## SCHOOL CHILDREN ARE GIVEN SEEDS

FLORAL CLUB'S CAMPAIGN IS PUT  
INTO ACTION BY AID OF THE  
YOUNG PEOPLE.

## CHANGE IS NOTICEABLE

Many Front Yards Already Show Re-  
sults of the Movement That is  
Under Way.

The Floral Club of this city this morning put into operation its flower planting plans and fifteen hundred packages of flower seeds were distributed among the school children of the city to be planted in the front yards of Wichita homes. The aid of the children has been enlisted in this movement and they have entered into it in a most enthusiastic manner.

The seeds distributed included those of practically every flower that will thrive in this climate—nasturtiums, phlox, begonias, poppies and a dozen others will be planted.

Mrs. W. F. Jordan, president of the Floral Club, this morning drove over the city to see the results of the club's campaign and she states that the difference is very noticeable. Many front yards that were once bare and unadorned are now blooming with flowers, and the ladies are heartily pleased with the success of their movement.

Some time ago the children were given sweet pea seed and they reported this morning that the plants were doing nicely. Seeds which were given the teachers some time ago for planting in the windows of the schools have sprouted and are now blooming prettily. The children are all interested and have entered into the movement with an enthusiasm that is very gratifying.

As soon as the seeds which were distributed this morning have been made use of, the general improvements in the looks of the front yards of the city is expected to be remarkable and the Floral Club is determined to push the campaign until Wichita Falls is literally a city of flowers.

## WELL KNOWN YOUNG MAN SUFFERS BREAK- DOWN—LEAVES CITY

As the result of a nervous breakdown, which seems to have affected his mind, Eugene L. Herndon, a stenographer, formerly employed by the Hunt Grain Company in this city, was taken from the east bound Katy train this morning and returned to this city. He will probably be placed in a sanitarium until he recovers. When he resigned his position here, Mr. Herndon stated that he had been offered a good position with a wholesale house in Oklahoma City, but investigation proved that he had received no offer from there. He attempted to leave the city on the noon Katy yesterday, but was dissuaded by friends, who had previously notified his mother of his condition. Early this morning he managed to get away from those watching him and caught the 6 o'clock Katy for Oklahoma City. His friends learned of his escape and he was taken from the train by parties at Gainesville. The young man is a very hard worker and his condition is believed to be the result of a nervous breakdown. His mother arrived last night from Dallas to be with him.

## MANY TRAGEDIES TODAY IN WILMINGTON—THREE KILLED ANY MANY BURT

By Associated Press.  
Wilmington, Del., March 24.—Three shot to death, assaults that may result in three more deaths, half a dozen persons slightly wounded and two suicides comprise Wilmington's startling tragedy record for yesterday.

The most sensational occurrence was the tragedy in which J. H. Bethea, of Dillon, South Carolina, shot and killed Conductor Wellman and Porter Williams of a Baltimore and Ohio express train and was in turn killed by the police of this city. Park Guard

Wiley of Wilmington, was also shot by Bethea.

Betha had been drinking it is stated, and shot the Pullman porter apparently without cause. When Conductor Wellman started to interfere, he too was shot and killed. This happened before the train reached Wilmington and when it arrived there the police had been notified. Bethea barricaded himself in the toilet room, and, being well armed, he successfully repelled all attacks for a time. A fire company was called and a stream of water was turned in upon him, with the result that he came out of the room and opened fire upon the crowd. Shotguns and pistols were emptied at him and after receiving an incredible number of wounds, he fell dead.

FIRST EVENT OF ITS KIND IN  
THIS SECTION AT IOWA  
PARK SATURDAY.

## WICHITA WILL COMPETE

Local School Will Send Strong Team  
and Hopes to Carry Off the  
First Honors.

The first track team meet ever held in Northwest Texas will take place at Iowa Park, in this county, on next Saturday and teams from the high schools and colleges throughout Northwest Texas will participate. It will be the first event of its kind ever pulled off in or near Wichita county. The Wichita Falls team has been practicing daily for some time and the boys expect to capture enough of the events to land first honors for the meet. The high school team and rosters will meet on Saturday between 11 and 12 o'clock and take the 12:15 train for Iowa Park.

