Sue's Views

By Sue Cannon

Sometime ago I wrote an opinion on these so called "honors" which are bestowed on people by companies who, to my way of thinking, are simply playing on your ego to sell you a high priced book.

Among those companies are "Who's Who" type publishers.

Now it has been brought to our attention that the National Association of Secondary School Principals has published in their latest publication of advisory list of National Contests and Activities, that they disapprove of this "who's who" type publication or programs.

Well, good for them! Now I wish we could just do something to stop them!

Reasons stated by the publication was (1) the recognition itself is inherently of questionable value and is unlikely to serve any ultimate educational benefit, (2) methods used for gathering names have questionable validity in terms of whether students selected actually deserve recognition. There is ample evidence that students are usually listed or recognized if they furnish biographical information.

(3) Most of the organizations are profit motivated and have no association with educational, philantropic or professional association.

(4) The programs often solicit students and their families to purchase the publication, certificate or pin.

(5) Publications produced provide convenient lists of students' names and addresses that can be used for non-educational purposes.

(6) Some promoters and publishers, using deceptively reputable names or titles, list advisers or directors who may or may not have any responsibility for the enterprise.

So, those of you who might by getting letters stating that you have been selected to appear in "Who's Who" in whatever....think about the fact that you might get your name in print but the main object of this publication is to get your $30 or $40 ...maybe more now.

It's not really an honor after all, it's only a way to get to your pocketbook.

Ponies Stung By Hornets

Number four ranked Olton Mustangs were stung by Tulia Hornets in their season opener at Tulia last Friday night.

With four minutes left to play, Tulia fullback Monte Cannon kicked a 26 yard field goal to go ahead of the Mustangs, 11-8.

Both teams were scoreless as they went to the dressing rooms at the half.

Glenn Johnson put 6 on the board for Olton in the third period, with 6:43 left. He added the two-point conversion, with the aid of J.D. Caudle's blocking.

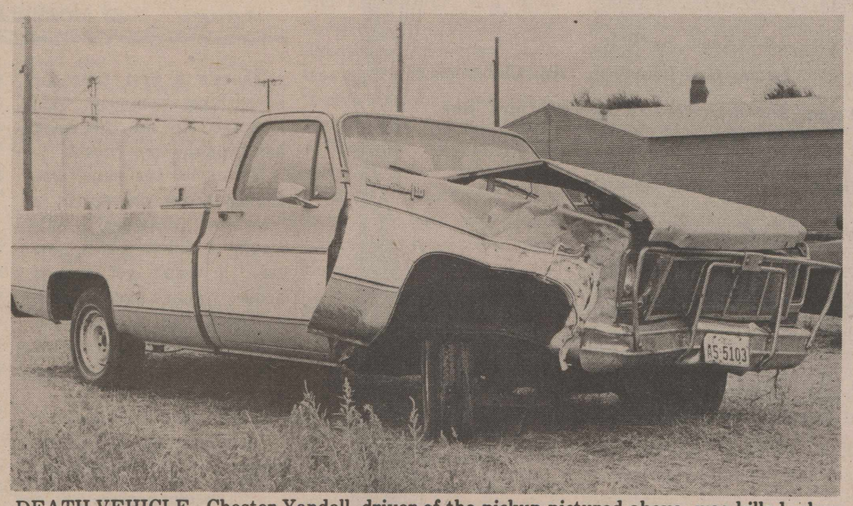

The Mustangs' only score capped a 70-yard, 11-play drive with Jimmy Parker's option fake, 24-yard run, the big gainer.

Tulia's score came after 59 yards in nine plays. Quarterback Steve Brown's 12-yard pass to Joe Garza in the end zone on fourth down with 3:59 left put Tulia on the board.

Olton's next possession ended on a fourth and one try for a first down when Parker bobbled the snap from center at Tulia's 32. Tulia then took over on its field-goal drive.

Jimmy McCaslin, Tulia player who suffered a

DEATH VEHICLE - Chester Yandell, driver of the pickup pictured above, was killed when his vehicle was in collision with a car driven by Teresa Contreras. The accident occurred at the intersection of Highway 70 and "cemetery road" about 7:40 a.m. Friday morning.

Dies In Crash Wednesday

Yandell Rites Set

Funeral services for Artie Chester Yandell, 53, are scheduled for 10:30 a.m. in Hopewell Baptist Church Saturday, Sept. 13. Officiating ministers will be Sherman Lawson, minister of Hopewell and Wayne Sistrunk, Hart Camp minister. Interment will be in Olton Cemetery under direction of Parsons Funeral Home.

He died about 7:40 a.m. Wednesday in a two-vehicle crash one mile east of town.

Yandell was born June 30, 1922 in McAlester, Okla. He married the former Jessie Martin March 13, 1941 in Waldron, Ark. He was a farmer and had lived in the Olton area 21 years.

