Provence Unable To Explain His Disappearance Republican, Democratic Leaders Pledge Cooperation

Deadlock Seen In Control Of U. S. Congress

Demo Heads Still Confident
And Fight To Overtake An
Apparent Majority of One
G. O. P. Member In House

Statement Issued

Party To Work For The Best
Interest of Nation With No
Thought of Political Advan-
tage or Punishment

BY FRANCIS M. STEPHENSON
Associated Press Staff Writer.
LEADERS of the republican and
democratic parties pledged
themselves to cooperation in the
nation's interests yesterday as Tues-
day's biennial congressional elec-
tion ended in a virtual deadlock
that threatened legislative chaos.

Still confident and fighting to
overtake an apparent majority of
one for the republicans in house,
seven national democratic leaders
yesterday issued a joint statement de-
claring, in part:

Demos Face Duty.
"The democratic party faces its
duty with a firm determination to
prevent the thought of political ad-
vantage to swerve it from the
course that is best for the country.
It has neither the time nor the de-
sire to punish anybody or to exact
revenge."

"The extent of the ability it will
show in the legislation of the nation
in a straight line toward the goal
of prosperity, nor permit itself to be
diverted either by political expedi-
ency or a desire to show that
more democracy is the better
branch of the government."
To this end the seventy-second
congress will not be an obstructive
body. It will not seek to embarrass
the president of the United States,
but will be glad to cooperate with
him and with the members of the
opposite party in the house and
senate in every measure that con-
duces to the welfare of the country.

This statement was signed by the
democratic leaders in congress,
Senator Robinson of Arkansas and
Representative Garner of Texas,
by the democratic presidential
nominees in 1920, 1924 and 1928—
James M. Cox of Ohio; John W.
Davis of New York; Alfred E.
Smith of New York, respectively;
by John J. Rankin, chairman of the
democratic national committee, and
by Joseph Shouse, chairman of the
democratic national executive com-
mittee.

At the same time, President Hoover,
in his first conference with
newspsmen, said the election,
which carried the democrats to the
threshold of power in congress,

Four are Arrested In Hammer Attack

HOUSTON, Nov. 7. (AP)—A 40-
year-old woman and two younger
men were held for questioning to-
day in connection with a mysteri-
ous assault on W. B. Boyd, 33, who
was beaten into unconsciousness
with a hammer as he slept in a tent
before dawn today.

Boyd was at a hospital, uncon-
scious since his arrival. He was an
independent concession operator,
conducting several booths near the
South Texas exposition. Those held
are fellow workers.

Boyd was found insensible lying
on his back on an army cot by one
of his employees. His skull was
fractured and his head was badly
beaten that one ear was nearly
severed from his head.

On the ground near Boyd's cot
the officers found a bloody claw
hammer which was used, they said,
in the assault.

MAY HOLD BALANCE

Shadow of Paul John Kvale
Looms Over New House

ST. PAUL, Minn., Nov. 7. (AP)—
The shadow of Paul John Kvale, a
congressman from the seventh Min-
nesota district, loomed large over
the new house of congress today.

For should the final results show
an even division among its demo-
cratic and republican members af-
ter any recounts or contests of
Tuesday's election had been set-
tled, the 34-year-old farmer-lab-
or from Minnesota would hold the
controlling vote.

Now he would vote not be de-
termined and the man who took his
father's place in congress when the
latter died was keeping his own
counsel.

First Annual Tech Rodeo Presented Friday Night

Kathleen Harmon Crowned Queen; Show to
Be Continued This Afternoon, Tonight

OPENING show of the first an-
nual rodeo of the school of agri-
culture, Texas Technological col-
lege, was presented Friday night
on the college campus south of the
agricultural building.

Two minor casualties were re-
ported following Friday night's
show. Earl Liber was knocked un-
conscious when thrown from a
bucking steer but upon regaining
consciousness was not believed hurt. A
steer which he was attempting to
ride also accounted for Tom Eas-
ley's injury, a sprained back.

Crowning of Miss Kathleen Har-
mon, of Lampasas, as "La Reina del
Rodeo," to open formally the two-
day student rodeo program was
conducted Friday night. The queen
was accompanied by her two ladies-
in-waiting, Miss Vonelle Oikerson

and Miss Oia Reeder, both of Lub-
bock.

Students compete.
Bucking horses, wild buffalo,
mean steers and frisky goats ap-
peared in the arena to resist the
efforts of student cowboys entered
in riding, roping and bulldogging
contests.

Judges were O. A. Lambert, for-
mer manager of the Picherick
ranch near Spur; Horace Bryant,
range boss of the "6666" ranch near
Post, and Dan Perrin, of Spur. Jim
Williams, of Lubbock, is manager
of the rodeo.

Fifteen bronchos from the John-
ston ranch near here were obtained
for use in the three roundup shows.
A parade will be conducted

Train Robbery Nets Loot Of Over \$60,000

Modern Racketeering, Flare of
The Old West Combined In
Daring Holdup of Train In
California Friday

OAKLAND, Calif., Nov. 7. (AP)—
With the dispatch of modern racketeering
and some of the flare of the old
west a band of outlaws held up a
Southern Pacific passenger train
near Nobe today and escaped with
loot estimated at \$60,000 or more.

Passengers were not molested, but
were thrown into a panic when a
transformer on an adjoining elec-
tric line blew out. Eye witnesses
agreed but one shot was fired by six
or seven armed and masked men.

The escape was made in a stolen
motor car.

The train was No. 24, which runs
daily between Oakland and Truck
Co., Calif., leaving Oakland at 7 a. m.
Authorities believed two men board-
ed the train at Berkeley as pas-
sengers.

Train Is Held.
Near Nobe, seven miles from here,
an armed, masked man, who had
climbed across coaches and tender,
jumped into the locomotive and in
a high, calm voice commanded the
engineer and fireman to stop the
engine.

R. E. Lemery, engineer, and S. E.
O'Brien, fireman, were forced to lie
down on the ground. A large sedan
was sitting beside the track with
other robbers in it. Machine
guns were mounted on the car and
each robber was armed with a high
power rifle, except one who had a
shotgun and the man who climbed
into the cab with a pistol.

Methodically the robbers entered
the baggage car, held up John Mc-
Clintock, baggage man, and took an
undetermined number of bags of
mail including approximately \$60-
000 consigned by the Federal Re-
serve bank in San Francisco to the
American Trust company branch at
Pittsburgh to be used in cashing
payroll checks for the Columbia
Steel works company.

The workers were lined up ready
to receive their checks when news
of the robbery came. Company offi-
cials held up the checks tentatively.

The bandits fled in the sedan and
the train pulled on to Stages where
authorities were notified.

WILEY FOUND GUILTY

Five-Year Suspended Sentence
Is Given Alleged Slayer

BOSTON, Nov. 7. (AP)—A suspen-
ded sentence of five years was given
Drew Wiley, 22, found guilty by a
jury in district court today for the
slaying of Rube Huff, 40, killed
April 2, after an argument over a
dice game.

Drew Wiley's father, Hugh Wiley,
also was tried for Huff's slaying
and given four years by a jury at
London several weeks ago.

Huff was shot to death with a
shotgun. Wiley claimed Huff was
killed in self defense, alleging Huff
was advancing with a drawn pis-
tol when shot.

DU PREST APPOINTED

AUSTIN, Nov. 7. (AP)—Appointment
of John B. DuPre as assistant at-
torney general to fill the vacancy
caused by the resignation of Jack
Black, was announced today by
Attorney General Robert Lee Bib-
bitt.

Mine Tunnels Give Up Four More Victims

Known Dead In Tragic Blast
Increased to Eighty-Three
With Discovery of Other
Bodies of Ill-Fated Miners

Search Continued
Every Section of Mine To Be
Gone Over and All Debris
Removed Before Hunt For
Victims Is Discontinued

(By The Associated Press)
MILLFIELD, Ohio, Nov. 7.—The
deep tunnels of No. 6 mine of the
Sunday Creek Coal company gave
up the bodies of four more
miners late today, bringing to 83 the
known dead in last Wednesday's ex-
plosion.

Discovery of the bodies was made
by fellow miners and inspectors of
the federal bureau of mines.

Immediately after being brought
to the top of the 180-foot shaft, the
additional victims were taken to one
of the three store rooms which have
been transformed into temporary
morgues.

Search for these four men was
started after a checkup revealed they
were unaccounted for in the
explosion. Previously it had been
thought the toll would stand at 79,
including the mine company offi-
cial who was slain with their
employees during an inspection trip
into the tunnels.

Although rescuers expressed be-
lief the bodies found today were all
that remained in the mine, search
of the tunnels will be continued by
miners and inspectors until every
section has been gone over and all
debris removed.

R-101 LEAK CLAIMED
Giant Craft Not Air-Worthy
Testimony Indicates

LONDON, Nov. 7. (AP)—Three
months before the dirigible R-101
sailed on her last tragic voyage,
aircraft inspectors discovered leaks
in the gas bags had decreased the
ship's lifting power to an alarming
extent, it developed today at the
inquiry into the loss of the dirig-
ible.

As Crowds Waited Word of Entombed Miners

Here is a view outside the Sunday Creek mine tipple, north of Athens, O., as crowds of relatives and friends awaited word of the fate of 180 miners entombed in the depths of the shaft by two explosions.

In the photo can be seen the waiting ambulances ready for relief work. Just after this photo was snapped the bodies of 25 miners, including W. E. Titus, president of the Sunday Creek company, were brought to the surface.

Stock Market Hits Bottom

Texas Spends
\$47,331,977
On Highways

State Highway Engineer Gibb
Gilchrist Issues Report For
Fiscal Year; Balance Reduced
From Last Year

(By The Associated Press)
AUSTIN, Nov. 7.—A total of \$47-
331,977.54 was spent by the Texas
Highway department during the fis-
cal year ending August 31, accord-
ing to a report issued today by Gibb
Gilchrist, state highway engineer.

Total receipts were \$42,549,852.90.
The balance September 1, 1929 was
\$10,148,823, being reduced to \$4,966-
688 on August 31, 1930.

Of the total expended, \$32,950-
397 was for construction; \$12,158-
563 for maintenance; \$1,134,329 for
equipment; \$73,568 for overhead
and \$350,471 for general disburse-
ments.

The federal government contrib-
uted \$6,006,577 to construction
work; the state \$16,426,204 and the
counties \$10,515,575.

Tabulation of receipts showed
\$4,823,478 was received from license
fees from tax collection; \$5,801,472
in reimbursements of advances on
federal aid projects; \$10,037,636 on
reimbursements of advances made
to counties for construction; \$21-
180,883 from gasoline tax collec-
tions; \$198,697 depository interest on
state highway fund; \$176,673 office
and sundry collections.

Of the total disbursed, 69.61 per
cent was spent for construction and
25.89 for maintaining with the over-
head listed at 1.56 per cent and
equipment purchases at 2.40 per
cent.

LANDS AT CHICAGO
Stanley Boynton To Continue
To New York Today

CHICAGO, Nov. 7. (AP)—Stanley
Boynton, 18, landed his plane at the
municipal airport at 4:30 p.
m. today from Kansas City in his
attempt to set a new west-east fly-
ing transcontinental flight record.

He said he would take off at
daybreak tomorrow for New York
and did not know where he would
stop for refueling.

Boynton left Amarillo, Texas, at
7:15 today and made stops at Wich-
ita, Kansas City and Moline, be-
fore reaching Chicago.

HAWKS TO RETURN
HAYANA, Nov. 7. (AP)—The little
plane in which Captain Frank
Hawks yesterday reduced the time
record from New York to Havana
more than five hours, was turned
and refused tonight, ready for a
return flight to New York City to-
morrow morning.

REPUTATION ATTACKED
DALLAS, Nov. 7. (AP)—Testimony
intended to prove that Jack Daugh-
erty, who was shot to death in a
casino room here Feb. 27, had the
reputation of being an overbearing
"man-about-town" who enforced his
will with knives and pistols was given
by defense witnesses today in the
murder trial of Sam Correnti,
charged with Daugherty's death.

Judge Grover C. Adams ordered
a pension for tonight.

H. McDowell, checker for a rent
car company, testified that at one
time he hit Daugherty over the
head with a piece of iron after he
had been threatened with a knife.

Find Cached Gold Two Men Recover Villa Bullion

EL PASO, Nov. 7.—Indian Hot
Springs, Texas, was excited
today over a report that \$46-
000 worth of gold bullion, each-
ed years ago during the forays of
Panche Villa, Mexican ben-
dit and revolutionist, had been
dug up by two men.

The men, known there as J.
E. Martin and Archie Hill, of El
Paso, could not be traced here
or in Juarez. It was said they
took from a secret place in the
Quintana mountains a large
quantity of gold bars.

Going to the district October
29, the men quickly located some
horses from a rancher and daily
rode into the mountains,
shrouding their business and
movements in secrecy.

On the fourth day, the men,
tight-lipped and dressed in hik-
ie clothes, took an automobile
instead of saddle horses over
the trail they had been follow-
ing. They returned that night
with the automobile loaded with
sacks, which, some of the resi-
dents of the village believed,
contained the long-missing gold
bullion, a part of \$280,000 worth
said to have been smuggled
across the border during the
Villa revolution.

