Those wishing to apply for the part-time manager position should contact members of the committee (names listed above). The post will require actual work of a C of C manager rather than just an office manager.

Opening Set Here Later This Week

Opening of Graham's new restaurant and the new Mobil Service Station between US Highway 87 and Loop 369 in South Abernathy now is slated for later this week. Weather has become a factor in opening plans. If it is unfavorable, weather may hold up work on hardsurfacing of the expansive driving and parking areas around the two buildings.

After the new restaurant opens, Graham's downtown will be closed for a few days for remodeling. The downtown Graham's will reopen with a coffee shop-short order type operation, Ed Graham, owner, announced.

Formal opening events for the new Graham's restaurant and the Mobil Service Station will be held soon after the two firms open for business.

The conference, which is being conducted at the Lubbock Water Department on Municipal Drive, is divided into basic and advanced sections. This is the seventeenth annual school held in Lubbock, which covers numerous topics having to do with water and sewage.

City employees attend various schools in a given year for the purpose of learning new methods and ideas, as well as brushing up on old ones, to better serve the residents of Abernathy.

Sundown Trounces Lions, 42-8; To Face Anton Here

The New Deal Lions found rough going when they faced the Sundown Roughnecks in Sundown last Friday. The all-important District 2-B contest turned into a fight for life that ended 42-8.

With the victory, the 'Necks gained sole possession of the district leadership with a 2-0 record. Amherst sports two wins and a loss while New Deal is 1-1, along with Anton. Whiteface is winless in three district outings.

New Deal will be at home Friday night when they meet Anton. The Bulldogs have a victory over Whiteface and loss to Amherst on their district record thus far. They rested last Friday night and began gearing for the Lions this week.

Sundown scored all 42 of its points before New Deal could ever get on the scoreboard. David Gray and Ronnie Popejoy each scored two touchdowns for the 'Necks and Dub Holly ran for one and passed for another to put the Lions in the hole.

New Deal's 8 points came in the final period of action on a 35-yard pass play from Freshman quarterback Joey Sherman to Sammy Darty. Mike Head added the two extra points on a fullback dive.

The strong Sundown defense held the Lions to 131 yards total rushing in the game. Sundown totaled 358 yards on their six scoring drives.

Lopes Keep District Hopes Alive With Dimmitt Victory; Lockney Final Foe of Season

The Antelopes of AHS are still in the district race after Friday night when they trimmed Dimmitt 26-20 on enemy territory. The victory gives the 'Lopes a 3-1 district record and a glimmer of hope for a co-championship with Frona.

Frona clinched a tie for the crown when it downed Olton 20-18 Friday night. Lockney sunk Floydada 40-7 to hold its second place tie with the 'Lopes. Next week's contests, the last of the regular season, will have a lot riding on them even though Frona has already pocketed the right to represent District 3-AA in Bi-District.

The 'Lopes will travel to play compared to a and-1 Lockney, who is 6-3 in season play compared to a 7-2 record for the 'Lopes.

Lockney's losses were to Hale Center, 29-18; Kress, 35-12; and Frona, 12-7. Frona will face Floydada at home in its contest. Should Frona lose, it will share the district title with the winner of our game. The other contest sees Olton at Dimmitt in a battle of no district consequence.

After an exchange of punts last Friday night, Mike Tannehill broke through the Dimmitt defense for 45 yards and the first score of the contest. The 'Lopes tried a run for the extra points, but it fell short.

In the second quarter, Tannehill, who scored 14 points pulled in a Lane Wade pass for 40 yards and a TD. Once again the extra point jinx hit the 'Lopes and the score stood 12-0.

With two minutes remaining in the half, the Bobcats woke up and scored on a 4-yard dive by Joe Bob Sanders. Dimmitt was not through however, as they swept back for another score with only 3 seconds showing on the clock. Tony Young put that score on the board from one yard out. Linebacker Terry Barton broke through the 'Cat line to block the go-ahead kick and the game was even again at 12-12.

Lane Wade took the ball early in the third quarter and put the Antelopes ahead for good. Wade carried the ball for 70 yards through Dimmitt defenders to chalk up the third TD of the night for the 'Lopes. Tannehill faked a kick for extra points and ran the ball over to give the 'Lopes a 20-12 edge. The successful extra point try was the first in seven six-pointers scored by the 'Lopes since the Olton contest.

Early in the fourth quarter, Dimmitt struck on a pass play for a TD, but a penalty called it back and the 'Lopes got the ball. The 'Lopes drove the ball to the 17-yard line and scored from there, Harry Mathis, playing his first game with the varsity, did the honors on a sweep around left end. The 'Cats picked off a Wade pass on the extra point try and the score stood 26-12.

Once again the Bobcats drove deep into Antelope territory and added their final points of the game with 5 seconds showing on the clock. A 10-yard pass from Kent Lindsey to Tommy Stafford put six points on the board and Danny Land added two more.

