TOMORROW'S FOOTBALL GAME CANCELLED HERE BECAUSE OF INJURIES

Despite what the Sports Page in this issue says to the contrary, there will not be a football game here Friday night.

After the Sports Page had been run off the press, it was learned that Cooper called the game with the Antelopes off because of several injuries among its players. Among the crippled Cooper boys are three with broken arms, Supt. G. R. Day said last night.

As there will be no football game here this week, the Antelope Booster Club will not hold its regular meeting to-night, the president, Marshall Gibson, announced.

The club, however, will meet next Wednesday night at the Grade School. The meeting will be followed by "the biggest bonfire of the year" and pep rally in anticipation of the Thanksgiving afternoon football game here with Slaton.

Officers Named By HD Council; Party Planned

Officers for the 1948 year were elected at an annual business meeting of the Garza County Home Demonstration Council Saturday in the office of the demonstration agent, Mrs. Jewell H. Strasner, as follows:

Chairman, Mrs. George Evans, Justiceburg, re-elected; vice chairman, Mrs. Thebert McBride, re-elected; secretary-treasurer, Mrs. W. H. Barton, Barnum Springs; and the following standing committee chairmen, all of whom were re-elected:

Four-H sponsors, Mrs. Wilburn Morris; marketing, Mrs. Wilburn Morris; recreation, Mrs. R. A. McLaurin; education and expansion, Mrs. Lonnie Peel; exhibits, Mrs. Will Teaff; finance, Mrs. W. C. W. Morris.

The officers and standing committee chairmen gave reports of 1947 achievements. The group voted not to have the rummage sale previously announced and to ask all home demonstration clubwomen to give the articles they had collected for the sale to the First Baptist Church for shipment overseas. The council probably will sponsor a bake sale early in January.

A countywide Christmas entertainment was planned for December 10 at the Strasner home, and the following committee was appointed by Mrs. Evans:

Decoration, Post and Verbena Clubs; program, Graham Club; refreshments and serving, Close City and Justiceburg Clubs; hostess, Barnum Springs Club; clearing committee, Cross Roads; and

Cable Trouble Puts Phones Of City On Blink

More than 100 telephones in Post were out of order from Saturday until Tuesday night, the result of dry cables cracking during the rainy weather. By Tuesday night, however, all the cables had been repaired.

Added to the general confusion caused by impatient or misunderstanding patrons was the scarcity of telephone operators during the past several days of "bad colds." At all times since last Saturday, the local telephone office has been at least three operators short, Mrs. Fritz Greenfield, supervisor, said yesterday.

BOYS INVITED TO MEET WITH SCOUTS TONIGHT

All Garza County boys who are 12 years old or older are invited to a reorganization meeting of Troop 16 of the Boy Scouts tonight in the Scout hut, behind the American Legion Hall.

The meeting will begin at 7 o'clock.

Mexicans Fined

Two Mexicans charged with possession of liquor for purpose of sale were each fined \$100 and costs here Sunday. One was a 14-year-old boy.

Public Invited To Style Show Tuesday Night

New fashions from the Lavelle Shop, the Justice Shop, Stevens Style Shop, Herring's and Haws' will be modeled in a style show at 7:30 o'clock Tuesday night in the Post High School auditorium.

The show, which is free and open to the public, will be staged by the Junior Culture Club and directed by Mrs. S. D. Strasner.

Models will rehearse at 7:30 o'clock Monday night at the First Christian Church.

Music for the show will be provided by pupils of Mrs. J. A. Stallings.

GARZA SCHOOLS OPEN RED CROSS JUNIOR CAMPAIGN

Public schools of Garza County this week joined schools throughout the nation in raising funds for the Junior Red Cross. Mrs. Nola Brister is chairman of the Garza County drive.

Close Ends Visit

Harry Close of the New York office of the Post Estate left for New York Wednesday morning after a two weeks stay in Post and Lubbock. He was accompanied to West Texas by Kenneth Montgomery of Chicago, an executive of the estate, who returned to his home several days ago.

Garza County Goes All Out For Food For Peace Train

Ted R. Hibbs, secretary of the Garza County Food for Peace Committee, said that churches, schools, clubs and individuals of the county are to be congratulated on their generous, speedy response to the campaign to raise a worthwhile contribution to the Texas gift to the hungry people of Europe.

In addition to several cases of food contributed, the above organizations and individuals gave \$697.33 in cash which was used to buy the following foods from a wholesale house in Lubbock, packed and ready for shipment:

Six hundred pounds of flour, 800 lb. sugar, 300 lb. baby lima beans, 1,800 lb. pinto beans, 35 cases milk and nine cases of spaghetti and macaroni.

Names of donors were attached according to the donors' wishes. Letters and names turned in were attached inside of the different cases.

Individual items turned in were repacked by the committee for shipment in keeping with requirements. The committee in-

EVERYBODY SEEMS TO HAVE COLDS BUT FEW FLU CASES REPORTED

Hardly a business in Post has escaped the absenteeism caused by a widespread epidemic of colds this week.

The Post Dispatch was among those severely handicapped, having had at least three employees absent because of illness each day this week. For awhile, it looked as though the paper would be cut to 10 pages, then it looked as though the paper would not be published at all.

But things looked brighter when Buddy Hays, came to work fever and all, to help with the press work, and some outsiders, like Polly Duren, Jr., and Sherrill Boyd came by late yesterday to help with other mechanical routine. Even so, it was necessary to omit some of the advertising and news coverage because of lack of personnel earlier in the week.

A check with the Post Clinic revealed that, although the colds are numerous and somewhat serious, there are few cases of influenza in the county. A check with S. D. Strasner, high school principal, revealed that the schools had not been badly effected.

Military Rites Conducted For W. E. Edwards

A funeral service for Pvt. William Erwert Edwards, who died in Belgium on November 6, 1944, was conducted at the First Baptist Church at 3 o'clock Sunday afternoon, with the Rev. Huron A. Polnac officiating. The funeral program included two songs, "Abide With Me" and "God Will Take Care Of You," by the church choir.

The service was followed by an impressive military ceremony, conducted by uniformed members of the local American Legion and Veterans of Foreign Wars Post, at the graveside in Terrace Cemetery. Lt. Col. Walter Smith of Lubbock assisted as bugler. The ceremony was arranged and directed by Commander James Minor of the American Legion. Burial was under direction of Mason and Company.

pallbearers were Weldon Jobe, Paul Foster, Lewis Price, E. J. Henderson, Adrian Cook and Jerrald Bowen, all ex-service-men.

Erwert's body arrived in the United States several weeks ago with the first shipment of war dead from the European Theater of Operations. It was escorted here from Fort Worth last Saturday by Sgt. Daniel Matthews of Chapel Hill, Texas, who remained to assist the family with funerals.

Harvest Is Delayed But Not Injured

Although it brought with it a widespread epidemic of bad colds, disrupted telephones and caused a standstill at the height of the cotton harvest, the soaking rain of the past week generally has done more good than bad.

