Charter Articles Discussion Tuesday

By Carl Hoit

Portions of the first four articles of the Rockport city charter will be discussed at the next meeting of the charter commission, Tuesday, April 3, at 7 p.m.

The charter commission meets the first and third Tuesdays of every month at the city hall, with individual committee meetings held in between regular sessions.

The first four articles to be discussed, and the chairman and committee members are:

I: Form of government and boundaries: Chairman Murray McMillan, J. C. Harlan.W.C. Underwood.

II: Powers of the city: Chairman James Little, Dana Taggart, N.F Jackson Jr.

III:City council: Chairman Ed Armstrong, Delmar Hiller, Walter Clar, Bill Walston, Simon Sorenson, Richard McMakin.

IV City administration: Chairman Larry Boone, Ann Rozzell, Connie Garcia.

Some or all of these articles may come up for detailed discussion during the Tuesday night meeting. Each group is working on the individual segments, then bringing their findings and views before the entire charter commission for consideration and possible action.

A condensed list of possible points of concern within each article follows. This list may or may not include all of the possible points of law that will ultimately be adopted in the new charter.

Article I
The Form of Government

and Boundaries of the city is partially completed, with details to be set down after study. The form of government initially approved is the city manager/council form.

Boundaries of the city will include those already established, with possible variations in the description.

Extension of boundaries will include such matters as annexation by various means, and what restrictions or requirements will be placed on the city as a part of the annexation process.

Contraction of boundaries could also be considered, such as disannexation of areas where services are not provided.

Article II

Powers Of The City includes such matters as the fixing of boundaries, power of eminent domain, cooperation with state and federal governments and agencies, legal designations as to suits and contracts, changing of codes and ordinances, and matters dealing with changing the configuration and description of streets and other public property.

Cost of improvements the methods of payment will be considered as a part of the city's laws. Included will be methods of assessment and related ordinances.

Article III

The City Council portion of the new city charter appears to be one of the more lengthy and involved portions of the proposed laws. Several categories may be designated, including:

—Number, selection and

Homestead Exemption Filing Deadline Near

Homestead owners are reminded that there is still time to file for a $5,000.00 homestead exemption, with the Aransas County Independent School District tax office.

In accordance with the constitutional "Tax Relief Amendment," which was approved by voters last November, each homestead owner is elegible for the exemption, based on the market value of the homestead.

Homestead owners must sign an affidavit and file it with the tax office by April 30, 1979 in order to receive the exemption.

All homeowners were mailed an affidavit form, and if for some reason did not receive a copy, should go to the tax office.

Also, those qualifying for the over-65 exemption and disabled veterans' exemption should make application.

The School District Tax Office is located at the corner of Omohundro Street and Enterprise Street, south of the school Administration building and across from the high school gym.

Traffic Control Complaints Heard By Commissioners

By Sarah Durdin

Underage drivers, and the possibility of more accidents like the one that claimed Johnny Sanchez's life, prompted Mrs. Mavis Ponton to appear before the Aransas County Commissioners at their regular meeting March 28. Raymond Owens presided over the meeting in the absence of County Judge John Wendell.

Mrs. Pontin explained that one of her children had told her of underage drivers, but she had shrugged off the story as fiction. However, she said she felt guilty that she had not listened to her son, after she heard of the motorcycle and truck accident.

Aransas County Sheriff Bob Hewes said the reason there were not more traffic patrols was because all his department's available manpower was taken up by enforcement of drug control, burglaries and motor vehicle accidents.

Commissioners discussed several means of trying to control the problem of younsters driving without a license, but were not able to come to a solution.

In other business, the commissioners unanimously approved a motion to send a resolution opposing House Bill 1569 in the Texas House of Representatives. If approved by the Texas Legislature, the bill would provide for possible work on private property using county workers, and equipment.

Mrs. Herman Dabbs appeared before the commissioners to complain of drainage problems. She said that a partial ditch near her home helped during very light rains, but with rains of more than two inches the water drained in a circle to come back to her backyard. After talking with commissioners Mrs. Dabb said she understood

Pirate Baseball Team Young But Hopeful

By Sarah Durdin

"We have some good pitchers, and we're getting better every game, but of course, so are all the other teams" was how Coach Skip Richardson summed up the 1979 baseball season for the Rockport-Fulton varsity Pirates.