On Steady Decline
The firmer tendencies of yester-
day proved to have merely been a
breathing spell, and the decline on
the stock market was even more
sensitive than that of Wednesday,
when the price index of 90 shares
lost 4 points. The market has de-
clined almost steadily since Sep-
tember 10, the most protracted bear
movement in recent Wall Street his-
tory. The price average of 90 shares
has dropped since that date from
173.6 to 127.8. The lowest level
reached in 1929 was 140.2.

Fresh selling was somewhat pur-
suing to Wall Street. There was no
rush of short covering in the last
hour to indicate the attack came
primarily from the bear quarter,
and final quotations were around
the day's lowest. The difficulties of
the Banque Adam and the Bank
Oustrie in Paris gave rise to rumors
that much of the liquidation might
be for French account, but these
were discounted in international
banking circles. The appointment
of a committee to work out a refinanc-
ing plan for the Seaboard Airline
may have been an adverse psy-
chological factor, although it seemed
generally understood that situation
was an isolated one in the rails.

Union Pacific dropped \$9 to the
lowest since 1927. Baltimore and
Ohio declined \$4 to the lowest since
1928. New York Central dropped \$3
to \$119 a share, the lowest since
1928; then recovered to \$121.30.
Pennsylvania sold off about \$3 to
\$69.87, the lowest since 1927. Atchi-
son dropped \$5 to the lowest in
two years, then recovered \$1.75 of its
loss.

FORD WHEEL FOUND
A model-A Ford truck wheel
which a boy said he found in an
alley in possession of Constable J.
C. Roberts and may be obtained
at the court house upon identifica-
tion.

**President Urges
Thanksgiving Aid**
WASHINGTON, Nov. 7. (AP)—Ob-
servance of Thanksgiving day by
aiding those people who are in need
and suffering from causes beyond
their control was urged on the coun-
try today by President Hoover.

In his annual proclamation desig-
nating November 27 as a day of
national thanksgiving, the president
suggested that "a proper celebration
of the day should include that we
make sure that every person in the
community, young and old, shall
have cause to give thanks for our
institutions and for the neighborly
sentiment of our people."

**Sam Correnti On Trial Charged
With Card Room Murder**
DALLAS, Nov. 7. (AP)—Testimony
intended to prove that Jack Daugh-
erty, who was shot to death in a
casino room here Feb. 27, had the
reputation of being an overbearing
"man-about-town" who enforced his
will with knives and pistols was given
by defense witnesses today in the
murder trial of Sam Correnti,
charged with Daugherty's death.

Judge Grover C. Adams ordered

\$25,750 Chest Budget Needed For 1931 Work

All Member-Groups of Local Community Chest Except 2 Charity Organizations To Be Budgeted Less

Total of \$25,750 is needed for the 1931 budget of the Lubbock Community Chest. It was decided Thursday night by the Chest board of directors sitting at a budget committee. All member-groups of the Chest except the two charitable agencies will be budgeted less than last year. More than \$8,000 of the total amount asked by the agencies was dropped off. Budgets of "character building" organizations were cut to strengthen agencies providing help for the unemployed, the sick and others needing charity, it was explained.

Budgets Announced
Budgets fixed at the meeting were announced Friday. A friendly "bottle royal" occurred at the conference as representatives of the agencies presented their petitions for budgets and remained to hear the request of other member-groups. Appointments of O. W. McLeod as chairman of men's teams in the Chest financial drive and of John DeLong as chairman of the women's team and big-gift committee were announced Friday afternoon. Roscoe Wilson will be general chairman of the campaign and A. B. Davis will direct it.

Tentative dates for the Chest drive are November 24 to 28. **Scouts Get \$4,000**
The Boy Scouts were given \$4,000, which is approximately \$725 less than they received last year.

Camp Fire girls were allowed \$2,200, which was \$182 less than they operated on last year.

The Y. M. C. A. and the Y. W. C. A. together were given \$4,000, which was \$1,000 less than they asked.

The Salvation Army was allowed \$3,000, which was approximately \$1,200 under their request.

Charities Get \$10,000
The United Charities was given \$10,000, which was \$3,400 under their request.

Amounts allowed the Salvation Army and the newly organized United Charities are an increase over the amount allowed the Salvation Army and Red Cross last year. It was felt, not only by the directors of the chest but by representatives of all of the other organizations that because of unemployment situation and the great need confronting the community to care for the poor that they should be helped financially.

Expenditures Allowed \$1,250
The sum of \$1,250 was placed in the budget to pay all expenses of the campaign that is just starting and also to cover operating expenses of the next twelve months.

It is the consensus of all persons in a position to know that even with the budgets allowed the Salvation Army and the United Charities that great care will have to be exercised in the spending of funds over the spread of twelve months period if many cases similar to that of the United Charities are not to confront the people.

Charities Backed
The United Charities, recently organized to handle the work formerly handled by the Red Cross, has not only the support of citizens generally, but is actively backed and endorsed by the churches, civic clubs and other local organizations. Nine of the larger church denominations of the city have two members each on the board of directors of the United Charities, a man and a woman, and there are five members at large, nominated by the community chest.

Using Business System
This group is starting in a systematic business like way the charity work which heretofore was carried on by the various churches, in which there was considerable duplication.

It was pointed out that the Y. W. and Y. M. C. A. work at the college has a budget of \$6,000 and that the remainder of the budget, after the \$4,000 is given by the chest, will be raised among students on the campus and school officials and from over the state.

It is the definite policy of the United Charities, and endorsed by the community chest, that our own poor, needy and sick will certainly be given first call on funds of the organization. It was stated, "work is to be passed on to the transient and others need not flock into Lubbock with the expectation of having charity dished out ahead of local people."

MANSION DESTROYED
TUXEDO PARK, N. Y., Nov. 7. (AP)—The 30-room mansion of Robert Ogden, New York banker, occupied under lease for several years by George Henry Warren, Jr., was destroyed by fire last night with a loss estimated at \$500,000.

MEETINGS FORBIDDEN
MILAN, Nov. 7. (AP)—Advises from Milan today said that all public meetings have been forbidden because of discovery by the police that communists were planning nationwide agitation meetings. Incendiary leaflets were found in the homes of communists leaders.

To E. C. Cope to repair frame elevator building, Broadway, \$200.
Permits for November total four with aggregate valuation of \$1,570.
Permits for 1930 total 223 with aggregate valuation of \$1,400,178.

Routine Meet Held By C.-C.

Representatives To Be Sent To Regional Traffic and Aviation Conference To Be Held In Dallas, Nov. 24

Board of directors of the chamber of commerce and board of city development met Friday morning in offices of the joint organization to consider routine matters.

Representatives will be sent to the regional traffic and aviation conference which will be held in Dallas, November 24 and 25, under auspices of the United States chamber of commerce, the C. of C.-B. C. D. directors decided.

Increase Opposed

The directors went on record as opposed to the proposed increase from 2 cents to 2 1-2 cents in the first class letter rate.

Display of marked interest by officials and citizens of Chihuahua in the proposal to extend the Carlsbad Cavern highway from El Paso to the Mexican city was reported by J. H. Hankins, president of the cavern highway organization. Mr. Hankins went to Chihuahua as a representative of the highway association on the special goodwill train from San Angelo to Chihuahua.

Mr. Hankins reported that he conferred with the highway committee of the Chihuahua Rotary club and chamber of commerce and with governor of the Mexican state in connection with the possibility of extending the Cavern route to the city across the Rio Grande.

To Hold Meeting

A meeting of representatives of towns on the highway between Lubbock and Odessa will be held November 12 at Seminole and means of obtaining state designation of the highway via Brownfield, Seagraves, Seminole and Andrews will be devised, the C. of C.-B. C. D. directors were notified.

Announcement was made that W. D. Peck, district traffic agent of Transcontinental and Western Air, Inc., will address the Rotary club here November 19 and the Kiwanis club, November 20. Mr. Peck is expected to present up-to-date information on the development of aviation, particularly as applied to this section.

Publicity department of the chamber of commerce supplied 143 trade magazines with stories on the second semi-annual market week held here, it was announced. Such Lubbock-in-print was cited as particularly valuable because the information reaches thousands of executives in business, trades and professions which do not see stories of Lubbock events appearing in newspapers of this section.

Ten thousand people attended a convective in memory of the Covenanters, which was held recently at Carlin, Scotland.

THE LONGEST FORWARD STEP IN MOTOR OIL!

SOCONY MOTOR OIL

DEWAXED...PARAFFINE BASE...POURS AT ZERO

THE Magnolia Petroleum Company has worked two and a half years developing this finer lubricant. We have had at our disposal the most highly trained engineers and the most modern research laboratories. We have had the pick of the choicest crude oils and the most up-to-date refineries. We have had the benefit of years of experience in the manufacture of lubricating oils.

We have produced the new Socony Motor Oil in which full lubricating value takes on a new significance. For in it we have put not one or two, but all and every characteristic a motor oil should have.

5 reasons for changing today to the new SOCONY MOTOR OIL.

- 1. Perfected Lubrication**...Refined by the new and exclusive Socony process, which gives additional lubricating value, the New Socony reduces wear on your motor.
- 2. Easy Starting in Coldest Weather**... It will flow more freely at zero temperature than asphalt base oils do that have the same consistency at like atmospheric or operating temperature.
- 3. Fuel economy and Increased Power**... Maintains proper "body" at all engine temperatures. Result: perfect piston seal, maximum power and minimum fuel consumption.
- 4. A Clean Motor**... A minimum of sludge and carbon, insuring more oil and a clean motor.
- 5. Minimum Oil Consumption**... No engine heat or pressure severe enough to break this new oil. Gives 25% to 50% greater mileage, with subsequent saving in money.

Magnolia Winter Transmission Oil is the superior lubricant for cold weather. It insures proper lubrication and easy gear shifting. Change to Magnolia Winter Transmission Oil in your transmission and differential today, when you're trying your first crankcase full of the new Socony Motor Oil.

Change NOW before Winter comes

Women House Members Are Counterpoised

Three Are Republicans, Three Democrats and Six Equally Divided On Prohibition Question: Three Opposed

WASHINGTON, Nov. 7. (AP)—In a house of delicate balance, the women members of the just-elected twenty-second congress are nearly counterpoised—three republicans, three democrats.

Divided along another line mentioned in this election—three are avowedly wet, and three dry.

Three were unopposed, and three fought for their laurels.

The feminine faces which came smiling and triumphant from a realm of higher mathematics into which this particular election was catapulted, were:

Republicans: Florence P. Kahn, California; Edith Nourse Rogers, Massachusetts; and Ruth Baker Pratt, New York.

Democrats: Ruth Bryan Owen, Florida; Mary T. Norton, New Jersey; and Effie Gene Wingo, Arkansas.

On the prohibition question Mrs. Pratt, Mrs. Kahn and Mrs. Norton are anti-Volstead.

Following close upon the tenth anniversary of women's suffrage, the story told in ballots last Tuesday could in nowise be interpreted as a numerical gain for the women in the national legislative halls.

Fewer Women.

The house will have three less women members a year from now than it has at present, with Katherine Langley, of Kentucky, defeated, Ruth Hanna McCormick of Illinois eliminated by her unsuccessful senatorial race, and Pearl Peden Oldfield, of Arkansas, refusing to run.

And the senate will still be an all-star affair, with J. Ham Lewis in the seat which had been tentatively dusted off for Mrs. McCormick whose title was to have been "first woman ever elected senator."

The next annual automobile show of Germany will be held in February.

TASTY CEREAL HELPS STOP CONSTIPATION

Did you know that you can overcome constipation by simply eating a delicious cereal each day? Read this enthusiastic letter from Mrs. Kelli:

"I have found Kellogg's All-Bran a sure cure for constipation, and know it is a valuable remedy for the elderly. After using it my family and I certainly will not be troubled with constipation again. Do this and I can tell you my mother is hale, hearty, and free from constipation."

How easy to prevent constipation by eating Kellogg's All-Bran. Two tablespoons daily, in children's cereal, serves with each meal. Do this and I can tell you my mother is hale, hearty, and free from constipation.

Delicious with milk or cream, fruits or honey added. Cook into bran muffins, breads, omelets, etc. Kellogg's All-Bran also needed from to the diet. Made by Kellogg in Battle Creek.

Well Known American Sculptor Will Leave Work Unfinished When Gang of Wreckers Come to Tear Down Studio

NEW YORK, Nov. 7. (AP)—On the morning of Nov. 21, George Grey Barnard, one of America's best known sculptors, is expecting the arrival of a gang of wreckers to tear down his studio on "God's Thumb," a cliff that rises high between the Hudson river and Broadway at the upper end of Manhattan.

And when they come, he said today, he is prepared to turn the place over to them, put on his coat and walk out—leaving behind most of the work he has accomplished in the last 15 years.

It consists of enormous statues of men and women—figures in heroic cast, most of them 15 or more feet high. They were to have been a part of his "Rainbow Arch," originally a unit of a gigantic memorial of war and peace. If he is forced to move now, the sculptor said today, his arch never will be completed.