Survivors include his wife; two daughters, Mrs. Cheryl Smith of Atlanta, Ga. and Mrs. Joyce Schwab of Shallowater; two sons, Ronnie of Canyon and Bruce of Frankfurt, Germany; his mother, Mrs. Gustie Yandell of Waldron, Ark.; three sisters, Mrs. Bertha Lunsford of Orosi, Calif., Mrs. Vida Stearman and Mrs. Molly Frazier, both of Waldron, Ark.; two brothers, Claudia Ray Yandell of Waldron, Ark. and Grady Yandell of Oro Grande, Calif.; and four grandchildren.

Pallbearers will be C.B. Lunsford, Bill Lunsford, Harold Jordan, Fred Long, Curtis Lohman and Aubrey Oursbourn.

Enrollment Denied Eighth Graders

Cheryl Stewart and Chris Elkins would have been members of Olton Junior High School's eighth grade with a mutual dream of next spring's graduation exercises with the classmates they had shared since the first grade. Instead, the daughter of Mr. and Mrs. George Stewart is attending school in Littlefield while the son of Mr. and Mrs. Gerald Elkins is a student at Springlake-Earth.

The two young people are only two of some 35 to 40,000 Texas students who have been denied transfer from the school district in which they live to another, the one of their choosing, for the 1975-76 school term.

Neither Cheryl nor Chris have attended any school other than Olton since they began first grade at H.P. Webb Elementary. They share the same circumstance, their farm homes are just outside the boundry of Olton Independent School District.

The student transfer problem became known just before school began this year when schools across Texas received letters disallowing the transfer of students because of "racial imbalance" of the school district into or out of which they sought transfer.

One student, Leticia Valadez, was denied transfer to Hart Junior High from the Olton School District. Excerpts of the letter received by Superintendent Ted Averitt of Hart from Alton O. Bowen, Deputy Commissioner for Administrative Services of TEA read:

"We have reviewed the student transfers into the Hart Independent School District for 1975-76 school year. We find, according to our records, that one (1) pupil has transferred into your district from Olton Independent School District, Campus #041. Please notice the attached copy of excerpts from Court Order 5281.

"We are denying the following transfers into your district, based on the fact that the pupils transferring into and out of Olton Independent School District, Campus #041 will change the majority percentage from 48.2% to 49.8%: Leticia Valadez."

A similar letter notified the local school of the denied transfer of Miss Steward and Elkins along with six other students.

Excerpts of the court order read:

The Honorable William Wayne Justice, Federal District Judge, Eastern District of Texas, Tyler Division, on August 9 and August 15, 1973 amended Section A., Student transfers of the Court Order in Civil Action 5281 to provide that this Agency should deny transfers which violate the following section of this Court Order: "The defendants shall not approve transfers where the effect of such transfers will change the majority or minority percentage of the school population, based on the average daily attendance in such districts by more than one per cent [1%]; in either the home or the receiving district or the home or the receiving school."

The order further states: "Defendants shall not permit, make arrangements for or give support of any kind to student transfers, between school districts, when the cumulative effect, in either the sending or receiving school or school district, will be to reduce or impede desegregation, or to reinforce, renew, or encourage the continuation of acts and practices resulting in discriminatory treatment of students on the ground of race, color or national origin."

Campus 041, junior high, is the only affected campus of Olton schools. Cheryl's older sister, Diane, was permitted to transfer as a student in Olton High School. A number of other high school students and some elementary students are transfers from or into neighboring school districts.

Blue And White Day Sept. 19

Friday, Sept. 19 has been designated as the second annual "Blue and White Socks Day". All Mustang fans, young and old, feminine and masculine are asked to help observe that day by wearing the royal blue and white baseball sox which are made locally.

Persons who do not have the colorful sox left from last year's observance of "Sock Day" may purchase them at Pro Sox, Inc. for a cost of $1. per pair.

