The Scurry County Times

OFFICIAL NEWSPAPER FOR THE CITY OF SNYDER AND SCURRY COUNTY AND SNYDER SIGNAL WEST TEXAS' LARGEST WEEKLY NEWSPAPER

SNYDER, TEXAS.—The busiest small city in West Texas, inhabited by the busiest people living and the best in the world!

VOLUME XLIII SNYDER, TEXAS, THURSDAY, AUGUST 22, 1929 NUMBER 10

Well Spuds In Near Old Camp Springs Hole

Large Crowd Attends Ceremonies at County's Newest Well

Oil operations were resumed last Friday in the Camp Springs sector with the spudding in of the J. O. Quinn No. 3 being drilled by Duluth, Minn., interests with J. G. Annand local representative, as trustee.

The new test is located exactly 1,000 feet south of the old Camp Springs Oil & Refining Co. test on the Southeast quarter of Section 12, Block 3, H. & T. C. survey, Scurry County.

Gruber & McGinley are the drilling contractors. The contract calls for a 3600 foot hole, but "China is the limit," Mr. Annan said Friday afternoon when the well was spudded in.

The old hole was abandoned several months ago because of the loss of a string of tools in the hole and the buckling of casing. One or two fairly good showings of oil were encountered in the former well, and it is expected to pick up this stratum of sand at around 2,500 to 3,000 feet.

A large crowd of people from Camp Springs, surrounding country and Snyder was present at the spudding in. O. P. Thrane made a short speech in which he assured the drillers and Mr. Annand that Snyder and Scurry County were interested in their undertaking, as evidenced by the large attendance.

All-Texas Tour Is Praised By Carlsbad C of C

The following telegram was received by Wm. A. Wilson of Lamesa, secretary of the Dal-Paso Cavern Highway Association, from the Carlsbad Chamber of Commerce, and bespeaks the opinion of this organization of the value of the recent motorcade that was routed of this highway and through this city:

"The splendid publicity and personal contact preceding the Dal-Paso Cavern Highway motorcade not only brought together the good people of Texas on a trip of pleasure and enjoyment but established good will along the route and was very largely a contributing factor in bringing to Carlsbad Cavern on Sunday, August 4, the largest attendance particularly from Texas in the history of the world's most beautiful attraction. We regard the Dal-Paso Highway as affording the people of Texas a choice loop highway to Carlsbad Cavern from points in East Texas."

Last Labor Day was the high record set for attendance in the Caverns with 1034 registering on this day. Last August fourth, 1187, of which 834 were Texans, went thru the Caverns. This attendance was brought about largeby by the great publicity given the All-Texas Tour which was run over the Dal-Paso Cavern Highway. All citizens living on this highway are urged to call the attention of their friends and relatives at all times to this short-cut route to the Caverns.

STATE FAIR CIRCUS HAS MANY ANIMALS

The largest "traveling zoo" in the world will be seen at the 1929 State Fair of Texas, when the Hagenbeck-Wallace Circus plays a 32-performance engagement as the grand stand attraction. The Hagenbeck-Wallace circus has the largest number of trained and performing wild animals and the largest menagerie in the circus world.

The Hagenbeck-Wallace Circus was organized years ago by Carl Hagenbeck, the greatest animal man in the entire world, and B. E. Wallace. The circus was formed in order to educate the circus public to the merits of wild animal acts in a show, and also to give the Hagenbeck wild animal farm in Germany an outlet for their trained animals. Most all of the performing animals seen in circuses today come from the Carl Hagenbeck Tierpark near Hamburg, Germany.

In addition to their performing lions, tigers, hyenas, leopards, panthers and zebras, the Hagenbeck circus will bring to the State Fair the largest number of performing elephants ever banded together in the history of the circus.

The Hagenbeck-Wallace circus was seen by many in Snyder last October.

TRUSS WELL DOWN 800 FT.

The John R. Truss No. 1 well was reported down to the 800 foot level yesterday morning and still in the sand.

A very slight shower fell Tuesday evening—which we hope is the forerunner of a real soaking bit of wet rain.

Highway Bond Election For Fisher Is Set

Scurry County Should Be Next to Present Petitions

Petitions asking an election to vote road bonds in the amount of $1,400,000 have just been presented to the commissioners court of Fisher county, and date of election set for September 28. Of the amount $190,000 would be used to take up bonds previously voted, while the remaining $1,210,000 is to be used in construction of permannet roads and drainage structures through the county.

With state and federal aid it is hoped to pave highway 70 north and south and highway 83 east and west through the county, the remaining money to be spent on lateral roads, giving Fisher county one of the best systems of roads in this section.

Thus Fisher county, Scurry's neighbor on the east, continues to make efforts to pave her highways. Of especial interest to Scurry county is the proposal to pave Highway 83, the Dal-Paso Cavern highway, which passes through this county.

According to the prominent road boosters of Fisher county, the road bonds have a better chance of passing this time than at any previous time. They say that the concensus of opinion has changed and that men who bitterly opposed the elections heretofore are favoring this bond election.

This looks as though the buck will soon be up to Scurry County. If the bond issue carries, tourists from the east Scurry county line all the way to Fort Worth and Dallas. But how about the thirty-odd miles through Scurry county?

Snyder Girl Weds Lubbock Man in the Air

Accompanied by the rythmic droning of the three motors of a 16-position, Ford cabin monoplone, a Lubbock couple Sunday morning participated in the South Plains' first aerial wedding.

High in the air over a drowsy city, Miss Cornelia Grantham, daughter of Mr. and Mrs. R. C. Grantham, 2422 21st street, former Snyder resident, became the bride of Allan Moses, newspaperman, as the age-old vows were pronounced by the Rev. Walter P. Jennings, pastor of the First Christian church. Take-off was made at 8 a. m., at Municipal airport with Pilots Basil Sims and Dale Seitz at the controls.

Included in the party were the parents of the bride, Mr. and Mrs. Clarence W. Moses, 2624 21st street, parents of the groom; Miss Vera Nell Grantham, of Snyder, maid-of-honor and sister of the bride; Newton Jenkins, Lubbock, best man; and Charles A. Guy, local newspaperman. The ceremony was held as the plane circled the city and immediately following the landing the young couple left for several days' wedding trip to Central Texas points.

The bride was a popular student in Snyder High School for several years and recently removed from Snyder with her parents to Lubbock. The Times-Signal extends congratulations and joins with the many friends of the family here in wishing the happy couple success and happiness.

J. H. HOLLEY, 85, OLD TIMER IN THIS CO., DIES AT IRA

J. H. Holley, 85, died of heart disease last Tuesday at his home in Ira. He moved to Ira last November but had been a resident of the Ira community for 37 years.

Funeral services were held Wednesday afternoon at 3 o'clock at the Ira tabernacle with Rev. A. D. Leach, pastor of the Ira Baptist Church, conducting the services, assisted by Rev. J. W. McGaha of Snyder and Rev. Jones of ost.

Mr. Holley leaves two sons, Judge Horace Holley of Snyder and Loyd Holley of Ira, and three daughters, Mrs. P. M. Shamburger of Snyder and Mrs. J. C. Brown and Mrs. J. O. Hayes of Portales, N. M.

Interment was made in the Ira cemetery.

The entire community grieves with the family in the loss of this pioneer citizen.

C. E. ROSS NOW MANAGER FULLER GIN AT HERMLEIGH

Chas. E. Ross has been named by the Fuller interests as manager of the Fuller gin at Hermleigh for the coming season. The deal was consummated yesterday, and Mr. Ross has already assumed his duties.

The Ross family will move to Hermleigh soon. Mr. Ross was with the Lambeth-Ely gin here last year and has been in the ginning business for many years. Charlie is well known in this county and will find a hearty welcome awaiting him and his family at Hermleigh. Although Snyder will still have a claim on them, it is the sincere wish of the Times-Signal that they succeed in their new field.

Material Being Hauled for Test Near Fluvanna

To Spud in Five Miles Southwest of Truss No. 1 in Near Future

Material is being hauled and the slush pit is being dug in preparation for the drilling of an oil well five miles southwest of Cottingham and Briscoe Truss No. 1 now drilling at 575 feet in Scurry county. The new location is 1,320 feet east of southwest corner and 150 feet north of south line of section 355, block 97, H. & T. C. survey, Borden county, and was made by Teas and Wheeler of Colorado, Texas. Drilling will begin within thirty days.

Duluth, Minn., interests spudded in one mile south of Camp Springs Friday afternoon one thousand feet south of the old hole which was abandoned because loss of tools and buckling casing several months ago.

The J. Wright Mooar No. 1 Magnolia, 12 miles northwest of Snyder is expected to spud in this week.

A move is on foot to drill another test six miles north of Fluvanna soon.

Jamison Says Vocational Ag Prospects Good

I have been in Snyder for some seven or eight weeks and in this brief time I can say I have never met with more hospitable people. By having made this impression on me, I feel like I am a full fledged citizen now; and will continue act as such, assuring you that I will strive to be an asset to your community life and town, and your splendid school system.

I have been hired in your school system as Vocational Instructor, the place formerly held by Mr. C. C. Redman. Confident of the splendid work done by Mr. Redman in your community and school, I feel I will have a task to continue with the program and standard which he set for me. But with your co-operation and support in the work I feel confident of victory in the undertaking.

I have gone over all the reports and records on file in the Vocational Department; visited a goodly number of the boys who had Vocational Agriculture last year; made a number of farm surveys, and I am assured of the splendid work last year and am pleased with the prospects for a big class this year in high school.

If you are in high school another year and want to talk over the program of work with me I would like to meet you. We can decide on a project and get acquainted. You understand if you take Vocational Work you will carry a project for at least six months supervised practice work and keep records on the cost and returns from your work.

I would like to say, the County Fair is not far in advance and I will expect all the Vocational Boys to make some contribution ot the fair. The Vocational Department in the school will have several Educational booths at the fair, so let's get to thinking about our fair, talking about the fair, preparing for the fair, and it will be worthwhile to you and the community.

If I can be of service, command me, and I am at your services in town or community.

J. P. JAMISON.

Bands Entering State Contest

Many bands are already entering the Statewide Band Contest to be held as one of the many features of the 1929 State Fair of Texas, Oct. 12 to 27, according to word from Earl Irons of Arlington, chairman of the Texas State Band Teachers Association contest committee, under whose auspices the statewide contest is being held.

This will be the first statewide band contest ever held in Texas.

Prizes totaling more than $10,000 are being offered the winners in the fifteen classes into which the bands have been divided for contest purposes.

The Snyder Municipal Band will enter this contest and will be in the six-month class. Already, Director J. W. Crowley is preparing his concert numbers for this event and expects to have a fine six-month aggregation at the fair.

CAPT. NUSBAUM HOME

Capt. Cyrus Nusbaum, who has been enjoying some fine meetings up on the Plains has been spending the past week here, and taking a short rest. He will open up a festival week at Claude, Monday. Capt. Nusbaum is one of the greatest Good Will builders in the world, bar none, with a group of common sense talks that go over in a big way wherever he appears. The world needs more chaps of the size and type of this worthwhile resident and gentleman.