About fifteen years ago Mr. Barnard built his studio on "God's Thumb," owned by John D. Rockefeller, Jr., and a part of the property he recently gave to the city of New York for a park. The studio was built while Barnard was doing some work for the Rockefeller. Recently the sculptor received notice to vacate by Nov. 21.

"It took me years to get these things perfect," the sculptor said today. "I can't go through it all again. I'm too old. To move out now would mean starting all over."

Mr. Barnard recently said statements attributed to him, that he would challenge the Rockefeller and the City of New York to move him out, were incorrect.

EMPLOYEE INDICTED

HOUSTON, Nov. 7. (AP)—George P. Cocklin, dance hall employee, was indicted today on a murder charge in connection with the fatal shooting of Adolph Kolesnikovic, 22, the night of October 19, at a dance hall here. Witnesses at the examining trial said Kolesnikovic had a fight with another youth and Cocklin interfered. In a scuffle a pistol was fired and the youth mortally wounded.

ROB THREE HOTELS

Quartet of Robbers Conduct Rapid Holdup Series

CLEVELAND, Nov. 7. (AP)—Three east side residential hotels were held up in rapid succession early today by a quartet of robbers.

Four young men, well dressed and wearing spectacles, strolled into the lobby of the hotel Belmont, lined 21 guests against a wall and relieved them to an amount estimated at \$1,000 in cash and jewelry.

Shortly afterwards the holdup gang entered the Bolton Square hotel where they obtained \$40 from the night clerk, and then went to the Hotel Perkins, where another night clerk yielded only \$25.

England-Gibraltar air service is under consideration.

The FRYING PAN asks a favor...

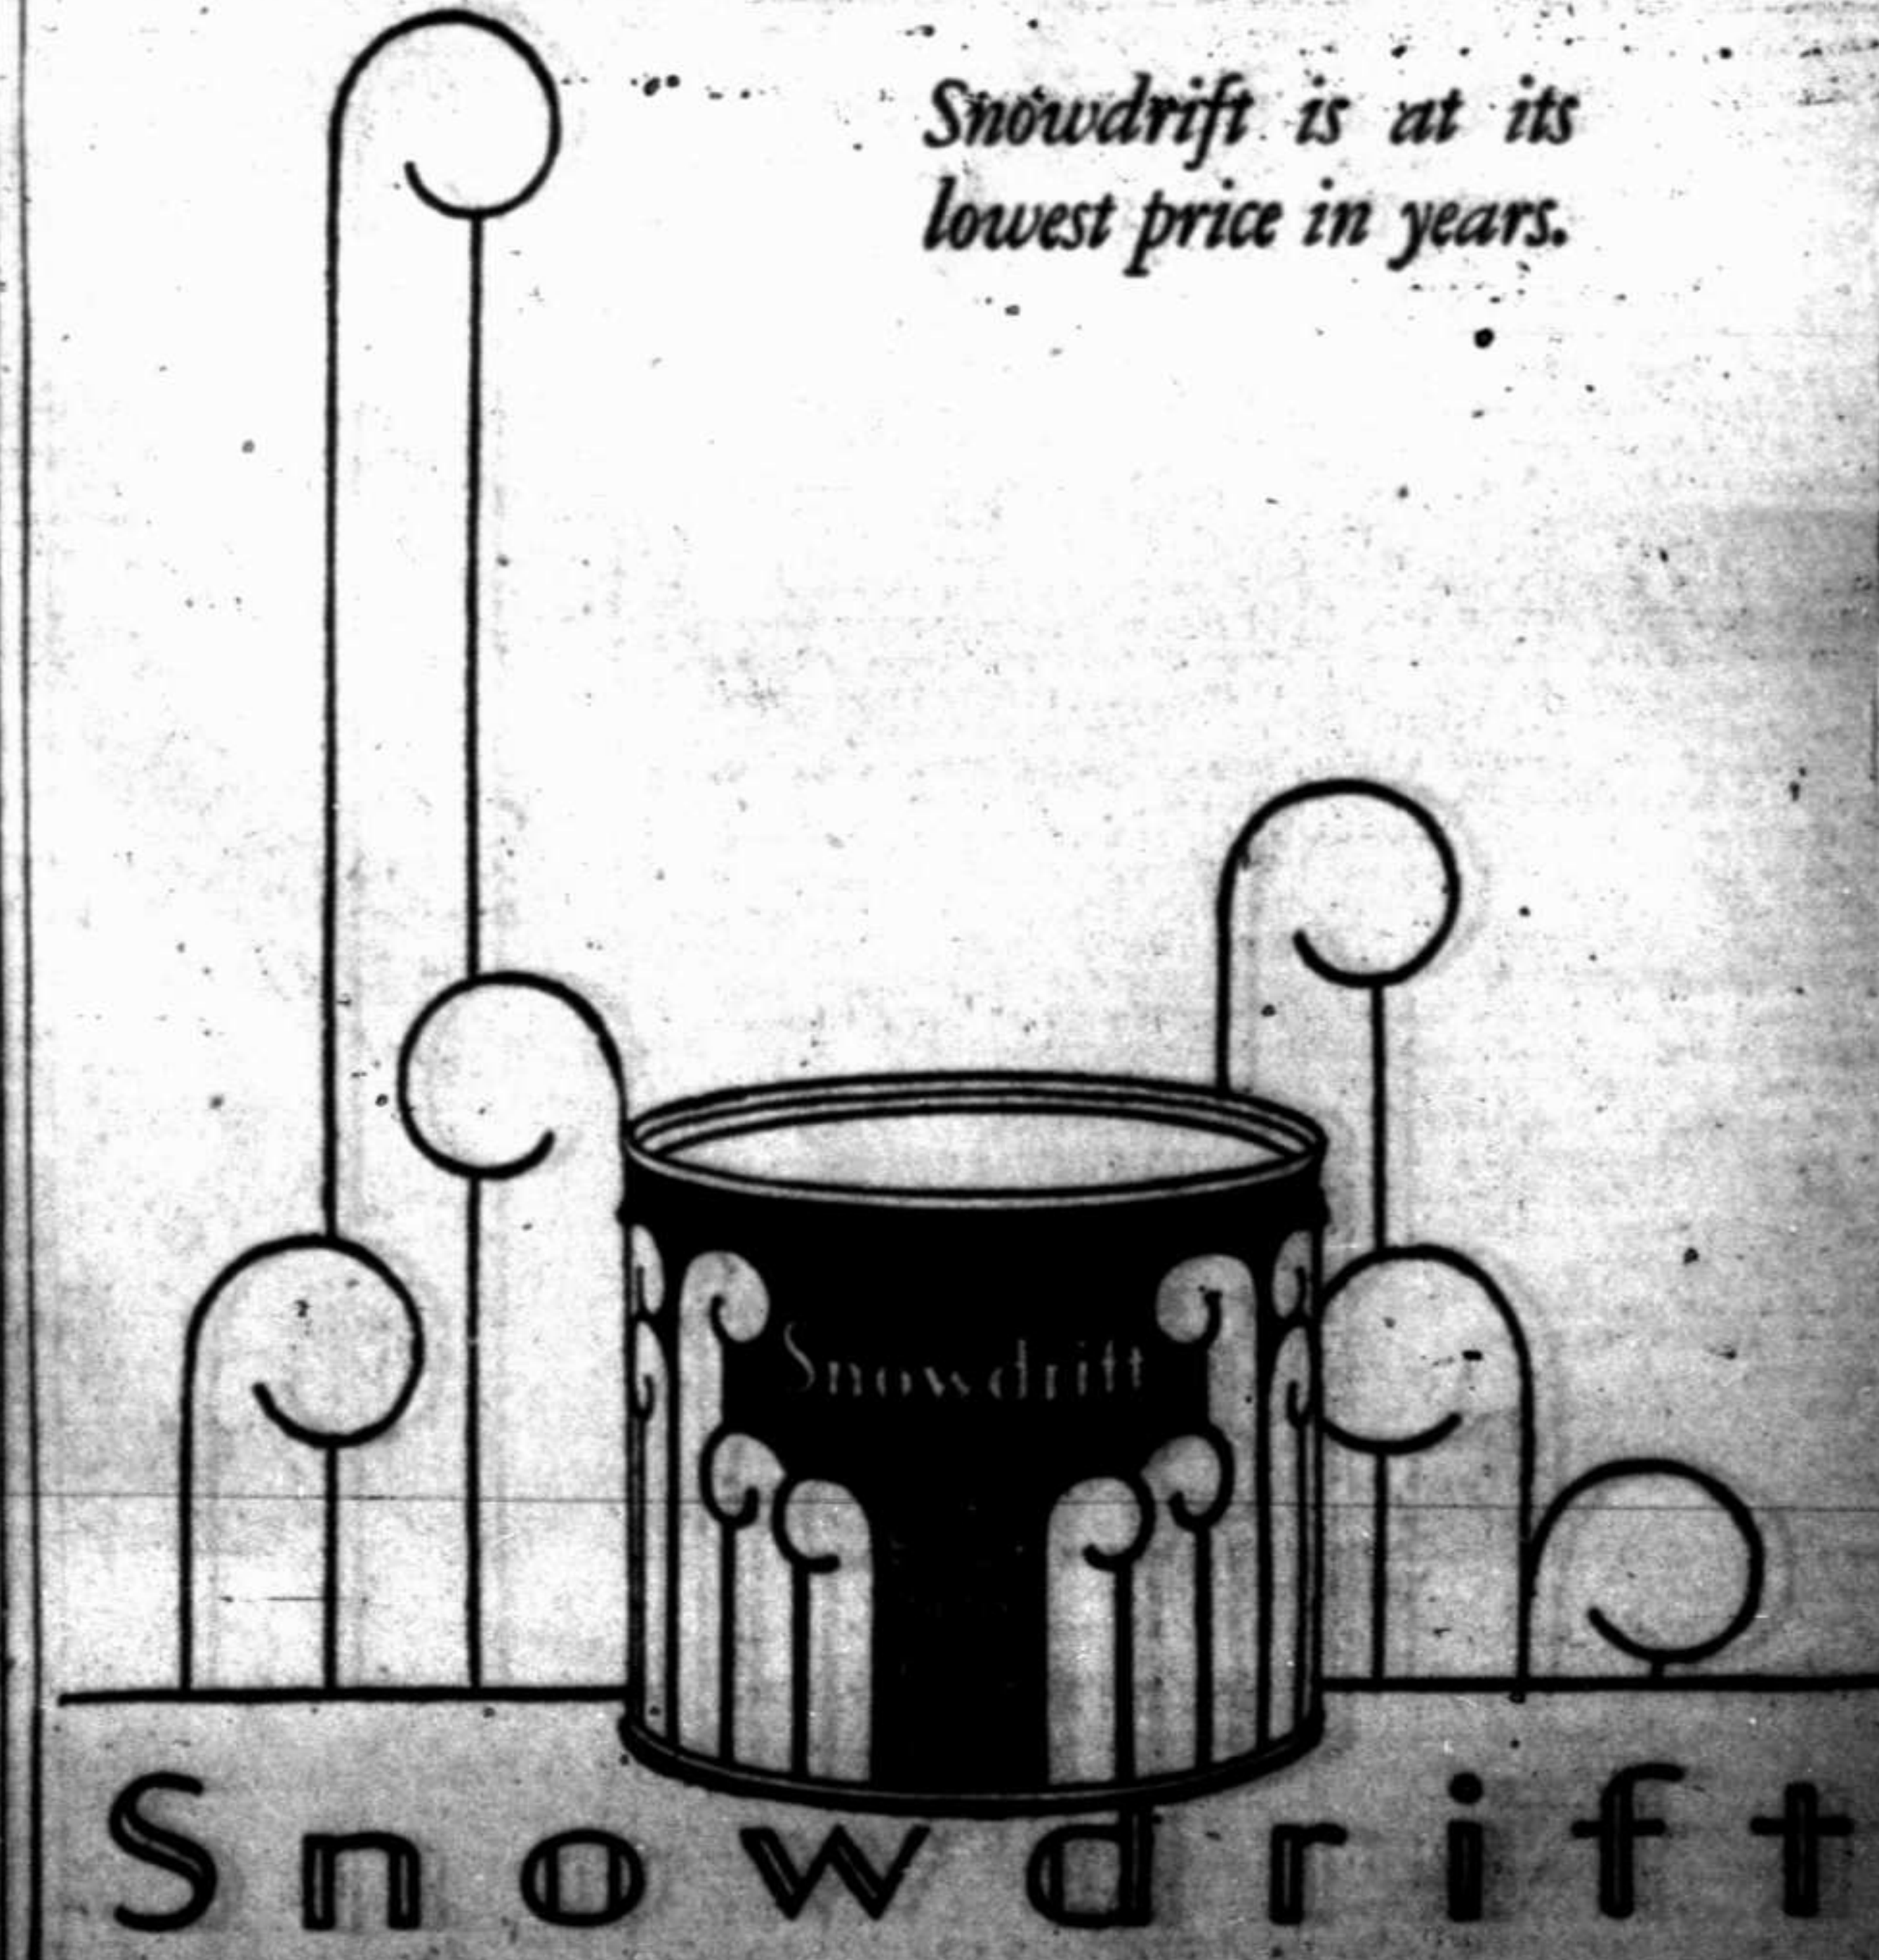

"Give me a chance to do my best work for you. Give me the opportunity you have given my friend, the cake-pan. I can fry food wonderfully good-to-eat, if you'll give me the right things to work with.