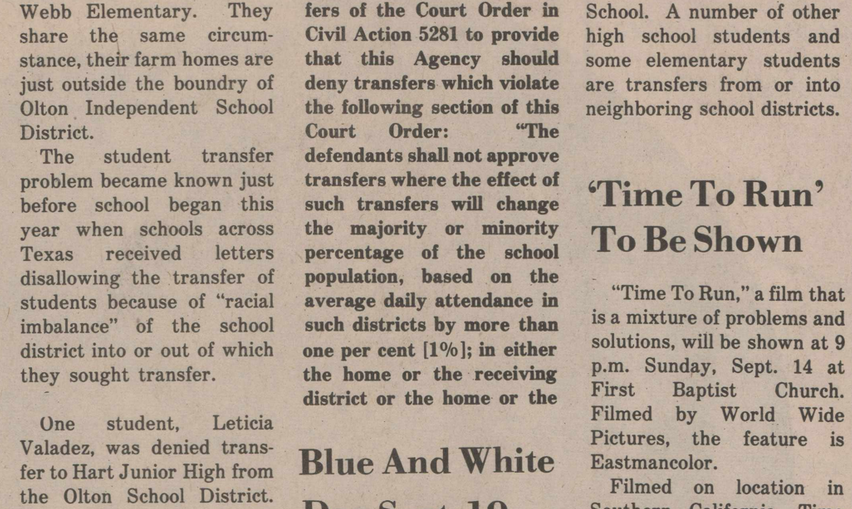

'Time To Run' To Be Shown

"Time To Run," a film that is a mixture of problems and solutions, will be shown at 9 p.m. Sunday, Sept. 14 at First Baptist Church. Filmed by World Wide Pictures, the feature is Eastmancolor.

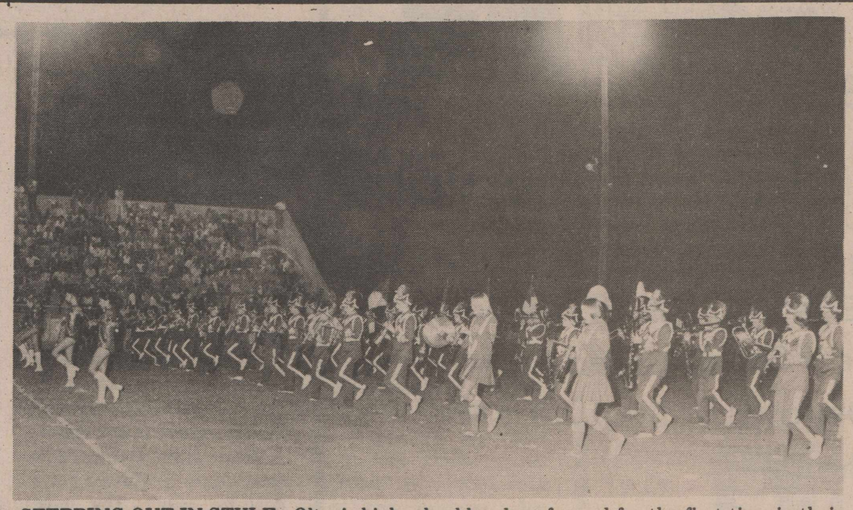

Filmed on location in Southern California, Time To Run stars Ed Nelson as Warren Cole, a hard driving success-oriented industrial and scientific engineer who, because of over-involvement with his work, has failed to communicate with his wife Fran, played by Joan Winmill, or their son Jeff, played by Randall Carver.

"Time To Run" is a film that can help strengthen love relationships between people. It's a film that was made for families to attend -- together.

The public is invited.

TOUCHDOWN!! - Olton's only score was made by Glenn Johnson shortly after the second half began. However, Tulia marched back up field and did the same thing, then later kicked a field goal to go ahead 11-8, getting revenge for Olton's win last year.

STEPPING OUT IN STYLE-- Olton's high school band performed for the first time in their new uniforms during halftime at the Tulia-Olton football game. Comments throughout the crowd were praising the band for its performance as well as its appearance.

Tie Breaker Decides First Weekly Winner In Contest

Thirteen proved to be a lucky number for former Oltonite, Darryl Dennis, in the opening week of the Enterprise 1975 football contest. Thirteen points off the actual score of the Mustangs-Tulia tilt, Dennis claims first place money. Second and third places belong to Eva Walden and Don Nafzger, who missed by 14 and 18 points, respectively.

One other contestant, Cindy Walden, missed the same number of games, four, but was eliminated by her tie breaker prediction, missing by 25.

Dennis picked the score at 20-10; Mrs. Walden, 19-14; Nafzger, 18 and Miss Walden, 28-6. The Mustangs were defeated 8 to 11.

Standings of contestants who have 12 or more points are listed elsewhere.

A good number of entries were received in the first week's contest. The grand prize of $50 could still be claimed by a person who has not yet entered however if leaders hit a "slump" and new contestants "get lucky." No one should ever give up even though they trail by a number of points.

The contest is fun and costs nothing to enter. Anyone may enter but only entry is allowed per person.

To enter, pick a winner in each of the games listed in the ads of the 15 sponsoring merchants on the contest page in the Enterprise. Circle the number of the teams you think will win and predict the tie-breaker score. Fill in the entry bland and deposit it with any of the sponsoring merchants.

Don't forget, when you leave your entry blank, those merchants are the ones who make the contest posible. Tell them you appreciate their giving you the chance to have fun and perhaps earn money. Your hometown merchant appreciates your trade, you are one of his most valued customers.

Homecoming Events Plans In Final Stages

At a meeting of school officials, members of the Student Council and members of Bicentennial Committee several Homecoming activities were finalized Tuesday night.

