CAR DEMOLISHED — Two Snyder High School students, Billy Brooks, 16, and Leroy Childress, 17, were injured when the car in which they were traveling was in collision with a Roscoe, Snyder & Pacific freight train at the Thirty-seventh Street crossing in southeast Snyder. The car, a late Model Pontiac, was demolished. An air drum was knocked off the train, leaving it without brakes.

Rusk Sharply Disputes Arguments Of DeGaulle

WASHINGTON (AP) — Secretary of State Dean Rusk has sharply disputed French President Charles de Gaulle's argument that France can properly end its military agreements with the United States because they are out of date.

Rusk says this "strikes at the very heart of the sanctity of international agreements."

The comments, in an interview granted last week to the French magazine Paris-Match, were released by the State Department today as the United States replied to De Gaulle's demand for removal of American military installations from French soil.

Delivery of the note, reported by reliable souces here to make much the same points in more diplomatic style, was arranged for today in Paris.

"The United States has more than 4,000 agreements with other nations," Rusk told the magazine. "We are concerned about actions which would weaken the growing fabric of international law."

The interview contained some of the harshest comments yet made by a high U.S. official publicly on De Gaulle's decision to withdraw French forces from NATO and put an end to U.S. and other foreign military bases established on French territory under NATO-connected agreements.

To De Gaulle's claim that the U.S.-French military agreements are obsolete, Rusk replied:

"Most of those military agreements by their terms continue for the life of the North Atlantic Treaty to which France says it intends to continue to adhere. This thesis strikes at the very heart of the sanctity of international agreements."

To the French contention that the Soviet threat to Western Europe has receded, Rusk said: "If the threat against Western Europe has diminished in the last 17 years, it has diminished because NATO stood as a firm barrier to Soviet ambitions. As late as 1961-1962, we were in the midst of a major crisis over Berlin that threatened war."

To a question whether De Gaulle's proposal for "reform" of NATO are out of line with U.S. views, Rusk said: "Instead of offering proposals for the reform of NATO, the French government has chosen to announce its decision "to draw back from NATO; without consulting its allies in any serious way."

Rusk also rejected the argument that the United States profits by having a strong but independent France, saying the United States certainly wants a strong France, but it also wants "dependable interdependent allies."

France called on March 29 for removal from her territory of all American military installations by April 1, 1967.

CHIEFS' POW-WOW — West Texas Region IV of the Texas Police Chiefs Association held a meeting today at the Americana Motor Inn on the East Highway to discuss mutual problems in law enforcement. Included among those present were, from left to right, James Tippit, Brownfield Police Chief; Walter Eubanks, Sweetwater Police Chief; Jay Banks, Big Spring Police Chief; and, host Police Chief Chester Simons of Snyder. (Staff Photo)

Auto-Train Crash Injures Two Youths

Two Snyder High School students were injured about 8:15 a.m. today when their car was in collision with a 4-car Roscoe, Snyder & Pacific Railway Co. freight train at the Thirty-seventh Street crossing in Southeast Snyder.

Taken to Cogdell Memorial Hospital by Bell-Seale ambulance for treatment of facial lacerations were Billy Brooks, 16, 3200 Avenue A, and Leroy Childress, 17, 103 Peach. Hospital authorities described the condition of both of the students as good.

Billy was the more seriously injured of the two. He sustained multiple facial lacerations and remained in surgery for several hours. He was a passenger in a late Model Pontiac driven by the other youth. They were enroute to school when the mishap occurred.

Engineer M. H. Smith of the train said the car of the youths crashed into the left side of the engine, knocking off an air drum, leaving the locomotive without brakes. The train traveled southeast down the tracks several feet after the mishap.

The car was demolished in the accident. It was traveling west on Thirty-seventh prior to the collision.

Only one other crewman—Conductor Jimmy Freeman—was on the train. Both are residents of Roscoe. Neither was injured.

Billy is the son of Mr. and Mrs. Weldon Brooks. Leroy is the son of Mr. and Mrs. Roy Childress.

POINT OF IMPACT — Engineer M. H. Smith (left) and Jimmy Freeman, conductor, survey damage to the engine of a Roscoe, Snyder and Pacific Railway train following an accident this morning in which two Snyder youths were injured. The point of impact apparently was at the fuel tank of the engine. (Staff Photo).

Yarborough Expected To Seek Control

DALLAS (AP) — The Dallas News said today that Sen. Ralph Yarborough will return to Texas Sunday to try to win control of enough county Democratic Executive committees to take control of the state convention in September.

The News said his intention was made known to a group of state labor leaders hostile to Gov. John Connally at a meeting in Austin Thursday.

Control of the September convention could begin the night of May 7 when precinct conventions are held throughout Texas. They elect delegates to county conventions meeting later and these in turn elect delegates to the state session.

The political complexion of the precinct conventions determines who controls the convention.

Dallas AFL-CIO Council Secretary Gene Freeland said, "If any such action is being contemplated by Sen. Yarborough, I am in disagreement."

Dallas labor leaders are among those who are not anti-Connally.

Connally and Yarborough have been political opponents for many years.

Yarborough's liberal forces almost gained control of the 1964 state convention. But contests in the credentials committee went against the Yarborough forces and Connally's forces won.

Woman Dies In Ranch House Fire

Fire of undetermined origin levelled a large ranch house in the northeast part of Scurry County Monday night and burned to death a woman who lived there alone.

Pronounced dead this morning at the scene by Justice of the Peace Cone Merritt was Helen Trix Sims of the Ennis Creek Community. She was burned beyond recognition.

Blake Walker, an employe of an oil company, discovered the smoldering ruins of the house about 9 o'clock this morning, and he called Sheriff Keith Collier. Sheriff's authorities, Merritt and Fire Chief Alfred Kohl went to the site. A fire truck and crew also was sent to the ruins to extinguish what remained of the fire.

Authorities said the fire apparently had begun sometime during the night. Merritt said Billy Bob McMullan, 2808 Forty-second Street, a son of the victim, told him he visited his mother at her ranch home early Monday night. The fire apparently began after she retired for the night.

Her body was found in what remained of a bedroom, according to Merritt, who ruled the death was caused by fire.

Funeral is pending at Bolger Funeral Home. Also surviving is one daughter, Mrs. Ann Brunson of Bronte, and her mother, Mrs. Gladys Hamer of Austin.

TB Association To Re-Organize

Everyone interested in a re-organizational meeting of the Scurry County Society of the Tuberculosis Association is invited to attend a meeting at 10 a.m. Wednesday at West Elementary School. Mrs. Marie Pike, a state official, will be here for the meeting, according to Dr. Robert Pierce.

He was contacted by state authorities about the possibility of re-organizing the Society here.

Riot Staged By Prisoners

BREATHEDSVILLE, Md. (AP) — About 400 prisoners at the Maryland Correctional Institution rioted for two hours today before state police and prison guards controled them.

Two prisoners and one guard were injured in the melee, which broke out about 5:30 a.m. as the first breakfast shift prepared to eat in the dining hall.

None of the injuries was believed to be serious.

Preston L. Fitzberger, superintendent of the medium security prison for young offenders, said he had no idea what caused the trouble. He ordered breakfast resumed after about half of the 400 returned to their cells.

The institution, six miles from Hagerstown in western Maryland, has 1,495 inmates aged 15 to 25. The superintendent's office said it was built to hold a maximum of 800.

About 40 state troopers and several sheriff's deputies joined prison guards in halting the riot.

BUDDHISTS NOT IMPRESSED

South Viet Nam Regime Pledges Early Elections

By EDWIN Q. WHITE

SAIGON, South Viet Nam (AP) —South Viet Nam's military government pledged today to hold elections as soon as a constitution is drafted and the election machinery set up. But the Buddhist opposition cold-shouldered the preparatory congress at which the offer was made.

Addressing an assemblage of representatives the junta had convened from throughout the nation to start progress toward civilian rule, the chief of state, Lt. Gen. Nguyen Van Thieu, declared the ruling generals want to turn over power to civilians "in the shortest time possible."

Informed Vietnamese sources said this could be within a month or two depending on how long it takes to write a constitution and create the election machinery.

"The military does not want to cling to power," said Thieu.

With Premier Nguyen Cao Ky and four other members of the 10-man ruling directorate attending, Thieu suggested a possible formula for a National Assembly; half of the members could be elected, the others appointed from the provinces.

The Buddhist leadership underscored its boycott of the congress by demanding that "the U.S. government at once end its support for the Thieu-Ky militarist clique." A communique issued by the Unified Buddhist Church in the name of Buddhists in the army's northernmost 1st Corps area charged that the junta intended to wage "a civil war with U.S. backing" to hang onto power.

The government, however, completed the withdrawal of 1,500 Vietnamese marines it had sent to Da Nang last week in U.S. Air Force transports to take over the northern city from dissident troops.

Two battalions—1,078 men—and 10 tanks were airlifted back to Saigon in Vietnamese planes from their tent city at the U.S.-Vietnamese Da Nang air base, a Vietnamese army spokesman said was an assignment against the Communists elsewhere in the 1st Corps.

Despite the departure of the marines, 5,000 persons, including 500 Vietnamese soldiers and more than 100 armed students, marched in a new antigovernment demonstration in the streets of Da Nang. The students were members of a "struggle committee" formed in Hue, another center of Buddhist unrest.

The students carried U.S. carbines, gernades and pistols issued to them by Vietnamese officers.

They displayed banners reading: "The United States has violated our autonomy by supporting the Ky government which is not chosen by the Vietnamese people" and "America stays here because it wants to, not at the bidding of our people."

North Texas Due Showers

By The Associated Press

Scattered thundershowers were expected over North Texas today, with cooler temperatures forecast for the entire state by Tuesday evening.

Skies were expected to be clear to partly cloudy over the entire state today, with temperatures during the day to remain quite warm.

A tornado watch for a wide area of Northeast Texas Monday passed safely following devastating storms in North Central Texas Sunday night.

The storms which raked the Gainesville, Denison, Sherman and Lake Texoma area caused damage in excess of $250,000 at the resort area on the Oklahoma-Texas border alone.

At least 13 boats on the lake were sunk and many others blown ashore and heavily damaged.

Divers Prefer Neon Gas

By FRANK CAREY
AP Science Writer

ATLANTIC CITY, N.J. (AP) — Neon gas, the same stuff that lights the signs, looks like a new and superior breathing gas for divers in man's intensifying attempts to tap the secrets and natural treasures of the ocean bottom, it was reported today.

Test-divers who recited Lincoln's Gettysburg address at a simulated depth of 650 feet have helped demonstrate the seeming superiority of neon over both ordinary air and helium as the life-support gas of deep sea explorers, a scientist said. Both gases are mixed with oxygen for breathing.

Dr. Heinz R. Schreiner of Ocean Systems, Inc., of Tonawanda, N.Y., the largest diving firm in the Western Hemisphere, told about it in a report prepared for the 50th convention of the Federation of American Societies for Experimental Biology. The science meeting is one of the world's biggest, with 20,000 researchers expected.

Dr. Schreiner described tests of the gas in a manned laboratory chamber "submerged" to depths equivalent to those at the limits of the continental shelf. He said they indicated:

1. Neon appears free of the dangerous narcotic effect which ordinary air can have on divers, due to air's nitrogen content — an insidious effect sometimes called "rapture of the depths."

