Resume Parleys By Sunday, Panel Asks

WASHINGTON (AP)—The head of President Eisenhower's inquiry panel on the steel strike today urged the industry and union to resume direct negotiations and seek an agreement before Sunday.

Both the industry and union seemed to accept the suggestion made by panel Chairman George W. Taylor at the windup of the panel's hearings. But no immediate negotiating arrangements were made.

The nation wants a settlement soon of the damaging strike, Taylor lectured both sides.

He said that if they are unable to reach agreement by negotiation, they should consider submitting their differences to arbitration, or a decision by outside neutrals.

R. Conrad Cooper, U.S. Steel Corp. executive, and Union President David J. McDonald replied that they preferred negotiations rather than arbitration.

Taylor said there are two main road blocks thwarting a settlement.

He said these are the work rule changes demanded by the industry, designed to promote operating economy, and the matter of wage and benefit increases for the strikers.

Earlier, as the industry resumed presenting its side of the tangled labor dispute, Chairman George W. Taylor of the inquiry panel had told a reporter he was "not without hope" for a settlement that would avert resort to a Taft-Hartley law injunction.

McDonald was asked by reporters whether there was any room for compromise over the industry's demand for more leeway to make changes in local work rules and effect manpower economies.

Saying the union will never budge in its refusal to accept such changes, McDonald added: "It is as it is—period. I've said any change would be over my dead body. I don't know how I can make it any stronger than that."

The union chief added that "nobody is going to have a ——— blackwhip over my boys."

McDonald said the union has given up in earlier negotiations many of its original demands for contract changes. He said it was time for steel management to surrender some claims, too.

Taylor's talk of avoiding a Taft-Hartley law injunction amounted to saying he thought it possible a settlement could be reached this weekend.

The panel is to make a report to Eisenhower on Monday. Once it reports, the way will be cleared for the government to turn to the courts and ask for an order directing that the 500,000 striking workers go back to work for an 80-day cooling off period.

Such orders are authorized by the Taft-Hartley law.

Eisenhower granted the panel an extra three days for its work—moving the deadline for the board to submit a report to the White House from Friday to Monday.

The panel conferred separately with the industry and union Wednesday night. Taylor was expected to announce a summary of the strike issues—the areas that need to be resolved before any agreement can be reached—at the close of formal hearings today.

The striking Steelworkers Union concluded its version of the strike issues late Tuesday.

Today was the 93rd day of the strike, the longest in the industry's history.

FIREMEN ESCAPING HIGHWAY INFERNO—Firemen flee for their lives in a fire patrol car on Angeles Crest Highway as huge flames sweeping through the Angeles National Forest raged on both sides of the highway. The fire, destroying mountain brush and timber, is about 30 miles northeast of downtown Los Angeles, Calif. (AP Wirephoto)

U. S. Scientists Win Nobel Prize

STOCKHOLM, Sweden (AP)—Two American scientists were awarded this year's Nobel prize in medicine for pioneer research into the basic mechanisms of heredity.

They are Dr. Severo Ochoa of the New York University college of medicine and Dr. Arthur Kornberg of Stanford University, California.

The decision was taken by the Swedish Royal Caroline Institute of Medicine and Physiology this afternoon.

The reward signaled an explosive biochemical advance in the basic scientific level of heredity.

The prize this year is worth 220,700 Swedish crowns—$42,606. The money comes from trusts set up under the will of Alfred Nobel, Swedish inventor of dynamite. The prizes first were awarded in 1901 and are given for chemistry, physics, literature, as well as in the field of medicine and physiology. In addition there is the Nobel Peace Prize.

Americans also won the prize for medicine last year. They were George Beadle, Edward Tatum and Joshua Lederberg, for their work in genetics.

The work of Dr. Ochoa and Dr. Kornberg centered on the chemical structural pattern of heredity, notably the key substances of DNA — DesoxyriboNucleic Acid; and RNA—RiboNucleic Acid.

The Caroline Institute said in its official citation that the two American scientists were awarded the prize "for their discoveries of the mechanisms in the biological synthesis of RiboNucleic Acid and DesoxyriboNucleic Acid."

Dr. Ochoa, 54, is a native of Luarca, Spain.

Kornberg, 41, was born in Brooklyn, N.Y.

The Caroline Institute, which gave half the prize to each man, said it was honoring "two of the best biochemists of the present time in their most active age."

In reporting findings in 1955, Dr. Ochoa, head of biochemistry at New York University's college of medicine and head of a team of experimenters in that school, said the process involves joining small molecules into chains, like beads on a string. Ochoa's group was believed to be the first to put them together in a chain outside a living organism.

Ochoa reportedly took substances from living sewage cells to build the molecules. The bacteria substances are generally called enzymes and can facilitate complex chemical reactions. DN is a main component of chromosomes and genes, the carriers of hereditary traits.

In 1957, Dr. Kornberg, at that time associated with Washington University in St. Louis reported on his team findings in the same field at the annual meeting in Chicago of the Federation of American Societies for Experimental Biology.

He reported that the DNA in the test-tube appeared to be the same as that found in all living things.

Authorities Are Mum On Bank Funds

By FINIS MOTHERSHEAD

DALLAS (AP)—Authorities kept mum today about what became of $390,320 they accused a bank official of misapplying.

Federal agents charged James Cook Evans — 52, thin - haired, quiet and mild — Wednesday but refused to disclose many details. He waived preliminary hearing and went free under $2,500 bond.

The money disappeared in the past two years, investigators said, from the First National Bank, one of Dallas' largest. Evans, an assistant vice president, had worked there since 1925.

Ben H. Wooten president of the bank, said he understood the shortage involved five other men and a wildcat oil drilling project. "No other bank employe had anything to do with the shortage, he said.

The FBI would say only that agents still were checking into the case and had not filed complaints against anyone else..

Evans, solemn and composed, told newsmen he had no comment after his arraignment.

"What good would that do me?" he inquired. "It will all come out later."

To a reporter who asked where the money went, Evans said:

"I think you have the wrong idea."

The FBI charged him specifically with a false entry in bank records showing a non-existent $3,000 deposit.

"The misapplication came about through the making of fictitious deposits and the paying and concealing of drafts drawn for collection," Wooten said.

Fidelity bonds covered the full amount of the loss, the president said.

Other employs discovered a shortage Tuesday when illness kept Evans off the job, and the bank notified the FBI. Evans was fired.

"One would never have suspected him of anything like this," Wooten said. "He lived moderately, was very quiet, was a steady employe."

Evans is married and has a grown son. Another son died in an automobile crash last December.

Humphrey Backs Goals Of Union

By DWIGHT PITKIN

ATLANTIC CITY, N.J. (AP)—Sen. Hubert H. Humphrey (D-Minn) today endorsed political goals of the United Auto Workers and attacked the Eisenhower administration as "a no-go, go-slow, not-now, veto and injunction government."

In a speech prepared for the UAW convention, Humphrey said the union has hammered out a "magnificent forward-looking program" including a strong civil rights proposal.

"We must have a meaningful civil rights bill," he said.

Humphrey was the third Democratic senator considered a prospect for the presidential nomination in 1960 to go before the 2,500 delegates. Sen. Stuart Symington of Missouri spoke Wednesday and Sen. John Kennedy of Massachusetts spoke Monday.

Besides civil rights, Humphrey singled out for approval several other measures in a political action program adopted by the convention, including federal aid to education, increasing the minimum wage to $1.25 and medical care for old people.

He said Eisenhower "has become so accustomed to vetoing bills in Congress, he thinks he can veto anything he feels like — including a strike by American workmen to get a little more of the steel dollar out of profits and into wages."

The President's veto of housing legislation was "a heartless act," he said, adding, "But I guess the people he associates with don't have too much of a housing problem."

Symington promised specifically to work for an increase in the dollar minimum wage and more funds for education and housing when Congress reconvenes. These are among the items in the 31-point legislative program adopted by the convention.

Symington said, "I want to pledge to you when I go back to the Senate in January that I am going to work just as hard for you in the future — because your success is America's success — as I have in the past."

Youth Hurt In Collision

A 13-year-old motor scooter rider was admitted to Cogdell Memorial Hospital about 8 a.m. today after his vehicle was in collision with the 1954 Plymouth sedan driven by Monette Schweers O'Day, 406 Thirty-first street, Snyder.

Admitted for possible fracture of the left wrist and right knee was Jerry Ellis McPherson, son of Mr. and Mrs. Charlie McPherson, Box 33, Route 2, Snyder.

The accident, which was investigated by a member of the Scurry county sheriff's office, occurred just outside the city limits in front of the East Elementary School.

Damage to the scooter was estimated at $75 and to the O'Day car at $150.

Young McPherson was taken to the hospital in a Bell Funeral Home ambulance.

Lopez Mateos On Visit To Canada

OTTAWA (AP) — President Adolfo Lopez Mateos of Mexico arrived today for the first official visit ever paid to Canada by a Mexican head of state.

He and his wife and daughter were greeted by Gov. Gen. George Vanier, Prime Minister and Mrs. John Difenbaker and other dignitaries.

Reception Is Set For Exes

All ex-students of Snyder High School, and particularly those now living in the Snyder area are being urged to attend the Homecoming reception tomorrow afternoon at the high school cafeteria.

The reception is set for 4 p.m. to 5:30 p.m. and will be a highlight of Homecoming activities.

The climax of the event will come Friday night when the Homecoming Queen is crowned during half-time ceremonies at the Snyder-Levelland football game.

All former Snyder High School football players have been invited to sit in special chairs behind the Tiger bench during the football game.

The Homecoming Queen will be selected from a field of five candidates.

Skies Clear Over Texas

By The Associated Press

Clear skies over all of Texas except parts of the Gulf Coast Thursday cancelled threats of flooding which loomed a day earlier.

Streams in West and Central Texas dropped after running bankfull or higher from downpours Tuesday and Wednesday.

The death toll from accidents in which the bad weather figured reached nine Wednesday with word of the death of K. C. O'Neil, 35, of Haskell, in a car-truck collision near Waller, Tex.

Officials of the Lower Colorado River Authority said they ordered floodgates opened in the authority's six dams on the Colorado above Austin after heavy rains upstream.

The river is expected to run bankfull for several days, but no damage is forecast.

The cold front which touched off the rains moved over the Gulf of Mexico Wednesday, concentrating moisture over South Texas.

Victoria caught 2.56 inches, Beaumont 2.31, Galveston 1.63, Brownsville and Corpus Christi 1.26 each and numerous other points .10 or less in the 24 hours ending at 6 p.m. Wednesday.

Forecasts call for cloudy skies in South Central Texas, partly cloudy skies over East Texas and fair weather over the rest of the state through Friday.

Raley Rites Set Friday

Funeral services for Clarence G. Raley, 54, who was fatally injured Tuesday morning in a car accident, will be held at 5 p.m. Friday in the Bell Funeral Home chapel. Raley operated the Mesa Motel at Lamesa.

Officiating will be Rev. Milo B. Arbuckle, pastor of the First Baptist Church, Lamesa, assisted by Rev. Jack Dean, pastor of the Northside Baptist Church here.

Interment will be at Temple at 4 p.m. Saturday. The body will repose at the Temple cemetery from 2 until 4 p.m. Saturday.

Survivors include the wife, Mrs. Beatrice Raley, of the home; three daughters, Mrs. Billy Jean Henkell, Big Spring, Mrs. Virginia Dare Bentley, Xenia, O., and Miss Karen Sue Raley, of the home; the mother, Mrs. Allie B. Raley, Big Spring; two sisters, Mrs. Lizzie Harrison, Temple, and Mrs. Virdie Allen, Tyler; and three brothers, Adell, Henderson, Ky., Ira C., Big Spring, and Dellon, Temple.

Five grandchildren also survive.

Active pallbearers will be August Cajaneck, Roy Williamson, George Armstrong, Billy Ray Vernon, Alfred Gilliam and Marshall Ray Surratt.

Rites Pend Here For Mrs. Dixon

Funeral arrangements for Mrs. Jess Dixon, of Post, who succumbed at 7 a.m. today were still pending at noon.

Services will be announced by the Bell Funeral Home.

Martin Rites Set Thursday

Final rites for Mrs. Laura E. Martin, 79, who died at 5 a.m. Thursday in the Snyder Nursing Home, will be held at 2:30 p.m. Saturday in the Ira Baptist Church.

The church's pastor will officiate and burial will be in Ira Cemetery with Bolger Funeral Home in charge of arrangements.

Mrs. Martin was born July 15, 1880, in Mason County, Tex. At the age of 12 she moved with her parents to Scurry County where she resided with the exception of 14 years spent in New Mexico.

Her husband, the late Walter Martin preceded her in death June 19, 1946. The couple was married at Ira in 1900.

She was a member of the Ira Baptist Church.

