W.D. Newell Appointed Surveyor

Resignation Of Long-Time Official Occasioned By New Regulations

Walter D. Newell Monday was appointed county surveyor of Floyd county, succeeding Geo. A. Lider resigned.

The Commissioners court in special session offered the place to Newell, who has been deputy surveyor since 1926.

He accepted the appointment.

Mr. Lider's resignation, tendered the court effective September 1, was occasioned by new regulations of the Works Progress administration based on the last act of congress.

Mr. Lider has been serving as supervisor of plans and operations for the Amarillo WPA district for nearly 2 years, while continuing to serve Floyd county as surveyor. He had an extensive clientile in the plains and panhandle area also in civil engineering projects of various kinds. Newell has been serving as his deputy and handling engineering jobs in this area.

Has Served Many Years

Mr. Lider's first service in this area was in 1909, when he came here as engineer on the construction of a railway line, now the Santa Fe, into Floydada. He was first elected surveyor of the county in 1910 and has served as such continuously since. Some of the outstanding work of land line location, based on surveys of the late seventies, was done by him and scores of land boundary suits avoided by his expert service in locating old lines and establishing old corners and monuments set up by the early-day surveyors in this area. He had been particularly active in Floyd, Crosby, Motley, Briscoe, and Hall counties until he accepted the project engineer's assignment for the Amarillo district of WPA 2 years ago. He is one of the few licensed land surveyors in the area.

Newell's experience as surveyor and engineer on various projects in this section has extended over a long period of years, as deputy in the local surveyor's office under Mr. Lider and as engineer on several road and land location projects.

Alabamians Observe "Day" Tomorrow At Floydada City Park

John H. Myers, chairman of arrangements for the Alabamian homecoming stated this morning that everything was in readiness for an enjoyable day to be held at the City park tomorrow. A good attendance is anticipated from over the county and the South Plains.

Mayor Glad Snodgrass will speak at 11:30. Registration will begin at 10 a. m., Mr. Myers said. A basket lunch will be served at noon and the afternoon will be given to reminiscences and a business session.

ENOCHS MOVE TO WISCONSIN

Mrs. J. A. Enoch and daughter, Mrs. Ronald McPeak and Mr. McPeak will leave this week for Plattesville, Wisconsin to make their home.

They have made this their home for the past 14 years, most of which time has been spent in the cafe business.

Mrs. W. N. Brewster has leased the cafe and will continue to operate it. The lease was effective August 20.

Brisco County Is Placed In District Roads Very Bad

Highway maintainence Foreman A. J. Hamilton this week lost some road miles in Crosby county and gained some in Briscoe in a change ordered by the highway department. He no longer has the east and west highway maintainence in Crosby county but has all of Briscoe road maintainence under his jurisdiction.

Serious need of a magnetic nail remover on those portions of Highway 207 in Floyd and Briscoe county where new grades have been pulled up was indicated this week by travelers who said that all the nails and old bolts that had jostled off of vehicles for the past 20 years have been thrown up into the roadbed and are making travel on the unpaved portion of the road between Floydada and Silverton more or less of a nightmare. One traveler, who makes the route quite often as a part of his routine, said he expected one tire puncture per trip as a matter of routine.

School Of Instruction Interrupted Long Enough For All To Attend Picnic

At Carrick Snodgrass Home

W. T. McKinney, Floyd County RR supervisor, played host last week-end to more than a score of FSA administrators and workers when they met here for a school of instruction. Regional and district officials were among the visiting delegation Lamb, Lynn and Dawson county FSA leaders also were guests.

A picnic dinner at the home of Mr. and Mrs. Carrick Snodgrass Friday evening after hours of inspection of Tenant Purchase farm homes in Floyd county, climaxed Friday's session of the school of instruction held here last week-end for rural rehabilitation officials of F. S. A.

Rex. B. Baxter, state director of the Tenant Purchase program in this state, opened the sessions of the school and set the tempo for the gathering. It was an intense study of the Tenant Farm purchase program for regional, district and county rural rehabilitation workers with the Floyd county operations of the program as a "laboratory" example. Ten farms have been purchased in this county in the past 2 years and the landless put on them. A study of the good and bad points of practice here for the benefit of Lamb, Dawson and Lynn county officials and for Amarillo and Lubbock executives was the principal objective of the meetings.

During the two days technical matters had particular attention. Mr. Baxter opened the program Friday and discussions were made by Dan P. Chisholm, acting attorney, who talked on preparation and legal sufficiency of options; and Lloyd R. Johnson, contact engineer, who gave salient points on construction and repair on improvements on TP farms.

The picnic dinner followed on Friday.

Saturday morning there was a group meeting of stenographers, home supervisors, RR supervisors, when discussion of various phases of the program was held.

Homer R. Robbins, regional chief, TP section of the Farm Security administration, talked on land appraisal and Mr. Chisholm discussed the closing of loans in the legal and technical phases.

State Director R. B. Baxter introduced several visitors during the meetings, among these County Judge G. C. Tubbs.

Enjoy Picnic Lunch

The drive of more than a hundred miles over the county to inspect TP farms, was joined in by several persons not directly associated with the program of the FSA, and the picnic dinner at the Snodgrass home near Blanco school was a delightful climax for a busy day. The host and

1938 Crop Losses On Wheat Repaired By Ins. Policies

Williams Says Apply For Insurance Before Seeding Your Wheat

COLLEGE STATION, Aug. 28.—with more than half a million dollars repairing the damaged purchasing power of nearly 2,000 Texas wheat farmers who had bad luck with their crops this year, county AAA officers recently began taking applications for insurance on wheat crops to be harvested in 1940.

E. R. Duke, state crop insurance supervisor at Amarillo, emphasized the farmers this year must apply for the insurance before they seed their wheat. Premiums are payable when the application is filed.

Much interest is being shown but only 36 actual applications have been written on 1940 wheat crops in Floyd county, said L. A. Williams, all-crop insurance supervisor for the county Monday. Mr. Williams stressed the fact that the farmer must apply for insurance before he seeds his land for 1940.

Meantime, adjustment of 1938 crop losses continued throughout the wheat belt.

In Briscoe county 120 growers had collected the equivalent of $49,331 on August 1; around $35,000 had been divided among 94 growers in Hale county; Floyd county wheat farmers had received $33,397 in settlement of damage claims, and adjustment of losses had netted $21,170 to 150 growers in Young county.

INFANTILE PARALYSIS INDICATED IN DIAGNOSIS OF JEAN WESTER ILLNESS

Mr. and Mrs. J. C. Wester this week believe their daughter Jean is showing marked improvement in a Lubbock hospital, where she was taken last week.

Diagnosis indicates infantile paralysis, attending physicians told them, and muscles of the throat and chest are affected. Mrs. Wester is with her daughter and Mr. Wester is spending much of his time with her also.

Mrs. Caffee V-President Association

Floyd County Chorus Expected To Appear On Program Next Week

Mrs. C. A. Caffee of Dougherty will be installed as district vice-president of the Texas Home Demonstration association at the biennial convention that will be held at Lubock September 5, 6, 7. She will succeed Mrs. W. G. Kennedy of Muleshoe who has served as vice president for the past two years.

Mrs. J. L. Morris of Lamesa, president of the association, made a recent trip to London where she represented the association at the Fourth Triennial conference of associated county women of the word.

The state is divided into 2 districts with a state president, state secretary, state treasurer and 12 vice-presidents. These are elected for 2 years. Each county has two votes.

Mrs. Caffee received her appointment at a recent meeting of the association held at Lubbock when 55 Floyd county women were present. She is also a member of the program committee for the Lubbock meeting.

To be eligible for the office of district vice-president, a member must have been a club president and president of the county council. The duties of the office are to preside at all district meetings.

Delegates from the council who have been appointed to attend this meeting are Mrs. S. J. Latta, Mrs. A. H. Kreis and Mrs. Sam Hale. Alternates named are Mrs. W. B. Jordan, Mrs. Tom Boyd and Mrs. Caffee.

The Floyd County chorus, of which Mrs. Wm. Finkner is director, has been asked to appear on the program and is planning to attend. A large delegation of club members from the county are also panning to attend the convention.

BISHOPS ATTEND REUNION

Mr. and Mrs. J. B. Bishop and children attended the Caudle family reunion last week end at Slaton. Approximately 200 members of the family were present for the reunion.

Large Crowds Attend First Games of Lockney Baseball Tournament this Weekend

Donald "Wimpy" Thomas Wins Game For Lockney Monday By 11-2

For the fourth year Lockney is buzzing through a baseball tourney, probably the best ever staged according to reports from that section, with Lockney, Lubbock Hubbers, Lubbock Independents, Sudan, Ropesville, Slaton, Petersburg, and Wake entered.

Not only has the ball playing been tops but most all of the games have been witnessed by the largest crowds ever recorded at baseball games in this section.

Sunday a double header was presented. The Lubbock Black Hubbers tangled with the Sudan Smashers in the second game after Ropes had baffled the Lubbock Independents to win 8 to 4. The Hubbers and Sudan battled for 10 innings to end up in a 4 to 4 deadlick. The umpire called the game on account of darkness.

Monday Games

Sudan and the Hubbers met to play off their deadlock on Monday as the first game of the double header. Sudan pasted the horsehide hard to win 12 to 4. John Henry, Hubber pitcher, failed to scare the Smashers with his rep or his speed ball.

Lockney met Slaton in the second game of the Monday double-bill with Donald "Wimpy" Thomas serving them up for the Yankees. Wimpy whiffed 12 Tigers and gave away 5 hits and 2 runs while the Yankees put on the power to get 11 runs from 8 hits. Lockney made one error while Slaton bobbled 9 times.

Tuesday Fast

Petersburg took Wake into camp in the first game Tuesday 19 to 0. Petersburg managed for 15 hits, 3 errors for their runs while Wake made 3 hits, and 7 bobbles.

The Lubbock Hubbers managed to salvage a certain amount of their reputation by murdering the Lubbock Independents in the second game 25 to 13 in a game that resembled a track meet more than most anything. The Hubbers collected 16 hits, making 3 errors while the Independents made 10 hits while making 17 errors.

The loss by the Independents put them out of the tourney as two losses means elimination.

Mrs. C. A. Caffee, above will be installed as district vice-president of the Texas Home Demonstration association at the biennial convention that will be held at Lubbock in September. Her duties will be to preside at all district meetings.

Floyd County Gets Twenty-Five N Y A Jobs as its Quota

Floydada Schools Awarded Nine Jobs; Lockney Schools Get Six

According to information this week from County Superintendent Clarence Guffee Floyd county has received a quota of 25 NYA school aid jobs. The advice concerning the jobs was made through J. C. Kellam, state administrator.