"Nitrogen narcosis in a diver," the scientist said, "can and frequently does have serious and sometimes deadly consequences. It is characterized by euphoria, abdication of responsibility, confusion, and other abnormalities seen in individuals under the influence of alcohol.

"In fact, the parallel is so striking that veteran divers speak only half-jokingly of 'martini's law,' which holds that the effect of every 50 feet of descent into the sea while breathing air has the same effect as one dry martini taken on an empty stomach."

2. In an atmosphere consisting essentially of neon gas, the speech of divers is much more intelligible to their mates on the ocean bottom — and the listeners above — than it is in an atmosphere of helium.

WEATHER

SNYDER TEMPERATURES: High Monday, 88 degrees, low, 55 degrees; reading at 7 a.m. today, 67 degrees.

South Central Texas: Partly cloudy tonight and Wednesday and a little cooler in extreme north. Low tonight 56 to 66. High Wednesday 76 to 86 in north, 86 to 93 in south.

Southeast Texas: Partly cloudy to cloudy tonight and Wednesday with a few showers. Low tonight 58 to 66. High Wednesday 72 to 83.

Southwest Texas: Clear to partly cloudy tonight and Wednesday. A little cooler in north tonight. Low tonight 54 to 66. High Wednesday 84 to 94.

North Central Texas: Clear to partly cloudy and cooler tonight and Wednesday. Low tonight 44 to 56. High Wednesday 68 to 79.

Northwest Texas: Clear to partly cloudy and cooler tonight and Wednesday. Low tonight 36 to 48. High Wednesday 68 to 76.

Water Use Shows Gain

Dry spring weather has caused water demands to soar in Snyder.

The city water plant here topped the three million-gallon mark Monday for the first time this season. The heavy usage was attributed to an increase in lawn and gardening work.

Saturday's production figures were inflated by some 400,000 gallons as a result of the Palace Theater fire. Bill Aaron, water plant operator, said production between 9 a.m. and noon Saturday exceeded normal by the 400,000 gallon figure.

Striking Miners Remain Off Job

PITTSBURGH (AP) — Most of the striking miners in the soft coal fields stayed away from their jobs today despite a union back-to-work order.

But there was one tiny crack in the work stoppage. Some 190 miners went back to the Thunderbird Collieries near Shelburn, Ind.

And in Ohio a continued shutdown of the mines was blamed chiefly on delay in receipt of the back-to-work order issued by officials of the United Mine Workers Union.

Elsewhere, a number of locals called meetings to discuss the walkout.

About 53,000 miners in nine states were on strike in the biggest walkout in the soft coal fields since 1950.

The strike started early Monday over the failure of the union and the Bituminous Coal Operators Association to reach agreement on a new contract in Washington.

Telegrams signed by Union President W. A. Tony Boyle and other union officers went out Monday to all union districts ordering the strikers back to work.

Last Friday, Boyle said the union considered itself "at Liberty to strike at any time" because the union had no contract with the association.

With the strike under way, union officials huddled in Washington before the back-to-work directive was issued.

Later, Boyle met with president Edward G. Fox of the coal association after a meeting of the association's five-man executive committee.

Neither side would comment on the meeting. There was speculation that Fox told Boyle the operators would not resume negotiations until the men are back at work.

The association's executive board meets in Pittsburgh today as a prelude to the resumption of talks in Washington, possibly Wednesday.

Fox said the meeting was called "to discuss the general situation."

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: What do you think of a mother who would hold the hand of her three-year-old son over a gas flame to teach him a lesson? The boy lit some matches, so his mother wanted to "cure him, once and for all," as she put it. This isn't something I heard about, I saw it with my own eyes. The flesh was burned right off his little hand. It was just pitiful.

ANONYMOUS WITNESS

DEAR WITNESS: If you witnessed such a cruel and inhuman act and all you do about it is write me an anonymous letter, you are badly confused. If there is no Society for the Prevention of Cruelty to Children in yur area, for goodness sake, report that woman to your local police or sheriff at once. She must be mad!

• • •

DEAR ABBY: I am 18 and a high school graduate since last June. My fiance is 21 and a college graduate. He has a good job. On his birthday a few weeks ago we got engaged without inviting his parents to the party. At this point they are so annoyed with me I am beginning to wonder how things will work out. We plan to be married this summer. His parents say as long as we got engaged without them, we can get married without them. What is your honest opinion, Abby? I really don't care very much for them, and know they never liked me. Any suggestions?

ENGAGED

DEAR ENGAGED: Yes. Don't start down the aisle on the wrong foot. You can't undo the past, but you can try for a better relationship with your in-laws in the future. Admit you were unkind and inconsiderate to exclude them from the engagement party, but make them welcome at the wedding.

• • •

DEAR ABBY: Please say something in your column about the dreadfully poor taste shown by women who earn pin money selling cosmetics or household products to their friends—and only their friends—because they lack the sales ability and ambition to go out and tackle the general public.

I'm not referring to women who must support themselves and need loyal friends to help them get started. I mean women who are eager to make money on the side but don't want to work too hard for it. How does one keep from being taken in by such people without ending the friendship?

SICK OF IT

DEAR SICK: She simply says, "No, thank you. I am not buying any." And if that ends the friendship, it was obviously not much of a friendship to begin with.

• • •

CONFIDENTIAL TO "THE HUSBAND OF A JOINER": The woman who feels she must belong to everything would be much happier if she felt she "belonged" to her husband.

• • •

Problems? Write to Abby, Box 69700, Los Angeles, Cal. For a personal reply, inclose a stamped, self-addressed envelope.

City Fed Up With Appetite Of Elephant

By GERALD SEGROVES

KNOXVILLE, Tenn. (AP) — Diamond, the Knoxville Zoo's portly pachyderm, is one of the biggest elephants in North America and he has an appetite to match.

City officials here are fed up with his eating habits, his motor-oil baths and his surly disposition. They are ready to ship him off — to anywhere.

But a move is under way to "Save ole Diamond," who was a gift from a circus.

If it were up to the city's children, Diamond, who stands 10 feet tall and weighs almost four tons, would remain here at any cost. Some older heads share their view and are willing to foot the bill for Diamond's room and board.

The controversy began Feb. 21 when city officials heard it was costing $10,000 a year to feed and care for the elephant. Mayor Leonard Rogers said also that Diamond was dangerous.

"That elephant's mean because somebody's been messing with him," countered a third-grader. "And you know how elephants are — they never forget."

Several children offered suggestions to solve the problem.

"Why don't they paint his house with pictures of trees and stuff like in the jungle?" asked one youngster. "Then he would feel more at home and wouldn't try to get out."

The Knoxville Journal has contributed $1,000 toward the $35,000 goal of the "Save ole Diamond" movement.

"The only thing he won't eat is lemons," said keeper Frank Huskey, after dumping a bale or two of hay, a crate or two of lettuce, yams, grapefruit and broccoli, along with some horse food, in front of Damond.

Diamond needs a warm, soapy bath every three weeks and, during hot weather, needs to be splashed with cold water twice daily. Then, after his bath, Diamond gets an oil rubdown.

"That's when he is happiest — when thin motor oil is soaking his dry, inch-thick, wrinkled hide," said Huskey.

More Wheat Is Exported

HOUSTON (AP) — More than 74 million bushels of wheat have been exported from the Port of Houston since last June 1, for the largest exodus of wheat from the port since the Houston Public Grain Elevator opened 40 years ago.

Kenneth Roden, acting manager of the public grain elevator, said Monday the increased U. S. wheat shipments to India are the main reason for the rise.

The 74,402,242 bushels of wheat exported so far this fiscal year is more than 18 million bushels above the 56,286,513 exported during fiscal 1964-65, Roden said.

Before the fiscal year ends May 31, he said, at least 10 million more bushels of the grain are expected to move from the port.

Most of the wheat exported during this fiscal year has been shipped to India, Pakistan, the United Arab Republic and Yugoslavia, Roden said.

Preacher Is Called For Second Try

All's well that ends well.

Joseph Herman Dockery and Mrs. Lorado Maudine Dockery probably would agree with this statement. Previously married and divorced, they were united in wedlock again about 2:30 p.m. Monday in the Scurry County Courthouse.

They told local courthouse officials a Justice of the Peace performed the first ceremony. And they wanted the second one performed by a preacher so that "it would stick."

So the Rev. John Duke, pastor of the Northside Baptist Church, conducted the ceremony in the office of Dan Cotton, county clerk, with a Bible he borrowed from Mrs. Billie Payne, deputy.

Cotton, Mrs. Payne and Frances Billingsley were witnesses to the ceremony. Mrs. Dell Smith, who also is employed in the county clerk's office, was out of the office at the time the ceremony was performed. But she appeared to approve of the proceedings when told of the event upon her return to office.

The happy couple, in their 40's, departed for Lake Brownwood and a honeymoon fishing trip following the ceremony. They will make their home in Levelland.

Drug Addict Charged With Murder

NEW YORK (AP) — A medical school dropout who told police he had been flying for three days on the drug LSD has been charged with slashing his mother-in-law to death in her Brooklyn home.

"Man I've been flying for three days on LSD," Stephen H. Kessler, 30, of Brooklyn, was quoted by police as saying Monday.

LSD is a mind-distorting hallucinatory drug, considered dangerous when administered without a doctor's care. Federal law prohibits its use except in authorized cases.

Kessler was also quoted by police as saying: "What am I here for? Did I rape anybody? Did I kill my wife? I've been high on LSD."

Ressler's mother-in-law, Florence Cooper, 57, a junior high school English teacher, was found dead Monday by her husband, Isadore, in their apartment. He had come home early from work after his wife had telephoned him that Kessler was threatening her.

Cooper told police his wife said their son-in-law was beating her because their daughter, Miriam, 22, had left him Friday after an argument.

HOSPITAL NOTES

Chaplain: Rev. Ross Dunn

ADMISSIONS: Theresa Zamora, City; Maggie Roddy, 2211 Ave. O; Jennifer Burdick, 2233 Sunset; Carlos Vardiman, Cactus Motel; Freda Childress, 3408 Forty-fourth; Fred Moffett, 2209 Fortieth; Rit Underwood, Hermleigh; Oletha O'Neal, 805 E. Twenty-fourth; Goldie Kirkpatrick, 1808 Scott; Isabell Barrentz, 805 Ave. B; Verna Webb, Ira.

DISMISSALS: Larry Stokes, Bernice Hayley, Mark McGrew, Bradley Buskin, Walter Hartley, Leota Burris, Joe Passons, Michael Fisher, James Hall, Norman Fulks, Carol Jean Elme.

Daily Crude Flow Rises

TULSA, Okla. (AP) — U.S. crude oil and lease condensate production increased 18,400 barrels daily last week to a daily average of 8,220,200 barrels, The Oil and Gas Journal said Tuesday.

Oklahoma's output jumped to 621,300 barrels daily up 25,600 barrels from the previous week. Production was up by 14,800 barrels in Kansas, to an average of 299,000, and Louisiana reported an increase of 11,700 barrels, with an average of 1,821,000. New Mexico's output was up 5,400 barrels to 362,500 barrels.

