EAGLES-INDIANS WILL CLASH FRIDAY NIGHT

DRY LEADERS SAY SESSION TO BE STORMY

Conferred Sunday Preceding Opening of Special Legislative Session

REGULATION IS PRESSING MATTER

Moffett Sees Sentiment Favoring Licensing On Monopoly Plan

AUSTIN, Sept. 18.—Dry leaders conferred informally Sunday on a program for the extraordinary session of the 44th legislature, convening in special session Monday at the call of Governor Allred.

Groups of wets had held several meetings previously, as a result of which a bill providing a system of licensing private liquor dealers was prepared.

Most members agreed the maneuvering presented a stormy session of which the main pressing questions was setting up a new plan of liquor regulation in lieu of statewide prohibition repealed August 24.

Other tasks were providing a system of old age pensions, about which members admitted confusion, and substituting salaries from the fee method of remunerating county officials.

Moffett Comments
Rep. George Moffett of Chillicothe, a staunch dry, said sentiment of those opposed to licensing private dealers appeared to be crystallizing on a monopoly plan similar to that in the state of Washington. He was working on a bill to be introduced soon.

MEETING HELD BY BAPTISTS IS CONCLUDED

Results Very Pleasing to Pastor, Rev. Ira L. Parrack

Results of the revival meeting conducted at the First Baptist Church one week by the pastor, Rev. Ira L. Parrack, and which was brought to a close last Sunday night, were very satisfactory. About 17 additions were received, with several to receive baptism next Sunday night following the regular services.

The pastor asserted he felt this to be one of the best meetings ever conducted at the church since his coming here that the spirituality of the people was so manifest, everyone seemingly wanting to do everything possible for the success of the revival; that the cooperation of people from other churches was wonderful, assisting so greatly in the song service, a feature of the meeting that all enjoyed.

Delighted over the outcome Rev. Parrack refused to commit himself, however, as to what he thought of the sermons preached in as much as he did the preaching. Even so most of the Chillicothe public knew and have been edified in their praise for the minister. Each sermon was interesting and helpful. He put his whole soul into telling the word of God. The meeting was conducted for only one week, but in that length of time great results were achieved. There has been a renewed spirit on the part of members to work together for the good of the church.

Visited Here
Fred Cobbs, salesman for the National Biscuit Company, with headquarters in Vernon, was in the city Tuesday calling on local stores. Cobbs is a former resident, having been manager of the Brown Grocery.

FIRST MEETING IS HELD FRIDAY BY MIDWAY PTA

COMMITTEES APPOINTED DURING BUSINESS SESSION BY PRESIDENT

Parent-Teacher association of the Midway school, near Chillicothe, met for the first time of the new school term Friday night at the school auditorium.

A short business session was held when the following committees were appointed: Health—Mrs. D. G. Byars, Mrs. Jim Flynn and Miss Bonnie Leath; program—Mrs. T. L. Dunlap, chairman; refreshments—Mrs. Perry Lance; Mrs. Barney Keys and Mrs. Jim Flynn.

The president, Mrs. D. T. Wilson, entertained the audience about the interesting sights and experiences the family enjoyed while on their vacation on the Pacific Coast.

Miss Allred, music teacher, rendered a musical number to the enjoyment of all.

\$16,200 GIVEN MEDICINE MOUND FOR NEW SCHOOL

Supplements \$20,000 Bond Issue; Will Be Brick Structure

J. C. Hendrix, clerk of Medicine Mound school board, has received a wire from Senator Morris Shepherd stating that the Medicine Mound school district has been granted \$16,200 by the P. N. A. for the erection of a new school house. This grant will be used to supplement a \$20,000 bond issue which was voted last spring.

The new building will be a brick structure located on the present school site. It will consist of six class rooms and a combination auditorium and gymnasium. Only a part of the present buildings will be salvaged.

An architect has been employed and all preliminary plans have been approved. Final working plans will be finished in the near future and the contract for the construction of the building will be let within the next few weeks.

TEXAS COTTON GINNINGS ARE MADE PUBLIC

383,709 BALES 1935 TOTAL TO SEPTEMBER 1; LESS THAN 1934 FIGURE

Department of commerce, thru the Bureau of Census, announces the preliminary report on cotton ginned prior to September 1, in Texas, for the crops of 1935 and 1934. The total for the state was made public on Monday, September 9.

To that date there had been ginned 383,709 bales as compared to 336,758 bales of the 1934 crop. Nueces county shows a 1935 total of 66,196 bales against 54,755 bales in 1934, or an increase of 11,441.

CONVENTION FOR SINGERS CARDED

Be at Jackson Springs Saturday Night and Sunday

Wilbarger County Singing Convention will convene at Jackson Springs Saturday night, September 21, and also Sunday, September 22. This will be the group's semi-annual meeting.

Lunch will be served and every one is urged to be in attendance, declared J. M. Collins, the president.

S. L. Page of Tolbert was a business visitor in the city Tuesday.

Jack to Show Nimrods How to Make 'em Bite

Jack Lamb, premier bass catcher of the nation, will be here Saturday to talk fishing to all of the "bugs" and also to give a demonstration of bait and fly casting for the benefit of the less successful members of the fishing fraternity.

Lamb works in the Port Worth offices of the Gulf Refining Co. When not fishing, but it has been a pretty hard matter to keep him within the confines of an office, and especially when the warm sunshine pours through the windows and makes him think of the myriad glassy lakes where he has waited many a fly.

Out of recognition of his reputation which is now nationwide, the Gulf allows him occasional

trips over the south during which he conducts free casting schools for the enlightenment of the many who try to fish with artificial bait and failed.

Catching bass to Jack Lamb is merely child's play. He has caught more than 32,000 since 1920, but you mustn't brand him as a game hog, for he throws them all back. He has not eaten a bass in seven years and thinks it is a crime to bring these game fish in and distribute them among a bunch of people who would not know a catfish from a bap.

Lamb fishes purely for the love of the sport. He did not miss a single day in 17 years, and has visited more different bodies of water than any living man. He has fished in 1500 lakes in Texas

alone.

Lamb's exhibitions are more on the order of a school at which the embryo fisherman can learn the proper methods of casting both bait and fly rods, and out of his lifetime of experience Lamb imparts information to these amateurs, talking as he casts. Afterward, a general "gabfest" where he answers all questions about the sport.

These exhibitions are entirely free. The show here will be staged south of the News office Saturday at 5 p. m. Great crowds have been attending the expert's demonstrations in cities between here and Port Worth, and there will doubtless be many disciples of Isaac Walton on hand to see him in action here.

NINETY-FOUR BALES COTTON BEEN GINNED

Less By 278 Bales Than Figure for Same Date Last Year

Cotton ginnings of the 1935 crop amount to only 94 bales, it was revealed this morning, and is below the last year figure by 278 bales, as there had been ginned 372 bales at that time. Ginnings in 1934 had reached a total of 952 bales.

The low figure for this year's crop is causing no alarm, however, as it is maturing later, which usually indicates a better crop. Fair weather for the next few days will result in a quicker pick-up of ginnings, it is stated by some of the local gin men.

Additional Rain Fell On Tuesday

Chillicothe and vicinity was again visited by rain Tuesday morning, totaling 72 inches at the Chillicothe Experiment Station and 55 inches at the Underwood farm.

The rain was accompanied by a great thunder and electrical storm.

Was Slightly Ill
Rev. J. A. Phipps, pastor of the Presbyterian Church, was slightly ill a couple of days this week. He is improved in condition now, however.

LOCAL PASTOR AT MEETING IN QUANAH TODAY

HELPED IN ARRANGING PROGRAM OF DISTRICT MINISTER'S GATHERING

Rev. R. T. Breedlove, pastor of the Chillicothe Methodist Church, stated the meeting of pastors over the Vernon District, meeting today in Quanah, was scheduled to begin this morning at 10 o'clock and be concluded at four this afternoon.

The purpose of the gathering is to discuss church affairs in this district. J. B. Thompson, pastor of King Memorial Church, Chillicothe, preached at 11 o'clock. The program was arranged by Hubert Thompson, Tolbert; Vernon Henderson, Odell, and R. T. Breedlove, this city.

NEXT MEETING OF PRESBYTERY BE AT SEYMOUR

E. C. Cargil Elected Moderator at Closing Session Here

E. C. Cargil of Seymour was elected moderator of the Wichita Falls Presbytery at the two day session held here Tuesday and Wednesday. He succeeded the Rev. J. A. Phipps of Chillicothe. Seymour was chosen as the next meeting place for the Presbytery to be held during the early part of April, 1936.

Revs. Phipps and Cargil were named by the Presbytery to attend the Texas Synod to be held in Austin, October 19.

A good attendance of Presbyterians from churches in this Presbytery was registered.

Condition Improved
M. O. Thorp, who became quite ill this last week, is said now to be improving.

MEDICINE MOUND PARENT-TEACHER GROUP TO MEET

School of Instruction for Members of Association Planned

The Medicine Mound Parent-Teacher Association held a regular business meeting at the school house Thursday, September 12, 1935. Mrs. Holmes Ferguson, president, was in charge.

Committees that were appointed for the year are: Membership, Mesdames Tombs, Jack Hendrix, and M. J. Bellamy; Hospitality, Mesdames Jim Barnes, Doyle and W. H. Rosser; Publicity, Miss Emma Lorice Anderson, Miss Anderson was also asked to investigate and make plans for a school of instruction for members of the Association.

The P-T A. is planning to sponsor a school carnival to be held later in the fall. The committee for the planning of this affair is composed of Mr. W. H. Rosser, Miss Hazel Boardard and Miss Anderson.

The goal set for this year's work is the upbuilding of the school and character education. It has been decided that at each meeting of the association a prize will be given to the room whose students have the largest number of parents present.

Former Resident Dies In Amarillo

Miss Stella Barkley, 26, daughter of Mrs. J. C. Pylet, succumbed in an Amarillo hospital Sunday morning at one o'clock. She had been a patient there but a few days, having left here about two weeks ago.

Funeral services were conducted Tuesday afternoon, and was attended from here by Mr. and Mrs. Pylet, Johnny Mosley, and Mrs. Gene Kennedy.

WILL ARRANGE CAGE GAMES AT MEET TONIGHT

WILL BE HELD IN OKLAHOMA BY COACHES OF BASKETBALL CONFERENCE

Coaches of the Red River-Wichita Valley cage conference will meet tonight in Oklahoma to draft a schedule of games for the 1935 season. R. D. Watkins of Fairview, president, will be in charge. The meeting is called for 7:30.

Teams belonging to the conference includes two from Hardeman county, King High and Medicine Mound, and Five-in-One, Oklahoma, Margaret, Thalia, and Odell in the western division, while Harold, Goldline, Mankins, Fairview, Holiday, Valley View, Cashion, and Clara compose the eastern sector.

Oklahoma won the championship in 1934.

EXPECT DECISION BE MADE SOON ON PROJECTS FILED

Mayor Ledbetter Hopeful of Approval for All WPA Community Jobs

Projects filed by the City of Chillicothe, through Mayor W. L. Ledbetter, with the Works Progress Administration are still blanketed although it is thought they will be acted on in the next few days.

The mayor declared yesterday afternoon he was very anxious that they be approved so that improvements contemplated could be undertaken at once thus affording employment for many men in this city.