The state administrator said this quota was based on the county's relative youth population and its particular need for NYA school jobs.

The NYA placement committee met Monday afternoon and distributed the NYA jobs among the various schools. The committee is composed of J. W. Jones, superintendent of Lockney schools, Walter Travis, superintendent of Floydada schools, and Superintendent Guffee.

The committee awarded nine NYA jobs to Floydada schools, six to Lockney schools, and one each to Irick, Sand Hill, Aiken, Providence, Dougherty, Pleasant Hill, South Plains, Fairview, Sterley and Lakeview.

Kellam said that as soon as the committee report is received, forms will be mailed to schools recommended by the committee and approved for participation in the program. He said the school aid program would operate throughout the next school year in much the same manner as it did last year, with only a few minor changes in administration and regulations.

The quota of NYA school aid jobs for the entire state was paced at 12,546. This is an increase of approximately one-third over last years' quota, and the state NYA administrator estimated that some 20-thousand students in Texas secondary schools would be enabled to continue their education this year through operation of the school aid program.

MRS. L. G. WITHERS HOME

Mrs. L. G. Withers, who had been at a Vernon hospital for an appendicitis operation, was brought home last week and members of the family indicated she has been recovering speedily.

WISDOM TOOTH WINS FIRST FALL; COLONEL MASSIE IN HOSPITAL

Col. W. M. Massie is one of those persons who, fortunately, has escaped the "misery" with an impacted wisdom tooth. That is, he was until a short time ago.

And now, after poulticing and humoring and otherwise trying to get along with a big jaw for days he is in a hospital with—of all things—a wisdom tooth.

He was getting along yesterday very well, it was reported from a Lubbock hospital. He was a bit out of patience with himself and not so anxious for any commiseration from friends or publicity in the newspapers, it was indicated, but otherwise okey and the swelling subsiding.

Intra-Club Meet Has 160 Present

District Governor Present For Rotary Get-Together Here Last Night

Approximately 160 Rotarians and their wives gathered last night at Wester Field to hold an intra-city meeting of the Ralls, Spur, Lockney, Plainview, and Floydada Rotary clubs.

The visitors were headed by District Governor Hiram Arrant of Abilene and Ed McLaughlin, director of Rotary International, of Ralls. Both made brief addresses to the Rotarians and expressed their enjoyment at attending such an excellent gathering.

Lon Davis acted as master of ceremonies for the afternoon before the "mike" and introduced the speakers and performers.

The Rotarians began to gather on the football field about 7:30 p. m. and before the "come an' get it" call was sounded some 160 had gathered to talk and introduce themselves to each other.

A chuck wagon feed was given, including on the menu T-bone steak, buns, stewed apricots, potato chips, doughnuts, coffee, beans and iced tea. J. C. Wester and J. A. Arwine were head sargeants of the kitchen detail.

Following the "grub session" Lon Davis introduced Fred Lowe Plainview and his band who swept the Rotarians almost out of the grandstand with their harmonica-string orchestra.

Alton Chapman, Rotarian from Spur, introduced the Spur club president, O. C. Thomas who spoke a few words of appreciation and congratulated the clubs on their meeting together.

Arthur Barker of Lockney, who lays claim to be something of a magician, explained to the assembled group how "to take off your shirt without removing your coat." And to the astonishment of the Rotarians and himself was able to do it.

While Barker retired to a private spot to replace his shirt, Bert Winfrey, president of the Ralls Rotary club introduced Ed McLaughlin also of Ralls. He explained the duties of the board of directors, of which he is a member and told of his experiences at the Cleveland meeting.

Following the speech by McLaughlin, Barker returned to the scene and showed the Rotarians a version of the "old shell game" except he did it with hats and used paper wads instead of peas...anyway it

Townsend Organizer Will Speak Saturday Afternoon In Floydada

Grover C. Miller, Plainview who is an authorized organizer and lecturer of the Townsend plan in the 19th Congressional district, will speak on the Townsend plan here Saturday afternoon, he announced Tuesday.

The speaking will be on the court house lawn at 4:30 o'cock. "We plan to revive and re-organize the organization here," he said. "Everybody especially interested parties, are invited to be present."

GREER CHRISTIAN IMPROVING

Greer Christian was brought home from a Lubbock hospital Wednesday morning where he was carried Saturday for treatment.

He is able to be up and thought to be improving relatives said Wednesday.

Tests Show That Water Supply In Floydada Is Good

The scare of the past week over health conditions occasioned by reports of undulent fever and prior to that over possible typhoid, has put all hands on the spot who have to do with food and water sources.

The report this week that there has been or is contamination in the local water supply was answered yesterday by a statement from the Texas State Health department to the effect that certified samples submitted from Floydada definitely gave a clean bill of health to the supply at the high school, the ward school and at the city's tanks.

At the county court house, however, the tests of the department gave a negative reaction and a telegram yesterday to City Water Superintendent E. S. Price said attention should be given to defects in plumbing there.

City Schools Will Open 4th

Walter Travis, former county school superintendent, will begin his first year Monday morning as superintendent of Floydada schools when the 1939-40 school year officially gets under way. Enrollment this year at FHS is expected to be the largest in history.

Juniors And Seniors Will Do Their Registering At School Friday

Although the officials opening of Floydada schools is set for Monday morning the actual 1939-40 session will get underway tomorrow morning with the registeration of the juniors and seniors. Followed Saturday with a faculty meeting of the teachers at the high school. At that time the various sponsorships and responsibilities will be fixed for the year.

Monday morning the other high school students and ward school students will register for the session and receive their books and instructions. An informal opening exercise will be held Monday morning at Andrews Ward auditorium.

Tuesday morning at 9 o'clock assembly will be held at the high school auditorium where announcements wil be made by faculty members and class officers of past years are expected to make a gift presentation to the school.

Coach Odell Winter and Assistant Coach Thomas will begin to issue football equipment Friday morning and two drills daily will be held until the next week. Approximately 35 boys are expected to start drilling Friday.

Superintendent Walter Travis said that 500 ward school and 400 high school students are expetced to enroll this year in the Floydada system.

Lockney Begins Today

Superintendent J. W. Jones of Lockney school announced that seniors will begin registeration this afternoon with juniors registering Friday afternoon from 2 until 4 o'clock.

The other school children will register Monday at the high school and ward school buildings with a short informal assembly being held Monday at the ward school auditorium.

Coach Leo Cooper will issue football equipment Friday morning and the Lockney team will begin to work out for the 1939 season. It is expected that pictures of the 1939 football boys and team will be taken Saturday afternoon.

The high school will be headed again by Superintendent Jones assisted by Principal G. D. Tate. The faculty will be made up of Leo Cooper, coach; F. H. Wardel, math; Mrs. W. M. Haithcock, English; Miss Eunice Coleman, English; Miss Ruby Foster, commerce; Miss Mary Leda McAdams, home economics; R. K. McCoy, vocational agriculture.

Ward school faculty will be headed by Principal C. E. Blount, Mrs. Clyde Applewhite, first grade; Mrs. A. L. Shaw, second; Miss Frankie Dodson, third; Mrs. Edwin Johnson, fourth; O. B. Wilbanks, history, and Miss Agnes Cooper, language-arts.

LIGHT PLANT PROGRESS

Subcontractor Goolsby of the Goolsby Electric company Fort Worth, who will build the distribution system for the Floydada Electric system, was in Floydada last week-end and indicated that materials are enroute and construction of the system will begin in the next several days.

Meanwhile W. R. Pender, of Locke & Company, has several men at work on the cooling tower for engines, putting in pipe fittings and installing auxiliaries. Mr. Pender offered it as a guess he would have an engineer making a test run by October 10.

COUNTY ATTORNEY HOME

County Attorney John Stapleton has returned home from Mineral Wells, where he went recently for the baths and a rest.

Monday, Dollar Day Here

Monday is Dollar Day in Floydada again, in addition to being the first day of the opening of school and auction sales day at the Phillips-Bradley barns in southeast Floydada.

While not all local retail establishments are joining in the plans for the Dollar Day event, some of them are making big preparations for the event, it is indicated by advertisements in The Hesperian this week. The perusal of these ads will indicate as much to the thoughtful buyer.

"Our people just naturally like to observe First Monday," said Walton Hale of J. C. Penney company. "Speaking for my own firm in particular, and for other department store in general, we're anxious to make the date a really worthwhile merchandising event for anybody who comes to our town on that day."

Dollar Day, it is evident, will see many outstanding values for shoppers who are expected and being prepared for from a wide trading area.

SAND HILL REVIVAL CLOSES

Rev. G. W. Tubbs closed a ten-day revival meeting at the Lakeview Baptist church Tuesday night with 10 additions to the church.

He will preach at his regular appointed time Sunday morning for the church immediately following Sunday school service.

There will be baptising services at 3 p. m. at the Henry Graham tank.

WATER IN THE TIRES

Two or three years ago the plains farmer found out he could use a rubber tire on his tractor and, by the use of an ingenious device substitute water for "weights," getting a free load of aqua pura from the windmill to take the place of a $35 set of lugs that a steel mill man in Illinois wanted to sell him. Saving also a bruised hand or a detached finger in the operation. The saving in overhead in one way and another has practically taken the steel wheel off the market for a tractor in this part of the world.

RUBBER TIRED PLOWS, TOO

Assuming you live in a town, Floydada or Portsmouth, Ohio, for instance, you've always thought of plows as having iron wheels, heavy and hard to pull, probably wooden bearings even.

Well, times have moved along and now its plows with rubber tires, 15 per cent easier to pull and, of course, ball bearings that take a lot of the weight off the wheel and put the energy down where the plow is cutting through the ground.

Back east, of course, they're not doing this. They're still using one-row outfits and even Georgia stocks, those graduates of the universities, who will give you all the answers quickly and make an old Floyd county boy look and talk like a pewter quarter.

But results are results. And, letting somebody else have the credit for the college degrees, the plainsman has found out he can save 15 per cent by using a rubber tire on his plow and he is changing over as fast as he can.

ANOTHER PROBLEM SOLVED

Another problem the rubber tire on tractor and plow is solving is that of the highway department, which three years ago put into the budget thousands of dollars for specially constructed tractor crossings on highways. The department, having its nose to the grindstone as it were, expected to have many more years with many more thousands of dollars expended in each, putting in crossings for steel tractors and the lugs that make them hold to the surface of the earth.

The farmer and his free water that took the place of many heavy weights and a lot of heaving and tugging, has solved this problem, too.

Still, they tell us you have to go to college to learn things. What the college man at A. & M. of Texas and the specialist from the eastern institute didn't know and couldn't know from the study of his textbook the old farmer boy out in Floyd or Motley county found out by doing and using his head.

