Chamber Plans Fishing Tourney

Shrimporee Starts Friday, October 10

Aransas Pass is poised for the opening Friday, Oct. 10 of its famed three-day Shrimporee Festival. From the moment that morning when Mayor Moreland Bexley declares the Festival officially open until Sunday night when the last of the fireworks sky rockets roars into the sky, those attending will enjoy an action-packed variety of events.

Friday will see a contract-signing ceremony on the water front marking the start of a year-long shrimper crew training program, a dedication ceremony and flying exhibition at the recently completed improved airport in the city, a carnival and a street dance featuring Little Willie's Band from Corpus Christi.

Also starting that day will be a three-day golf tournament for men and women at the local Live Oak Country Club and fishing tournaments for bay fishermen and tiny tots.

Three big events will take the spotlight Saturday. At 11 a.m. a big parade will start in the downtown area with bands, floats, marching units and beauties vying for the applause and trophies to be awarded outstanding entries.

Following the parade, a shrimp boil dinner will be served at Lone Star Park while band members attend a fish fry put on for them by the local VFW Post and the visiting dignitaries attend a reception hosted by Shrimporee officials.

At three p.m. Saturday, four beauty contests will be held at the local high school Compton Hall. Girls from two to twenty will compete for titles, trophies and merchandise prizes.

Centennial To Start June 14

The 100th anniversary of the founding of Rockport and Aransas County will be observed with a week-long community celebration starting June 14, it was announced Wednesday by Mayor Delmar

R. Hiller, president of an non-profit corporation organized to stage the affair, and Robert C. Stroot, general chairman for the celebration.

Stroot emphasized that the whole-hearted cooperation and participation of the residents of this area is essential to the success of the centennial celebration. To encourage such participation, Stroot has called a public meeting for 7:30 p.m. Tuesday, Oct. 21 at the Rockport-Fulton auditorium.

At this meeting, Sam Grogg, representing the Rogers Co. of Fostoria, Ohio, which has been engaged to direct and supervise details of the birthday celebration, will outline the program, point out anticipated benefits to the community and describe how his organization will provide the professional leadership.

Stroot explained that the Rogers Co. has specialized in staging community celebrations for the past 60 years in all parts of the country. During that time the firm has directed more than 4,000 such events, he said.

The city of Rockport and Aransas County agreed to sponsor the celebration with joint resolutions passed by City Council and the County Commissioners Court. It is anticipated that the community-wide celebration which is expected to attract thousands of visitors from nearby cities and smaller communities will be self-liquidating. To finance it shares in the non-profit corporation will be sold at \$1 per share with provision for refunding the money if sufficient revenue is received from the various money-making events of the centennial celebration, Stroot explained.

Highlight of the seven-day celebration will be an out-door historical spectacular to be presented on a large stage in the local high school football stadium the last four nights. More than 250 local residents in appropriate costumes will take part in the spectacular which will have professional training and direction by Rogers Co. representatives. The production firm will write the script and provide costumes, stage properties and lighting effects.

Special days featuring important elements or organizations in the community will be designated and will include parades, displays and performances. There will be Governor's and Homecoming Day, Pioneer and Ladies Day, Sun-Fun Day with appropriate water-related activities, and Merchant and Youth Days. EDITOR'S VIEWPOINTS

THIS WAR-TORTURED GLOBE

Surely, it is a troubled world. We Americans are so tortured by Vietnam that we forget the other bleeding sores on the face of the globe.

Next door to Vietnam is Laos, where a civil war that is also an International war has been going on for a decade. And next door to Laos is Thailand where the first rumblings of another of these wars can be heard in the north. A good jump to the westward, India and Pakistan glare at each other across two long and tenuous frontiers. Westward again lies the new Republic of South Yemen, formerly the British crown colony of Aden and the South Arab Protectorate. It is a lawless area at best, and the government accuses neighboring Saudi Arabia and the United States of stirring up civil war.