Dimmitt took a slight edge in total yards gained, 261-253. The 'Lopes dominated on the ground 197-144, but Dimmitt passed the ball for 117 compared to 56 for Abernathy.

B-Team Ends Season With Win Over Olton

The Abernathy B team completed their football season last Thursday night by outscoring Olton 30-12. This gave the Antelope B team a perfect record, undefeated and untied for the year. This same B team also went undefeated their freshman season.

The B team rolled up a total score of 296 points while their opponents tallied only 60 points.

In the Olton game James Byers had three touchdowns, on runs of 55, 14 and 6 yards. Bill Rhodes scored from 6 yards out. Extra points were made by Travis Leach, Sam Stephens and Darrell Selke.

PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the cooperation of those citizens in Lubbock, who helped make this department possible is sincerely appreciated.

FRASER MCGUIRE

In compiling this review of progressive business men, we have endeavored to select those citizens who, by the manner in which they have conducted themselves and their businesses, have earned for them positions of leadership in their various fields of activities. Such a man is Fraser McGuire of the McGuire Sales Co., who is well known, and has a great many friends and business associates throughout this entire district.

Mr. McGuire's main interests have not been solely confined to his own business and private affairs, but have also included his contribution in one form or another, to those projects of a civic nature which come within the scope of his activities.

Fraser McGuire is a man of wide experience, whose exploits in the business and commercial life of Lubbock and vicinity, merits more than a passing attention; and the writer is well privileged to pay this brief tribute to a man who well deserves more credit than is accorded to him here.

R. J. "BOB" AND W. E. LATHAM & DICK PROCTOR

Because this is a period of growth and expansion for Lubbock, those progressive business men who had the foresight and ability to lay plans so as to be able to take advantage of those conditions, are entitled to more than ordinary acclaim. We are therefore, glad to pay tribute to R. J. "Bob" and W. E. Latham and Dick Proctor of Latham's, for they have become well-known figures in the business life of the South Plains.

Their persistent optimism and steadfast belief in the continued future prosperity of the people of Lubbock and vicinity, are characteristics which are deserving of our highest praise.

The Latham's and Mr. Proctor have always shown a willingness to do their part in civic advancement, and have contributed their bit, in a great many ways, to projects promoted for the welfare of the Hub City. We believe that business men of this type are entitled to our sincere praise, both because they have achieved success in their private affairs, and because they are eager to contribute to the public good.

J. Davis Armistead

There are a great many men in their chosen vocations who have gained recognition for the progressive manner in which they have conducted their business, and accepted their civic responsibilities, but who will not permit much to be said of their achievements.

But in reviewing a group of such citizens, we should include a well known and completely reliable optometrist, Dr. J. Davis Armistead of the Armistead Vision Reading Center, for he is a man who has always done his work effectively, even though it has been accomplished in an unobtrusive manner.

Dr. Armistead, busy as he is, always manages somehow or other to do his bit in any movement calculated to benefit the community as a whole. His modesty however, will not permit him to say things about himself which are said by his friends, who do so because of a personal knowledge of his activities.

We do not hesitate to recommend J. Davis Armistead to our readers as a citizen who continues at all times to work to the advantage of the people of this entire district.

WILLIAM F. "BILL" MILLS

William F. "Bill" Mills of Bill Mills Auto Machine, Incorporated, is one of those progressive business men who has always done his bit to maintain the prestige of the city of Lubbock as the leading trading center for this section of West Texas. He has always worked for the development of the city, and his many services are worthy of sincere appreciation.

His well-earned success as a business man is easily understood, knowing as the people do his widespread reputation for the honesty which characterizes all of his business dealings. He is completely aware of his civic responsibilities, and is wide awake to the many opportunities for service, and is always ready and willing to lend his support to any project which promises to benefit the community as a whole.

We compliment "Bill" Mills on his accomplishments, and wish for him continued success.

Norman D. Thomas And Kenneth Dendy

Due to the efforts of a group of wide awake business men, the city of Lubbock has attained a dominant position in the business and commercial life of the South Plains area. And two of the men who have justly earned credit for being progressive members of that group are Norman D. Thomas and Kenneth Dendy of the Industrial Fixtures Manufacturing Company.

It is because of the successful operation of such a business as theirs that the Hub City has earned the reputation of being one of the more progressive cities in the area.

Mr. Thomas and Mr. Dendy have been conspicuously successful in spite of the fact that they have repeatedly neglected their own private affairs to devote a part of their time and efforts to the successful promotion of civic projects.

It is considered a privilege to include Norman Thomas and Kenneth Dendy in this Lubbock review, and to publicly give them due credit for their success in business, and for their many contributions to the general welfare of the city.

JAMES D. BRAY

To be a consistent and persistent booster of any community, often takes courage and plenty of optimism. It is because of his unflinching faith in the future of Lubbock and the surrounding country, and his untiring efforts to promote its development, that James D. Bray of the Lubbock Wrecker Service is selected now for this brief tribute.