Now the highway maintainer can go ahead with his knitting and the steel man can revise his plans. Fortunately, there is no Mr. Hitler in Austin or Washington, anxious as they appear to be in those cities to assume that role, to tell Mr. Farmer what he has to do about the wheels on his plows. Unfortunately they are making it tough on him in some instances if he does not follow instructions in other matters.

WHEAT CROP INSURANCE

If you live in the panhandle and intend to apply for wheat crop insurance remember the deadline has been set for September 30 in this area. That is the word from A. & M. college of Texas, where we go to get our "powders."

TOO EARLY, MR. ROOSEVELT

Floyd county turkey raisers have a devil of a time getting their fowls in shape for Thanksgiving every year, even when it comes on the calendar. This year the nation's chief executive has decided to proclaim Turkey day for a week earlier than has been the habit, taking the moon, the stars, the Zodiac, et cetera, including the changing seasons, into consideration. He wants the New York and Boston and Floydada city merchants to have a week more of selling time between Thanksgiving day and Chirstmas.

We have nothing against Mr. Roosevelt nor the merchants of any city or town. However, we sympathize with the folks who want to condition and sell their turkeys on the first available market, to take their profits or losses, as the case may be. And we imagine it doesn't make a great deal of net difference to the merchants.

Which means we string along with Mr. O'Daniel, the Texas governor, who doesn't worry about the turkey producers but is sympathetic to Texas Christian university in his home town and wants to see them do well. Your needs make strange alliances for you and for me.

Mr. Roosevelt thinks about the big stores. Mr. O'Daniel thinks about TCU. We think about the turkey raisers.

HOW TO COOK FRIED CHICKEN

On another page in this newspaper is some advice from Extension Service A. & M. college about how to cook the meat of a chicken to a golden brown, make it delicious and just right.

To which we add our advice and we ask nobody's pardon for this:

Cook chicken in some kind of fat that does not leave it smelling like something else—the South Sea Isles or rancid grease, the Phillipine Islands, or something.

It can be done, we are almost sure.

IF YOU ARE A LATE STAYER-OUTER

Possibly one of the nicest gadgets yet brought out for the benefit of those who get in late at night, and who oftentimes are desirious of not letting the wife know the lateness of the hour, is a wall switch with delayed action that gives one a few seconds after the switch is flipped to get in bed before the lights go out. . . . Now, if someone would announce a door hinge oil that would make the squeakiest door soundless, and a product that would make a loud footstep sound like the faint tinkling of a far-away bell, the delayed action wall switch ought to get places.—Leon Guinn in Snyder Times.

A PECULIAR STATE OF MIND

". . . . I intend to feel out a bunch of young fellows about organizing a Junior Chamber of Commerce. I have about given up hope of more mature men creating an older Chamber of Commerce in spite of the fact that their buildings are the ones that are either vacant or are drawing low rents, and their business houses are bringing low dividends."—Deskins Wells in Wellington Leader.

The fear of the Lord is the beginning of wisdom; a good understanding have all they that do his commandments; his praise endureth forever.—Psalms 111:10.

OUR PUZZLE CORNER

As A Farm Woman Thinks

(By Nellie Witt Spikes)

A soft rain is falling and the tall oak trees stand as good children getting a bath. Down in the valley the sun is shining and soon the shining clean leaves will be dried with a soft yellow towel. A rain crow chants dismally. Little bits of fog here and there wrap the trees in a pale blue gauze.

The damp air carries sound well. The zoom of the airplanes, the whistling roar of the trains, the whizz of swiftly driven cars, a vain rooster crowing. The children at the hospital are screaming and laughing, the clatter of an old buggy and the clip-clop of little mule's hoofs on the hard packed road. The gid-dap, gid-dap of the negro drivers.

The train is coming. The track is only a few yards from the house. The brick house shakes, we cannot hear each other speak. They tell me the grade was made by longhorn Texas steers pulling the scrappers. Some of the snorting, wild stampeding spirit must have entered the giant engines that bellow and puff out black smoke and soot in their mouth.

I went in town with my son Thursday who had a few hours work in the clinic. Near by were the dark red brick buildings of the University of Tennessee. Ivy covered them like a blanket of green. From the window of the third story I watched the scene below. Arkansas, Mississippi, Florida, Kentucky, Oklahoma and Texas were numbered on the parked cars.

The Gaston hospital was on one side of us the Baptist hospital was on the other. Young medical students and white clad nurses hurried around. Negro men, women and children poured into the clinic to be examined and to receive treatment.

An ailanthus tree grew from the yard and reached green leaves to the third story.

Tomorrow we have planned to go to the famous old battlefield Shiloh. I will tell you all about the trip later.

FLOYD COUNTY 14 YEARS AGO

(Issue of September 3, 1925)

Proposals of plans that will bring about the election to vote bonds for paving several blocks adjoining the square in Floydada, without any increase in tax rate, are being considered by city council, it was stated by T. R. Webb, member of the council and president of the Chamber of Commerce at a called mass meeting of the citizens at the district court room Tuesday night. While the purpose of the meeting was to discuss matters relevant to outlined work for the Chamber of Commerce for the next few months, the subject of city improvements was brought up and was given several minutes discussion by those present.

Miss Jennie Lewis was hostess at a delightful miscellaneous shower given in honor of Mrs. W. Henry Edwards Tuesday afternoon from 6 to 7 o'clock at the L. H. Lewis home on South Main street. Miss Mable Faulkner and Miss Anna Marie Moore assisted in receiving the guests. There were 36 present. A number of beautiful gifts were presented the honoree, who was recently married in Plainview and will make her home here.

Gins in Floydada have been testing out their machinery and "tuning up" this week for the big run of ginning which will start at an early date. All the gins have announced ready for the opening of the season, with the expectation that the first bale will arrive in Floydada soon.

Orders have been placed for compete new equipment for eighteen men who will comprise first string line-up for the Floydada High Whirlwind squad, according to Superintendent J. C. Wester. The new trousers, sweaters, headgear and sox will carry out the high schol color scheme of green and white, he said. The helmets will be green with white bands, the trousers will be green and the jerseys of the same color with large white numerals. The sox will be green with white stripes.

Miss Florence Green and Mrs. W. H. Nelson who have been spending their vacation at points in western states, were present at the wedding of their brother, Roy Green to Miss Ruth Taylor. The ceremonies were performed at Hemingford, Nebraska, and Mr. and Mrs. Green will be at home in Arnold. Col. Roy was reared in Floydada and is the son of J. H. Green of this city.

Announcement that the Sand Hill Community fair will be held on Wednesday, September 23, was made by W. R. Dooley who was elected general superintendent of the fair at a meeting of the P. T. C. society at Sand Hill Friday night of last week.

Scared, Glad Of It

The war on human nerves continues in Europe and no one can tell just when it may become a war on human lives. Everyone lays the blame for the whole thing on Hitler, and justly so, but after all the whole thing goes back to the treaty following the World War when the allies did their best to whittle Germany down to a nub and humble her. So there is blame to be placed for the situation upon England, and France and their foster child, Poland.

If you will take a look at the Polish map and see from whence the territory came following the war to create the Polish state it is not hard to see why Russia and Germany signed their treaty. Russia bears no love for Poland since the allies took quite a slice of Russian territory to create the state, even more territory than was taken from Germany, Austria-Hungary, and other smaller states.

The Russians thought this would be a good chance to break Poland, a state she has never loved or appreciated, and at the same time put a crimp in the Tokio-Berlin love making...since the Japs are not sold to any big degree on the Russo-German non-aggression treaty.

It looks as if the Allies are scared of Hitler, Mussolini et al and the Rome-Berlin axis was scared of the Allies and the United States is glad of it...and we all hope Europe stays too scared to start war.

Here At Home

Here at home we have to put up with oil shutdowns, flour salesmen that have become governor, Communists meeting in San Antonio, politics, cables of peace sent by our illustrious president to Hitler telling the Fooey-er where to "sic" his dogs of war, the home stretch of baseball toward championship, the opening season for football, a 13 year old girl marrying a 78 year old man, etc, etc., but ain't it swell to be in a fairly free country, not mentioning of course all the laws and taxes our legislators have pinned on us in the past 150 years.

Good Old Football

While Europe goes its way merrily to war about umpety-upmh, thousand athletic minded American boys are learning how to block, tackle, carry a football pass, kick, and run. There will be several million bruises, scratches, black eyes, but the fatilities will be small and all those thousands of boys will reap benefit as will our nation.

In District 4-A the fans are getting down to their dope books and everyone is pumping everyone else for ideas on their team and any other team that may be mentioned in the course of the conversation... anyway every fan has an original idea concerning the standings at the end of the season, stars, and other points concerning football.

Floydada almost has her football slate completed for the coming year and it is probable that it will be finished this week...Coach Winter and Superintendent Travis are negotiating with a good Texas team for one of our open dates.

Good Turnout

Something like 35 boys should answer the call to arms on September 1 if counting noses from spring training means anything. Of this number 25 should be numbered as "promising" and doing their share of playing this fall...of course no one, not even the coach, knows just who they will make the first two strings.

If there are two complete teams with a few substitutes, the Whirlwinds can get some training this fall with scrimmage, something they have not been able to do heretofore due to lack of man power.

Henry A. Self, Retired Farmer Floyd County, Passed Away Saturday

Henry A. Self, 73, retired farmer of Floyd county passed away at his home on East California street August 26, after several months illness. Funeral rites were held Sunday at 3 p. m. o'clock at the First Methodist church by Rev. Fay Hinton of Jayton assisted by Rev. Jno. E. Eldridge. Interment was made in the Foydada cemetery directed by the Harmon Funeral home.

On December 26, 1886 Mr. Self was married to Miss M. E. Lattimer. Five children were born of this union. Mrs. Self died November 18, 1899.

May 15, 1901 Mr. Self and Miss Charity E. Martin were married and four chidren were born of this union. The widow and nine children survive. They are Mrs. Lon Queen, Channing; Mrs. A. L. Clanton, Channing; T. E. and R. E. Self, Rule; F. J. Self, Haskell. Mrs. B. E. Springer, Jayton; Mrs. O. Meek, city; Oran Self, Haskell; Dale Self, city. He is also survived by two brothers P. D. Self of Fairland and N. B. Self of Lipan.

Out of town relatives present Sunday were P. D. Self, Mr. and Mrs. Edward Clanton, Dimmitt, Mr. and Mrs. Dorman Clanton, Plainview; C. L. and J. E. Martin, Weatherford W. R. Martin, Electra; Mrs. A. J. Martin, Petersburg; Mr. and Mrs. Clyde Martin, R. O. and Charlie Martin, Petersburg; Mr. and Mrs. Estus Martin, Clovis, New Mexico; Claud Martin, Electra and Mr. and Mrs. Marvin Martin and family, Petersburg.