Richardson said that although the team has a 0-3 record for district games, the team seems to improve with each game, and the other team now has to hustle to keep them from winning.

Training started February 2, but because of bad weather much of the training was limited to body conditioning in the gym. Richardson said that the team might have won some games, or at least played better defensive games, if they had been able to practise actual playing more often before the season started.

There are two seniors and two juniors on the team, with the rest of the members being freshmen and sophomores. Richardson said he is expecting a lot from the juniors, and that the sophomores seem to be a pretty solid force to reckon with as well.

Teams that play for the district games are based on which teams win the highest number of district games. There are 14 games in the district season, and the team with the highest winning record for the first half plays the team with the highest winning record for the second half.

Since there are still four district games to be played in the first half, Richardson feels the Pirates can use the games to improve their playing and be considered a challenge during the second half of the district games.

The next game will be against Sinton, at 7:30 p.m. on April 3, in Rockport.

Up From The Grave He Arose

Kevin's in the Junior Choir. You better believe Kevin is in the Junior Choir . . . you'll sometimes hear him above the rest . . . occasionally a shade off pitch.

But the joyous message of Easter is never sung with any more enthusiasm than when Kevin and his friends sing "Up From The Grave He Arose." The effect on the congregation is electrifying.

Think, too, of the effect on Kevin. His youthful heart is warming to the central truth of his religion. He is *feeling*, not just telling, the Story of Easter.

What we give of our time and talents means a great deal to our church. It means even more to us! Discover that truth this Easter.

AARP News

The covered dish luncheon on Wednesday, March 28, was very well attended. There were 52 members and four guests present. A great variety of delicious food was offered and a good time was had by all. A short business meeting was conducted by Irving McMahan, First Vice President in the absence of Mrs. Margarett Gill, President. Bridge was enjoyed by a small group of members after the luncheon.

The winners of game afternoon, Thursday, March 29, will be announced in the mid-week publication.

The next game afternoon is Thursday, April 5 at 1:00 p.m. Please make an effort to attend this affair and help AARP Chapter 1536 carry out its goals.

There is an AARP dance Wednesday, April 4 at 7 p.m. As you know, Gene Rickles' music is most danceable. The attendance at these dances has been very good but there is always room for improvement. So let's make a special effort to attend the dances on the first and third Wednesday of each month.

The members of AARP who have birthdays or anniversaries in April are asked to furnish cookies for the coffee which precedes the business meeting on the second Wednesday of each month. These persons are asked to sit at a special table at both April meetings. This is a very friendly custom and a very small favor for AARP to ask of its members. Even though it doesn't meet with your approval, please try to cooperate as this is one way for all of us to get to know each other.

There is a bus trip to Austin available on April 11, at the cost of $14.50 per person. The bus will leave Rockport at 6:30 a.m. from the courthouse and will return to Rockport at 8 p.m. the same day. Tickets can be purchased at the Chamber of Commerce. This trip should prove interesting to all members of AARP as committee meetings and debates will be available concerning the Generic Drug Bills.

All activities of AARP Chapter 1536 are held at Paws and Taws Building, Fulton Beach Road, Fulton, Texas unless otherwise stated.

NIESSEN

have a clear idea, from experience, as to the proper function of a school board trustee."

"Since I am retired," he continued, "I would expect to visit schools, if elected, in order to familiarize myself with all aspects of the schools, including classrooms, lunch rooms, and extracurricular activities. I would have the time to do this. I think the kind of job I could do for the schools would be an asset to the community."

Mr. Niessen and his wife Eleanor live in a small home in Rockport and have a fixed retirement income which is being squeezed by inflation. He feels, therefore, that he has the same concerns about school taxes as other concerned citizens.

He sums up his candidacy this way: "An educator for the school board! Why not? And—someone who can and will devote a lot of time to being a knowledgeable, capable and effective trustee."