Projects filed by the city includes erection of a city hall building, costing approximately \$20,000, a swimming pool aggregating a cost between \$7,000 and \$8,000, a city water reservoir, and about 100 blocks of sidewalks. Other projects also submitted from this community are the construction of feeder roads with a sum of \$40,000 to be spent. This last project was filed by Commissioner J. Luther Potts of Precinct 2, and the only problem he believes would be faced, should the amount be favored by the WPA, would be the securing of enough men to handle the work.

Building of a grade school to take the place of the present structure, an athletic field, and other improvements of secondary importance, have been filed by the Chillicothe Independent School District through City School Superintendent, W. E. Hancock.

J. Roy Quinby, superintendent of the Texas Agricultural Experiment Station, located south of Chillicothe, filed for the building of an underground irrigation system, and improvement of buildings located at the station.

It is thought locally most of the projects will be favorably passed on, thus making possible work for men, and coupled with the marketing of the cotton crop this fall, should place this community in the best shape, financially, for several years.

RECOVER PART STOLEN GOODS

Discovered in Pasture Near Haskell By Farmers

Recovery of 227 yards of duck, 11 horse collar pads and 2 horse collars, was announced by Constable Jake Lowe this week following a trip to Haskell with Sheriff Mack Wilson, and a Mr. Howard, where the goods had been carried after being stolen from the Chillicothe Farmers Co-operative Association here on the night of Friday, September 6.

According to Lowe thieves had (Continued on Last Page)

HOSTILITIES BE RESUMED AFTER 6-YEAR LAY-OFF

Coach Muse to Send Strong Eleven Against Stallworth's Crew

KICK-OFF SET FOR 8 O'CLOCK

Large Crowd Expected to See All-Hardeman County Football Game

Eight o'clock is the hour set for the kick-off of the Quannah Indians-Chillicothe Eagles football game Friday night on the Quannah Athletic Field.

This sets marks the first between the two elevens since 1929 when the Eagles gridsters trounced the Class A team by the score of 26 to 6. That proved the last. Since then Dan Stallworth has been in charge of the Indians and has always had a winning team. Consequently, the county seat eleven is given the edge over the less-experienced Eagles. Yet, Coach Muse, has been drilling his team hard since the game of last Thursday night at Childress, when his boys lost by a 52-0 score. Made several changes for what he believes will be the better, and is ready for the kick-off. Both Chillicothe and Quannah fans are glad relations between the two have been resumed.

Quannah came out of the Hollis game with a win, defeating the Souther state eleven 12 to 6. No injuries were sustained and Coach Stallworth has been polishing up his starting line-up with lengthy workouts, especially on pass defense as the Eagles showed a fine aerial attack in the Childress game.

Starting line-ups for both teams will probably read as follows:

Chillicothe: Right end, Davis; right tackle, Edmore; right guard, Dodson; center, W. D. Francis; left guard, Jake Francis; left tackle, Jones; left end, Young; quarterback, Keys; right halfback, Ramsey; left halfback, Baidree; fullback, Audis.

Quannah: Ends, Tate and Lehman; tackles, Franz and Coates; guards, Cranford and Bentley; center, Taylor; quarterback, A. Edmondson; halfbacks, Wood and C. Edmondson; fullback, White.

COACH MUSE AND ASSISTANT TELL EAGLES OUTLOOK

May Not Cop Championship of Grid Race, But Due for Good Showing

Although he does not expect the Eagles to annex the championship of District 5-B, Coach Muse does predict a good showing in the gonfalon chase, however, he told members of the Chillicothe Lions Club at the meeting held Tuesday.

As for a fighting spirit on the part of the team it will not be lacking, and while the Eagles lacked a crushing defeat at the hands of the Childress Class A Bobcats, Coach Muse thinks it was a moral victory for his Eagles, due to the fact in the second half the Chillicothe eleven outplayed the heavier and more experienced team of Bobcats.

Lane Coach C. A. Lemmons was also a guest of the club and spoke briefly of the Eagles chances in the forthcoming district race.

Other guests of the club were J. C. Fish, this city, and M. C. Culbertson of Vernon. Lee Womack was toastmaster. Delicate plans will be known at the next Tuesday meeting as to what will be done concerning the proposed new football field for the Chillicothe Eagles.

"CAR NUMBER 20"

According to an advertisement of a large life insurance company, the driver of every woman or child before the year is over—if the accident experience of 1935 duplicates that of 1934. And statistics for the first six months of the year indicates that little if any progress has been made in curbing the dangerous driver.

Every driver should decide for himself whether he wants to be at the wheel of "car number 20." The decision is really within his power. He can carefully, in accordance with the law and good judgment—he can keep his speed to reasonable levels, maintain his car in first-class mechanical condition so far as safety devices are concerned, and work on the basis that it is better to give up his right-of-way than risk a trip in an ambulance. Or he can take chances—he can regard crowded streets and highways as playgrounds, where his reckless and adventurous instincts may be indulged to the full without regard for others or himself.

The laws of chance are immutable—and every motorist who is deliberately careless, can be certain that eventually he will come a cropper. He may get away with reckless acts a thousand times—the thousand and first time he will pay the price. Gables with death always lose—the dice are loaded before you start the game.

One car in twenty will be the cause of someone's death or maiming this year! Are you going to be the 20th driver?

NO FLY-BY-NIGHT DREAM

Action taken by the mayor, W. L. Ledbetter, and members of the city council in efforts to secure for Chillicothe WPA projects, is by no means a fly-by-night dream. Rather these gentlemen mean business, and if the WPA officials are in the right mood these projects will be a reality. Thus to labor of Chillicothe there will be something else besides the "dole" plan.

Securing such projects is not merely done to provide work for the unemployed. The city hall is needed, the city water reservoir is needed, the additional sidewalks needed, the swimming pool can be classed as a necessity, but if one of the four must be left off The News would rather see the swimming pool. We can continue to do without a place to swim, but erection of a city hall, talked a few years ago, can house city records as well as the city fire department. The reservoir would insure considerable more water without consumers forcing the pumps to keep operating most of the time. Additional sidewalks, The News is advised, will make an additional postal job for someone at a salary of \$1,500 per year.

The county's precinct 3, of which Chillicothe is located, would spend some \$80,000 on road improvements. No one can truthfully argue good roads in the precinct are not needed. And The News take this opportunity to commend efforts to bring roads up to a condition passable to the year round. His earnest work along this line has met with favor with state highway officials, who see the need of food feeder roads, and also with the other county commissioners.

All these projects, as well as the one desired by J. Roy Quinby of the Experiment Station, will tend to improve financial conditions in Precinct 3 and Chillicothe. Other communities are fighting for similar projects, and unless Chillicothe gets them, this money will go elsewhere.

People of this community should keep in mind that a trades day is being held in Chillicothe every Wednesday.

"Stop, Look and Listen," would not be out of place at some of the city's street intersections. Automobiles, that is some of them, fail to take into consideration there are other automobiles being driven and as it sometimes happens—a crash, a death, occurs.

A few months ago it looked as if there might be an Italian-Ethiopian war. Now it looks as if there MUST be. Pressure and argument by the other great powers has not changed Mussolini's determination a whit—and Ethiopia answers that she will fight for her independence until her last man has met death on the battlefield.

Italy wants Ethiopia for one simple reason—natural resources. Today, Italy is dependent on foreign supplies of raw cotton, oil, coal, iron, copper. Lack of these national essentials—which Ethiopia is supposed to possess—is hampering Italy badly.

It's the old case of a big nation going after a small one when the latter has something it can use.

THE BUSINESS TREND

Statistics indicate that both the current business situation and the business outlook are improving. Many important industries are doing better now than since 1930—some are actually running ahead of their 1929 experience.

A much asked question is: "To what extent are government policies responsible for the improvement?" A few think they should be given credit for stimulating business. But most business men seem to feel that we are making recovery in spite of, not because of, political activities. They think that if Congress took a swing to the right, the course of recovery would be immeasurably accelerated. That is a matter of opinion—and, in the light of recent Presidential statements, there seems little chance that the Administration will go conservatively. Here are some business trends of interest.

Retail Trade: Well above last year, with chain systems having a particularly favorable experience. (Sales for J. C. Penny dry goods chain recently broke all records for first-half-year sales.) National Retail Dry Goods Association forecasts that the fall season will bring a 10 to 15 per cent additional increase.

Construction: Substantially above last year. Residential awards in a recent month were 143 per cent over the same month in 1934. General Motors has announced that it will spend \$50,000,000 for new plant capacity—this represents the largest sum any corporation has decided to spend for building in a long time. For the first seven months of this year, industrial contracts totaled \$99,000,000—within a few millions of the total for the entire year of 1934.

Farm Equipment: Belief is that 1935 will be the best year for this industry since 1930. Farmers are buying again because their existing equipment is inefficient or worn-out, and they want to replace it. Most farm equipment manufacturers have taken heavy operating losses in recent years—now they are again in the market.

Agriculture: It is forecast that total farm income for 1935 will be more than \$1,000,000,000 over 1934—which exceeded 1932 by \$1,000,000,000. Some crops will be short—but better prices will make up for that. At Chicago, incoming hog shipments recently touched an all-time low, while prices reached highest level since 1929.

Electrical Power: Dow Jones News Service expert fact-finding and forecasting organization, says there is considerable indication that power production in the third-quarter will establish a new record for any comparable period in the industry's history. However, this experience may not be duplicated in earnings—rate-cuts in many localities have resulted in the industry selling more, but netting less. The fear of new tax and punitive legislation discourages normal progress in the electric industry.

Aircraft: Big manufacturers are doing better. The Army and Navy are both carrying on aggressive air-defense programs and manufacturers naturally benefit.

Steel: Operations are stable, with price firm. Machine and machine-tool makers are especially heavy buyers of the basic metal.

Lumber: Production has spurted. This is partly due to the temporary settlement of labor troubles—and partly due to the fact that lumbermen are producing heavily now in anticipation of additional Pacific Coast labor difficulties this fall.

Electrical Manufacturers: Seventy-eight makers of storage batteries, household power devices, industrial equipment, etc., reported 10.5 per cent more business in the second quarter of 1935 than in the first. Demand is still gaining in most parts of the country.

While the foregoing are facts, they should not be taken to mean that all is clear sailing for industry. Much remains to be done, and constant fear of governmental interference, at expense of recovery, is prevalent. The new tax bill, for example, seems destined to be a seriously dampening influence on industry. On the other hand, adjournment of Congress, which may be effected by the time this is read, will be a relief to business.

We don't hanker after Representative George Moffett's job. Trying to figure out what and how of the liquor selling, how old age pensions will be paid, and several other problems, is enough to keep anybody burning the midnight oil.

A business man the other day declared he had about come to the conclusion it does not pay to advertise in newspapers. Well, it is a good thing for the newspapers the firm producing the products this business man is attempting to sell, think otherwise. He is handling one of the best known lines of merchandise. But, to hold that line of goods he must advertise, else it is taken away from him and placed with a firm that does believe in advertising. Modern merchandising methods must be practiced, says this manufacturer.

Yet, faced with the fact that everything is an advertised item, and that newspaper space is steadily growing in demand, this business man of Chillicothe made this assertion. Perhaps, if it is true results have not been as satisfactory as desired, this man might take an inventory—before placing blame—and see if he is selling goods as low as nearby towns. People, you know, are told how nearby towns are priding merchandise through the newspapers of those towns, and circulated in this territory.