Out of town friends present were Mr. and Mrs. Ed Wilson, and J. M. and Earl Cluck all of Rule; Mrs. Dan Bradley, Jayton; Mr. and Mrs. Nolan Corder, Mr. and Mrs. J. B. Springer and family, Lorenzo; Mr. and Mrs. Clifford Petitt, Monroe.

The deceased moved to Floyd county from Haskell in 1930.

Pallbearers were Fred Nabors, Alpha Boothe, A. L. Barker, Burl Huckabee, Grady Freeman and Earnest Holigan. Flower attendants were Mesdames Wanda Lee Fawver, Esther Holligan, Mary Adams, Dorris McNutt, Florence Boothe and Virgie Leatherman.

Miss Leona Carter of Longview spent the week-end with her parents Mr. and Mrs. Jimmie Carter.

Strain Funeral Held Friday At Plano, Tex

Funeral rites for John Henry Strain, 67, were held at the Crager Funeral Home at Lockney, Friday, August 25 by Rev. Clifford Potts following Mr. Strain's death at 10 p. m. o'clock Thursday. Death was due to appoplexy. Interment was made in the Plano (Texas) cemetery beside his first wife.

Mr. Strain was considered a progressive farmer and had made his home in Foyd county 14 years. He had lived, during that time, in the Pleasant Hill, Center and Muncy communities. His home, at the time of his death was two and one-half miles east of Lockney.

The deceased is survived by his widow and six children. The children by his deceased wife are Grady of Plano; Mrs. Bertha Williams, Allen, Texas; C. W. and J. W. Strain, Dallas; Mrs. George Busby, Burleson and Mrs. Joe Roberson city.

Two children by his second marriage are Sarah at the parental home and J. R. Strain who is in the Marine corps located at San Diego, California. All the children were present except Mrs. Busby.

Edwin Brazier of the Harmon Funeral home prepared the body for burial.

Half Minute Interviews

Mrs. S. L. Rushing: "The funniest thing on our trip was at the state capital at Helena, Montana, when Tommy jumped in the fire escape at the fifth story and ran down to catch our car. She saw it leaving and thought it was being stolen. We didn't have the brakes on was all that was the matter."

J. B. Jenkins: "Geo. R. Tibbetts worked on the Bell ranch land in New Mexico before there was a Bell ranch."

Ernest Kendricks, Ralls: "As far as crops go, we're going to have another 1937 around Ralls, it looks like now."

Roy Eubank: "We stayed all night in Morrow Mayo's tourist camp one night last week in California. He seems to be doing good."

MAXINE FRY IS NAMED TO POSITION AT GRAND FALLS

Miss Maxine Fry left Wednesday for Grand Falls in Ward county where she accepted a position in the Grand Falls Royalty High school. This school is one of the state's experimental laboratories for the curriculum revision for the state board of education, with a teaching staff of forty teachers. They have twelve grades.

Miss Fry will teach journalism, edit a seven column bi-weekly paper, put out an annual, have one class in English and one in World History. She was released from her contract with the Littlefield consolidated school, where she was to have taught, immediately upon notice of her election.

R. E. Fry and Marilynn accompanied Maxine to Grand Falls returning home today.

GONE FISHING

Mr. and Mrs. R. B. Smith, of Lubbock accompanied by Mr. and Mrs. E. H. Brown and family and Mr. and Mrs. J. H. Trammell left Saturday for a weeks vacation and fishing trip at Old Camp Cooper on the Clear Fork river near Throckmorton.

Mr. and Mrs. Smith went on the trip in acceptance of an invitation from Mrs. Daws who is county and district clerk of Shackleford county. She is a former resident of Floyd county. Her maiden name was McEachern. She was present at the Old Settlers reunion at Mt. Blanco last week.

Mr. Smith explained that Camp Cooper is about six miles from Old Fort Griffin and a good place for fishing.

RETURNS FROM VACATION

Misses Virginia and Dorothy Dell Stovall left Tuesday for Roswell, New Mexico, where they go to meet their mother, Mrs. E. F. Stovall, who has been on a vacation trip to the western coast with her daughter, Mrs. Joe P. Williams and Dr. Williams. The party will visit in El Paso with Mrs. Stovall's daughter, Mrs. Chesley Sullivan and Dr. Sullivan also.

Mrs. Stovall and Dorothy Dell will return home this week end and Miss Virginia will remain in Roswell where she will teach in the public schools there this school term.

Mrs. Lawson Stevens of Vega is a guest of her mother Mrs. J. R. Terry, this week.

A Message To Mr. Sisson And Others!

(Ed. Note. Here's something for several Floyd county people this week, especially for Mr. Sisson, from Denver, Colorado. We hope you enjoy reading this personal note.)

Hello Grandad Sisson!

What are you doing down there? I am subscribing for the Hesperian to find out what is going on. I will be disappointed if I don't read something in the Hesperian about you. I am leaving that up to you to do something "exciting." How about it?

It has been real cool here, but is nice and warm here today. Tomorrow is daddy's birthday. We will have cake and ice cream but of course you don't like that, so I won't invite you.

Are you going to spend your birthday with us? If you do we will give you ice cream and cake too. School will be opening here pretty soon and I will finish Junior High school this year. I am most interested in my junior business. That is where I learn to type.

We had a letter from Hasty the other day. He is all right. Hello, Uncle Emmitt, and Aunt Lena, Aileen, Wymon, Marie, Harley, Uncle Bill, Sisson and Aunt Lucille, Francis, Uncle Bonnie, Aunt Vallie, Gloria Ann, Buddy Sammy Jess, Grandma Shultz, Aunt Jet, Uncle Cecil, Aunt Jenny Mae, Uncle Bill Jackson, Aunt Goldie, Aunt Cleavie and Uncle Farington, Kenneth, Howard, Charline, and Grandma Falls and I hope you see this too.

With lots and lots of love.

Wanda Nell Fals.

ATTEND T-ANCHOR RE-UNION

J. B. Jenkins of Floydada and Geo. R. Tibbetts, of Flomot, were among the old-timers who attended the T-Anchor ranch re-unions at Canyon last week-end.

At this re-union only old-timers are admitted and that by invitation. "We saw and talked with some of the real old-timers at this picnic," Mr. Jenkins said Monday.

Rushing Party Visits Nine State Capitols

Mrs. S. L. Rushing and her party of childhood grandchildren, who returned home last week from a 6,000-mile journey through the west, visited nine state capitols while they were gone, Mrs. Rushing said here Monday.

New Mexico, Arizona, California, Oregon, Washington, Montana, Wyoming, Utah and Colorado capitals were visited by the party. Incidentally, they saw a lot of western and northwestern United States on their trip and went on north into British Columbia while they were gone.

"The finest capital we saw was at Salt Lake City and we thought it was a more imposing and prettier capital even than Texas has," said Mrs. Rushing.

It was one of the most agreeable parties she ever traveled with, Mrs. Rushing declared. She is a believer in travel and said the next trip she takes, granted good health, will be to South America.

When you get out traveling everybody certainly is nice to you, Mrs. Rushing pointed out. Their party made their whole trip without a "flat."

Isiah: A Life Dedicated To God

Lesson Text:-Isiah 6:1-13.

Golden Text:-"Here am I; send me." (Isiah 6:8).

In the year that king Uzziah died I saw also the Lord sitting upon a throne, high and lifted up, and his train filled the temple.

2 Above it stood the seraphims: each one had six wings: with twain he covered his face, and with twain he cover his feet, and with twain he did fly.

3 And one cried unto another, and said, Holy, holy, holy, is the Lord, of hosts: the whole earth is full of his glory.

4 And the posts of the door moved at the voice of him that cried, and the house was filled with smoke.

5 ¶Then said I, Woe is me! for I am undone; because I am a man of unclean lips, and I dwell in the midst of a people of unclean lips; for mine eyes have seen the King, the Lord of hosts.

6 Then flew one of the seraphims unto me, having a live coal in his hand, which he had taken with the tongs from off the altar:

7 And he laid it upon my mouth, and said, Lo, this hath touched thy lips; and thine iniquity is taken away, and thy sin purged.

8 Also I heard the voice of the Lord, saying, Whom shall I send, and who will go for us? Then said I, Here am I; send me.

9 ¶And he said, Go, and tell this people, Hear ye indeed, but understand not; and see ye indeed, but perceive not.

10 Make the heart of this people fat, and make their ears heavy, and shut their eyes; lest they see with their eyes, and hear with their ears, and understand with their heart, and be converted and be healed.

11 Then said I, Lord, how long? And he answered, Until the cities be wasted without inhabitant, and the houses without man, and the land be utterly desolate.

12 And the Lord has removed men far away, and there be a great forsaking in the midst of the land.

13 ¶But yet in it shall be a tenth, and it shall return, and shall be eaten: as a teil tree, and as an oak, whose substance is in them, when they cast their leaves: so the holy seed shall be the substance thereof.

Introduction

This lesson changes our thought from earthly rulers—their character, their preparation, their influence, their strength and their weakness—to that of a prophet, our subject being, "Isiah: A Life Dedicated to God." This is a necessary prerequisite to success in any avenue of life. But this circumstance teaches us that it is much more so in the life of a prophet. There was no earthly pomp, splendor, nor hilarity attending such a life; its greatness came from above, and a direct communication from the Divine. Isaiah was the son of Amos. Isaiah had prophesied prior to this vision, but not as a full-fledged prophet. He seems to have been what we would call a candidate, not in the sense that he was seeking the office and proving his ability, but in the sense that God was trying him. In this lesson he is inducted into the full work.

WOMEN'S CLUBS RESUME ACTIVITIES IN SEPTEMBER

Variety Of Programs And Social Planned By Clubs

With the passing of the vacation period women of the town turn their minds toward club activities which had been cast aside for the warm weather when other interests had their time and attention.

Plans for an enthusiastic and active year have been revealed by the five federated women's clubs, which include the 1922 Study club, the 1929 Study club, the 1934 Study club, Floydada Garden club and Floydada Mu.ic club.

The eighteenth consecutive years program will be opened by the 1922 Study club at a meeting September 7 with a 1 o'clock luncheon.

This club was organized on June 1, 1922, at the home of Mrs. A. P. McKinnon. Mrs. Lon V. Smith was elected president. Of the charter members Mrs. Smith and Mrs. R. E. Fry are still active while Mrs. McKinnon still attends as an associate member. The club was federated November 9, 1922. Among the club accomplishments have been:

Conducted a story telling hour during the first summer for children; the most outstanding contribution undertaken for the community, when a new club, was the establishing of a public library for the town. A charter was granted by the state for the library on April 12, 1923. Books were bought, donated and accumulated in various ways.