TIMES-SIGNAL PRIZE CAMPAIGN OFFERS UNUSUAL OPPORTUNITY

YOU CAN ENTER YOUR NAME TODAY IN TIMES-SIGNAL BIG PRIZE CAMPAIGN AND RECEIVE FREE THE CHEVROLET COACH OR COUPE

NAME	TOWN	VOTES
Mrs. Perry Alford	Snyder	10,000
Evelyn Boone	Camp Springs	10,000
Mamie Lee Clark	Snyder, Rt. 1	10,000
Inez Caskey	Snyder	10,000
Gertrude Caswell	Hermleigh	10,000
Martha Gray	Snyder	10,000
Mrs. Earl Hicks	Snyder	10,000
Lila Mae Williamson	Snyder	10,000
Mrs. John Johnston	Snyder	10,000
Faye Joyce	Snyder	10,000
Mrs. Thomas H. Lee	Snyder	10,000
Mrs. J. A. Martin	Polar	10,000
Mrs. Jim Norred	Dunn	10,000
Mrs. C. N. Von Roeder	Knapp	10,000
Mable Turner	Snyder, Rt. 2	10,000

Names listed here are only a partial list. Others will be listed next week. Votes given here are the free nomination vote only.

INTUITION— OPPORTUNITY— WILLINGNESS—

With your intuition to guide you, opportunity beckoning, and a willingness to succeed, nothing can prevent you from receiving one of the two Chevrolet automobiles to be given away free by the Times-Signal October 5th, a few weeks hence.

Over $1800 in handsome awards will be given free to the ladies, married or single, living anywhere in Scurry ounty, that will enter their names in the Times-Signal "Everybody Wins" salesmanship campaign.

As the prize campaign is just getting under way, only a few names have been entered so far, however it's safe to say that next week's issue of the Times-Signal will give the names of the oldest and best families living here-abouts.

Many ladies have been nominated and letters have been sent out by the campaign editor that shows the great enthusiasm that greeted the Times-Signal free prize offer.

In fairness to those ladies who have received letters regarding their names being received at the Times-Signal office, it would be well for them to call here which will permit usto explain the simple features in connection with this big free prize offer.

If your friends were kind enough to nominate you, surely you should be considerate enough to give the matter some attention, especially so when you can receive free a compensation representing $735.00 for your spare time.

Two late model Chevrolet automobiles will be given away free in the next few weeks, coach or coupe, valued at $735.00.

The next grand prize will be a Majestic Radio, "The Mighty Monarch of the Air," to be given the Miss or Mrs. receiving the third highest vote. This gift is valued at $189.50, that will more than compensate you for the time well spent.

Then come the elegant gifts purchased from H. G. Towle, our local jeweler. A beautiful diamond ring valued at $100 will be given as the fourth grand prize. This to be sure is a lovely gift that will always be appreciated by the Miss or Mrs. receiving same.

For fifth prize the Gruen wrist watch was selected. Fifty dollars is the actual value and will be guaranteed by H. G. Towle. In fact, each and every prize to be awarded free by the Times-Signal with those merchants cooperating with the Times-Signal in making this salesmanship event the greatest prize campaign ever conducted in West Texas, will be guaranteed.

Another lovely selection was made by the Times-Signal for the sixth grand prize. The very latest in mesh bags was considered as an ideal gift, so with that in mind some Miss or Mrs. will receive a mesh bag valued at $30, Whiting and Davis, manufacturers of the best mesh bags made.

There will be no losers in this prize campaign. The Times-Signal wants to be fair in this campaign, and for that reason a special fund will be set aside to be paid on a basis of 15% to those not receiving one of the six grand prizes to be given free October 5th.

Surely there can be nothing fairer than this. "Everybody Wins" for sure in the Times-Signal prize salesmanship campaign.

Some of the ladies when seen have said they were never lucky. Well, let it be said once and for all time, that this campaign is not a lottery or drawing scheme. Just a little common sense is all that is necessary. Your friends will vote for you as will the others vote for their favorite.

In fairness, then, it must be admitted that not every one will receive the last prize, and by the same token not all will receive the first two gifts.

It's simply a matter of following out the plan that is at your disposal given free to all by the campaign manager. We want each and every lady to be a big prize winner. As a matter of fact, your success is our success. With that understanding you will receive every consideration by the campaign manager, and if you follow out his plans you will seat yourself in one of the two automobiles on the coming October 5th.

At this time we are sending out an S. O. S. for live wires to represent Ira and Fluvanna. Each and every community should have its best representative entered in the Times-Signal prize campaign.

Put your community on the map in big red letters. Your friends will prove legion. All that is needed is just a little pep till in the end you will find yourself seated in one of the two Chevrolets to be given free by the Scurry County Times-Signal.

It's impossible for the campaign editor to see all those that would like to enter their names. For your benefit you can call the Times-Signal by phone, tell them you want to enter your name, and they will gladly care for your every need.

Ten thousand free votes are granted with your nomination, 25,000 extra votes will be granted with your first subscription order. In other words, your first subscription order, new or renewal, if for one year's time, will give you 38,000 votes.

With the greatest vote offer now in effect that will terminate September 7th, please consult the vote schedule. Your opportunity is now at hand. Today is the day to start in the Times-Signal big prize campaign.

By all means have your name entered in next week's issue of the Times-Signal. That will permit your friends to vote for you, their favorite to win the first grand prizes, the Chevrolet Coach, valued at $735, or the Chevrolet Coupe, likewise valued at $735.00.

Cull Poultry Now and Save Good Layers

A red, large comb, prominent eyes, white thin shanks, a wide long back, these things indicate the layers in your flock and the ones that will make you money. In every flock there is the deadbeat, says the midsummer number of Purina Poultryman in reminding the poultryman that he should cull his flock during August and September.

"Separating the short time layers from the long time layers is easy if the flock has been properly fed," the magazine says in telling the poultryman of his obligation.

The low egg producer can be very easily detected by a few outward signs such as a pale, small shriveled comb; yellow, dry vent; dull sunken eyes; yellow, round shanks. Pelvic bones that are close together, hard and rigid also indicate the low egg producer. The hens body that is shallow and tight from the pelvic bone to the breast bone and that has a narrow short back in most cases is not a heavy layer.

Getting rid of those non layers will be one of the biggest steps you ever took toward getting more money from chickens. Your county agent will be glad to help you with your culling. August and September are the ideal months for culling the flock.

SLATON AMERICAN LEGION DESIGNATES MOST USEFUL CITIZEN

In a contest conducted at Slaton by the local American Legion post, L. A. Wilson, secretary of the Slaton Chamber of Commerce, was chosen from among five nominees as "the most useful citizen of Slaton during the past year." An engraved certificate, signed by state Legion officers, was presented to Wilson at a public program held Thursday night on the city hall lawn. D. E. Kemp, Slaton attorney, made the presentation speech.

Wilson's name will be inscribed upon a parchment scroll in the Legion's state headquarters in the Capitol building at Austin, along with other citizens' names selected by Legion posts over the state, according to R. S. Scott, of Paris, state Legion head.

Methodists To Start Revival Services Sunday

Rev. L. N. Lipscomb, Presiding Elder, to Do the Preaching

Rev. L. N. Lipscomb will start a two-weeks revival meeting at the morning services of the Methodist Church Sunday, which will later move ot the City Tabernacle when the Church of Christ completes its series of meetings there.

Rev. Lipscomb, presiding elder of the Sweetwater District of the Methodist Church, has a wide reputation as a speaker, and he will bring to the local services a message of profound interest to the congregation and visitors.

According to Rev. G. S. Hardy, local pastor, an urgent invitation is extended to all to join in these services. Special music will be rendered by the choir that will be an added enjoyment to the meetings.

Camp Springs Enjoys Revival

A two weeks' meeting has just been closed in the Camp Springs community, which was blessed with good results.

This was not a communion meeting but strictly and truly a fine co-operative meeting, supported by both the Baptist and Methodist churches and others.

Pastors S. B. Wilkerson, of the Baptist church, and Hudson of the Methodist church, attended and were on the job as pastors.

Mr. J. Q. Woodard of Roscoe, led the singing and worked with the young people. His services were much appreciated and all learned to love his musical ability. More of our preachers need to know of this young man and to have his assistance in revival meetings.

The preaching was done by Rev. Geo. E. Alexander, of Snyder. This is the third meeting in succession that Brother Alexander has successfully conducted in this community. He has the hearty support and co-operation of all Christians and many other friends. Great appreciation and unanimous praise was manifest for the earnest, faithful and sweetspirited Gospel message. None too often does one find a preacher whose work is practical, constructive and substantial. Fortunate indeed were we in having the sweet-spirited and efficient services of Sister Alexander. In addition to her work at the piano, she was most high appreciated by the women and girls in their prayer meetings and for her personal work.

While the greater result of the meeting, posibly could not be seen, there were enough that we feel the victory was won in a great way over sin and the devil.

There were numbers of conversions, reclamations and additions. A good yet incomplete offering was made.

All the evangelistic party were happy for the blessings in the meeting and for the many kindnesses shewn us while in the community.

Two of the highest hours during our meeting were when Miss Agness Durant, of our station B. Y. P. U. department spoke on Wednesday and Friday, to good audiences. The inspirational and spiritual effect of her marvelous messages was uanimously enjoyed.

M. H. HUDSON.

GOREE EDITOR TO SEEK STATE OFFICE

E. L. Covey Would Succeed George B. Terrell as Agricultural Commissioner

In answer to solicitations from all parts of Texas, E. L. Covey of Goree has announced that he will be a candidate for State Commissioner of Agriculture in 1930. He made his announcement after the present incumbent, George B. Terrell, announced that he would not be a candidate for re-election.

Mr. Covey is at present owner and editor of the Goree Advocate, published at Goree. He served from 1922 to 1926 in the State Legislature, representing Knox, King, Foard and Hardeman Counties. Prior to his service in the legislature he was for a number of years superintendent of the Goree public schools.

Mr. Covey states that at the proper time he will make a formal announcement and let the people of Texas know how his views on all questions relating to the duties of State Commissioner of Agriculture.

NEW STORE PRESENTS KEEN APPEARANCE

When Clyde Shull fully completes the decorating and lay-out of his new location, no finer variety store can be found in all West Texas than right here in Snyder.

Jinks: Do you mind if I tell a risque joke at the party tonight?"

Blinks: "Certainly I mind. My wife is going to be there, you know."

Jinks: "Gosh, that would be tough if I got her started, wouldn't it?"

Big Spring To Dedicate Big Airport

Aviation Celebrities Will Attend Festivities Sept. 11-12

On Sept. 11-12, the city of Big Spring will dedicate its 230-acre airport which is equipped with two steel hangars, 80x100 feet, 60x80 feet, machine shop 40x60 feet, five-room administration building built of tile and stucco, telephone, telegraph and restaurant accommodations and is lighted with border, flood and beacon lights.

A program that will be an aid in furthering aviation in Texas has been planned by the general arrangement committee representing the American Legion, Chamber of Commerce, City Commission, County Commissioners, Kiwanis Club, Business Men's Club, Rotary Club, Lions Club and Retail Merchants' Association.