It is excellent for the pastures, for the wheat which has been seeded and for the lands ready for breaking, Garza ranchmen and farmers are agreed.

Damage suffered by the cotton was done by last Friday's high wind, rather than the rains. Moisture and dirt on the cotton will tend to lower the grade of all varieties but only non-stormproof varieties suffered greater damages from the weather of last week and this week, Garza County Agricultural Agent D. F. Eaton believes.

The cotton harvest is 70 per cent completed. Some mechanical harvesting had started to work by last weekend but was at a standstill Monday, Tuesday and Wednesday. Itinerant laborers have been leaving the area in droves since the bad weather set in, and the clearing up of the remaining cotton in the fields probably will be a slow process, the agent said.

The rains, which fell over the entire county, will decrease the blowing hazard for awhile, and they have been a boon to ginners in allowing them to catch up with their ginning, clear out all of the seed and to clean up and overhaul the machinery. Most of the gins will be in shape to run steady for the three weeks or more necessary to finish the season, Eaton explained.

The following precipitation

Survey Series To Begin This Week On Lake

Local technicians of the U. S. Soil Conservation Service and of the Texas A. and M. College Extension Service will run a line in the Two Draw Lake area Saturday, if the weather permits, to determine how large a dam will be necessary for the type of lake proposed by the Committee to Re-Do Two Draw. Jim Hundley chairman, said yesterday.

Soil Conservation Service technicians also have offered to make the survey to determine whether or not an adequate water supply is available. The work will be done on the private time of the technicians, Hundley said, and if their findings are favorable and other obstacles are eliminated, the project will be put into the hands of commercial engineers for competition.

The next step after determining the water supply and the size of the dam is to determine the cost of the project.

Samson Improved

The last letter received from Korfur, Scotland, several days ago indicated that George Samson's 90-year-old father, John Samson, is improved in condition and able to be up part of the time. Several weeks ago the elder Samson was critically ill.

edited by the late H. B. Murray.
For eight years prior to the
founding of the Post Dispatch, the
Post City Post was published un-
der lease by the late E. A. Warren,
Sr.

Shortly after a few issues of
the Dispatch had been published,
the Garza County News' circula-
tion was bought by Warren and
his mother and the Williams pa-
per was absorbed by the Post Dis-
patch. This accounts for the

Dispatch's early birthday celebra-
tion, and for a number of years
the publication carried the mast-
head of Post Dispatch and Garza
County News.

Three or four months later, the
Post City Post went out of busi-
ness, leaving the Post Dispatch
the only newspaper in the Garza
field.

Since that time, the Post Dis-
patch has grown from six pages to
12 or more pages a week, and
the circulation has sprung from
approximately 400 subscribers to
a net paid circulation of approxi-
mately 1,250 plus consistent news-
stand sales of approximately 75
papers a week and a similar
amount sold weekly from the Dis-
patch counter. It has grown
from a local paper circulated
mainly to Post residents to an
area-wide publication which goes
each week to the majority of Gar-

za County homes.

During these 22 years, the
management has put all possible
money back into the business, in-
stalling new and modern machin-
ery whenever possible with the
result that the Post Dispatch has
one of the most modern and ef-
ficient weekly newspaper plants
in the nation and is the only
newspaper in this area having its
own photographic and photo-
engraving units.

During the early history of the
Post Dispatch, it had no employ-
ees. All the work was done by
the two owners and Mrs. E. A.
Warren, Jr.

Mrs. Bailey was actively associ-
ated with the paper through the
years, until after World War II
when she sold her interest to Mr.
Warren when he returned from
the Navy.

As the paper grew and pros-

pered, employees were added, and
now the staff consists of the fol-
lowing persons:

E. A. Warren, editor and pub-
lisher; Mrs. E. A. Warren, adver-
tising manager; Mrs. Evelyn
Boyd, news writer, columnist and
photographer; Miss Gannell Bab-
b, circulation manager, secretary
and bookkeeper; Joe H. Duren,
printer and linotype operator;
Buddy Hays, printer and press-
man; Jackie Hays, steno-typist and
"printer's devil," and the follow-
ing paid writers who cover special
assignments each week:

Mrs. Hugh Blevins, court house;
Mrs. Hettie Mae Robinson, Post;
Mrs. Verna Chase, Pleasant Val-
ley; Miss Carol Jean Long, Bar-
num Spring and Hartford; Mrs.
Will Teaff, Close City; Mrs. L. C.
White, Carnolia; Miss Henrietta
Nichols, Verbena; Mrs. W. C.
Graves, Cross Roads; Mrs. Basil

Puckett, Grassburg; Mrs. R. J.
Key, Justiceburg; Mrs. Floy King,
Southland.

In addition, the Post Dispatch
has a long list of unpaid news
sources, including the regular re-
porters of civic, church and other
organizations, who keep us up-to-
date with reliable, accurate in-
formation on happenings in their
respective fields.

With such a versatile staff, the
Post Dispatch is able not only to
report the news but to interpret
it and has developed one of the
most interesting and timely editor-
ial pages in the weekly news-
paper field.

On this page the Post Dispatch
regularly publishes "Getting Out
on A Limb," designed to enter-
tain and to interpret local prob-
lems; "Garza and the World," in-
terpreting world news in terms
of how it effects Garza residents;

Roger W. Babson's column which
gives a consistent, reliable back-
ground on economics and busi-
ness, and "From Our Contempor-
aries," a column of selected edi-
torials from other newspapers.

The Post Dispatch editorials
page is quoted almost every week
in the Talk from Texas Towns
column of the Fort Worth Star-
Telegram, in a similar column in
the Abilene-Reporter News and
in many weekly papers.

Now beginning the 23rd year of
service to subscribers, many of
whom have been receiving the
Dispatch over this long period of
years, and merchants, some of
whom have never missed an issue
in placing advertisements in the
columns, the staff is pledging con-
tinued good service and contin-
ued improvement.

The Southland High School football team beat Bula last Friday afternoon in Southland by a score of 25-7. Thirteen of the points were made by Fullback Larry Tankersley.

The Southland team will meet Wilson tomorrow night at Slaton. Coach and Mrs. Green entertained the football boys and pep squad girls at a party in their home last Friday night.

C. E. Basinger narrowly escaped serious injury last Thursday evening when he accidentally caught his foot in the burr auger at the gin. He was saved by August Becker who threw an object into the auger to stop its motion in time to prevent Basinger's receiving any broken bones. Even so, Basinger is leaning on crutches for a few days.

Mrs. Oscar Barkley sprained an ankle last week.

Calvin Grantham suffered a leg injury last Friday evening while helping push a truck into his father's garage. He fell and the wheel ran over his leg. No bones were broken.

Terrys Visit Parents

Mr. and Mrs. Clarence Terry of Lubbock visited her parents, Mr. and Mrs. S. M. Truelock Saturday.

Mrs. E. L. King left Wednesday morning for Lexington to visit her son-in-law and daughter, Mr. and Mrs. J. H. Young, and her new granddaughter.

