GROVER B. HILL

PRINCIPAL SPEAKERS—

Representatives of the U. S. Department of Agriculture who will address the National Range Conference to be held in West Texas June 24-25 will include R. M. Evans, national AAA administrator; Grover B. Hill, assistant secretary of agriculture, and I. W. Duggan, director of the southern region of the AAA.

Future Homemakers to Meet in Fort Stockton June 2-7

Fort Stockton, May 28.—Future Homemakers from 18 West Texas towns will gather in Fort Stockton from June 2 to 7 in the first annual encampment of Homemakers.

Camp Aowakiya has been chosen as the name for the Camp, being derived from the Indian word meaning to "band together for a purpose". It is pronounced Ah-o-wa-ki-ya. The Future Homemakers of Texas have become very "camp-conscious" the last two years, according to Miss Winnie Mae Moberley, Fort Stockton instructor who is making local arrangements, and have set aside a fund known as the Ruth Huey Camp Fund with which to establish permanent camps. These camps are to be used by various chapters of Future Homemakers throughout Texas.

This year the chapter of Future Homemakers in Fort Stockton is sponsoring Camp Aowakiya as an experiment. The camp supervisors will be: Mrs. Oneita W. Pierce, Coordinator of Area III, and Miss Winnie Mae Moberley, sponsor of the local chapter.

Towns expected to participate are: Big Lake, Odessa, Ozona, Grandfalls, Monahans, Wink, Sanderson, Iraan, Rankin, McCamey, Crane, Imperial, Kermit, Pecos, Balmorhea, Marfa, Alpine, Marathon, and Ysleta.

Staff members include: Supervisor, Mrs. Oneita W. Pierce, Big Springs; Winnie Mae Moberley. (Continued to Page Two)

Thomas J. Finnerty With Briggs-McPhee

Thomas J. Finnerty, formerly Deputy Real Estate Commissioner with the California State Real Estate Department for 5 years, is now associated with Mr. and Mrs. Marion G. Briggs in the McPhee-Briggs project in South Terrell County, of which he made an examination for the State of California in June of 1939.

Born in Pueblo, and raised in the mining industry in Cripple Creek, Goldfields, Tonopah and Bisbee, Mr. Finnerty is an active member of the American Association of Petroleum Geologists, American Institute of Mining and Metallurgical Engineers and the National Association of Oil Scouts of America. He was educated in grammar and high school, Bisbee, Arizona, he is a graduate of the School of Mines. (Continued to page three)

FORT STOCKTON WATER CARNIVAL PLANS ANNOUNCED

Fort Stockton—With arrival of the director of the over-water spectacle, King Neptune's Court, in Fort Stockton May 24, plans for the 1940 show moved into high gear, giving promise of a Water Carnival which will surpass all previous events. Dates are June 13 to 16.

Feature of this year's program is the colorful, professionally directed stage spectacle, being produced under a contract with the John B. Rogers Producing Company of Fostoria, Ohio, which has staged major community shows in all parts of the United States, and is this year entering the South western territory.

The University of Texas nationally renowned water team, with the famous Dillard sisters, has been engaged for the show. In addition to their own acts, the University team members will assist chairman M. E. Fincher in staging the amateur which will be certified for entrance in state and district water meets of the Texas Amateur Federation contests. Hand-some trophies have been ordered for all winners in all classes.

The Tucker Twins of Winters, who gained wide favor on trips to the Lions International Convention in Pittsburg last year, and to many regional conventions, have been booked to fill in what few gaps may remain in the major program events.

A free street parade, band concerts, fireman's contests, two big dances, a golf tournament on the new grass-green course, and the all-Southwestern bathing revue on Saturday, June 15, are added features which will provide something to do and see throughout the days and nights of the show.

The Water Carnival is again sponsored by the Fort Stockton Lions Club, and no expense and effort has been spared to insure an outstanding show.

MRS. TOWNSEND SUCCUMBS IN SAN ANTONIO SUNDAY

Mrs. Alice Augusta Townsend died Sunday in a San Antonio hospital according to reports received here. She was 65 years of age.

She is survived by her husband, E. E. Townsend of Alpine, and a daughter, Mrs. P. F. Hudgins of Corpus Christi. Mrs. Townsend was a pioneer of this section of the state and was an aunt of Webb Townsend.

Funeral services were held in Alpine Monday afternoon at 4 o'clock.