States with production declines included Texas, down 34,000 to 2,827,800 and Wyoming, down 4,600 barrels to 376,000.

Billie Sol To Be Cross Examined

By FINIS MOTHERSHEAD

EL PASO, Tex. (AP)—Bristling cross examination was assured today for Billie Sol Estes over sworn statements that big and little loan companies, plus scores of individuals, plotted with him to deal in worthless mortgages involving millions.

Estes, a one time whiz kid of farm finance spieled off one name after another Monday of firms and people he accused of agreeing secretly to such transactions.

Almost before court recessed for the evening, spokesmen for a number of finance corporations vehemently disputed the truth of Estes's recital.

He finished direct testimony just before the first day of a hearing on his motion for a new trial ended, leaving cross examination by government counsel for 9 a.m. (MST) today.

Taking the stand for only the second time in three criminal trials, the once grandiose West Texas promoter broke four years of silence on transactions in mortgages on mythical fertilizer tanks in an effort to win release from the Leavenworth, Kan., federal prison.

He has served about 15 months of a 15-year term for mail fraud and conspiracy.

Estes, now 41 and almost skinny in contrast to his former plumpness, was brought here under guard to appear before U.S. Dist. Judge Leo Brewster. His wife and five children were among more than two dozen relatives in the spectator section.

The prisoner and his lawyers argue his mail fraud and conspiracy conviction should be wiped out because (1) a government witness lied at Estes' trial here three years ago and (2) knowledge of all parties that there were no fertilizer tanks to secure mortgages on hundreds of them made fraud impossible.

In two hours on the witness stand, Estes ticked off these names of companies with whom he dealt in bogus mortgages:

Walter E. Heller Co. of Chicago, Associates Investment Co. of South Bend, Ind.; CIT Corp. of Dallas and New York; Pacific Finance Corp. of Los Angeles, First Acceptance Corp. of Minneapolis, Minn.; Southwest Investment Co. of Amarillo, Tex.; Pioneer Finance Co. of Detroit, Mich.; Commercial Credit Corp. of Baltimore, Md.; Kuykendall Investment Co. and Caprock Investment Co., both of Lubbock, Tex.; and D&M Finance Co., for which he gave no address.

Red River Valley Assn. Hears Long

SHREVEPORT, La. (AP) — The Red River Valley Association closes its annual two-day meeting Tuesday after an address by Sen. Russell B. Long, D-La.

Delegates elected officers and approved resolutions at the opening session.

C. A. Fairbanks of Alexandria was re-elected president, Roy Mattias of Shreveport was named executive vice president and R. M. Jeter of Shreveport was elected treasurer.

Four executive vice presidents were chosen for Texas, Oklahoma, Louisiana and Arkansas. They were E. B. Germany of Grand Saline, Tex.; James W. Campbell of Hugo, Okla.; R. S. Barnwell of Shreveport; and Lloyd Spencer of Hope Ark.

The association recommended $150,000 for advance engineering in the Bayou Bodcqu project in Caddo Parish, $40,000 for work on the Big Pine Creek in Red River County, Tex., and $100,000 to start advance engineering and design on the Caddo Lake dam near here. Most of the money will come from federal funds.

Cubans Say Hijacker Of Plane Caught

MIAMI, Fla. (AP) — An alleged airplane hijacker and two priests accused of hiding him were arrested Monday at a Hayana monastery, the Cuban radio said.

The broadcast, monitored in Miami, said Angel Betancourt was seized in the Roman Catholic monastery of St. Francis while mobs outside clamored for his immediate execution.

The clergymen arrested were identified as Luis Serafin Ajuria, superior of the monastery, and Miguel A. Loredo. The religious establishment is run by the Franciscan Order.

Betancourt has been hunted since March 27 when the pilot and an armed guard of a Cubana Airlines plane were shot dead in flight aboard a plane carrying 91 persons. The plane landed at Havana despite the hijacker's demand that it make for Miami.

More Cubans Make Escape

MIAMI, Fla. (AP) — There was standing room only when 26 Cubans escaped from their homeland in a 21-foot boat.

"It was crowded, all right, but we didn't mind it," said Celia Perez, 45, at the Cuban Refugee Center Monday. "The voyage took us three days."

Mrs. Perez said she left a 24-year-old son imprisoned in Cuba.

The boat, which arrived over the weekend, carried 18 men, 5 women and 3 children. Five of the men were exiles who had returned to Cuba to bring out the rest.

The arrivals brought to 320 the number of small boat refugees since a daily airlift began Dec. 1 Many of the escapees have been youths of military age, ineligible for the plane shuttle.

Two flights brought 152 Cubans Monday, bringing the airlift total to 15,799. Seventy-three per cent of the arrivals are being resettled, the rescue center reported.

Our '66 Ford has one of the world's quietest rides...the strongest Ford body ever...a new-concept frame...and a unique suspension designed to take the thumps out of bumps.

(With our family the quiet doesn't mean much. But it's nice to know the quality's there.)

1966 LTD BY FORD

The quiet-riding Ford is a roaring success. After driving a '66 XL or LTD by Ford, owners of such luxury cars as a hand-crafted Jaguar and a $14,000 Mercedes said that Ford was even quieter than their custom-built cars. ▪ And Ford offers much more: Stereo tape player option for the music of your choice. ▪ Optional automatic speed control for foot-free cruising. ▪ Exclusive Magic Doorgate on station wagons swings out like a door for people . . . and down like a tailgate for cargo. ▪ Optional Ford SelectAire Conditioner is built in, not hung on. ▪ Safety Convenience Control Panel option has lights to warn you if fuel's low or door's ajar. See your Ford Dealer and take a '66 on the Q.T.—Quiet Test a Ford today.

BRIDE-ELECT HONORED — Miss Sue Ann Burgess was honored with a gift tea Friday evening. Pictured above from left, Mrs. A. C. Floyd, Sr., mother of the prospective groom, Miss Burgess, Mrs. Roy Burgess, mother of the bride-to-be, and Mrs. E. E. Burgess, grandmother of the honoree.

WOMEN

Miss Burgess Honored With Tea

Fellowship hall at Colonial Hill Baptist Church was the setting for a gift tea Friday evening honoring Miss Sue Ann Burgess, bride-elect of Philip Floyd.

In the receiving line were Miss Burgess, her mother, Mrs. Roy Burgess, sister, Mrs. James Stegall of Austin, Grandmother, Mrs. E. E. Burgess, aunt, Mrs. F. C. Stanley of Lubbock, mother of the groom to be, Mrs. A. C. Floyd, Sr., Mrs. A. C. Floyd Jr. and Mrs. Dean Floyd.

The candlelighted hall was decorated throughout with chosen colors of blue and white. The registration table was laid with white organdy and presided over by Miss Sue Wimon. Other members of the houseparty were Miss Barbra Williamson, Linda Williamson, Ann Chapman and Melinda Merritt, alternating in serving guests punch from the crystal bowl, and displaying gifts.

The serving table was covered with a white appliqued organdy cloth with ruffled overskirt. The centerpiece was an arrangement of blue Dutch Iris and white candy tuft in a silver candelabra. Individual tables placed about the hall were covered with white organdy cloths. Each table was centered with a crystal bud vase holding white candy tuft.

Soft background music was played throughout the evening.

Hostesses were Mmes. Burton Tankersley, S. S. Terry, R. V. Williamson, M. H. Roe, Leon Autry, D. Y. Merritt Jr., John Wiman, J. P. Crook, Loyd Mooty, Stanley Noah, E. H. Williamson, Dan Callaway, Jerry McWilliams, J. C. Williamson, Kenneth Wilson, Aubry Blalock, Wayne Gladson, H. W. Cargile, and Ralph Wesson.

Stuffed Lamb Shoulder

4 to 5 pound pre-sliced square lamb shoulder
¼ cup each grated Parmesan cheese and chopped parsley
3 cloves garlic, crushed
½ teaspoon dried rosemary leaves, crushed
¼ teaspoon each salt and pepper
1 tablespoon water

Have meatman use an electric saw to cut lamb (parallel with bone) into choplike slices and then tie in original shape. Place lamb on rack in shallow roasting pan. In a small bowl mix together the remaining ingredients; with a small spatula tuck down and spread between the slices. Roast in a moderate (350 degrees) oven until meat thermometer registers 175 degrees or to desired doneness. Makes 6 servings.

China Grove News

By MRS. N. F. HALL

Mr. Sydney W. Williams has returned home after attending the revival at the South Plains Baptist Church where he was song leader.

Mrs. Sydney W. Williams accompanied by her daughter, Mrs. J. A. Plattsmier of Odessa, spent the weekend in Fort Worth.

Mr. and Mrs. Billy Ray and children of Midland and Mr. and Mrs. Travis Stubblefield of Odessa spent the weekend visiting Mr. and Mrs. O. N. Laster.

Miss Linda Hairston of Andrews and Don Hairston of University of Texas in Austin, spent the weekend visiting their parents, Mr. and Mrs. Bill Hairston.

Mrs. Hollis Mize Sr. and Tommy recently visited relatives at Garden City.

J. B. Murphy of Texas Tech, Lubbock, visited his parents, Mr. and Mrs. Martin Murphy during the Easter holidays.

Guests during the Easter holidays of Mr. and Mrs. N. F. Hall were Mrs. Johnny Don Hall, Jackie, Judie and Julie of Amarillo, Mr. and Mrs. Hollis Mize Jr. and Naomi of San Angelo State College, Billy Adams, Sydney W. Williams and Mr. and Mrs. R. L. Hall and family.

Mr. Arlis Cotton and Mr. and Mrs. T. J. Webb journeyed to Canyon Wednesday to get Sareta Cotton who is attending West Texas State College, who spent the Easter holidays with her parents, Mr. and Mrs. Arlis Cotton and family.

Weekend guests of Mr. and Mrs. Pete White and Rayburn were Mrs. Don Wester, Rickey Don and Angelia of Midland and Mr. and Mrs. Tommy Jones of Lubbock.

Ella Lee Hickey of San Angelo visited Mr. and Mrs. Clarence Merritt over the weekend.

Mr. and Mrs. Lucky Merket and children of Colorado City visited recently with Mr. and Mrs. Floyd W. Merket.

Mr. and Mrs. A. D. Simon and children of Abilene visited her parents, Mr. and Mrs. Ed Adams and family over the weekend.

Rosy Onions

6 medium (1½ pounds) onions
2 tablespoons each butter (soft), honey and water
½ teaspoon salt
1 teaspoon paprika

Peel onions and cut in half crosswise; place in a baking pan (about 10 by 8 by 2 inches). In a small bowl, mix together the soft butter, honey, water, salt and paprika; spread over onions; cover tightly — with foil if pan has no cover. Bake in a moderate (350 degrees) oven until onions are tender — 45 to 60 minutes. Serve the rosy sauce in the baking pan with the onions. Makes 6 servings.