Robert (Shorty) Fletcher of Lubbock visited his sister, Mrs. Marvin Truelock, Monday night. Lonnie Collinsworth, R. B. Loveless and Roy Williams went deer hunting in Mason County last Saturday.

Mr. and Mrs. Joe Cade and family of Seymour spent last weekend here, with Mrs. Cade's sister, Mrs. Myers.

The Rev. O. J. Harmonson of Slaton preached at the Southland Baptist Church Sunday night.

Mrs. Walter Kellum's former Sunday School class presented her with a pair of beautiful ear screws Monday.

Visiting the J. F. Winterrowd's Sunday were their son, Paul Eddy, and family of Lubbock; two nephews, Clyde and Howard Anothony of Brownfield, and Mrs. G. W. Basinger and daughter, Mrs. E. O. Boyd, of Ralls.

Mrs. Martin III

Mrs. Edd Martin is still ill. Guests of the W. W. Gillilands Sunday were their son and daughter-in-law, Mr. and Mrs. Homer Gilliland of Lubbock, and Mrs. Dave Draper and children of Slaton.

Fireman Third Class Elmer Trimble left last Monday for his navy station in San Diego.

Heywood Basinger and son and J. Martin, Wilbur Wood and L. B. Mathis left Saturday on a deer hunt near Mason.

Balleo Bartolini of France, whom J. R. (Skinney) King met while overseas, is visiting in the home of Mr. and Mrs. King. He is on his way to Mexico.

Recent guests in the home of Mrs. Fred Wood were her brother and wife, Mr. and Mrs. W. L. Housour, Jr., of Houston and two of his former navy buddies, Dwane Hope and June Yates, of near Lubbock.

Private First Class Sperlon T. Brooks, of Route 2, who had been serving with the U. S. Army in the Philippines, recently returned to the United States aboard the U. S. B String Looks Good In Game With O'Donnell

With a score of 26-0 the junior Antelope team, the Red Roosters, won its second game of the season from O'Donnell's Junior Eagles last Thursday afternoon on the Antelope field.

Charles King, a freshman who is looking like excellent Antelope material, scored the first touchdown on a 70-yard run around the end and the second touchdown with a charge through the middle of the line for 20 yards.

For the third touchdown, Jack Kirkpatrick intercepted a pass

GUY TROY HARRISON

Post Man Stars In Football At ETSTC This Fall

Big, muscular Guy Troy Harrison of Post, will make one of the principal chapters in Coach Bob Berry's 1947 book on football history at East State Teacher College in Commerce.

Harrison, 185 pound end standing an even six feet, has been a determining factor in seven brilliant Lion victories this season. The East Texans dropped their first 1947 contest Nov. 8 at San Marcos to Southwest Texas, 20-7.

The pass-minded East Texans, one of two untied, unbeaten aggregations in the state, for seven weeks have chalked up decisive wins over Hardin college, Northwestern Louisiana, Howard Payne, Stephen F. Austin, University of Houston, Austin college, Sam Houston State and Southwest Texas State.

Entering the army in June, 1943, Harrison was assigned to the European Theater of War in September, 1944.

He participated in the battle of the bulge and saw duty in central Europe and in the Rhineland. He was awarded a battlefield commission and earned the bronze star and three battle stars.

Returning to the United States in March, 1946, Harrison re-established himself in American football when he entered East Texas State that fall. He is a senior, majoring in physical education. He plans to be graduated in January.

A Lion letterman of 1946, Harrison has one more year of football eligibility. Rather than use his remaining eligibility, he will leave school after being graduated in January and take up professional coaching.

A son of Mr. and Mrs. T. H. Harrison, now of Stephenville, he is married to the former Miss Margaret Bailey, daughter of Mr.

and loped 35 yards. Roy Teaff scored the last touchdown with an eight-yard run. The two extra points were made by Lonnie Walls and Jack Kirkpatrick.

All the Red Roosters played during the game. Starters were J. G. Cash, center; Cletus Graves and Roy Josey, guards; Roy Davis and Jimmy Puckett, tackle; Jerry Odom and F. M. Reep, ends; Herman James, quarterback; Roy Teaff, fullback; Ronald Joe Babb, right half, and Charles King, left half.

A number of Post fans witnessed the game and were well pleased with the power exhibited by the future Antelopes.

Buckskin-Redskin 'Pro' Football Game Postponed Until Next Week

The Buckskin-Redskin "pro" football game scheduled for Monday night was postponed because of the rainy weather until 7:30 o'clock next Monday night at which time it will be played on the Post Antelope field.

The game, which will be played by two local teams of former athletes, is sponsored by the Antelope Booster Club. Proceeds from the 25-cent admission tickets will be used to extend athletics in Post High School.

Practice is continuing all this week, with each team getting 15 men in shape. The Redskins are practicing the short punt formation and the opponents are working on the T formation. Probable line-up follow:

Redskins—Surman Hill, left end; Dee Caffey, left tackle; Neal Clary, left guard; Bud Everett, center; J. W. Hodges, right guard; Charles Wood, right tackle; Punk Peel, right end; Jesse Wright, left quarterback; Jess Wright, left halfback; L. N. Johnson, right halfback; and Douglas Simpson, fullback. Substitutes are Bill Woods, Louis Mills, Lawrence Billeberry and Charles Hudman.

Buckskins—Truman Riddle, right end; D. L. Young, right tackle; Bill Lofton, right guard; Gayle Bowen, center; Loren Burditt, left guard; Temple Lee, left tackle; Monk Gibson, left end; Bing Bingham, quarterback; Dan Altman, left halfback; Demos Alt-

man, right halfback, and Ed Altman, fullback. Substitutes are Billy Hall, Dale Hester, Gaylon Young and L. N. (Bob) Roberts.

B Stringers To Meet Cooper On Antelope Field

In preparation for the Thanksgiving afternoon game here with their traditional enemies, the Slaton Tigers, the Antelope mainstays are resting this week.

A team comprised of B stringers and a few Red Roosters will play a non-conference game on the local gridiron Friday night with Cooper, a Class B team, beginning at 8 o'clock.

As the Cooper roster indicates a heavy team, it is likely that Coach Bing Bingham will use mainly B stringers and that few Roosters will get the call. Cooper is in the same class with New Deal which bowed to the Antelopes two weeks ago with a score of 39-7.

The local starters tomorrow night probably will be:

J. G. Cash, center; Carter White and Donald Carpenter, guards; Roy Davis and W. J. Goss, tackles; Jerry Odom and Maurice Fluitt, ends; R. E. Josey, quarterback; Charles King, and Kay Kirkpatrick, halfbacks and Ronnie Bouchier, fullback.

Victor and Marvin Hudman attended a Philco meeting in Lubbock Tuesday night. The meeting was held for Philco dealers over the territory. The main points of discussion concerned freezers and how to use them. The meeting was held at the Lubbock hotel.

Petersburg Is Outclassed By Post Antelopes

By HANS HUDMAN
Booster Club Sports Writer

A fair crowd of football faithfuls turned out last Friday night to see Coach Bing Bingham's hustling Antelopes run rough-shod over the invading Petersburg eleven who staggered impotently through the first half, and finally tossed in the towel in the third stanza.