SUMMER MEETING OF ALPINE CHURCH IS ANNOUNCED

Announcement has been made by the Alpine Church of Christ that the summer meeting will begin Sunday, June 2, and will continue through Wednesday, June 12.

Minister Frank Trayler, in making the announcement, extends a cordial invitation to one and all to be present at one or all of the services and hear the messages to be brought by Evangelist Clem Hoover of Ozona, well-known religious leader.

Services are scheduled for 10 o'clock in the morning and 8 o'clock in the evening each day.

WOOL SELLS

Johnny Williams, manager of the Sanderson Wool Commission Co., stated that 70,000 pounds of 12 months wool was shipped Thursday. The wool was contracted several months ago and sold for 30 cents per pound.

Mrs. C. L. Surratt and son, Harold, Mrs. W. M. Druse, and Bill Cochran were visitors to the Carlsbad Caverns Wednesday.

Mrs. A. C. Clatfelter left Tuesday for New Mexico State College and will return her daughter, Miss Maxine, home.

Vacation Bible School Opens With Sixty-three Enrolled

The Interdenominational Daily Vacation Bible School opened Monday morning at 8:30 with sixty-three enthusiastic children enrolled, and others expected to enroll later.

The teachers are finding real pleasure in their work, and it is well to repeat that the children are truly and eagerly interested. They are being taught memory work, note book, hand work and music. The school provides twenty-five hours of training for the children, which is approximately half the total time given them by any church school in an entire year.

The teachers are: For the beginners, Mrs. A. B. Gates, superintendent; Mrs. R. D. Holt, pianist. Misses Lillian Harrell and Laura Oberling, teachers.

For the primaries Mrs. Paul King is superintendent; Mrs. R. D. Holt, pianist; and Mesdames O. H. McAdams, Gayle, Mussey, John Nichols, Misses Margaret Arrington and Roberta Lochausen are teachers.

For the intermediates Mrs. H. E. Ezelle is superintendent; Miss Edna Mae McAdams, pianist; and Mesdames J. Y. Bowman, Pat Beard, and W. E. Grigsby are teachers.

The school is eagerly anticipating the pleasure of the picnic to be held in Downie Canyon next week on Thursday afternoon.

The closing exercises will be held at the Baptist Church on Friday evening of next week beginning at eight o'clock. The children will offer a program portraying the things they have learned in this course. Everyone is cordially invited to attend these closing exercises and to inspect the boys' and girls' hand work, which will be exhibited after the program.

ORDER PLACED FOR FIRE EQUIPMENT; NEED MORE FUNDS

Announcement was made this week by Judge R. S. Wilkinson, chairman of the purchasing committee appointed to buy fire-fighting equipment for Sanderson, that an order had been placed for the truck, tank, hose, etc., that will be necessary.

The truck will be a Dodge truck and was bought through F. M. Weigand. Delivery will be made to a concern in Chicago where the 400-gallon water tank and other equipment will be installed before it is brought to Sanderson and put into service.

Total outlay for this equipment will total around \$1855, and cash on hand amounts to \$1794.87. This means that it will be necessary to raise around \$60 more for payment of the truck and equipment which has been purchased.

This price does not include a fire alarm for the town nor the siren for the truck, both very essential. The fire alarm for the town will cost in the neighborhood of \$165 and the truck siren approximately \$15. Other items needed to have a properly equipped fire department will be two or three fire extinguishers, a fog nozzle and a few others. Purchase of these items would necessitate the raising of around \$300 more than is on hand at present.

It is hoped that persons who have not contributed toward this worthy cause will be able to see their way clear to do so and stop by the Sanderson State Bank or see Judge Wilkinson within the next few days. This small amount, it is felt, should not be difficult to raise if those who have paid only a part of their portion will come forward with the balance, as well as those few who have not contributed to date.

F. S. Garrison Dies of Heart Attack at Pumpville Home

F. S. Garrison, 64, succumbed Wednesday afternoon at 4:45 to a heart attack at his home in Pumpville.

Mr. Garrison was a pumper for the railroad and has been railroading for nearly 30 years. He has been with the S. P. for the last 25 years and would have retired sometime this year.

Funeral services were conducted at the Methodist Church in Sanderson by the Rev. J. Y. Bowman Monday afternoon at four o'clock. The Masonic Lodge was in charge of the services at the cemetery. Oberkamp Funeral Directors were in charge of arrangements.

He is survived by his widow, 2 sons, Neal Garrison who is in the army and located at Panama and Fred Garrison who resides at Snyder; 2 stepsons, H. D. and Bobby Johnson and a stepdaughter, Maurine Johnson.