St. Paul, Minnesota: Strolled around the business section of St. Paul this morning. The streets are narrow and there is plenty of traffic in this busy city. Street cars gallop, and you have to watch your step at street crossings, but the traffic is well handled. I noticed particularly that the car drivers are careful drivers and, strange to say, they seem to know what the words "careful driving" mean. Perhaps the police have taught them. I don't know.

This is a great retail and jobbing center. They say that Minnesota has ten thousand lakes and that they are full of fish. I don't know about the fish, but I do know that driving through the country you find lakes that are beautiful in every sense of the word.

Drove out to Fort Snelling, one of the old Army posts. Today it is a large post and you can easily spend an hour driving around it.

St. Paul has a municipal auditorium that was erected at a cost of two million dollars. The structure is an imposing structure surrounded by spacious lawns with wide walks. The airport here is considered one of the best in America.

One could easily spend a month in this section and see many things of interest each day. I regret that space forbids my telling more about this wonderful city.

CITATION BY PUBLICATION

THE STATE OF TEXAS

To the Sheriff or any Constable of Hardeman County, Greeting: You are hereby commanded to summon Mrs. Carrie Griffin Iising (formerly Mrs. Carrie Griffin) and her husband, A. G. Iising, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published to appear at the next regular term of the District Court of Hardeman County, to be held at the Court House thereof, in Quannah on the 5th Monday in September A. D. 1935, the same being the 30th day of September A. D. 1935, then and there to answer a petition filed in said Court on the 17th day of April A. D. 1931, in a suit, numbered on the docket of said Court as No. 2119, wherein J. P. Foy is Plaintiff, and Mrs. Carrie Griffin Iising (formerly Mrs. Carrie Griffin) and her husband, A. G. Iising are Defendants, and said petition alleging: Suit on having certificate for \$256.09 with interest from May 10th, 1929 at the rate of 8% foreclosure on Lots 5 and 6 Block 91, Town of Chillicothe, Hardeman County, Texas.

Herein fail Not, and have you before said Court, at its above said next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Quannah, this 3rd day of September, A. D. 1935.

Birdie C. Hood, Clerk, District Court, Hardeman County. 6-4tc.

Dr. Hines Clark of Crowell was a business visitor in Chillicothe one day last week.

Miss Enzlee Neely of Houston arrived last Friday for a visit with Mr. and Mrs. Jess Britt.

DEPENDABLE - - -

- - - Laundry Service

THERE is a satisfaction in a dependable laundry service which a majority of housewives in Chillicothe have found most comforting. We have made a study of fabrics and we are most careful in our handling of garments.

We have several kinds of laundry service. A service geared to fit the pocketbook of all. Family laundry at a few cents per pound for wet wash.

CITY STEAM LAUNDRY

Chillicothe Phone 282

The columns show how funds were spent in the first two years of the wheat program under the Agricultural Adjustment Administration. All of the money, except a small percentage for the necessary administrative expenses, went for adjustment payments to farmers. For the first two years these payments amounted to \$300,250,000. A reserve held for refund of flour stocks taxes at the conclusion of the program amounts to \$12,900,000. Refunds on exports and funds used to promote exports totaled \$10,500,000. The cost of administration was \$5,800,500. Refunds made to millers who had paid the tax on flour that was used for relief purposes amounted to \$3,500,000. The funds for all these purposes are advanced from the U. S. Treasury. Against these funds the Treasury has the income from the processing tax on wheat. The two are about equal.

Thieves Tap Tank, Gasoline Runs Wild

Chillicothe, Ill.—Sergeant Beirman, a railroad detective, stopped in rounds today on the southwest side to smell, and then taste a stream of what he was sure was not rain water. He then set out to find the source of a small river of gasoline, flowing 12 feet wide and 3 feet deep through an industrial district in which a cigarette or spark might have started a big conflagration.

In the yards of the Red Flash Petroleum he found an electric pump which was pouring out gasoline at the rate of 100 gallons a minute from a tank which apparently had been tapped by thieves. The sergeant turned it off, and called police. The owner of the company estimate 16,000

gallons of gasoline had flowed into the streets.

Plants Die After Death of Gardener

Moberly, Mo.—Frank Ardison worked daily in the small garden behind his confectioner's shop for 41 years. Last Tuesday he died. The next day the plants in his garden began to wither. Relatives gave them every attention Arizona had been accustomed to give them, but every effort to revive them failed. Today all were dead.

Mr. and Mrs. W. E. (Bill) Week of Quannah, were visitors in the city one night last week.

ADDING MACHINE PAPER: 15¢ a roll, or two rolls for 25¢.

MEETING BEING HELD TODAY BY M. E. PASTORS

CONVENED AT QUANAH WITH REV. JOHN ELDRIDGE PRESIDING

Pastors of the Vernon district of the Methodist Church are scheduled to hold a meeting in Quannah today, convening at 10 a. m. Rev. John E. Eldridge of Vernon is presiding elder of the district.

Ministers to appear on the program include Rev. J. R. Blevins, Truscott; Rev. J. B. Thompson, Kins Memorial Church, Calmar; Rev. Eldon Cole, Vernon Mission pastor; Rev. M. E. Brotherton, Margaret; Rev. R. S. Watkins, Estelline; Rev. E. A. Maness, First Church, Childress, and Rev. Eldridge.

Mr. and Mrs. S. W. Smith and daughter, Gladys, were the guests of Mr. and Mrs. Fred Cobbs in Vernon Sunday.

Miss Patricia Simmons has gone to Amarillo for a visit with her brother, and while there will attend the Tri-State Fair.

What the Scissors Cut

Opens Member Drive—

Two rival Lion herds are snarling and snapping at each other as a result of a membership and attendance contest that was announced at the last meeting of the service club, with Lion W. D. Irvin and Lion H. C. Sanford as the head judge kings of the opposing teams.

The contest will run four weeks and will end with initiation services for the new acquired members as well as those now in the club who have never received "the works." Just what penalty the losing side will be forced to pay will be decided upon by the two captains and announced next week. —Chillicothe County Herald.

Have Shot Machine Keys—

Three strangers entered the Corner Drug store last week-end and after playing the marble machines for a few minutes, the manager found that the Robbers had taken an amount of currency from the machine. The three young men grouped closely around the machine and one of them produced a key which would fit the cash drawer, while they apparently were playing the machine. The same trio have been successful in their robbery of machines thru this section of the state. They are supposed to be from Colorado. —Quannah Tribune-Chief.

Wins 10 First Places—

Aubrey and Raymond Bates of Honey Grove took a herd of Jersey cattle to the Lamar County Fair, which was in progress last week, and came back with some fine prizes. They took 17 places in all, 10 of which were first places.

This showing in a fair where there is stiff competition proves that the Bates brothers may justifiably claim a fine herd of cattle. —Honey Grove Signal-Citizen.

Will Stage Exhibit at Fair—

Much of the judging will be done by FFA boys, and perhaps a few girls, at the aggie classes of a number of high schools of the three states represented in Tri-State Fair exhibits this year.

J. M. Hill, himself president of the Vocational Teachers Association, and instructor of the Clinton high school, will have his boys on the job early.

FFA classes of the several schools of the district will have exhibits at the fair. "This is going to be the best year's exhibit yet," said Mr. Hill, who will have a line-up on what the Future Farmers of America are doing in the way of arranging their exhibits. —Donley County Leader.

Floydada Day at Fair—

Thursday, September 19, has been designated as Floydada Day at the Tri-State Fair in Amarillo, and the program featuring this city will be under the direction of the Floydada Junior Chamber of Commerce.

A thirty minute program will be given over KQNC, Amarillo, Thursday afternoon between 1 and 4 o'clock. The program will be composed of a number of songs by the Junior C. of C. Quartette and a talk will be given by Winfred Newsome, county attorney, and secretary to the organization.

Many people from here are expected to attend the fair during that day in company with a number from the C. of C. organization. —Floyd County Hesperian.

Poultry Raisers Warned—

D. T. Mandin, proprietor of the Munday Hatchery and member of the Texas Baby Chick Association, has received information that in some localities various kinds of salesmen are going through the country and are posing as experts on culling poultry and in some instances have culled out the best of the flock, which they in turn have sold at a premium. Farmers are warned to let no one who keeps his flock unless they are convinced of their honesty. —Munday Times.

Gets Term for Stealing Dogs—

A \$25 reward has been paid by the Capper's Farmer National Protective Service for the arrest and conviction of Marion Salmons who stole two grey hounds from the posted premises of J. L. Brown, Snyder, Okla., farmer. Salmons was sentenced to one year in the state penitentiary at McAlester.

The reward has been divided equally between Service Member J. L. Brown, who kept his premises posted with warning signs, reported theft as soon as committed, and co-operated with local officers in bringing about the arrest and conviction, and S. L. Brown of Snyder who assisted in the case.

Since the Protective Service began operation, rewards total-

EAGLES BOOKED FOR GAME WITH QUANAH INDIANS

Will Be Played On Quannah Athletic Field Tomorrow Night

Better showing of Coach Muse's Eagles is expected tomorrow night when the lads mix matters with the Quannah Indians, a Class A eleven of District 5.

With a good trimming received at the hands of the heavier Chillicothe eleven last Thursday night, the Eagles mentor has been forcing the crew through some extra heavy work this week in preparation for the forthcoming Quannah encounter, revealing to the lads faults of last Thursday night's showing.

Practically the same line-up that started against the Robbers will begin the Friday night fracas. It is felt they will demonstrate considerable improvement, as a result of having one game under their belts, and while the Indians are expected to carry off the contest, they will realize, however, it was no easy matter.

It will be recalled the last game played between the two schools the Eagles annexed the fry, due to the great driving power of W. E. (Rat) Ramsey. Yet, there is another Ramsey on the way. This time it is Woodrow. He gave an exhibition of passing in the Bobcats-Eagles game that forced the fans to believe he will be heard from in the coming district grid race.

Eagles Chance Appears Brighter

But not too much has come this way regarding Olney, Crowell and Seymour, these teams are usually strong. This year should be no exception. Over at Burk Burnett Coach Volney Hill, one time mentor of the Eagles, who will carry a love for the local lads, is having his troubles. The All-Stars of Burk Burnett trounced his hopefuls in a most convincing manner which indicates the Bull Dogs are not much, if any, stronger than the Eagles. Crowell will find the absence of Todd a handicap, both in mortality and play. Too, opponents will feel confident this year in knowing Todd is out of the line-up. Crowell, therefore, will die off just about what it has to offer this coming season when the team faces the Matador eleven Friday night. It will be seen whether Todd was "all the works" or just another member of the team.

Right now, taking into consideration what was left from last year's team, the Olney Cubs stand out about as strong as any in the district. In fact, you never go far wrong in picking the Olney crew. As for Seymour, this team has been gradually getting better and do not be amazed to see the Baylor county school Panthers make a bid for the top berth.

Eagles Superior Over Last Year

Chillicothe's Eagles may not drive through to any championship, yet the lads are better than 1934. They are predicted to make it hard for any team in the conference and furthermore these same Eagles will win some ball games, just say that. Most of it won't be long now until the conference schedule gets underway—then watch the Eagles.

ing \$57,450 have been paid for the conviction of 2,262 thieves, found guilty of stealing from farmers, whose premises are posted with the Protective Service sign.

It is believed that the new system now being used by the Protective Service, for marking practically all farm property for identification in case of thefts, will go a long way toward curbing thefts from farmers in the future. —Jackson County (Okla.) Chronicle.

