Ralph Matern had Mr. Langston and Mr. Wilson, of Houston, out fishing Saturday and Sunday and they caught 33 trout one day and 36 the next. Monday John Cox and his brother, Roy, caught 30 trout and three reds.

Fishing is better out at Rattle Snake Point now. The trout are biting and there are a few reds being caught.

Perry Jones' Wharf reports some good catches being made there Saturday and Sunday. One party fished in the rain Tuesday and landed a nice strip of fish.

Fred Christilles had several parties out last week and all came in with fish. City Policeman Requested of City Council

Officers and directors of the Rockport Lions Club attended the regular meeting of the city council held Tuesday night and requested that steps be taken to provide the city with a full-time city policeman as a result of the recent series of robberies and prowling.

A spokesman for the Lions told the council that a survey of businessmen in the city had shown that they desired the city to take action in obtaining police protection and that if funds were not available they would be agreeable to being assessed on a monthly basis to provide the necessary money.

Mayor Travis Bailey stated that the matter had been under consideration for some time and that at a previous meeting the council went on record as agreeing to set aside the sum of $75.00 a month towards a salary for the policeman. It was pointed out that the amount was insufficient and after consideration the council raised the amount to $150.00 per month and asked that the Lions take the matter up with the county and Navigation officials in an effort to obtain additional revenue so that a suitable man may be employed.

It was also decided that in the event that a policeman is hired, he be placed under the direction of Sheriff Arley Shivers with the county handling any cases necessary as the city was in no position to provide a jail, judge and attorney which would be necessary in the event of an arrest.

The Lions Club expressed appreciation for the consideration given the matter and stated that other officials would be contacted in the near future.

Fire Chief Charles Ankele told the council that word had been received from State fire officials pointing out the need for additional fire phones and other equipment in the city due to the increased growth of the city. He asked that the city provide the necessary equipment for the volunteer fire department. Mayor Bailey told Ankele that if he would present an outline of exactly what was needed and the approximate cost he was certain that it would be approved by the council.

At this meeting the council also met as a board of equalization, hearing several persons with complaints as to assessments.

County Fogging For Mosquitoes

Mosquitoes are quite prevalent in Aransas County since the rain has started falling. The county has been fogged, but they have not been able to keep them down as it rains and washes the spray away nearly every day.

Judge John Wendell has phoned Dr. George Cox, State Health Officer, for advice and aid in regards to the mosquitoes.

Mr. and Mrs. Tom Wright went to Houston Tuesday morning where Mr. Wright will again enter the hospital for observation and possible surgery.

Humble Oil and Refining Co. No. 1 Aransas Bay State Tract, wildcat 1½ miles from Mills' Wharf, kicked at 9,411 feet and Friday was drilling at 9,452 feet. Before 7-inch casing was set at 9,310 feet, this well had kicked around 9,285 feet.

Sun Oil Co. No. 1 State 67, Aransas Bay wildcat southwest of Lamar, was drilling in shale at 4,318 feet Friday.

George W. Graham and Emory Spencer yesterday were starting a new Fulton Beach area wildcat in Aransas County at their No. 1 Jewel Fulton.

A TG&M rig is slated to spud this test over the weekend. The Graham and Spencer wildcat, permitted to 8,000 feet, is slated to try for the E-1 and E-4 Sands.

Location is 467 feet from the northwest corner of Fulton Outlot 118, but in Outlot 117, and is about 2,000 feet southwest of nearest production.

In Copano Bay, Sun Oil Co. No. 8 Copano State 76 was drilling in Shale Friday at 9,428 feet. It has 7-inch protective casing set at 9,353 feet.

In West Fulton Beach Field Phillips Petroleum Co. No. 13 Copano State was testing Friday on perforations at 6,960-85 feet. This venture is in State Tract 66.

Union Producing Co. No. 5 Virginia Tatton wildcat north of Lamar just off State Highway 35, was drilling Friday at 8, 361 feet, with mud logger attached on a possible 12,999-foot test.

In Fulton Beach Field, Sun No. 7 Copano State 69 had squeezed B-6 Sand perforations at 7,156-58 feet, where it made salt water, and Friday was swabbing salt water on B-5 Sand perforations at 7,135-41 feet. Phillips No. 19, in Tract 34, had surface casing set and was at 1,053 feet waiting on cement, and its No. 18, in Tract 43, was moving in rig.

Western Natural Gas Co. No. 16 St. Charles Ranch Co., discovery well of the St. Charles Ranch's first oil, flowed 240.12 barrels of 48.7 gravity oil on potential test through ¼-inch choke, under 375 pounds tubing pressure and 1,510 pounds casing pressure. Peforations, with 19 shots, were at 8,288-98 feet in the Frio. Gas-oil ratio was 816 to 1.

Western Natural's No. 14 St. Charles, new gas-distillate pay discovery for the Blackjack Field, made 3.27 million cubic feet of gas on open flow potential test from perforations at 11,460-490 feet. Gas-distillate ratio was 109,000 to 1; distillate gravity was 48.7 degrees, and shut-in pressure was 5,790 to 1. This well has been connected to the Trancontinental Gas Pipe Line Corp. system.