Up The Trail To Kansas

Texas Recollected

Compiled by Kent Keeth
Director, The Texas Collection
Baylor University
Illustrated by Pam Watson

Employed by his brother Arthur as a trail hand, seventeen year-old J.C. Burns worked on a cattle drive from Victoria, Texas to Caldwell, Kansas in 1880. Recalling his adventure 75 years later, Mr. Burns published his memoirs of the experience. This segment recounts some of the young cow hand's memories of events which took place during and after the drive.

***

"Night duty was divided into three parts or sections; the first relief was about sundown to 11 p.m.; the second from 11 p.m. to 2 a.m.;the third from 2 a.m. to sunup or breakfast. My watch, or night duty, was the third. It was on the horses, and not the cattle. My bedfellow was George Thomas, a neighbor and experienced cowman, who was on the cattle watch. We had rather an amusing experience. George went to sleep;his horse carried him to the horse remuda, where I was supposed to be on duty. He was aroused when he reached the horses and feared that I would report his sleep to the boss, my brother. To his surprise and relief I was also asleep. It is needless to say that we made no report on one another.

"Each hand was required to furnished his saddle, slicker, leggins and bedroll, and pistol, if any. Rope was the only item of equipment supplied by the cattle owner. If seasons were favorable, and cattle were properly handled, their condition improved as they went forward to their destination. About 12 miles a day was usually traveled. On this trip we had no bad stampedes or loss from crossing of streams, or from Indians. Soon after the cattle reached their destination, Mr. G.A. Levi, for the owners, sold the cattle for a satisfactory price.

"When the boys got a bath, haircut, shave, and suit of new clothes, they looked quite different. Mr. Levi noted and commented on the change. I was one of the subjects of his comment. I also bought a good Stetson hat and a pistol. I do not know why I bought the pistol. I had gone up the trail without one.

"On our return home, I think it was either Parsons or Emporia Kansas, that we changed cars and spent a night at a hotel. My room was not on the ground floor. The next morning, near my train time, as I was descending the stairs, a chamber maid, noting that I was a green, awkward, timid boy, and a good subject for some fun, extending her arms to the full width of the stairs, refused to let me pass until I kissed her. I was much worried, lest I lose my train. I finally passed without the kiss.

"My new hat was stolen at a hotel in Galveston, where we stopped for the night. My new Stetson was blown out of a car window between Galveston and Indianola. On reaching home, I continued cow work for my brother, Arthur, until September 1883, on which date the University of Texas opened."

J.C. Burns enrolled as a member of the new state university's first class of students, and graduated with his law degree 21 months later, in June, 1885. Settling in Goliad, he operated a ranch and was a banker from 1905 until 1932. In addition he was for many years an elected official of his community, serving as city attorney, county attorney, county treasurer and county judge.

Joe Wyatt Reports From The Capitol

Two important votes were taken in the House of Representatives last week which may not have ended the way the majority of people in our disctrict would have wanted at first, but were none-the-less encouraging in their direction.

The debate over this country's future relations with Taiwan stretched over the weekend and ended up on Tuesday the 13th. The flight to strengthen the administration's proposal for a quasi-official American Institute to carry on our necessary relations with that country instead of an official liason office went for a day longer than anyone expected. The objection of many members of Congress to this country's official abandonment of Taiwan was heard, and the implications of these objections could strengthen the stance of the non-official entity which finally emerged.

In the end I voted for the administration's proposal to establish the private American Institute. The resolution also said that this country is committed to continuing friendly relations with the people of Taiwan and is committed to the continued preparedness of Taiwan's defensive military forces.

Even though we will not have an official government body in Taiwan, funds appriated by Congress will be used to help run the American Institute. This will allow signigficant input and influence by the Congress into our future relations with the Nationalist Chinese government.

The move to balance the federal government's budget squared off for its first fight Thursday the 15th, and came very, very close to winning in this first attempt. Two votes separated victory from defeat for an amendment to the annual budget resolution which would have mandated a balanced budget.