Centipedes Victorious—

Three centipedes, evidently of the same family, evaded a black widow spider in the Star office and won a decisive victory by stinging to death the famed local representative of the spider family. It was a vicious battle while it lasted, and the little black creature's fight a running war. When the spider was dropped in to the jar the centipedes tried to crawl through the glass, but finding they could not escape they turned and overwhelmed the widow by sheer numbers. The centipedes and black widow were found this week by Dick Lawson while he was tearing down a building north east of the city for Horace Goodwin on a lease there. —Burk Burnett Star.

Timely Topics as Viewed By Local Instructor of Vocational Agriculture

Producers Must Watch Cotton Market Price

The present cotton loan policy offers every inducement to producers to proceed cautiously and slowly with the marketing of this year's cotton crop. If an individual producer sells his cotton to the ten spot markets to 12 cents or more for that period, there would be no payment and such producer would have to be content with the price he received from the sale of his cotton. On the other hand if he holds his cotton, so as to market it later in an orderly way borrowing if necessary 3 cents per pound to meet current expenses, he will get the benefit of any advance in the market that may take place, at the same time he will be protected against loss on account of decline since he would be assured of the 3 cents which he borrowed and would get his payment representing the difference between the average market price for the season and 12 cents.

More Than Thirty Million to Corn-Hog Producers

More than \$30,800,000 has been distributed to cooperating corn-hog producers as first payments under their 1935 adjustment contracts.

Since distribution of first payments was begun on July 27, a total of 448,856 checks, amounting to \$30,886,562 had been mailed.

ed from Washington prior to August 30. Approximately \$85,000,000 will go to farmers in the first installment. The final installment of about \$10,000,000 does not fall due until after January 1, 1936. Mr. Wickard, Chief of the Corn and Hogs Section of the Agricultural Adjustment Administration, reports that \$17,017 corn-hog contracts, more than one-half of the total number of 1935 contracts, have arrived in Washington for auditing and final acceptance.

"IT SEEMS TO ME that we have reached a high degree of economic obligatorily in the United States when the 34,000 families with the greatest income received as much as the 11,000,000 families with the least income. This was in 1929. The disparity is not lessened any by the figures on individual bank deposits. In November 1934 the Federal Deposit Insurance Corporation reported that the 800,000 accounts over \$5,000 each averaged \$25,000, while the remaining 50,000,000 accounts averaged \$325 each."

CARD OF THANKS

We desire to express to my many friends who were so kind and helpful during the illness and at the death of our beloved Vernon Dale, our most sincere thanks and to those, also, who sympathized with floral offerings. May God bless all of you for your earnest prayer.

BOY INJURED BY CAR FILES SUIT TO GET DAMAGES

Vernon Youth Represented By Chillicothe And Quannah Attorneys

Seeking damages aggregating more than \$25,000 as a result of a highway accident, a suit has been filed in Forty-sixth District Court, Vernon, by Alvie Hickey and his father, C. W. Hickey, against the Johnson-Davis Motor Company of Vernon.

The petition charges Alvie Hickey, 13-year-old, Wilbarger county boy, sustained severe head and facial injuries when he was knocked to the pavement on a street in the Vernon business district June 11 by an automobile driven by Albert J. Lefield, employee of the motor company.

The plaintiff charges the driver of the automobile passed through a stop signal while the boy was crossing the street. The petition contends the boy is perhaps permanently injured and his earning capacity reduced, and seeks damages totaling \$15,000 for the boy and \$10,150 plus court costs, for the boy's father.

The suit was filed by Sam Robinson, Chillicothe, and C. Y. Welch, Quannah attorney.

Wilbarger Art Club Organized

Mrs. Dan T. Wilson of the Midway school was one of the group of Wilbarger county teachers to attend the organization meeting for the Art Club, held in Vernon Saturday.

Mrs. Horace Lovelace is leader for the club. Meetings will be held at 19 a. m. the first Saturday in each month.

Miss Ruby Cavender of the Jackson Springs school was also in attendance.

Mrs. Ed Kenshalo left Tuesday for Dallas for a few days visit with her sister, Mrs. L. Bowen. Mr. Kenshalo and the Misses Martina and Ira Lee Boone will go there Saturday for a visit.

Rites Conducted For Pybas Child

2-year-old son of Mr. and Mrs. Charlie Pybas, were conducted from the home of B. E. Northam near Chillicothe Friday afternoon, following its death in a Quannah hospital.

The child had been in ill health since last winter when he contracted pneumonia, and it was found necessary to have the boy operated on although the operation proved successful while in the hospital, however, he became afflicted with bowel trouble.

Interment was in the Big Valley cemetery.

IOWA PARK EKES OUT 1 TO 0 WIN OVER ELECTRANS

WINNING RUN SCORED ON ERROR BY CATCHER ONEAL OF OILERS

ELECTRA, Sept. 18.—Iowa Park's Buffaloes eked out a 1 to 0 win over the Electra Oilers here Sunday in the final play-off game of the Eastern Division of the Red River Valley Baseball League. By being victorious the Buffs will clash with the Paducah nine of the Western sector for the championship of the league. The game will be played next Sunday in Iowa Park.

The Buffs herd won after going 11 innings. Hinds reached second on Shortstop Francis' over throw at first, taking third on an infield out. Costley was purposely passed and Catcher Oneal threw low to the pitcher, the ball going through him. Hinds scored on the play.

Homer Lewis, the ace hurler

of the Electrans, was touched for 7 hits, struckout 3, while Vanhorn for the Buffaloes got the better of the argument when he was touched for only 3 singles, while whiffing five Electrans.

EAGLES BEATEN IN FIRST TILT BY SCORE 52-0

HEAVY CLASS A BOICATS OF CHILDRESS OVERPOWER LIGHT MUSE CREW

Although the score was 52 to 0 with the Childress Boicats on the long end of the count, Chillicothe's team, witnessing the setto last Thursday night at Childress were made "believers" in the Eagles. They returned home high in praise for Coach Muse's eleven.

Because the game was much better than the score indicates, with most of Childress' damaging work being done in the first two quarters of play, the Eagles hopped back in the third quarter and while failing to cross pay dirt out played the heavier Class A team. With a little more work, a switch in one of two spots, the Eagles will loom more in favor for the work cut out in the District 5-B flag chase.

The backfield played exceptionally good ball, with Woody Ramsey giving notice aplenty he would be there when it comes to accurately passing. Davis' fingers were a little too nimble, Thursday night, other wise a little different story might be related. Give him time, however, and it is predicted he will be snarling 'em without trouble.

A large crowd attended the game, many from Quannah also being present.

BOSTON HARDWARE

NOBODY'S BUSINESS
BY JULIAN CAPERS JR.

AUSTIN, Sept. — The race of battle to adopt a state monopoly system for the sale of hard liquor in Texas was thrown into the legislative arena this week, on the eve of the opening of the special liquor control session of the 44th legislature.

Ex-Sen. Tom Love of Dallas, spokesman for the bone drys and veteran of innumerable prohibition campaigns, sent a letter to every member of the state legislature, urging state monopoly and asserting that only in those nine states which have adopted the system has any substantial revenue accrued to the state.

Bitter, and probably successful resistance, will be encountered to his plan from distillers, liquor wholesalers and distributors, hotels, restaurants and all who hope to profit from the liquor traffic.

The state monopolists will have another try at it, if they fail in the special session, next year, when the people will vote on a constitutional amendment setting up state monopoly. Wet leaders here are gravely concerned over what will take place in the intervening year and a half. If regulation is too lax, if drunken drivers kill too many people, if public drinking by women in bars where women and young girls are bartenders is too widespread, they fear a strong reaction that will result in the voters adopting state monopoly next year.

Meanwhile, in the larger cities of Texas and in many small ones, those who profit from the sale of liquor, apparently are doing their utmost to confirm the fears of wet leaders. Throughout the state liquor dealers have "jumped the gun," not even waiting until the state constitutional amendment is repealed by official canvass of the vote this week, but opening up saloons—specifically prohibited by the repeal amendment—where all varieties of hard liquor and mixed drinks are served. Local option laws are utterly disregarded. Breweries in Texas and out, manufactured and shipped 6 per cent beer into the state even before election day, releasing it in floods on election night. Every bottle or keg that is made or sold in the state constituted a separate violation of both state and federal laws still on the books. In Fort Worth a 19-year-old girl married in a saloon as a crowd of drinkers cheered, an ordained minister performing the ceremony before an altar of roses, erected on the bar. Dragoons throughout the state, continued their magnificent disregard of all laws, and sold packaged liquor by the thousands of gallons. Whatever the legislature does, anarchy is in the saddle so far as liquor sale in Texas are concerned today.

Legislature To Grapple With Old-Age Pension Plan Favored By Voters In August Election

"Old-age pensions could cost Texas taxpayers as much as \$56,073,462 yearly if each of the 283,159 people 65 years of age and over received the full \$15 monthly allotment provided for in the recent Constitutional Amendment," State Auditor Orville S. Carpenter said today.

At the request of Governor Allred, Carpenter and R. B. Anderson, State Tax Commissioner, prepared the report "Cost and General Plan for Old Age Pensions." Upon the Governor's suggestion it was mailed to members of the Legislature, September 10.

"Experience of other states has shown that they have attempted at first to take care of only those actually in need of assistance. Requirements made of applicants have been with a view of eliminating those who, although of eligible age, did not actually need assistance. In this way other states have greatly reduced the costs from the amount necessary to pay if all persons of the required age had been included," Carpenter said.

"As there are 41,787 persons 65 years of age and over on the

Texas Relief Rolls this apparently is the minimum number able to qualify for old age pensions. At \$15 a month and with 10 per cent administrative cost added this would be \$8,273,526 yearly," Carpenter explained.

Carpenter believed the figure 62,933 most nearly represented the actual number who probably would receive old age pensions. He determined this figure by considering the experience of other states. If 62,933 people in Texas 65 years of age and over were to receive the full \$15 a month, the yearly cost to the taxpayer would be \$11,460,734. Carpenter calculated, in this he included 10 per cent administrative expenses.

"The Federal Government, if funds are available, will provide an amount equal to that spent by the State plus 5 per cent for expenses. This depends upon approval of the Texas plan by the Social Security Board in Washington. The Texas Legislature will formulate a plan for distribution, and it will decide whether or not the full \$15 maximum will be used," Carpenter concluded.

Systematic Wrecking Of Relief Rolls In Texas Will Begin Soon

SAN ANTONIO, Sept. 18—Hoping to begin a systematic wrecking of relief rolls in Texas within a week, state Works Progress Administration officials today were perfecting final plans for the execution of projects.

With State Project Director E. A. Baugh's report that Texas had requested a federal expenditure of \$176,570,000 in the state, Administrator H. P. Drought announced that the promotional phase of WPA work is completed.

Works division staff members were summoned to San Antonio to receive instruction on the actual execution of projects which have been proposed. District engineering staff members were called to state WPA headquarters by Baugh last Friday and Saturday. Coincidentally women's work supervisors from the twenty Texas WPA districts were convened for instructions from Mrs. M. K. Taylor, state women's work consultant.

"We hope to have men at work on the first \$1,500,000 in projects by next week," Baugh declared today. "This represents an amount approved for Texas at this time by federal authorities and will include work projects in every Texas WPA district."

Although the vast bulk of last-minute projects rushed into the state office for approval last week made exact computations impossible at this time, Baugh explained, engineers reported the 176 millions as the approximate total approved by state examiners for Texas.