LADIES FABULOUS NEW CONTROL

Are you a woman whose figure is on the good side but might look perfect with just a little help? You'll be thrilled by the new easy way science has discovered for you to acquire this kind of figure perfection . . . and yet feel vibrant and young. You may have already guessed . . . combine the creative styling genius of the leader in the industry PLAYTEX with the fabulous new coolness and durability of "Lycra" and you have the brand new Playtex Lycra Girdle. Can you imagine—only four and one-half ounces and made completely without rubber. It's machine washable with your favorite detergent or bleach—won't pucker, yellow or stretch out of shape. We guarantee you that you'll be pleased with the softer, cooler, durable, wonderful control that it gives —and you'll find them exclusively in Snyder in the lingerie department at Rogers — on the west side of the square.

Scientists May Reconstitute Men

LOS ANGELES (AP) — When ancient Egyptians mummified their pharoahs thousands of years ago, they did so in the belief that the dead would be reincarnated in all their splendor at some future time.

That time, says a university zoologist, is no more than a century or two away.

But the process will be reconstitution instead of reincarnation, Prof. Elof Carlson told a group of fellow scientists Monday. The actual dead will not be brought back to life, but in their place will be grown physical copies of men and women who once lived, he said.

The copies will have all of the genius possessed by their predecessors, except for their memories and emotions.

Carlson, a zoologist at the University of California at Los Angeles, said the process will be routine within a century or two because of the study of genetic codes or gene patterns. These codes or patterns, preserved in the dried tissue of mummified bodies, could be copied and placed in fertilized egg cells.

"For example, once the genetic code of a great genius is determined, hundreds of thousands of his duplicates can be created for the world's benefit. If Mozart's body had been mummified, thousands of Mozarts could be reconstituted," Dr. Carlson said.

"We some day could be able to reconstitute Joan of Arc — except that she was burned. As an example, we certainly will be able to reconstruct King Tutankhamen from his Egyptian mummy."

Carlson said he is confident that nucleic acid crystals necessary to identify the mummy's genetic code will be found. He noted that other proteins discovered in such tissue have made it possible for scientists to type the blood of Egyptians who have been dead for tens of centuries.

Nation Has Variety Of Weather

By The Associated Press

Thunderstorms, with heavy rain, hail and damaging winds, pounded northern Arkansas today. Rain or snow fell in many sections from the Virginia coast to the far West.

The Weather Bureau issued a tornado watch for parts of northern and central Arkansas extending into northwest Mississippi and the southwest tip of Tennessee.

More than one inch of rain and hail pelted Fort Smith, Ark. Heavy hail hammered Little Rock.

Severe thunderstorms and tornadoes hit areas in Oklahoma Monday. Funnel clouds were sighted there and in Colorado.

A twister struck near Coweta in eastern Oklahoma, wrecking three homes and a barn.

Rain mixed with light snow fell in the Northern Plains and the Central Rockies. A belt of rain extended from Central California through Oregon and Washington, with light snow in some areas.

A spring warming trend was reported in much of the eastern half of the nation after unseasonably cool weather for more than a week. Freezing temperatures generally were confined to the northern Great Lakes region and in sections of New England.

American Nazi To Stand Trial

NEW YORK (AP) — American Nazi party leader George Lincoln Rockwell has been ordered to stand trial May 16 on a charge of disorderly conduct.

Rockwell, who appeared in court Monday with a Jewish attorney, Martin Berger, is accused of a threat to cremate a Jewish war veterans leader in a speech June 23, 1960.

Criminal Court Judge Neal P. Bottiglieri denied a motion to dismiss the charge and set the trial date.

Juveniles Held For Train Derailment

BOSTON (AP)—Six juveniles have been arrested for causing the derailment of a New Haven Railroad commuter train and injuries to 62 persons.

The youths were arrested Monday night after one boy admitted he and the others broke a lock and turned a switch that shunted the two-car self-powered train onto a siding.

The accident occurred Monday during the first morning run over the Needham to Boston line. The train derailed as it hit the siding and overturned.

President Stays At Ranch

By FRANK CORMIER

SAN ANTONIO, Tex. (AP) — President Johnson apparently intends to enjoy more springtime sunshine at his LBJ Ranch while other members of the family resume their regular schedules.

Mrs. Johnson planned to return to Washington today for some long-scheduled activities Wednesday. Daughter Luci, 18, was returning to the capital, too, to resume her studies at Georgetown University School of Nursing. Luci's fiance, Patrick J. Nugent, was going back there to a job.

The President has given no hint of how long he might extend his Easter holiday visit to the ranch, some 65 miles north of San Antonio.

White House press headquarters here said Johnson spent much of Monday catching up with paperwork.

The President announced he had accepted recommendations from a task force, headed by Vice President Hubert H. Humphrey, on programs to keep young people busy and out of trouble this summer.

Most of these programs were developed last summer but Johnson said he wants them expanded.

The Humphrey group particularly urged another "Youth Opportunity Campaign" to promote summer hiring of young trainees by private employers and government.

Johnson also announced he will nominate Stanley H. Ruttenberg, former AFL-CIO research director, to be assistant secretary of labor for manpower. Ruttenberg, 49, now is manpower administrator for the Labor Department.

Arlington To Add College Of Pharmacy

DALLAS (AP) — Creation of a college of pharmacy at Arlington State College was advocated in a resolution by the Tarrant County Pharmaceutical Association.

Association President E. L. Baker noted that more than 500 drug stores in the Dallas-Fort Worth area were available for students' training.

Jack Wins Top Money

By KEN ALYTA
Associated Press Sports Writer

AUGUSTA, Ga. (AP) — What's next for Jack Nicklaus? The powerful Columbus, Ohio, blond slugger, given a reprieve in the form of a playoff after by his own admission blowing the Masters Golf Tournament, didn't miss Monday.

His victory in the 18-hole playoff with Tommy Jacobs and Gay Brewer added another in his list of historic Augusta accomplishments.

He became the first man to win the Masters two years in a row. He has won it three times in four years, finishing in a second-place tie the year he didn't win.

Last year he set the tournament record of 271—17 under par—and included a tournament record-equalling 64 enroute.

When he won his first Masters three years ago at 23 he became the youngest winner of the classic.

The $20,000 check he earned by shooting a playoff 70 against 72 for Jacobs and 78 for Brewer brought his official money earnings since turning professional to over $449,000.

At 26 he stands as the recognized No. 1 player in golf. And this at an age some 10 years before many players reach their peak.

Asked how long he'd continue to play tournament golf, he replied, "As long as I continue to enjoy it and have a desire to win. The two go hand-in-hand. The money hasn't a thing in the world to do with it."

He gave a hint of his next ambition by saying he planned to compete in the British Open — with a difference. This year he'll go there about 10 days early to practice for the classic. "I like to practice, anyway," he explained.

By winning the Masters he has taken the first step toward accomplishing the professional Grand Slam of golf that has eluded Arnold Palmer for so long.

The British Open, the U.S. Open and the PGA Championship round out the prestige-laden quartet he'd like to sweep.

SPORTS BRIEFS

By The Associated Press

ABILENE, Tex. (AP) —The University of Texas said Monday that Lee Whittington, 6-foot-6 basketball player from Logansport, Ind., has signed a pre-enrollment application. He averaged 12 points a game last season.

SAN ANTONIO, Tex. (AP)— Nine walks by two Illinois pitchers and eight Bearkat hits helped Sam Houston to a 9-4 baseball victory over the Illini Monday.

DENTON, Tex. (AP) —North Texas, led by Ras Allen's one-under-par 68, handed Texas' golf team its first dual meet defeat of the season 4½-2½ Monday.

HOUSTON (AP) — Pitcher Bill Palmer shutout Pan American on two hits and Rice backed him with 16 hits in a 7-0 baseball victory Monday. Arnie Alvarez got both of Pan American's hits.

ABILENE, Tex. (AP) —Texas Christian's tennis team defeated Hardin-Simmons 7-0 Monday for its fifth consecutive victory and eighth of the season.

LUBBOCK, Tex. (AP) —Texas Tech, losing only two sets, blanked New Mexico State 6-0 in tennis Monday.

DALLAS (AP) — Kelly Pete, two-time All-Missouri Valley Conference basketball player from Wichita University, has signed with the Dallas Cowboys of the National Football League.

The 6-foot-2, 205-pound Pete, who never played college football, will be tried as a defensive back, the Cowboys said. Pete was a free agent and was not drafted by any club.

Rookie Is Top Cookie

NEW YORK (AP) — San Francisco's Rick Barry, Rookie of the Year in the National Basketball Association, has moved into exclusive company.

He's been chosen along with Wilt Chamberlain of Philadelphia, Jerry Lucas and Oscar Robertson of Cincinnati and Jerry West of Los Angeles on the NBA All Star team.

The voting, conducted among sports writers and broadcasters in the nine league cities, produced no unanimous choices. Robertson came closest, missing on only one of the 86 ballots cast.

Named to the second team were Bill Russell, John Havlicek and Sam Jones, all of Boston, and Philadelphia's Hal Greer and Baltimore's Gus Johnson.

Dobbs Still Undecided.

EL PASO, Tex. AP) — Texas Western Athletic Director George McCarty said time was the biggest factor regarding his football coach, Bobby Dobbs, and the West Point position.

"I'm going on the assumption that the longer this hangs the better our chances are," said McCarty. "He hasn't made up his mind. I don't know what he'll do."

Dobbs met last weekend with Army's Athletic Director Ray Murphy and talked with him on the telephone Monday about the West Point coaching post, vacated last week when Paul Dietzel resigned and beame the South Carolina football coach.

No Easy Entries

DALLAS (AP) — For the first time in history of the Greater Dallas Open Golf Tournament a qualifying round will be necessary this year.

C. B. Edwards, tournament chairman, said Monday the qualifying round will be next Monday to determine the entries for the non-exempt places in the $85,000 event.

He said 116 entries have been received and the field for the 72-hole tournament starting April 21 will total 144.

Red Sox Elect Field Captain

By MIKE RATHET
Associated Press Sports Writer

The baseball season rolls into high gear today with six new managers, one new ball park and one new attitude on display — if the Boston Red Sox get to the ball park on time.

Actually everything should go off like clock work.

The six new managers are ready, Atlanta is ready and the Red Sox have synchronized their watches.

The new timetable for the Red Sox became mandatory Monday when outfielder Carl Yastrzemski was elected the first playing captain in team history and admitted "there have been times during the past five years that I've been ashamed to wear a Red Sox uniform."

Yastrzemski took immediate steps to institute a new attitude, announcing a ban on card-playing in the clubhouse before games, and ordering all players to report on time — one of the things they occasionally failed to do last year.

"If we didn't have the talent I wouldn't say anything," Yastrzemski pointed out. "But we have too much talent to waste.

"I'm sick of being a laughing stock like the New York Mets."

The Mets were no laughing stock Monday — they were rained out. That left only the Presidential Opener at Washington, D.C. on the schedule, and the Senators and the Democrats came out on the short end of the score as Cleveland recorded a 5-2 victory.

The Mets and Reds will try to get the National League started again today, while Chicago is at San Francisco in another day game. In night action, Houston is at Los Angeles, Philadelphia at St. Louis and Pittsburgh at Atlanta for the Braves' long-awaited debut in the Deep South.

The American League has four day games scheduled — Kansas City at Minnesota, California at Chicago, Detroit at New York and Baltimore at Boston.