One of the unique features of entertainment will be a parade to be staged on the morning of the second day illustrating the evolution of transportation showing the primitive modes of travel to the present day, the parade to be ended with decorated floats and automobiles of practically every business firm of the city. The Pathe News Service has signified its desire to be here and produce a movietone production of the event. Approximately $2,000 will be given in premiums for aeronautical maneuverings such as stunt flying, balloon bursting, wing walking, parachute jumping, dummy bomb dropping, spot landing, dead stick landing, and races, the races to include provisions for ships of 90 horsepower or less and free for all.

Among the invitations issued to air celebrities and people of national reputation to be present and participate in the program are Col. Lindbergh, Miss Amelia Earhart, Miss Ruth Elder, Capt. Ira Eaker, Governor Moody, Senator Tom Connally, Representative Penrose Metcalf, Mayor Thomason of El Paso, Mayor Flores of Juarez and others. The U. S. Army will have planes there to participate in the program of the air, according to statements issued from Washington, D. C. Free entertainment features are being planned for the occasion such as receptions, teas, dances, barbecues, etc. by Shine Phillips, chairman of the entertainment committee.

SWEETWATER STOPS UP HIGHWAY NO. 1 WITHOUT AUTHORITY

Sweetwater bluffed her way over for the airport opening, says the Colorado Record.

That city had no authority to close the highway and make those who refused to pay 50c per person detour. The State Highway department is definite on that point, and the boards blocking the highway both east and west of the Sweetwater airport with the wording: "Highway closed by order of the State Highway Commission to prevent traffic congestion" was evidently without authority, even if they did take a chance on blocking traffic if one paid 50 cents.

The Highway Department also says the practice was stopped as soon as it was called to attention of the department, but Sweetwater got away with the bluff until late Sunday afternoon after it was too late to fly. There is no excuse for the department allowing the practice to go on for two days. C. S. Dougherty, supervising engineer for this section, lives at Sweetwater and he most certainly knew of the closing of the highway. W. J. Van-London, district engineer, has headquarters at Abilene, and he could have been informed of the violation of the law in ten minutes. It can hardly be said the highway department did the right thing in permitting this practice to go on for two days, Saturday and Sunday, and it is a shame that a growing, prosperous city like Sweetwater would attempt to get away with such holdup methods.

A telegram sent to Gib Gilchrist, highway engineer, and the reply follows:

Colorado, Texas, Aug. 12, 1929.
Hon. Gib Gilchrist, Engineer,
Highway Department,
Austin, Texas.

Please wire if Governor Moody, the Highway Commissioners or your office, directly or through employees, gave permission for Sweetwater to close Highway No. One Saturday and Sunday and charge toll of 50c per person and make those who refused to pay detour eight miles.

COLORADO RECORD.

Austin, Tex., Aug. 14, 1929.
Colorado Record,
Colorado, Texas:

In reply your wire this date on closing Highway One Saturday and Sunday and charging admission of 50 cents, was done by Monte Owens, Chamber Commerce, Sweetwater, without authority or permisson from State Highway Commission. This was stopped as soon as matter was brought to attention of Department.

GIBB GILCHRIST,
State Highway Engineer.

Snyder Man Heads West Tex. Druggists

West Texas Retail Druggists Name Lee Stinson as President

Snyder and Scurry County again came into the limelight yesterday when Lee Stinson of Stinson Drug Company was elected to head the West Texas Retail Druggists in their convention at San Angelo. Coming from one of the largest regional drug bodies in the country, the honor thrust upon the Snyder man is one that should make every Scurry County booster feel mighty fine and the absolute need of congratulating Lee and shaking his right mitt in no uncertain tones.

Other officers elected were: Lester Ellis, Abilene, vice president; Lawrence Davis, Sweetwater, secretary-treasurer.

E. E. Smith, San Angelo; J. L. Hicks, Ranger; Shine Phillips, Big Spring, and John A. Weeks, Ballinger, were named members of the executive committee.

It is expected that Fort Worth shall be the 1930 meeting point.

Iatan Flats to Celebrate The Road Opening

Mayor R. E. Thomason of El Paso and H. L. Birney, president of the Broadway of America, will be the chief speakers at the monster celebration at Iatan August 26 for the opening of the new paved road through Iatan Flats.

This wonderful concrete road through Iatan Flats in Mitchell County is to be thrown open to traffic following the celebration at 7 o'clock Monday evening, August 26.

Many other prominent men are to speak. Hon. W. R. Ely, R. S. Sterling and Cone Johnson, members of the highway commission, and Gib Gilchrist, highway engineer, have been invited, and Tommie Carswell and Judge J. P. Stinson of Abilene; Paul Vickers of Midland; Monte Owens, Sweetwater, and Judge C. H. Earnest of Colorado will speak.

A motorcade is to start from Abilene and from Midland to converge at Iatan. Sweetwater, Roscoe, Loraine, Colorado and Westbrook will join the Abilene motorcade, and Stanton, Big Spring and Coahoma will join the Midland motorcade. Arrangements are being made to park 3,000 cars, and it is expected that several thousand people will attend, according to Secy Greene of the Colorado Chamber of Commerce.

Following the speaking an old fiddlers' contest is to be held, then a square dance by old timers, followed by dancing on the pavement until a late hour. The Colorado band, official band of the Broadway of America, and a special orchestra will furnish music for these occasions.

FOOTBALL TEAM, ATTENTION!

Coach Ottis Moore, Abilene, Snyder High School football coach, arrived here Tuesday and is interested in seeing every high school boy who desires to be on the squad this year to appear at the High School building next Monday afternoon at 1:30.

The squad this year will be one of the largest ever turning out for high school football and it is hoped to have at least fifty candidates for the first meeting.

Coach Moore, a graduate of Simmons University, has achieved remarkable results in coaching since he left school where he was considered one of the best players ever to appear in a Simmons uniform.

The Times-Signal wants to warn Coach Moore and the entire football squad that the newspaper will be with you 100 per cent at every turn in the road.

TO LUBBOCK

Jess Eoff, for many years a resident of Snyder, has recently accepted a position as manager of the shoe department of the Montgomery Ward & Co. store at Lubbock. The family has not moved yet, but will leave around the first of the month or may not move until after the first term of school, Miss Lucile Eoff said.

METHODIST HOLDING REVIVAL AT UNION

Rev. T. C. Willett, pastor of the Merkel Methodist church, is doing the preaching in a revival meeting at the Methodist church at Union community. The meeting began Sunday and will continue over next Sunday. Union Methodists extend an invitation to all to attend the services.

TRADES FOR DRUG STORE

H. J. Stephenson of the Union community has recently traded his farm to Kin Blackard for a drug store in Waco and will move to take charge of the store around the first of the month.

WE APPRECIATE THEM

AMONG our earliest files we recently came upon a little packet of deposit slips. These slips showed individuals which have been patrons of this bank since it started. What long and intimate associations these old records suggest. Attracted by a kinship of history and ideals—cemented ever closer in mutual service and confidence—many of the pioneers of this territory placed their accounts here in the early years and have continuously retained their original banking connection.

We appreciate them and welcome the new ones and place this bank's co-operative and comprehensive banking service at their command.

A new INNER TUBE?

Let the extra miles in CONOCO *gasoline buy it for you....*

IF you keep an accurate record of gasoline costs, you know that every extra mile you get from a gallon is so much velvet. In the aggregate these extra miles represent a handsome saving—enough to pay for those greatly desired accessories you've had in mind; perhaps a pair of new inner tubes or an extra set of spark plugs. That's why it will pay you well to fill only at the Conoco sign—the red triangle—the symbol of extra miles.

Conoco gasoline is refined to produce maximum mileage without in any way sacrificing those other essentials of a good motor fuel—quick starting and rapid acceleration. It functions efficiently at every step in the driving operation with special emphasis on power and mileage.

Look for the new Conoco Red Triangle. Fill 'er up. Then speed away for extra miles.

THE TOWN DOCTOR

(The Doctor of Towns)

—SAYS—

NEIGHORLINESS IS THE BASIS OF COMMUNITY LIFE

Those factors that, of recent years, have robbed us of our neighbors, have struck a hard blow at a real community unity. While the automobile has enabled us to go places and see things, while it has enlarged our little personal world and shoved the horizon of everyday life further and further away, it has at the same time made strangers of our neighbors.

In the new few weeks throughout the length and breadth of the land there will be thousands of celebrations in the form of fairs, home comings and festivals. Such are American institutions—they are good for the community, good for the people in the community, and good for those who attend them from other communities.

Should the progressive business and professional men and women of your town plan for you a celebration this year, show your appreciation and manifest your good judgment by doing everything within your power to help them make it a big success. If you can't do anything else, here is one thing you can do: stay at home that day and meet your friends and neighbors. Better acquaintance with them will increase your interest in them and theirs in you, and a better understanding of each other's problems will help much in the work you may do together for all your neighbors.

But above all, what a splendid time it is to invite visitors on those days, what an influx of visitors your town would have! The new friends that will be made will be an asset all the rest of your life.

The money they will spend in your town will add just that much to the capital in circulation in your town, and before the end of the next week every individual in town will have benefited my money thus left behind.

The community gains by becoming more neighborly, by introducing visitors to the charms of the town you call "your town," by the money spent by them while there, and finally, by the greater community spirit developed by everybody joining in the performance of a worthy, common task.

When your home town opens its doors to its people and their friends, be community minded and take advantage of the opportunity.

This Town Doctor Article, one of a series of 52, is published by the Scurry County Times-Signal in cooperation with the Snyder Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as applied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles appear, or to The Town Doctor, Suite 350, McCormick Building, Chicago, Illinois.

LOCALS

Misses Mary and Faye Joyce and Polly Porter spent Tuesday in Colorado with Mrs. S. O. Nation.

Mr. and Mrs. J. A. Barton and sons, Billy and Jack, of Los Angeles, Calif., were guests of Mrs. Barton's mother, Mrs. J. W. McCoach, this week.

Mr. and Mrs. Jno. Carmichael of Odell, Mrs. Ruby Culpepper of Fort Worth, James T. Johnson, Mrs. J. H. Green, Mrs. U. D. Wulsgen and daughter of Colorado, Mrs. S. H. Wallace and daughter of Tuscon, Ariz., were house guests of Mr. and Mrs. H. G. Towle last week.

Mr. and Mrs. E. M. Taylor returned last week from an extended trip spent in Denver and Sterling, Colorado, Santa Fe and Carlsbad, N. M. They report a wonderful trip.

Mrs. Lemond Edwards of Wellington is a house guest of Mr. and Mrs. W. D. Beggs this week.

Mr. and Mrs. C. M. Bell of Abilene are guests of Mr. and Mrs. E. M. Taylor and are attending the Busby meeting.

Mrs. K. F. Raney and son returned this week from where they were guests of Mrs. Raney's sister.

K. F. Raney, driller for Pender Oil & Gas Company on the Davis ranch received minor injuries last Thursday when he was lighting the forge and was slightly burned.