Mr. Bray has always followed the policy of planning his business ahead of the times. A policy adopted by many other progressive men and firms which has caused the Hub City to become recognized as the logical business center for this section of West Texas. He is a man of sound judgment, whose ideas have been the inspiration of many who know him. His personality and energy in direct in the management and operation of the Lubbock Wrecker Service have been important factors in his well-earned success.

We are glad to pay this well deserved tribute to James Bray for being one of Lubbock's more progressive business men, and to wish for him continued success.

ARTHUR & BENNI EVANS JR.

Progressiveness, coupled with ability, always a praiseworthy feature in the passing scene of any community's daily life, is to be duly appreciated. In the realization of this, and in recognition of the splendid personalities which give impetus to the personal success in their case, many residents and business people of Lubbock and our own community, regard Arthur and Benni Evans Jr., of Billie Jo's School Of Dance as real assets to the Hub City and this district.

The Evans' are keeping their dancing school at the forefront at all times, and by teaching not only the standard routines, but all of the newer and more modern steps and dances as well, they have maintained positions of leadership in their field of endeavor. Capable and energetic in the management of their school, they have come to be recognized as two of the city's more progressive business people.

What Benni and Arthur Evans Jr., have accomplished in the past, is the best indication of what may be expected of them in the future. They have our admiration and best wishes for continued success.

BILL DERR

To serve the public honestly, efficiently, and cheerfully, is the basic foundation many progressive business men of Lubbock have found to be the shortest route to success. In making this statement, the one we have in mind is Bill Derr of Bill's Food Service & Market, now located at 42nd and Avenue Q. The popularity and patronage enjoyed by his many services accentuates the ideals of courtesy and efficiency which he has consistently applied in the management of the business, and in the serving of its customers.

The conduct of such businesses, and the men who operate them have done much to make Lubbock the business center for many miles around; and it is fitting that we give credit where credit is due to such men as Mr. Derr for his

part in the onward progress of the city. In doing so, we are merely putting into words the opinions of those who know him.

Bill Derr has earned his success by the method in which he has served the public, and accepted both civic and business responsibilities. We wish him every success in the future.

H. S. "Steve" And Belle Anglin

H. S. "Steve" and Belle Anglin of Anglin Catering & Mobile Concessions, operating formerly as the Cook Catering Service, have well-earned reputations for dependability because they have consistently forged ahead in their business; never letting up in their efforts to make the service they render to the people more valuable. This invariable policy has made the Anglin Catering & Mobile Concessions outstanding in its field, a fact that is well known to the public throughout this entire area.

But Mr. and Mrs. Anglin have accomplished much more than just making a success of their business and private affairs, and we take this opportunity to pay tribute to them for devoting what time they could spare to the general welfare, not only to the Hub City, but this entire district as well.

It is such people as they, who are both successful in business, and appreciative of their civic obligations that are deserving of recognition. We take pleasure in publicly giving Belle and "Steve" Anglin the credit for their accomplishments which their many friends and associates have so long accorded them.

M. C. WOODLOCK

It isn't the size or volume of a man's business which determines its value to the community in which he lives. But rather by the manner in which it is conducted which, to a greater or lesser degree, reflects the personality and character of the individual. The value of M. C. Woodlock's business to his city is a reflection of his progressiveness, and a determination to render the utmost in service, a policy which has caused the Hub Furniture & Appliance Company to be so well thought of, and so widely patronized by the people of Lubbock and the surrounding area.

That same dependability and honesty which has made him so successful in his own business has also fitted Mr. Woodlock to be of assistance on community projects and public drives. Moreover, he does so cheerfully, and with a friendly spirit of cooperation that is always more than welcome.

It is a pleasure to include M. C. Woodlock in this Lubbock review, and to wish him further success in the furniture and appliance business.

D. L. "BUNK" CREMEEN

The city of Lubbock has assumed its place of importance in this section of West Texas because of the efforts of far-seeing business men who have helped in developing its industry, or in some manner extended the trade advantages of the locality. One of those who has taken an important part in many progressive movements is D. L. "Bunk" Cremeen of the Central Wrecking Company, providing a free telephone service to over fifty wrecking yards over a four state area.

Mr. Cremeen has devoted his share of time and energy to the growth and development of Lubbock and this district, and it is fitting at this time that we attempt to express in a small way, our appreciation for his unselfish contributions to the general welfare of the community.

He is a man of wide acquaintance, whose friends admire and respect in him, those virtues which inspire confidence and promote good feeling. His upright business methods are but an outward reflection of his inherent appreciation for fair practices. We congratulate "Bunk" Cremeen on his splendid record of service, and wish him continued success.

C. D. BLAIR

In critical times such as these, it takes business men of more than average ability to carry on their operations successfully. In making this statement, the one we have in mind is one of Lubbock's more dependable jewelers, and authorized dealer for Mido, C. D. Blair, who has a wide circle of friends and completely satis-

fied customers throughout this entire district—many of whom reside in our own community.