Wichita Falls will have about three entries in each of the events and the practice records made by the contestants gives them reason to believe that they will be victorious in a majority of them. The following are the Wichita Falls High School entries:

- One hundred yard dash—C. Barnett, R. Howard and J. Stone.
- Fifty yard dash—J. Stone, R. Howard and N. Murray.
- Two hundred and twenty yard dash—C. Barnett, H. Bachman, A. Hamlin, Quarter mile—R. Mathis, T. Swartz, C. Crowell.

A large delegation of rosters will probably accompany the Wichita Falls team and the boys hope to carry away all the laurels. It is felt that the move is a good one and while it is as yet in its infancy, it will be made a regular feature hereafter. It is probable that the high school will send teams to the State meets at Dallas or Austin.

## TRADES DAY TO BE MONTHLY FEATURE

RETAIL MERCHANTS' ASSOCIATION WILL HOLD FIRST ONE  
MAY SECOND.

## MAKE EXTENSIVE PLANS

Prizes Will Be Offered For Farm Products—Railroad Fare to Be Refunded.

On Monday, May 2, Wichita Falls will inaugurate the monthly custom of "Trades Day," and at a meeting of the merchants held last night, the arrangements for this occasion were gotten under way. Beginning with the first Monday in May, this Trades Day will be a monthly affair and judging from the plans already formulated, it will be successful from the start.

The purpose of the Trades Day is to draw people to Wichita Falls who do not ordinarily make their purchases here. With this end in view, prizes will be offered for the best specimens of farm products and for articles of home manufacture, as well as for the other things such as the largest family, the fattest man, and so on. Secretary Barrickmann read reports from Cleburne and Denton, showing the success which attended the Trades Day in those places and several of the merchants who have seen the way the plan worked gave their experience, all being to the general effect that it was worth while. State Secretary James Breen spoke briefly on the plan and indulged in some other remarks regarding the welfare of the city in general. R. E. Huff also contributed some advice, endorsing the Trades Day movement.

The motion to hold a Trades Day prevailed unanimously and after some discussion it was decided to hold it on the first Monday in each month.

There were some who preferred the first Wednesday, but they were in the minority. The chairman, Mr. Bland, was instructed to appoint a committee of five to make the arrangements. It was decided to call on all classes of business men for subscriptions to the prize fund.

A committee consisting of Frank Collier, A. S. Fonville and B. J. Bean was appointed to nominate eleven directors for the Association. Remarks on the need of protection and organization were made by Messrs B. J. Bean and R. E. Huff. Several new names were added to the membership roll of the Association.

The committee of five will also consider a plan to refund the railroad fare of all out of town purchasers who buy merchandise to the value of twenty dollars or over.

After a talk by B. J. Bean, urging all the merchants to close their places of business on "Clean-up Day," the meeting adjourned.

#### ENERGY THE LIFE OF THE WORLD

It is Wrought Into Character and Success.

Under the above heading the Bulletin of Commerce, St. Louis, pays the following tribute to a well known citizen of Wichita Falls:

"Mental vision is enlarged and lengthened by reading biography.

The history of men is the history of the world.

Coupled with their characteristics and mentalities, and these are of worth only when they spring from a courageous energy to prominence.

Everybody reads sketches of this kind, and make an additional acquaintance that it is at once agreeable and profitable.

Following an approved outcome our old observer takes a mental glance at C. L. Fontaine, G. F. & P. Agent of the Wichita Falls, (Texas), route.

He has reached beyond the average man and above the level of commercial or professional standing because of his mental energy and industry.

He was neither more nor less than his associates in capacity when starting in life, but through self-discipline and energy he has easily outstripped them all in his march to success.

He is not a wonder nor a genius like so many, having a fungus growth, and withering away at the touch of frost or sunshine.