This excruiciating close vote demonstrated the commitment of many members of Congress to a balanced budget and fiscal responsibility. The fight for any new proposal is always tough, and the thin margin of defeat for this amendment of the resolution gives those of us who are fighting for this idea reason to believe that its acceptance is not too far off.

The ironic thing is that the idea of a balanced budget is far from new. Every one of you reading this newspaper column operates your household or business along the lines of a balanced budget — either that or you are probably in a very sticky financial situation. The federal government is now in a sticky financial situation. I think the need for a balanced budget, a time-proven solution to such a problem, is the obvious first step to try and get this country back on the strong financial footing to which we are accustomed.

It takes time to change things in the federal government, and it was expected to take a while to get the Congress to change the way it mandates the country's financial operation. Needless to say, I am delighted by how close we are to changing this aspect of the federal government.

I have also signed on as a co-sponsor of a bill to mandate this country's financial responsibility in carrying out the terms of the Panama Canal treaties. The bill, sponsored by Congressman Robert Bauman of Maryland would block implementation of the treaties until our government and the government of Panama get together and decide some of the vagueries of the agreements. More importantly, it would tell our government to determine exactly what implementation of these treaties would cost. We in the Congress have heard several conflicting reports as to what it will cost the American taxpayers to give away their property. We have also heard conflicting reports about quite a few specifics of the treaties. I believe it is irresponsible for the Congress to vote, either in favor or in opposition to implementation of the treaties, until such time as the vagueries are cleared away.

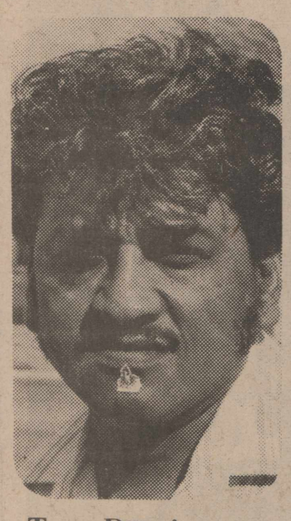

Speaking Out

QUESTION: "Do you feel there is adequate law enforcement of traffic laws in Aransas County?"

Felicia Gonzales

"No, it should be better. There are not enough officers, and Rockport is growing so it needs more police officers on duty." Felicia Gonzales, West Terrace.

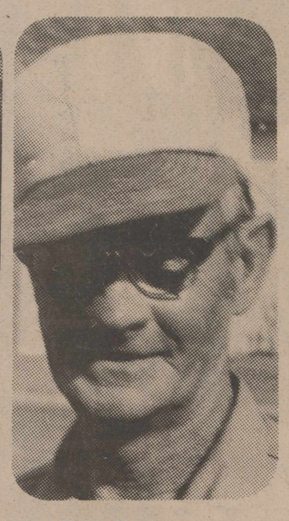

Tony Dominguez

"No. There's too much speeding on Pearl, especially late at night." Tony Dominguez, North Pearl.

Myschel Dozier

"I think they're doing a real good job." Myschel Dozier, Bay Street.

Jim Dietrich

"I believe so. I'm satisfied with the job they do." Jim Dietrich, North Austin.

Andy Bardin

"Not really. You hardly ever see anyone pulled over. Occasionally you'll see someone stopped, but nothing ever happens to them." Andy Bardin, Church Street.

'Low Down' FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to Review the Congressional Record Daily)

SENATOR EDWARD M. KENNEDY (Mass.) "...I am pleased to join Senator Bayh in urging favorable Senate action on Senate Joint Resolution 1. This proposed amendment to the Constitution will provide for the direct popular election of the President and Vice President of the United States. By eliminating the electoral college. Senate Joint Resolution 1 finally will place the crucial decision of selecting the leaders of our Nation—directly in the hands of the American people.

"The supporters of the Senate resolution comprise a long and prestigious list, including the ABA, the U.S. Chamber of Commerce, the United Auto Workers, Common Cause, League of Women Voters, National Federation of Independent Business, and the National Small business Association. And there are over 37 cosponsers for this bill...

"Immediately after the 1976 Presidential elections a Gallop poll was taken. Over 80 percent of the American people who expressed their opinion approved of the direct election amendment.