OGLESBY'S OGLES

By Whitfield Oglesby

Belgium has given up the battle. This has exposed the left flank of the allies and opens a gap thru which the Germans can pour troops. The big job now is to withdraw the allied troops which have been caught in a probable movement. Such will be made under the cover of rear guard actions, however the German air force will harass the rear elements and make such withdrawals costly.

Thus barely three weeks after entering the Netherlands, the German forces have taken Holland, overrun Belgium and run a long knife-like wedge from the center of the bulge Abbeville (where General Pershing made his historical stand for an integral American Army in France) and started a squeeze play (pincer movement) on the trapped forces along the English

So swift and efficient has been the movement of the Germans that the Allies seem to have been forced into the trap before they comprehended the scope and intentions of the Reich's plans. Having taken the strategic areas of Norway from which northern English and Scottish ports and bases could be bombed, the next move was to secure submarine and air bases on the channel from whence southern Britain could be attacked.

Sweeping into Holland on the 10th of May, that little nation was defeated in five days. On into Belgium the German machine rolled. Whether this was to protect its Netherlands conquest or a continuing campaign apparently was not understood by the Allies. While this action flamed, reports sponsored in Berlin gave out the idea that the old World War plan of swinging right around to envelop Paris was to be executed and for a while fear spread that the French capitol was the object. Instead, the Germans carried out what now seems to have been their intention from the first, and swung their left wing forward, breaking the "elbow" of the Maginot line, pushing out the big bulge and then the knife-like thrust to the sea.

Much of the terrain over which the fighting has progressed has been ideal for the operation of the German motorized and mechanized columns. Further south toward Paris the land becomes more rolling and less favorable. The huge German tanks, estimated to be about 70 tons each, lumbered forward. It is stated that these land battle-tanks carry five 77-mm. guns each and are so heavily armored that the French 75's are required in large numbers to stop them.

Hitler has had all of the breaks in his favor; clear weather in Poland, storms off the coast of Norway, and now clear weather in the low countries and northern France.

Phone your news to the Times.

Pictured above is Mr. and Mrs. C. M. Breeding, owners and operators of the Loma Alta Cafe for the past four years. They sold their business last week to Jack Shurley, pictured at right, who comes to Sanderson from San Antonio where he was formerly engaged in the cafe business. Mr. Breeding will continue with his contracting business here in Sanderson for the present.

U. S. 90 DEVELOPMENT PLANS AGREED UPON AT MEETINGS

Slightly over two years old as a recognized highway development organization, U. S. Highway 90 Association, known by its state charter as "The Mexican Border Trails Association, Inc.," this week linked itself by contract with Friendly Service, Inc., to secure more traffic over the coast-to-coast artery extending through Marfa from Jacksonville on the east to California on the west.

The decision to enter into agreement with the national organization (headquarters in St. Petersburg, Fla.) which has as

its slogan—"America's Clearing House of Information"—was made Monday at a meeting of officers, directors and others who heard a presentation by C. L. Smith, general field manager, and Frank Warner, president of the touring service. The two men also spoke at a mass meeting Wednesday afternoon when their organization's services were explained and an outline given of the membership campaign which would be undertaken.

**Human Story, "The Blue Bird" Is
Portrayed by Brilliant Cast**

When 20th Century-Fox decided to bring Maurice Maeterlinck's "The Blue Bird" to the screen, Production Chief Darryl F. Zanuck determined to transform this beautiful and human story into one of the truly great and unforgettable motion pictures of all time.

How magnificently he has succeeded is indelibly recorded in the tremendous acclaim that has met the Technicolor production, which opens Wednesday, June 4 at the Princess Theatre.

Sanderson moviegoers can take a hint from those who saw "The Blue Bird" at the Hollywood Theatre in New York, where it was shown twice daily as a roadshow, with all seats reserved at advanced prices. That you may see it as it should be seen, to enjoy to the fullest extent its mood of rare beauty, you should come at the beginning.

No effort or expense was spared in preserving the charm and greatness of "The Blue Bird" or in developing the unusual production values of the story which lends itself so superbly to the breathtaking new Technicolor.

A brilliant cast was selected to bring the beloved roles to life, boasting a score of filmdom's favorite names, including Shirley Temple, Spring Byington, Nigel Bruce, Gale Sondergaard, Eddie Collins, Sybil Jason, Jessie Ralph, Helen Ericson, Johnny Russell, Laura Hope Crews, Russell Hicks, Cecilia Loftus, Al Shean and Gene Reynolds.