His contagious optimism, and freely expressed belief in the assured future prosperity of the people of Lubbock and its metropolitan trading area, are characteristics which are to be appreciated in a progressive business man. He has always taken an interest in community affairs, and has shown a willingness to shoulder his share of the civic load.

It is men like C. D. Blair who, because of the successful conduct of their business and private affairs, and their eagerness to contribute to the public good, who are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief tribute.

Mrs. Bradford J. & Jan Cotey

A city grows and prospers by reason of the public-spirited men and women who take an active interest in its development. Lubbock has its share of these progressive and civic-minded people, and two who are deserving of recognition are Mrs. Bradford J. and Jan Cotey of the Cotey Chemical Company.

Their business ability, coupled with a thorough knowledge of the business, have been major factors in maintaining the Cotey Chemical Company in a position of leadership throughout the South Plains. They not only in their business activities, but also in their attention to civic duty, assumed an active part in community affairs.

They have always been ready and willing to contribute their time and energy to the promotion of any project promising to benefit the community as a whole, and have often sacrificed personal interests to be of assistance to the city. Their efforts are deserving of commendation and support.

We congratulate Mrs. Cotey and her daughter Jan, on their past achievements which, in our opinion, indicate similar successful careers in the years ahead.

T. J. VALLAS SR. AND JR.

Having well-earned reputations for honesty, dependable judgment, and a complete knowledge of the investment business far above the average, T. J. Vallas Sr., and Jr., of the T. J. Vallas & Son Investment Company, merit a brief tribute in this Lubbock review.

Without assumption, or seeking public acclaim, they have for years, filled their places in the community as two of its solid citizens, performing their duties of citizenship quietly, yet efficiently.

As leading progressive businessmen, they hold high positions in the esteem of the public generally.

It is not only as practical executives, whose sound judgment and far-sighted planning have brought such fine things to themselves, but it is because of their inspiring optimism and loyal friendship that Mr. Vallas and his son are held in such high regard by the people of this district.

We gladly praise the successful records of these two Lubbock investment counselors.

William H. Tinney

In editing this review of conscientious Lubbock business men, it is fitting that we should include some of those who, by their aggressiveness, have definitely established themselves in the business life of this region.

Such a man is William H. Tinney, branch manager for The Fuller Brush Company, who also deserves an additional word of praise for being more than just successful. He is a consistent and enthusiastic booster of the community, and in his way has done much to advertise the Hub City.

Mr. Tinney has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter, who does not sit back and wait for the business to come to him.

We are glad to pay tribute to William Tinney, and to point out to our readers that his sincere desire to be of service, coupled with his determined methods, are largely responsible for the standing of The Fuller Brush Company throughout this entire district.

PAUL DEVLIN

Recognized as one of the more progressive portrait and commercial photographers of Lubbock, Paul L. Devlin of the

Plains Camera Shop & Studio, now located at 2834 34th Street, performs a real service for the people of his city; and his contributions to civic betterment are too well known to require repetition in these columns. His personal success has been achieved in a large measure, because he never misses an opportunity to further the service he renders to the public. A policy which has, and continues to build up good will for the Plains Camera Shop & Studio throughout this entire district.

Mr. Devlin is deserving of praise, and this brief tribute is but a just recognition for the many services which he has performed in the way of both business and civic activities. Also his reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

We congratulate Paul Devlin on his splendid record, and trust he shall continue to serve the people of Lubbock and vicinity.

EMORY CASSELL

In singling out some of the more progressive business men of Lubbock, we would be remiss should we fail to include Emory Cassell of the M & S Warehouse & Storage Company. He is a man who has never spared himself in his participation in both the business and commercial activities of the city.

Mr. Cassell has always been conscious of his civic responsibilities, and is ever ready and willing to meet in every detail, those opportunities which come to his attention to further civic enterprise. He may well be proud of his achievements along these lines.

Emory Cassell deserves a great deal of credit for the honest and successful manner in which he has managed the M & S Warehouse & Storage Company. He is a friendly and likeable personality, whose sincere desire to be of service has gained for him a host of friends and acquaintances in and around Lubbock who would, if given the opportunity, join us in wishing him many more years of continued success.

LARRY D. HIBLER

There are a number of business men in Lubbock who have gained recognition for their progressiveness, and a well known insurance counselor who belongs in this category is Larry D. Hibler of the Hibler-Turner Agency, whose years of fair dealings with many of our readers has earned for him a host of friends and policy holders throughout this entire area.

He is well established in the forefront of the business life of the city, and the ethical manner in which he has conducted his business affairs is but one of the reasons for his outstanding success.

In addition to his insurance activities, Mr. Hibler has also accepted his share of responsibility in aiding civic projects. As the result of the combined efforts of men like him, Lubbock is firmly established in the minds of the people as the logical business center of the South Plains.

We congratulate Larry Hibler for his success in business, and trust he will continue for many years to enjoy that success which he has so justly earned.