The 1922 club sponsored the organization of Floyd county federation of clubs, made a birth registration campaign, co-operating in helping to bring better pictures to Floydada, introduced fire prevention in the schools and enlisted the ministers of the city in giving sermons on thrift.

Another worth while project sponsored by the club was the student loan fund with which they have helped several local boys and girls in obtaining higher education. One year the club sponsored a health survey for the county, winning first place in the state.

The club sponsored the organization of four groups of Camp Fire girls; assisted in the organization of the 1929 study club, promoted the annual Christmas tree idea.

Donations of miscellaneous items, valued at several hundred dollars, over a period of years in answer to various call.., places them among the first of organizations of the town in service.

Through programs on miscellaneous subjects, travel, religions, paintings, government and modern biography the members have gained a broader knowledge of the world and its people. The 1939-1940 course will be recent books, poetry and drama.

Mrs. O. P. Rutledge will take the chair a.. the twelfth president with an efficient corps of assistants. The president's motto for the year is, "To know the value of time, the pleasure of working, the worth of character, the power of kindness, the obligation of duty and the virtue of patience."

Tenth Anniversary

The 1929 Study club celebrated its tenth anniversary this summer while the general federation was celebrating its one hundredth.

On May 2, 1929, the 1922 Study club sponsored the organization of the 1929 club with Mrs. A. P. McKinnon acting as club mother.

Mrs. Troy Jones, now of Gatesville, was elected the first president with the following charter members: Mesdames Robert Sone, A. D. Cummings, Flynn Thagard, Eddie Bishop, P. D. O'Brien, O. W. Fry, E. L. Norman, L. J. Welborn. Of the charter members Mesdames Norman, Fry and Welborn are still active members.

The 1929 Study club was federated with the State Federation of Women's clubs the year of its organization and has held its membership in this federation each successive year.

Since 1929 the club has helped to sponsor the organization of the Little theatre, Girl.' Scouts, flower show, safety campaign, a Junior Study club, loan to college students and is a state club house patron.

The club has donated to the community Christmas tree fund annually, the Penny Art fund of Texas annually, the city beautification program, furnished a chair for the state club house at Austin and donated on furniture for the district club room.

The club has had the following five presidents given in order of service: Mrs. Troy Jones, Mrs. Leroy McDonald, Mrs. A. D. Cummings, Mrs. A. J. Folley, Mrs. G. L. Kirk, with Mrs. Richard Stovall assuming the duties for the opening year.

Emma Louise Smith is the newest addition to Floyd county's official family, her appointment recently as deputy county clerk having been announced by A. B. Clark, clerk. She succeeds Mrs. J. B. Claiborne at the post and has shown considerable aptitude for her duties, Mr. Clark said.

New Club Officers

Members to serve as club officers for the next two years are:

Mrs. Stovall, president; Mrs. E. L. Norman, first vice-president; Mrs. G. E. Bond, second vice-president; Mrs. Terrell Loran, recording secretary; Mrs. J. D. McBrien, corresponding secretary; Mrs. Welborn, treasurer; Mrs. A. B. Keim, reporter; Mrs. Clement McDonald, parliamentarian; Mrs. Robert McGuire, custodian; Mrs. Kirk critic.

Other club members are Mesdames H. G. Daily, J. E. Eldridge, O. W. Fry, Walton Hale, Cecil Hagood, John E. Hoffman, John Hooper, A. T. Hull, Roe McCleskey, R. T. Roane W. R. Simon, Clint R. Wakefield and A. J. Welch.

The club will hold its re-assembly tea at the home of Mrs. Hale, 516 West California street, at 3:15 Thursday, September 14, with Mesdames McBrien, Hoffman, Hooper, Daily and McDonald as assisting hostesses.

Their course of study for the year will be, "Keeping Up With The World." The club motto is, " We Study that we may show ourselves approved."

1934 Study Club

The 1934 Study club was organized March 20, 1934, and federated in April of the same year. The club was assisted in organization by Mesdames A. J. Folley, L. J. Welborn and Joe Breed, a committee from the 1929 Study club. Miss Ruth Jenkins was the first president.

Mrs. Clinton Fyffe, Miss Selma Lider, Mrs. Jim Hardgrove, Miss Wilmina Salisbury, Miss Mildred Olson have served as president. Mrs. Walter Travis will begin the new year as president of the club.

The group meets each first and third Tuesday of each month at 6:45 from September through May.

The 1934 Study club became a patron of the state club house at Austin in February, 1935, by pledging $10 annually; has accepted the red verbena as a town flower with other clubs of the city; donated a chair for the auditorium at the state club house in Austin; started a club library by each member donating books and are annual supporters of the community Christmas tree program, which annual program they will have charge of this year.

The club became a senior club in 1937.

Officers who will assume duties in the club at their opening meeting September 5 are Mrs. Walter Travis, president; Miss Oleta Owens, first vice-president; Bernice Patton, recording secretary; Berl Busby corresponding secretary; Selma Lider, reporter and Mrs. Russell King, custodian.

The club will open with a homecoming with Mrs. Travis and Miss Oleta Owens as hostesses. "Art of Self-improvement," will be the course of study for the year.

An unusual feature of the club is that most of the members are engaged in active careers outside the home.

Garden Club

Organization of the Floydada Garden Club was the result of the combined efforts of the three study clubs in promoting a city wide beautification program. The organization was completed on April 17, 1936 and the club federated March 4, 1938.

Mrs. George V. Smith served as the first president. The club promoted the improvement of the city park on the highway at the edge of the city limits. The first year water was piped over the grounds, tables and seats provided for picnic purposes. As a continuation of the beautification of the city 3000 tulip bulbs were sold and planted in yards over the town and a fall flower show sponsored.

During the second year Mrs. Smith also served as president. The chief interest of the club was the continuation of the park project in which $60 was spent for shrubs, grass was planted at the park, a fall flower show held and a plant exchange adopted.

Mrs. B. K. Barker was elected as leader of the club for the third and fourth years, the chief interest being the beautifying of the park. As a new accomplishment the club was responsible for the selling and planting of 80 redbud trees and 600 narcissus bulbs. The club continued their flower show and assisted with the community Christmas tree.

Fourth year accomplishments included a continuation of the park, working with other city organizations in a clean up campaign, a home flowers show, and the annual flower show.

Mrs. E. L. Angus, new president, has announced the main interest of the club for this year will be plans for small gardens, pest control and soil conditions.

Meetings of the club are held each second Friday of the month. A number of helpful programs are planned with several social events added during the club year.

The town has been greatly benifitted by the untiring efforts of the club in carrying on the beautification program.

Floydada Music Club

The youngest federated club organized is the Floydada Music club, which was organized in April, 1939. They are now federated with the state, national and district federation.

Meetings are held monthly, on the first Thursday night of each month at 7:30 from September to May inclusive. Only one regular meeting was held after the organization which was in May with a program on the composer Brahms.

The course of study for the 1939-1940 year will be "Fundamentals of Music," by Karl W. Gehrkens. In addition to two programs on the subject there will be programs on Southern music, modern music, Federation day, International music, a Christmas pageant, an open program on observance of music week and a Texas day program.

Not only music but dramatics will also be stressed in the club programs.

The club's main objective is to encourage the love and appreciation of good music and dramatics among the people of Floydada. It is the plan of the club to bring a good artists program to the public each year.

The Baptist Girls' sextette, directed by Mrs. G. E. Bond, is a club federated within the music club.

There are twenty members in the club with Mrs. C. B. McDonald as president. Other officers to serve with Mrs. McDonald are Mrs. Lola Galloway, first vice-president; Miss Elizabeth Caldwell, second vice-president; Mrs. Dean Hill, recording and corresponding secretary; Mrs. Pearl Fagan, critic.

Mrs. Galloway, Mrs. Hill and Miss Ina Sims composed the program committee for the year. Social committee to serve is Mrs. Elvin Rainer, Mrs. G. E. Bond and Miss Opal Rogers.

The first meeting will be Thursday evening, September 7, at 7:30 with Mrs. Lola Galloway. Members of the social committee will serve as assistant hostesses. A program on Southern music will be given with a social following.

First Club In 1889

The first woman's club in America was organized in 1889 under the leadership of Mrs. Jennie C. Crady of New York. Under her supervision the General Federation of Women's clubs came into existence.

The federation organized at that time celebrated its Golden Jubilee anniversary this summer with a membership of 2,000,000 club women.

The three study clubs and two other women's clubs of Floydada are members of the Texas Federation of Women's clubs. The club women of this town are happy to rededicate their faith in women's organizations and the great potential power of women in wielding world affairs.

"The Federation is organized to help women live at the maximum of their capacities and abilities. The world needs the best that the women of our town have to give. It is their duty to be intelligent and to worthily meet their responsibilities in today's world. The cultural have not kept pace with the industrial," said a local club leader this week.

Through the various civic organizations much can be done for the town. "She who plants in the minds of another a lovely thing makes an invaluable contribution to life," is one of the thoughts which aids in directing activities of the federated clubs.

Back-To-School Days Featured In Party For Younger Set

One of the most enjoyable early fall socials for the younger set was the back-to-school party given Thursday evening from 7 until 9 o'clock by Mrs. C. M. Thacker for her daughter, Mary Lee.

Clever little invitations with a boy and girl on the way to school were sent out by the honoree inviting the guests.

Guests registered on a black board attached to the back of the house. The lovely back yard at the Thacker home was decorated appropriate to the occasion. Mary Frances Jones, dressed in an old fashioned costume, was the school-ma'am, who directed school games and school songs.

Refreshments, in paper sacks, of apples, sandwiches and cookies were served. Little gingham sacks of sachet were used as favors for the girls and cases with a pocket comb and file were given the boys.

Invitations for the party were issued to Johnny Collins, Johnnie Hammonds, Gene Arwine, Maurine Medlen, Billie Wester, Addison Barker, Ruthie Harmon, Oragene Willson, Jimmy Tye, Kate Sparks, Ada Belle Snodgrass, Bettie Merle Boteler, Bettye Yearwood, Lajuana Jo Sharp, Doris Hill, Marty Lou Bond, D. I. Bolding and Mary Frances Jones.

SOCIETY

America's No. 1 Dish And How To Cook It

COLLEGE STATION, August 28. Since fried chicken is now probably "America's No. 1 Dish," some tips for making the favorite drumsticks and wishbones more palatable have been offered by Nora Ellen Elliott, specialist in food preparation for the A. and M. College Extension service.