Traditional school floats and entries, marching bands and other school organization units will be augmented by floats of civic organizations, merchants and possibly out of town groups.

Sponsored by the Student Council the parade will be under direction of Bill Johnston. Melvin Rape, will be coordinator for the Bicentennial planners, working closely with parade officials.

Revolutionary customer for all citizens are being promoted by Young Homemakers Club members, who have already made "mob-caps" to share with downtown merchants during the Bicentennial weekend.

An antique farm machinery display is being organized by Dale Cary. Downtown window displays are to be solicited by Margaret Burrus.

A Victory Coffee for the community following the football tilt with Idalou, is being planned by Mrs. Clovis Poteet and a host of Ex-Students.

Bicycle entries are urged by Melvin Rape who says a section will be provided for "decorated wheels". Those wishing to enter may leave their names at the Southwestern Public Service Company office. Further information about parade entries may be had by contacting Rape.

"Remember When" has been chosen as theme for the parade. No charge will be made for entering parade units.

Olton Lions, sponsoring a beard growing contest, are showing up over town with brave beginnings of decorative beards...others proudly display shaving permits. Don Loafman is in charge of the contest.

One member of the Bicentennial planning committee, enthusiastic about the celebration, has stated "This is the only time any of us will be privileged to celebrate the 200th Birthday of our Nation, so let's make it a memorable event."

Olton Schools Show Decline In Attendance

Attendance at Olton schools showed a decline of 66 students from this time last year, as Superintendent Joe Turner reported to the board of trustees in a regular meeting Monday night.

"There are 41 less students in the first grade alone," Turner pointed out. "That's three teaching units we lose support for from the state if that trend continues."

It was determined that the drop was due to the fact that crops in the area were already gathered by migrants and they had gone back to their regular homes earlier than usual.

Adult Education classes were approved by the board. At least 10 persons would need to enroll in order to conduct classes, or have an average of seven attending.

A request for supplement funds on pickups used by the vocational ag teachers was reviewed. In comparison with other districts, Olton's allowance compared favorably. The board voted unanimously to leave it as it is.

Discussion of retaining a lawyer for the school on a permanent basis was discussed. A retainer fee of $75 per month would assure the school of the availability of a Plainview lawyer, Paul Lyles. However, the board asked that a meeting be set

Big Deal

Rex Boyles

Turn on the radio, and what do you hear? "Hello folks! My name is Delberb Tursbucket! Have I got a deal for you! Down here at the shop today we've got the finest selection of whicker-bills found anywhere in three counties!" A few songs and weather reports later you hear, "Howdy folks! Have I got a deal for you! Down here at the shop today we've got truckloads of the greatest whicker-bills anywhere in the state!" A little later and here it comes again. "Have I got a deal for you! The most stupendous whicker-bills made anywhere in the whole cotton-pickin' world!" And again. "Have I got a bargain for you!"

Over and over again we're bombarded with those "high-filooten" sale pitches. They all claim to be the most "terrific, amazing, marvelous, and colossal" thingamajig on the market. If their "Whatchamacallit" isn't the original, it's the fastest or the easiest or the finest or the cheapest or the prettiest or the toughest. And if that "whateveritis" is not one of those, it will at least make you a movie star or a rich tycoon or an irresistable playboy.

If a person ever seriously listened to that gibberish and was really trying to find the best, how would he ever be able to make even the least bit of a decent attempt at making a good buy? He would either have to buy all of the products, try them out, and then decide; or else he would have to know someone trustworthy who knew something about all of them. While the "buy all of them" plan is rather silly, the "dependable friend decision plan is the surest way to guarantee a good buy.

That kind of pressure and decision-making doesn't stop with tires, clothes, toothpastes, or cars. It reaches into eternity, and that is far more important than anything else. Religions are like those "high-filooten" sale pitches. Each one different.. making different claims... each one teaching different things...each one taking different forms. Thousands upon thousands demanding a right to exist and assuming themselves to be "the one" of which God approves.

So here we sit, puzzled, knowing that in that confusion there is "the one". In disgust we often throw up our hands and mutter, "Oh, it doesn't make any difference anyway." BUT WE KNOW BETTER... so we keep looking. We know there is "the one" for Jesus said himself, "Father, neither for these only do I pray (the apostles) by for all them that believe on me (Christians) through their word (the Bible) that they may be ONE..." (John 17:20-21. The Lord Jesus had his servant Paul say it like this: "There is ONE body..." (Ephesians 4:4). What is the Body? Jesus thru Paul defines it in Ephesians 1:22-23 "...and he gave him (Jesus) to be head over all things to the church, which is his body..."