The visitors—game but outclassed—were forced to capitulate because of lack of reserve strength. The game was even more lop-sided than the 28-0 score indicated. Petersburg was held to two first downs, while the locals rolled up 13 first downs in two and one-half periods of play.

Post scored twice in the first period, Malouf circling left end for 11 yards and a score, and Ingram loping 45 yards on an end around play for another counter. In the second quarter, Hill passed Malouf for 12 yards and a T. D., and in the third period, Co-Captain Roy Williams took the ball on another end around and powered six yards for the final tally. Ingram had no trouble booting four out of four for a perfect conversion record.

The only bright spot in the entire fracas for Petersburg came in the second quarter when Main returned a Post kick-off 101 yards for a touchdown that was called back on a clipping penalty.

ACP Elections Important To Garza Farmers

Emphasizing how important it
is for every eligible farmer to
vote in ACP elections this year,
Howard T. Kingsberry, acting
chairman of the Texas State PMA
committee, said that these elec-
tions offer farmers an opportu-
nity to have a voice in the admin-
istration of their own program.

He explained in part:
"The world food crisis calls
for continued abundant pro-
duction measures to combat the
soil erosion and depletion that are
wearing away our limited pro-
ductive land faster than correc-
tive measures can be taken, and
consideration by farmers of plans
for a long-term program are
among the many challenges fac-
ing farmers in the coming year.
These call for able community
and county committeemen."

Mr. Kingsberry said that the
conservation program can be ef-
fective only by electing to these
key places farmers who are ag-
gressive leaders in developing and
encouraging farming practices to
maintain soil and who can and
will effectively carry out the
many other responsibilities char-
ged to them as committeemen.

Committeemen elections in
Texas will be held December 8 to
December 20. Any person who
is participating in the 1947 Agri-
cultural Conservation Program or
the sugar program, or who has
contact with the Federal Crop In-
surance Corporation, is eligible
to vote in these community elec-
tions. Announcements of the ex-
act time and place for balloting
will be made by the local county
agricultural conservation com-
mittee.

A community committee and
delegates to a county convention
will be voted in at these local

CONSERVATION DISTRICT
... OFFICE AT POST

Rain

It rains on the just and unjust
alike, but the rainwater soaks in-
to the soil deepest who prepare
for it. After last week's rain
Merle Britton, range technician
of Soil Conservation Service,
found striking differences in the
depth that the rain penetrated
the soil. Checks made just north
of Post showed a 70 per cent dif-
ference in moisture penetration
between overgrazed pasture, and
land protected with a good cover
of grass. On a pasture with a
good grass cover, rain penetrated
an average depth of 9½ inches,
while across the fence on identi-
cally the same kind of soil, but
where the grass had been heav-
ily overgrazed the rain soaked in-
to the soil only 5½ inches. Bare
spots showed soil erosion where
the water had run off.

Had last week's rain been a
two inch one, the overgrazed
pasture would still not have
been benefited more than the
pasture across the fence from
this rain. Ranchers cannot make it
rain, but under proper pasture
management they can make mois-
ture produce twice as much grass,
and twice as many pounds of beef
per section.

It Takes A Lot of Water

Britton states "To produce one
pound of blue grama grass (dry
weight) it takes 400 pounds of
water; 700 pounds of water to
produce a pound of little blue-
stem; 400 pounds of water to pro-
duce 1 pound of mesquite."

Post's recent 1.08 inches of rain
equalled 233,280 pounds of water
over each acre. The average an-
nual rainfall of 20 inches for the
Duck Creek Soil Conservation
District is 5,320,000 pounds over
each acre. Eighty to 100 years
ago this amount of moisture sup-
ported a cover of grass up to as
high as a cow's back.

Dusty Roads Tell Story

Who has not driven down a
road after a good rain and found
dust only an inch or so below the
surface? The first raindrops that
fell took up silt as they hit the
soil. As others fell this silt
closed the pore spaces in the dust.
This condition formed crusting
when the soil dried. As the rain
continued, the soil sealed over
and, since the water could no longer
penetrate the land, it collected
and ran off taking soil with
them, and causing erosion.

Residue Increases Penetration

Britton advises organic matter
in the form of crop residue left
on the cropland, or grass litter on
a pasture to increase rainfall
penetration. When raindrops
fall on land protected by plant
residue they are broken into
many tiny droplets. Since these
droplets do not collect silt the
pore space in the soil remain open
as a passageway for all of the

elections. At the county conven-
tion the delegates will elect a
county committee.

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

O GOD of NATIONS

Thanksgiving Service To Be Observed

As Thanksgiving 1947 draws near we Americans have much for which to be thankful.

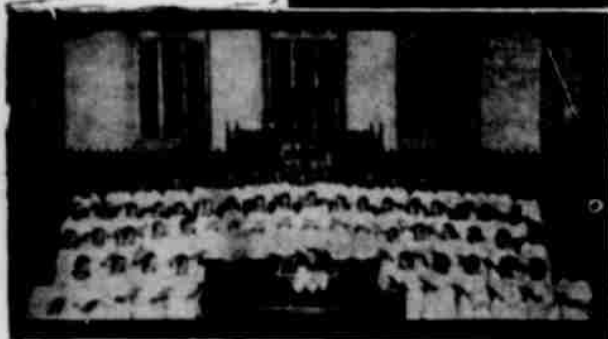

We should be most thankful for the American way of life and especially for the freedom to worship as we please.

For several years Post churches have followed the custom of singing praises on Thanksgiving morning in a Union Service. This custom will be followed again this year. Readers are advised to watch the Dispatch for further announcement concerning this special service.

Special Service To Be Conducted By Young People Of First Christian Church

On Sunday, November 23, the Christian Youth Fellowship group of the First Christian Church will present a Thanksgiving program at the eleven o'clock worship hour. George Pierce is president of the Fellowship Group and will serve as leader. Among those who will appear on the program are Buddy Davis, Lonnie Mason, Rowena and Thelma Lee Hodge, Ruby and Gay Pierce, Kay and Jack Kirkpatrick, Sonny Hudson and Victor Day. Mrs. Willard Kirkpatrick is sponsor of the group of young people.

The public is given a most cordial invitation to attend this service.

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

Never in the history of civilization has there been such a united return to the church. The effort on the part of churchdom to lead their memberships back to regular and active participation in the church programs is also without parallel. Need for the blessings from the great God of Nations has never been so great. Pastors, Priests and Rabbis are pooling their efforts so that nations everywhere may be challenged to an understanding of the term Peace. Prayers from literally thousands of churches go up regularly in behalf of the great international Peace Tribunal in its effort to effect a lasting Peace.

Your church needs you as never before. Attend the church of your choice with your family regularly. Be an influence for good.

GIRLS CALL AND GAME; NEW JACKETS

High School girls won over the school girls by a 12-10 game played last night.