"For instance, you use the best ingredients when you make a cake... fresh eggs, rich milk, Snowdrift. But you are likely to use almost anything, even drippings, for frying. Then the frying pan is blamed when you don't like the taste. Whatever you use for frying makes the crust, the best part of fried food. So the crust and the flavor can be only as good as whatever made it. Let me fry with Snowdrift."

Because nothing can be too good to come to your table as the crust of fried food, the Wesson Oil people make Snowdrift of an oil as choice as fine salad oil... free of all animal fats. It's brought to you sealed in air-tight cans, so it keeps fresh and sweet. Snowdrift is pure-white and appetizing when you put it into the frying pan... and it's every bit as pure as it looks.

You know that one of the secrets of good frying is to "fry hot." Many fats smoke and burn before they are hot enough. Snowdrift helps you by heating easily to the right temperature for perfect frying.

Snowdrift is at its lowest price in years.

Avalanche-Journal Want Ads Pay

The Woman's Angle

BY BLANCHE E. BEAN
Avalanche Woman's Editor

THE other day I saw some figures on what woman is doing today, in comparison to her status of sewing a fine seam in 1912.

Today's woman report tells us, this article said, that 10,000,000 women leave their homes every morning for business. And what businesses!

In New York City, according to the statistics quoted in this story, there are 230 women chauffeurs, 52 detectives, three umbrella menders and two paper hangers. There are also livery stable keepers, an iron moulder, railroad switchwomen and daywomen, cobblers, piano tuners, longshorewomen, stedevers, five sailors, an electrician, mechanic, street car conductors and policemen.

There were only a few of the things that were listed, but they do serve to give us some idea of the diversity of occupations and vocations followed by women every day in the United States. No longer a synonym for softness and defenselessness.

Some times ago I copied some statistics for 1920 from an almanac. I found that 1,128 women were employed in occupations classified as agricultural, forestry and animal husbandry; 2,884 women were employed in extracting minerals and that 1,930,341 were employed in manufacturing and industrial work. There were 687,792 women in trades, 21,736 doing public service work, 1,016,436 in professional service, 2,186,924 in domestic or personal service work and 1,626,116 filling clerical occupations. These figures were for women 10 years of age and over.

What the 1930 census will reveal is problematical as more women are employed at various occupations and enterprises today than were working ten years ago and women have invaded many fields today in which they were not found at that time. Figures such as these will not be available in Lubbock until about the first of December, according to Dr. E. Barr, who was in charge of the census taking here, but when they come out I shall be out copying some more statistics.

TO PLACE THE FURNITURE
CORNER grouping of furniture is the mode now and it is especially appropriate for the small room, particularly because it saves space, according to notes on the home. The corner cupboard of cabinet, built to fit the space, has come into its own. The corner placement of furniture is good, as long as one does not employ the oblong or square furniture leaving an awkward space in back, the notes reveal.

LILACS BLOSSOM, ALSO
FRIDAY morning I mentioned the lilacs and apple trees which are blooming here. During the day, Mrs. E. Y. Lee called to tell me of a lilac bush at the home of her daughter, Mrs. C. E. Hunt, which is in full bloom. This must be an unusual occurrence because Mrs. Lee has been living in Lubbock since the town was started and is familiar with the ways of trees and bushes here.

SOME MORE FIGURES
SINCE I am in favor of statistics this afternoon, here are some more I have gleaned from some place.

Women now buy 95 per cent of the dry goods purchased in America; 87 per cent of the food stuff; 61 per cent of the automobiles; 48 per cent of the clothing; and 26 per cent of the shoes and socks that their men folks wear.

Women even comprise between 25 and 40 per cent of the bond customers in the United States.

These are reasons why our mail boxes are always full of circulars and direct-to-the customer advertisements about everything from cravats to grand pianos. Business men know that they have the women of the nation to deal with in their sales.

Always when I get a good start like that paragraph above I have to stop suddenly or I find myself writing a lot of moralizing about the importance of women in the world and such things as that, and I find that that isn't always the diplomatic trend to employ. Men don't like it.

ANOTHER RECIPE
SWEET potatoes seem to be plentiful, so my recipe for this afternoon is going to be sweet potato croquettes.

Mash smooth or put through a ricer enough boiled sweet potatoes to make 2 cups. Season with one-half cup of cream, one-fourth cup sugar, one well-beaten egg, one tablespoon butter, grated rind of one-half lemon, one-fourth teaspoon salt. These should be added while potatoes are hot; then should be placed in hot water until mixture is thick enough to form into balls. Press the center of each ball with a rounded end, strip of dried fig or a bit of jelly or preserve. Roll in bread crumbs; dip in beaten eggs; roll again in bread crumbs.

GO TO SUFFER
If you make a batch of hot biscuits, and give them with left-over milk, the family will hardly notice the absence of meat.

Chopped hard boiled eggs, served in thick cream sauce, on toast, make a good breakfast if you shred part of the yolk for garnish and add some of the egg white.

Election Of Officers To Be Factor Of Interest At Meeting

South Plains Teachers Are To Meet Here

Musicians Are To Gather In Business Session And For Luncheon This Afternoon At E. B. Adcock

The election of officers for another year will be the factor of interest today when members of the South Plains Music Teachers association gather for their fall session at the home of Mrs. E. B. Adcock, 2801 19th street.

Mrs. Lillian Butler, the president, is expected to preside at the meeting, which will be held in connection with a luncheon.

In addition to the Lubbock women who will attend, there are to be several from surrounding towns at the luncheon.

This association, which has been in existence for several years, meets in the spring and in the fall each year in some town on the South Plains.

P. T. A. Holds Session Here

Monthly Junior High Meet Is Held At School With Reports Made; Children Given Program

Pupils from the room taught by Mrs. Claxton Draper furnished the program given at a meeting of the Junior High school P. T. A. Thursday afternoon at the school. Margaret Marshall gave a reading, Katherine Bell made a talk on citizenship and the group sang a cradle song by Schubert.

Mrs. E. L. Robertson presided during a business meeting and reports were given by Mesdames C. P. Litton, Thad Thomas and Bell. A letter which was given to the room having the greatest number of mothers present went to the room taught by Mrs. E. T. Adair and Mrs. Griggs.

Mrs. Robertson made a talk on the need of co-operation between parents and teachers in dealing with children of the adolescent age.

Churches Plan Thanksgiving Service Here

United Service Will Be Held At First Methodist Church With Rev. R. C. Campbell of Baptists Main Speaker

Lubbock protestant churches will unite for Thanksgiving services; the night of the holiday at the First Methodist Episcopal church. It was announced Friday following a meeting of the ministerial association.

Rev. R. C. Campbell, pastor of the First Baptist church, will deliver the Thanksgiving sermon.

Cooperation in entertaining the annual Older Boys conference here next month was voted by the ministers.

Postponement of the father-and-son banquet until February 8 because of conflict with other activities was decided upon.

Those present at the meeting included Reverends H. L. Munger, G. P. McCollom, R. C. Campbell, W. P. Jennings, John T. Smith and Jack M. Lewis and J. T. Trigg. T. A. White, D. T. Jennings, George Dupree, N. L. Peters, B. Sherrod, and O. H. Gline.

Bible Class Will Meet on Sunday

Four hundred guests are expected at a special "student's day" program of the Down Town Bible class at the Lyric theater Sunday morning, a letter sent to students at the Texas Technological college announced.

The Down Town Bible class, the largest men's Sunday school class in West Texas, is sponsored by the First Baptist Church and caters particularly to business men and to visitors found in hotel lobbies on Sunday morning.

W. B. Atkins is president of the class and has asked all members to be present Sunday morning so that the class may better welcome the visitors.

Dr. R. C. Campbell, pastor of the First Baptist church, is teacher of the class.

LABOR LOSES SEAT
SHIPLEY, Eng. Nov. 7. (AP)—Labor lost a seat in parliament and the conservative party gained one as a consequence of a bye-election here after the death of the sitting member, J. H. Lockwood, conservative, was elected, receiving 15,236 votes against 13,573 votes for W. A. Robinson, Labor, and 12,785 for A. Davy, Liberal.

BANK ROBBED
DETROIT, Nov. 7. (AP)—The Berkeley State bank, in the suburb of Berkeley, was robbed of nearly \$2,000 today by two men who kidnapped the Assistant Cashier, Maurice G. Cole, and then left him tied to a tree in Royal Oak.

Gay Lace Hat for Dancing Is Shown

Of sheer lace with a band of pink velvet ribbon is this dance cap of black and silver. A graceful bow of pink velvet ribbon finishes the hat at the right, back.

Today's Events

Members of the American Association of University Women are entertaining this afternoon with an annual tea at Hotel Lubbock beginning at 3 o'clock.

The Lubbock Music club meets with Mrs. Roscoe Wilson, 2201 Broadway, this afternoon at 3 o'clock for a program on American Woman composers directed by Mrs. H. B. Hawkins.

Members of the Camp Fire group, Newcomers, are to meet at 4 o'clock in Miss Corinne Warner's office for a handcraft lesson.

Mrs. R. A. Mills and Miss Lucille Gill are entertaining with bridge in the Mills home at 2627 22nd street this afternoon and again this evening.

Lonnie Langston, faculty sponsor for the Centaur club at Texas Technological college, is entertaining that club at 7:30 o'clock at 2617 19th street.

COUPLE IS MARRIED

Former Lubbock Girl Weds Amarillo Man

Miss Ona Maude Watson, formerly of this city, and Alfred Nelson of Amarillo, were married last Sunday afternoon in Amarillo at the home of Mr. and Mrs. J. W. Witt, according to word which has been received here. H. A. Shaw, assistant pastor of the First Christian church, officiated with the ring ceremony.

Mrs. Nelson, a daughter of W. T. Watson, of Plainview, is a graduate of St. Mary's academy.

The couple is living in Amarillo.

ROCKET PLANE AGAIN

BERLIN—Fritz von Opel, German rocket plane experimenter whose activities with rocket planes have been in the news often recently, is out to set a record with his novel aircraft. He plans now, in a special plane, to cross the English Channel some time this fall. He expects to cover the distance in less than 15 minutes.

A new air mail service carries mail from Mexico City to the Argentine in seven days.

TO ENTERTAIN

A. A. U. W. Members Are To Be Hostesses

Invitations have been extended to more than two hundred college women to attend a social tea that is to be given this afternoon at the Lubbock Hotel, beginning at 3 o'clock.

Members of the American Association of University Women will be hostesses. This is an annual occasion.

CROCODILE BAG
The last word in new leather is crocodile. Black and brown crocodile bags, made in ovals and oblongs are highly decorative.

A black suede broadcloth coat, with fitted lines, adds for chic a sable-dyed kolkassy fur collar and over sleeves that extend to the puff cuff.

A new air mail service carries mail from Mexico City to the Argentine in seven days.

TO PLACE THE FURNITURE
CORNER grouping of furniture is the mode now and it is especially appropriate for the small room, particularly because it saves space, according to notes on the home. The corner cupboard of cabinet, built to fit the space, has come into its own. The corner placement of furniture is good, as long as one does not employ the oblong or square furniture leaving an awkward space in back, the notes reveal.

LILACS BLOSSOM, ALSO
FRIDAY morning I mentioned the lilacs and apple trees which are blooming here. During the day, Mrs. E. Y. Lee called to tell me of a lilac bush at the home of her daughter, Mrs. C. E. Hunt, which is in full bloom. This must be an unusual occurrence because Mrs. Lee has been living in Lubbock since the town was started and is familiar with the ways of trees and bushes here.

Personals

Dr. Allen T. Stewart, of the staff of the West Texas hospital, has returned from Oklahoma City where he attended the annual fall conference of the Oklahoma City Clinical society, which met on November 4, 5 and 6.

Mr. and Mrs. C. F. Furr and Mrs. J. L. Starks and daughter, of Amarillo have been guests of Mr. and Mrs. R. E. Dick, 2622 19th street, during the week.

Mrs. and Mrs. H. R. Harman of Lubbock were visiting in Roswell Thursday.

O. L. Peterman has been attending to business matters in Roswell.

Ide Nelson of Lubbock has been visiting in Roswell for several days.

Mrs. Albert Isaacs and baby of Muleshoe visited in Lubbock yesterday afternoon.

TO ENTERTAIN
A. A. U. W. Members Are To Be Hostesses

Invitations have been extended to more than two hundred college women to attend a social tea that is to be given this afternoon at the Lubbock Hotel, beginning at 3 o'clock.

Members of the American Association of University Women will be hostesses. This is an annual occasion.

CROCODILE BAG
The last word in new leather is crocodile. Black and brown crocodile bags, made in ovals and oblongs are highly decorative.