Surviving her are four sons, Fred of Snyder, Walter E., of Corpus Christi, J. D., Imperial, Tex., and Elmer S., Midland; one sister, Mrs. Evie Van Zant, Spade, Tex., 16 grandchildren and 16 great-grandchildren.

Grandsons will be active pallbearers.

Fire Menaces Settlements

LOS ANGELES (AP)—Sheriff's officers started evacuating residents in the lower end of Arroyo Seco Canyon as a foothill brush fire today moved toward suburban communities north of Los Angeles.

The fire — believed caused by a reckless flip of a cigarette — has covered about 3,000 acres of watershed along a 30-mile perimeter.

The blaze is about a mile from the town of Altadena, north of Pasadena. This was on the southeastern front of the flames.

On the northern perimeter, the blaze made another major breakthrough as it seared 500 acres of a picnic area known as Oakwilde and raced toward Angeles Crest Highway, a major thoroughfare.

Although the winds had subsided in the fire area, prospects for controlling the blaze still were dim.

One county fire captain said: "It looks like it'll take a couple of days at least. We haven't had much rain at all the last few years and I've never seen the brush so dry.

"This stuff doesn't burn—it explodes."

Only a few homes had been damaged since the fire broke out Tuesday along Angeles Crest Highway above the foothill suburb of La Canada. But flames were only a mile or so from other expensive homes today, and a burst of the whismical wind could put them in genuine peril.

Families were standing by for a possible evacuation of Briggs Terrace, an area above the community of La Crescenta and about 15 miles north of downtown Los Angeles.

Several hundred persons, including actor Dennis Morgan, were driven from their homes above La Canada Tuesday night. The $100,000 mansion of contractor Guy F. Atkinson was listed as 50 per cent lost and several other homes were less seriously damaged.

Southeast of La Canada, the fire was headed toward Altedena, above Pasadena, but homes there were not in immediate danger. Flames were about a mile from Caltech's Jet Propulsion Laboratory, but the space research facility was not in jeopardy.

Bureau Eyes Squall Area

MIAMI (AP)—A hurricane hunter plane flew from Guantanamo Bay, Cuba, today to investigate a threatening wave of squally weather spreading from eastern Cuba southwestward across the Caribbean Sea.

The Weather Bureau issued a tentative bulleton on the storm which warned small craft in the western Caribbean to seek safe harbor and remain there until the squalls pass.

Rain and gusty winds were reported over Jamaica and were expected to spread this afternoon over eastern and central Cuba and the Cayman Islands.

Winds of 25 to 35 miles an hour, with gusts up to 45, were reported by ships in the area.

Forecaster Walter Davis said "It looks as though there might be some circulation," but he withheld further comment until after return of the hurricane hunter. If there is circulation, it would mean a tropical storm is developing.

Van Doren 'Distressed' By TV Quiz Show Revelations

NEW YORK (AP)—"I really did not know of the great interest you had in me until yesterday — and here I am today which is as soon as it was humanly possible for me to meet with you."

It was Charles Van Doren speaking. The 33-year-old English instructor appeared in public Wednesday to accept a subpoena to testify Nov. 2 before a House subcommittee.

The subcommittee has heard testimony that NBC's now defunct Twenty-One show, the program on which Van Doren scored heavily, was rigged.

The subpoena, issued last Friday, summons Van Doren to tell how he won $129,000 on 14 appearances in 1956-57.

At a tumultuous news conference, Van Doren said he "was so distressed by the events of the previous days" that he took a week's leave from his teaching post at Columbia University and had been on a trip to New England "to gather my thoughts."

Van Doren, reading from a hand-written statement on yellow paper, apologized for what he called "my apparent aversion" to the press for the last several days.

But he refused to discuss his quiz show earnings in advance of his scheduled appearance in Washington.

Rep. Oren Harris (D-Ark), chairman of the investigation, had charged Van Doren with dodging the subpoena.

But Van Doren said in his statement that the first he knew of the order was Monday night and that he then made himself available.

Smiling but showing traces of nervous strain, Van Doren faced about 100 newsmen and a battery of cameras and microphones as he read his statement.

He said he was distressed last week when NBC suspended him as a $50,000-a-year network consultant pending the outcome of the investigation. He got the job after his TV appearances.

In testimony before a New York County grand jury last year Van Doren denied getting help while a contestant. He repeated this later by telegram to the Washington subcommittee.

However, he declined to reaffirm these statements.

"I must emphasize to you my respect for the United States Congress," he said, "for its duly constituted committees and for its individual members. I feel it would be disrespectful for me to discuss matters which are the committee's concern, other than at the proper time and place."

The committee also plans to hear testimony about CBS's $64,000 Question, first of the big-money quiz programs.

A statement by counsel Robert W. Lishman in Washington that the subcommittee has information that the show was rigged brought a flood of statements from former participants on that program and a companion show, the $64,000 Challenge.

Among defenders of the first show were former contestants Tom Kane of Buffalo, N.Y., and Mrt Power of Buford, Ga.

Kane said, "To my knowledge the shows I appeared on were absolutely beyond reproach." Mrs. Power said, "If somebody had been giving out the answers I wouldn't have stopped at $32,000."

Actor Vincent Price, who appeared on the Challenge, said in Jackson, Mich., that the programs imparted knowledge "regardless of how they were phonied up." He said he had not been coached.

New York bank which said that it kept questions for the $64,000 Question locked in a vault away from the eyes of unauthorized personnel, said that the questions — in sealed envelopes — had been received from the show's producers.

The Manufacturers Trust Co. added in a statement: "We accepted the assurance given us by the program producers and so stated on the telecast that no one, except for the editors, (outside authorities hired to make up questions), had seen the questions before they were placed in our vault."

Convicted Slayer Granted Parole After 22-Year Term

THOMASTON, Maine (AP)—Paul N. Dwyer, 40, who has served 22 years in prison for a murder he contends his jailer committed, was granted a parole today.

The State Board of Probation and Parole voted unanimously after an interview with Dwyer to release the South Paris man when conditions or requirements imposed by the state board have been met in full.

The board said it is not possible to indicate his exact date of release, from the Maine State Prison here.

Gov. Clinton A Clauson and the Executive Council last week commuted Dwyer's life sentence for the 1937 slaying of Dr. James G. Littlefield to a shorter sentence of 28 years and 5 months.

With time off for good behavior, this would make him eligible for release next Monday.

Dwyer went to prison in 1937. A youth of 18, he was convicted of the strangling and bludgeoning of an elderly physician, Dr. James G. Littlefield, in Dwyer's home town of South Paris.

Dwyer pleaded innocent, then changed his plea to guilty and went to prison for life.

Months later, Deputy Sheriff Francis M. Carroll was also brought to trial for Dr. Littlefield's murder.

Dwyer contended Carroll killed the old doctor because the later knew of alleged incest between Carroll and his daughter Barbara.

When Dr. Littlefield's wife began to suspect what happened to her husband, Carroll killed her too, Dwyer told the court. No one has ever been charged in her slaying.

Largely on the testimony of Dwyer, Carroll was convicted and sent to prison for life. But he was freed in 1950 — 12 years after starting his sentence — when a judge ruled he did not have a fair trial. Carroll died three years ago.

WEATHER

SNYDER TEMPERATURES. High Wednesday, 76 degrees; low, 40 degrees; reading at 7:30 a.m. today, 45 degrees.

East and South Central Texas: General fair. Cool this afternoon and tonight. Rising temperatures Friday.

North Central and Southwest Texas: Generally fair and slowly rising temperatures through Friday.

Northwest Texas: Generally fair through Friday. Warmer this afternoon and tonight.

West Gulf: Northerly winds 20 to 25 m.p.h. over most of north and west portions this afternoon and southeasterly winds 10 to 20 m.p.h. elsewhere shifting to northerly 20 to 25 m.p.h. tonight. Winds diminishing over north Friday. Scattered showers mainly in south.

TEXAS GOVERNOR AT HIGH COURT — Gov. Price Daniel of Texas stands outside the U. S. Supreme Court in Washington, D. C., where he presented Texas' claim to ownership of the oil-rich submerged offshore lands seaward to a line three leagues, or 10½ miles from the coast. Other gulf states are entering similar claims. The Federal Government contends they are entitled only to underwater land to a three mile line. (AP Wirephoto)

Tideland Hearing Nears Conclusion

WASHINGTON (AP) — Arguments before the Supreme Court on whether the government or five coastal states of the South can lay claim to rich submerged lands in the Gulf of Mexico neared a conclusion today.

Final presentation of the states' case was to be made by Florida Sen. Spessard L. Holland (D-Fla.). The court already has heard from spokesmen for Texas, Louisiana, Alabama and Mississippi.

The states are disputing a government move to have the court declare that their seaward boundaries extend only three miles from the Gulf shore. The states claim three leagues, or about 10½ miles.

At stake are extensive royalties for oil taken from the submerged lands.

Florida cites two reasons for its claim to three leagues. The first is that its historic seaward boundary in the Gulf has been six leagues since pre-Revolutionary days—when George III of England claimed all the islands within six leagues of the mainland around what is now the Gulf Coast.

Alabama and Mississippi join in this contention. Texas makes a claim under its boundaries as an independent nation, and Louisiana claims its boundaries were included in its act of admission to the nation.

Florida's second claim—mentioned briefly by Holland shortly before the court recessed Wednesday—is that a three-league maritime boundary was approved by Congress in 1868.

Congress in 1953 passed the Submerged Lands Act. Among other things the act gave all coast states title out to the three-mile mark. It also gave Gulf Coast states the right to prove claims to a wider area. In this connection the act mentions historic boundaries of states prior to or at the time of admission or boundaries approved by Congress.

A government contention, however, is that the national boundary, under a policy of 150 years, is only three miles and that no state boundary can extend beyond that boundary.

Grass Fire Put Out

One truck and driver from the Snyder fire department made a four mile run on the Hermleigh road about 4 p.m. Wednesday to extinguish a roadside grass fire that threatened to spread into a nearby field.

Few Strikers Have Source Of Income

PITTSBURGH, Pa. (AP)—The half-million striking steelworkers who haven't picked up a pay check in 13 weeks are a strike-wise, resourceful lot, but their financial positions worsen as the 83-day-old dispute lengthens.

What sources of income do they have? For the great majority the answer is "none."

Many of the family men in the area "will cannot long go to start building up a cash reserve months before contract time rolls around. Then they try to stretch the reserve during the work stoppage.

A few — a very few — are fortunate and find part-time jobs.

In New York state, a big exception, striking workers are eligible for unemployment benefits.

But New York is the only state with such legislation. For the most part the workers are shifting for themselves. The United Steelworkers international has no strike fund; it pays the workers no benefits.

Some of the union locals, with healthy reserves, make a stab at caring for proven hardship cases. In most of those cases the locals buy food in wholesale lots and distribute it to the needy.

Other locals attempt to pay medical and fuel bills for those in dire need. But there is no fixed program that provides any assured income for all the strikers.

In some states — Pennsylvania, for example — workers can qualify for public assistance and government surplus food if they can prove they have exhausted all their savings and other assets.

But for the most part the half-million striking steelworkers are living from day to day, either dipping further and further into savings or else creeping deeper and deeper into debt.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS: Jerry Scrivner, Dermott; Helen Wadleigh, 3305 West Fortieth; Hester Moore, Route 2; Lida Hardy, Route 3; Luther Bates, Hermleigh; Pamela James, Ira; H. M. Lofmax, 2805 Avenue O; Thadene Harless, 2701 Avenue L; Helen Allen, 2801 Thirty-eighth Street.

DISMISSAL: Mrs. Floyd Chapman and baby, Mary Eatmon, Mrs. John Carl Jones and baby, Joyce Browning.

Taxi Driver Gets Mail

TAOS, N.M. (AP) — Octaviano Lucero, who drives the one taxi in this art colony town, is receiving reams of mail from cab drivers throughout the country—and he doesn't like it.

Lucero was the subject of an Associated Press story some time ago. It told of his easy-going life and his enjoyments in running errands for people and taking them on odd little trips in the area.

The letters from cabbies across the country say the taxi drivers are thinking of coming Taos because it sounds like quite a life.

What they all want to know is "Is there room for another hackie here?"

Lucero has requested the paper, which originally printed the story, to insert the following: "Definitely no—do not come to Taos. Business is very bad, weather is terrible, people are ill-tempered, women are homelier than sin, tips are nil, bars close early, hack licenses are hard and expensive to come by, mountains and hills eat up gas and oil, dogs are unfriendly, and anyway, Taos is considering seceding from the Union."

He suggests trying Hawaii or Alaska instead, and hastens to explain to the Chamber of Commerce that "sometimes one must enlarge slightly to make a point—if one is to eat."

Santa Catalina Island, discovered off the coast of California in 1542, was long a base for smuggling and piracy.

Another Radiation Hazard Reported

By RENNIE TAYLOR
Associated Press Science Writer

BERKELEY, Calif. (AP) — Another potentially deadly radiation hazard for space travelers was reported today by researchers who sampled the upper air of the arctic region with instrument-carrying balloons.