Included in the figure were 21 statewide and multi-district proposals asking approximately \$95-

Beauty Hints

By Jane Heath

GRAB a pair of tweezers on a dainty pair of manicure scissors, and what have you? Tweezers, of course. They're the latest type of eyebrow tweezers and are warranted to do a clean and accurate job of grooming because they are so easy to handle and grip so firmly. In addition they allow the user an unobstructed view not possible with ordinary tweezers.

It is no longer considered smart to pluck the eyebrows into pencil thin lines which destroy the whole character of the face.

Today's aim is to retain individuality in eye make-up, which means following the natural curve of the brows when shaping them. Use tweezers daily to remove straggly hairs below the arch and across the bridge of the nose. This will produce that well-groomed appearance so desired by the fastidious woman.

Gravel Work Resumed On Hi-Way 23 South Vernon

Gravel work on Highway 23 south of Vernon was resumed Monday after a week's suspension due to lack of relief funds on the National Re-employment Works Relief project. About 75 men were employed on the project today.

More than six miles of a 16-mile strip south of Vernon in Wilbarger county, and more than a half-mile of an 11.5-mile strip north of Mabelle in Baylor county have been completed.

"Not So Many Years Ago" Compare!

ADVERTISING is economic news that means much to you in better living, greater comfort and increased efficiency. Just how important advertising news is in your economic scheme can be shown by a comparison.

Not so many years ago, before advertising was so general, it was hard to buy many things because distribution was small. That meant small production and consequently high manufacturing cost. It meant also high selling cost.

Advertising creates demand—widens distribution, and by creating greater volume reduces manufacturing cost; by making distribution easy it cut down selling cost. Advertising has not only made it cheaper and easier for you to buy what you want; it has also told you what you need.

The world didn't realize how much it needed vacuum cleaners, electric flatirons, mechanical refrigerators, adding machines, cash registers, motor cars and many other things until advertising pointed out the need. Advertising is the prospectus of efficiency.

It tells you what you need, where to get what you need and how much it will cost.

You bought this newspaper to read the news which is in it. News is important to you. Yet when you put down your paper without reading the advertising, you are neglecting some of the most important news it can give you.

The News

SOCIETY

PRIMARY DEPARTMENT TO GIVE PROGRAM

The primary department of the Medicine Mound school will give a program at the school house on Thursday night, September 26.

A small admission fee will be charged and the proceeds will be used to buy more equipment for the school band. The program will be in charge of Mrs. Nora Johnson and Miss Hazel Bogard.

SURPRISE SHOWER FOR MINISTER

Last Monday night a group of Church of Christ members met at the church and surprised the minister and his family with a miscellaneous grocery shower. They received many practical gifts from "cassio oil to trying size chickens."

It was made known at the shower the day was also the minister's birthday.

INVITED TO ATTEND LECTURE AT QUANA

Federated clubs of Chillicothe are invited to attend a lecture, to be given by Mrs. V. O. Taylor, state president, at the First Baptist Church in Quana, Wednesday night, September 25, at eight o'clock. The general public are invited to attend.

Preceding the lecture, however, at 7:30 o'clock, a tea will be given honoring Mrs. Taylor and also Mrs. Averitt, with only club members, however, being invited.

4-H CLUB OFFICERS

The Medicine Mound 4-H Club girls met August 21, 1935, at the high school to reorganize, and elect officers for the year's work. Miss Elsie Phillips, county home demonstration agent, was present and discussed plans for the year.

Officers elected were: President, Arnell Lawler; vice-president, Heloise Spull; treasurer, Ruth Gibson; reporter, Lela May Hendrix.

We are looking forward to a good year in club work as we had a turnout of nine old members and new members for the first time.

TRIP TO A. M. IS REPORTED

A report of her trip to A. and M. Short Course at College Station is given by Miss Ann Bryan at the home Friday.

The aim of A. & M. and faculty is to lift up the rough ways and to open the doors to a more abundant country life by Dr. T. O. Walton. "Even though club women in 1934 canned more than 400 earloads of food, planted 195,000 shrubs and trees, made 266,000 garments, refurnished 15,000 pieces of furniture, and made 15,000 comforts, they also found time to help 150,000 other farm women who were not members of the home demonstration club."

A WELCOMED SALESMAN

The Chillicothe Valley News is welcome visitor in approximately every home in Chillicothe every week. The Classified ad section of the News (little giant salesman) is one of the most carefully read departments of this newspaper. To use the classified ads means that your ad is one of the most carefully read departments of this newspaper.

PHONE: "49" ASK FOR AD-TAKER

along the way to right living," declared Miss Horton.

A committee was appointed to help the council members at the fair in Quana September 24-25. They are Mrs. Floyd Newberry, Mrs. John Lyon, Mrs. George Metcalf and Mrs. Sam Kenschalo. The committee to elect officers for another year are Mrs. E. E. Williams, Mrs. Henry Moore, and Mrs. Eli Davis. The next meeting was called at the home of Mrs. John Lyon Friday, September 26, at 3 p. m. Miss Elsie Phillips, agent, will be present. The subject for the afternoon will be "Checking Up On the Guest Room."

Those present at the meeting were Mesdames Floyd Newberry, G. Turner, Eli Davis, George Metcalf, Bill Emerson, John Lyon, H. J. Moore, E. E. Williams, J. E. Johnston, Sam Kenschalo, Misses Ann Bryan and Nannie Bryan.

NEW OFFICERS FOR WMC ARE ELECTED

Women's Missionary Union of the First Baptist Church of Medicine Mound met Tuesday, September 17, and carried out a very interesting program, as follows:

Song: "Let Him Have His Way With You."

Prayer: Mrs. L. L. Cobb. Devotional: Mrs. J. H. Ferguson.

The main purpose of the meeting was for the election of new officers and includes: President, Mrs. W. M. Tombs; vice-president, Mrs. J. A. Barnes; secretary-treasurer, Mrs. J. C. Hendrix. Plans for the coming year were discussed.

Those present were: Mrs. J. M. Doyle, Mrs. W. M. Tombs, Mrs. J. A. Barnes, Mrs. W. O. Neal, Jr., Mrs. J. C. Hendrix, Mrs. H. Ferguson, Mrs. J. P. Prescott, Mrs. L. L. Cobb, Mrs. J. H. Berry, and Mrs. J. H. Berry.

ROYAL SERVICE CONDUCTED MONDAY

Ladies of the Baptist Church met in a Royal Service program at three o'clock Monday afternoon.

A most worshipful program was rendered, everyone on the program responded with a well prepared lesson, singing much time and study having been given their special topics. Those present were Mesdames V. O. Williams, W. B. Fomby, Ira Parrack, Jack Nuckles, Early Hendrick, Ed Geo. Walton, Stevens, Harry Norwood, J. C. Fish, Ernest Williams, Ed Kenschalo, B. F. Fory, C. R. Tubb, John Knapp, G. G. Turner, Logan Francis, George Metcalf, S. H. Williams, Randal Houser, Charles Rutledge, Wayne Pennington, Phippen, Ben Wofford, and Miss Ann Bryan.

Mrs. Ben Wofford graciously extended an invitation to all the ladies of the circles to meet with her in a social hour Monday at 2 o'clock. It is hoped, therefore, everyone will show their appreciation for her hospitality by being present.

Mrs. E. E. McCleskey will lead the devotional.

MISCELLANEOUS SHOWER GIVEN MONDAY

Mesdames Frank Henry, Zor Stephens, and Miss Marjorie Henry honored Mrs. John Stephenson with a miscellaneous shower Monday afternoon at the home of Mrs. Frank Henry. The house was attractively decorated with roses and other summer flowers.

An array of lovely gifts were displayed and punch was served. Those calling during the afternoon were Mesdames Claude Estes, Faye Ford, C. D. Forehand, William Harris, Ernest Word, Carl Higginbotham, J. W. Shipp, R. S. Shuman, Bayne Young, J. B. Dodson, J. C. Fish, Wayne Pennington, Ed Kenschalo, Ed Geo. Raymond Touchstone, J. C. Carol, Jack McMichael, J. T. Boaz, Grady Roberts, J. T. Muse, Harry Norwood, Randal Boucher, Eli Davis, Earl Wofford, Edwin Schneider, J. S. Hayhurst, Douglas Golden, Van Hill, Claude Smith, Kirby Williams, Alene Gray, E. L. Grimes, J. T. Muse, Harry Norwood, Randal Boucher, George Metcalf, Ernest Williams, W. W. Bragg, Roy Sutton, C. B. Haynes.

Misses Lucy Stephenson, Fern Kennedy, Ida Marie Chambers, Betty Jewel Henry, Onita Wood, Geraldine Hutchins, Willie Mae Poole, Edith Emerson, Frances Graham, Betty Montgomery, Ora and Hazel Davis, Mary Margaret Oliver, Lee Ross Bayles, Frances Metcalf, Mary Ruth Calhoun, Zelah Thompson, Frank Swain, Eva Joe Chambers, Shirley Plummer, Frances Brock, Vivian Metcalf. Those sending gifts were Misses Angie Lee and Winnie Lee.

Williams, Mary Honeycutt, Virginia Sills, Cordia Francis, Alice Poehman, Tommie French, Boyce Young, Ruth Word, Mesdames Reed McPherson, A. E. Howard, Ben Word, Frank Graham, J. H. McRee, O. D. Poque, Percy Stephens, S. H. Williams, L. A. Brock, B. M. Poole, A. G. Rummel, Mitchell Ledbetter, Dick Erwin, R. E. Chandler, L. D. Hadman, Kim Henry, Charlie Timmons, Jack Morrison, Freddie Dunn.

BLUE BONNET CLUB COMMITTEES NAMED

The Blue Bonnet Study Club resumed its activities and started a new year with its first meeting September 19 at the home of Mrs. Sidney Ayers. The first meeting was called "President's Day," and the program consisted of an address by the club president, Mrs. J. B. Forbes.

The meeting was called to order with the roll call, after which a short business session was held. During this time the president appointed committees as follows:

Executive Board: Mrs. Forbes, Mrs. Sidney Ayers, Mrs. J. B. Quinby, and Mrs. R. L. Leach. Program: Mrs. J. Roy Quinby, Mrs. B. M. Poole, and Mrs. R. L. Barlow.

Membership: Mrs. H. B. Turner and Mrs. Blevins.

Clive Improvement: Mrs. J. F. Graham, Mrs. R. M. Leach and Mrs. R. L. Wicks. Entertainment: Mrs. C. R. Tubb and Mrs. C. B. Kennedy.

Junior Club Sponsors: Mrs. J. B. Forbes and Mrs. J. Roy Quinby.

Courtesy: Mrs. J. F. Graham, Mrs. Sidney Ayers, and Mrs. B. M. Poole.

The club promises to be very interesting and worthwhile during the forthcoming year as the members are planning to devote the course of study to "Visits to Historic Shrines in the United States."

During the social hour lovely refreshments were served to the following: Mrs. C. B. Kennedy, Mrs. H. B. Turner, Mrs. C. R. Tubb, Mrs. J. F. Graham, Mrs. R. M. Leach, Mrs. J. B. Quinby, Mrs. R. L. Barlow, Mrs. J. B. Forbes, Mrs. B. M. Poole and the hostess, Mrs. Sidney Ayers.

The next meeting of the club will be September 24 with Mrs. Quinby as hostess and the subject for discussion will be "Health."