With all the names, claims, doctrines, and forms, how are we ever going to find"the one"? We can't do it by the "try them all" plan, for life is too short and eternity too long. That's it! We'll find "the one" by the "trustworthy friend" plan, but which friend? There is really only one dependable friend and that is Jesus. Buddies and pals are not the friend for they have to make the same decision. Parents are not the friend for they have the sort the same claims. "Feeling good about it" isn't the "friend" because everybody feels good about "their one." If we really want to find "the one", we'll depend on him who built it and now approves it, Jesus. He has written the way to find it for us in "their word", the New Testament, the Bible, the Word of God. Has He got a deal for you.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

There's a first time for everything someone said long ago. For me, this week has brought two "firsts."

My name, yes mine, was among those chosen in a "random drawing" this week. I didn't win a new car. I didn't get a new house. I wasn't even handed a check for a thousand dollars - or one dollar. It wasn't a trip or a fur coat or a diamond ring.

It was jury selection!

Once long ago, in the era when you could get an occupational release, I got one of those awe-inspiring letters from the Sheriff. That time, though, I never had to report because I was "needed" at the office.

Didn't matter this time if I were needed or not! Nowadays you don't shirk your citizen's duty - you show up for roll call or the Sheriff comes calling. I'd druther show.

So much for the first First.

There we are in the district court room - some 60 of us Lamb Countians. The Judge greets us with a smile and the wonderful news that 24 of us are going to be chosen in a random drawing for consideration as jurors.

Yea, I got lucky again! That was my second First.

All sorts of visions from episodes of Perry Mason flashed through my mind to the accompaniment of such symptoms as racing pulse, sweaty palms, chills and goose pimples alternating with hot flashes, palpitation of the heart and the general feeling of I'VE HAD IT!

Survive, I did, only to hear the Judge thank us for our service and tell us to report back at 9:30 a.m. Friday!

How do you plead "double jeopardy"?

MRS. GARY COOPER

Cook Of The Week

Recipes are shared this week by a brand new employee of the Enterprise, Mrs. Gary Cooper. Jennifer began work just this week as advertising compositor.

Jennifer has never worked at a newspaper before but thoroughly enjoyed high school journalism and had ideas of studying journalism in college.

The young Coopers met in Littlefield, Jennifer's home town, when Gary was dating one of her girl friends. They were high school juniors at the time.

Gary was born and reared in Olton and the young couple came here to live last October, shortly after he graduated from United Electronics in Dallas.

Jennifer's favorite pastimes include sewing and cooking. The recipes she shares includes one for tamales which her mother found quite a few years ago. It is a family favorite. The pecan tassies are yummy little rich goodies which are similar to pecan pies.

Members of Main Street Church of Christ, Jennifer helps with the bus ministry and will be working in the future as a teacher's aide in a Bible class.

Bicentennial Breakfast Initiates Club Year

With tables gaily bedecked in red, white and blue, and with each place setting flying its own miniature flag, Olton Study Club met at a Monday morning breakfast in the home of Mrs. J.C. Brown. Mrs. Baily Hair assisted as co-hostess.

Also marking individual places for members were copies of the club's new yearbook, setting out as its theme for study this year, "The Birth of Our Nation."

Invocation was spoken by Mrs. Hair. Following the meal, the President's Greeting to the organization was presented by Mrs. Frank Cornelius.

Quoting from a writing titled "Freedom is a two-edged sword" Mrs. Cornelius challenged her hearers by saying "The truth about freedom is that we face a far greater challenge that our ancestors did....perhaps we do have blind spots and misguided concepts of liberty.

"Our cry has become 'Give us More Freedom - fewer rules - more elastic ones'. We have weakened our courts of justice, shaken the foundation of our church. We want more leisure, less work. We face the bleak and chilling truth we have not learned to restrain ourselves."

"Independence is really self-discipline. We do well to remember that when we see the flag we love blazing against the sky on Independence Day."

The club roll was called and members answered by giving individual "Highlights of the Summer."

In presenting the new yearbooks, Mrs. D.M. Granberry, program chairman, discussed the Bicentennial theme being used.

During a short business session Mrs. Cornelius reported upon a meeting of Woman's Club Council, held recently, in which plans were begun for the annual Community Turkey Dinner slated for Oct. 24.

The organization discussed briefly its intention to participate in the upcoming Bicentennial weekend, Oct. 10 and 11.