For improvement of technique in chicken frying, checking the temperature is suggested, for the meat will cook to a tender and juicy doneness if the heat is moderate throughout the frying period. The fat should be hot, but not to the smoking point, before the pieces of chicken are placed in the skillet, the specialist adds. A half-inch or more of well-flavored fat in the skillet is preferable.

"Of course, the thickest pieces should be placed in the vessel first," she says, "and enough space should be allowed to let the fat rise around the edges of each cut. Partly cover the pan to keep the fat from spattering, but allow the steam to escape. When brown, the pieces should be turned."

At least 20 or 30 minutes should be computed as frying time for the thickest pieces of a three-pound chicken. When a number of chickens are fried at a time she says the housewife might prefer to finish the cooking in a moderate oven, 300 degrees.

The well-browned pieces should be removed from the skillet and placed on a rack in a covered pan for finishing in the oven until there is no pink next to the bones. For the last 15 minutes of cooking the cover should be removed to dry out the brown crust, she advises. When the chicken is done it should be drained on paper to lose its excess fat.

Undulent Fever May Be One Of Prevalent Diseases In Floydada

How many cases of undulent fever are there in Floyd county?

Is it one or nome or a dozen?

The 'talent' is not definitely agreed on these questions but the matter has been the subject of discussion in meetings of the city council in Floydada on three occasions in the past week and among the local medical fraternity wherever they gathered.

One medical practitioner and student who thought his name not as well be used, thinks there are at least seven cases of undulent fever in Floyd county and some of them in Floydada. Another is of the opinion there is one definitely unquestionably established case of undulent fever. Other opinions in the fraternity vary between these two extremes.

Milk Ordinance Due

This week it seemed probable that the City Council of Floydada would soon adopt some kind of an ordinance governing the sale of milk and dairy products in Floydada. What this ordinance will provide for is a matter of conjecture, but it appears to be the majority of opinion in the council that an ordinance requiring the seller to plainly label his milk as to type will be about as far as the city will go. It was argued, unofficially and off the record, in council meetings that cities, where they have intricate and highly technical ordinances in regard to milk distribution, have undulent fever just the same.

The council has in mind protecting the public so far as possible but are not anxious to let themselves in for a lot of expense for the city for ordinances which cannot be enforced.

That Bang's disease among dairy cattle is the definite cause of undulent fever and that it has been rampant among herds of the county is vouched for by local agricultural leaders, who are among those who insist on thorough periodical check up and routine tests of cattle to eliminate the possibility of transmitting disease to the consuming public.

Few of the herds that are providing milk for the population of this city are being tested for Bang's disease and tuberculosis, it appeared from records kept on these matters.

This week it appeared probable that a representative of the Live Stock Sanitary commission is due in Foydada at any time and that a thorough check-up is imminent in the area.

STARTS PASTEURIZED MILK ROUTE HERE

One of the direct results of the agitation for a safer milk supply for Floydada is the announcement by Norvell Willis this week that he will start a milk route among residents here for pasteurized milk, and his announcement that his labelled product will be on sale at numerous retail food stores in the city.

L. Surginer Is Named As Public Accountant

Leslie Surginer, son of Mr. and Mrs. I. C. Surginer, resident of Houston for the past several years where he is employed with the Federal Land bank is one of a small list of certified public accountants named recently by the State Board of Public Accountancy.

Surginer was one more than 200 applicants for certification as accountants in the May examinations. Of 21 who passed the examinations he was among those certified.

In addition to practical experience in accounting a vast amount of research and study is required on business problems before certificates for accountants are issued in this state, it was recently indicated by a member of the board of examiners. Proof of good character, integrity and ability also are required before certificates are issued.

worked, to the crowd's surprise as well as Barker's.

From time to time Fred Lowe's orchestra (which ought to be in "big time" or somewhere) put on a musical exhibition which woke up the neighbors near the field and from the number of cars circulating around the football field when his boys were playing, the citizenry must also have become curious as to what was being murdered.

Jim Willson survived the Lowe orchestra attack and assembled himself before the microphone to introduce the district governor, Hiram Arrant. Governor Arrant complimented the Floydada club on its excellent "feed" and told the Rotarians that the spirit of Rotary at its very best was found on the South Plains.

The meeting was closed by Fred Lowe and company plus the assembled Rotarians singing "The Eyes of Rotary."

Kirk & Sons Have Canning Program Set For Sept. 5

A canning demonstration, which will feature all the new but tested methods in canning fruits and vegetables under home conditions, is announced for September 5 at 2 p. m. at Kirk and Sons.

The demonstration will be given by Miss Lois Thompson, home service representative for Ball Brothers Glass company. The canning of fruits, vegetables and poultry will be the feature of the demonstration.

Every woman is invited to attend this meeting. Its purpose is to popularize a better system of canning in which the products retain all their natural flavor and nutriment, and to acquaint the consumer with the different products—fruit jars, caps and rubber rings.

GRADUATE AT C. I. A.

DENTON, Aug. 26. — Completing their college work with the largest summer class in history, Misses Leona Jameson of Dougherty and Bert Ione Smith of Floydada were awarded bachelor's degrees at Texas State College for Women Saturday, August 26 at 9 a. m. The honors were conferred upon them by Dr. L. H. Hubbard, president of TSCW, who made the commencement address. Over 160 students received degrees.

Miss Jameson, who did her major work in the department of home economics, is the daughter of Mr. and Mrs. J. B. Jameson. She minored in physical science and held membership in the Mary Swartz Rose club. Miss Smith, a speech major and a minor in English, served as president of the James H. Lowry club during her senior year in college. She also held membership in the Women's Recreational association, the Speech club, and the Round Table association.

Mr. and Mrs. Roy Eubank and family returned Sunday from a trip to the Western coast, making a leisurely journey enroute and return. They were guests of relatives at Ontorio, Stockton and other points in California during their absence.

W. E. Meador and his daughters, Mrs. M. L. Probasco and Myrtice, are expected home this week from Gainesville, where they went last week on a vacation and visit.

Bernice Stephenson visited several days last week in Amarillo with her sisters, Donnie and Mozelle.

THOMPSON POINTS OUT WHERE GRAVY TRAIN IS

AUSTIN, Texas, Aug. 23. — Oil pipe lines took a net profit of $480,004,294 out of the oil business in the years from 1930 to 1937, Railroad Commissioner Ernest O. Thompson, who is advocating a 5 cent tax on oil, asserted today.

He presented figures from the sworn reports of the pipe line companies themselves, for each of the eight years, to prove his assertion that "here's where the gravy train is."

"Let's take a nickel for Grandma," "There is plenty to pay the pensions —there is a plenty for the needy blind and children and the teachers of Texas," he said.

Thompson has urged Governor W. Lee O'Daniel to call a special session of the Legislature to cut Texas in on these enormous profits and at the same time forever settle the social security problem in Texas.

Organized Labor Has Recognition By Lions

Admitting that organized labor has made some mistakes during a long history in the United States, speakers Tuesday before Floydada Lions club pointed to numerous outstanding accomplishments toward the enoblement of honest toil by laboring men.

Outstanding among these, as Claude Henderson pointed out, are the improvement of working conditions, the abolition of unsavory child labor employment, the recognition of maximum working hours for women, and the efforts to eliminate the sweat shop. The approach of Labor day was the occasion for the program presented by J. C. Gilliam.

L. W. Chapman opened the discussion with a talk on the origin and significance of Labor day.

The club is considering the possibility of entering a contest for attendance in which clubs throughout the international organization would take part. M. P. Goen, club president, presided.

'Got A Lot Of Things To Do But We'll Move Tomorrow,"—Carmack

There was still a lot to be done at the Carmack Hatchery new location on East Missouri street Tuesday afternoon of this week, but C. B. Carmack, the owner, said he would finish moving tomorrow night. He will do finishing work on the new establishment after moving in, he said.

Work not yet done yesterday morning included painting and finishing work of one kind and another. Among other things material for the feed room floor had not been received.

"We've got a lot of little things to do yet, but we'll have them going along as we straighten out and get under way," said Carmack.

A hatchery, a commercial feed sales department and a poultry house will be housed in the new building.

Half Minute Interviews

L. A. Williams: "There is much interest in the wheat insurance plan for 1940. The last time I checked up we had written 36 policies. We are going to have to enforce a policy of insuring before the crop is put into the ground."

W. J. Browning: "The fastest ball a pitcher can throw is an in-shoot. The Hesperian last week gave the Lubbock colored boy credit for a little faster ball than he had."

Ham Smith: "After I make one more re-union I'll be through until 1940."

Girls' 4-H Clubs

Garden Achievement Events

4-H club girs are doing much to help produce a farm food supply in their homes with their garden products. They learned from the "Texas Food Standard" that each person should have one serving of "green or yellow" vegetables and one serving of "other" vegetables per day. The girls have tried to plant enough vegetables to serve fresh and also can enough for the non-productive months. Despite the summer drought many of the demonstrators had good gardens.

During August achievement events were held in the homes of the garden demonstrators. At this meeting each demonstrator exhibited some of her canned products and the fresh vegetables she had in her garden at the time. The demonstrators and the clubs they represent are as follows: Jean Wells, Lone Star; Clara Gloyna, Aiken; Florence Ham, Dougherty, Doris Davis, Sterley; Frances Scheele, Providence; Emma Pope, Sand Hill; Fredda Wiggington, South Plains; Venita Dagley, Lockney.

Canning Vegetables

Following the garden report a demonstration was given on canning vegetables, and in most cases okra was canned. Tender small pods were selected washed and covered with water and brought to a boil in an uncovered kettle. It was then packed in the jars while hot and a teaspoon of salt was added to each quart. The product was processed immediately at 10 pounds pressure, 40 minutes for quart jars.

Planting Frame Gardens

Several of the girls have already replanted their frame gardens so they will have fresh vegetables later than would be possible in an open garden. Some of the vegetables they have planted are radishes, lettuce, mustard, spinach, beets, carrots and swiss chard.

Mr. and Mrs. Hub Russell and Miss Nella Frances Faulk of Fort Worth are here this week on a visit with Mrs. Russell's sister, Mrs. Roy Snodgrass and family and Nella Frances' sister, Mrs. Frances Wester and Mr. Wester. They came last Saturday.

TWO BODY MEASUREMENTS TELL BEEF CATTLE GRADE

Two simple body measurements of beef cattle—plus a record of feed consumed by the animal in reaching a certain weight—give the stockman a good picture of the qualities transmitted by the most important member of the herd—the sire. The two measurements are height at withers, and weight or heart girth.

The measurements give the index to carcass quality and the feed record tells how efficiently the animal puts on weight. Together they make a record-of-performance test by which beef herd sires may be "proved." The herd owner knows whether or not the offspring of a "proved" sire are likely to make efficient gains and yield carcasses of good quality.