Shirley has her greatest opportunity to date as Mytyl, a choice which merited the enthusiastic approval of Maeterlinck himself!

Fifteen full sound stages were commandeered for the exclusive

U. S. 90 PLANS—

association are to be solicited by Friendly Service workers in the towns along the route. Money received is to be sent the Maria headquarters office and is to be used in this way: 75 per cent to Friendly Service, Inc., 22 per cent to membership solicitation and organization expenses, 3 per cent for general expenses of the U. S. Highway 90 Association, as it is known.

The 5-year contract with Friendly Service, Inc., provides that its best efforts shall be used in promoting traffic on U. S. Highway 90 and on connecting and subsidiary highways west of Van Horn. For every \$5,625 turned over to Friendly Service, Inc., that firm agrees to establish and maintain for a year a tourist information station. From this station, one of a group of such across the country, travelers will be directed over U. S. 90 and told of the picturesque, economic and comfort advantages they may have by using what is known as "the highway through ice-free, year-around touring paradise."

Second year operation of each tourist information station will be \$4,500 and representatives of Friendly Service, Inc., declare they can show such an amount of traffic diverted over U. S. 90 that members will be "sold" on the value of their service to the extent that they will year after year, make possible by their memberships the continuance of the service.

Friendly Service, Inc., has associated with it tourist court and hotel guide directory organizations, works in various ways to aid travelers. Membership cards of introduction to Friendly Service workers are sent inquirers who ask by newspaper coupon

PROBE PORPOISE HABITS

Indications are scientific research will disprove a contention which has long been made up and down the Texas coast that porpoises should be killed out because they eat millions of desirable fish such as trout, redfish and salt water drum. Investigation of porpoises by the Texas Game, Fish and Oyster Commission's marine biologist have been carried on some weeks at Freeport. They will be continued a year.

The biologist has found no evidence of porpoises eating game fish. He has examined the stomach contents of sixteen of these mammals which were killed by the owners of Mills Wharf Examinations to date show that the porpoise eat mostly mullet and gizzard shad. A puffer and

needle gar were also discovered but no trout, reds, drum or game fish.

Very little is known of the porpoise and the Game Department will carry on a comprehensive study. The size of baby porpoise may be surprising to many people. One newly-born porpoise was five feet, seven inches in length. This large size for baby is common with members of whale group. The porpoise is small toothed whale.

are voting. Mrs. Collier pointed out.

"We are backing no candidates. All we want is to see the people of Texas elect those candidates who will try to finance our social security obligations by means of increased taxes on oil, gas, sulphur, and other natural resources. We believe the best way to accomplish our purpose is to give pitiless publicity to the views of candidates for office now, before election, rather than waiting until the Legislature meets next year," she said.

Mrs. Margaret Reading of Waller is secretary-treasurer of the Committee which will organize units of outstanding women in every legislative district in the state. These local units will work in closed cooperation with women's clubs, civic organization, and local newspapers to give full publicity to the tax views of all

candidates for state office, Mrs. Reading said.

"The time has come to kill the sales tax forever and pay our social security obligations in the only just fashion through increased taxes on our natural resources, and the women of Texas are going to do it," she declared.

A SCRAPPY FISH

Texas anglers are overlooking a good bet for some of the finest fishing in the world.

You have the world of the chief aquatic biologist of the Texas Game, Fish and Oyster Commission for that. He is referring to the sport of fishing for those large red-eared bream, often called Georgia blue gill bream on light tackle. Believe it or not, foot-long Georgia bream waters.

Many lakes in Texas are over-run with Georgia bream because so few people fish for them and

so few know the proper method of snagging them. Once, for once there is twice as much fight in those red-ears than are in bass, but Lone Star State fishermen have run riot over bass and have neglected the scrappy to the chief aquatic biologist. The lakes are over-run with bream, bass have too much to eat in the way of natural food and the bass fisherman, with his artificial lures often is just like a man offering spinich to a person full of cake.

WOMAN OUTFISHES MEN

It took a woman to carry off the first prize in a fishing contest held at Lake Kemp recently. Crappie fishermen have been struggling through ten annual Wichita Valley Fishing derbies with a three-pound crappie as their goal. Mrs. Elwood Hackey of Knox City, Texas, shattered the male ego of that section

when she came in with a three-pound, twelve ounce crappie. Many bass weighing five, six and seven pounds were caught during the contest.