During periods of solar flares the investigators found that the top of the earth's atmosphere near the polar region was showered with stupendous bursts of cosmic rays.

This radiation was 10,000 times, 40 times above normal, said Dr. Robert A. Brown, physicist, and Ray D'Arcy, graduate student, of the University of California.

Dr. Brown made his report after returning here from College, Alaska, where the balloon flights were made. Cosmic rays are more intense in the polar areas because they encounter less interference there from the earth's magnetic field.

The experimenters put up a balloon immediately after the University of Alaska detected a solar flare. A solar flare is a sudden brightening of the sun's surface in the vicinity of a sun spot.

Ten hours later the balloon instruments recorded the beginning of the cosmic ray storm. The number of rays increased for 24 hours, then decreased slowly for about four days.

Cosmic rays are essentially protons or cores of hydrogen atoms traveling almost as fast as light and with energies in the billions of volts. When they hit nitrogen atoms in the air they produce high energy X rays and other phenomena. The investigators noted a simultaneous increase in X rays.

A few days later there was another solar flare and another cosmic ray storm. As Brown and D'Arcy were preparing to leave Alaska there was still another.

During all these storms there was no increase in cosmic ray activity below the 50,000-foot level. Dr. Brown said there have been only five recorded instances of a detectable increase in radiation at the earth's surface due to solar activity.

But if, as Brown's observations indicate, these storms can occur every time there is a solar flare, then they are likely to constitute a life hazard for space travelers.

Two Automobiles In Collision Here

A non-injury accident in the 100 block Twenty-fifth Street, late yesterday afternoon involving the 1955 Chevrolet four-door driven and owned by Coy Wayne Hall, 411 Thirtieth Street, and the 1957 Ford two-door driven and owned by Warren Lacey Boles, 1810 Scott, was investigated by Snyder police.

Both vehicles were westbound at the time of the accident, the police reported.

The Hall car incurred an estimated $100 damages and the Boles car about $200.

Abducted Girl Is Found By 'Copter

NEW ORLEANS, La. (AP)—A Coast Guard helicopter found a wet and shocked 9-year-old girl in a swampland eight hours after a furloughed mental patient abducted her in his car.

Ernest Bordenave Jr., 22, of suburban Gretna said he did not know why he picked up frail Lona Anne Robertson on her way to school in Gretna Wednesday. Police charged him with kidnaping, battery, and molesting a juvenile.

Board Asked To Spare Life Of Slayer

AUSTIN (AP)—A large group of relatives and friends asked the Pardons Board today to spare Richard McGee, 35, from the electric chair.

Those appearing at the clemency hearing included his mother, Mrs. H. H. Stull, and sister, Mrs. A. C. Holcomb, both of Pampa.

Others from San Antonio, Borger and Denison appeared as friends of the condemned man.

McGee was convicted of the July 7, 1948, pistol slaying of Lubbock grocery executive R. L. Allston at the back door of the Allston home. An argument over McGee's determination to marry Allston's teen-age daughter, Betty Jane, preceded the shooting.

A jury found McGee sane at the time of his conviction. The death sentence was approved by the Court of Criminal Appeals.

Later the Court of Criminal Appeals ordered a special sanity hearing for McGee after attorneys presented physicians' affidavits claiming that McGee was insane when they visited him in the death row at Huntsville.

The sanity hearing started in Midland but a mistrial resulted when a juror became ill and it was transferred to El Paso. The El Paso jury found McGee insane Nov. 22, 1951, and he was sent to the state mental hospital at Rusk. Later he was declared sane and freed but with the death sentence still pending.

The hearing was at 10 a.m.

Police On Lookout For Missing Auto

Snyder police Wednesday night were alerted to be on the lookout for a maroon 1951 Studebaker four door sedan bearing license number BX6715.

The message was radioed here by the Denver City, Tex., police department.

Reserve District No. 11 — State No. 1805

Report of Condition of West Texas State Bank of Snyder at the close of business October 6, 1959, a State banking institution organized and operated under the banking laws of this state and a member of the Federal Reserve System. Says Krush Trip Changes Soviet Line

By LEWIS GULICK

WASHINGTON (AP)—U. S. propaganda chief George V. Allen said today the Communists have changed their line of attack against capitalism because of what Soviet Premier Nikita Khrushchev discovered on his trip to the United States.

Allen, head of the U. S. Information Agency, said the Communists now admit capitalistic production is abundant, but wasteful.

In a speech prepared for a meeting of the Public Relations Society of America, Allen said, "I don't know whether Mr. Khrushchev liked what he saw in the United States or not. But in the future, it won't be quite as easy for him to believe some of the nonsense about America projected to the world by his own propaganda mechanism."

"Soviet propaganda has held that under American capitalism the poor were constantly getting poorer. Since the Khrushchev visit this line already has changed.

"Now, Moscow admits that capitalism produces an abundance for the masses. The trouble with capitalism, we are now told, is that it is wasteful—that socialist planning will also bring abundance but with less waste of effort and of natural resources."

"What Khrushchev and his companions saw for themselves in America seems to have already exploded some of their preconceived notions about this country."

Allen, who heads the U.S. Information Agency, figured the reverse on changing notions may happen with visits by American officials to the Soviet Union. While the Americans may still dislike the Soviet system after seeing it first hand, he said, they may find more realistic grounds for opposing it.

Over all, Allen calculated the Soviet Premier's 13-day U.S. visit last month as a gain not only in opening the Kremlin's eyes but also in exposing Khrushchev to public questioning by Americans and by reminding Americans about their own democratic heritage.

About five miles south of Cimarron, N. M., is a 127,000 acre national camping center for Explorer Scouts.

Some tree roots on a lawn spread out as much as three to five times the diameter of a tree's crown.

HOT BISCUITS—Cheese or plain, with caraway or poppy seeds or herbs — all taste good with honey and butter. There is no end to ways to fix home-made biscuits. Varying the shapes adds eating pleasure.

These Easy Biscuit Tricks Sure To Please The Family

Big ones or small, the men in your life seem eternally hungry, don't they? They love good things baked for them, like piping hot biscuits over and over again. What's nice, biscuits can be easily made different ways and at low cost too.

In fact, a leading flour company has placed hints galore for biscuit tricks in the Gladiola Flour bags now in the stores. For instance, to fix Herb Biscuits, add a half teaspoon of basil or tarragon to the flour mixture in making the biscuit dough.

For cheese-delectable biscuits, add a half cup of grated cheese to the flour. As a change, assort the shapes by cutting the biscuits in squares, diamonds, rectangles or "sticks", with a sharp knife.

Homemakers in the South make more biscuits per family than in any other section of the nation and like lots of variety. Homemade biscuits cost just pennies. It's no wonder Southwest families fare so well. Knowing this, the flour company has sent along some other quickie biscuit ideas to share here.

Fashion a biscuit ring, rolling some poppy seed or celery seed into the dough. Rather lavishly sprinkle seed on top and bake — some will get lost. Serve up with chicken a La king in the center of the hot biscuit ring.

Butterscotchy biscuits are fast-fix delights. Just dip unbaked biscuits into melted butter or bacon fat, then into a mixture of half brown, half powdered sugar and bake. Eat hot or cold, but watch how hard it is to hang on to a few until they cool.

Chopped pecans give biscuits glamor. Sometimes use chopped dates or the fruitcake mix now returning to the groceries. And, these Fall days, do have apple cobbler made with rich biscuit dough and the new crop apples.

Biscuit toppings stretch and dress up many a dish. Beef stew looks beauteous with tiny biscuits giving lots of crust and letting the gravy bubble up through. Creamed tuna may call for regular biscuits, chili con carne or has for a full round of biscuit crust on top or individual ones. Try adding a bit of minced onion or celery leaves to the biscuits to give eating surprise.

When it comes to "sopping up" gravy, hot biscuits surpass all for catching and carrying the good meat gravy we all love to eat. Some favorite "sopping dishes" are ham and red eye gravy, fried with a touch of chili powder added to the gravy and roast pork with onion in the brown gravy.

All in all, using biscuits often in a variety of ways keeps the men thinking about how grand biscuits taste, you are, and home is.

Baby Clothing Needed For Jaycee-ette Project Now

The Snyder Jaycee-ettes met for their regular monthly business meeting Tuesday night at the community room of the Snyder National Bank. Mrs. Jerry Edwards presided.

The club voted to send cash donations to the State Mental Hospital at Big Spring and the Camp Sweeny Diabetic Foundation. They also voted to buy leatherbound note books to be used as Jaycee-ette year books. These will be given to members and at the end of active membership can be sold back to the club.

Another big project coming up for the club soon will be replenishing the baby layettes at Cogdell Hospital. If any person has useable infant wear they would like to contribute they are asked to call HI 3-4593, HI 3-5118 or HI 3-9877. The ladies will be happy to pick the articles up.

Eight members and one guest, Mrs. Lee Mixon were present. The hostess, Mrs. John Jarrell, served coffee, cokes and chocolate brownies.

HOLLANDAISE

INGREDIENTS: ¼ pound (½ cup) butter, 3 egg yolks, 1 tablespoon strained lemon juice, salt.

METHOD: Divide butter into 3 pieces. Put 1 piece in deep heat-resistant glass mixing bowl with egg yolks and lemon juice. Place bowl in a skillet of hot (not boiling) water over very low heat—water must not boil. Beat with a whisk until butter melts; add second piece of butter and continue beating as mixture thickens. Add third piece of butter and whisk until combined. Remove sauce from heat and water the moment all the butter is incorporated and it is very thick. Serve at once. Makes about ¾ cup sauce—enough for 4 servings of broccoli.

SQUASH

INGREDIENTS: 2 medium-sized butternut squash (about 1 pound each), ½ cup boiling water, ¾ teaspoon salt, 3 tablespoons butter or margarine, 1 tablespoon lemon or lime juice, ½ teaspoon grated lemon or lime rind.

METHOD: Pare squash; cut in half lengthwise; scoop out seeds. Dice into 1-inch pieces. Cook rapidly, covered, with boiling water and salt just until tender—about 10 minutes. Drain well if there is any liquid left; shake over heat to dry. Add butter; sprinkle with lemon juice and rind; mix gently so as not to break up. More salt may be added if needed; pepper and sugar may also be added for seasoning. Makes 6 servings.

IRA NEWS

By AVA MORAN

Connie Sue Byars spent Sunday afternoon with Karen Bailey of Snyder.

Sunday guests of Mr. and Mrs. E. E. Grant were, Mr. and Mrs. Elza Grant, Dean and Darrell, Mr. and Mrs. Don Grant, Jerry Patricia and Gary, all of Snyder.

For the men in your life

There may be fifty years between you, but everybody knows his best girl is Grandma. Spoil him? Not you.

No harm, though, in baking some biscuits when he drops by to see you. And fixing them up with plenty of strawberry jam.

The only reason they call this a "man's world" is because there are women in it. Women who know what a man wants—and when. Little things like biscuits count big, and Gladiola Flour helps you make 'em perfect every time.

Ask your dealer for Gladiola's free leaflet —"New Biscuit Tricks"—tasty variations with fruits, herbs, cheese, preserves.

Our part of the country is famous everywhere for its delicious biscuits. Ever wonder why? Well, remember that women around here use far more Gladiola Flour than any other brand.

They'll be Glad you're going steady with Gladiola Flour

"FREE OFFER! Mail this today"

Here's how to get **FREE** any size jar of your favorite **JAM, JELLY OR PRESERVES** costing 33¢ or less

(Offer limited to one coupon per family—expires Jan. 15, 1960)

FANT MILLING COMPANY • SHERMAN, TEXAS

I enclose one red strip reading "FOR THE MEN IN YOUR LIFE" clipped from the front of a Gladiola Flour PAPER bag.

Priest Fights For Prison Barracks

DACHAU, Germany (AP) — A Catholic priest is battling to preserve Dachau concentration camp as a macabre memorial to inhumanity.

The West German government is planning to tear down 29 of the 34 prison barracks. It would furnish the remaining five as they were during the Nazi era as a warning example of inhumanity.

The Rev. Leonard Roth thinks that isn't enough. He wants to keep intact the crematory, where thousands of victims were reduced to ashes, the cold water experiment chambers where hundreds died agaonizing deaths, and the autopsy room.

"The people that come here don't want to see monuments," he says. "They want to see the way it really was, the guard towers, the graves and the crematory. They should be able to convince themselves: 'That's the way it was.'"

The crematory, which stands apart from the main camp in a small park, attracts the most visitors. About 3,000 persons, mostly foreigners, visited it daily this summer.

Among the visitors often are former inmates and relatives of those who died here.

A sign over the entrance to the crematory says "No Guided Tours." None is necessary. The people who walk through the room with its four ovens, through the shower room and the morgue whisper when they speak. A gruesome atmosphere still shrouds the place.