"The poll showed that support for direct election was not confined to geographical, philosophical or political bounderies; 82 per cent of the people in the East, 81 per cent in the Midwest, 76 per cent in the South and 81 per cent in the West think direct popular election is both desirable and necessary...

"Direct election is clearly the fairest and most democratic alternative proposed Adoption of Senate Joint Resolution 1 would be the final step in the constitutional evolution which began with the declaration that all men are created equal, and continued with the assertion that no citizen may be denied the right to vote for arbitrary reasons...

"The proposed amendment would give all votes equal weight—no matter where they are cast—making increased party activity likely in what are now essentially one-party States...

"No longer would the "losers" votes in each State be discarded. No voters, no States, no regions would be written off. For the first time, the votes of every American citizen would count fully and equally—in the election of the President of the United States."

CRUMP'S GRASS ROOTS COMMENT

It's very possible that many who voted for direct election of the President were unfamiliar with the reasons for an Electoral College. A little "homework" might be in order.

OIL UNION WRONG ON GAS SHORTAGE

SENATOR J. BENNETT JOHNSTON (La.)"... On December 11, 1978 the Committee on Energy and Natural Resources held a hearing to secure information why certain major refiners were requesting from the Department of Energy the authority to allocate their available supplies of gasoline to wholesales and marketeers.

"An important witness was a representative from the Oil, Chemical, and Atomic International Union. OCAW is the union whose membership keeps our domestic refineries running...The substance of the gentleman's testimony turned out to be an allegation that there was no shortage but instead whatever situation did exist was:

'Purposely created for one reason—to manipulate oil price increases and to frighten the American people so that price controls would be lifted '

"I also intend to introduce soon this session a bill to encourage the expansion of our domestic refining industry to meet our domestic needs..."

***

CRUMP'S GRASS ROOTS COMMENT

Here is a piece of testimony that proved to be false: at best misleading. Having the facts buried in the Congressional Record makes it difficult for the public to take seriously the claims of a gasoline shortage by either the oil companies or the federal government.

Sincerely,
(s) Douglas A. Ward
Fulton, Texas

Editor's note: The articles Mr. Ward sent to The Pilot included a photo relating to the fish kill in Copano Bay, as printed in "El Universal". The caption reads: "Miembros del Departamento de Parques y Vida Natural del estado de Texas cuentan lost pescados muertos en la playa de la bahia Copano, cerca de Rockport. Estos pescados forman parte de una gran mortandad que se presento en toda la region."

Also included was a clipping reporting a resolution presented to football star Earl Campbell, by El senador Peyton McKnight.

To The Editor:

Since you frequently use tidbits of informaton, historical and otherwise, in your papers, I thought you might be interested in one or more of the items on the enclosed page entitled The State of the Bureaucracy. Also on the other side the Citizen Speaks Out! column regarding welfare options is most interesting.

We subscribe to Citizen's Choice, which is a very up to date interesting paper sponsored by the National Chamber of Commerce. I had torn out the above referenced sheet, but decided to send the whole thing along just for your information.

Sincerely,
(s) Susie Kester
Rockport, Texas

Note: The items included on on "Overruling Ridiculous Regulation" stating that The Consumer Product Safety Commission recently insisted, in regulatory form, that auto battery manufacturers warn consumers not to drink battery fluid. Complying with this regulation will cost $5 million this year, and guess who will be paying for this regulation! You and me, consumers."

Wrong Social Security Numbers Delay Refunds

Tax refunds can be delayed by incorrect social security numbers and inaccurate addresses, the Internal Revenue Service warned.

To guard against unnecessary refund delays, the IRS encourages taxpayers to use the peel-off identification label provided with the tax package. The label is preprinted with the taxpayer's name, address, and social security number, and needs only to be affixed to the tax return before it is mailed, according to the IRS.

The IRS reminded taxpayers to check the information on the label before using it, however, to be sure all information is correct. Any changes should be made in ink on the label itself.

The IRS also reminded those persons who changed their names last year to report the new name to their local Social Security Administration office. This ensures that the new name will be assigned to the proper social security number.