In another neighboring country, Yemen, a civil war between republicans and monarchists has been going on for at least six years. The Egyptians and the Soviets are urging on the republicans; the Saudis are helping the monarchists. Further to the north lies Israel, in a permanent state of war with Egypt, Syria, Lebanon, Jordan and Iraq. And Iraq had a permanent civil war going with the tough Kurdish tribesmen in the north.

Onward into Europe, and find the Russians sitting on top of the Szechs. Across the border in West Germany, the NATO allies are worrying where the Russians will want to sit next. Still moving westward we find Portugal wearying of the wars in its African colonies that have been going on for eight years. Portugal's neighbor, Spain, is nudging the British to get out of Gibraltar. Across the South Atlantic, Argentina is nudging the British to get out of the Falkland Islands. In what remains of white Africa, Rhodesia, which took itself out of the British Commonwealth, is refusing to be nudged back in. Also Africa, Nigeria is fighting a merciless war against rebellious Biafra, and both sides are blaming their afflictions on the Americans, the British, the French, the Russians, and the Chinese.

With all this trouble in the world, you can bet the Irish wouldn't want to stand aside. And so, in the six counties of Northern Ireland that still give allegiance to the British Queen, the Catholics and Protestants are pelting each other with Irish confetti.

Let's silently thank Dick Nixon for taking our proxy to handle the whole mess.—Winston-Salem (N.C.) Journal.

AN ASTRAL CONFLAGRATION

Thirteen hundred and fifty years ago a great star in the constellation of Hercules burst. The intelligence of that vast conflagration reached the earth through the appearance of a very bright star in that group. Its brilliance was outdone by only eight other stars in the firmament.

An explosion of a mass of nitro glycerine as big as the earth would be like the burning of a match compared to the burst which occurred in the Herculan group. Yet it took the light of that vast explosion, travelling at 186,000 miles a second, thirteen centuries to reach our planet. The star in Hercules had a diameter of approximately one million miles. It hurled off its outer shell of gas which rushed away at the rate of one thousand miles a second. Thus a "nova" star was formed, although the name is a misnomer. There is little reason to talk of "new" stars.

If our sun burst, as did that star in Hercules 1350 years ago, the immediate result would be an outburst of energy that would overwhelm the solar system. All humans, animals and vegetable life would be blotted out.

Yet such awesome happenings are not infrequent

in the vast system of the universe. And we go blindly on in our little trivial ways, happily unconscious of the immensity of creations by which we are surrounded, and of the obscure part we play amid the giants of the sidereal heavens.—Brooks (Alta. Bulletin).

ADVANCE PREPARATION SPEEDS SOCIAL SECURITY PAYMENTS

When an application for social security benefits is filed, how long does it take to get the first check? The answer to this question depends in part on the preparation the applicant has made, according to H. M. Cleveland, social security district manager in Corpus Christi.

"Our personnel take pride in their handling of claims, but the key to speedy payment of claims is the claimant's ability to furnish proper information," he said.

As an example, Cleveland mentioned that proof of age and the worker's tax return for the preceding year are usually needed. The applicant is asked the amount of his total earnings in the last calendar year. Having a record of

his birth date and his tax return with him enables the applicant to give accurate information at the time of filing and thus avoid delay in the handling of his claim.

Earnings for the last year and the current year may affect the amount of social security benefits which can be paid. The person who comes prepared with this information can expect to receive his first check several days sooner than would otherwise be possible.

Joel M. Mixon, president of the county unit, announced that Mrs. Brymer will join more than 300 Texas delegates during the two-day session. Delegates will plan the 1969-70 program to be conducted by 25,000 Texas volunteers.

The meeting will begin with a board and membership orientation followed by group sessions on various A.C.S. program areas. Richard T. Lyons, Houston, Chairman of the Board of the Texas Division, said the State Leadership Development Committee planned the first day of the meeting. "The success of the A.C.S. in Texas for the next few years will be greatly dependent on the interest and participation of the volunteer leaders present at the meeting. The Society's greatest need is for active volunteer leadership to expand local service and educational programs designed to help more people protect themselves against cancer," Mr. Lyons said.