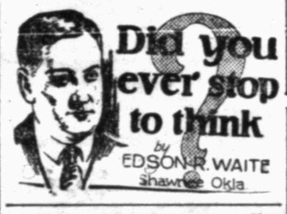

The construction of a modern residence was started this week in East Snyder by Mr. and Mrs. Jesse Sellars.

Mr. and Mrs. J. C. Brown and Mrs. J. C. Hayes returned to their home in Portales, N. M., Friday. They attended the funeral of their father, J. H. Holley, at Ira last Wednesday afternoon.

Mr. and Mrs. Ernest Taylor and children returned home last week from a several weeks stay in Knoxville, Tenn. They were accompanied home by Mrs. Taylor's nephew, Henry House.

Fire hydrants are being painted a red and white combination color that is making a fine improvement over the city, thanks to the Water & Sewer department.

B. M. Whiteker of the West Texas Chamber of Commerce was a visitor here yesterday and was in conference with O. P. Thrane.

Editor's Note—This is another story in a series of 52 stories on poultry raising written by the well known national authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

E. Lansing Ray, publisher of the St. Louis Globe-Democrat, says:

"Did you ever stop to think of the close relationship which is developed between a newspaper and its readers?

"Can you, for instance, name any other public service institution which enjoys such an intimate relationship with the public which it serves?

"Into the heart of the home goes the newspaper as a regular visitor and friend—to inform, to advise, to guide. Into offices and into factories it goes—to carry the information upon which business depends for its planning.

"Nor is this service which binds [illegible] confined solely to its news and editorial columns. Through the messages of the advertisers it keeps its public informed as to the newest and best merchandise and service available in the markets of the world. It makes people more efficient, makes dollars stretch farther, makes modern life more enjoyable.

"And then did you ever stop to think what this close contact, thus made possible between the newspaper and its community, means to the man who uses advertising to reach and to sell to many markets?

"Advertisers have stopped to think of it. And they have come to realize that, from the newspapers themselves, close to the thought and the pulse of their readers, they can secure sincere cooperation in planning their sales campaigns.

"Through honest analysis of the community markets which they serve, newspapers are helping guide advertisers to efficient and productive effort.

"And thus are communities being served through the sound building of business within their borders."

FLY-TOX is protecting millions of homes from mosquito invasion. the entire home can be freed from mosquitoes in a few minutes. Take an improved FLY-TOX Hand Sprayer and spray FLY-TOX toward and against the ceiling until the finely atomized spray reaches every part of the room. Also spray the hangings, closets and screens. It is absolutely stainless, safe, and has a perfume-like fragrance. FLY-TOX is the scientific product developed at the Mellon Institute of Industrial Research by Rex Research Fellowship. Every bottle guaranteed.—Adv. 9

AIRPLANE AGRICULTURE

The airplane is coming to the front as a farm "implement," says the U. S. Department of Agriculture, for dusting cotton and other crops. In 1927 about 500,000 acres of cotton in the United States were dusted by airplane. Most persons think airplane dusting is only for large-scale farmers who can afford to buy a machine, but this is not so. Airplane dusting is sold by contract. The operating company provides the plane, pilots, poison and everything needed, and the farmer merely contracts for the application he needs, whether his acreage is 10 or 10,000. The service may be used by small famers cooperatively. The general price of airplane dusting, says the Department of Agriculture, is no greater than the cost of a farmer's making the application himself with ordinary dusting machinery, and prices will undoubtedly be lower as the industry develops. Airplane dusting can only be done on fairly level land, however. Its greatest advantage is that it can be used regardless of conditions of the soil.

Ants Keep "Cows"

Aphids, or plant lice, are one of the most remarkable groups of insects, one of the most interesting facts about them being their association with ants. Ants are very fond of the excrement of aphids, known as "cows" very carefully, carrying them from one place to another where the "pasturage", may be better. With undergrown aphids, the ants carry them from one plant to another, and sometimes build a shield of soil over a colony of aphids above ground to protect them.

STROUD'S DAIRY GETS GRADE "A" RATING THIS WEEK

As a direct result of recent improvements made at Stroud's Dairy, Mr. Stroud was yesterday notified that his milk was officially graded as Grade "A". City Inspector Avary and City Health Officer Griffin made an inspection of the improved dairy plant Tuesday and officially notified Mr. Stroud yesterday morning of the decision.

Mr. Stroud's new dairy barn is one of the finest in all of West Texas. It has a concrete floor with proper drainage facilities and is fly-proof. Even the cows are brushed off on entering the chute, thereby preventing flies from getting inside. The interior is white, and is adequately ventilated and lighted.

A new 15x20 foot concrete watering tank has been recently constructed at the dairy giving the score of cows plenty of fresh water at all times.

NEW LIONS CLUBS

Charters have been granted the past week to Lubbock, Big Spring and Lamesa for new Lions Club organizations. District Governor T. N. Carswell of Abilene had charge of the delivery of the official documents that bring this worthwhile service club idea to the respective cities named. The Snyder Lions are expected to return to activity with the first of the month.

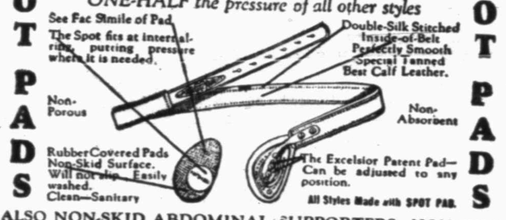

Mrs. M. C. Thomas and daughter, Dorris Jo, of Sweetwater are guests in the home of Mr. and Mrs. O. D. Carter.

POST EDITOR HITS NAIL ON THE HEAD

Editor Eddie Warren of the Post Dispatch in an editorial last week headed Blowed-Up" said:

We have been in Post since '18, and not a single year can we remember that people in general haven't thought that we were "ruind." We have either too much dry weather, or too much rain, or too much sand, or too much something. We can't remember any year when we have not made a crop of some kind, and the majority of them have been good yields, so there is no need for people to always be looking for troubles.

About ninety-five per cent of our troubles never materialize so why cross the bridge until we come to it?

West Texans are spoiled. We are accustomed to so many of the good things of life and expect the clouds to have a silver lining all of the time. Let us remember to count our blessings and stop crying before we are really hurt.

Our section will produce some kind of a crop this year without rain, if we are not badly fooled, and there is still plenty of moisture that can be showered on us before it is too late. There are many sections in the state that have already received beneficial rains, and we feel that we are the next in line. So cheer up, and let's stop this yelling about everything being "blowed-up."

Texas has 253 organized and one unorganized county—Loving.

How to Raise Poultry

By Dr. L. D. LeGear, V.S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

ARTICLE XXXII

WHY NOT SOCIAL UPLIFT FOR CHICKENS?

What Shall We Do About the Mongrel Flock? Many Amateurs Tell That They Would Like to Own Better Stock But Cannot Afford to Discard What They Have. Here Are a Few Suggestions for Meeting Such a Situation.

I once heard a certain social uplife society described as an organization in which a lot of old hens got together and laid plans for uplifting everybody but the ones that needed it most—themselves. However that may be, I happen to know that there is many an organization of hens in this country today that could stand a lot of intelligent uplifting. I am referring to hens in the literal sense, however, having in mind the scores of mongrel poultry flocks to be found everywhere. Many of these flocks can be improved in but one way. They should be sold to the butcher and replaced with good standard fowls. Many such flocks could be greatly improved with careful handling, however.

Many owners of mongrel flocks are dissatisfied. They realize they could do better with purer strains but cannot dispose of their present flocks to good advantage, nor can they afford to make any considerable investment for new stock. For such owners, the process of mating, known as "grading up", offers a way out. Grading up is accomplished by selecting the best mongrel hens of one breed out of your flock and mating them with standard bred males of the same breed.

The ersulting chicks will be known as grades. The first generation will contain 50 per cent pure blood and 50 per cent mongrel blood. Then, through the use of pure-bred males with females of increasing purity, fowls of the fifth generation will be approximately 97 per cent pure blood and 3 per cent grade blood. While I say that this method of improving an inferior flock is practical, I never advise it unless the program is going to be carried through all the way.

I can imagine no greater pleasure, however, than that enjoyed by the man or woman who perseveres and sees effort crowned with success. It is not an easy one for several reasons. Eternal vigilance is necessary. Chicks must be watched closely and those that do not conform to desired standards must be eliminated. Males with grade blood should be marketed. Above all things, mating should be carefully controlled and results closely checked to make sure that the trend is always in the right direction.

This system is not for the one who wants to see results quickly. The better plan is to leave to professionals such intricate problems as are involved in scientific mating and breeding. Few amateur poultry raisers have the time or inclination to devote to the study and care demanded by the grading up process. For all except the experimenter, the ideal plan is to dispose of the mongrel flock to your butchers and invest in thoroughbred chicks from some reliable hatchery.

Obviously, this means starting all over again, but you get results in far less time than by any grading up process and results are infinitely more satisfactory. You can choose the breed or variety that suits your fancy and be reasonably sure of getting what you want without waiting for several generations to mature. If you want to maintain a reasonably high standard in your flock, you must carefully select the ancestors of future generations. A good motto is to "Buy the best and breed them better." Or, you can buy standard bred baby chicks each year and do away with breeding as a great many are now doing. You must follow approved methods of housing, feeding, mating, breeding and general care.

Much more could be said on the subject of improving flocks but space is lacking in an article of this nature. I shall, therefore, add just one more thought. Unless you desire to constantly better the flock you have, better sell it and turn to some other breed. In poultry raising, as in everything else, we either go forward or slip backward. There is no standing still. To slip back means wasted time and money. To go forward means not only money gained but something infinitely finer than that—the joy of having made something in the world a little better than you found it. If, therefore, we cannot all start out with thoroughbred flocks, let us start a little "uplift movement" in our poultry yards as well as in our slums.

(Copyright, 1929,

FIRST CHURCH OF CHRIST

Vacation time is over, at least so far as the pastor of First Church of Christ is concerned, and the time of passing from refreshment to labor begins anew. Since the meeting is ended and the week of rest is come to a close, our hearts are set for new goals of attainment. And as Jehovah has blessed us, now let us bless Jehovah with all the energy and talent we have by being found faithful in His house of spiritual service. Let us have the whole church next Lord's Day, every man in his pew, and everyone bringing one to fill up the unoccupied seats. In it all, let our hearts be set on worship and spiritual enlightenment. Upon these two things depends our spiritual growth.

Beside our spiritual blessings, Snyder, with her surrounding territory, is materially blessed above other sections into which and through which we went for our vacation. Crops have greater promise in their present showing than any section we have seen. Snyder should be thankful for these blessings, and not forgetful. Thankfulness for the blessings of heaven is the deepest type of worship. Likewise, if forgotten, it constitutes our greatest sin. Let Snyder be thankful.

Come to our services is the cordial invitation extended to all.

THOMAS M. BROADFOOT.

Gets Back Old Time Strength

"The Sargon treatment is simply wonderful for bringing back strength and energy for now, after a few weeks taking it, I feel like a different man entirely.