Match between the scheduled for Tuesday in Southland, was cause of six weeks' absence from school, N. R. Greenfield was injured in an automobile accident yesterday.

A quick check on rumors flying about town this morning revealed that:

Tom Power was injured in an automobile mishap near San Angelo last night and is being treated for a broken ankle and possibly a broken arm in the San Angelo Hospital.

It was a false rumor that the Rev. A. B. Cockrell and-or T. R. Greenfield were injured and-or figured in an automobile accident last night. Mr. Greenfield heard that the Rev. M. Clark of Snyder, however, was in an automobile accident yesterday.

An unidentified cotton picker front.

Similar jackets, ordered for the basketball boys, have not yet arrived.

A number of adults attended the event.

A series of pre-nuptial parties honoring Miss Iris Joy Parker and her fiancé, Thomas L. Power, got under way last Wednesday with a shopping luncheon given by Mrs. C. D. Morrell at the Chicken Village in Lubbock and will continue through Thanksgiving Day, the eve of their wedding in the First Methodist Church.

Guests at the shopping luncheon were Miss Parker and her mother, Mrs. James E. Parker, Mrs. D. C. Williams and Mrs. Sam West.

Miss Parker and Mr. Power were honored at a turkey dinner given in Lamesa at the home of Mr. and Mrs. Jesse Carroll Friday night.

Guests included Miss Polly Carroll and Jackie Carroll, daughter and son of the hosts, and John Berry and Frank Jones of Sweetwater.

Luncheon In Lubbock

On Saturday the bride-elect was honored at a luncheon given by Mrs. G. W. Cochran and Mrs. George Lemon, both of Lubbock, at the Cochran home.

Guests included Mesdames Ernest Griffith and Doyle Justice of Lubbock, J. N. Power, R. M. Thomas, Parker and D. C. Williams and Misses Nina Ray Hickman of Slaton and Norma Hudson.

Details were not available by press time concerning the shower given for Miss Parker yesterday in the home of Mrs. J. R. Durrett by 15 or 16 hostesses.

Ranch Party Planned

Mrs. Bryan J. Williams is entertaining with a kitchen gadget shower from 3 until 5 o'clock tomorrow afternoon, in honor of the

bride-elect, at the Williams ranch home.

On Saturday Miss Parker will be honored at a luncheon given at the Mexican Inn in Lubbock by Miss Polly Carroll. Guests will be a number of Miss Parker's former schoolmates at Texas Technological College.

Next Wednesday night, Miss Betty Williams and her mother, Mrs. D. C. Williams, will give a spinster dinner for the bride-to-be at their home. At the same time, the bridegroom-elect will give a bachelor dinner at the home of his brother, J. N. Power.

The rehearsal dinner will be given Thursday night of next week by Mr. and Mrs. J. N. Power, Mr. and Mrs. R. M. Thomas and Mr. and Mrs. Sherrill Boyd in the Power home.

B. C. Manis has been quite ill at his home the past week.

Mrs. Joe Stokes of Mansfield, O., is visiting her sister, Mrs. John Coleman. She came as far as Lubbock with her son-in-law and daughter, Mr. and Mrs. Wade Burleson of Mansfield, who were en route to Dallas. Mrs. Stokes will join them in Dallas on November 28.

There were about 250,000 more people working on farms the first of October this year than a year ago.

Giles Dalby and Carl Adams, Jr. have forsaken Peacock Military Academy for P.H.S. Giles started yesterday as a freshman and Carl probably will get enrolled by next week, as a senior.

Holmes McLish is on his way home from Japan.

Harvey Mason recently was initiated into Phi Eta Sigma at Texas Tech. This is a national honorary fraternity for college men who make outstanding scholastic records during their freshman year.

It won't surprise us to hear a few weeks from now that Tom and Iris led a parade down Broadway under a shower of ticker tape and pages from the world's largest telephone book. Dezzie and Dick have planned everything else for them, while they are honeymooning in Manhattan. Dezzie has written that they have reserved them a room at a famous hotel and bought tickets for "Brigadoon," "Happy Birthday" (with Helen Hayes), the opera and are planning to take them to the Radio City Music Hall, some of the swanky night clubs, Coney Island (of course) and lots of other places of interest. And Tom's cousin, Jay Grisham, is planning a party for them in his New York studio.

He is an industrial designer. Tom has another cousin, Gerrie Babb, who is also planning some festivities in honor of the newlyweds. Gerrie is an advertising copy writer, who worked for Walt Disney Studio before joining the Waves during the war. Her father, Jerrell Babb, and wife of Los Angeles, incidentally, will be here for Christmas.

EDDIE the EDITOR

This should be the biggest, merriest Christmas ever in the memory of some of our youngest business men.

According to a survey made by C. W. Ratliff of the Lubbock Avalanche, farmers, ranchers and landowners of the entire South Plains trade area will realize more than a half billion dollars in income this year from the greatest period of prosperity the area has ever seen.

Cotton, of course, tops the income, but oil is rated as the No. 2 "cash crop" of the territory, and Post is certainly coming in for its share of these benefits.

Christmas is the time when we enjoy the benefits of our harvest. When we're prosperous, we ought to enjoy a bigger Christmas. After all, we can't take it with us, and the memory of it will help a lot when times get rough.

The Chamber of Commerce is going to decorate the streets and broadcast soft Christmas carols on the heaviest shopping days.

Christmas lights and other decorations—while not as plentiful as we'd like for them to be—are more plentiful than they have been since the first year of the war.

With what is available and the ingenuity that the Post men and women have, we can have the best decorated town in West Texas. Decorated homes and brightly decorated business fronts can spread the Christmas cheer.

The more Christmas cheer there is, the more happiness there will be. The cheer, as well as creating a spiritual feeling of well-being, puts dollars in the pockets of everyone in business. Dollars in the pockets of everyone in business find their way into improvement of the community for the benefit of all.

I've sat here and talked myself into it. This week I'm going to get the little Mrs. to design us something pretty in the way of Christmas scenes to put up in our windows and on the front of the Post Dispatch building and when she gets through with that, I'll help her decorate the little teepee where we live.

As we have said, people are faring well enough financially but the merchants are certainly taking a beating. They deserve the rest that they got on Armistice Day. The majority of them took such a complete holiday, they didn't even come to town long enough to put their U. S. flags in front of their buildings.

In this respect, the north side of Main Street outdied the south side slightly more than two to one. On our side of the street, the only flags flying were those of the postoffice, the chamber of commerce and the Post Dispatch.

Last week I asked for letters, and now I'm beginning to get them. As I promised, I will keep the identity a secret but I must know who wrote the letter before I can reproduce it in this column. Here is a letter from an oil man, who signed his name. His initials are R. A. B. He says, in part:

Dear Editor: Have you driven around the oil fields in Garza and surrounding counties? If so, I won't have to tell you that a boom is about to pop in your face.