The greatest drawback for such tests has been the lack of a simple method for determining carcass grades of test animals before slaughter. Only trained cattle graders could do the job.

The two-measurements method, which makes it possible for the farmer to do his own grading on the farm, was devised by Bradford Knapp, jr., animal husbandman of the United States department of Agriculture, after studying weights, measurements, and grades of 167 slaughter steers, including Herefords, Shorthorns, Aberdeen-Angus, and steers of dairy breeding. The grade or score as determined by the two measurements for the most part tallied with the grade given the same animals by two competent graders.

As an example of how the slaughter grade is arrived at by height at withers and weight: An animal 45 inches in height at the withers must weight 1,010 pounds or more to grade Prime, 873 to 1,009 pounds to grade Choice, 755 to 872 pounds for Good, 652 to 754 pounds for Medium. All below 651 pounds grade Plain.

Mr. Knapp has prepared a table giving the range of weight for each height at half-inch intervals. Where scales are not available, a similar table for height at withers and heart girth has been prepared. Both tables are given in Circular No. 524 of the United States Department of Agriculture. A copy may be obtained from the Superintendent of Documents, Washington, D. C., for 5 cents.

QUALITY CERTIFICATES ON BUTTER AID BUYER

A consumer who buys butter that carries a certificate of quality issued by authority of the United States Department of Agriculture is likely to get butter of higher quality than butter that carries no certificate.

According to the Bureau of Agricultural Economics, a check of different brands purchased at retail stores showed generally superior quality in butter bearing the government certificate of quality than was found in butter sold without certificates. Some of the butter without certificates, however, was just as good as butter bearing them.

The Bureau's study of the quality of butter offered in retail stores was undertaken for the purpose of ascertaining the extent of deterioration in butter between the time it is packaged and the time it is sold over the retail counter.

Many consumers wish to buy high-quality butter—butter of the character described as 92 score or 93 score. The Bureau says that consumers who wish to obtain this 92- or 93-score butter "will find it more consistently" by buying butter packaged with certificates of quality than by following advertisements printed on butter packages.

During the past year, 85,150,410 pounds of butter were graded and merchandised with certificates of quality issued under authority of the Bureau. This meant that approximately one out of every 21 pounds of creamery butter sold bore the official certificate of quality.

FEDERAL STUDY DEVELOPS SHEEP FOR SMALL FARMER

Small-farm operators who depend upon a small flock of sheep as a source of cash income need a sheep that produces a good crop of wool as well as lambs of good market quality.

To supply this need, Federal sheep specialists at the Middlebury, Vt., station of the Bureau of Animal industry have developed the Southdale—a cross between the Southdown and Corriedale.

The Southdown is noted for its mutton quality, but produces a lightweight, short, staple fleece. The wool, however, is high in quality. The Corriedale, while not so high in mutton quality, produces a heavy, long, staple fleece of high quality.

In the crossbreds, or Southdales, the Federal scientists report the wool yield excels that of the Southdowns, and mutton quality that of the Corriedales. The Southdale does not equal the Southdown in mutton quality or the corriedale in wool production, but selective breeding for eight years, in which rams were chosen carefully for wool and mutton production, has steadily improved these new dual-purpose sheep.

Achievement Program For Home Ec. Girls

Approximately 50 girls will complete and receive credits for their summer projects in Home Economics on Achievement night Thursday, September 7, at the home Ec room of the high school.

A program has been planned under the supervision of Miss Fannie Mae Rees and Miss Lois Fouts, supervisors. They are anxious for the parents of the girls, and others who are interested, be present for the Achievement program.

The projects undertaken included canning, cooking, sewing for self and family, yard improvement, bedroom improvement and child care.

HARMONY HOME DEM. CLUB

"Make dresser scarfs alike on both sides so as to be reversible from time to time," said Mrs. Carrick Snodgrass to members of the Harmony Home Demonstration club in the meeting Thursday afternoon at the home of Mrs. Perry Tipton.

Mrs. Snodgrass gave a dispay of many different patterns that were suitable for dresser scarfs. She also told the club that scarfs could be neat and attractive without long hours of labor. A smooth grade of linen, preferrably a round thread linen, is much easier to work with and more economical. Other materials such as crash, art linen and Italian linens are suitable to use.

Colored and figured materials are some times used to blend with the color scheme of the room but always include a supply of natural color or ecru. Make the scarf to fit the top of the dresser or if smaller allow the same distance from each side and end. Have the shape of the scarf to harmonize with the shape of the dresser.

Mrs. Raymond Williams gave an interesting talk on, "Seeing beauty in line and color."

Refreshments were served to Mesdames W. S. Hanna, Alonzo Redmond, Chas. B. Smith, L. A. Williams, Raymond Williams, Chloma Williams, M. D. Ramsey, Floyd Trowbridge, G. L. Snodgrass, R. B. Gary, Zant Scott, J. S. Hale, Sherwood Ramsey, Carrick Snodgrass, Misses Lee Dale Clubb, Maurine Sullivan, Iva Elmore Smith and Larue Williams.

The club will meet with Mrs. Ramsey September 14. Miss Wilson will give the demonstration on, "attractive ways to serve tomatoes in any meal."

CENTER HOME DEM. CLUB MEETS WITH MRS. ANDERSON

Center Home Demonstration club met Tuesday, August 22, at the home of Mrs. A. W. Anderson. The club president being absent, Mrs. H. B. Mankins presided over the business.

"Colors either soothe or disturb us," said Mrs. Olin S. Miller in her discussion of beauty in line and color.

Demonstration on Making the Dresser Scarf, was given by Betty Jo Sims. The purpose of the scarf is to protect and decorate linen in ecru, white, cream or natural color is the most beautiful and lasting. Measure the top of the dresser and make the scarf to fit or have the same amount of the wood shown on all sides, she suggested. Two nicely finished scarfs were demonstrated by the speaker.

Mrs. Miller told the club to select furniture with beauty in line as well as color. One should never decorate unless there is great need for decoration. In conclusion the speaker read a poem, "Grained Wood," by Grace Noel Crowell.

Mrs. C. P. Corder led in a recreational game. Mrs. A. W. Anderson assisted by her daughter, Mrs. Ausie Watson, served refreshments.

Present were Betty Jo Sims, Rosalie Sandefer, Mrs. J. L. Montgomery, Mrs. Jas. E. Green, Mrs. Floyd Willis, Mrs. T. L. Collins and Doris Jordan.

Next meeting will be held September 12 in the home of Mrs. Cullen Bullock. Miss Wilson will be present to demonstrate attractive ways to serve tomatoes in any meal. All ladies of the community are invited to attend.

SAND HILL H. D. CLUB

"Linen is the preferable material for a dresser scarf," Mildred Burke told the women of the Sand Hill Home Demonstration club in the meeting Wednesday afternoon of last week in the club room with Mrs. Elmer Mickey as hostess.

"Linen is preferred as a dresser scarf because it wears longer, is easy to laundry and the fabric more suitable; the scarf should fit the dresser or be the same distance from each edge. Natural color linen is better on dark woods because it blends so well and is not as much contrast as white. Linen should not be starched," said the speaker.

Mrs. Hardin Jackson gave an interesting demonstration on, "Beauty in line and color."

Present for the meeting were Mesdames A. H. Hanna, J. H. Holmes, W. M. Jeter, Elmer Mickey, Hardin Jackson, J. V. Greer, Frank Probasco, D. W. Burke and Miss Mildred Burke.

The next meeting will be September 13. Miss Edith Wilson will give a demonstration on, "Attractive Ways to Serve Tomatoes in any meal."

Terraces In County to be Increased

Government Pays Farmer Sum On Soil Conservation Includes Terrace

According to the county agent's office Floyd county is likely to make more progress this year with its conservation program than in the past several years. Experiments have shown the best methods and many farmers, wheat and cotton, will likely begin to put up more terraces.

With compliance practically checked for 1939 under the Agricultural Conservation program, it is an evident fact that only a small portion of the soil-building allowances or the number two payments have been earned by Floyd county farmers.

Each producer will recall that if he complies with the farm program, a soil-building allowance is set up which is estimated at about 50 cents for each of the diverted acres. These payments can be earned by tne turning under of approved green manure crops such as legumes, the planting of alfalfa, contour farming and the building of terraces.

Each of these carries soil-building units. In many cases the soil-building allowance ranges from $20 to as high as several hundred dollars depending on the size of the farm or the allowance which has been set up.

The Floyd county land use planning committee through its executive secretary, D. F. Bredthauer, county agent, held community meetings in each of the three major soil type areas of the county for the purpose of finding some of the number one problems which exist in each of these areas and to help farmers to overcome some of these difficulties.

It was found that in each area soil and water conservation was listed as the number one problem. D. F. Bredthauer, county agent, states that much has been learned in the past in regard to the proper construction of terraces and that each farm has a problem of its own and that no "iron clad" rule will fit each and every case, but it is definite that the narrow base peaked type of terrace is no longer recommended.

It is found that in the soil conservation districts and where ever the extension service has spent much time in soil and water conservation that the broad base terrace, ranging from 45 to 60 feet wide at the base with gradual incline so that all types of farm equipment can be operated, is the type of terrace which is fast becoming adopted by the wheat farmers of the Panhande Pains.

During the past month L. A. Williams, chairman of the county land use planning committee, D. F. Bredthauer, county agent, and J. A. Taylor, member of the Floyd county AAA committee, have inspected this type of terrace in the Soil Conservation district of the Panhandle and in Motley county where the extension service has fostered this type of work which has been in great demand by the farmers of that county.

Through the cooperation of the commissioners court, a maintainer has been secured for building wide base terraces. The cost of this equipment is to be met by the producer—the only charge will be the actual operating expense of the machinery. During the past week demonstrations have been conducted on the farm of H. D. Meredith of the Liberty community. On this farm 100 acres of wheat land were terraced.

C. V. Lemons of the Cedar community has also completed a wide base syrup pan system of terrace and from the present number of requests which are coming to the office of the county agricultural agent it is anticipated that during the winter of 1939 many thousand of acres will be under a proper terracing system.

Some farmers are hopeful that the state soil conservation set up will be able to go on the individual farm and give the land a complete terracing program without any cost to the producer, but it has been pointed out by V. C. Marshal, president of the state district soil conservation board, that this is not available because men of proper training have already been absorbed in the work.

The building of proper type terraces will vary in cost but at present they are being constructed at a cost of about 75 cents per acre. In many cases the soil-building allowance will not be sufficient to cover a complete terracing program in one year but the county agricutural agent points out that this can be done over a period of years by building terraces of proper sizes beginning at the highest point on the farmsted and gradually working down the slope each year until the entire farm has been properly terraced.