"On account of my work I was forced to eat and sleep irregularly for a long time, with the result that I became very rundown and debilitated. Chronic indigestion gradually weakened me and kept me in bad health. I would suffer terrible pains after every meal, no matter how light it was. At night these pains robbed me of sleep and my condition finally got so bad I couldn't even eat an orange or a grapefruit without suffering afterwards. Naturally, I was always tired and listless.

"Then I started Sargon—and commenced to feel better right from the beginning. I now enjoy my food and my digetsion is fine. I'm never bothered with stomach trouble and get plenty of good, sound sleep. I feel better and stronger than I have in years—and I'll never be without Sargon agin."—E. D. Frank, 1610 20th St., Galveston, Texas.

Warren Bros., Agents.

Minister: "Let me hear how far you can count."

Willie: "One, two, three, four, five, six, seven, eight, nine, ten, Jack, Queen, King."

DERMOTT NEWS

The union meeting is progressing nicely. Large audiences are in attendance. Sunday a dinner was enjoyed by a large crowd. Brother Sanders and Brother W. H. Harris are doing the preaching. There have been thirty-six professions, and the closing date has not been announced. The Sunday school will meet next Sunday morning at 10 o'clock, and everybody is urged to attend.

There will be a singing school to start in our community soon. Mr. Dever of Snyder is to teach a 10-night school.

Several of the people of the Fluvanna community attended our revival Monday night. Come again

Mr. and Mrs. W. C. Scrivner of Tatum, N. M., spent the last of the week visiting relatives here.

Mr. and Mrs. Wilcox and Mrs. Scrivner and families from Mills County spent this week visiting with relatives.

Mr. Heffner of Polar spent Wednesday visiting in Dermott.

Mrs. Gannie West of Ranger spent this week with her parents, Mr. and Mrs. Durden.

Mr. and Mrs. Johnnie Jacobs of the Bethel community attended the Baptist revival Wednesday night.

Mr. and Mrs. Morris and children of San Angelo visited the last of the week in the Frisbie home.

Caleb Browning and wife and son, Delmer, and daughter, Thresa Jo, of Spur visited with relatives last week.

Mr. and Mrs. W. W. Merritt and little daughter of near Dunn were welcome visitors in Dermott Sunday. We appreciated the good singing he did for us.

Zeke Rhea of Tahoka spent Saturday night and Sunday with homefolks.

Mr. and Mrs. Charlie Johnson and family spent Sunday visiting in the McDonnell home.

The Misses Coleman of Slaton spent Sunday with their aunt, Mrs. McCarty.

J. A. Scrivner had the misfortune of getting a part of his barn burned Saturday evening. Also his feed crusher and about a ton of crushed feed were also burned.

Mrs. Vick Marson of Alpine, Mrs. Joe Stokes of Big Spring, Mrs. Maggie Coleman of Post and Mrs. G. M. Elkins visited Monday in the Roy Elkins home on the L. P. ranch.

L. N. Perlman and Miss Ila B left Monday for Perryton to spend a few days with his daughter, Grace. Miss Vera Perlman will accompany them home.

Mrs. William Chowns' two brothers, Messrs. Person, of Arkansas are visiting with her this week.

Miss Letha Black, Miss Stella Black of Dunn spent the week end visiting with their friend, Mrs. A. D. Thompson.

Mr. and Mrs. Tom Huffman and two daughters of Snyder attended church here Monday.

Mr. and Mrs. Robert Fletcher and little daughter of the Bethel community visited Monday with her mother, Mrs. Will Reynolds.

Harvey Johnson left Sunday night for Tahoka to accept a job of work at that place.

LARGE CROWDS ATTENDING CHURCH OF CHRIST MEET

The meeting being conducted by Evangelist Horace W. Busby of Ft. Worth at the City Tabernacle is drawing extra large audiences both morning and evening. The plain gospel sermons delivered by Evangelist Busby are easily understood and therefore appreciated by all.

Visitors from all parts of the county as well as other points in West Texas are in attendance.

The song services, led by E. M. Taylor, are being enjoyed by everybody.

The meeting will continue till August 28, services at 10 o'clock and 8 o'clock daily.

There will be three services Sunday, and for those who desire to stay, luncheon will be had at the park. Many visitors are expected. Everybody is invited to attend all services.

[THE NEW EMBLEM DEDICATED TO BETTER MOTORING]

CONOCO

What the MARLAND CONTINENTAL *Merger* MEANS TO MOTORISTS

THE consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, under the latter's name, is more than a corporate merger. It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

Wide Field for Crude Selection

Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

Strategic Location of Eight Refineries

Economical and efficient operation of petroleum manufacture frequently depends upon the relative locations of the raw product, the refinery and the market. Continental is fortunate in that its eight modern manufacturing plants are well placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

Exclusive Processes Insure High Quality

Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

Conocoland Covers Tremendous Area

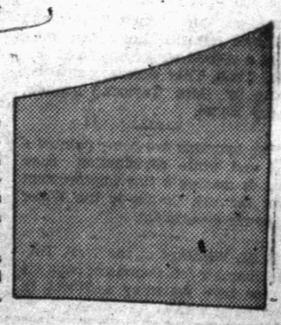

More than forty years marketing experience has spread the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of Conocoland range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

Prestige Established in Foreign Lands

The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobilists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America and the Orient.

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Church Affairs

At this season of the year church affairs are prominently before the people because of revival meetings. Or in other words, because of meetings meant to be revivals. All sorts of difficulties come in the way of these meetings, from time to time, and, because of such difficulties, protracted meetings are not always as reviving as they should be. Psychological effects of excitement, worries, etc., often prove to be powerful barriers in the way of a revival effort.

The Presbyterian-Methodist union meetih, following a two weeks' campaign closed last Sunday night. There were several professions of faith, any one of which is well worth the effort, but still not as many as there should have been. People do not have to be religious. It is "Whosoever will." If one will not accept salvation then the only other alternative is to let him follow the "Broad way." In the last analysis this matter is always "up to" the individual. In addition to conversions above referred to, a fine Christian fellowship was widely cultivated and largely developed among the church people. This was abundantly manifested last Sunday when practically all the people of the community were in attendance and gave fine attention to the great Gospel messages delivered by Dr. Surface. Rev. G. D. Wells of Lamesa, but pastor of the Fluvanna Baptist church, having called off his regular services here, was in the meeting and contributed much to the fine spirit already manifested. Reverend and Mrs. Nance, S. S. missionaries of the Methodist church, were also in attendance Sunday, bringing additional Christian prestige. A fairly liberal purse was raised Sunday for the minister who so skillfully led us to the refreshing fountain of the higher life. The meeting will evidently continue to bear wholesome fruits for many months and, possibly, for years to come. Let all the people now get down to the actual practice of the wholesome things wherein we have been instructed.

Reverend Montgomery, pastor of the First Baptist church, expects to begin his revival meeting next Saturday night at the arbor. Let all the people attend this meeting and continue to drink of the "Water of life" and futher cultivate the spirit of true Christian fellowship.

Reverend Wells baptized two candidates—John Buchanan, Jr., and Miss Horace Sims, who transferred from the Methodist church to the Baptist—at the Bob White tank Sunday afternoon. From this service the preacher went on to Arah where he began a meeting Sunday night. We wish him well in that work.

School Affairs

The shaping up of the many details pertaining to necessary readjustments resulting from the consolidation of our big Independent School District; and preparations for the starting of construction on our fine new building, are all going steadily forward. Again we call attention to the fact that our people should heartily appreciate the splendid, sacrificial services being rendered by our Board of Trustees. Theirs is no small task and they are giving much time and effort to its accomplishment. However widely the people may differ in opinion about some things, let it be remembered that the Board is earnestly striving to do the best thing for the school and the community. The trustees will bring from Dallas this week the three new busses which, with the one we have, will make four school busses which will be put into service with the opening of the school.

Business Affairs

The John Truss, No 1 oil test well, near Fluvanna, is progressing nicely. The bit has reached a depth of 735 feet, where it was necessary to pause again for underreaming and the setting of additional 12 1-2-inch casing.

We understand that the rig is about ready for the "spudding in" on the Miller (better known as the Craft) ranch — Block 97, section 358—about eleven miles southwest of Fluvanna, in Borden county.

D. A. Jones is building some two miles of fence northwest of Fluvanna. This is on account of the opening of a new school buss route.

Will and Mrs. Clawson have purchased the Aunt Mary Snellings residence near the Presbyterian church here.

A small business place on main street is being repaired.

Several gentlemen were in Fluvannal last week conferring with our citizens about the possibility of supplying our village with electric current. This is one of the first things on our program and we mean to get it at an early date. We have been in the dark long enough. One thing needful is more light.

Messrs. Ed. S. Hughes of Abilene (really of New York City), R. O. Dobbins, W. B. Johnson and E. J. Worthy, all of Roscoe, and all representing the R. S. & P. railroad were here last Friday in the interest of their road as it relates to the big cement works that are about to be established just north of Fluvanna. It seems now that this big enterprise is practically a certainty, but like other big business, it takes time to get ready for actual construction, hence, persons desiring employment will probably not find it available for a few weeks yet.

Visits and Trips

E. W. Allread, Chriss Runkle and son and F. M. Tarter, all of Fannin county, were here last week on a visit with relatives and friends.

J. L. and Mrs. Roddy have just returned from a visit with relatives in Fannin county.

H. C. Flournoy, county commissioner, went to Tyler, Texas, on business last week.

C. W. Mosely and J. M. Bowden of Camby, Texas, were here visiting last week.

Two families by the name of Lane and Gray have recently moved to Fluvanna.

Mrs. Thomas Matlock and son, accompanied by W. P. Sims and family, departed last Saturday for Kansas where Mrs. Matlock joins her husband. They will return.

Mesdames L. A. Wood of Dallas, W. B. Pace of McGregor, sisters to Mrs. Jones of this place, and Mrs. Mary Baldridge of Temple, a niece of Mrs. Jones, are spending several days here visiting.

C. D. Gribbs and family went to Lubbock Sunday for a visit with Mrs. Landrum in the hospital there. John A. Stavely and his mother and two small children of Mrs. Landrum's made a like trip Sunday afternoon.

The J. R. Patterson family returned Sunday from a visit to points in east Texas.

Mrs. Letha Shelton, after a visit of several days here with her mother, has returned to her home in Baird.

Clarence and Mrs. Hale, after a visit here, have returned to California.

Jack and Jim Moore went to Bell county last week.

Will Clawson was away on business a few days last week.

W. C. Duke and a partner of Tulsa, Okla., dealers in oil royalties, were here on business one day last week.

Other visitors have recently been among us but whose names V. P. failed to get. He begs pardon.

We have heard of a visit (last Monday) by E. J. Anderson and "Windy Smyth" both of Snyder—coming with the view of furthering their business interest. Now just who "Windy Smith" is may be a matter of conjecture. Somebody may really know the gentleman either by this highly descriptive name or by his vociferous elongated elaborations. Whether this proves true or not, this is the way the corpulent gentleman was represented to V. P.

JAS. H. TATE, Cor.