Wright Home Is Scene Of Two Parties

Thursday Bridge, Just Sew Clubs Are Guests; Color Scheme Of Orange, Green Is Used

Mrs. W. H. Wright was hostess on two occasions this week in her home at 2122 27th street.

The entertaining rooms were decorated in chrysanthemums and marigolds for both parties and a theme of orange and green was used with the Thanksgiving motif predominating.

Members of the Thursday Bridge club played at the latter party with Mrs. L. A. Howard winning high score and high cut favor was presented to Mrs. W. J. Robertson.

Others present were Mesdames L. C. Johnson, Frank Owen Jones, J. O. Ballinger, A. L. Ward, T. C. Root, L. C. Hewitt, L. A. Howard, and Dewey McCallan.

The Just Sew club met Wednesday afternoon for several hours of needlework and chatting.

Guests were Mesdames Lloyd A. Johnson, H. C. Rampey, J. O. Kuy-

Gold Footballs to Be Presented 13 Westerners, Two Lubbock Coaches

Gold footballs will be presented to 13 members of the Lubbock high school football team and their two coaches as a result of the 0-0 tie game with the Amarillo Sander here last Saturday. It was announced Friday.

The Plainsman, Daily Journal columnist, led a campaign to obtain the small trophies for the Westerners who played against the Golden Sander, and last of the five balls needed was pledged Thursday night.

Previously 24 balls had been pledged upon agreement that they would be presented if the Westerners defeated Amarillo. Following the tie contest, the campaign was renewed and the watch-chain trophies pledged.

Players who will receive the balls are: Co-captains Dub Lawson and Mins Watkins, Moody Smith, Alan Johnson, Ovis Trail and Mack Scoggin, backer; Bill E. Watson and Malcolm Martin, ends; Archie Brawley and Milton McGehee, tackles; Cotton Welch and Melvin Grigg, guards; and Bob Crawford, center.

Donors of the footballs are Riley Hule, the tailor; C. A. Sheffield, manager of Hotel Lubbock; Dr. Sam G. Dunn, surgeon at West Texas

Kendall, A. L. Ward, L. C. Johnson, H. F. Maher and James Henderson.

Saturday Will Be Poppy Day

Members of American Legion Auxiliary to Sell Imitation Red Flowers to Help Disabled War Veterans

Today is Poppy day throughout the United States and members of the American Legion auxiliary will sell the imitation red flowers from five booths in the downtown district.

Making of the poppies provides employment for hundreds of former service men who were disabled and helps them to support themselves and their families through the winter.

Commemorative of the men who died on the poppy-studded fields of France and Belgium during the World war, the poppies customarily are worn on the coat lapel or dress front.

The funds derived from the poppy sale constitute the largest source of revenue for the rehabilitation and child welfare work of the American Legion and Auxiliary. The dimes, quarters and dollars dropped into the contribution boxes tomorrow will enable the local post and unit to aid those of other cities in carrying out a constructive program of aid to the disabled and to the dependent families of veterans throughout the year.

Among Chicago hoodlums a machine gun has come to be known as a "Tommy."

Here's the reason EVERY CAN OF Hills Bros Coffee has such a matchless flavor

FRESH from the original vacuum pack. EASILY opened with the key. LOOK for the drab on the can.

When you open a can of Hills Bros. Coffee it is just as fresh and aromatic as if you took it from the roasters yourself. For the air, which destroys the flavor of coffee, is completely removed and kept out of Hills Bros.' vacuum can. In a so-called air-tight tin, coffee will not remain fresh. Try a can of Hills Bros. Coffee. Grocers everywhere sell it. Ask for it by name and look for the Arab on the can. Then you will get the coffee made famous by Controlled Roasting.

SLOWLY... continuously... a few pounds at a time, Hills Bros.' exclusive blend of coffee passes through the roasters. Every berry is roasted evenly by this patented process—Controlled Roasting. And the flavor which is developed is deliciously different from that which any bulk-roasting process can produce.

Sunday-School Lesson

BY DR. J. E. NUNN

International Sunday School Lesson
For Nov. 9, 1930.

General Topic: Thomas, The Honest Doubter.

Scripture Lesson: John 11:14-16; 14:5-8; 20:24-29; 21:1-2.

John 11:14. Then Jesus therefore said unto them plainly, Lazarus is dead.

15. And I am glad for your sakes that I was not there, to the intent ye may believe; nevertheless let us go unto him.

16. Thomas, therefore, who is called Didymus, said unto his fellow-disciples, Let us also go, that we may die with him.

John 14:5. Thomas saith unto him, Lord, we know not whether thou goest: how know we the way?

6. Jesus saith unto him, I am the way, and the truth, and the life: no one cometh unto the Father, but by me.

7. If ye had known me, ye would have known my Father also; from henceforth ye know him, and have seen him.

8. Philip saith unto him, Lord, show us the Father, and it sufficeth us. John 20:24. But Thomas, one of the twelve, called Didymus, was not with them when Jesus came.

25. The other disciples therefore said unto him, We have seen the Lord. But he said unto them, Except I shall see in his hands the print of the nails, and put my finger into the print of the nails, and put my hand into his side, I will not believe.

26. And after eight days again his disciples were within, and Thomas with them. Jesus cometh, the doors being shut, and stood in the midst and said, Peace be unto you.

27. Then saith he to Thomas, reach hither thy finger, and see my hands; and reach hither thy hand, and put it into my side; and he answered and said, My Lord and my God.

29. Jesus saith unto him, Because thou hast seen me, thou hast believed: blessed are they that have not seen, and yet have believed.

John 21:1. After these things Jesus manifested himself again to the disciples at the sea of Tiberias; and he manifested himself on this wise.

2. There were together Simon Peter, and Thomas called Didymus, and Nathanael of Cana in Galilee, and the sons of Zebedee, and two other of his disciples.

Golden Text: Thomas answered and said unto him, My Lord and my God.—John 20:28.

Time and Place: The raising of Lazarus, Bethany, February, A. D. 30. The discourse in the upper room, Jerusalem, Thursday, April 4, A. D. 30. Jesus appears to the apostles including Thomas, Jerusalem, Sunday, April 16, A. D. 30. Jesus appears to the seven by the Sea of Galilee, April, A. D. 30.

Introduction: Scarcely as are the references to Thomas in the Gospels, they suggest a personality of character and charm. The epithet "doubting," ordinarily prefixed to his name, is hardly fair. His was that very common type of mind that is not satisfied except with the testimony of the senses; or tangible proof. In American slang he was a "Mis-sourian," "wanted to be shown." That, if doubt, is an honest, not at all reprehensible doubt; even when carried into the sphere of religion. While Christianity has always given faith a paramount place, it has never, at least in its purest forms, slighted reason. It has ever welcomed honest examination, discussion and criticism.

Thomas, The Apostle: His name, Thomas, is a Greek word with a Hebrew origin, signifying "a twin." His alternate name, Didymus, is wholly Greek, and also means "a twin." There have been several conjectures as to his twin brother, but all are without foundation. The most likely guess is that his twin brother was Matthew.

Our knowledge of Thomas is confined to the four passages in John's Gospel which constitute our lesson; the first three Gospels merely mention him in the lists of the twelve apostles. Matthew couples Thomas with his own name. Mark and Luke also associated Thomas with himself in their lists, placing Matthew before Thomas, while Matthew gives Thomas the first position. The list of the Apostles in Acts 1:13 joins Thomas with Philip. Thomas, then, was with Jesus throughout his ministry, heard his marvellous discourses, witnessed his miracles, saw from day to day his divinely beautiful character, joined in his evangelistic tours, and was sent forth, perhaps with Matthew, as the apostle.

"Richest Bachelor" Takes a Bride

No longer "America's richest bachelor," John Nicholas Brown is pictured here with his bride, the former Miss Anne Kinsolving, after the wedding ceremony in St. Paul's Church, Baltimore. Descendant of an old and wealthy New England family, Brown now has a fortune variously estimated at from \$20,000,000 to \$30,000,000. Mrs. Brown is a former newspaperwoman. The couple were married by her father, Dr. A. B. Kinsolving, rector of the Baltimore church.

ing them the wounds in his hands and side, bestowing his blessing upon them, and sending them forth into the world with the priceless gift of the Holy Spirit. How much Thomas missed by not attending that church meeting! His loss

should be a lesson to us. "The other disciples therefore said unto him, We have seen the Lord." There were ten of them—really twelve, for the two from Emmaus were there (Luke 24:36). They knew Jesus well, every bit as well

as Thomas. The testimony was overwhelming; it would seem to be conclusive. "But he said unto them, Except I shall see in his hands the print of the nails, and put my finger into the print of the nails, and put my hand into his side, I will not believe." He could not believe it, simply because it was so good and great and blessed. It was too good a thing to be true.

Thomas Sees The Risen Jesus v. 26

"For a whole week Thomas lay in the dungeon of doubt." This time he was not absent. Was he, doggedly doubting, yet longing, hoping for the proof? And did Jesus plan this appearance in particular on Thomas' account? We believe that he did go, and often does go, to far more trouble than that to win or strengthen the faith of a single individual.

"And after eight days again his disciples were within, and Thomas with them." Doubtless again in Mary's upper room, made sacred by the last supper. Thomas would not believe the first appearing, but he would not miss the second.

"Then saith he to Thomas, Reach hither thy finger and see my hands." Thomas had said (verse 25) that he must "see" the print of the nails. "And reach hither thy hand, and put it into my side."

"Christ demands no show of easy faith. Christ places no brand upon the questioner. Instead he deliberately complies with every demand for proof. He assails doubt upon his own ground—evidence."

"Thomas answered and said unto him, My Lord and my God." "With one bound, the man who could believe nothing passes into a man who believes all. The one apostle who almost swears that he will not accept the resurrection is already sure that he is standing before Jehovah himself."

Thomas After The Resurrection John 21:1, 2.

The final glimpse of Thomas is given us in the appendix which John added to his Gospel in order

WOMEN PILOTS

WASHINGTON, D. C.—Thirty-eight states now have women pilots. California leads all others, with 78 fair pilots, or better than a fourth of the total of 270 in the United States. New York, with 36, is second, Texas and Michigan rank third and fourth, with 15 and 12 respectively, and Connecticut and Missouri each have eight. Eight states have two each and 11 but one.

AIR CLUBS GROWING

WASHINGTON, D. C.—The famous "Caterpillar Club," an organization of aviators who have saved their lives by making parachute jumps from planes, is steadily growing. The roster now includes nearly 280 members. There are two women in the organization.

Argentina's present radio boom is greater even than last year.

To explain a saying of Christ regarding himself which had been much misunderstood. In order to do this he told about a meeting of the risen Christ with some of his disciples—a meeting not recorded in the other Gospels.

To assume that these seven disciples had gone back to Galilee to take up their old workaday life, because now it was all over with Jesus' cause, is gratuitous. They were there in obedience to the Lord's instructions (Matt. 28:7, 10) and in the certainty that they should meet him there. We are glad that Thomas was one of them, with no longer any doubts. He showed good sense, too, in keeping close to the close friends of the Master. It is in such company that you meet him, the Risen Lord, Lord Jesus.

Special Lesson

The glory of Thomas' confession is found in the use of the personal pronoun, "My." The Lord is my shepherd, sang the psalmist; "My Lord and my God," cries trusting Thomas.—Rev. William Hiram Foulkes, D. D.

HENS GET PLANE RIDE

STOCKHOLM—Chickens are now getting an airplane ride from the continent to Sweden, and these shipments by air are found very satisfactory. The first consignment was recently landed at Malmö, from Germany. It was composed of 1800 live chickens and every bird survived the trip and was in excellent condition at the end of it.

LONG DISTANCE FLOT

PARIS.—The French Committee of Aeronautical Propaganda has awarded M. Antoine, pilot on the French Aeropostale Toulouse-Casablanca-Dakar route, the highest award given by that organization. The presentation was made for his record of over 45,000 miles of flight in a period of six months.

After the Danish three-master schooner Doris recently went ashore at the mouth of the Tees and the crew of nine was taken off by the life savers of Hartlepool, England, the captain stated that he had dreamed that the vessel would be wrecked.

RESINOL STOPS THE ITCHING OF ECZEMA

Don't endure the torment another day. Just get a jar of Resinol Ointment and a cake of Resinol Soap from your nearest druggist. Bathe the affected parts with the soap and warm water, dry lightly, and apply the ointment. That's all there is to it but you will be amazed to see how quickly the itching stops, the inflammation is reduced, and healing begins.

FOR FREE TRIAL

See package of Resinol Ointment and Resinol Soap written Resinol Dept. 30, Boston, Mass.

Avalanche-Journal Want-Ad EMPLOYMENT CAMPAIGN Goal 1,000 Working Days

If You Have a Job--Give One

Whether it be only two hours work, or a permanent position, any kind of odd jobs about your home . . . perhaps the yard needs cleaning, the roof needs repairing . . . or the house needs repainting. Give the other fellow a job.

Every dollar that is expended in wages between now and January 1st will not only tend to increase the volume of retail buying but will greatly assist many Lubbock families in the procurement of actual necessities.