Allan K. Jonas, President of the California Division of the American Cancer Society, will address delegates at the leadership dinner.

Concerning cancer research, Dr. Hanes H. Brindley, Temple, President, of the Division said, the Society has 41 research grants at work in 11 Texas research institutions. These grants and fellowships represent an investment of \$1,181,376 in Texas.

Twenty-three committee membership, district and board meetings are scheduled during the second day's session.

The highlight of the meeting will be a dinner address by Dr. Edward R. Annis, Denver, Colo., past President and Trustee of the American Medical Association.

Cancer Society Holds Meeting

The regular monthly meeting of the American Cancer Society was held at the Islander Club at Key Allegro on October 3rd. President Joel Mixon called the meeting to order. Educational program material is being scheduled for the High School, Junior High and Elementary schools of Rockport.

Mrs. Helen Foster, staff member of the ACS, encouraged the use of the Mobil Unit. She also showed a thought-provoking film, "The Winners"—an eight minute film of real value to every adult.

The next meeting will be held Nov. 7.

Art Guild Gatherings

By

JAN WENDELL

Our artist of the month for October is Clem Northington. A comparatively new painter, Clem is currently showing a small but varied collection.

Northington has been painting for about two years and began his study with Mrs. Kit Dinger and is still one of her students. He has also studied with Bob Jarvis and Bill Brigl.

In the Gallery at the present time are four oils and one pastel. Clem has a love for animals and included in the showing is one pastel of a hound. It is true to fact and life size. Northington seems to capture an expression that is inherent to all Bassetts, Beagles, etc.

One whimsical oil is a painting of the Schoenstatt Chapel at Lamar. It also is realistically presented and includes a note of local color—the little nun walking up the path to church with her habit rippling in our southeast breeze.

Probably the stand-out of the collection is a fairly large painting of our surf breaking up to the shore. Northington did this study with the Bill Brigl class in July and it truly is a remarkable piece. The translucent water at the top of the break is quite well done and the whole painting hangs together in a startling way.

Clem Northington is on the board of directors for the Rockport Art Ass'n and is one of the most active members.

He has given so much of his time to not one but all of the

various projects of the Ass'n. At the present time Bob Garden's art class continues on Tuesday afternoon in the Gallery from 1 to 4. The class is not filled at the present and there is room for quite a few more students.

There will be an important aims and goals meeting next Monday night at the regular meeting of the Art Ass'n. We will also have a guest speaker. The meeting will be at 7:30 p.m. at the Gallery.

PROCLAMATION

School Lunch Week
October 12-18, 1969

In recognition of the value and achievement of the National School Lunch Program, the Congress, by a joint resolution of October 9, 1962 (76 Stat. 779) has designated the seven day period beginning on the second Sunday of October in each year as National School Lunch Week, and has requested the President to issue annually a proclamation calling for the observance of the week. The President of the United States has declared October 12-18 School Lunch Week for the Nation.

A well-nourished, healthy, intelligent child is the most precious asset America can possess.

It is vitally important, therefore, that every American child be offered an adequate diet and taught good food habits, no matter where he lives or how much or little his parents earn.

The National School Program is a major factor in achieving this goal. For 23 years this program, a federal-state-local activity, has helped millions of youngsters obtain low-cost lunches at school. In the 1968-69 school year, 20 million children benefited, but how many children still are seriously malnourished—because their families lack knowledge of a good diet or money to buy one. The consequences of malnourishment

are often poor health and diminished intellectual powers.

To help prevent these human tragedies, the Nation will put still more money and manpower into teaching good nutrition and providing new and expanded food service for children. These services will include more free or reduced-price lunches in needy areas, breakfast at school for more children, and food service for children not yet in school or in day care centers.

In keeping with the theme of the American School Food Service Association President to, "Tell The School Lunch Story—Tell It Like It Is," the National School Lunch Committee has planned a universal menu which we hope every school in the nation will serve Wednesday, October 15, 1969. Think of 27 million children eating the same lunch on the same day all over the Nation.