Although signs everywhere say "Don't Write on Walls," inscriptions of names and bitter accusations are scratched into the walls in many languages. There is a huge star of David with the words "Lest we forget."

"Near the crematory are the graves of the victims. Camp officials told U.S. authorities after the war that 25,000 persons had died at the camp — from disease, hunger or torture. But committees of former inmates feel the figure is near 40,000.

Today the camp buildings are occupied by nearly 2,000 refugees from communism. Father Roth is their chaplain. The refugees are shortly to be moved to a new housing development.

Vegetables Good Buys

By The Associated Press

Potatoes, onions, green beans, carrots, celery, apples, turnips and bunched greens—the basic foods of the dinner table—are in abundant supply and reasonably priced this week.

Cabbage, grapefruit and oranges are slightly lower than a year ago, reports the Agricultural Marketing Service.

A larger volume of Texas lettuce is moving into markets. Shipments from Arizona, California and New Mexico also have increased and lower wholesale prices are expected to be reflectd in consumer sales by the end of the week.

Red potatoes from Colorado are in better supply this week and prices a shade lower.

Some reduction in cost of bananas should appear in the next few days as dock workers are back on the job at Gulf ports.

Eggs, especially large Grade A offerings, are down from a week ago in most areas.

Broilers and all pork cuts remain plentiful and are featured at attractive prices throughout Texas.

The earliest cigarette-making machine was patented in the 1870s.

Frozen Continent Treaty Is Sought

WASHINGTON (AP)—Representatives of 12 nations open an antarctic conference today to negotiate a treaty which would bar military armaments and installations from the vast frozen continent around the South Pole.

Secretary of State Christian A. Herter was scheduled to welcome the conference delegates.

President Eisenhower initiated the antarctic treaty project last year with a proposal that all countries directly interested in the south polar region should negotiate in accord to minimize international friction there, assure cooperation, scientific research and exploration, and dedicate the region to peaceful purposes.

His proposal was an outgrowth of cooperation during the International Geophysical Year — a year in which countries joined in sharing a vast store of scientific knowledge about the earth.

The 12 nations now meeting here include the Soviet Union along with the United States, Britain and France.

American officials are optimistic about the prospects for the meeting's success. The chief reason is that Antarctica is so remote that it does not involve immediate security interests.

Officials expect the conference may produce an agreement not only that Antarctica be committed to peaceful uses but also that an international inspection system should be organized to make sure that all the treaty countries live up to this pledged.

Such an inspection system could prove to be a pilot project for working out the more complicated problem of inspection on the territories of the great powers in connection with any future disarmament agreement.

In addition to the Big Four, the countries participating are Argentina, Australia, Belgium, Chile, Japan, New Zealand, Norway and South Africa.

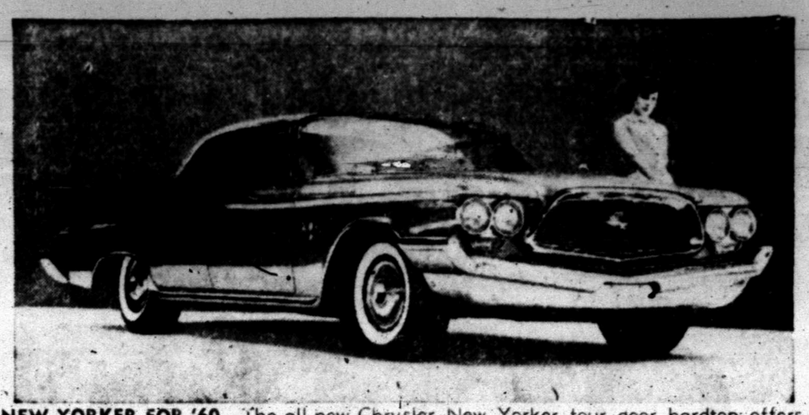

Says Lobby Aids Speaker

HOUSTON (AP) — State Rep. Bob Eckhardt said Wednesday night the winner of the race for Speaker of the House in the Legislature always has the support of major lobbyists and appoints committees that do not truly represent the House.

"All candidates for speaker, no matter how they start their candidacies, always turn up in the camp of the spoilsmen," he said. "This is because they have received financial support from the most active lobbies—the lobbies which are most afraid of new taxes."

Eckhart said during the last session House committees did not truly represent the views of the House on most issues.

"The worst result was that whenever House and Senate versions of a bill varied, the House members of a conference committee represented the views of the Senate and not the views of the House," he said.

NEW YORKER FOR '60—The all-new Chrysler New Yorker four door hardtop offers more headroom and legroom. Its advanced styling is in the tradition of the Chrysler 300, with massive air-scoop front grille and a minimum of ornamentation.

Pollard To Show Chrysler For '60

Pollard Motor Co., 2101 Twenty-fifth Street, will show the 1960 Chrysler automobiles here tomorrow.

The showing in Snyder will be held simultaneously with displays by Chrysler dealers throughout the nation.

C. E. Briggs, Chrysler Corporation vice president and general manager of the Chrysler and Imperial Division, described the new models as "completely new in styling, the quietest operating cars ever built and the roomiest inside since 1956."

"Unibody design and construction have enabled our stylist to create a beautiful low silhouette and at the same time give passengers even more room inside than we have had in the past three years," he said. 'We think interior roominess, seating comfort and ease in entrance and exit are going to be tremendously important factors in the sale of cars this year and in the years ahead. Our 1960 models were designed with this in mind."

Briggs said Unibody construction in which the body and frame is integrated into a single unified structure, together with a new seven-stage rustproofing process, give assurance of greater durability and lower maintenance costs.

He said the 1960 models are styled in bold, uncluttered lines inspired by the Chrysler 300 series. The shape of the grille opening resembles that of Chrysler's recent model high performance cars. Body sculpturing and trim emphasize length and lowness, with restraint in the use of chrome.

Hardtop versions of Chrysler Town and Country wagons are offered for the first time and Chrysler's Flight-Sweep deck lid, with a simulated spare tire mount, is available as optional equipment.

Unibody construction has made the new cars significantly quieter, structurally safer, and more roadable than ever before, he said. A lower floor has provided more leg room in both front and back seats. Sills, fenders and all other structural underbody parts of new Chrysler receive a unique new rustproofing treatment consisting of a seven-stage body dip process which improves rust protection by 500 per cent.

Appeal For Negro Set

BROWNSVILLE, Tenn. (AP) — Defense attorneys for Willie M. Jones, Negro tenant farmer convicted of murdering a sheriff, are preparing an appeal for a new trial.

Jones was sentenced Wednesday to 20 years and a day by the white male jury that many had predicted would set a death penalty.

It was the minimum sentence on a first-degree murder conviction.

Chief defense counsel George McCormick said he would appeal "all the way to the U.S. Supreme Court if necessary."

Jones did not deny he killed Sheriff J. S. Hunter; he said he shot in self-defense.

Testimony showed the 67-year-old sheriff approached Jones' home with a warrant. The prosecution said Hunter identified himself. The defense said he failed to do so and that he cursed and threatened Jones. The warrant was actually for another Jones.

Jones fired a shotgun through the rear screen door of his home. Hunter died instantly.

Jones becomes eligible for parole after serving 11 years and a month.

Alice Lon Scores Hit In Night Club

By JAMES BACON
AP Movie-TV Writer

HOLLYWOOD (AP)—Alice Lon, cheered by most everybody in the Lawrence Welk band but the bubbly maestro himself, made her solo night club debut Wednesday night in the plush Cocoanut Grove.

The onetime Champagne Lady, who was bubbled out of the Welk group three months ago, was bothered with a touch of laryngitis but sang well—and scored a hit with the near-capacity house.

She said later that Welk didn't even send a wire of—congratulations but added: "My room is filled with flowers from almost everybody else in the band."

Many of them were on hand—from trumpeter Rocky Rockwell to the Lennon sisters — to give Alice a rousing sendoff.

There had been advance reports that Alice would kick off her shoes and deliver a sexy saloon act but such was not the case. She didn't have Lawrence dancing the polka with her but otherwise the act was pretty much the same that endeared her to TV fans for the five years she sang with Welk's band.

Rockwell, not seen on the Welk show for the last three weeks, denied reports that he is the latest casualty of Welk's purges.

"I'm just on leave of absence," said the gravel - voiced singer.

Sight New To Woman

SEATTLE, Wash. (AP)—What is it like to see again after being nearly blind for 42 years?

"It's like a bright streak of lightning. It's all so new."

The words were those of Mrs. Duane Vincent, 45, whose eyesight may have been restored through the thoughtfulness of a young boy.

Mrs. Vincent underwent a corneal transplant two weeks ago. Doctors say it may be several months yet before it is known whether the operation is a complete success.

The corneas were from the eyes of Bobby Jenness, 12, who died Sept. 30 in a traffic mishap. He and other members of his family had willed their eyes to an eye bank only three months before Bobby was killed.

Mrs. Vincent left the hospital Wednesday. Her first wish was to see Bobby's mother Mrs. William S. Jenness.

The two women embraced emotionally, then traveled to Mrs. Vincent's home together where they spent some time talking, mostly about Bobby.

Although doctors cautioned that it will be months yet before they can be sure her eyesight is completely restored, Mrs. Vincent said she can tell the difference already.

Youth Takes Police Car

ARLINGTON (AP)—Police here used all but one squad car Wednesday night in a search for a stolen automobile.

They didn't use the car normally driven by patrolman Bassell Honeycutt because it was the object of their search. Honeycutt reported it disappeared while he left the vehicle momentarily to be sure a store was locked.

Officers conducted the hunt with the feeling somebody must be eavesdropping. The radio in Honeycutt's car was tuned to receive every syllable uttered by police dispatcher Wayne Wallar.

Ellis County sheriff's officers radioed about an hour later they had the plainly marked police car in custody along with an Arlington 16-year-old. They nabbed him south of Waxahachie.

Nuclear Arms For Europe Opposed

By JACK BELL

WASHINGTON (AP) — A proposal that the United States arm its Western European allies with nuclear weapons was opposed today by two influentail Democratic senators.

The proposal was one of several made in a report presented Wednesday to the Senate Foreign Relations Committee by a private study group. The suggestions will be considered by the committee in making its own recommendations next year on the future of U.S. foreign policy.

Senators Hubert H. Humphrey (D-Minn) and Mike Mansfield (D-Mont) also disagreed with a suggestion that this country send another division of ground troops to Europe as a token of its intent to strengthen NATO defenses.

Humphrey said the report, prepared by the Foreign Policy Research Institute of the University of Pennsylvania, represented "wishful thinking."

Sen. J. William Fulbright (D-Ark), chairman of the committee, previously had commended the report as a "hard-boiled view of the immediate and potential dangers confronted by Western Europe." But he said it did not necessarily reflect members' views.

Humphrey, who heads the Senate Disarmament subcommittee, said, "If we start passing nuclear weapons around, the Russians will be under great pressure to do the same thing. They might even pass them to China and in my opinion that would be a tragic development."

The report argued that the nuclear arming of U.S. allies would [illegible] spot with their untrustworthy satellites. But Mansfield said in a separate interview he thinks exactly the opposite would be true.

"We would be on the spot, instead of the Russians, for spreading nuclear armament," he said. "Any such proposal as this could be examined very questioningly before Congress changes its directives for disposal of such weapons."

TODAY'S MARKETS

FORT WORTH (AP)—Hogs 200, steady; mixed 13.00-14.00.

Presenting the completely new

CHRYSLER 1960

The car of your life for the time of your life!

There have never been so many new advances . . . in any single year . . . as there are in the new Chrysler for 1960.

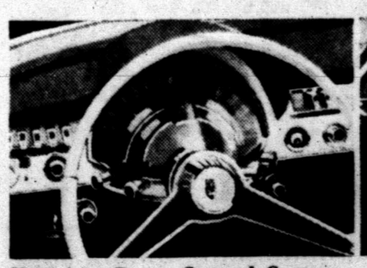

New Ideas in Styling. Bold, strong grille. Graceful rear deck. Clean lines sheathed in Lustre-Bond . . . the hardest automotive finish known.

New Ideas in Convenience. Chrysler offers *automatic* Swivel Seats . . . pushbutton controls. Three-dimensional AstraDome houses instruments.

New Ideas in Comfort. The driver's seat has been raised . . . padded with extra foam rubber. There's more leg, knee, hip and head room.

New Ideas in Reliability. Body and frame are built as a single, rattle-free Unibody. Stronger, quieter, roomier. A new dipping process locks rust out of vital areas.

Get touching close to this new Chrysler soon. Compare its fresh beauty with other cars. See how Chrysler has actually built in *more* room while other cars continue to be cramped. Then take it out on the road and have the time of your life!

New AstraDome Control Center. Three-dimensional dome projects instruments toward the driver . . . makes them easy to read. At night, new Panelescent lighting gives reflection-free illumination.

This new Swivel Seat is Automatic. Open the door and the seat swings out to greet you *automatically.* When you leave the car it *automatically* swings inside. Chrysler's High-Tower seat adds driver comfort.