POLAR NEWS

By Mrs. J. A. Martin

It is still dry weather at Polar but our farmers are harvesting some feed and two of Polar's farmers have sold cotton.

On Aug. 11 the Kent County Singing Convention met at Polar with a representation from Girard, Jayton, Clairmont and Antelope. There were also people visiting from Snyder, Fluvanna, Justiceburg and Dermott. Music lovers and others enjoyed the wonderful song service rendered at Polar.

Miss Edith Massingill has been suffering from a sprained and partially fractured ankle and foot for the past week. Edith was heading maize and the wagon wheel ran over her foot.

Mrs. W. J. Cargil, Sr., and A. C. Cargile and wife went to Lubbock Sanitarium last week where A. C. Cargile and his mother had their tonsils removed. Both are doing nicely except Mr. Cargile doesn't like his diet. We understand that he is afraid he might get poor.

Miss Pauline Kelly of Snyder, (teacher at Polar last year) has been visiting her many friends here for the past week.

Miss Cauble of Snyder and Miss Erwood, nurse in Lubbock Sanitarium, were guests in the A. C. Elkins home last week.

Mrs. Hugh Huckaby and children of Rotan are guests of Mrs. Huckaby's sister, Mrs. S. B. Weatherby.

Mrs. W. J. Cargils is a guest of her daughter, Mrs. Edgar Shuler at Snyder this week.

Miss Mildred Elkins of Abernathy is visiting friends and relatives at Polar. Mildred seems like home folks.

Mrs. W. S. Cumbie, Mrs. Charles Cargile and Mrs. Tom Squires motored to Lamesa Wednesday where they visited their sister, Mrs. Roberts, who is in the hospital there.

Miss Martha Wilkerson of Snyder is a guest of Mr. and Mrs. Johnnie Hoyle this week.

Mr. Ed Miller of Snyder was a business visitor at the W. G. Williams ranch last Monday.

Miss Lucille Simms of Post is a guest at the Simms ranch.

Miss Hazel Robinson of Rotan is guest of Miss Glyn Weatherby.

Mr. Claude Robinson of Vernon has been a guest in the Carlile home for the past week.

Mr. and Mrs. W. O. Christopher of Dunn were guests of their daughter, rs. J. A. Martin, last Thursday.

The Singing School at Polar, under the efficient direction of Lawrence Deavers, member of the Snyder Dixie Quartette is progressing nicely. I am sure those who have attended thus far will say they have not gone away "empty headed" about music and have been inspired to learn more.

W. G. Williams rounded up Tuesday and drove 100 head of cattle to greener grass north of Justiceburg last Wednesday.

Sunday school was not very well attended Sunday. We don't know the cause but we sincerely hope that Christians of our community will take more interest in God's work.

Mr. and Mrs. Carol Moore of Snyder were guests of Mr. and Mrs. B. A. Moore Sunday.

Mrs. and Mrs. Pierce Moffat of Snyder were Sunday guests of Mr. and Mrs. E. L. Peterson.

Mrs. Edd Ware and children of Sweetwater are the guests of Mrs. Ware's parents, Mr. and Mrs. Watt Smith.

Mrs. Joe Stokes of Big Spring, Mrs. V. M. Mason and son of Alpine, and Mrs. John Coleman and daughter of Post are all guests of Mrs. G. M. Elkins this week.

Editor's Note: Mrs. J. A. Martin of Polar will represent her community in the Times-Signal's prize circulation campaign.

Needless to say Mrs. Martin's friends throughout the entire county will be legion in their desire that Mrs. Martin will receive one of the two Chevrolet automobiles to be awarded in the Times-Signal subscription campaign.

ONE YEAR AGO

August 23, 1928

(Taken from the files of the Scurry County Times-Signal.)

4-H Club boys purchased 21 calves from J. J. Koonsman that will be fed out for the Fat Stock Show.

The Hermleigh Fair will precede the annual County Fair, according to John R. Coker, chairman there.

Complete organization has been made for the annual Scurry County Fair.

The annual Dal-Paso Cavern Highway Motorcade will arrive here tomorrow.

The Baptists had forty new additions to their church in the Winsett revival campaign.

Registration of Snyder's two Boy Scout troops, Nos. 47 and 48, was completed Monday night.

W. B. Seabourn celebrated his 80th birthday Sunday when a large group of relatives and friends gathered at the family home.

CLAUDE HOLLEY ACCEPTS STANTON POSITION

Claude Holley, who has been secretary of the Quitaque Chamber of Commerce and City Secretary resigned his position there to accept a full-time commercial executive's position with the Stanton Chamber of Commerce. Congratulations are quite naturally in order.

SOCIETY

ETTY PARTY HELD IN ODOM HOME

n all-day party was held in the om home Friday when Mes- E. Wallace and C. W. Harless rmingly entertained with two unct affairs.

he entertaining rooms were utifully decorated with roses, nations and zenias.

t 9 o'clock players gathered und tables prettily appointed for play of forty-two where they oyed a series of games.

Refreshments were served in two rses to 52 guests, out-of-town sts present were Mrs. Charley senberg of Brownwood and ss Ethel Bradley of Memphis, nn.

hirteen tables of forty-two made an interesting diversion for the guests during the afternoon hours.

Refreshments consisting of a salad course and an ice course was passed to 52 guests and Mrs. Edgar Ezell of Cleburne, out-of-town guest.

CHARLINE ELY ENTERTAINED WITH SWIM AND SLUMBER PARTY

Mrs. W. J. Ely complimented her daughter, Charline, Monday evening with a swimming party and slumber party, the occasion being in honor of her fourteenth birthday.

Mr. and Mrs. W. J. Ely and Mrs. J. P. Morgan accompanied the guests to the Country Club where they enjoyed a swim in the club pool. They returned to the Ely home where a party was held.

Those enjoying these pleasant courtesies with the honoree were Misses Leona Sample, Jeanette Lollar, Frances Lalis, Gwendolyn Gray, Janet Smith, Roberta Raybon, Brentz Anderson and Roberta Ely and Messrs. Burgess Brown, Emory Smith, Creston Fish, Billy Lee, Bamie Smith, Austin Erwin and John Billy Beggs.

The girls spent the night with Charline and enjoyed another swim at the country club Tuesday morning.

W. M. S. ENJOY PICNIC

The Methodist Auxiliary closed their Bible Study Class Monday afternoon, Aug. 19. A splendid lesson on Deuteronomy and Joshua was led by Mrs. Homer Snyder. At the conclusion of the lesson the old members of the class invited the new members to Wolf's Park for a picnic.

Those enjoying this delightful outing were: Mesdames Lee Stinson, H. G. Towle, W. W. Hamilton, R. H. Odom, J. C. Darward, Melvin Blackard, Warren Dodson, Sed A. Harris, J. H. Hardy, Bannister, Head, DeShazo, H. M. Curry, H. V. Williams, A. V. Riley, E. C. Neely, Josie Lenley, Porter King, and Homer Snyder; Misses Elva Lemons, Mary Margaret Towle, La Francis Hamilton, Estine Dorward, Nadine DeShazo, Billy Joe Stinson, Melba Ann and Holman Odom, Frances and Wendell Neely, Joe Rue Lemley, Katherine and Billy King, Glynn Curry and Kenneth Snyder.

CHICKEN FRY AT HARRELL RANCH

Mrs. Dixie Smith and her daughter, Miss Dixie Ruth, entertained with a chicken fry at Harrell's ranch Tuesday evening.

Those enjoying this happy occasion were Messrs. and Mesdames A. J. Towle, W. H. Ritzenthaler, A. H. Sams Jr. of Pecos, Garrett Harrell and Mesdames George Harris, W. R. Johnson, Lemond Edwards of Wellington and Misses Dorette Beggs, Frances Ratliff of Midland, Helen Boren, Faye and Myrtle Harrell, Larry Beth Waskom, Frances Harris, Hattie Ruth Hartgrove of Paintrock, and Messrs. Dutchie Cauble, Charles Cooper, J. P. Straybhorn, Wilson Hartgrove of Paintrock, Robert Gray, Nibs Warren, Frank Crenshaw and Henry House of Knoxville, Tenn.

LITTLEPAGE REUNION

Mr. and Mrs. S. J. Littlepage and children, Vernon, Lola Mae, and Mrs. Roy Floyd, Mrs. Obert Littlepage and baby spent the week-end in Fort Worth visiting a sister of Mr. Littlepage whom he had not seen in 27 years.

The Littlepage families had a real get-together and reunion for two days at the home of Mr. and Mrs. D. P. Littlepage in Fort Worth.

Those who enjoyed the home gathering were Mr. and Mrs. J. D. Meals, Jackson, Tenn.; Mr. and Mrs. L. L. Sewell and son, Coleman, Texas; Mr. and Mrs. A. E. Wood and four children, Clarendon; Mr. and Mrs. S. J. Littlepage and family, Mr. and Mrs. Roy Floyd, Mr. and Mrs. Obert Littlepage and baby, all of Snyder; Ben Littlepage, Mineral Wells; Mr. and Mrs. Dewey Littlepage and two children, Mrs. Maggie Littlepage and granddaughter, Mrs. W. J. Littlepage, and John Littlepage, all of Fort Worth; Mr. and Mrs. P. S. Littlepage, Dallas; Mr. and Mrs. J. C. Littlepage and two daughters of Handley; Dock White and Misses Grace and Ann White, Fort Worth; Mrs. Lena Griffin, Hico; Mrs. Lida Sharp, Fort Worth; and Mrs. Jane Cabarn, Wichita Falls.

BUFFET SUPPER

Mesdames W. D. Beggs, L. O. Smith and Amos Joyce delightfully entertained Wednesday evening with a buffet supper on the lawn at their homes in West Snyder.

Games of forty-two and bridge made a happy diversion after the supper hour. About seventy guests attended this happy affair.

GALA AFFAIRS IN SHULL HOME WEDNESDAY

Orchid was favored in all details of the attractive bridge party given Wednesday morning at the home of Mrs. W. C. Shull by Mesdames J. G. Hicks, Ivan Dodson and W. C. Shull. Colorful summer blossoms gave an added charm to the rooms.

At the conclusion of the interesting bridge play a salad course was passed to Mesdames E. J. Anderson, P. M. Chambers, Lemond Edwards of Wellington, Jack Blackard, Wayne Boren, G. B. Clark Jr., R. H. Curnutte Sr., W. H. Ritzenthaler, R. H. Curnutte Jr., Warren Dodson, J. M. Harris, C. B. Vinsant, Alma Hood White, A. D. Erwin, W. R. Johnson, Amos Joyce, Ixon Joyce, W. B. Lee, T. L. Lollar, A. V. McAdoo, Albert Norred, J. W. Bondurant of Ft. Worth, W. R. Patton, George Oldham, W. T. Raybon, L. O. Smith, Dixie Smith, O. P. Thrane, Wayne Williams, J. P. Nelson, A. J. Towle, H. G. Towle, Henry Rosenberg, Charley Rosenberg of Brownwood, Ernest Taylor, Melvin Blackard, Joe Graham, and Misses Ila Martin of Brady, Alma Nell Morris, Clarabelle Clark, Myrtle and Faye Harrell, Zonell Harris, Vesta Green, Mary and Ruth Lawlis and Larry Beth Waskom.