Therefore, I as Mayor of Rockport, do hereby designate the week of October 12-18, 1969 as SCHOOL LUNCH WEEK in Rockport, Texas.

IN OFFICIAL RECOGNITION WHEREOF, I hereby affix my signature and place my seal this 6th day of Oct., 1969.

S/DELMAR HILLER,
Mayor, City of Rockport, Texas.

Lung cancer will kill 59,000 Americans this year, but the American Cancer Society says it could be largely prevented if no one smoked cigarettes.

NATURE TRAILS

By
CONNIE HAGAR

"All over upland and lowland, the charm of goldenrod. Some of us call it autumn but others call it God."

—W. H. Carruth

Here we are at the turn of the season and sunflowers, goldenrod, cosmos and Huische daisies make the roadsides yellow. On the north beach road ageratum adds a beautiful lavender touch with its mist flowers.

The exciting news now in the bird world is a new bird for Texas, as far as being re-

ported. On FM 1781 a Clarks nutcracker has been present for several days. This is a stranger to our coast. A fine birder from Austin discovered the stranger, came in to report, and out we went. Yes, there was a bird from the West Coast timberline of the states of Washington and Oregon feeding on crickets, grasshoppers and small worms near the side of the road. Were we delighted.

Humming birds are feeding on Mexican apple blossoms at the end of the peninsula, ruddy turnstones are turning oyster shells and feeding on the beaches, Herring gulls and ring bill gulls are sitting with our laughing gulls in all three of their yearly plumages, and dowitchers have arrived for the winter.

Long bill curlews and willets are on the shore and feeding in the grass, and one lady asked me, "What bird has the black and white stripes of a convict's suit?" It was a little killdeer which nests with us on the shell spots.

One of the outstanding Texas birds lining the wires on their flight south is the scissor-tail flycatcher, the only bird that leaves us in brighter plumage than the springtime plumage.

The high tides and rough beaches are not conducive to good shelling, but if you can miss the jellyfish you will find a few, so just look, look, look and nature will repay you.

Chamber Happenings

The Chamber of Commerce welcomes two new members: Key Allegro Isle Marina which took out a regular membership, and Jan Petropoulos who was signed up for a personal membership.

Refreshments at the Chamber building this week for the hospitality program were supplied by Moody Electric Company. Thank you, Bud.

The Chamber of Commerce is considering placing an advertisement in the Des Moines (Iowa) Register extolling the attractions of the Rockport area as an ideal vacation place and for permanent residence. The Register has a tremendous circulation in the Middle West.

A report on Tuesday's meeting of the C of C Board of Directors appears elsewhere in today's Pilot, setting forth some of the projects coming up, such as a fishing tournament for winter visitors.

This and That
*
JOHN KINSEY

Occasionally you hear someone complain about being bored and lonesome. "I hardly know anybody and no one asks me to take part in local activities," such person will moan.

On the basis of personal experience, it is my opinion that there is no reason for anyone to feel this way. There are unlimited opportunities to do things for the good of this community. In fact, leaders of various organizations are constantly looking for volunteers to help carry out projects.

Serving in this capacity not only gives a volunteer a good feeling for doing something worthwhile, but it also enables him (or her) to meet new friends and to become involved in a community action program.

In case anyone reading this column would like to pitch in, meet people and contribute some time and work for the benefit of others, here are a couple of suggestions:

1) The United Fund is getting set to conduct its annual

Voter Registration—

(continued from page 1)

Persons registering before they meet the age or residence requirements cannot vote until the requirements are met. Their registration certificates will show the date on which they will become eligible to vote.

Who must register during the regular period. All persons already meeting the requirements for voting listed above must register by January 31, 1970. They cannot register after that date.

Persons who will become 21 years old by January 31 must register by that date and cannot register later. (Persons becoming 21 after January 31 may register during the regular period, and may also register at any time afterward but must have been registered for 30 days before they can vote on the registration.)