He is the outgrowth of strong, good common-sense and clear-headed judgment, like the oak, well rooted to withstand the floods and storms.

With these mental instrumentalities there are no heights to which he may not aspire and no obstacles beyond his power to remove.

He is therefore alert, determined, sagacious, lucid and courageous, in every condition of commerce, trade the industries, traffic, finances or the learned professions.

He is an artist, not with the brush or chisel; but in his masterly observations of men and the multitudinous affairs of business, or in the profound analysis of law and government.

He is never a theorist nor a speculative philosopher, but a sound constructionist of ways and means and methods of achieving the objects he has in view, and always practical in his assertions of right and justice.

He is quick to comprehend, but deliberate to act if a doubt shadows the undertaking. Nor has he honed words for superiors of position, nor violent speech for those less circumstanced, but commands equality of respect and consideration.

When he grasps a proposition, ques-

tion or enterprise with energy, and mentally elucidates their every feature and detail, he applies the constructive element of their worth and probable success.

These qualities, being well balanced, have developed abilities that lead and control the judgment of others, and while they create a wide and wholesome influence, they become rapidly popularized.

With such an admirable make-up of mental strength and position, he turns away from them all with the greatest satisfaction to the more delightful enjoyment of a few hours at home.

In its quiet and charming environment he finds a rich and inestimable compensation for the cares and responsibilities of his active outward life.

There are more angels at home than men in heaven, and with these he can worship and love with none to either distract or divide his affection.

Happy is the man who rises to honorable prominence and has a foretaste of heaven and earth.

Dandruff, Falling Hair and Itching Scalp Cured, or Money Back.

"I used one bottle of Parisian Sage, and it did all you claim it would do. My hair is fluffy and clean from dandruff since I used the Sage, and I am going to keep it constantly on my dressing table for toilet use."—Mrs. M. Griffin, 326 W. 9th St., Davenport, Ia.

"Parisian Sage is certainly a wonderful hair restorer. My husband and I both have used it, and find it to be just as advertised."—Mrs. D. Chorling, 220 Wasaon St., Toledo, O., Oct. 23, 1909.

Parisian Sage is sold by druggists everywhere, and by Week's Drug Co., for 50 cents a large bottle, and is guaranteed to cure dandruff, stop falling hair and itching scalp, or money back. It makes hair grow soft, lustrous and luxuriant, and is not sticky or greasy. The girl with the Auburn hair is on every bottle.

DEMONSTRATIONS TONIGHT WILL BE GIVEN ON PLATFORM ERECTED NEAR POST-OFFICE.

Operations for Deafness Tonight; Possibly Removal of Tumors.

Tonight the deaf people will be called upon the platform and Dr. J. Lafayette Berry will endeavor to make them hear. From time to time, he will remove tumors in full view of the audience. Medical science has so advanced that many of the old chronic diseases that have baffled the old methods of treatment can now be readily cured by the syarthgil and other up-to-date methods employed by Dr. Berry. Thousands of people will take the advantage of the opportunity to witness these marvelous demonstrations, many of which will be made in public, that the people may see that the work can be done.

Dr. Berry has opened offices at the Brown Palace Hotel, where he can be consulted by the afflicted who have given up all hope of ever being cured. Many who have suffered for years can now be readily cured by the new methods. The doctor will tell you whether or not relief can be given. He will take no case for treatment unless he feels confident that satisfactory results can be obtained.

## The Best Sweet Corn That Grows

It grows in the eastern states, the most of it in Maine. It is sweeter, creamier and more tender and delicious than any other corn known. Just why this is we cannot say, unless it is the peculiar soil, climate and care it receives—at any rate, it is true, and our PET Brand is packed from this rich eastern corn. It costs 12 1/2 cents per can and is really worth at least twice as much as any 10 cent corn you can buy. Let us send you a trial can of this, for we are sure you will always want it after one trial.

THE STATE PRESS.

If you've hens in your coops and pigs in your pens you can take a high seat with the millionaire men.—Gon-gales Inquirer.

