicated" to "service" in the Peace Corps training program, ended their first week of training today at Texas Western College.

In another 12 weeks, 30 of them will be in tropical Tanganyika for the finishing touches to their instruction.

By Nov. 15 they will be ready to help lay out and build roads, meanwhile teaching the natives some of America's skills.

They also will try to help unlock more of that African area's potential wealth.

President Kennedy is enthusiastic about the corps. While the ink still was wet on his executive order setting up the pilot program, he asked that it be made permanent.

Another group is training at Rutgers University in New Jersey for a community development project in Colombia. The Rutgers and the Texas Western recruits are the first for the corps.

Why send Americans to underdeveloped countries, to perform duties that, in some instances, would appear to people in the states as easy as breathing.

One Peace Corps spokesman put it this way:

"The people of many countries lack many of the basic skills that we take for granted. Some of them are not even taught to drive a car or to work away from home in often uncomfortable circumstances."

You get a variety of answers. One listed adventure. Another, an old African hand-said he likes the people and country.

But threaded through all the expressed motives are those of helping citizens of underdeveloped countries, helping America's foreign policy, and making close personal contact with the average persons of the foreign countries.

Some gave an additional reason, as expressed by Gerald Faust—26-Champaign, Ill.

"I think the program is going to work two ways. I am going to benefit from it through better understanding of races and creeds," he said.

Faust's parents were missionaries in Nigeria for 31 years. He was born there and attended school in Africa for a time.

Another candidate, Harrison Stresse, Jr., 30, of Orange, Va., walked or hitchhiked through Europe, the Far East and Africa for four years, getting along with natives of 56 peoples, he said.

"If you just sit down and eat and drink with them—that breaks the barrier," he said in an interview. "Of course, a smile and a handshake are good, too."

In Tanganyika, where he spent a month, he generally wore only a pack shorts and sandals.

"The hospitality of natives is so good, so wonderful, so unbelievable that you need no money. I spent almost every night under somebody's roof," said Stresse.

While not all those training here are widely traveled, virtually all possess a variety of skills.

The training here will last eight weeks. The recruits will review their surveying, engineering and geologic skills along lines needed in Tanganyika. Their field work will be in the mountains around El Paso, where terrain has some features of Tanganyika. They will receive additional training in Puerto Rico and Africa.

Their instructors stress physical conditioning, preparing them for the heat of the Equator. El Paso temperatures hover around 100 degrees in summer.

A few of those training here will be sent to other countries since Tanganyika asked for only 30 persons.

them even must be taught to drive a car with a hammer.

The 47 young Americans assigned to Texas Western for training obviously are a selected physical group, because they must face Tanganyika's heat and primitive living conditions.

Some are big men. Others are short and wiry. All appear aglow with health.

Many are just out of college. Others still are struggling to finish their education while working their way.

Crawcraus and "birtz" firms predominated. A couple of loghairs showed up.

The only board among the first 40 of the 47 assigned is worn by Jerry Parson, Negro ex-paratrooper, from Albany, N.Y.

Despite the impressive appearance and background of the recruits, Peace Corps leaders privately say that probably not all will make the grade. They already have taken extensive weeding out tests and face more.

But Dr. Clyde E. Kelsey Jr., who heads up the Peace Corps training at Texas Western, said after talking with the candidates:

"I think success of this project is highly indicated."

Why did these men volunteer for the Peace Corps? The pay is \$9-10 to \$23-24 a week and expenses for a stay away from home in often uncomfortable circumstances.

Some gave an additional reason, as expressed by Gerald Faust—26-Champaign, Ill.

"I think the program is going to work two ways. I am going to benefit from it through better understanding of races and creeds," he said.

Faust's parents were missionaries in Nigeria for 31 years. He was born there and attended school in Africa for a time.

Another candidate, Harrison Stresse, Jr., 30, of Orange, Va., walked or hitchhiked through Europe, the Far East and Africa for four years, getting along with natives of 56 peoples, he said.

"If you just sit down and eat and drink with them—that breaks the barrier," he said in an interview. "Of course, a smile and a handshake are good, too."

In Tanganyika, where he spent a month, he generally wore only a pack shorts and sandals.

"The hospitality of natives is so good, so wonderful, so unbelievable that you need no money. I spent almost every night under somebody's roof," said Stresse.

While not all those training here are widely traveled, virtually all possess a variety of skills.

The training here will last eight weeks. The recruits will review their surveying, engineering and geologic skills along lines needed in Tanganyika. Their field work will be in the mountains around El Paso, where terrain has some features of Tanganyika. They will receive additional training in Puerto Rico and Africa.

Their instructors stress physical conditioning, preparing them for the heat of the Equator. El Paso temperatures hover around 100 degrees in summer.