EMS Report

Aransas County Emergency Medical Service report for the week beginning Monday, March 19 shows a total of 24 emergency runs. Total mileage for the week was 1,110 and average response time for the week was six minutes and 20 seconds.

Note: Bills may be paid at the Rockport Chamber of Commerce office.

Marriage Licenses

Daniel Wayne Neill and Teresa Jeannette Bryan, both of Aransas Pass.

Ronny Jo Moore, Hico, Texas, and Kathleen Jeannette Harris, Thorndale, Texas.

Joe Bagshaw and Lola Mae Polk, both of Aransas Pass.

Keith Allen Woody and Paula Ann Creek, both of Ingleside.

Armando Elizondo and Mary Alice Chapa, both of Ingleside.

Steven Randall Carter and Mary Louise Swantner Hazan, both of Rockport.

PayTaxes Due, But Not In Cash

When paying your Federal income tax, send either a personal check or money order, but never cash, the Internal Revenue Service warned.

Using a check or money order is safer from two standpoints, the IRS explained.

First, a check or money order is harder to steal; second, the cancelled check or money order will serve as a record that the payment was made.

The IRS also advised taxpayers to put their social security number on the check or money order directly below the signature. That way the taxpayer will be certain to get credit for the payment should the check or money order be detached from the return.

The IRS noted that no matter what type of check is used, the tax is not considered paid until the draft is honored by the bank on which it is drawn.

By Debbie Carle

On Monday, Unit 46 received a call at approximately 9:00 p.m. A passerby had stopped to help a man who was stuck in the mud at Holiday Beach. It seemed that the man whom was stuck did not have a CB in his car so was unable to call REACT. The passerby called REACT and said that the man did not have the money for a wrecker so would like to know if the fire department at Holiday Beach would come and pull him out for a contribution. Unit 46 tried for some time to located someone to help him.

Both Unit 46 and Unit 8 asked the men to stay there so that if they could not located the car that they would be there to give them the directions. Also, that if no one was there they would not be able to move the vehicle. When the gentlemen got out to the car there was no one there so he had to come back to town.

When a monitor has tocall someone such as a wrecker, these people have to stop whatever they are doing at the time. Whether it be relaxing in front of the T.V. or sleeping they go out to help you. It does not take but a few minutes to call REACT back and notify them that they will not be there and to please stop the wrecker.

As we all know, the gasoline is not 22 cents a gallon anymore so it cost quite a bit just to take a drive to help someone and there is no one there. A simple thing like courtesy will save a lot of people time and money.

The Aransas County Citizens Band Radio Association would like to inform the members that the meeting on Tuesday, April the 3 is very important. There will be a new slate of officers nominated and getting younger people into the club. If it is at all possible PLEASE attend.

Bebop Jazz Great Dizzy Gillespie

By Perry Carter

Dizzy Gillespie, the international jazz great, was among friends Wednesday night at Del Mar College as he joked, danced and played some of the music which placed him at the forefront of the Bebop movement of the 40's and 50's.

The enthusiastic crowd of several hundred watched and listened as Dizzy fronted the MWF Jazz Band through several of his compositions including "Whisper Not" and "Things to Come."

Dizzy, who never played the straight melody, long before this type of music expression was popular, started recording Bebop music in the late twenties.

Before forming his own group, Dizzy played with many of the alltime greats, including Charlie Barnet, Earl Hines, Billy Eckstine and Duke Ellington.

His performance dazzeled all who heard both young and old alike.

since last fall as a member of a school-work program and he said he is pleased with her performance. Commissioners agreed to schedule the request for the next regular meeting for further discussion.

County commissioners agreed to pay 50 per cent of a $627 saw to be used by Aransas County Emergency Services, with the City of Rockport paying the remaining 50 per cent. The saw would enable emergency workers to rescue victims trapped in cars or in buildings because it can cut through both steel and concrete.

Doug Norell complained to commissioners that a small ditch near his property was becoming a dumping area for county residents. He said a neighbor had received permission from a county authority to dig the ditch as a dumping ground for tree stumps and brush, but said the hole was never refilled. Commissioners decided to send a letter to the neighbor, recommending the ditch be filled as soon as possible.