Don Heffner of the Reds and Wes Westrum of the Mets will make their postponed managerial debuts at Cincinnati with four other new or used field bosses ready to step on the firing line — Leo Durocher of the Cubs, Eddie Stanky of the White Sox, Grady Hatton of the Astros and Al Dark of the Athletics.

All undoubtedly are hoping to make more successful debuts than the one made by relief pitcher Hubert Humphrey at Washington. The vice president, subbing for President Johnson, threw out the first ball at the Indians-Senators game and LBJ's administration came up a three-time loser.

Johnson has thrown out the first ball twice, and Washington has lost each time. Humphrey extended the Democrats losing streak but not without help from the Senators, who led 2-1 on Frank Howard's homer when the Indians came up with a four-run ninth inning uprising.

Two-run singles by Vic Davalillo and Max Alvis, who collected three hits for the day, were the big blows and tagged Pete Richert with the loss. Sam McDowell got the victory with Sonny Siebert's relief help after checking the Senators on four hits and striking out nine through eight innings.

In the big ones today, the Twins and Dodgers open defense of their championships and the Braves begin their first southern campaign after a day-long series of ceremonies.

The Twins will send Jim (Mudcat) Grant, the biggest winner in the AL last year and one of the league's biggest holdout this year, against Jim (Catfish) Hunter of Kansas City.

The Dodgers will start Claude Osteen, who gets the opening assignment while holdouts Sandy Koufax and Don Drysdale continue to try and catch up.

The Astros will give veteran Robin Roberts the honor of pitching his 13th opener.

At Atlanta, meanwhile, businesses and schools will be closed during the afternoon for a downtown parade, then 50,893 people are expected to march on Atlanta Stadium. Tony Cloninger will start for the Braves and Bob Veale for the Pirates.

By that time the Braves should know the result of the court trial aimed at returning the team to Milwaukee.

"We will do a lot better on the field against Pittsburgh," predicted Braves board chairman Bill Bartholomay, "than we expect to do in Wisconsin courts."

FHA Loan Rate Gets 2nd Boost

By JOSEPH R. COYNE

WASHINGTON (AP) — In a move designed to attract more money to the field, the government has raised the interest rate on new FHA and GI home loans from 5½ to 5¾ per cent.

It was the second boost in interest rates on such mortgages in little more than two months. It will mean increased monthly payments on new mortgages — about $3 additional each month on a $15,000 mortgage.

But its main effect is expected to be a lowering of the charge which must be paid to obtain a mortgage. In some areas this charge — called points — now runs as high as 6 or 7 per cent of the total value of a mortgage.

Monday's announcement of increased interest rates on mortgages insured by the Federal Housing Administration or guaranteed by the Veterans Administration represented a further sign of tight money. Unaffected are the estimated 6 million outstanding FHA and VA mortgages which will continue to bear interest at the agreed upon rate.

One critic of high interest rates, Rep. Wright Patman, D-Tex., chairman of the House Banking Committee, said the FHA and VA "had to do it to be competitive."

The real cause, Patman said, is the Federal Reserve Board's action last December increasing the discount rate from 4 to 4 ½ per cent. This is the amount paid by banks to borrow from the Federal Reserve.

Home builders and mortgage bankers had urged the Johnson administration in January to boost FHA interest rates to 5 ¾ per cent but FHA went only to 5 ½ per cent Feb. 7. VA followed March 3 with a similar boost from 5 ¼ to 5 ½ per cent.

For FHA mortgages, the full borrowing cost will now be 6 ¼ per cent including the one-half of 1 per cent charged for FHA insurance. No similar charge is made on VA mortgages.

FHA also announced an increase fom 5 ¼ to 5 ½ per cent in interest rates on some mortgages insured under its multi-family building programs. The increase does not apply to programs in which the maximum rate is fixed by law.

Robert C. Weaver, secretary of housing and urban development, cited a shortage of mortgage money, and William J. Driver, VA administrator, said it has become virtually impossible for veterans to obtain GI home loans in many parts of the country.

A spokesman for the Mortgage Bankers Association of America said initial charges should be lowered by as much as two points. This would mean a saving of $300 on a $15,000 mortgage.

The new rate is the highest ever for a VA loan. The FHA rate was 5 ¾ per cent from Sept. 23, 1959, to Feb. 2, 1961.

Deaths Said Murder And Suicide

ARDMORE, Okla. (AP)—A farm wife shot her two children to death, then took her own life, police reported late Monday.

The victims were identified as Mrs. Sylvia Gilbert, 32, and her children, Randy Gilbert, 8 months, and Roberta Burks, 3.

The woman's estranged husband, Dallas Gilbert, 44, was released about midnight after Carter County Atty. Claud H. Smith and Sheriff Orville Burks said the deaths were an apparent murder-suicide.

Gilbert, officers said, discovered the bodies around 7:20 p.m. when he took groceries to the home.

The bodies were found on one bed. Coroner James Miller said each had been shot once through the head with a 22-caliber pistol.

Gilbert said he was the woman's third husband and that she was despondent over her four older girls leaving last Friday for California with her first husband.

Miller said the shootings occurred about 4 p.m. Monday.

Texas Wheat Crop Estimate Down

WASHINGTON (AP) — The 1966 Texas winter wheat crop was estimated at 63,936,000 bushels by the U. S. Department of Agriculture Monday.

The estimate is below the 73 million bushel crop produced by the state last year.

Estimated production of other Texas crops for 1966 included grapefruit 3,800,000 boxes, oranges 1,250,000 boxes and spring potatoes 530,000 hundredweight.

DEAD VARMINT — Police Capt. D. E. McWhirter killed this 33-inch rattlesnake in the backyard of the Elmo Weyel residence, 3734 Highland Drive, about 9 o'clock Saturday morning. It had eight rattlers and a button. Police Dispatcher Margaret Wood displays the varmint.

Summer Camps Changed By Age Of Specialization

By SALLY RYAN
AP Business News Writer

NEW YORK (AP) — The age of specialization has reached summer camps.

Once upon a summertime, children were packed off to camp for two weeks to live in tents, go swimming, learn nature lore and maybe cook corn on the cob in a pit.

Now they are off for two months, living in lush cabins with fireplaces and bathrooms, water skiing and scuba diving, and learning acting, auto mechanics or chamber music.

"There is an increasing trend toward specialization," said Betty Lowenstein, executive director, New York section, American Camping Association, Inc.

She estimates 5½ million youngsters, aged 6 to 16, will go to the nation's 10,000 camps this summer. That is 1½ million more youngsters and 500 more camps than in 1950 — and big business for camp operators.

Costs shoot up from nothing for the underprivileged, expenses of which may be picked up by charity groups, to $1,000 for the affluent private camps.

There are special camps for the mentally retarded, the emotionally disturbed and those with asthma.

There even are camps for parents.

The Audubon National Science Field Workshop, Greenwich, Conn., has a one-week $70 session for adults on how to keep a child in touch with the earth and his environment.

In recent years, there has been an upsurge in sports camps.

A Cape Cod camp, advertising basketball and tennis under Sam Jones, the Boston Celtics star, already is filled up this year and accepting inquiries for 1967.

Len Casanova, University of Oregon football coach, for the sixth year is running a sports camp for boys 9-14, on the Eugene, Ore., campus.

The boys live in dormitories and have access to all of the university athletic facilities for track, swimming, football, baseball, basketball, wrestling and gymnastics, under the instruction of university coaches.

Even in this age, there still is a bit of the wilds left in some of the camps.

Adirondack Woodcraft Camps, Old Forge, N.H., has Canadian canoe trips, pack horse trips and survival camping — $725 for eight weeks.

Brownsville Gets Federal Grant

WASHINGTON (AP) — The Economic Development Administration announced Tuesday approval of a $2,439,000 grant to help Brownsville, Tex., improve its water and sewer systems.

About 300 additional jobs at a seafood processing plant and 100 new jobs in the motel and retail trade industries are expected to be created as a result of the improvements.

The new facilities will also serve the Texas Southmost College which has three buildings under construction.

Teacher Banquet Plans Completed

Plans have been completed here for the annual banquet of the Scurry County unit of the Texas State Teachers Association and the Snyder Classroom Teachers Association.

The banquet will be held at 7:30 p.m. next Monday in the high school cafeteria.

Speaker for the banquet will be Wayne B. (Red) Smith, well-known humorist.

Now public relations and sales director for Service Printing Co., Inc., of Wichita Falls, Smith is well known in this area. For several years he was one of the best known chamber of commerce managers in the region and later served as mayor of Sweetwater.

A native of Paducah, Tex., Smith is a graduate of Clovis High School and Southeastern State, Durant, Okla. He also is a graduate of the Southwestern Chamber of Commerce Institute, and is a past vice president of the Texas Chamber of Commerce Manager's Association.

A veteran of World War II, he received a Presidential Citation while serving on the cruiser that escorted Jimmy Doolittle on his Tokyo raid.

Teachers from all schools in Scurry County and their guests will attend the banquet. Several service awards will be presented and new officers for both organizations will be installed.

WAYNE (RED) SMITH

KC Gets Jimenez

KANSAS CITY (AP) — Outfielder Manny Jimenez was added to the roster of the Kansas City Athletics, and 14 players were assigned to minor league teams today.

Jimenez was purchased from the Mobile roster in the Southern League. To make room for the left-handed hitting outfielder, pitcher Don Buschhorn was assigned outright to Modesto of the Californ iaLeague.

Backs New Tax Plan

HOUSTON (AP)—State Land Commissioner Jerry Sadler said Monday he thinks petroleum prospectors who hunt for offshore oil and gas take inordinate risks that deserve extra consideration at the tax table.

Sadler told the Houston Association of Petroleum Landmen that he has asked the chairman of a federal public land laws review committee to consider a proposal that would give tax advantages to offshore oil explorers.

"Such a proposal, if it becomes law, will help the petroleum industry and our state economy and income as well," Sadler said.

Sadler, who represents this state on the review committee, described offshore operators as oilmen who "are still pioneering in the oil and gas industry."

Airman Killed In Sweetwater Crash

SWEETWATER, Tex. (AP)—William Richard Carter, 32, a staff sergeant stationed at Lackland Air Force Base, was killed Monday when the plane he was flying crashed at the end of a runway at the Sweetwater Municipal Airport.

Carter, flying a Funk 180, was en route to Amarillo where he was being assigned for temporary duty. He took off from the Sweetwater airport about 5:30 a.m. but his crashed plane was not found until several hours later in a low spot below the end of the runway.

Tax Answers

Taxpayers ask the Internal Revenue Service literally thousands of questions while trying to prepare their 1965 federal income tax returns.

Just what seems to bother taxpayers most? Where do they run into difficulty in filling out their returns? Those who still have not filed their returns may find the experience of fellow taxpayers both interesting and helpful.

Questions about income tax forms were by far the most frequent. These ranged from what forms were needed to when and where they could be obtained.

If you need any form check with the local IRS office. Taxpayers may also find the income tax forms they need at post offices and most banks.

The two basic individual income tax forms are the 1040 and 1040A. The 1040, or long form, must be used if you itemize deductions or your income is over certain levels.