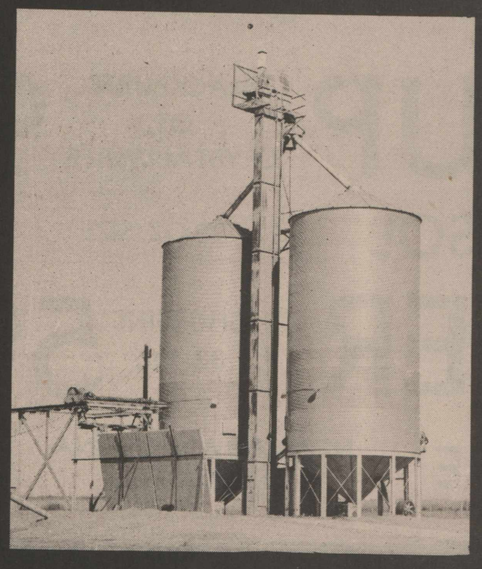

Those in attendance were Mmes. Roye Aikman, Margaret Burrus, H.B. Carson, Raiford Daniel, Delia Fuller, Barton Prestridge, George Reginger, Curtis Scruggs, Truitt Sides, Lily May Silcott, Glenn Singleterry, E.R. 'Dollar Day' To Benefit Cystic Fibrosis Foundation

Judy, who is seven-years old, must spend almost two hours every day in treatments designed to keep her alive.

She suffers from cystic fibrosis, an incurable lung-damaging disease which is the number one genetic killer of children.

The life-maintaining treatment followed by Judy and the thousands of other children with cystic fibrosis include thrice-daily chest physical therapy. Because of her disease, Judy's digestive system is also handicapped. Therefore, she also must follow a special diet and take more than 40 pills a day.

Timmy celebrated his eighth birthday in a local children's hospital. For his birthday, his mother baked a chocolate birthday cake - his favorite.

Like Judy, Timmy has severe lung damage - his caused by bronchiectasis. So, Timmy didn't have the breath to blow out the birthday candles on his cake.

While his father blew out the candles for him, Timmy did make a typical child's wish - for a game set he saw in a TV commercial. But, his mother's wish was not so typical - she prayed that her son would be well for his next birthday.

"Judy and Tim are among the millions of children in this nation who need our help," said Mrs. Mike May, chairman of the 1975 Breath of Life Campaign of the Lone Star Chapter of the Cystic Fibrosis Foundation.

Members of Olton Young Homemakers are sponsoring a "Dollar Day" for Cystic Fibrosis, Wednesday, Sept. 24 from 1 to 7 p.m. Members will be at Leon's Grocery, Don's Super Market and Pay N Save Grocery to accept contributions of one dollar from persons who would like to help in the fight against cystic fibrosis.

"We're only asking for one dollar because we realize there are so many worthwhile projects which need financial aid but we believe one dollar from everyone will amount to a good contribution from Oltonites," Mrs. May says.

In connection with the Dollar Day campaign, Young Homemakers will also conduct a bake sale that day with proceeds to be contributed to the cystic fibrosis fund campaign.

"The Breath of Life Campaign is so appropriately named," Mrs. May pointed out. "We'll be raising money to finance research, care and educational programs that will give these children a better chance for the breath of life."

Lung-damaging disorders, she asked, kill more children in the United States than any other disease except cancer. Besides cystic fibrosis and bronchiectasis, these diseases include asthma, chronic bronchitis, "childhood emphysema," recurrent pnuemonia, and other lung-damaging conditions.

The Cystic Fibrosis Foundation, now in its 20th year, sponsors a world-wide program of research aimed at finding the cure for cystic fibrosis and determining better methods of treating children with all lung-damaging diseases.

The Foundation, Mrs. May continued, also helps support a national network of over 100 Cystic Fibrosis Centers which provide diagnosis, treatment and referral for children suffering from these lung diseases and to those with gastro-intestinal disorders related to cystic fibrosis.

"Most of these Cystic Fibrosis Centers," Mrs. May said, "are located at hospitals affiliated with the nation's top-notch medical schools." In Texas, Cystic Fibrosis Centers are at Dallas, Houston, San Antonio.

"I hope the people of Olton will open their hearts to Judy, Timmy and other children in our community and nation who have lung-damaging diseases," Mrs. May added. "Please support the Chapter's Breath of Life Campaign, Sept. 24 as generously as you can."

PUBLIC NOTICE

SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS

(S.J.R. NO. 11)

SPECIAL ELECTION NOVEMBER 4, 1975

PROPOSITION NO. 1 ON THE BALLOT

Revising the separation of powers, legislative and executive provisions of the Texas Constitution. Article II, Separation of Powers, is amended to:

Provide that the powers of government of the State of Texas are divided among three distinct branches: legislative, executive, and judicial. Except as otherwise authorized by the constitution, members of one branch may not exercise any power properly attached to either of the others.