The gubernatorial situation is a puzzle to the most astute unraveler of political tangles. The stock of the individual candidate appears to fluctuate as frequently as prices of the New York Exchange.—Amarillo Pan-handle.

Over a hundred Texas editors showed up at Fort Worth Tuesday to the big dinner and it is said that they ate without any apparent regard to the much discussed cost of high living.—Brownwood Bulletin.

The lynching of the negro in Dallas two weeks ago seems to have taught the Dallas courts a useful lesson. A fellow who stole a chicken recently was promptly convicted Monday and hurried away to the public roads for sixty days service.—Honey Grove Signal.

Ninety thousand Americans are said to have crossed into Northwest Canada last year in search of homes. Why should they leave the flag and go to that cold-climate while Texas is able to accommodate ten times that number?—Asherton News.

Twelve thousand people journeyed to Port Arthur by rail to see a whale, and he was a dead one, at that. After seeing the sixty-foot monster, after looking into his mouth and hazarding a guess as to the size of his throat, perhaps every one of the 12,000 sight-seers were no nearer the truth of the Jonah story than they were before.—Brownwood News.

Well, well; they dug up two old dust covered letters, purported to have been written by Mrs. Martha Washington and Mrs. A. Lincoln, and congress appropriated \$2500 to have them preserved among "the collections." Isn't it about time some one was finding some old letters of Bowie, Sam Houston or Deaf Smith, or some of our early fathers?—San Saba Star.

The Beville-San Antonio copper circuit was completed and used for the first time Monday. The wire belongs to the Eureka Company, but has been leased by the Southwestern. There will be no chance for intervening towns to use the wire. Beville and San Antonio offices alone have control over it, and it will prove a great convenience and time-saver to patrons.—Beville Picayune.

The great fish of bibi-at lore, popularly supposed to be a whale, swallowed the Lord's prophet, probably mistaking him for a lobster. His descendant at Port Arthur butted into the plan of salvation by seducing some thousands to view his remains, thus starting them on the road to perdition and preserving the traditions of his family.—Beaumont Journal.

Texas weather and her many undeveloped resources are the drawing cards for the people of the frozen North, and Pearsall should place her balmly weather, her unlimited amount of undeveloped resources and her natural resources before these people so they may know what wonderful opportunities await the man with capital to invest.—Pearsall.

The Texas Press Association which meets at Stamford in June, is already being tempted with promises of good things in store for that body. A round-up of 70,000 head of cattle on a ranch of 430,000 acres will be followed by a gigantic barbecue of antelope.—Carth-Sun, hopes to see a round-up of all the Texas editors.—Let us go, what do you say?—Texas Sun.

One of the beauties of things lies in the very plain truth that this is a free country, and it follows that if Governor Campbell did not find it convenient or possible to go to the stock show at Fort Worth he did not have to go. The big noise made over the failure to be present is all out of place. The governor should be given credit for knowing his business and duty better than any other man on earth.—Palestine Herald.

The white scourge threatens to exterminate the red race. According to statistics, the per centage of mortality directly attributable to tuberculosis is twice as great among Indians as among the white race. From the tepee and unfettered air to the study room and steam heat seems to have been a sad move for the sturdy children of the open. But what we deem civilization must exact its toll.—Amarillo Pan-handle.

If Senator Bailey is the big, brave man his sensible and sane friends say he is—and we would be delighted to find him to be—he will lend no aid to the effort of his hair-trigger supporters to make himself an issue in this campaign. There are many thousands of people in Texas who want prohibition for their state, Johnson for their gov-

ernor and Bailey for their senator. Texas is a mighty big state and many good people of Texas will never be brought to believe it is not big enough for Senator Bailey and any other man who conducts himself in a decent manner to reside and operate within its borders.—Tyler Courier-Times.

News has reached this community that Col. Tom Finty, Jr., the political caustic, umpire and war correspondent of the Dallas News, will purchase a flying machine with which to keep up with the four gubernatorial candidates on the summer picnic circuit. The information does not reveal, however, just what type of machine Col. Finty will purchase—whether a helicopter, ornithopter, feathering paddler or an aeroplane, but it will be a heavier-than-air machine, and since the various aeroplanes are about all that have been successfully proven as safe and sure, it will probably be an aeroplane.—Wills Point Chronicle.