During November, beginning Sunday, No-

vember 9th, the AVALANCHE-JOURNAL WANT-AD DEPARTMENT will strive to obtain 1,000 days of employment for the unemployed. If you have a job for one day or thirty, phone the AVALANCHE-JOURNAL WANT-AD DEPARTMENT.

13 or 14

Give details and your ad will be inserted FREE OF CHARGE, in both morning and evening editions, for two days, providing the ad is not over three lines (count 6 words to line).

IF YOU HAVE A JOB --- GIVE ONE

FOR FURTHER DETAIL

Phone 13 or 14

INDIGESTION DISAPPEARED

Took a Pinch of Black-Draught
After Meals—Rid of
Stomach Pains.

Westminster, S. C.—"I have used Theodor's Black-Draught for headaches and distress for fifteen or twenty years," says Mr. E. D. King, of this place.

"I had a son who could not eat without suffering from indigestion and pain in his stomach. He would take a pinch of Black-Draught after meals for some time, and he got having indigestion. It helped him."

"My wife took Black-Draught for distress and headaches. When she would feel distressed and tired out, she took Black-Draught and found it relieved her."

"We have taken it and recommended it for years as a splendid family medicine."

Theodor's Black-Draught has been in use since 1835, with constantly increasing popularity because of the good it has done the men, women and children who have taken it.

Compound of selected medicinal herbs and roots, finely powdered, accurately combined and packaged in a thoroughly modern, scientific way. Price 25c.

Lubbock Morning Avalanche

MEMBER OF ASSOCIATED PRESS
FULL LEASED WIRE SERVICE

Published every morning, except Sunday and Monday, and consolidated on Sunday morning only in the Sunday Avalanche-Journal by the Avalanche-Journal Publishing Company, Inc., 1311 Texas Avenue.

L. E. GUINN, Publisher
CHARLES A. GUY, Editor
Entered at the Postoffice at Lubbock, Texas, for transmission through the mails as second-class matter.

Advertising Representative:
Texas Daily Press League, Dallas, New York, Chicago, Kansas City.

The Associated Press is exclusively entitled to the use for publication of all news dispatches received by it or on its behalf, and also the local news published herein, and the reproduction of special dispatches herein are also reserved.

NOTICE—It is not the intention of The Avalanche to cast reflection upon the character of anyone knowingly, and it through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

The Avalanche is an independent Democratic newspaper, supporting in its editorial columns the principles which it believes to be right and opposing those which it believes to be wrong, regardless of party politics publishing the news fairly and impartially at all times.

OFFICIAL PAPER

ONE MINUTE PULPIT

And above all things have fervent charity among yourselves: for charity shall cover the multitude of sins.

Use hospitality one to another without grudging.

—I Peter, IV, 8, 9.

NOT A MERE MACHINE

A HOPEFUL prospect for the coming generation is that it may not have to hear the exhortation, "Eat it; it's good for you." In the name of health education, dietetic faddists during the past decade have outlived pretty nearly every food that our forefathers favored, and have kept the conscientious constantly worried over the problem of opposing proper nourishment to the "sinful appetites of the flesh." And now, hopefully, the tide seems to be turning and common sense is coming to the rescue of the dietetically oppressed.

Recently one of the foremost medical authorities of the world told the British Medical Association that the "scientific truth about all this diet business is to eat moderately, taking ordinary mixed diet and don't worry about anything."

At Colgate university the coming semester research is to be directed toward finding if there may not be direct benefit from eating, not what may be academically determined to be good for one, but according to the individual's natural taste. Dr. Donald A. Laird, of the department of psychology in that institution, will have charge and in the advance statement of his course says:

"There has been a tendency in diet work for the past decade to treat man as a purely chemical machine working on calories, vitamins, minerals, carbohydrates, etc. Taste, odor, and appearance of food have been largely neglected, and it is these which will occupy our attention. Authorities recognize that the process of digestion is directly influenced by the psychological factors as well as by the chemical constituents of the food eaten, and the eater's whole temperament may be affected by good or bad digestion."

You may take as example, the people of Lubbock and the persons throughout the South Plains whom you know and with whom you associate. In the main, those who sit down to a well-prepared meal—largely the same meal which has tickled American palates throughout the years—are the happiest, healthiest ones of the lot.

There are some people, troubled with infirmities, who must watch their diets, must pay attention to the calories, vitamins and carbohydrates, but the large majority of the people who talk food in terms of fuel are doing so because it is a fad and considered as modernistic.

After all, if one's habits are normal, there is nothing to take the place of ham and eggs, steak and potatoes, cornbread, light bread and good old turnip greens—with other vegetables tossed in for good measure. The average man will never find a substitute for them, no matter how hard he tries.

CHILDREN'S RIGHTS

The rights of children. How strangely those words would have sounded a century ago. In that day a parent, under the law, had a right to the child and to the services and earnings of the child, but little was said about the rights of the child and less still was said about the enforcement of such rights as might have existed in the unwritten code of the times.

Among the most encouraging signs of the present era are society's increasing interest in the child, the protection thrown about the child and the definition of the rights of children. The change in public attitude toward the child follows the shift from hand manufacture to machine manufacture. The day is past when children could be worked from twelve to fourteen hours a day under deplorable conditions at poor wages. That day is past because civilized man has learned to subvert without the help of little hands.

Certain rights of the child are today recognized as inalienable.

The extra legal rights are the right to be well born, the right to a healthful environment and the right to a home. Then there are the legal rights to an education, to play and to be protected from exploitation.

Most children find the proper environment in their own homes, but some must look for it in the schools, at playgrounds and in the Sunday schools and such organizations as the Boy Scouts and Girl Scouts. And society, through governmental and other agencies, is making up for home deficiencies where they exist.

Life is real and life is earnest in Toronto politics, it seems, a newspaper editor there referring to the opposition's plant as a "groggery factory."

The columnist candidate for congress in New York was running against a woman making it more difficult than ever, even, to think of a last line.

The trouble is when business has turned four of these corners it is back where it was.

Quotations of Real Merit

Depressed conditions in the automobile industry have reached the bottom. Sharp revivals may be expected to begin with automobile shows in early January.—John J. Raskob, of General Motors.

The income of a large part of our people is not reduced by the depression, but is affected by unnecessary fears and pessimism. We have known a thousand temporary setbacks, but the spirit of this people never will brook defeat.—President Hoover.

We have in our hands the power to restore the steel industry in 60 days.—James A. Farrell of U. S. Steel.

This propaganda for hoarding money must cease.—Dwight W. Morrow of New Jersey.

We are gathering momentum for an upward swing that will lead the world recovery.—Will H. Hays, cinema czar.

It is a kind of co-ordinating job. The best we can do is to let various plans know what others are doing.—Colonel Arthur Woods, newly appointed director of national relief.

On the Firing Line at the Nation's Capital

PRINCE OF WALES SEES CHANCE OF TRADE BOOM BY CALLING ON BRAZIL

By Charles F. Stewart
(Central Press Staff Writer)

WASHINGTON, Oct. 7.—The Prince of Wales was going to visit Argentina shortly, anyway. Now he is arranging to visit Brazil on the same trip, according to London cables.

Wales does most of his visiting where trade looks promising to English exporters.

He seems to have had his eye on the Argentines for several years. The Argentines never have liked the United States overly well. Nevertheless, we horned into their markets just after the war when England's industries were too badly disorganized to meet their requirements. The prince evidently considers the time ripe today to recover this business.

But Brazil appears to have been an afterthought with him.

The royal traveling man's reason for revising his South American plans is not a problem, however, to puzzle trade experts for long. One guess is as many as they are likely to ask for.

It happened so recently that few persons can have forgotten already how boldly the state department staked its diplomatic judgment on President Washington Luis's government, at Rio de Janeiro, the capital, to suppress the Brazilian rebellion—or how effectively the rebels suppressed President Luis, less than two days later, the erstwhile rebels thus becoming the government, and Senior Luis an ex-president, with a can tied to his coat-tails.

Possibly this error on Secretary Stimson's part will not prejudice the new Brazilian regime against Americans in general, but the Prince of Wales' alteration of his itinerary hints that he hopes it will.

Brazil and Argentina are South America's two richest republics—hence the best worth having as customers.

Post-war competition for their markets has been principally between the United States and Great Britain. The Germans have been regaining considerable of their pre-1914 trade, but Uncle Sam and John Bull had a long lead on them.

And Uncle Sam had a long lead on John Bull.

There is a sound commercial explanation for America's advantage in Brazil; not so much so as to Argentina.

The Argentines are an agricultural and pastoral—not an industrial people.

Their chief products are wheat and corn, beef, mutton and pork, hides and wool. These products are products of ours also—not so extensively so as they are Argentina's, but sufficiently important to lead us to protect them with a tariff wall, making it impossible for the Argentines to sell much of anything to us; we need scarcely any of the stuff they have to offer. Since we do not buy from them, they naturally are not enthusiastic buyers from us. They do buy large quantities of our manufactures, but they would buy from customers of their own, if possible.

Such is the Argentine situation which the English, with their factories again in first-class running order, obviously mean to try to turn to their own account—cutting in on us, necessarily.

Brazil differs from Argentina in being a country principally of tropical products—notably coffee, which the United States has to import or do without.

Consequently what the Brazilians need and buy from us, they can pay for in commodities that we need and have to get from them.

Indeed, they sell more in the United States than we sell in Brazil.

It follows, of course, like 1, 2, 3, that it pays the Brazilians to deal with us. Almost alone among Latin American peoples a majority of whom have had spells of extreme resentment and suspicion of the colossus of the north they have been consistently friendly toward Uncle Sam—because he always has been so good a customer.

It is not a friendship that will be permanently disrupted, either.

The state department and the Prince of Wales, working their hardest, in conjunction with one another, cannot disrupt it permanently—not even with dynamite.

Brazil cannot afford to have it disrupted. For all that, it is clear that Wales fancies he sees an opportunity to annex more or less trade for his countrymen, at American exporters' expense, while Brazilian sensibilities are still smarting from the state department's recent blunder, as between President (now ex-President) Luis and the rebels (now the government).

Your Health

NORMAL BABY WILL DOUBLE WEIGHT DURING ITS FIRST FIVE MONTHS

(EDITOR'S NOTE: This is the first of a series of four articles by Dr. Morris Fishbein on nutrition of the child.)

By Dr. Morris Fishbein, Editor, of the American Medical Association, and of Hygiene, the Health Magazine

An average baby weighs seven and one-quarter pounds at birth, boys being a little larger than girls. A normal baby will double its birth weight by the end of five months and triple it by the end of a year.

The baby being continued to grow throughout life as rapidly as in infancy, he would weigh tons and tons before his death. A child that weighs more than seven and one-quarter pounds at birth continues to weigh more than the average child throughout the first year, but the rate of gain is not so rapid.

On the other hand, babies who are small at birth are likely to grow more rapidly than the normal baby that weighs five or six pounds will double its weight by the end of four months and triple it by the end of 10 months.

A baby that is fed on breast milk may grow more rapidly than one that is artificially fed. According to Dr. W. McKim Marriott, this is true of all breast-fed babies as compared with all artificially fed babies. It does not apply, however, to breast-fed babies compared with those who are properly fed artificially. A baby who is properly fed artificially will grow just as well as one fed on the breast.

Unfortunately the majority of mothers try to use their own judgment in artificial feeding. They fail to avail themselves of what modern scientific knowledge has developed in this field, and as a result their infants suffer.

The length of the child at birth depends, of course, on the nature of the family from which it comes. There are some racial stocks, such as Japanese, that tend to be short; there are other racial stocks which tend to be long and angular.

Since the increase in length is governed by heredity and constitution, the length may continue while the weight lags behind, particularly if the diet is unsatisfactory and insufficient. If an adequate diet is given, the weight will pick up rapidly in proportion to the length.

It is, of course, understood that the length of the child may be influenced by factors controlling the growth of long bones, such as a sufficient amount of vitamin D and the efforts of the glands of internal secretion.

In the presence of an insufficient amount of ultra violet ray of vitamin D, the long bones do not grow satisfactorily. There is a tendency to the development of bowlegs and obviously with bowlegs the infant will be shorter.

EXPLANATION OF YESTERDAY'S CAPTION

A BLUE STREAK
The conception of space is finite only in a mathematical sense. Thus, it has been suggested by Minkowski, Einstein and others that space may be finite and yet unbounded for the reason that anything traveling through cosmic space would never come to any "jumping-off-place," and yet the total volume of space might be known to be less than a certain number of cubic-light-years. The doctrine of the finitude of space is a part of the famous doctrine of "curvature of space," and involves the assumption of one or more dimensions in addition to those recognized by the traditional Euclidean geometry. In accordance with this theory, a straight line, instead of being infinite in length, would return to the point of origin. It has been estimated that the greatest distance which anything would travel in a straight line before arriving at the point of origin is of the order of 300,000,000,000 light-years or about 2310-34 miles. Of course these estimates cannot be put to test, because the greatest distance our powerful telescopes enable us to see is less than one-five-hundredth of this distance.