AT THE CHURCHES

CHURCH OF CHRIST

Elder Clyde Embry, Minister. Sunday services: Bible Study, 10 a. m. Preaching and Communion at 11 a. m. Young People's Singing Class, taught by Mr. Measley at 7:30 p. m. Preaching at 8:00 p. m.

Mid-week devotion: Ladies Bible Class meets Monday afternoon at 2:30.

Bible study and song practice on Wednesday nights at 8:00 p. m. Everyone is extended a hearty welcome to attend every service.

FIRST METHODIST CHURCH

Rev. R. T. Breedlove, Pastor. All regular services will be held Sunday. Church school at 9:45, preaching at 10:55, Young People's meeting at 7:00, evening preaching at 8:00.

All people are invited to the Kingdom of God to partake of free salvation. The church offers a service to all who will come. Bring a friend who needs the ministrations of the church, the consolation of religion.

There is a mid-week meeting for Bible study and prayer and song. A good number come, but there are many others who should avail themselves of that help. "Come with us, and we will do this good."

FIRST BAPTIST CHURCH

Ira L. Parrack, Pastor. All regular services Sunday and during the week. Sunday school, 9:45 a. m., with an earnest teacher and a congenial class to help you in the study of the Bible.

Preaching by the pastor, 11 a. m. and 8 p. m.

Morning subject: "Life's Supreme Question."

Evening subject: "Something Better Than Gold."

Training service: 7 p. m., with a welcome for all who will come. Following the evening preaching service there will be a baptismal service. All those approved for baptism are urged to be present. Others who desire to come with them to follow the Lord in baptism may be received at the morning or evening service.

You will find a hearty welcome in all these services.

Have Returned Home

Mr. and Mrs. C. L. Glazener arrived home Wednesday afternoon. Mr. Glazener has been visiting in Archer City, following an operation for the removal of his tonsils.

Culinary Jingles by Marcia Camp

Byrd may have his triumph While barred deep in snow, And Beebe rise to fortune By doing far below. But to the average woman There's one sure way to fame: Just mix the cake ingredients, And make and serve the same!

MARSHMALLOW ICE BOX CAKE

EVERY interested homemaker likes to be the first in her circle to do the interesting new things in foods and from the hostess' new point of view, any culinary triumph is marveled at least threefold when the triumph dish was made with a minimum of labor. Quite aside from the saving in effort, there is the delightful implication that it is easy for her to produce a masterpiece. Very hard to do—prepare dish in this chocolate box marshmallow cake, it is sure to be a real masterpiece.

CHOCOLATE ICE BOX MARSHMALLOW CAKE

3 dozen lady fingers 40 cups marshmallows

2 squares bitter chocolate 1 pint cream

Line the sides of a 10-inch spring-form pan with halved lady fingers, rounded sides out. Cover the bottom with lady fingers. Prepare the filling by steaming the campfire marshmallows and chocolate with the milk until both are melted, and stir until mixture is smooth. Remove from stove and cool thoroughly. When cold, beat until stiff ½ cup of the cream and fold into the chocolate mixture. Pour half this mixture over the bottom layer of lady fingers, cover it with the remaining lady fingers, and add the remaining chocolate mixture. Place in refrigerator to chill overnight. Just before serving, remove the detachable sides of the spring-form, slide the cake onto a handsome serving plate, and cover the center with the rest of the cream, whipped until stiff. Shave sweet chocolate over the top of the whipped cream if desired. Serves 8.

Another special virtue of this cake is that it requires no accompaniment whatever except coffee. It can stand on its own merits, a real test of goodness.

CAMPFIRE MARSHMALLOW KITCHEN PHOTO

Thirteenth Annual Young County Fair at Graham Starts October 1

GRAHAM, Sept. 18.—A West Texas-wide amateur tournament will feature the entertainment program of the thirteenth annual Young County Fair in Graham, October 1-5.

Among the other attractions will be horse races, cowboy exhibitions and a new aggregation of midway attractions, according to G. O. Court, fair association president.

The agricultural, livestock, poultry and women's work exhibit departments will be full of high quality displays. Persons interested in entering the competition in any of the divisions will be furnished a premium list on application. Mr. Court said.

Any person or group in West Texas not of professional rating in the entertainment vocation, who sings, dances, plays instrumental music or has any other sort of entertainment talent, are eligible to enter the amateur contests officials of the fair announce. No entry fee will be charged and cash prizes will be awarded the winners.

The first three evenings of the fair will be devoted to the preliminaries in the contests and the three winners on each of these programs will be given cash awards. The last two nights will be the finals and those who are judged the winners on these programs will receive additional prizes and will be presented on radio programs on at least two well-known Texas radio stations. All interested in participating in the contest should communicate with the secretary of the Young County Fair, not later than Saturday, September 28.

Application Forms For Cotton Subsidy Available Now

COLLEGE STATION, Sept. 18.—Forms are now being printed for the producer to make application for the adjustment payment, commonly known as subsidy, on the 1935 crop of cotton and they will probably be available immediately for distribution to county agricultural agents in charge of the program in the counties." F. E. Lichte, senior administrative assistant, division of cotton, said.

Information required on this form is the date of sale, name and address of producer and purchaser, and the following items: number of bales; gross weight including bagging and ties; price per pound paid producer; total value of cotton; amount of charges, if any; amount paid producer, followed by signature of the purchaser. Where cotton is sold in the seed, the amount of seed cotton purchased and the seed cotton expressed in pounds of lint is required.

"Any producer under a cotton adjustment contract who agrees to participate in the 1935 cotton adjustment program and sells his 1935 crop cotton before August 1, 1936, is entitled to the adjustment payment," Lichte said.

He added that the producer who did not sign a contract is also eligible to make claim for the subsidy. He will, of course, agree to participate in the 1936 cotton adjustment program and will be paid when his compliance has been certified.

The subsidy will be the difference between the average of the 16 spot markets on the date of sale and 12 cents, middling seven eighths basis. Maximum payment, however, cannot be more than 2 cents. The total sales subject to subsidy is the amount of such producer's Bankhead allotment.

It is expected that checks will be delivered to producers approximately December 15, 1935, and March 15 and August 15, 1936, depending on the date the application is signed. It is proposed that a disbursing section will be set up in Texas, thereby saving much time," Lichte, added.

Desk Sills and son went to Tyler Tuesday on business.

COOK BROTHERS--GEORGE AND TOM--RESIDE IN FARMERS VALLEY COMMUNITY; BOTH MARRIED AND LIVE IN SAME HOUSE; ARE HAPPY AND PROSPERING AS GOOD FARMERS

Came to Hardeman County in Year 1923 from Checotah, Oklahoma. Where They Resided for 20 Years; Lived in Arkansas for Twenty-two Years; Were Born in Mississippi August 7, 1872, But Would Not Be Taken for 63-Year-Olds. Do Major Portion of Trading in Chillicothe.

BY "THE ROUNDER"

This story is not about just one, but two—being George and Tom Cook, the two young gentlemen living in the Farmers Valley community. Both are about the same size, height and weight, look alike and are much alike in ways—they are twins.

On August 7, 1872, in Calhoun county, Mississippi, these two young men saw the light of day. When they were nine years old, however, the parents loaded them into the wagon and carried them away to the grand old state of Arkansas. Twenty-two years later the twins set out for Checotah, Okla., deciding to make their home in the Sooner State—not, however, until they had made "believers" out of Miss Ella Hardester and Miss Mattie Underhill. George married Miss Hardester in 1892, and three years later Tom took the path of matrimony and Miss Underhill became his wife.

Tom and Mrs. Cook have three children, Lillie, Homer, and Alma.

It has long been said no two families can live under the same roof and live happy. George and Tom refute this charge, have done it for a long time, still doing it and from all indications will continue. That's exactly what they are doing—living in the same house on the G. T. Sanders place in Farmers Valley.

Both men are good farmers, happy-go-lucky, kind. They meet you on the street with a smile. Through the fine personality belonging to both of them they have built up a friendship among the people of this vicinity that will live long. Everybody knows the Cook brothers. They are usually referred to as "shorty" but being twins one wonders sometimes which

one of the "Shorty's" being talked about.

The Cook brothers have been residing in Hardeman county since 1923, coming to Texas from Checotah. They have been here since, like this part of the country and doubt less will never leave. Both trade in Chillicothe because they know advantages are greater here. Usually when you see one you see the other. They attend the trade days in Chillicothe nearly every time one is held, and most times can be found here on Saturday's.

They are fine men. They are a credit to their community. They are industrious, always looking ahead. The two are strong for this part of the state, willing to always cooperate for the benefit of friends and community.

Sometimes their friends like to pull a joke on them, and one tells this on George: George had stated there was a new baby at a certain house in his community, so the friend inquired, "Has the baby come to stay?" so George promptly replied, "I think so. He's taken all his things off."

Personally, the writer feels George would never make such a statement. He is quite too modest for things of that sort. Yet, all will agree it's a good joke, and more so when George is accused of telling it.

Tom is a victim of accusation as well. For instance: "They say a bachelor is a man who has been crossed in love, but let me tell you (on the quiet, however) that a married man is one who has been double-crossed."

And there you are. Chillicothe people are always glad to have the Cook brothers and their families come to this city. Their friendship is desired, and too, the

business they turn this way is always appreciated. Let it be hoped they will continue to find Chillicothe the best place to visit.

LARGE EXHIBIT FARM PRODUCTS WILL BE SHOWN

STATE FFA PLANS COMPREHENSIVE DISPLAY AT TEXAS CENTENNIAL

DALLAS, Sept. 18.—Ten thousand Texas farm boys, members of the Future Farmers of America, will stage the most comprehensive junior farm exhibition in the history of the Southwest at the Texas Centennial Exposition next year.

The 435 chapters of the Future Farmers in Texas are already organizing for a seven day special show under direction of Paul G. Hayes of Austin, State Director of Vocational Agriculture. County and sectional shows to select the best products for the Dallas Exposition will be held.

Dairy and beef cattle, horses and mules, sheep, goats and swine, all pedigreed animals raised by the junior farmers, will constitute the livestock exhibit. Scientific feeding of livestock will be demonstrated. The agricultural show will display the results of scientific farming. There will be milking contests in the dairy department and egg laying competitions in the poultry section.

The farm boys will convene on Dallas in special trains, buses and automobiles. They will be housed in dormitories built for their benefit. A two hundred piece band, composed of young farmers, will provide music.

Future Farmers Week at the Exposition, which opens June 6, has been tentatively set from November 21 to 28. It will be one of the closing features of the \$15,000,000 show.

Mr. Jess Dale visited in Houston and Waco last week.

Lloyd Stevens of Dallas, was a visitor in Chillicothe with home folks and friends, Tuesday.

..TEXAS..

Series of Articles Taken From the Bexar Archives at the University of Texas and Pertaining to History of State.

BY LORNE DEUMOND

Series II, No. 21

AUSTIN, Sept. 18.—Claims against the Government for losses suffered on the Texas frontier from Indian depredations must have been made during the years that followed the Civil War for this subject occupied Congress' attention many times in the last two decades of the nineteenth century. In the James Beckner Barry papers, now deposited in the archives of the University of Texas library, there are dozens of documents and communications concerning this problem. Barry himself was one of the victims of Indian violence and thievery, and these letters and legal papers reveal his long drawn out efforts to obtain some recompense for his losses.