Not so many years ago "farmer" was about as scornful a slang term as could be applied to anybody who blundered, stumbled or "got in bad." But what would the average man in the streets say today if somebody shouted at him "You farmer?" Wouldn't he throw his chest out and spring a smile as broad as if he owned a gold mine? He certainly would. The farmer does not wear his hayseed in his hair any longer. He sells it and buys an automobile. And when "doctor, lawyer, merchant chief" point their finger at him and say, "You're it," he merely throws in his speed-clutch and smiles back along the wind.—Coleman News.

Few of us, even when we try are not able to appreciate the deeper meaning of the Fort Worth Fat Stock Show. To most of us it is apt to be nothing more than a spectacle. What it actually signifies is that within ten or twelve years a revolution has been wrought in one of the chief industries of this state. Such a show twelve years ago would have been a humiliation to every man who saw it; now it makes everybody swell with pride. Suppose that within twelve years we had made an advance in agriculture equal to what has been made in stock raising! Does any one doubt that, in that case, our annual increase of wealth would be double what it is? There are several circumstances every one of which makes it harder to arouse the spirit of enterprise in the farmer than in the stockman; but it can be done, and is being done, and it won't be many years before we shall be able to note as much progress in farming as has been made in stock raising.—Galveston News.

GOHL IS TO BE TRIED. Suspected of Foul Murders in Puget Sound District.

Aberdeen, Wash., March 24.—What promises to develop into one of the most notable murder trials in the history of this section, is scheduled to begin at Montesano tomorrow, when William Gohl is brought into court to answer to the charge of murdering Charles Hedberg. The victim was a sailor and is alleged to have been murdered for the purpose of robbery.

For a number of years Gohl has been well known in the Puget Sound district as a sort of agent in hiring ships' crews. During this time there have been reported several murders of sailors after they had been paid off. The body of Hedberg, bearing evidence of murder and robbery, was found washed ashore. The body of John Hoffman who disappeared about the same time as Hedberg, has never been found. His remains and those of other victims as well, are believed to have been buried by the murderer.

The arrest of Gohl resulted from the tales he told while under the influence of liquor. He is alleged to have boasted of numerous murders and other crimes and to have displayed considerable sums of money, the source of which he was unable to explain satisfactorily to the authorities when he was arrested.

One of the sensational stories told of Gohl since the charge of murder was made against him is that on one occasion two sailors who had just been paid off were robbed by him and left to die in a most heartless manner. According to the tale, the two men, after being plied with liquor and relieved of their money, were taken by Gohl in his boat and marooned on a sand bar, the alleged murderer rowing to shore and leaving them to fall victims to the rising tide.

A Good Salad

Is always appreciated. It is not only an appetizer, but a substantial and attractive dish. It gives variety to the ordinary meal and meets the demands of the full-course dinner; it solves the problem of "something for supper."

Try salmon in your next salad. This is one of the most nutritious and delicious of fish foods. It is said to possess greater food value than either fruits or vegetables. We have salmon in several grades and varieties, but for making salads, we call your attention to ARGO BRAND at 17 1/2c per can and CLUB HOUSE Fancy Red Salmon, at 25 cents per can.

No matter how large the bill, or how small, we will quote our best prices and give you our best service. And don't lose sight of the fact, that before getting any cheaper, both lumber and labor are mighty likely to cost much more than they do now. **We are Going to Mobile.**

To Mobile we are going, to see the town and bay,  
And meet the dear old Veterans that immortalized the Gray;  
It will be an inspiration and a joyful time, you know.  
To cheer these marching columns that some forty years ago  
In heroic deeds of valor gave to the world a theme for song  
That will last through all the ages, and make the weaker strong.