Is Post ready for it? Has Post gone anything about housing? Are the company executives who would like to move here finding suitable accommodations? Are the workers who have to live in the area able to find shelter for themselves and families? Are there business buildings avail-

ROGER W. BABSON WRITES THIS WEEK:

Education Is Best Insurance Against Unemployment

New York City—The best insurance against unemployment is education. Every young person who can qualify ought to load himself with as much of this insurance as possible. The record is clear. Education pays off.

If you are doubtful, heed these facts. A U. S. Office of Education survey after the last depression found that 99 per cent of the college-educated women and 98 per cent of the men had never been on relief. A survey by Dean Parich of Rutgers once revealed that for every \$100 earned by a farmer with no schooling, \$375 was earned by the farmer

with "short course" college training and \$522 by the farmer with full four-year college training.

Everett W. Lord, Dean Emeritus of Boston University College of Business Administration found in a prewar survey that the college man graduate earned an average life total of from \$160,000 to \$200,000 during his 38 productive years from college to retirement. This was about \$72,000 more, on the average, than the high school graduate's earnings of \$88,000.

G. I. Education Good

The G. I. Bill of Rights was enacted as a job insurance measure for the educational and vocational rehabilitation of World War II veterans. The law provides for free education, equivalent in time to the number of months of active service plus one

year, up to a maximum of four calendar years. This is for veterans educationally qualified and honorably discharged. They must have served 90 days or more, exclusive of training in either Army or Navy specialized training programs. Further, to become eligible a veteran must initiate such course of education not later than four years after either the date of his discharge or the termination of World War II whichever is later. These benefits will continue for nine years after July 25, 1947.

Uncle Sam has agreed to pay a maximum freight bill of \$500 per year for tuition, laboratory, infirmary, and other fees, plus subsistence of \$65 per month for single men and \$90 per month for married men. The law also provides that a man may hold a job

while attending school, except that if he earns more than \$110 per month his subsistence is reduced proportionately. The college enrollments of 2,143,000, more than half of whom are veterans, is testimony to the good sense of G. I. Joe. Let me add that my new Utopia College in the center of the U. S. at Eureka, Kans., will take care of any G. I. of good character unable to get located elsewhere.

Don't Give Up

But don't give up a college education because you are not a G. I. There never was a better time to work your way through. Most employers generally prefer hiring men who have already developed successful work habits and who know the value of a dollar. If you have to watch your pennies, remember: (a) privately

controlled colleges have many full or part scholarships—from \$200 to \$600; (b) state colleges and universities have very low tuition rates—about \$125 per year—and some make no charge for tuition.

Prewar surveys of 611 colleges reveal that half of the men and one-fourth of the women earned part of their expenses, while about one-fifth of the men and one-tenth of the women earned all their expenses, totaling annual earnings of \$32,000,000. Scholarships and fellowships granted by 864 colleges to deserving students amounted to another \$11,000,000. Job and scholarship opportunities are as good as ever.

A college education can't guarantee to make you a millionaire. But, if you take your education seriously, it will broaden your mind, enrich your life, and in-

crease your chances of warding income. Rich, and how spread upon you.

Garza and the World

Editor's Note—Opinions expressed here are those of the author, and they do not necessarily reflect the opinions or policies of the Post Dispatch. The column is carried in the interest of applying world news to the situation here at home.

By EVELYN BOYD

The most important thing a person can do in solving world problems is to keep his own affairs in order. If everybody in the world would do this, there would be no more war. Peace is as simple as that.

We here in Garza County are doing this pretty well; thus fulfilling an obligation not only to ourselves but to the world.

Probably our worst local problem is juvenile delinquency, and we are well on the way toward getting this straightened out.

Juvenile delinquency is contagious, and there is no cure for it. The solution is in prevention rather than cure.

It has been proved that individual cases can be cured, but unless careful preventive measures are taken it breaks out on other youngsters.

The citizens of Garza County are doing a noble thing in curing two cases—as evidenced in this letter from Cal Farley, president of Boy's Ranch at Tascosa, which I quote, in part:

"Bill is coming along all right. He isn't the type of boy who worries too much about the situation and, all in all, he is coming along just as well as could be expected and there is no complaint whatsoever.

"As for Eddie, he is the best football player we have ever had at Boy's Ranch; it is fortunate that he came to us during the football season so he could immediately move into the hero's spot. The superintendent, Mr. Decker, is sitting in my office now and we have been discussing him.

"Mr. Decker tells me that the youngster is getting along with the coach and everyone at the Ranch and that he has

able? The answer to all these questions is NO.

The only extra housing for oil people that I can notice are the trailer houses belonging to the workers and a bunch of scattered shacks that some industrious individuals have provided. Post could use one more large tourist court, several large apartment houses, and any number of small houses that would accommodate workers and their children.

And Post needs two or three more business buildings.

I've been hearing so much about the money that Garza people are making this fall. Aren't there some community-spirited individuals or groups who are making enough money to invest a large amount of it (I know building is too high, but when it gets cheap there won't be any money) in preparing Post for the oil boom, so that it will grow into a substantial city rather than a shack town and trailer camp?

R. A. B. has an excellent point. It is the most important problem facing Garza County at present.

never, at any time, caused us one minute of trouble.

"He has a lot of fire, a nice personality and it has been our experience that whenever a kid has any speed for any one thing, it isn't hard to direct him. I believe he will make one of the finest men we have ever had the privilege to have at the ranch.

"I am sure that were there more places to put boys before they get into serious trouble, there would be very few going to reform school.

"This is to thank the Garza County Boys Ranch Committee for promptness in handling the situation down there, and we will keep you posted from time to time on how the boys are coming along."

Isn't that fine? Doesn't it make you just glow all over? Practically all of the merchants, the fire boys, the American Legion boys, several other clubs and numerous individuals from Post and all over the county have walked into my office or stopped other members of the committee to give donations.

Some of the donations have been only 25 cents; while others—such as that given by Connell Chevrolet Company and some of the oil companies, have been quite large. The Presbyterian Sunday School gave one Sunday's collection plate to the cause.

The response has been widespread, and if the money keeps coming in the committee can begin its preventative campaign.

The committee, which is a permanent organization headed by Mrs. Carl Webb, has pledged itself to KEEP BOYS OUT OF TROUBLE and by next summer, it hopes to have a boys club in operation here.

As everything good must be planned and worked out carefully on a long range basis, it is not a day too early to start next summer's project which—if it is successful—can easily become a year-around program.

This committee is to be commended. It is made up of people who up and VOLUNTEERED to do the difficult part: Collect the money and start the program to rolling. Its workers include Mrs. John Lott, Mrs. A. C. Surman, Mrs. L. N. Roberts, Coach V. F. Bingham, Mrs. A. R. Mills, Mrs. L. J. Richardson, Jr., the Post Chamber of Commerce and both Mr. and Mrs. Webb, and people like Mrs. L. C. White who is working in the Garza and Close City Communities and Mrs. R. J. Key who is beating the Justiceburg bushes for the cause, and Judge J. Lee Bowen and the County Commissioners who are helping

What Our Contemporaries Are Saying:

SPUR IS BOOMING—Leasing has been heavy in Dickens county and oil men from over Texas, California, Colorado and New York are finding interesting play in Dickens, Garza, Kent, and Crosby counties. Considerable activity has been displayed in the past two weeks in drilling and rigging up.