This is Chrysler's greatest . . . lion-hearted

Queen Deplored Edward's Action

By EDDY GILMORE

LONDON (AP)—The late Queen Mary told the Duke of Windsor that in abdicating for the love of twice - divorced Wallis Warfield Simpson, "you did not seem able to take any point of view but your own."

A secret letter that the old Queen wrote her son 18 months after his abdication as King Edward VIII in 1936 was disclosed today with the publication of her [illegible] biography. She died at 85 on March 24, 1953.

"You will remember," the widow of King George V wrote their eldest son, "how miserable I was when you informed me of your intended marriage and abdication and how I implored you not to do so for our sake and the sake of the country.

"I do not think you have ever realized the shock which the attitude you took up caused your family and the whole nation.

"It seemed inconceivable to those who made such sacrifices during the war that you, as their king, refused a lesser sacrifice.

"My feelings for you as your mother remain the same and our being parted and the cause of it, grieve me beyond words.

"After all, all my life I have put country before everything else, and I simply cannot change now."

Edward went into semiexile and married the Baltimore-born divorcee after his dramatic broadcast that he could not carry on as king without "the woman I love." His reign lasted less than 11 months and he was succeeded by his younger brother, the Duke of York, father of Queen Elizabeth II.

Four Americans Are Quizzed In Slayings

MONTERREY, Mex. (AP)—Police say they have picked up four Americans and are questioning them in the deaths Monday of a Monterrey girl and her brother.

Police here said two Americans were arrested in San Antonio, Tex. Police and FBI authorities in San Antonio, however, said they did not know of any such arrest.

Local police said two other Americans were picked up at Miguel Aleman in Atmaulipas.

Marta and Juan Manuel Perez Villagomez, 21, and 14, were shot to death while sitting in their stalled car beside the highway near Sabinas Hidalgo, between Nuevo Laredo and Monterrey.

A sister, Hilda, 18, was seriously wounded but was able to give police here an account of the shooting.

Gene Tierney Is New Clerk

TOPEKA, Kan. (AP) — "I was so thrilled I didn't really know what I was buying," said one flustered patron after dealing with a new clerk at a Topeka dress shop.

"She's so nice and patient," said another. "I don't see how she can do it after being a famous actress."

"She" is actress Gene Tierney, star of some 30 movies, former wife of famed dress designer Oleg Cassini and once one of Aly Khan's girl friends.

Miss Tierney, 37, is an outpatient at the Menninger Foundation, a psychiatric center where she spent eight months for treatment of mental illness last year.

She began working in the dress shop about 10 days ago. She personally applied for the job, and the shop manager, D. L. Talmage, said he understood the work is part of her therapy.

Miss Tierney had nothing to say. She wouldn't permit an interview nor pose for photographers. Talmage wouldn't say how much he is paying her and he wouldn't allow newsmen to interview other clerks. The Menninger Clinic never discusses its patients.

The name of jai-alai, the Spanish game, means "happy festival" in the Basque language.

First pulpwood for a new paper mill in Catawba, S.C., was bought from nearby Neely's Creek Presbyterian Church. Members of the church harvested the pulpwood in order to enlarge their cemetery.

Junior Editors Quiz on FOOD

QUESTION: Where did the eggplant get its name?

• • •

ANSWER: The earliest explorers of South America found a large purple vegetable growing on bushes in the tropical areas of the continent. Since it was shaped like an egg they called it an eggplant.

For a long time, the eggplant was thought to be poisonous. It has only been in the past 100 years that it has grown popular as a food. It is particularly popular among people who are dieting because it contains few calories.

Eggplants now are grown in many warm lands. In some temperate countries where the warm season is short they are cultivated in greenhouses. It takes nearly four months for an eggplant crop to ripen.

• • •

FOR YOU TO DO: The next time your mother goes shopping for groceries, ask her to get you an eggplant. Study it. Try to make a drawing of it with your colored crayons.

• • •

(Linda Sue Henton of Moberly, Mo., wins $10 for this question. Send your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will select the winner.) 10-15

Ike Applauds Newspapers

WASHINGTON (AP)—Zeal and accuracy in the nation's newspapers are needed to "make history move steadily forward in the direction of freedom and justice," President Eisenhower says.

In a statement issued for the 20th annual observance of National Newspaper Week, which begins today, the President said: "Your newspaper—freedom's textbook" is a "fine theme for this year's observance. To me, it stands for the hopes and achievements of American journalism.

"As our editors report the daily affairs of their communities with zeal and accuracy, they help to supply our citizens with the lessons of history, together with the information which is required to make history move steadily forward in the direction of freedom and justice.

"I am delighted to add my best wishes for the success of National Newspaper Week."

LEGAL NOTICE

CITATION BY PUBLICATION
THE STATE OF TEXAS

TO: PATRICIA ANN THOMPSON, Snyder, Texas Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Scurry County at the Courthouse thereof in Snyder, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 23rd day of November A. D. 1959, to Plaintiff's petition filed in said court, on the 18th day of June A. D. 1959, in this cause, numbered 7698 on the docket of said court and styled J. L. THOMPSON Plaintiff, vs. PATRICIA ANN THOMPSON, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Divorce as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates here and make due return as the law directs.

Issued and given under my hand and the seal of said court at Snyder Texas, this the 6th day of October A.D. 1959.

Attest: (s) Eunice Weathersbee, Clerk District Court
Scurry County, Texas.

People In Desert See Secret Tests

By RALPH DIGHTON

BORON, Calif. (AP)—The people of this Mojave Desert town can look out their windows and watch the testing of some of America's top-secret new missiles.

Three miles away are the lauching pits for Minuteman, the solid-fuel intercontinental ballistic missile designed for launching even under nuclear bombardment.

Hanging from a nearby cliff on a 700-foot outcropping known as Rocket Ridge are huge concrete emplacements used for test firing the operational Atlas ICBM.

Soon to be built on this ridge is a monstrous structure of concrete and steel in which clusters of four 1½ - million - pound - thrust engines can be set off. These clusters compare with the Atlas' 260,000 pounds. They will power some of America's future space probes.

Rocket Ridge is the heart of an Air Force facility taking up a fifth of the Edwards Air Force Base 300,000 acres. The dusty mining town of Boron lies just beyond the boundaries of Edwards.

A close look at the Minuteman site shows the concrete-lined silos are covered with metal lids which run back and forth on tracks. Under combat conditions these lids, which now serve mainly to keep sand and rain out of the pits, would be replaced by bombproof slabs.

Fanning out from the silos are cleared strips of ground where the spent shell of the missile can fall without damaging ground support equipment.

Trainmen Postpone Strike On Frisco

SPRINGFIELD, Mo. (AP)— A strike of 2,100 trainmen against the Frisco, scheduled for Monday, will be postponed to permit mediation proceedings, a company official says.

Lewis Menk of Springfield, Frisco general manager, said Wednesday he had been told of the postponement by W. P. Kenpedy of Cleveland, president of the BRT.

Girl Confined For 2 Years

PHOENIX, Ariz. (AP) — A 7-year-old Phoenix girl, suffering from severe malnutrition, was in the county hospital today after spending the last two years locked in a small bedroom.

Bonnie Marie Shelton weighed only 28 pounds. Doctors said she should weigh about 55 pounds.

Her mother, Ruth Shelton, 31, arrested on a tip from a relative, was charged with contributing to the delinquency of a minor. Officers indicated additional charges may be filed later.

Juvenile officer Philip Morgan said Mrs. Shelton admitted keeping her daughter locked in the bedroom. He quoted her as saying the child suffered from a glandular disorder "and would eat all the food in the house if I let her."

Mrs. Shelton, an unemployed divorcee, received county welfare aid and support money from her former husband, officers said.

She has three other children, ages 5, 12 and 13. Apparently in good health, they were placed in the county children's home.

El Paso, Tex. (pop. 132,000) is the largest city on the United States-Mexican border.

Blast Kills 4 Workmen

LOS ALAMOS, N.M. (AP) — Four men unloading high explosive scraps at a dump near this atomic laboratory city were killed Wednesday when the material exploded.

Officials said no radioactive material was involved. High explosives, like TNT, are used in many experiments in developing atomic weapons.

The dead were Leopoldo Pacheco, 50, Sevedeo Lujan, 53; Jose C. Cordova, 37; and Escolastico Martinez, 47.

Officials said the four non technical employes were on a routine job—that scraps of such explosives were burned in the pit almost every day.

A Los Alamos spokesman said it was presumed the four were following "an unloading procedure that has been considered safe for years."

The only woman president in the 90-year history of Wilson College in Pennsylvania, a liberal arts college for women, was Dr. Anna J. McKaeg, who served from 1911-1915.

Between You And Me

By JERRY JACKSON

Hardin-Simmons? True the school has yet to dent the win column, but let's look into the subject a little further and arrive at a "why" and "wherefore" or two before jumping to any conclusions.

First of all, Coach Sammy Baugh's boys have bitten off somewhat of a king-sized early season schedule and are thus having a bit of trouble chewing the bulk of what's been bitten. A little insight into the faring of their opponents thus far this season should cast some light on the subject.

Murderers Row Tough To Hoe

THE FIRST TEAM which the Cowboys went up against was North Texas State, which took them to the cleaners by 46-24 in what was rumored to be an offensive-type contest. The Eagles are currently leading the nation in both total offense and total rushing offense, as they have managed to pile up 400 yards plus in each of their four games to date. Also, they have succeeded in holding each of their other three opponents (other than H-SU) to one touchdown per game, whereas the Cowboys rammed across four big ones.

Next up on the Cowpoke schedule was Wichita, another undefeated eleven at the current time. Although going under by 13-27, those 13 points represent all the scoring which has been made against Wichita in that they have whitewashed Kansas State 19-0 and George Washington 21-0 in their other tilts to date.

The third foe to face the 'Pokes was none other than the awesome Auburn Tigers, who were smarting from a 3-0 defeat of the week before at the hands of Tennessee, their first loss in a coon's age. Hardin-Simmons went down in that one by a 35-12 count, but don't go away, for I feel a sidelight coming on. The unusual part about those 12 points is that two touchdowns constitute a heap of scoring to make against the Tigers, who are currently nestled in the number eleven spot in the nation-wide AP ratings. Their pride and joy the past few seasons has been their rock-ribbed type of defense, and that 0-3 loss to the Vols and 33-0 romp over Kentucky in their only other game of the year tend to point up the fact very well.

Lastly, but far from leastly, is Georgia, who Simmons met this past week. The Cowboys got pasted in that one 6-35, the loss being to a strong Georgia team which has downed Vanderbilt and Bear Bryant's Alabamans decisively, while losing only to South Carolina.

Cowboys Bolstered By Voss

SUMMARIZING, H-SU's opponents sport an 8-2 won-lost record against other foes, and have rolled up 205 points in those games as stacked up against 61. So the Cowboys have run into not one but four buzzsaws to date, and should have a little easier time of it in their conference games from here on out.

One of the mainstays in the 'Poke attack is an area product by the name of Bill Voss, who played a lot of football for Hermleigh a few years back. Voss, an end, has snagged eight passes for a total of 72 yards and one touchdown in the college's four games to date.

Schoolboys Set To Play For Keeps

By The Associated Press

More than 250 games, most of them conference affairs, get the Texas schoolboy football campaign into the thick of the championship fight this week.

Fifty-nine teams boast undefeated, untied records and all except three will be playing. A deep cut is expected to be made in the unsullied ranks.

Dallas Highland Park and Corpus Christi Ray, two of the 11 unbeaten, untied teams in class AAAA and generally rated third and fourth behind Abilene and Wichita Falls, battle at Corpus Christi Friday night in the state's headline game.

It is not a conference test but it will be matching sectional powers and will give a strong hint as to what the state playoff will be like.

Class AAA, with seven undefeated, untied teams, also spotlights a nonconference game—Littlefield vs. Kermit. The unbeaten untied western teams battle it out at Littlefield.

Class AA has no games matching undefeated teams but there's one in Class A where Bishop takes on Tuloso-Midway in a conference tilt in District 31.

Abilene gets tough, Waco at Abilene and Wichita Falls hosts Odessa.

It's all-out conference play in AA, where every district has games counting in the standings. All except two Class A districts will feature conference strife.

Defending champion White Deer of Class A plays an important conference game in District 2. It meets Clarendon, the team that's tied with it and McLean for the district lead.

Breckenridge, champion of AAA, is idle this week. So is Stamford, kingpin of AA.

Full Slate Scheduled For Area

A quartet of top contests grace the firing line Friday night, with three area teams hitting the road for games and one playing host.

The sole home game will feature the Hobbs Panthers (2-4), who will take on Divide in the second clash of their double round robin schedule. Divide came out on top in the first meeting of the two teams, winning by 34-12.