Many taxpayers will also have to file additional schedules or forms with their 1040s. For example, Schedule B must be included if you have income from pensions, annuities, rents, royalties, partnerships, estates or trusts or if you claim the retirement income credit; Schedule D must be filed if you have gains or losses from the sale of property such as stock or real estate; Schedule F must be filed to report farm income.

Many questions were asked about sales tax deductions and whether the table could be used in addition to itemizing sales tax paid for major items.

The 1040 instructions booklet contains sales tax tables for the first time which show how much can be deducted for sales tax depending on where the taxpayer lives, his income and number of dependents.

Taxpayers may use either the sales tax table or what they actually paid for sales taxes. They can't use both. An exception to this is when sales tax was paid on the purchase of a car. Sales tax paid on the car may be deducted in addition to the amount listed in the table.

Who can use the short form 1040A?

Generally speaking, you can't use 1040A if 1) you itemize deductions; 2) income was $10,000 or over; 3) more than $200 or income was not subject to withholding tax; 4) special tax status or tax credits are claimed; 5) a fiscal year or accrual accounting method is used; 6) you are delinquent in filing.

The instruction booklet explains these items in detail.

What are the tax benefits for those 65 and over?

Tax benefits for those 65 years of age and over are explained in IRS Document No. 5569, "Tax Benefits for Older Americans."

In brief, these benefits are: 1) extra personal exemption; 2) all medical and drug expenses fully deductible without being subject to either 3 percent or 1 percent limitation; 3) retirement income credit; 4) tax free sale of home under certain conditions.

Are Social Security benefits taxable?

Social Security benefits are not taxable. This includes all Social Security benefits whether received monthly or in a lump sum and whether or not they are received from the federal government or from a state under a federal program.

What can be deducted for medical expenses?

You may deduct medical expenses paid for the prevention, cure or treatment of a physical or mental illness or defect. This includes expenses you paid for your spouse and dependents.

Out of pocket transportation expenses for a trip to the doctor or the hospital, may be included when figuring medical expenses. Hospitalization and medical insurance premiums may also be deducted but reimbursements from any health plans for accident or illness must be subtracted from your expenses.

Medical expenses that exceed 3 percent of adjusted gross income may be deducted when you itemize. Medicine and drug expenses are includible in total medical expense to the extent they exceed 1 percent of adjusted gross income. These 1 percent and 3 percent floors do not apply for those 65 years of age and over.

Who can be claimed as a dependent?

There are five tests that must be met before exemption may be claimed for a dependent for tax purposes. These tests are 1) gross income, 2) support, 3) joint return, 4) citizenship, and 5) relationship or household membership.

The 1040 instructions explains each of these.

How do I compute my tax?

For incomes under $5,000 the tax tables in the instructions may be used. Table A is for single persons, Table B for married persons filing joint returns or unmarried head of household, and Table C for married persons filing separate returns.

For incomes over $5,000, the Tax Rate Schedules must be used. These are listed in the 1040 instructions.

Priest Admits Has Wife, And Family

ST. PETERSBURG, Fla. (AP) — A Roman Catholic priest who took a wife says he will try to establish a guest house for married priests.

Anthony Girandola, 40, says an estimated total of 5,000 U.S. priests have left the clergy to take wives.

"I am tired of hiding the fact that I am a priest," said Girandola. "If the church wishes to excommunicate me for publicizing this fact, let it do so."

Girandola left Westerly, R.I., where he had worked as a newsman, about two weeks ago.

Charles W. Utter, editor of the Daily Westerly Sun, said he was surprised to hear that Girandola is a priest.

"He had a wonderful touch with a human interest story," said Utter. "He was a good man, and I hated to lose him."

He said Girandola's wife suffered from asthma and this prompted their move south.

Girandola said the church refused him dispensation to marry.

He said in some cases priests have been allowed to marry but they are forbidden from practicing the ministry and must keep their married status secret.

Girandola reported that the church has required priests who have broken their vows of celibacy to leave any area in which they are known as priests.

A native of Hartford, Conn., Girandola's last ministry was at the Shrine of Sacred Heart in Baltimore from 1963 to 1964. He attended St. Bernard's Major Seminary in Rochester, N.Y., and has worked as a cashier, waiter and advertising agency copy writer.

Girandola and his wife, Lorriane, have a four-month-old son, Anthony Jr.

Girandola said he would solicit funds for his guest house and also will look for a place of assembly where he can hold services. He added that he saw no reason why he should not continue to do a priest's work.

Priests are not trained for work outside the church and need help readjusting if they marry and must look for another employment, Girandola said.

He said he had asked the church to help him set up his guest house but had been refused.

Havana Reports Hi-jacker Captured

MIAMI, Fla. (AP) — Cuban radio reported Monday night that mobs in Havana asked for the immediate execution of Angel Betancourt Cueto the flight engineer who tried to hijack a Cuban airliner and fly to Miami.

He was arrested Monday morning inside a Roman Catholic convent in Havana.

The broadcast said the crowd gathered in front of the convent shortly after Betencourt was captured.

Betancourt had escaped when the airliner, carrying 91 persons, landed at Rancho Boyeros Airport March 27. He had been sought since then.

The flight engineer killed the pilot and an armed guard during his unsuccessful attempt to fly the plane to Miami.

Federal Jobs Go Begging In Michigan

GRAND RAPIDS, Mich. (AP) — The Youth Opportunity Center here didn't expect a wealth of applicants for an antipoverty project aimed at providing jobs to the jobless.

But not a single applicant has signed up for the $221,650 project designed to make part-time city employes of school dropouts.

Jack Vanderwal, a center official, said the project could not compete with the many jobs available in the area because it could guarantee only 20 hours a week at an hourly rate of $1.25.

Crash Victim Is Found

DEL RIO, Tex. (AP)— The wreckage of a private plane and the body of a Laughlin Air Force Base Airman was found Monday in the dry bed of Devil's River about 40 miles north of here.

Air Force officials are withholding the name of the victim pending notification of next of kin. An Air Force spokesman said the victim was not a Texas resident.

The wreckage was found at 6 p.m. Monday on the ranch of Poochie Quigg.

The plane, a Cessna 150, was owned by the Hallmark Academy at Del Rio. Company officials said the airman had rented the plane Sunday for a solo cross-country flight. They said the airman flew to Eldorado, Tex., refueled, and left for the return trip to Del Rio Sunday afternoon.

Discovery of the plane's wreckage ended an extensive search of a wide area.

A SON COMES HOME — Guy Velardo of Wakefield, Mass., consoles his wife who was overcome with grief as she kissed a flag-shrouded casket containing the body of their son, Anthony, 20, killed in Vietnam. She collapsed and was carried from the ramp at Boston's Logan Airport. The young Marine became the first Vietnam Casualty from the town of Wakefield when he was killed March 27. (AP Wirephoto)

Buckner Names New Superintendent

DALLAS (AP) — Harold H. Hime will move up to superintendent of the Buckner Baptist Children's home succeeding G. G. Dickey.

Hime has been director of activities for three years.

He is an ordained Baptist minister, having served in Bradley, Ark., and Nogales, Tex., and was once high school coach in Texarkana, Ark. He also was principal of Forney High School and of Bradley High School in Arkansas.

Texans Are Target Of Press Humor

HOUSTON (AP)—Texas personalities and even the nation's space program became victim of newsmen's wit Monday night in the Press Club of Houston's 17th annual Gridiron Dinner.

Paying from $25 to $100 a plate, a record 900 persons watched as the good-humored heat was turned on U. S. Sen. John Tower, Houston Mayor Louie Welch, lawyer Percy Foreman, John W. Mecom, president and publisher of The Houston Chronicle, Houston Post Editor Oveta Culp Hobby and executive editor William P. Hobby Jr.

Roy Hofheinz, president of the Houston Sports Association which leases the Astrodome, and three "losing coaches"—Rice's Jess Neely, Bill Yeoman of the University of Houston and Texas A&M's Gene Stallings—were other targets.

Texas Atty. Gen. Waggoner Carr, a candidate for the U. S. Senate, House Speaker Ben Barnes, U. S. Reps. Bob Casey and Mrs. Albert Thomas, and Republican National Committeeman Albert Fay were among the more than 40 state, county and local officials introduced at the dinner, held at the Shamrock Hilton.

Proceeds are used for journalism scholarships to high school graduates.

Work Begins On Huge Generators

ALBUQUERQUE, N.M. (AP) — The way has been cleared for construction of two giant steam generating plants in the Southwest, the first stage in development of the largest regional electric power program in history.

Under an agreement announced Monday night between the Interior Department and a group of electric utilities, one of the 1½ million-kilowatt steam generating plants will be near Farmington, N.M., and the other below Lake Mohave and Davis Dam in the southern tip of Nevada.

Besides supplies of adequate dependable power for a nine-state area, the program also will mean a big economic boost for depressed areas in which the plants are to be constructed. The New Mexico plant has been described by officials of the sprawling Navajo reservation as more beneficial to the tribe's economy than any single activity in history.

Interior Secretary Stewart L. Udall announced in Washington the agreement with Western Energy Supply and Transmission Associates — WEST, a group of 21 private and public electric utilities. Formed in 1964 to plan for future electrical needs, WEST by 1985 plans to have three times the generating capacity of Tennessee Valley Authority and 18 times that of Grand Coulee Dam.

The agreement covers water contracts, sites, rights-of-way and Indian-owned coal. Measures are spelled out to abate air and water pollution at the plants.

"This clears the way for all necessary agreements," said WEST President D. W. Reves of Albuquerque, chief executive of Public Service Company of New Mexico. "In other words we can proceed now with the construction."

The plant near Farmington will serve Southern California, Arizona, southwest Texas and New Mexico. The one at Mohave, managed by the Southern California Edison Co., will service a similar region. More than 1,800 miles of transmission lines will be constructed.

To the 105,000 members of the Navajo tribe, largest Indian tribe in the country, the Farmington plant will mean many new jobs, more than twice the royalties from the tribe's vast coal reserves and even electricity on a preferred basis.

A large head of Boston lettuce and half a head of watercress will make enough greens for a tossed salad to serve eight.

Vietnam Sky Is Falling In; Pulled Down By Buddhists

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — President Johnson had it pretty much his own way up till now. But now what he faces in Viet Nam may be the greatest disaster of his political career.

At home things were going well. The country was prosperous. He kept putting the heat on Congress to pass his legislation and on business and labor to keep wages and prices down.

It meant a lot of bone-aching work, of course: telephone calls from dawn till midnight; conferences at the White House day and night; the endless attention to details.

But this was all duck soup for him. In one way or another he had been doing the same thing for years as the Democrats' majority leader in the Senate before he became vice president then president.

In short, it was a way of life with him and his big advantage was that he understood the American mind.

And even with Viet Nam, despite some intense criticism and demonstrations at home, he had broad public support for the administration's policy of using U.S. money and troops and planes to keep the Viet Cong from taking over South Viet Nam.

This was going well, too. And further, he was backing the military government headed by Premier Nguyen Cao Ky. There didn't seem to be a cloud in the sky. Then the sky fell in, pulled down by the Buddhists.

They have a different kind of mind, unfamiliar to Johnson, and bit by bit, by marches, riots, protests, and denunciations they began to topple the government headed by Ky.

The Johnson administration's aim was said to be the survival of the military regime, with or without Ky. But as time passed the whole military leadership seemed in danger of being thrown out.