WAYNE M. MUSE

Wayne M. Muse, manager of Firestone Stores Division Of Firestone Tire & Rubber Company, has won the universal respect and good will of the people of the Hub City, and the surrounding country for the progressive manner in which he has kept this reliable firm in the forefront of the business life of this district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Muse is not the kind of individual who makes himself conspicuous by the manner in which he conducts himself, either in business or other matters. Yet, his quiet reserve and air of confidence mark him as a man of sound judgment, whose opinions and advice are sought after and listened to with respect.

We compliment Wayne Muse for the successful management of the Firestone Stores, and also for his constructive advice and help on his civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

FRED C. GOLDSTON

It is fitting in this review of dependable Lubbock business men that we acquaint our readers with the man to be credited with having maintained the Delph-Nortex Brokerage Company in the enviable position it holds in the business and industrial life of this section of West Texas. That personality is Fred C. Goldston, whose genius for organization, and for converting new ideas into ac-

tual deeds, has played a vital part in the distinctive reputation which this reliable company now enjoys throughout this entire district.

Mr. Goldston has found time, in addition to his business interests to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Fred Goldston and the Delph-Nortex Brokerage Company have rendered to this section of the South Plains.

Richard A. Lackey

Every progressive and successful business man in Lubbock contributes in some manner to the growth and progress of the city. And one who is always willing to do his part in both business and civic activities is Richard A. Lackey, general manager of Continental Moss-Gordin Gin Company, who is well known, and has a great many friends and business associates throughout the South Plains.

The prominent part that the Continental Moss-Gordin Gin Company is playing in the business and industrial life of Lubbock and vicinity, mirrors the dependability and honesty of such men as he. Moreover, Mr. Lackey has also at all times been steadfast in his devotion to the city and the surrounding country, and on many occasions, has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this district are fortunate to have such a man as Richard Lackey in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to one of the city's more progressive business men.

BILL J. HOOD

It is a privilege in this Lubbock review of progressive men and firms that have been such a great aid to the growth and development of this section of West Texas to place such a man as Bill J. Hood of Bill Hood Construction, on an equal plane with all others in this rank. In the past, few men have exceeded him in contributing of their time and energy to the onward progress of Lubbock and the surrounding country.

Mr. Hood is recognized as one of the more dependable paving contractors in this district, and he retains that distinction in the admiration and respect of his wide circle of friends. Also his interest in, and the very valuable assistance he has rendered to the many projects of a civic nature, reflect the principles which he has always so successfully applied to his business affairs.

We congratulate Bill Hood on his record, and sincerely hope that his career will be as useful, and completely successful in the years ahead as it has been in the past.

ANN CHOTE

In all business and professional pursuits, there are those that have met with success because they have honestly deserved it, and such a person in her particular vocation is Ann Chote, who well deserves the reputation she has earned for being one of Lubbock's more progressive business women. Her thorough knowledge of everything pertaining to the income tax service business is exemplified by the manner in which she fulfills each and

Furthermore, such experience as Mrs. Chote has gained in the successful management of her income tax service business has been turned to the advantage of her many clients by applying the same principles to the promotion of those civic projects to which she has been called upon to lend her able assistance. Thus her success in business has further enhanced her value to the Hub City.

We appreciate the opportunity of including Ann Chote in this group of conscientious and civic-minded people who are actively taking part in the evolution of the business life of Lubbock.

AUBREY HARRIS

Good motels and tourist courts are indispensable to the growth and progress of a growing city such as Lubbock. And the Holiday Inn Parkway, combining the best features of both, has accommodated a great many tourists and business men in a manner that assures them of the continued patronage and good will of the motoring public.

The management of the Holiday Inn Parkway, has maintained an ideal of service which is thoroughly exemplified by the manner in which every need of the traveling motorist has been anticipated and prepared for. Nothing is taken for granted; nothing is forgotten, and hospitality and service is always their first and last consideration.

Much of the credit for the splendid reputation of this modern and popular drive-in motel is due to the executive ability of Aubrey Harris, whose untiring efforts, foresightness, and careful attention to detail, have maintained a standard of hospitality and service which would be difficult to surpass. It is a pleasure to publish these few words of praise about the Holiday Inn Parkway, and its friendly and capable manager, Aubrey Harris.

Abernathy Boy Scout Troop 481 participated in the Mackenzie Park Camporee which was held in Lubbock October 22 and 23. The Camporee was held for the South Plains Council of Boy Scouts of America and was highlighted by com-

Troop 481 grabbed four first places in the competition. The firsts came in the mile relay, signs, height judging and knot tying. The troop also placed second in compass use and silent signals and placed third in first aid.

Seven Boy Scouts traveled to the Camporee with Scoutmaster "Tiny" Howard. Boys attending the Camporee were Claudy Williams, Senior Patrol Leader; Fritz Struve, Patrol Leader; Tommy Overstreet; Dennis Smith; Tim Hill; Ruwayne Struve; and Pat Collins.