These wells are the second and third completions in the new Blackjack Field, which is 3 miles northeast of St. Charles Field in northeast Aransas County.

The Blackjack discovery was at No. 13 St. Charles, a gas-distillate well completed on perforations at 10,320-60 feet. The new field is on the Blackjack (St. Charles) Peninsula, between St. Charles and San Antonio bays and is about 30 miles south of Tivoli.

Western Natural and Continental Oil Co. hold equal interest in the 47,000-acre lease, which also includes the older St. Charles Field.

Anderson-Prichard Oil Corp. No. 1, J. F. Brundrett, wildcat 4 miles southwest of Rockport, still was waiting on rig yesterday for a permitted 8,000-foot venture slated to test all the Frio Sands found in the Fulton Beach, Mud Flats and Aransas Pass Fields.

The TG&M rig slated to drill this wildcat has been held up in Jim Wells County by muddy, almost impassable roads.

Sgt. First Class Ray Gilson has been recalled into active service in the U. S. Army for 24 consecutive months, unless released sooner. He will report for duty at Ft-Sam Houston, San Antonio, Friday Sept. 28, 1951.

MALCHAR CAFE ROBBED SUNDAY NITE

Sheriff Shivers reports that thieves broke into Malchar's Cafe and Drive-Inn Sunday night and stole the safe, taking it on a roller truck to the high ground east of the Union Fish Co., (Camehl's store) and loaded it on a truck. The safe was found Monday morning in the roadside park just beyond the Tulles. It had been opened, apparently with a sledge hammer, and all the money taken out, but nothing else was gone, even two gold watches were left in the safe.

There were no finger prints and two coke bottles by the cafe had cotton lint on them, apparently from cotton gloves. Malchar seems to have furnished everything the theives needed, the safe with the money, the beer truck and the cokes.

It is reported that the Model Cash Grocery was broken into the same night but nothing of value was missed.

Sheriff Shivers also says that he heard that a safe which was stolen in Corpus Christi was found on the road near Portland, Tuesday.

A. L. Bracht and sons, Arthur and Dudley, drove to Brownsville Saturday night and returned Sunday after visiting Charles and Eugene Bracht who are now out of danger after the recent auto accident. Eugene is still at Mercy Hospital, but Charles has been removed to his home.

How About a City Policeman?

Rockport citizens have always been proud of their city. Any suggestion for improvements to the city has always met with consideration and where possible the suggestions have been adopted. Ordinances have been adopted for the health and safety of Rockport citizens; efforts have been expended for recreational facilities for our children; the entire county strained every effort for the erection of a suitable meeting place for civic groups and they were rewarded when the Woman's Club Building was completed.

The 1951 census shows that Rockport has grown considerably in the past ten years. To keep up with the growth of the city the utility companies and the city officials have done a noble job in meeting the demands of an increased population.

However, there is one thing that is lacking. What about city police protection for the citizens and taxpayers? In recent weeks there have been quite a few crimes attempted and committed that might have been prevented had Rockport had city police protection. Just this week two robberies were reported. The sheriff's department has been on the job and have recovered a safe that was stolen and they are working on leads that will probably lead to the arrest of the guilty ones.

But the need is apparent for a city policeman, one that will devote his entire time to police duties. This man or men should be paid out of city funds, out of city taxes. We cannot expect the county to provide adequate city police protection for a city the size of Rockport. That responsibility rests with the city.

The question arises as to whether the city has funds available for this job. We believe that they have. The recent financial statement reflects a healthy situation in city finances, and we do not believe that a reasonable appropriation would cripple the city.

In the event that the city would not be able to raise enough money to properly compensate a man or men for this job, we believe that various businessmen and citizens in the city would help raise additional money to take care of the situation where we would have a fulltime policeman and attempt to curb the various crimes that have been committed and attempted recently.

The Pilot would appreciate Letters to the Editor expressing sentiment of taxpayers. Let's get behind this important job and try and get some action.

Commissioners Accept Grant To Build 11.6 Miles Pavement

New Highway Will Run Through Sparks Colony, Copano Village And Connect Highway 35 South Of Copano Bay Causeway

At a meeting of the Aransas County Commissioners Wednesday morning a resolution was passed accepting a grant of approximately $150,000.00 from the Texas Highway Department for the construction of 11.6 miles of farm-to-market roads in Aransas County.

County Judge John Wendell received a letter this week from G. M. Garrett, Deputy State Highway Engineer stating that the Highway Commission had approved the construction of the road which would run 3.2 miles connecting Farm-to-Market Road 881 with Highway 35 in San Patricio County, starting about 7 miles southwest of Rockport. The other 8.4 miles of road would start at Market Street, west of Rockport, and run through Sparks Colony, Copano Village, the County Airport and Redfish Point, connecting with Highway 35 just south of the Copano causeway.

The County does not contemplate having to purchase any right of way as property owners have expressed their willingness to donate same, with the fencing being the only expense. Upon completion of the road it will be state maintained.

The completion of this project will be of great importance to the county, supplementing the existing roads that the county has and creating a network of hard surface roads on Live Oak Point which is the most thickly populated section in Aransas County.