The Ira Bulldogs travel to Blackwell, and will be seeking to make it two in a row over that team, having edged them 22-20 earlier in the season. Ira is 4-2 for the season, both games dropped having been by slim margins.

Mighty Gail will be hosted by Dawson as the Coyotes will be hoping to make it 31 victories in a row, six of which have been compiled this season. This game represents the third district game of the year for Gail which has not allowed more than two touchdowns to be scored against them in any tilt this season.

Hermleigh travels to Rule in an effort to get back on the winning trail following losses on three consecutive weekends. Prior to that, the Cardinals had won their first two games, but have been racked by injuries since that time, consequently bringing on a bit of tough sledding.

Lamar Tech, ETS Are Top-Rated In NAIA

KANSAS CITY (AP) — Lamar Tech of Beaumont has become the No. 1 team of the National Association of Intercollegiate Athletics.

The undefeated, untied Cardinals also pushed past East Texas State this week into the top spot in the rankings.

East Texas fell to second when it was upset 7-0 by Texas A&I last week. As a result A&I bounced into the No. 8 spot. McMurry is rated seventh.

The top 10:

1. Lamar Tech (5-0).
2. East Texas State (3-1).
3. Lenoir Rhyne (N.C.) (3-0).
4. Presbyterian (S.C.) (4-0).
5. Hillsdale (Mich.) (4-0).
6. Western Illinois (4-0).
7. McMurry (4-1).
8. Texas A&I (4-1).
9. Lincoln (Mo.) (4-0-1).
10. Northern Illinois (4-0).

BARRY WALKER
A-1 Pass Snatcher

Tiger End Barry Walker Top Lineman

In recognition of his stellar play in the Snyder-Breckenridge game Friday, Lineman of the Week honors fall on the capable shoulders of end Barry Walker.

Although normally confined to offensive duty, he stepped in to play defensive right end the entire second half, subbing for the injured Charles Gladson. He handled the defensive chores capably, while playing an alert, aggressive brand of ball.

However, his most spectacular play was in the role of a glue-fingered somebody, as he was on the receiving end of three very decisive tosses from quarterback Dick Hayes, all of which were instrumental in the Tigers' offensive merry-go-round.

The first of these passes was gathered in early in the second quarter, and helped to set up Snyder's first touchdown. Walker took the aerial and pile-drived all the way to Breck's 10-yard line on a play covering 20 yards. From there it was no more than a hop, skip, and a jump to paydirt on two running plays, which tied up the contest at 6-all.

Receipt number two occurred near the end of the second quarter, following a fumble recovery by the Bengals deep within the Bucks' inner stomping grounds. This play was good for 10 yards and a first down on Breck's six yard line, but the scoring drive was stymied by an intercepted pass two plays later.

The third important pass play in which he was involved set up Snyder's final touchdown, as time was running out in the game. Running wide from his split end position, Walker pulled in a hook pass from Hayes good for nine yards, and was spilled just two short yards shy of the double stripe. However, Snyder tallied two plays later, but the Bucks thwarted the extra point attempt which would have knotted the contest.

In addition to his TD setups, Walker also scored two points on the Tigers' conversion attempt following their second six-pointer. On this crucial play which tied up the tilt at 14-14, he stepped over the goal line and took a blue darter in the bread basket from Hayes.

It was quite an evening for the Tigers, with 169-pound Walker contributing immensely to their success.

Fish Fray Set Today

The Snyder Freshman do battle with San Angelo Edison today at Tiger Stadium, as the locals seek to make it two wins in a row following their 28-0 conquest of San Angelo Lee this past week. Kickoff time is 4 o'clock.

Area's Turner And Allen NCAA Leaders

NEW YORK (AP) — For the first time within memory two players from the same team rank 1-2 among the nation's college pass receivers.

The No. 1 man is Stanford's Chris Burford, who caught two aerials against Washington last week to boost his total to 19 for four games, with a total yardage of 237. His teammate, Ben Robinson, has caught 16 good for 244 yards.

Army's lonely end, Bill Carpenter, also has caught 16, but has carried them four yards less than Robinson.

NCAA Service Bureau statistics released today show Pervis Atkins of New Mexico State heading with five interceptions, Grover Garvin of California tops in punt returns, and Joe Allen of Hardin-Simmons No. 1 in kickoff returns.

Bake Turner of Texas Tech has picked up the most yardage in pass receiving. He has caught 13 tosses good for 293 yards. Mike Ditka of Pittsburgh and Paul McGuire of Citadel each has caught four touchdown passes to lead in that department.

Garvin has returned six punts for a total of 128 yards, and Allen 10 kickoffs for 229 yards.

Cynthia Jan Sullivan, 22, will be one of the youngest girls on the pro golf tour in 1960. She's a native of Harrisburg, Pa.

Akers' Toe Longhorn Woe

By The Associated Press

Texas, which collides with Arkansas at Little Rock Saturday in a Southwest Conference football test, may have to make any goal line stands pretty far down the field if the Longhorns are to stop Freddy Akers.

Akers, who has kicked field goals for the Razorbacks in both their conference victories, spent Wednesday booting them through the uprights. He kicked four straight from the 25-yard line.

Coach Frank Broyles said he thought Akers might have a chance to kick another Saturday.

Texas prepared for the clash of undefeated teams polishing up the offense and defending against Arkansas plays. Longhorn coaches promoted Larry Stephens, a 240-pound tackle who is fast enough to block for sophomore speedster James Saxton, a quarterback, to the first unit.

Southern Methodist, seeking more punch on the ground, ran through a tooth-rattling scrimmage Wednesday. The mustangs finished up with a long passing drill. They also practiced goal line ofense in hopes they'll be able to score against Rice Saturday.

Coach Jess Neely hinted Rice will try ball control against the Methodists. He had the Owls concentrate on blocking and passing.

Texas Christian Coach Abe Martin decided to start Jackie Sledge, a junior, at quarterback against Texas A&M. Larry Dawson, the regular quarterback, is hampered with a knife injury and will see limited duty.

Sledge looked impressive in Wednesday's passing drill.

End Bubby Meyer is expected to miss the A&M game with an injured foot.

Texas Aggie Coach Jim Myers also worried about injuries. Tailback Jesse McGuire sported a swollen knee, end Ralph Smith missed the workout because of a shoulder injury and his understudy, Russell Hill, sprained an ankle Wednesday.

Baylor plays Tech Saturday and Coach John Bridgers worried about the Texas Tech offense and E. J. Holub Tech's great center.

"It sure looks like we are going to have to stir up some scoring if we are to stay with Texas Tech," Bridgers said.

Movie Menu On Tap For Blimey Boys

SUTHAMPTON, England (AP) — Dai Rees, captain of ritain's Ryder Cup team, has ordered his golfers to spend plenty of time at the movies during their sea trip to the United States.

The British players were scheduled to leave Southampton on the Queen Elizabeth today. And the film Rees wants his men to study is one featuring an 18-hole exhibition match over the Eldorado Country Club course at Palm Springs, Calif.

That's the site for Britain's defense of the Ryder Cup against the Americans Nov. 6-7.

"None of us know the Eldorado ccurse," Rees said. "But this film, showing a match between Sam Snead and Gary Player, will give us a chance to see what it's like."

Britain's team is Rees, Peter Alliss, Ken Bousfield, Eric Brown, Norman Drew, Bernard Hunt, Peter Mills, Christy O'Connor, Dave Thomas and Harry Weetman.

Toronto Picks Manager

TORONTO (AP) —Danny Menendez, 41, was named general manager of the Toronto International League baseball club today and Mel McGaha, 33, the new field manager.

The appointments were announced by Jack Kent Cooke, the club owner.

Menendez, who was general manager for the Memphis Chicks in the Southern Assn. since 1956, succeeds Rudy Schaeffer who resigned after serving as Leaf general manager since 1955. McGaha, who managed Mobile in the Southern Assn. last summer, succeeds Dixie Walker who resigned when Toronto finished in the IL cellar.

Haney Delves In TV

HOLLYWOOD (AP) — Fred Haney, who resigned as the Milwaukee Braves' manager, has signed to do the commentary on a baseball show starting Oct. 24 on Los Angeles station KCOP-TV.

The program, "Major League Baseball Presents," will appear each Saturday at 9 p.m. Haney, once a baseball announcer here, will do a video-taped commentary on outstanding major league games played this year.

FOUR MEN AND A HORSE — The Crew Cuts, internationally famous "Sh-Boom" Boys, current star attraction at La Fiesta Theatre Restaurant in Juarez, try their hand as jockeys aboard a stable pony at Sunland Park. The quartet will crown the winner of "The Crew Cuts Purse" Saturday at the new track. The Crew Cuts are: Ray Perkins in saddle, brother Johnny seated behind and (L-R) Pat Barrett and Rudi Maugeri.

Steers Not Hurting For Quarterbacks

AUSTIN, Tex. (AP) — Texas University's decisive victory over Oklahoma last week showed that the Longhorns are three-deep in good quarterbacks.

While third-ranked, undefeated Texas is favored to win its Southwest Conference opener against difficult Arkansas Saturday, Longhorn coaches think it may take all three of the masterminds to do the job.

They are veteran Bobby Lackey, rangy 201-pound senior, and sophomores Mike Cotten and James Saxton. These three alternated for Texas in its 19-12 victory over Oklahoma.

Coach Darrell Royal warmly praised all three.

He likes the spirit and fire shown by the sophomores and plans to capitalize on it. But when the chips are dow , as on at least one touchdown crisis in the Oklahoma game, it is the dependable veteran Lackey that gets the call.

Saxton, a 160-pound speedster, is the most sensational actor of the three play-callers.

Saxton ran 10 times against Oklahoma for a total of 71 yards. His 30-yard run through three fourths of the Sooner defense was the big gainer in a 61-yard drive that gave Texas its second touchdown with only 10 seconds left in the first half.

After that run Royal substituted Lackey for Saxton. He said he did it because Saxton was winded and also because he felt the tense, time-tight situation called for an older head. The three quick plays that Lackey called finished the job that Saxton started.

The stocky, 190-pound Cotten is cut from a different pattern.

Speed is not his specialty. But Texas coaches praise him as a cool-headed football-wise field general. Last season he quarterbacked the Texas freshmen to their first unbeaten season in many years.

Wilt And Ingemar Share Spotlight

MINNEAPOLIS (AP) — For three quarters Wednesday night Wilt Chamberlain made proud Bill Russell look like an ordinary basketball player.

But the veteran Boston Celtics' star felt the sting of the young giant's challenge and in the fourth period herded the pro basketball champs to a 103-98 exhibition victory over Philadelphia at the Minneapolis Armory.

Russell pumped in eight points in the final minutes for the Celtics' victory margin, although Chamberlain outscored him 26-16 and played him even off the backboards. It was the first pro clash between Chamberlain, the 7-2 former Globe Trotter, and the 6-10 Celtic defensive wizard.

A thin crowd of 2,500 turned out for the Minneapolis Lakers' promotional extravaganza featuring Wilt, Russell, heavyweight champ Ingemar Johansson and Minneapolis' Elgin Baylor.

The Lakers grossed approximately $40,000, half of their announced goal of $80,000.

The Lakers drew some extra consolation in their 100-94 victory over Detroit in the opener of the National Basketball Assn. double header. Baylor, in uniform for the first time since he starred in the 1959 playoffs, hit 16 points to help break a Laker losing streak.

Johansson appeared between games, answering questions put to him in English by sportswriter Halsey Hall and in Swedish by Minneapolis Mayor P. Kenneth Peterson.

"My right hand still moves pretty fast. I don't think Floyd Patterson can change his style very much to stop it," Johansson replied to a question from an admirer.

He isn't certain, he said, whether he can knock out Patterson again. A few hours earlier, though he repeated his faith in his right hand punch: "It moves so fast it's hard for the opponent to know where it is going."

Errol Flynn Dies Of Heart Attack

VANCOUVER, B.C. (AP) — Errol Flynn, whose real-life adventures often outdid his swashbuckling movie roles, died Wednesday night in an apartment where he had dropped in for a drink. He apparently suffered a heart attack.

"He died laughing," said Mrs. George Caldough, Flynn's hostess during a visit here. "He was having a good time and enjoying himself."

The graying, 50-year-old actor was on route to the airport with Mr. and Mrs. Caldough and his 17-year-old protege Beverly Aadland.

"We just dropped in to see some friends for a cocktail," Mrs. Caldough said.

She said he complained of a pain in the back and the doctor they were visiting took him into another room for relief. He lost consciousness while the doctor was out of the room for a moment, she said.

An inhalator crew worked over Flynn for 57 minutes and then he was taken by ambulance to a hospital, where he was pronounced dead on arrival.

Miss Aadland, who rode to the hospital in the ambulance, was placed under sedation.

"Women," said Flynn on his arrival here six days ago, "well, that speaks for itself. I like young women because they give you a feeling of youth."

He came to negotiate for the sale of his 100,000 yacht Zaca. Caldough reportedly was interested in the luxury vessel.