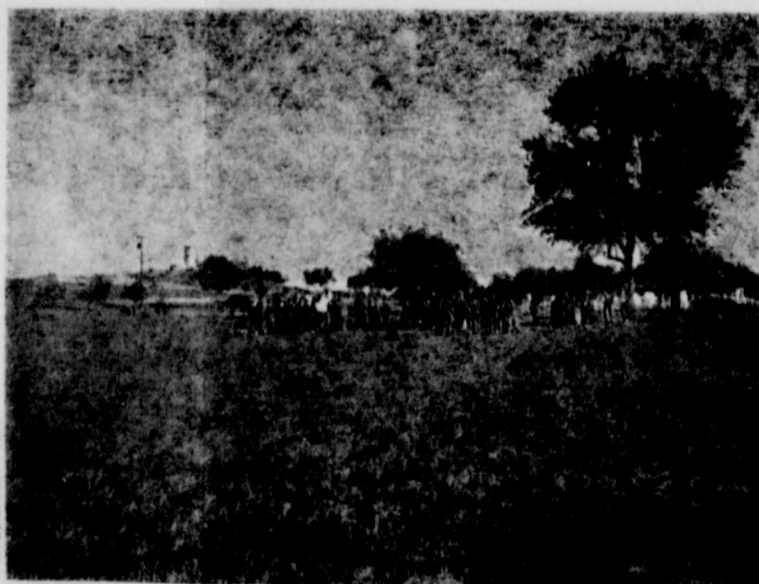

Six members of Boy Scout Troop 481 and their Scoutmaster, "Tiny" Howard, are shown outside their tent at the Mackenzie Park Camporee held Oct. 22-23. From left to right in the

front row, they are Tommy Overstreet, Tim Hill, Ruwayne Struve, Fritz Struve and Claudy Williams. Behind them are Dennis Smith and Scoutmaster Howard.

The local Boys Scout Troop 481 won four first places, two seconds and a third in competition held at the Mackenzie Park Camporee held October 22-23.

From left to right, Tommy Overstreet, Dennis Smith, Tim Hill, Ruwayne Struve, Claudy Williams, Pat Collins and Fritz Struve, participated in the Camporee.

Mackenzie State Park was the scene of much activity like that shown above on October 22 and 23 when the South Plains Council held a Camporee for local Boy Scout troops. Troop

481 of Abernathy was one of the participants and was in the competition being judged above. The local Troop grabbed four first places in its first competition since its organization.

TALK In Print

Several months ago a Dallas cab driver told us that the flow of money into Dallas from the nation's money capital, New York City, had been squeezed down to a trickle since Jack Ruby's trial, which ended in a death sentence for the killer of Lee Harvey Oswald. The money-controllers charged that there were Anti-Semitic overtones in the trial. At the time, I dismissed the cab driver's statement as "none of my business".

He may have been right! We were reminded of the cab driver's comments last week when the daily press had a story stating that the prosecution had offered to aid Ruby's lawyers in seeking to have the death sentence commuted to life in prison. Ruby could be freed in seven years under a life sentence. His lawyers, however, are pushing for a five-year sentence.

Overheard at Heckville Country Store: A lady customer talking to the owner: "I drove all over Lubbock yesterday looking for this (an item of merchandise) and all the time you had it in stock here."

Overheard on a bus east out of Abilene: "I figure they owe it to me, and I am going to collect it as long as I can." He had been to Abilene to collect his unemployment check. The gabby passenger, who looked to be in his late 20s or early 30s, and in apparent good health, admitted to the bus driver that he had been offered two jobs while in Abilene to collect his unemployment check. It could have been his vision. He occupied an aisle seat back of the bus driver. A few feet away, over the bus windshield, was a sign: "Do not talk to the driver while bus is in motion."

On a stop at a small town east of Abilene, the street at the station was full of dogs. They must have come from miles around to join the town dogs in admiring the greyhounds painted on both sides of the bus.

The bus station operator at Cisco is a professional coin collector. He moved there several years ago from a Northern State. "When I came to Cisco, the local people took my coin collecting lightly," the station agent said. "Now there are a large number here with the same hobby," he added. He was fussing about the Kennedy half-dollar replacing the Ben Franklin half before the lawful time to change the minting of that coin. I wonder how the later announcement of the silver-shy coins grabbed him?

We asked local relatives of Jay Johnson to keep us posted on the progress of his career as an entertainer. The son of Mr. & Mrs. Noel Johnson, Richardson, formerly of Abernathy, Jay is a junior student in high school at Richardson.

Jay's skill as a ventriloquist was developing while the family resided here. He appeared on a number of programs in Abernathy. Since moving to Richardson, Jay has appeared on programs there and in Dallas. Some were benefit programs, and others were for a fee. Jay, a grandson of Mrs. Oma Toler of Abernathy and Mrs. A. N. Johnson, Sr., Roswell, also is an accomplished musician, vocalist and acrobat. Someday we'll see him on network TV. He has been on local programs on Dallas TV.