Mesdames J. G. Hicks, Clyde Shull and Ivan Dodson were hostesses to a delightfully planned forty-two party Wednesday afternoon at the home of Mrs. Shull. Green was artistically carried out in all details of the party.

After the game hour a delectable salad course was passed to Mesdames Bub Blackard, W. R. Bell, H. J. Brice, Pat Brown, Ollie Bruton, C. R. Buchanan, J. C. Dorward, W. W. Hamilton, C. W. Harless, C. C. Higgins, J. A. Hood, Porter King, Charles Noble, George Northcutt, R. H. Odom, A. C. Preuitt, R. J. Randals, W. M. Scott, Earl Henry, Gertie Smith, Lee Stinson, A. L. Stoker, Hugh Taylor, Joe Taylor, W. G. Williams, Carl Yoder, Wade Winston, Nelson Dunn, W. H. Cauble, A. V. McAdoo, Dora Cunningham, Dan Gibson, Guy Stoker, E. M. Deakins, Earl Fish, Hugh Scarborough, H. E. Rosser, Joe Monroe and Misses Maurine and Mattie Ross Cunningham.

BIRTHDAY PARTY

On the occasion of her seventh birthday, Miss Dorris Jo Thomas of Sweetwater was honored with a party for several of her Snyder friends at the home of her sister, Mrs. O. D. Carter, yesterday afternoon from 4 to 6 o'clock. Ice cream cones and Cracker Jack prize packages were served the little guests, who were: Ethel Gertrude Ross, Florentz and Dorothy Winston, Sadie Tell Jenkins, Juanita Burt, Wynona Keller, Glennelle Thomas of Sweetwater, Virginia Preuitt, Melvin Newton Jr., Juaneise Burt, and Ernest Taylor Jr.

MRS. J. C. SELLARS HONOREE AT BRIDGE LUNCHEON

Mrs. J. H. Wicker and her daughter, Miss Forest Wicker, complimented Mrs. J. C. Sellars, a recent bride, with a delightfully planned bridge luncheon this morning at their ranch home.

Those attending this pleasant affair were Mesdames Wayne Williams, G. B. Clark Jr., Melvin Blackard, Tom Gates, George Harris, J. M. Harris, L. O. Smith, Warren Dodson, J. C. Ezell, O. P. Thrane, Tom Wood of Lamesa, R. H. Curnutte, Ivan Dodson, R. H. Curnutte Jr., Wade Winston, J. N. York, Geo. W. Gray Jr. of Sweetwater, W. R. Johnson, Edgar Ezell, and Misses Frances Harris, George Winston, Larry Beth Waskom, and Myrtle and Faye Harrell.

Sun baths should be given to all well children to keep them well and to many sick children to help make them well. They should, however, be given carefully at first, exposing only a small area of the child's skin to the sunlight until he is used to it and has acquired a protective coat of tan.

ALBUQUERQUE IS UNIQUE CITY
TIMES-SIGNAL ED ENJOYS VACATION
HAS CHARM OF PREHISTORIC DAY

The following letter from Editor George F. Smith of the Times-Signal was received last Wednesday, but on account of lack of space and time it was carried over to this week.—Sub-Ed.

Albuquerque, N. M.
August 13, 1929.

Dear Times-Signal:

Since my last letter, rain has been so prolific in the Sandia Mountains that we were compelled to leave there and come into town, as we were fearful that the little ones might catch a bad cold. However, we were lucky in this regard and got settled nicely yesterday at 310 Vassar Avenue, close to the University of New Mexico. The beautiful Sandia Mountain peaks may be seen from our back door and with the many planes that daily fill the air here, an unusual and interesting spectacle is given to those who are not in the habit of observing such sights.

Albuquerque is perhaps the most unique city in the world in that tubercular folks are as welcome here as those who are well. Tourists pass here from all points of the compass over the old Santa Fe Trail. It is in the act that Albuquerque has no fear of tuberculosis that its greatest attraction for a health seeker lies. The Chamber of Commerce and the Civic Council are two vital factors in the success of this city, and they both have men at their heads that know what to do, when to do it and with the initiative to put across any program that means for the constructive betterment of this city. It is particularly pleasing to me to find such a wonderful assortment of 100% co-operation as is exemplified on every hand here. Through personal visits to the various enterprises of the city and meeting officials it is truly remarkable of just how they are progressing in the upbuilding of this city. You find here business houses and business men and citizens co-operating at every possible angle toward the advancement of good will between the city folks and his neighborhood, together with the rural districts, which has all been brought about through good, old wholesome give and take and helping each other.

Secretary Edward Knight of the Chamber of Commerce has furnished me with some data about Albuquerque that may be of interest to Times-Signal readers.

He tells me there are 35,500 residents living in the city which is increased and lessened at various times of the year owing to the health aspects of the area. Albuquerque has a commission form of government which has proved very popular and which has likewise been successful wherever tried. Like Snyder, Albuquerque owns its own light plant, water softener and iron remover and is said to be one of the most up-to-date water systems in the Southwest. The city has 54 miles of paved streets, five city parks comprising 75 acres and a city zoo with a motor bus transportation system. They have a modern sewer system and disposal plant with a Federal payroll amounting to $800,000 a year, with a Federal building that cost $1,200,000.

Principal industries are sawmills, sash and door factories, furniture factory, railroad shops (the second largest in the Santa Fe system being located here), oil refinery, two casket factories and numerous small manufacturing plants. Bank clearings for 1928 totaled $154,586,036.46, with total bank deposits aggregating $13,113,263.45, and building permits issued last year were $2,014,010.

Climatic data of Albuquerque as taken over the last ten years from the U. S. Weather Bureau shows: Mean annual temperature, 55.3; annual mean relative humidity 48 per cent; annual percentage possible sunshine 75 per cent; annual precipitation, 7.76 inches.

Extremes of temperatures show the highest at 99, July 19, 1925, and the lowest 8, Dec. 26, 1924.

Great preparations are now being made for the "First American" pageant that will be held here August [illegible] inclusive. [illegible] summer more than 20,000 sat under a star-sprinkled sky and watched the first performance of "The First American." Students and scholars, Indian authorities and amateurs, Spanish and Anglos, plainsmen and metropolitan alike thrilled to the most amazing spectacle ever presented in America.

Mr. Knight tells me this year there will be more than 3,000 Indians, hundreds of Spaniards, groups of cowboys to weave and interweave the fascinating picture of the history of the Southwest Indian. From the dawn of prehistoric day to modern times the picture will move, directed by a master hand and assisted by every device of modern showmanship. The scene of this great spectacle is about five miles east of the city where everything is now in readiness with rehearsals going forward daily. The family expect to be here when this exhibition is given, but as Chubby and the Times-Signal gang may need me soon, will have to defer the pleasure of remaining over.

But to me, Albuquerque is a fascinating city, a city of old world charm and romance, with all the modern comforts and atmosphere. It is the real gateway to the Indian country, a terminus of the Indian Detour, the point of departure of thousands of people each year. On the streets of Albuquerque you will see ancient wood wagons and the last word in motor cars. Aside from seeing hundreds and hundreds of New Mexico and Texas car licenses, yesterday I made a note of the licenses from other states, and here is what my notebook says: Quebec, Canada; Utah, New Hampshire, New York, Ohio, Missouri, Indiana, Illinois, California, Arizona, Wyoming, Florida, North Carolina, Maine, Michigan, North Dakota, Oregan, Pennsylvania and Dist. of Columbia. That was only one day, and I firmly believe that a check-up here would reveal that every state in the union had cars here. Albuquerque was founded in 1704 and named for a viceroy of Old Spain, and aside from being a city of great age, recent growth is creating a truly great city here. Just a mile west of the city is what is known as Old Town where is located the church of San Felipe de Neri, that part of which is more than 300 years old. Here may be found a Catholic settlement, quaint and with an old world charm that is particularly pleasing to those who are interested in such historic surroundings.

But the typewriter is getting hot, so am I under the collar for it sure spills plenty of sunshine during the day, but like Snyder, the nights are cool here and sleep is undisturbed unless your ears are not attuned to the drone of a plane motor.

Surely enjoyed the Times-Signal last week, even to reading the medicine ads, which is a fair indication that a fellow is commencing to get homesick.

Very sincerely,
GEORGE "JIMMY" SMITH.

NOTE—Speaking of the world being small, it has been that to me since coming here. While driving with the family yesterday, who would cross my path but an old schoolmate, Charley Draper, from my old home town back up at Leipsic, Ohio. During school days we used to "black each other's eyes," but the meeting was one of pleasure and happy enjoyments. He is associated with the Conoco Oil Company here as salesman with a fine family of the Mrs., three boys and one daughter.

Miss Juanita Burt spent last week visiting her friend, Miss Doris Wade, on a ranch in Fisher County. Miss Doris returned to spend a few days with Juanita here.

WHAT'S DOING IN WEST TEXAS

SPUR has changed the position of its white way. The light posts until recently were in the center of the street, but are now shedding their light from the curb. This expensive move was found necessary because the pests were a hindrance to traffic.

MATAGORDA, one of the oldest towns in Texas, recently celebrated the introduction of electric lights after existing as a town 101 years without that convenience. The Central Power & Light Co. is supplying the town.

THE EL PASO Herald is obtaining material for the special West Texas Chamber of Commerce edition which will be published shortly before the eleventh annual convention there Oct. 24, 25, and 26.

POST has taken the first forward step towards the securing of a modern airport. The name of the town has been painted in a prominent place in box-car letters, and a committee of investigation of West Texas airports.

LITTLEFIELD postal receipts for the year ending June 30, 1928, totaled $9,939.16; for the year ending June 30, 1929, the total was $11,958.45, and incrase in business amounting to $2,019.29 for the past 12 months.

THE TULIA Chamber of Commerce sponsored a movie to help finance the building of a band stand recently. The band played for the audience, and a large number of prizes were given at the "Country Store." All ladies present received free of charge a piece of silverware at the entertainment.

BALLINGER is making plans for the entertainment of the Heart of Texas Press Association on Sept. 9. The program will include a luncheon, an automobile ride, golf tournament and a special program of Ballinger talent. An attendance of 150 editors, publishres, reporters, supply men and others is expected.

COMANCHE'S insurance key rate has been reduced four cents with the installation of the new pumper. This brings the key rate down to 40 cents. This will allow mercantile establishments to carry full value insurance instead of three-fourths as heretofore.

ROCKSPRINGS will have a new high line within the next three months, according to the results of a survey of the Central Power & Light Company. A sub-station is expected to be erected at a point somewhere near the property just acquired by the promoters of the fair grounds.

CHILDRESS' largest hatchery, the Scott and Welling, has increased its capacity from 32,000 chicks to 100,000, and a building is being prepared with facilities for hatching from five to ten thousand chicks at a time. Two or three men will be employed in the paint the year round.

THE GRAHAM Chamber of Commerce has startde issuing a bulletin every month carrying details of the work done by the body. Civic improvements, service library, the fair, the stock law, advertising, airways, airport opening, highways, the membership drive and paving were topics covered this month.