Persons who were residents of Texas on October 1, 1969, must register by January 31, 1970, regardless of whether they will have met the one-year residence requirement by that date and regardless of whether they will have lived in the county of present residence for six months. (Persons moving into Texas after October 1, 1969, may register during the regular period, and may also register at any time afterward but must have been registered for 30 days before they can vote on the registration.)

Where to register. A person must register as a voter of the county and precinct where he has his permanent residence (domicile). He makes his application for registration to the county tax assessor-collector of that county. This application may be made either by mail, on a voter registration application form which can be obtained from the assessor-collector's office, or by personal appearance in the assessor-collector's office or before a deputy who has been authorized to serve at some other location.

There is no charge for registration.

Application through an agent. The husband, wife, father, mother, son, or daughter of a voter may act as the voter's agent in applying for registration if the relative is a qualified voter in the same county. Except for these listed relatives, which do not include persons related by marriage (in-laws), no one may act as agent for the voter in applying for registration.

fund raising campaign. Money raised during this drive will be allocated to participating agencies, and the result will be that one campaign will take the place of several individual drives by the agencies.

At a recent meeting of the United Fund executive committee, President Lola L. Bonner expressed the hope that many persons in this area would become volunteer workers to help assure success for this year's campaign.

If you are interested, contact Drive Chairman Pat Smith at Rockport - Fulton Junior High School, Secretary Loyce Landrum (729-6445), or call me.

2) The Chamber of Commerce offers a good opportunity for service to the community. In recent months, a number of non-business persons have taken out personal memberships for \$12 a year and have offered to devote part of their spare time to various projects.

One project now being planned is a fishing tournament for winter visitors to be conducted from Nov. 15 to Mar. 15. To make this a success, a lot of help will be needed. If you'd care to assist, please let me know.

ROCKPORT DEFEATS—

(Continued from Page 1)

fourth quarter Mathis completed a 32-yard pass for a touchdown and made the conversion. Mathis kicked off, Rockport fumbled and Mathis completed a 42-yard touchdown pass only three minutes 20 seconds remaining. At this stage Mathis led 18 to 16.

Mathis kicked off and Rockport took over, moving closer and closer to the Mathis goal line as the seconds ticked off. With very little time left, Rockport made a 25-yard touchdown and completed the conversion.

Rockport kicked off and Mathis moved deep into Pirate territory, but the clock ran out and the game ended with Rockport winning 24 to 18.

The following field report was compiled by Robert Crawford:

First downs: Rockport 19, Mathis 17.

Yards rushing: Rockport 346, Mathis 222.

R. Brooks carried 15 times for 173 yards, or an average of 10.9 yards per carry.

P. Perez carried twice for 14 yards, or a 7-yard average.

Huff carried 16 times, gained 103, averaged 6.5.

Davis carried 12 times, gained 56 yards, averaged 4.7.

Outstanding defensive players for Rockport were P. Lusby, A. Crawford, R. Brooks and T. Deason.

Centennial To—

medals will be sold to help finance the affair, and are expected to become treasured keepsakes, Stroot said. Also, a souvenir historical booklet and program will be published. It will include advertisements by local merchants, individuals and organizations.

Because more than 400 local residents, in addition to members of the spectacular's cast are expected to participate in the planning and execution of the centennial celebration Stroot has urged a large attendance at the Oct. 21 meeting at the high school. Stroot pointed out that the celebration is planned as a gigantic community fun-fest as well as an expression of pride in the past and confidence in the future of Rockport and Aransas County. "Certainly it will be the biggest civic event ever staged in this community", he declared.

In addition to Mayor Hiller, directors of the celebration-sponsoring corporation are John D. Wendell, James H. Sorenson, Jr., and Emory M. Spencer, vice presidents; John E. Ross, secretary; J. D. Gray, treasurer, and Russell Itschner, John Lewis, John Mitchell, Harold Picton, Mrs. Juanita Wagley and Sam Wilcox.