Shortly after the Democrats took over from the Eisenhower administration, this column predicted that a day would come when farmers would look back on the Ezra Taft Benson days with fond memories. In view of the recently-enacted farm legislation, I believe that "day" is here. The federal government is drawing the noose a little tighter around the farmer's neck.

tip

Mr. Businessman: The federal noose is getting a little snug around your neck, too. Do you know that the Civil Rights Bill could, under certain circumstances, prevent you from training your own son in the operation of your business? This, and a lot more provisions in the Civil Rights Bill, can make it very difficult to operate a business.

tip

The fact that Fort Worth's U. S. Representative Jim Wright will run for U. S. Senator next year comes as no surprise to Texas newspaper editors. This column, a few years ago, protested Rep Wright's practice of sending "news" letters to newspapers all over the state. It was apparent that someday he would seek an office that would require votes from all-over the state. When a U. S. representative uses his franking privileges to send mail all over the state, on a regular basis, he is abusing his postage-less privilege. A representative has a right to frank-mailing on a regular basis to persons and newspapers in his district, but not for statewide coverage.

tip

Rep. George H. Mahon doesn't send a news letter on regular basis. He sends releases when there is news of interest to people in his 19th District. Some of the mail we receive from him has postage stamps when it very well would have been proper for franking.

Researchers have developed a new textile material whose uses range from interlinings for apparel and backing materials for leather to rugged automobile tire chafers, reports Mrs. Lynn Stiles, Texas A&M University Extension consumer education specialist. It can best be described as a sheet structure formed by ingenious spinning and bonding of polyester fibers.

Attention, AHS & NDHS Seniors

Are you one of the many young people who will be graduating this spring, and as of yet, have not chosen your future career? If your answer is "yes," my next question is: Would you be interested in making aviation your career?

Aviation today is one of our country's most important industries in which the average annual income is between \$8,000.00 and \$28,000.00.

There are a large number of pilots retiring now who were trained and have been flying since WWII. You can pick up any Airline Publication or flying magazine and read about the alarming shortage of pilots today.

You can contact any number of Airlines and ask them what their qualifications are, and 99 per cent of them will give you the same answer.

Required
Education — High School graduate
Age — 19-30 years old
Physical condition — Excellent
Vision — 20-20 (if glasses are worn—vision corrected to 20-20)
Ratings — Private license—(commercial license desired).

If you can meet the above requirements, except the pilot ratings, and are interested in making your career in the air, with an above average income, then you are one of the people with the foresight that we would like to train.

Abernathy Municipal Airport is now an F. A. A. approved Flying School, which offers instruction at \$2.00 an hour cheaper than any school in the Lubbock or Amarillo area, which will result in a tremendous savings. We also have a 30 hour ground school, at a reduced rate, that will well prepare you for your F. A. A. written exam.

Anyone desiring further information please contact one of the following Certified Flight Instructors:

Jim Lunn—298-2621 or DAS-2222.
Harry Kumlin—DAS-2222.
Bill Hodges — DA 8-2222.

HOME ECONOMICS BRIEFS

The American public can use pesticides with increasing confidence in regard to their effectiveness and safety, thanks to the efforts of research. Extensive research goes into the exact wording of each label for a pesticide. On the label, you will find information for the safe use of the pesticide. Take extra time to read the label and use the proper amount of the pesticide to insure safe and desired results, recommends Stuart Sutherland, Texas A&M Extension Service pesticides information specialist.

Many people wouldn't recognize a soybean if they saw one, yet soybean oil is used in mayonnaise, candies, salad oils, frozen desserts, paints, linoleum, vitamins, soap and many other products, says Mrs. Gwen Clyatt, consumer information specialist for the Texas A&M University Extension Service.

VETERANS DAY 1965

November 11 is Veterans Day; a day dedicated to world peace . . . a day to recall our past achievements and our attempts to bring peace to the world.

One of the truths we can recall on Veterans Day is that Americans are capable of greatness when it is demanded of them. Nearly 22 million veterans are living proof of it.

In terms of age, the average American veteran of today was not even born in 1918, the year the national holiday was first observed. November 11th was called Armistic Day until a dozen years ago. We can never forget those dead whom the first Armistic Day commemorated. They are revered in our inmost thoughts as we pay tribute to all living veterans . . . on Veterans Day.

Far from being amenable to averaging, as in the matter of age, Veterans are a remarkably diverse group, well represented in every walk of life. They are performing top-urgency jobs, in the difficult peace as in wartime, ranging from the Chief Executive to the Chief Petty Officer on a Coast Guard Cutter patrolling the Vietnam coast.

Veterans, diverse in national origins, religious beliefs, and ranging as they do from young men in their twenties to Indian War fighters now 95 years of age . . . they are alike in their basic good citizenship.