CASTING CLASSES GROWING

Each year sees another school or so adding classes in bait and fly casting to their curriculum. Rice Institute of Houston is the largest. There, Andy Anderson is conducting a class in which more than fifty boys are studying the fine art of casting. Andy mixes in a lot of conservation education along with the demonstration. Jack Sparks, several times world all-around casting champion, is again teaching a large class at Baylor University, Waco. This is the third year Sparks has had a class there. Hardin-Simmons University of Abilene also has a casting class. The Baylor and Hardin-Simmons classes are composed of both young men and women.

FINNERTY—
Continued from page 1)

Arizona, holds a degree in Science degree in mining and is at present doing graduate work as a candidate for a Master's Degree at the University of Southern California.

Mr. Finnerty joined the State Department in 1935. Orders were running wide with little or no regulation. Public was being sold and fraudulent schemes. Little chance of getting return from their investment. He said in a statement National Oil Derrick. "For persons were being drilled sites 30 feet deep squares; 5-64ths of lease assignments; so-called units of 1-100th of 1.4 acre; and 1-10,000ths of 10 acre at exorbitant prices for the wildest misrepresentation. Should the promoter make the mistake of bringing a gusher, the usual deal over-capitalized that the investor would never have returned the investment."

Finnerty made a personal investigation of all existing leases during the first year of his tenure and set up rules and regulations for the handling of the present business in the department. Subsequently, on the evidence gathered by the department closed up approximately \$80,000,000 in values on questionable oil leases. Some of the leases resulted in violent court

contests and none of which were lost.

Mr. Finnerty plans to publish within the next few months, a book entitled "Oil Rackets" in which he will elaborate on all the well known methods of the questionable oil promoter and give sound advice to the investor in oil projects.

After the examination made of the Terrell County project he was so completely satisfied with the oil possibilities and Mr. Briggs' ideas of handling this large block that a permit was issued to Mrs. Briggs to raise finances in California, which she is doing at the present time, assisted by Mr. Finnerty. This permit is one of the few remaining ones in California today, owing to the clean-up methods employed by Mr. Finnerty. He expects to be on the field shortly with Mr. Briggs to work out plans for the extensive development of the property. Mr. and Mrs. Briggs feel highly elated at securing the very able assistance of a man of such outstanding ability.

SORTA DOG-EAT-DOG STORY

Mexican laborers on the Santa Rosa Ranch recently had an opportunity to get an insight into the working of Nature. Hearing fratricide cries of a quail, they left their corral building to investigate. They found a large wood rat devouring the quail, but before the bird could be entirely eaten, a three and-a-half-foot snake, gobbled the rat and was in turn immediately killed by the Mexicans.

Game wardens in Texas do not get part of fines assessed. They are on a straight salary.

Rate Reduction Order Will Save Texas \$10,000,000

The Freight Rate Reduction order issued by the Texas Railroad Commission and signed by Chairman Lon A. Smith and Jerry Sadler, during the past week, will save Texas shippers more than \$10,000,000 annually.

"It is only the beginning," Commissioner Sadler told the West Texas Chamber of Commerce at Big Springs on May 17 when he announced the order, and presented the signed order to D. A. Bandeen and others who have made a fight for the reduction over a period of years.

"We have issued the order following a year and a half of intensive study. We have found that discriminatory freight rates have cost the state \$10,000,000 annually. It is high time that we began the readjustment of these rates, and so we have ordered the first decrease in rates on first class freight of 13 per cent, but there is good reason to believe this decrease will before long reach 23 per cent."

Commissioner Sadler pointed out some of the sectional discrimination made against the Southwest. A 500 mile haul in Indiana and Ohio is \$1.22 per 100 pounds as compared with \$2.26 per 100 pounds for a like distance in Texas. Such discriminations abound throughout the country.

TEXAS WOMEN OPPOSE SALE TAX

A state-wide drive for increased natural resources taxes to finance teachers retirement and pensions for the needy aged of Texas was launched Saturday by the Women's Committee on Economic Policy for Texas. Mrs. Jud Collier of Mumfords, chairman, announced.

"The financing of these two humanitarian programs are vital concerns of the women of Texas, and we are determined that the way through increased natural resources taxes instead of a sales tax," Mrs. Collier said.

Representative women from all parts of Texas held a luncheon meeting in Austin Saturday to lay definite plans for carrying the Committee's program into effect.