Flynn's dashing manner both on and off the screen raised the blood pressure of feminine admirers and male rivals. It also brought him headlines — headlines he said he wanted to avoid.

"The search for anonymity has been my true failure," he maintained.

The actor was married three times. He was separated from his current wife Patrice Wymore, who is appearing at a Washington, D.C., night club.

She burst into tears when told of Flynn's death and said, "Please, I'm sorry, I can't say anything."

She was to fly to Los Angeles today.

Flynn's life had a storybook beginning in the Australian island state of Tasmania and the plot thickened as the years passed.

His latest real-life drama took place in Cuba, where he claimed he was wounded while fighting with the forces of Fidel Castro. His wound was played down by the rebels as was the extent of his activities. Flynn, however, played it to the hilt and wrote a series of articles about his Cuban adventures.

He always played to his public. He said he had made seven million dollars as a swashbuckling actor and he enjoyed spending it.

"I have a great talent for spending," he said. "The public has always expected me to be a playboy, and a decent chap never lets his public down."

His spending sprees took him to cafes and night clubs where the evening often ended with Flynn swinging his fists instead of a sword. He got into a Havana cafe free-for-all in 1937, was slapped by Canadian millionaire Duncan McMartin in a Nassau bar in 1954 and traded blows with such people as director John Huston, columnist Jimmy Fidler, Dan Topping and others.

Recently he played the familiar role of noncombatant when ex-wife Nora Eddington and Miss Aadland exchanged hot words at a Hollywood party.

Flynn's first wife was fiery French actress Lila Damita. They were married when Flynn was getting his Hollywood start in 1935. It was a tempestuous marriage that ended in divorce in 1942.

A year later when Flynn was on trial accused of the statutory rape of two teen-age girls, he met Miss Eddington, a deputy sheriff's daughter who worked at the cigar counter in the Hall of Justice at Los Angeles.

They were married in 1943 and divorced six years later. She later married singer Dick Haymes.

Flynn married Miss Wymore in 1950.

He had four children, a son by Miss Damita, two daughters by Miss Eddington and a third daughter born to Miss Wymore in 1953.

Flynn was born June 29, 1909, in Hobart, Tasmania, where his father and mother were cruising on a marine biological study. His father, Prof. T. Thompson-Flynn of Queen's College, Belfast, Ireland, was an authority on ocean life.

ERROL FLYNN
. . . dies laughing

The hippopotamus, now found only in Africa, roamed the plains of northern India a million years ago.

Sgt. Woods Gets Medal

CAMP LEJEUNE, N.C. (AP)—Marine Sgt. Levi M. W. Woods, first man to be picked up from the ground by a high-speed airplane in flight, today receives the Navy and Marine Corps medal in recognition of the feat.

He was picked up Aug. 12, 1958, when tests were being made of a new air-sea rescue system, kept secret until now. Many successful tests had been made on animals and dummies at Quantico, Va.

The rescue plane first dropped the rescue kit to Woods. It consisted of a lift harness, 500 feet of nylon line, and a baloon to be inflated with helium.

Woods strapped himself into the harness, hooked on the line, inflated the balloon and let it go. It rose, pulling up the 500 feet of line.

The rescue plane traveled at 144 miles an hour. A two-pronged yoke engaged the line.

Woods, a native of Hood River, Ore., lives at nearby Jacksonville, N.C., with his wife and four children.

AF Losses From Accidents Heavy

CHICAGO (AP)—An Air Force official says that since 1950 his service has lost 3,471 pilots and 7,062 planes in accidents—a larger air force lost than any country in the world now has except the Soviet Union.

Two - thirds of the accidents shouldn't have occurred, he said, but the over-all accident rate in the Air Force is steadily improving.

Maj. Gen. Joseph D. Caldara, deputy inspector general for safety of the Air Force, gave the figures Wednesday night during a talk on safety to the annual air safety forum of the Air Line Pilots Assn.

The accident rate has been reduced from 44 major accidents per 110,000 hours of flying time in 1947 to 9.3 in 1959.

LEGAL NOTICE

NOTICE TO BIDDERS OF SCURRY COUNTY'S INTENTION TO RECEIVE BID PROPOSALS FOR ITS PURCHASE OF A NEW 2 TON TRUCK FOR THE SCURRY COUNTY PARK SYSTEM

Notice is hereby given that the Commissioners Court of Scurry County, Texas, will convene at 10:00 A.M. on Monday, November 2, 1959, in the Commissioners Court Room in the Courthouse in the City of Snyder then and there publicly to open and consider all sealed bid proposals marked on the outside "Park Truck" theretofore received by the undersigned County Judge in his office in the said Courthouse for Scurry County to purchase for cash only and without trade-in ONE (1) new 2-ton truck (preferably green in color) without dump-bed having or being equipped with a six-cylinder engine, four-speed transmission, single-speed rear axle, 154-in. wheel base, 8.25 by 20 (ten-ply) tires, extra wheel, circulating type heater, directional turn signals, heavy duty type oil filter, heavy duty oil bath air cleaner, two-speed dual electric windshield wipers, windshield washers, and two rear view mirrors (West Coast type).

Under Section 2 of Article 2368a of Vernon's Revised Civil Statutes of the State of Texas of 1925, as amended, the right and privilege is reserved by Scurry County, acting by and through its Commissioners Court, to reject any or all of the bid proposals tendered and to waive any or all technicalities, including the right and privilege (but not any duty) to receive and accept any timely bid upon any 2-ton truck notwithstanding noncompliance in detail with the above and foregoing specifications if in the exclusive judgment of the said Commissioners Court the quality, durability, and suitability for use in the Scurry County Park System render it equivalent or superior to a 2-ton truck of such specifications.

THE COMMISSIONERS COURT
OF SCURRY COUNTY, TEXAS

GIANT JIG-SAW PUZZLE—Thousands of pieces of Braniff Airways plane that crashed near Buffalo, Tex., in central Texas, on Sept. 29, reached the floor of a Dallas, Tex., warehouse. The Civil Aeronautics Board experts face the awesome task of recreating the turbojet liner from rubble. By doing so, they hope to find the cause of the crash, which killed 33 persons aboard the Houston-Dallas flight. The men working on the plane are unidentified. (AP Wirephoto)

Future Depends On Fight By Doctors

SALT LAKE CITY (AP)—Ears, eyelids, eyebrows and scalp stripped away, a 12-year-old farm girl depends for her future on a fight by doctors to restore, as they see it, the handiwork of God.

Christine Hayes of Blackfoot, Idaho, was mutilated when a potato combine seized her swinging pony tail during harvest work Monday.

A Blackfoot doctor kept her alive and, after telephoned instructions from Latter-Day Saints Hospital here, preserved the ripped-off skin in a gallon of salt solution.

Christine and her scalp were flown to the hospital. In a 6½-hour operation, the ears, upper and lower right eyelids and eyebrows were removed from the scalp and attached to her abdomen.

Doctors hope the rich abdominal blood will nourish them until they can be grafted back in place.

In addition, skin from the abdomen was grafted to her face and neck during the long operation.

The combine stripped Christine's head to the bone. Before the scalp can be restored, hospital officials said, the plastic surgeon will have to peel away a thin section of skull so that the skin will have a surface to which it can adhere.

The names of neither the Blackfoot doctor nor the Salt Lake surgeon were disclosed.

Hospital administrator Clarence E. Wonnacott, releasing details of the operation, said, "The surgeon [illegible] might possibly work. In the total reconstruction of the girl's face, it could be a marvelous accomplishment because no one can make an ear like God."

Students at Pennsylvania State University in the 1860s were advised to bring with them a carpet, mirror, washbowl, pitcher, pail, broom, lamp and oil can.

OUR VIEW

National Newspaper Week

National Newspaper Week begins today. It is a time set aside for the nation's press to take stock of its services, and, as the occasion permits, call the public's attention to it.

In this "space age" the press itself already has demonstrated on its own that the world is shrinking, and that time has been fractured.

For example, this newspaper is a member of the Associated Press, a worldwide agency which gathers and distributes news almost as it happens.

This news from the gigantic network of wire services is available to thousands of newspapers simultaneously. Its presentation may be accepted as a matter of fact, not only by the reading public but many times by those who are closely associated with the news as well as well.

It is a miracle in communications.

Yet, the fast coverage of news stories on remote sections of the globe by no means represents the full objective and responsibility of the newspaper. The newspaper is a source of information, and to a lesser degree, of entertainment, in the community which it serves. Consequently, newspapers have a keen interest in their respective communities, as well as the state, nation and the entire world.

The local community interest may well be more apparent in the small town newspaper than in the big city newspaper for the simple reason that the small town paper's field of interest is confined to its own immediate territory, while that of the big city paper is spread over a larger region.

Local communities, in turn, have an interest in their home town newspapers. The best testimony supporting this is the fact that newspapers have more readers today than ever before, despite the competition for the public's attention in the space age.

Strong Dollar May Become Drawback

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—A dollar can be so strong as to be embarrassing too.

Americans who fret because some Europeans are wondering out loud if the U. S. dollar isn't weakening can take heart today in the word that many Canadians complain that the Canadian dollar is too strong.

It sells at a premium of more than five cents over the American dollar. And that, say our northern neighbors, is bad for business —their business.

And those Americans who have been alarmed lest the United States was pricing itself out of the world market may be comforted somewhat to hear that some Canadians complain that goods can be bought cheaper here than there and that, too, is bad for business —their business.

The American dollar situation arises because the total of what we pay foreigners for their products plus what we extend in the form of foreign aid and what we spend abroad on upkeep of military bases and the like—that total exceeds the amount we get for what we sell to other countries.

Hence, other lands have built up their reserves of gold—by buying it from us—and their dollar reserves by putting them in high interest bearing U. S. securities. This makes their currencies look much better, than they did a few years back.

It hasn't really weakened the American dollar yet—despite the big outflow of our gold—but it hasn't strengthened it either, by a long shot.

The Canadian situation is a bit different. They still buy more from us than they sell us. This normally would make our dollar stronger than theirs. But in recent years, American dollars have been flowing into Canada in the form of investments, making the overall balance all in favor of the Canadian dollar, and thus putting it at a premium over the American one.

Still another reason for the Canadian dollar's premium status is advanced by speakers at the convention of the Canadian Exporters Assn.

They say the borrowing by Canadian provinces and municipalities in the United States is partly to blame.

Putting the blame, at least in part, on the borrowings by provinces and municipalities, strikes a familiar note this side of the border.

The need of American states and communities to meet their own growing pains has sent them into the money market here for funds in record volume. This has been a prime factor in swelling the demand for loans and in sending interest rates to 30-year highs. It also has increased the tax burden.

New Session Set On Refinery Strike

EL DORADO, Ark. (AP)—Another labor - management meeting in the 3-month old American Oil Co. refinery strike has been called for Monday. The two sides are reported nearing an agreement.

C. A. Wheeler of Little Rock, a Federal Mediation Service representative, called the meeting Wednesday.

Striking members of the Oil, Chemical and Atomic Workers union voted Tuesday to accept all but one provision of the latest company offer. Provisions of the offer have not been announced.

The union walked out after an old contract expired July 1.

Modern Story Of Cinderella Told

By HAL BOYLE

NEW YORK (AP)—Cinderella's real life story, as it might be told by a modern literary ghost:

"And so they lived happily ever!" So ends the fairy tale, after I married the prince who found only my foot would fit the glass slipper.

Actually, it was only afterward that I learned what real unhappiness was. Before that I had been only a young, dreaming girl. Marriage turned me into a woman.

No one knows how many broken hearts weep in palaces. My ing hell.

To begin with, I didn't know my way around a palace. The courtiers, jealous of my sudden rise, laughed at my untutored accent. They jeered when I tried to eat raw oysters with a spoon. But how could I be expected to know court etiquette?

I began to feel blue all the time. The prince was no help. He was no man, but a weak foolish boy.

It broke my heart when I found out he was making love to half the chambermaids in the palace. After that I ceased to care.

Success is very lonely, particularly if it comes too fast. I found out nobody loved me for myself. They all had their hands out.

My old friends sponged on me. So did my old enemies.

My mother-in - law, the queen, turned against me, too.

I grew more lonely. I found champagne made me feel better, but soon the old bubbly wasn't strong enough.

From the bottle I went on to the needle.

Thanks to the psychiatrist's couch and two trips to the federal hospital at Lexington, Ky., I've kicked the habit.

Next week my divorce from the prince is final.

What lies ahead? Well, the king —my ex-father-in-law, wants to shed his wife and make me the new queen.

It is the kind of marriage that makes sense. The king is an older man, a father symbol who can give me the emotional security I crave. And I can give him the understanding he needs from a young and ardent heart.

'Whodunit' Is Solved

MADISONVILLE, Ky. (AP) — Madisonville's whodunit is solved.

The perpetrator's father gave it away.

