"The future economic development of our state will directly affect the life of every Texan. Its success or failure will contribute to the success or failure of state programs for education, employment, health, and many areas vital to a progressive and growing Texas.

"In the immediate future, we need an aggressive program of industrial development to assist present industry and acquire new industry. This means we need a governor who is credible, a man who can speak the language of business and industry. This kind of effort will mean better wages, more jobs and a better standard of living for our people.

"We must maintain balance between industry and agriculture to make the most productive use of our resources. And this effort will require the leadership of a governor who understands that balance, and knows the business of agriculture as well as the needs of business."

We must maintain a growing commerce in Texas to be competitive with other states. No candidate for Governor of Texas is better equipped by experience or knowledge of these needs than Dolph Briscoe. This is one more reason to elect Dolph Briscoe governor.

"We must provide jobs for every able Texan."

"The future economic development of our state will directly affect the life of every Texan. Its success or failure will contribute to the success or failure of state programs for education, employment, health, and many areas vital to a progressive and growing Texas.

"In the immediate future, we need an aggressive program of industrial development to assist present industry and acquire new industry. This means we need a governor who is credible, a man who can speak the language of business and industry. This kind of effort will mean better wages, more jobs and a better standard of living for our people.

"We must maintain balance between industry and agriculture to make the most productive use of our resources. And this effort will require the leadership of a governor who understands that balance, and knows the business of agriculture as well as the needs of business."

We must maintain a growing commerce in Texas to be competitive with other states. No candidate for Governor of Texas is better equipped by experience or knowledge of these needs than Dolph Briscoe. This is one more reason to elect Dolph Briscoe governor.

LONGING

To every child there comes a time when they begin to wonder . . . Where did I come from? Who made the trees? Who made the mountains? EVERYONE has a desire to know their creator.

"O GOD, thou art my God; early will I seek thee: my soul thirsteth for thee..."

This longing for knowledge of God should be satisfied at an early age.

"Train up a child in the way he should go: and when he is old, he will not depart from it."

Plan NOW to attend church with your family.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

PROVED ON FARMS IN 1971

Last year many farmers found P-A-G 511 to be more drought resistant and higher yielding than other medium-medium late and some full season varieties. Carl Kleuskens of Hereford won 2nd place in the 1971 P-A-G Yield Contest with New 511 and P-A-G 516 with an average yield of 8,455.9 lbs. per acre on a 100+ acre field.

BUY NOW & BE SURE OF ALL THE 511 YOU NEED

511 is a medium-medium late hetero-yellow endosperm hybrid grain sorghum with MDM tolerance and smut resistance and has complete seed treatment. No one can predict what the supply will be at planting time, but right now you can be sure of all the P-A-G 511 you need by seeing your P-A-G dealer.

We do not have the words to express our thanks to all the wonderful people who shared their love in so many ways at the time of the sudden death of our dear sister, Jeane, the girls who delivered the message, those who shared their time in the afternoon and evening, the floral memorial and to the 1927 Senior Class members. The cards, food, phone calls—all these and others—will linger in our hearts always.

You can't live on love forever.

It's easy to forget that emergencies do happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.