The Committee decided that each candidate for state office and legislative posts will be visited in order to learn how they stand on natural resource taxes and the sales tax. Then the information acquiring will be made public through newspapers and in club meetings over the state so that voters will know the view of the candidates for whom they

PUPILS RECEIVE CERTIFICATES

Pupils who received certificates of promotion from the 6th grade in the Sanderson Mexican School were: Luis Garza, Samuel Zepeda, Onesimo Montalio, Catarino Lopez, and Enrique Gutierrez.

Lydia and Natalia Gutierrez, daughters of Mr. and Mrs. P. B. Gutierrez, were the only two students in the fourth grade to receive honor roll certificates with grades of "A" for the entire nine months. Lydia was the only one to receive a certificate for not being absent or tardy in the nine months. Reports from other grades were not available.

Mr. and Mrs. R. N. Allen and daughter, Mary Alice, and Miss Mary Bess Hardgrave went to Abilene Saturday to attend the graduation exercises at the Abilene Christian College. Miss Anna Lee Allen is a member of the graduating class.

Mrs. Charlie Gregory left Wednesday for New Mexico State College, N. M., where she went for her daughter, Miss Margaret.

Guests of Mr. and Mrs. Roy Deaton this week are Mrs. Deaton's mother, Mrs. J. J. Rogers and brother, Phil Rogers, of Harper.

RATTLE OF THE RAIL

Trainmaster L. F. Talbot was here from El Paso Wednesday.

J. D. Kinsler, superintendent from San Antonio made a trip over the division this week.

J. G. McMullar, traveling engineer, was here from El Paso Tuesday.

Engineer M. L. Taylor, who has been working out of here for some time, has been assigned to a yard engine in El Paso.

Engineer S. E. Peterson, who has been laying off, has resumed his passenger run between El Paso and Sanderson.

Boiler Inspector, Chris List was here from San Antonio Tuesday going to Valentine Wednesday.

Two troop trains passed through west enroute to El Paso from maneuvers held in East Texas.

Mrs. Jim Kerr and son, Bernie, returned to Sanderson Monday from San Antonio and were accompanied by Mrs. M. A. Dittmar of Corpus Christi. Mrs. Kerr has been visiting in San Antonio for the past several weeks and Bernie completed his studies at St. Mary's University with the closing of this term. Mrs. Dittmar will visit in the Kerr home for some time.

Jim Kerr and son, Robert, and Joe Kerr went to San Antonio Saturday. Mr. Kerr returned Sunday while Robert continued on to Waco where he attended the Democratic convention. Joe Kerr remained over until Monday when he returned with his mother and the others of the family.

Carl Weiss spent the week-end in San Antonio where he attended the graduation exercises of Brackenridge High school at which his daughter, Miss Dorothy, received her diploma.

Mr. and Mrs. R. E. Corder and daughters, Mickie and Billie Jo, left Thursday for Camp Waldemar near Kerrville where the girls will attend the camp from June 1st to July 13th.

Mr. and Mrs. W. J. Ferguson and daughter, Miss Mary, returned Tuesday from San Antonio. Mrs. Ferguson had been there for several days with Miss Mary who received her degree at the exercises held Monday night at the University of San Antonio. Mr. Ferguson went down for the exercises.

Mr. and Mrs. David M. Baldwin of Richmond, Virginia, visited here from Wednesday until Friday with Mr. and Mrs. Joe D. Nichols. They were enroute to Albuquerque, New Mexico. Mrs. Baldwin is a niece of Mrs. Nichols.

J. W. Haynes was a San Antonio visitor during the week-end. He also visited in Uvalde with his sister before returning home.

Mrs. Dorothy Lindley of Dallas City is here this week-end in the home of her daughter, Mrs. Roy Bogusch and Bogusch.

Joe Perry of Ozona is visiting in the home of Mr. and Mrs. Collins Coates and with grandmother, Mrs. Perry.

FRANK'S SUPER SERVICE Sanderson, Texas

FOR YOUR CONVENIENCE

In the present day, people place great stress on having things convenient. Many conveniences are taken as a matter of course—especially those of an intangible nature, such as the services of a modern bank.

If a merchant has no calls for an item, he no longer continues to stock it, but he is always glad to keep things for which there is a steady demand. When you buy from him you make it possible for him to keep on hand the things you want, and thus, you add to your own convenience.

The merchandise offered by a bank is service. When you use your local bank, you add to your own convenience and benefit your community. We invite your business.