Members of the Executive Committee are Stroot, the general chairman; Mrs. Jan Wendell, headquarters chairman, and Gray and Ross. In addition, the following division chairmen are members of the committee: Robert Mosier, revenue; Mrs. Ruby Hart, chairman for ladies, and Matt Scott, chairman for men, on the participation division; Joe "Pepe" Zambrano, spectacle tickets; William Christian, spectacle; David H. Crooks, public relations, and Robert Hall, special events division, with Dr. J. Martin Shaw as chairman of the special days committee.

Committee chairman for each of six major divisions will be announced soon, according to General Chairman Stroot.

Membership in the UN has now reached a total of 236 nations.

Fire Department Holds Meeting

The Rockport Fire Department met Oct. 2. The meeting was called to order by president Charles H. Smith. Twenty-four men answered roll call. The regular order of business was carried out. Committee reports were heard. Refreshments were furnished by Miss Sara Bell Smith.

The brush fire on Sept. 27 caused damage to the area from the city dump to Donnie Drive and endangered several homes. The Fire Department would like for all people to use precaution in burning brush or trash, even outside the city limits.

On this fire, calls were made to the Fulton Fire Department to help. They sent two trucks. Rockport Fire Department had four trucks and the emergency wagon. All together, 14 men from the Rockport Department and six from the Fulton Department answered the alarm. It took them three hours to extinguish the fire.

Jordan is about the size of Indiana.

Uncle Sam's Selective Service

Editor's note: Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 209 W. Ninth Street, Austin Texas, 78701. He will welcome your questions.

Q—I am a widow with grown children and might want to give some time to the Selective Service System. It is true that women can be members of draft boards? If so, what are the qualifications?

A—Women can serve on local boards. Board members are appointed by the President upon recommendation of the Governor. A board member must be a citizen of the United States, at least 30 years of age, and a resident of the county in which the local board has jurisdiction. If the jurisdictional area of the board is part of a county, the person must be a resident of that particular area in the county, if at all practicable. Members of the armed forces and reserve components cannot serve on local boards.

Q—I am a junior in high school, age 17½. My doctor says I will not be drafted because I have high blood pressure. Will I still have to register and take a physical examination?

A—You must register upon reaching age 18, or within 5 days thereafter. When you complete your questionnaire, you may attach a statement from your doctor as to your physical condition, however, you may still be required to take a physical examination given by the armed forces to secure a final determination of your acceptability for service.

DDD makes calling Long Distance almost as fast and easy as dialing a local call.

Just a few spins of your telephone dial and you're talking to Dallas... or San Francisco... in a matter of seconds.

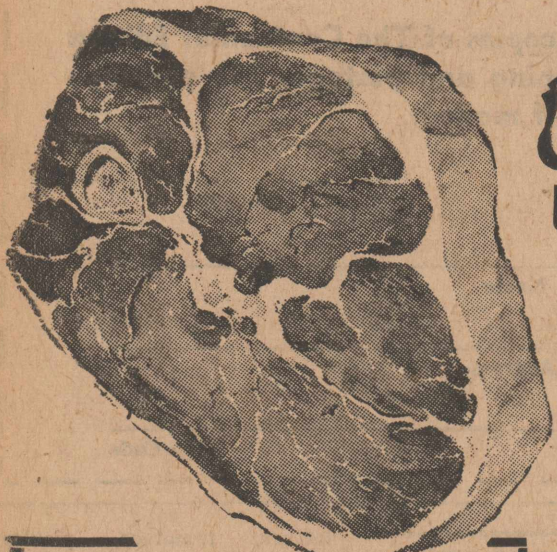

It's easy, too. You simply dial "1," then the Area Code if it's different from your own, then the telephone number. Direct Distance Dialing lets you dial your own Long Distance Calls to thousands of cities and towns throughout the United States and Canada at low station-to-station rates.

Check the front pages of your telephone directory for a handy list of Area Codes and full information on DDD. It's one of many services that help make your telephone a bigger bargain than ever before.