Article III, The Legislature, is amended to:

Continue the present structure of the legislature consisting of a senate with 31 members and a house of representatives with 150 members. The present organization and procedure of the legislature are continued except that the provision allowing closed executive sessions of the senate is omitted. Provisions on the conflict of interest of members of the legislature are continued, as is the governor's power to veto bills or line items in appropriation bills. The article provides for single-member senatorial, representative, and congressional districts. A compensation commission is created to recommend the compensation and allowances to be received by members of the legislature. The legislative compensation, set by law, may not exceed this recommendation and does not take effect until after an intervening general election. The article provides for annual sessions of 140 days in odd-numbered years and 90 days in even-numbered years, and a veto session of 15 days upon request of three-fifths of the membership of each house. The legislature may meet in organizational sessions prior to the convening of the legislature in regular sessions.

Article IV, The Executive, is amended to:

Continue the present status of the governor and all other statewide officers, and include the commissioner of agriculture as an executive department officer. The governor is limited to two consecutive terms. The governor is authorized to designate chairmen of state boards, and to remove gubernatorial appointees to state agencies for cause unless the removal is vetoed by the senate. The article mandates the legislature to provide a new governor-elect an appropriation so the governor-elect may organize an office prior to inauguration, and permits the legislature to grant powers of fiscal control to the governor. All governmental agencies, with several exceptions, have a life of not more than ten years unless extended by the legislature, and, at the regular session held in odd-numbered years, the governor shall submit to the legislature a report on the organization and efficiency of the executive branch.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the SEPARATION OF POWERS, LEGISLATIVE, AND EXECUTIVE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective January 1, 1976, except Article III, Section 5, which becomes effective January 1, 1981.

PROPOSITION NO. 2 ON THE BALLOT

Revising the judiciary provisions of the Texas Constitution. Article V, The Judiciary is amended to:

Establish a unified judicial system consisting of the supreme court, court of appeals, district courts, and circuit courts. Existing county courts and county judges are continued until otherwise provided by law. All judges (except municipal judges), district attorneys and district clerks must be elected by the people. The supreme court and the court of criminal appeals are merged into a single court of last resort, and this supreme court is authorized to provide for efficient administration of the judicial system and to balance case loads. Individual rights for a trial by jury and appeal by the accused are continued. The state is granted the right to appeal in criminal cases in limited circumstances, and the legislature is permitted to establish methods of appeal to the courts from decisions of state agencies.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the JUDICIARY PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 3 ON THE BALLOT

Revising the voting and election provisions of the Texas Constitution. Article VI, Voter Qualifications and Elections, is amended to:

Provide for registration and qualifications for voting including voter residency requirements to be established by law. A citizen of the United States who is at least 18 years of age and who meets the registration and residence requirements provided by law is a qualified voter unless the person has been convicted of a felony and for that felony is incarcerated, on parole, or on probation, or unless the person is mentally incompetent as determined by a court. Voting by the people in all elections must be by secret ballot, and the legislature shall provide by law for residence, registration, and absentee voting requirements, for the administration of elections, and for the protection of the electoral process. The general election for state and county officers is to be held in even-numbered years on a date prescribed by law.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the VOTING AND ELECTION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 4 ON THE BALLOT

Revising the education provisions of the Texas Constitution. Article VII, Education, is amended to:

Provide that the Permanent and Available School Funds and the county public school funds are continued for the support of the free public schools. The State Board of Education is retained and the Permanent and Available University Funds are continued for the benefit of The University of Texas and Texas A&M Systems. A new Higher Education Fund for Texas is established for the benefit of colleges and universities outside The University of Texas and Texas A&M Systems. The state ad valorem tax of ten cents on $100 valuation is continued as the source of revenue for the Fund. The ten cent higher education tax may be changed by law within the ten cent maximum. The legislature may allocate by law a portion of the Higher Education Fund to certain state vocational and technical institutes. The article provides that the public education system must furnish each individual an equal educational opportunity, but a school district may provide local enrichment of educational programs exceeding the level provided by the state consistent with general law. Authority to issue Permanent University Bonds is continued but the bonds may not exceed 30% of the Permanent University Fund.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the EDUCATION PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976, except Article VII, Section 9, which becomes effective January 1, 1979.