Their brows are somewhat furrowed, and their heads are touched with snow  
Their forms are bent with weight of years and some with weight of woe;  
But their shields are just as spotted, and their souls are just as true  
As when they charged at Bull Run the countless ranks in Blue.  
They are coming as our guests, these dear old grizzled men,  
And we'll give them such a welcome they will want to come again.

We will take Mary and the children, that they for once may see  
The men who in Virginia fought with Stonewall and with Lee,  
And then the men at Shiloh who, 'mid fire, shot and shell,  
In sorrow paused to drop a tear when Sidney Johnston fell;  
And Shenandoah's heroes, too, who stemmed the tide all day,  
Where Stonewall Jackson bravely led and kept the foes at bay.

The cavalcade of Forrest's men, the bravest of the brave,  
Who charged on many battlefields and oft the day did save,  
Will come upon their chargers, with glistening swords bright,  
To honor them and cheer them will be our great delight.

But who shall write the truth, without effort to adorn,  
And portray the dauntless warriors of Forrest and Vandorn;  
Of Morgan, the bold raider; of that dashing cavalier,  
"Jeb" Stewart, "Red" Jackson and young Morton, cannoneer—  
Tyree Bell, with all the knights of chivalry who rested in peace profound,  
In graves which jealous fame hath blessed and marked as holy ground?

The modern wars which nations wage on nations of today  
Are but the mimicry of war, the game which children play,  
When gauged by the titanic strife which Southern valor hurled  
In thunderbolts against the foe whose ally was the world:  
For warriors met warriors, and loss was reckoned then  
By companies and regiments, and not by single men.

The world, grown old, has never seen, and nevermore may see,  
Heroes like those whose sabers flashed around the flag of Lee;  
And when Dixie's homes for which they fought have crumbled into dust,  
Or when this great republic shall have perished, with it must—  
When truth shall wake her silent harp to songs of mighty wars,  
Their names and deeds will blossom with the splendor of the stars.

It was not ours to wear with them the hallowed cloth of gray,  
Nor share with them the weary march, the horrors of the fray;  
It was not ours to suffer in hunger, thirst and pain,  
Nor bivouac on the battlefield 'mid ranks of comrades slain;  
'Twas not our fate to hear the cheers and face the victor's frown,  
When heroes at Appomattox wept and pulled the dear flag down.

But well we know the story from Fort Sumter to the end,  
And on our hearts is laid the charge to honor and defend  
The cause for which they struggled and for which they bravely bled;  
To love and aid the living, and to reverence the dead—  
To wreath the sacred mounds where sleep these royal hearts and true,  
And while the thread of life holds out, please God, these things we'll do.

Upon our wall four pictures hang, for death hath made them free,  
Immortal gods of warfare—Forrest, Jackson, Johnson, Lee,  
We placed them with the purpose that our little ones may grow  
To learn the truth and love the men who, in the long ago,  
Surrendered all but honor in a grand unequal fight  
For their homes and their dear Southland, and they knew was right.

Yes, we're going to Mobile, those fast thinning ranks to meet,  
Which only when outnumbered thrice, stacked arms in proud defeat;  
Their sun is fast declining and the march is nearly o'er,  
And now and then there comes a sound from yonder mystic shore.  
It is Death's bugle calling in some weary form of gray;  
Let's hasten on to cheer them for the last time that we may.

Union City, Ten., Feb. 21, 1910.

UNION CITY.

The Above was written by General J. H. McDowell, major-general commanding the Tennessee Division, U. C. V.

In a statement of business conditions to a Times reporter by R. G. Scheurer, proprietor of the Wichita Hardware Company, Mr. Scheurer says the steady and substantial increase in his lines of business plainly show a marked difference in the class of goods and workmanship that is now being called for over that of a year ago, which is convincing that Wichita Falls is very rapidly taking on metropolitan airs.

This is very pleasing, indeed. Let us all sing "As Wichita Goes Marching On."  
Have you tried those Red Pitted Cherries? They make fine pies.  
A new stick pin in that Easter tie would look nice. B. T. Burgess has them. See his ad on page 9.