The next regular meeting of the commissioners court will be Wednesday, April 4 that there were other homes higher on the list of priorities due to rain damage, but asked commissioners to try to correct the drainage problem as soon as possible.

Representatives for Southwestern Bell Telephone, Aransas Natural Gas, and Central Power and Light companies met with commissioners to discuss the problem of road repairs after cutting the roads to lay company lines. Commissioners stated that they had no prerogative to stop the companies, but they did have control over how the roads were repaired.

District Judge Ronald Yeager asked the commissioners to approve a request to hire Dianna Morino as a secretary and unofficial deputy court reporter at $13,000 per year. Miss Morino has been working for the judge at the Aransas County Courthouse, starting a.m.

JESUS OF NAZARETH

All four installments of the expanded 'Jesus of Nazareth' will have scenes new to viewers in this country when it is presented a second time on NBC-TV.

The internationally acclaimed Biblical epic, a Sir Lew Grade presentation directed by Franco Zeffirelli, has been lengthened by 90 minutes to eight hours. The new scenes include: young Jesus preaching at the temple: Jesus' healing of the paraplegic and His encounter with the rich young man.

In Part I, Sunday, April 1, Joseph (Yorgo Voyagis) has a nightmare about Mary (Olivia Hussey, pictured) after he learns that she is chosen and is carrying a child. At Joseph's carpentry shop, the young Jesus (Immad Cohen) climbs the ladder to look over the roof. Later, as they arrive in Jerusalem, Jesus is separated from Mary and Joseph. He is finally located preaching in the temple.

THE LION, THE WITCH AND THE WARDROBE

'The Lion, the Witch and the Wardrobe,' the first of C.S. Lewis' *The Chronicles of Narnia*, is a modern parable about four children who step by chance through an old wardrobe closet in an ancient country house into the strange, fearful, enchanting fantasy land of Narnia. Part two of the animated special will be presented Monday, April 2 on CBS-TV.

The story, which began as "pictures" in Lewis' mind when he was a teenager and was written 25 years later as a legacy to his goddaughter, was hailed following its publication as "an exceptionally good new 'fairy tale,'" "beautifully written," "wise and nonsensical" and "captivating with or without its parable."

The special, produced by the Children's Television Workshop, keeps as close as possible to the original Lewis text in recreating the mysterious Narnia, a land which can cast a spell on children of all ages, as well as the child at the core of every sensitive adult.

THE ROPERS

'The Ropers,' ABC-TV's new spinoff hit of 'Three's Company,' will be seen on Tuesday, April 3.

Stanley Roper and his wife Helen (Norman Fell and Audra Lindley, pictured) continue their uphill battle to be accepted in their new residence. Helen has aspirations toward moving up in society, but Stanley finds this to be more than a little ridiculous.

And, relations with their next door neighbors, the Brookes, are hot and cold. Jeffrey Tambor, who plays the head of the Brookes' household, resents Mr. Roper as somewhat of a slob—a blight on the neighborhood—and Roper sees Mr. Brookes as the ultimate snob.

Helen continues to berate Stanley for his lack of interest in bedroom activities, his laziness and his alleged stinginess.

BEAUTY AND THE BEAST

The award-winning and widely acclaimed Hallmark Hall of Fame presentation of the classic story, 'Beauty and the Beast,' starring George C. Scott and his wife, Trish Van Devere (pictured), will be rebroadcast Friday, April 6 on NBC-TV.

Scott portrays The Beast, a strong figure of a man with the face of an animal, who is considerate, sensitive and intelligent. Van Devere appears as Belle, the beauty of the story, who unwittingly enters the domain of The Beast and comes to learn the real meaning of truth and love.

Featured in the cast are Virginia McKenna as Lucy, one of Belle's sisters, and Bernard Lee as Beaumont, Belle's father. Other performers include: Patricia Quinn as Susan, Belle's other sister; Michael Harbour as Anthony, Susan's husband; William Relton as Nicholas, Belle's devoted brother.

Sherman Yellen adapted the famous story, which first appeared during the 1500's.