It was 11-year-old Rush Hunt who wrote Secret Service Chief U. E. Baughman a letter saying: "I won't tell you how much I appreciated your never ending job of protecting the President, guarding against counterveiting, and forging checks and other such end less jobs."

Baughman released the letter but kept Rush's name a secret. He was afraid Rush's teacher might give him extra homework because of the misspelled words.

But the teacher, Jackie Haywood, was proud of her pupil, let him read Baughman's reply in class and showed the students a card that makes Rush an honorary member of the Secret Service.

His father promised the boy would work harder on his spelling from now on.

Red China Faces Food Rationing

By WILLIAM L. RYAN
Associated Press News analyst

Natural calamities and other factors have combined to create a critical food situation in Red China. The Peiping government is instituting measures which have the look of rigid food rationing.

This information is gleaned from the official newspaper of the Chinese Communist party, the People's Daily. It has just announced details of what the party calls a "plan for food consumption and economizing food consumption.

While the party paper insists the food outlook in China is favorable, it acknowledges that it has undertaken a "shock publicity campaign" to cut down excessive consumption. Party members have undertaken to "explain the truth to the masses."

"They have raised the consciousness of the masses and extensively disseminated throughout all households the call of the party for the practice of economy in food consumption," the paper says. "Many refectories (public dining halls) and families have taken the initiative to draft their plans to economize in food consumption.

"Economy in food has thus become the social fashion. In preparing meals they have blended course and fine food grains, adjusted the cooking of food grains for both thin and thick mixtures, distinguished between greater and lesser consumption of meals, and rationed consumption according to the number of persons."

The party has directed that after the autumn harvest, these measures must be adopted in all areas.

The party blames its food woes in part on the number of natural disasters — floods and droughts — which ravaged many areas in Red China during the summer. But there are other factors.

One of the most important of these must be the shift of populations from rural areas to the cities in the intensive drive of the Red Chinese to industrialize at breakneck speed.

It is also more than possible that the commune system forced upon the farm communities has further interfered with farm production. There has been much reason to suppose that the regimentation of the Chinese farmers has met with serious resistance.

So the Communist party is faced with this situation: The autumn harvest probably will mean a barely adequate supply of food for the fall and winter months, but there is little reserve to fall back upon next spring and summer, when the food situation can become so troublesome as to deserve the term crisis.

Guard Force Is Hired By Hospital

PORT CHESTER, N.Y. (AP) — If the nurses can't enforce visiting hour rules perhaps Pinkerton guards can.

Such is the view of the United Hospital, which disclosed it had hired uniformed Pinkerton detective agency men to prevent more than two visitors in a room at a time.

"We have found as many as nine people at a time visiting a patient," said a hospital official. "Nurses' warnings were going unheeded, he said, and the recovery of the patients has been endangered."

LEGAL NOTICE

TOPS IN PLYMOUTH HISTORY—The 1960 Plymouth is the strongest, quietest, fastest accelerating, most economical operating car in Plymouth's history. It features unified body and frame structure and completely new styling for the economy champion. Two completely new engines are added in the Plymouth line of six engines. The 30-D Economy Six, with 145 h. p. is introduced for drivers who require maximum fuel savings. The SonoRamic Commando V-8, with 330 h. p. which brings ram induction to passenger cars for the first time, is primarily a "performance" engine with outstanding acceleration characteristics.

Welch Is Seeking Directed Verdict

CHELSEA, Vt. (AP) — Robert Orzo Welch today seeks a directed verdict of acquittal on ground no proof has been offered that he was involved in what the state contends was the vigilante slaying of prosperous dairy farmer Orville A. Gibson, 47, of Newbury.

The defense motion will be argued today before Judge Natt L. Divell Jr. with the Orange County jury excluded.

Atty. Gen. Frederick M. Reed suddenly rested the state's case Wednesday after getting in evidence of two key witnesses against Welch, 46-year-old Newbury grade school janitor.

One was Dr. John H. Perry-Hooker who testified he recognized two of the three or four persons he saw in a car parked near Gibson's farm Dec. 31, 1957, shortly before Gibson left his house to start his day's work in his barn. Gibson never was seen alive again.

Dr. Perry-Hooker said he recognized the man in the driver's seat as Frank W. Carpenter, 43, the other man indicted in the Gibson murder. Carpenter is to be tried later.

The other key witness was Lt. Chester L. Nash, who headed the state police investigation.

Nash testified that Welch was interviewed two days after Gibson's trussed body was found in the Connecticut River.

During the interrogation, he said, Welch was shown a piece of ¼-inch rope with which Gibson had ben bound.

Nash testified that Police Cpl. Nelson Lay handed the rope to Welch and asked: "Is that a piece of your rope, Ozzie?" Over defense objections Nash testified Welch's reply was: "By God, fellow, that's my rope."

The state charged in court that Welch was one of a group of Newbury men who set on a vigilante action to punish Gibson for beating his farmhand, Eri Martin, 57, for spilling two cans of milk.

Cigarette Output Would Reach Moon

WASHINGTON (AP) — Enough cigarettes were produced last year to make a carpet seven feet wide and one cigarette thick from the earth to the moon, the Agriculture Department reported today.

The world output was 1,971 billion cigarettes—470 billion of them American. That was an increase of 4¼ per cent over 1957 for the world total.

To reach the moon at its closest point to the earth, the cigarette carpet would have to extend 221,900 miles.

1960 Plymouths To Show Friday

The 1960 Plymouth automobiles will go on display throughout the nation tomorrow. The new Plymouths will be shown in Snyder at the Pollard Motor Co., located at 2101 Twenty-fifth Street.

The 1960 Plymouth, is the strongest, quietest, fastest accelerating, and most economical operating car in Plymouths history. It features unified body and frame structure and completely new styling.

Harry E. Chesebrough, vice president of Chrysler Corporation and general manager of the Plymouth-De Soto-Valiant division says the 1960 Plymouth "creates new standards for its price class on any basis, on which you can compare automobiles." He cited several innovations in body construction, engine design and the joining of the various assemblies to produce longer life, improved comfort, and a better fuel economy with even quicker performance and less maintenance cost.

Two completely new engines are added in the 1960 Plymouth line, each of uniquely different design and each developed to fulfill a specific requirement. The 30-D Economy Six is introduced for drivers who require maximum fuel savings. The SonoRamic Commando V-8, which brings ram induction to passenger cars for the first time, is primarily a "performance" engine with outstanding acceleration characteristics.

Plymouth's styling and sturdy construction, Chesebrough said, "should have special appeal to people whose basic interest is in solid value."

LeTourneau Is Honored In Seattle

SEATTLE (AP)—A millionaire known as "God's businessman" was honored Wednesday night for his contribution to the effectiveness of the transportation industry in support of national security.

Robert G. LeTourneau, Longview manufacturer who is also well known as a preacher, was named the recipient of the National Transportation Award by the National Defense Transportation Assn. at its convention here.

The award was presented by Dr. Gayton Germanex, director of transportation in the office of the Secretary of Defense. The winner of the award is selected annually by the Joint Chiefs of Staff.

The firm of LeTourneau, Inc., started as a small job-shop manufacturer in the 1920s and by the beginning of World War II had become one of the major producers of earthmoving equipment. During the war the firm supplied an estimated 70 per cent of the basic earthmoving machines used by the armed forces.

LeTourneau told newsmen he went to work for the Lord" in 1952 and his business prospered as he preached.

He turns over staggering sums each year to a religious foundation.

"It pays to serve the Lord," LeTourneau said. "But don't serve the Lord because it pays."

"The preacher tells us how Christianity ought to work but it's up to us businessmen to show how it can work."

After receiving the award last night LeTourneau briefly thanked the 1,100 convention delegates.

"I thank the Lord for giving us the vehicles by which we defend ourselves," he said.

Highest elevation in Oregon is snow-capped Mount Hood which rises 11,245 feet above sea level.

Barber To Make Race

NORFOLK, Va. (AP)—Graham Gray of Norfolk, a barber for nigh onto 40 years, plans to take some time off next year—to run for president of the United States.

Gray, 53, announced his candidacy Wednesday from behind Chair No. 2 at a downtown barber shop. He said he expects to qualify for the ballot as the candidate of the "Independent party," and that he will "accept John L. Lewis for vice president."

Gray said he believes support of his candidacy will "come from all over the United States" once he begins making campaign speeches. He plans to start getting busy in February.

He says he's for "free government enterprise and constitutional rights."

Production Mark Exceeded, Says Reds

MOSCOW (AP) — The Central Statistical Board says that Soviet industry in nine months of 1959 exceeded its over-all production targets by 4 per cent.

An official announcement said over-all industrial production between January and September was 12 per cent above that of the same period of last year.

The board announced these nine-month totals for 1959: pig iron, 31.8 million tons; steel, 44.4 million tons; coke, 39.7 million tons; iron ore, 70.5 million tons; coal, 380 million tons; oil, 95.3 million tons; gas, 26.1 billion cubic meters; electric power, 6 billion kilowatt hours.

Eight Organizers For Union Charged

PHILADELPHIA (AP) — Eight organizers for Teamsters Local 107 were indicted Wednesday by a federal grand jury on charges of evading 1955 taxes ranging in amounts from $248 to $858.

Indicted were Nicholas Frank, Levittown, Pa., and Charles Amoroso, John Elco, Jacob Snyder, Harry Lindsay, Michael Sobolewski, Arthur Brown and John A. Grant, all of Philadelphia.

The government said that the men were employed as organizers by Raymond Cohen, secretary-treasurer of the local. Cohen had been under fire by the Senate Labor-Management Committee.

Hurdy-Gurdy Man Leads Happy Life

DALLAS, Tex. (AP) — R. E. Swain says the way to keep from getting old is to buy a hurdy-gurdy and a monkey and go into the organ-grinding business.

"I'm 66 years young and I hope to do this all the rest of my years," Swain said.

He reached down and petted his monkey, then watched as she took coins from children on the crowded midway at the State Fair of Texas.

"This is my hobby. I like to work with kids. I like to see them laugh and have a big time.

"Of course, those older folks get just as much fun out of this as the kids do."

Swain, of Lubbock, Tex., said he mostly worked the big fairs and shopping centers around the country. His wife travels with him.

"It's a good life," he mused. "We travel in a house trailer, get to see the country, have a lot of fun."

Swain said he retired from the chicken business six years ago.

"I've been show minded all my life. I used to work in the old dramatic tent show business.

"I've got nine grandchildren and I sure do like to see them laugh and play. So I decided to try this."

Swain moved a lever on the hurdy-gurdy and started to crank out a tune.

Morton's POTATO CHIPS

ANNOUNCING THE NEW PLYMOUTH!

SOLID FOR '60! AT YOUR DEALER'S TOMORROW!

BUILT A NEW SOLID WAY TO GIVE YOU SOLID SATISFACTION

CHRYSLER ENGINEERING INTRODUCES A NEW KIND OF PLYMOUTH THAT MARKS A MAJOR BREAKTHROUGH IN CAR DESIGN. BODY AND FRAME UNIT ARE WELDED TOGETHER AS ONE, IN A NEW WAY. MANY PARTS THAT WORK LOOSE, RATTLE AND NEED FIXING IN ORDINARY CARS ARE ELIMINATED. THIS LOW-PRICE '60 PLYMOUTH IS STRONGER AND ROOMIER. IT USES LESS GAS THAN BEFORE. IT RIDES MORE COMFORTABLY, WE BELIEVE, THAN ANY OTHER CAR IN ITS CLASS.

PLYMOUTH'S NEW DURA-QUIET UNIBODY is a rigidly-formed structure, locked by approximately 5400 precise welds. It has no conventional body bolts, braces, struts or stays to give trouble. Road noises and road shocks are dampened. Even the sound of the wind is hushed.

We doubt if any car at any price has ever ridden as well as this new low-price automobile. Practical Stabilizer Design, incorporating rear stabilizer fins, adds stability on the road, cuts wind resistance, gives better gas mileage.

The new Solid Plymouth is a young, exciting car with ten full years of Chrysler Corporation development behind it. It will suit you particularly if you want a feeling of quality and a sense of craftsmanship. It is built carefully and precisely. We believe there is no other car in the low-price field that resembles it.

AN ALL-NEW INCLINED OVERHEAD VALVE "6" IS AMONG FIVE PLYMOUTH ENGINE OPTIONS FOR 1960. The first *inclined* engine ever in an American passenger car is the new Plymouth *30-D Economy Six*, most powerful "6" in America. Very economical, it is inclined to make servicing simpler, to lower the car's center of gravity and to make handling and riding easier. Also for 1960: the limited-production *SonoRamic Commando V-8**.

SOLID PLYMOUTH 1960 OFFERS FEATURES NO OTHER CAR IN ITS CLASS CAN OFFER. *Custom-Positioned Front Seat. Safe-T-Matic doorlocking system*. RCA "45" Record Player**. And many more.

**Optional at extra cost*