It was early in 1888 that Colonel Barry wrote to Washington seeking information as to how to present his claims. He received a reply from J. W. Throckmorton, evidently a member of the committee on pensions, as follows:

"In answer to your letter I have to say that claims for depredations committed (by Indians) having treaties with the United States prior to December 31, 1873 were required to be filed with the authorities of the government within three years after the time the depredations were committed, and if not so filed within the three years were barred by the statute.

"Claims for depredations committed by treaty Indians since Dec. 31, 1873 if not heretofore presented may be hereafter filed.

"If the claimant speaks of one of the latter class, and you can prove the tribe or tribes of Indians committing the offense, the time, the character and value of the property stolen or destroyed, and the locality when it occurred by the oath of the claimant two or more witnesses, we will, upon request, send you blanks and instructions.

"If any action of congress is had that will remove the bar to claims incurred prior to Dec. 31, 1873 that were not presented in time you will be notified. There is no effort to get legislation in the barred claims and to create a tribunal before which all these claims can be tried.

"There is no law to pay any of these claims—only measures authorizing their investigation after they are established they have to go to congress for appropriations to pay them.

"There is no use to get up testimony for the claims that are barred—if congress relieves the bar then will be time enough for that.

"I have made an arrangement with one excellent atty. living here to attend to these matters. His fees are 25 per cent on amount of recovery."

Eleven months later, Colonel Barry received a communication from Isaac R. Hitt, Illinois State Agent, dated February 5, 1889, stating:

"The Indian depredation bill which passed the House last session has just been favorably reported in the Senate with some amendments.

"This bill provides that all Indian depredation claims go to a special court for adjustment. If you have no attorney in Washington to look after your interests we would offer our services for a fee of 25 per cent charging nothing if we fail.

"Reference given if desired." Barry evidently did accept Hitt's offer until some months later, but he did submit his claims, attested to by a Bosque county notary. On April 6, 1889, he made the following affidavit:

"Before me D. R. Mitchell, justice of the peace and ex-officio notary public in and for Bosque county, Texas, on this day personally appeared James B. Barry of said county and state to me well known who after being duly sworn deposed and says that on or about the twenty-ninth day of December, 1857 the Comanche Indians made a raid through his settlement in the day time, killed one, Mr. Bean and his negro fellow, killed one Mr. Johnson and carried his son, Peter Johnson, off captive, that they taken off seventy eight head of his horses from where he had them herded seventy of which he never recovered or received any compensation for from any person whatever, that said horses were well worth fifty dollars per head on an average, making in the aggregate \$3500 that he knew them to be Comanche Indians from the following circumstances, that himself and one John Walker followed after them 140 miles to near the Comanche agency on

the Clear Fork of the Brazos river near Camp Cooper they went to said Comanche agency, seen some theirs and neighbors horses there that the sub agent one Col. Leeper made them give to all he and Walker could recognize amongst them were eight of his own, that he talked to one the friend by Comanche chiefs thru the government interpreter. One Jim Shaw he understood from him to be a Delaware Indian who told him his chiefs wild brothers came there to the agency and persuaded his young off to depredate on his white brothers that in the division of captured horses his young men brought in those he recovered. Further one Shawnee Indian, who followed the trail while fresh said he knew from the sign found on the trail that they were Comanches. That he Barry, saw six or seven years old and lives on the same place he did in 1857 that his P. O. is Walnut that he was induced to move where he now lives by the Indian agents reporting all the Indians friendly on the frontier, that the damage of said loss was at least ten per cent per annum since 57 making 31 years amounting to ten thousand eight hundred and fifty dollars both loss and damage."

(Signed) James B. Barry.

Barry's testament was accompanied by the sworn statements of several other Texans whose story of the depredations corroborated his. The matter was caught up in a mass of red tape.

That Barry's claim was by no means an isolated one is clearly indicated in the letter which his friend Jo Abbott, a member of the United States House of Representatives, wrote him from Washington, April 26, 1889:

"I am in receipt of yours of the 16th addressed to Col. Stewart and myself enclosing the affidavits of several gentlemen as to the loss sustained by you from Indian depredations.

"The Secretary of the Interior who has to pass upon such claims will not act on your papers because the same are barred by limitation—the only chance for you is through a special relief bill, and candor compels me to say, this is a slim chance.

"There are now between six and seven thousand bills asking for similar relief said bills aggregating over nineteen millions of dollars. Some of these claims perhaps half of them have been before Congress for many years some of them for twenty years.

"The committee on Indian depredation claims have before the House a bill which has for its object the creation of court of Indian Depredation Claims and providing for the transfer of all these claims, without regard to the age of the claim, to said Court.

"Of course, I can't tell whether this bill will pass or not. I don't know, you may in the course of time get your money. But if congress refuses to create this court and take the claims out of the Statute of limitations, I see no chance in the world ever to secure what is due you—the chairman of the committee tells me that the committee is so overrun with these claims, they have quit reporting any of them, and have concluded to make a general law referring all these claims to a court as before stated. In order to preserve your claim, I have introduced a bill for your relief, and sent the same with the affidavits to the committee—committees never give receipts and therefore I can't send you one, but every committee has a clerk whose duty it is to reserve all papers, records etc. I shall vote for the bill creating the court to pass on this claim, as I regard it as the only way by which any of these claims will ever be paid."

Returns to Tech

Garland Blanchard of Farmers Valley left last Thursday for Lubbock to resume his studies at Texas Tech.

W. E. Williams returned to Chillicothe Tuesday after a business trip in Dallas and Waco.

wanted. We pay market prices. We sell gas and oil and will appreciate your business.

W. L. LEDBETTER
PRODUCE & SERVICE
STATION

MAGNET BEING USED ON ROADS

Picks Up 20 Pounds Iron Properties Per Mile

Who would guess that a magnet could pick up 20 pounds of nails, tacks, screws, bolts, horse shoes, and other articles of iron properties from every mile of unpaved road on Scurry County's triad of state highways.

Nobody, probably. But that's just what happened when a nail picker from the State Highway Department visited the county last week. J. W. Whitaker, operator of the magnetic machine, reports that he dumped 1,261 1/2 pounds of nails and similar iron articles after his truck moved slowly across the 44 miles of this county's unpaved state highways.

Scurry County, by the way, had a higher percentage of iron per mile than other counties of this division already visited by the nail picker.

The magnetic nail picker was brought to this division at the request of W. A. French, division engineer, in order to remove tire hazards from the highways, reports G. R. Austin, maintenance foreman for Scurry and Borden counties.

These hazards consist of nails, screws, staples, wire, bolts, horse shoes, broken car springs, railroad spikes, tin and other articles of iron properties. The magnet will not pick up gold, lead, silver, copper, brass, aluminum or platinum.

Whitaker Gives Figures

Figures compiled by Whitaker for Scurry county roads are as follows: Highway No. 83, 15 miles of dirt from Snyder to the Fisher county line, 252 1/2 pounds; No. 32, 16 miles of dirt from Snyder to the Borden county line, 613 pounds; No. 191, 15 miles of dirt from Snyder to the Mitchell county line, 468 pounds.

Several pounds were taken from the highway leading from Scurry county line to Gail and 100 pounds from Gail to the Dawson county line, 18 and 17 miles, respectively.

In Borden county, 250 pounds of iron was picked up—150 pounds. The nine miles of dirt road on Highway No. 101 from the Scurry county line to Colorado yielded 84 pounds of iron. Eighty miles of dirt road in Stonewall county yielded 2,227 pounds; 25 miles in Kent county, 1157 pounds; 17 miles of No. 101, Scurry county line to Roby, yielded 252 1/2 pounds of metal—Scurry County Times.

Seriously Ill

S. D. King, who has been in ill health for sometime, became worse this last week at his home here and is said to be in a very serious condition.

Miss Buena Wofford of Wichita Falls was a week-end guest of her father, W. T. Wofford, and family.

Culinary Jingles by Marcia Camp

When the ball was over,
And gone the couch-and-eight,
Did Cinderella sit and weep
About her ugly fate?

Why no, she was a modern gal
With resources supreme
She took the crastible pumpkin
Couch.

And turned it to ice cream!

MARSHMALLOW PUMPKIN

PUMPKIN pie and apple pie may fight for supremacy as the great American dessert, but there is no doubt as to their leading rival—ice cream. And when pumpkin pie turns into pumpkin ice cream pie it probably takes a definite lead, for it combines the virtues of both these favorite American sweets, besides prolonging the pumpkin pie season through the summer.

This particular pumpkin ice cream pie is a perfectly new and fall-proof recipe known as Pumpkin Alaska because of its kinship with the familiar delicacy, baked Alaska. The ice cream is a marlow, or campfire marshmallow ice cream, and its marshmallow content is absolute assurance that it will be smooth and fine-textured as the finest ice cream to be bought.

The procedure is simple, yet the result is one of the most aristocratic and elaborate of desserts, and is sure to be a complete novelty to at least nine out of every ten people who taste it.

CAMPFIRE MARSHMALLOW KITCHEN PHOTO

PUMPKIN ALASKA

16 campfire marshmallows	1 1/2 teaspoons cinnamon
2 cups canned pumpkin	4 tablespoons orange juice
1/2 cup brown sugar	4 egg yolks
1 teaspoon salt	1 1/2 cups whipping cream
1 1/2 teaspoons ginger	Baked pie shell
2 tablespoons boiling water	6 egg whites
	6 tablespoons sugar

Melt the campfire marshmallows over hot water. While they are melting add pumpkin, brown sugar and salt. Mix ginger and cinnamon with boiling water and add with orange juice to marshmallow mixture. When marshmallows are entirely melted, remove from stove and add egg yolks. Mix thoroughly and place in freezing tray of mechanical refrigerator to chill. When mixture is slightly stiffened, whip the cream and fold in lightly. Return to tray and freeze without stirring.

Just before serving spread the frozen mixture in the pie shell and cover with a thick meringue made by beating 4 egg whites until stiff, but still shiny, and folding in the sugar. Place pie under broiler flame for a moment to toast delicately browned, watching carefully (browning should take not more than 2 minutes). The pie shell and meringue prevent melting of filling. Serves 6 to 8.

Although the pumpkin ice cream pie is scarcely any more complicated to make than an ordinary pie, the hostess who makes it will be credited with a far greater achievement.

Funeral Director's License Is Awarded Chillicothe Woman

Mrs. E. W. Gees was advised by A. E. Rogers, secretary of the Texas State Board of Embalming with headquarters in San Marcos, that she had successfully passed the examination for a funeral director's license.

The communication was received on Friday the thirteenth, but that holds no ill luck for Mrs. Gees, however.

Mr. and Mrs. B. J. Bassel and two daughters, Miss Dorothy Jean Bassel and Mrs. Vernon Andrus, and Mr. Andrus, were in the city Sunday as guests of relatives, Mr. and Mrs. Henry Moore. They live at Duke, Okla.

District Court At Crowell For Next Two Weeks

CROWELL, Sept. 18.—Two week's term of the Forty-sixth District Court opened here Monday with Judge W. N. Stokes of Vernon, presiding. The board county grand jury also convened. Following the Crowell term, court will be convened at Quanah for three weeks, and will be followed with a term at Vernon.

ENLISTMENT FOR CCC WORK URGED

May Apply at Local Office of Administrator

AUSTIN, Sept. 18.—Completing the expansion Civilian Conservation Corps enrollment by enlisting 14,819 Texas youths, district administrators are now looking toward the October enrollment when every additional eligible candidate in the state is expected to be given a chance to join the CCC. State Enrollment Supervisor Neal E. Guy has announced.