No matter what it did or tried to do behind the scenes, in public the administration tried to put on the appearance of great calm, even detachment, with one State Department official saying: "Our feeling is that the solution to the political problems in Viet Nam is something for the Vietnamese themselves to work out."

But if the North Vietnamese Communists have worked out a deal with the South Vietnamese Buddhists to destroy the present government and make way for the Communists, this is more than just a political squabble between some Vietnamese in the south.

If the Buddhists get control, whether or not they turn the government over to the Communists at once, they may ask the Americans to leave. And, if they do, it is certain the Communists will get control for the South Vietnamese among themselves couldn't stand them off.

Johnson can't be sure he knows how to deal with the Buddhists or how they think, for they don't think like Americans.

For the Americans, to be asked to leave, after the billions of U.S. dollars spent there and the many U.S. lives lost there, such a request would in effect be an American defeat and an American embarrassment without parallel.

Johnson would have a hard time living it down. It undoubtedly would be used against him if he ran for re-election in 1968. And it might cause desperate damage to the Democrats in this year's congressional elections.

The immediate goal of the American Cancer Society is the annual saving of 285,000 lives or about half those who develop cancer each year. This is the number that could be saved if the cancer was diagnosed early and promptly treated. "That," the Society says, "is why an annual health checkup by a physician is so important."

Whatever Happened To Television?

By HAL BOYLE

NEW YORK (AP)—Whatever happened to television?

I remember when it was the talk of America. Everybody used to come to work hollow-eyed from staying up late the night before watching it.

Nobody I know talks much about television anymore. All those over 40 seem to see nothing but old movies on it.

As for its annual new programs, they don't appear to have much impact. They flower and fade and blow away like dandelion pods.

Industry tubthumpers say that last February television viewing reached an all-time high when 54 million households had their sets tuned in for an average of six hours and 28 minutes a day.

Whatever happened to television? Pretty much, I'm afraid, what producer David Selznick told me a dozen years ago would happen to it.

"Television is for people who want something for nothing," he said. "It will become a mush factory. Hollywood will use it as a dumping ground for B-graders, and go on to make finer pictures for the theaters."

One of the things I churlishly hold against television — although it probably is my fault — is that my 12-year-old daughter still remembers by heart more deodorant and beer commercials than Mother Goose rhymes.

"It seems to me I have to dust this set off more often than I used to," my wife said the other day. She does. It has become largely another piece of dust catching furniture.

There isn't a single program that our entire family watches together regularly anymore. As far as I am concerned the only great thing about television is its coverage of football. In that it is matchless.

But the rest of the year, from New Year's Day until September, I don't find much reason for turning it on except to see whether Lawrence Welk has hired a new bassoon player. It is all too sodden, gummy and tasteless.

What happened to television? It went thataway!

Girl Killed By Horse

JOHNSON CITY, Tex. (AP)—The 11-year-old daughter of a Secret Service agent assigned to the LBJ Ranch detail was killed by a horse in a pen behind the family's Johnson City home Monday.

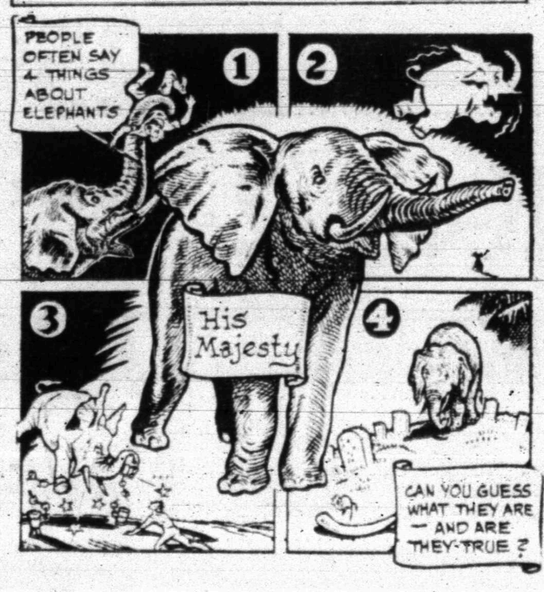

Nancy Knetsch, daughter of Mr. and Mrs. Clarence Knetsch, was dragged to death when the horse apparently became frightened, Sheriff Johnson Stevenson said.

He said the girl had tied a rope around her horse's neck and to her waist. The horse dragged the girl around the pen several times and then jumped a fence, he said.

The horse was not wearing a saddle when caught, the sheriff said, adding he did not know why the girl tied the rope to her waist.

The family makes its home here, near President Johnson's ranch, while Knetsch is assigned to the Texas White House.

Junior Editors Quiz on ELEPHANTS

QUESTION: Is it true that an elephant never forgets?

ANSWER: This is one of the four ideas people often have about elephants, the others being (2) elephants are mortally afraid of mice (3) an African elephant can never be trained and (4) elephants go to a special burial ground to die. Let's take them up one by one. (1) Elephants do have good memories, but it's not true they never forget. To be trained, an elephant first has to be bound and put on short rations, yet he soon forgets this rough treatment. (2) Keepers in zoos report that elephants pay no attention to mice. (3) It is true that the African elephant is larger and wilder than his Indian cousin, but he can be trained. To prove this, the world famous Jumbo, ridden by thousands of children, was an African elephant. (4) This is the most persistent rumor about elephants. Many naturalists and hunters have searched the places where elephants live for signs of elephant graveyards. But since none has ever been found, this is considered to be just another legend.

FOR YOU TO DO: You can tell the elephant in the center is the African kind because of his huge ears — much larger than those of the Indian Elephant. Find some pictures of elephants and identify the two kinds. 4-12

(John Maki of Duluth, Minn., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Outing Turns Park Into A Shambles

By SEYMOUR M. HERSH

GLEN ECHO, Md. (AP) — Scores of young persons turned a day-after-Easter outing into a stormy two-hour wrecking spree at an amusement park and then moved to the nearby streets, breaking windows in some homes and autos.

Some of the youths crowded into a grocery store across the road from the park. Witnesses said they smashed glass containers on the floor and helped themselves to pies, fruit, popcorn and chocolate milk.

More than 125 state and county police were needed to restore order Monday night to this suburb near the nation's capital. Officials set damage at $5,000 and said some parts of the Glen Echo Amusement Park were in shambles.

At least six persons were injured by flying glass, and three youths were arrested.

"This wasn't anything racial," said Inspector Kenneth W. Watkins of the Montgomery County police. "I wouldn't even say it was a riot. There wasn't that type of fighting — no hand-to-hand combat."

He said no more than 100 youths took part in the disturbance.

Watkins said the trouble began with pushing and shoving among the estimated 1,500-2,000 youths — nearly all of them Negroes — who had jammed into the park. Other estimates of the crowd ranged up to 7,500. The park was desegregated in 1961.

"People running the rides were being badgered and shut them down," Watkins said. "This resulted in some of the patrons trying to take over."

Eventually, he said, officials were forced to shut down the park.

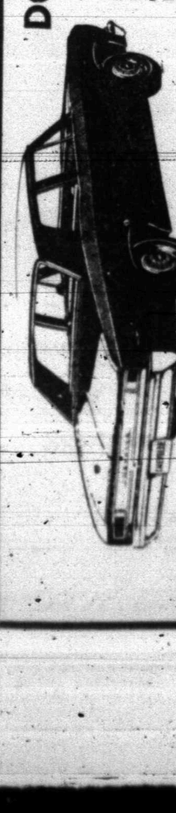

Shell Oil Building To Be Tallest

HOUSTON (AP) — The planned 47-story downtown office building for Shell Oil Co. will be the tallest reinforced concrete structure in the world and will cost at least $25 million.

E. G. Christianson, vice president for Shell's Houston exploration and production area, announced the plans Monday. Construction will begin later this year and it is scheduled to be occupied by 1968 or 1969.

The 650-foot structure will rise 30 feet higher than the twin Marina Towers Apartments in Chicago, the present tallest reinforced concrete building.

Americans Frustrated By Vietnam Political Turmoil

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP) — Frustrated American officials see little they can do about the political violence in South Viet Nam except to ride out the storm and hope for the best.

Some talk has cropped up here, attributed to angry military men who want to get on with the war, that if order cannot be restored soon by quarreling political factions, then the United States will be faced with a choice between taking control of the political situation or pulling out of the country.

State and Defense Department authorities deny emphatically that any such extreme courses are under consideration.

Behind the public posture of calm confidence, however, officials are deeply worried about the consequences of continued turmoil on military operations and on prolonging the Vietnamese war.

There is concern here about the anti-Americanism and complaints of war-weariness which emerge in the demonstrations and the possibilities for exploitation of trouble by Communist agents in the crisis centers.

But U.S. officials describe as heartening the fact that Buddhist and other powerful political forces in South Viet Nam are reported to be strongly anti-Communist.

U.S. policy on the political criss is defined as one of giving advice but not trying to dictate or impose a solution.

Officials here apparently would like to see temporary continuation of the present ruling military directorate whether or not that included Premier Nguyen Cao Ky. The Johnson administration is closely identified with Ky as a result of President Johnson's meeting with him at Hawaii.

Until Monday, top U.S. officials were reporting that the political crisis, which began a month ago, was having no particular effect on the prosecution of the war against the Viet Cong.

Undersecretary of State George W. Ball said in a television interview Sunday that he would not regard South Viet Nam's internal trouble as "anything that needs to be deplored so long as it doesn't interfere with the conduct of the military operations."

Monday the Defense Department confirmed reports from Saigon of what was called a temporary decline in bombing operations against the Viet Cong. Monday night, however, big Guam-based B52 bombers hit targets in North Viet Nam for the first time.

Other informants reported more generally that the political unrest was beginning to limit ground military operations. Presumably this meant that the number of South Vietnamese forces available for action against the Communists was being reduced to some degree by Ky's assignment of units to try to control civil strife.

The Communists, officials say, have been suffering severe military blows for many months now and in the U.S. view it is urgently important to maintain the pressure.

The objective of the military pressure is to break the Viet Cong will to fight by convincing the leaders and the rank and file that they cannot possibly win.

Conversely, as authorities here see the situation, the Communist forces and their North Vietnamese allies and supporters are sustained in continuing the struggle by the belief that they can win, their belief being based primarily on two political considerations.

One is that in spite of the great military strength which the United States has thrown into the war, South Viet Nam will be torn apart by its own political factions.

The other basis of the Communists' belief in eventual victory is said to be their view that the American people and government eventually will tire of the conflict and its political trials and will make peace on terms favorable to the Viet Cong and North Viet Nam.

Kindness is the oil that takes the friction out of life. Bible Book Store, 1403 Lubbock Highway.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — It has been said that Mexico is a country loaded with game and that it is totally lacking in wildlife. There is truth in both statements. It depends on where you are.

In areas where there is a large rural population, you find little game. Remote areas often look like an overcrowded zoo.

But the geographical setup which ranges from dense jungles to snow capped mountains has produced a big variety of wildlife.

Hunting seasons vary according to climate and mating seasons. Your shooting isn't confined to fall, therefore. Some species of birds and animals may be hunted from August 1 until mid-April, depending on the climate and location.