Spur is enjoying a near boom with more families moving here each week and major oil company officials here each day—Texas Spur.

BIG HEARTED LIBERTY—If Europe could know the truth about Liberty, it would have no doubt about the choice between Democracy and Communism.

From this typical American community of about 5,000 people a full carload of food is being shipped to the people of France and Italy, who face food shortages, short crops and a hard winter.

This is approximately \$4,000 worth of food at wholesale prices. But the money value of the food is inconsequential. The spirit behind the giving is all-important. This spirit, whipped to a high pitch by a simple appeal, gives the lie to world-wide propaganda that Americans are selfish, uncharitable creatures.

The drive aims at giving immediate winter relief to starving neighbors across the sea. It asks no questions about race, color, creed or ideologies.

This is America! This is Liberty!—Liberty Vindicator.

TAHOKA ON THE BEAM—The News is publishing a city ordinance that has long been needed. The discharging of fireworks inside the city limits furnishes a lot of fun for boys and girls and especially kiddies during the Christmas season but it is a dangerous practice. Too many people, especially to the sick and aged and those of nervous temperament, the practice is also very annoying. While cotton gins, cotton yards, cotton warehouses and the cotton compress are not specifically mentioned in the ordinance, it is believed that most of them are protected by the ordinance anyway. Certainly fireworks should not be discharged in the vicinity of any of these places of industries. The city council is to be commended for thus prohibiting this dangerous practice of playing with fire within the city. We believe that the council should also pass an ordinance to prevent many of the Halloween pranks thoughtlessly committed by young people. One practice that has become annoying to many business men in town is to have their plate glass fronts marked up with soap or other messy materials on Halloween nights, together with other pranks that destroy, damage, or misplace property.—Lynn County News.

Between the early '20's and early '40's, farmers increase production per acre of cropland 23 percent; production per animal unit of breeding livestock 30 percent and output per worker 64 percent.

In other ways...

Their sincere efforts would be fruitless if it were not for the intelligent cooperation of all the Garza men, women and children who are sharing what they have, so that the underprivileged might be put on the right track. Garza is truly doing its part for the world.

SLATON TO DECORATE—The City Commission Monday night got the ball rolling for a city-wide Holiday and Christmas decoration campaign here. This season the city will install Christmas lights and adorn the City Hall and is asking, together with the Board of City Development, that every businessman and resident appropriately decorate their stores, store fronts, homes and yards toward making this the most beautiful Christmas in the history of the town. Decorating campaigns have for several years past been limited because of extreme shortages but this year great improvement is expected. The Board of City Development is laying plans to contact business houses over the city next week in furtherance of the campaign and to work out further details.—Slaton Slatonite.

Ye cannot drink the cup of the Lord, and the cup of the devil; ye cannot be partakers of the Lord's table, and of the table of devils. I Corinthians 10:21.

Minute Prayer

O God I want to test Thy way. If thou art, Thou wilt show Thyself to me, for all other ways let me down; all their joys give me a hang-over. I want something that remains permanent amid change, has sweetness amid sorrow, and light amid darkness. Give this to me. Amen.

Sunday, November 16, was the 100th birthday of one of the greatest hymns ever written, Abide with Me. The Rev. Henry Francis Lyte, an English pastor, wrote the song shortly before his death. He took his theme from St. Luke, 24:29, for it is toward evening and the day is far spent. Churches all over the world celebrated the centenary of that hymn Sunday. The song has been written in many different languages and people all over the world sing it the year round.

A collection of \$37.50 was taken up at the Church of Christ last Sunday for the Texas Food for Peace Train.

A similar collection was taken the preceding Sunday in the First Christian Sunday School.

A Thanksgiving program will be presented by the First Christian Sunday School at 11 o'clock Sunday morning.

Cline Paden, who has preached at the local Church of Christ several times and was recently pastor of the Brownfield Church of Christ, has gone to Italy on a survey trip to investigate the possibility of starting an orphanage there.

Several members of the Methodist church attended the Crusade Rally at the First Church in Lubbock yesterday and today.

The Lubbock Association of Baptist churches met in a workers conference at the Pleasant Valley church Tuesday. Mrs. Huron A. Polnac and Mr. and Mrs. and Mrs. C. C. Martin attended from the First church here. Dr. Bill Marshall, president of Wayland College in Plainview made an interesting talk. One of the outstanding features of the day's program was a talk by Mrs. Ralph Grant of Lubbock on the World Alliance meeting held in Copenhagen during the summer.

Biblical Personality

Paul was the only apostle who did not see Christ when on earth. His great achievement was the declaration of Christianity as a world-wide faith, absolutely without traditional or geographical restrictions. He took the Judaic background of the Church and translated it into universal terms. Paul, whose real name was Saul, was born at Tarsus in Cilicia. He was a Jew of the tribe of Benjamin and, as a youth, was a strict Pharisee. He inherited Roman citizenship, and his usual language was the colloquial Greek, then prevalent.

His 13 Epistles of the New Testament are not in chronological order. To better follow Paul's journeys as he taught Christ's word, they should read in this sequence: I and II Thessalonians; I and II Corinthians; Galatians; Romans; Philippians; Colossians; Philemon and Ephesians; I Timothy; Titus, and II Timothy. The Epistle of Hebrews, attributed to Paul, is of uncertain authorship.

MRS. T. L. JONES HAS NEEDLECRAFT PARTY IN HOME OF MRS. MALOUF

Mrs. T. L. Jones entertained the Needlecraft Club in the home of Mrs. M. J. Malouf last Friday afternoon. Entertainment included two games directed by Mrs. D. F. Eaton, a guest, and Syrian music played on the record player.

Tuna fish salad, wafers and olives were served with chocolate cake and coffee.

Attending were Mesdames A. W. Bouchier, R. E. Cox, Ida Robinson, R. P. Tomlinson, J. R. Durrett, A. A. Suits, Ralph Welch, Boone Evans, Tol Thomas, Wewver Moreman, C. W. Terry, Noah Stone, Eaton, Malouf and Jones.

PTA Votes Gift To Boys Ranch Campaign Here

The Post High-Elementary Parent-Teacher Association met November 13 in the high school auditorium with Mrs. Tom Bouchier presiding. The association voted to give a \$25 donation to the Boy's Ranch Fund.

Mrs. Joe Norton was in charge of the program. Two piano solos were presented by Jackie Sue Dale and Victor Roy Day. E. E. Pierce, grade school principal, spoke on "Schooling for the years ahead." He stressed three important phases that all schools should include in their studies: music, radio and visual education. He brought out the fact that school is life and not preparation for life.

The class awards went to Mrs. Nola Brister's third grade in the primary division; Mrs. Norton's sixth grade in the intermediate division and both the junior and senior classes in the high school division.

Supt. G. R. Day, S. D. Strasner and Pierce urged parents to visit the Post schools at any time.