Heart Hungry

by LAURA LOU BROOKMAN
AUTHOR OF "RASH ROMANCE" © 1930 by NEA SERVICE, INC.

BEGIN HERE TODAY

Adventure enters the life of CELIA MITCHELL, 17, when she learns the father she has supposed dead is alive and wealthy. She leaves her unpretentious home in Baltimore for a home in New York with her aristocratic grandmother.

MARGARET ROGERS, Celia's mother, divorced Mitchell and remarried and is now a widow. BARRY SHIELDS, young newspaper photographer, is in love with the girl and before leaving Baltimore Celia promised to be loyal to his love.

Mitchell asks EVELYN PARSONS, beautiful widow, to introduce the girl to young people. Mrs. Parsons considers Celia a means to win Mitchell's affections and agrees. She invites the girl to her Long Island home for a week-end and there Celia meets TOD JORDAN, fascinating but of dubious character. Mrs. Parsons encourages the match.

Celia treats—Jordan coolly at first but is won by his romantic love-making after he has rescued her from drowning. LISA DUNCAN, socially prominent, becomes Celia's loyal friend. With Mrs. Parsons' assistance Mitchell arranges an elaborate party in honor of her daughter's 18th birthday. The party is a dinner dance. Jordan persuades Celia to leave the affair early. When she arrives home at 2 p. m. Mitchell is furious and forbids her ever to see Jordan again. Later on a shopping trip Celia offends her grandmother and the elderly woman feels ill and departs for a rest. Celia returns to Mrs. Parsons' home on Long Island. Tod Jordan calls to see her.

She had meant to talk to him seriously Celia had reasoned it all out. Until Mrs. Parsons won John Mitchell's complete approval of Jordan it would be better for the young couple to see each other only occasionally. Seeing Tod at all was breaking her promise to her father. Celia realized this, but excused herself on the grounds that Mrs. Parsons had promised to right the situation. Mitchell was in the wrong about Jordan. Since it was her father's mistake why should Celia treat the young man as though he were in error?

But reasoning with herself and talking to Tod were two different matters. Tod's idea of conversation was whispering to Celia how much he missed her. Had she missed him, too? Didn't she know that when she turned her head that way he had to kiss the pink tip of her ear?

Celia gave up the attempts to be out. See HEART HUNGRY, Page 9

Study Liquor Condition In Other Nations

Completion Of Report On Prohibition Nears By Hoover Commission Now That Election Is Out Of The Way

WASHINGTON, Nov. 7. (AP)—Moving on toward completion of a report on prohibition now the election is out of the way, the President's law enforcement commission today was engaged in a study of liquor conditions abroad.

Besides considering the mass of documentary data accumulated in past months, the commission yesterday began again to hear witnesses. The first, John M. Morehead, American minister to Sweden, gave the members his views regarding the operation in Sweden of the Bratt system of liquor control. After him the superintendent of Pennsylvania state police, Lynn O. Adams, went in to tell the committee about conditions in his state. What the two said was kept secret, and so will the testimony of others who are to be heard.

System Discussed.
Morehead's appearance and information that the Bratt system was under discussion caused a flurry of excitement and speculation outside the commission rooms until it was learned the Canadian control system and other plans of limited liquor dispensation also are to be studied.

More speculation connected the sudden recall of Prohibition Director Woodcock to the capital with the commission hearings, but there

was no indication whether he would appear to tell the members what he has discovered in his extensive travels surveying prohibition enforcement over the country.

Information Sought.
All that was given out about the director's abandonment of an inspection trip to Hawaii was that Attorney-General Mitchell wanted from him some information for President Hoover and also wished to discuss appropriations. Just what the president wished to learn could not be ascertained.

Woodcock will be in Washington by November 13, and the completion of a prohibition report by the commission before that date is extremely improbable.

Ussury Child Is Buried on Friday

Funeral rites for Perry Devoy Ussury, five-months-old boy twin of Mr. and Mrs. J. H. Ussury, were held at 11 o'clock Friday morning at Mr. Simer officiated. Burial was in Lubbock cemetery beside the body of the girl twin who died Monday.

Both deaths were attributed to malnutrition. Perry Devoy died late Thursday afternoon in a Lubbock hospital. A 13-year-old girl of the family died about three weeks ago.

A home probably will be furnished the Ussuries and the six surviving children soon. J. T. Tring of United Charities, indicated. Food, clothing, furniture and bedding already have been donated for the unfortunate and offers of aid continue to come to United Charities.

Chief need of the Ussury family now is finances, charity workers said Friday.

Says Wets Not To Gain Much For Two Years

John Garner, House Leader For Democrats, Declares Time For Anti-Prohibition Action Not Yet Ripe

SAN ANTONIO, Nov. 7. (UP)—Newly elected wet members of the house and senate may talk about prohibition a good deal individually, but they will not do much legislative for two, or perhaps four years, in the opinion of John N. Garner, house Democratic leader.

Rep. Garner, who voted against the 18th amendment, believes that wet leaders will have to offer something better to change it or have it repealed, and he considers that unlikely, but in four or perhaps two years he thinks modification of the Volstead act will be taken up as a party program.

For the present, he said, "leaders of both party organizations will be thinking too much about the elections of 1932 and especially those of 1934 to start anything radical. They will wait until sentiment is more definitely shown than it was in the election just ended."

On the control of the house for which, as minority leader, he has been generally regarded as the Democratic choice for speaker, Representative Garner said he had no illusions.

"If Longworth is re-elected speaker he knows that any time I want to I can make trouble for him, and if I should be elected he knows he can do the same for me. The division of the house is too close to give either side a real advantage."

Texas Tech Topics

BY MARSHALL C. FORMBY
College Correspondent

SPEAKS AT INSTITUTE
Dr. W. A. Jackson, head of the Tech government department, is in Memphis where he is the main speaker at a teachers' institute being held there.

The institute is being held the last three days of this week.

TEACHERS PLAY BALL
Students who think faculty members can't get around should visit the college gym on Monday, Wednesday and Friday afternoons at 9 o'clock and see the faculty volleyball team get into action. Members of the college faculty meet in the gym on these days and go through what they consider a "stiff" workout. Last year they challenged the members of the senior class for a game, and probably will issue a call to several other organizations this year.

Professors looking the "hottest" in these workouts are Mahoney, Kleinachmidt, McKay, Schmidt, Curry and Ogden.

TO HOLD DANCE TONIGHT
An all-college dance will be featured tonight at the college gym, beginning at 9 o'clock. This will be the first all-college in three weeks. Frank Stone and his colleagues will furnish music for the frolic.

DEAD LINE IS SET
Dead line for having pictures made for the 1931 Lubbock yearbook annual, has been set for December 1, according to R. C. Marshall, editor. After that date no pictures will be accepted for this year's book. Brown's Studio, on 13th street, has the contract for the 1930 yearbook pictures. This studio also had charge of the annual picture making the last two years.

Although the complete staff for La Ventana has not been named, Marshall has announced the appointment of James Dallas as athletic editor, Olen (Polly) Puckett to have charge of associations and Faye Foote to have charge of organizations. The staff probably will be completed within the next few weeks.

Officials of the book announce that professional artists of the Star-Telegram engraving department, which has the engraving contract, are now making drawings for the 1931 yearbook.

The editors are anxious to acquire any snapshots of the students that might be submitted.

age of the college from Jan. 1, 1927, leaving here to accept the presidency of Montezuma college of Montezuma, N. M. He later resigned as president of Montezuma college to take up the duties of president of Burleson college at Greenville.

REPORTS GIVEN OUT
Mid-term reports will continue to be given out today from the registrar's office of the college. The registrar had announced that the reports were to be given out today, but due to the efficient work of the members of the registrar's office, the reports were ready yesterday morning.

A similar report will be mailed to the students' parents or guardians. These reports do not indicate any grades but only as to whether or not a student is passing all his work.

STUDENTS INTERESTED
Tech students watched with interest the search made over the state for Dr. Ernest W. Provencher, former business manager of the college, who disappeared in Dallas shortly after noon Monday. Dr. Provencher served as business manager of the college from Jan. 1, 1927, leaving here to accept the presidency of Montezuma college of Montezuma, N. M. He later resigned as president of Montezuma college to take up the duties of president of Burleson college at Greenville.

dent. He was found yesterday at Crockett.

VISIT IN WACO
Prof. H. C. Pender, of the college government department, and Prof. B. P. Condry, head of the department of economics, are in Waco today on business.

They are expected to return to Lubbock tomorrow.

SPEAKS TO CLASSES
C. W. Ratliff, assistant managing editor of the Lubbock Daily Journal spoke to members of the sophomore journalism class yesterday morning at 8 o'clock. Mr. Ratliff discussed the publishing of a college paper. He is a 1928 graduate of the college and a former editor of the Treador, college publication.

Judge J. I. Kilpatrick, local attorney, spoke yesterday to members of the advanced journalism class, taking for his subject, "Label in newspaper publishing."

Sir William Soulsby, aged 78, saw his fifty-fifth Lord Mayor of London elected this year.

serious. She really did not try very hard. For days she had been unhappy, and now Jordan's magnetic nearness seemed the answer to all her longings. He left at midnight, and Celia went upstairs to the room that had been hers on her earlier visit. Happier than she had felt for days.

In the morning she and Evelyn had a long talk over the breakfast table. Celia came downstairs dressed for a morning in the garden. Mrs. Parsons looked charming and languid in morning pajamas of champagne satin and pale green chiffon.

"Oh-ho!" she said coyly as Celia appeared. "I can guess why you're looking so happy this morning!"

The girl's cheeks flushed. "It's a wonderful morning," she began.

"Isn't it! But I'm surprised that you noticed it. Celia, you're blushing! And no wonder, with a certain young man calling here last night!"

"Mrs. Parsons, you don't think there's anything wrong in my seeing you in a while, do you?"

"Wrong? Why, of course not!"

"I mean because of what father said. Of course I promised I would not, but it's such a mix-up."

"Sit down, Celia." The widow arched her brows, indicating that the maid was coming and would overhear. Celia drew out a chair, seated herself and began to nibble a bunch of grapes. After a while she brought the muffs and disappeared. Evelyn said:

"My dear, I thought we went over all that. There's just a trivial misunderstanding on your father's part. He'll come around all right as soon as I've talked to him."

"Then you haven't said anything yet?"

"How could I? The poor man has been so upset with your grandmother and getting her away to the country and trying to adjust her strained relations. I'm sure you see it wouldn't have been wise."

No-o. I supposed not. Only I won't be really settled in my mind until father knows I don't admit he was wrong. I mean about saying that I mustn't see him. I would not for the world let father suspect father didn't like him."

"Of course not. Wise little girl! There are altogether too many other pretty girls and women ready to come at the crook of your father's little finger. Sometimes when I see this fond father approach, I'm almost jealous of you myself, dear."

"Oh, Evelyn! Celia laughed. "You're so good and kind and sweet. I can't imagine you being jealous. Why, what's funny?"

Mrs. Parsons acknowledged the compliment with a smile.

"Well, don't be too sure of your young man!" she teased. "I'll leave him alone, but there are others I wouldn't trust."

The younger girl broke a muffin and buttered it. There's one thing that worries me. You see, Barney—remember, I told you about him? Well, he isn't going with any other girls. It doesn't seem quite right for me to let him come to see me when I know how hard father is working and never having any fun."

"How are you so sure of that?"

"Why, he told me so. And anyone who never goes with other girls."

Evelyn Parsons' laughter was a merry trill.

"My darling," she said patronizingly, "when you've lived as long as I have you'll never believe pretty speeches like that from men. Oh, I won't say that they don't mean them at the time! Never mind about your Barney! He'll take care of himself. The thing for you to do is enjoy yourself and if young men want to show you attention, thank you stars!"

"I suppose you're right," Celia agreed hesitantly. She did not tell Evelyn that what really worried her was the fact she had received only one letter from Barney Shields. There were times when Tod Jordan for all his fascination, paled in importance to the youth in Baltimore.

That afternoon she went to her room, wrote a long letter to Barney and walked to the postbox at the corner of the drive and mailed it.

The day at Larchwood passed pleasantly. Celia wandered about the garden pretending to help Ben with his work. She listened to his stories for hours, learned the kind of soil in which deep-fringed blue asters thrive best, and how to war on pests that attack rose bushes.

Often she and Mrs. Parsons went to the country club for tea, or later in the evening Evelyn enjoyed her bridge and Celia danced or amused herself with the younger crowd.

Lis Duncan came for her on two separate afternoons and they drove to the house where Celia sunned herself lazily on the sand while Lis swam and played in the breakers. Whenever Lis went there was always a group gathered around her. Lis accepted Celia as one of her playmates, and others followed unquestioningly.

Celia's father adopted the habit of driving to Larchwood two or three evenings each week. Occasionally he arrived in time for dinner, sometimes later. He seemed drawn by the home-like atmosphere of the house. On these evenings Evelyn and Celia always spent a little more time at her dressing table. She affected sheer black and white or pale green costumes which brought out the gold of her hair. She wore perfume with the faintest touch of heady, rosy scents.