The jaguar is considered Mexico's top big - game animal and many hunters will tell you it is the hardest trophy in North America to get. Jags are said to be wilder than lions or tigers. They are bigger than leopards and just as ferocious.

You find them in all parts of the country and need top guides to corner one.

Most hunters perfer to bring their own guns but lack information about getting them into the country or obtaining hunting licenses.

First thing you might do is pick up a tourist card with your nearest Mexican consul and check with him on the hunting laws. Each hunter is permitted to bring in four sporting arms, NOT including the .45 caliber pistol nor 7 mm. rifle, which are official Mexican Army weapons. But you can make it a combination of other caliber rifles, shotguns and one .22 pistol.

The procedure is to write a letter and mail or deliver it personally to a Mexican Consul, listing the types and serial numbers of the weapons you wish to take and stating that you will bring them out of the country when you leave.

The Consul will notarize the letter and return it to you. At the border you present your letter to the Mexican War Department Office and they issue you the permit to take the arms into Mexico.

To get your hunting license, you should go to the border towns of Matamoros, Reynosa, Nuevo Laredo, Ciudad Juarez, Nogales, Mexicali or Tijuana. These towns have non-resident hunting license forms to be filled out in their Oficinas de Caza. It's a good idea to get a bilungual guide to help.

While game laws are made on the federal level, licenses are issued on a state basis. A license issued for a given state is also good for every adjoining state and the Oficina de Caza can issue a license for any state in the country.

The non-resident hunting fee runs a few cents over $19 (dollars) can be bought in any month and is valid for six months from the date of issue.

There are no full - time guides in Mexico but the country is full of part - timers, hunters and woodsmen who are familiar with their own areas. The best way to pick up one is check with your hotel manager or a tourist guide who works out of your hotel.

Hunting guides charge rates that vary from around $1.60 to $3.00 (U.S.) per day. Selecting one will depend on your own judgment. And remember, you'll have to take along all the equipment for hunting and camping. A guide can get you a boat for any river travel necessary.

Make a stab at it if you're looking for excitement. And good hunting.

Planting Underway

AUSTIN (AP)—Texas' spring planting moved ahead last week but dry winds sapped moisture and caused some fields to crack in south and East Texas, the U. S. department of agriculture reported Monday.

Statewide, cotton planting reached 15 per cent completion, about the same as last year.

Corn planting is about on schedule with 72 per cent planted, and sorghum planting is about one-third complete, slightly ahead of 1965.

Rice seeding moved into full swing on the Gulf Coast, reaching 42 per cent completion.

Cabbage moved in good volume from the Rio Grande alley, which had ideal weather for vegetable harvesting. The citrus market there was slow.

Cattle conditions improved in the eastern half of the state, where there was good moisture, but supplemental feeding still was necessary in dry western areas.

NEW VOICEPRINT MACHINE

Device Identifies Criminals

By RONALD I. DEUTSCH

NEW YORK (AP) — A revolutionary device called the voiceprint that its inventor says may some day rival the fingerprint as a method of criminal identification has been accepted as evidence in a perjury case.

The inventor, Lawrence G. Kersta, 58, a physicist, appears today in Westchester County Court to demonstrate how the voiceprint works.

Judge Robert Dempsey ruled Monday that the new form of identification could be used by the state in the case of a suspended policeman from New Rochelle charged with perjary.

It would be the first time that the device would be introduced as evidence in court although some police departments are known to be experimenting with it.

Kersta, a former employe of Bell Telephone Laboratories, Inc., has developed an electronic method of converting the voice into weird-looking picture displays known as spectographs. These measure the physical characteristics of a voice, each of which is unique, Kersta says.

"You might call it a fingerprint of a voice," the physicist said in an interview. "Right now voice prints are where fingerprints were 60 years ago, but they could easily become as valuable to police as fingerprints."

Kersta's words were echoed by Samuel Dash, a law expert from Washington, D.C.

"What we've got now is a whole new issue of law," Dash said. "Maybe we'll keep files of voiceprints — and just think of their value in kidnapping or extortion cases."

Kersta believes the voiceprint represents a milestone in criminology that could easily help police track down suspects in cases involving the use of telephones. He says he has supervised the production of 50,000 voiceprints with 97 per cent accuracy.

Decision Imminent

MILWAUKEE (AP) — Circuit Judge Elmer W. Roller labored into the early hours today, trying to complete his decision in Wisconsin's antitrust suit against baseball with the Braves' Atlanta debut only hours away.

The white-haired judge, who is 64, would not pinpoint a time for the announcement of the verdict.

"I'm sure it will be today," Roller said, "but as for what time I'm not making any predictions."

The Braves, who left Milwaukee after 13 seasons here, are scheduled to open at 8:05 p.m., EST, in Atlanta against the Pittsburgh Pirates.

Wisconsin has asked the judge to order the Braves to return here this season if the National League failed to agree to an expansion team for Milwaukee by today. State attorneys have conceded any order by Roller's court could not be enforced unless it came before the Braves' first game in Atlanta.

Early today the judge was still working to complete the draft of his lengthy, complex ruling. A court aide said, "We've got more than 100 pages now."

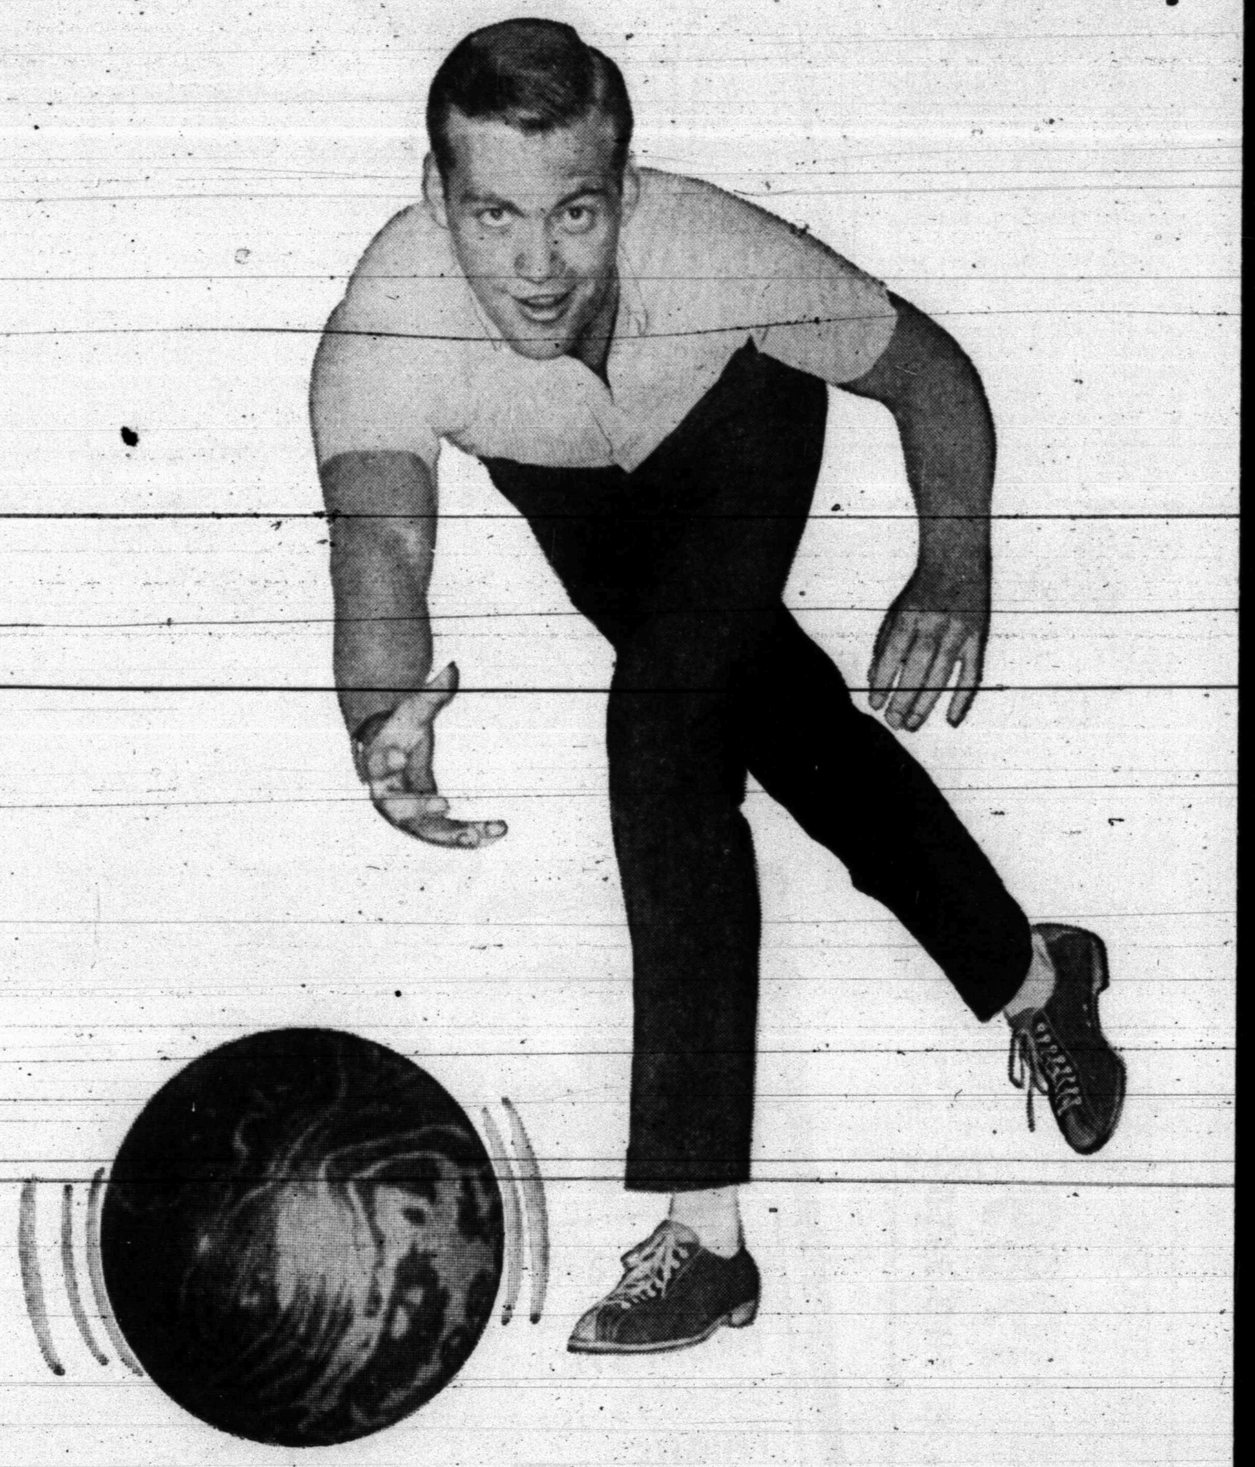

Judge Roller planned to finish the decision before dawn if possible, but it might be hours later before editing was completed and the decision could be copied and bound for distribution to attorneys and the press.

Public Notice

NOTICE: MEETING OF THE BOARD OF Equalization of the city of SNYDER, TEXAS.