Not only will more new enrollees be accepted, but present enrollees may remain in camps indefinitely, as mandatory discharges have been discontinued.

Guy explained, "As long as a person's work and conduct are satisfactory he will be allowed to remain in camp, but an honorable discharge will be granted him promptly if a position is secured which will better his condition."

District administrators, as district supervisors have been instructed to check their rolls, listing the number of youths between 18 and 25 and families are on relief. The CCC to get in touch with their county case worker, some cases he said, applied for physical defects are now acceptable if the defects have been corrected.

Attend Wolf Hunt

J. F. Graham, C. E. Haynes, J. A. McCaw, A. E. Aulds and Constable Jake Lowe attended the wolf hunt, staged about eight miles south of Quanah Tuesday morning. About 75 dogs were unleashed for the hunt.

Miss Tressie Turner is spending a few days in Quanah with her sister, Mrs. Jack Roark.

Montgomery Ward Sales In August Largest Since 1929

Montgomery Ward & Co. announced in mid-September that their sales for August were the largest for that month since 1929 and showed a gain of 20.8 percent over August, 1934. The total volume for the month was \$22,848,589, compared with \$18,914,957 in August of last year. For the seven months ending August 31, sales amounted to \$156,137,638, an increase of 20.5 percent over the total of \$129,612,867 in the same period of 1934.

By all national commercial reporting agencies the sales of this company are regarded as a reliable barometer of trade conditions, particularly in the Midwestern and far Western farm belts.

At the same time several of the large chain organizations reported August sales as follows: Crown Drug Co., 7.61 percent over August last year and 24.5 percent for the past 11 months over the corresponding period of last year. McClellan Stores Corp., 16.2 percent increase in August over the same month in 1934. Rose 5-10-25 Cent Stores, 38.5 percent increase last month over August, 1934. J. C. Penny Co., 16.8 percent increase over August last year, and Lerner Stores Corp., 15.5 percent increase.

THE CHILLICOTHE VALLEY NEWS

"A Public Institution"

SCHOOL BOOK COVERS GIVEN BY PHILLIPS

FROM 3,000 TO 5,000 WILL BE FURNISHED CHILLICOTHE SCHOOLS

Three thousand of the 5,000 school book covers which will be required by Chillicothe school children are being furnished by the Phillips Petroleum Company according to an announcement made jointly by A. L. Honeysett, the local Phillips agent, and W. E. Hancock, Superintendent of Schools.

State law requires that all text books be covered adequately and the covering of the books ordinarily presents quite a problem, both to the schools and to the individual pupils, according to the Superintendent. With the Phillips Petroleum Company furnishing all the school book covers needed in this locality, free of charge, that problem is solved.

The need for these school book

covers has caused the Phillips Petroleum Company to furnish covers similar to the ones they are furnishing to local schools, to school children in other Texas towns and cities.

In addition to this activity in providing school work covers, Hancock stated the Phillips Petroleum Company contributes several hundred thousand dollars annually to Texas schools through tax payments.

The firm will handle automobile and radio batteries as well as being able to install in rural or town homes a complete lighting system.

ATTENDANCE AT SUNDAY SCHOOL REGISTERS 483

INCREASE OF 429 COUNTED OVER PREVIOUS SUNDAY ENROLLMENT

Last Sunday's attendance at the Bible classes at four churches perhaps shows the largest increase that has ever been registered since organized, being 429 over the previous enrollment.

However, this was brought about through the inability of churches to show a regular attendance on September 8, when a heavy rain forced many to remain at home.

Churches Sept. 15 Sept. 8
Presbyterian 45
Baptist 175
Methodist 142
Church of Christ 129
Totals 483
Summary: Gains, Methodist 124 Church of Christ 84.

LARGE CROWDS IN ATTENDANCE AT TRADE DAYS

YESTERDAY'S EVENT FEATURED 3-ROUND BOXING MATCH BY NEGROES

Another huge crowd was in Chillicothe to attend the weekly trades day, conducted every Wednesday, and featured for the event was a 3-round boxing exhibition between a couple of the darker hue.

Stores reported a pick-up in buying on the part of Chillicothe community people.

To Attend College Cecil Flynn, son of Mr. and Mrs. F. A. Flynn, departed Saturday for College Station where he has enrolled as student at A. & M. College.

Mr. and Mrs. Cecil Laird of Sandusky, Ohio, were here Tuesday and part of Wednesday looking after land interests.

V. O. Williams and C. E. Carlock returned to the city Monday night from Lubbock, Mrs. Carlock who accompanied them, did not return home until yesterday.

WITH THE HOME DEMONSTRATION CLUBS.....

More Storage Provided The cellar which was too small for the storing of things which had to be stored in it has been enlarged by Mr. and Mrs. Ben Bailey of the North Groesbeck community. The cellar was enlarged by digging out at the back and making it longer.

Home-made Furnace From an oil barrel, an old stove grate, and cement, Mrs. G. P. Reynolds of North Groesbeck has a furnace inside her wash-house. The oil barrel was cut in two-thirds and the cement and stove grate was used for the bottom. The smoke pipe is made from old pipe casings of an old well.

Foods Fill Pantry One hundred and forty-one quarts of fruits and vegetables, 131 pints of corn, jelly, and jams are found on the pantry shelves of Mrs. Lee Bordsoske of North Groesbeck Home Demonstration Club. Fall canning has just begun. There are two varieties of peas with a total of 68 quarts, 102 pints of corn, 58 quarts of peaches, 3 quarts of peach juice, 16 pints of grape jelly, 2 pints of grape jam, 4 pints of plum jam, and 8 pints of plum jelly.

RECENT SUBSCRIBERS:

R. F. Harvey, route two out of Chillicothe is assured of another year's reading of the Valley News, having ordered the paper as a renewal recently.

J. M. Collins, route one, Chillicothe, recently renewed his subscription to The News.

S. I. Davenport, route 5, Vernon, and living in the Farmers Valley community, is a recent new subscriber for The News.

Before his departure for Chandler, Arizona, M. J. Stevens made sure he would keep informed about local conditions by seeing to it The News reached him every week.

Miss Kathryn Boaz, now a student at McMurry College, Abilene, ordered The News each week during her stay there.

Frank Henry, who believes ice is the best refrigeration there is, has ordered The News for another year.

Virginia Carlock, now a student at Texas Tech, wants to keep in touch with affairs at home. She is receiving The News.

J. H. Hughes, station agent for the Fort Worth & Texas City Railway, will receive 52 more issues of The News, having placed his order Tuesday.

NOTE: Are you a subscriber? If not, why not place your order today for a year's reading of The Valley News. It's better because it's newer.

Large Shipment Of Piston Rings Is Received Here

Enough piston rings sufficient to equip practically every automobile in Hardeman county were received this week by the Chillicothe Auto Supply, and Tommy Whiteley, proprietor, has been busy since unpacking and placing the rings in shelves.

The total cost for the rings will run to something like \$1500.00. Whiteley asserted, and gives to the supply house one of the largest stocks in northwest Texas.

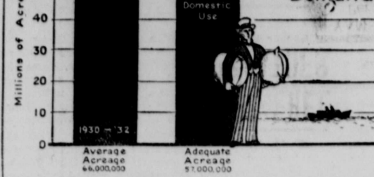

Recover Part—

(Continued from Page 1) scattered the merchandise at three different places in a pasture near Haskell, discovered by farmers who reported to Haskell county officers.

Hardeman county authorities returned the stolen articles to Chillicothe Saturday.

Mr. and Mrs. A. E. Turner were here for over the week-end, visiting Mrs. Turner's father, W. T. Wofford, and family. They have moved to Oklahoma City from Borger.

Adjusted Acreage Provides Adequate Wheat for Domestic & Export Demand

THIS chart shows how the loss of export markets for wheat has changed the wheat acreage situation in this country. The first column shows that from 1930 to 1932 our farmers averaged 66 million acres planted to wheat, although about 9 million of these acres were producing wheat for which there was no profitable market. The second column shows that 50 million acres usually produce enough wheat for our domestic use and that 7 million acres more will produce all we can export to export. Because of severe crop damage this year, somewhat more than 57 million acres is expected to be planted for the 1933 crop. The figures are based on average yields.

Hopes of 123,000 Texas Boys Rests With But Two Men

SAN ANTONIO, Sept. 18.—Hopes of 123,000 jobless Texas youths today rested largely upon the efforts of two men.

It is to Lyndon B. Johnson, youth state administrator for the National Youth Administration, and to A. A. (Pat) Bullock, veteran Texas educator, recently named education director for Works Progress Administration, that the more than one hundred thousand idle youngsters in this state look for help.

Differentiating between the WPA education division and the NYA, State WPA Administrator, W. P. Drought explained that the NYA is located in Austin under Johnson. Bullock is headquarters with other WPA state division heads in San Antonio. Johnson has been commissioned by President Roosevelt to administer to the needs of young Texans. All projects handled by Bullock which involve the helping of people between the ages of 16 and 25 will be correlated with Johnson's office.

Help for college and high school students, jobs on work projects and in private industry, training on apprenticeship basis and establishment of camps for jobless young women will be works attempted in the correlation of the efforts of the two federal agencies pledged to help America's young folk.

With projects still in the formative stage, Johnson has envisioned a program embracing 10,000 young people being aided through college. 5,000 more receiving help that will enable

them to attend high schools. As many as possible of the remaining 25 will be placed on work projects and in private employment, Johnson stated.

Applications for college and high school aid must be made to the principal of the desired high school or to the president of the chosen college. Johnson instructed young people seeking educational aid. For work project or private industry jobs, youngsters should apply to the nearest National Re-Employment Service office, Johnson stated.

In addition to the youths who may receive help through the combined efforts of the WPA educational division and the NYA, many jobless school teachers will be benefited, Johnson predicted. Freshmen colleges in many small towns are planned. Thus, a number of young people unable to afford college training, may be grouped together and receive freshman instruction from an unemployed teacher selected by the sponsoring college or university. Twin benefits of free college training in their home town for class members and a living wage for the instructor are forecast by the plan, Johnson declared.

Establishment of five training camps for unemployed young women is projected in the state, Johnson said.

HEALTH TALK

By John W. Brown, M. D. (State Health Officer)

"Heart disease ranks first in the list of killers today. During the past thirty years it has been steadily increasing. Few people

ever associate impairment of this vital organ with diseased mouth conditions. Yet in a very real manner the health of the heart and its consequent ability to do its work properly can be definitely affected by an unhealthy mouth," states Dr. John W. Brown, state health officer.

"While, of course, there are many other causes for heart impairments than diseased teeth, gums, or tonsils, there certainly is every good reason to establish and maintain daily and periodical prophylactic measures so far as the mouth and teeth are concerned. Not to do so is merely adding another menace to the heart already beset with disease. The fatalities that seem to be a part of present-day life.

"If the individual will assume his responsibility by consuming a nourishing diet, keeping his mouth clean through daily brushing, and having a regular inspection by his dentist and physician, undoubtedly a fair proportion of heart disease, not to mention many minor ailments, could be eliminated that have their origin in diseased mouth conditions.

"Unlike public health control measures, dental supervision is a highly personal matter. There is no legislation covering the situation, nor is there any enforcement officer to keep one in line. Therefore, common sense and reasonable concern for one's heart should prompt interest in teeth, mouth, and throat.

"As an authority tersely puts it, 'Keep your heart out of your mouth and your mouth germs out of your heart.'"