Provide that state taxes may be levied and collected only by general law and to prohibit any state ad valorem tax on real property or tangible personal property except the ten cent tax provided for in Article VII and a tax of two cents on the $100 assessed valuation to provide funds for the State Building Fund. Provides that all real property and tangible personal property must be taxed equally and uniformly in proportion to market value. Existing exemptions from ad valorem taxation are continued. The present dedication of motor fuel taxes for highway purposes and the Available School Fund is retained. The "pay-as-you-go" principle for the operation of state government is retained. The legislature shall establish separate formulas for appraising land to promote the preservation of open-space land devoted to farm or ranch purposes and may establish separate formulas for appraising land to promote the preservation of forest land devoted to timber production. The $3000 exemption from state ad valorem taxation for residential homesteads is continued and the legislature by law may increase this amount. A separate $3000 exemption from ad valorem taxation by political subdivisions is provided for the residential homestead of persons at least 65 years of age and the political subdivision may increase this amount. The legislature by law may exempt from ad valorem taxation certain property owned by veterans' organizations, nonprofit water corporations, and persons in need because of age or disability, and economic circumstance. The legislature may also exempt property to preserve historical, cultural or natural history resources. Taxpayers are provided a new method of correcting inequitable tax assessments by paying ad valorem taxes under protest and suing for a refund in a district court. State debt may be authorized by law only if approved by a two-thirds vote of each house of the legislature and submitted to and approved by a majority of the qualified voters of the state voting on the question. Public funds and public credit may be used only for public purposes and no public funds or public credit may be used to influence the election of a public officer. The article prohibits a retail sales tax on agricultural machinery or parts, fertilizer, feeds or seeds, prescription drugs or medicine, or food, except food sold by restaurants for immediate consumption. An assessment voted by marine food or agricultural producers on their product sales is not a tax if provision is made for the individual producer to receive a refund of the assessment when the producer does not desire to be assessed.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the FINANCE PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976, except Article VIII, Section 2, Subsections (b) and (c), which becomes effective January 1, 1978, and Article VIII, Section 6, Subsection(c), which becomes effective January 1, 1979.

PROPOSITION NO. 6 ON THE BALLOT

Revising the local government provisions of the Texas Constitution. Article IX, Local Government, is amended to:

Provide that the counties of the state are those that exist on the date of adoption of the local government article and that county boundaries may be changed if approved by a majority of the qualified voters in each affected county who vote on the question. Counties may be merged or county seats relocated if approved by two-thirds of the qualified voters in each affected county who vote on the question. The present elected constitutional county offices are retained and four year terms of office are provided. The voters of a county may create additional offices, eliminate offices, or combine the duties and functions of offices. The voters may also grant ordinance making power to the governing body of the county. Cities and towns having more than 1,500 inhabitants may become home-rule cities. Tax limitations are established for operating purposes for cities and counties and the legislature is required to fix debt limits for cities, towns, counties, and school and community junior college districts.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the LOCAL GOVERNMENT PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective on September 1, 1976.

PROPOSITION NO. 7 ON THE BALLOT

The legislature is required to protect certain personal property from forced sale. Current wages for personal service are not subject to garnishment. A private corporation may not be chartered except under general law, and no bank may engage in business at more than one place in this state. The legislature must provide for the regulation of bank holding companies. The present system of local-option elections for the prohibition or sale of alcoholic beverages is continued. The legislature is required to prohibit lotteries and gift enterprises but may permit certain bingo games and raffles. The presently existing provisions for retirement benefits of teachers and other public employees are modified to allow the state to contribute more than 10%. A policy that the quality of the environment of the State of Texas is to be protected is established, and the legislature is required to implement and enforce this policy. No state funds may be used to remove surface water from the river basin of origin if the surface water is necessary to supply the reasonably forseeable water requirements of the basin for the ensuing 50 years, unless the removal of water is sufficiently replaced to the point of removal from outside the state or is on a temporary, interim basis. The seaward beaches of the Gulf of Mexico and coastal submerged lands belonging to the state are held by the state in perpetual trust for the people, and subject to reasonable limitations prescribed by law, the public has the free and unrestricted right of use and benefit of the beaches. The provision is continued that, except as otherwise provided by law, a rate of interest in excess of ten percent a year is usurious, and that if a contract does not specify a rate of interest, the rate under the contract may not exceed six percent a year. Discrimination against handicapped persons is prohibited, and a goal of the state is established to provide every resident access to adequate, comprehensive health care.

The wording of the proposed constitutional amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising the GENERAL PROVISIONS of the Texas Constitution."

If adopted by the voters, will become effective September 1, 1976.

PROPOSITION NO. 8 ON THE BALLOT

If other propositions are adopted, the article will be appropriately renumbered to remain the last article of the constitution. If all propositions are adopted, the article will be Article XI. Article XVII, Mode of Amending the Constitution of the State, is amended to:

Establish a procedure for constitutional amendments requiring a two-thirds vote of each house of the legislature and majority approval by the voters. TEXAS TALK

By Billy Davis

Cattlemen are being outdone by prune producers. At least as far as product promotion is concerned. Paul Horn, writing in one of this summer's issues of THE CATTLEMAN, cites the fact that the prune growers association of California spends more total dollars pushing prunes than the entire cattle industry does in promoting beef. This latest wrinkle comes as a part of the continuing push for the Beef Development Plan which could provide as much as 40 million dollars a year for the promotion and development of beef markets. Hold up on the operation still involves composition of the 68 member "Beef Board" and the mechanics of operating the "beef check-off" system which would provide financing for the promotion by collecting three-tenths of one percent of the sales price of slaughter cattle. If the still lingering problems are ironed out, collections could begin as early as next year.