When the three of them were together Evelyn found frequent opportunities for showing her affection for Celia. She praised the girl constantly. At such times John Mitchell looked pleased.

Tod Jordan called often. Sometimes he drove down in the afternoon. It did not seem strange to Celia that Jordan never was hampered by business ties. In this new world men and women both lived to work except her father. Once or twice she had heard Jordan speak vaguely of "investments." Celia supposed that relieved him of labor.

As the days slipped by she began to take a new interest in Jordan. No answer had arrived from her letter to Barney. When Celia was alone she pondered about this and pouted. When Jordan appeared she was less restrained in her greeting. Barney was neglecting her and being hateful. Very well—she'd show how much she cared!

Celia's changed attitude was not lost on Evelyn Parsons. With infinite pains and care Mrs. Parsons was setting the stage for her triumph.

On a Saturday morning Lis arranged a picnic. It was to take place that afternoon. By a miracle Dicky Caruthers was able to get away from town and Celia and Jordan were to join them. Lis had wheedled from her father permission to drive the coupe—on an invented excuse, of course. She would have the lunch packed, pick up the two men and call for Celia at four o'clock.

"But father's coming down tonight!" the girl said, still holding the telephone and turning to Mrs. Parsons. "What'll I do?"

"Oh, we can manage that. Run along. I'll tell him you're having dinner with friends. He'll be all right."

Celia informed Lis that she would be waiting at four.

They set off gaily. Lis was in holiday spirits, and to prove the point she was sitting in flowing white linen trousers, a blue shirt and white beret. Celia wore her favorite yellow tennis dress, a red and orange scarf about her curls, bandanna fashion. She and Jordan rode in the rumble seat. Lis drove the car, her precious Dicky at her side.

"Where are we going?" Celia asked.

"Don't know. Some place Lis likes. Lord—sun's hot, isn't it?"

"I don't mind."

Celia snuggled down in the seat and covered Jordan's hand with hers. The man frowned, looked bored, but let it remain there. Celia chattered about the landscape as they sailed by. Lis Duncan drove without regard of speed laws. Even his split-hair curls had little effect on Jordan's lethargy. Once or twice he suppressed a yawn.

They reached the picnic site, a wooded hill overlooking a wide valley. The hill was cushioned underfoot with grass and browned bushes and grew abundantly. Lis pointed out a spring where they could obtain fresh water.

"Very pastoral!" Jordan commented. "Sorry, Lis, but I'm not the rustic type."

Dicky Caruthers declared here at last was "real living." He was enthusiastic and so was Celia. They explored a while, then set to work spreading out the supper. Lis insisted they must build a smudge to ward off mosquitoes.

Celia passed sandwiches and poured coffee from the thermos bottle. Dicky, not to be suppressed, talked about the new play. His part was not enlarged, but he was to wear a costume, because—

reconciled him.

The lunch was excellent—because, as Lis said, she had had nothing to do with it and thought it all a delicious surprise. When the last crumb of cake had disappeared they burned the papers and packed.

Celia and Jordan wandered up the hill to look at the sunset. The man's mood had improved.

"Like this kid stuff—picnics," he said, "don't you, honey?"

"Very nice."

"And somebody loves you, too!" They repeated Lis and Caruthers. Dicky had fallen when the quartet started homeward. Gradually the sky darkened. The night wind whipped against their cheeks. Celia's curls from under her scarf and blew them wildly. Jordan drew the girl nearer. Now, alone together, he was again the ardent lover.

It was wonderful riding through the darkness, but Celia's eyes were at work. How was she to avoid a clash with her father? Mitchell must not see Tod Jordan. She would have to find a way to dismiss Tod.

Possibly her father would have returned to town. No, that was not likely. They had nearly reached Larchwood now.

Celia would have been amazed at the scene on the veranda there. Evelyn, pale and lovely in the moonlight, leaned against a pillar. John Mitchell stood beside her. He bent his head, his eyes meeting hers earnestly.

"Evelyn," John Mitchell's voice came unsteadily, "you know what I've been wanting to tell you!"

TWO MEN SOUGHT

TULSA, Okla., Nov. 7. (AP)—Police today sought two men for a shoplifting act which netted them \$3,250 in diamonds from the A. Y. Brown jewelry company's store here. Entering the store together yesterday afternoon, one of the men engaged a clerk to show him costume jewelry while his companion stood near a case of diamond rings. After their departure, it was discovered the case had been opened and eight rings, valued at from \$500 to \$2,000 each, taken.

Flood Control System On Rio Grande Sought

Investigation To Determine
Feasibility Of International
Plan Requested By Representa-
tive Garner

WASHINGTON, D. C., Nov. 7. (AP)—An investigation to determine the feasibility of an international flood control work on the lower Rio Grande was requested by Representative John Garner of Texas in a letter received today by Secretary Stimson.

Garner described as "serious" the flood control problem of the lower Rio Grande valley and requested that the investigation be made by the American section of the American-Mexican international water commission.

Need Is Cited
Garner said the need was for a co-ordinated system for flood control, with Mexico taking care of its part of the excess flood waters. Especially during major flood periods, he said, levees on either bank would merely increase the menace to the opposite side and gave as the only solution a floodway on the Mexican side that would take care of excess waters which could not be discharged with safety through the American system.

Garner inclosed resolutions he said were adopted recently by the Associated water districts of Cam-

Highway Nine To Be Graded

Work Already Completed As
Far North As The Proposed
Underpass Beneath Santa Fe
Railway; To Push Work

Already graded as far north as the proposed underpass beneath the Santa Fe railroad, state highway No. 9 north from Lubbock will be graded to two miles south of Monroe by the end of the week, according to Guy Johnson, construction

erion and Hidalgo counties and the commissioners courts of Cameron and Willacy counties, Texas, requesting that a study and report on such a program of flood control be made.

System Completed
The representative said that on the American side, approximately 550,000 acres were under irrigation, with great production of winter vegetables, citrus fruits and cotton and reported that Hidalgo and Cameron counties recently completed a flood control system which he said was adequate to care for the average flood.

But due to the fact it is impossible to discharge all surplus water through this system during major flood periods, he said, "it is obvious that only through internationalization of this project can the complete protection of the huge developments along the lower Rio Grande be assured."

engineer for the state highway department.
No indication has been made of when work on the underpass will be started. Plans prepared by the state have been given to the railroad company and construction was deferred pending a report from the latter organization.

Thirty Days Needed
Thirty days is expected to be necessary to complete grading work on the rest of the highway north of Monroe. This work is not very heavy and it is thought that it can be completed early in December.

No through traffic is to be permitted on the new work until all can be routed all the way through, it is indicated. To send traffic through the completed part and then through the uncompleted work would interfere with the workmen, Mr. Johnston pointed out. This would hold up completion of the construction program.

Fields and Co., contractors on the south section, have about completed grading work all the way north from the Lynn county line to south of Lubbock. It will be finished in less than two weeks, it is believed.

Culvert work is well under way. There is enough work of this kind to take 30 days longer to finish, possibly five weeks, Mr. Johnston said.

Unusual cold weather will delay this work as it is not advisable to pour concrete in cold weather.

GIVEN FIVE YEARS

RICHMOND, Va., Nov. 7. (AP)—A verdict of guilty was returned by a jury to day in the embezzlement trial of James P. Jones, former treasurer of the Virginia Methodist orphanage. Five years imprisonment was recommended.

Great Spring Liquor-Smuggling Drive From Canada Visioned by Coast Guard

BY MARGUERITE YOUNG

WASHINGTON, Nov. 7. (AP)—A great spring liquor-smuggling drive to bring Canadian liquor into the United States via the picturesque French Island of St. Pierre in the Gulf of St. Lawrence was visioned today by officials of the watchful coast guard.

The theory that bootleggers are piling their cargoes high on the rocky little island was put forward when officials scoured records, covering the time since last May 27, when Canada put a legislative quietus on over-the-border exportation to this country.

The records disclose that while imports to St. Pierre from Canada have skyrocketed in the wake of the Canadian law banning exportation to the United States, scant if any increase in the illicit traffic from St. Pierre has been detected.

During last July and August, 370,678 gallons of whiskey were exported from Canada to St. Pierre, compared with 39,622 gallons during the same period in 1929. During the first six months of 1930, 686,446 gallons or an average of 114,408 gallons per month were exported to the island.

These statistics were given to the customs bureau by the French government but no figures were available to indicate exports from St. Pierre.

The island is about 16 miles south of New Brunswick.

FUNERAL AT NOLAN

Mrs. Bonnie Wren Buried On
Friday Afternoon

Last rites for Mrs. Bonnie Wren, 36, of Crosbyton, who died Thursday morning in a Lubbock hospital, were conducted at 2:30 o'clock Friday afternoon at Nolan, near Sweetwater.

Survivors include: The widower, C. J. Wren; the woman's parents, Mr. and Mrs. J. W. Sanders, of Hyton; four sisters, Mrs. J. M. Brown, of Dermond, Mrs. E. E. Day, of Clifton, Mrs. Ed Williams, of Blackwell and Miss Evelyn Sanders, of Hyton, and three brothers, S. C. Sanders and W. B. Sanders, both of Post, and Ellis Sanders of Hyton.

The body was taken to Nolan by the Sanders funeral home Friday morning.

PLEADS GUILTY

MANFIELD, La., Nov. 6. (AP)—Guy P. Provost, former vice-president of the Manfield Bank of Commerce and Trust company, today pleaded guilty to five counts of misappropriating the bank's funds and sentenced to seven years in the state penitentiary. Provost was started immediately to the penitentiary to begin serving the term. Loans to the bank occasioned by Provost's admitted speculations amounted to about \$90,000.

A baby boy weighing only 31 ounces and measuring 10 inches long was born at Tuckersham, England, but died after 24 hours.

Solution Found Political Rival Not to Rule

BATON ROUGE, La., Nov. 7. (AP)—Almost ever since he has been governor, Huey P. Long, now senator-elect, has told his followers he would never leave the state during his term and permit Lieut. Gov. Paul N. Cyr, his bitter political adversary, thus to become chief executive "even for a minute."

But the governor wants to go to a Mississippi valley flood control meeting in St. Louis during Thanksgiving week. The lieutenant-governor solved his problem this afternoon as they sat opposite each other at a board meeting in the executive offices, by suggesting that they go together.

"Fine," Governor Long exclaimed. "That's the only way I can go and keep my promise not to let you become governor of Louisiana."

Amid laughter, the trip was agreed upon.

"And I think," the governor added, "that it would be best if we bunked together. We don't want to get out of each other's sight."

Alvin King, Lake Charles, President pro tem of the state senate, will become governor when the two leave the state.

Two Cows Are Given to Tech

Registered Hereford Heifers
Donated By F. A. Mitchell
& Son and F. C. Mellard of
Marfa; Herd Totals 17

Donations of two registered Hereford heifers received Friday at Texas Technological college increase the college's Hereford breeding herd of 17.

F. A. Mitchell & Son, and F. C. Mellard, Hereford breeders of Marfa, gave the heifers to the state school here, after they were selected by W. L. Stangel, head of the department of animal husbandry at Technological college, and W. T. Gaston, business manager.

The representatives of the school here chose the animals while attending the Highland fair at Marfa recently. Mr. Stangel was a judge at the fair.

Interested breeders have donated all except six of the animals of the college herd and four of the six were raised from cows received as gifts. The remaining two were purchased.

The heifers, donated by the Marfa breeders, were considered "tops" of the season's crop, Mr. Stangel said.

SIX ARE INJURED

Fire Destroys Five-Story Hart-
ford Building Friday

HARTFORD, Conn., Nov. 7. (AP)—Fanned by a high wind, fire destroyed a five-story downtown building today resulting in critical injuries to two dwellers and minor injuries to four other persons.

Mrs. Mary Macalife, sixty, sustained a broken right arm and severe internal injuries when she attempted to jump to safety from the fourth floor and struck the edge of the life net. James Burke, another resident, suffered severe burns on the face and body. His condition is reported as critical.

Two residents were under treat-

FURRIER IS SLAIN

Wealthy Chicago Man Shot to
Death in His Car

CHICAGO, Nov. 7. (AP) A bullet fired by an unknown person killed Samuel Bauer, wealthy furrier, last night as he sat in his automobile parked near an apartment hotel on the north side.

Detectives said they had worked on a theory of suicide but after several hours of investigation announced that they were seeking Mrs. Vera Thompson, 35-year-old. The detective for exposure, while a fireman suffered a severe cut to one hand, and another man was cut on the head by falling debris.

tires said they had been informed that Mrs. Thompson had called on Dr. Andre L. Stapler about 9 p. m., for treatment of two bulgy wounds, but fled when the doctor notified police.

ARRAIGNMENT SET
FAMPA, Nov. 7. (AP)—Arraign-ment of Carl Heimer and Emmett Thompson, under indictment for murder in connection with the death of Homer Crabtree, Gray county ranchman, was set for Monday by District Judge Ewing today.

Bond will be fixed at that time. Judge Ewing said the defendants likely would be tried during the last week of this month.

Coal consumption in France continues to decline.