In addition to serving farm and cattle areas it will serve an area that is being developed for oil, namely Copano Field, West Fulton Beach Field, Fulton Beach Field and Salt Lake Field.

It is estimated that these four field will eventually produce 100,000,000 barrels of oil with extensive development being done in the bays. At the present time drilling barges operate off of two principal dock sides. Phillips Petroleum Company Dock on the north end of the peninsula and the Sun Oil Company Dock at Copano Village on the west shore.

The erection of the Reynolds Metal plant at Ingleside no doubt played a part in obtaining the new road as it will make a straight and short route to the plant from the local oil fields. The extensive developments by Sun Oil Co., Phillips Petroleum Co., Stanolind Oil and Gas Co., Hunt Oil Co., and Renwar Oil Corp., also added greatly to the necessity of this road.

Without the grant from the Highway Commission the construction would have been a great burden upon Aransas County as a bond issue would be the only solution as their income from road and bridge funds is barely enough for the maintenance of the road now built.

Negotiations leading up to the obtaining of the grant were handled by Emory M. Spencer, who appeared before the Commission in 1950, submitting a special map outlining the need of the roads.

Boy Scout Drive Will Be Launched With Kick-Off Breakfast

Plans are being made this week for the annual Boy Scout drive for funds, J. F. Brundrett, general chaiman of the Rockport drive said this week. The drive will be launched here on October 17 with the traditional kick-off breakfast.

Brundrett attended a finance set-up meeting in Corpus Christi last Thursday where plans and methods for the drive were discussed. Workers are being recruited this week. The local drive will be a part of a simultaneous drive being held in the fifteen county area comprising the Gulf Coast Council of the Boy Scouts of America.

Funds will be used to operate the Scouting program for 1952 and involves over 7,000 boys from the age of eight years and up. Awards and badges, training, field service, special events and camping are a few of the items listed on the budget. Part of the funds will go into operating costs of Camp Karankawa on Lake Corpus Christi at Mathis. This modern camp is operated by the Gulf Coast Council for use of all boys throughout the year.

Mrs. Edna Hollis Hit By Truck

Mrs. Edna Hollis, first grade teacher in the Rockport Elementary school started to turn into her home on Highway 35, Tuesday about noon and her car was hit by a Pearl Beer truck.

Sheriff Shivers says that Mrs. Hollis was driving east on the Highway and gave the signal for a left hand turn, but the truck driver coming from the east could not stop after he saw her. Mrs. Hollis did not think she was injured at the time of the accident, but was later taken home from school and put to bed.

The truck hit Mrs. Hollis' car on the side opposite the driver, pushed the door open and shoved the seat with Mrs. Hollis on it outside of the car and stopped with the hood of the truck about half way inside the Hollis Ford.

Surf Will Celebrate Motion Picture Jubilee With Varied Stunts

Manager Ed Barnard of the Surf Theatre has announced that during the motion picture industry's nationwide jubilee celebration now in progress, he has cooked up a few appealing stunts designed to further catch the eye of the show going public in this community.

For example, every Saturday afternoon for an indefinite length of time, the cashier at the Surf will ring quite a few families asking a question relative to the Surf's program. The correct answer will bring free passes for the entire family. This is designed to call the attention of the public to the fact that the Surf is open all Saturday afternoon now, and also encourage patrons to keep the new monthly calendar programs, which are coming out October 1st, close to their telephone or at some other ready reference place about the house.

Attention of all teen-agers is called to the date of October 9, at which time the Surf is holding a "Teen Turn-About" show. On this night, which brings to the screen a ghostly double feature, of Dracula and of Frankenstein, every teen-age girl who brings a teen-age boy at the late show which will begin about 9:45, she and he will both be admitted for only 50c.

That same week brings to the screen the highlight of entertainment for all members of the family, one you simply must see, the glorious technicolor production of the life of Christ, "The Prince of Peace."

On Sunday, Oct. 28th, Coach Chas. Roe will be invited to bring his entire football squad to be the guests of the Surf to see a picture relating to one of the greatest of all atheletes, "Jim Thorpe, All American," starring Burt Lancaster.

Watch for many fine attractions! The Eyes of Texas are on the Movie Screens!

From where I sit ... by Joe Marsh

Skip Makes a Slip

Miss Gilbert, the teacher, was telling me how Skip Lawson almost went to sleep in her physics class.

She noticed him nodding and—since they were discussing electricity—said in a loud voice: "Now maybe MR. LAWSON will explain what electricity is." Skip started up, looked around wildly, and blurted out, "Gee! I used to know, but I forgot."

"What a loss to science!" sighs Miss Gilbert. "No one to this day knows what electricity really is, and here we have a genius who could explain it—but forgot!"

From where I sit, I hope this taught Skip that you're better off if you admit you *don't* know all answers. Some grownups haven't learned that yet—like the ones who are always telling other people what's best and what's right and what's wrong. I like a temperate glass of beer, myself, but if you prefer buttermilk I won't argue. I've seen too many "know-it-alls" turn out to be wrong!