History tells us that the American veteran never has . . . and never will . . . subscribe to the doctrine of "Peace at any Price". The loss of human dignity and individual freedom would indeed be too high a price to pay . . . even for a commodity as precious as peace.

Today, the American veterans stand firmly united beneath the one flag that symbolizes our common Democracy, determined to maintain for themselves and posterity the principles of Liberty and Justice upon which this Government was founded, and upon which it stands securely today.

A grateful Nation will pause on November 11, 1965, to pay tribute to the American Veterans because they have been willing to fight and die for Peace with Honor.

Hurry! Hurry! Get Your Slurry!

In keeping with modern Agriculture Advancement, Plains Grain Company of Abernathy is ready to serve you with Slurry, the newest fertilizer in this area on the market, is the greatest fertilizer advancement since anhydrous ammonia.

Dennis Rhodes, left, and Bob Adams, in the picture above, proudly present Plains Grain Company's new Slurry storage plant and truck applicator.

Not only is Slurry the newest fertilizer product available here, we feel it is also the best fertilizer bargain on the market. It eliminates the need for dry fertilizers as it has an available source of 16 lbs. of useable phosphate per 100 lbs. of fertilizer plus 8 lbs of nitrogen and all the trace elements which your crops and soil need!

Thus, when Slurry is applied to your crops at the recommended rate of 300 pounds per acre, you have 48 pounds of usable Phosphate plus a portion of the needed Nitrogen, and all the trace elements, at a price which is considerably less than this combination can be obtained anywhere else. The best time to have Slurry applied is in the fall. However, it also works well when applied in the winter and spring.

When you plan your fertilizer program for next year, let us talk with you about Slurry.

FHA Announces Girl-of-Month Awards Here

(By Treva Totty)

The Abernathy Chapter of the Future Homemakers of America conducted their regular meeting on November 1. It was held at 7:00 p.m. in the speech room of the Abernathy High School. The main items on the FHA agenda were a business meeting and a program.

The regular business which preceded the program was presided over by President Jo Ann Lovelace. Among the main points to be discussed, was the revealing of the Girl-of-the-Month Award for September and October. This award is given each month to the girl in the chapter who does the most diligent and outstanding work to promote the chapter during that month.

Peggy Klafka was named Girl-of-the-Month for September, and Vickie Anderson was given the award for the month of October. Both of these girls will receive charms stating their achievement as a gift from the chapter. Also reviewed during the proceedings was the result of the FHA Candy Sale. The individual high salesman, Vickie Anderson, was awarded a gift of appreciation from the chapter.

The program which was under the direction of Shirley Knight, was given in the form of a book review by Mrs. Andy Reid. Since the FHA National Project for the month was "Citizenship Challenges You," Mrs. Reid gave her review over the book Eighth Moon, by Betty Lord.

Sharon Albers concluded the program by giving the following points that the youth of America could do in order to help prevent the spread of communism. (1) Be a good citizen at home and in your community. (2) Be a good student. (3) Learn more about the history of America. (4) Be willing to do your share for your country. (5) Be alert, know your enemy, and help others to understand.

STILLWATER — Mary Kay Berutti, formerly of Abernathy, a junior in the college of arts and sciences at Oklahoma State University, is one of 15,059 OSU students enrolled on the Stillwater campus this fall.

The total includes 10,123 men and 4,956 women students, and they are among a total enrollment of 17,903, including students at Okmulgee and Oklahoma City campuses of the university.

Hit-Run Suspect Is Apprehended By Officers Here

A 27-year-old Plainview man was arrested pending filing of charges shortly after 10 p.m. Saturday in connection with a fatal hit-run accident in New Deal a week earlier.

Al Duckworth, Abernathy sheriff's deputy, said the suspect was arrested following a "routine check" of his car on U.S. 87 near here.

Duckworth said two other passengers, one of whom was believed riding in the car at the time of the fatal mishap, were in the car when the suspect was apprehended.

Duckworth, Chief Deputy Frank Chapman and Abernathy Policeman Randy Neville were arresting officers.

The three declined to reveal further details of the arrest, citing prohibitive portions of the revised and controversial Code of Criminal Procedure.

A 67-year-old Crosbyton man, Charles A. Taylor, died of injuries received when struck down on U. S. 87 in New Deal, police records indicated.

most turbine pumps just can't stand West Texas sand!

here's one that can!

Sand can't get through to destroy vital pump bearings when you sink a Jacuzzi lineshaft turbine with optional grease-packed bowls. These exclusive, patented Jacuzzi bowls were designed just for Sand Country. They seal out sand completely and actually extend the life of a pump 15 to 20 times. It means you can now set your pump and forget it, confident it won't breakdown during the times you need water and need it fast. And consider the money you'll save in fewer repairs and new pump purchases. These are the reasons Jacuzzi engineers developed the exclusive grease-packed bowl. Aren't they pretty good reasons you should ask for Jacuzzi lineshaft turbines with optional grease-packed bowls soon?