It has been very thoroughly demonstrated in the county that terraces store up moisture and it must be remembered that abundant crops usually follow a year of excessive rainfall. Many of the lakes in the county are now filled with water which should be stored in the subsoils beneath our crops.

Joe Breed To Speak At Loan Assn. Meet To Be Held Here Sat.

The Floydada National Farm Loan association will meet at 9 o'clock Saturday morning at the district court room for their annual stockholder's meeting. Floyd county home demonstration club women will serve lunch at the noon hour Saturday at the Methodist church, to those present at the association.

A special effort has been made by the secretary-treasurer and directors to insure a large attendance at the meeting. All land bank and land bank commissioner borrowers and their wives have been invited to attend. In addition to the various reports, which will be made by the secretary-treasurer and the directors, other interesting features for the meeting have been planned. Joe Breed, former secretary-treasurer of the association and now assistant secretary of the Federal Land bank, will be present to address the stockholders on bank and association loan problems. J. H. Neblett, district supervisor for the bank has been invited and his attendance is expected. Other persons interested in farm problems who are expected to attend the meeting are M. R. Snyder, secretary-treasurer of the Plainview Production Credit association and D. F. Bredthauer, county agent for Floyd county.

The various reports, covering the association's operations, will cover the period from January 1, 1938 to June 30, 1939. It has been pointed out by the secretary-treasurer that the reports will show the association is in Class 1 and at the present time is servicing nearly 400 land bank loans and 260 land bank commissioner loans with a total volume of nearly $2,000,000.00. It will be remembered, that the association was organized in 1918 and has enjoyed a steady growth since that time.

Stockholder's attention is called to the fact that one director will be elected at the meeting.

FLOYDADA TEAM POURS IT ON PADUCAH KEGGLERS

Allen of the Floydada team in particular was hot Tuesday night when they beat a team from Paducah overwhelmingly at Floydada Bowling club. In his second frame Allen shot a 233 and totalled a 563 score in three games. The Floydada five won 2374 to 1999, with frame scores as follows, Paducah players named first:

OLDSMOBILE STARTS MAKING 1940 MODEL IN AUGUST

Oldsmobile production of the 1940 model is now under way, Geo. M. Finkner said this week, basing his statement on reports from Lansing which said that 125 cars came off the assembly line the first day of 1940 production.

600 Oldsmobiles per day at Lansing and an additional 150 new cars daily at two other plants, on the east and west coasts respectively, are contemplated by the Olds company, Mr. Finkner indicated. Wednesday he had not seen one of the new models but expects to do so soon.

COMMISSIONERS AT AUSTIN, SAN ANTONIO THIS WEEK

Floyd County commissioners Wednesday went to Austin where they expected to appear before the State Highway commission in connection with highway matters. They especially will urge continued activity on Highway 207 north from Floydada.

During their absence the court will visit the state office of the Works Progress administration in San Antonio, where they will contact officials to gain a better understanding of new rules and regulations governing WPA labor and projects.

Mrs. W. M. Massie is in Harrisburg, Pennsylvania visiting her daughter, Mrs. William L. Murray and family. She is on an extended visit having been there the past two weeks.

Weather And Crops

The only portion of Floyd county in which The Hesperian is certain that rain fell in appreciable quantities this week was in that area east of Cedar Hill and above the caprock. At Floydada and at other points a rain fell that would wet you in your shirt sleeves.

Monroe Smith was in about the center of the area of rainfall and he had about on inch of rain.

In all other sections of the country farmers are wanting rain to put season in the ground for wheat planting and to finish the feed crop. Only exceptions noted are in the irrigated belt where farmers are running water on the land to get ready for the wheat seeding.

Some Cotton Opening

Crosbyton Tuesday ginned the first bale of cotton for Crosby county. It was raised by Lonnie Ellis 3½ miles southwest of that city. First bale here is not expected for several days. Only a few fields of old cotton are beginning to open around Floydada. Probability is that the first bale in the county will come from around South Plains or perhaps from around Edgin, where cotton is opening better than in other sections, according to reports.

Row Binders at Work

Activity on many farms is centered around saving a forage feed crop and putting it in shocks or in ground silos. Several silos have been filled in the past ten days and sealed up. Local canvas repair men and parts dealers for binders have noted increased activity in the past week.

Following are temperature readings of the past week at the Floyd County Rural Electric office:

	high	low
Aug. 23	93	67
Aug. 24	95	75
Aug. 25	94	65
Aug. 26	96	66
Aug. 27	93	65
Aug. 28	97	64
Aug. 29	96	61

No rain was registered during the period.

Texas Safety Council Campaign Brought Here

Members of the Texas Safety Council spent several hours in Floydada in the interest of safety, and while here visited with citizens and heads of the different civic organizatons Wednesday afternoon.

"We must think and talk safety in our every walk of life if we hope to reduce the alarming number of deaths each year," stated J. C. Tappe, active in the traffic department of the Council. "We must expect to lose 2000 lives in the State this year, according to statistics, but we can reduce this number. We hope that before the opening of next schoastic season, we will have perfected a State Juvenile council which will help materially in reducing the deaths of youths in the state.

"The Texas Safety council, composed of Texas business, men, was organized in 1933 by Pierce Brooks, Dallas business man. If the Citizenship of Texas will join Mr. Brooks, and other business men and women in this Safety movement, hundreds of lives may be saved annually."

The Association has been active in bringing to the attention of the people, the need for safety. Its objectives are setting up a Uniform Traffic code, Stringent Drivers License law, strict enforcement of existing laws and teaching of saftey in the public schools.

New Inspector Named Will Operate Plant Here When Completed

J. L. Puckett who comes to Floydada from Hobbs, New Mexico, is the new engineer-inspector on the municipal light plant construction succeeding Jack Davidson who left the first of the week for Denver.

Puckett, after the plant here is finished, will be in charge of power plant operations, according to an agreement reached with the city council last week.

Floyd County Farmer Injured In July In Critical Condition

Eulan Williamson, who was severely burned in a tractor explosion July 21 at Dumas is still thought to be in a critical condition with little hope for his recovery. He is in an Amarillo hospital where he was carried immediatey after the accident.

His parents, Mr. and Mrs. E. T. Williamson and other relatives were summoned to Amarillo Saturday night when it was thought he could not survive. His mother remained with her son. Mr. Williamson returned home Sunday afternoon and has been making occasional trips there this week.

Mrs. Eulan Williamson and small child have been in Amarillo since the accident.

FUNERAL RITES HELD FOR ESTACADO PIONEER

Several Floyd county friends attended the funeral last week of Mrs. Emma Michael Stockton, of Lubbock, who died at Estacado Monday morning. She was at the home of her parents, Mr. and Mrs. C. R. Michael at the time of her death.

Funeral rites for Mrs. Stockton, 42, were held Tuesday afternoon and interment made in Estacado cemetery.

Rev. Rankins of Abernathy, longtime friend of the family, preached the funeral. Seven sisters and one brother, including Mrs. Earl Young of Lubbock, survive. All were present for the funeral.

Other friends present included Mr. and Mrs. Bob Smith, Mr. and Mrs. Ham Smith, Mrs. Grover Smith, Mrs. M. C. Young, Jim Young and daughter Helen, Mr. and Mrs. R. T. Young and G. T. Young, all of Floydada.

Football Boys Report Friday

The 1939 footbal season will officially open Friday morning when the Floydada Whirlwinds report at the Floydada high school for their practice uniforms and equipment.

The delay until September 1 was caused by a new ruling by the Texas interscholastic league that no football equipment could be issued or training could begin until that date.

Coach Odell Winter and Principal O. K. Davis spent the latter part of last week getting the uniforms and equipment assembled and arranged for immediate distribution to the players as soon as the deadline was passed.

Considerable new equipment, blocking pads, shoulder pads, pants, jerseys and helmets, have been added to the regular practice equipment. The new equipment is expected to offer extra protection to the players and cut down on injuries.

Playing uniforms this year will consist of solid green jerseys with huge white block numerals. The pants will be "rebel" grey with green elastic inserts. The helmets will be white with green striping.

At least 35 boys are expected to begin training this week, and a large number of them are expected to come fro mthe rural areas to make their bids for recognition. A number of lettermen are returning but even these lack the experience necessary to lay claim to a district crown.

The first game will be played September 15 at Wester field with the Slaton Tigers as opponents. It will be a night game.

The turf of Wester Field is in excellent shape, with the bare patches caused by softball completely repaired and ready for service. The field has been watered and rewatered most of the summer and is in much better shape than last year.

Season tickets will be placed on sale soon and will incude admission and reserved seats for six home games against Matador, Paducah, and Crosbyton. Matador and Paducah are the two teams favord to win the title by coaches in this district.

HOME FROM VACATION

Mr. and Mrs. Greer Christian and Mr. and Mrs. Duncan Hollums returned home Wednesday from a five-day vacation trip that included the Yellowstone National park Salt Lake City and the Grand Canyon.

They report a delightful trip.

Mr. and Mrs. E. W. Turner and daughter Verda Frances, Mrs. W. E. Love and daughter Lerah Faye and son Luther Byerly spent the week-end in Carlsbad, New Mexico. They were accompanied also by J. C. Patterson and Miss Stella Mae Rape of Lockney.

Miss Joyce Hopkins, of San Angelo, visited here over the week-end with her sister, Mrs. Jack Henry, while on a vacation.

City Retires Another $5,000 Worth Of Bonds

The City Council of Floydada Tuesday night accepted an offer of 2 per cent discount on another $5,000 worth of its bonds, and voted to retire them.

This brings the total of bonds retired to $38,000, with $12,000 to go before January 1, 1941. Members of the council indicated that retirement of the $12,000 indebtedness would depend altogether on whether taxes come in in sufficient amounts from property owners.

FLOYDADA HIGH HOME EC TEACHER ON PROGRAM OF STATE MEET IN DALLAS

The work program followed in Floydada High school for home economics students was the subject for discussion assigned to Fannie Mae Rees, local teacher, when she appeared on the program Tuesday night in Dallas at the state meeting of home economics teachers.

Miss Rees also had a subject assignment on Wednesday morning's program by request of the area supervisor, Miss Gladys Armstrong.

The meeting of the home ec teachers was held beginning Monday and continuing through Wednesday.

Other teachers from this area who attended included Jean Bain of the Meadow faculty, Lucile Rose of Ralls high school, Mary Leta McAdams of Lockney.

Joseph Henson, son of Rev. and Mrs. J. L. Henson of Lockney underwent an appendicitis operation Monday. His condition is reported satisfactory.

Mr. and Mrs. J. N. Guillon have returned home from a very pleasant trip to Red River and Lamar counties in Texas, and to Hope and Hot Springs, Arkansas, where they had been for several days.