Post Antelopes Entertained By Tracy, Employees

George Tracy and his Algerita Coffee Shop employees gave a banquet at the Coffee Shop Tuesday night for Coach and Mrs. V. F. Bingham and the Post Antelopes.

Although muddy roads prevented attendance of Antelopes living on rural routes, 31 players were present.

GROCERS HAVE PLENTY OF NUTRITIVE RAISINS

Mrs. Jewell H. Strasner, Garza County home demonstration agent, suggests that housewives take advantage of the liberal supply of raisins on the grocers' shelves this fall and use them as a food that is high in calories, calcium and iron, as well as one that's appetizing to every member of the family.

She says raisins can be used in pie, cake, cookies, in bread and rice pudding, cup cakes, gingerbread and candies and suggests also that they add zest to the sauce or stuffing for poultry or meat, especially in a fruit sauce served with baked ham.

CHAS. A. GUY TO LAY WEST TEXAS YARDSTICK ON EUROPEAN PROBLEM

The South Plains area will soon get a South Plains interpretation of Europe and its needs.

Charles A. Guy, editor of the Lubbock Avalanche-Journal, was one of 14 U. S. newspapermen invited by the Army to fly from Washington, D. C. last Thursday on a 30-day inspection tour of U. S. and British occupation zones in Germany and Austria and to study conditions in some parts of unoccupied Europe.

Guy, who has been with the Lubbock papers for more than 20 years, has promised to report conditions as he finds them after laying the "West Texas yardstick" on the situation and explain it in terms West Texans know and understand.

TERRACES EFFECTIVE IN CHECKING RUN-OFF AND SOIL EROSION IN U. S.

In many parts of the country, terraces have proved effective in checking run-off and soil erosion, according to Mike Custer of the Garza County ACA office. They serve as "corrective" instead of "curative" measures. The water which falls on the land is either stopped or diverted and slowed down in its flow down the slope. In both cases, more of the moisture is retained on the land.

This means more water for growing crops and both the water and the soil are held on the farm instead of rushing down hill. Because of their value in checking erosion, terraces have been of great worth in preventing and checking erosion.

Under the 1946 Agricultural Conservation Program farmers in this country built 78,000 miles of terraces, Custer says. Considering that it is roughly 3,000 miles across the United States, the amount of terracing done under the 1946 program takes on added meaning. But more important is the tons of topsoil and acres of land saved for food production. In the 12 years of the program, 1936-46, inclusive, 672,000 miles of terraces have been constructed under the Agricultural Conservation Program, Custer explained.

Mr. and Mrs. Paul Davis and Mrs. Davis' mother, Mrs. B. M. Robinson, left last Friday to spend the weekend in Dallas.

Mrs. Bob Dietrich and twin sons of Andrews spent last Friday and part of Saturday with Mr. and Mrs. Harry Dietrich and family and Mrs. Dietrich's parents, Mr. and Mrs. Wren Cross, of the Grassburg Community.

And so is steel.

Steel companies, which already have set new

Through steel and farm production lies a

SANTA FE MAN COMING HERE FRIDAY TO HONOR CHICAGO TRIP WINNER

H. M. Bainer of Amarillo, agricultural agent for the Santa Fe Railway Company, will be here tomorrow to officially present the company's Certificate of Merit to Carter Gene White whose expenses the company will pay to the National 4-H Club convention in Chicago November 30-December 4. If Bainer arrives in time, the award will be made at high school assembly, County Agricultural Agent D. F. Eaton said yesterday.

Eaton said he learned this week that Carter Gene's record of 4-H work was the second best submitted in the state. The first was that of a Comanche boy.

Discussion of the work with Eaton also revealed that in five years as a county agricultural agent, five of Eaton's 4-H boys have won trips to the annual convention in Chicago: Carter Gene and Alvin Davis of Garza County and three boys from Gray County. As only about 14 boys from the entire state are selected to go, it is most unusual for two of them to be from the same county.

Alvin and Carter Gene will leave November 28. Alvin's expenses are being paid by the International Harvester Company.

WINDOW SHOPPING—

(Continued From Front Page) the business.

Another GE product that is in popular demand is the new steam iron. This product and other new models of irons are on display at Mason and Company. The steam iron is a boon to mamas who have stacks of pressing jobs to do for Junior and Jane.

Something new has been added to the late model Gothic watches. They are now jar-proof. This new feature is being praised by manufacturers and R. D. Dodson who handles them.

Those "yum-yum" fruit cakes for Thanksgiving are being baked by Parker's Bakery. Better get your orders in early.

GARZA CONTRIBUTES—

(Continued From Front Page) eluded Ralph Welch, chairman; Hibbs; Mrs. S. D. Strasner, chairman of women's organizations; Dean Robinson, chairman for schools and men's organizations, and the Rev. I. D. Walker, chairman for churches and church organizations.

Mrs. Strasner announced that the home demonstration clubs of the county contributed, as follows: Verbena, \$82; Graham, \$8; Barnum Springs, \$10; Close City, \$2.50, and Justiceburg, a large assortment of commodities. She said that the women's division, which consisted of missionary societies and the Needlecraft and Mystic Needle Clubs, as well as the rural clubs, contributed nearly \$200 for beans.

The Post Grade School children bought enough canned milk to make up four and a half cases and contributed \$1.96 in cash.

The food was put on the Texas Food train in Lubbock Monday evening, Hibbs said. All the Texas food was transported free of charge by the Santa Fe Railroad Company. It will be distributed in Europe through established church agencies. Most of it will go to France and Italy, but some was earmarked for Germany and Norway.

EDWARD RITES—

(Continued From Front Page) eral arrangements.

Born December 13, 1923, Erwert is survived by his parents, Mr. and Mrs. Loyd S. Edwards; three sisters, Margie, Mozelle and Carol Ann, and a brother, Leland. Out-of-town relatives attending the funeral were Erwert's uncle, Coll Edwards, of Dallas and Mr. and Mrs. L. O. Ross of Fort Worth.

Mr. and Mrs. J. O. Hays, Mrs. Hettie Mae Robinson, Misses Marianna and Elizabeth Schultz visited Sunday in the D. D. Boyles home in Slaton.

Ma Hoskins Sneezed at Cats!

Ma Hoskins couldn't understand why she got a fit of sneezing every time Harpo, the cat, came in the room. Finally figured she'd have to get rid of Harpo altogether.

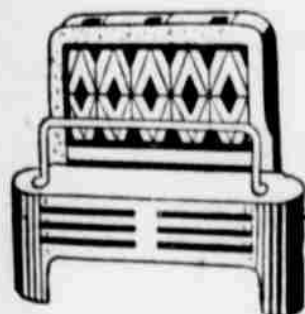

Then Doc Hollister explained she had an "allergy." Cat's fur made her sneeze like strawberries give some folks rash. He gave her an inoculation so she and Harpo could live sneezelessly together.

I guess a lot of us have "allergies" in the social sense. Some folks just can't stand movies, or radio comedians. Other folks don't go for