BIG SPRING city development was given a boost when more than $100,000 was raised in four hours by nine business men to assure the erection of a 14-story building. The building will cost approximately $425,000.

PARALYSIS

May 27, 1929

I was threatened with paralysis for four years. On April 27, 1927, I was entirely paralyzed, unable to walk a step. I called several doctors, also one Chiropractor. I never got any relief. In April, 1929, I was told of Dr. Marie P. Lancaster. I began her adjustments of Chiropractic and Osteopath. After 12 days I was walking without any help. I am 77 years of age and will be glad to recommend Dr. Lancaster to any one for paralysis.

PAINFUL INDIGESTION

"I SUFFERED from indigestion; everything I ate gave me heartburn," says Mrs. Mattie Mullins, of Pound, Va. "For months, I did not see a well day. I worried along, but never felt well.

"I got a package of Thedford's Black-Draught at the store and began taking it—a dose every night before going to bed. I had been having an awful pain. After I had taken Black-Draught, this pain entirely stopped. I began to gain in weight, and rested well at night. In a few months I was feeling fine. My health was better than it had been in years.

"I keep Black-Draught in our home, and we all take it for constipation and upset stomach."

Do you know any car of its price that matches

America's finest medium-priced automobile?

S34

Read the chart comparing today's Oakland All-American Six with twenty other leading medium-priced cars.

Thirteen of these cars are higher-priced than Oakland. Yet despite this fact, in 878 individual comparisons Oakland is definitely superior on 451 or 51.37 per cent. And the competing cars, all combined, are able to equal Oakland on only 382 or 43.50 per cent.

Let us show you the detailed results of these comparisons—all serving to substantiate the statement that today's Oakland All-American is *America's finest medium-priced automobile.*

What these features mean to you		*How Oakland compares with the field*
Large piston displacement is needed to develop high power at moderate engine speed. Moderate engine speed is an important factor in the life of a car.	PISTON DISPLACEMENT	Oakland's 228 cubic inch piston displacement is greater than 12 of the 20 cars in its price field. Of the 8 remaining cars, 7 are higher priced than Oakland.
No name in automobile coach building means so much as Fisher. Fisher bodies are famous for style, luxury and roominess. In addition, they hold such advantages as sturdy composite hardwood and steel construction, VV windshield, side cowl ventilation and adjustable drivers' seats.	FISHER BODY	Only Oakland and two other cars in the field offer bodies by Fisher. And one of the two is nearly $100 higher in price than Oakland. Of the 18 cars which have less-known bodies, 11 are priced above the All-American Six.
Reasonably long wheelbase gives greater riding ease and road balance. Also permits use of longer, smarter, roomier bodies. At the same time, a small turning circle is essential to handling ease.	WHEELBASE	Only one car as low-priced as Oakland has a wheelbase as long as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

Oakland All-American Six, $1145 to $1375, f. o. b. Pontiac, Michigan, plus delivery charges. Spring covers and Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values . . . Oakland-Pontiac delivered prices include only reasonable charges for handling and for financing when the G. M. A. C. Time Payment Plan is used.

NOTICE IN PROBATE

THE STATE OF TEXAS,

To the Sheriff or any Constable of Scurry County—Greeting:

You are hereby commanded to cause to be publishe donce each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Scurry County, a copy of the following notice:

THE STATE OF TEXAS,

To all persons interested in the estate of Martha Guinn, deceased, R. H. Curnutte, administrator of the estate of Martha Guinn, deceased, in cause No. 539 has filed in the County Court of Scurry County, Texas, his final account of the condition of the estate of Martha Guinn, deceased, together with an application to close said administration, which said application will be heard by said Court on the 9th day of September, 1929, at the Court House of said County, in Snyder, Texas, at which time all persons interested in said estate are required to appear and contest said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Snyder, Texas, this 6th day of August, 1929.

(Seal) MABEL Y. GERMAN, Clerk, County Court, Scurry County Texas.

MISSIONARY IN CHINA WRITES
CHINESE WOMEN GAINING FREEDOM
TELLS OF CHANGES BEING MADE

C. P. O. Box 1234,
Shanghai, China,
July 11, 1929.

Dear Editor,

Here comes a letter from this land of intrigue, graft, warfare, famine, suffering and chaos to tell you and the readers of your good paper about China's new woman who has a share in the "goings-on."

If a woman in China, twenty years ago, had been given a Rip Van Winkle sleep, she would be more surprised than he was, should she awake today. Then women had to stay indoors and work something like domestic animals. Or, if of a better amily, be cooped up at home and stay there. She was allowed to be seen only by her husband and brothers.

Now what a change! The modern Chinese young women skip around the streets with a spring, grace and freedom that's quite refreshing when one remembers the women formerly hobbling along on bound feet supported by amahs. Now girls bob, shingle, or permanent wave their hair. That's a sign of freedom! They ride bicycles, play tennis, basketball and engage in other athletics. Formerly the parents arranged their marriage. Now one often sees the young ladies walking very affectionately arm in arm with their "best boys," and the young people often do the arranging. The dress used to be the most modest of any nationality. Now women are often seen with short sleeves and very low-necked frocks even at mid-day. Sometimes they're seen with the most up-to-date up-beyond dresses, short frocks and flimsy silk hose and very high-heeled shoes. Indeed the Chinese girls are quite amusing flappers sometimes — shocking sometimes — so much so that the officials have felt it necessary to issue proclamations commanding them to dress modestly. The girls have even learned to flirt in the most up-to-date way. That's freedom! They dance in the latest style. They ride horses, astride, with boots and riding breeches. "That's English, you know."

Once the ideal for girls was that they be able to do beautiful needle work at home. Now they are doing other things. They are clerks in stores. Some are typists and stenographers. Some are bankers. They play the organ or piano or other musical instruments. Some are becoming movie artists or actresses. Some are lawyers and judges and doctors, are teachers and kindergarteners. They even become soldiers and sometimes they become generals' secretaries! Women also become street-corner politicians and scream the revolutionary platitudes such as "Down with imperialism!" "Give the people freedom!" to beat the most zealous men revolutionaries. Rarely do you see meetings for propaganda or riots without seeing girls or women taking active part in them, urging on the riots. I am glad to say that some few of them are taking part in the Red Cross work in relieving the suffering of those wounded in battle. Women, too, occupy places of influence in the government in Nanking. Once women's faces lacked all hope and ambition, and there are still great hosts of women who are the same drudges at home or—worse—in great factories. But among the younger generation they have ambition—ambition that carries them to extremes.

I'm glad to say that there are many modest, motherly women who have gone through our mission schools who are making nice, clean, beautiful Christian homes where the children are brought up well and taught to be good useful members of society, children of whom they and missions can be proud and thankful. One can not expect great things from a nation in which the people have been brought up for ages in filth, physical and moral; but a new generation is coming on, born anew in the church of Christ and in these clean Christian homes. We are expecting much for China from such.

Things are out of joint in China; but we hope and pray that the common sense of better Chinese and the deeply planted power of the Gospel will gradually overcome the criminal influences and that China will find peace, prosperity, and a place among the great nations of the world.

Yours in Christ's glad service,
REV. H. G. C. HALLOCK.

RUPTURE EXPERT HERE

C. F. Redlich, Minneapolis, Minn., nationally famous Rupture Appliance Expert, will demonstrate without charge his unequalled method at the Blue Bonnet Hotel, Sweetwater Tuesday Aug. 27th, from 10 A. M. to 4 P. M.

Mr. C. F. Redlich says:

The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

"IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH."

Doctor J. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has recorded 75% cures with this system.

Mr. Redlich is internationally known and speaks English, German and Spanish.

FORMER HIGH SCHOOL BOYS HANDLING EXPRESS

The American Railway Express Company now has two boys in charge that were among the best football players ever turned out of Snyder High, and we refer to Pee-Wee Wilsford and Bythel Martin, and they are taking care of the work mighty fine during the absence of Agent W. W. Smith, who with his family are spending their vacation in Colorado.

Wilsford and Martin make a fine pair to draw to, and the Times-Signal is happy to see these youngsters handling their work so efficiently and so satisfactorily to the large group of customers who patronize the express company. More power to them.

KNOW TEXAS

Texas public school system comprises 1,000 independent and about 7,000 common school districts with school property valued at $179,200,598.

For taxation purposes realty and personalty are rendered on an average basis of 33 1-3 per cent. The approximately $4,000,000,000 total represents more than $12,000,000,000 in actual wealth.

Texas leads all the states in variety of bird life with nearly 600 different species.

As railroad building bonuses Texas gave 35,000,000 acres of its public domain—roughly the equivalent of 43 counties of the average size of 900 square miles.

FOR SALE

CHRYSLER MOTORS PRODUCT

THE FULL-SIZE 4-DOOR SEDAN, $695. Special equipment extra

$655 and upwards, f. o. b. factory

Plymouth excels in motor car Essentials

THE four things to consider most in selecting a motor car, are: The body, wherein you ride; the engine, which makes the car go; the brakes, on which your safety depends; the first cost and the economy of operation and maintenance affecting your purse.

ROOMIEST BODIES

Plymouth bodies are full-size—out-measuring the entire low-priced field in leg-room, elbow-room and head-room.

SMOOTH, QUIET ENGINE

The Plymouth power plant follows throughout the basic principles of Chrysler engineering—with Chrysler-like results.

SUREST, SAFEST BRAKES

The full-size Plymouth is by far the safest low-priced car. It is the only low-priced car with equalized Chrysler weatherproof four-wheel hydraulic brakes.

LOW UPKEEP COST

The Plymouth is America's lowest-priced full-size car. Its simple, rugged and efficient engine uses gasoline sparingly.

Six body styles—priced from $655 to $695. All prices f. o. b. factory. Plymouth dealers extend convenient time payments. 416

ANNOUNCING
A VARIETY OF COLORS
on the Chevrolet Six
at no extra cost!

In keeping with the progressive policies that have carried Chevrolet to record-breaking heights of success—the new Chevrolet Six is now made available in a wide variety of colors at no extra cost.

Still further enhancing the inherent beauty of the marvelous bodies by Fisher, these striking new colors give to the Chevrolet Six an order of smartness unapproached in any other low-priced car in the world.

And when you drive the Chevrolet Six, you will realize that its performance is equally as outstanding as its beauty. It flashes away at the traffic signal. It tops the steepest hills with an abundant reserve of power. The steering wheel responds to your slightest touch. And the quiet, non-locking, four-wheel brakes are unusually quick and positive in action.

Come in today. See this sensational Chevrolet Six which actually sells in the price range of the four.

The Roadster, $525; The Phaeton, $525; The Coach, $595; The Coupe, $595; The Sport Coupe, $645; The Sedan, $675; The Imperial Sedan, $695. All prices f. o. b. factory, Flint, Mich.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

Yoder-Anderson Motor Company

A SIX IN THE PRICE RANGE OF THE FOUR

"Going-away" gifts... here in wide variety!

It's only natural, when you're on vacation and meeting so many new people, to want to put your best foot forward.
